INSTRUCTIONS AS TO ADMISSION OF PATIENTS.

In addition to commitment as a dangerous lunatic by a Recorder, Police Magistrate, or a Justice of the Peace, the law provides two methods for the admission of patients.

1st. For public patients, that is, those whose maintenance is at the charge of municipalities and the Province, in which cases there must be handed to the Medical Superintendent an application for admission, a physician's certificate, a history of the case, a certificate from a minister, a certificate from the mayor of the patient's domicile, and a certificate from the secretary-treasurer of the municipality from which the patient has come.

2nd. For private patients, that is, those patients whose maintenance is at their own charge, in which cases there must be handed to the Medical Superintendent an application for admission, two Physicians' Certificates, a history of the case, and an agreement as to the rate to be paid.

All the above forms are statutory (except the agreement in the case of private patients) and must be filled out COMPLETELY and LEGIBLY in every part, SIGNED and SWORN to before the patient be brought to the Hospital, otherwise he cannot be received.

Where admission is desired for a patient the Medical Superintendent should be asked for the necessary blank forms. If this request be made by letter the patient's name, in full, and residence must be given, and the statement made whether they are required for a public or private patient, as the forms differ in the two cases. Unless the case be extremely urgent, when the patient may be brought along with the papers properly filled up, they must first be returned to the Medical Superintendent, that he may satisfy himself as to their correctness and the suitability of the case.

The rates for private patients vary from four to ten dollars per week, to be paid monthly in advance; four dollars securing admission to public wards, six to ten dollars admission to private wards. This includes board, lodging, washing and medical attendance.

In bringing a patient to the Hospital use force if necessary, but never deception, as it lessens the chances of cure by making him look

upon the institution with dislike, and those in charge of it as alone responsible for his being kept there. Tell the patient frankly that physician and friends consider him sick, and that it is proposed to take him to a HOSPITAL where his chances of being cured are of the best, and whence he will be taken out again as soon as well.

Packages for patients sent by express must be prepaid and addressed to them, care of the Hospital.

Friends will only be written to on the occurrence of serious illness or other important incidents, but all letters of enquiry, enclosing return postage, will be promptly replied to. Every such letter of inquiry should give the writer's post-office address and mention the patient's name in full.

Patients can be seen by their relatives any day except Sunday, from 9.30 to 11.30 A.M., and from 2 to 4 P.M., with permission from the Medical Superintendent. Should any friend, not a relative or guardian, wish to see a patient, such friend must have a written order from a near relative or guardian.

The general public are admitted to the Hospital on Tuesdays and Thursdays, between the hours of 9.30 and 11.30 A.M., and 2 and 4 P.M.

Contributions to the funds of the Hospital should be addressed to the Treasurer, F. Wolferstan Thomas, Esq., General Manager Moisons Bank, Montreal.

All communications relative to the admission of patients, their condition, payment of board, etc., to be addressed to Dr. T. J. W. Burgess, Medical Superintendent, Protestant Hospital for the Insane, P.O. Drawer 2092, Montreal, Que.

SEVENTH ANNUAL REPORT OF THE GOVERNORS OF
THE PROTESTANT HOSPITAL FOR THE INSANE.

The Board of Governors have the honor to present their Seventh Annual Report, comprising a condensed account of the operations of the Institution for the past year, taken from the general and exhaustive report of the Medical Superintendent, the General Secretary's report, and the financial statement.

By the Medical Superintendent's report (which, as hitherto, is a most complete and comprehensive one, and should be carefully read by all interested in this Institution, and in alienistic work), you will see that the total admissions for the year were 103, an increase of two over the preceding year. Total number under treatment, 290, as compared with 269 last year.

The City of Montreal and County of Hochelaga furnished 58 of the 103 admitted; the others are from England, 16; Ireland, 9; Scotland, 4; United States, 4; Russia, 3; and Holland, Newfoundland, Norway, Poland, and Roumania, 1 each.

The causative agency of the trouble, and the chances for recovery, are all carefully considered and analyzed by Dr. Burgess, showing the average duration of insanity prior to admission to be about $1\frac{2}{3}$ years, and he again deplores the apathy or unwillingness of those whose duty it may be to secure immediate medical attention for the afflicted. "Were it possible," he says, "to have all the insane receive proper hospital treatment on the first appearance of the symptoms the results obtained would be far ahead of anything now seen, and wards devised for hospital purposes would not become mere asylums for incurables."

Dr. Burgess believes that if cases (uncomplicated with organic disease) were promptly and properly treated, say within a month of the onset, from 70 to 80 percent would be restored to their homes, whereas if the treatment be delayed for a year or more 10 percent would be a good record of recoveries—certainly a most startling comparative statement, yet we all know how reliable and cautious the Doctor is in all he says and writes. In referring to the July number

for 1893 of the *Journal of Mental Science*, edited by Dr. Hack Tuke and Dr. Savage, in which Dr. Tuke, commenting on the Protestant Insane Hospital at Montreal, Canada, bewails with him the fact that the system of *voluntary* admission is not permitted by our laws, Dr. Burgess expresses deep regret that in the recent amendments to the Lunacy Acts, no steps were taken by the Government towards remedying this. I may say that this Board, during the session of the Quebec Legislature just closed, by direct communication drew the attention of the Government to this important point.

