THE STAR'S GREAT CONTEST GOING WITH A SWING

Get In Among the Early Ones and Secure a Lead for One of the Big Prizes—Read Carefully All Conditions, Then Start

Candidates will bear in mind that The Star cannot be sent by mail in the City of St. John.

While quite a number of nominations have been received at the Contest Department there is still room for more and the wise ones who get their names entered the first few days gain much, as their friends in all parts of the country will see their names published and will send in subscriptions in their favor.

Another thing. While the rules are published in the paper a great many people don't understand them or else do not read carefully. Just yesterday a lady telephoned the Contest Department for information. "I've read the rules," she explained, "but I can't make head nor tail out of them. I want to try and win one of those prizes, but I don't just exactly understand how to go about it." As she was talking she was very much interested to read to call Miss Hersey from Jersey here on July twenty-first. Theodore H. Bird, who has been directing an amateur dramatic company here and at St. John, will take the local company to St. John shortly.

MONKTON IS PLANNING ON A NEW SCHOOL BUILDING

MONKTON, N. B., July 14.—At a meeting of the school trustees last evening it was decided to call for competitive plans for the proposed new school building. The new structure is planned upon somewhat novel lines and will be built close to the present school building, so located as to form the central one ultimately of a group of three buildings, the aim being to meet public opinion by not erecting school buildings higher than two stories and basement. A new sanitary plant was decided on for Victoria school.

NEW I. C. R. SHOPS TO BE BUILT IN ST. JOHN

Tenders are Asked for Car Repair Plant Here

The Tragedy of Walter Steves' Death—Amateur Players Going to Moncton—Team Struck by a Train.

MONCTON, N. B., July 14.—The I. C. R. new board of management is calling for tenders for the erection of car repair shops at St. John, N. B. Tenders, it is understood, are to be in before the end of the month.

Coroner J. D. Ross has decided that an inquest is not necessary in regard to the death of Walter Steves, the young man who received fatal injuries by falling under a working train on the G. T. R. near the city yesterday afternoon. There were unusually pathetic features in connection with the death. Steves' brother was an eye witness of the affair; the two brothers just having eaten dinner together when Walter boarded the train, slipping beneath the wheels before the eyes of his horrified brother a minute later, and being terribly crushed. The deceased young man had been married but four months and his death was a fearful shock to his bride. He was inspector for Corbett and Flesch, on the new railway line.

St. John amateur dramatists will play Miss Hersey from Jersey here on July twenty-first. Theodore H. Bird, who has been directing an amateur dramatic company here and at St. John, will take the local company to St. John shortly.

When Kaufman enters the ring he will be in the best possible shape that I can put him in and he could not do himself justice and fight in August or September."

MEDICAL MEN MEET IN CHARLOTTETOWN

President Murphy Deals With Important Subjects

Teachers, in Convention, Ask a Big Salary Increase—Farmers Are Also Having a Conference.

CHARLOTTETOWN, P. E. I., July 14.—The meeting of the Maritime Medical Association opened here this morning with a good attendance. The President, Dr. C. G. Murphy, of Tignish, in the chair.

Mayor Prowse welcomed the visitors to the city. Dr. Atherton, of Fredericton; Chisholm, of Halifax, and McLachlan, of Charlottetown, were appointed a committee to deal with Dr. Roddick's suggestion submitted to the meeting of the Provincial Association this morning to adopt reciprocal registration. Dr. A. F. Miller, of Saranac, N. Y., read a paper on the diagnostic value of tuberculin in pulmonary tuberculosis.

Tonight President Murphy will deliver his annual address on the "Educative responsibilities to mankind in general of the physician." He will speak of the grave responsibilities bestowed upon the latter who is made the guide, counselor and friend in the home. The dangers of motherhood will be referred to and the great care to be exercised at critical stages emphasized. The doctor will speak strongly against diseases resulting from immorality, and point out the duty of the physician who should attend to the correction of a vicious heredity by properly instructing his clients. In dealing with tuberculosis, Dr. Murphy believes in encouraging a system whereby the weak shall be provided for by mating with the strong and the process of true national selection brought about. The white plague would thus be eradicated without danger to the social system.

