

**BLOCKING THE SCHEME.**

*Hydro Alderman Prevents Mountain People Getting Water.*  
*Library Board Desirous of Knowing City's Intentions.*  
*Clean Milk Stations Will be Opened To-morrow.*

The Public Library directors are anxious to make some arrangement about a site for the new Carnegie Library, and with that purpose in view, Librarian Hunter will wait on Mayor McLaren this week to see if the city has any intention of retaining the old Library building on Main street. The Board has to raise \$25,000 on this property, with which to purchase the new site. It will take about eighteen months to erect the new building, so that it will probably be two years before the Carnegie Library is opened. The Board has options on several sites. The interior of the old building has been renovated, the pillars nicely decorated and the walls united. Mr. Hunter says the opening of the east end branch has not made much difference. For every one who transfers there, he says, a dozen new cards are taken out at the main building.

At the present rate of progress the snow will be flying before the east end mountain top people get water. The Council at its last meeting instructed a sub-committee to make a one-year contract with the Cataract, stipulating that this should not be taken to mean that the power was being taken under the alleged contract for that year, and should not prejudice the city's case in any way. When the committee met yesterday to consider the draft agreement prepared by the City Solicitor, a certain alderman, who is said to have the Mayor's eye on his hat, objected to a contract of any kind being made for a year. He wanted a twenty-horse-power gas engine installed, although the City Engineer had figured which, he says, proved that such a proposition is foolish. Mayor McLaren became so disgusted with the way time was being wasted that he left the meeting. A number of amendments were made to the agreement, and the committee will meet again this week to consider them.

Dr. Roberts, Medical Health Officer, expects that the pure milk stations will be opened to-morrow. The equipment is being installed to-day at E. W. Webb's farm, from which the milk will be supplied. A nurse will be in charge. The doctor says the milk will be sold cheaper than in Rochester, whose system the local scheme is modelled after. The milk will be sold in bottles, and will cost about seven cents a bottle.

Building permits were issued to-day to Aaron Morris for a frame house on Macaulay street, between Ferguson and Wellington streets, to cost \$800, and to E. R. Patterson for a brick addition to 217-2 to 219 north, for J. H. Robinson, to cost \$250.

The City Engineer, Mayor McLaren, Secretary Brennan and Chairman Justice, of the Sewers Committee, inspected the mountain drain yesterday afternoon.

Frank E. Brauch, of Ann Arbor, Mich., who has been appointed mechanical instructor of the new Technical School, has arrived in the city.

**PRINCE OF WALES' PRIZE.**

*It Has Been Won by Canadians Several Times.*  
 The splendid victory of Sergt. Blackburn, of Winnipeg, in the Prince of Wales' match at Bisley yesterday recalls the fact that this prize, next in importance to the King's, has been brought to Canada a good many times in the past 30 years. It was Col. J. M. Gibson, now Lieutenant-Governor, who first won a captain in the Thirtieth Regiment, who first won it. That was in 1879. Again the honor came to Hamilton in 1882, when Lieut. Wm. Mitchell won the Prince of Wales'. Lieut. Mitchell was not at that time a member of the Thirtieth, but of the 32nd Bruce Regiment. However, he had learned to shoot with the Thirtieth, his mother's regiment. Staff-Sergt. Tom Mitchell, of this city, who is doing well at Bisley this year, is a nephew of Lieut. Wm. Mitchell. Shooting runs in the Mitchell blood. Now is this year's victory the first for Winnipeg. In 1887, P. Gillies, of the 90th Regiment, carried off the same trophy. In 1889 Staff-Sergt. T. H. Hayhurst, then a member of one of the old country regiments, won the Prince of Wales', and a few years later was the first to bring the "cupped" to Canada when a member of the Thirtieth, with which he has been connected for the past 17 years. In 1891 Capt. McMicking, of Niagara Falls, won the Prince of Wales', and in 1898 Lieut. Robertson, of Dundas, tied for the prize, but lost in the shoot-off.

**INSULTING WOMEN SERIOUS OFFENCE.**

*Magistrate Imposes a Fine of \$5 on a Participant In Degrading Scheme.*

The prisoners' bench had sixteen occupants this morning at the Police Court. Joseph Bessell, who snatched a purse from a lady at the Colonial Theatre about three weeks ago, was sent to jail for nine months. During the time of remand the local police had communicated with the Chief of Police of Montreal, and learned that the prisoner had a long list of black marks against his character. His Worship expressed himself as determined to make an example of such criminals.

On a charge of disorderly conduct, Norman Ellis, of 230 Locke street south, a young lad, faced the Magistrate. P. C. Hay said that Ellis, in company with a number of young men, near the corner of King and James streets on Saturday persistently annoyed ladies passing by. With a copy of a local newspaper in his hand, he first accosted three old ladies, who were very much ashamed of his conduct and not wishing to cause a scene, hung their heads and hurried on. Ellis next accosted three young girls of about 14, and asked if either of them was "Dolly Dimples." They showed their indignation, but Ellis, with the most consummate audacity, again worked off his insulting behavior on three young ladies about 20 years of age. These young ladies resented his behavior and appealed to the policeman for protection. The constable said Ellis was a disgusting exhibition of himself. After he had made himself as objectionable to the ladies as he possibly could, he would run back to his companions and guffaw and laugh most vulgarly. Magistrate Jelfs told Ellis that he had better cease worrying about "Dolly Dimples." He, as a Justice of the Peace, was determined to suppress such conduct. Any young man who so boldly accosted strange ladies deserved to be punished severely and such conduct would not be tolerated under the excuse of such a competition. His Worship took a lenient view of the young man's offence, however, and fined Ellis \$5. James McFee, of 39 Marguerite street, was charged by Richard Hoyle, of 45 Marguerite street, with threatening Hoyle said that McFee knocked at his door and called him such epithets as were anything but euphonious, and expressed a desire to disgrace his physiognomy, and that his breath gave out strong evidence of something stronger than cold tea. In defence, McFee said that Hoyle was quarrelsome with everybody, and was egotistical to a degree. Witnesses on McFee's behalf corroborated his story. However, he was bound over in a surety of \$25 to keep the peace. The trouble arose over a fence at Hoyle's, which had a protruding nail which tore McFee's pants. John Jamieson came up for hearing again to-day on a charge of obtaining a meal without paying for it from the Hamilton Lunch Co. Prisoner said he thought he had money, but when searched at the police station no money was found. He will spend two weeks in jail to show him the fallacy of trying to work off the philosophy of Goldsmith's strolling player. Yarkan Ciske, an Italian, of 192 Princess street, was charged with disorderly conduct by Mrs. Peaces. There was no evidence to convict, so he was discharged. Six victims of the liquid demon each contributed \$2 to the city treasury. They were Adam McCastle, Blackie; William Churchill, from a little place in the swamp called Toronto, who, when asked if he were drunk, replied, "I believe she was the case, though all was a blank;" Orlof Crystler, an Indian form Ananest; John McBride, Catharine street north, and Alfred Larmer, Locomotive street.

*Discrepancies in His Story—Talk With Sutton's Sister.*

Annapolis, Md., July 20.—The second day's session of the naval court of inquiry, which is sitting to investigate the cause of death of Lieut. N. Sutton, U.S.M.C., of Portland, Ore., who either shot himself or was shot by an unknown person in a quarrel with brother officers on the night of October 12, 1907, opened to-day with Lieut. Robert F. Adams, U.S.M.C., still on the witness stand. Adams was the officer who fought with Sutton and testified yesterday that Sutton killed himself when he thought he had shot Lt. Roelker, another of the marines, who was concerned in the brawl. Henry E. Davis, counsel for Sutton's mother in the present hearing, continued his cross-examination of Adams. Adams was allowed counsel at this inquiry by special permit of the Navy Department. The other young officers of marines who were with Sutton on the night he met his death, including Lieutenants Egan and Osterman are barred from the court room until they are called to testify. It is expected that they will follow Lt. Adams on the witness stand to-day. Osterman had a fight with Sutton an hour before Adams met him, and he began blazing away at (Continued on Page 10.)

**A RUMOR.**

*About Toronto Terminus of Hamilton Electric Line.*

The Toronto Railway Company, it is rumored, is going to enlarge its Dundas street car barns and convert the Roncesvalles barns into a western depot for a Toronto to Hamilton interurban line. The reconstruction work in progress at the Roncesvalles-Queen intersection is the foundation for the report, which was denied by officials of the company. If there was any truth in the report, it is likely the barns would be remodelled and used as a western depot for the Toronto & Niagara Company's electric line, from Hamilton.

**PERSONAL.**

Rev. J. Roy and Mrs. VanWyck are at Lake of Bays. The Misses Lou and Elzin Meecham, of London, are visiting Mrs. R. Wallace, 61 Cathcart street. **SHOE STORE FIRE DID \$15,000 DAMAGE.**

*Slater Shoe Store Visited—Hawkins, the Druggist, and Others Suffer Loss.*

One of the most serious fires in some time occurred last night at the Slater Shoe Store, on King street west, and damage, according to a rough estimate, was done to the extent of many thousands of dollars, chiefly by water and smoke, and is only partly covered by insurance. P. C. Brennan was the first to give the alarm at 7.33 p. m. He was on duty near the corner of King and James streets, when he saw dense smoke issuing from the alleyway, and at once gave the alarm. The Central, Bay and John streets companies responded to the first alarm and the general alarm soon after brought up the brigades from Victoria and Sanford avenues.

The fire was not of the spectacular kind, but the fire-fighters early realized that they had a very hard proposition, owing to the dense smoke. So thick was this that it went sweeping through the city in great clouds, which brought crowds to the scene. The outbreak started amongst the stock in the cellar, and the flames licking up a quantity of paper, leather and rubber, there caused a smoke of more than ordinary intensity. Chief Ten Eyck and his men worked like heroes devoting their efforts to suppressing any possibility of spreading to the adjacent buildings. What the consequences might have been had the fire spread, is quite terrible to contemplate, for the building is between Hawkins' drug store and Clime's boot store, and immediately in rear is the Duncan printing and binding works. As the smoke became more and more voluminous, tenants over the shoe store began to display some anxiety for their goods. Dr. W. G. Thompson, at considerable risk to himself climbed a ladder to the window of his dental parlor to endeavor to get in to secure some valuables, but was repulsed by the smoke, he however, made another plucky attempt, and that time succeeded in entering by the window and secured many of his instruments and books and beat a hasty retreat. The crowd cheered him loudly. P. C. Brown behaved heroically, entering the upper apartments and securing a wad of money and some valuable furs be-

longing to a lady resident. Fred Stroud acted like a hero also. He heard that Mrs. McQueen was nearly suffocated in her dressing room upstairs, and, fighting his way through the almost overwhelming smoke, he reached her and carried her down and across the street to the Traders' Bank.

**BLOODY FIGHT.**

*Moors Make Desperate Attack on Spanish Troops.*

Displayed Courage and Skill—Spaniards Fought Well.

Melilla, Morocco, July 20.—The attack by Moorish tribesmen made on Spanish forces here last Saturday afternoon was executed under a feat of the front against the Spanish flank. The first charge was repulsed, but in the evening a more violent assault was made for the purpose of capturing the Spanish battery. The Moors displayed great courage and skillful tactics during the engagement. They rushed in small squads and many of the tribesmen succeeded in breaking through the barb wire entrenchments where they fell at the mouths of the cannon after hand to hand fighting. It was 3 o'clock on Sunday morning when the Moors finally retired. The Moors numbered 6,000, while the French and Spanish force was composed of 2,000 men. Gen. Marina, commander of the Spanish force in Morocco, was in the thick of the struggle, encouraging his men, who fought heroically. Capt. Guitero and Major Bora were both killed while defending a battery. The Moors bore off several bodies with the intention of burning them, but the Spaniards made a sortie and recaptured the bodies.

**COL. GIBSON.**

*Lieutenant-Governor Gibson Honored by Central Church Officers.*

Among the many honors bestowed upon Lieutenant-Governor Gibson, Morison Gibson, and the tangible tokens of appreciation of his sterling worth from well-wishers in every walk of life, nothing so closely touched him as the presentation of a testimonial in the form of a beautiful illuminated address, to which was attached the signatures of his associates of the boards of managers and trustees of Central Church. The presentation took place yesterday afternoon at the Hamilton club, and was made by Rev. Dr. Lyle. He referred feelingly to the efficient work so enthusiastically accomplished by Mr. Gibson, and the excellent impression his regular attendance had made on all the worshippers at Central Church. Complimentary references of his long service and unbounded enthusiasm, which had been an inspiration to the congregation, were made by Mr. George Rutherford, Hon. J. S. Hendrie, Mr. George Hope, Alderman T. H. Crerar, Rev. W. H. Sedgewick, Mr. R. K. Hope and Mr. John M. Eastwood. Colonel Gibson made a characteristic reply. He had a kindly interest for Central Church and was optimistic in referring to the future of this important congregation. Before separating, it was agreed to send a cable to Mr. James Dickson, secretary of the board of managers, who is seriously ill in London, England.

**LOUIS FRANK UP ON TRIAL.**

*H. M. Morden Tells Story of Crooked Weighing.*

*Case Was Not Concluded at the Time for Adjournment.*

J. W. Curry, K. C., of Toronto, Defending the Prisoner.

At the Criminal Court this morning the trial of Louis Franks, charged with entering into a conspiracy with H. M. Morden to defraud the Hamilton Steel & Iron Company by falsifying the weights, took place before Judge Monck.

Morden, who was employed by the weigh master, was first called and admitted being induced by Franks to enter into a scheme of defrauding the company by turning in false weights by which each was to profit equally. The first proposal was made in August, 1906, and he rejected it at the time. In 1907 he wanted to go away and borrowed \$50 from Franks. When the time came to pay it back he was unable to do so, and accepted defendant's proposal to fix it up by falsifying the weights.

Being pressed, he agreed to do so, and continued to perpetrate the deed until June, 1909. In 1909 the crime was committed during October and November, during which time they settled up three times. An amount ranging from 1,000 to 2,000 pounds was added, according to the load. The practise was to print a ticket, which was given to Frank, who later collected the amount due.

