Mrs. Warner, who is a well known author and educator, is awarded a verdict of \$25,000.

The jury found that she was sane and rational on July 13, and that when she was examined by the two alienists and that they were negligent in making their examination.

AERIAL NAVIGATOR TELLS HIS STORY TO THE TIMES.

One of the Balloons in the International Race From St. Louis Landed on the Mountain Last Evening.

Major Hersey and Arthur G. Alberholt, in the Balloon "United States" Visited Tyneside Unexpectedly.

True to predictions, and to the direction of the wind, the Province of Ontario yesterday had a visit from at least one of the nine large balloons which left St. Louis, Mo., at 4 o'clock on the afternoon of Monday last, and thousands of people in many parts of the province from the Detroit River to Caledonia saw the flight of the monster of the air.

Abercorn, 50,000, Paul Meckel, Germany. St. Louis, 77,000, Alan R. Hawley, America. The United States, manned by Major Henry B. Hersey of the United States Weather Bureau at Washington, and Arthur G. Atherholt, of Milwaukee, was the one which landed on the mountain last evening.

Major Hersey left for his home in Milwaukee by an early train this morning, going by the Buffalo & Goderich line to Paris and there taking the Grand Trunk for the west.

Mr. Atherholt was seen by the Times at Caledonia station this morning, where he was waiting to take train for his home in Philadelphia.

We left St. Louis at 4 o'clock on the afternoon of Monday last, our balloon being the second to start. The first was the German balloon, Pommern, piloted by Eristoch, and after us came the French Le Blanc, the other six following.

We travelled northeast and north over the Mississippi, Missouri and Illinois Rivers, and as night came on lost sight of the other balloons.

United States, 75,500, Major Henry B. Hersey, America. Isle de France, 77,000, Alfred Leblanc, France. Duesseldorf, 77,000, Capt. Von Abercorn, Germany.

FOR YOUNG MEN.

East End Y. M. C. A. Begins Educational Work.

The East Hamilton Y. M. C. A. purpose doing something for the young men of that part of the city, along educational lines. Last evening a class in mathematics, mechanics and a short course was held by J. Roy Van Wyck, B. A., who has kindly tendered his services to the Association for this work.

THE TELEGRAPHERS.

Helena, Mont., Strikers Have Asked for Their Old Jobs.

Helena, Mont., Oct. 23.—At a meeting of the local Telegraphers Union in this city last night, the strike was formally declared off, and then men have asked for their old positions.

Military Skating Competition.

The following officers of the 91st Regiment: Capt. C. R. McCullough, Lieut. Bert. Linton, and Lieut. Jack Moodie have very kindly consented to act as judges for the skating competition to be held during the special session given by the 91st Regiment Band.

The Man In Overalls

Our new story begins on Thursday.

People auto look out for auto accidents.

Col. Ingersoll now sees that he was guilty of lese majeste when he ignored the Beach Commissioners.

Good stoking makes a good smoke consumer and saves coal.

There will be no formal inauguration ceremony at the re-opening of the isolation hospital. That will be taken as read.

As if being daily waylaid by highway robbers was not enough for the mountaineers to contend with, another terror has been added in the shape of the City Engineer's man-eating Great Dane. Great Scot! they'll have to go armed.

Sir Mortimer Clarke seems to be a jolly old gentleman, one of the olden style.

Rudyard Kipling talks to Canadians as if he were the Dutch uncle, who would disinherited them if they didn't do just so.

"Love and Crime" is the name of the new story. You can't mistake it.

I never realized how much dignity some aldermen could summon till I saw them under plug hats surrounding Sir Mortimer.

After beating the enemy on Thanksgiving Day Col. Gibson may make forced marches on Toronto, and burn the place down. Oh, he won't do a thing to them.

There may be some truth in the report that Mr. Charles Peables will be appointed Assistant License Inspector. But how will he and Birrell get along together?

We were all up in the air about the result of that balloon race.

No, Maude, the Dufferin Rifles are not duffers.

Car has been discovered. That means that there will be another score or more of hangings.

There is not much danger of any of us getting run over in this balloon race. But they might drop a hammer or something overboard and crack us on the head. Better stay indoors.

Will the Queen's Own be among the also rans on Thanksgiving Day?

Just as I said, in a few years we will think nothing of going to New York or Chicago by balloon.

Whoever wins the London by-election will keep the seat warm for Mr. Hyman.

Our new story is certainly a "hummer." Bright and breezy and clever. Not a poor chapter in it. See it on Thursday.

If the Tigers should any further strengthening the Dundurn bears might be signed. That old fellow would make a splendid full back.

There is not much difference now between beer and milk. The one is about as cheap as the other.

If the worst comes to the worst we can all get up on the mountain and roll down stones and things upon the haughty Toronto militia.

Toronto can't be so very bad, when five hundred young men can be found in it to attend Bible class.

By the judicious use of a few passes Col. Ingersoll may yet get his Lakeside Park on the Beach.

Hamilton people don't seem to understand that there is a conspiracy on foot to capture this city and mayhap hold it for ransom.

PANIC WILL HAVE NO APPRECIABLE EFFECT

Upon Canadian Securities, Is the Opinion of the Brokers of this City.

In Any Event It Cannot Cause Any Bank Trouble in Canada.

Although it was reported this morning that some wealthy Hamiltonians lost heavily by the great Wall street panic of yesterday, local stock brokers generally were of the opinion that the crisis would have no appreciable effect in the Dominion beyond some of the Canadian securities suffering to some extent on the local market.

The trouble is not of a serious nature. It is the way people take it. The secretary of the United States treasury is on the spot and will no doubt furnish all the relief required. It is more of a scare on the part of poor people who are afraid they will not be paid.

The Pittsburgh stock exchange is closed until further notice on account of the disorderly conduct which it was impossible to control. Canadian securities are bound to suffer to some extent. Investors will get scared and sell just that is reflected by a drop in some of the stocks to-day.

While the agitation is on the securities are bound to suffer but it will be only temporary in any event and there can be no bank trouble here.

IN NEW YORK.

Confusion in Stock Market Caused by Liquidations.

New York, Oct. 23.—There was a forced liquidation at heavy sacrifice in individual stocks which caused renewed confusion to the Stock Market.

New York Air Brake declined 15, Northwestern preferred, General Chemical preferred and United Cigar preferred 5, MacKay Companies and Denver & Rio Grande preferred 4, National Lead, American Car preferred and American Tobacco preferred 3.

Renewed weakness in Reading carried off 2 3/4, but the general list did not fall lower than the opening. The transactions in the general market were not on a large scale, but the tone was nervous and feverish.

As the morning advanced the crowd before the banking companies' doors grew rapidly. They were so eager to gain admittance that the police had difficulty in preserving order.

A petition in bankruptcy was filed in the United States Court to-day against the Stock Exchange firm of Mayer & Co., which made an assignment yesterday with liabilities of \$6,000,000. E. G. Benedict was appointed receiver.

When it became known that a number of prominent banking houses were lending money on call at the Stock Exchange at 6 per cent, the market became quiet, and a substantial recovery ensued.

Westinghouse Electric declined rapidly, selling down to 46 at 12 o'clock, a decline of 37-8 from last night. At 12 o'clock General Electric sold at 94 1/2, a decline of \$12 a share from yesterday's closing.

At noon money was lending at 70 per cent. Bonds were weak.

E. H. Harriman, H. B. Hollins, Thomas F. Ryan and President Thorne, of the Trust Co. of America, and several other bankers conferred at the office of J. P.

Morgan & Co. at 11.30 a. m. Call money opened to-day at 40 per cent.

Boston, Oct. 23.—Undisturbed conditions continued in financial circles here to-day. The Stock Market opened fractionally lower.