CHATHAM, N. B., July 14.—The creditors of D. A. Coat who conducts a clothes pressing and dyeing business here for some months are anxious about his disappearance from town a few days ago. It is thought he is away to the States. Lately he has gone into the Star Steam Laundry business with S. A. Gould and has left the books in a bad state, collecting a lot of debts and failing to pay employees of the laundry. Coat was in town Saturday and is known to have collected considerable money.

HEAVY FIGHTING IN TEHRAN TODAY

Cossacks are Shelling the Nationalist Forces

Shah's Army is Nearing the City—Protest Made to Foreign Embassies—Russian Flag is Being Fired on.

TEHRAN, July 14.—The firing in the streets of Teheran that has been going on more or less continually since the Nationalist forces made their entry into the city yesterday morning at 5 o'clock, became more serious at midnight last night when the Persian Cossacks opened a heavy artillery fire on the Nationalists, who at that hour were in the house of Col. Liakhoff, the military commander of Teheran, where they are now being shelled by the Cossacks. Rifle and artillery fire has been practically continuous since yesterday morning.

Soldiers of the Shah from Sultanabad have approached to within three miles of the city and are now shelling Isfahan, the quarter of the city where the Parliament Building is situated. It is reported this morning that the Shah's troops are endeavoring to enter the city by one of the northern gates. The Nationalist leaders have just transmitted the following message to the British and Russian diplomatic representatives: "In spite of the fact that the Russian flag is flying over the house of Col. Liakhoff, Nationalist forces are being fired on by Persian Cossacks stationed under the roof of this house."

Action of the U. M. W. A. in Calling a Strike is Endorsed by Ruling Body—More Trouble Between Mayor Douglas and Ottawa

GLACE BAY, July 14.—There is little change in the strike at the collieries today. Quietness reigns at all the collieries and no disorders have occurred for the past several days. The presence of the troops has had a quieting effect on the strikers and apart from the U. M. W. members quietly talking to the men and advising them to remain from work they have not forcibly prevented any of the men from returning to work at the various mines. This opinion, however, is generally expressed not only by independent business men but also by sympathizers of the mine workers that if the militia was ordered from the collieries serious disturbance would ensue which perhaps would result in bloodshed. The report that the government has decided to retain the troops here indefinitely is no doubt correct as the troops quartered near No. 2 colliery yesterday removed the camp to a permanent location at Table Head the former site of the Marconi towers, where they have established their headquarters for the remainder of their stay here. The situation at the collieries in regard to work is reported from official sources to be improved this morning. The star correspondent was informed at 9:30 that the company had 1,925 men under ground today, and an output of at least 6,000 tons would be secured.

PECULIARITIES OF A RICH IMBECILE

Carried a Dummy Cigar Painted Red on the End, But Never Smoked —Other Oddities.

The hearing in Dublin in the case of a rich imbecile named John Boyce, whose relatives are trying to recover the estate he gave away, apparently, to an agent, Edward St. John Brennan, is attracting considerable attention.

Mr. Charles S. Finch, brother-in-law of John Boyce, said that Boyce never smoked, but he carried in his hand an imitation cigar, having its end painted red.

Mr. Edward Foley, solicitor, described the condition in which Boyce was discovered on April 26, 1907, at Naples in a poor lodging house. Boyce's apartments, on the top floor, were very dirty, and showed signs of eccentricity. Hoops of burnt matches were gathered together on chairs. Two old umbrellas were kept open and used as receptacles for bits of refuse. The floor of one room a large map of Europe was spread.

Boyce was in bed and had the pallid face of a man who had not eaten solid food for months.

Counsel read a letter by Boyce from Naples to his sister, in which he said: "I call Naples like the infernal regions you read of in Homer's works, and the women here are regular devils incarnate."

His sister wrote to him as to his attendance at church. He replied: "You ask if I am travelling on the narrow road to Paradise. I sometimes do, when I see any light ahead; and then I have a turn on the broad road which leads to destruction for the sake of the change, which is more agreeable."

Counsel read a letter, dated April 15, 1878, from Mr. Boyce to the defendant, in which the writer said: "I have only got one good pair of trousers, but they don't go well with the new coat, they are too bright in color. I would like to get a jacket buttoned all down the front. Why don't you think of bringing me a whole suit? Can the alms of war permit it? You know, Ned, I take great care of my clothes."

