**HON. MR. BECK
TO SUCCEED
STRATHCONA?**

Member for London Men-
tioned for Canadian
Commissioner.

HON. C. SIFTON
IS ALSO NAMED

Beck and Sifton Are Horse-
men With World-Wide
Reputation.

OTTAWA, Jan. 13.—The rumor is repeated here that Lord Strathcona will shortly retire as high commissioner for Canada at London. His lordship is in his ninety-fourth year, and although he retains his mental faculties in the fullest degree and is in all respects an extraordinary man, it is said, that he has expressed the desire that the Government should look about for his successor.

In this connection two names are prominently mentioned, those of Hon. Adam Beck, minister of power for Ontario, and Hon. Clifford Sifton, ex-minister of the interior of the Laurier administration.

Members of the Government refuse to discuss the matter in any respect beyond admitting that these gentlemen have been mentioned as possible successors to Lord Strathcona.

Would Hesitate to Leave.

In semi-official circles there is a divergence of opinion as to which of the two gentlemen, provided either of them would accept the place, would be favored by the Government. Hon. Adam Beck, it is recognized, has rendered yeoman service not only to the Conservative cause but to the country. Whether Mr. Beck has finished his chief task in Canada, to the extent that he could withdraw to London is a point upon which there is disagreement. It is admitted that the hydro-electric situation in Ontario is such that Mr. Beck might have to continue his work in Canada.

But the hydro-railroad phase of public ownership is another matter and one which even Mr. Beck would, it is felt, hesitate to desert.

Both Are Famous Horsemen.

The friends of Hon. Clifford Sifton have put forward his name as pretty generally, and Mr. Sifton is possessed of great wealth. His fortune is said to exceed \$30,000,000. He is socially inclined. Like Mr. Beck he is a horseman who has attained to world prominence. A Canadian passionately fond of horses and hunting, he is especially well known in England. For this and other reasons the position is said to appeal to Mr. Sifton very strongly. The Government is understood to be mindful of the great service which Mr. Sifton rendered to Canada in the general election of 1911 when he boldly took his party allegiance and suffered the jibes and jeers of his former party mates in the successful campaign to prevent this country becoming an adjunct of the United States.

**DISAPPEARANCE
CAUSES WORRY**

Woman Who Was to Have
Lectured in Brantford
Cannot be Found.

Where is Miss Lottie Tillotson, a lecturer and entertainer, who was billed to appear at the Congregational Church in this city, December 26, who failed to appear before the audience which had gathered and to whom the church society had to refund the money at the door.

The society officers of Congregational Church failed to receive any explanation of Miss Tillotson's non-arrival. By a strange coincidence, Mr. M. J. Condy, traveller for Scribner's Sons, while in the city this week, secured a letter from a sister of Miss Tillotson, Mrs. J. J. O'Donoghue, 127 East Eighth Street, New York, asking his assistance in his travels throughout Ontario to locate the missing woman. Mrs. O'Donoghue last heard from her sister, September 23, at Peterboro. She was later seen by Mr. W. R. Davies at Thamesville during Thanksgiving week. Since then all trace of her is lost.

When in Thamesville, Mr. Davies stated that Miss Tillotson seemed to be a morbidly glib woman. This is what her sister, Mrs. O'Donoghue fears, as the woman was prone to overwork and is liable to have had a breakdown.

Another strange feature of the case is that Mrs. O'Donoghue always arranged the itinerary of Miss Tillotson, and not having done so for some months leads to the belief that something has happened to her sister of a serious nature.

**Fast by His Tongue
To Frosty Wagon Rim**

William Jarvis in Painful Predicament—Small Brother Brought Boiling Water.

ST. THOMAS, Jan. 13.—Not to be dared by his brother to touch his tongue to a frosty wheel rim of a wagon, William Jarvis, of Graven-send will only speak in spots for some days to come. To disprove that he was not afraid, and refute the imputation of his brother that he had not the courage, William touched the wheel rim with his tongue and it stuck. He tried to free his tongue but could not. When his little brother understood that William was there for some period he rushed to the kitchen and brought out some boiling water and tried to thaw him off, but instead scalded William's lips and face. Mrs. Jarvis then came to the rescue, but brought cold water, and succeeded in getting her son and the wheel apart.

A considerable skin of the tongue was attached to the rim.

A Novel Affair in Leeds,
England, Where Coun-
cil's Terms Are Put
in Force

LEEDS, Eng., Jan. 13.—The citizens of Leeds, who have been acting as amateur lamp-lighters, gas and electric workers, street car drivers and conductors and street sweepers since December 23, have won their fight against the striking municipal workers, who to-day agreed to accept unreservedly the terms offered by the municipal council.

The strikers had demanded increased wages, but when prominent professional and business men, including doctors, lawyers and clergymen took up the various municipal duties in re-lays and expressed their determina-tion to continue the work, the men gave in, and said they would return to work at their former wages if the council would reinstate all the strikers. This the council refused to do, and the men finally yielded to-day, when the council agreed to give work to about half of their number, and take the rest of them back when opportunity offered.

The settlement of this strike will, it is believed, effect many cities, where the municipal workers were hoping for their comrades in Leeds to succeed so that they too might strike for higher wages.

The Leeds chamber of commerce to-day made an appeal to the Govern-ment to avoid repetitions of such "a reflection on our civilization by a device of means of settlement of a less barbarous nature than strikes."

Hard Freezing Weather

NEW YORK, Jan. 13.—The en-tire continent and western sections of the country are to-day in the grip of hard freezing weather with prospects that it will continue another 24 hours at least, and in some sections for a longer period. From the Rocky Mountains to the Atlantic Coast de-cided drops in the temperature were reported last night and early to-day. Even in the South reports indicate a general cold wave, and it is feared that in many places the orange crop will be greatly damaged. In New York the temperature had dropped to 10 above zero, early to-day, and weather observers predicted still colder weather during the day. While but one death was recorded in New York last night, much suffering was recorded from the extreme cold wind and many women and men sought shelter last night at municipal lodg-ing houses and charity societies.

The coldest night of the winter in the Adirondacks was reported, the thermometer registering 14 degrees below at Albany, 20 below at Utica, 22 below at Syracuse, 28 below at Tupper Lake and 28 below at Water-toro.

Massachusetts and other New Eng-land States experienced the severest weather of the winter last night with much colder in prospect. Along the Atlantic coast, shipping suffered from the off-shore gale, and in New York harbor early to-day the number of vessels engaged in towing and trans-ferring freight was far below normal.

Ald. Ward, the new chairman of the board of works, announced this morn-ing that a special meeting of the com-mittee would probably be called this week to consider the providing of civic work for the unemployed in the city. This is following the lead of Toronto, Hamilton and other cities where the problem is felt much more acutely.

Discussing the problem, Ald. Ward said that there was only one depart-ment where men could be put at work, and that was on sewer con-struction. Two contracts at present are at work, but there are a lot of streets where new sewers are required.

"We might employ about 40 men, say, on a five hour shift," said Ald. Ward. "Half a loaf is better than none. This would help some. Outside of sewer construction, I can see where no relief can be given by the city."

LONDON, Jan. 13.—Because she refused to give up her umbrella, the Queen of England was refused ad-mittance to Norwich Castle Museum yesterday. Queen Mary was accom-panied by the Bishop of Norwich. As it was purely a private visit, no notification had been given. The at-tendant, failing to recognize the Queen, stubbornly refused to admit her with the umbrella, which she, with equal stubbornness, refused to surrender.

The Bishop intervened but with-out effect until he disclosed the iden-tity of the Royal visitor. Pro-fuse apologies followed, and the Queen entered, bearing her umbrella in triumph.

Are Being Made

Signatures are being secured in sev-eral places throughout the city asking for an enquiry into the sanity of James Taylor, condemned to die, but it is doubtful if the petitions will be deemed sufficiently signed for pre-sentment at Ottawa. It has been pointed out that the time for investi-gating Taylor's sanity was at the trial where the issue was never raised, and where even the charge of drunken-ness was disproven.

Mr. John Robertson to-day is cir-culating one of the petitions and is securing signatures. Many refusals to sign, however, have been expressed, and the attitude of the general pub-lic might be interpreted as unsympathetic.

It is expected that the petitions will be returned by Thursday of this week, the execution being set for Friday, January 23.

Mr. Cockshutt's Attitude

When seen by the Courier with re-ference to the Taylor case, Mr. W. F. Cockshutt, M. P., said:

"In reference to what has appear-ed in the press, and hearing that my name has been used in the matter, I wish to have it distinctly understood that I am not signing the petition. In fact I am opposed to the same, and think the movement not well advis-ed. When viewed upon, I distinctly stated this to the parties who waited on me, but added that while this was, as my personal view, I could not refuse, as representative of the riding, to for-ward the petition, providing that in my judgment that it was largely signed."

BERLIN, Ont., Jan. 13.—The po-lice sprang a surprise yesterday af-ternoon by making arrests in a dan-gerous hold-up case which occurred over a year ago. Three young men, Kue-mpel, Schiebel, and Wideman, are charged with beating up Conrad Thiel, a pool room proprietor. Thiel, while returning home late at night and carrying with him a large sum of money, was attacked and beaten into insensibility. His cries, however frightened off his assailants, whose motive apparently was robbery. Since then the crime remained a mystery.

One of the prisoners, thinking the affair had been forgotten, is said to have imparted the story of the hold-up to a friend, who tipped off the in-formation to Constable Farrell.

OLD MEN AND WOMEN
WERE LEFT TO DIE

Natives Left Danger Zone in

NEW YORK, Jan. 13.—Further details of the devastation and loss of life caused on the Island of Ambrym in the New Hebrides by volcanic upheavals on December 4, and following days when cable re-ports told of the death of about 500 people, the transformation of the east and throwing up of a new island from the neighboring sea, were brought here yesterday by the Cana-dian-Australian Liner Makura.

Word was received at Sydney prior to the departure of the Makura that on the sixth of December six eruptions were observed in active erup-tion in boats which they had hard-ly reached when the new craters burst, overwhelming the countryside with lava on its way to the sea. Vil-lages on the southern coast were also abandoned. No loss of life was reported among the white population and the fleeing people are said to have taken refuge at Port Sandwich. It is probable many of the natives on the western part of the island and the interior have perished on account of the lava cutting off retreat to-wards the sea.

The steamer France succeeded in saving 500 natives, most of whom were old men, women and children, left behind by young able-bodied men, who at the first sign of danger took flight in canoes.

The western part of the island was all affire and totally devastated. There is no trace of vegetation. The rest of the island was covered with the weight. Water is scarce everywhere, the rivers have been transformed into burning lava.