The result of the dealings in 1908 was that he received as his share of the production on one occasion, and \$195 and \$185 at other times. These amounts were paid by Franks to him in cash. In 1909 the falsifying still went on. In May he received \$45 as his share, and in June about the same amount. On June 23rd these operations ceased. He was called into the office of the company and charged with the crime, which he admitted. Later Franks was also called, but denied it and upbraided him for making the admission.

Witness said that he told him there was no use denying it, as the thing was rotten enough. He was severally cross-examined by J. W. Curry, K. C., who showed that his evidence was contradictory to that given before Magistrate Jelfs and that he had been doing considerable betting and leading a rather loose life. He could not remember when these settlements between himself and Franks took place. One rather strange thing was brought out. Witness said that when he was receiving these sums from defendant he had a bank account, but he never deposited any of this money there, although the sums were large.

He said he was weighing during 1906 and 1907, during which time the company had no suspicions. There were false weighings. He had not been called into the office previous to June 23, 1909. The last two loads on that day came in after 12 o'clock, which were the only loads he knew of coming in between 12 and 1 o'clock. He told Frank not to unload, as Mr. Monck, the inspector of the iron, was away. About twenty minutes later Frank came back with the empty wagon, saying that the loads had been inspected. He told him he would not give the ticket until he heard from the inspector.

C. J. Connelly, the weigh master, swore it was his duty to examine the loads and give tickets for them in his absence Morden did the weighing. He gave Franks the tickets for his loads, but before he gave the ticket the inspector had to sign. On the occasion of the last two loads he identified the two checks turned in, which showed over 4,000 pounds. These were the loads which Morden said were falsified by him by the addition of about 1,000 pounds per load.

Phillip Lobbe swore that Franks' wagon was on the scale a little past 12 o'clock, and the load was weighed and went off. The weights being called out by Franks the first was 6,260, and the second 5,230. He could see the weights on the scale, but he was not sure what they were. He said he saw the false weighing going on for two or three years previous to the discovery of the action. However, when cross-examined by Mr. Curry, he said he was only suspicious. He told Mr. Champ he could assist him in discovering the guilty parties. He was engaged by Mr. Champ as a private detective. He saw the loads weighed during the noon hour on June 23, and saw Morden mark down the weights. He concluded that there was a 4,000 pound load, which Morden said was falsified by him by the addition of about 1,000 pounds per load.

Mr. W. M. Neill gave evidence that he sometimes weighed loads for Morden, especially in the morning. Mr. Franks suggested that it was an easy matter to fix the weights, and get away with a lot of money, but he didn't take the proposition seriously, and so far as he was concerned that was the end of it. Cross-examined by Mr. Curry, he said this proposition was made before he started weighing, and during the time he did weigh Franks had never repeated the idea to him.

Mr. Washington called a witness to show that Franks had bought scrap iron on the car at Cannon street at \$19 per ton, and after paying the expenses of shunting, etc., he carried it to the Iron & Steel Company, and sold it at the same price. There was, he thought, evidence in this that there was some crooked work somewhere. Mr. Curry objected, but before a settlement of the question was reached the court adjourned to meet again at 2 o'clock.

WOMAN FOUND.

Insane and Missing for Ten Days Back in Asylum.

(Special Despatch to the Times.) London, Ont., July 20.—Miss Julia Cane, a young Biddulph woman, who was supposed to have suicided while insane, and who has been missing for ten days, was found last night hiding in a cellar many miles from her home. She said she had been sleeping about in barns and living any way she could. She has been placed in the Asylum.

WOULDN'T KNEEL. Montreal, July 19.—J. A. Lalonde, a traveler for the Redmond Co., Limited, and a French Catholic, who attended the Lachine Catholic Church yesterday, refused to kneel when the host was elevated, as he had no seat, and had to stand the whole service. Policeman Aubin ordered him to kneel, and when he refused arrested him. When the chief of police heard it he released him. He has spent an hour in the jail. He entered three actions to day, \$10,000 against Aubin, \$5,000 against the parish church, \$5,000 against the town.

The arrest in Lachine Church arose from misunderstanding. Lalonde was a good Catholic, but at his church the rule is to kneel when the benediction bells ring. The constable is also porter of the church and it was as porter that he ordered him to kneel. He refused to do so until the bell rang and was ejected. Then the constable got angry and arrested him for making a disturbance.

PREMIER CLEMENCEAU. Paris, July 19.—As M. Clemenceau, the Premier, was leaving his residence last evening an intoxicated man attempted to strike him on the head with a cane. A policeman prevented the accomplishment of the man's design, broke his stick and arrested him. After being taken to the station house M. Clemenceau ordered that the man be set at liberty, which was done.

Successful Hunger Strike Brings Them Their Liberty. London, July 19.—The suffragettes who recently were sent to prison for taking part in disturbances in Downing street were liberated from Holloway jail today as the result of carrying out a "hunger strike." One of them, Miss Roberts, refused food for 126 hours. She is now under medical care.

SPINAL CORD SNAPPED. Girl Killed Travelling on Handcar at Fernie, B. C. Fernie, B. C., July 19.—Riding on a handcar Thursday evening, Miss Lucy Harwood, captain of the Salvation Army, was struck by the descending handcar, breaking her spinal cord. She died Sunday morning. The body probably will be shipped to her Barrie home.

HAD PELLAGRA.

Dunning Asylum Inmates Suffering From Dread Plague.

Six Women Also Died From the Mysterious Disease.

Chicago, July 20.—Pellagra, a mysterious plague, as fatal as leprosy, and usually found only in the Southern States and in tropical countries, has been discovered among inmates of the insane wards of the Dunning asylum. Three middle-aged women are now suffering with the dread malady and six other women have succumbed to the disease within the past year. At the time of their death Dunning physicians were mystified as to the nature of their ailments. A suspicion that Pellagra was the affliction of the women was confirmed yesterday by Dr. C. H. Lavinder, a surgeon of the United States public health and marine hospital service, who for the past two years has been making an exhaustive study of the baffling disease at a laboratory at Columbia, S. C.

"Pellagra is one of the most mysterious diseases known to science," said Dr. Lavinder. Its cause is not entirely understood and no certain cure has been found for it.

"Most authorities attribute the disease to the use as food of spoiled or damaged corn or of its products. But no one is able to state that corn in a certain condition will cause the disease nor can any one guard against it.

"The disease is not considered communicable and no effort is made anywhere, either in Europe or in the United States, to quarantine the cases."

Several innovations will be introduced in the coming tattoo, to be given at the Cricket Grounds on Tuesday evening, July 27th. One will be the playing of the massed bands in a short concert programme, as follows:

March, "St. Augustine," by Hughes, conductor; Walter Bartram, of Brantford; Rossini's overture, "William Tell," conductor, Geo. R. Robinson, Hamilton; Elgar's "Salut D'Amor," conductor, Frederick Stares, Guelph; Herold's overture, "Zampa," conductor, William Peck, St. Catharines; and the Introduction, Act I, Lohengrin, by Wagner, conductor, Fred Thornton, Dundas. The combined bands will number two hundred and fifty musicians, made up as follows:

First B flat clarinets; 30 second and third B flat clarinets; 7 F flat clarinets; 11 flutes; 60 oboes; 8 saxophones; 5 bassoons; 6 bass clarinets; 15 first cornets; 12 second cornets; 23 horns; 22 trombones; 9 baritones; 10 euphoniums; 7 E flat basses; 16 B flat basses; 14 drums. The massed band will be seated in regular concert form, under a canopy of electric lights. The total effect will be magnificent, and can only be compared to a grand cathedral organ playing in the open air. Secure your tickets at Anderson's music store, 65 James street, or Nordheimer's music store, 17 King street, west.

A GREAT BAND. Two Hundred and Fifty Musicians Will Play.

Two Other Brothers May Get Their Liberty—Mother is Incurable.

Orangeville, July 20.—Albert Johnston, one of the three brothers committed as lunatics from Mulmur some months ago, and who have been since in the county jail here, has been discharged by the authorities on the certificate of the jail surgeon, having been employed as a farm laborer by Mr. Archie Greer, Reeve of the above township.

James, the eldest, and David, the youngest, are still confined here awaiting the pleasure of the authorities, but it is likely that they will also shortly be released, as it is believed they would be able to get outdoor employment under proper supervision.

David, the youngest son, whose love affairs affected his mind has become quite rational, although he some time ago, when working outside, made a futile effort to run away. Mr. Johnston, who is a wealthy farmer, and rented his place, fearing violence by his family, has expressed his willingness to resume farming operations and employ his sons, or to permit them to hire out, as they may elect.

Mrs. Johnston and daughter are confined at Hamilton Insane Asylum. The former is incurable.

VAN ALLEN STAFF PICNIC. A Splendid Outing at Winona Park on Saturday.

If social successes have business aspects the fact does not diminish in the least the genuine social success of the Van Allen company staff's outing, which took place on Saturday at Winona Park. Its chief business significance was the cordiality of the relations between the firm and its staff, which the outing gave ample evidence of. It was the second annual event of the kind, and the committee which had the affair in hand spared no pains to make it perfect. A large attendance, upwards of 200, and a splendid programme developed the fact that athletic prowess and the deft manipulation of the needle, thread and scissors.

The prizes were well worthy of the talent. Mr. Benjamin, of the business staff, gave a gold watch to the young lady scoring the highest number of points; Mr. Allan, manager, gave a pearl submarine; Mr. Christie, a crescent; Mr. Lawrence Allan, a pearl pin; Mr. John Green, a gold-headed umbrella; Miss Alice Webber a beautifully embroidered handkerchief, while the firm donated a signet ring. Others also kindly donated prizes.

The ladies' races resulted as follows: 100 yards thread the needle, 50 yards and return—Miss G. Stowe. 75 yards skipping race—Winnie Knott. 50 yards egg race—Miss E. Weaver. 80 yards Leap Year race—Miss Beatrice Porter. 100 yards' shoe race—Miss J. Allyn-haw.

NEW INVENTIONS. A Philadelphia has patented a simple alarm attachment for locks to fool false key burglars. Any movement of the bolt rings an electric bell.

On French bicycle and automobile race courses a new vehicle is being used to pick up bits of metal with electro-magnets to diminish the number of tire punctures.

A young farmer of York, Pa., has invented an alarm clock attachment that breaks a feedbox and gives his horse its breakfast without requiring the owner to rise early.

A new system of wireless telegraphy uses a small spark gap but a powerful current. Paper is inserted between the electrodes to prevent the formation of arcs.

The Austrian ministry of war is testing a rifle which is fired by electricity instead of a hammer and pin. It is claimed that the soldier using it can hold it more steadily.

To facilitate picking up change in a store a New Hampshire man has invented a bowl-shaped receptacle, mounted on an axle supported by a stand, which may be tipped, the coins sliding into a person's hand.

THE HAMILTON TIMES

TUESDAY, JULY 20, 1909.

AN UNCANDID PREMIER.

Sir James Whitney has recently been delivering himself of some rather ill-natured remarks directed at the Montreal Star and Gazette, both sound Tory organs, but both too well aware of what was their duty toward the public to suppress the news as to the petitions for the disallowance of Whitney's tyrannical power legislation, as was done by the Toronto press, which was effectually gagged, not a single one of the dailies having the honesty to give the facts to their readers. Sir James says the criticism of the Montreal papers is false and stupid, and he indulges in some characteristic flings. The Premier was angry when he gave utterance to the criticism referred to, but he was cunning enough not to deal frankly and fully with the objections to the legislation in question. It had been objected that the Hydro act gave the Commission power to take private property, or such use of it as it desired, without considering the owners' wishes in the matter. Sir James characterizes this objection as false and stupid, and attempts to excuse it by saying that it would have to be dealt with under the Public Works Act, which provides for arbitration. It can hardly be supposed that Sir James was ignorant of the facts, and if he was not, his statement was less than ingenious. Section 10 of the Hydro-Electric Power Commission Act, 1909, says:

In addition to all other powers, the Commission may, by purchase, lease, or otherwise, OR WITHOUT THE CONSENT OF THE OWNER THEREOF, OR PERSONS INTERESTED THEREIN, acquire, enter upon, and take possession of and use, A RIGHT OF EASE, ERECT, construct, erect, maintain and operate transmission lines, etc. There is not any provision made for compensation or for arbitration, but, on the contrary, care is taken to prevent the Commission from being brought into court to answer for its acts, and suits brought against the Commission are declared to be "heretofore stayed." Sir James Whitney attempts to break the force of the criticism of this Russian legislation, confiscating without compensation private property, and denying private right of appeal to the courts of justice, by harking back to the Power Commission Act of 1907, section 8, which provides that the Lieutenant-Governor in Council may authorize the Commission to acquire by purchase, lease, or otherwise, such property as it requires. Sir James, however, should be well aware that section 9 of that act which prescribes how this shall be done, specifically confines the powers to be exercised under the Public Works Act to the matters mentioned under section 8, which does include the "easements" authorized to be taken without the consent of the owner by the act of two years later, disallowance of which is now sought. Moreover, Sir James can hardly claim to be guileless in keeping back the fact that no matter what the Commission may do, no citizen can have any recourse against it in the courts of law unless he first obtain a fiat to enable him to proceed against it. In other words, the Commission is made its own judge as to whether it will permit its actions to be challenged in court. Once already an application for a fiat was made, and was personally heard by Whitney, who, fully aware that any court of justice would decide against the Commission, refused the fiat.