Mr. Brown said there was one curious letter of September 13, 1881, which was found in Naples addressed to Mr. Brennan but never posted, which he would read for the purpose of showing the mental condition of Boyce six years after the deed was executed. The letter stated: "By this time my cook enters with the mysterious iron box and I get my dinner. I then consult my brass, wood, and iron stick, which is now a regular companion of mine, like a book is to some people, for I hold regular communications in my own mind which you shall hear as I proceed with this slight narrative. Whether the dinner is a good one—that there is no fourth in the pot—I consult one of my portraits on the canvas and the one in

chassis behind the glass by holding the stick near them and asking them in my own mind what they think. The minutes does the business by readily looking at the portraits. I by degrees see the mouth move and the voice whizzers in my ear to this effect: "You are an ass and a stupid; go ahead and eat your dinner." So I ate myself and eat my dinner. John Boyce is now an inmate of the Stewart Institute for Imbeciles, Dublin. Before his discovery in Naples a year ago he had been out of Ireland for thirty-seven years, most of which period he had spent in Naples, where, through the agency of the British Consul, he was recovered for his relatives in a top floor of a poor lodging-house, in abject destitution, over seventy years of age, "sick in body and hopelessly imbecile," counsel said. He began life with an income of £100 a year.

HE REPORTS USING MENINGITIS SERUM

It is stated that Dr. Simon Flexner, the director of the Rockefeller Institute for Medical Research, has now tabulated the results of his serum treatment in 713 cases of cerebro-spinal meningitis. His figures show the greatest mortality in the disease is in the first two years of infant life. The Flexner serum cured more than 42 per cent of these cases, as against only 19 per cent of cures under the old method of treatment.

The next highest rate of death in meningitis is among children of from two to five years of age. The serum cured nearly 27 per cent of the patients in this class. When used in children from five to ten years of age the mortality was lowest of all—only 15 per cent. Persons more than fifteen years old seem to have cerebro-spinal meningitis of a type as severe as infants. The serum cured between 23 and 28 per cent of the patients from fifteen to twenty years of age.

Early injection of the serum, Professor Flexner says, is the great point in the serum treatment. The mortality among those injected in the first to third day was a little more than 25 per cent. Among those injected in the fourth to seventh day there was nearly 28 per cent of deaths. The mortality among those who were not injected until the seventh day or after exceeded 42 per cent.

FRENCH SEIZE GERMAN COWS. Wander Across the Frontier and Fall Into Hands of Officials.

PARIS, July 13.—A herd of cows belonging to an Alsatian farmer wandered across the German frontier into France near Ribesville yesterday morning, and sixty-three cows were caught by the French custom house men and put in the pound. The customs claim \$300 indefinitely before returning the cows to their German owner. Considerable excitement has been caused on either side of the frontier, and a diplomatic incident is possible.

F. W. DANIEL & CO. LTD., London House Charlotte St. FRANKFORT IS HAVING BIG AIRSHIP SHOW All the Latest Types in Flying Machines are Placed on Exhibition. BERLIN, July 13.—The international aeronautic exhibition, which opened at Frankfort on July 10 for three months, is the most remarkable enterprise of the kind ever organized in any country. A fund of \$250,000 has been guaranteed, and prizes amounting to \$50,000 are offered. There are eleven different sections of the exhibition were planned, but these not proving exhaustive of everything connected with aeroplanes, several new sections—large collections of objects having reference to the history of the conquest of the air, the literature on the subject, and an ornithological group showing the flight of the original teachers, the birds and insects, with photographs and other illustrations—have been added. Every kind of machine for progress through the air is, of course, represented, including airships, balloons, aeroplanes, and all the appliances connected with their construction and propulsion. Not even the proper dress is forgotten, for in some of the balloon cars dolls in practical, and not too airy, costumes show ladies what they should wear when sailing in the sky. Of the airships competing the German specimens are naturally the greatest in number, and include all the systems that have hitherto proved best, except the Gross military balloon, which is not computed for military reasons. There are, however, two French balloons, also purchased by the German government; a motor airship, constructed by Herr Clouth, of Cologne; another built by Herr Bristow, who works with the assistance of the German minister of war; the Zeppelin, the favorite of all; and among many others, one of a new shape, like a mushroom, built by Herr Rodsch, of Munich—one of the most indistinguishable and clever of German aeronauts. The two great rival firms, Eberhard and Krupp, both send exhibits. Krupp sends guns that reach balloons and airships in flight, and also guns that can be carried in balloons, probably resembling those shown at Paris in December, which were, unfortunately, Eberhard sends armor-plated flying machines. There will be something of special interest to see every day. The balloons will always be cruising about,

