SAUERMAN IS FINED \$20

Case Was Not Pushed By Complainant Hazard— Serious Row

Murder Suspect In County Gaol—Taylor Gets Six Months

A bad man from Crawford County, Ill., it is suspected is incarcerated in the local county gaol under an assumed name. Some time ago, the local police received a card from Sheriff C. V. Coulter, of Robinson, Ill., in which it was stated that a young man named George (Curly) Wells, wanted on a charge of murder, had escaped from the State of Illinois, and it was thought he was somewhere in the oil fields around Chatham.

Wells, according to the card, is 27 years of age, light complexion, dark hair, clean shaven face, medium height, slightly drooped in the shoulders, and his right hand is crippled, the second finger having been amputated, and there is quite a scar on the hand. He plays a piano and is a buck and wing dancer. Three hundred dollars reward is offered for information which will lead to the arrest and conviction of this man.

Officer James Dodson, who has been working on the case, has gained information regarding a young man who tallies pretty much with this description. The man is at present in the local gaol. Officer Dodson and Governor Davidson will look the suspect over to-day, to see how the description tallies with his appearance.

Augustus Sauerman, who was charged with assaulting Charles Hazard, came up in Police Court this morning for his final hearing. He was fined \$20 and the costs. Sauerman owes his light sentence to his previously good character, his counsel's sagacity, and probably for the most part to the inaction of Hazard in pushing the case. O. L. Lewis appeared for Sauerman, R. L. Brackin for Hazard, and Crown Attorney H. D. Smith prosecuted.

There was a great deal of delay in getting the case started, on account of frequent and prolonged consultations among the lawyers concerned.

The prosecution and the Court put themselves plainly on record with regard to settling the case, out of Court. Crown Attorney Smith stated that this could not possibly be done. He admitted that Sauerman had settled all the civil costs of the case, paying Hazard for the time, he lost, his doctor bill, and other incidental expenses, but it was not a case where the complainant was concerned. Hazard had refused to push the matter, and it was now purely a Crown case, which in the interests of law and order must be dealt with.

The case was then proceeded with, Sauerman pleading guilty to the charge of assault read against him. The written evidence read by the Crown was to the effect that on June 23, when the defendant and complainant were at work in McKough & Trotter's moulding shop, and after a cast had been made, Hazard left the shop for one-half hour. On his return to work, he was taken to task by Sauerman. Hot words passed between the two, who finally clinched, Hazard taking the initiative in the fight which followed.

Sauerman threw Hazard, but after they fell, Hazard succeeded in turning Sauerman over on his back, and while he had him down, hit him a stiff punch in the eye.

The economy in his choice of epithets, Sauerman got up mad with rage, and seizing a five foot iron tube, dealt a blow which split Hazard's epithet hand. The pipe next came in contact with Hazard's head, and his assailant wound up by giving him a parting poke in the ribs with the tube. According to a statement made by Dr. G. T. McKough, who attended Hazard, the latter is rapidly recovering and will not likely suffer any serious results.

The iron tube with which Hazard was belabored, was produced in Court. It looked to be five feet long. Hazard and Sauerman are short stockily built men, of powerful physique. Both were well dressed and respectable looking, but combativeness is plainly written in their faces.

Judge Houston, in fining Sauerman, remarked that if the case were pushed, the offence was one which is punishable with three years in penitentiary. It was a malicious injury without legal excuse. He gave Sauerman credit, however, for trying to make amends as best he could, and said that he had heretofore always held a good character.

The four boys who last week pleaded guilty to the charge of rolling the lawn bowlers lawn roller in the Creek, called at the Police Court this morning, and settled for the costs of the case, as they agreed to do.

Samuel Wittenburg, an Israelite, who apparently does not practice economy in his choice of epithets,

NOTES FROM ERIEAU

Mr. Thomas Pickett and family, of Cleveland, opened up their cottage at Centreville on Saturday evening.

Mrs. Robt. Hoig, of Grand Ave., is comfortably settled at Jubilee. Miss Annie Samson, of Blenheim, was a guest at Drumtochty Lodge on Saturday.

Dr. and Mrs. Shackleton, who arrived at the Eau in their yacht Half-Moon on July 3rd, left for their home on Sunday morning.

They were accompanied by their little daughter Louise and Miss Eleanor McGavin, of Chatham.

The familiar face of Miss Abram is again seen on the verandah of Shaganappee.

The steam launch Ripple took a large party to Government Park on Sunday afternoon. Mr. Park has had some dredging done, and the Ripple is now able to steam up to the boat-house.

Mr. Will Taekaberry and Mrs. Taekaberry, of Chatham, and Miss Dewey, of Cleveland, were visitors at Mrs. R. V. Bray's cottage.

Mrs. Wm. Young and Miss Smith, of Harvey St., spent Friday at the Eau.

Mr. and Mrs. Webster, who have been guests at the Bungalow, left Saturday morning for their home in Cleveland via Sandusky.

The people sailing on the Bay on Thursday evening were treated to an exhibition of fireworks, and they couldn't think of the cause till they realized it was our American cousins on the bar celebrating the 4th of July.

The cottagers on the lakeside are having their innings now. They are enjoying a nice new sidewalk, while the old ones on the other side is just about worn out.

Miss Dot Wing, of Chatham, spent Friday at the Eau.

Mr. Thos. Irving, at Capt. Post's, has returned from a trip to Dakota and Alberta.

Douglas Park, single-handed and alone, captured a mammoth soft-shell mud-turtle on Saturday.

The cottagers miss the pleasant faces of two pioneers of the Eau, Mr. and Mrs. Moore.

Misses Annie and Lottie Thomson spent the week end with their sister, Mrs. Arch. Park, at Beverly Lodge.

Mr. and Mrs. James E. Gray and family have moved into the cottage

owned by Mr. Chris. Smith, Centreville.

Sydney Falls is spending his vacation with his parents at Erieau.

Misses Ethel and Helen Paxton are guests at Jubilee Cottage.

Mr. and Mrs. Frank Dell were guests at Sandy Knowe on Sunday.

The first granolithic walk on the Eau may be seen in front of Drumtochty Lodge. It looks as though it may prove a great success, and considering the scarcity of lumber, others may follow in the lead of Mr. W. D. Samson.

Mr. John Northwood, of Grand Ave., spent Sunday with his son, E. B. Northwood.

Mr. and Mrs. Barnatz, of Cleveland, spent the glorious fourth at their summer home, Fairview.

Miss Eunice Paxton is the guest of Miss Martha Hoig.

The cottagers at the Eau enjoyed a quiet Canadian Sabbath yesterday. The railway company are living up to their promise: not to carry on business on Sunday. The coal hoist did not work during the day, nor were any trains moved. This, coupled with the fact that the crew on the suburban train are very accommodating, may tend to settle any differences between the railroad and cottagers.

Old residents at the Eau are shaking hands with an old acquaintance in the person of Ned Cassidy, a former fisherman of Erieau. Mr. Cassidy has not been at the Eau for years, and finds many changes. Ned was always popular, especially with the young ladies, and he is having a great time finding out who have married in his absence. He will be here most of the summer, as he is wheeling on the Dresden.

All ye lovers of music are hereby warned to keep off the bar until the phonograph fever is over! All will be peace and quietness these pleasant July evenings when "entuned in its nose full seemly" comes in the shade of the old apple tree.

You endeavor to get out of earshot only to hear ahead of you, faintly at first, but gradually getting stronger, "Good-bye my lady love, good-bye my turtle dove."

That all tastes may be catered to, comes from another direction, with the same delightful nasal twang, "Take me on the rollers, Charlie," while still more faintly can be heard "I need thee every hour."

STEAMER CREW ARE DROWNED

Mount Royal Struck A Rock While Passing Throught A Canyon

Victoria, B.C., July 8.—The steamer Mount Royal, operated by the Hudson Bay Company on the Skeena River, was totally wrecked on Saturday, while passing through Kitislas Canyon, and six of the crew were drowned.

The steamer left Hazelton on Friday morning for Esquimalt, and entered the canyon Saturday afternoon.

She was rushing downstream with a full head of steam, which is necessary to give her steerage way, when she struck against a rock on Ringbolt Island.

The steamer struck the right bank of the island and remained fast for 5 minutes. Capt. Johnson, realizing the danger, ordered all of the passengers ashore, and all reached a place of safety.

The judgment of the captain was soon justified, for the current caught the vessel and swung her round until broadside to the main channel, and in less than 5 minutes she commenced to break up.

The captain remained on board, vainly endeavoring to save her, till the pilot-house broke away from the main deck and the captain was washed ashore on the island.

Members of the crew were not so fortunate, and Chief Engineer Madigan and Second Engineer Good were carried through the canyon on the wreckage. Six other members of the crew were washed away and drowned.

Mrs. Johnson, wife of the captain, was the only lady on board, and, with other passengers, reached shore in safety.

Madigan and Good were picked up by Indians, who had been sent to the rescue by a telegraph operator. They remained in the vicinity for some time and picked up all the wreckage possible, but with no sign of the missing men. Those lost are: W. L. Lemis, first officer; James O'Keefe, purser; Archie Willis, steward; Berr Frayne, fireman; J. M. Morishima, carpenter; Frank Amata, deckhand.

The canyon, where the wreck occurred, is dangerous, and on several occasions the trip has had to be abandoned.

The Mount Royal was valued at \$30,000, and was insured in England. She was built in Victoria in 1902, and was the most powerful stern-wheeler ever constructed in this city. She was 130 feet long and 25 feet beam.

TRAIN RAN INTO CATTLE

Fireman Is Killed And Engineer Receives Fatal Injury

Fort Frances, Ont., July 8.—Friday night No. 2 express, on the C.N.R., was wrecked, six miles from Rainy River. It ran into a herd of cattle.