Returning after touching at other ports, Captain Charvin, master of the France, passed as closely to Ambrym as safety permitted. The eruptions were more active than ever. The up-heaval was so violent that all aboard expected that part of the island would disappear. There were detonations, clouds of steam and cinders rising to a great height. Lightning flashes every moment accompanied by a con-stant rumbling. The air was filled with dust and sulphur fumes.

Terrific Scenes.

TOKIO, Japan, Jan. 13.—The earthquakes in the Island of Kiusiu have resulted in a large loss of life and damage to property, which cannot be estimated at present. At Moji on the Kiusiu Railway, one hundred persons have been killed. Many houses in the town of Kagoshima, capital of the province of Satsuma, have been destroyed. Last night the entire district afforded a terrifying spectacle. The city was in darkness, the only illumination being the glare from the volcano Sakura-Jima, which was in violent eruption.

The evacuation of Kagoshima was impeded by a huge rock that had been thrown out by the volcano, which wrecked the rails outside the town. All the coolies fled. A telegraph op-erator at Kagoshima sent this mes-sage:

"The city is almost buried in ashes and stones. The people are in a panic and wild exodus has taken place. All the operators have fled. This will be the last despatch."

Warships have been despatched to the scene with doctors and supplies. Railroad and telegraph lines are broken. The earth shocks and volcano eruptions continue with violence. The volcanic eruption began with thunderous explosions and the vol-cano became a roaring furnace. The burning rock and ashes set fire to several villages.

INSTANTLY KILLED.

ST. CATHARINES, Jan. 13.—His view obscured by smoke from en-gines used by the Confederation Con-struction Company in connection with the construction of the new canal, Felice Quisani, an Italian, was struck and instantly killed near Thorold last night by a Toronto, Niagara and St. Catharines electric car. The victim was walking over a trestle and the car was on him before he had a chance for his life.

Ballots of Miners and
Various Trades Favor
Going Out.

CAPE TOWN, Jan. 13.—Quiet pre-vailed throughout South Africa last night, but this may be the last be-fore the storm, as the incoming bal-lots from various centres make it practically certain that a general strike will be voted. The ballots re-ceived from the miners along the reef all favor a strike, and the var-ious trades, including shop assistants, warehousemen and clerks in Johan-nesburg, have voted similarly.

The feeling is growing in Johannes-burg that the situation is becoming more serious. The Cape Town har-bor workers have now been officially called out by the union, but their re-sponse will not be known until to-day.

A ballot by the Johannesburg branch of the Typographical Union has resulted by a large majority in favor of a strike. This probably means that the people of Johannes-burg will have no newspapers after to-day.

If general strike is called it will be out of sympathy for the strike of the railway employes, many of whom have abandoned their posts and laid down their tools in the railroad workshops. The strike of the rail-way men is said to be due to the policy of retrenchment put into ef-fect by the South African railway administration, in pursuance of which hundreds of employes in Pretoria, Bloemfontein, Durban, Salt River and elsewhere have been dismissed. The strikers demand the cessation of this policy of retrenchment and the reinstatement of the dismissed men. They argue that the administration's real motive is to force wages down, as shown by the fact that some of the dismissed men have been offered other billets at reduced wages.

TOKIO, Japan, Jan. 13.—The earthquakes in the Island of Kiusiu have resulted in a large loss of life and damage to property, which cannot be estimated at present. At Moji on the Kiusiu Railway, one hundred persons have been killed. Many houses in the town of Kagoshima, capital of the province of Satsuma, have been destroyed. Last night the entire district afforded a terrifying spectacle. The city was in darkness, the only illumination being the glare from the volcano Sakura-Jima, which was in violent eruption.

The evacuation of Kagoshima was impeded by a huge rock that had been thrown out by the volcano, which wrecked the rails outside the town. All the coolies fled. A telegraph op-erator at Kagoshima sent this mes-sage:

"The city is almost buried in ashes and stones. The people are in a panic and wild exodus has taken place. All the operators have fled. This will be the last despatch."

Warships have been despatched to the scene with doctors and supplies. Railroad and telegraph lines are broken. The earth shocks and volcano eruptions continue with violence. The volcanic eruption began with thunderous explosions and the vol-cano became a roaring furnace. The burning rock and ashes set fire to several villages.

INSTANTLY KILLED.

ST. CATHARINES, Jan. 13.—His view obscured by smoke from en-gines used by the Confederation Con-struction Company in connection with the construction of the new canal, Felice Quisani, an Italian, was struck and instantly killed near Thorold last night by a Toronto, Niagara and St. Catharines electric car. The victim was walking over a trestle and the car was on him before he had a chance for his life.

Ald. Ward Will Call Special
Meeting of Board of
Works Re Matter

Ald. Ward, the new chairman of the board of works, announced this morn-ing that a special meeting of the com-mittee would probably be called this week to consider the providing of civic work for the unemployed in the city. This is following the lead of Toronto, Hamilton and other cities where the problem is felt much more acutely.

Discussing the problem, Ald. Ward said that there was only one depart-ment where men could be put at work, and that was on sewer con-struction. Two contracts at present are at work, but there are a lot of streets where new sewers are required.

"We might employ about 40 men, say, on a five hour shift," said Ald. Ward. "Half a loaf is better than none. This would help some. Outside of sewer construction, I can see where no relief can be given by the city."

South African Govern-
ment Prepared for a
General Strike

SITUATION IS
GROWING WORSE

Ballots of Miners and
Various Trades Favor
Going Out.

CAPE TOWN, Jan. 13.—Quiet pre-vailed throughout South Africa last night, but this may be the last be-fore the storm, as the incoming bal-lots from various centres make it practically certain that a general strike will be voted. The ballots re-ceived from the miners along the reef all favor a strike, and the var-ious trades, including shop assistants, warehousemen and clerks in Johan-nesburg, have voted similarly.

The feeling is growing in Johannes-burg that the situation is becoming more serious. The Cape Town har-bor workers have now been officially called out by the union, but their re-sponse will not be known until to-day.

A ballot by the Johannesburg branch of the Typographical Union has resulted by a large majority in favor of a strike. This probably means that the people of Johannes-burg will have no newspapers after to-day.

If general strike is called it will be out of sympathy for the strike of the railway employes, many of whom have abandoned their posts and laid down their tools in the railroad workshops. The strike of the rail-way men is said to be due to the policy of retrenchment put into ef-fect by the South African railway administration, in pursuance of which hundreds of employes in Pretoria, Bloemfontein, Durban, Salt River and elsewhere have been dismissed. The strikers demand the cessation of this policy of retrenchment and the reinstatement of the dismissed men. They argue that the administration's real motive is to force wages down, as shown by the fact that some of the dismissed men have been offered other billets at reduced wages.

**Taylor Petition
ON ROUNDS
TODAY**

Mr. Cockshutt's Attitude
—Refusals to Sign
Are Being Made

Signatures are being secured in sev-eral places throughout the city asking for an enquiry into the sanity of James Taylor, condemned to die, but it is doubtful if the petitions will be deemed sufficiently signed for pre-sentment at Ottawa. It has been pointed out that the time for investi-gating Taylor's sanity was at the trial where the issue was never raised, and where even the charge of drunken-ness was disproven.

Mr. John Robertson to-day is cir-culating one of the petitions and is securing signatures. Many refusals to sign, however, have been expressed, and the attitude of the general pub-lic might be interpreted as unsympathetic.

It is expected that the petitions will be returned by Thursday of this week, the execution being set for Friday, January 23.

Mr. Cockshutt's Attitude

When seen by the Courier with re-ference to the Taylor case, Mr. W. F. Cockshutt, M. P., said:

"In reference to what has appear-ed in the press, and hearing that my name has been used in the matter, I wish to have it distinctly understood that I am not signing the petition. In fact I am opposed to the same, and think the movement not well advis-ed. When viewed upon, I distinctly stated this to the parties who waited on me, but added that while this was, as my personal view, I could not refuse, as representative of the riding, to for-ward the petition, providing that in my judgment that it was largely signed."

CALEDONIA, Ont., Jan. 13.—The plant of the Laurentian Milk Com-pany, just a short distance from the place was burned to the ground early this morning causing a loss of \$20,000, partly covered by insurance. The cause of the fire is unknown. It had gained big headway before being dis-covered and the flames licked up the buildings in no time. With the ther-mometer 20 degrees below zero it was impossible to organize even a bucket brigade with which to fight the fire. The company is backed by local and Toronto capital. A. F. McLaren, ex-M. P. is president.

Because Her Majesty Declined to Sur-

LONDON, Jan. 13.—Because she refused to give up her umbrella, the Queen of England was refused ad-mittance to Norwich Castle Museum yesterday. Queen Mary was accom-panied by the Bishop of Norwich. As it was purely a private visit, no notification had been given. The at-tendant, failing to recognize the Queen, stubbornly refused to admit her with the umbrella, which she, with equal stubbornness, refused to surrender.

The Bishop intervened but with-out effect until he disclosed the iden-tity of the Royal visitor. Pro-fuse apologies followed, and the Queen entered, bearing her umbrella in triumph.

IF HEADACHY, DIZZY, BILIOUS, "CASCARETS"

Clean your liver and waste—Clogged bowels at night! Peel bully!

Get a 10 cent box now.

You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a clean-up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascares—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascares, because they taste good and never gripe or sicken.

STRIKE ENDS AT MONTREAL

Garment Workers Go Back to work after Arbitration

[By Special Wire to The Courier] MONTREAL, Jan. 13.—The garment workers' strike, which has lasted over seventeen weeks, and has occasioned much hardship, came to an end last night at 7 o'clock, when, after an uninterrupted session of 7 hours, the board of arbitration finally agreed upon a basis of settlement. To-day the 350 strikers returned to their machines in the Vineberg clothing establishment.

The basis of settlement is that the scale of wages shall remain as before the strike, that there shall be no discrimination against union workers, that all workers shall be reinstated in their former places as soon as possible, and that workers taken on after the strike was declared, are to be dismissed.

NO PAPERS YET FILED BY MOYES

[By Special Wire to The Courier] TORONTO, Jan. 13.—"We have no papers. No papers have been filed with us other than those that have been in our possession and which everybody knew about," said chairman Hon. D. M. McIntyre to-day when asked if Mr. Moyes had filed all papers in connection with the West Shore Railway, the \$600,000 expenditure on which is being investigated by the Ontario Railway and Municipal board on behalf of the municipalities. Certain papers disappeared from the official records of the contracting firm and these were said to have been discovered and filed with the board.

"I can't speak of the matter at all," said Mr. J. W. Moyes when asked what information he had concerning the discovery of the missing papers. "I know of no papers filed with the railway board."