WOMEN TO BUILD AIRSHIP FOR NATION

Novel Appeal for Funds to Construct Machine That Will Be Thoroughly British. LONDON, July 13.—Lady O'Hagan and Mrs. Aimes Watts Smyth, chairman and honorary secretary of the Women's Aerial League, have issued the following appeal in the newspapers: "Now that a real interest in the subject of aviation as a means of national defense is beginning to manifest itself throughout the country, it is of the first importance that the movement should be directed along the right lines. The Women's Aerial League, having carefully considered the matter, is convinced that the proper course is to build in this country a British airship, made of British material and constructed by British mechanics. This country ought to be entirely independent of any assistance of foreign firms in a matter of first importance to the industry, the honor and the safety of the empire, and for this reason we shall make it a part of our policy to found scholarships for the young men, being British subjects, wishing to take up aerial engineering as a profession. It is on these grounds that the Women's Aerial League has resolved to appeal to women throughout the empire to support the Women's League by their brains, money and wide outlook. They can do this most effectively by joining as members, and by supporting the fund founded by the Women's Aerial League to carry out the policy here outlined as the first and most urgent part of the educational propaganda of the League, and to share their share of establishing within the British Empire a permanent and progressive industry."

GEN. BOOTH OPENS HOME FOR OUTCASTS

Another Shelter for London's Poor to Credit of the Salvation Army. LONDON, July 13.—General Booth was in the best of health and spirits yesterday when he opened the Salvation Army's Home for Men in the Blackfriars road. The vigorous veteran climbed three long flights of steps to the topmost floor, where the ceremony took place, under the chairmanship of Sir Joseph C. Dimsdale. He was supported by Sir T. B. Crosby, Sir P. P. Alliston, Alderman C. Johnston and other influential fellow-citizens of the general, to whose admission as an honorary freeman of the city the ex-London Mayor referred with pride in the course of his speech. The general delivered a long and characteristic address, full of sympathy for the outcasts whom the new home is intended to succor. This place, which had been rebuilt with all the necessary alterations required by the London County Council, provided sleeping accommodation for 445 men at the charge of 8 cents a night, and for 10 cents supper and breakfast were provided in addition. There was a large lavatory room, and a man got the opportunity too of washing his shirt if he had one. Two or three years ago there was opened a similar home in Middlesex street. On that occasion a city gentleman, member of the Stock Exchange, was so much impressed with the value of the work that he promised

ABDUL HAMID ORDERED TO APPEAR IN COURT

Firm of Constantinople Jewelers Has Big Claim Against Ex-Sultan. CONSTANTINOPLE, July 13.—An interesting legal action is pending against Abdul Hamid, the ex-sultan. The plaintiffs are a firm of Constantinople jewelers, named Constantara Brothers. They were court jewelers to Abdul Hamid, but the latter's spies having ascertained that the firm had business relations with Hechad Effendi, now the Sultan Mahomed, Abdul Hamid ordered the shop to be closed and expelled the proprietors. Messrs. Constantara estimate their loss at \$100,000, but owing to the heavy fees payable to the tribunal are claiming \$20,000 only now, reserving the right to proceed for the recovery of the balance later. Upon the application of the petitioners the tribunal yesterday issued a warrant ordering "Abdul Hamid, de-throned Sultan," to appear and offer his defense before the court in Salonica on July 15. The warrant was handed to a process-server, who went to the Villa Allalini, Abdul Hamid's residence. He was refused admission by the guard, and on demanding to see the officer in charge was informed that the villa was under military control and that it was impossible to serve a writ except through the medium of the commander of the Third Army Corps, Mah-moud Chieftain Pasha. The president of the tribunal has accordingly written to the governor of the vilayet including the writ and requesting him to make the necessary arrangements.

