PREMIER NORRIS ANSWERS THE STRIKE COMMITTEE

CALGARY IS ONLY SLIGHTLY DISTURBED BY STRIKE THERE; EDMONTON CONDITIONS SERIOUS

Street Cars and Other Public Utilities Operating in Alberta Capital, But Inactive in Edmonton—Police and Firemen in Edmonton Said To Be Under Orders From the Strike Committee.

Calgary, May 28.—Business was not noticeably dislocated today by the general strike. Street cars were operating and lighting plants, theatres and hotels were conducted as normally. Volunteers are at work in the postoffice, and more will be added, it was announced. About 200 of the Government employees are on strike.

Conditions at Edmonton were reported as more serious. The street cars had stopped, restaurants and hotels were closed or badly crippled, and the electric lighting system shut down. Police and firemen were said to be at work under orders from the strike committee.

ENEMY DEMANDS TWELVE BILLION MARKS BECAUSE OF BLOCKADE

Counter-Claim To Be Presented To Offset Indemnity Demand by Allies.

Versailles, May 28.—The German peace delegation here, it was learned today, will present a counter claim of 12,500,000 marks for damages from the Allied blockade, as an offset to the reparation demand of the Allied powers.

STRONGLY CRITICIZES CONDUCT OF OFFICERS DURING KINDEL RIOT

Captain Black, in Defending Private, Condemns Actions of Camp Authorities.

PLEADED NOT GUILTY

Soldier With Withered Hand Arraigned Under Court-Martial.

Liverpool, May 28.—At the Kinmel Park court-martial, strong criticism of the actions of the camp authorities during the riots was made by Capt. Black, defending Pte. James Scott, who alone of the camp was not charged with joining the mob.

The strange thing, said Capt. Black, was that this man should be in the army at all. He should look elsewhere for those responsible for the rioting, which would never have occurred had the camp been properly conducted. He should not be made the scapegoat of the higher authorities.

The evidence showed that the accused was with the rioters when the first flag was hoisted. He was seen standing near a wounded man, saying "Kill the damned scoundrels." "This is hell—come on, someone, lead us and we will go to them again!" The accused was removed under escort.

The case in which Pte. Whalley Hamelin, medical corps, and Pte. Everett Unfield Smith, 20th Reserve, were charged together with joining the rioting and with conduct prejudicial to good order and military discipline, was concluded, and the accused were both removed under escort. Evidence was given that a field court-martial had sentenced Hamelin to penal servitude for life, and led the rioters to Camp 20. The defence was that Hamelin was insane, and that Smith was not among the rioters, but following some distance behind.

HAWKER AND GRIEVE ARE DECORATED BY KING WITH INSIGNIA OF AIR FORCE CROSS

Daring Aviators Are Received At Buckingham Palace.

FIRST TO GET HONOR

Crowds in Front of the Royal Palace Cheer Intrepid Airmen.

London, May 28.—Harry Hawker and Lieut.-Commander Grieve, who reached here from Thurso, Scotland, after being rescued in mid-ocean when the airplane in which they were attempting to cross the Atlantic alighted near the Danish steamer Mary, were received by King George at Buckingham Palace this morning.

His majesty bestowed on Hawker and Grieve the insignia of the Air Force Cross. They are the first actual recipients of this order.

An immense crowd gathered in front of Buckingham Palace to witness the arrival of Hawker and Grieve, who were loudly cheered when they made their appearance. The crowd also gave them an ovation when they left the palace.

The Air Cross with which King George decorated Hawker and Grieve is a new honor which is bestowed for "devotion to duty."

SOPWITH AIRPLANE USED HALF OF ITS SUPPLY OF GASOLINE

London, May 27.—The Sopwith airplane, driven by Harry Hawker on his successful attempt to fly across the Atlantic, started from St. Johns with a full tank of 340 gallons. Half this amount had been used when the airplane alighted in the sea near the Danish transport steamer Mary.

In talking of the voyage, Lieut.-Commander Mackenzie Grieve said today that in his opinion the future of aerial navigation lies in the perfection of wireless equipment for airplanes, by which the machines may be guided.

AIRMEN REMAINED COOL WHEN WAVES DASHED OVER PLANE

London, May 28.—Describing further the trip of Hawker and Grieve in their attempt to cross the Atlantic in a Sopwith airplane, the correspondent of the Daily Mail says that Hawker remained seated throughout the voyage.

Continued on Page Three

Ruth Law to Make an Attempt to Fly Across Atlantic

Well-Known Aviatrix To Try and Make Flight Within Six Weeks.

Chicago, May 28.—Ruth Law, aviatrix, before leaving for New York today, announced that she plans to attempt a transatlantic flight within six weeks. She will use a new Curtiss land biplane, equipped with two Curtiss-Kirkham motors of 400 horsepower each, and will be accompanied by James H. Doolittle, her mechanic.

The machine is now being built for her by the Curtiss Company, she says. Miss Law recently returned from the Orient, where she was engaged in flying.

FOOD SUPPLIES ARE READY FOR PETROGRAD

Shipment Awaiting Release By Word From Allies.

Paris, May 28.—The allied council on food supply now has eight ships loaded with food products and flour, at Helsingfors, Danzig, Hangou, and other Baltic ports, and these cargoes had been delivered in Petrograd, and seven days, their delivery, however, will have to await joint orders from the allied powers, and the outcome of events in Russia.

RUSSIANS ARE NOT TO LEAVE PETROGRAD

London, May 28.—A Russian wireless message today denies the report that explosions had occurred in Petrograd, due to its approaching evacuation. The dispatch declares there is no intention of abandoning the city and that reinforcements already sent to the Gatchina front south of Petrograd are succeeding in driving back the enemy.

THE WEATHER

LOCAL TEMPERATURES.
Following were the highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night: Highest, 81; lowest, 51.

The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today:

MENTIONED AS POSSIBLE APPOINTEES AS BRITISH AMBASSADOR TO U.S.

DUKE OF DEVONSHIRE. GEN. JAN CHRISTIAN SMUTS.
Paris, May 28.—The names of the Duke of Devonshire and General Jan Christian Smuts are among those now mentioned as possible appointees as British ambassador to Washington.

"ONE BIG UNION" MOVEMENT IS CAUSE OF PRESENT STRIKES

Calgary, Alta., May 28.—Via Seattle.—The charge was made yesterday by Hon. Gideon Robertson, minister of labor, in a telegram to Mayor Marshall of Calgary that the present strike situation in Canada is a move by radicals to assume control of governmental affairs.

In his telegram sent from Winnipeg, Mr. Robertson charges the "one big union" movement as the underlying cause of the whole trouble.

GERMAN COUNTER PROPOSALS TO MAINTAIN PEACE TREATY IS NOT BASED ON "14 POINTS"

Enemy Delegates Claim That the Abandonment of Wilson's Conditions Would Be a Breach of a Legal Agreement—Argue That Present Status of Democratic Government Has Been Overlooked.

Berlin, May 27.—The German counter-proposals to the terms of the treaty of peace will, in the opening section, argue for the existence of Germany's contractual right to a peace based on President Wilson's fourteen points, because the Entente nations agreed to a peace on that basis, and neither Mr. Wilson nor the representatives of any other Allied Government have since demanded that peace be established on any other basis. Thus, it is argued, an abandonment of the fourteen points by the Entente would be a breach of legal agreement, and a dictated peace would be a breach of a given promise.

The counter proposals will declare that the terms of peace completely ignore the fact that Germany has repaid an "imperialistic and irresponsible government" by a strictly democratic one, and that Germany in her proposals for a league of nations has adhered to the principle of a limitation of armaments.

"It would be difficult to see," one section reads, "what different conditions could have been imposed upon an imperialistic government. The solemn assurances of France, Great Britain and President Wilson that the peace would be a peace of right, and not of violence, have not been kept, especially regarding territorial questions."

LABOR FEDERATION PROTESTS AGAINST TERMS OF TREATY

Paris, May 28.—The national committee on the general labor federation has passed resolutions condemning the secrecy in which the treaty of peace has been framed and protesting against the conditions imposed by an incomplete knowledge of the document.

The resolutions also protest against the denial of the right of self-determination of peoples; discussed annexation; the repudiation of solemn engagements concerning the League of Nations and the return to the old system of alliances; the absence of an international financial system and economic organization; a continuation of the economic war and the failure to incorporate in the treaty a real international labor charter.

Would Bar Plays by George Bernard Shaw from Canada

Edmonton Members of the I. O. D. E. Charge Author's Writings As Anti-British.