The engine turned over and was demolished. Fireman William Vance was killed, and Engineer William Hamilton so badly scalded he cannot live. The baggage car left the track, but the passengers in the sleeper hardly felt the collision. Passengers bound east were delayed 12 hours.

Neither Fireman Vance nor Engineer Hamilton were able to jump, and before they realized an accident was imminent they were buried under the locomotive. Steam commenced to escape, and soon the men were enveloped in a cloud of steam and hot water. Every effort was made to free them from their position, but before they were liberated Vance had received such injuries that he died within a short time. Engineer Hamilton is so badly injured and scalded there is not the least hope that he will recover.

With the locomotives, four cars left the track. Traffic was completely demoralized for some hours.

FATAL STREET CAR ACCIDENT.

Coroner Orders Arrest of Motorman and Conductor.

Schenectady, N.Y., July 8.—One boy was killed, another was fatally hurt, and two others seriously injured as the result of a street car accident yesterday afternoon. The victims are all residents of Amsterdam, ranging from 12 to 15 years. They are members of a baseball team, which played here yesterday afternoon.

The lads were riding on the running board on the wrong side of the car, as every seat was taken and passengers were hanging on wherever they could. The accident occurred where the double tracks take a sharp curve. The open car on which the boys were riding had taken the curve in one direction, when a heavy closed car bound for Ballston took it on the other track.

Coroner Baxter ordered the arrest of the motorman and conductor of the Ballston car on the ground that they should have waited until the curve was clear before taking it.

The great duty of life is not to give pain.

A BRIGHT SERVICE

The services at the William Street Baptist Church yesterday were very pleasing and interesting. A novel change has been made in which the services are shortened to only occupy three-quarters of an hour during the warm weather.

Rev. Mr. Matthews preached two very effective sermons. In the evening his text — "A good name is rather to be chosen than great riches," was ably discussed. He spoke of a person having three names; first, their surname; secondly, their Christian name, and lastly, their reputation. A person's reputation is the greatest heritage he or she possesses.

The music was of a very high order, under the directorship of Mr. Frank Phelps. Miss M. Thurst sang a solo in the morning, and in the evening a solo, "A Dream of Paradise," was sung by J. D. MacAlpine, after which a duet was given by Miss Thurst and Miss Oldershaw.

"BUSY BERLIN."

The busy town—or, perhaps, more correctly speaking, city—of Berlin has celebrated the 22nd anniversary of its establishment of its now famous Board of Trade. It was a memorable event in many ways, for it is generally recognized in most cities that this enterprising institution is a leader among similar organizations in other places. This is shown by the fact that their annual banquet was considered so important, even in Toronto, that representatives from all of the leading newspapers had men "on the job." This active and influential body of public spirited citizens in the celebrated German town, provides a stirring object lesson for struggling Boards in other cities to ponder over and study. It started in a most humble manner with a very few members, but these men, small as they were in number, were possessed of a strong realization of the importance of this work, and they were industrious and ambitious in their efforts. The result is well known to all who follow municipal affairs. They have now over 200 paid-up members, and they are all boomers for their town.

The keynote to Berlin's remarkable success is clearly evident to the visitor. Every man, woman and child in Berlin has implicit confidence in the town. Every person who goes to Berlin to live, no matter who he may be, or what walk of life he may be following, will be taken for what he is worth, and if he is "on the square" he "looks good" to the people of Berlin and is treated well so long as he holds to those principles.

To a man from Berlin, his town is his paradise, and he tells this to everyone he meets. His statements sometimes are so extravagant that people are inclined to express the opinion that he is crazy, still, sometimes it is great to be crazy. At any rate, people are more apt to get interested in a town when the people in it are enthusiastic over it. One of Berlin's greatest points of interest lies in its neat, pretty, well-kept lawns, and the comfortable and attractive surroundings of its industrial institutions. The Germans are naturally industrious and thrifty, and they carry this characteristic into every feature of their business, social and home life. Give a man in Berlin a good, remunerative job where he can work faithfully during business hours, a hoe, rake and spade that he can use around home in the evening, and a glass of beer before every meal, and he is happy and satisfied. President Roosevelt would strike a responsive chord if he could proclaim his Simple Life theory to a Berlin audience.

Comparisons at all times are odious, but there are many points which strike a visitor from Chatham, which would go to show that Berlin, progressive as it is, does not reach the tall pedestal of perfection and superiority in every respect. The streets, unlike the magnificent thoroughfares and avenues of Chatham, are narrow and unpaved. There is still work before the Berlin Board of Trade. Their store fronts, fixtures and window dressings have not the same natty and up-to-date appearance for which those of the Maple City are so noted. Their natural surroundings and advantages, which are so conducive to inexpensive modern conveniences, can by no means compare with those of the Maple City. In fact Berlin is a made town, and a lot of the municipal work which has been necessary there has been accomplished by nature in Chatham. This is why Chatham, with the same public spirit which is so evident in Berlin, is destined to out-shine its fortunate and progressive rival.

Berlin's hardest work is over, while Chatham's greatest era of advancement has just nicely commenced. The Maple City's new Board of Trade has demonstrated the fact that it is composed of men whose ability and willingness cannot be surpassed, even in Berlin. The German town's system of advancement, however, is good enough to copy, and its secret lies in the absence of all jealousies and petty municipal quarrels, and in every man being a unit in proclaiming and supporting the city's best good.

A CLEVER NOVEL

Three hundred copies of "Gaff Linkum," the new book from the pen of Archie P. McKishnie, of this city, recently arrived from the presses of the Briggs Publishing Company. Already, this first installment of the young Chatham author's work has been placed, and a demand for more is in evidence.

A display of the books has been placed in the window of George W. Sulman's, and all who have viewed it, greatly admire the fine appearance of the book, which is neatly gotten up and bound with a very

The Chatham Author, Whose Book, "Gaff Linkum," Is Enjoying A Big Sale.

catchy cover design. The book is one which in appearance would be a credit to any library or book-shelf. Apart from this, the book is an exceptionally readable one. It is brimful of interest—a Canadian product, written expressly for the reading public of Canada. In his book, Mr. McKishnie has shown a nicety in the matter of selecting his language and descriptions which will appeal to all book-lovers. There are no tiresome or monotonous spots in Archie's book. A fascinating buoyancy and action characterize it throughout. It awakens the reader's interest from the very commencement.

In a former criticism The Planet referred to the various characters and scenes depicted in "Gaff Linkum," which is bubbling over with refined and up-to-the-minute humor. Throughout the plot runs a thread of romance, without which no book could ever hope for success. "Gaff Linkum" has its sentimental as well as humorous side, and some chapters have a touch of pathos, which lends such a reality, that one can almost believe they knew the characters, and the book through this at once gets in rapport with its readers. The scenes are laid in, and around the town of Morpeth, where the famous "Gaff" lived to barter, horse trade and enjoy himself generally as only a character of his stamp can.

There is very little doubt, but what the success of "Gaff Linkum" is assured. The publishers themselves feel confident of this, and book publishers are keen, practical men whose knowledge of the reading public, its ways and wants, can almost always be relied upon as infallible.

ONTARIO WHEAT FLOUR

In view of the fact that the freight rate to Montreal from Manitoba is as low as it is in Ontario points, the success of the efforts of the Ontario millers to capture the market of the Maritime Provinces is nothing short of phenomenal.

The farmers of Ontario have lost heavily in the decline in the demand for Ontario wheat, which has resulted not only in lower prices for fall wheat, but in the present era of high prices for bran and shorts. Farmers and stockmen need hardly blame the millers for these conditions when agriculturists contribute to Western prosperity by buying Manitoba instead of Ontario blended flour when they purchase the family groceries at the general store. Even in those districts where wheat remains a staple, it is no uncommon sight to see the man who has hauled his own wheat to the mill joggling back with a barrel or bag bearing some well-known Western brand.

The people of Ontario have taken Western flour partly on its merits as a "strong" flour, and partly as a result of the glamor of the Great West, which has been so well advertised throughout the old and long settled parts of Canada. In spite of the vogue of the flour made from the spring wheat of the West, it is an indisputable fact that the flour of the Ontario flour is very much superior. If enough Western wheat is added to bring up the proportions of gluten, the resultant blend is much superior to either the Manitoba or Ontario flour. The blend is nourishing and has all the delicate flavor of the Ontario wheat. It is with Ontario blended flour that Ontario millers have captured the Maritime market, to the mutual advantage of the millers and the farmers of this province.

The increased market for Ontario flour is a matter of vital interest to farmers all over the province; it offers an incentive to wheat growers and will enable stockmen to procure feed at living prices. The purchase of blended flour for home use will help create a demand for the new flour right here in Ontario, and will mean an enlarged market for Ontario wheat.

Boys some on 'em playin' poker, 't'others swappin' yarns an' such When an' ole gray-headed feller come a'hamblin' through 't' door, Stranger—leastways I had never seen his face down 't' afore.

Billy Jinks, th' barkeep, poured him out a drink o' "forty-mule"— "Stranger you look sorter tired; step up here an' have a smile!" But th' ole man gravely thanked him, sez he, "I would like fast-rate

Per t' have one good refresher, but guess I'll have 't' wait. Give th' fellers all a bumper an' I'll stan' th' damage, boy. Mine—Oh, give me a plain soda, fellers here's your health an' joy."

Big Ike Simpson sorter nudged me an' he sez, "Ole man," sez he, "You'll excuse th' blarney, blank blank curiosity in me."

But I'm plin' fer t' know why, when you're wantin' so a drink You jest natchally don't take one; ain't you foolish, don't you think?"

Th' ole man he stroked his whiskers an' he drew a heavy sigh. An' I'm sartin I saw tear-drops trickle down from out his eye; "Yes," he says, "I am just maybe foolish-like, but don't you know, I ain't never tasted nuthin' since I give my word t' Joe."

