Vol. XXXIX. No. 39.

WOLFVILLE, NOVA SCOTIA, FRIDAY, JUNE 18, 1920.

\$1.50, payable in advance.

## Middleton Defeats Wolfville

The local baseball team went down to defeat before the Middleton boys, last year's champions, Wednesday afternoon, on the college campus. The final score was 9 to 4, the Wolfville boys getting all their runs in the fifth innings. The game was not as good an exhibition as the Kentville game, both teams making numerous errors.

Middleton went to bat first and scored one run in the first innings, Loring Andrews doing the trick. Phinney scored for the visitors in the second innings. There was no score in the next innings, but in the fourth Middleton added two more to its score. The Wolfville boys got away in the fifth innings, and Waterbury, Vaughan Henshaw, Evans, and Tingley succeeded in rounding the bases before the required three were put out. This tied the score and the outlook for the home team seemed brighter. In the next innings there was no score, but in the seventh the visitors scored three runs and followed this with two in the eighth. In the last few innings Wolfville tried hard to score but could not get any further than third base.

The teams were composed of the following:

Middleton	Wolfville
Bowiby catcher	E. Henshaw
Dodge pitcher	V. Henshaw
Andrews 1st base	P. Tingley
Phinney 2nd "	E. Kennie
L. Harlow 3rd "	R. Bishop
Andrews short st.	F. Eagles
H. Fisher 4th field	H. Evans
J. Reagh c. field	C. Schurman
F. Fisher r. field	G. Waterbury

The game was refereed by Angus, Wolfville, and Bowlby, Middleton.

## The Fruit Companies

The quarterly meeting of the Board of Directors of the United Fruit Companies, Ltd., was held at Kentville on Saturday. President Bishop was in the chair. The reports showed that the affairs of the company are in excellent shape. There was a lengthy and enthusiastic discussion with reference to the establishment of canneries, as well as vinegar factories in the valley for the purpose of taking care of apples that are not strictly up to the Nova Scotia standard for shipment abroad. The Board of Directors unanimously adopted the proposition, and instructed General Manager A. E. McMahon to proceed accordingly.

Joseph E. Howe, Acadia '06, has been called to the chair of history in Brandon College, succeeding Dr. C. W. New, who goes to McMaster. Mr. Howe has been the senior teacher of history in the Saskatoon High School. During his course at Acadia he distinguished himself as an athlete as well as a student. He took post-graduate work at Yale, and was for some years connected with the staff of Acadia Academy. His many friends in these provinces will be pleased to learn of the success which is attending his work in his chosen profession.—Maritime Baptist.

G. H. Vroom, Chief Fruit Inspector, who was through the Valley last week as far east as Wolfville, reports present prospects favorable for a good average fruit yield.

## A Wolfville Industry

ACADIA DAIRY CO. A VALUABLE AND PROSPEROUS INSTITUTION

The factory of the Acadia Dairy Co. is a scene of much activity these days. An unusual supply of cream is coming in which keeps Manager Wheaton and his staff busy. When a representative of THE ACADIAN called one morning this week he found everything in full swing. One "churning" of butter was on the working table and the golden mass presented a most tempting appearance. The churns were then at work on another churning, while another was ready for the churns. The morning express from the east had just come in and the floor of the receiving room was covered with cans of cream brought in from the eastern part of Kings and Hants counties. Mr. Wheaton informed THE ACADIAN that he was now turning out about half a ton of butter a day, and some days as high as 1200 to 1300 pounds. The product of the Acadia Dairy is of superior quality and always brings prices that ought to make it profitable for those who supply cream.

## Republicans Nominate

Warren G. Harding, Senator for Ohio, was elected the Republican nominee for the Presidency of the United States at the Republican convention at Chicago on Saturday. In private business life Senator Harding is publisher of the Marion, Ohio, Star, with which paper he has been associated since 1884. On the paper he has performed every function from "devil" to managing editor. In addition to being a linotype operator he is a practical pressman and a job printer, and as a "make-up man" is said to have few equals. The luck piece he has carried as a Senator is the old printer's rule he used when he was sticking type.

Senator Harding is closely identified with many other large business enterprises in Marion and other parts of the State. He is director of a bank and several large manufacturing plants and is trustee of the Trinity Baptist Church. From his personal association with varied activities he ought to fill all requirements as a popular candidate.

The Republican convention also nominated Governor Coolidge of Massachusetts, for the Vice-Presidency.

## Banquet at Port Williams

Saturday night was a great night in Port Williams, the occasion being the annual banquet of the Port Williams Fruit Company, which was attended by over seventy ladies and gentlemen. The president of the company, George Starr, made an ideal presiding officer, and delivered one of the best speeches ever heard in Temperance Hall.

T. L. Harvey the European representative of the United Fruit Company in England gave a very interesting talk on his experience in that market, as well as his views on the future of the Nova Scotia apples in Europe. Albert E. McMahon, the general manager of the United Fruit Companies Limited, made a splendid speech on co-operation. Another excellent address was by Professor W. Saxby Blair, superintendent of the Experimental Farm and Mayor of Kentville. The affable professor is always a popular speaker, and was thoroughly enjoyed.

## Organizer of Boys Work

Paul R. Tingley, who recently was appointed organizer for the Boys Work in Kings county, entered upon his active duties this week. The County Association, which is promoting this work, is to be heartily congratulated upon the excellence of its choice. Mr. Tingley is one of the original Wolfville first troop of Boy Scouts. He was fourteen years of age when, in April, 1912, he took the scout promise. He served with distinction in the Air Force overseas, being one of the thirty-five Wolfville Boy Scouts who gave themselves and did their best for king and country in the great war.