Montreal, May 28.—That George Bernard Shaw is openly anti-British, and that his plays should be barred from presentation in Canada, is the view of the Edmonton Municipal Chapter, I. O. D. E., in its recommendations tabled at the convention of the Imperial Order Daughters of the Empire.

The planting of black walnut trees through Canada as a war memorial to Canadian sons was suggested by Mrs. Montreal of Fort City, Ont. This, it was stated, would be a more fitting memorial than cold marble. The suggestion was that the Government donate these trees, and that citizens plant them.

The national chapter of Saskatchewan proposed a war memorial along educational lines, such as post-graduate facilities for research work.

KING ALBERT TO VISIT WASHINGTON

Paris, May 28.—King Albert of Belgium is expected to visit Washington to attend the initial meeting of the league of nations next October.

Strike Must End Before Manitoba Government Will Help In Any Negotiations Between Employers and Men

EMPLOYERS AND MEN MUST CHANGE VIEWS IF LABOR PROBLEMS ARE TO BE SOLVED

Toronto Manufacturer Gives Evidence Before Royal Commission.

MUCH UNEMPLOYMENT High Paid Munition Workers Object to Ordinary After War Wages.

Toronto, May 28.—"Work creates work; that's the point the men in the shop don't get," said T. A. Russell today. He declared that organized labor must bring some constructive plan to the bottom of the industrial relation problem before they would be welcomed with open arms by the employers.

John Duggan declared workers were losing hope in the present system of society.

T. A. Russell of the Russell Motor Car Company, declared that there was a desire on the part of the employer to get to the bottom of the labor difficulties. In his opinion the unrest was due in part to a laudable desire of everyone to improve his position. During the war there had been universal employment at high wages. There was now unemployment among unskilled labor. His company had employed 35,000 men during the war. They now had 550 on bicycle work and 250 on motor work or 600 altogether. By the end of the year they should reach 1,000 or 1,500 on motor work.

Must Get Assurance.
Manufacturers, he said, were reluctant to welcome unions with open arms until organized labor came frankly out on the question of limitation of production and as long as there were sympathetic strikes.

"If I enter into an agreement with my men," he said, "I have the right to expect that they will remain at work, unless they have a grievance."

Neither employers nor employees had been without blame in the past. The employers had paid attention too closely to keeping wages down and the employees of getting them up, without an eye to the vital matter of production. The present strike, he thought, would set back the relations between employer and employee for years. "It was not called on account of any grievance or urgency of the men working in the shops, but was an outside matter."

Mr. Bruce—"What was the grievance?"
Mr. Russell—"They had not any."

SCOTLAND TO SEE MANY LEAVE FOR HOMES IN AMERICA

Overseas Settlement Office To Provide Free Passage to Ex-Service Men.

London, May 21.—The overseas settlement office, virtually a department of the colonial office, has set on foot a campaign to get ex-servicemen to work and its scheme of operations has been approved by the cabinet. The office has been set up to provide free passage to ex-servicemen to America in immigration ships. Inquiries for transport are already enormous.

U-BOAT TO VISIT 25 PORTS ON WAY UP GREAT LAKES

Montreal, May 28.—The U.C.-97 which was in the harbor for the last thirty-six hours left at 6 a.m. today in tow of the tug Toronto for Ogdensburg, N. Y. From that point she will proceed up the river and great lakes to Milwaukee, stopping at 25 Canadian and American ports on the way.

WHEN CANADIAN SOLDIERS MADE A SLIP WORLD KNEW IT, BUT IF BRITISH, PRESS KEPT IT QUIET

Col. Peck, V. C., Replies to Criticisms of Truth, an English Publication—Maintains Certain Number of the British Newspapers Showed Unfairness in Comparative Reports.

London, May 21.—Delayed—Canadian Associated Press.—In a recent issue of Truth, an English publication, there are some serious criticisms of Col. Peck, V. C., for his strictures on Sir Charles Ferguson for putting Colingdale out of bounds to Canadians. Col. Peck now writes to Truth declaring it is a "case of an unwarranted falsehood" that he threw out at the end of the British press. What I did say was to point out that certain sections of the British press seized on every incident of irregularity in connection with the Canadians and blazoned it forth to the world, while even more serious things had happened in the British army."

Truth, replying to Col. Peck's letter today, alleges that he said that in 1917 he was in town when 14,000 British troops were in open insurrection and 4,000 Canadians were called in to guard railways and bridges. "This," says Truth, "is a mud-slinging, and it is also incorrect to say that the English press has given more prominence to outbreaks among colonial troops than among home troops."

MAJOR CHURCH TO HEAD BIG DELEGATION TO SEE PREMIER

Toronto Citizens Not Worried Over Prospects of General Strike Called For Friday Morning.

Toronto, May 28.—This city today enjoyed a temporary relief from the anxiety of an immediate general strike, while Mayor Church and his big delegation of employers and service employees, with board of trade and other representative citizens, prepared to leave tonight for Ottawa, to place the whole matter before the premier, Sir Robert Borden.

There has been no change in the situation since 2 o'clock this morning when the strike was called off. The postal clerks have been exhibiting some unrest over the delay of the Government regarding re-classification. There has been talk for some days of a general postal strike in the Canadian west, but so far as known here, the strikers in this service have been confined to the cities already in the throes of the general strike.

BELGIAN FRONTIERS ARE CLOSED, TROOPS TO BE MOBILIZED

Action Taken As Precaution in Event of German Not Signing.

Amsterdam, May 28.—A dispatch received here from Eindhoven states that the Belgian frontiers have been closed and that all Belgian soldiers have been recalled from leave. It is reported that general mobilization will be ordered at the termination of the period given the Germans to sign the treaty of peace.

NC-4 MAKES TRIP FROM AZORES TO PORTUGAL PORT

Flight of 800 Miles Is Made in Nine Hours and Forty-Three Minutes.

FINAL LAP TODAY? Last Leg of Journey Is From Lisbon to Plymouth, England.

Washington, D. C., May 27.—Blazing the way of the first air trail from the western to the eastern hemisphere, the United States Navy seaplane NC-4, under Lieutenant-Commander Albert Cushing Read swept into the harbor at Lisbon, Portugal, today, the first ship of any kind to have crossed the Atlantic ocean under its own power and through its natural element.

Taking the air at Ponta Delgada, Azores, at 6:06 a.m., Washington time, on the last leg of the transatlantic voyage, the NC-4 covered the 800 miles in 9 hours and 43 minutes, maintaining an average speed of better than 80 knots an hour. The total elapsed flying time from Newfoundland to Lisbon was 25 hours and 41 minutes.

At the first opportunity the big airplane will continue to Plymouth, 775 nautical miles to the north. Possibly Commander Read can start tomorrow. To the navy department, however, it makes little difference when he completes the journey. The great object of all the effort lavished on the undertaking—navigation of a seaplane across the Atlantic through the air—has been accomplished.

AIRMEN ARE DECORATED.
London, May 28.—The crew of the American seaplane NC-4, which made the first transatlantic aerial passage, landing at Lisbon last evening from the Azores, has been decorated by the British government. The great object of the Tower and Sword, says a message to the Wireless Press from Lisbon. The decoration was presented by the Portuguese foreign minister.

Challenge Cleanable Collars

Motoring

and soiled collars go together, but not when you wear a "Challenge Cleanable Collar."

Just wipe with a damp cloth and it is as spick and span as when first purchased.

LIFT OFF CORNS

WITH FINGERS

Doesn't hurt a bit and costs only a few cents

Magist! Just drop a little Frezzone on that tough corn, instantly it stops itching, then you lift the corn off with the fingers. Truly! No humbug!

Try Frezzone! Your druggist sells a tiny bottle for a cent to tell you how to lift your feet of every hard corn, soft corn, or corn between the toes, and callouses, without one particle of pain, or even a redness or irritation. Frezzone is the discovery of a noted Cincinnati genius.

WOMAN SO ILL COULD NOT WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health.

Perth Amboy, N.J. — "For three years I suffered from severe female trouble, had backache, a pain in my side and most of the time I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in my newspaper, and I tried it. Now I am better, feel strong, have no pains, backache or dizzy spells. Every one tells me how well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound — that is what makes me feel well and look well. I recommended it to my sister and she is using it now. You can use this letter if you wish, for it is certainly a grand remedy for a woman's ills." — Mrs. MARTHA STANISLAWSKI, 524 Penn St., Perth Amboy, N.J.