DID HARRY THAW THREATEN WIFE?

Lawyer Puts Question to Mrs. Thaw SHE APPEALS TO COURT Judge Inclined to Regard Conversation With Husband Confidential. WHITE PLAINS, N. Y., July 13.—Evelyn Nesbit Thaw, as pretty as ever, petulant and school-girlish, and dressed in the familiar blue which she wore so much during the two trials of her husband, Harry K. Thaw, for the murder of Stanford White, was on the stand for more than an hour before Justice Mills in the supreme court here today, subpoenaed by the state in its fight to keep Thaw in the asylum for the criminal insane at Mattawan. At one time today while the fencing over the admissibility of the questions asked Mrs. Thaw in her husband's suit was under discussion she turned to Justice Mills and said: "Will I be in contempt if I don't answer. I cannot afford to go to jail, and as my husband is not paying me anything I have not money enough to hire counsel."

WASTED FORTUNE; IS NOW A PAUPER

Former Candidate for Membership in Parliament Sent to an Almshouse. LONDON, July 13.—To escape being sent to prison for drunkenness, Robert Day Melhuish, a former parliamentary candidate for the borough, yesterday agreed to enter the workhouse at Grimsby. At one time Melhuish was one of the wealthiest fish merchants in England, but he squandered his money recklessly. He was idolized by the people of the town, and served on the Town Council, School Board and Board of Guardians. His only check in public life was when he opposed Sir George Doughty, M. P., as an independent Conservative candidate. Turning his business into a company, Melhuish lived extravagantly on the proceeds, and ultimately came to penury. He was only saved from entering the workhouse he had governmentally carried out the policy here outlined as the first and most urgent part of the educational propaganda of the League, and to share their share of establishing within the British Empire a permanent and progressive industry."

TOWN IS WRECKED BY GIANT HAILSTONES

As Large as Pigeon's Eggs, They Wrought Much Havoc Everywhere. MOSCOW, July 13.—A hailstorm of extraordinary violence, followed almost immediately by a cloudburst, has done enormous damage in the town and neighborhood of Nicolief. Three persons, a woman and two children, were drowned in a cellar dwelling before they could be rescued, and the low-lying part of the town was flooded to a depth of three feet. A number of people, more especially young children, were seriously hurt by the hailstones, which were fully as large as pigeon eggs, and here and there of still greater dimensions and weight. All the orchards and fruit gardens, as well as a great portion of the acacia trees which line every street, were destroyed or smashed within half an hour. The long and descending road to the port was for a considerable time a swiftly-running stream, carrying an immense mass of all kinds of debris into the harbor basin. Tramway traffic is stopped, as in many places the metals are underwashed to a depth of five and six feet. The wholesale destruction of window-panes gives the houses in many streets the appearance of having been riddled with small fire. There is scarcely a square foot of glass left in the extensive conservatories at the admiral governor's palace.

IN A HURRY TO FLY

Russian Buys Machine, Accends, Falls and Breaks His Leg. PARIS, July 13.—Count Carl Heberg, a wealthy resident of Moscow, was too enthusiastic witness yesterday of the flight of M. Delagrane on his aeroplane. He begged M. Delagrane to let him try his hand at flying, and when he refused proposed a thick wad of bank notes and bought the aeroplane on the spot. As soon as it became his property, Count Carl insisted on trying a flight. It was half-past 7 and getting dark, so M. Delagrane warned the count that as he had never tried to fly before he had better wait. The Russian answered that the machine was his now, and that he would do what he liked. He set the motor in motion, rose into the air, then fell to the ground head first, smashing the aeroplane to pieces, and broke his leg.

And Now for That Greatest of All Clothing Opportunities! OAK HALL'S ANNUAL MID-SUMMER SALE

Sales may come and sales may go, but the Oak Hall Mid-Summer Sale remains an unmatched and unmatched money-saving opportunity. And every year this annual sale becomes more important and wider in scope. As our business grows so does our stock, and as a natural consequence we're able to offer a greater quantity and a broader variety with each recurring sale. From every standpoint—quantity, variety, quality and value—this will be our greatest sale.

