in 1869 Are Now Being Developed.

Mr. J. M. Hagerty is in the city from Okanogan. He is the manager of the Okanogan Simth mines on the Similkamen. He said that these properties were taken up by "Okanogan" Smith in 1869 and were the first quartz locations ever made in the State of Washington. They first drew the attention of prospectors, and miners to the Boundary country. Mr. Smith was located on Osoyoos lake, where he had one of the most beautiful ranches in the state. It consisted of Two Austrians named Ski are taking supplies to a galena claim they have a few miles from here. The ore on it looks like the Slocan product, and assays as high as 300 ounces in silver have been obtained from a sample sent to the smelter.

It is stated in Looks lake, where he had one of the most beautiful ranches in the state. It consisted of reduction works at Republic yesterday. In about a week the works will begin to lake. He planted the first orchard that was ever set out in that country. At that time the Colville reservation had not been wide, and the other a streak about five feet wide, carrying galena.

It is stated in Looks lake, where he had one of the most beautiful ranches in the state. It consisted of reduction works at Republic yesterday. In about a week the works will begin to take 25 tons per day regularly from both take 25 tons per day regularly from both the Black Tail and the San Poil. Both these promise to make important wines. time the Colville reservation and not been wide, and the other a streak about five tained from a sample sent to the smelter. It is stated in London that the Emily Edith group of claims, near New Denver, will shortly be floated as a subsidiary committed by the floated as a subsidiary

compressor and run the Cameron pumps and also the hoist.

Careful measurement shows that there are 16,000 tons overhead. The vein is eight feet wide and carries pay ore from wall to wall. It runs about \$8 to the ton Paystreak. and will concentrate 20 into one. On the Caaba claim there is a vein which is 10 feet wide uncovered for 500 feet and this vein holds its width for this distance between well-defined walls. Two inclined shafts have been sunk on the vein. They The new iron cage in the No. 2 shaft of the Old Ircusides was placed in position this week, and is now running satisfactorily. June 22nd is the date set for the shipment of the new 10-drill air compressor for the Knob Hill.

The Quebec Copper Company, recently organized by Andrew Laidlaw of Spokanne, has purchased E. C. Brown's three-eighths interest in the Marguerite claim in Deadwood camp. The figure is unobtainable, but is said to be around \$4,000. Nothing new has transpired in regard to the starting up of work on the Dominion Copper company's properties, the Brooklyn, Stemwinder, etc., but word is expected almost any day for the expected work to resume. When this is done, every prominent property in Phoenix camp will then be working in full force.

Manager Easton, of the Gold Drop mine, is making arrangements to ship two cars

Olympia.

The company would now have to haul its concentrates a distance of 43 miles to the head of navigation on the Okanogan, and from thence by water to Wenatchee

I have always had good ed the 'missing link,' as it proves a conhealth and worked on my farm every

In speaking of the discovery 63 feet ceived little benefit. I was told by one south of the main shaft on the Velvet doctor that I had rheumatism and kidney Mr. White said: "While both walls are disease, but his treatment did not help in view, yet I loth to term them such that they identify the actual width of the lead. Still they bear every indication of we'ls, being slickenside, yet the country or enclosing rocks are highly impregnated with mineral. Nature abhors sharp lines in defining the character of a lead between the enclosing rocks, the ore body and the walls. There is every evidence of an extremely violent chemical action together with physical force having existed at one time in that particular locality. And it may yet be in action creating a greater compact of mineral, or widening the original fissure, or soles of my feet would feel as though gioining one or more fissures together. It is well to steer clear from radical theories and other assumptions as to the true nature of a lead. I am of the opinion and there width, a true line in its strike without any displacement or disturbance having taken place through violent action.

"I have no authority to make public or disclose any observance I made while can come and go and enjoy as good health there, yet I presume that the Velvet manthere, yet I presume that the Velvet management has no secrets to withhold from marks Mr. Mastin got up to go, but adthe public, and I am only too anxious that Rosslanders should know that the Trail Creek division of West Kootenay district has so great and valuable a mine as the Velvet on the west slope of Sophie moun-

STRIKE ON THE VICTORIA.

A Ledge Which Is Said to Be 62 Feet

A strike of some importance has been made by Prof. F. R. Blochberger and his three partners, Messrs. John Kraff, Hammer and Feipel on their property, the Ont.

WORK ON THE GIANT Victoria, situated on the right bank of Murphy-creek adjacent to the well-known Heather Bell. While working in the reek bed they struck a body of nice looking well mineralized quartz and follow ing their find came to a solid vein of quartz which seemed to be of large dimen-sions. Having finished their work in stripping the vein, the party came to town CONTROL OF SHARES BOUGHT and Mr. Blochberger went last week to examine the strike. The solid body of quartz measured from wall to wall 62 feet Wide Ledge Located on the Victoria Claim and seven inches. The strike of the vetn Near the Heather Bell-The Sophie Mountain runs S.S.E. and dips about 75 degree

east into the mountain.

Outside of Prof. Blochberger only one other person has seen this ore body and it is necessary that it should be seen in body coming down the trail on Murph; lead in the bed of the stream. A soon leave for the east to interest capita in the Victoria, which will undoubtedly with proper development make a mine.

Black Bear Compressor.

Armstrong was seen yesterday and said: Enough of the parts of the new com-"I came here for the purpose of causing a pressure for the West Le Roi company, which is to be installed, have arrived over the Spokene line to permit of erec tion being started. This has accordingly been done and the West Le Roi company is, therefore, one step nearer shipment

Cutting Out a Station.

A second machine has been put to work n the Evening Star in the station which is being cut out on the lower tunnel. The intention is to sink a winze on the veit in this station. With two machines at work the task of cutting out the station is making rapid progress.

"Homocidal Mania."

Charles Watson, who fled this city a month since, under fear of the execution of a warrant issued for threatening to 'fix" a citizen of Rossland, returned and was arrested by the police. The doctors be committed to the New Westmins'er asylum. He was not sent a month ago on the score of expense to the city. The safety of its citizens stands first, and this lunatic, pronounced dangerous by the doc- predicts a successful summer. An import tors, should be incarcerated immediately. The unnecessary delay has only caused an cox mine. Five feet of clean ore has been extra expense.

Dominion Geological Survey.

Mr. W. W. Leach, of the Dominion Geological survey, left yesterday for Silica, near where he went into camp for the purpose of recommencing work on the geological survey of that section. He is the topographer of the party, and will be joined in a day or two by the geologist. The intention is to make a survey this season of the country between Rossland and Greenwood, or as much of this territory as can be accomplished. Mr. Leach has just arrived from Ottawa.

PIONEER'S STORY

INTERESTING INTERVIEW MR. B. L. MASTIN.

After Long Years of Perfect Health He Was Attacked With Kidney Trouble and Other Complications-Dr. Williams' Pink Pills Brings Him New

From the Picton, Ont., Times.
Mr. B. L. Mastin of Hollowell towntinuity of the lode for 1,200 feet on the day until some months ago, when I was Velvet, the Tupper Fraction and the Port-taken with severe pains in my back and shoulders. I consulted a doctor but reme and I continued getting worse. My appetite failed me and I fell away in flesh. I became irritable and could not sleep well at night. Nobody can conceive the intense pain I endured. Not deriving any benefit from the food I ate and having a constant pain in my stomach I soon became aware that I had dyspepsia, and the pain in my back and shoulders intensified by the stonelike weight in my stomach, made life to me almost unbearable. I was also a great sufferer from cold feet, nearly every day my feet would get like chunks of ice, and as every evidence to bear me out in this had done for others they might do for assumption, that the Velvet lead is a true continuous ore body with an unusual Case, druggist, and to my great delight high grade of ore for this district. All before I had used quite one box I had the surface disclosures bear an even improved. When I had finished a couple

> took home a couple of boxes the other day and she thinks they are splendid." to the root of the disease. They renew the nerves thus driving disease from the system. Avoid, imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark. Dr. Williams' Pink Pills for Pale People. If your dealer does not keep them they will be sent postpaid at 50 cents a box,

THE FIRE HALL.

The Plans of the Present Proposition-Proposed Action to Be Taken

The latest proposition for the library that it should occupy the north half of the fire hall. It will be completely sep-arated from the dwelling quarters of the men of the fire brigade by a solid partition wall. Entrance will be gained by a stairway from Lincoln street at a point, that street and First avenue, about six feet above the level of the lower floor. but a half-story to ascend. The room up stairs will be about 24 by 46 feet. From this area must be taken the head room for the stairway, which will reduce the total superficies to about 1,000 square feet which will have to serve for a library, which if the books are to be kept, will have to be partitioned off from the more public part proper, and also for a read

ing room.

The old plans, including a special annex. gave an accommodation of 24 by 55 or 1,320 square feet. The original estimate gave a third more accommodation. But this space thus taken away from the upper floor for public use entirely deprives the fire boys of their gymnasium, which is a practical necessity if due efficiency is required from the brigade, and moreover takes away from them any sitting room in their own quarters. No place for ing, writing, lounging entertaining their friends, or indulging in any indoor amuse

ment is therefore provided. The money thus saved is to go to make a building that will be more in accordance with the aesthetic tastes in architecture of the city fathers.

The fire boys, however, have risen to the occasion. They and their friends are endeavoring to get up a wild west show and entertainment on Coronation Day, the proceeds of which will go to a fund for providing that accommodation for a gymnasium and club room which, under the present plans, is denied them.