RETURNED OFFICER U. F. O. CANDIDATE FOR NORTH BRUCE

Lieut. Fenton, M.C., Chosen at Warton Meeting.

NO REAL DEMOCRACY

Lack of It Cause of Labor Unrest Prevalent Now, Says President.

WARTON, May 27.—Lieut. W. H. Fenton, M.C., of Arran Township, returned officer of the 15th Battalion, was by a large majority chosen U. F. O. candidate for the riding of the North Bruce at the next provincial election by 200 delegates in convention here this afternoon.

About 350 electors were in attendance at the meeting, the southern and central townships being well represented while the townships to the north and west were poorly represented. The U. F. O. spoke briefly at the convention and outlined the policy and aims of the association. He read an extract from a paper published in the riding which stated that the U. F. O. had come into existence early in 1918 and had been caused by farmers being desirous of securing exemptions for their sons under the M. S. A.

Empirically Contradicted. This he empirically contradicted, showing that the organization had been in existence over five years. He related the experiences of the farmers' delegation to Ottawa, and stated that their intentions were frequently misrepresented by a muzzled press. They had only been endeavoring to secure exemptions for sons of farmers who were in exceptional circumstances, and whose production would be materially decreased if they were not granted.

"We learned one thing from this delegation which opened our eyes," he said. "When 5,000 of us marched to the Parliament Buildings and we were refused an audience, and we were told that they would be our servants, showed us that they were our masters, for they would not hear our requests. This must cease, and we must have a fair representation. The only way to succeed is to elect our own men."

He attributed the cause of labor unrest in Winnipeg and the west and the possibility of the railway strike in the east to the fact that there was not real democracy in Canada.

We have real democracy in the U. F. O., the kind our boys dyed the blood of France fighting for. The force needs to be shown by our uniting together for proposed representation in Parliament, said Mr. Halbert.

Eleven men were nominated for the position of candidate, the majority being of the usual complimentary type and having no real political views. The ballot, C. Swale of Amabel; G. B. Otwell of Amabel; R. E. Steach of Amabel; H. Aikens of Arran, and Lieut. Fenton, who received the large majority, which had generally been conceded to him during the past fortnight by those conversant with the situation.

Before the ballot was taken the various candidates agreed to give the electors a list of proposals, and should a petition signed by 50 per cent of the electors requesting a recall be brought to the meeting, the resignation to be handed to the premier.

Made Brief Speeches. Brief speeches were made by the various candidates, in which they pledged their support to the U. F. O. and their intention to do so.

If you see fit to elect me I will go to Toronto to fight for the interests of the people of North Bruce, as I went to France to fight for the interests of the people of Canada," he said.

The political complexion of the riding has been considerably changed by the farmers' move. The proportion of the rural vote to the urban is about three to one, and the farmers are fairly organized and working hard. It is believed that the little possibility of a three-cornered fight between the U. F. O. candidate, William McDonald, the sitting Liberal M. P., and Dr. S. H. Foster, Warton, who has the Conservative nomination, Lieut. Fenton was formerly a Conservative supporter, and it is likely that he will contest the riding in opposition to Mr. William McDonald, M.P.

Canada Cannot Enact Law for Eight-hour Day

OTTAWA, May 27.—In the House this afternoon, W. D. Euler asked if the Government proposed to enact legislation to make an eight-hour day compulsory, to which Hon. Mr. McLean replied that it was not within the legislative jurisdiction of Canada to enact an eight-hour day law.

WONDERFUL STRENGTH FOR WEAK STOMACHS

Everyone Talking About the Cures Made by Dr. Hamilton's Pills.

There are despairing men and women by the thousands in this city, whose stomachs keep them in constant misery that can be quickly restored to vigorous health by Dr. Hamilton's Pills.

We know of no other medicine that possesses such power to kindle into new life the exhausted energies of chronic stomach sufferers.

There is an extraordinary power in Dr. Hamilton's Pills that searches out the weak spots, that braces up the delicate glands and complex workings of the stomach and bowels.

There are invigorating, stimulating tonic ingredients in Dr. Hamilton's Pills, coming from the great storehouse of Mother Nature herself, can be relied upon to be harmless. Guaranteed results follow to all who use Dr. Hamilton's Pills for Stomach Weakness, Gas, Sourness, Headache, Biliousness or Constipation.

Seekers of the better health cannot do better than invest 25c in this health-bringing family medicine.

GEN. CURRIE TELLS OF BRAVE DEEDS OF THE CANADIANS

Canadian Commander Is Honored At Gathering in the British Capital.

ROYALTY ATTENDS

Prince of Wales Announces He Will Make Early Visit to Canada.

LONDON, May 26.—(Canadian Press).—Speaking at a luncheon given to General Currie, commander of the Canadian expeditionary force, by the Canada Club, the Prince of Wales, responding to the toast of the royal family, said:

"In the name of the younger generation of England I wish Sir Arthur Currie and other ranks in the Canadian forces the very best of luck. I was almost going to say 'good-by,' but good-bye would have been a most inappropriate word, because I am very glad to tell you that I am coming to Canada very soon—I hope in less than three months' time. Naturally the prospect of this visit to the great Dominion would have delighted me in any circumstances, but now I shall enjoy it all the more, because I shall look forward to the pleasure of meeting many old friends again, and I hope of making a lot of new friends as well."

The dinner was attended by Prince Arthur of Connaught, General Sir Wood, General Byng, Sir Edward Carson, General Farmer, General Horne, General Turner, General Watson, Macdonnell and Bursall.

The Duke of Connaught, proposing General Currie's health, said that although he went out to France as only a militia officer, he had proved himself a thorough soldier, and everyone had been proud of the successor of Sir Julian Byng.

The general referred to General Byng as "the Canadians' old friend and trusted comrade," who probably would never realize the warm spot in their hearts the Canadians keep for him.

General Currie went on to say that the rugged strength of the Canadian was depicted in the manner, in which he had been able to adapt himself to conditions which he found confronting him as a soldier.

"If Victoria Crosses were given for saving life at risk of one's own, the Canadian could boast ten times the number they now proudly wear," declared the general. "Selfishness was unknown to our soldiers, even when suffering bitterly."

In proof of this he related the case of Sergeant Hugh Currie, 46th Saskatchewan Battalion, and Capt. Learmonth, 2nd Battalion.

"I have tried to point out some characteristics of the Canadian soldier," continued the corps commander. "He is going back to civil life possessing the qualities, while having learned the value of the military and collective effort, backed by discipline and self-restraint. The mental adjustment may require time, but he will have every confidence that the period of transition will be short."

Never Beaten; Never Felled. General Currie was given a civic luncheon at the Mansion House today by Sir Horace Marshall, the lord mayor of London.

The Duke of Connaught and Prince Arthur of Connaught attended. The company present also included Earl Reading, Gen. Byng, Sir George Perley, Gen. Turner, Sir George Foster and E. S. D. Bursall.

The board major, in proposing Gen. Currie's health, said that within the last 18 months the Canadian army defeated nearly a quarter of the enemy's strength. Gen. Currie was one of the greatest men, and the city of London in honoring him was only honoring the men under him.

Gen. Currie, responding, referred to the gallant troops of ancient London with whom the Canadians had fought in France and Flanders, especially acknowledging the debt of gratitude the Canadians owed to the Guards.

In all the years of this strenuous war the Canadians had never lost a gun, and in the last two years had never failed to take an objective and had never lost an inch of ground once it had been consolidated. There were Canadian brigades in whose trenches hostile feet had never stepped. Speaking of the League of Nations, Gen. Currie said it was a step in the right direction and brought us nearer that enlightened era when all peoples will be united.

CARPENTER INJURED AT INGERSOLL'S NEW MARKET BUILDING

INGERSOLL, May 27.—Harry Harveys, a carpenter, employed on the new market building, was seriously injured, although no bones were broken.

A widely known and highly esteemed resident of West Oxford, Hannah Clark, sister of George Turner, was called by death yesterday. She was aged 73 years old, and had been practically a life resident of West Oxford. She had been ill for several months.

She is survived by two sons, Clark in Sarnia, Ernest at home, and one daughter, Miss Mamie, in Toronto.

ENTHUSIASM HIGH WHEN CENTRE HURON LIBERALS GATHER

Annual Meeting Held at Seaforth Tuesday.