Mr. Tingley was a member of the class which graduated a few weeks ago at Acadia and during his college career he distinguished himself as a half-back in the famous Acadia football team and as centre in the Acadia hockey team. This season he is a member of the Wolfville Amateur Athletic Association's baseball combination. He is also leader of the United Baptist church group of Tuxis Boys.

As a starting point in his organizing operations, Mr. Tingley will interview the leading people in the county to ascertain their sentiments regarding the work before taking up the general canvass. The boys, from ten years upwards, already are talking about camp this summer and it is earnestly hoped that Mr. Tingley's campaign will meet with the unqualified success its object demands, so that they may not be disappointed.

## Boy Scouts and Tuxis Boys

The second game in the King's County Boys' Baseball League was played at Kentville last Saturday afternoon, when the Kentville boys defeated the Canning boys by the score of 8 to 7. At the same time the junior scouts of Kentville played a game with the Wolfville junior scouts. This game resulted in a win for the Wolfville boys, the score being 11 to 7. Thanks are due to Dr. Cutten and Mr. Shaw for transportation.

Saturday afternoon the Wolfville Tuxis Boys will play the Canning Boys on the Campus at 4:30. Let all Wolfville people turn out and see the game. Our boys will be in their new uniforms. Come and see them. This evening the Tigers will play the Lions in Cricket, and the other patrols will practise athletics in preparation for July 7th, "Wolfville's Big Day".

The news of the appointment of Mr. Roy B. Vaughan, a native of this county, son of the late Chipman Vaughan, as director of Technical Education for the province of Manitoba, will be heard with interest by his many friends. During the next year Mr. Vaughan with his associate will superintend the expenditure of \$100,000 on technical work. Half the amount has been provided by the Dominion government and the balance will be supplied by the province. THE ACADIAN tenders congratulations.

The posters for Wolfville's Big Sport Day on July 7th will be out in a few days. The committee in charge is preparing an excellent program and a most enjoyable day is promised.

## Our "City of the Dead"

GOOD WORK BEING DONE AT WILLOW BANK—BUT MORE NEEDED

Those who have taken the trouble to visit the cemetery during recent days have been glad to note the improved appearance of the grounds. The cemetery now presents a fairly creditable appearance, and the improvements made give evidence of what the cemetery might become if sufficient money and attention were spent on it. The directors have been fortunate in securing the services of Mr. George Whalen, who is now giving the work all his attention with most satisfactory results. THE ACADIAN would advise citizens to spend a few minutes in inspecting the condition of Willow Bank. Business men could not better spend one of the week's half-holidays than by spending it in the cemetery under the direction of the caretaker. We would suggest that the combined energies of our people should be directed towards making Willow Bank the place of beauty that it ought to be. One afternoon might easily be spared and much good work accomplished. No duty is of sufficient importance to interfere with our care for the resting place of our dead.

## Improved Brick Making

Extensive improvements are being made at the Shaw Brick Works at Avonport. The brick and tile were formerly made under a system that created an enormous waste of energy and heat. The works are now being set in an up-to-date condition by the building of new bee-hive kilns, one of which is nearly completed. It is intended to build a whole battery of these kilns and when completed the works will be making brick and tile on strictly modern lines, which means the conservation of fuel, material and labor.

## Baseball News

The Kentville team defeated the Annapolis team in a Valley League game at Kentville on Wednesday, the score being 12 to 5. The same afternoon Bridgetown defeated Berwick at Bridgetown by the score of 8-7.

Representatives of the Annapolis Valley Baseball League met at Bridgetown on Monday to consider the protest made by the Berwick team against the Umpire's alleged unfair decision in the game between Berwick and Annapolis on June 2nd. It was arranged between the representatives of the two teams that the game will be replayed at Bridgetown at a date to be agreed upon.

The standing of the teams in the Valley League is now as follows:

	Won	Lost
Middleton	3	0
Kentville	2	1
Annapolis	1	1
Wolfville	1	2
Bridgetown	1	2
Berwick	0	2

It is reported that the Annapolis grounds have been disqualified, and if it is true the Annapolis-Wolfville game will have to be replayed. This would also affect the league standing, putting Wolfville in third place, Bridgetown fourth and Annapolis fifth.

It is altogether too early to predict what might be expected regarding price for this year's fruit yield, but at the same time it might be encouraging to apple growers in this Province to know that a prominent Valley fruit broker, while in Berwick last week contracted with one of the local fruit houses for the purchase of 15,000 barrels of 1920 fruit at the following attractive prices: Kings, \$4.50 to \$3.00; Golden Russets, \$4.25 to \$2.50; Gravenstein, Ribston and Blenheim, \$3.75 to \$2.00.—Berwick Register.

## Wolfville Opera House

Show at 8.

Prices: 17c. and 25c.

Notes and Comments

The aerial mail service between London and Paris has been extended to include two trips a day each way.

Even one lone man can do much for the community in which he lives, but when all men pull together there is no end to the possibilities.

The man who knows how to increase taxes without adding to anybody's burdens, should step right up and tell the government all about it.

By a simple rule the length of the day and night, any time of the year, may be ascertained by simply doubling the time of the sun's rising, which will give the length of the night, and double the time of setting will give the length of the day.