In the same article this eminent psychologist says of our Institution, "Interest will always attach to it from the circumstances under which it was established; it marked an important movement *forward* in the humane treatment of the insane in the Province of Quebec. Its success depended largely upon the appointment of the Superintendent. Fortunately Dr. Burgess was elected. The report before us is a proof of the excellence of the choice made for the post, and the efficient manner in which he has carried out his duties."

Concluding a very interesting article Dr. Tuke says, "We wish every success to this well-conducted Institution. May the present Medical Superintendent be spared many years to preside over it."

The total number discharged was 71.

		Last Year.
The percentage of discharges on the number admitted was	68.93	70.29
The percentage of recoveries	46.60	47.52
Percentage of deaths or number under treatment	8.62	3.71

The increase in the death rate is accounted for by the fact of the existence in the majority of wasting, incurable disease, while a number had reached an age when death is to be looked for in the natural course of events.

It will be seen that the percentage of recoveries is just about as large as last year's, showing the efficiency of the treatment and the great good being accomplished.

MAINTENANCE.—The cost per capita per annum was \$176.32, a considerable reduction below that of the previous year, which was \$196.27. The total per capita expenditure, that is inclusive of the amount spent on capital account, was \$184.32, as against \$209.50 the previous year. Maintenance not only means food but includes

clothing, medical attendance, employees' wages, fuel, light, supplies of all kinds, and ordinary repairs to buildings and furnishings, in fact everything expended for the care of the inmates, except the cost of new buildings and furniture for these, the laying out of grounds, extraordinary repairs and interest account.

The cost per capita, when compared with that of other institutions, similar, as regards circumstances, locality, and population, is low, and were it not for the extensive donations of clothing, &c., by our many generous friends, it would be very largely increased.

The total sum received from private patients was	\$12,563.47
The total sum received from the Government for public patients	18,681.35
Sum realized from articles sold	559.76
	<u>\$31,804.58</u>

In addition subscriptions for the year, have been received (as per statement), amounting to

7,119.13

Giving a total revenue from all sources of

\$38,923.71

Against which

Paid maintenance account

\$34,542.10

Interest

6,561.97

\$41,104.07

Showing a deficit for the year on the running expenses) of

\$2,179.36

The Auditor's statement of assets and liabilities shows :

Assets, including expenditure on new building, grounds and embellishments, &c., and balance in bank to the credit of the different accounts

\$325,901.70

Liabilities, comprising bonds issued, \$150,000, interest, insurance, open accounts and balances due builders, 161,572.81

161,572.81

Balance to the credit of capital account

\$164,328.89

The financial statement prepared by the Assistant Medical Superintendent, Dr. Anglin, is very clear and satisfactory, showing how methodical and particular he has been even to the smallest detail, every article, measure, quality and cost being enumerated, so that any one can get at a glance all information regarding consumption and cost of any particular article.

All the statistical statements from the medical and other departments are most complete and worthy of the most careful perusal.

It will be seen that the interest item on the \$150,000 of bonds, which amounts to \$6,750 per annum, is the most serious charge on the management, and were that provided for the Institution would be almost self-supporting.

Even with the very favorable showing of cost of maintenance (much better than the previous year) the revenue is just about \$2,300 short, which, added to the interest charge of \$6,750, shows a deficit of over \$9,000 that had to be provided for over and above ordinary revenue.

To meet this we have hitherto had and will in future have to depend on the charity and sympathy of the friends interested in this good work.

To completely fulfil the ideas of the promoters of this Institution, and those actively connected with it, whose aim has been and is to administer the work with a "charity that never faileth," and with that broad and enlightened spirit which regards the afflicted with human love and kindness, and ministers to them accordingly, we should have sufficient endowment to put us away beyond any financial worry or anxiety, and in a position perfectly independent of any government whatever.

What better or more deserving charity for the Protestant community of this city and province to take up.

Regarding restraint, the Doctor says, as he did last year, that he has not had a single instance where it was necessary to resort to restraint as a factor.

In the management of the patients the same enlightened treatment is pursued with the same gratifying results.

The value of employment is shown in the report, and all details connected with the religious services, amusements, rules and regulations, improvements required, farm work, &c.

Through the active interest of kind friends (who collected the necessary funds), the new floor in the women's ward, asked for last year, is now being laid.

FARM.—The farm has been very much improved and the statements show a gross revenue of \$5,025.77, with an expenditure (including wages and board of farm employees) of \$3,099.05, leaving a profit of \$1,926.72.

INSPECTIONS.—Four official inspections were held by the Government inspectors during the year, and on each occasion they seemed well satisfied with the hospital and its management.

Eighteen official visits were made by Visiting Governors, besides those of the Board of Management, House, Building, and other Committees.

The Board of Management held 51 meetings. The General Secretary's report of the attendance of each member at these meetings is annexed.

The new wing has been erected and will be ready for occupation in two or three weeks more. Respecting this our own doctor says that he thinks it will compare favorably with any other institution of the kind on the continent. It will afford additional accommodation for, say, 120 patients.

Other improvements have been made, such as the enlargement of the coal shed, the erection of a new ice-house, the introduction of the electric fire alarm system, laying of drains, flooring, &c., &c.