SEAFORTH, May 27.—The annual meeting of the Centre Huron Liberal Association, as constituted for provincial purposes, was held in Cardno's Opera Hall here today. Owing to the exceptionally fine weather, which was taken advantage of by the farmers to get in their long-delayed spring work, there was not the bumper attendance present there otherwise would have been.

But every division in the riding was represented by delegates, and the meeting was not lacking in enthusiasm. Both men and women were present in large numbers. The meeting was presided over by President M. Murdie, after the reading of the minutes and the treasurer's report, which showed a small balance in the treasury, the principal business of the afternoon, the election of officers and the selection of delegates to attend the provincial convention in Toronto next month was proceeded with.

Election of Officers. The election of officers resulted in the return of the majority of the old officials and the chairman of the different polling sub-divisions by acclamation. After the business was concluded, short addresses were delivered by W. Proudfoot, the sitting member in the Legislature and present leader of the Opposition, who gave a resume of the work of the recent session of the Legislature; by Harry Smith of Hay, president of the South Huron Federal Association; John Essery, Centralist, president of the local association for South Huron; Thomas McMillan, the Liberal candidate in the last Dominion election, and W. H. Kerr of Brussels.

The officers are: President, M. Murdie, Seaforth; first vice-president, J. L. Kerr, Clinton; second vice-president, W. Kerrigan, Ben Miller; third vice-president, J. D. Hinchley, Seaforth; secretary, J. L. Killerman, Goderich; treasurer, Gordon Young, Colborne; auditor, W. J. Paisley, Clinton.

The chairman for the various polling divisions in the riding are: Colborne, S. Bisset of Salford; Huron, James Watt of Byth; McKillop, John McDowell of Seaforth; Grey, John McNabb of Brussels; Clinton, George McLeannan of Clinton; Brussels, Peter Scott; Goderich, C. A. Nairn; Seaforth, J. D. Hinchley.

Delegates to the provincial convention at Toronto are: J. G. Grievie, McKillop, J. L. Kerr, Clinton; Mrs. Peter Scott, Brussels; and Mrs. (Rev.) James Hamilton, Goderich.

Alternates are C. A. Nairn, Goderich; William Hill, Ben Miller; Mrs. W. Manning, Clinton; and Miss Helen Stewart, Ben Miller.

INSECTS CARRY DISEASE. Destroy them with Keating's. Every insect you allow in the house spreads disease germs. Sprinkle Keating's and kill them before they kill you. Keating's is unrivaled, and is sure death to all insects. Cartons only 15c, 25c and 50c.

Keating's is unrivaled, and is sure death to all insects. Cartons only 15c, 25c and 50c.

REMOVAL SALE

As the time gets shorter and we must vacate our present premises, everything must be sold, including Suits, Coats, Dresses, Waists, Skirts and Millinery are offered to you at less than cost price. Thousands of dollars worth of women's and misses' smart style garments are being ruthlessly sacrificed. This removal sale continues every day until the merchandise is disposed of. Now is the time to save money, as all garments and hats are reduced to clear at any price. Remember the place.

TORONTO STRIKERS WILL GIVE NO CAUSE FOR ANY 'GUN-PLAY'

Not Going to Attempt to Run City—"Soviet Not Coming; Not Yet."

TORONTO, May 27.—Toronto labor leaders declare that the strike will be an orderly, well-conducted one.

"We know that they have guns and ammunition at Exhibition Park all ready now," said one leading laborer at the Labor Temple today, "but they will never use them. We will not raise a gun, we will just quit work."

"We have learned things," he went on. "Winthrop learned his lesson from Seattle. We are learning from Winnipeg. Belgian strikers before the war barred their breasts to machine guns. That is not necessary now."

"Will you follow the Winnipeg method and issue permits for certain places of business to keep open while the strike is on?"

"We may have to do that for the protection of the union men employed in work that is necessary to the preservation of human life," he replied. "But we do not intend to run the city or anything of that sort. The Soviet is not coming—yet!"

Four Nationalities Mixed Up in Police Court Case

Russia, Serbia, Austria, Greece.

All four nationalities were represented in police court Tuesday as the wind-up of a card party at 2025 Clarence street on Sunday evening, when Janko Gorga, Austrian, appeared on a charge of assaulting Custer Demetrot, Russian, and striking him with a hammer, also exhibited in court.

Demetrot told the magistrate through an interpreter, said to be a Serbian, that he lost \$50 at Gorga's house on Sunday night, and grabbed \$5 from the bank roll to stake himself for the coming week. Gorga's house, he said, hit him with the hammer. Demetrot's coat and hat in exchange, and when the loser returned Monday night to obtain his garments Gorga, he said, hit him with the hammer. Then Demetrot called Patrolman H.

Singleton from the street, who found evidence of a small fight at the scene of the party, and four or five men talking excitedly in unknown languages.

Old Scars. W. R. Meredith, counsel for Gorga, called upon the second interpreter representing Gorga to tell the magistrate that Demetrot had been fighting but had not seen the hammer. Demetrot exhibited scars on his chest, while Chief of Police Williams declared that Gorga's scars were healed up when he was arrested, and so they could not have been the result of the night's fracas. "They have them every night or so, chief," the lawyer remarked, in reference to the scars.

Fine Inflicted. Magistrate Graydon thought that Demetrot had gone to Gorga's house for the legal purpose of recovering his property, the same being his coat and hat, and assessed Gorga's fine at \$5 and costs, which amounted to another \$2.50.

Seventeen breaches of the motor vehicles act netted John Moulde, court clerk, a total of \$52, while six contraventions of city bylaws cost citizens \$10 more.

Frank Willson was committed to the asylum on evidence and information furnished by his wife. Willson had been under medical examination at the county jail for the last ten days.

Cassie Phillips, charged with vagrancy, was remanded for one week.

EIGHTEEN FREIGHT CARS DITCHED NEAR KINGSTON

KINGSTON, May 27.—This morning, eighteen cars of an eastbound G. T. R. freight train left the track about 2 1/2 miles west of Kingston Junction, the accident being caused by a broken rail.

The engine and caboose remained on the track. Wrecking crews had the tracks cleared for the resumption of traffic early this evening.

The loss is estimated at \$50,000. No person was injured.

31 VETERANS ARRIVE FROM TROOPSHIP BOHEMIA

Thirty-one returned men who arrived at Quebec street C. P. R. station at 7:15 last night, who, with two officers, comprised the S.S. Bohemia party for this district, were discharged at Dispersal Station K in 20 minutes.

The Bohemia encountered rough weather and fog during her voyage from Liverpool to Halifax, requiring delay which extended the length of the trip to ten full days.

Only four of the party are residents of this city. The remainder were motored to the city in buses and private cars. The C. G. R. brass band welcomed the party at the station.

RECOMMEND INCREASE FOR ENGINEER'S DEPT. AT COMMITTEE MEET

Ald. Drake's Amendment Carries and Question Now Goes to City Council.

No. 2 committee of the city council had a strenuous time last evening when the question of salary increases for members of the city engineer's department, sent back by the council for a recommendation, was to be discussed.

Engineer H. A. Brazier, who was in attendance, suggested that the increase should be limited to the amount of the cost of living, which was projected for this year, and that, as a result of the fact that a highly competent staff existed, the work would be done by the department without any assistance from outside engineers.

Immediately Ald. Moorhead was on his feet with an objection. He declared most emphatically that he not only would not vote for such a recommendation, but that if it were adopted he would move for a complete reorganization of the engineer's department. He moved that the matter be not reopened.

Ald. Drake moved in amendment that the city engineer's proposal be adopted, and Ald. W. A. Wilson moved a second amendment recommending half the increase submitted first and was declared lost, with only two votes recorded in its favor.

The amendment was then put and carried. So the engineer's staff gets its increase if the council adopts the recommendation of the committee.

Ald. Drake, in moving his amendment, declared that if the members of the engineer's staff should leave, the city could certainly not replace them at the salaries which the engineer was asking for them. He also pointed out that the cost of living was continuously advancing, and that, unless the city was prepared to pay fair salaries, it could not expect to keep good men.

The city engineer also declared that the men concerned were responsible for the work of the department, and he thought that it was not right that they should be receiving less remuneration for their work than some of the city laborers.

Acting-Mayor E. S. Little registered his objection, on principle, to the granting of increases after the tax rate had been struck, but he admitted that in the case of the men under discussion, they were what they were asking for. The danger, he said, was that having created a precedent, the committee would be bound to consider any other demands for increases which might be made.