Mr. Proudfoot, K.C., who has been conducting the investigation for the municipalities has information about which he will not speak at present. The papers were evidently taken away from the records by design and through some efforts on the part of the police they were located and part of them secured.

ANOTHER CRISIS IN SOUTH AFRICA

All Organized Labor will be Ordered to Quit Work

[By Special Wire to The Courier] PRETORIA, Union of South Africa, Jan. 13.—Another crisis will be reached to-morrow in the strike situation in South Africa as the miners and all other organized workmen are to be ordered then to lay down their tools in sympathy with the railroad workers, who are on strike as a protest against the policy of retrenchment of the railroad administration.

Great efforts are being made by the authorities to repatriate as many as possible of the negro laborers at the mines before the expected clash occurs between the authorities and the workers. The natives are now prohibited from leaving their enclosures after dark.

The situation has become so tense here that members of the South African cabinet are accompanied wherever they go by armed escorts of burghers.

More than 100,000 of the citizens defence force are under arms and more are swarming to the colors in response to the orders of the government.

In Pretoria and along the Rand, strong detachments are posted in strategic positions in order to cope with eventualities.

Killed on Track

Not Identified Yet.

From a testament in Russian found on the body it is thought that the dead man is a Ruthenian and hails from a northern state of Austria. In his pockets were found a woman's handkerchief, a bobbin of black thread, a small piece of pencil and a Gospel tract which was got through a religious society of which Mr. Standard, court interpreter, is a member. The body is that of a big man of powerful build, of about six feet. Owing to the unshaved state of the face and the injuries, his age was debatable. Various it is estimated at between 25 and 45 years. The latter is probably the more correct. The injuries consist of a broken shoulder, a pulped hand and a smashed right side of his face. This was evident with only a cursory examination.

The clothes upon the body are badly torn and consist of a light blue shirt, two waistcoat, and a tattered jacket. Two pairs of trousers were worn, and one boot is missing which was apparently torn from the man's left foot as the engine struck him. From the appearance of the injuries and clothing, the man had been walking along the track when the train overtook him, knocked him down and dragged him for some distance before he was thrown to one side. When Dr. Ashton examined the body at 10 o'clock it was warm and blood oozed from it, showing that the body was discovered very shortly after the accident.

In view of the fact that the man was so far out of the city when he was overtaken, he might have belonged to a Blue Lake railway gang. Up to the time of going to press, the body had not been identified.

An inquest will be held at 6 o'clock to-night in Reid and Brown's parlors.

Junior Chapter of The Y. W. C. A.

A successful "Y" meeting was held last evening in the First Baptist Church. An address was given by the President on the ideal "Y" girl. A solo was sung by Miss Hurry, reading by Miss Annabel Ryerson, address by Rev. Mr. Brown, solo, Miss Fish. The closing hymn was "All round the world the ribbon work is twined." There was an attendance of about one hundred. Several young ladies and young men signed the pledge. The latter as honorary members.

Three Years

Was Sentence Given to Roy Dustin at Hamilton To-day

[By Special Wire to The Courier] HAMILTON, Ont., Jan. 13.—Roy Dustin, the youth charged with robbing the Robert Duncan Store, was given three years this morning. Dustin was caught in the store a month ago in rather sensational fashion. Some one had been robbing the store in a small way for weeks, but no trace of the thief could be secured, although the door locks were changed, strings were run from table to table and detectives watched in the store. Dustin was finally caught coming down through the fanlight. He got off on suspended sentence. On Esunday night he was caught on the roof of the building after having robbed the cash register.

HAMILTON SHIVERED.

HAMILTON, Ont., Jan. 13.—Hamilton shivered all night under the coldest wave that has struck here this winter. The thermometer dropped as low as 18 below zero, the bitter weather causing much suffering in the homes of hundreds of poor people here, who have been out of employment for weeks. The city and charitable organizations were busy sending out fuel this morning to those in distress.

ANOTHER CHANGE FOR UNEMPLOYED

Excavation of Kerby Island May be Undertaken by the City.

A conference is being held this afternoon between Ald. Ward, chairman of the board of works, and City Engineer Jones in reference to the excavation of Kerby Island by the Lake Erie & Northern Railway Company, as ordered by the Dominion Railway Board. The work has not been started, and the danger of the river channel being contracted when the Grand breaks up, is being emphasized by the civic authorities, with the resultant danger of a serious flood. The position of the railway company at present in regard to any work is well known, and it is just possible the city may start the excavation itself and thereby provide work for the unemployed. It is estimated the job would cost \$20,000, chiefly for labor.

NO ESCAPE

Young Peoples' Societies Meet

At St. Jude's Ch. ch.

The regular meeting of St. Jude's A. Y. P. A. was held last night in the school room. The literary convener, Miss Edith Senn prepared a very interesting programme, the subject being "The Lives of National Heroes," which consisted of the following: Paper, "Napoleon Bonaparte," Miss L. M. Pelling; piano solo, "Battle of Waterloo," Mr. T. Foster; paper, "The Duke of Wellington," Mr. F. Hallier; vocal solo, "AcceSSION," Miss Elsie Senn; paper, "Indian Mutiny," Mr. H. K. Martin; piano solo, "National Airs," Miss L. Miskelly; paper, "Sir Isaac Brock," Miss A. Gillespie. The new recitor, Rev. Mr. Jenkins was present and gave an interesting talk. Next Monday evening the annual banquet will be held instead of the regular meeting.

SIXTY ELEPHANTS ROUNDED UP BY VICEROY'S HUNT

Thrilling Scene of a Great Drive in the Wilds of Mysore District

The Viceroy of India, Lord Hardinge, has had an exciting wild elephant hunt in Mysore, which The Times of India vividly describes. Wild elephants will soon be incredible in a country which is doing without tame horses.

"Here over 100 large tents have been pitched in an open clearing in the middle of the bamboo jungle, with roads and even gardens artistically laid out. Their excellencies had a quiet tea and then motored on about five miles to a stockade near the river, into which a herd of wild elephants which were on the opposite bank were to be driven.

Sixty Elephants Appear. "The party watched the operations from a well-concealed platform close to the stockade. Straight below them lay the river, about a hundred yards wide, and as their Excellencies arrived a herd of about sixty wild elephants appeared out of the jungle. On the opposite side, behind them though as yet invisible, an army of beaters kept up a terrific din with rattles and tom-toms, while to further terrify the herd were some thirty koomkies, or tame elephants, ridden by mahouts carrying lighted torches. The elephants after several attempts to break back through the line, finally faced the water, an enormous tusker, the father of the herd, hastening the footsteps of the laggard with well-directed butts. No sooner was the herd in the river than the whole crowd of beaters rushed down to the bank, creating a perfect pandemonium.

The Baboo-to-kodes. "Once across the herd was immediately turned down stream by another body of beaters creating a similar uproar, and they passed within a few yards of the platform on which their Excellencies stood. For about a quarter of a mile they were hustled down the river, every passage up the bank and into the jungle being blocked by stout bamboo stockades, until finally they spied the entrance into the jungle left open for them and immediately turned aside into it.

Generous Giver. "An enthusiastic young forest officer to increase his trade, displayed this sign in his window: 'We give a packet of flower seeds with every plant.' His competitor across the street promptly sought to meet the competition by placing in his window the following announcement: 'We give the earth with every plant.'

LINGUISTIC PROBLEMS. "Someone who was at work on a Christian hymnal for the Zulus was unable to proceed with the task. 'Lord dismiss us with Thy blessing,' because 'do pray' in the Zulu language is not equivalent either for 'dismiss' or 'blessing.' The nearest he could get was, 'Lord, kick us out softly.'

MIXED. "The vicar advertised for an organist the other day. Among the replies he received was the following: 'Dear Sir,—I notice that you have a vacancy for an organist and music teacher, either lady or gentleman. Having been both for several years I beg to apply for the position.'

A WONDERFUL COLD CURE. "Just think of it, a cold cured in ten minutes—that's what happens when you use 'Catarrhaze.' You inhale its soothing balsams and out goes the cold—sniffs are cured—headache is cured—symptoms of catarrh and grippe disappear at once. It's the healing pine essences and powerful antiseptics in Catarrhaze that enable it to act so quickly. In disease of the nose, for irritative throat, bronchitis, coughs and catarrh it's a marvel. Safe even for children. 25c and \$1.00 sizes at all dealers.

"The tusker showed fight the whole time, tugging and straining at the ropes, until an enormous tusker koomkie, his Highness's Durbar elephant, charged him several times and severely punished him. When he was sufficiently cowed the gate was opened, and the remainder of the herd was driven into a corner of the stockade, where they were guarded by several koomkies, after which the four elephants, to which were attached the ropes round the wild tusker's neck, proceeded to drag him out of the stockade. His strength seemed prodigious and for a minute or two he held his own with the four leading elephants, but was eventually dragged out and down to the river bank, the two elephants to which his hind legs were secured following.

The Baby Elephant. "Next day his Excellency proceeded to a clearing in the jungle in which the big tusker of last night had been pegged down, together with a few more. The tusker had broken a big hole in the palisade during the night, and while his Excellency was watching he proceeded to demolish the remainder within his reach, but he was securely tied fore and aft and was unable to do any damage, while he was periodically punished by a huge Durbar tusker called Ram Pershad.

"His Excellency also paid a visit to a baby elephant only a month old which was very confiding, and drank freely of the milk offered to it by a few women. After that his Excellency went down to the stockade, returning at about 6 p.m., to the camp, by which time nearly all the elephants had been taken from the small stockade and pegged down in the jungle. Altogether, forty wild elephants had been captured out of the herd of sixty which crossed the river, the others having escaped on the first night.

AN ELEPHANT'S FOOTBALL MATCH. "Their Excellencies accompanied by H. H. the Maharaja and the Yuvaraja, left the camp next morning at 9.30 a.m., and motored to the stockade into which the wild elephants had been driven the previous night. The day was cloudy and cool, a drizzling rain falling at intervals. The operations during the day were confined to capturing a large tusker and taking him out of the stockade to a place about a mile distant, where he was tied up.

The proceedings were most interesting and exciting. The elephants about forty in number, were in a seething mass, and reminded one of a huge football scrimmage, fighting and pushing and never still for an instant. About 10 a.m. the gate leading into the stockade was partially opened, and four huge tusker koomkies, ridden by mahouts, entered the arena, followed by six large female elephants, also ridden by mahouts. These ten elephants manoeuvred so as to single out the tusker from the remainder of the herd, and pushed him to the side of the stockade, from where they secured him to trunks of trees by means of thick ropes which they tied around his hind legs. The mahouts then proceeded to fasten four ropes round his neck, a difficult and precarious job, which they successfully carried out with much skill and bravery. These four ropes were secured to four koomkies or tame elephants, and two ropes round his hind legs were secured to two others.