YMIR TO THE FRONT. Mr. Buckworth says a Prosperous Season

Mr. A. Bernard Buckworth of Ymir, is in the city. He is the returning officer for the Nelson riding. He reports the mines of Ymir as being operated energetically, and from the present indication, ant strike was lately made on the Wilfound, which will average about \$3 to the ton. The find was made in No. 3 tunnel The Broken Hill Mining & Development company, which is operating the Wilcox. intends to put in a stamp mill this summer. Competent mining men, who have examined the property, predict for it a great future. The Porto Ries mill, which has been shut down all winter, is to be started up as soon as the road is in a condition to get supplies to the mine and the mill. It is also rumored that the Porto Rico people will enlarge their stamp mill from 10 to 20 stamps. Mr. Buckworth is enthusiastic over the possibilities of the

A Marriage

The rite of holy matrimony was celebrated last evening between Alfred Endersby and Mary E. Wheat. The groom has for two years been a resident of Rossland, while the bride arrived in the city from while the bride arrived in the city from Indi Command Attention CERTIFICATE OF IMPROVEMENTS mony was celebrated at the residence of Mr. and Mrs. Harry Halland. Rev. Geo Morden officiated.

THE UMATILLA.

Eight Thousand Dollars' Worth of Work Done-Crown Grant to Be Applied For. Prof. F. R. Blockberger went out on Wednesday last to the Umatilla property, on Sophie Mountain, of which he is secretary, and also a heavy shareholder. A surveying party has been out for some time, and their work is now completed.

Mr. Blockberger says that with proper development work the Umatilla should make a good property. One shaft is down 125 feet, and a large quantity of fine ore extracted from it is now on the dump. Samples of this have been taken and will be assayed immediately. A mining expert is to go out and make a *\$8,000 has been expended. Upon this will depend largely the future development of the property.

Heavy snow broke through the roof of the machine building during the past win-ter. Fortunately no damage was done, and the roof has been partially rebuilt so as to bring the machinery under cover. Everything, it is expected, will soon be in condition for the restarting of work.

FOURTH AVENUE

Dwellers Beyond the Railway Track Are to Have a Road.

Consequent to the fencing in of the road to the Columbia-Kootenay and Iron Colt mines, the city is preparing to open ur more boxes I felt like a new man and I gladly tell this for the benefit of all who suffer as I did." Continuing Mr. Mastin said: "My rheumatism is all gone and I street east across the railway rock to ded that his wife was receiving much benefit from Dr. Williams' Pink Pills. "I Fifth avenue a road survey of loy Ar H to which access is gained at the corner of Fourth and Georgia. Air H. B. to after a year's waste of time and money. Nothing is being done on the Bonanza group, but work upon it is to be resumed in a few days by Mr Steven Brailo and paper others, who are its owners.

The intention is to do some work short ly on the Cascade and the Little Jim. These properties are located close to the Cascade and the Bonanza group, and adjoin the Consolidated Virginia.

There are a few trees across the trail between here and Norway mountain. corduroyed. There is considerable travel over this trail, and as it is the most direct route to Gladstone, it should be looked after and kept in good condition

William Sweeney, formerly a railway man in the employ of the C. P. R., died as the Sisters' hospital at 3 o'clock yesterday afternoon. Death was the result of an attack of typhoid-pneumonia. He was a native of Ontario and 33 years old. The body is at Beatty's undertaking parlors. The arrangements for the funeral have not yet been made.

The funeral of John Maikson, who was killed in the Le Roi on Wednesday, will take place this (Friday) morning at 10 o'clock from Beatty's undertaking parlors. Rev. Geo. H. Morden will officiate.

News reached here yesterday that in the North Star mine in the Republic camp the workings were within four feet of the Republic ledge. This was in the lowest unnel. It is thought the news of the tapping of the ledge will come tomorrow If the values are the same as in the Re public the North Star will make a mine of considerable importance,

and Inspire Hope.

Paine's Celery Compound

THE NEVER-DISAPPOINTING BANISHER OF SICKNESS AND DISEASE.

The statement that Paine's Celery Compound builds up sickly, weak and rundown people, is true in every particular. It is also true that Paine's Celery Compound is the only medicine in the world that can successfully grapple with obstigive to sufferers active limbs, pure blood, clear complexion, healthy appetite and perfect digestion. Scores of able and reiable physicians, prominent druggists legislators, merchants and leaders in society can bear testimony to the wonderful cures wrought by Paine's Celery Com-pound during the past spring months. Such facts and statements should be sufficient to convince all doubting and despondent sufferers, and inspire them with a determination to test the world's greatest health-giver, Mr. Chas. W. Ross Department of Railways and Canals, Ottawa, writes thus:

"For a long period of time I suffered from the pains and tortures of neuralgia extending Third avenue from St. Paul and the effects of my general system were street east across the railway reack to so serious and alarming that my docto Monte Christo street, hence north to ordered an ocean trip. I went to England Fourth avenue, thence cast to Georgia at considerable expense, but had to restreet and thence north to Fifth avenue, turn to Canada almost as bad as when From the intersection ... Georgia and left it. After getting home I determined to commence the use of Paine's B. Smith will easily join the country road Compound, as it was strongly recom to the mines referred to. Incidentally mended for such troubles. After using Dr. Williams' Pink Pills cure by going this also opens the road to the cemetery, the medicine for a short time the results were most pleasing and gratifying. The B. attacks became less frequent and less se Smith's original plan is thus gone back vere, and soon the whole trouble was completely banished. I have not experitake great pleasure in recommending such marvelous medicine to all neuralgic sufferers. Paine's Celery Compound has as tonishing virtues and powers, and will CURTIS' LITERATURE.

A Wild Telegram Sent by a Supporter of

The following telegram was received over the wires last evening from Phoenix: Phoenix, B. C., May 31.—(Special.)— Tonight one of the largest meetings this campaign took place at the Miners' union hall in support of the Hon. Smith Curtis, the candidate for the legislative assembly of this riding. Chrs. Foley, the well known miner, of Rossland, was present and urged the electors to suppor Curtis as being the only true friend of labor. Mr. Curtis spoke for an hour on his own behalf, replying to the criticisms of opponents at length and explained the attitude of the present government of which he is a member on the sues of the day. Duncan Ross, of Green-wood, was invited to speak in opposition, but did not appear. repeatedly during the address, and it was evident that he had a large majority of those present with him. He states that although C. H. Mackintosh claims to have carry Boundary but the whole riding.

The Further Evidence Submitted Yesterday.

ARE COMMITTED FOR TRIAL

Against Them-Defence is Reserved-I'he Testimony of Raymer, Dickie . nd Reddick.

The case of Albi and Albo, charged with attempting to murder Herbert McArthur for Rossland is furnished. It shows and for being accessory to the same, in that the export of minerals was the Columbia lodging hause, on First larger than in any previous month in the the columnia regard was resumed from history of the Trail Creek division, being day forenoon. The evidence of Herbert valued at \$578,706. Should this same ra-McArthur had already been taken and the to be kept up for a year it would amount to \$6,944,472. The largest showing McArthur had already been taken and the testimony of Horace J. Raymer, Peter Dickie and Dr. Reddick was alone heard for any previous month was in June, 1899, when the mineral export was valued 1899, when the mineral export was valued yesterday. Both prisoners were commit-ted for trial. Mr. W. de V. Le Maistre appeared for Raphael Albi, Mr. C. E. GElan for M. Albo, and Mr. J. A. Macdonald acted for the crown. The evidence against the principal in the case was first other divisions, and this helps swell the taken, but it was agreed by Albo's counsel that it should be used in substantia tion of the evidence against the acces-Horace J. Raymer, sworn, stated: "I

am a police officer. I remember the morning of May, 1900. While passing the Columbia saloon I heard a shot. I did not pay much attention to this but directly afterwards I heard two more in rapid succession. They sounded as if from upstairs in the Columbia saloon. I blew the police whistle and went upstairs in the saloon. I did not wait after blowing the whistle, but went at once. I found a man lying on the floor in the front of the building. The man was Herbert McArthur. I have seen him since in the hospital. I also found the prisoner Albi, in his drawers and undershirt. He was on his knees with one hand holding McArthur and a revolver in his right hand. I concluded McArthur was shot. Albi was punching McArthur with the muzzle of the revolver. I took the revolver from him. The revolver produced marked "A" is the revolver I took from Albi. Three shots had been fired from it and it had apparently just been fired Shortly after this McPhee appeared and took the prisoner to the lockup. Arthur's head was badly battered up. It was bleeding and there were several wounds on his head. McArthur was, to all appearances, dead but he revived some When I went upstairs there were three persons there, the prisoner, McArthur and another man. Albi was swearing when I came up. Before I placed him under arrest he was swearing and trying to explain the reason he had shot McArthur. He said he had done so because he was breaking in his door. Albi was in the front room on the left hand of Rossland in regard to the future of side of the hall while he was dressing .. I noticed one door of this room open some measure to the happy settlement of when I went up. There is a door at the end of this passage opening on First avanue. This door was closed. When I came on the scene McArthur was not from the manner in which applications struggling, he was lying on his left side about on a line with the north side of the door. Dominick Stao was the man who came up after me. He followed me up. Presently several people came up. Mo-Arthur was lying in a pool of blood. Albowas the third person upstairs when I got there. He stood at McArthur's head. He had nothing in his hands, so far as I could see. When I was pessing through could see. When I was passing through isfactory one, of the prosperous condition the hall to the front Albo said, "Shoot him, too," and Stao said, "No! he is an