With the exception of the new floor provided by Mrs. Bond, the requirements called for in last year's report remain unaccomplished.

To the many friends who have aided by generous contributions, in kind and otherwise, the Governors tender their warmest thanks. "Our constant friend," Miss Mary Dow, has *again* this year added the noble gift of \$3,000, which the Management acknowledge with deep gratitude.

To the daily papers, the *Witness*, the *Star*, the *Herald*, and the *Gazette*, we are indebted for courtesies which we gratefully acknowledge.

EMPLOYEES.—The officers and heads of departments (with the exception of the farmer) remain the same as last year, and it is gratifying to note that each has faithfully performed his duty.

Our contract with the Government will terminate next year, and it will be necessary for the Board of Governors to pass resolutions authorizing the Board of Management to negotiate before next meeting of Parliament for a new arrangement.

All of which is respectfully submitted.

ROBT. REID,
Hon. Secretary.

FOURTH ANNUAL REPORT OF THE
MEDICAL SUPERINTENDENT.

To the President and Board of Management.

GENTLEMEN,—The work of another year being completed, I have the honor, in accordance with our laws, to present to you my fourth annual report, being for the term ending 31st December, 1893.

The following is a summary of the movements of our population during this period:—

	Men.	Women.	Total.	Men.	Women.	Total.
In residence January 1st, 1893.....	114	71	185			
Out on trial January 1st, 1893.....	1	1	2			
Admitted during 1893.....	45	58	103			
Total under treatment during 1893.....				160	130	290
Discharged during 1893:						
As recovered.....	14	34	48			
As improved.....	8	9	17			
As unimproved.....	4	2	6			
Total discharges during 1893.....	26	45	71			
Died during 1893.....	17	8	25			
Discharged on trial and still out Dec. 31st, 1893.....	2	1	3	45	54	99
Remaining in residence Dec. 31st, 1893.				115	76	191
Percentage of discharges on number admitted.....				68.93		
Percentage of recoveries on number admitted.....				46.60		
Percentage of deaths on number under treatment.....				8.62		

ADMISSIONS.

The admissions, 103, show an increase of two over those in the preceding year, and the total number under treatment was 290, as compared with 269.

Of the patients received, 63 (24 men and 39 women) were private patients.

Of those who entered the hospital, 62 were of Canadian birth, 16 of English, and 9 of Irish. Scotland was credited with 4, the United States with 4, Russia with 3, and Holland, Newfoundland, Norway, Poland and Roumania with 1 each.

The City of Montreal and County of Hochelaga together furnished 58 patients, being over half the total of admissions, while 9 (private patients) were from Ontario and 1 from the United States.

Three of our receptions were transfers from Beauport Asylum, and

6 were admitted from gaol; 15 were said to be suicidal, 21 violent or dangerous, and 12 both suicidal and dangerous.

With respect to physical condition on entry, 23 were in bad health and exhausted condition, 47 in indifferent health and reduced condition, and 33 in average health and condition.

As the causative agency ascribed to the production of the brain disease, mental anxiety, as usual, held first place, with domestic troubles second. In 23 of the cases, or 22½ percent, the cause was said to be unknown.

Heredity was admitted in 40 percent of the admissions and denied in 38 percent, while in 22 percent the facts bearing on this point were not ascertainable.

In 29 cases there had been previous attacks of insanity, and about 26 percent of the admissions were advanced in years, 13 being over 50 years of age, 8 over 60, 5 over 70, and 1 over 80.

The prevailing form of brain disease among those received was acute mania, 28 out of the 103 cases being of this type. 20 were cases of chronic mania, 8 of chronic dementia, 7 of recurrent mania, 6, each, of acute melancholia and general paresis, 5, each, of congenital mental deficiency, senile dementia and puerperal insanity, 4 of epileptic insanity, 3 of acute dementia, 2, each, of chronic melancholia and toxic insanity, and 1, each, of recurrent melancholia and paralytic insanity.

There were about 45 percent of those admitted during the year whose histories held out a fair prospect of recovery. The balance was of a class in which no such result, except in rare instances, could be looked for. Some of them were primarily affected with forms of mental disorder which gave no hope of recovery from the onset, while others had been so long deranged that the chance of recovery was practically lost. The care of such patients can be, for the most part, merely custodial, much, however, can often be done for them even if we cannot completely restore them to mental health. They may be so much benefited by systematic care and appropriate treatment as to be enabled to live at home with safety or at least derive more pleasure from hospital life.

The average duration of insanity prior to admission in those received may be estimated at about 1½ years; 15 of the cases were from 2 to 5 years standing, 4 from 5 to 10 years, 2 from 10 to 15 years, and 2 from 20 to 30 years; 5 were congenital and 1 unknown. Were it possible to have all the insane receive proper hospital treatment on the first appearance of the symptoms, the results obtained would be far ahead of anything now seen, and wards devised for hospital purposes would not so quickly become mere asylums for incurables. I do not think I exaggerate in saying it is probable that were all cases, uncomplicated with organic disease, sent to a properly managed hospital within a month of the onset, from 75 to 80 percent would be restored to their homes, whereas if this admission be

delayed for a year or more 10 percent would be a good record of recoveries.

