VERY LITTLE DAMAGE WAS DONE IN CUBA

Revolutionists Left Property Alone—Farmers Have Gone Back to Work.

NEW YORK, Oct. 8.—A Havana dispatch to the Sun says that observations made in an automobile trip cover a great part of Havana province here much fighting was done, but the correspondent of that paper that the country side was slightly little damaged by the insurrection. There are no burned houses, stables, no ruined crops or devastated fields to mark the track of the contending forces. In fact, outward appearances show few traces of the deadly combat. Everywhere farmers have returned to their fields. The stores open till 9 o'clock.

respondent saw many bullock teams ploughing, and laborers at their accustomed tasks. On all sides the people are returning to their usual labors. There seems to be no doubt that in this respect it was the cheapest revolution in West Indian history.

HE FED HIS WIFE ON POWDERED GLASS

And Now Dr. Brouwer is on Trial for Murder.

Nurses and Doctor Engaged by Him Refused to Act—An Investigation Brought Out Evidence of Foul Play.

TOM'S RIVER, N. J., Oct. 8.—The trial of Dr. Frank Brouwer, charged with the murder of his wife, was on its second day here today. Mrs. Brouwer died in September, 1905, after an illness which was diagnosed at first by her husband as cholera morbus. Two trained nurses called to attend her declared themselves dissatisfied with the treatment administered by Dr. Brouwer and withdrew from the case. Another nurse was employed and Dr. H. H. Gale was called in consultation. Dr. Gale retired from the case, but later signed the death certificate setting forth that Mrs. Brouwer died of Bright's disease.

Soon after the funeral rumors began to spread that there was something suspicious about Mrs. Brouwer's death. The fact that the nurses first employed had left and Dr. Gale's retirement from the case after he had been called in consultation was commented on, and it was also said that there had been quarrels between Dr. Brouwer and his wife over the administration of her parents' estate. It was also rumored that Mrs. Brouwer had been jealous of one of the doctor's woman patients, and that this had caused a disagreement between the couple. Frevonian Ehyer, of Long Branch, a brother of the dead woman, heard of these rumors and finally began an investigation. The Metropolitan Life Insurance Company, in which Mrs. Brouwer was insured for \$1,000 in favor of her husband, refused to pay the policy, and also began an inquiry. As a result of these investigations the body was exhumed on December 19th and an autopsy was performed. Dissolutive organs were removed from the body and sent to Dr. Genth, of the University of Pennsylvania, for an analysis of the contents. No report was made until April, and it was asserted that Genth had reported that he had found traces of arsenic and what was supposed to be powdered glass in the stomach. The grand jury found an indictment charging Dr. Brouwer with the murder of his wife, and he was arrested and locked up in the county jail at Tom's River. When arraigned before Superior Judge H. H. Hendrickson he pleaded not guilty.

STORM WAS HEAVY ON THE NORTH SHORE

CHATHAM, N. B., Oct. 8.—A heavy wind storm raged yesterday and much damage was done. The schooner Ada, belonging to Snowball Co., was riding out the storm in the river, when her anchor began to drag. A large crowd watched the vessel, as it was expected to be driven ashore, but after some time by the crew the anchor got a firm hold and the vessel rode out the gale in safety. The J. B. Snowball supposed to be sprung and will not be able to leave until tomorrow. The steam ferry could not make a trip during the day, so heavy was the wind. Chas. Henry has returned from Halifax with Will Be Sure and other "Bible" men. He confirms the stallion sale to Dr. McAllister of Sussex, but says Will Be Sure will winter here and will be trained on Chatham track next year.

GAS IS STILL POOR.

The gas and electric light provided last night was very poor. It now looks as if the repairs at the gas works had nothing to do with the poor quality of gas which existed last week. The gas inspector has made a test since and found that the service was up to the government's requirements. No test was made last night, however, but it is the general opinion that had one been made a little less than sixteen candle power would have been found registered. For a few minutes last evening the centre of the city was in darkness, the electric lights having gone out at 7:45. In some of the churches where the electric light alone is used, the service had to be conducted without light. The heavy gale was responsible for the accident.

INDEPENDENT POLITICAL PARTY IS BEING FORMED IN NEW BRUNSWICK

Kickers from Both Sides are in It—Maritime Union the Chief Plank in the Platform—Municipalities Should be Left to Deal With the Highways—A Full Ticket Promised for the Next General Election.

A new political party is being formed in New Brunswick having in view as its prime object Maritime union. The party will be independent having a leaning towards the Liberal side of politics and will be composed not only of dissatisfied Liberals but of kickers from the Conservative side as well. The men interested assert that for many reasons they are dissatisfied with the present state of affairs in local politics. They claim that the government is rotten, but that the opposition is worse and consequently if they leave the government and go over to the opposition it will be jumping from the frying pan into the fire. They say that there is only one course left open for them and that is to start an independent party and to have a ticket in every county in the province to support its interests. It is learned that a ticket is already formed in Kings county. Dr. McVey, Robesey and Mr. Foyes of Sussex being two of the candidates. It is also understood that two politicians in St. John have formed themselves into a ticket and will contest this constituency in the interest of the new party. Dr. McVey when seen by the Star in the province would have every county in the province would have one representative each to the local house.

"A central point of government, agreeable to the three provinces, to be established. This new government to consist of legislative council composed of two members from each province in the union, these members to be elected for from three to five years by popular vote. There shall be one executive council, consisting of a premier, minister of justice, minister of public works, minister of agriculture and forestry, minister of mines and labor, minister of health and quarantine, minister of finance and education. There shall be one lieutenant governor, where there are now three governors. The new government shall also give the municipalities full control of the highways." This is the outline, said Dr. McVey, of the platform upon which the new party will stand or swim. When asked if he himself was to be a candidate for Kings county, Dr. McVey intimated that he was in the hands of his friends, and should they wish him to contest that county he would not be averse to doing so. He said that in the near future a convention of the new party will be held and the plans for the campaign laid out.

He said that the present government has not proved itself a good servant and the so-called opposition has offered no solution of the difficulty should it be placed in power. "The people," he said, "have expressed themselves as dissatisfied with the management of the affairs of the province and have done this with the unpopularity of the Highway and Judicature Acts will make it impossible for the government to again be sustained. These are the two factors, the people dissatisfied with the government and the opposition, and there thus remains only one solution, the forming of a new party having as its prime object Maritime union. "The lower provinces," continued the doctor, "are at present unable to cope with the western provinces, but if the three Maritime provinces under, say, the name of Acadia, it would give them a much stronger front and the members would be able to do more at Ottawa." As a brief outline of the platform which the new party will adopt Dr. McVey gave the following: "The object shall be the union of the three lower provinces and a division of this large new province into electoral boroughs with a population of 10,000 each, such boroughs having one representative each to the local house.

REV. GEORGE M. CAMPBELL TO RETIRE FROM THE METHODIST MINISTRY.

Has Handed In His Resignation as Pastor of Queen Square Methodist Church—He Will Take Up New Duties as Secretary of the Canadian Bible Society—To Remain In the Church Till Next June.

Rev. G. M. Campbell, for a quarter century one of the most prominent Methodist clergymen in the maritime provinces, has decided to sever his connection with the ministry and take up work with the Canadian Bible Society. Rev. Mr. Campbell's resignation was on Saturday last placed in the hands of Thomas Bullock, recording steward in Queen Square Methodist church. In the procedure of the Methodist church, this resignation, which is subject to the approval of the conference, will take effect with the next meeting of the conference in June next. Mr. Campbell asks the church to take steps towards filling the pulpit. Rev. Mr. Campbell has been provincial secretary of the Canadian Bible Society since its organization on April 26th, 1905, and has given the work of that society his time which he was able to give without interfering with his duties as pastor. At the conference in the maritime provinces, which was held at Amherst in August last, matters of the district were so settled and arranged that it now becomes necessary for whoever may occupy the position of assistant secretary to devote his whole time to the field.