Whitney attempts to shelter himself, and to excuse his violations of personal liberty by monotonously repeating that the people of the Province approve of his power project. That is mere puerility. As the Financial Post says: "Unfortunately it is not the power policy of the Ontario Government which is now under discussion. It is wholly and entirely an act of the Legislature which sets aside the judgment of the courts, abolishes by post facto legislation the rights of litigants in existing actions and denies access to the courts in any matter affecting the power contracts between the Government and the municipalities. Such a law, which strikes down one of the fundamental principles of British liberty, is surely a matter of concern not merely to the citizen of Ontario, but to the citizen of Canada, and to the citizen of the Empire. It is easy for Sir James Whitney to say that the people of Ontario are behind him in this matter. They approved, it is true, of the project of the Government transmitting power from Niagara Falls to the municipalities, but they did not approve of a law which abrogates Magna Charta." That clears the issue. The duty of the federal authorities is clear in the matter. Its province is not to pronounce upon the wisdom, or the opposite, of the power policy. The duty which presses upon it is to disallow un-British, un-Canadian legislation which denies to private citizens the rights which every man should enjoy before the Canadian law. It surely will not be contended that this power policy cannot succeed without such violation of private rights; but even if it cannot, it would be infinitely better that it should fail than that any such deprivation should be inflicted upon a Canadian community. Disallowance is the remedy indicated here.

New York people are getting a lesson in municipal ownership and operation in a small way in the Janitorship of the city hall. It costs to keep it clean \$19,707.25 a year, or \$378.98 a room. The Park Row building near by requires \$24.13 a room. Municipal dirt is very dirty. A private corporation offered to undertake the work for one-eleventh of the cost, \$1,800, but the offer was rejected.

AN EVIL EXAMPLE.

Two burglars broke into the house of a Flatbush, N. Y., man. The son of the owner of the house seized one of the intruders, who immediately shot at him, slightly wounding him and killing his mother. One of the desperadoes escaped, to be captured later; the other was wounded. In speaking of the murder for which his life may be forfeited, the burglar said: "Mr. Staber and his son are the ones to be blamed for this killing. They were fools to try to stop such men as we when all we wanted was to make a get-away. If we had been left alone there would not have been any shooting." Cheeky as this criminal's language is, it but indicates a view too commonly entertained by a man who seeks to carry out his designs without regard to the rights of others. We have no doubt that respect for the law and individual rights is very much weakened by the paltering manner in which we deal with much conduct that should properly be classed as criminal. One can hardly read the reports of the disorders now prevailing in the Nova Scotia coal regions, where violence is only repressed by the presence of the military, without feeling that we give far too much latitude to those who would disregard the rights which belong to every law-abiding Canadian. Such toleration by the law of trespass upon private rights is not calculated to teach respect for and obedience to the law. When a Provincial Parliament, too, at the instigation of politicians with personal ends to serve, coolly deprive private citizens of their rights under the constitution and denies them redress in the courts, it invites contempt for the law, and breeds a spirit of anarchy. The Flatbush burglar-murderer but voices the demand: "Stand in the way of my designs at your peril!" It is the defiance of law and order and the rights of others. It should not for a moment be tolerated in any community. But how shall we discourage the individual law breaker and violator of private rights while the Premier of this Province of Ontario, with the aid of a subservient majority of the Legislature, puts through legislation deliberately intended to violate the sanctity of private property and to deny the right of the citizen to recourse to the courts of justice?

EDITORIAL NOTES.

The law provides for the application of the lash to those guilty of robbery with violence. It is an offense for which such a punishment is especially suited.

With guaranteed power from producer gas engines at \$19 a horse-power, Adam Beck's "estimates" of several dollars more for Hydro current begin to look less attractive to Londoners.

The House of Lords says it will defy the Commons and throw out the budget. Well, let it come on. The tie knot tightly on the limb, see that the nose runs smoothly, and then take the jump.

And now Sergeant Blackburn, of Winnipeg, has carried off the Prince of Wales' prize at Bisley with a score of 84 out of a possible 85. The Bisley team is doing something to advertise Canada abroad.

The maple shade trees in some cities are suffering severely from the attacks of the new tree pest, the terrapin scale. Has it made its appearance here? The tussock moth is a nuisance in some parts of the city.

Air navigation is yet an uncertain business. Latham was picked up in the English Channel sixteen miles from shore. But in real aerial warfare what would happen to the crew of an aeroplane in such circumstances?

Why should certain people pretend to regret delay in the building of the H. & G. Electric Railway, when to the best of their ability they have been trying to cripple those behind it and to prevent its ever being built?

Toronto has adopted the plan of oiling its macadam streets. It has already used 20,000 gallons of oil costing \$800, and has laid off nine water wagons which cost \$270 a week to operate. The experiment is regarded as successful.

Toronto druggists propose to fight the law against the Sunday selling of cigars, setting up the defence that a cigar is a drug. But it must be remembered that the cigars at issue are Toronto cigars.

Rev. George Gilmore, of Fingal, describes Port Stanley as a wide open town. Whiskey, he says, is sold in the open, and Sunday desecration is worse than any frontier town that has ever visited. Where are Whitney's license inspectors?

The other night 600 persons spent a night playing a card game known as "progressive hearts" in aid of a church in Deal, N. Y. We are told that nearly all the best people of the place assisted. Now, was that money "tainted"? And, if so, how?

A peculiar situation has surely been developed when we find the Globe championing Whitney's Russian legislation confiscating private property and denying to the citizen access to the courts of justice, while leading Tory organs are constrained to protest against such outrages!

The appointment of Mr. Gordon Grant as the new chief engineer of the National Transcontinental Railway in succession to Mr. Lumsden is the signal for bitter political attacks upon him by the Tory organs. The Mail and Empire denounces the appointment, and alleges that Mr. Grant has been given a salary of \$10,000 a year, while more than \$6,

000 was refused Mr. Lumsden. The Mail and Empire's statement is false. Mr. Lumsden received \$6,000 and he wanted more. The salary at which Mr. Grant has been engaged is the same as that paid to Mr. Lumsden.

Dr. Distaso, of Paris, says that if you submit to having your large intestine cut out you "may" ward off old age by removing the breeding place of germs. And, by the way, if you submit to the carving, you "may" beat old age by a short cut to the happy hunting grounds and get there germinous.

To-morrow the United States public will learn whether President Taft has backbone enough to insist upon his party carrying out its promises to the country to revise the tariff in a downward direction. Matters are nearing a crisis now, and to-morrow will probably bring developments.

United States imports increased in the last twelve months \$117,606,800, while exports decreased \$197,646,438. If we were to believe the protection theory, we should have to conclude that the United States were \$315,253,238 worse off because of the year's operations! Yet every one knows that the country is steadily growing more prosperous.

Asphalt still leads as paving material in Toronto. That city had at its last computation this record of paving:

Table with 2 columns: Material Name, Miles. Asphalt: 101.07, Brick: 23.90, Macadam: 44.16, Cedar block: 24.77, Wood and concrete: .45, Stone and scoria block: 2.36, Gravel: 13.85, Tar macadam: 3.71, Bitulithic: 15.66

Any female has a right to make herself the object of a hunt for a vulgar bet, if she wishes to stoop to that sort of thing; but that does not prevent decent people from having their opinion of a paper pretending to respectability holding out inducements to hoodlums to obtrude themselves on respectable ladies in the public streets of the city. And the inducements appeal most strongly to those least regardful of ladylike modesty and reticence.

The Kingston Standard very aptly describes Joseph Chamberlain as "one of the greatest trimmers Great Britain has ever had." In the effort to break the force of this criticism of his idol the Hamilton Herald says that while it is true, still his trimming has not been of the "ordinary sort." No, it has not. Only once in a long time, fortunately for political honor, is such a trimmer produced. And the multiplication of Judases is not something which a decent world cares to encourage.

Of 189 deaths in Montreal last week, 122 were of children under 5 years of age, and 75 were under 6 months. Unfavorable weather, impure milk, and ignorance of the parents are said to be chargeable with most of this slaughter. The Hamilton Milk Commission's stations will be open to-morrow at the butcher market and at the City Hospital, and there clean, wholesome milk may be obtained for infants at cost. Valuable hints for the care of children in the warm weather will also be furnished free.

Referring to Sir James Whitney's petulant complaint as to the publication of the news regarding the petition for disallowance of his Russian Hydro-Electric legislation, the Montreal Star says it wants no war with the Premier of Ontario, whom it regards as "pugnacious and high-handed"; but it refuses to be gagged like the Toronto papers, Grit and Tory, in the interest of Whitney's power schemes. It says: "We propose, however, to continue to print the news, whether Mr. Whitney likes it or not; and if his local papers have so coddled him by keeping unpleasant statements from his sight that he cannot endure the comments of men whose interests he has put in jeopardy without wanting—like an Oriental despot—to slay the messengers who bring him the 'bad news,' it will do him good as a servant of a democratic community, to find a refreshing breeze blowing occasionally 'from the outside.'"

Detroit's Committee of Fifty has decided against municipal ownership of the street railway, at least till after 1924. The Free Press approves of the decision, as the authorities on "municipal ownership" are as far apart as aliens in higher law cases. It says: "Why, we don't even know yet whether municipal ownership pays as a mere financial investment. Its advocates declare that it does pay—sometimes. Its opponents deny the conclusion and say that apparent profits are reached by a sheer juggling of figures that is possible only when losses can be charged against taxes. Even the local municipal-ownership organ contradicts itself on that point."

Almost every reasonable observer of conditions across the ocean has advised delay in attempting this M. O. experiment in the United States. With hardly an exception they assert that our cities are not ready for such burdens. Even those who profess to be convinced that municipalization of public utilities has been beneficial to European cities are reluctant to advise its adoption in our communities with their present political conditions.

ROBBERY FRUSTRATED. (Victoria Times). The latest decision of the Privy Council has finally disposed of the question of jurisdiction over the rivers and streams in the railway act. Mr. McBride, relying upon his Attorney-General, contended to the right of the Dominion Government to exercise any control over the Lillooet River, a tributary of the Pitt River. Mr. McBride wanted to "fight" Ottawa any way, and welcomed the opportunity to establish his reputation as the great defender of "provincial rights," which in this case meant the spoliation of the rights of others in the timber lands on the headwaters of the river, whose waters Mr. McBride thought could be diverted by his Government. He fought it out and lost, and a good thing for all concerned that he did lose.

Our Exchanges. SURE THING. (St. Thomas Journal). If Canada's Bisley team had lost, we know some papers that would have blamed the Ross rifle.

HEADLINE. (Brantford Expositor). Highway robbers are operating in Hamilton. Unless the Ambitious City clears up its record it will be a veritable centre for criminal outrages.

HYDRO OR CATARACT? (Guelph Herald). Hamilton having secured a clean milk supply for babies, someone should find a liberal dose to those infants in power knowledge, the Times and Spectator.

SCOLD US. (Toronto Star). "Rails at Edmonton" says the heading of a Grand Trunk Pacific despatch. Rails at Edmonton? If he wanted someone to rail at, why didn't he try Hamilton?

THE WAYS OF WOMEN. (Philadelphia Record). Marie—But if you love Tom why do you go about with Jack? Madge—Well, you see, Tom is rather slow and I'm using Jack as a pace-maker for him.

HEARD IN THE BALLROOM. (Boston Transcript). Madge (proudly)—Did you see that handsome man I just danced with? Kate—Yes, he has a jealous wife who will allow him to dance only with the plainest girls in the room.

KNOWS ALL ABOUT IT. (Guelph Mercury). Hamilton will get no better treatment than the other municipalities, and any bet, if she wishes to stoop to that sort of thing; but that does not prevent decent people from having their opinion of a paper pretending to respectability holding out inducements to hoodlums to obtrude themselves on respectable ladies in the public streets of the city.

LET THERE BE LIGHT. (Montreal Herald). Down in Newark they have hit upon the device of keeping people away from the New York shops by making the main street literally the brightest spot on earth at night. Broadway's white way, they say, is gloomy to it.

CARPENTERS SCARCE. (Ottawa Journal). The scarcity of carpenters in Ottawa, though, of course, in no way; it is a matter of great inconvenience to all builders, including the city itself, is in another way indicative of a general prosperity.

CATERING TO HER FOIBLES. (Philadelphia Record). Customer—This novel I bought of you yesterday is imperfect. It is put into covers with the last chapter first. Bookseller—My dear sir, pardon my carelessness. That's one of our special editions for ladies.

ONE OTHER. (Chicago News). She—I don't believe it is possible for any one to look more uncomfortable than a man in a milliner's store. He—Oh, I don't know. There's the woman who goes into a barber shop with her little boy to get his hair cut.

POOR WHITNEY. (Kingston Whig). Rumor has it that the Mackenzie & Mann interests are gradually acquiring a control of a electrical power at the west, and will presently try conclusion with the Hydro-Electric Commission. It is this that is worrying the Premier and making him talk in his sleep.

THE ROSS RIFLE. (London Free Press). The London Morning Post thinks it was the men, not the Ross rifle, who won the Kaloupe Cup. No doubt it was a combination of the two. The best marksman could not make a bull's-eye with a poor rifle any more than a poor rifle could make a bull's-eye with a poor marksman.

TORONTO PRESS GAGGED. (Financial Post). The usual distortion of the situation is attempted by Ontario's Premier. The Montreal Star and Gazette as newspapers took notice of a very important event, a petition for the disallowance of an act of the Provincial Government. In Toronto there was an "ominous hush" on the part of the daily press over a subject to which they would in ordinary course have devoted columns of news matters.

WAGES OF SIN. (Detroit News). The daily newspaper is one huge alibi for the law of cause and effect. One vivid scene from the text, "Whosoever a man soweth that shall he also reap." On every page can be found proof that evil courses lead inevitably to disaster, to open shame and disgrace. "The wages of sin is death" to some of the participants, and lasting shame to others. Mrs. Barrows killed the man, thought that killed her husband. She did not pull the trigger of the pistol, that is true enough, but she was the cause of their ever having been cause for a pistol. Her old mother's prophecy has come true—she has a murder on her conscience. Mrs. Barrows read of just such cases as hers before they are shockingly common.

DO YOU CROAK? "Do you croak or do you cheer? Do you discourage or do you encourage?" asked Rev. R. J. Trevelyan, recently appointed pastor of Carlton Street Methodist Church, Toronto, recently of First Methodist Church, this city, in his sermon on Sunday night in his new pulpit.