Paris has removed the ban on restaurants and cafes, permitting them to remain open until one o'clock in the morning. The new hours suggest that Paris is making concessions to meet the demands of tourists who want to see the night life of the great city.

A Missouri woman advertises: "For Sale—Husband as good as new. Has never done any work. Slightly shiftless. Kind and gentle, and any woman can drive him. Sound in wind and limb. Reason for selling, owner is leaving the city and must unload at once. Or will exchange for a late model typewriter or a couple of good hens. A bargain for some one who needs this sort of husband."

The Province of Manitoba, under legislation passed at the last session of parliament, has begun receiving savings deposits on which four per cent. interest is to be allowed. The money is to be used in financing rural credit. The movement should not only add to the popularity of the government, but it should have an influence toward a general increase in the savings deposit rate paid by the federal government and the chartered banks.

A copy of the British American, published at Chicago, which recently reached THE ACADIAN, contains an extended report of an address delivered before the Traffic Club, of Pittsburg, by Mr. A. DeWitt Foster, on America's place on the new map of the world. The address is described as a "lucid discussion of Canada-U. S. problems. Mr. Foster shared the honors of the occasion with Dr. Charles A. Eaton, of Leslie's Weekly, New York, who spoke on "America at the Crossroads".

Business Girls and Two Red Cross Clinics Teachers

SUFFER FROM OVERTAXED NERVES AND OFTEN A COMPLETE BREAKDOWN

Thousands of earnest, intelligent young women who earn their livelihood away from home, in the school room, in public offices and in large business establishments, are silent, suffering victims of over-taxed nerves and deficiency of strength. Weak, breathless and nervous, they work against time, with never a rest when headaches and backaches make every hour seem like a day. Little wonder their cheeks lose the glow of health and grow pale and thin; their eyes are dull and shrunken and beauty slowly but surely fades. Business women and girls because of their work and worry, look older than their years. What they need is the frequent help of a true, strengthening remedy to carry them through the day. Dr. Williams Pink Pills are like actual food to the starved nerves and tired brain of the business girl. By making rich, red blood they supply just the kind of help girls need to preserve their health and energy and good looks. Dr. Williams Pink Pills bring bright eyes, rosy cheeks, high spirits and thus make the day's duties lighter.

Miss Mary H. Hunt says: "Many people think of the life of a school teacher as one of comparative ease, with short hours and holidays plentiful. But the reverse is the case. When one has to stand day after day, year in and year out, with the worries great and small, from handling children, it begins to tell upon even the strongest, and especially upon the nerves. I had been teaching about five years and was then located at Springfield, Ont., when I found I was far from having the vitality I started out with. Before my term was out I had a complete nervous breakdown. I tried doctor's medicine and it helped, but only for a while. I then tried osteopathic treatment but with no better results. I suffered from loss of appetite, slept poorly, was nervous and troubled with severe headaches. Holidays came and I tried a change of schools, but got into a harder place where I had over fifty pupils under my care. There were days when it seemed impossible for me to carry on my work. At this stage my sister, who had also been a teacher, strongly advised me to try Dr. Williams Pink Pills. I took the advice, and by the time I had finished my second box, I felt that the pills were helping me. I was on my ninth box when I decided there was no necessity for continuing the treatment, as I had never felt better, and had gained twelve pounds in weight. Dr. Williams Pink Pills, with plenty of fresh air, worked wonders in my case and I should advise the use of them to any other run down teacher."

You can get Dr. Williams Pink Pills from any dealer in medicine, or by mail, post paid, at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Their Excellencies the Duke and Duchess of Devonshire, accompanied by their staff, intend making a tour of the Annapolis Valley, early in July. They will land from their yacht at Digby and motor through the Valley, rejoining their yacht at Kingsport.

Mexico has had sixty revolutions in sixty-one years.

START FROM HALIFAX EARLY IN JULY TO TOUR NOVA SCOTIA

The Red Cross has chosen these portable clinics as a way to offer a helping hand to some of the isolated rural districts of Nova Scotia. Every one knows of places that for many years have necessarily been more or less neglected from a medical and public health standpoint and where certain diseases and unhealthful conditions have flourished unchecked except by occasional emergency visits when some serious illness or epidemic has forced an overworked medical man or nurse to make a journey to these out of the way places.

Each of these two clinics will consist of motor trucks, motor ambulances and touring cars carrying medical specialists, dentists, a certain number of especially trained nurses, Red Cross representatives and others, together with equipment for a hospital of ten or a dozen beds. The hospital can be set up quickly in a schoolhouse or other suitable building. These clinics will usually stop for a day and a night at certain outlying road junctions which tap more or less remote districts. The people will be informed through the press and otherwise of the dates and places the clinics will open.

The activities of these clinics will include:

- 1. The teaching and improvement of local public health conditions.
2. Infant welfare work. Medical inspection and in some cases, if the parents desire, treatment of children including those of school age.
3. Anti-tuberculosis work.

VOLUNTEERS WANTED

Medical men, dentists, nurses, welfare workers, car owners, drivers, garage men, repair men, moving pictures operators, teachers, Churches, Sunday Schools, Ministers, Schools, School Boards, Women's Institutes, Childrens Aid and all other societies and organizations calculated to make the world better.

It may not be possible to use all the volunteer help which becomes available but public recognition will be given to all who volunteer and as many as possible will be given a chance to share in some phase of the active work of the clinics.

A few weeks on the open road in a car with one of these clinics would be a glorious and helpful way for a healthy red-blooded man or woman to spend a holiday and to help others less fortunate.