Mr. Campbell had been asked repeatedly by the executive here, as well as by representatives elsewhere, to take the position of district secretary permanently and the appointment by the executive board of Rev. Mr. Campbell to this office, concurred in unanimously by the auxiliaries within the district, is now in his hands, and his decision must be made at once. As a preliminary, he has resigned from the pastorate of the Queen Square church and will give his resignation to the executive of the society within the next day or two. Mr. Campbell's new work will cover the maritime provinces and Newfoundland, and will mean the superintendence of all agents employed in the field, collectors and Bible women, the presentation of the needs of the work before the people and the arranging for the securing of financial support for the different stations. There are a large number of collectors already in the field, besides the other agents and Bible women and these must be met of the district, and his duties will be twofold, in presenting the needs of this

society to the people and in planning the field and directing the agencies so as to get the best results. The Canadian Bible Society is really the Canadian committee caring for the Bible work in British North America, formerly under the superintendence of the British and Foreign Bible Society. By Rev. Mr. Campbell's retirement from the ministry the Methodist church in the maritime provinces loses one of its most brilliant speakers and most energetic workers, though the loss to the church is, of course, gain to the Bible Society. Rev. Mr. Campbell is the alumnus of Mount Allison. He was ordained in St. Stephen, in 1878 and among the churches he has occupied are Woodstock, St. Stephen, Fredericton, Moncton, First church at Charlottetown, and Exmouth street, Centenary and Queen Square in St. John. When elected president of the conference in 1899, the session was held in St. Stephen in the church in which he had been ordained and of which he was pastor. He has served the Methodist church as financial secretary, chairman of the district and as a member of the general conference.

TWO MORE BREAKS TODAY IN THE HIGH SERVICE WATER MAIN.

Two more breaks have occurred in No. 3 high service main. Repairs were made to the breaks which took place on Saturday and the task of again testing the pipe was taken up at about 9:30 this morning. All went well for a time and it looked as if at last the test would be successfully made. About fifty-five pounds extra pressure had been put on at 12:30 and at 1 o'clock two new breaks occurred. The first was in Myles' field a

short distance beyond Silver Falls, and in close vicinity of one of Saturday's breaks. As soon as the break was noticed, a crew of men were put to work and no sooner had they started than the pipe burst in another place this side of Silver Falls. Word was sent to the city of the accident and it is probable that repairs will be completed by a late hour tonight or early tomorrow morning. Today's breaks make a total of five. On Wednesday last the first occurred and on Saturday the pipe gave away in

two places under the heavy pressure. Fifty-five pounds extra pressure seems to be more than the pipe can stand as it has burst when that amount has been put on. Again citizens who are unfortunate enough to live in the high parts of the city, should at once get a supply of water as there will be none after four o'clock this afternoon. No. 3 main has been proved to be too old to stand the extra pressure and it is very likely that when No. 2 main low service is tested it will also break in many places.

NEW TIMETABLE ON THE INTERCOLONIAL

A Number of Changes on the St. John Division.

But it Differs Very Little From Last Winter—House at Scotch Settlement Blown Down.

MONCTON, N. B., Oct. 8.—There are but few changes in the time tables in the I. C. R.'s new winter timetable which will be issued this week, and which goes into effect on Sunday, the 14th of October. On the St. John division the morning express, No. 2, leaves at seven in the morning instead of six o'clock, as during the summer. The C. P. R. express, eastbound, is later than in summer, leaving at 12:25 instead of 11:45. The Sussex express, No. 8, leaves five minutes earlier, at 17:10 instead of 17:15. The time of departure of 184, Maritime Express, remains at 19:00 o'clock, and the same with the midnight, eastbound, which departs at 21:25, as before. There has been a reduction in the number of trains leaving St. John, two suburbs to Hampton being taken off. Way freight, No. 15, leaves at the same time as in summer, 20:00 o'clock, but the time of No. 6 has been changed, it now going out at 6:30 instead of 7:45. No. 9, the midnight express from Halifax, arrives in St. John at 6:50, suburban express from Sussex at 9. Maritime express at 12:45, west bound C. P. R. at 17:40. No. 1, evening express at 21:30, practically the same as before. No. 11 freight arrives at 4 o'clock, and way freight at 16:30. There are some minor changes on the Canada Eastern section. Train 302, leaving Logville at 7:30 and arriving in Fredericton at 12:05, is an hour later than the former day express. Mixed train No. 304 now leaves Logville at 8:30 instead of 8:45, and arrives at Fredericton at 12:50. There are two mixed trains and an express running from Logville to Chatham Junction, arriving at 7:20, 11:30 and 24:20 respectively. The express leaves Chatham for the junction at 13:00, arriving at 13:30. On the Fredericton end, the express leaves for Logville at 17:00, as previously, arriving on the same time, 22:25. A mixed train leaves at 8:45 and arrives at Logville at 12:15. There are three suburbs from Marysville to Fredericton, instead of four as before, and they leave at 8:00, 18:00 and 19:00 respectively. Suburban for Gibson leaves Marysville at 12:30. Four suburbs run daily from Fredericton to Marysville, leaving at 6:15, 11:15, 18:40 and 21:00 o'clock respectively. A house in course of erection, owned by John Duff, at Scotch settlement, was blown down in yesterday's gale.

SHAW IS CONFIDENT THAT REPUBLICANS WILL WIN

Says That Bryan's Advocacy of Government Ownership Has Killed the Democratic Hopes.

CINCINNATI, Ohio, Oct. 8.—Leslie M. Shaw, secretary of the United States treasury, in an interview last night said: "We're in no danger whatever of losing the national house of representatives. The Democrats have lost all hope of carrying it since Mr. Bryan made his New York speech advocating the government ownership of railroads. That has destroyed all their chances of success for years to come and they will have to hark about for new issues and new men."

"Bryan and Hearst are all the party has left. Presidential timber and more is the pity, for I like to see strong men in the opposition. Senator Bailey and John Sharp Williams are the only conspicuous figures in the south and they are impossible. I don't like to believe in a man's motive, but I suppose Mr. Bryan believes in government ownership and thinks it will win. He will never see it."

RUSSIA.

WARSAW, Oct. 8.—Three terrorists were hanged here today after having been sentenced to death by a drum-head court martial.

HELSINKI, Finland, Oct. 8.—The expected struggle between the conservative and radical factions of the constitutional democratic congress in session here has now begun over the consumer's compromise report on the Viborg manifesto, the opponents of the report declaring that any side tracking of the manifesto would stultify the party in the eyes of the voters. Those who are opposed to the committee's report will propose an amendment to the draft, striking out the paragraph in the Viborg manifesto, advocating the application of the principle of passive resistance, particularly in regard to urging recruits not to join the colors and proposing the non-payment of taxes, which suggestions are declared to be impracticable, while retaining the paragraphs endorsing the action of the members of the outlawed parliament who signed the Viborg manifesto, so as to avoid disrupting the party. The committee's report, it is expected will be accepted.

NEVER DESPAIR

Rev. A. G. H. Dicker Cheerful in Farewell to His People.

Rev. A. G. H. Dicker preached his farewell sermon in St. Paul's church last evening, before a large congregation. Mr. Dicker, who has accepted a call to a Toronto church, took his text from Matthew, "And when it was evening,"

"The preacher said in part: 'Now once more it is evening; the close of a long day, in which there have been twelve years instead of twelve hours, during which you and I have met in this place to listen to the word of the same Saviour. That day has drawn to a close and we are about to separate, perhaps never, and certainly never, to meet again on earth.'