Table listing various clothing items such as Men's Suits, Men's Rain Coats and Top Coats, Men's Mackintoshes and Waterproof Coats, Men's Trousers, Straw and Felt Hats, and Boys Two-Piece Suits with their respective prices.

Table listing Men's Furnishings—Unusual Bargains, including Underwear and Shirts, Night Shirts, Sweaters, Hosiery, Collars and Cuffs, Neckwear, and Boys Washable Suits.

Table listing Boys Two-Piece Suits, Boys Three-Piece Suits, Special in Norfolk Suits, Young Men's Suits—Long Trousers, Boys Washable Suits, Boys Fancy Reefers, Children's and Boys' Hats, Girls' Tailor-Made Coats, and Boys' Furnishings.

Remember the clothing will be sold at less than our own regular prices—and when you consider that as makers we are able to sell clothing at least 25 per cent. under others you can realize what this reduction means. In scarcely any instance is the saving less than half of the generally prevailing retail prices and in many cases it is more. No goods on approval. Be on hand early and come as often as you can.

OAK HALL. SCOVIL BROTHERS, Limited. ST. JOHN, N. B.

BIG QUESTION TO BE DECIDED Are Outside Divorces Good Here? THE FERGUSON SUIT Counsel for Plaintiff Declares Wife is Living in Adultery

deration, and since then the two have lived together as husband and wife. The libel claimed that the divorce granted in California had not been recognized by this province and that the defendant was living in adultery with Henderson. The defendant by her answer claimed that the divorce was good.

Mr. Teed replied briefly. He said that he was compelled on behalf of his client to say that the divorce in California could not be recognized as binding in this province and it would be useless for him, after the citations made by Mr. Phinney, to contend otherwise. Mr. Teed said he would give judgment on behalf of Mrs. Ferguson not to oppose the application but to state Mrs. Ferguson's position. Mrs. Ferguson or Mr. Henderson as she now wanted it stated in open court on Wednesday, passed through here this afternoon about three o'clock. Among the delegates were many railway men of note, who were warmly welcomed by the I. C. R. board of management and many of the officials here.

B., July 12.—Mrs. Abel Fawcett of this city received word today of the shocking and sudden death of her brother, Walter Ayles, who was this morning found dead in bed at his home, Little River, Albert county. Ayles had been in poor health for two months past, suffering from heart trouble, being confined to his bed for the past two weeks, and while little hope was held out for his recovery, his condition last night did not seem to be worse than usual, and the neighborhood was greatly shocked by the news of his sudden end.

SCHOONER ASHORE ON A CAPE BRETON ISLAND NORTH SYDNEY, N. S., July 12.—A telegram was received here this evening that the schooner Otto, of Shelburne, of Halifax, which sailed here Saturday at the Nova Scotia Steel and Coal Company's pier, had run ashore on Alan of War Point, in Bourlandie Island, in the Bras D'Or Lake, today. The Otto was bound for Baie-Comeau, N. B., and was working her way along in thick fog when the accident occurred. The steamer Gladiateur left at a late hour tonight for some of the wreck. The vessel is reported to be badly damaged.

AUSTRIA AND RUSSIA ON UNFRIENDLY TERMS Bitter Articles About Francis Joseph's Empire Said to be Officially Inspired. ST. PETERSBURG, July 13.—Clouds are gathering again over the relations between Austria and Russia. The blunt Russian denial of the czar's reported intention to visit the Emperor Francis Joseph during his European journey, together with several very bitter articles against Austria in the Russian press—articles which Vienna considers to be inspired by the Russian foreign office—have caused a disagreeable strain.

NO CHANGE AT INVERNESS INVERNESS, C. B., July 13.—Everything was quiet here today and there was no interference with the men either going to or coming from their work. Summer Reductions in Costumes and Wash Dresses  
Final Closing Out Sale of Special Suits

A condition of our adding a department of suits and dresses, was that under no circumstances should goods be carried over beyond the regular season. We have heretofore discounted very liberally any lines that required closing out, but have now reached the season when we must be prepared to take the bitter with the sweet and accept losses instead of profits. Fortunately the number of costumes we find it necessary to reduce below the cost of making alone is not over a dozen, but the price principle is now brought to bear to produce the results aimed at—to close out everything that is not absolutely staple.