SCRAP BOOK POETRY. THE KIND I LIKE. Tell you what I like the best—Gim-me it an' take the rest—Tune 'er up an' let 'er go. Don't want no fancy truck—Sneeshaw I hain't stuck—On 'at 'ere fancy sawing—Hon-scotchin' an' a-gnawin'—Here an' there on a string, Not a-playin' anything—At a feller understandin'—But you dopn't meet my demands.

Fancy music hain't no good—Brother be a-sawin' wood—Than listenin' to fancy stuff—Somedin', rakin', raspin', ruff—Les notes struin' on a string—Not a-meanin' anything. My kind o' fiddlin' is—The kind 'at git down to biz—An' thins out all your care—Ittines on to 'ee ever where—Makes you want to put your feet—Git 'em somewhate an' meet—All the neeshow gals 'at feel—Like dancin' ol' "Virgily Red"—'Tis the music 'at makes a man Feel like he was bored a-lin'.

Gim-me tunes like "Leather Briches"—Went 'em, too, 'bout fancy stiches—Finest tune ever played—Tink my music 'at 'at 'at 'at—'Nigger in a Woodpile, Run, Boys, Run." Golly, 'at ol' tune makes fun! Seems to me I hear 'em can—'Honor partners, balance all!"—An' the "Bell Cow" drivin' 'er in—'All dance purty, swing 'em again, Down the centre, forr an' back." Patly make the rafters crack—"Dance to the gals 'at feel best"—I'm livin' over other days, O' time, homewards—'Atis the kind 'at ketches—Sich music sets my spirit free—'At I want to rattle an' fly—Fancy fiddlin' ain't deuce a-bitch!

Tell you what I like the best—Gim-me it an' take the rest—Tune 'er up an' let 'er go. Don't want no fancy truck—Sneeshaw I hain't stuck—On 'at 'ere fancy sawing—Hon-scotchin' an' a-gnawin'—Here an' there on a string, Not a-playin' anything—At a feller understandin'—But you dopn't meet my demands.

CAMERA CLUB. Made Presentation to Mr. W.E. Hill Last Night. Hamilton Camera Club held a meeting last night, and it was most successful of the season in point of attendance and interest taken in the discussions. The chief business was the selection of subjects for lantern slides for the coming interchange with clubs in the chief Canadian and American cities. These will be on exhibition to the members and general public the coming winter and all meeting made open.

Two outings were arranged for. The club and friends will go to Brown's wharf and Oklands on the afternoon of July 31st, and to Bronte on August 14th.

The most interesting event of the evening was a presentation to Mr. W. E. Hill of a token of the kindly feeling of the members for his unflinching courtesy and kindnesses and for the keen interest he has always manifested in the club's success. His recent joining of the benefactors gave the members the desired opportunity, and the members expressed, through Mr. A. H. Baker, the hope that the handsome clock will mark the hours of a long and happy life for the newly wedded couple.

Next meeting will be on August 9, at 104½ King street west, when the whole evening will be devoted to making and mounting lantern slides.

OTIS-FENSOM. Employees Had a Delightful Picnic at the Falls. The sixth annual picnic of the Otis-Fensom Elevator Co. employees was held on Saturday at Queen Victoria Park, Niagara Falls, with ideal weather conditions. Leaving on the early morning train, the large number of excursionists were landed in the park after a record run over the G. T. R. A game of baseball between the single and married men introduced the programme of sports. After a very exciting battle, in which the brilliant tactics work of the bachelors, who had been encouraged to feed to the Kalsomine bucket much to their discomfiture. The many close plays were ably settled by the unerring decisions of Umpires Silk O'Connell and Anson Spalding. A feature of the afternoon was the lunch and Judy show given by Fred Mitchell. The cleverness of the entertainer was widely commented on, and it was the general opinion that greater success awaits him in his particular line of fun-making. The special prize for the employee with the largest family at the grounds was won by Mrs. Salsbury, whose numbered clan far outnumbered the other competitors. An impromptu concert on the return journey, at which considerable talent was displayed, was much enjoyed by everyone, and it was the unanimous opinion that the day's outing was the best ever, and much credit was bestowed on the committee in charge for the careful arrangement of all details. T. J. Warren was chairman, G. Welby treasurer and J. H. Macmahon secretary.

50 yards, boys under 12 years—Elmo Dunkin, J. O'Connor, Joe Allen. 30 yards, girls, under 12 years—Jennie Dugan, Alva Kilder, Vera Hamburg. 50 yards, employees' wives—Mrs. G. Johnston, Mrs. A. Young, Mrs. J. O'Connor. 100 yards, open to men—E. Kane, A. Alnhart, T. Johnston. 50 yards, open to ticket holders, ladies—Mrs. Porter, Miss A. Ford. 100 yards, committee race—J. H. Macmahon, W. Harvey, E. Bunn. Special matched race between T. Warren, Jun., and J. Spaulding—Won by T. Warren, Jun.

PITTSBURG FIRE. Pittsburg, July 20—A spectacular fire which did about \$75,000 damage, broke out early to-day in the four storey brick building at 520 Federal street, north side, occupied by the Kirby Shoe Co. The Kirby building was almost totally destroyed.

Some girls' bathing suits are like comets; they get along with so little water.

Importer of Fine Shoes. We are the largest importer of fine Shoes in the city. The firms who offer us the NICEST and BEST for the money, are the firms who get our trade. We presume that the public do their buying on the same basis—which accounts for our doing such a large and steady business.

Oxford Shoes. Our Oxford trade this season has been the largest on record—which is the natural result of our careful buying. We buy for PROMPT CASH and are not tied down to any one firm, but buy wherever we can get THE BEST VALUE FOR SPOT CASH in the States and Canada. When the Shoes arrive in our store the price is marked in plain figures at as low a figure as possible, as we do not approve of other store methods of marking goods at a high price in order to have a reduction sale later on. Our Shoes are sold on their merits, which ensures to us a steady business the year through.

Hagar Fine Shoes. This season we have sold more Hagar Shoes for women and men than during any former season. They are certainly the NICEST and BEST fine shoes made in Canada. American shoe travellers have told us that "Hagar Shoes" are the only shoes in Canada that interfere with their business—that if there were no Hagar Shoes they could double their business in Canada. We are the only firm in Hamilton where these celebrated shoes can be purchased.

J. D. CLIMIE 30 and 32 King West. Government from paying on its guarantee. It places all points in eastern Canada in direct connection with the West with extra cost. It transfers the through traffic interests of the Grand Trunk from the United States to Canada. It provides shipping facilities for the thousands of farmers who were compelled to locate land outside the land grant of the Canadian Pacific Railway. One might enumerate many other advantages which will accrue to the country from the building of this great Transcontinental line, but a perusal of those mentioned above will give some conception of the importance and magnitude of the enterprise.

What the G. T. P. Means. When considering what the completion of this road means to Canada, any argument directed at the cost appears ridiculous and un-Canadian. What does it mean to Canada? It will double the industrial and productive area of the country, and roll up the map of Canada 300 miles to the northward. It will provide competition in rates for farmers of the West and the manufacturers of the East. It will be the only all-British railway across the continent under one management. It will develop vast coal fields in Saskatchewan, Athabasca and Peace River for the supply of fuel to the prairies. It will give to the most northwesterly part of the prairie region, which is further from the Atlantic, a short outlet to the Pacific. It will connect the railway system of Canada with 2,000 miles of steamboat navigation on the Athabasca, Peace, Laird and Mackenzie Rivers, their great lakes and the Arctic Ocean. It will develop mining and lumbering in northern British Columbia, and provide facilities for profitable interchange of mutual necessities between the prairie and the mountain regions of the far West. It ensures a third outlet from and through the great wheat field of the West to the lakes. It will develop a thousand miles of Northern Ontario and Quebec, at present unknown and inaccessible. It induces the investment of \$150,000,000 of British capital in Canada, and correspondingly interests the British investing public in Canadian affairs. It provides for the co-operation of the Grand Trunk Company, thus ensuring business from the start, and secures the

RYERSON. Roll Shows 190 Members—The S. S. Staff. In connection with the first anniversary of Ryerson Methodist Sunday school the annual report showed that the number on roll is 190; average attendance, 116; average collection, \$348; cash balance on hand, \$319. Besides paying its own expenses the school is contributing generously to missions and helping the Trustees, B. Stimp, A. Pyram and Miss Eva Lewington. The officers and teachers are as follows: Thomas S. Morris, Superintendent. Wm. Yeates, Assistant Superintendent. Fred Stevenson, Secretary-Treasurer. Miss Lewington, Pianist. Teachers—Geo. Arvey, R. Pyram and Miss Eva Lewington. Over and over again—your old umbrella. Is a big pile of cigars what you would call a smokstack.

## BREAKS JAIL.

Murderer Under Death Sentence Makes a Getaway.

All His Misfortunes Have Been Due to Women.

Allentown, Pa., July 20.—For the second time, Martin Laskowski, under sentence of death for murder, to-day escaped from the Mauch Chunk jail, 29 miles up the Lehigh River.

Laskowski, who is 30 years old and six feet four inches tall, claims kinship with Austrian nobility. He was formerly a captain in Kaiser Franz Josef's army. He came here as a renegade man. With his knowledge of foreign ways and language, plus his army training, he was engaged by the Central Railroad of New Jersey to command a squad of detectives who broke a strike at the Lansford colliery in 1904. A woman whom he courted told him as a detective and after he had thrashed half the strikers, he killed her in a fit of anger.

He put up a plea of self-defense. He might have been acquitted, but for the fact that she was the mother of his unborn child, and he was accused of double murder. After his conviction in 1906, while awaiting the day to be set for his hanging by the Governor of Pennsylvania, he engaged the daughter of the then Sheriff Rothermel in conversation. Reaching through the cell window he grabbed her by the neck and choked her unconscious with one hand. With the other he grabbed the keys, quickly unlocked all doors and escaped.

Last winter it was learned that Laskowski was in Butte, Mont. He had maltreated his wife, whom he had married since his escape. She knew of his troubles here and in Butte, told on him, and he was brought back.

This morning Laskowski was again missing. He had somehow got hold of a steel saw with which last night he cut the bars of his cell window. With the aid of a rope made of his cot blanket, he got into the jail yard, 35 feet below. He then sawed off the gate lock.

So far he has eluded all efforts to recapture him.

## AFTER PATTEN.

Man Tried to Force Way into Wheat King's Office.

Chicago, July 19.—Clerks and patrons in the office of Bartlett, Patton & Company, Western Union Building, were alarmed to-day when an unidentified man attempted to force his way into the private office of James A. Patten, the "wheat king," and threatened the latter's life. The man was dragged from the brokerage office by the police. He is believed to be demented. He asked for money, and when refused an interview with Mr. Patten, became enraged. He was overpowered by a negro watchman. As he was arrested he declared he would kill the negro and would "get" Patten later. When taken to the Harrison street station the man gave his name as W. M. Belvin, and said his home was New York. In his pocket was found a Sherman House room key. At the Sherman House it was said that Wayne M. Belvin had been stopping at the hotel since July 17th, but that when he registered he did not indicate his place of residence.

## 50,000 MEN

Wanted for the Harvest Fields of the Western States.

Washington, July 20.—A cry for help to harvest the season's bounteous crops comes from the west to officials of the Department of Commerce and Labor. Fifty thousand able bodied men are wanted by the farmers of the west, according to representative Stephens, of Minnesota, who says the west is literally begging for help to gather the big wheat and other crops. He declares that the crop situation all through the west is splendid.

## SMALL WAR.

King Alfonso Sending Reinforcements to Fight the Moors.

Madrid, July 20.—King Alfonso and Premier Maura are hastily returning to the capital from San Sebastian in connection with the sending of reinforcements to Melilla, where heavy fighting has been going on between the Moors and Spaniards. The Spanish Government is exercising the strictest censorship over telegrams from Melilla, and also the outgoing press despatches relating to the situation in Morocco.

## COREANS STRIKE.

Seoul, Korea, July 20.—The Korean employees of the electrical street railway system in Seoul went on strike to-day. The property was recently transferred by the American company which built the line to a Japanese syndicate. The strikers threaten to storm the offices of the syndicate, and are only held back by a strong force of gendarmes.

## TO FLY ACROSS.

Paris, July 20.—M. Bieriot has announced his intention of attempting to cross the Channel on Thursday in his aeroplane.

## NOVELIST DEAD.

London, July 20.—Rosa Nouchette Carey, the novelist, died last night. She began her career as a novelist in 1868, her works including "Robert Ord's Atoneement," "Not Like Other Girls," "Another People's Lives," and "The Highway of Fate."

## NOT GOING BACK.

London, July 20.—Sir Robert Hart, who has spent a year's leave of absence in England, the first vacation he has taken in more than twenty years, has practically decided to retire from the position of Director-General of Chinese Customs on account of ill-health. He has suffered from insomnia and other complaints for a long time.

## CANADA'S FAMOUS MEN AND WOMEN

Gladly Testify to the Great Value of "Fruit-a-tives."

Hon. Senator Costigan (member of the Cabinets of five Premiers of Canada), says: "Fruit-a-tives is the only medicine I ever took that did me any good for Constipation."

Mrs. J. R. Flock (widow of one of the most prominent physicians in London), writes: "I was a constant martyr to Stomach Weakness all my life and no physician could cure me, but Fruit-a-tives gave me entire relief and I strongly recommend the medicine."

Mr. James Dingwall (Superintendent of St. Andrew's Sunday School in Williamstown, Ont., for nine years) states: "I am now over eighty years old, and I can strongly recommend Fruit-a-tives for Bladder and Kidney Trouble and Chronic Constipation."

Mr. H. Marsden (High Constable of Quebec), testifies: "I suffered for ten years with Severe Pains in the Back. Nothing did me any good until I tried Fruit-a-tives."

Mr. W. J. McComb (the leading merchant of Trenton, Ont.), writes: "I was a martyr to Headaches—consulted doctors were useless—without the slightest relief. Then I took Fruit-a-tives and this remedy cured me."