"The last message which I wish to leave with my old friends, is this: 'Never be despondent; never again give up trying; never think that nobody cares.'

In conclusion Rev. Mr. Dicker said: 'We may never meet again in this world, but I charge you meet me at God's right hand.'

Rev. Mr. Dicker will leave for Toronto on Wednesday.

A SHIRT WAIST DRESS IN MOHAIR

6768-6767.—Many of the new shirt waists dresses intended for general wear are made of mohair in small stripes or checks, and the mode bids fair to be very popular as well as practical.

The suit shown is one of our becoming, and attractive. The waist has a fanciful yoke from which groups of tiny darts extend, both being a mode. The skirt is a two-piece circular one with plaits in front and with the well-shaped yoke, which gives a nice appearance over the hips.

The dress may be made in any of the light weights or pouces. For the medium size 6 1/2 yards of 44-inch material are needed.

Two patterns—6768—\$1.25, 3 1/2 to 4 1/2 inches, bust measure. 6767—\$1.25, 20 to 33 inches waist.

The price of these patterns is 20c, but either will be sent upon receipt of 30c.

WILL TAKE SOUNDINGS  
AGAIN AT SAND POINT

Aldermen Decide Also to Hire a Dredge  
From J. S. Gibbon.

At the meeting of the common council on Saturday it was recommended that J. S. Gibbon's dredge should be put to work at Sand Point, also that soundings be taken at once and if not satisfactory that the dredge be hired to work at Sand Point.

Mayor Sears gave an account of the trip of the delegation to Montreal and Ottawa. At Montreal they had seen W. I. Gear, president of the Montreal Shipping Federation and general manager of the Robert Ford Co. Mr. Gear had laid their case before the delegation that a dredge be taken from the St. Lawrence and put to work in St. John.

At Ottawa the delegation saw Hon. Mr. Hyman and he accompanied them to the office of Hon. Mr. Brodeur, minister of marine and fisheries, who informed them that the only dredge suitable for the St. John work was now working at Rimouski where it was badly needed.

Discussing the situation with Mr. Hyman the minister had proposed that a second dredge be brought here with a contract for 37,000 yards including the 3,000 yards reported by Engineer Shaven as necessary at Sand Point and the 28,000 yards at the entrance of the harbor, or secondly that the city get a dredge and do the work.

The minister had condemned the proposed buying of the Bothwell and said that it would not be allowed to come in free of duty.

The delegation also had some conversation with the deputy postmaster who said that there was no reason why St. John would not make a suitable mail terminus.

H. B. Schofield also spoke on the trip of the delegation.

Director Chushing said in connection with the dredging work that the dredge was only 4,000 yards to be done at Sand Point to make the 30 feet depth for a distance of 70 feet from the wharf.

J. S. Gibbon said he had a dredge which the city could have for \$10 per day with expenses.

Ald. Baxter made a motion that soundings be taken at Sand Point and that Mr. Gibbon's offer be accepted.

This was carried. A motion of Ald. Pickett that the government be asked to do the necessary dredging at Long Wharf was carried.

Several recommendations of the general committee were passed.

TWO OLD FRIENDS DEAD.  
Mrs. Bridget Doherty and George Doherty Passed Away Within a Few Hours of Each Other.

Two of St. John's oldest residents have passed away. On Saturday afternoon Mrs. Bridget Doherty died at her residence, 99 St. James street. She was widow of Hugh Doherty, and an aunt of Miss Agnes Fleming, the novelist. Two sons and three daughters survive. They are Hugh Doherty, the Charlotte street grocer; Daniel, who resides in the States; Mrs. P. Coole, of Valville; Mrs. Edward Greenay and Miss Margaret Toib, who resides at 135 St. James street.

A few hours had passed when Doherty, of 123 Brussels street, died. He was 92 years of age. He had five daughters and two sons. His wife, Mrs. Doherty, died at 135 St. James street. They were Mrs. Doherty, of 123 Brussels street; Mrs. Doherty, of 135 St. James street.

FIGHTING IN HAYTI.  
CAPE HAYTIEN, Oct. 6.—George C. M. Simons, nephew of ex-President James last night, attacked a boat crew, taking advantage of the panic that resulted to enter the Haytian Consulate securing important documents. During the skirmishes the insurgent General Rodriguez was captured by the government troops.

The rebels are furious at the authorization accorded the dominion government by Hayti to embark troops on Hayti territory and in retaliation have killed many Haytiens on the frontier.

MEDIUM'S SIGHT FAILED AT THE WRONG TIME  
Sheriff J. A. McQueen, of Dorchester, is at the Royal, and tells a peculiar story of a Boston medium. Some time after the Cramer children were lost, he received a letter from a resident of the Hub. It stated that the writer had been in a trance and had seen the bodies of the two children in the woods about twelve miles from the house.

The sheriff paid little attention to the letter, but soon another arrived. This time the medium had again been seeing things and said that the body of the lost child had gone to dust. He could still see the little boy and offered to go to the scene, if his expenses would be paid. Sheriff McQueen showed the letter to F. W. Sumner, of Moncton, who agreed to foot the Boston man's bill. A letter was sent directing him to come on, but a reply was soon received stating that the medium's vision had disappeared and the boy's body had gone to dust. The "Hub" man thought that under the circumstances Sheriff McQueen still thinks that the children become lost in the woods and perished.

ST. PETERSBURG, Oct. 7.—A formal denial has been issued here of the report of the betrothal of Grand Duke Michael, brother of the Emperor of Russia, and Princess Patricia of Connaught, niece of King Edward. An unwitting error was committed by announcing through semi-official news agencies in Europe what was accepted yesterday as a fact in court and diplomatic circles here. It now appears that the disclosure of this alliance unwittingly was committed by a newspaper which has not reached the stage of an actual betrothal. The intimation that such a marriage was contemplated erroneously developed in court circles into a premature announcement of the betrothal as a completed fact.

GOAL COMPANY TO  
SELL ELECTRICITY.

Arrangements Concluded for Installation of a Plant at Amherst, N. S.

The Maritime Coal Company will introduce an electrical plant near their coal mines, seven miles outside of Amherst, N. S. Here they will generate electricity and supply the big manufacturing and other concerns in Amherst.

Senator Mitchell, who is president of the Coal Company, was in town yesterday, making arrangements for the installation of a plant and signing a contract with the Canadian Westinghouse Company of this city for the supplying of apparatus. This company will install a 750-horse power generator and transformer and other necessary apparatus. The coal will be burned in a distance of forty or fifty miles, and the electricity generated at that point.

The power line is nearly finished, and the plant will be complete and in operation before the first of the year. The electric current will be carried to Amherst on a high tension wire, and the plant will be complete and in operation before the first of the year.

Other coal companies in the East generate electricity for their own uses, but this is an innovation in the supplying of electricity by a coal company to outside interests.

RIDEAU HALL WILL BE VACANT THIS EVENING

Wilson Wants \$1000 Damages From Adam Bell—Could Have a New Lease—But Will Not Take It.

Rideau Hall will be vacated by Harry Wilson today. The furniture has been made ready to move and by tonight the building will be deserted, except for the presence of Adam Bell and wife and son, who have rooms in the house. Mr. Wilson told the Star this morning that if he wished, he could remain in the house, in spite of Mr. Bell's demand, as Hudson Green, the new owner, called on Mr. Wilson on Saturday and offered him a lease for five years. Mr. Wilson told Mr. Breen that he would have to consult his legal adviser before he could arrange the matter definitely, so Mr. Sinclair and Mr. Wilson talked the matter over. It was plain that the reputation of the house had been badly shattered, and Mr. Sinclair went word to Mr. Breen that his offer of a five years' lease would not be accepted. Mr. Wilson said that even if he could again establish a business at the old stand, he would be in danger of another "raid" as was made by Mr. Bell on October 2nd.