Ask Ten Per Cent. Increase. The engineers at the incinerator, four in number, also asked for and were granted increases. Or at least the committee decided to recommend increases to the council. The chief engineer now receives \$2,850 a day and the assistants \$3,300. They asked ten per cent increase.

All the aldermen approved the increase. Ald. Moorhead voting for the recommendation.

T. C. Meredith wrote, stating that he was now in a position, if the city desired him to go ahead, to close the deal for the purchase from the London and Lake Erie Transportation Company the bridge and property adjoining which the city decided some time ago to acquire. He pointed out that, technically, the city had no right to sell the property, but it was willing to give deeds, and the holders of mortgages were prepared to sign releases. He asked that, if the council desired him to complete the deal, a check for \$7,500, the pur-

chase price, be sent to him for transmission to the company. The city treasurer will be authorized to issue the check.

The minister of public works notified the committee by letter that F. B. Clark had complained of the condition of Dundas street between the McCormick Manufacturing Company and the gate of the Ontario Hospital. This matter was referred to the city engineer for investigation.

At the request of the housing commission the committee decided to recommend that the commission be authorized to select an assistant building inspector and a plumbing inspector, to work under that supervision. City Building Inspector Piper. The acting mayor pointed out that by doing this the city would be practicing economy, since the commission had the power to appoint an architect and a plumbing inspector, and the city would have to pay for them. By using civil officials as far as possible money would be saved.

Deputation Again Present. W. W. Gammage again was present as a deputation to urge objections against the construction of a sidewalk on Gammage street. He said that if this work were done, in addition to the drainage and other local improvements already decided upon, he would have to pay in taxes \$25,000 within the next ten years, and he thought that this was unreasonable. A counter-deputation urged the necessity of a sidewalk, and the committee compromised, securing Mr. Gammage's promise to maintain a good sidewalk as far as the north end of the street, and to arrange for the engineer to report on the probable cost of a sidewalk beyond that point.

The Canadian Oil Company asked permission to construct a brick or concrete factory at 1423 Dundas street. Ald. Moorhead pointed out that the existing bylaw specifying the area in which a factory for the production of inflammable material might be built prohibited this, but the committee decided to recommend that the bylaw be amended and that the permission asked be granted.

A claim from Miss Hill, 519 Princess avenue, for \$27.92, the amount of a plumber's bill which she had to pay as a result of a stoppage in the main sewer outside her property, was referred to the claims commission. The city engineer stated that the trouble was in the main sewer, which had become blocked by tree roots, but he was doubtful whether even under these conditions the city could be held liable.

Assistant City Hall Janitor Joseph Brazier tendered his resignation, which was accepted, and the city engineer was authorized to engage a successor.

A resolution, Ald. Wilson, referred to the committee by the council, that tenders be called for the construction of a gravel road on Waterloo street, was approved.

"Let us have the best gravel road that was ever laid," said Mr. Wilson, to which Ald. Drake retorted: "If you want to cost more than an asphalt pavement, which the property owners petitioned against on the ground of unnecessary cost."

TORONTO TO NEW YORK CITY. A through train service from Toronto to New York City, leaving Toronto 5:45 p.m., Hamilton 7:05 p.m., was inaugurated by the Great Northern Railway on May 4. This train carries through coaches and sleeping cars and arrives at New York City at the Pennsylvania Terminal, 23rd street and 7th avenue, connection train No. 18 leaving London 4:15 p.m.

Also train leaving Toronto 4 p.m., arriving New York 12 p.m., daily, run through Buffalo, making direct connections at Buffalo for New York, connection train No. 12 leaving London 1:30 p.m. daily except Sunday, coaches and parlor.

library-buffet car Toronto to Buffalo, Philadelphia. The Pennsylvania Station is so centrally located that it is a great convenience to the visitor to New York, and is in easy reach of some of the latest hotels, also the shopping and theatre districts. There is also direct tube service to and from Brooklyn.

May 28, 30, 31, June 2, 4, 5

WOMEN'S AUXILIARY ANNUAL MEETING

Mrs. G. B. Sage, President, Occupies Chair — Graphic Account of Mission Work.

At the evening session of the annual meeting of the Women's Auxiliary of Western Ontario, Mrs. G. B. Sage, the president, was in the chair. Mrs. Warnock of Oak, who has been out in the far west in the interest of missions, gave a graphic account of the conditions with which they have to contend. She told of the St. Paul Mission in Alberta, which is undertaking to educate a great many Indian children, and appealed to the W. A. to put forth every effort to help in this great cause.

The Indian children, she said, were quite bright, and when they had been taught the scriptures, were very devout. Some beautiful little specimens of the needlework, which these children had done, and some of the pictures which they had drawn were shown by Mrs. Warnock, giving the delegates an idea of the work the children, whom they are supporting are doing. Mrs. Warnock, giving the delegates an idea of the work the children, whom they are supporting are doing.

During the afternoon, the board of management and the education committee met for discussions.

The session opens this morning with an address from the president, and plenary reports will be submitted. The election of officers also takes place.

ARMY AND NAVY HEROES
MAKE DR. STEVENSON
A MEMBER FOR LIFE

Dr. H. A. Stevenson, ex-mayor of London, was presented with life membership in the Army and Navy Veterans in Canada, London Unit, No. 25, last night, at the first meeting of the organization to be held in its new club-rooms at 84 Dundas street.

Dr. Stevenson, who has been an active member of the Canadian militia for 25 years, promised to further the interests of the rapidly-growing organization, which has headquarters in the headquarters in Canada at Winnipeg, and affiliations in England and the United States.

With the inauguration of a membership campaign the meeting elected a committee to receive applicants at the club rooms every evening between 7 and 9 o'clock. Candidates for membership include that applicants have experienced front line fighting.

Plans for the formation of a women's auxiliary to comprise wives, sisters, daughters and mothers of members will be reported and discussed at the next meeting.

ALERT DRIVER SAVES BOY. The alertness of a driver of one of the hydro trucks at 2:30 o'clock yesterday saved a boy about five years old from serious injury or instant death, when he unconsciously stepped back off the curb after he had alighted from a northbound Normal car. The driver of the truck swung the car around on the street, missing the boy by a matter of a few inches.

MEN GRADUATES OF WESTERN "U" ARTS DEPT. FORM ALUMNI

A meeting of men graduates of the arts department of Western University will be held at the university buildings on Thursday morning for the purpose of organizing an alumni association.

The women graduates have been well organized for some time and have been doing some effective work on behalf of their alma mater.

The medical graduates have also been organized in the past. The war has caused their organization to suffer somewhat, but it is to be revived at once. It is possible that at a later date a general alumni association of graduates in all departments may be organized. At the meeting on Thursday morning preliminary work will be done in the election of officers and the adoption of a temporary constitution.

PROGRAM OF RARE MERIT
AT CONSERVATORY HALL

Audience Delighted With Talented Rendition of Miss Iva Smith's Brilliance.

Several piano pupils of Mrs. McHardy-Smith presented a program of exceptional merit at the London Conservatory Hall last evening, assisted by vocal pupils of T. L. Wilgoose, principal of the conservatory.

Among the more advanced pupils, Miss Madeline Simson gave a finished and musicianly interpretation of the Allegro Maestoso Movement from the Chopin Sonata in B, playing with fine artistic effect the audience's enthusiastic movement from the Concerto in G Minor (Saint-Saens). Mrs. McHardy-Smith played the orchestral parts on second piano.

Miss Iva Smith revealed much talent in her rendition of the waltz in D flat (Wienawski), and Garde Wigley, a Moszkowski waltz in E. The work of the junior pupils was decidedly clever, revealing most careful and inspiring teaching. Among these were: Peggy Wilgoose, Doris Scott, Pearl Jackson, Velma McLandras, Helen Brenton and Doris Shaw.

Delightful variety was added by a solo by Mrs. Myrtle Fenton, "Twilight" (De Koven), and a duet, "In Springtime" (Newton), sung by Mrs. Westland and Mrs. Barrows.

Rectory Street Mothers' Club will hold a sale of work on Wednesday, May 29, afternoon and evening, in the kindergarten room. Fancywork, home-made cooking and candy will be on sale.

War Profiteering the Curse of This Great Country

The people of Prague in Bohemia, enraged over the action of food profiteers, erected a gallows, and made the profiteers swear as the noose dangled before them that they would lower the price of food. It worked.

The people of Canada might well erect stocks in their public squares, there to conduct profiteers of all kinds to make them swear they would play fair with the people. It might work.