This is the kind of evidence that convinces. Dealers everywhere have "Fruit-a-tives." 50c. a box, 6 for \$2.50, or trial box, 25c. Sent postpaid on receipt of price. Fruit-a-tives Limited, Ottawa.

## The Wizard Germ

(By Stuart B. Stone.)

The young bacteriologist looked upon the vial of colorless liquid and sighed his satisfaction. The uninformed layman might well have taken its contents for peaches or rose water. But the bacteriologist fidgeted about, ran his slender white fingers through his long, tousled hair and hummed a tune. A demure, petite young lady entered the room.

"Ah, Miss Newton," said young Marsden, "the new Philippine culture—the discovery of the eminent Dr. Papaz—the infinitesimally little white wonder worker? Do you marvel that you behold me in frantic, childlike joy?"

"I do not wonder," answered the young assistant, with a sigh. She was of striking blond beauty and her blue eyes did not leave the enthusiastic bacteriologist as she sank into the nearest chair.

"But," pursued Mr. Marsden, "you do not dance about—you do not sing and shout. Surely you do not understand. It is the Lapaz bacillus—the wizard culture of—"

"It is a nasty germ," interrupted the girl, "and I hope it does not kill you."

The professor smiled in gentle derision and shook the little tube, which of foreseen brilliancy, the girl came over and brushed a rich accumulation of lint and dust from his slanting shoulders.

"Do you know what Dr. Lapaz bacillus can do?" he asked.

The pretty assistant shook her head and restored the red bandana that had almost fallen from the professor's pocket.

"I do not know, either," persisted Marsden, utterly unaware of her ministering attentions, "nor does the great Lapaz himself. But I will tell you some possibilities."

The girl sadly shook her head.

"It might wipe a race of men from the globe; this on the surplus population, the fly scourge, the plague of the slimy serpent. Properly managed and directed, Mr. Lapaz Bacillus might prove the friend instead of the foe of man—free the earth of the deadly pneumococci, lay waste the entrenched—"

## ASTONISHING NEW STYLE IN VEILS FROM PARIS.

With summer passing, the white light of fashion shifts to autumn styles. In this glare the veil stands out prominently, for every sign is that it will be more popular than ever this fall.

The modish veil will be rather freckled. The spots and blocks will be irregular in shape and position. The more irregularly they are arranged the more stylish the veil will be.

But, hark! There is a greater extreme than this. It is the use of silver and gold tinsel in veils. These veils are now selling in New

## A GOOD SHOW.

"May Blossoms" at the Mountain Theatre, Please.

"May Blossoms," a comedy drama in four acts, was presented before a large audience at the Mountain Theatre by the Summers' Stock Company last night. The play is one well suited to Belle Stevenson and her excellent company, and at no time was the presentation anything but interesting. As the heroine Miss Stevenson played her part in her usual capable manner, and was roundly applauded. William E. Blake, as Steve Harland, gave a good exhibition of the dramatic art in the role of the rejected, but finally accepted lover. Edward Larenz took the part of Richard Ashcroft and made a plausible villain. Taken altogether the play was a good one and pleased the audience. The cast of characters was as follows:

Steve Harland ..... Wm. E. Blake  
Richard Ashcroft ..... Ed. Larenz  
Tom Blossom ..... Chas. Whitehouse  
Uncle Bartlett ..... J. Henley  
Owen Hathaway ..... S. J. Lyons  
Hank Bluster ..... Joe Knappan  
Eph. ..... Bert Deeks  
Bert Deeks ..... Jefferson Roberts  
Captain Drummond ..... Florence Natol  
Deborah Blossom ..... Mable Summers  
Little May ..... Nellie Cotter  
Miss Blossom ..... Miss Belle Stevenson

Specialties were given between the acts by Miss Mabel Summers, Mr. Charles Whitehouse and the Lyons.

## POWER LINE.

Adam Beck and Engineers Complete Inspection.

Hon. Adam Beck and the members and engineers of the Hydro-Electric Power Commission have returned from an inspection of the right-of-way for the Ontario Government transmission line, and the sites of the various transformer stations. They found that easements had been secured for 80 per cent. of the right-of-way, and that the locations for the transformers had been obtained. Eight miles of telephone wires have been erected near Toronto, and 6,000 poles and the necessary wires are ready for erection. Seventy towers to carry the transmission line are on the ground, and from 60 to 70 are being delivered weekly by the Canadian Bridge Company of Walkerville. The Commission and engineers visited this plant, and that of the Dominion Iron & Steel Company, at Welland, where steel for the towers is being rolled.

Tenders have been accepted for the construction of two transformer stations. Those for the erection of the remaining nine will be received by the Commission on Wednesday, July 28.

## BRITANNIA.

Members Entertained to a Birthday Social.

Last night the members of above Good Templar Lodge met in the Salvation Army hall, Barton street east, for a social, on the occasion of the birthday of their popular Treasurer, George H. Lauder.

The hall was comfortably filled by members and their friends, and after a brief congratulatory address by the chairman, John P. G. C. F., the programme was proceeded with. Those who contributed to it were Misses H. Hanson, M. Austin and Mary Taylor, Misses J. Porteous, D. Campbell, J. Brown, R. Slade, G. H. Lauder and G. Austin. Instrumental selections were given by T. Rowan. Between times, numerous parlor games were indulged in most heartily, the prime favorite proving to be ninepins. W. F. Lockhart acted as chairman, and a committee composed of several of the lady members of the lodge gracefully served out ice cream and birthday cake. By the singing of "Auld Lang Syne," in which the Scotch sang easily predominated, a most enjoyable function was concluded. Next Monday evening the election of officers takes place, and it is expected that numerous changes will be made. Next Saturday afternoon the Britannia Rambling Club will go on a ramble to Ainslie Wood, leaving the Terminal Station at 3.10 p.m.

## WHITE PLAGUE.

How to Tell Whether Is Bovine or Human in Origin.

Paris, July 20.—Doctors Calmette and Guerin announced before the Academy of Science last night the discovery of an easy method for the determination of whether tuberculosis in individual cases is of bovine or human origin. They proved that the bacilli in tuberculosis of human origin do not infect cattle, by a series of experiments, among which was the inoculation of a goat with germs from tubercular patients of a sanatorium at Saranac Lake, N. Y. The goat practically was unaffected and continued to give nourishment to its young, the health of which was in no wise affected.

Another goat was inoculated with a culture taken from a boy suffering from tuberculosis, and this inoculation resulted fatally. From this the doctors were able to conclude that the boy's infection was not of human origin, but resulted from milk taken from tuberculous cattle.

## GOLD IN WELLAND.

Silver Also Said to Have Been Found on Farm in Pelham.

Welland, Ont., July 19.—Welland county is excited over the announcement of the discovery of gold and silver in the mountain of North Pelham. J. Ira Swazey, who owns a farm six miles south of St. Catharines, has had samples of the ore sent to Cobalt, Toronto and Buffalo, and in each case a most favorable analysis was given. The work of ascertaining the possibilities of the mine will be commenced at once, and if this proves satisfactory development will be undertaken. The farm is crossed diagonally by the survey of the new Welland Canal.

## PAGEANT AT BATH.

Pictures History of Town From the Time of the Romans.

Bath, Eng., July 19.—The historical pageant which was inaugurated here this afternoon by the Duke and Duchess of Connaught equals, if it does not outshine in picturesque quality, many similar festivals carried out this year in various towns throughout England.

Eight episodes, representative of prominent events in the history of the city, commencing with the Roman occupation in 160 A. D., and winding up with a scene on which silver-clad maidens from the daughter towns named Bath in the United States and Canada paid homage to their "Lady Mother Bath," furnished a striking spectacle.

Victoria Park, with its panorama of hills in the distance, formed a charming stage. The whole city is beautifully decorated and crowded with sightseers.

Samples of ore, assaying \$1,000 per ton, have been taken from a new claim at Couture Lake, near St. Anthony Mine, in Sturgeon Lake District. A. Dyer, A. Dorowin and J. McCarthy, of Port Arthur, are the owners of the new strike, which they discovered while acting as assessors there.

## FINCH BROS., 29 & 31 King St. W.

**The Housekeeper**

**CREAM OF BEET SOUP.**  
Boil till tender five good sized beets; wipe hot, skin and chop fine. Simmer in a quart of rich milk till they are pulpy. Strain, season, and thicken like any cream soup. Serve with a spoon of whipped cream in each plate.

**BOILED CUCUMBERS.**  
Pare and remove the seeds from two medium sized cucumbers. Cut in eighths lengthwise. Cook slowly till tender in boiled salted water. Drain and heat in sauce made of one tablespoonful each of butter and flour, three-fourths cupful chicken stock, four tablespoonfuls of cream, one teaspoonful of lemon juice, salt upon salt, dash of pepper. Serve on toast.

**CHERRY PIE.**  
A delicious pie is made of cherries and stewed pineapple. A can of pineapple, a quart of cherries, one-half cupful of sugar, and the juice of a lemon make the filling for two large pies.

**FRIED CORN.**  
A good luncheon or supper dish is made from any cold, boiled corn, which has been left over from dinner. Cut the corn off the cob. Heat your spider and add enough butter to fry the corn. Add the corn and season with a little salt and pepper.

**PEARS—A NEW WAY.**  
When canning pears in the summer use a rich syrup. Before sealing add five whole cloves, and if brandy is not objected to one teaspoonful to each jar. When wanted in the winter open and turn into glass bowl. Add one teaspoonful of best almond extract and stir gently. Set on ice for two hours. Serve with whipped cream.

**NEW WAY OF COOKING PEAS.**  
A delicious way of cooking peas is to take the outside leaves of lettuce and lay them in the bottom of the sauce pan, then put the peas on top of them and gradually bring them up to a boil. The juice from the lettuce leaves is sufficient to cook them without the aid of water and gives them a delicious flavor. Cook them on a slow fire. Before serving put a piece of butter on top of the peas about the size of a nutmeg.

**TOMATOES UNTIL CHRISTMAS.**  
Procure perfect green tomatoes, cut fresh from the vines, about an inch from the tomato, leaving a little stem. Wipe dry and wrap each one in paper, separately. Pack in a box and keep in a dark corner of the cellar.

**Next Thing.**  
"Have you got any of this new kind of whiskey that won't make a man drunk?"  
"Yes, sir."  
"Well, give me a quart of the other kind."

### AT THE MINES.

MEMBERS OF THE RIVAL FAC-TIONS HAD A FIGHT.

**P. W. A. Men Charge Strikers With Stoning a Worker's House—Representative of Department of Justice on the Scene—Trouble Brewing at Sydney Mines.**

Glouce Bay, July 19.—There will be little difference in the output to-day, to the Dominion Coal Company claims. In all, about 7,000 tons was secured from the collieries and the banks on Saturday, they state, and from the output at 4 o'clock the company were of the opinion that the production to-day would be about the same.

Grand Master MacNeil to-night stated that from the standpoint of the P. W. A. everything was looking rosy. Between Saturday and Monday 190 had been initiated at Caledonia and No. 3, and a number of men would also be initiated at No. 2 in the morning. At Dominion and Bridgeport the strike was practically at an end. He said, for these collieries were now running very well.

There was some trouble at the Reserve on Sunday night, when three or four U. M. W. and P. W. A. men got into a fight, in which the P. W. A. men got the worst of it. That is the M. W. side of the affair. P. W. A. men claimed that a gang stoned a house in which a man named McDonald, who had been out on strike but had since gone back to work, lived. When McDonald went out to reconstitute, the P. W. A. men claimed he was greeted with a volley of stones and all the windows in his house were broken. A stone hit Mrs. McDonald, they say, inflicting painful injuries.

W. E. Roscoe, K. C., Kentville, is here in the interests of the Department of Justice looking into the situation. New tactics were introduced at one of the collieries to-day, when a gang of strikers, armed with a megaphone horn, beseeched the men at work to come out and join them. Another night of men arrived from Montreal last night by one of the Coal Company's steamers and were taken out here in a special train.

Interest now settles in the collieries of the Nova Scotia Steel & Coal Company at Sydney Mines, where the Commission Board, which has been inquiring into the grievances of the U. M. W. by a majority decision find that the company is justified in not recognizing the U. M. W. As this is the question on which the miners on the other side of Sydney Harbor have been called out, it is generally expected here that within a short time the men at Sydney Mines will be ordered out also.

Correspondence between the U. M. W. and the P. W. A., in which the former organization proposed that a series of joint debates be held at which representatives of the two societies could lay their case before audiences composed alternately of U. M. W. and P. W. A. men, was made public to-day. The letter in which the proposal was made was sent to John Moffatt, grand secretary of the P. W. A., by Messrs. Bousfield, Pitterson, McLellan and McLachlan, of the U. M. W. A. Executive, and in his reply Mr. Moffatt absolutely declines to accede to this request, as he declares that the only question at issue is whether there shall be any recognition of the U. M. W. A., and that point the P. W. A. is unalterably decided.

### BATHERS DROWNED.

Two of Them in Alberta and One in Saskatchewan.

Regina, Sask., July 19.—A sad drowning fatality occurred at the Wascana Creek yesterday, some miles northwest of Grand Coulee. Herbert Middleton, of Galedon, Ont., went in the water for a swim, and it is supposed that he had an attack of cramps while swimming about eight feet of water. The unfortunate young man was only 22 years of age.

Medicine Hat, Alta., July 19.—Two C. P. R. roundhouse wipers named Shaw and Ritchie were drowned in the creek here to-day. Ritchie, who could not swim, got over his depth while bathing, and Shaw went to his rescue. The drowning man clutched him and both went to the bottom. Ritchie's body was recovered about an hour later, but Shaw's body is still in the water.

Niagara Falls, July 19.—The body of Olive Rosille Leblonde, who was reported as missing last evening, was found in the river near the Maid of the Mist landing.

### NEARING RECORD.

Canada's Trade For June Shows Great Increase.