Only those resourceful owners and drivers who are fit for work on bad roads should apply. Skillful lady drivers who can bring their own cars are acceptable. The recent war has shown what lady motor drivers can do.

Will specialists, general practitioners, dentists, nurses, car owners and others who wish to volunteer their services for any length of time from one to seven weeks please communicate direct with Dr. F. V. Woodbury, 310 Barrington street, Halifax, Nova Scotia, who has been given charge of the organization of these clinics.

**Lady Astor Writes**

TO THE PRESIDENT OF THE MONTEAL W. C. T. U.

Dear Mrs. Scott,—Your letter of Nov. 30th has just arrived, and I am deeply touched by your thoughtfulness and kindness in writing to me. There has been nothing more helpful to me than that the women of Canada and America are standing behind the first woman M. P. in England. I feel perfectly convinced that women have got more spiritual courage, as a rule, than men, and it is just that that is needed in public life to-day. Naturally I feel deeply drawn to the women of Canada, having nursed their sons and husbands for the last five years. Will you please convey to your association my sincere thanks for their kind thoughts in writing me.

Very sincerely,  
(Signed) NANCY ASTOR.  
4 St. James Square, S.W.  
22nd December, 1919.

**Lady Astor in the House**

"Wherever she goes around the House, the eyes of members are anxiously fixed on her to discover what they can do to help her. But she never drops her handkerchief or her order paper, or needs her shoe tied. If she did, there would be a good imitation of a football scrum to do her service."—London Opinion.

**Language He Knew**

A Halifax divine had occasion to officiate at a christening in a small fishing village in Nova Scotia. When the time for baptism arrived, the embarrassed father was holding the child so that its fat legs pointed towards the front. "Turn her this way," he whispered. But the father was too disconcerted to hear or understand. "Turn her feet around," the minister whispered again, but there was no response. An old seaman in the back of the church came to the rescue. Putting his weather-beaten hand to his mouth, he roared across the room: "Head her into the wind, Tom."

**The Better Way**

Never disobey Nature's warning. It's far better to forestall weakness with nourishment that protects.

**Scott's Emulsion**

after meals for child or adult, is a wonderful help in forestalling weakness. Ask for Scott's.

Scott & Bowne, Toronto, Ont. 20-17

**Facts About Canada**

Canada has nearly 800 legislators, federal and provincial. Canada has the most extensive sea fisheries in the world. Canada has the second largest telescope, at Victoria, B. C. Canada's natural wealth equals \$2,000 for every inhabitant. Canada has the largest bridge span of its kind in the world at Quebec. Nearly 600 flour mills have annual capacity of 35,000,000 barrels. Niagara Falls has the largest step-up transforming station in the world. The Bible is issued, in whole or in part, in over 100 languages and dialects in Canada. Canada has one of the highest tides in the world—59 1-2 ft.—in Noel Bay, Bay of Fundy. C. P. R. dam at Bassano, Alta., is the largest individual project of its kind on the continent.

**Joy and Gladness for the Children**

Every child—whether it be poor or rich is entitled to joy and gladness. Health is the birthright of all and there is absolutely no doubt that the healthy baby is a happy baby. It is the baby's nature to be happy—not cross. Only the sickly baby is cross. The well child is a joy to the home—it is a laughing, gurgling, happy little piece of humanity which drives dull care from the household. The sickly baby is the opposite—he is cross and peevish; cries a great deal and is a source of constant worry to the mother. But mothers there is no need of your little ones being sickly. Regulate the baby's bowels and sweeten his stomach with a gentle but thorough laxative and baby will soon be well and happy again. Thousands of mothers have proved this through their use of Baby's Own Tablets—there is a smile in every dose of the Tablets. Give them to your baby and make him happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville Ont.

The price of sugar has gone up, one alleged reason being the increased demand for candy as the result of the abolition of beer. The price of raisins has gone up on account of the demand for them in connection with domestic brews. Will the price of dandelions also make a jump on account of the demand for them for making dandelion wine?

**Let Us Be Glad We Are Canadians**

We are asked for increased production. This does not mean for the individual more work or harder work, but it does mean more efficient work and a new attitude towards work, a desire to make every stroke tell to the utmost. In a word it means willing, painstaking and well-directed effort, backed by capital and guided by science, to bring our acres to the fullest fertility, to build up and utilize adequately our forest resources, our fisheries and our mines, to develop and co-ordinate our transportation systems, to develop our water-powers advantageously and to distribute widely the resulting power, to check reckless waste and encourage the effective use of all our resources, to the end that we may establish better and more satisfying types of rural life.

The waste of lumber is deplorable. The pine; the value of resin, turpentine, thyl alcohol, pine tar, charcoal, lost in this waste, represents three or four times the value of the lumber produced, but, great as is this loss, it is modest compared with our colossal fire waste. We have been prodigal wasters, reckless destroyers, mere skimmers of cream. If we are to meet our national needs, and build up sanely our superstructure on safe and sound foundations, we must change the policy which has guided us in the past. Unrestricted individualism must now give way to controlled co-operation guided by a constructive economic policy which shall be nation-wide in scope. We must bring to the solution of peace problems the unity and cohesive power developed throughout the war. Let us be a nation of builders, creators, and distributors. Let us be proud of our country. It is time to build, time to unite, time to trade and for brotherhood. Let us be glad we are Canadians and let us stand for Canadian institutions. Let us have a little more devotion, less bowing down to the past, a more looking forward to the future when Canada will be ripe for a great burst of light and life.—Extract from speech by S. F. Glass, M. P., in House of Commons, March 24, 1920.