"Joe war leavin' fer th' gold-fields; I was biddin' him good-bye; And sez he, 'Dad, you let whiskey right alone and so'll I; We'll have a drink at partin', when we meet we'll drink ag'in, But we'll neither take a bumper o' th' bug-juce until then.'"

Boy, sez I, 'I'm surely with you,' an' he jumped onto th' train, Joe calls, 'Member dad, no next time, till us cronies meet again.'"

"That war six year come next August an' I dropped in here t' night Hopin' somehow, bein' lonesome,—anybody know Joe White?"

Well, we stood thar, our mouths open, know Joe White? I should say so. Reckon thar wasn't one amongst us, but had swapped a joke 't' Joe. But afore we'd time t' answer, some thar like a cyclone flew. Twist us over t' th' stranger, jes' like only Joe could do.

An' you orter heerd th' fellers laugh when Joe says, "Dang it, dad, It's too bad I've kept you waitin'; Billy fill 'em up, my lad." —Archie P. McKishnie.

DAMAGE TO CROPS

J. B. Stringer & Company have received the following letter from their agent, W. McKenzie, Thamesville, regarding damage to crops by the late frost:

"Farmers are confirming the reports of serious damage by frost. Many at first thought that much of the crop would recover, but to-day they claim it is not doing so. Corn and beans will be less than half a crop. There was a large acreage of beans, too, and they looked most promising on Tuesday. I did some driving on that day, and I was out again yesterday. Many of the farmers are re-planting beans. If the summer is not too dry and we have a favorable fall, beans planted now will give a fair yield, but the berry will be small. The wheat is seriously hurt, though it doesn't show it much yet, except in a few fields. 'Barley is damaged on some farms

seriously, and even oats are hurt, though I think not much. I am of the opinion that there will be a good yield of oats and a fair yield of barley and wheat."

We read of Spring, Summer, Autumn and Winter medicines. As if the Stomach, Liver, Kidneys, etc., underwent a dangerous period of transformation every three months. These three month periods are merely a human arrangement for convenience in expressing the climatic variations during the year. When you feel well, leave well alone; you are well. If you feel sick, or have been exposed to contagion, take the Veteran's Sure Cure. Dose—three to five drops only once a day; three days medicine cost one cent. Price, \$1.00 or 50 cents sent anywhere. If you can find a better constitutional cure, take it. We feel sure there is none sold. The V. B. C. Medicine Co., Limited, Scane Block, Chatham, Ont. W. K. Marsden's
Probation.

By ALICE CLARKE

Copyright, 1907, by C. H. Sutcliffe.

"What is the work?" asked Marsden as he pocketed the letter. John Dufford looked at him over his steel bowed spectacles.
"When I was a lad," he said severely, "young men did not pick and choose. They were glad to take what they could get. You want to marry my daughter and have come to me to ask for work to prove yourself worthy of her. I give you a letter to my superintendent, and you calmly ask the nature of the employment."
"I merely wanted to know what sort of clothes to lay in," Marsden explained in confusion.
"Any man who works needs plain, serviceable clothes," said the elder man reprovingly. "I would suggest that you might leave your evening clothes at home."
"Yes, sir," answered Marsden obediently as he rose to go.
"Now, it is clearly understood," Dufford said sharply, "that you do not write or hold any communication with my daughter for two years. That is agreed to?"
"I promise."
"And on my part I promise that if at the end of two years I find that my superintendent gives a good report of your industry I shall withdraw my objection to your marriage."
He swung back to his desk, and Jim Marsden, placing the letter in his pocket, left the office. There was a farewell visit to Marjorie, followed by a visit to a cheap outfitter's shop, and when the night train pulled out for the west Marsden was a passenger.
It was long before sleep came to him. It seemed unjust that John Dufford

AROUND THE CURVE SWUNG A MADDENED BRONCO.

should insist upon a two years' apprenticeship, but if Jacob could serve seven years and again serve for Rachel, he should be able to serve for two.

The old man had no particular objection to him save that he had inherited his money. This being the case the stipulation that he should not even write Marjorie, lest he work upon her sympathies, seemed particularly hard, but Dufford was a hard man, and if Marsden wanted Marjorie for his wife, he could only bow to the dictum.

It was four days before he landed in the little Colorado town which was the nearest railroad point to the mine, and the next morning a six hour ride brought him to the desolate collection of buildings grouped around the shaft of the mine, which night and day ground out more wealth for the company of which Dufford was the head.

The superintendent was easily found, and he glanced over the letter Marsden presented.

"All right," he said curtly. "Had any experience firing?"

"Guns or steam engines?" said Marsden.

"You know very well," was the sharp response. "Can you fire an engine?"

"I can," was the quiet answer, "though I have had no experience at the work. It's merely a matter of shoveling coal, isn't it?"

"Shoveling the coal right," corrected the superintendent. "Better take your things over to the bunk house, then go to the engineer and tell him that you're Jim and that Casey is to show you how to fire. What is it, Peters?"

He turned to attend to another man who had entered, and feeling himself dismissed Jim turned away.

Inquiry developed the fact that the bunk house was the long low shed where the men slept and ate. The Chinaman in charge of the place showed him where to put his trunk at the side of a narrow cot, and presently, clad in a suit of overalls, Jim stroked into the engine room and presented himself to the engineer.

"I am Jim," he said simply. "Mr. Travers said that Casey was to show me how to fire."

The engineer nodded over his shoulder.

"Tell Casey," he said and went on with his oiling.

Casey was more companionable. He deftly elicited information as to Jim's place of hailing and other facts as he made it apparent that Mr. Travers was right when he said that it was not merely a question of shoveling coal.

Coal cost much when it had to be

brought from the railroad by a horse team system, the cars going down loaded with ore and coming back with the coal when it was needed. Every shovelful had to be thrown just where it was needed to feed the fire evenly, and Jim's arms ached as he strove to learn the proper twist of the shovel to land the coal in the desired spot.

It was two weeks before he could be trusted on a trick alone, but at last Casey pronounced himself satisfied with Jim's ability, and he reigned over the stoke pit for eight hours a day.

It was hard work for a man whose exercise had been taken in a gymnasium, but Jim rapidly hardened to it, and in six months it had become second habit.

He sent east for books on engineering, and by a mistake a book on electrical engines was sent him instead of the one for which he wrote. He sat down to look it over before he sent it back, and to the original book he added others.

He had been there little more than a year when he sought out Travers and laid a plan before him. Less than half a mile up the valley a constant fall broke over the high cliff and rolled into the valley, 400 feet below. It was Jim's plan to use water power instead of steam and employ a trolley on the tramway.

Travers smiled at first, but Jim worked out the plan for him, and the New York office approved. Jim was put in charge of the plant, and the company raised Travers' salary.

It was well toward the close of the second year that Dufford came to visit the mine. No one knew of his intention until word was telegraphed from the station. The word was flashed about the camp that the old man had come, but the first hint that ladies accompanied him came to Jim as he stood in the door of the power house. The road led past the door, and as he stood listening to the rhythmic purr of the dynamo the familiar sound was broken by the quick beat of horses' hoofs on the hard road, and around the curve swung a maddened broncho with a woman swaying in the saddle.

Marsden sprang into the roadway and in one tense moment fought the insane brute with desperate energy as he was dragged along. Then the light was won, and he sprang to the saddle just as Marjorie slipped, fainting, from the seat.

"I came because I wanted to see for myself," she explained an hour later as they sat on the porch of the superintendent's cottage. "I could not believe that you had been content for two years as a fireman. Of course, Mr. Travers wanted the credit of introducing the biggest money saving device in the plant, and he did not remember that father was particularly interested in you. Father ought to have been more explicit."

"But it's been a good thing for you," declared Mr. Dufford as he stepped through the doorway. "You've shown the stuff that's in you, and it's mighty good stuff—fit material for a son-in-law. I'm going on to the rest of my holdings in New Mexico as long as I'm out here. As you are going to be put in charge of my mining interests when we get back to New York, you'd better combine a honeymoon and a business trip."

The Sitters in Stations.
"I wonder what all these people do that sit in the various railroad waiting rooms," said the observant man. "You see them in the Grand Central station, in the waiting rooms at Jersey City and Hoboken, sitting down and apparently waiting without end. You see the same types not only in New York, but in any of the railroad waiting rooms of the big cities. They don't seem to have anything to do; a large part of them are not even entertaining themselves by reading. They appear to be watching nothing in particular, and yet there they sit and wait. They don't seem to be interested in the movements of the trains, for they never look up when the 'bawlers' comes through. They don't seem to be waiting for anybody, as they show little interest in the crowds that stream through after the arrival of every train."

"There is the mother with the usual assortment of babies, one of them always squalling and the rest of them running around with faces sticky with candy; the thin, ancient dame with an umbrella and a reticule, the elderly gentleman with the black bag, the young lady with the paper backed novel and the young man with the celluloid collar and the red made up necktie. Look any waiting room crowd over, and you always find these types, and they always are waiting."—New York Press.

Fishes in Captivity.
Fishes in aquariums when first placed in captivity are likely to be wild and to seek constantly to escape. Sooner or later they quiet down, and often they become very tame. They feed well and grow and seem quite settled and content in their new home. But it may be that some fish, after a year of this quiet, routine life, are suddenly seized again with a desire to escape and go wild in their efforts, roaming the tank incessantly and finally killing themselves by running blindly or recklessly into a wall. Fishes are sometimes greatly disturbed by parasites. But fishes that are perfectly sound take on sometimes in this manner, and their actions seem attributable only to the awakening of an intense desire to be free again.

A Poor Rule Then.

Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional endorsement of each of its ingredients. It is a most valuable number of ordinary non-professional testimonials. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful or habit-forming drug is to be found in the list of its ingredients.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves weaken, and a long list of bad, unpleasant symptoms follow. Much must not be expected of this "Favorite Prescription." It will not perform miracles, but it cures tumors—no medicine will. It will often prevent them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, free. All correspondence should be strictly private and absolutely confidential. Address Dr. E. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 cent stamps for paper-covered, or 50 stamps for cloth-bound copy. Address as above.

CORNWALL CANAL BLOCKED.

Jonas Strikes Gates and Tears Them From Fastenings.

Cornwall, July 6.—Navigation in the Cornwall Canal was blocked last night by the wrecking of the two upper gates of lock 17 by the steam barge *Jonas* of Pictou, owned by Capt. H. A. O'Brien and loaded to a depth of 10 feet with pulp wood, consigned from Three Rivers to Fort Erie.

The *Jonas* had entered lock 17 and as the lock was being filled she surged ahead and struck the south gate with great force, tearing it from its fastenings. The weight of water in a mile and a quarter long tore the other gate loose and threw the steamer stern first against the lower gates. Fortunately the fireman, hearing the shouts of the lockmen and signals of the captain turned on full steam ahead and thus relieved the pressure on the lower gates, which, although damaged, did not give away.

As soon as the matter was reported, Frank Lally, overseer of the Cornwall Canal, mustered a large force of men, and after sending down Diver Walter Gallagher to clear away the wreckage on the gravel in the bottom, started work with the lockgate lifter to replace the gates. He hopes to have the canal fit for navigation early in the morning, unless something unlooked for occurs.

STEEL KNIFE IN THE FLESH.

That's the sensation experienced by Robert Price, of Heaton, Ont. He knew it was scalding and of course used "Nervine" as usual, it cured and he says "No Inimic can excel Polson's Nervine. Severe pains made my side lame. It was like a steel knife running through the flesh. I rubbed in lots of Nervine, and was completely cured." A regular snap for Nervine to ease Sciatica and rheumatism. It cures the lower back, cures it in short order. Large 25c bottles at all dealers.

The great difference between men is not in moral judgments, but in moral loyalties.

PERT PARAGRAPHS.

There is one good thing about a rapid man—he is pretty certain to make a quick finish.

A gentle manner is a good thing to have, especially if it is backed up by the ability to give a swift kick.

People only make a pretense of exchanging views. They never really do it.

Most people are willing that you should help yourself—if they can't keep you from it.

Getting a living is so strenuous for some men that they don't have any time to live.

We can stand the foolishness of a successful man much more easily than we can the wisdom of a failure.

Lack of courage keeps many a man from being a law breaker.

Some people say nothing so persistently that you suspect them of drawing a salary for it.

You can't tell how many children a woman hasn't by the motherly air she wears.

What most of us would like is an income that is discriminating enough to adjust itself to our needs.

A Natural Result.

"Jones had this terrible fall this morning. He slipped on a banana peel and came down on the stone sidewalk."

"Did he break anything?"

"Nothing but the ten commandments."

The Get Rich Game.

If a man would only shave himself, allow his wife to cut his hair, and his own hands used to shine his shoes, and simple, homemade neckties wear, walk when he had a chance to ride, and save up earnings for awhile, he'd soon have money in the bank—A very neat and growing plan.

If a man would only tobacco out, smoke only when his friends stood treat, and down his throat let water float, and at the free lunch counter eat, leave out ice cream, preserves and pie, and live on cheap, substantial grub, without much trouble he could save enough small change to fill a tub.

If a man would wear his last year's hat, buy a swell eight dollar suit and make that do a year or two, nor fill his closets up with loot, if he would cut out underwear, choose, large, 12c, 15c, 18c, 20c, 22c, 24c, 26c, 28c, 30c, 32c, 34c, 36c, 38c, 40c, 42c, 44c, 46c, 48c, 50c, 52c, 54c, 56c, 58c, 60c, 62c, 64c, 66c, 68c, 70c, 72c, 74c, 76c, 78c, 80c, 82c, 84c, 86c, 88c, 90c, 92c, 94c, 96c, 98c, 100c, 102c, 104c, 106c, 108c, 110c, 112c, 114c, 116c, 118c, 120c, 122c, 124c, 126c, 128c, 130c, 132c, 134c, 136c, 138c, 140c, 142c, 144c, 146c, 148c, 150c, 152c, 154c, 156c, 158c, 160c, 162c, 164c, 166c, 168c, 170c, 172c, 174c, 176c, 178c, 180c, 182c, 184c, 186c, 188c, 190c, 192c, 194c, 196c, 198c, 200c, 202c, 204c, 206c, 208c, 210c, 212c, 214c, 216c, 218c, 220c, 222c, 224c, 226c, 228c, 230c, 232c, 234c, 236c, 238c, 240c, 242c, 244c, 246c, 248c, 250c, 252c, 254c, 256c, 258c, 260c, 262c, 264c, 266c, 268c, 270c, 272c, 274c, 276c, 278c, 280c, 282c, 284c, 286c, 288c, 290c, 292c, 294c, 296c, 298c, 300c, 302c, 304c, 306c, 308c, 310c, 312c, 314c, 316c, 318c, 320c, 322c, 324c, 326c, 328c, 330c, 332c, 334c, 336c, 338c, 340c, 342c, 344c, 346c, 348c, 350c, 352c, 354c, 356c, 358c, 360c, 362c, 364c, 366c, 368c, 370c, 372c, 374c, 376c, 378c, 380c, 382c, 384c, 386c, 388c, 390c, 392c, 394c, 396c, 398c, 400c, 402c, 404c, 406c, 408c, 410c, 412c, 414c, 416c, 418c, 420c, 422c, 424c, 426c, 428c, 430c, 432c, 434c, 436c, 438c, 440c, 442c, 444c, 446c, 448c, 450c, 452c, 454c, 456c, 458c, 460c, 462c, 464c, 466c, 468c, 470c, 472c, 474c, 476c, 478c, 480c, 482c, 484c, 486c, 488c, 490c, 492c, 494c, 496c, 498c, 500c, 502c, 504c, 506c, 508c, 510c, 512c, 514c, 516c, 518c, 520c, 522c, 524c, 526c, 528c, 530c, 532c, 534c, 536c, 538c, 540c, 542c, 544c, 546c, 548c, 550c, 552c, 554c, 556c, 558c, 560c, 562c, 564c, 566c, 568c, 570c, 572c, 574c, 576c, 578c, 580c, 582c, 584c, 586c, 588c, 590c, 592c, 594c, 596c, 598c, 600c, 602c, 604c, 606c, 608c, 610c, 612c, 614c, 616c, 618c, 620c, 622c, 624c, 626c, 628c, 630c, 632c, 634c, 636c, 638c, 640c, 642c, 644c, 646c, 648c, 650c, 652c, 654c, 656c, 658c, 660c, 662c, 664c, 666c, 668c, 670c, 672c, 674c, 676c, 678c, 680c, 682c, 684c, 686c, 688c, 690c, 692c, 694c, 696c, 698c, 700c, 702c, 704c, 706c, 708c, 710c, 712c, 714c, 716c, 718c, 720c, 722c, 724c, 726c, 728c, 730c, 732c, 734c, 736c, 738c, 740c, 742c, 744c, 746c, 748c, 750c, 752c, 754c, 756c, 758c, 760c, 762c, 764c, 766c, 768c, 770c, 772c, 774c, 776c, 778c, 780c, 782c, 784c, 786c, 788c, 790c, 792c, 794c, 796c, 798c, 800c, 802c, 804c, 806c, 808c, 810c, 812c, 814c, 816c, 818c, 820c, 822c, 824c, 826c, 828c, 830c, 832c, 834c, 836c, 838c, 840c, 842c, 844c, 846c, 848c, 850c, 852c, 854c, 856c, 858c, 860c, 862c, 864c, 866c, 868c, 870c, 872c, 874c, 876c, 878c, 880c, 882c, 884c, 886c, 888c, 890c, 892c, 894c, 896c, 898c, 900c, 902c, 904c, 906c, 908c, 910c, 912c, 914c, 916c, 918c, 920c, 922c, 924c, 926c, 928c, 930c, 932c, 934c, 936c, 938c, 940c, 942c, 944c, 946c, 948c, 950c, 952c, 954c, 956c, 958c, 960c, 962c, 964c, 966c, 968c, 970c, 972c, 974c, 976c, 978c, 980c, 982c, 984c, 986c, 988c, 990c, 992c, 994c, 996c, 998c, 1000c, 1002c, 1004c, 1006c, 1008c, 1010c, 1012c, 1014c, 1016c, 1018c, 1020c, 1022c, 1024c, 1026c, 1028c, 1030c, 1032c, 1034c, 1036c, 1038c, 1040c, 1042c, 1044c, 1046c, 1048c, 1050c, 1052c, 1054c, 1056c, 1058c, 1060c, 1062c, 1064c, 1066c, 1068c, 1070c, 1072c, 1074c, 1076c, 1078c, 1080c, 1082c, 1084c, 1086c, 1088c, 1090c, 1092c, 1094c, 1096c, 1098c, 1100c, 1102c, 1104c, 1106c, 1108c, 1110c, 1112c, 1114c, 1116c, 1118c, 1120c, 1122c, 1124c, 1126c, 1128c, 1130c, 1132c, 1134c, 1136c, 1138c, 1140c, 1142c, 1144c, 1146c, 1148c, 1150c, 1152c, 1154c, 1156c, 1158c, 1160c,

The Vongunten rink was composed of A. E. Pilkey, D. J. McDonald, E. Fremlin, with A. H. Von Gunten as skip, while those on the opposing rink were, J. Thompson, N. H. Stevens, W. E. Merritt, with W. R. Phillimore as skip.