Mr. Wilson does not care to say where he will start in business again, but feels confident that he will succeed. Mr. Wilson said that the action for damages against Mr. Bell, would surely be made. The exact figures have not been decided on, but Mr. Wilson says that \$1,000 would not cover his loss. He will lose one month's business which would mean at least \$700 and a quantity of furniture has been destroyed.

ST. JOHN, N. B., OCTOBER 3, 1906.

THE GAS QUESTION.

In spite of promises that the quality of gas furnished would improve, it remains as bad as ever, and as an illuminant the article supplied by the St. John Railway Company is almost worthless. Nor is there any indication that the company will allow a reduction in the price to those persons who are suffering such inconvenience as is forced upon them at the present time. It will soon become the duty of St. John people to demand, not merely to ask, better gas at a lower price. The Street Railway Corporation, giving until a very short time ago as means of car service as the public stand, fails to make the line pay, but as dividends must be earned, the prices of gas and incandescent light are kept so high that in these branches the profits are sufficient to pay dividends of six per cent. not only on the capital invested in their respective plants, but on the whole capital of the company. Thus the man who burns gas or incandescent light is paying for the operation of the street cars.

A representative of the company in endeavoring to defend the position held by the producers, argues that gas is cheaper here than in Chicago, when the comparative consumption is considered, and that the only way in which a reduction in price can be made is by a wider use of gas on the part of the people. That is, the company charges double rates to secure new customers in such numbers that a lower price may at some time become possible. It would be a very sensible plan, wouldn't it, for a merchant wishing to dispose of damaged goods at a cheap sale, to add one hundred per cent. to the original price, and expect that customers would be attracted. Most merchants first reduce their prices, and then the customers come. While gas remains at \$1.85 per 1000 feet, the St. John Railway Company will never be able to complain of too great a demand, but let that price be cut in half, as it should be, and there are many in the city who will throw away their oil lamps and kitchen ranges.

Four daughters of a Walla Walla farmer saved him from the effects of the labor famine this summer by turning out and helping him harvest his wheat. The press gave them liberal advertising, and now the girls are bringing them daily offers of marriage from young men in the East. Of course, a wife who can support her husband is a good thing to have in a family, but the Walla Walla girls are not looking for husbands whom they'll have to support. Working for father is different.

THE WATER SYSTEM.

Events of the past few days have showed that fears expressed by many people concerning the weakness of the water mains were well founded. The opinion was freely expressed that the older pipes would never be able to stand the increased pressure developed by the new system, but this assumption was laughed at by many of those who were supposed to know. It was asserted that the mains, with perhaps a few exceptions, would prove strong enough for any pressure that Lake Latimer could supply.

Within the past four days the newest and best main pipe to the city has given way at three places, under a pressure which is small compared with that the city hopes to obtain. That this pipe will continue to break as the water is turned on, seems only reasonable, and if it is unable to stand the strain what can be expected of the older and weaker pipes by which the water is brought to the one mile house?

Along the Marsh Road a new main has been put down and it will probably be all right, but one mile of sound pipe is of very little service when the connecting lines are useless. In the city distribution system the greater pipe mileage is of such a nature that it must be handled very gingerly, and there is every reason to fear that much time will elapse and very large sums of money be expended before the service is made reliable.

THE BETTER TERMS CONFERENCE.

The "better terms conference," so-called, begins today at Ottawa, and the indications are that it will result in larger subsidies to all the older provinces. That favorable consideration will be granted is shown by the mere fact that this conference is being held. Premier Laurier a few years ago listened to requests from several provinces for increased subsidies, but the members of the government did not at that time see fit to meet the wishes of the applicants. The views of the provinces have not materially changed since 1902 and the premier knew before this present convention was suggested, that the different representatives would put forward the same demands and the same arguments as on previous occasions. That the government is willing to listen to a petition of these claims is in itself a circumstance favorable to the provinces and would indicate perhaps not a general granting of the demands, but at least a desire to act with fairness to all. The sessions which begin today will be of interest to the whole of Canada.

THE NEEDY BAKER.

A needy baker kneaded some dough upon his knees. The foolish performance that a person ever could see. I asked the foolish baker man just why he acted so. I'll tell you boy, he answered, it's because he's kneaded the dough. Your answer is preposterous unto him then I cried. Nay, nay, it is most logical that I knead it.

How can you then, I asked him, pray now explain to me— How can you say you need it, when you knead it on your knees? That's proof you do not need it, as I'll proceed to show. You have it there before me, so you cannot need the dough.

Your logic is defective, he started in to say. You must have dough to knead it, there is no other way; to buy it you need money, which I earn exactly so, I therefore knead to fill my need, in short, to earn the dough.

I said you need not tell me that you're in need of dough; I know of course you knead it, that your actions serve to show. I don't deny you knead it, with that I need some more for kneading when I knead it on your knee.

That's because you're extra stupid, said the baker in a huff. I have some dough, I grant you, but I haven't any more. I need some more, for instance, for another batch of bread, I need it just to knead it, I repeatedly have said.

I was growing irritated and his language made me sore. When you're kneading what you have, sir, pray how can you knead some more?

You make me sick, he answered. The situation is I need some more for kneading when I've finished kneading this.

Ah! That's more reasonable—you will need it in a while. You are looking to the future, and here I've got to live. I admit that that is different, but you surely will allow

That the dough you will need it doesn't prove you knead it now.

How can I knead, he answered, the dough I haven't got? It is plain since I'm kneading that I surely need it not.

Here the conversation ended, for I took a club and hit That idiotic baker just where he was needing it.

ONTARIO FARMERS TAKE NOTICE.

Four daughters of a Walla Walla farmer saved him from the effects of the labor famine this summer by turning out and helping him harvest his wheat. The press gave them liberal advertising, and now the girls are bringing them daily offers of marriage from young men in the East. Of course, a wife who can support her husband is a good thing to have in a family, but the Walla Walla girls are not looking for husbands whom they'll have to support. HOW TO BANISH FLEAS.

As one of the public schools in Milwaukee has been closed in consequence of a visitation of fleas, it may be amiss to inform the teachers of the method practised in tropical regions of "most amateur club produce tragedie."

BOYISH JOKES OF HOWELLS.

"Typographical errors," said William Dean Howells, the famous novelist, "are always amusing. When I was a boy in my father's printing office in Boston, I once made a good typographical error.

YES, THEY DO.

"Our amateur club is going soon to produce a farce." "What an improvement!" "How an improvement!" "Most amateur clubs produce tragedie."

HAS ANOTHER IDEA.

"Your friend Bardiet left some verses with me today that are in the amusing," said the editor. "Indeed!" replied Dabley; "I didn't think he was a humorous poet." "Neither does he."

HIS OCCUPATION.

"We wish," explained the manager, in his bustling, airy way, "a play which will serve as a vehicle—" "Sir," protested the man of genius, with a look of horror, "I am a playwright! Not a cartwright!"

HOPEFUL.

"I ain't got nothing particular ag'in the world," said the old-time growler. "I've just about decided to leave her alone for two or three weeks, an' if she does better in that time than she's been a-doin', I may let her alone for good an' all!"

ARABIAN HORSES BROUGHT TO AMERICA

NEW YORK, Oct. 3.—Twenty-seven Arabian horses, ten mares and 17 stallions were landed yesterday from the steamship Italia. They were shipped at Aleppo, Syria, on August 24. This importation is said to be the largest of the kind ever made, and is the result of the only trade ever issued to an American.

GREAT CHANCE FOR ST. JOHN SCHOLARS

To Become Famous Through-out Empire.