Rev. J. W. Prestwood, B. D., has accepted an invitation to return to Shelburne, N. S., for a fourth year.

The Sackville N. B. Tribune that has been \$1.50 a year in advance has just been raised to \$2.00 a year.

**Pure Air is as Necessary as Pure Food**

**THE ENTERPRISE BLAZER FURNACE** heats your home in Nature's way. It draws in the sweet pure air from the big outdoors, moistens it thoroughly, turns it into heat and comfort and passes it on to every corner of your home.

The best that base burners and radiators can do is to heat the air that is already in the house—that has been breathed again and again. Stoves choke the air with dust and in real cold weather they fall short of their job. Another reason for the

**ENTERPRISE BLAZER WARM AIR FURNACE**

is economy. For thirty-five years we have been learning how to take all the heat out of a piece of coal; and then how to make most use of it. The Enterprise Blazer is the result. And it costs a great deal less to install than a hot water boiler, pipes and radiators.

An Enterprise Blazer will wear for years and years. Every part is made a little better than it need be, and it carries the famous Enterprise guarantee of satisfaction. Get your dealer's advice and write us today for our free booklet "Warmth and Comfort".

### Editorial Jottings

The farmers' party of Kings county had largely advertised a meeting to be held last Friday afternoon, in the County Court House, Kentville, for the purpose of discussing the advisability of joining the farmers' movement in Canada. There were exactly fifteen farmers present which goes to show that the farmers of Kings county do not appear to be very enthusiastic over joining the movement. Naturally there wasn't any meeting.

The report is revived that Sir Lomer Gouin will retire from the Premiership of Quebec to resume his law practice in Montreal in partnership with his two sons. Rumor has been very busy with Sir Lomer's name during the past two years, but he has remained at his post giving to his native Province a Government that has been a model in efficiency for all Canada. It would not be surprising, however, if now he were to seek release from official responsibilities which he has borne so ably and faithfully for over fifteen years. The happy position of Quebec and the unchallenged strength of his Government would make retirement easy for him, although his loss to public life would be regretted all over Canada. He is one of the strong men of the Dominion.

### What's Wrong With Canada?

Seeking an answer to the above question, Richard Irving in the Farmers' Advocate suggests that before we can make Canada an ideal and cheaper place to live in, we may have to have:

More overalls and fewer dress suits.

More clay bricks and fewer gold bricks.

More alarm clocks and fewer "next morning" headaches.

More aprons and less décolleté.

More producers and fewer consumers.

More democrats and fewer plutocrats.

More bank accounts and less oil stock.

More real work and fewer short cuts to wealth.

More cheap coal and fewer diamonds.

More old fashioned Christianity and less snobbishness.

More real anxiety to assist humanity and less getting while the getting's good.

### One "Ketcher" Enuff

The late long staple cotton crop has made quite a lot of money for South Carolina negroes. A short time ago one of them purchased a new car and a few days after the sale had been made the new owner came back. "Cap, is you got any of dese here cowketchers?" he inquired.

"Do you mean bumpers, Charlie," asked the dealer.

"Yessir."

"Well, Charlie, do you want one for both ends of the car?" he asked.

Nawsir, Cap, ain't nobody gwine to ketch up with me. Ah jus want one fo de front for those that I ketch up too hurried like.

England has 30,000 dependent blind persons.

### Local News

B. Y. P. U. will hold a Pantry Sale Saturday 3 p. m. Come.

Col. D. A. Findlay, D. S. O., M. C., has sold his farm at Lower Church Street to J. A. Dunn, of Halifax.

Dr. G. E. DeWitt intends building a very nice residence on the corner of Park street and Westwood avenue.

A Missionary Tea will be served by the Cornwallis Woman's Auxiliary on the grounds of Mrs. Spriggs, Starr's Point, on Wednesday afternoon, June 23rd, from 4 to 6. Price of tea, 25 cents. Weather not permitting the tea will be held following day.

In these days when race extinction seems possible it is refreshing to hear of an example of the large families of olden times. In the home of Mr. Thomas Kennedy, at Wallbrook, on Tuesday of this week was born the twenty-first child—a son. Mr. Kennedy has been twice married. The first family numbered five and the new arrival is the sixteenth in the second family. This is probably the largest family in Kings county.

Syracuse University, Syracuse, N. Y., won the northern intercollegiate lacrosse championship this spring by defeating the Cornell team. The Syracuse team was coached by Prof. Laurie D. Cox, of the College of Forestry faculty, who is a nephew of Mr. B. O. Davidson, of this town. Prof. Cox is a graduate of Acadia in the class of 1903.

Reports to The Winnipeg Free Press indicate that at the beginning of June the promise of the grain crop in the Prairie Provinces is even more encouraging than it was at the same period in the great harvest year of 1915; and this in spite of some backward conditions earlier in the season.

Sweet cream for sale at "The Palms".

S. B. Chute is giving \$10,000 toward the proposed Western Kings County Hospital at Berwick.

**WANTED TO RENT.**—House in Wolfville containing six or seven rooms. Also store house. Apply to Box 414, Canning.

The Nova Scotia Baptist Central Association will be held at Berwick June 22nd and 23rd, commencing at 10 o'clock.

At the Presbyterian church last Sunday morning Rev. G. W. Miller gave a most interesting report of the meetings of the Presbyterian General Assembly which he attended at Ottawa.