INCONSISTENCY.

The local agitator is greatly peeved over the three-fifths clause in connection with local option. During the course of an article it says:

"The Hamilton Spectator attempts an elaborate defence of the three-fifths clause of the Local Option Act, and would have its readers believe that the clause is in harmony with British ideals.

"Our contemporary will have some difficulty in making good its contention."

Un-British not to have bare majorities with regard to radical changes, eh?

Well, the editor of our cotem. is a prominent member of the Methodist church and if he turns to a clause defining the powers of General Conference he will find this:

"Shall (conference) not make any change in the general rules of our Society, except by a three-fourths majority, and if required by either order of Ministry or Laity, a two-thirds majority of each order voting separately."

Also this clause:

"No change shall be made in the basis of union, affecting constitutional questions, or the rights and privileges of Ministry or Laity, except by a three-fourths majority of the General Conference, and if required by either Ministry or Laity, a two-thirds majority of each order voting separately."

Does the organ also think the Methodist Church to be un-British?

THE MATTER OF BOUNDARIES.

The Expositor objects to that portion of the inaugural address of Mayor Spence in which he stated that he did not favor any further extensions of city boundaries at this time—that we had better first develop what we have. The organ also takes issue with regard to the suggestion that when such outlying portions do come in their inclusion should be on the basis of City Assessment and City Taxation.

As a matter of fact Mr. Spence is on absolutely sound ground.

Brantford to-day has a far larger area per population than almost any other city in Ontario. Here are some figures taken from the government returns:

Population.	Area.	Pop. to acre
Brantford 25,337	2,957	8.56
Ottawa 100,000	5,300	18.86
St. Thomas 15,745	1,800	8.74
Windsor 20,000	2,500	8.00
Kingston 19,716	2,127	9.26
Hamilton 95,000	6,590	14.41
Toronto 417,250	18,452	22.61

In the name of all that is reasonable haven't we enough area per head of residents for many years to come?

Then as to terms, why shouldn't they be on an equal basis? Additional area means more police, more fire protection, more roads to keep up, more waterworks extensions, more sewerage extensions and so on down a lengthy list.

Last time Township residents came in on the basis of their existing assessment (very low as compared with that of the city), and for fifteen years it was stipulated that they should pay 5 mills less on the dollar than the rest of us.

They are an excellent lot of people all right, but if they want city advantages they should expect to pay for them just the same as others.

HUERTA'S MESSAGE.

President Wilson received many messages at the White House on New Year's but one at least he hasn't answered. It was from President Huerta of Mexico, and read as follows:

"The Mexican republic through me has the honor of wishing a happy New Year to the glorious people of the United States, so worthily represented by your excellency."

Uncle Sam has since been hitching at his striped trousers, and twisting the buttons on his star spangled vest, while he wonders what in thunder Huerta meant by his action.

Was it a message of appreciation because Wilson has been content to mark time? Was it the overflowing of a heart full of tenderness and humanity as 1914 dawned? or was it merely "writ sarcastic?"

These and other queries are perturbing the spirit of Brother Jonathan who doesn't quite know whether he has been forwarded a hand-shake or something quite the reverse.

The chances are that Huerta merely

desired to indulge in a sly jibe after the manner of small boys who think they can do that when some bigger fellow is not anxious to hit back.

His true feelings were probably expressed in a recent interview which he gave. In that he said that there was a time when he was prepared to vacate, but that now he would first see Wilson and his colleagues in a place where the snow-crop is not sufficient to warrant sleighing at any time.

PROF. BELL ON HEREDITY.

Prof. Alexander Graham Bell, the noted inventor of the Telephone, is a man of much versatility. Few people stop to realize that outside of the 'phone, he has taken out many other patents in a variety of directions, and that he was only a few hours late in submitting the first model of a typewriter. He has also been a voluminous and authoritative writer on very diverse subjects. The latest production from his pen is a pamphlet "How to Improve the Race."

Mr. Bell points out that breeds of plants and of animals, have been greatly improved under suitable selection controlled by man, and that the same would also take place with regard to the human race, but how?

"The difficulties of the problem may perhaps be appreciated if we consider for a moment how far it would be possible to improve our breed of domestic animals under the conditions which prevail among human beings."

"Given for example, a flock of sheep to be improved, but under human conditions. "First we must not butcher any of the animals. Ovine life is to be considered as sacred as human life. Not to do anything to them that is inconsistent with the humanitarian spirit of the age."

"The weaklings are to be preserved and given special care. In fact, all of the animals, including the poor little deformed lambs, are to be kept alive as long as possible. They are to be treated with kindness and consideration until they die of old age, or from other causes beyond our control."

The professor goes on to point out that individuals belonging to the desirable and undesirable classes are few in number and that when either class enter upon matrimony they have to mate with the normals. He says that when normals marry normals one per cent. of the offspring will belong to the desirable type and that when normals marry desirables the result is ten per cent. He concludes as follows:

"We should impress upon the public the point that one certain means of increasing the prevalence of any hereditary characteristic in a community is to induce the individuals who possess it to marry one another, and thus produce a more potent stock in the next generation."

Anything emanating from Prof. Bell is worthy of all consideration but it looks in this case as if he has espoused a cause much more difficult than the transmission of the human voice for long distances. Domesticity is the strongest of human instincts and when Dan Cupid gets busy the eugenic apple cart always has been badly spilled and in all likelihood always will.

NOTES AND COMMENTS

Quite balmy, eh?

All verandah parties have been indefinitely called off and straw hats placed in camp.

Holy smoke! but somebody must have left a door open leading to the North Pole.

The suggestion has been renewed for the creation of another ward in the city, by a division of Ward 5, now the most thickly-populated section of the city in that respect. An examination of the present figures shows:

Ward	Population	Area	Pop. to acre
Ward 1	1405	1517	0.92
Ward 2	1517	1321	1.15
Ward 3	1321	1543	0.86
Ward 4	1543	1984	0.78
Ward 5	1984	1984	1.00

The proposed division north and south of the Canal would leave voters in each at 1027 and 954, respectively. Most people will probably be surprised to see that as constituted at present the wards are fairly equal.

NO CROSS, NO CROWN

Paddy Gaffney was after getting the old-age pension, and wended his way to the post-office for his first grant.

Paddy couldn't write his name, but managed to make a cross all right. The postmaster, wishing to have a joke with him, said:

"Now, Paddy, don't you think 'twas hardly worth your while to come so far to make that cross?"

"Well," replied Paddy, "no cross no crown, my boy."

The Old Man

Be kind to your daddy, O gamboling youth; his feet are now sluggish and cold; insist on your pleasures, you don't see the truth, which is that your dad's growing old. Ah, once he could whip forty bushels of snakes, but now he is spavined and lame, his joints are all rusty and tortured with aches, and weary and worn is his frame. He tolled and he slaved like a government mule to see that his kids had a chance; he fed them and clothed them and sent them to school, rejoiced when he marked their advance. The landscape is moist with the billows of sweat he cheerfully shed as he toiled, to bring up his children and keep out of debt; and see that the home kettle boiled. He dressed in old duds like his Mary and Jake might bloom like the roses in June, and oft when you swallowed your porterhouse steak, your daddy was chewing a prune. And now that he's worn by his burden of care, just show you are worth all he did; look out for his comfort, and hand him his chair, and hang up his slicker and lid.

BAD MILK BLAMED FOR MANY EVILS

Dirt, Disease, Disfigurement and Death Follow Its Use in City Homes.

At the close of the sessions of the executive of the National Council of Women at the Frances Willard Hall recently, Dr. Hastings, medical health officer, gave a comprehensive presentation of the relationship between bovine tuberculosis and the public health. The lecturer was introduced by the national president, Mrs. Torrington.

Dr. Hastings spoke of the necessity for efficient safeguarding of the milk supply because no other food is comparable with it. Out of 438 children examined in New York 34, or seven and one-third per cent. showed signs of bovine tuberculosis. Of 50 tuberculous cases in children under five years, nine were due to bovine tuberculosis. There is now a world wide agreement that the bovine type can produce itself in human beings.

Out of 55 deaths in a founding hospital it was shown that the danger arose from the exclusive use of raw cow's milk. This is the only product of the animal used in a raw state.

Manchester and Copenhagen lead, said Dr. Hastings, the world in methods of protecting their population from the dangers arising from vitiated milk.

More dangers arise from a dairy herd than from beef cattle and a large part of the solution in the obtaining of pure milk is to educate the dairy farmer. In Toronto at present sixty per cent. of the milk sold is pasteurized, and it is hoped that after May 1 of next year a law will be passed prohibiting the sale of any but the pasteurized article.

BROTHERHOOD HAD A FINE MEETING

At Congregational Church—An Address by W. F. Cockshutt.

It was certainly made well worth the while of those who attended the P. S. A. Brotherhood on Sunday afternoon in the Congregational Church for they had one of the best meetings since the inaugural one about ten weeks ago and there is no doubt but that those who were absent missed a fine treat. Everything was up to first class standard. The orchestra played some splendid music and led the singing in such a way that it drew every man out of himself as it were, and made him enjoy participating in the hymns. The soloist, Mr. H. Jenkins, who sang "Queen of Angels," was very well received and added substantially to the enjoyment of the hour. The part which ought not to have been missed by any man, however, was the splendidly eloquent and pointed address which was given by Mr. W. F. Cockshutt, M.P., on Citizenship. The subject could not possibly have been more suitably dealt with and from start to finish every word was right to the point. There could not have been a man present who did not go away with a broader idea of citizenship and who did not feel encouraged to fulfil his various duties incumbent upon him as a citizen. At the conclusion of his address Mr. Cockshutt was greeted with hearty applause, showing the extent to which his words were appreciated.

AN IRISH COMPLIMENT

An Irish policeman, having got into trouble with his authorities, sought the aid of a solicitor in a forthcoming inquiry. He was quite candid and confessed "he was in a purty bad 'k."

"I suppose I should take that as a compliment," shyly remarked the man of law.

Policeman: "To be sure, sorr, there's not a gintleman O'd place wid a face as saftions as an undertaker."

A TRAIL OF BLOOD AND FIRE LEFT BY EARLY WARS IN SETTLEMENTS OF CANADA

For adventure, danger, hardship, and cruelty, too, the records of the partisan warfare—the raids made by the rival English and French colonies upon one another, during the early years of our history—cannot be excelled. "La petite guerre"—the little war—the French-Canadians called it, but little as it was compared with national campaigns, it left a trail of blood and fire through the early chapters of colonial history.