2d of May I was rooming in room is on the Columbia hotel. My room is on the opwith a start and heard the shots fired in quick succession. This was about 12:15 a. m. A few minutes after the shots I still be adhered to. As, however, the lots heard a voice say, "What about the girl, had to be sold, it was necessary that the you —," and I then recognized the accused's voice, saying, "You son of a—, if you say that again I will kill you." These voices were in the hallway near my door in the upstairs hall. As soon as the accused said he would kill him McArthur "What about the girl you shot in the alley." Then I heard some on getheard a man come running up the stairs. heard another person coming up the stairs and after that I heard some one say, 'Shoot him.' I also heard a constable tell Albi to put on his clothes. I stayed in my room, not wanting to get mixed up in the fuss. I came out of my room when its population inside of three years. the doctor came and I saw McArthur ,y ing on the floor. The accused's was the only voice I recognized. From the time I heard the two shots up to the time I heard 'Shoot him' I have told everything

Cross-examined: "I woke with a start,

"On the 2d of May I was called to the what it is here, and presents varying views Columbia Hotel. I found McArthur in the upper hall lying on his back. His face in the valley and the cattle browsing on was bloody, and there were several marks the grass on the hills were sights which upon it. I turned him on his left side were refreshing to one who had been in and found blood coming through his the mountains for a long time. The Ketclothes. I had him sent to the hospital, the River valley, he says, reminds him of the Mohawk valley, in New York, which and I followed immediately, and examined him there. I had him stripped and is one of the prettiest valleys found that his legs were paralyzed. I easters portion of this continent. found a bullet wound about four inches from the spine and opposite the eleventh rib on the left side. The wounds on the face looked as if made by the muzzle of 3 revolver. There were eleven or twelve of

Horace J. Raymer, giing evidence on the charge against M. Albo, stated: 'On and arrests may follow. The Arthur is the 2d of May there was a shooting affray at the Columbia saloon. Herbert M:Ar. thur was shot upstairs in the hall. I was attracted there by the shots. I went upstairs and found McArthur lying on 'le stairs and found McArthur lying on 'le floor. Albi had hold of McArthur w.'l his left hand and had a revolver in his right. Albo was there also. McArthur was apparently dead. The accused, Albc, was standing at McArthur's head. Albo was standing at McArthur's head. Albo was sid, 'Shoot him, too,' and a man behind me said, 'No! he is an officer.' Albo was standing erect, while Albi was down on the standing erect was a standing his knees, and was punching McArthur with the revolver. I took the revolver No. 1 and No. 2 is sold in Rossland by and examined it. I found three empty

THE SHOOTING CASE and two loaded chambers. I did not arrest Albo at the time."

rest Albo at the time."
Cross-examined: "Accused was not assaulting the wounded man. The prisoner speaks broken English." The prisoners were then formally committed. As they elected for a speedy

trial they were brought before Judge Forin, who set June 14 as the day on which the case would be heard.

GRAND FORKS CELEBRATES.

A Gigantic Procession is Formel-Heavy Charges of Dynamite.

Grand Forks, B. C., May 31.-(Special.) Grand Forks went wild today when the news of the British success at Johannes burg and Pretoria was received. The citizens met as one man and inaugurated a celebration which for unique features and originality, has never been equalled in the west. Mayor Manly at once issued a proclamation setting aside this afternoon for a holiday, but before this was posted the business houses were all closed and the citizens, Canadians and Americans alike, had bedecked their stores and residences with flags and bunting, Patriotism ran rampant, and among the cheering, seething mass of humanity there was not one who did not wear the national colors and shout himself hoarse for the Queen, the Empire and "Bobs." Empire and "Bobs."
Within an hour after the first de-

spatches were received an immense crowd had gathered on the principal streets and a parade was formed, which included the dress is Rossland aforesaid, is the attorbrass band, the fire company with the apparatus, the school children, carriages The objects for which the Company past month. The reason for this is the fact that considerable ore is coming into the division to be smelted at Trail from other divisions, and this helps swell the Forks, Mayor McCallum and Chas. Hay and (a.) To adopt and carry into effect, total. Following are figures in detail for T. W. Holland of Columbia, and a line of with or without modification, an agreeguise. Wm. Graham, a prominent business man, weighing 300 pounds, filled this roe, dressed in a mother hubbard and sun bonnet and driving a burro and cart. Another unique feature of the procession was White, Esq., a solicitor of the Supreme Country. a troop of 500 horsemen comprising the Court.

dynamite in amounts sufficient to shake hereditaments, easements or premises in the buildings in the city to their very the Dominion of Canada or elsewhere, foundations. The parade was followed by and whether of freehold, leasehold or any speech making in a patriotic strain. Mayor or Manly, John A. Manly and a number and undertakings, mortgages, charges, and the ringing of bells and blowing of whist-les at the smelter, saw mills and factories. After the celebration in Grand Forks a erty of the Town.

After the celebration in Grand Forks a similar demonstration took p'ace in Columbia, the crowd moving bodily to that place. Among the prominent speakers there were Colonel Haywood, a heavy mining and real estate holder of this section. And Alex. Miller, manager of the Merita days in connection with the property of the syndicate in this townsite, returns home today. In conversation with chants' Bank of Halifax of this city. At this hour the celebration is still in progress, immense bonfires are burning on the principal streets and at the summit of Observation mountain, and dynamite is being exploded at all the mines in the case of the carry on any business which this company is authorized to carry on any business which this company is authorized to carry on, or which or who may be determined, and particularly to apply the funds of the Company in paying the legal on or which in a case of a company shall be authorized to carry on any business which this company is authorized to carry on, or which or who may be determined, and particularly to apply the funds of the Company in paying the legal on or which in a case of a company shall be authorized to carry on any business which this company is authorized to carry on, or which or who may be determined, and particularly to apply the funds of the Company or the funds of the Company or the authorized to carry on any business which this company is authorized to carry on, or which or who shall be carrying on or which or who shall be carrying on or which or who shall be carrying or person which or who shall be carrying or person which or who shall be carrying on or which in a case of a company is authorized to carry on any business that the company or the funds of the Compan

TRAIL CELEBRATED.

Its Citizens Joyful Over Recent British

Successes.

Trail, May 31.—Trail is today celebrating the fall of Pretoria and the occupation of Johannesburg. One off the even's was the baseball game between the Town and Smelter nines. It was won by the Town by a score of 7 to 4. Abant 930 people witnessed the game. The Trail band furnished music, and the sound of the cheering and the rattle of firecrackers cound behard on every side. The people were vry enthanisatic. Last night there was speech making, and this was followed by a grand ball at the opera house.

ANGLICAN SYNOD.

Nelson Is Chosen For the See of the Kootenay Diocese.

Nelson, B. C., May 31.-An important step in the progress of Nelson was made at the last session of the synod of Kooten-any when the lord bishop announced that Nelson had been chosen as the see of the diocese. Saint Saviour's church here will be the pro-Cathedral, and immediate steps will be taken to secure the erection of a bishop's residence. The decision of the bishop was made at the unanimous request | wool, silk, fibre, of all the delegates of the synod An influential committee has been appointed to raise \$20,000 towards the endowment of the bishopric, the same to be raised in the diocese and in eastern Canada. After sending messages of congratulation to Lord Roberts and to Her Majesty and the transaction of a large amount of routine business the synod adjourned. At Fra-

It is probable that some form of tax will be levied on the subdued territory to 38 it is clear that there are some very indemnify Great Britain for the enormous cost of the war. A tax on the mines, on the farms and royalties, running over a period of years, should in time even ap this score. In a few years, under the just laws of Great Britain, the Boers will be much more prosperous than they were when they were governed by themselves,

and should make loval citizens Had the Orange Free State and the Transvaal been in Europe it is probable that the powers would have stepped in and robbed Great Britain of the fruits of the victory. A case in point was the attempt of Russia to wipe out Turkey. pelled to give up a large part of the fruits of his conquests. In Africa it is different. On that continent there are spaces of influence, and the one occupied by Great Britain is the largest. She holds the northeastern and the southern and considerable territory in the middle section of the continent; in fact. Great Britain has a larger interest in Africa than any are hers, and when the Cape to Cairo labor day could take place there. The railroad is comp'eted, as it will be before many years, her possessions on the Dark Continent will assume splendid propor. The first thing to do is to clear off at tions. This will be because of the immense traffic which a railway traversing and opening up the heart of the continent will produce in a country of such great resources. Then the road will aid materially in civilizing the country, and this will make the African possessions of the British Empire among the most val-

And so out of the blood, the destruction and the strife which has just taken place ernment candidate in one riding and opin South Africa will come a greater colony which will stretch in time from Cairo to the Cape and which will be strongly welded together, not only by the steel tracks stretching its long distance from the northern to the southernmost ypoint in Africa, but by a united people prospering under just and beneficent British laws, and which, I'ke Canada, Australia and New Zealand, will be a new tower of strength to the Empire in time of peace and in time of war.

THE NOMINATION.

The political situation grows interesting when one glances at the varying complexion of the candidates. There are 33 government candidates, one independent government, 12 straight party line Conseratives, eight Conservatives, 14 Turnerites, eight Cottonites, four Labor party, one Socialist, and 9 Independents. There are 34 government candidates, including the independent government, and 57 which may be classed as opposed to the government though representing several shades

Hon, J. S. Yates in Victoria and Nan-

The Victoria Colonist, in commenting

upon the nominations, says that it is

rather an extraordinary thing that the government should go before the people without a pronounced supporter offering in several constituencies. In Cassiar, so far as is known, and certainly in Cariboo there is no government man in the field, which means that at the very outset four seats are lost to Mr. Martin. The most sanguine individual will not contend that Mr. Yates has any chance whatever of being elected in Nanaimo, and Mr. Radcliffe, the opponent of Mr. Dunsmuir in South Nanaimo, denies that he is a government suporter. McPhee, in Comox, nents of the government have only to carby default. They will assuredly do this. Half the number will come from Victoria ment, deny that out of the 22 seats not named the opposition will carry four. In

Another feature of the nominations is the collapse of the Semlin party. Of the

There are, so far as is known, 93 candiheard from, which may swell the number to 95. As the number of seats is only many surprises in store for individual candidates.