Win Lord Meath's Prizes for Compositions on Colonization and on India—Open to Children 18 Years and Under.

An official notice comes from Chief Superintendent of Education J. R. Inch, at Fredericton, relative to the Lord Meath Empire Day challenge cups and League of Empire prizes, which may be contested for by all British pupils in secondary and primary schools. St. John boys and girls will hear of this with a great deal of interest.

The following are the conditions and subjects: (a) Lord Meath Empire Day Prize (secondary schools)—a silver challenge cup, value £10 10s., presented by the Right Hon. the Earl of Meath, K. P., to be held by the school, and a personal prize of £5 5s., given by the League of the Empire, is offered for competition. Inter-all elementary schools of the empire for an Empire Day Essay not exceeding 1,000 words. Age limit, under 14 years old.

(b) Lord Meath Empire Day Prize (primary schools)—a silver challenge cup, value £10 10s., presented by the Right Hon. the Earl of Meath, K. P., and a personal prize of £3 3s., given by the League of the Empire, is offered for competition. Inter-all elementary schools of the empire for an Empire Day Essay not exceeding 1,000 words. Age limit, under 14 years old.

These essays must first be judged in the schools, and afterwards by the authorities kindly co-operating with the League in the different countries of the empire. Only those essays sent in through the authorized channels will be eligible for the final judging arranged for by the Federal Council of the League in London.

The essays which are entered for the final judging in London must reach the central office by the 1st of February next. The names of the winning schools will each year be engraved upon the cups, which are replicas of the Warwick vase.

The cups and prizes will be dispatched in time to reach the winning schools before the 24th May each year. The essays must be sent to the General Secretary, Fredericton, not later than December 25th, 1906.

In the schools of this city there are many very clever little writers, children who are patriotic enough and able enough to compete with any pupils, not only in Argenta, but in any other empire they may live, and what a glorious thing it would be to win an award like this! Try it boys and girls; "trying never was beaten."

THEY HANGED THE WRONG NEGRO AFTER ALL

KANSAS CITY, Mo., Oct. 3.—A special to the Journal from Little Rock says: Blackburn, the negro taken from the jail by a mob at Argenta, Ark., last night and lynched, is not believed to have been the man wanted.

Fully 800 negroes deserted their homes in Argenta and came to Little Rock to spend the night. The leaders stated that they were afraid to return to Argenta for fear of another outbreak of whites.

HEARST STILL ABUSING ALL HIS OPPONENTS

He Says His League is Engaged in Political House-cleaning and the Vermin are Seeking Cover.

BUFFALO, N. Y., Oct. 6.—Wm. R. Hearst, Democratic and Independent League candidate for Governor, finished his political speaking tour tonight in this city before 6,000 people in Convention Hall. Mr. Hearst was given an enthusiastic reception. He attacked Judge Parker, H. H. Rodgers, Charles A. Tongue and others, and was loudly applauded. Wm. J. Connors, chairman of the Democratic State Convention called the meeting to order, and F. T. Tabor, formerly Attorney General of the Democratic party, formerly law partner of Wm. F. Sheehan, presided.

In the course of his speech he tonight, Mr. Hearst said: "The Independence League and Democratic party are house cleaning, and out of every dark hole and dirty corner come political cockroaches and corruption bugs and rats of Wall Street that swarm into the Republican establishment next door. We are not sorry to see them go; they go because they have the bright light of publicity and the pure air of honesty."

TREASURE SEEKERS BAKED

Can't Search for Diamonds on a Guano Island—Peers in Syndicate.

LONDON, Oct. 6.—The Treasure Seekers' Syndicate, composed of judges, peers and members of society, who recently chartered the steamship Xema to search for diamonds upon a guano island off the coast of South Africa, has met with a serious check. Sir E. E. Peers, the agent-general of Cape Colony in Great Britain, has informed the directors of the syndicate that the ministry of the Cape has refused to allow the Xema, which sailed from London in August, to make a landing on the island, although, if proper application should be made, the ministry might allow a cursory examination in the presence of an approved diamond expert. But no prospecting or sinking of shafts would be permitted. The members of the syndicate are indignant because they say that a week ago Dr. Jameson promised them that the Cape Government would grant them the required permission.

The directors contemplate appealing to the courts against the Cape Government.

WOMAN GROSSES LABRADOR

Bride of Stephen Tasker Faces Grave Hardships With Husband.

PHILADELPHIA, Oct. 6.—Penetrating further north on the Labrador peninsula than any white man has ever been, Stephen M. Tasker, of this city, with his young bride, succeeded in crossing it from Hudson Bay in the face of hardships, frequent narrow escapes from death, and constantly threatening starvation.

Since the party was swallowed up in the icy waters early in June no word was heard from them until today, when after they had been supposed to be dead, a telegram was received by Mr. Tasker's mother, informing her of their safety and the accomplishment of their purpose.

Lasker, who is 31 years old, is a marine engineer in the United States Navy, detailed at Cramp's shipyard. On his furlough he undertook the expedition instead of his customary hunting trip in Canada, which he has made annually for several years.

Starting from this city four months ago the Taskers went to the Hudson Bay Shore of Labrador, and after organizing a pack train with dogs, sledges and provisions, started on their journey. Although told on every hand that terrific hardships if not death would await them on the way, Mrs. Tasker refused to be dissuaded from accompanying her husband.

MEN'S BRAINS AND WOMEN

Later Are Only Beginning Their Says Dr. Scofield.

MAN'S BRAINS OD F RHMW LONDON, Oct. 6.—Dr. Scofield, continuing his series of lectures, said today: "Women are just beginning their race. Men have pretty well finished theirs."

He was dealing with the comparative brain power of the sexes. He declared that woman's brain is slightly greater in proportion. Certainly it was not less. It would be found fifty years hence that woman's brain had developed faster than man's. Nevertheless there were essential differences between the minds of men and women. Anything in the nature of ritual was absurd. Women's minds were much better for some kinds of work, and men's for other kinds. The physician's dicta on other topics included the statement that it was a mighty and thing that few people in the world has ever tasted pure water. It was extraordinary that while many waters were sanitariously inspected there was no inspection of air. If drops of water condensed from the atmosphere were collected from the walls of a close room and injected into a rabbit, the creature would die in agony.

### FORTY-TWO NEW STUDENTS AT U.N.B.

Largest Freshman Class on Record—  
Tree Blown Down at  
Fredericton

FREDERICTON, N. B., Oct. 7.—The service at the Parish church this morning was in memory of the late Canon Roberts, who died last year on Oct. 11th. Special music was rendered and the hymn "Now the Laborer's Task is O'er" sung. Rev. Mr. Cowie preached an eloquent sermon on the late pastor and the work he accomplished as a minister of the church.

Rev. Dr. Falconer, principal of Pine Hill Theological College, Halifax, preached to the students of the university in the Brunswick street Baptist church this morning. In the afternoon at the college he addressed the Y. M. C. A. of that institution, taking as his subject "What is the Bible?" In the evening Dr. Falconer preached in St. Paul's Presbyterian church.

A heavy wind has prevailed here for the past 24 hours and has worked serious destruction with some of the trees about the city. On King street near the church a beautiful one was blown down this morning and has laid across the street the entire day, impeding traffic.

The new students at the University now number 42. The freshman class, having a total of 37, the largest in the history of the institution. Ten new students entered during the week.

The jury in the case of Irvine v. The Overseers of Stanley yesterday returned a verdict in favor of plaintiff for the full amount of the claim.

**HEAVY WIND AT MONCTON**  
MONCTON, Oct. 7.—A good deal of damage was done around town last night and today by the heavy gale. Several walls and fences were blown down and a big iron smoke stack of the Glove Laundry collapsed before the hurricane, as well as numerous big trees.