Besides the Sutherland-Innes trophy, the winning rink captures the pair of fine bowls put up by the local club as a special prize. The Vongunten rink has also been complimented by their opponents for their courtesy extended during the various contests.

ROCKEFELLER ON STAND.

Is Willing Witness But Says He Knows Nothing.

Chicago, July 8.—John D. Rockefeller, president of the Standard Oil Co. of New Jersey, occupied the witness stand in the United States District Court Saturday while Judge Landis asked him with questions regarding the financial strength and the business methods of the corporation of which he is the head.

Mr. Rockefeller was a very willing but equally unsatisfactory witness. He was ready to tell all that he knew, but he said that he knew practically nothing.

The net result of his examination was the declaration that he believed that during the years 1903, 1904 and 1905, the period covered by the indictments on which the Standard Oil Co. of Indiana was recently convicted, the net profits of the Standard Oil Co. of New Jersey, were approximately 40 per cent of an outstanding capitalization of \$100,000,000.

HE NEVER MADE A BOMB

Legless Miner, Whom Orchard Accused, Gives Denial.

Declared to Have Been Chief Bomb-maker—How Alibi Was Established—Letters Sent to Alaska for Post-Wife of Former Detective Contradicts Orchard—Death of Witness Causes Delay.

Boise, Idaho, July 6.—Haywood's trial was resumed at 10 a. m. yesterday, the defence continuing its testimony. Marion Moore, a member of the Executive Board of the Western Federation was called. Darrow announced that the death of Frank Schmeider, a witness at Denver, necessitated the day's delay. Schmeider was killed by a train at Denver the night before last when he was starting for Boise.

Marion Moore said he knew Orchard slightly, having met him in Denver in 1904. Orchard introduced himself. In 1905 Moore took a letter to Alaska for Orchard. This letter was directed to Orchard's wife at Cripple Creek. "I told Orchard he was sending his letter a long way from home to be mailed," said Moore, "and he said he wanted to get rid of that woman." This letter, Moore said, Orchard said, to establish an alibi for him. It was written in July and posted in August. Steunenberg was killed in December.

Mrs. Michael Fallon, whose first husband was "Kid" Waters, the Cripple Creek gunman, put another contradiction to Orchard in the record. She testified that her first husband was a detective in the employ of the Mine Owners' Association, and that Orchard visited him at her house. Orchard swore that he did not know Waters.

Oney Barnes, the legless miner, who Orchard said was the expert bomb-maker of Cripple Creek, swore that he never made a bomb in his life. He met Orchard occasionally in Colorado. On the day the Independence depot was blown up, Barnes was attending Democratic State Convention at Pueblo.

BANK WRECKERS SENTENCED.

Two Officials Sent Down For Rather Long Terms.

Pittsburg, Pa., July 5.—After refusing the application for new trials of the men recently convicted in connection with the failure of the Enterprise National Bank of Allegheny, Pa., Judge Ewing, in the United States Court yesterday sentenced Edward P. McMillen, the general bookkeeper of the defunct institution, to serve six years and six months in the Western Penitentiary.

Charles Menzemer, former assistant teller, was sentenced to five years and six months' imprisonment. Thomas W. Harvey, the former teller was given until Tuesday to settle his affairs after the judge had refused to suspend sentence.

Lemert Cook, a real estate dealer convicted on nine counts of misapplying the funds of the bank, was also refused a suspended sentence and given a respite until Tuesday.

KILLED BY G. T. R. TRAIN.

Trenton Man Did Not Hear Cars—Lady Injured.

Brighton, July 6.—A sad fatality occurred four miles east of here yesterday. Mr. McCullough of Trenton, accompanied by Mrs. McCoy, were driving to Brighton in a single buggy. While crossing the track at Post's Crossing they were hit by the up way freight on the Grand Trunk. Mr. McCullough was killed and Mrs. McCoy was badly injured. It is expected that she will recover. The man was hard of hearing and did not hear the train coming, although the woman saw the danger and tried to stop him.

WILL TRY BARTENDER.

Held In \$5,000 Bail On Charge of Aggravated Assault.

Haileybury, July 6.—Gardner Hunter, bartender, was arraigned before their Worshipships Cobbold and Driden here on a charge of aggravated assault.

Attorney Slight entered the plea of not guilty for the defendant. Two witnesses for the crown were sworn showing the seriousness of the assault committed.

The defence offered two character witnesses. The defendant is held for trial at North Bay and released on \$5,000 bond.

New Minister Without Portfolio.

Fredericton, July 6.—James Barnes, M. P. for Kent, was sworn in a member of the local Government at noon yesterday, with portfolio. No appointment has yet been made to the vacant portfolio of the Attorney-General.

Barnes is a native of Ontario, and is 65 years of age, and has represented Kent since 1895.

He is a lumberman and railroad contractor.

Tax Collector's Error.

Kingston, July 6.—The city solicitor has issued a writ against George Thompson, ex-tax collector for \$2,500 shortage in his collections between 1900 and 1903. The city wants a judgment.

Thompson, though honest enough, kept his books in a very loose way.

Rode in Street Cars; May Die.

GERMANY WILL ACCEPT.

French Proposition As to Declaration of War—Others Reserve Opinions.

The Hague, July 6.—The sub-committee of the peace conference on the rights and duties of neutral powers in times of war, etc., met yesterday morning, M. Nelidoff, president of the conference, who had recovered from his indisposition was present.

The French proposition providing that there shall be a declaration of war before the opening of hostilities and the amendment of the Netherlands establishing a delay of twenty-four hours between a declaration of war and the opening of hostilities were lengthily discussed. The military delegates to the Netherlands and France made long speeches explaining their respective positions.

The Russian military delegate supported the French proposition, and Baron Marschall von Bieberstein (Germany), rose and said: "Germany accepts in its entirety the French proposition, which she considers conforms with the modern progress of warfare."

Joseph H. Choate (United States), Lord Reay (Great Britain), and M. Tsunaki (Japan) declared they reserved their opinion on the whole principle of the French and the Dutch propositions, and, consequently, a vote on the subject was postponed until the next meeting of the sub-committee.

TWO CAMPS HAVE BATTLE.

Guggenheim Workmen Fired Upon While Attempting to Lay Track.

Seattle, Wash., July 6.—A despatch to The Post Intelligence from Valdez, Alaska, says one man is dead, another is fatally injured and nine are seriously wounded as the result of a first conflict between the Guggenheim and the Bruner interests at Katalla on Wednesday. The fight is over the right of way, which the Bruner force are protecting.

The Guggenheim interests stationed detachments of armed men at points commanding the disputed ground early in the day. Tony Depascal, in charge of a party of laborers, started out by track over the Bruner right of way under cover of a fire from these camps. A brisk fire was opened from the Bruner camp, but Depascal's men succeeded in capturing the steel "go-devil" on which the Bruner camp had relied to destroy the work done by their opponents.

Representatives of the Bruner interests are making every endeavor to have Governor Hoggatt order troops to the scene of hostilities.

REVOLT IN INDIA GROWS

Natives Are Training in Archery and Sword Exercise.

Situation More Serious Than Government Realizes—British Goods Boycotted—Rural Police Affected—Assaults On Europeans Increasing—Many Lawless Acts Committed—Students Openly Defiant.

London, July 6.—Indian despatches represent the trouble in India as increasing. A correspondent who has returned to Calcutta from three tours of the most disaffected districts in the province is hardly realized by the Europeans in India or at home. The discontent has spread among the landholders and the Bengal aristocracy, as well as among the peasants and coolies.

An active organization known as national volunteers, which has branches in almost every town and village, is being trained in archery and sword exercise by well-paid instructors. They preach everywhere revolt against the British, and actively push the boycott of British goods. Men who are threatened, and who will maintain relations with English officials, are punished by a social boycott, the deadliest weapon that can be employed against a Hindu.

Hundreds of tales of lawlessness and oppression by the national volunteers come from every district. The rural police are too weak or too disaffected to take action. The people are gradually losing respect for order and authority. Several land-owners have usurped executive and administrative powers by imprisoning tenants.

Police Reserve Exhausted. In the Barisal district committees of public safety have been formed. These committees hold judicial enquiries, summon witnesses and punish offenders. The Government has exhausted its reserve of police and has borrowed companies of Gurkhas from Assam and military police from other provinces. These are posted in small batches about the country, but are unable to prevent the persecution of loyalists.

The worst feature of the situation is the growing number of assaults on Europeans. Europeans go about armed with revolvers. European passengers carry shotguns in trains. Ladies are afraid to travel on the Assam-Bengal Railway. A traffic official said there was danger of certain sections of the line being closed owing to the reluctance of guards and drivers to take trains out.

The impression is gaining strength that firearms are filtering into Eastern Bengal. All over Bengal national schools, financed entirely by Bengalese and disclaiming all connection with the Government, are springing up.

The students in the Government-aided colleges in Calcutta are openly defying the recent Government circular prohibiting students from attending political meetings. The students not only address the meetings but implore the reporters to mention their names in the newspapers.

MISREAD TRAIN ORDERS.

Cause of Fatal Collision on Grand Trunk at Eastman's Springs.

Ottawa, July 6.—The inquest into the death of Brakeman Douglas, killed at Eastman's Springs, June 22, in a verdict that the accident was caused by a misreading of train orders by the engineer on train 1837, which crashed into train 70 on the night in question.

It was recommended that all stations on the main line of a railway system be kept open day and night, in charge of competent officers and telegraphic or telephone communication exists between stations.

MCBRIDE DENIES REPORT.

Will Not Enter Federal Politics—Gained Point in England.

Montreal, July 6.—Mr. McBride reached here yesterday en route for British Columbia. The Premier denies most emphatically that he intends leaving the local field for federal politics.