New York, Oct. 23.—James G. Cannon, Vice-President of the Fourth National Bank, and a member of the clearing house committee appointed to examine the National Banks which have been under criticism, announced to-day that the condition of the banks as shown at the clearing house was first class.

Although a few of them might have to be assisted, he said that conditions are fast becoming normal.

Pierpont Morgan practically assumed command in financial circles here to-day.

He is striving to bring order out of chaos and see what can be done to protect the large interests that are now in jeopardy.

Not Much of a Run. New York, Oct. 23.—Fifteen bank examiners sent out this morning to various parts of the city reported at 11 o'clock that there had been nothing in the nature of a run on any of the financial institutions except the Trust Co. of America, and that conditions at all other banks and trust companies were normal.

The Trouble at Pittsburgh. Pittsburgh, Oct. 23.—Pittsburgh financial circles were thrown into an uproar at the opening of business to-day when Secretary C. J. Holman made the following announcement:

"At the request of the Pittsburgh clearing house and at the suggestion of the members and board of directors, the Pittsburgh stock exchange has been closed for the day."

Immediately following this President R. C. Hall issued a statement reading as follows: "The Security Investment Company finds itself involved. This will necessitate a temporary suspension or receivership of the Westinghouse Electric Manufacturing Company, the Westinghouse Machine Co. and the Nerst Lamp Co. The manufacturing companies are in an absolutely solvent condition. The condition of the Security Investment Company will in no way affect the Union Switch and Signal Company and the Westinghouse Air Brake Co. I would like it explicitly understood that it was at the request of the Pittsburgh clearing house that we have suspended trading temporarily."

[These Westinghouse Companies have no connection with the Hamilton Company.]

A Boston Opinion. Boston, Oct. 23.—Major Henry L. Higginson, a leading banker of this city, says regarding the financial conditions:

"The financial conditions existing to-day are due to a combination of causes, Chief among these is the publicity given the methods of some of the large operators, and the fear engendered by the 'big stick' policy of the administration. There is not the enough money to carry on business in the country at the rate it is progressing to-day. The amount of money and the amount of business must be equalized, no matter how painful the process, if we want the financial conditions straightened out."

At Washington. Washington, Oct. 23.—The Washington stock exchange showed no effect to-day of the New York situation. There is a general understanding among local brokers to avoid any large deals during the present excited condition of the outside market.

STUDENTS HERE.

Visit of 270 From School of Practical Science.

About 270 students from the School of Practical Science, Toronto, came to this city this morning to visit some of the many industrial plants. The students were in charge of Professors Wright, Coleman and Ellis, and were divided into three sections.

Some were desirous of visiting one kind of a plant and some another. The visiting list included the following interesting establishments: Sub-station of the Cataract Power Co., Westinghouse Air Brakes, International Harvester Works, London Machine and Tool Co., Hamilton steel plant and iron smelter, Hamilton Bridge Works, Gast-shore-Thomson Pipe Foundry, Sawyer-Massey Works, Otis Elevator Works and other places. The students expect to make their rounds by this evening. A number of them went to the mountain to make geological investigation.

At 7.30 this evening the students will be tendered a supper at the Waldorf Hotel by the city corporation. Ald. Dickson will preside, if Mayor Stewart does not arrive from Niagara Falls in time. An interesting feature of the affair will be an address on "Illumination" by Mr. A. E. Fleming, of the Westinghouse Co.

MILITARY BALL.

The third annual ball of the Signal Corps of the Seventy-seventh Regiment was held in the Armory at Dundas last night. Nearly 100 couples were present, and the event was a brilliant and enjoyable affair.

Louise orchestra furnished the music and Miss Nelson was caterer.

Samples of Manitoba Wheat.

In the window of Oak Hall clothing store may be seen samples of this year's Manitoba spring wheat, No. 1 hard, for which \$1.05 was paid as it came from the threshing, and two samples of the frozen kind—one fit for milling—brought the farmer 87c., and a lower grade, fit for feeding, brought 65c. per bushel.

FOR OPEN SHOP.

Boss Barbers So Declare Unless Concessions are Granted.

A meeting of a number of the boss barbers, mostly from the outlying districts, was held last night, to further discuss the action of the Journeymen Barbers' Union in deciding that all shops in which the union card appears must close at 11 o'clock on Saturday night.

Most of them agreed that unless the union, for this concession, agrees to allow shops to open in the mornings of holidays that fall on Monday, they will take down the cards and run "open shop."

The bosses do not object to the journeymen deciding not to work after certain hours or on holidays, but they think they should not be prevented from working if they desire to do so.

The proprietors of the up-town shops favor the "early" closing movement. The new rule comes into effect on Nov. 1.

CAXTON CHAPTER.

Daughters of Empire Will Give an Entertainment.

A most successful meeting and rehearsal in connection with the readings and tableaux from Dickens, to be given by Caxton Chapter, Daughters of the Empire, on Monday, October 28th, in the Conservatory of Music, was held at the home of the recent last evening.

This rehearsal was under the direction of Mrs. Dumbrille, who has kindly consented to give her valuable assistance as stage manager.

The costumes and surroundings have been carefully chosen from the dress of the period.

The proceeds from this entertainment will be used to provide books for a library for the new hospital for incurable consumptives.

THE USURPER

"Do you think—would she marry me at once? How dare I ask her? I haven't a penny—"

"The door opened and Sylvia entered. She had caught his last words only. She stopped short and looked at him. She was in evening dress, radiant, lovely, all that a man desires in woman."

"You forget!" she said. "Ah, Jack, you forget that you spent all when you bought me that night in Lorn Hope Camp!"

"They were married. How true, how hackneyed is the sentence! And yet how much it means to a man and woman who loved as these two loved! They were married in Lynne Church, quite quietly, as a sensible man ought to be, without any fuss!"

"You're coming!" she said. "Ah, Jack, you never saw it. Ah, Jack, you were blind! They say that love is always all on one side."

"No!" she said. "You—"

"Yes!" she said. "You—"

"No!" she said. "You—"

"Yes!" she said. "You—"

"Whose head?" demanded the viscount. "Sir Jordan's," said Trale. "Where is he?" "I must go!"

"At St. Thomas' Hospital," said Trale. "I saw him fall. I was going to make a last appeal to him—to tell him that he couldn't win."

"Go Neville!" murmured Sylvia, gently. "Yes, yes. My hat," said Neville. Trale put his hand on his arm.

"There's—there's no hurry, Sir Neville; he was dead when I left."

"Dead," exclaimed Sylvia. Neville stood speechless. "Yes, my lady," said Trale to Sylvia. "It was hopeless. He was conscious at the last, and knew those around him, but he only said one word. I've got a cab at the door, Sir Neville—"

"They were driven to the great hospital of which London has a right to be proud, and conducted to the silent room of death."

"Neville stood beside the bed, and looked down at the still face from which the surgeon has drawn the covering."

"Dead! It seemed impossible. A terrible loss," Sir Neville whispered the celebrated surgeon. "England will mourn one of her most brilliant statesmen. He would have been premier if he had lived. That was certain. It is terrible to think of."

"Neville stood beside the bed, and looked down at the still face from which the surgeon has drawn the covering."

"Neville stood beside the bed, and looked down at the still face from which the surgeon has drawn the covering."

MARKETS AND FINANCE

Liverpool Apple Market. Woodal & Co. called Eben James; 11,000 barrels selling; market very active.

Toronto Farmers' Market. The offerings of grain today show an increase, with prices of wheat and oats easier.

Stocks and Bonds. NOON STOCK LETTER. (Received by A. E. Carpenter from Ennis & Stoppani.)