An editorial by the well-known psychologist, Dr. D. Hack Tuke, in the July number for 1893 of the *Journal of Mental Science*, in commenting on my report for 1892, bewails with me the fact that the system of voluntary admission is not permitted by our laws, and I deeply regret that, in the recent amendments to the Lunacy Acts, the Government has taken no steps toward remedying this, which, in the eyes of all broad-minded alienists, is a grave defect.

DISCHARGES.

Of the 71 patients discharged during the year, 48, or 46.60 percent on those admitted in the same period, went out recovered; 17, or 16.50 percent, improved; and 6, or 5.82 percent, unimproved. The total percentage of discharges on admissions was 68.93.

Of those discharged recovered, 39 had been insane less than a year before admission, the duration of the disease in 25 of these being less than one month. Of those insane over a year before reception but 8 were fully restored.

The average length of residence of those discharged in the year was about $7\frac{1}{2}$ months, the shortest time under treatment being 15 days, the longest 3 years, 1 month and 23 days. Both of these patients left recovered. 9 patients had been with us under 1 month and 15 over 1 year.

Of probational discharges there were 43, resulting as follows:—25 discharged recovered, 5 improved, 2 unimproved, 8 returned, and 3 still out on trial.

DEATHS.

The death rate for the year was 8.62 percent on the number under treatment. This increase over the preceding year was not due to any unusual occurrence, but simply to the fact of the existence in the majority of wasting, incurable disease, while a number had reached an age when death is to be looked for in the natural course of events. Acute disease of a serious nature was rare.

Coincident with our experience of two years ago, we were visited by the prevailing epidemic of "Grippe" just about the time of our Christmas festivities. Both patients and employees suffered, and for a time, luckily short, we were considerably hampered in our work. But one death was directly traceable to the disease, though many were left weak and out of sorts for some time after.

Of our deaths 6 were due to phthisis, 4 to heart disease, and 3 to general paresis. Epilepsy, apoplexy and marasmus were accountable for 2 each, and exhaustion of acute mania, pulmonary embolism, inflammation of the bowels, and softening of the brain for one each. One patient undoubtedly succumbed to the exhaustion incident to removal to the hospital while in a very weak state.

The average time in residence of those who died was a little over 15 months, and their average age about 47 $\frac{1}{2}$ years; 4 were over 50 years of age, 3 over 60, and 4 over 70.

COST OF MAINTENANCE.

At the end of the year the number of private patients in residence was 43, of public 148. The income derivable from the former was \$224.50 per week, the average weekly payment for each being \$5.22. The total sum received from this source during the year was \$12,563.47, while the amount receivable from the Government for the board of public patients was \$18,681.35. The sum realized from articles sold was \$559.76, making the total receipts from these sources \$31,804.58. The total expenditure connected with the direct working of the hospital was \$34,542.10, of which \$33,042.29 was for maintenance and \$1,499.81 for repairs, improvements, &c.

The per capita cost per annum for maintenance was \$176.32, a considerable reduction below that for 1892, which was \$196.27. The total per capita expenditure, that is inclusive of the amount spent on capital account, was \$184.32, as against \$209.50 the previous year.

I would here state that it must be clearly borne in mind what the term maintenance implies. It does not merely mean food, as many seem to imagine, but includes food, clothing, medical attendance, employees' wages, fuel, light, supplies of all kinds and ordinary repairs to buildings and furnishings,—in fact everything expended for the care of the inmates except the cost of new buildings and furniture for these, the laying out of grounds, extraordinary repairs and interest account.

When it is considered that our per capita cost covered the maintenance of private as well as public patients, I do not think it can be deemed excessive, indeed, not a few would say it was on the low side as compared with similar institutions elsewhere. Were it not for the extensive donations of clothing, &c., by our many generous friends it would be very largely increased.

In the North Dakota Hospital for Insane, which I select as closely resembling our own in its population and large consumption of coal, one of our heaviest items of expenditure, the cost for the biennial period ending October 31st, 1892, (the latest information at my command) was \$256.78 per capita.

The State Asylum at Morristown, N.J., with an average daily population of 930, cost, in 1892, \$233.28 per capita, exclusive of repairs and additions of the nature of new work.

In the 1893 report of the Government Hospital for the Insane at Washington, D.C., the supplies asked are based on an estimated annual per capita cost of \$220, with an average daily population of 1,650.

The cost per head for 1892 in the nine New York State Hospitals for Insane, having an average daily population of 7,449, was \$217.85, and in the five Pennsylvania State Hospitals, with a population of 5,378, \$197.60.

Compared with the above carefully managed institutions, our rate for maintenance cannot but show to even the most caviling of critics that we certainly were not unduly extravagant in our expenditure.

Let it not be supposed that any of our outlay is made as a mere matter of sentiment, or for the sake of making the lives of our patients one of luxurious idleness. It is simply thought that the best interests of the general public will be served, the best aims of our hospital obtained by doing everything that lies in our power to secure the recovery of the curable and add to the happiness and comfort of the incurable. It would have been quite possible to reduce our cost of maintenance below that incurred, but to do so would have meant to deprive our helpless charges of some of the care and comfort they have received, an alternative that I do not think those who have so humanely and liberally contributed to the erection and support of this institution would for a moment tolerate.