The profiteer in Canada has never trembled before a gallows nor feared the humiliation of having his head thrust through a hole in the stocks. He has operated behind an enormous protective tariff—behind a curtain which hid many things in the name of winning the war, and under the wing of a government that has permitted prices to climb beyond all reasonable heights without raising its hand to bring about practical control of price as well as supply, as in England and France.

The profiteer in Canada has fattened as the profiteers of the world have fattened while men gave their bodies to be torn to shreds in order that the world might be safe from the law of the jungle. These profiteers have hamstringed the country and acted the part of the wolf in the sheepfold. At the taproots of all our troubles of today are not the high-water prices inevitable to war, but the inordinate greed of the individual who has worked while the sun shone in the people's eyes, a people plunged in anxiety and grief.

No one need say that this is hyperbole written for a newspaper to feed the unrest. It is the plain truth that may be traced back to the days of early "investigations" when, despite the use of every power of protection, government friends were shown to be grafters in the worst sense of the word in the handling of war supplies, in horses, in hay, in surgical dressings, in shells, in food—in everything that could be handled and from which mean-spirited curs could richly glean dollars while the world rolled in the anguish of its wounds. A tragic keynote sounded for Canada in those days.

On to a further stage, and a great betitled man of Canada was revealed as having taken tremendous profits from the sale of foodstuffs. A courageous official, fighting single-handed with the power of publicity's searchlight as his only aid, tackled these men of enormous influence and ability, and after he had revealed the rottenness that existed and the certain proof that here was the reason why people suffered under the lash of high prices, he went down or was "removed" because of some technical dispute in which his right to control his own office was questioned by the powers that be.

After that, the appointment of a swarm of "controllers" who controlled to the end that milling and fishery and other vast interests declared dividends they had never dreamed of before.

And with the progress of war, the feasting of the hordes of little rat and coyote profiteers on those parts of the carcass left by the big grey wolves! Swarms and swarms of them, nibbling at fingers or toes of the prone country, snatching the bit when the chunk was not to be had, but taking the scent that led to the spoils from the trail of the big fellows.

A government that itself wallowed in luxury—a government created by the survivors of the dying administration squirted with "new blood" in the name of saving the world. A government that spoiled its new-found pets with ministers with private cars and \$500 rugs and \$50 waste paper baskets. Victory loans—the methods of floating which no newspaper could assail in fear of crippling the war effort—made safe for the millionaires. An aftermath of bond-buying that in itself constitutes a form of profiteering, permitting, as it does, the big income man to save himself from paying income tax, with a margin of 30 per cent if his income be \$100,000—30 per cent the price of patriotism—three rousing cheers for the flag and the chance to soak the country!

And a stupid, stolid or corrupt administration—that are they if not stupid or stolid or corrupt?—that moves not, neither does it touch the big or little profiteers. This man who made \$50,000 in the war sporting four motor cars! You hear of that case. We hear of another. They have hidden, but their vanities betray them. Wealth scattered in lavish disorder when the great part of the press is friendly—and others standing under a blackjack loaded with dollars.

Out with the profiteers! They continue their profiteering today, and they will go on for years if they are not checked. The great class of honest businessmen, farmers, workmen are for law and order in this country. They are confused with the confusion of being lost in the desert. They cannot find the trail to common-sense administration of the country, and they have their way in the clouds. General strikes follow, but they strike at the country and touch the profiteer not at all.

Canada could regulate prices if her government so willed it. For a company of honest, inspired men, devoted to the welfare of the whole people, there lies ahead a sphere of national service never before imagined. As we prate of living behind tariff walls and shutting ourselves up, and cry for the buying of home products, so have we the power to regulate prices from within. The economic fact is clear that if prices come down the wild demand that sweeps this country for more gold, more gold, from every month, must cease. But until this Government at Ottawa,

until the lately returned premier has devoted himself to the most radical policy of controlling prices, the present madness of unrest must continue. The fever will not down until the disease has been recognized—and the great disease of this country is profiteering in its most virulent form.

Burial of Captain Fryatt

Capt. Fryatt's body will be brought from the place of his execution to England and given similar burial to that of Edith Cavell. As in the case of Miss Cavell, the national tribute to the memory of Fryatt will be much more than an impressive recognition of bravery and patriotism. Fryatt was deliberately murdered by the Germans. He was accused of attempting to ram a submarine that had ordered him to stop. The trial was a one-sided affair, amounting to little more than accusation and sentence. There is little doubt but that it was carefully staged as a spectacular exhibition of the organized atrocity with which Germany hoped to terrorize her foes into subjection.

Along with the execution of Miss Cavell and the sinking of the Lusitania, Fryatt's slaying was an outstanding demonstration of the frightfulness which evoked the barbarian soul of Prussia. That is why the unusual honors to be paid the captain's remains will carry an especial significance to the British people, and, for that matter, to all nations that have stood fast by decency and justice. It will amount to a solemn, stern serving of notice to the Hun and his kind that their beastliness has not been and never will be forgotten. It will be an impressive rebuke that the Prussian had better ponder well.

Edith Cavell's Last Word

Edith Cavell, patriot and martyr, the world knows well and the recent tribute paid her memory by the British and Belgian nations has no doubt been silently approved by the peoples of the Allied and neutral nations. Through the American Red Cross Society the world is now made acquainted with another angle of her character, one which explains the unselfishness and nobility which led to her death. In a letter written to the School of Nurses of Belgium the night before her execution, we see the splendid spirit and gentle soul of this woman whose fate shocked a world of freemen into fresh determination to crush organized cruelty, tyranny and brutality. The letter was her farewell message to her former pupils, but it will stand as well as a last word of encouragement to men and women of all races who in their daily lives endeavor to be of service to others. This tender appeal for unselfish devotion to duty and charity towards all should bring each of us into a closer intimacy with the spirit of the martyred nurse that will prove as inspiring as her dramatic passing. The letter is as follows:

The letter is as follows: Prison of St. Giles, Brussels.

My Dear Nurses:

I am writing to you in this last hour to bid you farewell. You will remember that September 17 brought to an end the eight years of my direction of the school. I was so happy to be called to help in the organization of the work that our committee had just founded. On October 1, 1907, there were but a few pupils. Now you are already quite numerous—fifty or sixty. I think of the difficulties we encountered, even to the choice of words for your "hours on duty." In Belgium, the hospital of the war was new to the profession. Little by little service after another was established, graduate nurses for private nursing, pupil nurses, the hospital of the war, the sanatorium of Buissonghien, the clinic of Dr. Mayer. And how many are called upon—as you may be, perhaps, later—to nurse the brave wounded of the war? If this last year our work has decreased, it is due to the sad days through which we are passing. In happier days our work will renew its growth and its power for good.

I speak to you of the past, because it is wise occasionally to stop and look behind over the road that we have traveled. You must not make errors and that, on the way home, when the blind man remarked, "That woman is a pest," Aunt Kate knew very well whom he meant, and heartily agreed.

Neither spoke of Miss Forbes, perhaps because both were thinking about her. In Aunt Kate's mind was evolving a scheme. She shrewdly suspected that Mrs. Bently's continual recital of imaginary misdeeds constantly lacerated her own conscience, spent in struggling with those technical terms, so faithfully, were daily becoming more of a burden to her.

At the first opportunity she proposed to the nurse that she bring Mrs. Bently over some evening.

Mrs. Bently jumped at the chance for a fresh audience, but was somewhat chagrined when she found that she was limited to the housekeeper. For though that good woman's machinations, some what abetted by the young nurse, the latter took up the task of reading to the blind man. The technical terms held no dread for Miss Forbes and the subject matter of the articles deeply interested

her. Frequently she would pause and ask some intelligent question; then would ensue a discussion. Meanwhile Aunt Kate was sympathetic to be in a good cause and pretended to be deeply interested in the Bently family history.

No things went along, Major Angus looking forward to his visit, and Mrs. Bently, the nurse only enduring her days because of it. But it took another day to bring them both to a realization of whether they were drifting. All day all night and still another day the sudden downpour continued. Mrs. Bently, of course, wouldn't venture out. And when, rather late in the evening of the second day, she had gone to bed and to sleep, utterly worn out by her constant railing against fate, the nurse took the chance to slip out to the beach for a breath of fresh air.

The rain had almost ceased. Miss Forbes stood in the darkness watching a light streak in the clouds to the eastward. Suddenly someone appeared out of the night and stood beside her. Even in the darkness she knew him. "This makes twice you have appeared to me out of the darkness," the young nurse said, very solemnly.