He also claims to have gained his point in England, declaring that Lord Elgin and Winston Churchill received him well and that the objectionable wording of the bill has been struck out, so that British Columbia can come back at any future time.

East Huron Nominations.

Brussels, Ont., July 6.—A largely-attended meeting of the Liberal-Conservative Association of East Huron was held in the town hall, Brussels, yesterday. A large number of delegates from the various parts of the riding were present.

Dr. Chisholm of Wingham, the present member, was again nominated for the Commons and James Bowman, ex-warden of Morris Township, was nominated for the Legislature, but neither would state definitely as to whether they would accept the nominations.

Hon. W. J. Hanna, the Provincial Secretary, was present, and delivered an address touching on the measures of the day.

Charged With Attempted Murder. Sherbrooke, July 6.—The charge of attempted murder was laid against Albert Greenhill, Mrs. Lynn, the mother of the girl assaulted, said the father would not trust himself at the court house for fear he would shoot the prisoner.

Miss Lynn, the victim, has recovered consciousness, and her chances of recovery are good.

Sold Liquor; Sent Down.

Ottawa, July 6.—The first case of imprisonment under the local option bylaw occurred yesterday, when J. P. Dowser, who was convicted of selling liquor without a license at his temperance hotel at Metcalfe, for a second offence, was sent to jail for four months, with hard labor.

POSSE AFTER JOE.

Escaped Criminal Is In Woods and Well Armed.

Grandview, Man., July 6.—A posse of 30 men are pursuing Joseph Wynn, charged with shooting Joseph Story, who broke jail at Grandview last week. Wynn has been seen a couple of times, but the posse are reluctant about approaching him, as his record shows him to be a dangerous man. He is known to have a pistol and a quantity of ammunition, which he will use rather than stand for re-arrest.

The escaped man knows every foot of the country over which he is being pursued, and has the advantage. The country itself also favors him owing to its rough character, which makes pursuit slow.

HELPS MEN TO WORK HARD.

That's what Ferrozone does; it supplies the additional strength that enables a man to maintain health under difficulties. "Last spring I was so completely fagged out that I could not work," writes J. W. McNichol, of Thornhill, Man. "In the morning I was tired—limbs ached all over. Had no appetite, was sleepless, nervous and unhappy. Ferrozone put new life into me. Now I eat heartily, nerves are strong, I sleep well. I know the joy of real health." It's by supplying the men with good blood that Ferrozone builds up; try it—50c. per box at all dealers.

SET FIRE TO POWDER.

Little Boy Will Lose Sight of Eye as Result.

Kingston, July 6.—Willie Davy, 6 years old, son of Charles Davy, Petworth, got hold of a bottle containing gunpowder, and, childlike, lighted a match and applied it to the powder, with the result that the powder exploded, bursting the bottle into fragments and burning the lad's face and arms terribly.

The little fellow will lose the sight of one eye. The house was also set on fire, but the flames were extinguished.

A STOREHOUSE FOR POISONS.

You may not think so, but that's what you become when the kidneys are affected. These organs cleanse the body; they are the filters that remove from the blood the waste matter that acts like deadly poison on the vitality and health of the system. Dr. Hamilton's Pills stimulate the kidneys, expel fermenting matter from the bowels, restore the liver and stimulate all excretory and secretory organs. This enables the blood to quickly replenish itself and establishes perfect health. No medicine does such lasting good as Dr. Hamilton's Mandrake and Butter-nut Pills, at all dealers.

WILL NOT GRANT DEMANDS.

Government Refuses Increase Wanted By Freight Handlers.

Ottawa, July 6.—M. J. Butler, Deputy Minister of Railways, yesterday morning told the department would not grant the demands of the striking Intercolonial freight handlers at Halifax for an increase of wages before returning to work.

If the men would go back to work at the present rate, he said, their grievances would be investigated and a board of investigation and conciliation, but it was not fair to grant an increase first and then investigate.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Do not make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by all dealers.

Toronto Man Suicides.

Winnipeg, July 6.—An unknown Toronto man committed suicide in the Assiniboine River near Osborne Bridge at 2:30 yesterday morning. A police constable saw him standing on the river bank and going down the man jumped into the water.

The officer followed him to the centre of the stream, where the man sank, throwing his hands in the air and crying, "It's too late."

His pockets were filled with stones. He was about 30 years of age and wore a light suit, with white hat and shoes.

SPITZBERGEN.

An Overlooked Island Which Some Nations Should Control.

Because no nation has as yet assumed control of Spitzbergen the game there is being exterminated. And incidentally some opportunities in mining are being overlooked by the world. The United States consul general at Christiania, Henry Bordewich, writes: "Game, such as reindeer, polar bears, ptarmigan, geese, ducks and other birds, is still fairly plentiful in the islands, but as no one is in control the animals are being wantonly exterminated, being killed at all seasons of the year. One of the visitors up there last summer reports that a party of tourists killed upward of a hundred reindeer, leaving the carcasses where they fell, only bringing away with them a few of the finest heads and antlers for mounting. The elder duck is so tame while hatching that it often may be lifted by hand while the nest is robbed of down and eggs. In Norway stringent laws have been enacted in the protection of this valuable and graceful bird. The walrus at this time is nearly extinct; the white whale, which formerly was very abundant, is becoming scarce, and the numbers of seals are largely reduced."

"No nation has as yet taken possession. It would seem high time for the countries most directly interested to come to an understanding whereby the islands, including Bear Island, can be formally turned over for annexation to one certain power, or else a combination of the powers should make arrangements whereby law and order could be maintained, game and fishery laws made and enforced and mining claims protected. The prospect for paying coal mining is good, and the island is made that indications of valuable minerals are present. Tourist steamers of different nationalities visit the islands every season."

"The climate is quite fair, considering the high latitude. A clear sky is said to prevail week after week in the summer season. The warmest part of the year is the first half of August, when the thermometer sometimes reaches 16 degrees centigrade (60 degrees F.). The interior of the islands is little known, being difficult of access owing to glaciers and mountains. Violent storms, with snow, sleet and rain, are frequent except during the short summer."—Chicago News.

East Side Leisure in New York.
East side leisure is a New York mystery. Besides the hosts of the unemployed that crowd the public squares when the weather gets warm there are hundreds and perhaps thousands that lounge at all hours of the day in the cafes, beer saloons and wine stuben, where they must pay for what they eat and drink in order to obtain the privilege of lounging. In the very poorest quarters men who by their appearance must have little to spend play backgammon, cards or chess, read the comic papers or merely doze between drinks in all drinking places. Nobody can account for all this leisure. Some of those who lounge in the places of public resort by day probably work at night. Others belong to that considerable class of persons on the east side who earn their living by devious ways of one sort or another and meet their clients or their victims in the saloons or cafes. Still others are supernumerary men who are supported after some fashion by their children. But there always is an unexplained residuum.—New York Sun.

A Queer Theory.
An old friend says: "See if any of your readers can explain why, without any exception, a person having met death through violent means is picked up with either one or both shoes removed intact. I have been employed in railroad work for twenty-seven years and have witnessed hundreds of instances which lead me to consider such facts as nothing short of mysterious phenomena. The other night I was riding from Albany to Troy on the belt line, and the engine struck and instantly killed a man walking on the track. While the excitement was going on I remarked to a fellow-passenger, 'Look and see if he has both shoes on.' We both looked and discovered that the left shoe had been removed without the string having been loosened. How can you account for it?"—New York Press.

The Dentist's Solicitor.
There are solicitors and solicitors, but an enterprising young woman in West Philadelphia has sprung a new wrinkle on that peaceful and quiet living section, says the Philadelphia Record. She has had a number of business cards printed bearing her name, and under it is the announcement, "Solicitor for Dr. —, dentist." She goes from house to house and, once admitted, soon finds out how many in the family are afflicted at times with the pangs of toothache or need some cavity filled. She presents the card and, after a little talking, soon has clinched an engagement with the dentist. Three times out of four she succeeds in making the appointment, and her commissions amount to a snug little pile.

Sheet Silver.
The cheapening of the price of sterling silver articles within a generation past, says a writer in the Journal of the Franklin Institute, has been due partly to the invention of methods of rolling silver into sheets, from which the articles are stamped out by manufacturers instead of being laboriously hammered out from rods of silver, which was the old process. Nearly all manufacturers of sterling silver articles purchase the silver sheets from mills that make a specialty of rolling them. Sterling silver contains 975 parts of pure silver to twenty-five parts of copper. The copper gives it the requisite hardness.

BANDIT DEGRADES MACLEAN.

Forced Him to Remove His Turban and Ride Mule.

Tangier, July 6.—The British legation here has no news of Kaïd Gen. Maclean, the commander of the Sultan's bodyguard, and is making representations direct to the authorities at Fez.

When Gen. Maclean was captured Raisuli ordered him to dismount from his horse and mount a mule, in order to show his inferior station, and also directed him to remove his turban, declaring that such a headress was reserved for the Mussulman.

VILLAGE FIRE SWEEP.

Twenty-Six Buildings in Lawrence, N. Y., Burned Away.

Malone, N. Y., July 6.—Twenty-six buildings, including every business place in North Lawrence, were destroyed by the fire which, fanned by a strong wind, swept through the village yesterday at a pace which defied the efforts of the fire-fighters sent from Malone. The loss is estimated at \$75,000, with small insurance.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Sanatorium, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach troubles as well as many other chronic or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver or biliousness, and kindred derangements.

THE MORMON QUESTION.

Protest Against Entrance of Undesirable Element Into Canada.