To be especially regardful of the claims upon us of that class who are without means to meet the cost of their own support in the hospital has always been the paramount object kept in view by the Governors of the Institution, but with the sum appropriated by the Government for the care of these unfortunates, it is quite impossible for us to do them justice, give them the best chance of recovery and add most to the happiness of those for whom no such favorable result can be obtained. Hence we must depend for the complete performance of this great philanthropic work, as well as to make needful repairs, improvements and additions, on the gifts and bequests of the charitable. In the past our appeals have not been unheeded, and I feel confident that in the future the broad spirit of Christian charity and liberality, which pervades our Protestant population, will not allow them to be behindhand in providing for our needs, in helping to place our hospital on a par with the foremost institutions of the kind throughout the world.

RESTRAINT.

As yet we have not in a single instance been compelled to resort to restraint as a factor in the management of our patients. The rule is to give as much liberty as is deemed consistent with safety, and at the time of writing there are 35 male and 15 female patients who are allowed the privilege of going about outside free from surveillance. The acceptance of a patient's word of honor not to leave the grounds without permission has a marked tendency to strengthen his self-respect and lead him to greater efforts of will-power. A separate ward for paroled patients, where there would be no unlocking or

locking of doors on their going out or coming in, would be a great benefit, and one which I trust the future will see us possessed of.

EMPLOYMENT.

The value of employment to patients is not to be measured only by the gain to the hospital, although this is not to be lost sight of, but by the benefit to the patients themselves, in distracting their thoughts from their troubles, real and imaginary. For these reasons therefore no effort was spared to keep as many as possible occupied.

The daily average number of patients employed throughout the year was 125, 80 being men and 45 women, distributed as follows:—

	Men.	Women.	Total
Working with Carpenter	4	0	4
“ in Dining Rooms	4	6	10
“ with Engineer	4	0	4
“ on Farm	18	0	18
“ at Furnaces (Smead-Dowd)	3	0	3

“ at Mattress-Making	2	0	2
“ in Officer's Quarters	0	1	1
“ with Porter	3	0	3
“ at Painting	2	0	2
“ at Sewing and Repairing	0	30	30
“ at Stone Breaking	7	0	7
“ on Wards (Cleaning, Scrubbing, &c.) ..	25	0	25
Total	80	45	125

AMUSEMENT.

With a full knowledge of the value of amusement as a remedial agent in the treatment of the insane, as much recreation was provided for the patients as our means afforded. Dancing during the winter months was, as heretofore, our most popular form of amusement, and here let me say, the participants in our weekly dances are not merely those who were votaries of the Terpsichorean art ere admission to the hospital. Many have learned to dance within its walls and have derived both benefit and pleasure from the practice.

To the kind friends who supplied us with the following entertainments our warmest thanks are tendered:—

- Jan. 5.—Concert by Knox Church Choir, under Mr. Coates.
 “ 12.—“ Mrs. Jarley's Wax-Works,” by Mrs. D. Battersby and friends.
 “ 18.—Entertainment by Victoria Rifles Reserve Quartette and others, under Mr. Andrew Bell.
 “ 27.—Concert with Magic Lantern Views by Olivet Baptist Mission of Point St. Charles, under Mr. Gawne.

- Feb. 3.—Lecture, "Rambles in Italy," by Mr. J. Burt Sutherland.
 " 9.—Farce, "My Turn Next," and Concert by Burton Comedy Company.
 " 16.—Concert by Y.M.C.A. Orchestra.
 " 23.—Concert by Victoria Church Choir of Point St. Charles.
 " 27.—Concert by Gruenwald Orchestra.
 Mar. 21.—Concert by St. Paul's Church Choir, under Mr. H. J. Robinson.
 " 23.—Ventriloquial Entertainment by Prof. Coombes.
 " 28.—Phonographic Concert by Mr. Bryce.
 April 6.—Concert by Choir of Stanley Street Presbyterian Church.
 " 12.—Concert by Mr. Herbert Patton and members of St. James Methodist Church Choir.
 " 21.—Magic Lantern Exhibition and Concert by Mr. G. R. Prowse.
 " 27.—Lecture, with Stereopticon Views, "The Stately Homes of England," by Mr. Hugh Russell.

The old system of devoting the Saturday afternoons of the summer to baseball was again followed, resulting in much enjoyment to players and spectators.

Our third annual athletic sports, held October 4th, passed off most pleasantly. The day was delightful and nearly every patient in residence was present, besides a very large number of visitors. Many of the events were so keenly contested that it required nice judgment on the part of Drs. R. C. Kirkpatrick and R. T. Mackenzie, who kindly assisted as judges, to decide between the contestants.

During the winter all our patients were treated to a number of sleigh rides, which seemed to be thoroughly appreciated, and the usual in-door games, such as cards, dominoes, &c., were supplied as freely as demanded.

The Molson pavilion has proved a great boon to us. The gymnastic hall has given our patients shelter and room for exercise in wet and stormy weather. The broad verandah has, during the very heated term, supplied that shady lounge made necessary until our ornamental trees become farther advanced, and the bowling alley and curling rink have been well patronized.

Thanks are due and hereby tendered to the Management of the Montreal Exhibition Company who gave free admission to 33 of our patients, 21 men and 12 women.