The blind man started at the sound of a voice so near him and put out his hand instinctively in the direction from whence it came. It fell on the girl's shoulder and he kept it there as he asked: "You have entered like a ray of light into my darkness, Miss Forbes. If it were only possible to keep you here, I should be content." The major, gaining victory over himself in a momentary struggle, shifted to the commonplace, remarking in his usual kindly tone, "This seems to be the storm that never cleared up, doesn't it?"

"No," the young nurse answered, "the moon is even now breaking through the clouds. And major, call me by my first name if you will. It is Hope."

"Newspapers Are the World's Mirror"

Comment, Cleverness and More Verbiage From "Educators of the Common People" in Canada and Other Lands.

SOMETHING TO KEEP. (Dearborn Independent.) Keep your temper. Nobody else wants it.

ANOTHER SILVER HERESY. (Dearborn Independent.) Too many men seem to think that optimism consists only of seeing the silver lining to the other man's cloud.

FISHY FOLKS. (Toronto Telegram.) A scientist declares whales once walked. That's nothing. Every renter knows that sharks are still around on the land.

WHY? (The Sydney Bulletin.) One—Yes, in a battle of tongues a woman can always hold her own. The other—Perhaps she can. But why doesn't she?

THE EASY LIFE. (Boston Transcript.) You college men seem to take life pretty easy.

THE KIND THAT STICKS. (Boston Transcript.) You don't hear any talk nowadays about a more elastic currency.

STRONG FAMILY RESEMBLANCE. (Boston Transcript.) "Contentment," remarked Shiloh, "is a mighty thing, but only trouble about it is it's kind of bald to 'stingulate' from its plain latitudes."

HIS PROTOTYPE. (Boston Transcript.) "All I did," said the inventor, "was to take advantage of an opportunity."

LET'S THINK ABOUT OUR PROBLEMS. (Exchange.) Political economy, or social economy—just as we have in mind to call it—is very simple.

Political economy is nothing but business. And business is nothing but supplying one another's wants.

When the druggist of a town wants food, he goes to the grocer.

When the grocer wants medicine, he goes to the druggist.

Now, enlarge the process until the country shoe becomes a vast shoe factory, or until the country blacksmith becomes a vast metal trade industry, with stores, railroads and banks to facilitate the distribution, transportation and exchange, and the simple principle of business, supplying one another's wants, remains quite the same.

The science of political economy, or

The Advertiser's Daily Short Story

Copyright, 1919, by the McClure Newspaper Syndicate.

OUT OF THE DARKNESS. By Dorra H. Mollan.

Just a tiny bit of Connecticut's irregular coast line snuggled between two rocky ledges.

A narrow crescent of gleaming white sand stretched between curling blue waters and weather-beaten boardwalk.

A soft lap-lapping of gentle waves. The shrieks of circling seagulls. The distant chug-chug of engines as an Eagle boat, closely followed by a submarine, emerged from the nearby harbor.

It was the first day of spring, the equinox, but there was nothing to indicate the with-upheaval of nature's miracle of a day possible, but so rarely scattered debris of the deep, long and creatures strewn over the sand.

A blind man reclined on the nearby chair on the broad veranda of one of the many cottages which lined the beach. He listened intently and constructed the scene.

It was a beautiful spot, where only two years since he had seen it. The beautiful spot where his boyhood and college vacations had been spent. Perhaps that was why he had chosen it for what he called his "retirement period," and withdrew here at a time when he knew it would be practically deserted.

He was a young man, with a curly nose and housekeeper, Aunt Kate, to look out for him.

Not one bit of shrinking, only undaunted courage, entered into this supreme sacrifice. He had offered to the country and humanity—only a desire to be free, to think things out, to formulate some philosophy of life to replace the ambitions which were being relinquished forever.

Footsteps sounded on the boardwalk. Aunt Kate, looking out of her kitchen window, called him over.

Three young women approaching, one elderly, with a careful eye, the other young, plump and caroled in the uniform of a nurse. The blind man heard two voices, one young and fresh; the huge waves breaking right over this walk.

A querulous voice answered: "I never got out in a storm if I can help it."

When the two women were out of earshot of the man the younger remarked: "That's Major Angus. He's very famous surgeon—or, rather, was. He's blind now."

The thoughtful woman, roused for the moment out of her absorption in imaginary ills, asked: "How did it happen?"

"In this war," the nurse nodded gravely. "Well, it only goes to prove what my father and his father before him always said, that this country would be wrecked and ruin when the Republican party went out of power."

When the two women had passed from sight Aunt Kate emerged from her kitchen, and said: "How did it happen?"

"In this war," the nurse nodded gravely. "Well, it only goes to prove what my father and his father before him always said, that this country would be wrecked and ruin when the Republican party went out of power."

What America Has Won

Dr. Wise of New York City has been a friend of Great Britain from the beginning of the war. His Jewish congregation meets every Sunday in Carnegie Hall. He will tour the continent with ex-President Taft, President Lowell of Harvard University, and Dr. Anna Howard Shaw. He is one of the most eloquent speakers on the continent.

The following are extracts from an address recently delivered by Dr. Wise on "What America Has Won."

"Though our adversaries were definitely and irretrievably defeated, which we are to remain the victors, and to what extent, depends in no small degree upon the measure of destruction suffered by Kaiserism. The contemplation of the remembrance of our triumphs will not suffice to perpetuate them. Everything we have won will be dissipated, and even wasted, unless the things that have been gained be highly cherished and hoisted. A spiritual triumph must be held in a spiritual mood and with spiritual purpose."

The league of nations which we have won through the war which the Prussians of the future as the victory of November defeated the Prussians of the past.

America has won a national mood and mind. Let us not capitulate the minor dissents, but rather the major unities. In winning an international mind, we have come to think in world terms, and we are not afraid. Finest of all it is that the international mind of America was born out of international greed, but of the ideal of international service. The uniqueness of the glory is our victory of victories.

"We have won the right to speak without waiting until it be too late to point to dangerous and war-breeding tendencies. There must be no soldier-mobs in America, for a law-breaker in uniform is worse than any soldier. Then, similarly, the law and still not be above the law. Bolshevism must not be met by Bolshevism. Solving through the most dangerous and intolerable of all mobs, America, which taught to overcome militarism, will offer no soldier to the world, our democracy."

SOCIAL AND PERSONAL

Mrs. A. Clark is in Toronto.

Mrs. E. B. Smith is in Montreal.

Mr. and Mrs. D. Cushing have left the city to reside in Cobalt.

Mrs. Perry of Mitchell is visiting Mrs. P. R. Braddon, King street.

Mr. S. J. Radcliffe of Toronto is the guest of Mrs. Mary, Waterloo street.

Mrs. E. N. Hart entertained at the tea hour yesterday at her home, King street.

Many out-of-town people were in the city yesterday for the St. Joseph's Hospital graduation exercises.

Hon. W. M. Martin has returned to Saskatchewan after visiting with his parents, Mr. and Mrs. Martin, Ridout street.

Mr. and Mrs. Benjamin Gilbert announce the engagement of their daughter Naomi to Mr. John Gordon Morrison of Windsor, the marriage to take place in June.

Dr. and Mrs. E. E. Brailwaite entertained the graduating class in arts and medicine at their home on Oxford street, yesterday afternoon. The reception room was prettily decorated with lilacs and spring blossoms, and the drawing-room was fragrant with lilacs of the valley, and formed a contrast against the decorations of purple, the college colors. Mrs. Brailwaite received in a handsome gown of brown crepe de chine, with corsage, assisted by Miss Kate Eastman and Miss G. Newbury.

2473—This will be pretty for froufrou, for taffeta, satin or organza, gingham, chamois, crepe and voile. The bolero and skirt are made of the same material. The skirt is joined to an underbody that may be of lining.

The pattern is cut in three sizes—16, 18 and 20 years. Size 18 will require 2 1/2 yards of 36-inch material. The skirt measures 2 yards from waist to hem. A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

Cynthia Grey's Mail-Box

An Unconscious Heroine.

Dear Cynthia—I am an interested reader of your column. Every city paper I pick up one reads some gibe at the former editor of the Mail-Box. I wondered if you would tell me too a story of the last thirteen years? Do not think I am grumbling, or complaining. I am merely stating facts. Thirteen years ago John and I were married. John had very little money, but I had some except plenty of clothing and some house furnishings. We were both young, and full of life and energy. We were young and full of life and energy. We were young and full of life and energy.