The Summer Session of the Rural Science Training School will be held in Truro, July 7th to August 5th. Professor H. G. Perry, of Acadia University, will be one of the teachers.

Try an ice cream at Rand's. It's the best we can procure.

Beginning July 1st and continuing through the months of July and August there will be a musical entertainment by Mrs. Richmond's pupils in the Opera House every Thursday evening.

**FOR SALE.**—Chevrolet touring car in first-class running order. Apply to PHILIP ILSLEY.

**PUBLIC STENOGRAPHER.**—Any person wishing the services of a Stenographer kindly communicate with Miss Dorothy Hill, at H. E. Woodman's office, in McKenna Building, any day between 10, 12 a.m. and 3 to 5 p.m.

Rand's—Just arrived, a full line of 1920 Swim-Kaps, in all the latest styles.

Mr. H. E. Blakeney opened up his new store, next door to the Royal Bank, on Saturday last, and in future will carry on business at both this and his old stand. The new store, to be known as the Wolfville Sporting & Fancy Goods Co., will carry a full line of sporting goods, stationery, fancy goods, tobaccos, etc.

Furnished rooms centrally located, beautiful shade trees, broad verandah. Box 392

Mr. J. Edward Harris, of Halifax, son of Mr. Joseph Harris, of Wolfville, has gone to St. Pierre Island to do construction work for his Halifax firm. Mr. Harris is a most competent man. He was recently in St. John and purchased there a large barge costing about \$18,000, for use in carrying materials for concrete wharf construction, etc., at St. Pierre.

**FOR SALE.**—Building sites, among the choicest in the town of Wolfville. Apply to Stackhouse Brothers.

The residence of Mr. G. K. Prescott, Summer street has received a new coat of paint which adds much to its appearance. Owing to the excessive prices of material and labor little outside painting has been done during recent years with the result that many buildings present a shabby appearance. There will be a great activity along this line as soon as normal conditions again obtain.

**AUTOMOBILE FOR HIRE.**—New McLaughlin. Apply to H. D'Almaine, Phone 57.11.

Messrs. Gates Bros., of Halifax, brought a party of city people through the Gaspereau and Cornwallis Valleys on Sunday last in their beautiful 7-passenger Hudson cars. The travellers included Mr. and Mrs. W. H. Donovan and son, Mr. W. H. Donovan and wife, Dr. Logan, and the Misses Morrissey, Power, Fitzgerald and Carten, all of Halifax. They all expressed themselves as delighted with their holiday in the country.

# MOTORS AND MOTORING: A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

## Careless Driving

The Toronto Star makes an observation on careless drivers of motor vehicles which most people will endorse. Here it is:—"There are some who cannot drive safely—who so handle their cars that sooner or later the tragedy happens. They do not mean to kill any boby, but they drive in such a way that they are forever putting it up to the people to get out of their way and keep from under their wheels. A motor car in the hands of such a person is a dangerous engine, and likely at any moment to become a murderous one. Anybody can drive a car, but half-wits should be prevented from doing it. It will become necessary to cancel the right of men to drive cars who have been shown to be deficient in the good sense that the job calls for. Until wild driving is vigorously punished without the slightest regard for pull and influence there will be a steady increase in the number of these tragedies as the population grows and cars multiply in number."

Bonnycastle Dale, the well known naturalist has written and illustrated a splendid article descriptive of trapping conditions in Rice Lake, Ontario, during the 1919 season. This appears in the June issue of *ROD AND GUN IN CANADA* along with nine other stories and articles dealing with the wild life in the great out doors of the Dominion. "The Red Gods" are calling insistently now that grim winter snows have gone and even if you are not in a position to enjoy the real outing that you like, you can live again the happy days of former outings by reading the pleasurable narratives set down by fellow lovers of the wilds. June issue of Canada's national sportsmen's monthly contains the usual high class Guns and Ammunition, Fishing Notes, Conservation, Kennel and Trap Departments. *ROD AND GUN IN CANADA* is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

Howard Greene in the May issue of *Motor*, says there are in round numbers 8,000,000 motor vehicles in the United States. "Make one grand procession of all these cars," he says, "allowing four feet between the cars, and the line would be 20,000 miles long. If they travelled 20 miles per hour, and you made up your mind to watch all of the procession go by, you would have to sit on the fence for six weeks, day and night. That's what 8,000,000 cars mean."

Application for oil and gas leases covering upwards of 200,000 acres in northern Alberta were filed during February.

**Dr. DeVan's French Pills**

## Gasoline Saving

"Of all the ways by which gasoline may be wasted the most usual and the most considerable is that of running with an over-rich mixture," writes A. J. Smith in a recent issue of *Motor* on gasoline conservation to meet the present rise in prices. "Such an admixture admittedly gives better acceleration but its advantages are all on the debit side of the ledger from that point on. Compromises enter into motoring as they do into every phase of existence, and we should be willing to sacrifice a little of our ability to make a quick getaway in order to postpone the day of reckoning with carbon deposits and other ills that follow in the wake of the over-rich mixture."

## 50,000 Passengers in One Auto

(Annapolis Spectator)

Talk about fifty thousand passengers on one car makes one think of war time transportation. However, a man at the railway station here the other day who had offered to do the trout fry distributor a good turn with the use of his motor truck, was asked after ten cans of the fry had been loaded on the truck, how much he was going to charge. "Why," said he, "I usually get \$5 a passenger that distance. Five thousand to the can, ten cans, fifty thousand—\$250,000 of course."