In this border was a great part of the sufferings of the French-Canadians was due to the Mohawks, whose homes were in the valley of the river that bears their name in the eastern part of the State of New York, then, of course, a British colony. A considerable number of these Mohawks had been converted by the Jesuit missionaries, brought to Canada, and settled on a reservation on the south bank of the St. Lawrence at the foot of the rapids known in early times as St. Louis, but now called the Lachine Rapids.

The Mohawk Converts. The mission colony was called Sault St. Louis. To-day it is called Caughnawaga. It is about eight miles above the city of Montreal and stands near the southern end of the great bridge of the Canadian Pacific Railway spanning the St. Lawrence.

At this ancient mission in early days the French had troops stationed, partly to defend the converts and partly to insure their fidelity. Many of these converts remembered their old homes on the Mohawk, and their old ties of kindred and fellowship. Their heathen kindred were jealous of their secession and spared no pains to reclaim them. It was of great importance to the French to send them from their heathen relatives so completely that reconciliation would be impossible and it was largely to this end that a grand expedition was prepared against the Mohawk towns.

All the mission Indians in the colony were invited to join the expedition—Mohawks from Caughnawaga, other Iroquois from the lake of Two Mountains, the Oka of to-day, Abenakis from the Chaudiere near Quebec, Hurons from Lorette, a few miles north of Quebec, and Algonquians from Three Rivers. One hundred picked soldiers were added, and a large band of French-Canadians, all told, they mustered six hundred and twenty men, with their tried leaders, Mantel, Courtmarche and La Noue.

French Column on the March. They set out from Chambly on the Richelieu River at the end of January, and pushed forward on snowshoes. Their way was up the river and across Lake Champlain, for more than a century the great thoroughfare of war parties.

They bivouacked in the forest by squads of twelve or more," writes Parkman; "dug away the snow in a circle, covered the bare earth with a bed of spruce boughs, made a fire in the middle, and smoked their pipes around it. Here crouched the Christian savage, muffled in his blanket, his unwashed face smirched with soot and vermilion; relics of the war-paint he had worn a week before, when he danced the war-dance in the square of the mission village; and here sat the Canadians, hooded like monks, but irrepressible in loquacity, as the blaze of the camp-fire glowed on their hardy visages, and fell in faint radiance on the rocks and pines behind them."

Mohawk Town Destroyed. A march of sixteen miles brought the expedition to the two lower Mohawk towns, which were about a mile and a half apart.

Both were surrounded on the night of Feb. 16. The enemy waited until the unsuspecting inmates had gone to sleep, and then captured both without resistance.

One town was burned, and in the other the prisoners were left under guard, while the main body of the expedition pushed on to the third Mohawk town 24 miles distant.

The inmates of this town had not heard of the fate that had overtaken their two sisters, and they were ignorant of the presence of an enemy. No sentinels were posted, and there were no watchmen on the wooden walls surrounding the third Mohawk town.

More Midnight Slaughter. About midnight all was still. An Indian with the French expedition scaled the palisade, and opened the gate to his companions. There was a short but bloody fight. Twenty or thirty Mohawks were killed, and nearly three hundred were captured, mostly women and children.

After burning the town the French party began their retreat; encumbered by a long train of prisoners. They marched two days, when they were overtaken by a Mohawk scout, who brought the unpleasant news that the English were on their track, but that France and Britain had made peace, and that the pursuing English

did not mean to fight, but only to parley. Hereupon the mission Indians insisted upon waiting for the English, and no exertion of the French commanders could induce them to move. The Indians set to work felling trees, out of which they made a fort after the camp with a high and dense abatis of trunks and branches. Here they lay two days more, the French disgusted and uneasy, and their savage allies obstinate and impracticable.

Armed Settlers in Pursuit. Meanwhile they were being followed by a body of armed settlers, hastily mustered, and led by Major Peter Schuyler, a well known British colonial leader of the time, and a successful Indian fighter. Schuyler was joined by a troop of Oneida Iroquois, the united parties numbering between five and six hundred men. At length they appeared before the fortified camp of the French, and at once it became evident that there would be no parley. The forest rang with war whoops, and the English Indians, as unmanageable as those of the French set at work to fortify their camp with felled trees.

Then the fighting commenced, the French and their allies sallying out to dislodge the enemy. The attack was fierce and the resistance equally so, both sides by turns losing ground. Three times the French renewed the attack in vain. Then they gave over the attempt and lay quiet behind their barricade of trees for the remainder of the day. So also did their opponents.

Starving Indians Eat Dead Enemy. The English were starving. Their slender stock of provisions had been consumed or shared with the Indians who, on their part, did not wait food, having resources unknown to their white friends. "A group of them squatted about a fire, invited Schuyler to share their broth, but his appetite was spoiled when he saw a human hand ladled out of the Kettle. His hosts were breakfasting on a dead enemy."

When morning broke it was found that the French had deserted their camp during the snowstorm which had continued throughout the night. Schuyler at once ordered his men to follow the retreating enemy but as most of them had fasted for two days they refused to do so until an expected convoy of provisions should arrive. Nothing could be done until the provisions came in the following morning. The stock was so small that in order to make it hold out until more could be procured, only five biscuits were served out to each man. Having eaten their scanty meal, the pursuit was continued, but the enemy was now well in advance, having had a start of 24 hours.

Slaughter of Prisoners Threatened. The retreating party, however, was impeded by the train of prisoners, most of whom were women and children. The French and their allies could not move as fast as could the pursuing English and Oneidas; and they were nearly overtaken when they sent back word to Schuyler that if they were overtaken and attacked all their prisoners would be put to death. Upon hearing this the Indians who were with Schuyler—Mohawks and Oneidas and all fellow countrymen of the converted mission Indians with the French, and most of them relatives of the prisoners whose lives were threatened—refused to continue the chase. No choice was left to Schuyler. He was obliged to give up the pursuit of the raiders and retrace his steps.

The French by this time had reached the Hudson River, where, to their

dismay, they found the ice breaking up and drifting down stream. Happily for them a large sheet of ice had become wedged in at a turn of the river and formed a temporary bridge on which they crossed and pushed on to Lake George. Here the soft and melting ice would not bear them, and they were forced to make their way along the shore, over rocks, and mountains through sodden snow and matted thickets. Reaching Lake Champlain, they came to the depot, where they had left some provisions, but the provisions were all spoiled. They boiled moccasins for food and scraped away the snow to find hickory and beech nuts that had dropped from the trees during the preceding autumn. Several died of hunger and many more unable to move, lay helpless by the lake; while a few of the strongest toiled on to Montreal to tell of the plight of those left behind. "Men and food were sent them, and from time to time as they were able, they journeyed on again, straggling towards their homes singly, or in small parties, feeble, emaciated, and in many instances with health irreparably broken."

"The expedition," wrote Count Frontenac, then the governor of New France, or Canada, "was a glorious success." However glorious it was so dearly bought that a few more of the same kind would have ruined the military force of the colony."

NOT FATAL.
 Some people get shot, some get shell. An actor and a retired army man were discussing the perils of their respective callings.
 "How would you like to stand there with shells bursting round you?" the general demanded.
 "Well," responded the other "it all depends upon the age of the eggs."

CITY LOCAL NEWS ITEMS

Stars Will Practice. The Eagle Place Stars will practice at the Tutela rink Wednesday night.

All Reappointed. License Commissioners W. J. Verity, John Colter and Thomas Hendry have been re-appointed for 1914 for Brantford.

Car Was Late. The Brantford and Hamilton radial car due here at 7:35, did not reach the city until 8:35. This delay was caused by the line being down at Langford, due to the extreme cold.

Engineer Is Here. Mr. Willis Chipman of the firm of Chipman and Powers and consulting engineer for the Waterworks department is in the city conferring with the commissioners in connection with work the commissioners have had underway.

At Colborne street. A missionary evening was observed at the meeting of the Colborne Street Epworth League held last night. Interesting papers were given on the topic by Misses Walton and Louie Hyde. A reading was given by Miss Mears.

Want a Grant. The secretary of the Brantford Branch of the Victorian order of Nurses has written the city, asking that the council make the grant more liberal this year. The 1913 council gave the order \$100 to assist in carrying on the work among the sick needy.

Broke Pole. Coming around the corner of Brant Avenue and Dalhousie street yesterday a serious accident was narrowly averted by Dr. Cutcliffe, who was motoring with Mr. A. H. Tremaine. The car skidded and ran directly into one of the new Hydro Electric ornamental poles on the street. The big iron pole was broken in two places, and the front of the car was caved in. Both Dr. Cutcliffe and Mr. Tremaine escaped with a shaking up.

No More Shooting. Superintendent E. Tinsley, of the department of game and fisheries, has written County Constable Kerr informing him that all hunting seasons are closed until next fall with the exception of the season for geese and swan, which does not close until April 15. The season for cotton tails closed on December 31. Mr. Tinsley states that there is nothing to prevent the carrying of firearms, but that in a closed district the fact that a person charged with breach of the act carries a gun is taken as evidence against him.

New Fire Truck. It is almost certain, according to municipal authorities, that a fire motor truck will be purchased by the city this year. The fire and light committee of last year were unanimous about the purchase, and merely deferred the matter until this year.

Associated Charities. Wednesday afternoon at 3 o'clock in the City Hall, a meeting is called for the purpose of considering the advisability of organizing an "Associated Charities" for the city. Representatives have been invited from the different churches and charitable organizations to attend.

Progress is Slow. The extreme cold weather is quite an unwelcome visitor in Hydro circles. Although work is going ahead progress is naturally somewhat retarded. The firemen find it most difficult to work being able to work only a few minutes and then descend. The commission employees who are putting up the line from the Brant station to the city are not working at all.

At Wellington Street. A missionary evening was held last night on mission work in China. Mrs. Dr. Norris acted as chairman. A number of the young ladies of the Guild gave a good sketch of a Chinese tea party, also a few steps in a Chinese reel. Miss Best gave the lecture on China missions and the able way she delivered her subject was well received by the company present. Mr. J. W. Friend rendered two hymns in Chinese. The meeting terminated by light refreshments.

Life Underwriters Meet. The First meeting of the Brantford Association for 1914 was held on Monday. The following members were present: L. E. Percy, President; F. J. Reed, Vice President and Messrs. John Burbank, F. H. Dutton, Thos. Hendry, R. E. Wilson, W. H. Hammond, A. C. Lindsay, Roy Burbank, S. G. and Bellhardt, Mr. D. Aiken of Jarvis, was a visitor. Considerable business of importance was transacted. Mr. J. A. Torry, Ex-President of the Dominion Life Underwriters, was a welcome caller, who added a great deal of interest to the meeting, by giving some up-to-date information as to what is taking place throughout the Dominion, in association matters. Altogether a very interesting and profitable two hours was spent.