Ottawa, July 19.—Canada's trade for June shows an increase of \$9,628,898, as compared with that of June last year, and for the first quarter of the present fiscal year an increase of \$20,686,824 over the corresponding period of last year. The recovery from the depression which set in during the latter part of 1907, and which is reflected in the trade figures up to the beginning of the present year, has been so rapid during the past three months that the imports and the exports are now close to the record mark set in the summer of 1907. The imports entered for consumption last month totalled \$31,251,914, an increase of \$7,134,840 over the preceding June. For the three months the imports totalled \$81,824,463, an increase of \$14,926,655. The exports of domestic products last month totalled \$21,554,000, and of foreign products \$2,661,659, being increases, respectively, of \$1,796,524 and \$1,824,846. For the three months the exports of domestic products totalled \$49,327,006, and of foreign products \$4,138,597, increases, respectively, of \$5,238,228 and \$2,377,513. During the first quarter of 1908-9 Canada imported coin and bullion to the value of \$2,925,323. This year for the same period the amount was only \$267,727.

**WICKED PORT STANLEY.**  
Minister Says It is Worse Than a Frontier Town.

St. Thomas, July 19.—Rev. George Gilmore, of Fingal, is out with a statement in which he claims that everything is run "wide open" in Port Stanley during the summer season. Whiskey, he says, is sold in the open, and there are scenes enacted before the eyes of all that should cause ordinary men to blush with shame. For Sunday desecration Port Stanley surpasses, he says, any frontier town he ever visited in the west.

### Going Through His Trousers Pockets

### ELOPERS DEPORTED.

The Extradition Law Supplemented in Unique Way.

Plymouth, Mass., July 19.—A novel way of dealing with elopers was used in Canada in the case of Joseph Smythe, of this town, and Alice M. Aldrich, of Kingston, who fled to Quebec a short time ago. Smythe is said to have deserted a wife and child here, both he and the girl being under bond on statutory charges. Warrants were issued for the fugitives, and American officers armed with extradition papers found them in Coaticook.

They were arrested and taken to Montreal. There the officers were informed that the offence was not of an extraditable kind. Chief Davidson, of Sherbrook suggested that the elopers be deported as undesirable citizens. Inquiry was made at the immigration bureau, and the plan was approved. The necessary papers were made out, and Canadian officers took Smythe and Miss Aldrich by train toward the American line.

### ELLA GINGLES FREE.

She Was Acquitted on Charge of Larceny.

Chicago, July 19.—Ella Gingles was cleared to-night of the charge of stealing lace from Miss Agnes Barrette, her former employer, but the story she told on the witness stand to the effect that an attempt was made to force her into white slavery was denounced as untrue by the jury that freed her.

The basis of the defence made by Miss Gingles' counsel was that Miss Barrette and others had attacked her and mistreated her in the Wellington Hotel on two occasions last winter, and that the object of these attacks and of the theft charges were to force her to an unnamed man in French Lick Springs, Indiana.

### RIVAL RAILWAYS.

C. P. R. Seeking Position East of the Fraser River.

Winnipeg, July 19.—That the C. P. R. is one of the roads which are racing for position on the east side of the Fraser in British Columbia in the struggle for strategic ground was confirmed by Vice-President Whyte this morning when in an interview he said: "For our own personal knowledge we are surveying the route talked of, but that is all, and I do not know of any intention to build a new line." The route is regarded as the key to the railway situation in that district, as there is room for only one road, and although Mr. Whyte refused to discuss the matter beyond this admission, it is evident that his company is eyeing the entire territory.

**Whitby Bigamist Sentenced.**  
Whitby, July 19.—H. B. Willing was sentenced to four years in the Kingston Penitentiary by Police Magistrate Harper for bigamy, on the charge, to which he pleaded guilty, of marrying Gertrude Lomax, an English girl, while he had a wife and family of three children here.

### TIMES PATTERNS.

News or Editorials Should Not be Influenced by Advertisers.

**SHIRTWAIST.**  
No. 851A.—This smart, practical design will be found excellent for the separate waist of linen, madras and pongee or it may form part of a costume of panama or the heavy cotton fabrics. The present development is white linen trimmed with heavy lace and insertion. The closing is on the left side and the neck is finished by a round Dutch collar. The one seam sleeve is laid in groups of tucks alternating with bands of the insertion. The pattern is cut in 6 sizes, 32 to 42 inches bust measure.

Pattern here illustrated will be mailed to any address on receipt of 10 cents in stamps or silver.

Address, "Pattern Department," Times Office, Hamilton.

It will take several days before you can get pattern.

### EYES ON CANADA.

Germany to Send Commercial Agent to This Country.

London, July 19.—A Berlin despatch states that Germany is striving with might and main to secure a firmer commercial foothold in Canada. Efforts of the German Government are being backed with the greatest enthusiasm by merchants and commercial magnates. Scarcely a day passes without the attention of traders and exporters being drawn through the press to Canada as a field for German enterprise. The Berliner Lokal Anzeiger will dispatch in August its naval correspondent, Capt. Von Pustau, to the Dominion to make an exhaustive tour and to write a series of articles. Von Pustau will also endeavor to interview Canadian statesmen in order to bring to their notice the recently-formed German-Canadian Economic League, and will sound them as to the prospects for a better commercial understanding in the near future.

**MORE BEER, LESS SPIRITS**  
Is the Tendency Shown by Dominion Excise Returns.

Ottawa, July 19.—The excise returns for the last fiscal year show a continued tendency in Canada towards a larger per capita consumption of beer, and a smaller consumption of liquors containing a higher percentage of alcohol. In 1906-07 the per capita consumption of spirits was .861 gallon. For the last fiscal year it was .808. The per capita consumption of beer, which was 5.255 gallons in 1906-07, increased last year to 5.348 gallons. In wines the per capita consumption shows a slight decrease from .91 gallon per capita two years ago to .85 last year. The per capita consumption of tobacco last year was 2.910 pounds, as compared with 2.953 pounds in 1906-07.

**Wildie's Remains Removed.**  
Paris, July 20.—The remains of Oscar Wilde were transferred to-day from Baglivo to Pere Lachaise, where Robert Ross, literary executor, has secured a plot. Later on a monument will be erected at the expense of an anonymous donor.

### INDEPENDENCE.

News or Editorials Should Not be Influenced by Advertisers.

(New York Herald.)  
"Apart from the merits of any controversy arising out of differences between advertisers and their advertising mediums there can be no question but that absolute independence of the news department of a newspaper is essential if the paper is to continue as a force in public affairs," said Lewis Nixon yesterday.

"Newspapers largely live upon advertisements, and if an extensive advertiser should find a rival receiving valuable news notices without advertising he might be pardoned if he showed resentment."

"A newspaper by enterprise and impartiality and far-reaching news service obtains readers, and the more strongly it appeals to the reading public so much more valuable it becomes as an advertising medium. When one advertises he does so because he is satisfied that he receives a proper return for what he pays."

"But the general proposition at issue is whether a newspaper should permit its news or editorial service to be influenced by its advertisers. To this there can be but one answer, and that—No. 'I, of course, think that one of the functions of a newspaper is to advance in every proper manner the material prosperity of the public, to stimulate business activity, to invite capital and enterprise to its vicinity, to develop a pride in the refinement of the products of its section, to aid in public improvements that, by adding to the attractions and utilities of a city, brings customers to merchants and factories. And a newspaper's power to advance such interests largely rests on absolute fairness and impartiality."

"Money paid for advertising is a legitimate receipt when such advertisement attracts the attention and patronage which it seeks. When in addition the advertiser expects other considerations which undermine the independence of the newspaper an advertisement becomes a subsidy."

### SEE DREADNOUGHT.

Londoners All Agog at the Fleet in Thames.

London, July 18.—London's naval pageant, in which 150 warships are taking part, is pronounced an enormous success. It has been asserted that the reason such a large fleet never before was gathered at the Thames was the fear of the possibility of its being bottled in by an enemy. No such idea now seems to enter the heads of the average Londoner, hundreds of thousands of whom turned out to-day to view the magnificent spectacle. The influx of visitors to the south end was so great that it caused a temporary famine.

Throughout the day the greatest rush was to see the original Dreadnought, but general interest centred mainly on the half dozen submarines moored by the embankment.

### BEATS WORLD'S RECORD.

Frenchman Soars to Greater Height Than Wright Ever Did.

Doeu, France, July 18.—M. Paulham to-day beat the world's aeroplane record for height, held by Wilbur Wright. He made a flight at an altitude of about 450 feet. The previous record was 360 feet. M. Beroit won the speed prize, covering 2,000 metres in two minutes nineteen seconds.

M. Paulham's flight occupied fifty-seven minutes. He announced to-night that he would make an attempt to fly from London to Manchester.

**When Harvest May Begin.**  
Winnipeg, July 19.—According to the Canadian Northern crop report issued to-day, the harvest is expected to commence about August 20 in many parts of the west. The grain everywhere is much ahead of last year, and the prospects remain simply magnificent. Last night the heaviest rain in ten years fell over the greater portion of eastern Manitoba.

### FORGING ORDERS.

Former Employee of Dominion Express Company Charged.

Montreal, July 19.—Charged with having defrauded the Dominion Express Company to the extent of some \$350, Stanley Coates, of 227 Richmond street, was arraigned before Judge Lanctot this afternoon. Coates is said to have obtained the money by a series of cleverly-planned forgeries, using blank orders of the Dominion Express Company, with whom he had formerly been employed. Then, after cashing a number of them through various well-known firms, he left the city. Chief Carpenter was put on his trail, however, and after a long chase he was arrested in Toronto on Saturday.

The alleged forgeries were perpetrated on June 30 last. Coates' plan is said to have been to call up by telephone a city agent of the company, and stating that he was speaking from the Dominion Express Company, ask the agent to give a book of money orders to the bearer of the note. Coates then called himself at the agent's office, and accompanied by his friend he had no difficulty in obtaining a book containing eight money orders.

The money orders were filled in the eight unused orders, appending fictitious names and forging the name of one of the agents now in the employ of the Dominion Express Co. The orders were then sold to eight different business men for a discount. The highest amount that can be made out of one order by the Express Company is \$50, and Coates filling in each cheque for various sums, ranging from \$10 to \$15.

It was not until these business men who cashed the money orders went to deposit the orders in the bank that they made the discovery that they were worthless. Though the orders were cashed on June 30 it seems that none of them were banked until July 2.

### GYPSIES FIGHT.

Bands in Legal Battle Present Lavish Display of Wealth.

Ottawa, July 19.—The gypsy bands in Hull were engaged in a legal battle to-day over the custody of a girl, who, it is alleged, was sold by her father to a member of another band. The girl claimed to be maltreated, and returned to her father, only to be recaptured by her lover. The arrest of the latter, charged with abduction, precipitated a hearing this morning before Recorder Desjardine. That official decided that the girl must remain in the custody of the law, pending final judgment, but to this both sides strenuously objected, the mother throwing herself at the recorder's feet and beseeching him to reverse his judgment.

Both sides made a lavish display of wealth, hiring all the available automobiles and carriages in the city. One woman is said to have displayed \$2,500 in gold. Nevertheless, the authorities have ordered all the members of both bands, except those in jail, to leave at once.

It is said that the girl in the case, who is only 13, complained that she had been tortured with red-hot irons, but she soon quieted pleasure to-day at the sensation she was creating, and gave no signs of injury.

### SLAYS OFFICER.

Russian Army Punishment Brings Double Tragedy.

St. Petersburg, July 19.—The system of flogging, which is still used as a means of punishment in the so-called disciplinary battalions of the Russian army, led to a tragedy to-day at Miedyied, Novgorod Province, where the largest battalions are located.

A soldier was condemned to fifty lashes for stealing. After a few blows the man began to be released. The man was refused, and he wrenched himself free, at the same time drawing a knife, which had been overlooked in searching him.

He leapt upon the supervising officer, Capt. Kavalerosky, and stabbed him to death. Then he slashed two soldiers who attempted to seize him, and buried the knife in his own breast.

**Deafness Can be Cured.**  
Sufferers from impaired hearing will be glad to know that their affliction is probably not due to any organic effect in the ear, but results probably from a thickening of the lining of the middle ear caused by catarrhal inflammation.

Hundreds of perfect recoveries as a result of the inhalation of Catarrhazone are reported, and on the highest authority we recommend this treatment to our readers. Catarrhazone quickly restores lost hearing, and its efficiency is placed beyond dispute by the case of Mr. Foxwell, of St. Thomas, who recovered perfect hearing by using Catarrhazone after years of deafness. Price \$1.00 at all dealers or by mail from The Catarrhazone Co., Kingston, Ontario.

**MUST PROVIDE FENCES.**  
Railway Commission Issues a Right-of-Way Order.

Ottawa, July 19.—The Railway Commission has issued an order compelling every railway in Canada to have the whole of its right-of-way properly fenced by Jan. 1, 1911. The order states that the fence must be of a minimum height of four feet six inches, and gates must be provided at every farm crossing. At every level highway crossing there must be adequate cattle guards. The width of approaches to level crossings must be twenty feet on concession and main roads and sixteen feet on side and bush roads.

**"Rat" Saved Girl's Life.**  
Easton, July 19.—Marie Lauraweller, operator of a broad silk loom at the Simon plant, narrowly escaped having her skull crushed to-day in the wheels of the loom. Her hair had been caught, and the young woman was being dragged to her death, when a "rat" in her hair got wedged between the wheels and stopped the machinery. A quantity of her tresses and a patch of scalp were torn away.

The most comforting hot water beverage is iced "Salada" Tea. It is most delicious.

CANADIAN WINS AGAIN. Prince of Wales' Prize Captured by Winnipeg Man. Mitchell and Freeborn, of This City, Win Prizes. More Protests Entered Against Canadians' Ross Rifle.