New York, Oct. 23.—The market during the morning reflected uncertainty in the disturbing developments in banking affairs. The reason for the closing of the Pittsburgh Stock Exchange develops to be that the Security Investment Company there finds itself involved, which will necessitate a temporary suspension or receivership for the Westinghouse Electric Co., Westinghouse Machine and Nernst Lamp Co., although these are stated to be absolutely solvent, but will not involve the Westinghouse Air Brake or Union Switch and Signal.

Hides, Tallow, Etc. The market is dull both here and abroad, and prices show no change.

Wool. The market is at a standstill. A good deal of small trading is in progress, but not sufficient to affect prices.

Cattle. The market is quiet with some improvement in collections noted.

Winnipeg Wheat Market. Following are the closing quotations on Winnipeg grain futures today: Wheat—Oct. 31-07 3/4 bid, Dec. 31-07 bid, May 31-07 bid.

THE BANK CRISIS. TROUBLE IN STATES ATTRACTING ATTENTION IN LONDON. Belief that the U.S. Banks are Sound—Cortelyou's Action Had Good Effect—Berlin Has Doubts That Other Banks May Be Doing an Unsafe Business.

Philadelphia Market. Philadelphia, Oct. 23.—The local stock market opened steady, prices being about even with last night's closing figures, with the exception of Light Cable, which fell off 1/2, and Elec. Storage Battery down 2 to 3/4.

Another Bank Run. New York, Oct. 23.—More than 1,500 persons, mostly Italians, stormed the doors of the Dollar Savings Bank when its doors opened. Police were called to control the half-frenzied crowds.

Pittsburg Exchange Demoralized. Pittsburg, Oct. 23.—The Pittsburg Stock Exchange did not open this morning, the members deeming it advisable that the exchange remain closed temporarily, owing to the demoralized feeling in Westinghouse Electric. A meeting of the members is being held and the exchange may be opened later in the day.

THE HAMILTON TIMES

WEDNESDAY, OCT. 23 1907.

WELL DONE, SIR FREDERICK!

The Women's Wentworth Historical Society has done a good work in preserving to the public the battle field of Stoney Creek, and yesterday will be a red-letter one in the society's annals as marking the consummation of that object with due official ceremony.

GAMBLING DEVICES.

The "prize package" is doomed. Some Canadian manufacturers have been advertising that prizes will be found in every package of their goods, and this has led to inquiry as to the legality of the practice.

BURIAL ALIVE.

Everybody who has given the matter any thought has a horror of being buried alive. Some persons give directions in their wills that special care be taken to see that they are actually dead before their bodies are consigned to mother earth.

be buried before life is extinct unless a reform is quickly brought about. Thirdly, very many persons have still just escaped being buried whilst still alive.

Without accepting all of the writer's statements we believe he has shown enough to make it clear that the greatest care should be observed and the most rigid rules enforced to see that life is extinct before human bodies are handed over to the undertaker.

AN EFFECTIVE REPLY.

The Ottawa Free Press counters on the Conservative Toronto News in a very effective way in replying to one of its insinuations of Liberal partisanship in the employment of men on the Intercolonial.

Only one dismissal from the staff took place, and that was quite unavoidable. With that exception, the administrative officers remain as they were in 1896.

In the great body of employees in the Intercolonial service in 1896, there were a considerable number who had taken an active and offensive part in the elections.

Mercury, that there is less drinking in Guelph than there was in former years. Barrooms are said to be more or less deserted.

The London Advertiser says that Dr. Rourke may succeed the late Dr. Buchan at London Insane Asylum. The Conservative Club, it says, is considering the matter.

Toronto is beginning to seriously examine the Hydro-Electric scheme, and to ask if it will pay the city to buy power at \$17.75 per horse-power when power is now sold at the equivalent of \$8.75 flat rate.

The United States produced 1,780,276 gallons of denatured alcohol last year. Germany annually produces 40,000,000 gallons. The industry is growing rapidly, and it is one to which Canada is well adapted.

The suspension of the great Knickerbocker Trust Co., of New York, and the failure of another \$8,000,000 institution go to show that business is carried on largely on confidence, and that those who would destroy that basis are enemies of prosperity.

The Canadian Trade Review is of opinion that the breadstuffs market is too bullish, and that there is danger of the too venturesome speculator being ambushed. In other words, it thinks care should be exercised in building on excessive prices, not believing them to be warranted by the crops and demand.

The Mail and Empire in its news columns publishes the statement of the Scientific American, that the Quebec bridge collapse was due to an engineering error as to the pressure the steel columns would stand. Editorially, however, the organ is quite sure that it was the fault of the Laurier government.

Yesterday's entry in Sir Mortimer's diary will probably read something like this: "Visited Hamilton to-day; found it to be even prettier than I expected. The Mayor and aldermen were most hospitable, and I saw none of the scars of conflicts of which I have read so much. And they have a specially fine band of girls up there. Now, if I were 30 years younger than I am—"

Canada's creation of a Railway Commission has so far been no boon to the public.—Toronto Telegram.

The paper that indulges in such circular rot is no guardian of the interests of the public. If any legislation ever was fully justified by results, that establishing the Dominion Railway Commission has been justified. And every Canadian fit to be trusted in a newspaper office is well aware of the fact.

Not long ago the Spectator presented this cryptical paragraph: "New, Birrell, Van Allen." Some Tories interpreted it as a political headsman's schedule. Now it hints that C. H. Peables is to get the license inspectorship. Is Birrell's head demanded? And who aspires to Van Allen's throne, we wonder?

There was little interest manifested in the London nominations yesterday, when John D. Jacobs, Labor, and Major Beattie, Conservative, were nominated. In North Wellington A. M. Martin, brother of the deceased member, was nominated by the Liberals, and Alex. Hamilton by the Conservatives. In East Northumberland Mr. Mulholland, Liberal, and Mr. Owen, Conservative, were put in the field.

Perhaps it is just as well that Corea as a nation should pass. When a nation reaches the point Corea reached, as shown by its budget, it is time for a change. Think of \$1,103,350 for the imperial privy purse and \$424 for public works; \$1,000,000 for the funeral of the crown princess and \$27,718 for all the public schools in the country outside the capital; \$5,000,000 for what was called the army, \$450,004 for the annual expense of keeping in commission one old gunboat which constituted the whole navy of the country, and an expenditure of about \$250,000 for the palace guard. Japan will at least give the people something for the taxation levied. It may be Egypt over again.

Private ownership must provide for profits and dividends upon the genuine investment, if not upon watered stock.—Toronto Star.

That is an example of the loose "reasoning" in which Socialistic ownership is indulged. Of course, private ownership must provide for "profits" or "dividends," which represent the interest on the capital. So must public ownership provide for that item, or we must regard the capital invested as so much burned up money. As a matter of fact, most publicly operated ventures not only do not make any return for keeping up and renewing the plants. Sometimes even part of the cost of operation is smuggled into other accounts, and when renewals and additions are required the public is further taxed for the work.

The Railway News and Commercial Traveller differs with Canon Welch as to the cause of the prevalence of drinking in Canada. The Canon, according to our contemporary, put the blame for the increase in the drinking habits of the people on the immigrants who came from the old country. This, it declares, is to be incorrect, claiming that drinking in Great Britain has steadily decreased for years. If this was not the case it asks, why is it that there is an announced surplus of 118 millions of Scotch whiskey in Scotland, enough to stock the market for four years,

and it is proposed that certain distilleries close down with the view of restricting production. It thinks that the Canadians drink their own share. Perhaps they do.

The Township of Stamford, near Niagara Falls, has decided to take the lead in the lighting of its highways, and has closed a contract for a supply of power for that purpose. County roads are dark and lonely and sometimes dangerous, and it is to be hoped that this new move on the part of Stamford will have many imitators. Electric light and natural gas are now in such general use in this district that there should be little difficulty, apart from the expense, in having the highways lighted up. In the outskirts of Hamilton some of the roads need lighting up badly. Lighted highways would be another step forward in brightening the lives of the farmers and their families.