IMPROVE THE PARK.

The city owns a park to the east of the city, which contains 80 acres of land. The municipality has been in possession of the park for a considerable period, and yet no attempt has been made to put it to the use for which it was purchased. It is true become the most popular resort in the ed in the park, after the grounds are cleared, where the sports on public holidays could be held. The sporting features of other nation. The more imortant ports the Queen's birthday, Dominion day and matter is one that is worthy of immediate attention at the hands of the authorities least 15 acres and the other features can be supplied as their necessity suggests themselves.

A SURE THING POLITICIAN.

There are few men who can carry water on both shoulders and be all things to all men and do it gracefully. The spectacle of Smith) would not support him because he a stump speaker who can support a gov- distrusted him. He (Mr. Smith) had used pose another supporter of Martinism in up to \$2.50, but Joe Martin was responanother constituency is one which is sible for all the cheese-paring during the enough to make a horse laugh for its time he was attortney-general." amazing lack of consistency, which is a iewel which the individual we have under made by a labor representative in the ing, and for Hon. Smith Curtis, the gov- will not attempt to deny. ernment candidate in the Rossland constituency. In the olden times, before the hostility, of the labor party on the coast, days of the telegraph and the telephone, to Joseph Martin that the labor party in jump the property and by complying with when news traveled slowly, it might have the Rossland Riding are going to support been possible for a manoeuvre of this kind him through his candidate Mr. Smith to remain unnoticed, but in the time of Curtis? We think not. Labor to obtain telegraphic and telephonic communication, would not find him out—as it has. Perhaps, he believes in the good Lord, good tempts to deceive them. devil idea, and thinks, doubtless, whichever way the election results he will have tosh has ever been the trusted and whatever price he may ask. This seems a friend at court. It would be poetic jus- steadfast friend of the labor cause. He to be an outrageous proceeding. It seems certain that Martin will not ties, and it is something which will be nearly have a majority. The Premier is copied to a large extent by the machine running in Victoria and Vancouver, and politician of the future. This is a trick Joseph Martin, their enemy, or C. H. which even the Tammany men, astute as they are in politics, have not so far though, of. It beats even stuffing ballot boxes.

WHICH WILL BE CHOSEN ?

The members of Mr. Smith Curtis' committee are proclaiming it from the house tops that they have the Labor vote "solid" and that with this element of the electorate in his favor their candidate cannot fail to carry the constituency on election day. That any candidate in any constituency in the Province except those who have been brought out as distinctly abor representatives and who, therefore, oossess the confidence of the unions. which they have won through years of taithful adherence to labor principles and unremitting effort for the labor cause, should claim to possess this vote "solid" s we consider unjustified assurance which organized labor itself will resent. In a contest such as we have in this riding the voters among the laboring class will. we take it, make up their minds individually and vote for the man whom they believe will make the best member for the the progress of the district, the man whom they consider will best represent their own interests. Now on this basis let us consider dis-

assionately which of the candidates in

he Rossland Riding best satisfies the re-

political past and therefore has no politi-

cal experience. If he is sent to the legislature he goes as an untried man, as a govice who will have to learn his political esson and make or mar a career which has its origin in promises. While he is gaining knowledge and experience his constituents will suffer. He has no record as a friend of the working man and it is notorious that in Rossland itself he attempted, as far as a private citizen could. to lower the wages of the corporation worker. Never until Joseph Martin called him to his cabinet did he develop an interest in the cause of the working man whole course since the campaign opened, it is obvious to all who care to examine form, that his solicitude for the well-being of the working man is intended simply to gain votes. But even were Mr. Curtis a sincere friend of organized labor, which the blind and unquestioning supporter of a man who perhaps more than any other who has ever had a voice in the public affairs of the Province, has shown himself the enemy of the working class. This very fact, the fact that Mr. Smith Curtis is the staunch adherent of Joseph that ten acres have been cleared for a Martin, makes him an impossible candigraveyard, but who is it that wants to date with all good friends of labor. Who picnic among tombstones and newly made ever votes for Curtis votes for Martin; he graves? > licenses is an unnmixed evil and the sooner it is amended the better it will be for the mining industry. Its tendency is without due process of law, and it is wrong in theory and in practise. In effect the law provides that the mining properties of companies are immediately jumpable if the license of \$100 per annum is not paid in advance for the year on the 31st day of May. If, however, the properties of a company are not jumped they are compelled to pay \$300 each for

being delinquent and in order that they may procure what is known as a special license. The workings of this law have been deplorable. A company might spend \$50,000 or \$100,000 on a single claim or a group of claims and if, through the carelessness or forgetfulness or the criminal neglect of its secretary or some other officer of the company, the license fee of \$100 should not be paid any one could

> the law obtain a good title to it. Indeed, it is the practise of a certain class to find out what companies have neglected to pay the license in time and to stake their pany ,in order to get back its property,

Interesting Interview With Mr. F. M. McLeod-Development of Properties on the West Fork of the Kettle.

Mr. F. M. McLeod of Greenwood, arrived in the city Monday on a business tyip, and will be here until Wednesday. season and thus there are three yet to conversation with a representative of the Miner, Mr. McLeod spoke of the pol-Boundary, and of the sapected influx of during the present season. He said: Greenwood is very confident of the futown of Anaconda, The railway system s completed to the Knob Hill and Ironsides mines, and it is anticipated that they will begin to ship largely at once to their smelter at Grand Forks. The Moth-their smelter at Grand Forks. The Moth-hard to make a just allowance for it in er Lode company is installing large macamp they have done a great deal of development, and are now preparing to put in their own plant for treating the ore which, I have learned, will be done at The country west of Greenwood is open.

Up the Kettle river for a distance of 30 miles, farming industry is carried on this spring with great activity, thousands of acres being under cultivation. Up the west fork of the main Kettle river many prospects are in course of development. On Boomerang creek, a tributary to the west fork, there have been found large bodies of free milling ore. On James creek, another tributary, have been dis covered copper ores resembling those about Greenwood. On Beaver creek, another tributary to the west fork, the Idaho and Washington have been sunk Private Roberts at the 500 yards range. 100 feet in ore of good value. The Belle mineral claim, near the Idaho and Wash-ington, has been developed, showing scores had better put in some practice at mineral claim, near the Idano and Wash-ington, has been developed, showing three veins of rich gold and slver ore. For this property the owners have been offered \$50,000. In the Sally mine, in the same camp, owned by Mr. Robert Wood shoot in them all. The League laws mereof Greenwood, three weeks ago they 'y make it requisite that the team shall of Greenwood, three weeks ago they struck a four-foot ledge on the 100-foot level, of over \$100 in value across the lead. The Cami group, in the same camp, is bonded for \$35,000 by a strong company, who are actively developing it, having feet in one place and crosscut the ledge in several other places on the rich, running over \$100 by assays. In addition there are several other properties in active course of development. sides these properties, which are all lo eated on the west fork, there are a num-ber of other properties up the main Ket-tle. Mr. Fletcher, backed by a strong company, owns a group of claims 20 miles north of the confluence of the west fork with the main Kettle river on Canyon creek. Besides these there are a numbe of smaller parties developing claims on the

main Kettle.

The wagon road to this country only extends to the confluence of the west fork with the main Kettle. The Carmi company, the Idaho and Washington troduced a resolution, asking the Dominion troduced a resolution, asking the Dominion troduced a resolution, asking the Dominion company, Mr. Wood and Mr. Fletcher, are all waiting for the wagon road to be completed from this point to their proportions. erties, so that they might take in prop- of orientals. This resolution was passed er machinery for their development. At the confluence of the west fork with the HON. JOS. MARTIN was ONE of the main Kettle there is now a townsite three who voted AGAINST it. called West Bridge. From this townsite the road will branch to the main Kettle and to the town of Beaverton 30 miles

will be available until the House meets.

4. In section 8 of his own platform Horseston that their policy, and especially their railway policy, could be fully carried out. This, together with a feeling engendered by some personal attacks upon the Hon. C. H. Mackintosh, seemed to create a sentiment at that time in favor of the present government, but now, after the Hon. C. H. Mackintosh, Mr. Goodeve, Mr. Duncan Ross, the editor of the Greenwood Times have thoroughly threshed out the more important questions, people are beginning to talk differently. The speech delivered by Hon. C. H. Mackintosh in the Alhambra theatre at Greenwood at 2 of it. meeting when Hon. Smith Curtis was present, rang with honesty and candor, and everything in that speech that was alleged was fairly proved by documentary evidence, so much so that you could hear the Sisters' hospital on the 2nd inst., and it on the streets next day that the feel- aged 33 years, was a native of Engirew. tsh. Today it is believed that in Green-member of the Knights of Pythias and

CANADA MILITARY LEAGUE. Scores Made by the Rossland Team Last

The first match of the Rossland volunteer team last Saturday afternoon for the inter-Canadian Military League was not particularly successful, but was by no means bad for the first attempt of a new team. The possible score is 105, 35 at each range or a bull for each of seven successive shots at first the 200 yards, next the 500 yards and finally at 600 yards ranges. There are four matches during the come, at which the Rossland Rangers explished on this their first occasion. total scores of all four matches are added together and an average of 93 gives a special badge to the maker, and averages of 88 and 78 entitle the scorer to certificates of first and second-class marksman-

A STORMY TIME AT THE MEETING

ceived-Speakers Rotten Egged at Met-speakers.

Vancouver, B. C., June 6.-(Special.)-The crowd was so great at the meeting at the city hall, held in the interest of that hundreds were unable to gain ad-mittance. Williams and McLain, the la-

received.