WAS BUILT BY BRANTFORD FIRM

Fine New Field Husbandry Department Opened at the O. A. C.

GUELPH, Jan. 13.—The first building to be erected at the Ontario Agricultural College, Guelph, with money given to the Province of Ontario by the Federal Government for the furtherance of agriculture, the splendid new field husbandry building, built at a cost of \$75,000, was officially opened with a brilliant function. Among those present were—Hon. Martin Burrell, Dominion Minister of Agriculture; Hon. James S. Duff, Provincial Minister of Agriculture; W. B. Roadhouse, Deputy-Minister of Agriculture; Hon. Nelson Montiel, former Minister of Agriculture; H. C. Schofield, M. P. P., of South Wellington; W. Mill, M. P. P., of South Waterloo, and others who are in attendance at the annual meeting of the Experimental Union, which opens to-morrow morning.

The new structure is of brick with stone dressing and the upper story is roughcasted. The interior is finished in clear native pine and the floors are of selected maple and birch. The basement is divided into storerooms for sorting grains and storing seeds and plants. There are three vaults, one in the basement and one on each main floor, also for the purpose of storing varieties of seeds. The offices are in the east end of the building, and have been arranged so as not to be interrupted by the noises of the classroom.

The building is 146 feet long and 64 feet wide, consisting of two storeys in addition to basement and attic. It is well equipped throughout. Secord & Sons, Brantford, were the builders, and it is pleasing to note their work received encomiums on all sides.

THREE DISTRICTS FOR THE TOWNSHIP. In Assessment Matters—Other Business Transacted Yesterday.

At the afternoon session yesterday of the Township Council considerable business was disposed of. It was decided to have the township divided into three districts for assessment purposes. The council will hold a special meeting on Friday. Included in the numerous accounts passed was one \$33.33, the renewal premium on the bond of Treasurer Foster.

The Township Clerk was instructed to convey to the family of the late P. Croome, the deep sympathy of the council in their deep bereavement. The late Mr. Croome was at one time a member of the council. The clerk was instructed to subscribe for 6 copies of the Municipal World for the use of himself and the councillors.

The township solicitor was authorized to prepare a by-law for the purpose of dividing the township into 3 assessment districts instead of 2 as at present. It was found that the short time given by the act for the purpose of assessing could not be done by 2 assessors in the time specified. This by-law will be presented to the council at a special meeting on Friday when the assessors and other officers for the current year will be appointed.

The Hydro Electric Power Commission will be requested to supply information as to when power can be obtained for the sections of the township petitioning for the energy, and under what terms and conditions such power will be supplied.

The communications from Smoke and Saunders and the Brantford and Paris Road Co., concerning a current were referred to the township solicitor.

The petition against the locating of a smallpox hospital at the William property was referred to the solicitor for immediate report.

Zion Guild. The Young People's Guild of Zion Church held their regular weekly meeting Monday night. After the usual exercises, Mr. E. A. Caspell, Conventor of the Missionary Society took charge. Mr. Caspell explained that the topic of the evening was "Fourteen Million Souls for Christ" which is the number that the Presbyterian Church in Canada has been allotted. Interesting papers were read on Formosa, Korea, India, China and the New Hebrides by the Misses O. Hall H. Beattie, E. Moffatt and Messrs. W. Chessum and C. Joyce, showing the condition of the different countries at the present time and the missionary work yet to be done. Miss Jessie Mitchell then read a paper entitled "Alone on Erromanga." During the evening Miss Maude Taylor and Mr. Hughes favored the Guild with solos.

NEW YORK'S NEW POLICE COMMISSIONER.

DOUGLAS I. MCKAY

In consequence of his refusal to reappoint Douglas I. McKay First Deputy Police Commissioner in order that the Police Department may have a civilian head until a Commissioner is appointed by John Puroy Mitchell, Rhinelander Waldo was summarily removed by Mayor Kline from the office of Police Commissioner. Mr. McKay was sworn in as Police Commissioner and is now in charge of the Police Department.

The removal of Mr. Waldo was expeditiously accomplished. His refusal to reappoint Mr. McKay was considered by Mayor Kline as an affront not only personal but directed at the dignity of the office of Mayor of New York city and at Mr. Mitchell, the Mayor elect.

They Walked Back to City

Ten Young People Had to Face Zero Weather Last Night.

To walk 4 miles along a country road with the thermometer registering numerous degrees below zero would be far from pleasant, but that was what happened to 10 young men who went to the anniversary supper held last night by the Presbyterian church at Onondaga. A party of young people from the Balfour Street Presbyterian church went to the supper and these young men were in the party. The young people went by Brantford and Hamilton radial as far as Duveraux corners, expecting sufficient accommodation would await them to convey the party. There was only a sleigh and in this as many of the party as could be packed in were well, and truly packed, but the sleigh was to Erie and Eagle avenue, was walked and it is reported beat the sleigh to its destination. This little affair did not mar the pleasure of the evening, a good time being reported to have been spent by all.

Fire To-day in Shoe Shop

J. J. Curtis Was Disturbed From Dinner To-day at 72 Erie Ave

While eating dinner to-day Mr. J. J. Curtis who conducts a shoe repairing shop at 72 Erie avenue, corner of Erie and Eagle avenue, was startled when his little girl, whom he had left to look after the shop in his absence came running up the stairs to inform him that the shop was on fire. Mr. Curtis quickly summoned the firemen both the Central and East End departments responding.

When the departments arrived the interior of the store was in flames. Two streams were laid and in less than an hour the fire was out. A Chinese laundry, facing on Erie avenue and located in the same building was not damaged, the blaze having been confined to the shop. The interior of the shop was charred and badly burned in places. The counter was burned and it was found necessary to break the windows in order to fight the blaze. A small quantity of stock in the shop was damaged. The department returned at about 2:45. The cause of the blaze is unknown.

SCREAMED WITH THE TERRIBLE PAIN

"Fruit-a-tives" Completely Cured Distressing Kidney Trouble.

ST. THOMAS, ONT., April 1st, 1913. "In 1911, I was laid up with Kidney Trouble and not able to get out of my chair. Had tried many kidney remedies without satisfactory results. The pain was excruciating and my screams could be heard on the street. One day a friend from Ottawa came to see me, and when he found me in such poor health, said he would send me a sample of "Fruit-a-tives", which he did and I commenced taking them. The results were so apparent with the first few doses that I continued to take "Fruit-a-tives" and was completely restored to my normal state of health. I would strongly advise anyone suffering with Kidney Trouble to take "Fruit-a-tives" and cure themselves." CHARLES CALVEART. See a box for full trial size, 25c. HOCKEY PLAYER IS DISCHARGED BY MAGISTRATE

No Intention to Steal in Rink Was Shown—Mountain Out of Mole Hill.

The recent friction between the management and players at the local rink came before the court to-day when Jack Banham, the youth who was the cause of the affair, was dismissed, he having paid his admission on the night in question.

Mr. H. A. Beardall, the manager of the rink stated that he knew that a number of young fellows got into the rink by a back entrance without paying their way. The door through which the youths had entered was at the back of the building and was used for taking in goods. He heard that they pulled the door outward and without interfering with the fastenings could get under the door. Members of the hockey team were not allowed into the rink without payment, beyond the number of ten, although last year all members were allowed in free.

P. C. Blanchard, who made the arrest said that he saw the defendant enter into the rink by the forbidden door, from his place of concealment. He rushed round and caught the defendant who made some resistance. He was then handcuffed. He was afterwards liberated at the instance of members of the Junior Hockey Club. The constable had, however, taken his name and address and subsequently summoned him.

Banham in his own behalf, said he was a member of the Junior O. H. A. team and had a contract to play for the team. He went to the rink just to see if the ice was soft, and as he lived in Eagle Place, the back entrance was more convenient and saved him the necessity of going to the front entrance if the ice was too soft. His intention was to go through the proper entrance when he knew how the ice was. He was accompanied by his chum and defendant contradicted the statement of the police constable that there were two youths with him. He had referred to "them," but cross-examined on this point he stated that this was just a figure of speech. Defend-

ant had paid 25 cents on the night in question. Dismissing the defendant, Magistrate Livingstone said there was no doubt that defendant had been a little indiscreet and advised him to use the proper means of entrance in the future.

Quite a number of people were interested in a little rumpus which attracted attention in Colborne street last night. Joe Patterson had been to a local theatre, and, feeling pretty good, had given out a challenge to all the officers in Brantford. After a good deal of provocation, P. C. Blanchard accepted the challenge and after an exciting struggle in the snow, he eventually landed his man. To the magistrate he stated that this was his first appearance in any court and he was penitent. He admitted being drunk and the magistrate was inclined to think that Patterson had been feeling a little hilarious and his attitude was not serious. A fine of \$3 was imposed.

W. McMillan was described by the chief this morning as the most troublesome man with whom he had to deal, in respect of the liquor trading. He was always hankering after liquor and this morning he was charged with attempting to procure it. He said it was the first time he had ever asked for liquor to be set for him and pleaded for a change. In view of his previous spiritual leanings he was fined \$10 and costs.

THE STATE AS LANDLORD

Farms to be Bought When No Equitable Successor—Mr. Lloyd George in Carnarvonshire.

Mr. Lloyd George added another to his speeches on the Government's land policy at Pwllheli, Carnarvonshire, on Monday, and contrasted it with the nebulous scheme of ownership put forward by Lord Lansdowne as the ideal of the Unionist party.

The Chancellor threw further light on the proposals for making the State in some slight degree the landlord by the following announcement: A certain number of farms fall vacant every year through death or otherwise. Where there is no relative who has an obvious right in equity to the succession we propose to secure the option of taking over the land, if required, for small holdings.

Mr. Lloyd George said at the outset that so far from the land reform policy being a mere vote-catching device his hearers well knew that he had advocated these changes before he became an M. P. He went on:— These ideas were at the root of the land clauses of the Budget of 1909. The main object of those clauses was to secure a true valuation of the land, to form a fair basis for taxation, and to check the extravagant prices demanded for land for all public purposes. This was the first time for centuries that the Government of this country had seriously challenged the power of the land monopoly.

Farmers and laborers are backing from every rural area throughout Britain to Canada, the United States and Australia. Whilst laborers have diminished, the gamekeepers have trebled. ("Shame.") The quantity of game which is turned loose on crops has increased prodigiously during the last thirty years. Most Tory speakers and writers seem to regard the grave condition of things as a huge joke. ("Shame.") They regret every reference to it with insincere laughter.

If real trouble befel the old land there are 600,000 fewer laborers to defend her than there were sixty years ago. The greed and selfishness and stupidity of the land system have driven him away. The wages of the laborer are lowest; his hours are the longest, and his prospects are the poorest offered to the worker in any great industry in this country.