See how much your children will like them—and the grown folks, too. Get a selection from your grocer. Tapioca, custard and chocolate, 15c. a package.

that she is coming here to make her home. She is just one of the hundreds, no doubt, who have made our boys welcome over there. Girls, won't you please put down your hammers and give them, if not any more, the kindness you would want if in a foreign country yourself? I remain,

Yours truly,
ROBERT D.

Ans.—Dear girl, I think you are finding your disappointment in a very wonderful spirit. I feel sure I should not be so selfish and loving as to think of others' happiness first. I admire you sincerely for your pluck, and hope that as time heals the wound for soreness and sadness there is, I know, you may find just the consolation you deserve—the love of some other more worthy man.

Kind of Lonesome.

Dear Miss Grey—I have been reading the letters of your Mail-Box for some time. And as things seem kind of lonesome around here just at present, I thought I would take chances on writing you. I see where Orange Blossom wants to correspond with a girl of her own age. I would love to have her name and address or have her write to me. I am sixteen years of age. Could you give me the meaning of Jennie, Hazel, Orval and Willie? CANARY.

Ans.—Orange Blossom, I am sorry to hear that you are so lonesome. I will try to help you. I will give you the meaning of Jennie, Hazel, Orval and Willie. CANARY.

Willie or William means resolute defender. I do not know the meaning of the other names.

Scared the Mosquitoes.

Dear Miss Grey—Someone said their ferns were turning brown. I read where a few drops of liquid ammonia added to the water for watering any plant would cure it. I am sixteen years of age. Could you give me the meaning of Jennie, Hazel, Orval and Willie? CANARY.

Ans.—Orange Blossom, I am sorry to hear that you are so lonesome. I will try to help you. I will give you the meaning of Jennie, Hazel, Orval and Willie. CANARY.

Willie or William means resolute defender. I do not know the meaning of the other names.

The "Quality" Character of this brand has an International Reputation.

A Trial Packet will bring speedy conviction

member me, do you? "Aunt Annie" if you use all milk for your cocoa it will be nice than with part water, as some people use. The result is usually in "dial" water. I take about a pint of milk and heat it through (not boil it). This makes about four or five cups. Then add three teaspoons cocoa, four of sugar and a pinch of salt, with a little hot water. Add to the milk and bring to a boil. We think it is awfully good. Miss Grey, I tell "More Man" that he makes me sick. I might put it stronger, but maybe you'd say "couldn't come again." I think he's one of those masculine beings that wouldn't give women credit for any little thing they did well. Of course, we all know that women haven't many brains and the men be where, where, would be blessed with the men's brains. Now, maybe these few hints may help someone who is in a bit of a pinch, dampened with vinegar, and it doesn't get hard and dry.

When cooking green vegetables a pinch of baking soda should be put in the water. And, have any of the readers, when salad dressing or blanc sauce lumps, beat it with a Dover egg beater? Would anyone tell me if the little bird houses that are put up in the gardens have to be cleaned out every year or do the wee birdies do their own housecleaning? We have a dear, wee family of robins in a tree near my bedroom window, and it is so nice to watch them every day.

But this is getting lengthy. Please may I come again, Miss Grey? I'll have to change my name as someone kidnapped my other. So I'll be "BUNKER DEAN."

Ans.—Your letter contained such a nice medley of things. I was thankful how to head it. Chose the "Robin family," as you note—just another instance of the wee birdies do their own housecleaning. I must confess that I do not recognize you under the new pen-name, yet your writing is quite distinctive, too. Surely, call again, and bring news of the new cooking green vegetables. Do you ever "catch" worms for them?

"THE GIRL WITH 1,000 EYES" IN SPECIAL EXHIBITIONS TODAY

Leona La Mar Will Hold Matinee Receptions on Stage at Grand.

Leona La Mar, "The Girl With a Thousand Eyes," who is the headline vaudeville feature at the Grand all this week, will today give the first of a series of special matinee performances. At today's matinee, Miss La Mar will hold a reception on the stage, at which performance patrons may ask Miss La Mar questions pertaining to business or private life. This performance is given for the benefit of those who prefer to have their questions answered in private rather than within hearing of the audience.

Other acts on today's bill are: The Archie Nicholson Duo, who will entertain themselves musical comedians. They have an act that will surely compensate anyone who is looking for real enjoyment. From an extensive repertoire of instrumental numbers, they render selections on the trombone, saxophone, cornet and clarinet.

McCarthy and Steward will offer "Two Beds," a comedy skit that forsakes the beaten path of playlets. Its offering of verses and action leads one to doubly appreciate the merit and humor. Faber and Taylor will present a delightful singing, talking and dancing number under the title of "Going North."

Gail Gardener and Pal, offering a most original talking and comedy number, will also be a big feature on today's bill.

Bert Lyttell in "Blackie's Redemption," "Blackie's Redemption," the gripping story of a reformed crook, in which Bert Lyttell enacts the leading role, will be shown at the Grand today for the last time.

The plot shows how Blackie, tired of his lawless life, tries to reform, but is prevented by the underworld "frame up" Fred, the Count, which sends him to prison. How he escapes and returns to Mary, the girl whom he was about to marry when he was arrested, is one of the vivid and gripping scenes in incidents which go to make a production of unusual strength and appeal. The climax and big surprise of the play comes when the warden, who finds Blackie in Mary's house, decides that she is more entitled to the man she loves than the law is, and leaves them to their interrupted happiness.

The Grand tropical review completes the bill.

DOROTHY DALTON IN "THE HOME-BREAKER" AT MAJESTIC TODAY

Entertaining Photoplay Gives Popular Star One of Her Best Roles.

Dorothy Dalton, who has delighted millions of screen patrons with her remarkably vivid characterizations, returns to the Majestic today and Thursday, in a new Paramount picture, "The Home-Breaker," which is said to be one of the most sprightly and entertaining stories of Miss Dalton's career. Miss Dalton plays the part of an energetic, successful and somewhat cynical traveling salesman, and succeeds in introducing a distinctive note of comedy in a swiftly moving drama of heart interest.

"The Home-Breaker," tells how Miss Dalton, as Mary Marbury, succeeds in unmasking two clever crooks who have laid a trap for the son and daughter of her employer. She not only leads the two a merry chase, but induces the father to forsake his sedentary ways for a life of gaiety as a part of her scheme, to readjust the viewpoint of the son and daughter. The story fairly sparkles with wit and fast action, at which the Paramount star is a past master, and should provide the public with some of the most pleasing screen entertainment they have had in a long time.

LOTS OF THRILLS IN TOM MIX'S NEWEST PLAY AT PATRICIA

"Hell Roarin' Reform" Showing Today For Last Time.

Tom Mix, the cowboy star of the William Fox pictures, is at his best in "Hell Roarin' Reform," his latest production, which will be shown at the Patricia for the last time today. The audience, accustomed to seeing this daring horseman do all sorts of unusual and daring stunts, howled with delight when they saw him mounted, leap his horse over a building to the roof of another, and plunge through the roof.

This one stunt is enough to make "Hell Roarin' Reform" a great picture, but it is filled with such things, the story, too, is a good one. Mix takes the place of a preacher, who has been driven out of town by outlaws, and brings them to realization of righteousness through the media of fast-talking six-shooters.

VACANT GARDENING LOTS AT PREMIUM IN LONDON

While there are fewer applicants than last year for vacant lots for gardening purposes, ground, nevertheless, is at a premium, and in wards 1 and 2 particularly, Alderman L. S. Holmes and Alderman W. A. Wilson are having troubles of their own in finding a place for everybody who wants to help along food production.

The revival of real estate and the rush of people to the city at the war-time legislation still holds good, that land being used for other purposes, should be appropriated for growing food. Rumors came in of keen rivalry over gardening, anxious of ground for cultivation at reasonable rates. It has been almost impossible for duals to be given good weather the vacant lot crop in London this year promises to be a fourfold one.

Iron For Strength

You need iron in the blood! Every healthy man or woman should have about as much iron in his or her body as there is in an ordinary railroad spike. To gain this iron, the best way is to take Tonal-iron Capsules, a combination of iron in its most soluble form, recently discovered, and now having a marvelous sale. Tonal-iron Capsules are a form of iron readily taken up by the blood, color, the cheeks are pink, the appetite improves, and one feels full of "snap" — "pep" — "vigor" — instead of tired, listless, and half done. The average take of iron in the most soluble form, recently discovered, and now having a marvelous sale. Tonal-iron Capsules are a form of iron readily