They were followed by Wilson, the Conservative leader in Vancouver. Mr. Wilservative leader in vancouver. Mr. Wil-son got a good hearing. He declared he was not allied to the so-called Turner party, or had he any understanding with Mr Cotton. Then he proceeded harshly to criticise politically Mr. Cotton. He pressed approval of the referendum and tayored minimum trade and the Natal act to keep out Orienwars.

Raiph Smith followed. He scored Mr. Martin severely, declaring men should not trust him owing to his record. Striving to speak beyond his time, Mr. Smith was hooted down by the Martin sympathizers but was cheered to his feet again by the labor party. Thus occurred twice. He desired to speak of the fairness of the with Martinite leanings; Joseph Stubles New Vancouver Coal company to its men and the cause of labor, but was finally compelled to sit down before he had fin-

ished owing to interruptions. Martin was noisily received. He said Smith had spoken beyond his time and the crowd should object. He said he had consulted the Conservatives with a view of taking them into his cabinet with the understanding that they approve of his platform. He criticized the remarks of the previous speakers, and answered questions.

FROM THE GREENWOODCOUNTRY

MINING NOTES FROM THE PRINCI-PAL PROPERTIES.

Mammoth, Rosey and Others.

Greenwood, B. C., May 30.-(Special.)up of the 20 stamps at the Cariboo mill amounted to 1,446 ounces, or a little over \$20,000 in golden bullion. The Miner's correspondent was recently in Cump Mc-Kinney at the time George B. McAuley, general manager of the Cariboo-McKinney Mining & Milling company, was paying one of his periodical visits of inspection to the property. He saw the two yellow gold bricks that were the result of the mill run between April 15th and May 15th, and was told that there was plenty of ore in sight in the mine to warrant such a ment. The present work in the mine consists of stoping and drifting on the second level in an easterly direction, and on the third and fourth levels both east and west. The lowest level is at a depth of 355 feet, and on this fourth level over 900 feet of drifting has been done. On the three last levels the drifts have entered the Okanogan claim, to the east of the Cariboo, the drifts on the second and third levels being in 140 feet respectively, third levels being in 140 feet respectively, tion. By trail it is four miles from the est quartz ,is virgin ground. The pay roll

of the Wiarton, which adjoins the Okanogan claim of the Cariboo group. Tom Graham, one of the original owners, is superintendent of the company, and great credit is due him for the economical manner in which the mine and mill is being run. Development is now being prosecuted in the east drift at the 65-foot level. In a distance of 55 feet the vein faulted, but a telephone message from camp today says that it has been recovered in running a short crosscut to the south; and that the face of the drift has 15 inches of a splendid grade of quartz. In the west drift on this mostly blocked out is another extremely will average between four and five feet. This stoping to the surface is effecting a a double purpose; not only is the ore be- a mile are two claims that were located the middle of June. a double purpose; not only is the ore being taken down for the mill but an excavation is being made that will in a short time be used for the main working shaft on the mine. In a distance of 165 feet on this level where stoping first started.

a mile are two claims that were located May 20, 1896, viz., the Le Roi and War Eagle. The former is owned by James Copeland and the latter by William Youndary first started.

The schedule has been middle of June.

Mayor Thomas Hardy, after a three days, or 12 hours in advance of schedule has been months' visit in the states, has returned home again.

Politics have occupied the attention of carry first class and tourist sleepers, to carry first class and tourist sleepers. on this level, where stoping first started, been performed by these two men, who the people the past week. Governor Macit is being carried clear up to the surface, for a considerable period worked the kintosh has been an extremely busy per for a considerable period worked the kintosh has been an extremely busy per at Midway, Euolt and and when this is finished the excavation will be dressed up for a new shaft, which will be continued on down from the 65-By sinking the shaft at this point it will effect a big saving in the cost of mining. First, by leason of it being sunk in dry ground; second, that the collar of the shaft will be sufficiently high to allow the construction of ore bins, instead of as at the present time being forced to take the ore directly from the minto the mill; thirdly, the shaft will be sunk immediately in the center of a known rich pay chute, and fourth, the machinery above the shaft will be adjacent to plenty of water.

The Waterloo mill is of a five-stamp capacity and is supplemented with a Johnston concentrator. About eight to nine tons a day is run through it. It has thor oughly demonstrated the ore to be free milling. The mill was first put into oper ation last November, and ran steadily until the end of January, when the water froze up. The gold saved for that period amounted to \$3,300. It again started up on May 7th, and the first clean-up will be on June 7th next. The ore averages \$15 per ton, of which about \$12 is saved on the plates. The completion of the new shaft will necessitate more powerful hoist ing machinery, as the present plant is already inadequate to the needs of the mine. An additional battery of five stamps would also be the mean's of saving a larger perore in the mine, in sight, to warrant the economically run, and should, with better dend-paying mines of the province.

a small force of men is sinking a winze from the tunnel level in splendid looking quartz. The property is owned by the ed to keep the development moving along. A tunnel was first run in on the ledge for a distance of 65 feet. At a point in

time it is down about 26 feet, or a total of some 64 feet from the surface. The vein is almost perpendicular, and on the east side of the shaft it is fully two feet two inches wide, and on the west side it is broken by a fault, though about four feet above the bottom of the winze it is The Development of the Cariboo of Camp also a good two feet in width. This fractendent of the mine resigns at the end for a distance of 500 feet, immediately beof the month and Peter Cunningham, a low a high bluff, a series of five large open former superintendent, takes his place. cuts have been run, which have exposed Mr. Keane goes to Wardner, Idaho, where he has secured the contract for the running of a long tunnel, which will require his personal attention for the next two years. It is said, however, that during years. It is said, however, that during years are said and rich colors obtained. A shaft General Manager McAuley's absence in sunk on the incline, but back of the rich ore, is down 50 feet. There is a dump of he took interruptions and forcibly pointacting manager.

Next to the Cariboo mine, and rapidly coming into prominence as a producer of rich quartz, is the Waterloo. It lies east in gold respectively. Other assays of picked samples run the values into thouse the Okano. ands of dollars. The owners are prose- ernment policy, the meeting giving him cutting development by extending the line an attentive hearing. of open cuts east and west, following the

course of the vein. The finding of the rich ore on the Dayton fraction resulted in a rush of proslong before every available foot of ground level 265 feet of work has been done, but at the time of the visit of the writer to at the time of the visit of the writer to sunk a 50-foot shaft, and get values in copus storing had been started from a sunk a 50-foot shaft, and get values in copus treet. the mine stoping had been started from a per and gold of \$10.75 per ton. Further point in 165 feet, and for a distance of north again is the Nighthawk, which was at all during the past month. Many new 35 feet from this point the stopes were run up to a height of 60 feet from the floor of the level. Beyond the 35 feet the floor of the level. Beyond the 35 feet the floor of the level. Beyond the 35 feet the floor of the level. Beyond the 35 feet the floor of the level. Beyond the 35 feet the floor of the level. Beyond the 35 feet the floor of the level. Beyond the 35 feet the floor of the level. Beyond the 35 feet the floor of the level beyond the 35 feet the floor of the level. Beyond the 35 feet the floor of the level beyond the 35 feet the floor of the floor of the level beyond the 35 feet the floor of the floor o tion work show a big magnetic and ar-senical iron ledge. Values are said to range from \$4 to \$20 in gold, and one and a half is nearing completion. The plasterers and spokane at 8:10 a. m., giving connection rich piece of stoping ground. The vein from \$4 to \$20 in gold, and one and a half is nearing completion. The plasterers and

> practically confined about the discovery the War Eagle. One shaft is sunk perpendicularly for a distance of 50 feet; the other is sunk straight for 12 feet, then on an incline for 24 feet, with a drift at the bottom of 20 feet to connect with the 50foot shaft. Other drifts run into the War Eagle ground. The ore is a pyrrhotite. with values in gold and copper of from \$1 to \$63, and an average probably of \$10 per ton. The ore body is a big one, but not sufficient development has been done to ascertain its size. Handicapped as the two owners were, they have performed a creditable amount of work to show the property up to such a stage that big capital is now necessary to place it on a ship ping basis. It might be said that the Day ton camp is a base ore camp purely. There are many excellent properties, but like other sections, money and plenty of it is

needed to develop the same. AT CAMP MCKINNEY

Queen's Birthday Celebrated in Roya

Fashion-Drilling Contest. Camp McKinney, B. C., May 25.-The Queen's birthday was celebrated here in truly royal fashion. The day was an ideal centage of values, and there is sufficient one, and Old Sol's rays were tempered with cooling breezes from Baldy mountain company in adding both to the power for During the afternoon athletic contests. working the mine and the method of sav- horse races and a drilling contest were ing the values. The concentrator, too, held, and in the evening came the presen is an ancient one, and the superintendent tation of prizes to the victors, and the says a greater saving could be effected day was concluded with a big dance. In fact with a modern one. The mill itself runs it might be said that it was kept up unti smoothly and is well installed. A new long into the early hours of the following tramway from the collar of the proposed morning. The athletic contests and horse shaft will of necessity have to be built to races were held in front of the new Cari the mill. All in all, the waterloo as a boo hotel, and this avenue had been pre splendid property, well looked after and pared to hold the large crowd that came into camp, as also from the mines here mining and milling facilities, be capable The tug of war was won by a team con of producing plenty of ore, and in a short posed of nine heavyweights of the camp period be added to the list of the divi- against the Cariboo champions. Joe Mur phy acted as mascot for the World team At the Mammoth, on Douglas mountain, and consequently it won. Greenwood, B. C., May 29.—(Special.)-The city will spend over \$16,000 this summer for street improvements, sidepectors to that vicinity, and it was not walks, etc. The principal work now going on, which is employing a number of men, surrounding the claim was staked out. is the excavation of Greenwood street for Many of these claims were also visited. It he new waterflume. Heretofore this the Dayton are the Daisy and Jem, both owned by Hughie Cameron. On the north is the Dewey, owned by Hamilton & Younging and liable to leakage, thus causing damage, it is to be taken up and a kin and Greenwood nearly.

painters now have the building in charge.

claims jointly. The development is all son, speaking here, at Midway, Euott and Phoenix. At each place he has met with posts of the two claims. There are two a cordial reception and is satisfied that shafts, both sunk on Le Roi ground, but he is gaining strength daily throughout with through sleeper to Chicago and Kanthe Boundary district. He leaves here to day for Rossland and Trail, but will return here before election day.