His housing is often the worst, and he has less freedom and fewer of the amenities of life than in almost any business. ("Shame.")

Minimum Wage and Old Men Taking food into account an adult laborer here earns above a pound a week. There are counties in England near some of the best markets in the world, where the soil is better and where the rents are much lower than they are here, where yet the laborer is paid 16s., 14s., even down to 12s. a week. How can a man provide food, clothing and shelter for himself and his family on such a miserable pittance, letting alone making provision for illness and for the contingencies of life.

Can you wonder when men are so treated that their sons fly away to the ends of the earth from such horrible prospect of endless drudgery required by half-starvation? The Government have decided to set up a machinery by which a minimum living wage shall be fixed for every district in this country, and the employer of labor will be compelled to adhere to that standard.

There will be an exception made in the case of old men, who cannot be expected to render the same services as they were capable of giving in the days of their prime, and who are kept on to do light work on the farm often for motives of kindness and goodwill. This exception has already been applicable in the case of the Miners' Minimum Wage Act.

Take the lowest waged county, Oxfordshire. A reduction of rent by 1s. 6d. in the pound would enable the farmer there to pay a wage of 20s. a week to all his laborers. There is no area in Oxfordshire where the landlords could not without any serious sacrifice, make concessions to the farmers to pay their laborers a wage sufficient for plenty of food for their children and rent for a decent cottage.

Taking England and Wales as a whole, for every 20s. paid by the farmer in wages he pays over 25s. in rent. ("Shame.") Not a single sheaf of corn should be carried to the landlords or the parsons' barns until the laborer has had bread enough and to spare for himself and his family.

I am for fair play for everybody—the landlord, the parson, the farmer, and the labourer; but if Providence has so arranged things that there is not enough fair play to go round, that justice in this country has not enough assets to pay 20s. in the pound to all its creditors, then there must be a preferential charge in favor of the cultivator of the soil, be he farmer or labourer.

You cannot do without the farmer and the labourer, and the landlord is no more essential to agriculture than a gold chain is to a watch. (Laughter and cheers.) There are many European countries where agriculture is highly prosperous, which have demonstrated that a landowning class is not essential to agricultural prosperity.

The mainspring of the proposals of the Government is that it is essential that the cultivator should be considered first and parasitic interests come last.

After referring to the appalling housing conditions in many rural districts, Mr. Lloyd George continued:— If you want to keep the labourer on the land you must give him a decent home and a good-sized garden. In Ireland every new cottage has half an acre of land attached to it. Also you must make it easy for the labourer by industry, capacity, and thrift to be market gardeners, small farmers and from that climb on until they become larger farmers.

Under cultivated land is generally due to a farmer's not having the capital or the enterprise to make the best of the farm. This land we propose the State should purchase and spend money in reclaiming and equipping so that it can be let to small holders or market gardeners or in allotments.

After again enumerating the further land reforms which the Government have in view Mr. Lloyd George said that the Unionist policy represented:—

Taxpayers' money for the landowners to build cottages, so that they can keep the tenants still under their thumbs.

More Taxpayers' money to reduce landlords' burdens.

Still more taxpayers' money to pay big prices to landlords for their land. No security of tenure for the farmer.

No living wage for the labourer. In a fine peroration he pointed out that their record showed that when the Government promised fair wages, fair rents, decent houses, security and independence, the people could depend upon it the Bill would be carried through.

Brantford Loses to Paris In O. H. A. Game 4-3

A very fast and exciting game was played in Paris last night when the local boys defeated the City boys by the score of 4 to 3. The local boys have improved much since the game in this city Paris and were, before the game, to win, by the number of votes that accompanied the little burg, and as the game indicates the play was close to the stages of the game. It might be said here, that there is practically no difference in the strength of the two teams. Owing to last night's blizzard the G. V. Ry. had difficulty in running their cars on time, which delayed the arrival in Paris of the Brantford team. The scratch that Mr. Wagner received in the London-Brantford game here is still carrying a sling plaster and will in all probability remind him, that there is a game called Brantford.

The game started out with a rush to Paris on the aggressive and in very short order Gordon Gill, the little centre, notched the first for the boys in green, after three minutes of strenuous play. Not satisfied with starting out so good, they tried another in exactly the same way, this one was got by Wooden. The game which started out so fast and whole, continued so for almost the whole of the first half, when legs tripped one of the blue and white boys and was chased by Brantford at this stage of the play. After warming up to the game and after 24 minutes Watson, the brilliant little centre forward, slipped in the corner of the net for the local first score. Jones received a penalty for one minute and was not on the ice then he received another penalty. For the rest of the half, play was more even going up and down the ice all the time in favour of Paris.

Second Half.

Of the two parts of the game, the second half seemed to supply the best hockey. Play became more furious than ever. One thing that was lacking in the first half was body checking, there being very little of it even in the second. Wooden received his first penalty for becoming a little too rough which is very seldom with "Punch." There was one change in the line up of the Brantford in the second half, Johnson, who played left wing in the first half, exchanged places with Knight at Rover and the change was indeed noticeable. Knight scored on a nice combination rush by the forward line, the time being 4-1-2 minutes, which evened up the score, 2 to 2.

The Federal League Will Surely Fail

NEW YORK, Jan. 13.—Edward Barrow, president of the International League, in a statement today concerning the proposed invasion of the Federal League of three International League cities—Toronto, Baltimore and Buffalo—declared that the new league's leaders were not fighting fair, and predicted that "their tactics will only bring them to grief."

"In the first place," Mr. Barrow continued, "they are trying to masquerade as a major league, when they never can become one. They will have about four major league players on a team, but that will not make them a major league. They have a minor league circuit in Toronto, Baltimore and Buffalo turn out good crowds, but they do not turn out major league crowds."

"The players who jumped to the Federals were disloyal to their employers. Men like Tinker, Brown and Knabe were in organized baseball long enough to know that they were to the reserve clause is one of the foundations of organized baseball, and as much a part of their contract as their salary."

"I will say that the International League will fight these fellows to a finish in any of our cities where they intend to place teams. So far I have not heard of them signing any of our men, though I have three letters which the Pittsburgh Federals have sent to my players. I might add that these players were not offered as much as they are getting in organized baseball."

104 Rinks For Lindsay Bonspiel

LINDSAY, Jan. 13.—Lindsay is gaily decorated and the townspeople are enthusiastic over the big bonspiel which starts to-day.

Four rinks are entered, including about twenty from Toronto. There are ten sheets of ice and there will be five draws daily.

Rochon, the Winnipeg skip, and McAulay of Southampton, who are playing in St. Thomas, will not be there until Wednesday. Braden, of Winnipeg, will, however, play Davis, of Bobcaygeon, in the first draw at 9 o'clock to-morrow morning.

EASY EXPLANATION

Stranger (riding past the foot of a mountain) to driver: "Anything remarkable about this mountain?"

Driver: "There's nothing peculiar about the hill itself, but there's a queer story connected with it."

Stranger: "What is that?"

Driver: "A young lady and gentleman went for a walk on this hill; they ascended higher, and higher, and never came back again."

Stranger: "Dear, dear me! How unfortunate! What, then, became of the unhappy pair?"

Driver: "They went down on the other side, sir."

Dead in the Creek

A strange story was told at the inquest at Nolesbury, Essex, on Saturday upon Stephen Appleton, sixty-one, oyster cultivator, whose dead body was found in the creek off the fishing village.

His daughter said her father went alone to get up some oysters and promised to bring some home for dinner. As he did not return she looked out and saw his smack with sails set stuck in the mud, where the body was afterwards found.

A yachtsman said a bruise on the back of Appleton's head showed he was struck by the boom in squally weather and knocked overboard.

A VEGETABLE CONSTIPATION CURE

Because they contain mercury and mineral salts, many pills are harsh. The easiest and safest laxative is Dr. Hamilton's Pills of Mandrake and Butternut. They clean the stomach, intestines and bowels—drive out waste matter, tone the kidneys and forever cure constipation. As a general tonic and system builder nothing is so mild and efficient as Dr. Hamilton's Pills of Mandrake and Butternut. Sold everywhere in 25-cent boxes.

EBBETS WILL SEND HIM A CONTRACT

Brooklyn Club Owner Does Not Intend to Let Tinker Go.

NEW YORK, Jan. 13.—Notwithstanding Joe Tinker's intention not to play organized baseball this year as evidenced by his signing a contract with Charles H. Ebbets, of the Brooklyn National League Club announced to-day that he would mail Tinker a Brooklyn Club contract this week.

"In my opinion," said Ebbets, "as far as our taking legal steps to keep Tinker from playing with the Federals, we would have to wait until he actually begins to play with the Federals before applying for an injunction. Until he does that we will not know positively that he is not going to come into the Brooklyn fold."

"The National League is naturally going to protest against the invasion of the Federals, but what steps are to be taken I am not prepared to disclose. The most foolish thing the National League could do now would be to show its hand."

OTTAWAS WANT BENEDICT

Manager Murphy of the Ontario Refuses, However, to Release Player

OTTAWA, Jan. 13.—A curious situation has arisen in the N. H. A. over the services of Goalkeeper Clint Benedict. It appears that when the Ottawas made the bargain with Jimmy Murphy, whereby Fred Lake went to the Ontarios, Benedict and Dennison were also included in the deal, the price of which was reduced by a flip of the coin. Lake reported, but Benedict and Dennison refused, the former because he wished to finish out his time as a press apprentice. Now the Ottawas wish to sign Benedict as sub-goaler for Percy Lesueur. They intended to land Herbert, but he jumped to the Ontarios before the deal was made. The Ottawas contend that Benedict is still their property and refuse to release him. The Ottawas consequently have appealed to President Emmett Quinn. Lesueur has been overworked and they wish to use Benedict in Wednesday's game against the Ontarios. He has already played in the Ottawa game.

The Ottawas to-day sent to President Quinn a protest against the foul work of McGiffin and Davidson in Saturday's match. Secretary Rosenthal pointed out that Darragh, Ronat and Broadhead had been roughly handled and called attention to the fact that McGiffin had been a source of trouble all last season and to date this year. The reply from Quinn was to the effect that McGiffin had already been suspended and that Davidson would likewise be punished for his attack on Darragh.

The Senators have to send a weak team out on the ice for Wednesday's game against the Ontarios. Miller will play right wing for Broadhead and Wilson will replace Shore on the defence. The latter's bad knee is out again, so it looks as if the Ottawa victory over Toronto would prove costly. Miller shows good form in yesterday's practice game against Britannias.

