Contains a COMPLETE POLITICAL and PROGRESSIVE HISTORY of EUROPE and the WORLD at LARGE, for Upwards of Eighty Years. It was inaugurated by Sydney Smyth, at that time the CURATE of SALISBURY PLAIN, who had migrated to London, and whose masterly command of wit, and whose delightful companionship is proverbial throughout Europe. FRANCIS HORNER, whose purity of character and masterly intellect is so well-known among the learned, MALTHUS expounded Political Economy, and Physical Science became clear and interesting by PLAYFAIR's celebrated contributions. SIR JAMES MACKINTOSH illustrated alike philosophy and literature and politics. FRANCIS LORD JEFFREY afterwards became editor, and the inexhaustible downpour of Radical opinions from such writers as Ricardo, Hallam, McCulloch, proved too much for SIR WALTER SCOTT, who started the "Quarterly." Its criticism upon Byron, More and Wordsworth are well-known, and commemorated in "English Bards and Scotch Reviewers," etc. It was afterwards edited by Prof. W. Empson, and more recently by Mr. Henry Reeve; its influence on literature and politics has been immense; its character and stability is beyond question.

"It is essentially readable and interesting, and ought to take a high place among text books. . . . We say, without hesitation, that this is a learned book, written in a peculiarly fascinating style, having regard to the nature of the subject. . . . It can only be said, therefore, that the book is deserving of success upon the merits; and that the attempt to combine the treatment of three branches of the law which have hitherto been unnaturally divided shows, in itself, a comprehensive grasp of principle."—*Law Times*.

"This is an admirable endeavour to treat in one volume a series of topics which may well be treated together, but which have not hitherto formed the subject of a single treatise. . . . Mr. Eversley's style is plain without being bare, and he has produced a readable as well as a practically useful treatise."—*Law Journal*.

"The author may be congratulated upon having produced an excellent treatise on this branch of the law, well arranged, clearly written, and complete. A word of praise, too, must be accorded to the laborious care with which he has accumulated references to the various Reports, and constructed his very full index."—*Solicitors' Journal*.

The PRINCIPAL DESTROYER, says the author, in this exterminating process is of course the United States, not the people, who are a generous and a great nation; nor yet the Government, for a sufficiency of food and clothing is voted annually for their maintenance, for which indeed the natives bartered their lands, but these supplies never reach their destination. They change into dollars in their transit, and disappear into the pockets of the thriving Indian officials.