HERE AND THERE.

Toronto Telegram: Hon. W. J. Hanna is back from his hunting trip, but, alas! without a moose. The publicity with which the Minister's designs were heralded is blamed for warning the animals, and thereby enabling them to elude his trusty rifle.

Toronto Star: Capt. Bernier has returned. He did not reach the Pole, but he got near enough to see that it is a highly ornamental affair with red and white stripes and a gilt knob.

Kingston News: The Wisconsin conference of the Methodist Church which met in Milwaukee, a few days ago, practically declared that it was better to break stone on the streets than to preach the Gospel at the salaries paid.

Toronto News: Mr. Joseph Downey, M. P. P., has been criticising the Globe. Our contemporary could score a hot come-back by asking Joseph how long he has been using curling tongs.

New York Herald: One of those astronomical chaps asserts that there are 60,000 days in each Martian year. Those who have annual insurance policies to pay can see an advantage in that division of time.

Montreal Herald: It may be doubted if a majority of the (Warman) audience understood Mr. Borden, but they were of that degree of political conviction in which they accepted that as a sign of his superior qualities.

Ottawa Free Press: The price of false teeth is going up, but not one woman in 2,346,978 will utter a word of complaint about that for fear of incriminating herself.

London Free Press: The slaughter of men in mistake for deer began in the Canadian woods early in the shooting season, but evidently more care is used by hunters since the law was changed, holding every one criminally responsible for such mischance.

Objects to Pumping. (Toronto Star.) We believe that a nation becomes great, attains to a healthy greatness, not by "pumping," but by growth and assimilation.

What They Raised. (Toronto News.) Captain Bernier went to Hudson Bay and raised the flag, while Mr. Bourassa stayed at home and raised Cain.

No Answer. (Toronto Globe.) The hurry to fill Canada has so long been taken for granted that when someone asks, "What's the hurry?" no one has an answer ready.

Thinks This is Sleepy Hollow. (Toronto Telegram.) A new train leaving Toronto at 9.30 p. m. is to arrive in Hamilton, after everybody is asleep. A train that arrived there after everybody was awake would be more of a novelty.

UNTOLD MISERY FOR THREE YEARS

Baby Nearly Covered with Eczema—Worst Case Doctors Ever Saw—Scalp in Dreadful Condition—Tried Many Kinds of Patent Medicines but Could Get No Relief.

PERFECT, PERMANENT CURE BY CUTICURA

"My son, who is now twenty-two years of age, when he was four months old began to have eczema on his face, spreading quite rapidly until he was nearly covered. We had all the doctors around us and some from larger places, but no one helped him a particle. The eczema was something terrible, and the doctors said it was the worst case they ever saw. At times his whole body and face were covered, all but his feet. I had to bandage his limbs and arms; his scalp was just dreadful. I used many kinds of patent medicines before trying the Cuticura Remedies, but all to no avail. A friend teased me to try Cuticura. At last I consented, when my boy was three years and four months old, having had eczema all the time and suffering untold misery. I began to use all three of the Cuticura Remedies, the Cuticura Soap helped as well as the Ointment. He was better in two months; in six months he was well, but I gave him the Cuticura Resolvent one year—using two bottles. It cured him—and always use the Cuticura Soap for bathing, and do now a good deal. He was four years old before he was well, and his skin became perfectly fair when cured. Mrs. R. L. Riley, Piermont, N. H., Oct. 24, 1905."

BARBER'S ITCH

Cured in One Month by Cuticura "Last winter I suffered great pain and agony with barber's itch. I tried skin specialists and all kinds of remedies, but they did no good. One day I saw a Cuticura advertisement and bought a single set of Cuticura Remedies, and the results were great. In one month I was cured. M. H. Berg, 1501 Chestnut St., Philadelphia, Pa., Jan. 30, 1904." Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults caused by Cuticura Soap to Cleanse the Skin, Cuticura Resolvent to Purify the Blood, and Cuticura Ointment to Soothe the Itch. FINED FIFTY; TWENTY COSTS.

Mrs. Maggie Smith Convicted in Liquor Case To-day.

William Doyle Held as Suspect on Vagrancy Charge.

Magistrate Will Carefully Consider Dog Shooting Case.

Mrs. Maggie Smith, 127 Cannon street west, was fined \$50, and costs to appeal were fixed at \$20, by Magistrate Jelfs at the Police Court this morning...

Clarence Scott, a colored man, said that he was employed in the stable, and that he and the other men had taken up a collection and given Mrs. Smith the money and asked her to order the beer for them.

This was all the evidence they had to offer, and the magistrate found Mrs. Smith guilty and imposed the fine and fixed the cost of the appeal immediately.

The late Mr. Samuel Vallentine, of 209 Brixton road, London, England, took most effectual means to prevent premature burial.

In his will, made when he was 78, Mr. Vallentine directed that before his interment his trustees "shall request Geo. Russell Beardmore, M. R. C. S., of Leighton, to sever my carotid artery or puncture my heart, and in the event of the said Geo. Russell Beardmore being unable or failing from any cause to carry out such request, then I most earnestly conjure my trustees to take all proper steps to procure the carrying out of this my direction by some other skilled and duly qualified surgeon; but if any cause or circumstance shall occur to prevent the carrying out thereof I direct that my body shall remain uninterred for a period of fifteen days following my presumed death unless due composition set in before that time, and that the said Geo. Russell Beardmore or such other surgeon who shall perform such operation shall be paid a sum of twenty guineas."

Mr. Atherholt, who was enthusiastic over the trip, and declared that he never felt in better health or spirits. He was an object of great interest in Caledonia this morning, he and Mr. Hersey having gone to that town to take trains for their respective homes.

Shortly after 10 o'clock last night an east end resident called up the Times and reported that what those who had seen it were convinced was one of the balloons in which the mountain scenery was sailing over the mountain.

FIRESIDE CLUB.

Centenary Church Young Men in Fine New Quarters.

An event that marks the rapid development of the Young Men's Fireside Club of Centenary Methodist Church was held last evening when fifty of the members, including all officers, met for the first time in the society's new club quarter in the basement of the church.

The rest of the evening was given up to debating and literary work. The subject for the former was, "Resolved that a young man had as much chance for success twenty years ago as he has to-day."

On Tuesday, Nov. 5, the club will have a night to discuss the life of Sir John A. Macdonald.

The late Mr. Samuel Vallentine, of 209 Brixton road, London, England, took most effectual means to prevent premature burial.

In his will, made when he was 78, Mr. Vallentine directed that before his interment his trustees "shall request Geo. Russell Beardmore, M. R. C. other was kept busy with the ballast, the instruments and the records.

"Any exciting experiences? Why, of course there were incidents that were exciting, but we were at all times confident of our balloon and our ability to bring it to a safe landing whenever necessary."

"In danger at any time when over the lakes? Well, the water certainly looked cold and wet, and we would not have cared to get into it, but we kept at a safe distance, never being very close to it. Sometimes we travelled quite low, and at other times at a good height above the earth."

"During Monday night Mr. Hersey and I had some sleep. We took half hour turns, but it was not the sleep one enjoys in a comfortable bed at home—only a light nap, and of a few minutes' duration."

"We had plenty of clothing and provisions for a longer trip, and would have continued our journey throughout the night had our gas and ballast not become spent, necessitating a landing."

Philadelphia, Oct. 23.—Reports from various sources indicate that three of the balloons which left St. Louis Monday afternoon passed over this city between 6.45 and 7.10 a. m. One was positively identified as the German balloon Pommern, which was seen at Cleveland yesterday afternoon.