Advertising in its fundamental and etymological significance, means a turning towards; hence, an advertisement is that which turns the attention of the people towards the matter which it represents. Successful Advertising, London.

### HAD A NARROW ESCAPE, FROM DEATH

Workroom of Moncton Tailoring Establishment Falls Into the Cellar

MONCTON, Oct. 7.—The workroom on the rear of J. M. Ross' tailoring establishment, which fell into the cellar beneath this afternoon, and several men who were digging the excavations beneath had a narrow escape from being crushed to death. The accident occurred shortly after four o'clock. Excavation work had been going on under the building for some time, and as the earth was gradually cut away from beneath it, timbers were introduced to hold the structure up. This afternoon one of the workmen noticed with horror that the building was moving, and with a call to his fellows made a rush for the sides. They were not a second too soon, for scarcely had they reached safety when with a crash that was heard for blocks the building dropped into the hole.

The workers inside the building, several of whom were girls, were thrown into a state of panic, and the overturning of the stove on which the tailors' irons are heated caused prospects of a fire. Every window was smashed, and through the apertures the hysterical girls were assisted by bystanders.

It was a miracle that no person was injured. Underneath the building there was standing a horse, attached to a sledge on which the clay was loaded, as it was excavated. The wagon was under a corner and a portion of the horse, and the building in falling knocked the animal to the ground, but fortunately did not injure him to any extent.

**BIG ATTENDANCE AT MT. ALLISON.**  
SACKVILLE, N. B., Oct. 7.—The attendance at Mount Allison University this year exceeds all former records. The figure are as follows:  
Number of new students is fifty-four, including four post graduates, one junior and four sophomores, twenty-three freshmen in arts, seventeen in science, and five theology.

There are 104 boarders in residence, while the total registration is 131. This number does not include special students from the ladies' college and academy.

### The Shamrock and the Palm.

(Continued.)

"Beth" a clancy, in two minutes me and the foreign man were seated at a table in the cabin of the steamer, with a bottle between us. I could hear the heavy boxes being dumped into the hold. I judged that cargo must consist of at least 2,000 Winchester. Me and the brown man drank the bottle of stuff, and he called the steward to bring out the wine. I could see a clancy with the contents of a bottle you practically investigate succession. I had heard a good deal about these revolutions in them tropical localities, and I began to want a hand in it.

"You go to sit things up in your country, ain't you, monseer?" says I, with a wink to let him know I was on.

"Yes, yes," said the little man, "pounding his fist on the table. 'A change of the greatest will occur. Too long have the people been oppressed with the promises and the never-to-happen things to become. The great work it shall be carry on. Yes, our forces shall in the capital strike of the soonest, Carrambos!'"

"Carrambos is the word," says I, beginning to feel a little nervous, but I was not to be deterred. I was a man of more nerve and more nerve, as I said before. May the shamrock of old-I mean the human—the emblem may be of your down-trodden country, may be forever yours, says the round man, for your enmity of anti-loyalty and your enmity of anti-loyalty of the very most is men who will work to do, to lift it along. Oh, for one thousand strong, good men and some general De Vega that he shall to his country bring those success and glory! It is hard—oh, so hard to find good men."

"Monseer," says I, leaning over the table and grasping his hand, "I don't know what you mean by that, but my heart bleeds for it. The heart of a man was never deaf to the sight of an oppressed people. The family is in danger by birth, and foreigners by trade. If you can use James Clancy's arm and his blood to denude your country of the tyrant's yoke they're yours to command."

"General De Vega was overcome with joy to contemplate my condole of his conspirators and predicaments. He tried to embrace me across the table, but he was in the bottles, prevented. Thus I welcomed into the ranks of the cause, then the general man told me his country had the name of Guatemala, and was the greatest country in the world. He looked at me with tears in his eyes, and from time to time he would spit out the remark, 'Ah! big strong, brave man! That is what my country need.'"

"General De Vega, as was the name by which he denoted himself, brought out a document for me to sign, which I did, containing a fine flourish with the tail of the 'y.' 'Your passage-money,' says the general, businesslike, shall from your pocket. 'I'll not,' says I, haughty, 'I'll pay my own passage. I have a hundred dollars I had in my inside pocket, and 'twas no common filibuster I was going to be, filibuster' for me."

### SUNDAY TRAGEDIES.

Attempted Jail Breaking Ends in Death.

Burglar Carried Nitro Glycerine—Boy Shot Through the Heart When Playing With a Rifle.

NEW YORK, Oct. 7.—William Wilson, 31 years old, a waiter, was stabbed to death in an altercation with a man whose identity was not learned, on the Bowery today. The man escaped.

The police arrested Wilson's wife and another man and held them as witnesses.

MACON, Mo., Oct. 7.—In a desperate effort to break jail here last night, Wan, Obrien, accused of highway robbery, was shot and killed by the sheriff's young son, Milford Graves, W. T. Tate, alias Leonard Knox, also charged with highway robbery, escaped.

As Sheriff Newton Graves entered the jail directly after supper he was attacked by Tate and Obrien. Obrien used a club and Tate a piece of lead pipe.

The sheriff's young son caught up a rifle and shot Obrien through the heart.

BINGHAMTON, N. Y., Oct. 7.—From the body of a burglar who was shot and killed in this city, Coroner E. L. Smith took a bottle of what he supposed was oil. He placed the bottle in his case and took it home, shaking it around unconsciously.

Investigation today showed that the bottle contained enough nitro glycerine to have blown up a large building.

SPRINGFIELD, Mo., Oct. 7.—Warren G. Hartley shot and seriously wounded Boss Galbraith, an alleged mob leader last night. Hartley was a witness against Galbraith in the latter's recent trial on the charge of leading the mob that lynched three negroes here last spring. The shooting occurred on the public square, and was witnessed by three hundred persons.

DOVER, Me., Oct. 6.—While playing with loaded rifle today, Clarence Calder of Rockwood, aged 11 years, accidentally pulled the trigger and he bullet pierced his heart, causing instant death. He was a son of George Calder.

PROVIDENCE, R. I., Oct. 7.—The body of Eva May Johnson, who was shot and killed by George Miller yesterday, may be buried in the potter's field unless word to the contrary is received from her former friends in Lewiston, Me. It is expected that the body will be arranged on a charge of murder in the District Court tomorrow morning.

### WILL BECOME DEAN OF THE CATHEDRAL

Canon Richardson Announces That He Will Remain Rector of Trinity Until About Christmas

Rev. Canon Richardson yesterday morning at Trinity church made a brief reference to his approaching departure from this city to take up the duties of cathedral bishop. He said that he would not make lengthy remarks at the present time. He hoped to be able to visit the cathedral until Christmas, but it may be necessary to take up some work in the diocese before then.

"The suggestion has been made that I should remain in Trinity. To say the least, such an arrangement is quite out of the question, as it would neither be desirable in the interests of the cathedral nor of this parish. The appointment carries with it the position of dean, and as such my duty will call me to the cathedral. I want that to be clearly understood. For the present, however, I hope to retain the rectorship of this parish as long as possible, as the organization of the parish so far as the little disturbance as possible may be made by the change, and I ask workers to join me with this in view. Considering my imminent departure, I do not think it wise to start new organizations, so that the woman's Bible class will not open. The interest took place at the new Catholic center last night. A large number of workers were also present to testify to their regard for the deceased conductor.

The funeral took place yesterday afternoon from her late residence, 45 Water street, preceding to the Cathedral, where the service was conducted by Rev. A. W. McDonald. The Brotherhood of Railway men walked in a body ahead of the hearse. There were 300 members of the Brotherhood of Railway men, engineers and conductors, surrounded the hearse. A large number of citizens were also present to testify to their regard for the deceased conductor.

