#### Reason Insufficient Without Faith.

Though earthly joys employ our will, As if they were a final good,-Though oft by genius, talent wooed, They ne'er with peace the soul can fill.

If man, in Eden's happy days, An image of his Maker stood .---Just lived as lovely creatures should, His Maker's glorious works to praise ;---

If he was made to find his bliss In leaning on the Almighty's arm, Whose presence did his spirit warm With joy that God's own might was his :---

Then vain the thoughts, and all the care A meaner lite for man to know. Each step for such is vainly low,-Each field thus trod will briars bear.

How can a soul for God once wrought. His presence and his gifts to share, And in his heart his image bear, Find bliss where slaves by vice are caught ;

In snares wide spread of thin disguise, But suited well to failen fools.

Unused to virtue's sober rules,-Who shadows more than substance prize.

Man's little spark of reason fails To lead him safely o'er a sea Where rocks and quicksands thickly be, And yet he thinks how safe he sails !

The light of science boldly leads The mind in fields of knowledge fair .---Why should not man the unknown dare And let his reason form his creeds ?

Why not ?-Because no learned age, Nor learned men of any time Have found those truths' we deem subli All bright upon the Bible's page.

The world by wisdom knew not Heaven,-Nor shall the future ages show A wisdom mightier in its flow, Then those that have their sages given.

" Faith is the gift of God " to man, And never shall its triumphs fail While there are hearts its truths to hail Pure souls to yield to God's own plan :---

Beneath her light the mystery dies About the ills we can't control,----The sombre bues that pall the wise.

titles by the boweis. From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become unitad with the blood, for they find way to every part, and com-letey rout out and cleance the system from all impurity, HOLLOWAY'S CINTMENT

afford. ATER'S CATHARTIC PILLS have been pre-pared with the utmost skill which the medical pro-fession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such danger-ous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By re-moving the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor, — health courses, anew through the body, and the sick man is well arsin. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This the perfection of medicine. It is antagonistic to disease, and no more. Tender

are sick they will cure them, if they are well they will do them no harm. Give them to some patient who has been pros-trated with billous complaint: see his bent-up, tot-tering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has barst out is moreful will. m into health. Give them to some till hi is covered with sores; who stands, or sit skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could sug-gest. Give him these PILLS, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these body with liniments (he may not cure him, for, alas! there are cases which no mortal power as! there are cases which no mortal power ach; but mark, he walks with crutches now. now he walks alone; they have cured him them to the lean, sour, haggard dysperties is gnawing stomest. Whose gnawing stomach has long ago eaten every smile from his face and every musclearcon his body. See his appetite return, and with it his health; see the new man. lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the ob-structions, and infuse a new vitality into the blood. Now look again — the roses blossom on her check, and where lately sorrow sat joy bursts from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLs in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of child-hood. Is it nothing to do these things? May, are done around you every day.

done around you every day. Have you the less serious symptoms of these dis-

they not the marvel of this age? And yet they are done around you every day. Have you the less serious symptoms of these dis-tempers, they are the easier cured. Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flattlenery, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred compiaints all arise from the derangements which these P1LLS rapidly cure. Take them perse-veringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, danger-ous diseases they cure, which affliet so many mil-lions of the human race, are cast out like the devils of old - they must burrow in the brutes and in the sea. Price 25 cents per box -5 boxes for \$1. Through a trial of many years and through every mation of eivilized men, Avier's CHERAR PECTORAL has been found to afford more fielief and to cure more cases of pulmonary disease than any other ed consumption have been cured by it, and usands of sufferers who were deemed beyond the reach of human aid have been restored to their frienes and usefulness, to sound health and the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERER PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has fot some living trophy like this to shadow fort the virtues which have won for the CHERER PECTORAL an imperinshable renown. But its usefulness does not end here. Nay, it accom-plishes more by prevention than cure. The count-less colds and coughs which it cures are the seed which would have ripened into a dreadful harvesto incurable diseases. Influenza, Croup, Bronchi-tis, Hours