OTTAWA NEWS.

QUEBEC BRIDGE DIRECTORS INTERVIEW THE PREMIER.

Canal Statistics Show Large Increase in Business Between Canadian Ports and With the States—Good News for Surveyors—Offer by the Government.

Ottawa, Ont., Oct. 23.—(Special.)—Hon. S. N. Parent, President of the Quebec Bridge Co., Mr. R. Audette, Vice-President, with Hon. John Sharples, Gaspar Lemoine, Hugh A. Allan, J. B. Laliberte and H. M. Price, all directors of the company, waited on Sir Wilfrid Laurier to-day and talked over matters connected with the company.

The annual blue book containing the canal statistics of the Dominion for the figures of 1906 was issued to-day, the figures show a large increase in the business between Canadian ports during the past 20 years, particularly with regard to westward traffic.

The expansion of business with the canals is relatively larger than that shown by the Canadian Railways.

The Government has decided to offer special inducements to young men who desire to become surveyors. Before being eligible for final examination as a surveyor the law requires three years service as pupil to Dominion Lands Surveyors of which 12 months must be on a survey party.

The weather Bureau this morning received a despatch from Major Hersey, reporting his landing in the "United States balloon" at Caledonia, Ont., at 5.15 yesterday afternoon.

WOMAN IN THIS.

TWO MEN SHOT AND KILLED AND WOMAN FATALLY WOUNDED.

Man Who Did the Shooting Committed Suicide—Woman Had Lived With Murderer and Then Went Back to Her Husband—Hence the Shooting.

Cleveland, Ohio, Oct. 23.—What will result in a triple tragedy was enacted in a house on Buckley road in the south-eastern part of the city last night. Two men are dead and a woman, the wife of one of the men, is fatally wounded.

The shooting occurred in the home of the woman, and one of the dead men is her husband, while the other is the triple slayer, who shot the woman and her husband after the woman had refused to leave the latter to elope with him.

The murderer, after shooting the other two, turned the weapon upon himself.

The slayer was Michael Sezekely, 24 years old, who recently came here from Hungary, and the other parties to the tragedy were Erman Braxay, 31 years, and his wife. The hospital officials say the woman is dying. She told them that she eloped with Ezekely some time ago, and lived with him in a small town near Buffalo, but had deserted him to live with her husband.

# IN THE WORLD OF AMUSEMENT

That funny musical fantasy, "The Gingerbread Man," was presented at the Grand again last night, and it drew a fair sized house. There have been some changes in the company since it was here last but on the whole the production was just as good and as enjoyable as ever. The chorus was large, young and pretty and best of all the singing was good. The old favorite Ross Snow appeared as the Fairy Queen and he was just as funny as ever. Fred Nico was in the title role and he sang and acted very well, but he did not put as much ginger in the part as his predecessor, Eddie Redway did. Miss Kellogg made good as Jack Horner and her solos were among the best of the musical numbers. Garrick Major, as the dealer in black art, also sang well, in fact nearly all the principals were capable singers.

Of course the hit of the evening was the song "John Doe," sung by Mr. Nico. He was recalled about a dozen times. A close second to this in matter of popularity was "Old Ramesses" sung by Mr. Jas. McElhern, as King Bunn.

"The Gingerbread Man" is being given before a large audience this afternoon and the closing performance will be given this evening.

**Ola Humphrey Returning.**

New York, Oct. 23.—After an absence of more than a year, Ola Humphrey is sailing for America as fast as a transatlantic liner can bring her. She is aboard the same steamer on which J. C. Williamson, Australian theatrical manager, is a passenger. They are due to arrive on Saturday.

Miss Humphrey went to Australia originally for an engagement of several weeks. In "The Squaw Man," "Magda," "The Notorious Mrs. Elbenthorn" and a number of other plays she made an immediate appeal to the Antipodeans, and when her original contract expired Mr. Williamson induced her to renew it for another period of the same length.

**At Bennett's Theatre.**

The Bennett Theatre is a large house and when it is filled there is an audience the size of which would do credit to cities much larger than Hamilton, but ever since Monday night the theatregoers have been evincing their appreciation of the bill by completely filling the place. This is not surprising, however, in view of the fact that there is a bill which is second to none as a novelty combination. One of the cleverest comedy skits on the road is "The Coal Strike," which is being presented by Mr. and Mrs. Mark Murphy. The latter is a bona fide coal miner and the Irish stage character is intensely amusing. The average person who witnesses the act is filled with a desire to learn what is the nature of the act and when Mr. Murphy drops his bag of coal on a neatly draped parlor table and declares a strike because his request for higher wages is refused, the audience becomes wise immediately at the same time lapsing into a spasm of laughter. "The Card Party" is an act which for dramatic intensity has anything in the vaudeville line beaten a dozen times. It is presented by Edward Forsberg & Co., in a brilliant manner, surrounded by a very pretty staging. The theme of the piece is very clever and the members of the company are above the average in ability. Gardner and Stoddard acquire themselves in a very creditable manner as comical sketch artists. Mr. Gardner indulges in a lot of fantastic twisting and turning while playing the piano, which is very funny. McNish and Penfold, indulge in some very clever impersonation of the latter displays his tenor voice in a creditable manner. Between the two the audience derives a rare quality of entertainment.

Willis and Hass, equilibrists; Mr. and Mrs. Fred Lauer, acrobats; "A Bird in the Hand," Werden and Taylor in it.

One of the most thrilling and best written melodramas of the season is "Shadowed by Three," which will be the attraction at the Grand on Saturday afternoon, and the evening. It is a large audience at both performances, as this style of attraction is popular here. Seats will be on sale tomorrow.

Lovers of the bucolic drama will no doubt turn out in large numbers on Thanksgiving afternoon and evening, at the Grand where Wm. A. Brady's production of the perennial wonder, "Way Down East" will be the attraction. The same big cast and production seen here in seasons past will again take us back to childhood days away back yonder, and the snow storm which is the big scenic feature of the play will of course cause a few chills to run down the spinal column when poor Anna Moore is turned from Squire Bartlett's house. Phoebe Davies still heads the cast.

## "We Think We'd Like"

---A. K. T.---

"It seems to me," said Jack, "that we're all dissatisfied with what we're doing and all wishing to do each other's work."  
"I suppose it's because other people seem to do their work more readily than we do ours," I remarked.  
"That may be. In fact, I guess it often is so. We see a man make a weld, letter a sign, or sell soap on the market, and we think we could do it just as well."  
"Because we haven't been doing it for years. Long practice tells the blacksmith where to strike to obtain certain results. A novice strikes the wrong place."  
"If more of us tried we would think more highly of the blacksmith's skill," I observed.  
"The curious thing is that the blacksmith makes the same mistake with regard to the carpenter, say. He thinks to himself, how foolish I am to hammer and sweat here, while Bill, that's the carpenter, works away quietly, and never even dirties his hands and, while he thinks of it, he grows ill tempered and dissatisfied, because he didn't happen to be a carpenter, while upstairs Bill is wishing he had a job near the warm fire and only a hammer to keep in repair."  
"I think sometimes men are contented," I ventured.  
"Certainly," Jack admitted, "I'm talking of the days they're not. And women are the same, only they seem to get dissatisfied with what they make rather