The railroad men marched to the cemetery, and after Mr. Prosser had concluded his service they recited the ritual of the Brotherhood. The pallbearers were chosen from the conductors present.

Among the floral tributes received there were three from the railway employees, a floral pillow, a wheel, and a wreath.

The funeral cortege was one of the largest seen in the city for a long time.

### FORMAL OPENING OF ACADIA COLLEGE

Instructive Address Given by Prof. Gray—Prof. Jones' Successor Present

WOLFVILLE, Oct. 6.—The formal opening of Acadia College for another year took place last evening in College Hall. After prayer by the Rev. Dr. Manning, Professor R. V. Jones, who is now chairman of the faculty, introduced the speaker of the evening, Prof. Gray, in a very complimentary address. Prof. Gray has been at Acadia one year in the chair of English, and this may be regarded as his inaugural address. The subject was "Poetry and the Education of the Spirit."

The leading thought of the speaker was the enrichment of the spirit of man through the benign influence of poetry.

Professor E. R. Moore was present and spoke of the warm reception he had received on his return to Wolfville and of his pleasure at again being among his own countrymen.

The new year has started under very favorable auspices. The total enrollment will be about the same as last year, but the entering class is larger, about 75 of whom—some third—will take the science course. There are thirty-five young ladies in the college classes.

### SEALED TENDERS

addressed to the undersigned, and endorsed "Tender for Laundry Building, Tracadie, N. B." will be received at this office until 20th October, 1906, inclusively, for the construction of a laundry building and a septic tank at the Lazaret, Tracadie, N. B.

Plans and specifications can be seen and forms of tender obtained at this Department and on application to Dr. A. C. Smith, Tracadie, N. B.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 per cent.) of the amount of the amount of the tender, which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tenderer does not accept the cheque will be returned to him.

The Department does not bind itself to accept the lowest or any tender.

By order,  
FRED GELINAS,  
Secretary.

Department of Public Works,  
Ottawa, October 3, 1906.

Newspapers inserting an advertisement without authority from the Department will not be paid for.

PROVINCIAL PREMIERS TO MEET GOVERNMENT

Conference on Question of Subsidies Opens This Morning in Ottawa—Control of the Fisheries Also to be Considered, As Well as Maritime Province Representation.

OTTAWA, Oct. 7.—A conference of provincial authorities with the Dominion Government on the question of provincial subsidies opens tomorrow morning in the railway committee room of the senate.

At the conference only the subjects common to all of the provinces will be discussed. However, there will be conferences for the discussion of matters in which only one or more of the provinces are interested with the federal government.

BOY OF BEAT J. GORHAM OF MONCTON FOUND IN RIVER

MONCTON, N. B., Oct. 7.—Battered and bruised from contact with rocks and floating debris of the Petitedouche River, bloated beyond recognition by two weeks in the water and clothes weighed with mud, the body of a boy was found in the river on Saturday.

MYSTERY IS STILL UNSOLVED

Nothing Heard of Capt. Edgett Since First of July—Property Sold

MONCTON, N. B., Oct. 7.—Captain Abel Edgett, a well known resident, and who was in charge of various schooners running out of this city for a number of years, has been missing since the first of July, but as he was in the habit of going into the woods on prolonged hunting trips, his relatives here are not especially alarmed about his safety.

McGILL LOSES AN ABLE PROFESSOR

MONTREAL, Oct. 7.—Dr. James Stewart, professor of Materia Medica in McGill and chief physician of the Royal Victoria Hospital, died last night. He was one of the most widely known men in the medical profession of Canada. He was unmarried and was sixty years of age.

WIFE DYING; HUSBAND HOME

Wife of Rev. H. S. Savary Has Not Been Told of His Evil Actions—His Friends Puzzled

PLYMOUTH, Mass., Oct. 6.—Rev. H. S. Savary, whose interrupted marriage with a prominent young woman of St. Martin, N. B., because of a living wife here, was one of the sensations of the early week returned to his mother's home in Plymouth this noon and went immediately under the care of a physician.

It is understood that the Maritime Province representatives will ask for an arrangement which will enable them to retain their present representation in the federal house, which has already been seriously cut down by reason of the population of the province.

TUG LORD WOLSELEY ON FIRE YESTERDAY

A still alarm was sent in yesterday morning at 11:30 on account of a fire in the bunkers of the tug Lord Wolseley, belonging to John B. Moore.

The fire was on the roof of Thomas Byrne's store, which was situated on the corner of Main and sixth streets. The fire was extinguished by the fire department.

GANAL BROKE AWAY; TOWNS WERE WITHOUT LIGHT

NEW MILFORD, Conn., Oct. 7.—Through the breaking away of about one hundred feet of the mill canal bank at Bull's Ridge, used to convey water to the plant of the New Milford Paper Co., the power house was compelled to shut down today and will probably not resume operations for several days. The plant supplies New Britain, Southington, Cheshire, Naugatuck and Waterbury with electric power and light.

AMHERST WAS ANOTHER FIRE

AMHERST, N. S., Oct. 7.—By prompt and efficient work of the firemen a serious fire was this afternoon averted. At three o'clock an alarm was sounded when the roof of the Opera House, owned by B. C. Munro, was found to be on fire, and although four streams of water were soon turned out, the fire had taken such a firm hold as to the extent of about \$1,200 sustained. The scenery and furnishings inside were badly damaged by water. A terrible gas was blowing at the time, and if the fire had gained much headway it would have been impossible to save the surrounding buildings. The Opera House itself is a large wooden structure, formerly a Baptist church building, was fitted with costly furnishings and scenery.

HAD EIGHTEEN HUNDRED STROKES OF PARALYSIS

EASTON, Pa., Oct. 6.—After having suffered, according to statements of the attending physicians, at least 1,800 strokes of paralysis during a period of two years, Samuel Tehl, formerly a railroad foreman, is dead at his home in Easton, near here. He was stricken two years ago while working on a railroad and it is asserted that he was never conscious for a longer period than twenty minutes at a time since the first stroke.

"CHIFFONS"

By that we mean those aids to beauty, dress, attractiveness, and the little accessories that please the eye and make a woman self satisfied. Some cynic has said, "Women do not dress to please the men, but to spite each other." Be that as it may, fair sex are always interested in handsome toilet, and at the opening tonight at the Opera House of The Ellis Co., in the great play "The Octopus," the dress worn by the ladies of the company will be worthy of attention. Notwithstanding the many attractions going on in the city, the demand for seats has been large, and by the time for doors to open tonight the desirable seats will be taken. The company will play for four nights this week, and Wednesday matinee, going to Moncton Friday and Saturday, but will return Monday for a run of five weeks, opening Monday night in the beautiful southern romance, "The Red Rose."

ESCAPING PRISONERS WERE GLAD TO BE BROUGHT BACK

Two Men from Deer Island Were Drifting Out to Sea on a Small Raft.

BOSTON, Oct. 7.—With a handkerchief fluttering as a signal of distress, Charles Jones, alias Pilger and Herbert J. Hanson were picked up today in Boston harbor off the Graves where they were drifting out to sea on an old raft upon which they had made their escape from Deer Island.

STILL AHEAD OF THE PURSUING HUSBAND

LONDON, Oct. 8.—The Daily Mail this morning declares that Gabriel Esposito, accompanied by the wife of the late Ouchakoff, sailed from a British port last Saturday for a distant and secret destination. Esposito was a lieutenant in the Russian army. He fled with Mrs. Esposito from St. Petersburg several weeks ago and since then has been pursued by General Ouchakoff, who tracked them to various cities in Europe and to New York, but always a few days behind the slopers.

A MEDAL FOR VALOR.