Next to politics might be mentioned the interest being taken in the placer diggings on Boundary creek, six or seven miles from Greenwood. Several camps have already been established, and the search for the precious metal is being car ried on vigorously. Water is being taken from an already constructed flume, and while little can be gathered regarding the actual results attained, those working the bank along the creek appear satisfied with their efforts. It was along this same creek that the first rush of prospectors o the Boundary district was caused by the finding of pay gravel.

Travel is still keeping up, notwithstanding the wet weather. Many mining men are arriving, and the resumption of work on several properties, already predicted in The Miner, is about to be fulfilled. The properties of the Dominion Copper company near Phoenix are to be re-opened about the first of the month. Among the arrivals is D. T. Morton, a prominent London mining broker. He is here looking over the district.

Reverend W. A .Robins of St. Jude's mission leaves tomorrow for Nelson, accompanied by the lay delegates, to attend the Synod meeting to be held there this week. Father "Pat" Irwin will also be in attendance.

IN THE BOUNDARY.

The District Is Solid For the Governor-The Enthusiasm Manifested

Grand Forks, B. C., May 31.-Special -The supporters of Governor Mackintosh are jubilant over the encouraging reports pouring in from every point in the Boundary district. His election is now conced ed by the Martinites. Opinions differ as to the size of his majority, but a moder-ate estimate is that it will exceed 600 in

the district west of Cascade.

There is little betting. Odds at 3 to 1 on Mackintosh are freely offered, but there is no Curtis money in sight. Several members of the Curtis committee have abandoned the fight. They declare that they can no longer oppose the Governor, after his frank and manly attitude on the many votes here by his endorsement of the project for a railway between Grand be the best it was decided to sink a winze and follow the ore down. At the present Day, July 1st.

for another one to be held on Dominion Forks and Republic. All classes here re and follow the ore down. At the present Day, July 1st.

Made on the Iron Mask-The Lekoi-Preparations for Shipping Ore From Four Mines

ing on all over the camp. In the Le Roi being made and another additional 150 a turning point in the history of the progress made with the combination feet west of this. Both of these connect Anglican church in this district and is an shaft will soon place that mine in a position to ship even larger quantities of ore than it is at present doing. The smelter at Northport, it is understood, is to be enlarged to double its present capacity. This will inevitably be necessary in the near future, as the Josie No. 1, Nickel Plate and Columbia-Kootenay are all to join the ranks of the big shippers, and will probably all be on the list before the snow flies. Ore tramways and bins have already been set up from the first two mentioned. On the Nickel Plate the spur has been laid out and work will commence immediately upon it and upon a 750-ton ore bin. A branch to the Combia-Kootenay is in contemplation, and has already been surveyed. The output from this group of B. A. C. properties alone will tax the capacity of the smelter even with its planned enlargement.
On the last two mines, the Nickel Plate

and the Columbia-Kootenay, developments of some importance have occurred during the past seven days which, after all, does not do more than justify the high opinion already entertained of these first class

Le Roi.—The usual development is go-ing forward all over the mine. The stopes very busy, as may be gathered from the fact that 600 tons of ore a day is being extracted from them. At the same time development is keeping fully abreast of the mine requirements, so that the enormous output is not beyond the mine's capacity. In fact, under certain conditions ment, is being placed by itself, and there which will be in operation at the con- is already a large quantity on hand ready clusion of the work upon the combination to be forwarded to the smelter as soon shaft down to the 900-foot level, and of the installation of sufficient compressor power the shipments are capable of being materially increased. The great shaft is being of the lower tunnel, which has been driven opened up from above and below to its in on the vein for something over 400 full dimensions, and is being timbered feet, is at a vertical depth of 500 feet. down from above. With this week oper- They are three drift tunnels on the propations will probably be undertaken from erty and the management feel now that the 900 level and from the 800 down, raising and sinking to continue the shaft down Iron Mask.—Sinking has been finished wards to the present lowermost workings on the No. 2 winze to the 500-foot level of the mine. This will also be a factor A depth of 275 feet has been reach in the facilities for shipping ore in large the east shaft. From the bottom of the quantities. It is the intention of the man- winze and the bottom of the east shaft agement to proceed downwards to the 1,- drifting has been commenced to tap the completed to the 900 level. Above, from the the 400-foot level to the east, and is in collar of the shaft preparations are under ore of a good quality. way to establish an aerral tramway to the course of erection to receive the output thus transported. This will again afford further progress to be made in the economical mining and shipping of ore. The compressor has in part arrived, but much progress cannot be made towards installation until such time as the remaining portions are in hand. The second battery

Nickel Plate.—The station is being cut further before the main ore shoot will be on the 600 level. After the loose rock from the work had been removed from the bottom of the shaft, a round was drilled in ore body on the snowing of the chalcopyrite out three tons of very fine looking ore of good grade, which can be seen at the platform of the new hoist. Above, the hoist is being closed in from the weather and the snowing of the seen at the platform of the new hoist. Above, the hoist is being closed in from the weather and the snowing of the snowing of the seen at the platform of the new hoist. is being closed in from the weather and a sorting floor put in. Below this will be erected an ore bin of 750-ton capacity on the eastern face of the hoist, and from this a chute will take the rock to the cars at the spur below. This latter will cross the road up Centre Star gulch and run in below and to the east of the hoist, so as to allow a sufficient drop for the ore to run into and load the cars by gravity, and so save a handling. The hoist engine is place and the engine room is being lined and put into shape. The engine itself is a very powerful one, and is little

nferior in size to that of the Le Roi. Columbia-Kootenay.-The usual work is going on over the mine. The station is about finished at the 300-foot level in the vertical shaft from No. 6 tunnel, and the shaft itself is being sunk towards the 400. No. 6 is being extended and the cross north vein, which at present is not reached. Some work is being done on the roadways about the mine making access more easy to the compressor. A blast put into a likely spot in the No. 5 tunnel revealed the presence of a fine body of ore, which, on being crosscut, showed up nine make the progress is being made. The usual development is proceeding all over the work on the connecting the mine with the C. P. R. railway near town. Whether this is to be cut from this level is approaching the

THE MINING REVIEW put down at once is a matter under con-well as heretofore. The ledge maintains sideration, though it is probable that both width and value. omething of the kind will be undertaken

s progressing on the lines reported last week. The compressor has not as yet been heard of nor have even the head the smelt sheaves for the new hoist arrived. Be-STRIKE ON THE CENTRE STAR low work is proceeding on the third, main and what may be termed the first level. On the third level the east drift is in about 450 feet, and about 100 feet has been driven in the past month, which, when it is remembered that 60 feet is deemed fair average work, is a record for the Centre Star. A fine body of sulphide ore has been encountered and a raise is being made to the main level. West of During the past week there has been being made to the main level. West of the usual amount of development work gothe side level. These are going to the surface and will emerge close to the Iron Mask ground. On the first level, which only exists, owing to the slope of the to the west of the shaft a crosscut has been run in to the north from the surface from a point 150 feet west of the shaft. This cut the ledge 112 feet in and has there a depth of 70 feet from the surface from the surface to the shaft. faces. This connects with the main level by a winze. Work is also proceeding on the shaft which, with the 4th level station, is being timbered. Thus there are three raises, two drifts, one crosscut and shalft work in progress. In addition to this the great stope is being timbered up for the present, although it may later be filled in with development rock. This, however, is not necessitated by the nature of the ground.

War Eagle.—The ore bins destroyed by fire last Sunday are to be built closer to the big hoist so as to save the tramway connecting the bins with the hoist. night to bring the big hoist into operation today. Below there are about 65 men

at work. The shaft has been timbered The output for the past week has fully down to No. 7 level and the station has made up for the small deficiency of that also been set up. Sinking will be resumbefore whose corrected total is 3,275 tons. ed this week and it is hoped that with before whose corrected total is 3,210 total.

The estimated shipments of this week good luck the mine may get two more the Le Roi alone are upwards of levels in operation below the seventh bethe middle of last month, which was work is proceeding on the fifth and sixth levels. On the former a drift is being big mine is therefore 586 tons. In addi- undertaken on the north ledge west of the shaft, and a raise is in progress to connect with the fourth level. stopes above the fifth are being broken down under contract work, the ore being stored in the stope itself. On the sixth level a drift is progressing in the south vein to the west and a raise connecting the same with the level above. Drifting is also being undertaken to the east of the shaft and the stopes above this level are also being taken down and stored as on the level above. Thus there are three drifts, two raises and two stopes being worked by seven sets of contractors. With the recommencement of the sinking of the main shaft the heading on the seventh level will be pushed back, and thus

Douglas-Hunter.-Work on the lower tunnel continues, and the shoot of ore which is now being passed through is the strongest and richest that has yet been found in the mine. The ore, which is taken out in the course of the develop-

What Smith Curtis Had to Hear From

Grand Forks, B. C., June 1.-(Special.)