Bisley Camp, July 20.—Sergeant Blackburn, of Winnipeg, using the Lee-Enfield rifle, yesterday won the Prince of Wales' prize, the badge of the National Rifle Association and one hundred guineas. This is the most valuable individual prize won by any competitor at the Bisley matches this season. Blackburn scored 34 out of a possible 35 at 200 yards. At 600 yards he scored a possible 50, making it 84 in all. Blackburn was also the winner of the Birmingham Metal & Munitions Company's silver cup and five pounds. Lieut. Mortimer won twenty shillings in this match. He was sixth. Another creditable feature of the Prince of Wales' match is that first and third places were made by two Canadians, Blackburn, the winner, and Capt. W. H. Forrest, of Vancouver. The following were the results at 300 yards: Copping, Montreal 29; Creighton, Toronto 34; Forrest, Vancouver 32; Freeborn, Hamilton 43; Huggins, Hamilton 43; Kelly, Toronto 42; Kerr, Toronto 32; McInnes, Edmonton 33; McVittie, Toronto 33; Mitchell, Hamilton 32; Morrison, Bowmanville 32; Richardson, Victoria 32; Russell, Ottawa 32; Smith, Chatham 30; Smith, Ottawa 33; Stack, Truro 33; Men not on team 34; Blackburn, Winnipeg 32; Byles 32; Mortimer, Ottawa 34. SECOND RANGE. In the Prince of Wales' match at 600 yards the scores were: Copping 53; Creighton 33; Forrest 42; Freeborn 55; Huggins 49; Kelly 45; Kerr 32; McInnes 45; McVittie 45; Mitchell 45; Morrison 46; Richardson 47; Russell 47; Smith 47; Stack 47; Blackburn 41; Byles 41; Mortimer 46.

A HEAVY FINE. Barber Mulcted \$25 and Costs For Shaving After 8 p. m. Peterboro, July 19.—William Cox, aged 68, dropped dead on the street this evening while returning home at tea. Peterboro has a by-law to compel barber shops to close at 8 p. m. Because David Hall, proprietor of a shop, shaved a customer after the regular hour he was fined \$25 and costs by Magistrate Dumble. Hall will appeal. KICKED BY A HORSE. Young Man Fatally Injured on Farm Near Galt. Galt, July 19.—Charles Milne, a young man about thirty years of age, and whose relatives live near Lucknow, was kicked and fatally wounded by a horse at the farm of Mr. R. K. Cowan, on the Cedar Creek road, Saturday afternoon. The deceased was watering a couple of horses at the trough; one of them was rather restless, and Milne touched it in an effort to induce it to move up to the trough. Instantly it lashed out with both feet, catching the unfortunate man in the abdomen and inflicting serious internal injuries. He was removed to the hospital in the ambulance and death ended his sufferings on Sunday. Cooling Medicines For Summer. English fruit salit, 25c bottle, or 40c lb. Persian sherbet, 40c lb. English citrate mandarin, 25c bottle, or 50c lb. Phosphate soda, 25c bottle. Pure West India lime juice, 25c large pint bottle. Junket tablets, 10c bottle. Rennet wine, 25c bottle. Cobalt, July 19.—While returning to the Nova Scotia mine, where he is employed, James Dale was attacked by three masked men on the Kerr Lake road on Saturday night and robbed of \$17. Dale pluckily grappled with his assailants, but was knocked insensible by sandbags. After securing the money the men decamped into the woods. This is the first hold-up ever reported in Cobalt camp. Lying on a lounge on the dining-room of his home, the body of Allan Robinson, aged 35 years, of 268 Euclid avenue, Toronto, was found by his father.

ST. LOUIS BIG FEUD Tragic Roll of Crime in a Great City—Two Men Murdered and Two Wounded—Widow of One Attempts Suicide

April 4—Fred Mohrle shot and killed Constable Sam Young at St. Louis. June 3—Wm. Wright, Mohrle's friend, in terror of gang, seriously shot Alfred Nielson, a passerby. June 7—Michael Kane, Young's friend, killed Mohrle in the Four Courts. July 1—Wright shot Chas. Tozer in home of Mohrle's widow. July 10—Mrs. Mohrle shot herself.

MRS. FRED MOHRLE, WHO TRIED SUICIDE AFTER HER HUSBAND WAS MURDERED. SHOWN IN COURT WITH HER SON THE DAY MOHRLE WAS SHOT.

St. Louis, July 20.—With two men slain in a political feud and two more shot, Mrs. Marie Mohrle, widow of the first victim, kissed her 5-year-old son as he slept and sent a revolver bullet into her breast. Now, as she lies, between life and death in a hospital, this city is beginning to take account of one of the most remarkable clashes in the history of ward politics. During the last campaign Constable Sam Young was the Democratic leader in the fifteenth ward, and Fred Mohrle was his neighbor and his political foe. The Sunday before election Young and Mohrle met by chance. Both drew revolvers. A dozen shots rang out, and Young fell dead. Mohrle and Wm. Wright, a friend, were arrested for the killing. When they were arraigned the next day police had to force a way for the prisoners through a crowd. As Mohrle stood cowering at the dock a small dark-haired man pushed his way beside him. "Never fear the law," he whispered, and Mohrle smiled. At last he had found a friend. "Why?" he whispered back. "Because," the stranger hissed, "we'll get you before the law has a chance at you." This was on April 5th. June 7th the trial came. The same crowds that had watched the two men arraigned a month before were there. The election had been decided and the gang's fiat of revenge was sealed. Mohrle and Wright could hear the crowd murmur above the clang of their prison doors as they were led out. Mohrle came first. As the turnkey turned to lock the door, Michael Kane, Young's friend, faced Mohrle. Without a word, Kane raised a revolver and shot Mohrle dead. The report echoed through the dingy old Four Courts building where folk had sent hoodlums to the penitentiary. Mohrle fell into the arms of a policeman, who was there to protect him. Wright, trembling and pale, was rushed back to his cell. When the shot echoed on the judge's ears upstairs he knew what it meant. Before the crowd's wonder had been satisfied the bailiff rapped loudly. "Court is adjourned," the judge cried. Then Mrs. Mohrle went out with her husband and saw an ambulance taking her to the hospital. Wright, the only one alive who was involved in the original feud, tremble. Only a few days before the death of Mohrle, Wright, out on bonds, heard someone call him. Thinking the gang had "got" him, he opened fire on two men and shot Alfred Nielson, a bystander. Last week, when he finally was acquitted, Wright accidentally shot Chas. Tozer in the home of the widow of Mohrle. He had gone insane. The life of one of the gang had been taken, and a life had paid the forfeit. The gang's score was wiped out. But days after the little women in black was trying to comfort her son, who was crying for "daddy." Hostile neighbors pointed to her veil of crepe and said: "She wouldn't be wearing that, only her man got Sam Young, and he just had to die, too."

POETRY AND POLITICS—VERSES THAT NERVED WIDOW TO SHOOT (This poem was clutched in Mrs. Fred Mohrle's hand after she had been driven to shoot herself in feud of St. Louis politics.) I believe if I were dead And you upon my lifeless heart should tread, Not knowing what the poor clod chanced to be, It would find sudden pulse beneath the touch Of him it ever loved in life so much And thro' again, tender, true to thee. I believe if on my grave, Hidden by woody depths or by the wave, Your eyes should drop some warm tears of regret From out the salty sud of your dear grief, Some fair, sweet blossom would leap into leaf To prove death could not make my love forget.

her man got Sam Young, and he just had to die, too." A diary found under her pillow after she shot herself showed her thoughts. She kept this diary beside her revolver. "Everything is gone," she had written in a trembling hand. "Everything is gone—my sweetheart is dead. The gang is after me. I think I had better kill myself before they kill me. They would not shoot me like they do in the penitentiary. I have a revolver. I have a chance. I will try to do it." The diary was found by a policeman. "One was 'get your man.'" "Don't peach" was the other. An old church was the club house. Nightly orgies saw the rafters which once had echoed to words of prayer and the music of hymns, resounded with coarse jokes and drunken songs. One night a policeman who went in and ordered the noise to stop was shot as he spoke. Chief of Police Creedy the next day investigated the shooting in person. They showed him the spot where the bloodstain had fallen. His blood still stained the floor. Suddenly the sun came out from behind a cloud and its rays blazed into the reeking room through the stained glass windows of the old church. The largest window had a figure of the crucifix in its centre, and as the chief looked at the blood on the floor suddenly the outline of the cross was shadowed under the chief's eyes. In its centre were the bloodstains. Even to the hardened crime hunters the scene was dramatic. As Chief Creedy left in horror he said, "That place never opens again." He kept his word, and the fifteenth ward fell silent. "Where will it stop?" the city now asks.

Moving Pictures IN THE SCHOOLS. BELGIAN AUTHORITIES FIND THEM VALUABLE FOR SCHOOLS. Lectures as They Run—History and the Arts Easily Taught by Actual Enactment Before Classes. Although the average schoolboy of Europe probably does not realize it, his lot is infinitely preferable to that of his forbears. It is no longer considered that the work of educating the young, to be effective, should be seven and unattractive. On the contrary, everything in now done to make the task as interesting and as pleasant as possible. Most of the foolish punishments that were inflicted on school-boys forty and fifty years ago have now been abolished, and anything that can be done to help pupils to acquire a liking for school and the subjects which form the elements of their instruction is carefully cultivated. The latest innovation in the methods of public-school teaching on the Continent is the introduction of the cinematograph. Experiments made in certain schools in France have shown that the blackboard may advantageously be replaced by "living pictures," and in Belgium, where the system has been tried with the best results, the cinematograph has just been introduced in the Normal School of Brussels. The great progress accomplished within recent years in photography enables a great number of events and phenomena to be represented not only in their forms, but in their movements, and the days is not far off when photography in colors will complete the illusion of the scenes from real life thrown on the cinematographic screen. LECTURES WITH THE PICTURES. The Belgian schools have organized their installations in this way: If the school possesses a special room for luminous projections it may acquire an apparatus and film. But if the school does not possess a room suitable for the purpose the scholars are taken to a cinematographic theatre. The last plan is practical and inexpensive. If the authorities of a town, or even a village, make arrangements to send a large number of pupils to the representation they can always secure special terms from the proprietor of the cinematograph theatre, or the traveling operator who makes a tour of the country with his "living pictures." In order, however, that the cinematograph may be useful as an aid to instruction it is usual to exercise discretion in the choice of the subjects to be illustrated, and to make arrangements for a teacher or professor to explain the pictures as they pass before the eyes of the pupils. All faked films—those representing grotesque, stupid and uneducational subjects, such as are sometimes seen in certain establishments to which the general public are admitted—should be excluded. The school cinematograph—like the magic lantern, pictures, museums—must be a means of education, or moral betterment and mental improvement, and those who have been quick to realize the immense future before the tableaux vivants as an aid to instruction in the schools are now comparing and never forget. History is usually a very dry subject as taught by the old-fashioned method, but when it is shown as a living succession of stages in the world's progress, when the scenes of the past are reproduced by talented actors in the costumes of the period, then the pupil becomes enthusiastic in what is no longer an unattractive task, but a delightful and stimulating exhibition. Even in the study of languages the cinematograph is destined to prove a valuable auxiliary. Everyone knows that when attempting to learn a foreign tongue the infant learns—the translation—as an infant learns—the best. The professor's great difficulty, however, is to show the objects, the forms, the actions and conditions which answer to the words or phrases of the foreign language. But if, while the pupils repeated words and phrases, the scene of these was presented to their eyes in a series of cinematographic views, the association of words and the things they represented would prove a wonderful aid to progress. MADE FOR THEATRE-GOERS TO PAY. Paris theatre-goers are threatened with a new imposition—would be a more appropriate name for it. Hitherto theatre managers have been obliged to hand over 10 per cent.

GOOD SHORT STORIES

Did He Suicide? Annapolis, Md., July 19.—The naval court of enquiry into the death, in October, 1907, of Lieut. Sutton, opened today. The investigation is due to the persistent efforts of the lieutenant's mother, Mrs. James Sutton, to clear her son of the verdict given at the time of the suicide, she believing that he was murdered. Lieut. Robt. Adams was the first witness called. He said he had attended the dance at the academy on the fatal night and afterwards went to Carvel Hall with Lieuts. Osterman and Utley. There they met Sutton later on and started in Osterman's automobile from Carvel Hall with Sutton to the marine camp. "We went over the College street bridge," said the witness, "and going over the bridge the machine was making considerable noise, and as we were out after hours, 12 o'clock being the limit, Lieut. Utley suggested we stop the machine and walk, so as not to be caught. I rose and over and touched the chauffeur and told him to stop. Sutton called me a fool, and said he would kick hell out of me. I unfastened my collar and jumped out. Sutton and the others got out, and as we were preparing to fight, the senior officer stepped in and ordered us to step and said we could fight it out next morning. "We started for the barracks and got under the electric light, when Sutton and Osterman mixed it up and struck each other several times before they could be separated. I stood from 15 to 25 paces away during that time. From there we went by the old road to the barracks to report to the officer of the day, leaving Sutton behind. He refused to go with us. On the way over Officer Utley had an extra order issued to Sutton to report to the officer of the day. "I started down the path and had gone 30 or 40 paces when I saw something white. It seemed to arise, and a voice said, 'That's that d— Adams. I'm going to kill you!' He fired. I ran at him. He fired again; we grappled. He fired a third time and hit me in the finger. As we wheeled to assist me, I threw Sutton around and got on his back, trying to keep him from shooting. At that time some one jumped on Sutton's left hand. I don't know who it was. There was a shot and I cried, 'My God, he has killed Roelker!' As I stood up there was a flash, and I looked toward Sutton to see him prostrate and evidently dead." At this point Lieut. Adams illustrated his struggle with Sutton with an orderly as his assistant. Mrs. Sutton eyed the witness closely as he was testifying, occasionally shaking her head. In answering Major Leonard's questions the witness said he had never had any disagreement or words with Sutton prior to that night. Asked by Mr. Davis, counsel for Mrs. Sutton, if in his opinion Sutton shot himself, Lieut. Adams said he believed Sutton deliberately shot himself after he heard someone say Lieut. Roelker had been shot, and not as a result of accident during the struggle. The London Times, in discussing the new United States tariff, fears that it will be very inconvenient to Canada, but Canada, it says, is by no means without defence.

A JOKER.