The Vancouver Daily Province is not inclined to view the increase of the Mormons with equanimity. It says on this subject:

"In view of the encouragement which was given to the Mormon element by the victory of Reed Smoot, their representative in the United States Senate, and the unequalled support afforded them by Hon. Frank Oliver, the Canadian Minister of the Interior, the intelligence which comes from the East that they are conducting a most active proselytizing campaign in the large centres of population is extremely significant. A despatch from New York is to the effect that in Trenton, N. J., the open-air meetings which the Mormon elders had arranged, with the permission of Oliver, to hold, were interfered with by the Salvation Army which monopolized all the vantage points in the city and prevented these agents of a polygamous creed from obtaining a hearing. That the Mormons should thus be able, openly and fearlessly, to proclaim their faith, and to carry a society in the state and their desire to increase their numbers and importance, may dispose us to the opinion that they may yet constitute a question on this continent with which Governments will have to deal. It is idle to tell us, as Hon. Frank Oliver has done, that the Mormons are industrious and enterprising. We know that. We also know that many undesirable elements in our society are also industrious and enterprising, but they are not the less undesirable for that reason. The Mormons, however, are not only industrious and enterprising, but they are also a danger. And the peril which the Mormons represent is regarded by the most intelligent and moral of our people as increasingly great. That either Mr. Oliver or the American friends of the Mormons will ever convince the public that that creed does not stand for polygamy it is impossible to believe. Plurality of wives is one of the cardinal principles of their peculiar faith; it is the principle which gives it favor with those men who are likely to throw in their lot with the sect, and to eliminate it from their doctrine would be to leave Mormonism without any distinctive feature, without the vital principle. Mormonism without polygamy would die in a generation; with polygamy to grow and flourish unless the Government stamps it out. When these elders are allowed openly to proselytize in the great cities of the east, it means that permission is given them to recruit for their special society which has for its object the destruction of the States of the Union. It is plain whether in the United States or Canada; and the Mormons have a solid vote which is of great use."

WEST SPENDING TOO FAST.

Tight Money Ahead Unless Expenditure Is Reduced.

Mr. Byron E. Walker, president of the Canadian Bank of Commerce, in an interview on the financial conditions in the West gave his views of the situation as follows:

"Of course no one can tell until the money results have been seen out of the crop that has been sent back to what extent that relief will meet the western people's requirements, and to what extent it will get them out of debt. It is perfectly clear in any event, and it did not need this winter to tell us, that the West is in a financial straits, a great deal more than the people are receiving from their grain and cattle. If there is not at least a marginal contraction in the scope of improvement of all kinds, from settlers' houses to railway building, we cannot but expect that the fall we shall have a recurrence of the tightness of this winter, except in so far as the trouble this winter was caused by the tie-up of the grain. If we don't slow up in our expenditures, we shall inevitably have tight money again."

"Of course to be forewarned is to be forearmed. In the spring time about the condition of money for the next winter, it is a sign that there will be an instinctive adjustment going on in different people's affairs, and it is quite possible that there will be enough contraction here, and enough capital coming from abroad, to get us out of trouble."

Mr. Walker says there is a very large amount of foreign capital coming in that the man in the street does not know anything about.

FOOT TREATMENT.

Collier's Weekly: Our foot treatment of Canada is another illustration of how legislation can accomplish.

The Dominion has now made up her mind to treat us to as harsh laws as can be devised, and her decision is wise and right. For a quarter of a century she has waited patiently, while one President after another, and one Secretary of State after another, devised treaties intended for the mutual benefit of Canada and the United States. Every time the Senate, imagining itself to exist for sequestering benefits desired by the well-entrenched, has protected its rights against the administration and the people. Calmly, in length, Canadian leaders have seen that no fair measure of reciprocity could ever pass the Senate, and she has decided to do all in her power to stop trade with us, to develop it with England and her other colonies, to favor all Europe against the United States, to develop her own incalculable resources. We wish her well. Whatever harm our ass policy brings to us has been fully and painfully deserved.

TO DIVIDE U. S. AND CANADA.

The boundary line between Canada and the United States is marked with posts at mile intervals for a great part of its length. Cairns, earth mounds and timber posts are also used, and through the forests and swamps a line a rod wide, clear of trees and undergrowth, has been cut. Across the lakes artificial islands support the cairns, which rise about eight feet above the high water mark.

Fighting In Morocco.

Madrid, July 6.—A special despatch from Melilla, the Spanish seaport on the north coast of Morocco, says that a heavy but indecisive engagement between Moroccan rebels and imperial troops took place on Thursday, ending at six o'clock in the evening. Among the killed was the rebel chief Schaldy.

Say He Stole a Million.

THE TRANS-CANADA LIMITED.

The C. P. R. New Fast Trans-Continental Service.

The new fast service to be inaugurated by the Canadian Pacific Railway, Tuesday, July 2nd, will carry passengers across the continent in a little over three days and a half, the quickest time made by any railway in America. The new trains will consist of two or more sleeping cars and a diner-of latest pattern—with baggage car, and will rank amongst the most luxurious in the world. No day coaches will be attached, and the trains will be exclusively confined to holders of first-class tickets who desire sleeping car accommodations. These "Trans-Canada Limited" trains will leave Montreal every Tuesday, Thursday and Saturday at 12:30 noon during the months of July and August. Connecting trains leave Toronto for North Bay at 1:45 p. m. on the same day. Close is made at Moose Jaw with the new fast trains for Spokane, and other western American points.

WHERE WILL YOU GO THIS SUMMER?

If you desire rest and recreation why not "The River St. Lawrence Trip?" Folders descriptive of the Thousand Islands, Rapids, Montreal, Quebec, Murray Bay, Tadoussac, the Saguenay River, etc., on application to any Railway or Steamboat Ticket Agent.

For illustrated guide, "Niagara to the Sea," send 6c in postage stamps to H. Foster, Chief, A. G. P. A., Toronto, R. & O. Navigation Co.

NEW LINE TO MUSKOKA.

Canada's greatest railway, in building a line to connect Toronto with the main transcontinental track at Sudbury, has incidentally given us a new direct route to the Muskoka Lakes district, over which fast passenger trains will be running after Saturday, June 22nd. Bala, which is three and a half hours from Toronto, will be the Lakes terminus this summer, and there steamers of the Muskoka Navigation Co. will connect with trains carrying travellers to all points on Lakes Muskoka, Joseph and Rosseau. The roadbed is heavily laid and well ballasted, train equipment is new and handsome, and excellent time is made. In addition to the local trains there will be two flyers to the Lakes, the Lakes and Limited and Sunrise Express, and two flyers south-bound, the Queen City Flyer and Twilight Limited. Through sleepers will run to and from Toronto, Buffalo, Pittsburgh and New York, and of course, a splendid equipment of parlor cars, dining cars, and luxurious day coaches. C. B. Foster, District Passenger Agent, C. P. R., at Toronto, will be glad to mail full particulars of trains and handsome illustrated Muskoka folder, or same may be obtained free from local C. P. R. agents.

The tourist's season is now on and we are advised by W. E. Rispin, general passenger and ticket agent, that he has some especially attractive tours for the present summer season, leading to all the summer resorts of Canada, including Muskoka Lakes, the Temagami District, Georgian Bay, Lake Superior, River St. Lawrence, and Gulf and Atlantic Coast points, and would be very pleased to furnish information to any intending passengers.

The highest reward lies not so much in royal conditions as in regal character.

HOME OF "ROBINSON CRUSOE."

Defoe's House In London About to Be Demolished.

One of the most interesting literary shrines in England, the house in which Daniel Defoe penned the greater part of "Robinson Crusoe," is about to be torn down to make way for modern dwellings. This little, old-fashioned house, set back from the Finsbury road, Tooting, and in striking contrast with the modern shops which flank it on either side, is now practically just as it was 219 years ago, when Defoe came to it with his family to begin a strange life of isolation. He lived at Tooting for 18 months, and during this time and for 20 years thereafter is said rarely—by some, never—to have spoken to his wife or children.

The sole change that has been made in the house since Defoe's time was the substitution of a new front in the year 1788. Over the scullery on the second floor is the little room where Defoe worked over the literary masterpiece which has secured his reputation for all time. This, the smallest room of the twelve which comprise the house, was his sanctum, and only he passed its portals. Here for whole days he would shut himself from his family, receiving his meals, the meager repasts of an impecunious genius.

During the time Defoe lived in this house he was hard beset by creditors. Four years later he was declared a bankrupt and was compelled to secrete himself to escape a term in a debtor's prison.

The 18 months spent here, if we are to believe those who find an allegory of Defoe's own life in "Robinson Crusoe," was a time of great part of the book which tells of the shipwreck on a lonely island, the voyage to and from the wreck, the earthquake, Crusoe's serious illness, the

first reading of the Bible, and his visit to the other side of his island. Here, in the town of Tooting, then a small settlement, but now a thriving part of London, Defoe formed a congregation of dissenters. They first met in a private house (probably the one now to be demolished). Here Defoe is said to have preached to them occasionally. Subsequently the growth of the congregation compelled their removal to a temporary wooden building of greater size. From there they removed to the Defoe Presbyterian Chapel and quite recently a Defoe church was erected on the site of the author became the home of the descendants of the original body.

The old house is at present occupied by an aged woman and her equally aged husband. For a small fee they show visitors the room where Defoe wrote "Robinson Crusoe." In recent years the American pilgrims to this literary shrine have far outnumbered English callers.

Largest English Fortunes.

Just at the present moment, when the value of the property left by James Henry Smith, who died in Japan last month, is attracting a good deal of attention, it may be worth while recalling the fact that Chicago Smith, his eccentric cousin from whom he inherited most of his wealth, figures in the records of the English court of probate as having left a fortune of \$25,000,000. The late Baron Bimsh is set down in these same official records as having left a fortune of identically the same figure, namely \$25,000,000; while J. Pierpont Morgan's father figures for a trifle over \$10,000,000. The late Lord Bute, the Lord Wolveston, W. R. Smith, the publisher of the father of the present Earl of Derby, and Lord Grimthorpe, all range in the neighborhood of \$10,000,000; while Alfred Beit, the diamond king; Sir Charles Tennant, father of Dodo Asquith; the late Lord Alton, better known as Wentworth Beaumont; Hugh McCalmont; William Winans, the contractor, and Sam Lewis, the London money lender, each of them left about \$15,000,000.