-The Smith Curtis meeting at Green-

wood was not a success numerically or otherwise. The citizens had been celebrat-

ing the capture of Pretoria. Mr. Curtis

devoted the first hour to personalities en

tirely. He was followed by Foley of

Rossland, who admitted that he knew

nothing about the political issues, having

just returned from the United States, but

talked nevertheless. He was abusive and

of an hour and proved that Martin com-

pletely revised his policy within four years'

five times on five important issues. He

read telegrams bearing on the Northwest

exhibition ,entirely exonerating the Hon. C. H. Mackintosh from any blame in con-

nection with the charges made, and was

Curtis spoke until midnight, and made

the wildest kind of promises to the elect-

ors. He expressed this to be the last

meeting of the campaign, and indulged in

erosity. He distinctly repudiated Joe Mar-

tin, stating that he was running on hi

merits and standing on his own bottom, and would cut away if they disagreed in

policy and resign.

The editor of the Grand Forks Gazett

wired the editors of the leading eastern

dailies, inviting expressions of opinion from them respecting the perils of Martin-ism. The replies will be published from

day to day during the remainder of the

campaign. Here is a Montreal opinion:
"Montreal, May 30.—Editor Gazette

Grand Forks, B. C.: The career of Jo-seph Martin in Winnipeg, at Ottawa and in British Columbia as well, has been at-

tended by agitations which always ap-

strife without accomplishing any com-pensating good. It is hard to believe that

the people of British Columbia at this

period, especially when a strong business

like government is absolutely essential

to the development of a province of great

resources would trust the reins of power

in the hands of a man actuated by per-

THE STOCK REVIEW

A Better Market is Expected in the at 15, 500 at 15; Giant 2,000 at 3. Near Future.

OUTPUT OF MINES INCREASING

Ore Coming in in Sufficient Quantities to Keep the I rail Smelter in Motion Notwithstanding the Shut Down of the War Eagle and Centre Star Mines.

Since the last review of the stock market was written Johannesburg and Pretoria have fallen into the hands of the forces under General Roberts and the war in South Africa promises to come to This so far has not before long. exerted any good influence in strengthening the market, although brokers say that they see in the augmented inquiry signs of an increase in business in the future. Actual peace, they say, will materially aid matters. Then, too, they say that the increase in the output of the mines all over the Kootenays is certain to produce before long a good effect. This is shown by the fact that the Trail smelter, notwithstanding the fact that the War Eagle and Centre Star have ceased to ship ore to Trail, is being run on ore from the Slocan, East Kootenay and the Boundary country. The Trail Creek News of last week tells where the ore that now supplies the smelter at Trail is coming from as follows: "The Trail. smelter this week closed a long contract for the ore from the Enterprise mine on Slocan lake, the largest shipper in the Slo-can, also with the Ymir mine in the Nelson district. Heavy shipments from the Payne, which commenced this week, are arriving daily at the smelter. The Queen Bess, at Three Forks, has about 1,000 tons ready for shipment. This would have been shipped before but for the bad roads. The now being fixed, this will be forwarded at once, and steady shipments continue. Considerable ore was also received this week from the Hewitt, Molly Gibson, Ajax Fraction and American Boy in Slocan, and from the Sullivan group in East Kootenay. Other shippers were the Wakefield, Bosun, B. C., Brandon & Golden Crown, Winnipeg and Cariboo. It will be seen from the above that the

number of shippers is being increased and this adds its due quota towards increasing the confidence of investors in mining stocks. Indeed, the intense activity which is being manifested here and all over the Kootenays in mining and the excellent results which are being produced cannot fail to bring about a restoration of confidence among investors and cause a renewed demand for mining stocks. will come just as soon as the money market eases up some more and the bet-terent of the market, it seems to us, when the favorable outcome of the war is con-sidered, cannot be held back very much

The sales for the past week,	by day

ROSSLAND. B. C

THE WATER SUPPLY. Plans Submitted in Connection to the

of Red and Spokan mountains runs down raised in honor of the recent occupation to the south a long spur of granite splitting Little Sheep creek into an east and west fork. On the east fork, just at the Jumbo, situated about three-quarters of a mile above the conflux of the streams, the Le Roi mine takes its the soldiers who marched into Pretori and 18 bid for it.

California is not much dealt in, and on the board yesterday 10 was asked and 8 mine. On the west fork, high up on the the canadian contingent and they had played no small part in producing the board yesterday 10 was asked and 8 on the board Brandon & Golden Crown tains, the Jumbo has an open ditch bringing water along the south side of the Transvaal. (Cheers and aplause.) The present scene with its bringing water along the south side of the everlasting mountains rising one beyond Brandon company is shipping ore to the latter at a sufficient elevation to clear the Waste from this conduit empties into the east fork near the spot where the Le Roi starts its flume. In certain dry seasons Cariboo (Camp McKinney) continues the east fork, below the Le Roi flume, 95 is asked and 85 bid for it. This com- fork, which, rising high on the hill side pany continues to pay regular dividends. and draining a large elevated basin formed

To these streams the municipality, gaining its claim through the purchase o the old water company, has some rights. A survey has been made for a flume to tap the west fork which will connect with There has been considerable inquiry for that of the Le Roi at the Jumbo. This the Granite mountain spur and, rounding its extremity at a yet increased altitude will then take a course along the western side of the spur till it strikes the west fork near the Gold Hill cabin about half a mile below the Jumbo conduit

> The plans, including a platting of the course of the Le Roi flume, nave heen despatched to the coast in order to com-ply with an order of the court lufore whom it will be recollected that the

It is thought that an amicable arrange ment can be come to between the three parties in the suit, and at the same time en extra supply of water be secured to the city.

Star Cornet Band.

The Star Cornet Band has been organized by the musicians of the city, a mabeing former members of the City jority Council band. Christ Halverson was elected leader, William Verran, assistan leader and the following were chosen officers: President, William Verran; secretary, Charles Levis; treasurer, James Hocking; auditing committee, Jo Kane, Robert Woodey, Amos Lee. Joseph

A property on Copper mountain that Bear, 5,000 at 2 1-8c.; Giant, 1,000 at 3 beautiful ore. The ore is not at all like the bornite of the Sunset, but is a chalcopyrite with an intermixture of calcite or spar. A richer looking or more beautiful copper ore is seldom seen. On the surface 500, 500, 500, 500, 500, 500, 500 at 15c; are found large masses of copper in the Evening Star, 2,000 at 8 1-2c; 2,000 at form of malachite. The Lost Horse is about two miles from the Sur

THE FLAG ON HIGH

It Was Placed on the Top of Spokane stituencies in the Province: Mountain Yesterday.

OVER 6.000 ABOVE SEA LEVEL Constituency

It was Carried up the High Steep by a Party o Rosslanders Who Erected a Pole and pr up the Banner, Where it now Waves Proud ly in the Breeze.

The British ensign floated at the top of Sconage mountain, Tuesday, in hono of the occupation of Pretoria by General Roberts and his troops, of which the Canadian contingent forms a most important part. This stag is one of the highest in the British empire, as it is on the top of a mountain which is over 6,000 feet above sea level. It is in full view of Rossiand and it attracted a great deal or attention during the time it was being placed in position. It will remain there in commemoration of the capitulation of Pre toria until it is worn out by the winds, when it will be replaced by another.

The story of how the flag came to be placed there is briefly as follows: On Saturday last Deputy Sheriff Robinson made a proposition to Mr. A. H. Mac-Neill, Q. C., that if he would furnish the flag he (the deputy sheriff) would put it on top of Spokane mountain when the British had taken Pretoria. Mr. Mac-Neill promised to furnish the flag. Yesterday morning the glad tidings came that the British troops had occupied Pretoria and as soon as Mr. MacNeill was apprised of the fact he promptly, with the help of some others, furnished a 9 by 18-foot flag. In fact, it is the largest that

could be procured in this city.

Deputy Sheriff Robinson at once called for volunteers to storm Spokane mountain and to bear the banner of civilization axes and other paraphernalia for placing a flag pole in position. At 12:30 the party left Rossland amid the characteristics. friends and by 1 p. m. had arrived at the base of the mountain. It was a stiff climb and it took two hours of hard work to get to the apex. The flag was spread out on a rock near the top, it could be seen with field glasses from the city. There is no timber on the top of the mountain for a flag pole and the party was compelled to go down the west side of the mountain toward Record mountain for a distance of half a mile and cut one. To this they fastened a rope and dragged it to the top of the mountain. It was a difficult piece of work as the snow lies thick on the west side of the steep mountain and the way wa rocky and slips and slides were frequent. It took over two hours of hard work to get the pole to the top. Timbers were fastened to the bottom for a support for fastened to the bottom for a support for the flag pole. On top of these were piled tons of rock, so that the pole might not be prostrated by the high winds which frequently prevailed in that vicinity. When all was ready the halliards were reaved an dthe Red Ensign floated gloriously in the breeze, and then the party felt fully repaid for all the trouble which they had taken.

Deputy Sheriff Robinson taking his place under the shadow cast by the flag made a patriotic speech to the audience

Intruding between the foot of the slopes of four. He said that the flag had been by the victorious army of General Rob erts of Pretoria. That in this instance British valor had again prevailed as it often had before and he was certain would again. It was with pleasure that he had noted that among the other as far as the eye could reach reminded him forcibly of the greatness and grandeur of the British empire, and he concluded by hoping that it would continue to be the great civilizing power that it is as long as the mountains aroun them lasted, which would be forever an (Applause long and loud.) It was before the patriotic party start ed for the city and it arrived here with the members tired and hungry at 8:30 p. m. The volunteers who accompanied Deputy Sheriff Robinson and to whom he returns his hearty thanks for their valuable services, are: Messrs. Charles E. Gillan, A. O. R. Brown, Wm. J. Venn and E. A. Winn.