Automobile owners will be interested in the telegraphic statement about a tire company declaring a stock dividend of 150 per cent, amounting to \$34,133,250. News like that makes people tired.

Do not fore get to have a potato patch this year.

## The Gas Horse Stunt

Until recently no Canadian had made the attempt of leaping a gap in an automobile, such as had created a sensation in several places in the United States, but the interest in what was commonly called "The Gas Horse Stunt", created by newspaper, magazine and moving picture stories, prompted a trial of it at Dundas, Ontario, a few days ago.

To D. G. Bawtinheimer, Overland Dealer at Dundas, is due the credit of its first performance in Canada. In anticipation of a G. W. V. A. field day, he obtained specifications of the platforms from the Willys-Overland branch at Denver, Col. and had his runway and landing platform built accordingly. Naturally he made a few trials in private first and on the day of the field sports, several thousand people witnessed his daring jump.

He began his approach more than a hundred yards from the runway and went up the incline at 23 1/2 miles an hour, as nearly as his speed could be gauged.

He used one of his own Overland Cars from stock, taking off windshield and top, and made the run in high gear. While the taking-off point was about two and a half feet from the ground, the car mounted in the air to approximately five feet. When it landed on the opposite platform it was found to have jumped 18 feet 4 inches. While the Triplex Springs protected the automobile so that no damage whatever resulted to car or driver, the force of the impact was shown by the breaking of two heavy timber supports below the two-inch plank platform. Mr. Bawtinheimer, who immediately drove his car about the grounds for general inspection, was given rousing cheers by his fellow townsmen.

## How Automobiles Have Increased

Automobile registration in Canada go ahead by leaps and bounds, and already thousands of motor licenses have been issued in the several provinces for the current year. With so many farmers buying automobiles and trucks, 1920 is expected to be a record in the trade and eclipse all previous years by many thousands.

The growth each year in Canada since 1907 is indicated in the following table:

1907	2,100
1908	2,939

1909	4,711
1910	8,937
1911	21,682
1912	34,789
1913	50,489
1914	67,415
1915	87,675
1916	120,368
1917	199,302
1918	267,406
1919	334,190
1920 (estimated)	395,000

Receipts from motor vehicle license fees in New Brunswick this year have already exceeded \$150,000. The total receipts for last year from this source were \$117,000.

# Prest-O-Lite Battery Service

Service on All Makes of Batteries

No matter what make of battery you now own, bring it to us occasionally for such minor attentions as it may need—we'll test it and add distilled water if needed, free of charge.

If it requires a recharge or repair, we are equipped to do the work at right prices. A service battery is at your disposal so your car need not be laid up.

When you need a new battery, we have the correct size for your car—a Prest-O-Lite, built by "the Oldest Service to Automobile Owners in America."

Remember, we give service on all makes of batteries—drive around and let us look yours over.

## A New Character

When, four years ago, KING COLE ORANGE PEKOE TEA first appeared, something more than a new tea had been produced—a new character in tea had been created. Only after most searching experiments in flavor-blending were we at last able to develop that peculiarly mellow richness of flavor so delightful to the taste, which has won for KING COLE ORANGE PEKOE the high place it holds. The total annual sale of KING COLE ORANGE PEKOE has doubled twice in the last two years.

We are confident that you will say that it is different to any tea you ever tasted.

### Your Own Home Town

If in thinking of our home town we reflect more about its advantages, its opportunities, its past achievements, its contribution to work of the nation, and less of its disadvantages, we will be manifesting the kind of community spirit that your town justly expects you to show. What the average man needs to do is to take root; to realize that happiness is a state of mind; success is not yon-

der but there, not then but now, and the sun that shines on Halifax or Sydney, is a perfect riot of illumination in the old home town. For it isn't by money you measure a town,

Or the miles that its border extends, For the best thing you gather whatever the town Are contentment, enjoyment and true, not false, friends.

If you live and you work and develop your town

In spite of the fact it is small, You may find that your town—barring certain drawbacks—May be as good as any other small town after all.

A soap manufacturer was once asked why he did newspaper advertising altogether and did not follow in the footsteps of other manufacturers, putting up sign boards, tinting almanacs, etc. He replied that in his experience he found the men who did not read newspapers did not use soap.

### Comparison of British with Canadian Prices

A remarkable similarity in the cost of groceries in England and in Canada is revealed in a comparison of a budget of household staples in the two countries made within the last three weeks. The figures are given out by a Canadian official. Pricing a score of staples, ranging from bread to custard powder, the whole supply cost about a dollar more in Ottawa than in London, England.

Bread is 4 cents higher in Canada; sugar is 10 cents per pound higher and jam and marmalade ranges from 10 cents to 18 cents higher here. But in England, bacon, eggs, lard, milk, sausages, Worcester sauce, rice, oranges and dried fruits are all higher in price. Eggs were \$1 a dozen, and butter about \$1.10 a pound for good grade. Both these prices are due for a sharp decrease in London, however. Vegetables are still much cheaper in England than in Canada, and butcher meats average from thirty to forty cents a pound. Coal is about \$1.25 per ton cheaper in England.

### A Would-be Burbank

"It's no use," sighed the nature wizard, "I may as well give up."  
"What is bothering you?" asked his companion sympathetically.  
"I started a few years ago on a whim of mine. I took a cabbage and crossed it with a white potato and grew eyes on it, then I crossed them with a cornstalk and grew ears on it; then I crossed that with celery and grew a neck on it; then I crossed that with a cocoanut and grew hair on it, but darned if I can figure out what to do for a nose and mouth."