than the work of making it. I know a woman—a good, hard-working, practical woman, who can cook anything. Her pies and cakes are delicious, and her house is always clean. One day we were talking together and she suddenly tells me she's tired of cakes and dishes. "It seems," she said, "all my labor is thrown away. I work all morning to get dinner ready, and after dinner—where is it all? I told her that cooking had always seemed to me a most honorable art. 'I know,' she said, 'but sometimes I feel I'd like to be a man and have my work always before me. I'd like to make engines, for instance.'"  
"Did you tell her that when a man has made an engine he is either discharged or put to build another one?"  
"I told her that, but she said that would be different to see your work eaten right up. I pointed out that engine building was hardly a recreation, yet she still has a fixed notion that she'd like it."  
"And she'll never build engines," I reflected.  
"Of course not. That's where the moral lies. If she had wished to make a certain cake she could have done it, no doubt. But no, as she draws an appetizing, light brown cake from the oven there's a far away feeling she'd rather be an engine maker."  
"Perhaps she doesn't realize that engines are rough, heavy and often dirty."  
"I don't suppose she ever saw one being made at all. Possibly she's heard someone talking about them."  
"And so many women wish they could be engines?"  
"Quite so. Right next door there's a likely woman who is a willing, but unskilled cook, and one who doesn't care at all about boilers or engines, though she'd love to be able to bake really nice cakes. And she'll worry over a recipe all

afternoon, and finally run over to see the first woman who shows her it so easily. She talks a while, then goes home, wondering why Mrs. Jones isn't happy and contented when she's such a wonderful cook. She doesn't know about the engines, you see."  
"And Mrs. Jones wishes she could set the town to her work like Mrs. Smith."  
"We're all the same," said Jack, rising; "all except about one man in a hundred. The satisfied man either dies of obesity or else he's some kind of genius who goes crazy or gets robbed of his invention. It is just as well not to be too well satisfied; the little sore point, like the engine the woman is worrying about, is what makes us all look for friends—we want to tell them about it."

## STOVE IN HER STERN.

Steamer Wahcondah Struck Wall of Welland Canal.  
St. Catharines, Oct. 22.—The steamer Wahcondah, of the Merchants' Line, bound from Port William to Montreal, with a cargo of wheat, met with a mishap in the Welland Canal this afternoon. The canal takes a very sharp bend at lock 2, and as the steamer approached the lock, the wind was blowing a heavy gale, and she was unable to make the turn and struck against the wing wall of the lock and stove in her stern. Before she could get out of the lock her fore peak was full of water, and she was

soon drawing fifteen feet forward. The canal being only about fourteen feet deep, the steamer made her way with difficulty to lock one, where Government divers examined her and found the plates on the stem stove in. Captain Hollingshead at once notified the underwriters, and word has been received that Captain Donnelly, of Kingston, is leaving for Port Dalhousie to make an inspection. It is thought that the Wahcondah's cargo was not damaged, and it is expected she will be able to proceed down the lake to-morrow.

## OUR MUNICIPAL BONDS.

Credit of the Country is Being Damaged in Great Britain.  
West Strand, London, via Glace Bay, N. S. Oct. 22.—The credit of Canadian municipalities is being damaged, and credit generally not helped by the recent touting of municipal bonds in London.

It is believed cities of the Dominion could get money at reasonable rates if they went the right way about it, but if you want English money you must follow English methods. Canada ought not to be weakened in the money market.

BIG BIBLE CLASS.

JUDGE MACLAREN TEACHES FIVE HUNDRED MEN.

Unique Demonstration of A B C Work at Sunday School Convention in Brampton—International Secretary Pearce on Essentials for Its Success.

Brampton, Oct. 22.—The adult Bible class demonstration here this evening in connection with the Ontario Sunday School Association convention, with five hundred young men from Toronto classes, was a remarkable testimony to the growth and strength of the "new movement," as it is called, which seeks to enlist the members of the churches, especially the men, in Bible study.

St. Paul's Methodist Church, in which the convention is being held, was crowded so that scarcely standing room was left. One hundred and twenty members of "Our Men's Class," that taught by Hon. Mr. Justice MacLaren in the Metropolitan Church, Toronto, were present, and nearly four hundred young men belonging to other classes in Toronto, coming by a special Grand Trunk train.

The general procedure in his own class was first explained by Justice MacLaren, and then he taught to the enlarged class the Sunday school lesson for next Sunday, the selection being in Joshua xiv, 6-15, and the subject "Caleb's Faithfulness Rewarded." The questions put by the teacher were promptly answered. Scripture references quickly read in distinct tones, and the teacher's comments and expositions briefly and lucidly given. Freedom in answers and in questions and comments by the class members also characterized the discussion.

Addresses of welcome to the delegates by Mr. H. H. Shaver, of Cooksville, President of Peel County Sunday School Association, which this year celebrates its jubilee, and by Mayor Charters, preceded the demonstration. Rev. Dr. R. N. Burns conducted the devotional service, and President R. W. Clarke presided.

"It is worth crossing this continent ten times to be here to-night," declared Mr. W. C. Pearce, of Chicago, International Adult Department Secretary, "and I thank you men from the bottom of my heart for coming."

Sparking of essentials in adult Bible class work, Mr. Pearce said, it must be a part of the church; it must be a part of the organization of the Sunday school itself; it must study the Old Book, and not allow literature, business or social interests of the class to crowd out the Bible study. Another essential is class organization, which divides the work, makes the work permanent, strengthens the class, increases its membership, and supplies adequate Christian service for every member.

Mr. Pearce predicted that at next year's Provincial convention there would be not five hundred men from Toronto, but a thousand men from all the cities and towns and villages of the Province.

He appealed for the men to be given a chance to do something worth while in helping men who need help and sympathy and are hungering for righteousness. The men would not fail. A new day had dawned.

An overflow meeting in Grace Church was attended by nearly four hundred, and addressed by Mr. Pearce and Mrs. Lamoreaux, International Elementary Work Secretary.

On the subject, "Childhood the Great Evangelistic Field," Mrs. Lamoreaux, in the afternoon gave an address urging that while in the heart and mind of a child under twelve there could not be found habits, reason or idolatry, yet there are found love, hero worship and faith, and an easily led will power, all of which qualities should be taken advantage of in leading the children to Christ.

Reports were presented of progress in the work in cities, counties, districts and townships.

Saved Her Life!

Wife and Mother Restored to Her Anxious Family.

St. John, N. B., Oct. 23.—At one time it was feared that Mrs. J. Grant, of 23 White street, would succumb to the deadly ravages of advanced kidney trouble. "My first attacks of backache and kidney trouble began years ago. For six years that dull, gnawing pain has been present. When I exerted myself it was terribly intensified. If I caught cold the pain was unendurable. I used almost everything, but nothing gave that certain grateful relief that came from Dr. Hamilton's Pills of Mandrake and Butternut. Instead of being bowed down with pain, to-day I am strong, enjoy splendid appetite, sleep soundly. Lost properties have been restored into my blood—checks are rosy with color, and I thank the day that I heard of so grand a medicine as Dr. Hamilton's Pills.

Every woman should use these pills regularly because good health pays, and it's good, vigorous health that comes to all who use Dr. Hamilton's Mandrake and Butternut Pills.

SCHOOL MISSUS SAVES FAST TRAIN.

PRESENCE OF MIND OF MISS MABEL WHEELING.

Obstruction on Track—Unable to Move It, She Gave the Warning—Young Farmhand Confesses to Having Tried to Cause a Wreck and is Arrested.

Welland, Oct. 22.—By her presence of mind and prompt action Miss Mabel Wheeling, a country school teacher, on Monday night saved the fast Michigan Central Express from almost certain derailment and probably averted a great railway disaster. Miss Wheeling was walking along the tracks from this town about 9 o'clock at night when she discovered a pile of iron on one of the rails on the westbound track. Taking in the situation at a glance she tried to lift the heavy pieces from the rails of the canal. Arriving there breathless and exhausted, she told the signal man of the condition of the track. Without delay as the train was almost due, the station was called up by telephone, and just as the express neared the signal the lights flashed the danger signal and the engine was brought to a stop. The iron was removed from the track by the railway officials, who went out from Welland station in a hauler. It was stated that two rail-spreaders and a fish-plate were placed on the inside rail in such a manner as to catch the engine and also with the speed of the train, say that doubtless many lives would have been lost had they been allowed to remain there.