A CAMP OF WONDERFUL PROMISE

OLALLA, IN KEREMEOUS, IS RAP-IDLY COMING TO THE FRONT.

There Are Some Very Rich Ledges at a meeting in the socialist labor party There, Which Increase in Value With rooms. Will McClain, the socialist can-

L. R. Chase arrived in town during the week from Olalla (Keremeos) camp, where he has been doing assessment work on his claims for the past six weeks, Mr. Chase is highly gratified at the showings opened up on all the claims in which he is interested, and he thinks they are among the best in the district. He brings some very fine samples of ore, among them some beautiful yellow copper, decomposed quartz and copper sulphides, which are exhibited in The Miner

Speaking of the camp generally, Mr. Chase says the surface showings are the grandest he has ever seen, and all the laims that are being worked improve with depth. There is ore enough in sight to keep a smelter going now, and the camp is only yet in its infancy. It was only last summer that it became known to prospectors as a mineral country. Prethat time hundreds of prospectors had ridden through it bound for Princeton and Copper Mountain and the \$10,000 on Willow Creek on the claims Similkameen country generally. But the ranchers in Keremeos valley staked claims there some three or four years ago and have held them by relocating them year after year.

Mr. Chase located his claims last year, and he says if he had known what a year would bring forth he would certainly have staked a few more. There is no vacant ground left now, and claims over an ounce and a half per day per man, there are too valuable to be allowed to run out.

Two townsites have been located; one, Keremeos, at the junction of the Simil- dollars, and J. H. Smith of London has kameen and Keremeos valleys, and the other, Olalla, is about three miles north, up the Keremeos valley and right in the neart of the mines. It has a splendid water supply, and is one of the prettiest which the stamp mill has just started sights that could possibly be found. Both towns boast of a store and hotel, with new buildings in course of erection and projected.

Mr. Chase says he believes that Olalla camp will equal, if it does not surpass, any other mining camp in the province for the richness and quantity of its ores amount to at least \$3,000,000. and the cheapness with which the mines can be worked. A concentrator and a smelter are being talked of, and the Canadian Pacific Railway is now locating a line down Keremeos valley, turning west ward up the Similkameen river, to join the present main line at Spence's Bridge. Mr. Chase met with several Rossland

men over there who located claims las summer, and they are delighted with their prospects. Among them are R. W. Northey, Nels Pearson, Jim Hayes and J. Smitherem, formerly of the Jeff Lewis was there a week or two ago and was enthusiastic in his praise of the Many other camps in the vicinity have

Keremeos creeks. A great deal of as sessment is being done in these camps.

COLUMBIA TELEPHONE CO. Has Purchased Assets and Good Will of the Boundary Creek Co.

Greenwood, B. C., June 5.-(Special.)intimates he has up his sleeve, but is An important telephone deal which has been on the tapis for some time past was careful never to produce. Now is the successfully concluded here today, when time, Mr. Turner show up or for decency the Columbia Telephone company purhased outright the assets and good will of the Boundary Creek Telegraph and Telephone company of this city. While Superintendent J. B. Donald, who with the president, W. B. Davey, is here conducting negotiations admitted the purchase by his company he refused to give

out the particulars. The Columbia company has direct con ections between Spokane and Camp Mc-Kirney. The Boundary company has an exchange here which radiates to the surrounding camps. With the Boundary company out this will leave the field to the Columbia and the Vernon and Nelson companies. There has always been intense rivalry here between the three com-

panies operating the local exchanges. The price paid is said to approximate asked by the Boundary Creek company.

The Waterloo Cleanup.

Greenwood, B. C., June 4.- (Special.)-Superintendent Graham of the Waterloo mine arrived today from Camp McKinney, bringing with him a gold brick weighing 106 ounces, the result of 22 days mill run The gold valued \$1,480. The total of the cleanups to date amount to \$4,780. The superintendent reports that has started sinking the new main shaft. He also reported the recent find of ore in the face of the east drift, which has widened out to 20 inches.

Deadwood Camp.

Greenwood, B. C., June 5.—(Special.)—Development started today on another Deadwood camp property. Superintendent Massam has now two shifts working on the Marguerite, which is owned by the Quebec Copper company, one of Andrew Laidlaw's flotations.

J. C. Haas, M. E., of Spokane, is authority for the statement that the Gol-conda in Smith's Camp is to resume im-

Smallpox Bedding Destroyed.

mediately.

The mattrasses, blankets, etc., used at the pest house in handling the cases of smallpox sent there during the late epidemic, were destroyed under the supervision of the medical health officer, Dr. Reddick, yesterday. That is to say, all that remained for a part had already destroyed under orders of the chairman sive affair of the kind ever attempted of the board of works some time since. There is some danger of infection even in handling these blankets, etc.., and the enay lake will excel anything before amateur destrovers can be congratulat- seen in Canada. speedy trial, and it is possible that it ed that they have escaped without an may come off at the date already set by attack. It would have cost the city quite a little sum had it broken out afresh.

A FREE FIGHT.

Charges and Counter Charges Among the Socialists of vancouver

Vancouver, B. C., June 4.—(Special.)— There was a free fight on Sunday night didate in the present provincial elections, was repudiated a few days ago by the regularly organized and chartered socialist labor party. He forthwith formed the United Socialist Labor Party of British Columbia, and it was one of their meet ings that was interrupted on Sunday evening. A Spencer, the organizer of the socialists, entered the hall with half a dozen friends, and asked some questions of McClain. McClain refused to answer, and a free fight was started, and soon a score of men were engaged. Spencer had a socialist named Jeffries, bound over in \$1,000 on a charge of threat ening to murder the organizer. Tomorrow the party leaders are charging Spencer in connection with the fight at the meeting,

ATLIN NEWS.

The Cleanup of the Camp Will Amount This Year to \$3,000,000.

Vancouver, B. C., June 4.-(Special.)-C. D. Newton arrived direct from Atlin tonight, bringing news of a cleanup of owned by Thomas Dunn, ex-Alderman Skinner of Vancouver and ex-Mayor Brackett of Minneapolis. The cleanup was the result of about 10 days work, and was completed on May 26th. The same company owns 180 claims, and will take out \$300,000 with over \$200,000 clear profit.
On the Caledonia group the cleanu also has just been made of \$2,300, giving

which is an astonishingly high result. J. Coupland of Vancouver has bonded 12 claims from Seattle owners at \$60,000 also bonded a group on Parliament creek

for \$65,000 A very rich vein has been struck on the Anaconda, Lord Hamilton's group, on running.

The Yellow Jacket, one of the finest

claims in the Atlin camp, is tied up by litigation. Newton says that there will be at least six large hydraulic properties working this season besides other smaller ones, and altogether the cleanup

McINNES' CHALLENGE Says That Turner Cannot Produce Any Documentary Evidence.

Victoria, B. C., June 5.—(Special.)— T. R. E. McInnes, pivate secretary of the Lieutenant-Governor, publishes a letter tonight headed "Challenge to Mr. Turn-er," in which he says: "I hereby challlenge Mr. Turner, or any one else, to publicly produce any letter or letters whatsoever in the possession either of himself or his friends or any evidence of any nature whatsoever, in any way substantiating or suporting the above charge. That challenge I repeat. Let Mr. splendid showings of rich mineral and big ore bodies; more especially Twenty-Mile creek, Fifteen and Sixteen-Mile creeks, Turner give to the press the alleged let-ters of the 18th July or any letters opening the negotiations above referred to. There is but one of two things now, Mr. Cedar creek and the heads of Olalia and Editor, Mr. Turner is lying in this matter, or I am. If such a letter or letters vere written, then I am a liar. If they were not, then Mr. Turner is a liar. There is no use in mincing words about it. It is one thing or the other and I again challenge Mr. Turner to publish this mysterious correspondence that he has so often referred to of late, that his

A WELL-KEPT SECRET

W W. B. McInnes Savs His Father

Wanted to Resign for Two Years. Victoria, B. C., June 4.-(Special.)-At meeting held in Nanaimo on Saturday night, W. W. B. McInnes, speaking of his father's position in recent political occurrences, said he would let the audience into a little family secret. For the past two years his father had been in communication with the authorities at Ottawa in relation to resigning, being sick and

Mr. Turner said: "That is untrue." Mr. Mclnnes, replying, said: "That is not an untruth, and the records at Ottawa will bear me out."

A CEOSE CALL. Phoenix Mining Men Overcome by the

Deadly Gas of a Blast.

Phoenix, B. C., June 4.—(Special.)—The entire town of Phoenix was aroused this afternoon by a series of prolonged whistles from the Gold Drop mine. Citizens, officials and employes of the surrounding mines rushed to the scene of trouble, where suffocated men were being brought out by twos and threes from a raise in the south drift in No. 1 tunnel. A round of shots was fired about 11 o'clock. At 3 Robert Barrow and Harry Nicholls went into the raise and were overcome by the deadly gas. Others going into rescue the sufferers were also knocked out. The general alarm was sounded and help came from the Snowshoe, Golden Crown, Old Ironsides, Knob Hill, etc. Some dozen men were laid out at the mouth of the tunnel, including Foreman Travarrow of the Snowshoe and Foreman Denny and Manager Faston o the Gold Drop. All the physicians in town responded quickly, and it is believed that all will recover. It was a close

Nelson's Carnival.

call for several.

Nelson, B. C., June 2.-Final arrangements have been made with Winnipeg's crack four oar crew to visit Nelson during the land and water carnival on July 2 and 3. and enter a race against a four from Vancouver and also possibly from Victoria-Nelson's carnival is to be the most expenthe interior of British Columbia, and in