LABOR CONGRESS OF CANADA  
DEMANDS THAT THE TROOPS  
IN CAPE BRETON BE WITHDRAWN

(Continued from Page One)  
The following has been given to the press by President Ross in regard to his visit to the troops: "His Lordship Bishop Cameron did me the honor of calling on me at my house in Sydney, which distinction I appreciate very highly, and I have today returned His Lordship's call."

The chief topic was naturally the present labor trouble and His Lordship was impressed by the lottily humanity and earnestness of his sentiments and assured him that all danger of possible violence had been cleared by the presence of troops and furthermore when the unfortunate strike was over managers and officials had been cautioned to take every measure to remove all causes of bitterness and recrimination. I further stated that it would be our policy to give every man absenting himself a chance to get back to work.

"I hesitated before saying anything to the newspapers about these interviews, which are really of a personal and friendly character, but I am inspired by His Lordship's interest in the present situation and his misrepresentation in some quarters and I think it only right to say that his lordship's sole object is to do what he possibly can as a Christian gentleman and as the honored leader of a church which embraces a large body of our employees to prevent harm and disturbance to the above named people."

Yesterday afternoon Mayor Douglas received the following telegram from Ottawa: "I have the honor to acknowledge the receipt of your telegram of the 13th inst. in relation to the military force, the law does not authorize such an order. The militia having been called by the civil authorities, General Drury is now in full charge. He has power to consult with you and all other civil authorities."

Mayor Douglas resented the action of the deputy minister of militia and asks for a reduction in the militia forces. His telegram follows: "I am of this town and its citizens, I will take the position that independent fair-minded citizens, of strong impartial judgment, not connected with any of the parties to the regretful labor difficulty, should act as magistrates, at the same time strongly reprobating previous complaints in regard to appointments made on grounds stated that the militia is not needed."

### BARROOM GENEROSITY ENDS IN THEFT CHARGE

One Beer-Drinker Accuses Another of Stealing His Wad—Homeless Old Woman Found Drunk.

There were nine prisoners on the police court bench this morning. Seven drunks, one old woman, were dealt with in the usual manner.

The woman claimed to have no place of abode in the city, but said she would go to Lepranx if allowed her liberty. She was sentenced to a term of two months in the Home of the Good Shepherd.

Wm. Lee pleaded guilty to profanity and was fined \$5. Fred R. Woodbine was charged by Lee with stealing two dollars from him in the Red Ball bar room last night.

Lee said that it must have been all a mistake as they had a little too much beer on board. Lee said besides his own money he had \$75 belonging to a friend in Woodstock named Dickson. Lee said that this was his first trip to St. John and it would be his last.

Hi. Nice, the proprietor of the Red Ball bar gave evidence that last night he saw Lee give Woodbine a two dollar bill and two one dollar bills to treat with. Woodbine took the two ones and placed them in his pocket, and purchased the treat out of the two dollar bill. Lee then called him a crook and requested that the two dollars be returned to him, but Woodbine refused to return the money.

Policeman Marshall told of making the arrest of Woodbine and offering him the two dollars to have the matter settled. Two bottles were taken off Woodbine.

Woodbine said he had been working at McAdam but intended to get work here.

The two prisoners were remanded to jail.

Woodbine claims New Jersey as his home but has recently been hanging round the King Square.

### CROWD OF BAD BOYS GATHER ON CLIFF ST.

Acting Disorderly, Breaking Glass, and Making Nuisances of Themselves Generally.

Cases of vandalism have been reported by residents of Cliff street. A crowd of boys have become a great nuisance to the neighborhood. The glass in St. Vincent's school has been frequently broken by lads, who assemble in the line. Their shouting and profane language can be heard at a distance. Only lately large panes of glass in the school have been smashed.

The names of the boys are known and unless the glass is replaced immediately the list will be handed to the police.

The Star is informed that the crowd is one of the worst in the city. As many as twenty boys congregate in the lane daily. The nuisance has existed for a long time and unless a halt is called several arrests will follow. The spot is at present under the surveillance of the police.