The average attendance at the various organized forms of amusement was as under :

	Men.	Women.	Total.
Dances	73	50	123
Entertainments	77	48	125
Gymnasium (men unemployed and women).....	25	15	40
Walking Parties (men unemployed and women).....	30	35	65
Baseball	75	0	75

RELIGIOUS SERVICES.

At the religious services, held regularly every Sunday afternoon at 3 p.m., the average attendance of patients was 132, 79 men and 53 women. The various denominations officiated in turn.

IMPROVEMENTS.

During the year the following improvements were made:—

Electric fire alarm system introduced into the main and out-buildings, with provision for its extension to the new wing.

Coal shed enlarged so as to give storage for 1,200 tons of coal.

New ice house with capacity for 160 tons of ice built.

Four and three inch water mains laid from main building to entrance lodge, a distance of 1,400 feet.

Wooden floors removed from all water closets and bath rooms in old buildings and cement ones substituted.

Cold storage room, large enough to hold over a week's supply of meat, butter, &c., constructed.

Old farm cottage in front of grounds converted into a very picturesque entrance lodge, furnishing comfortable quarters for the farmer and his family.

The floors of halls 5 and 7 are being relaid with hard wood. The money for this much-needed purpose was raised as a special subscription by the untiring efforts of Mrs. E. L. Bond, to whom our warmest thanks are due for this as well as many other kindnesses.

The new wing will soon be ready for furnishing. Its wards will, when completed, I think, compare favorably with those of any other public institution on the continent. With the exception of its being heated by the Smead-Dowd system, it meets my entire approval.

REQUIREMENTS.

With the exception of the reflooring of the female public wards, now being done, the requirements mentioned in my last annual report remain unfulfilled. They may be here recapitulated as, plastering of male public wards, change in water closet system, workshops for patients, greenhouse, pavilion for female patients, stage and scenery for amusement hall, mortuary and fence around kitchen garden. Lack of means has alone prevented the carrying out of these much-needed improvements by the Board of Management, and it is to be hoped that some of our good friends, who have so nobly assisted us in the past, may see their way to providing for these wants in the near future.

FIRE.

About 5.20 p.m. on the evening of March 11th a fire broke out in the loft of our new horse stables. With the assistance of the city

fire brigade, telephoned for, it was fortunately subdued ere any very serious loss had been incurred. The horses and most of the farm implements were early removed, the main damage being to the roof of the building. The total loss, estimated at \$730, was fully covered by insurance. Strict investigation failed to reveal the origin of the fire. To the city fire brigade, under Sub-Chief Beckingham, we beg to tender our warmest thanks. Without their valuable aid the whole building would probably have been destroyed, and the loss thereby entailed much more serious.

RULES AND REGULATIONS.

During the year a code of rules and regulations for the government of the hospital employees, with appended fire rules, was prepared, and, after approval by your Honorable Body, printed. The whole formed a neat pamphlet of sixty-four pages, a copy of which was given to each employee.

ORNAMENTAL GROUNDS.

Under the direction of Mr. Smith, landscape gardener, and under the supervision of our farmer, considerable progress was made in underdraining, levelling and the laying out of drives; 2,160 yards of drain tile were laid three feet deep, and 800 yards of new road built. The road bed after excavation was filled in with eight inches of stone, laid by hand, which was then covered with six inches of broken stone. The close of another season will, I trust, see the east half of our front grounds in a fairly presentable condition.

FARM AND GARDEN.

Mr. Alex. Chalmers assumed the position of farmer and gardener on March 15th, and has worked unceasingly to improve the condition of our grounds and make the garden productive. Already he has done much to improve the farm, which was badly run down previous to its purchase by the hospital.

With the exception of our potato crop, which was again a failure owing to wet weather, the yield from farm and garden was excellent. Of our farm stock three cows and seven young pigs were lost by death. Two of our old farm horses were sold and a new span purchased in their stead.

The following special work was done on the farm in the year:— 1,800 yards of new ditches made along line fences and across fields under cultivation; 1,250 yards of water furrows opened; 440 yards of drain, 5 feet deep, dug from main building to entrance lodge for water pipes; 200 yards of drain, 5 feet deep, opened to take out old water pipe laid to river; 480 yards wire fence built; 120 tons ice cut and stored; 160 loads of manure hauled from city and 45 loads shale from aqueduct.

The acreage of our property under cultivation, &c., was as follows :

	Acre.
In Asparagus and Rhubarb	1
In Beans and Peas	1
In Beets	1
In Carrots, Red.....	1
In Carrots, White.....	1
In Cabbage and Cauliflowers	1 1/2
In Celery	1 1/2
In Corn, Garden	1 1/2
In Corn, Ensilage.....	6
In Fodder, Green.....	1 1/2
In Hay.....	30
In Mangels.....	1 1/2
In Onions.....	1 1/2
In Potatoes.....	7
In Parsnips.....	1 1/2
In Tomatoes.....	1 1/2
In Turnips.....	1 1/2
In Vegetables other than above.....	22 1/2
In Pasture.....	22 1/2
In Pleasure Grounds under preparation, Land Occupied by Buildings, &c.....	19
In Waste Land and Swampy Bush beyond aqueduct	15
Total.....	110

The bulk of the waste land above referred to can, with time and labor, be made productive, and the swampy bush, if drained and cleaned up, would furnish an excellent picnic ground, which could be used by the female patients on Saturday afternoons when the men are engaged at baseball. This work, however, will have to stand over for a year or two, as, for the present, all our available labor will require to be devoted to improving the appearance of the ornamental grounds in front of the hospital.