This afternoon Michigan Central Detective Moyilhan arrested Edward Palmer, who lives with a farmer near the spot, as being the guilty party. Palmer is twenty years of age, confessed to the offence, and when arraigned before Magistrate Burgar pleaded guilty, and was remanded. He gives no good reason for attempting to wreck the train, and appears bright and of average intelligence.

TORONTO HARBOR.

Government Will Spend Almost \$400,000 on Western Entrance.

Ottawa, Oct. 22.—At a meeting of the Cabinet this afternoon plans for the construction of a new western entrance to Toronto harbor were ratified on recommendation of Hon. Mr. Pugsley, Minister of Public Works. The work contemplated will involve an expenditure of between three hundred and four hundred thousand dollars. A new western entrance is to be dredged out through the sand strip just south of the present channel. This new channel will be 400 feet wide and will have a depth of eighteen feet, two feet more than the present channel in the Welland or St. Lawrence Canals. Long piers will be built and entrance can be easily effected in all kinds of weather.

When completed Toronto will have the best and safest harbor on the lakes. According to the report made to the Department of Public Works by Engineer Sing, who was instructed to investigate the whole problem of the western entrance, it is more feasible and cheaper to construct an entirely new channel than to blast out the present channel through the rock to the depth of eighteen feet. Little or no rock excavation will be necessary in cutting through the narrow tongue of land to the south of the present gap.

Specifications for tenders will be prepared at once. It is expected the contract will be let during the coming winter, and everything will be in readiness for beginning the work as early as possible next spring.

THE FRENCH REPULSED.

Driven Back at Casa Blanca by a Moorish Force.

Tangier, Oct. 22.—According to semi-official information received at the Spanish Legation here to-day, the French forces at Casa Blanca, under the command of Gen. Druide, suffered a serious repulse yesterday at the hands of the Moors.

Moorish troops, estimated at 7,000, and equipped with field guns and modern rifles, not only drove the French back to the city walls, but menaced the town to the extent that the French authorities found it expedient to request aid from a Spanish warship in the harbor to repel the attack.

Castle Anfiocs, located at Timourin, near Mogador, which is known to hold half a million dollars, is endangered by the advance of the third division under Minial Hafid. The castle is being defended by Caid Anfiocs himself, who represents Sultan Abd-el-Aziz in the south.

The French troops left here to-day hurriedly with troops and machine guns on board, going to the assistance of Caid Anfiocs.

CRUSHED BY WAGON WHEEL.

Horrible Fatality Which Befel Mr. J. Alexander.

Belleville, Oct. 22.—J. Alexander, a prominent citizen of Concession, met with a terrible death Saturday afternoon. He was drawing ties and when seated on the load the ties began slipping and he fell and the ties fell on him. He was crushed by the front wheel passing over his neck. He was carried into the home of a neighbor, where everything possible was done for him, but before the doctor arrived he had bled to death. The arteries in the neck had been severed. He was 65 years of age.

LIQUOR MEN CLASH. THE KNICKERBOCKER Closes Its Doors Probably Not to Reopen.

New York, Oct. 22.—The Knickerbocker Trust Company closed its doors to-day, probably not to reopen them in the near future, after a run on the main office and the three branches of the institution. The failure of an institution with total resources reported in its last statement as close to \$70,000,000, following the troublesome events of the previous seven days in Clearing House banks, precipitated a grave crisis in finance. There was a crash in the Stock Market, which carried security values to a much lower average figure than has been seen in many years. Loanable funds were tightly held, almost all of the banks and trust companies hoarding their funds to an extraordinary degree. Call money consequently advanced sharply to 70 per cent, and during a large part of the day no loans at all could be made on Stock Exchange collateral.

WORK IN QUEBEC.

BAPTISTS HEAR REPORT OF THE GRAND LIGNE MISSION.

Convention Comes to Close—Resolution Passed Making Minimum Annual Salaries of Pastors \$750.

Woodstock, Oct. 22.—The annual convention of the Baptist Association of Ontario and Quebec was brought to a close after a week's session at First Baptist Church to-night. The morning session was devoted to a number of resolutions, the most important of which were those of the Board of Publication, which showed that the Canadian Baptists had had a successful year. Rev. C. J. Farmer, of Brantford, presented the report on the state of religion, which showed the total membership of the association to be 48,897, a net gain of 1,205. A total of \$622,544 had been raised for all purposes, or a total of \$12.73 per member.

Rev. W. J. Wright, of the discipline body, delivered an address on "Co-operation of the Disciples," in which he contended that modern denominationalism was a thing earnestly to be contended against and something that should be driven out of Christendom. He indicated that in the west particularly conditions were ripe for the union of the Disciples and the Baptists. Subsequently the committee reported in favor of a similar union as advocated in the west for the Disciple bodies come together wherever local conditions made it possible. The president of the convention and the superintendent of the Home Mission Board were appointed delegates to the Discipline convention at New Orleans next year.

The report said that in Quebec dissatisfaction with the Romish system was rapidly on the increase, while at the same time hundreds of priests and whole communities in that country were breaking away from the Papacy. It was no time for Baptists to relinquish their efforts in the evangelization of dark Quebec. Thirty salaried workers have been at work in the field during the year, and a large amount of biblical literature had been distributed. There had been one hundred conversions, and fifteen conversions from Romanism, and \$3,914 had been contributed for all purposes by the churches of the society.

An attempt was made at the convention to establish a ministerial bureau, which should be charged with the duty of advising the pastors and churches re pastoral settlements when called upon. The committee which promoted the movement recommended longer terms of parsonate. The convention was also asked to affirm the pastor of the local church, students excepted, be clothed with all the functions of a pastor as long as he was pastor of the church. In regard to the latter recommendation, some of the delegates questioned the legality of such a move in regard to the marriage laws, and as to its effect upon unordained ministers. The matter was considered too serious to be disposed of at the tail-end of the convention, and the whole matter was left over.

Mr. J. W. Foster, of Brantford, presented the report of the superannuated ministers' fund, which was spoken of by Mr. G. R. Roberts, of Toronto. The following were appointed to take the place of the retiring on the board: Mr. G. R. Roberts, Dr. Thomas William Craig, Rev. O. C. Elliott and Rev. S. C. Tapscott.

A good deal of criticism was indulged in as to the impoverishment of the funds, and the pastors in churches were urged to do more for this branch of the work during the coming year. The resolution committee presented several resolutions which were adopted. The most important of these was one which prevents the payment to any minister of a salary of less than \$750 per year.

YORK LOAN TAXES.

City Claims Business Tax on City Office.

Toronto, Oct. 23.—The claims of the city against the York Loan for \$94.47 as business tax for 1906 on the office in the Confederation Life Building occupied by the company in 1905 was taken up by Mr. Kappel, official referee, yesterday.

Mr. Chisholm, City Solicitor, argued that Judge Winchester's ruling in the Miles Vokes case was conclusive. In that case Mr. Vokes objected to a tax levied in 1903 on the assessment of 1902.

The referee expressed the opinion that the company was liable, but reserved his decision till Mr. C. D. Scott, for the liquidator, had an opportunity to study the Vokes judgment.

CHILLS, COLDS, PLEURISY

Dressing lightly, exposed to draughts, cold is easily taken. Give twenty drops of Nerville in hot water at once. Inhalation and warmth will be restored, and pleurisy, inflammation or congestion prevented. Equally good for colds, breaks up their beginning at once. If you only know what a great remedy it is, that it is five times stronger than other liniments, more penetrating, more pain subduing, you would not be without it. Ninety-nine sicknesses out of a hundred can be prevented at the very beginning by the use of Nerville. Saves doctors' bills—the great pain seaver of the age—in use 50 years.