Advertising is the heartbeat of business. If you stop a man's heart, he dies. If you stop advertising, business dies!

## Another Royal Suggestion BISCUITS, BUNS and ROLLS

From the NEW ROYAL COOK BOOK

**BISCUIT!** What suggests. So tender they fairly melt in the mouth, and of such glorious flavor that the appetite is never satisfied. These are the kind of biscuits anyone can make with Royal Baking Powder and these unusual recipes.

### Biscuits

2 cups flour  
4 teaspoons Royal Baking Powder  
1/2 teaspoon salt  
2 tablespoons shortening  
1/2 cup milk or half milk and half water

Sift together flour, baking powder and salt; add shortening and rub in very lightly; add liquid slowly; roll or pat on floured board to about one inch in thickness (handle as little as possible); cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

### Royal Cinnamon Buns

2 1/2 cups flour  
1 teaspoon salt  
4 teaspoons Royal Baking Powder  
2 tablespoons shortening  
1 egg  
1/2 cup water  
1/2 cup sugar  
2 teaspoons cinnamon  
4 tablespoons of seeded raisins

Sift 2 tablespoons of measured sugar with flour, salt and baking powder; rub shortening in lightly; add beaten egg to water and add slowly. Roll out 1/4 inch

thick on floured board; brush with melted butter, sprinkle with sugar, cinnamon and raisins. Roll as for jelly roll; cut into 1/4 inch pieces; place with cut edges up on well-greased pan; sprinkle with a little sugar and cinnamon. Bake in moderate oven 20 to 25 minutes; remove from pan at once.

### Parker House Rolls

4 cups flour  
1 teaspoon salt  
6 teaspoons Royal Baking Powder  
2 tablespoons shortening  
1/2 cup milk

Sift flour, salt and baking powder together. Add melted shortening to milk and add slowly to dry ingredients stirring until smooth. Knead lightly on floured board and roll out 1/4 inch thick. Cut with biscuit cutter. Grease each circle with back of knife one side of center. Butter the small section and fold larger part well over the small. Place one inch apart in greased pan. Allow to stand 15 minutes in warm place. Brush each with melted butter and bake in moderate oven 15 to 20 minutes.

Bridgetown Monitor:—Miss Susan Atwell, of Wolfville, is visiting at the home of her sister, Mrs. H. Greenland.

Mr. and Mrs. A. L. Davidson and Miss Forence Davidson, of Middleton, motored to Wolfville on Wednesday.

Mr. Lysander Richmond, of Sanford, Maine, is spending the week in town, visiting his mother, Mrs. C. P. Richmond.

Bridgetown Monitor:—Miss Hortense Griffin left for Wolfville yesterday to take a few weeks' special course in music.

Miss Edith Thomson, who has been spending some months in the South, has returned to Wolfville for the summer months.

Dr. Clarence Hemmeon, of McGill University, is spending the vacation with his parents, Rev. and Mrs. J. B. Hemmeon.

Mr. Donald Grant has been appointed editor-in-chief of the "X-Ray", the paper published by the patients at the Provincial Sanatorium.

Mr. Maurice Haycock left on Monday for Sydney where he will spend the summer doing Geological Survey work for the Government.

Miss May Davis, of Halifax, who has been spending some weeks in Wolfville, returned home on Friday last. She was accompanied by Miss Ceva Davison, who will make Miss Davis a short visit.

Mr. Humphrey Bishop, Greenwich, enjoyed a short visit this week from his nephew, Mr. Clarence Bishop, of Washington, D. C., son of Rev. Trueman Bishop, formerly well known in Greenwich. Mr. Bishop was on a hurried business trip to Nova Scotia.

Mr. David Maneely returned on Saturday from New York where he successfully passed the examinations which admitted him to the Associated American Guild of Organists. Mr. Maneely has presented us with a copy of a very pretty anthem which he has recently had published.

Mrs. Conrad Selliken and baby Betty, of Calgary, Alberta, also Miss Maud Baker, who has been teaching at Markerville, Alberta, arrived in Wolfville June 10th, on an extended visit to their parents, Mr. and Mrs. Obed Baker. They have been in Alberta almost 3 and 2 years respectively. Mr. J. Lemley Baker is at Camp Hill Hospital, Halifax, for treatment.

At the ninety-fifth anniversary exercises of the Newton Theological Institution, held on June 10th, the degree of Master of Theology was conferred upon Rev. E. M. A. Bleakney, pastor of the First Baptist church of Hyde Park, Mass., and a son of Mr. and Mrs. A. W. Bleakney, of this town. Rev. Mr. Bleakney was also one of the four speakers at the annual Trustees Banquet of the Newton Theological Institution.

Miss F. A. Parker is spending the summer in Wolfville.

Miss Jean L. England, of New York, is visiting her aunt, Mrs. J. D. Chambers.

Miss Evelyn Duncanson sang a solo at both the morning and evening services at the Gaspereau Baptist church on Sunday last. Both solos were much enjoyed.

Mrs. Bennett, of Franklin, Man., who has been spending a few weeks with her parents, Mr. and Mrs. Daniel Coldwell, Newtonville, started on her return trip home on Monday. Mr. and Mrs. Coldwell recently passed the 60th anniversary of their marriage, and are probably the oldest married couple in this vicinity.