The farm yielded as under :

Calves sold	3	at \$3.00	\$ 9.00
Carrots, red	10 tons	at \$10.00	100.00
Chickens killed for use.....	23 pairs	at 75c	17.25

Rhubarb	353	"	at 2c	7.06
Sage	73	"	at 3c	2.19
Squash	12	dozen	at 50c	6.00
Summer Savory	500	bunches	at 3c	15.00
Thyme	200	"	at 3½c	7.00
Tomatoes	200	bushels	at 25c	50.00
Turnips, early	1610	bunches	at 2c	32.20
Turnips, winter	180	bushels	at 35c	63.00
Total return from garden				\$993.19

The total revenue from farm and garden for the year was \$5,025.77, while the expenditure, including wages and board of farm employees, for the same period was \$3,099.05, leaving a profit of \$1,926.72.

INSPECTIONS.

Four official inspections, on January 13th, April 6th, July 31st, and October 18th, were made by the Government Inspectors, who on each occasion seemed well satisfied with the condition of the hospital and its management.

On September 15th the Grand Jury visited the Institution and expressed their perfect satisfaction with the good order found.

Eighteen official visits were paid by the following visiting governors :—

Messrs. Jas. Cochrane, Hon. A. Cross, A. S. Ewing, R. Forsyth, A. F. Gault, C. Gurd, G. Hague, R. Hall, E. James, G. M. Kinghorn, H. Lyman, J. A. Mathewson, A. D. Nelson, A. Ramsay, J. Slessor, I. H. Stearns, B. Tooke, J. C. Watson, J. P. Whelan, J. C. Wilson, and the Rev. S. Massey.

Frequent visits and inspections have been made by the Board of Management, House, Building, Grounds, and other Committees.

ACKNOWLEDGMENTS.

To the undermentioned friends who have helped us in various

ways, as well as to some unknown benefactors, I beg to offer my warmest thanks:—

Miss Florence Bond, 1 two-panel screen; Mr. O. Bruneau, veterinary services; Central Experimental Farm, Ottawa, 600 ornamental shrubs; Mr. G. Cruikshank, Bible for Sunday services; H. J. Dart & Co., a quantity of drugs; Mr. W. Denoon, 1 Brussels carpet; Mr. G. C. Dezouche, 12 large screens for amusement hall; Dominion Wire Mfg. Co., 7 coils wire and 2 boxes staples for fencing; Drysdale & Co., Christmas cards; Mr. J. H. Ferns, 4 nickel-plated lanterns; Mr. R. Gruenwald, Christmas presents; Mrs. S. B. Heward, 1 collie dog; Mrs. A. S. Masterman, 6 feather pillows; E. J. Maxwell & Co., a quantity of fancy rolls for fretwork; Mr. D. Morrice, 1 piece sheeting; Mr. Colin McArthur, 53 rolls wall paper for Medical Superintendent and Assistant Superintendent's rooms, 1 dozen rollers for blinds, 1 three-panel screen; Mrs. J. McDougall, Brussels carpet for Med. Supt.'s office; Messrs. McEachran, Baker & McEachran, veterinary services; Mr. Moses Parker, 7 iron garden seats for front grounds; Miss Ross, fancy basket, &c.; Mr. Smallpiece, garden tools, &c.; Mr. G. W. Stephens, 1 water filter; Dr. Wanless, 1 twenty-pound sledge hammer; Mr. H. A. Wilder, 6 chairs; Mr. W. J. Withall, 1 invalid's chair.

Clothing, bedding and materials were received from the following:—American Presbyterian Church "Ladies' Missionary Circle;" "A Friend;" Mrs. James Allen; Mrs. E. L. Bond; Mrs. T. Bigelow; Mrs. J. S. Brown; Mrs. Bastian; Mrs. Benallack; Mrs. J. T. Bigelow; "Children of Nazareth Guild Ministering League;" St. Paul's Church, Mansonville; Chalmers' Church "Ladies' Aid Society;" Mrs. G. Caerhill; Mrs. Chisholm; Cowansville "Band of Hope;" Miss Jessie Dow; Miss Dowker, Ste. Anne de Bellevue; Mr. J. H. Ferns; "Friend M.;" Mr. D. Torrance Fraser; Mrs. R. L. Gault; Mrs. G. A. Grier; Mrs. M. H. Gault; Mrs. Haskell, Cowansville; Capt. Howard; Mr. F. C. Henshaw; Miss Haldimand; Knowlton "Ladies' Dorcas Society;" Mr. W. Lamb; Mr. E. T. Perry; Mr. James Robertson; Mr. Wm. Ross; Mrs. Robertson; Mrs. Read; St. Andrew's Church "Ladies' Missionary Society;" Lachine; Stanley Street Presbyterian Church "Ladies' Willing Workers Society;" "Sewing Circle;" Mrs. E. L. Bond's; Mrs. Taylor; Mrs. Herbert Wallis; Mrs. A. T. Williams; Mr. C. A. Workman; Mrs. Hy. Vogan, Riceville, Ont.