AT THE COLONIAL

To judge from the entertainment served up at the Colonial this week, big business should reward the enterprise of the management. Sims, Schooler and Jamieson simply convulsed the house with laughter in their lighter moments and their boxing stunts are one of the best. Esmeralda and Diaz give an operatic scene and native Italian songs were well rendered. The gentleman's violin solo has seldom been excelled in Brantford. Cameron and Gould, in a clever musical comedy completed the variety of the show in a worthy manner.

A fine film, Black Masks, which is a tale of a society theft and a woman's devotion by the Bison Co. is featured, and is supplemented by other good films.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Reisling to Trade Deneau For Third Baseman Wiltse With Owner O'Neill of Erie

LONDON, Jan. 13.—Manager Reisling made an early start to build up his 1914 London Baseball Club, when he practically closed a deal with Owner George O'Neill, of the Erie club, which will give him Third Baseman Wiltse in a trade for former Manager George Deneau. Just what O'Neill will do with Deneau is not known but the local baseball magnate usually knows what he is about as his action with the purchase of the Guelph franchise disclosed this fact.

The signed contract of Owen Harris, of the Baltimore International League Club, was received by O'Neill yesterday and, as this man is an infielder, he will not miss Wiltse. The Erie club can boast of one of the best

Wicks the Star

Wicks certainly appeared to be the pick of the locals. He played a sensational game, stopping all kinds of shots. Watson also played a brilliant game, but was watched closely by his opponents. For the boys in green Gordon Gill played a very clean, consistent game, being very fast on his skates. The Wooden boys also played a good game. One amusing thing was the antics of Mr. Waghorne, during the game. He collided with a Paris player and they both went down in a heap with the player on top, this brought a hearty laugh from the crowd, especially the fair sex. On another occasion he fell all by his lonesome, and remained sitting on the ice for about 2 or 3 minutes watching the play. This brought another hearty laugh.

Teams lined up as follows:
Brantford—Goal, Wicks, R. Deifense Jones, L. Deifense, Woolams; Rover, Knight; Centre, Watson; R. Wing, Klery; L. Wing Johnson, Paris—Goal, Brown; R. Deifense, Gill; L. Deifense, Meggs; Rover, Wooden; Centre, G. Gill; R. Wing, Wooden; L. Wing, A. Peeples

Referee, F. C. Waghorne; Penalty, Paterson, Paris. Goal Umpires—Marlatt, Brantford. Syker, Paris. Timekeepers—Whitaker, Brantford; Parker, Paris.

THE PROBS

TORONTO, Jan. 13.—The disturbance which was centered near Montreal has moved to the Atlantic and the western area of high pressure with a severe cold wave, which is now passing across the Great Lakes.

Northwesterly gales prevailed during yesterday in Ontario, and are now blowing in Quebec. Storm signals are displayed along the Atlantic coast.

Forecast: Northerly winds, fine, very low temperature again to-night. Wednesday, fine and slowly moderating.

Temperature for the past twenty-four hours, highest 42, lowest 17 below; same date last year, highest 24, lowest 6 below.

The Weather In Ontario

Chilly at Guelph. GUELPH, Ont., Jan. 13.—Col. White's self-registering thermometer recorded 28 below zero here last night.

Coldest in Ontario. TORONTO, Jan. 13.—Last night and this morning are probably the coldest in Ontario for more than 25 years. The official reading at the Observatory here at 8 o'clock this morning was 22 below, which was also the record for the night, and the record since the winter of 1886 when an extreme of 23 below was recorded.

Montreal, Ottawa, Kingston and the Soo all report a minimum of 28 below, the lowest official, except from White River, which, as usual, has something sensational to report this time 48 below. Yesterday the weather bureau promised moderating temperature for this evening, but this hope is now deferred for another 24 hours.

Freezing at North Bay. NORTH BAY, Ont., Jan. 13.—North Bay is in the grip of the coldest wave of the season, 38 below zero being registered at North Bay early this morning. Sunday morning the thermometer registered 22 below. Cochran reports 51 below and Cobalt 42 below last night.

Cold at Montreal. MONTREAL, Jan. 13.—Montreal to-day found itself in the grip of the weather, the coldest, according to figures issued from the McGill observatory, since 1875. Early this morning the thermometer at the McGill University reached 27 degrees below zero, and at noon there was no indication of milder weather. The intense frost was accelerated by a driving wind. Much distress was reported.

Former Pastor Here Is Asked to Retract

[By Special Wire to The Courier] SAULT STE MARIE, Ont., Jan. 13.—H. Meggison, shoe dealer, has insisted that Rev. H. J. Pritchard, pastor of St. Andrew's church, and formerly pastor of Alexandra church, Brantford, retract statements made by him on Sunday preceding the local option vote. In his sermon Mr. Pritchard inferred that a man named Kewley had refused a purchase made in his store because Meggison was "wet." Kewley also denies that the incident took place. Unless a retraction is made from the pulpit legal proceedings will be taken.

Senator George A. Cox retired as President of the Canada Life Assurance Company, and is succeeded by Mr. E. W. Cox.

BOOTS AT \$10 PER PAIR IS SLOGAN

Health Laws in United States Will Boost Retail Price

[By Special Wire to The Courier] NEW YORK, Jan. 13.—In the opinion of speakers at the annual convention of the National Shoe Retailers Association, which closes with a banquet to-night, the retail price of shoes may soon reach \$10 per pair.

"Pure shoe laws," already adopted in twenty-five states and several measures of the same nature now pending in congress, were given as the chief causes for increasing the price of footwear. Both speakers and a majority of the 200 delegates present denounced the legislation which would call all shoes not made entirely of leather to be stamped "adulterated" or "substitute leather."

The shoe retailers were told that if all shoes were made of all leather 2,000,000 more hides per annum would be required, in this country alone and with hides practically in control of the larger packing houses, it cannot be foreseen to what heights shoe prices might soar.

Seventeen Below Zero

Mercury Went Down With a Bang Early This Morning.

Gee whiz! Did you notice the drop. Seventeen below was the official record of the mercury at the Mohawk institute this morning. And it was a sudden drop. The highest temperature during the last 24 hours was 42 degrees above.

Last year, January 13, the mercury went to six below.

In some parts of the city the thermometers went even lower than 17. Mr. John Kerr's residence on the Paris road is 20 degrees below at 8 o'clock. Pedestrians could scarcely believe the figures of thermometers on Colborne street this morning after 8 o'clock which showed 19 degrees below.

However, to-day's freeze is not a record. The mercury has been known to get down to 25 and 26 below in Brantford.

Rabbi Appears In Court To-day

[By Special Wire to The Courier] MONTREAL, Jan. 13.—Rabbi Simon Glazer appeared in the police court yesterday before Judge Lett in answer to a warrant charging him with the misappropriation of trust funds and pleaded not guilty.

Moyer Tazman, the complainant, alleged that the accused had received a trust of \$4,000 and some jewelry, part of the estate of the late Mrs. Liza Miller, who in her will directed that part of the money be paid by the rabbi to a charitable institution, and the remainder to be forwarded to a niece in Russia.

Tazman claims that none of the money had been paid out. Glazer, who gave an emphatic denial to the charges, was remanded on \$2,000 bail.

Montreal is Fighting a Bad Fire

MONTREAL, Jan. 13.—With high wind blowing and the thermometer hovering around 25 below zero, Montreal's fire brigade was called upon to fight a stiff blaze in the heart of Montreal's wholesale district at noon to-day. The upper floor of Frothingham and Workman's big wholesale hardware depot was discovered to be in flames at 11.45 a.m., and the second alarm brought out the whole downtown section of the brigade.

By a strenuous effort the flames were confined to the upper floor of the Frothingham building through the loss on that alone is estimated to be at least \$250,000. None of the employees were injured though several of the fire ladders sustained severe frost bites.

MANY INJURED.

MONTREAL, Jan. 13.—Fire now spreading south in heart of business section, fanned by high wind. Many firemen injured. Inland Revenue office now being used as hospital.

NOTRE DAME CHURCH.

MONTREAL, Jan. 13.—If fire now threatening Notre Dame church and spreading rapidly. Clean sweep from Notre Dame street to water front feared.

ALL ON BOARD MAY BE LOST

A Steamer Founders in the Bay of Fundy—Wireless Cut Off.

[By Special Wire to The Courier] HALIFAX, Jan. 13.—Groping her way to St. John through a blinding snowstorm and a fierce northwesterly gale, the R.M.S. steamer Cobequid early this morning grounded on one of the dread rocks of the Bay of Fundy, and grave fears are felt for the safety of the passengers and crew, numbering probably 150 all told.

It is not known definitely where the Cobequid has grounded, but it is known that she is hard and fast on some exposed ledge of rocks, that all wireless communication with the ship has been cut off, that her forward hold is full of water, that she has a bad list, and that in response to the call for help sent early this morning six and possibly eight steamers are now pushing through the gale at top speed to her assistance.

The first notification of the disaster received in Halifax came about 8 o'clock this morning to Mr. C. H. Harvey, agent for the marine department.

The message was from the Cape Sable wireless station and read as follows: "5 a.m. to-day—Cobequid reports being on the rocks off Bier Island, Bay of Fundy. Have advised Krom Princessin Cecilie to please assist."

Immediately upon receipt of this message, Mr. Harvey sent a wireless message to the Steamer Lady Laurier which left Halifax early this morning in search of a buoy of Sambro, ordering her to proceed to the Cobequid's assistance.

The wireless message caught the Lady Laurier when she was just off Sambro, and she immediately proceeded down the coast for Brier Island, and under favorable conditions should arrive there by daylight tomorrow.

It has been subsequently learned by telephone message to Digby and Westport, the latter being the nearest port to Brier Island, that no sign of the Cobequid could be seen. The lighthouse keeper at Brier Island reports that he cannot locate the Cobequid on the rocks off the island, and it is believed here that there is a possibility of the ship being on the Murray shoals off Grand Mann Island.

It has been suggested that the captain of the Cobequid, having lost his bearings, only surmised that he had grounded off Brier Island.

No record of the Cobequid's passenger list is available here.

ST. JOHN, N.B., Jan. 13.—William Thomson & Company, agents here for the Royal Mail Steam Packet Line, say there are passengers on the Cobequid, but they have no list.

Messrs. Thomson sent a wireless message early to-day to Westport, near Brier Island, to the coasting steamer John L. Cann to go to the Cobequid's assistance, and later the reply came that a cruise around the island had been made, but because of a blinding snowstorm prevailing there was no sign of the steamer.

The marine department here has reached the Cableship Pyria at Campbell and had her proceed to the scene of the wreck.

SUSPENDED SENTENCE.

NEW YORK, Jan. 13.—Arthur A. McLean, treasurer of the Democratic state committee pleaded guilty to-day to accepting campaign contributions from a corporation. Supreme Court Justice Davis suspended sentence.