WASHINGTON, Oct. 5.—As a recognition of gallant service in the face of fire, Major Paul P. Straub, a sergeant of the United States army, was presented with a medal of honor today by President Roosevelt at the White House. The heroism which prompted the giving of the medal was displayed by Major Straub at Alos, Zimble, Luzon, Dec. 15, 1898, when he voluntarily exposed himself to the fire of the enemy in repelling an attack of insurgents and at great risk rushed to the rescue of a wounded soldier and carried him to a place of safety.

"THE VILLAGE PARSON"

A story that is new, a plot that is novel, and a theme that is original, makes the play "The Village Parson" an stage story that is enjoyable from start to finish. The play is new, simple, but it is natural and devoid of improbabilities. The company presenting it is an excellent one, and the scenic mounting novel and beautiful. It will appear at the Opera House Friday and Saturday next.

On and after Oct. 11th, the steamer Crystal Stream will leave Indiantown at 9 o'clock instead of ten.

L. H. Thorne returned on Saturday from the Canaan woods where he enjoyed a hunting trip. Mr. Thorne was successful too, as he secured a fine moose and a deer. The antlers of the moose measured 47 inches and had 19 points.

A despatch to the Star from Montreal says that H. L. Jordan, formerly of St. John, and lately with the C. P. R. at Montreal, was taken to Boston on Friday night for treatment. He had an arm amputated a year ago and the effects of the operation have now seriously injured his constitution. He is not expected to recover. Mr. Jordan was surviving for the C. P. R. out of St. John last summer but his lately been attached to the engineering staff in Montreal.

The surveying parties of the G. T. F. in New Brunswick are nearly finished their work. Only four parties are now out. Two of these are working between Chipman and Moncton and the other two near the Quebec boundary. These parties will be finished in a week or so and after that the principal work will be the estimation of the cost of building the line. Mr. Dun, the resident engineer, says the work is progressing very favorably and he is well satisfied.

The demand for admission tickets and skates for tonight's carnival at St. Andrew's Rollaway, set in as soon as the box office opened this morning, and judging from the large number of skate checks sold tonight's carnival will surpass any carnival seen here in years. Those who intend competing for prizes will do well to remember that the judges will have a better view of their costumes when skating slow than when skating fast. Every one must be in costume and masked or "made up."

Lady Solomon, who was accompanied by Sir Richard Solomon, K. C. M. G., K. C. B., acting lieutenant governor of the Transvaal, recently laid the foundation stone of the Bible House now being erected by the British and Foreign Bible Society at Johannesburg. In the course of his speech Sir Richard said he had a firm belief in the work of the Bible Society, and wished to express his sympathy with those who were carrying out that work. In this connection it is interesting to note that the Scriptures in no less than fifty-two different languages were sold last year from the Bible Society's depot at Johannesburg, and a fifty-third language was asked for by a newcomer to "Golden City" he wanted the Bible in Icelandic—which was unfortunately not in stock at the moment.

BUILDING A SPLENDID RESIDENCE AT WESTFIELD

The new house which E. R. Machum is building at Westfield to replace the one which was destroyed by fire is to be one of the handsomest houses on the river. The plans were drawn by Architect Mott. The house is to be much larger than the old one, and is to have a large cellar for which excavations are already made. Mr. Machum may use it for a winter as well as a summer house, and for this reason has called for tenders for installing heating apparatus. He is also going to light the house by electricity, installing his own plant which he will also use to pump the water for the house. It is expected that the walls and outside will be completed before winter sets in, and the inside fixed up early in the spring to be ready for the summer season.

"THE POWER OF THE PRESS."

To the Editor of the Star:—The above line was the expression of a number of church-going members of Exmouth street church on Sunday evening on their exit from service, at the change made of the former disturbances at the extension of that street on previous occasions. The article in the Star on Saturday last had the desired effect. The citizens of that neighborhood feel that the Star's timely article was much read, and the absence of the hoodlums mentioned are much appreciated by a READER.

LOTS OF GOOD MOOSE HEADS BEING RECEIVED

Many Sportsmen are in Luck Judging from the Heads Sent to Walter Carnall.

Walter H. Carnall, the taxidermist, has at his store a number of beautiful moose heads obtained by sportsmen all over the province. This morning a large head arrived from Albert, the property of O. H. Anderson, who secured the moose at the head of Little Salmon River. The antlers are very large, measuring about 60 inches from tip to tip. S. Daves, of Tracy Station, has also sent a large head to Mr. Carnall to be mounted. The animal was secured near Mr. Daves' home. W. S. Troop, of Digby, shot a beauty in Digby Co., and the head arrived at Mr. Carnall's on Saturday. The antlers measure over 60 inches. A moose head, the property of John Jackson of this city, has also been brought out of the woods. Other successful hunters have been Mch. Bousley, of St. Martins, and Leon Harper, of Anagnag, each having secured fine specimens of moose. Mr. Carnall says that very few caribou heads have yet arrived. The season is a little early, and the sportsmen are all after the lordly moose.

ANOTHER BABY WHO HAS DONE A LOT OF TRAVELLING

Little May Donovan, Not Yet Five Months Old, Has Many Miles to Her Credit.

The Star on Saturday published an article about a wee girl of not quite two years who has travelled over fifteen thousand miles in her short life. There is another little traveller in St. John who has also had some experience in the travelling line and that wee May Donovan, the little daughter of Mr. and Mrs. Stephen Donovan, of 23 Peters street. Little May Donovan was five months old on the 15th of October and has already covered several hundred miles. This little girl, who was born in Ohio, was taken to Fall River, Mass., a distance of 850 miles, when only three weeks old, visited different cities in this city, travelling another hundred miles, and finally when three months old, she left Fall River and came to St. John, 350 miles more. The little traveller's mother also says that May was as good as gold all the time and won for herself the admiration of her fellow travellers.

WESTFIELD RESIDENTS FAVOR SPORTING ASSOCIATION

Nearly All Have Voted in Favor of the Plan Proposed by Messrs. Dunn and Rothwell.

The summer residents of Westfield intend forming an association for the purpose of boating sport and amusements for Westfield next summer. Some time ago Messrs. G. C. Dunn and W. C. Rothwell addressed a circular letter to the residents of Westfield offering some suggestions regarding the forming of such an organization and the providing of amusements and sports. Among the different suggestions offered was that an association be formed comprising all the residents from which committees could be appointed to manage the different sports. The above mentioned gentlemen have received answers to nearly all the letters sent out and without exception they are in favor of the suggestions. Accordingly it has been decided that as soon as all the summer residents of Westfield have moved into the city a meeting will be held and plans made for next summer. Among the different sports mentioned are boat racing, swimming contests and tennis. The suggestion is also made for the erection of a large hall suitable for dancing. It is hoped the meeting will be a success as an organization like the one proposed is just what is needed to boom Westfield as an ideal summer resort.

REV. H. G. MELLICK IN HIS FORMER PULPIT

Regina Clergyman Has Another Chance to Address His Old Congregation.

Rev. H. G. Mellick, of Regina, Saskatchewan, preached to his former flock in Brussels street Baptist church on Sunday morning. He said it gave him a great deal of pleasure to be enabled to again fill the familiar pulpit, and could honestly say that in all his pastoral career he had never enjoyed a charge as much as that Brussels street. Rev. Mr. Mellick also made reference to the way in which he became the pastor of the St. John congregation, which engagement was quite accidental. It was after the demise of the Rev. Dr. J. E. Hopper and the church was without a leader. Mr. Mellick happened to be passing through the city on his way from the west to be married in Nova Scotia. He occupied the pulpit as a supply preacher, was called to the vacant position, and accepted. After the service yesterday he was warmly welcomed by his flock. Mr. Mellick shortly returns to Regina. He has been propagating western mission work on a tour of the maritime provinces for a couple of months past.