Books, magazines, papers, &c., were sent by "A Friend;" Rev. W. S. Barnes; Mr. Samuel L. Baylis; Mrs. E. L. Bond; Mr. Jas. Brown; Mrs. Bullock; Wm. Foster Brown & Co.; Hon. A. Cross; Mrs. Claxton; Miss Campbell; Mr. Walter Drake; Miss Dow; The Misses Durnford; Mr. J. H. Ferns; Mr. Jas. Ferrier; Mr. E. B. Green Shields; Miss E. F. Hartley; Mr. Robt. Hall; Mrs. J. H. R. Molson; Mrs. A. S. Masterman; "Montifiore Club;" Mr. J. Monteith; Mrs. J. Murphy; Mrs. W. H. Masterman; Mrs. J. Macintosh; Mr. J. McArar; Mrs. H. McLaren; Mrs. Geo. Nimmo; Dr. L. H. Prince, Chicago, Ill.; Mr. T. Phillips; Mr. S. R. Parsons; Mr. Robt. Reid; Miss Ross; Mrs. J. Redmond; Mrs. Shelton; Sir Donald Smith; Stanley Street Presbyterian Church "Ladies' Willing Workers Society;" Mr. B. Tooke; Mr. Geo. Verry; Verdun Undenominational Sunday-school; Mrs. W. S. Walker; Mrs. A. T. Williams.

Provisions and supplies of various kinds came from Mr. Ed. Askew; Mr. Chas. Alexander; Mrs. E. L. Bond; Messrs. Brown Bros.; Messrs. Benning & Barsalou; Mrs. C. J. Chisholm; Mrs. Ewan; Empire Tobacco Co.; Mrs. E. M. Fulton; Mr. Hy. Gatehouse; Mrs. R. L. Gault; Messrs. Hall & Scott; Mrs. T. Johnson Alloway; Mrs. Lightbound; Mrs. Hy. Lyman; Mr. J. Monteith; Mrs. A. W. Morris; Mrs. D. Morrice; Mrs. J. H. R. Molson; Mrs. C. McArthur; Mrs. E. G. Reid; Messrs. J. Rattray & Co.; Mrs. A. W. Stevenson; Mrs. Herbert Wallis; Mr. L. N. Wallace, Waterloo; Mrs. A. T. Williams; Mrs. Williams.

Pictures were donated by Mrs. Howard; Mrs. J. H. R. Molson; Mrs. A. S. Masterman; Miss Ross; Hon. J. K. Ward.

Fruit, flowers, &c., were received from "A Friend;" Mr. J. A. Mathewson; Mrs. J. H. R. Molson; Mr. G. W. Stephens.

The following contributions in cash were received at the hospital and forwarded to the Treasurer, Mr. F. Wolferstan Thomas:—"A Friend," \$1.00; Mr. T. H. Christmas, \$25.00; Mr. R. Clarke, \$12.00; Chalmers Church, Richmond, a Thanksgiving collection, \$9.44; Cross Sabbath School, Hochelaga, \$10.00; The

Misses Dow, \$5.00; Miss Sarah England and Friends, Dunham, \$33.50; E. M. Knowlton, \$5.00; Erskine Church, Thanksgiving collection, \$126.26; Mr. W. B. Gillies, Buckingham, \$5.00; Mr. Chas. Harris, \$2.00; Knox Church Choir, \$15.00; Mr. H. Munderloh, \$15.00; M. F. Knowlton, \$5.00; M. H. R., \$5.00; Mr. Jno. McNider, Little Metis, \$30.00; Mrs. H. Page, Sherbrooke, \$10.00; St. Andrew's Society, Windsor Mills, \$25.00; Mr. J. Samson, Windsor Mills, \$6.00; Mr. J. Stoyles, Quebec, \$25.00; "Thanksgiving for the Gift of Reason," \$10.00; Mr. W. G. Turner, \$10.00; Mr. Robt. Walker, \$2.00; Mr. J. R. Walker, \$1.00; Verdun Undenominational Sunday-school, \$5.00.

The *Montreal Witness*, *Montreal Star*, and *Montreal Herald* have continued to supply us liberally with their respective issues, and copies of the following journals have also been regularly sent from the offices of publication:—*Sherbrooke Examiner*; *Presbyterian Review*, Toronto; *Philanthropic Index and Review*, Kalamazoo, Mich.; *Canadian Mute*, Deaf and Dumb Institute, Belleville, Ont.; *Montreal Pharmaceutical Journal*; *Our Home*, Montreal; *Elwyn Echoes*, Pennsylvania Training School, Elwyn, Pa.

CONCLUSION.

With the exception of the farmer the officers and heads of departments connected with the hospital remain the same as at the date of my last report, and it is a source of great gratification to me to express my appreciation of all the faithful services they and the various employees have rendered.

With heartiest recognition of the confidence, counsel and support accorded me by your Board, the House and other Committees, this report is respectfully submitted.

T. J. W. BURGESS,

Med. Supt.

VERDUN, Jan. 1st, 1894.