CAN FIND NO TRACE OF HIM.

Another Man Has Mysteriously Disappeared From Montreal.

Montreal, Oct. 22.—Another disappearance of a man in this city is engaging the attention of the authorities. Edward Hannant, a butcher, who worked for cattle buyers in Walkerville, Ont., wrote early in September from Montreal to his employers for a ticket from here to Walkerville. They sent him one, but he never used it, and no word of him has been heard since that time.

After a couple of weeks' anxious waiting his wife went to Thos. Southworth, Director of Colonization for the Ontario Government. Mr. Southworth wrote to the Ontario Government's colonization director here, Mr. E. Marquette, outlining the case and requesting him to try to find Hannant. Mr. Marquette's search has, however, not revealed any trace of the missing man.

Elevator Burned.

Carberry, Man., Oct. 22.—Fire broke out to-day in G. B. Murphy's elevator and resulted in a loss of \$10,000. The cause of the outbreak was a hot box under the chute. Over 15,000 bushels of wheat were stored in the elevator and about half was destroyed.

BEER\* BENEFITS THE WHOLE BODY (NO OTHER FOOD-BEVERAGE DOES THAT MUCH)

NOT six people in a thousand (and those six have either diabetes or gouty tendencies) can get anything but real good from the use of good beer with their meals. Because that kind of beer (and no other kind is brewed in Ontario) benefits the whole body of the normal adult,—enriches the blood, vitalizes the stomach, makes kidneys and liver active, builds flesh and betters nerves.

Beer Is Not A Mere Tonic

Good beer, drank with meals and at bedtime, is not merely a tonic—for a tonic simply gets one part of the system to work better for a while, by stimulating its activity, while beer, rightly used, does the whole system permanent good.

Beer Builds Up Thin Folks

That is why good beer is such a notable flesh-builder, and why it is so effective in changing the too-white blood of anemic people into the red, strong, healthy blood of the vigorous. It has qualities that are very valuable to women, especially. It is distinctly NOT an intoxicant, nor a hurtful stimulant. Ask your doctor if beer wouldn't be good for you as an item of daily diet.

\*BEER is a term which covers lager, ale, porter and stout; and, in the practice of Ontario brewers, implies beverages made under most hygienic conditions from Ontario barley (the best in the world) malt, hops, and pure water.

CANADA'S APOLOGY.

TELEGRAMS EXCHANGED WITH JAPAN OVER VANCOUVER RIOTS.

"Very Sorry," Says Laurier—Will Take Care It Doesn't Happen Again—Reply From British Minister.

Ottawa, Oct. 22.—The following exchange of telegrams has taken place between Sir Wilfrid Laurier and Sir Claude Macdonald, British Ambassador at Tokio:

Ottawa, Oct. 11.—"The press has already acquainted you with the deplorable disturbances which have taken place recently in British Columbia, directed against Asiatic laborers residing in the city of Vancouver. I am happy to say that the local authorities have taken prompt measures to restore order. At the same time it must not be forgotten that among the people on the Pacific coast there are strong racial prejudices, which, though greatly to be regretted, have still to be taken into account by all who desire to cultivate the best relations between Canada and the Orient. His Excellency the Governor-General and the Canadian Government will be pleased if you will convey to his Imperial Majesty the Emperor of Japan their very deep regret for the unfortunate occurrences at Vancouver, in which the persons and property of certain of his Imperial Majesty's subjects were treated in a manner which received only the strongest condemnation from the Canadian authorities, and if you will also convey to his Imperial Majesty the assurance that the Canadian authorities will use their utmost efforts to prevent any recurrence of such regrettable events."

"(Signed) LAURIER." Sir Claude Macdonald replied under date, Tokio, 19th October: "I duly conveyed your message of 12th October same day to the Secretary of State for transmission to his Majesty the Emperor of Japan. Just received the following answer: "His Majesty received the message from the Governor-General of Canada and the Government of Canada with the greatest gratification, and notes with much satisfaction the earnest intention of the Governor-General and the Government of Canada to promote cordial and friendly relations which exist between the British Empire and Japan." Count Hayashi adds that the Japanese Government deeply regrets the unfortunate occurrence at Vancouver, but they have full confidence in the sincere action which the Canadian authorities are taking in devising measures for the future, and they have much satisfaction in hearing the expression of regret conveyed by the Premier of Canada in the name of the Governor-General of Canada and the Canadian Government and the assurance given that the Canadian authorities will use all efforts to prevent any recurrence of such regrettable events."

"(Signed) MACDONALD."

Hackenschmidt to Meet "Yankee" Rogers After All—Major Delmar Beats Sweet Marie at Poughkeepsie.

Toronto, Oct. 23.—Dr. W. B. Hendry, secretary of the Interprovincial Rugby Union, most emphatically denies the story that he ordered the Montreal club not to play Ernie Russell any more.

All the officers were of the opinion that the team had lost one touchdown fairly earned. It was, however, unanimously decided to enter a strong complaint.

There is a lot of interest being manifested in Saturday's game here between Dundas and Hamilton in the intermediate series of the Interprovincial.

Montreal Rugby club is in receipt of a letter from the University of Vermont, asking for a date, and suggesting that the game be played half under American and half under Canadian rules.

OTTAWA WILL NOT PROTEST.

Ottawa, Oct. 23.—The Ottawa Football Club will not protest last Saturday's game, which they lost to Montreal. Reports have been published locally to the effect that the Ottawa would ask that the game be annulled, on account of the alleged incompetency of the referee and the umpire, but these were untrue.

The Ontario Motor League has sent to every motorist in the Province a circular in which the following remarks are made:

- 1. See that your car has its license number displayed properly, in exact accordance with the law, on the front lamp, on the front of the car, and on the rear.
2. See that your license has been properly taken out, and if it was of a previous year that it has been renewed.
3. Be extremely careful to avoid driving in any place in such a manner as will be dangerous to the public.
4. In meeting or passing vehicles on the highway, show the driver of the horse-drawn carriage every consideration. Do not drive past them rapidly, even though their horse is not frightened. It creates a spirit of resentment on the part of the driver of the horse carriage even though he is not in danger.

Betting on "Sure" Things.

The sporting public is not quick in its sympathy for the victims of "fake" contests of an athletic nature except where the event is widely advertised and the participants well known. Where one man wagers a large sum of money on an event of no great consequence it generally may be assumed this individual thinks he has an unfair advantage.

Siler's Comment on The Mat Artists.

When Maj. Taylor was appointed by the citizens' committee to serve as mayor of San Francisco he announced that any indication of a fake in connection with a boxing contest would result in the suppression of the game. The mayor, it appears, did distrust honesty of the last Jimmy Britt-Baling Nelo balse before I took place, ad thought the indifferent way in which the men went through the forms of training precluded the possibility of good condition when they entered the ring.

DR. WORKMAN

Asked to Resign Chair in Wesleyan Theological College.

Montreal, Que., Oct. 23.—The Board of Governors of the Wesleyan Theological College has requested the Rev. Dr. G. C. Workman to resign the chair of Old Testament exegesis, on the ground of doctrine unsoundness, the decision of the board being summed up as follows:

The doctrines relate the Holy Scriptures, miracles, sin, the Deity of Christ and the atonement. On these it is held in general that Dr. Workman's position is uncertain.

The board sat until 2 o'clock this morning, when the decision was arrived at, there being 19 members present, including Rev. Dr. Carman, General Superintendent of the Methodist Church in Canada, who presided.