There is no record in the annals of the English court of probate of any fortune exceeding \$25,000,000. Of course, these figures do not give the value of the value of the property left by the people whom I have just enumerated. For, in the first place, they do not include the entailed property, which, in the case of Lord Derby, is very large indeed. Then, too, they do not take into consideration the property which the testator may have held abroad, and disposed of by other wills probated by the courts of those countries.

London's Bishop Who Will Visit Us.

The bishop of London, who is to visit Canada during the coming summer, is on the border land of the East End and still a bachelor, says the London P. T. O. He has proved himself an ideal ruler of the see, for which his thirteen years' acquaintance and sympathy with the life of the people of London and pastorate of St. Martin's East End admirably fitted him. He won the real affection of the people "down east" by his free and easy manners with them and by acting up to his motto, "Don't be afraid to be human." He would often salute an individual man with a genial "Hello, old boy!" On one occasion he loaned a seedy individual his great coat, and it never returned. He has been censured by a parochial relief committee for indiscriminately giving half crowns away. One lad, who played football with him, says, "Ingram a pretty firm on his pins."

C. P. R.'S NEW CROSS-CONTINENT FLYER.

"Trans-Canada" Makes Fast Time Across America.

The business of the country is growing to such an extent that the C. P. R. finds it necessary to run an additional train between Montreal and Vancouver, making three trips a week during July and August. This train, which will be known as the "Trans-Canada Limited," will make the fastest time of any time across the American continent. It will carry baggage car, dining car and palace sleeping cars only, of the very latest design and with most modern appointments, and only first-class passengers will be carried. She will leave Montreal on the first trip July 2nd. Berths can be reserved in Toronto for passage from North Bay to points west of Winnipeg at which the "Trans-Canada Limited" stops. No passengers will be carried from Toronto for Winnipeg or points east thereof, as Winnipeg passengers arrive only one hour later by taking the "Imperial Limited." List of stops, full particulars and berth reservations can be obtained at C. P. R. local ticket offices, or from C. B. Foster, Div. P. A., C. P. R., Toronto.

Reduced rates to Detroit and return, going every Saturday and Sunday, returning up to Monday night, was \$1.60, is now \$1.50. C. P. R. are also making rate of \$1.00 going every Thursday, good to return until following evening. For further information ask C. P. R. ticket agent, corner of

POLICE COURT

Continued from Page One.

David Taylor, the crippled gaiter, whose amorous festivities with Mina Wilson were aired in Court some time ago, was up this morning for sent n e. Judge Houston sent him to six months in the common goal at hard labor.

"You are a disgrace to yourself and everyone you come in contact with," said the Judge. Mr. Houston remarked in passing, that he thought that the treatment in the local goal was almost too good for Taylor, and he hoped that the authorities there would find lots of hard work for Taylor to do, even if he had to dig post-holes and fill them up again.

Clark, the man who was up some time ago on a charge of ill-treating a child, was discharged this morning. Judge Houston saying that his case did not come within the law, but he warned Clark that the police would keep an eye on him in future, and it would probably go hard with him if he came up again.

"You should erase Whiskey from your bill of fare," was the advice handed down to Arthur Marriott, who answered to a charge of being drunk and disorderly. Marriott's little jollification cost Marriott \$1 and costs—\$5 in all. County Officers McGregor and Peters went out in the country Saturday, and gathered in Earle Broadbent, who lives near Merlin, and who has been wanted here for some time on a charge of perjury. The County police got wind of the fact that Broadbent had returned to his home, and were soon on his trail. The perjury charge arose out of the recent local option campaign in Merlin. O. L. Lewis appeared for Broadbent in County Court this morning, and Crown Attorney Smith prosecuted. The case was remanded for further evidence.

Canadian Sentiment.

London, July 8.—(C. A. P.)—The News interviewed E. W. Perks, M. P., who explains the Georgian Bay Canada points. He also stated that among all classes of Canadians there exists a feeling of strong dissatisfaction almost amounting to resentment in relation to successive English Governments.

There is a widespread feeling that Canada is not valued as she should be, particularly in any controversy with the United States when her interests are allowed to suffer.

British Columbia Surplus.

Vancouver, B. C., July 8.—Upon the deficits of previous Governments British Columbia has piled up what, at the end of the year, will be a surplus of \$1,000,000, the greatest in the history of the province.

C. F. M. 5—MOTOR CAR 4.

The Motor Car baseball team were defeated for the second time by the fast nine from the Canada Flour Mills on Saturday afternoon. The score was close and the playing was brisk. With the exception of a few errors on the part of each team the game was very interesting and fast. The first run was made by the Motor Car team, Elliott being the lucky man to score. Brundage again scored in the third, while Daniels and Davis each tallied in the fourth and ninth innings respectively. The C. F. M.'s were blanked until the fifth innings, in which the began to hit David pretty freely, and when the smoke had cleared away the following players had crossed the plate, Macomb, Clements, Clark and West. This made the score a tie, and the next run was not made until the eighth innings, in which Duff made the necessary run. Davis and R. Bort pitched good ball, each striking out ten men. Four men got bases off Davis on balls, but R. Bort held them all. Brundage on third base for the Motor Car played a good game, making a couple of dandy catches. The C. F. M. have improved much in their batting and fielding, and played a good game from the start. Oidershaw's decisions were, on the whole, fair and impartial. The line-up was as follows:

	Won	Lost	To Play
Tammany Healers	3	1	12
Wagon Works	3	1	12
C. F. M.	2	2	12

DASHED DOWN THE INCLINE

Cars Took Terrific Flight To Bottom Of River Bank

Niagara Falls, N.Y., July 8.—By the parting of a cable operating the cars of the inclined railway in Prospect Park, five persons were sent on a terrific flight to the bottom of the river bank Saturday. With the exception of one, a baby, all received terrible injuries, and one died in the evening. He was Peter Inda of the tailoring firm of Inda & Puls, 127 Franklin street, Buffalo, whose face was crushed beyond recognition, his skull crushed, his left shoulder dislocated, and his body badly bruised and lacerated.

The injured are: Veronica Olszewska, 113 Kosciuszko street, Buffalo, lower jaw broken in two places, all teeth knocked out, scalp wound, body lacerated. May die.

E. A. Burke, chief accountant of the Louisville & Nashville and the Chesapeake & Ohio Railroad, with headquarters at Covington, Ky., face cut and bruised, body lacerated, left ankle sprained and left arm fractured.

Mrs. E. A. Burke, suffering from shock, face lacerated, left hand broken. The six-year-old son of Mr. and Mrs. Burke, slight bruises about the body.

The accident happened just before the noon hour. Mr. and Mrs. Burke and their son were in the car ascending, while Peter Inda and the Olszewska woman were in the car going down. The fact that the cable parted when the car ascending was about a third of the way up accounted for the fact that the Burks escaped with less serious injuries than the two occupants of the descending car.

Oscar Barber, ticket agent at the foot of the inclined railway, saw the cars coming, and gave the warning in sufficient time to enable those in the waiting-room to make good their escape.

When the cars, shooting down the rails like a streak of lightning, crashed through the woodwork of the office and into the waiting-room below the scene was one of the wildest confusion. The occupants were thrown in all directions.

Doctors were summoned, and in a very few minutes a dozen of them were there. After rendering first aid to the injured, the victims were placed aboard the steamer Maid of the Mist and taken to the Canadian side of the river, where ambulances were in waiting to convey them back across the bridge to the Memorial Hospital here. It was impossible to bring them up the inclined railway, the accident putting it out of commission.

Supt. Perry of the state reservation cannot account for the accident. It

SUICIDES TO AVOID ARREST.

Newly-Married Woman Feared Trouble Over Sale of Piano.

Winnipeg, July 8.—Worried over the fact that she could not meet payments on her furniture, Mrs. Hornbrook of Bushnell street, a newly-wedded woman, aged 33, committed suicide yesterday afternoon by drinking carbolic acid.

She bought furniture on the installment plan and later a piano. When the payments on the furniture came due she sold the piano. Saturday the agent tried to collect on the piano, and finding it was gone, threatened her with arrest.

Afraid of her husband, who works at the electric light works, and worried for fear she would be arrested, she committed suicide.

NITRO-GLYCERINE EXPLODES.

Town of Petrolia Severely Shaken—Building Completely Wrecked.

Petrolia, July 8.—People who were quietly enjoying a quiet Sunday were considerably startled yesterday afternoon, short after three o'clock, when a terrific explosion took place. The whole town was shaken and many windows were shattered and many persons were injured.

The building at the Bradley Nitro-glycerine Works had been completely wrecked. The building is located about a mile north of the town. The manager stated that in the building, which was wrecked only a very small quantity of the explosive could have been present.

Within less than a hundred yards of the building were two magazines, each containing several hundred quarts of nitro-glycerine.

How they escaped destruction is at present unknown, but had the glycerine stored in them exploded the effects would have been disastrous.

ENGLISH ABSCONDER TAKEN.

Alleged to Have Robbed Bank of Forty Thousand Dollars.

Quebec, July 8.—One of the passengers of the Empress of Ireland was arrested on land by Montreal private detectives. Only \$100 was found on him. He is said to have absconded from a bank in England with about \$40,000. It is not known where the money has been placed. He has been taken to Montreal, where he will be held till further information is received. It is supposed that several other men were working in connection with the prisoner and helped him to relieve the bank of the large sum.