Wilkesbarre, Pa., July 20.—Jesting about his death, Thomas Willis, who, with Stanley Nazarko, heard the death warrant read yesterday morning, received the news that he and Nazarko were to be hanged on August 10 with a smile. Nazarko was solemn, but was not greatly affected. Willis said: "I'll live until I die, anyway, and as I have got to hang around here while I live, I'll have to hang around my neck when I die, and it's all the same to me." Nazarko killed his common law wife, Willis murdered Cameron Cook, a wealthy horseman and robbed him. He is a negro. Married life should be one grand, sweet song—a song without words. Asparagus in abundance grows wild in Poland.

Wilkesbarre, Pa., July 20.—Jesting about his death, Thomas Willis, who, with Stanley Nazarko, heard the death warrant read yesterday morning, received the news that he and Nazarko were to be hanged on August 10 with a smile. Nazarko was solemn, but was not greatly affected. Willis said: "I'll live until I die, anyway, and as I have got to hang around here while I live, I'll have to hang around my neck when I die, and it's all the same to me." Nazarko killed his common law wife, Willis murdered Cameron Cook, a wealthy horseman and robbed him. He is a negro. Married life should be one grand, sweet song—a song without words. Asparagus in abundance grows wild in Poland.

## TRACK RECORD BROKEN

By T. M. Green at Fort Erie Yesterday.

Gliding Belle Won at Empire City.

Delorimier Park Races Opened at Montreal.

Buffalo, N. Y., July 20.—Yesterday's racing was marred to an extent by the spills which came with the running of the first two races, and was responsible for the death of a pair of racers. In the opener, Beau Nash, the favorite, went down as a result of crowding at the half-mile post, and his destruction was found necessary on account of having sustained a fractured leg. The second race was a steeplechase, and it was replete with minor mishaps to all the starters except Bergoo, the winner, and Gault, which was killed instantly when he fell at the 11th jump and landed on his neck. Jockey Reid, who had the mount on Beau Nash, was the only rider to sustain injuries, and they were of a trifling nature.

The good card served to draw a big attendance to the course. The steeplechase was intended as the feature, but it was a farcical contest, Bergoo, the winner, being the only one not to meet with a mishap during the race. During the early running Bannell was the leader, but a severe fall at the eighth hedge enabled Bergoo to take command, and he was never headed thereafter. Bannell held the others safe until approaching the final jump, where he unseated his rider. This gave second place to Caloorahatchee. Huddy, which had been carried out when Reginald bolted at the first jump, was remounted and finished within the time limit for third place.

The purse race at a mile was contested for by a good band, and it resulted in a hollow victory for the much-improved Apache, which led from start, and won catering in the fast time of 1:39. The Mink was a sensational stretch run, coming from last place to wear down Regina Green for second place.

The Spring Handicap went to Little Osage in easy style. He was favorite and led from barrier rise. The judges have been quietly at work for several days looking into the running of several recent steeplechase races, and, as a result of their investigation, promulgated a ruling this afternoon warning from the course jockeys Archibald and Beamish. This is practically equivalent to their being ruled off the turf. Jockey Stone's case is still pending, and until its final disposition, he will not be permitted to accept mounts. Archibald is said to have been guilty of fraudulent practices, in that he attempted to fix races. Dr. Koch was the supposed nominee when Estrey won. Dr. Koch, on that occasion met with a mishap and failed to finish. John Dillon was the one selected on Friday last, but Bergoo upset the plans by leading for the entire trip. Beamish is said to have aided Archibald in his plans.

The judges went further into the complaint of Jockey Haynes, rider of Rembold last Saturday, and announced to-day that Jockey Musgrave, who rode Giles, had been suspended and fined \$50, as a result of his rough riding in taking Reidmore wide at the stretch turn. Jockey McKinney was fined \$50 by the starters for disobedience at the post in the steeplechase race.

Jas. McLaughlin, jun., has secured the contract for Guy Burns' services during the remainder of Canadian racing and will make his future engagements. McLaughlin also purchased to-day the filly Daisy Garth at private terms from W. Gardiner. William Walker purchased Apache this afternoon for a reported price of \$1,500, about half of what shrewd horsemen consider him worth. Chinn is said to have been willing to pay \$3,000 for him. Apache will be shipped, in company of Marble Abe, to New York to-morrow.

## SAYS CANADIANS ARE BORN FIGHTERS.

New York Newspaper on the Boxers That This Country Has Produced.

Bill Blunt, in the New York American, says: While one doesn't often hear of Canada being mentioned in connection with the boxing game, it is a fact that many high-class boxers hail from the Dominion, some of them world's champions. Born on Canadian soil, they moved down into the States, and in most cases were known as Americans. Undoubtedly the best known was George Dixon, who was born in Halifax, Nova Scotia. For more than twenty years he fought ably and honestly, and was a credit to the game. He was a true world's champion. He defeated Cal. McCarthy at Troy, N. Y., in twenty-two rounds for the American title. He won from Nunc Wallace in eighteen rounds before the Pelican A. C. of London, gathering in the English title. The following year, in San Francisco, he tamed the Australian, Abe Willis, in five rounds, which made his claim to the world's title clear and undisputed.

Tommy Burns, the ex-champion heavyweight, also comes from Canada, having been born in Hanover, Ont. Sam Langford, another star, first saw the light in Weymouth, Nova Scotia. Sandy Ferguson, named John H. in the birth records, comes from Moncton, New Brunswick. Dick O'Brien, one of the best of the middleweights of a decade and a half ago, was born in St. John, New Brunswick, contrary to the general belief that he hails from Lewiston, Me. Eddie Connelly, the talented lightweight of a few years ago, was born in the same town. Jack O'Brien, the 138-pounder, who during Toronto law days met such men as

Oscar Gardner, Frank Erne, Tim Kearns, Jack Downey, Dal Hawkins, Martin Flaherty, Dave Sullivan and Marty McCue came from Nova Scotia. Kid Herman, generally supposed to be a product of Chicago, was born in Montreal. Jim Popp, a lightweight who has fought many of the best of them, was born in Toronto. George Bryers, the colored middleweight, who in his day defeated Lon Beckwith, Harry Peppers, Frank Childs, Charley Goff, Jack Cattanaeh, Dick O'Brien, Charley Strong, Tim Murphy and Jack Burke, comes from Charlotteville, Prince Edward Island. The late Harry Tenney, whom most people thought was born in California, and who did all of his fighting in and around San Francisco, was born in Canada twenty-five years ago. His real name was Tenebaum.

Mike Ward, a lightweight of no mean ability, came from Sarnia, Ont. Johnny Lavack, a crack featherweight of twelve or fifteen years ago, always was referred to as being from Cleveland, but he was born in Montreal.

Joe Lannon, a star heavyweight of twenty years ago, is another Prince Edward Islander, having come from Charlottetown. When he was in his prime he boxed such men as Jake Kilrain, George Godfrey, Jim Corbett, Frank Herald and Jack Ashmoe. Old timers remember the terrific battle he and Ashton fought in 1889 at Stillwater, R. I., with skin-tights to a finish. The men were evenly matched, and for eighteen rounds fought nip and tuck. Finally in the nineteenth, Ashton put his man away, but only after being most severely punished himself. Lannon never challenged Peter Jackson, but the police broke in at the last minute and stopped the proposed contest.

George Godfrey, who in his day was the next best colored heavyweight to Peter Jackson, was born on Prince Edward Island in 1858.

**FOR THE YOUNG AMATEURS**

Frost Wire Company last soft ball team easily defeated the Emeralds at Woodland Park by a score of 11-5. A large crowd was present and the excitement, at times, was intense. The wire workers started in the first inning to make things interesting and what they did to Alton's benders was a shame. The wiremen secured six runs in that inning after which the Emeralds lost their stage fright and began to play ball, holding the winners down to five runs. The Frost Wire had their regular line-up, and under the guidance of "Big Stick" Tat Moran, the winners gave a fine exhibition of ball playing, with a twirler and he had speed to burn. Mr. Alton, of the "old guard" was in the box for the Emeralds. Tom has lost none of his old time ability which has made him so famous and considering the team behind him, heaved a most creditable game. The teams lined up as follows:

Frost Wire Company (11)—McMurray, Connors, Northcote, Coopley, Bleakley, Moran, Brandon, Overholt, Laidman.

Emeralds (5)—Anderson, Campbell, Carter, Towerman, Roberts, Alton, Beltz, Catchpole, Medley.

Score by innings—  
Frost Wire ..... 610,020,020—11  
Emeralds ..... 001,030,001—5

Batteries—Laidman and Northcote; Alton and Roberts.

These games are attracting much attention and larger crowds are attending. Jimmy Anderson and Jack Lavis are two most competent officials.

It is all over with the Herald now. They have at last hit the toboggan and are going at a fast clip to the bottom position of the newspaper. Soft ball league "Big Heat" Charlie Aitchison, who occupies the position as assistant manager, next to Clarence Wilbur Wakeham, has predicted a good many things that came true, but "the chief" never thought he would see his aggregation twirl, would ever meet defeat three times in succession. Last night the Spectator team demonstrated that they are the Herald's equal when they

caught everything but the ball and what he did catch was little use to the team. But despite all these fumbles, the Herald put up a game battle, and had there been proper coaching the King street bunch might have won the game. The critical time was in the last inning and during this round things looked bad for the winners. Wilkes, the first man to bat, walked. The next man to reach first sack was Woods. On two sacrifice hits the runners were advanced one base. Graham knocked a line to third base. The third sacker tried to throw a man out at first, scoring Wilkes. The first baseman had the ball and Woods tried to steal home. He was nipped at the plate by a yard. The game was exciting from start to finish and was anybody's until the last man was out. The Herald had the best team they could pick and not satisfied with Geo. Smith they were forced to even get more boys, and besides had an applause brigade which would cheer one of his brilliant games, and the "Spec" team was up to the standard. Branstons work behind the bat has no equal in the newspaper league. Alf Wilkes was the pitcher and from the start it was evident that the Herald would get over "Clarence" Wakeham, on short, was off color and was little or no good on third.

"Baseball Editor" Jones in left garden and Smith on first are best players on the Herald team. Unless the Herald manager does some weeding out and gets ball players on the team and not ping-pong players, their chances of winning the pennant are poor. The teams lined up as follows:

Spectator (11)—Branston, E. Waite P. Lithgow 1b, Hawkins 2b, Tucker ss, Pryke 3b, Slaughter lf, Campbell cf, Green rf.

Herald (10)—Graham c, Wilkes p, Smith 1b, Woods 2b, Coutts ss, Wakeham 3b, Jones lf, Aitchison cf, Flynn rf.

CENTRAL LEAGUE.

The Night Owls walked away from the Beavers on the Sawyer-Massey grounds last evening. The Beavers played a very loose game in spots, and it was due to their wild throwing and one or two errors that the Night Owls made their runs. Bingham, for the Beavers, pitched a good game, but the other end of the battery was woefully weak. The outfield, however, cut off many hits by their fine all-around work. The Night Owls are coming back to their old form and are playing a steady fielding game.

R. H. E.  
Beavers ..... 3,000,000,000—3 6 6  
Night Owls ..... 0,015,201,210—10 16  
Batteries—Bingham and McGavin, Adams and Robins.

Umpires—White and Speers.

On Thursday evening the Wellingtons and St. Patricks crossed bats. This game is expected to be the fastest and best of the Central League series. Game called at 6:45 on the Sawyer-Massey field.

The Junior Soft Ball League was formed last night at a meeting of the interested clubs held at Skerrett's. The following teams, with an age limit, will constitute the league:

Victoria Avenue; Baptist, Hurons, Alerts and Royals.

Games will be played on Tuesdays and Thursdays at Norton's. The first game will be played to-night at 7 o'clock, between the Alerts and Royal Oaks.

Two other clubs have since applied for admission and another meeting is called for to-night to decide whether or not to admit them.

The gossip never lacks something to talk about, for the talks about everybody about all the time.

## TORONTO WON GAME.

The Leafs Hit Hard and Won by 5 Runs.

Montreal and Jersey City Broke Even

Opening Game in the Beach League.

Toronto, July 20.—It was not exactly a slaughter of the innocents yesterday, but a slaughter it certainly was. Both Newark and Toronto had their batting clothes on, and when the smoke cleared away the Leafs had five runs to the good, and thirteen hits for a total of twenty bases. Newark had eight singles, a double and a triple, but their swatting was not opportune, hence the score, which was 8 to 3. Joe Kelley was the same old Joe. He had three hits out of four times up, and did some star work in the field. Our dear Mr. McGinley was also seven men all told, retiring the side on strikeouts in the last inning. He also popped off two beautiful bingles, one a two-bagger, which drove in a run; he himself, scoring later. Jack Kelly in left made some expert catches. For the guests of the day, Herr Wolverton was a hero. He was a hero because he was a martyr, and it came about this way. Umpire Murray probably surprised himself by the good work he did on Saturday, and dropped back into his old form. Houser, in the third inning, grounded one to Loudon, who threw to first in time to retire his man, but his Umpis said "safe." That was when Wolverton got up on his ear. After a chewing match Murray chased the wrathful third baseman from the field and the grounds. "I'll fix him," his ribs was heard to say later. This may mean a fine for Wolverton. Score: R.H.E. Newark ..... 3 10 3; Toronto ..... 8 13 2.

At Buffalo—Providence, showing the effects of the jump to Newark and Buffalo did not play with the usual snap, being defeated, 2 to 1, by Buffalo, an error and a wild pitch aiding the Bisons to victory. Score: R.H.E. Buffalo ..... 2 5 2; Providence ..... 1 7 2.

At Montreal—Montreal and Jersey City divided another double-header to-day. Keele and Wicker were hit at the right time in the first, while Montreal could get only three runs on thirteen hits. Scavage held Jersey City for two hits in distress, and did not allow a man to get farther than first base. Score: R.H.E. Jersey City ..... 7 9 1; Montreal ..... 3 13 4.

Second game— R.H.E. Montreal ..... 4 5 1; Jersey City ..... 0 2 4.

At Buffalo—Providence, showing the effects of the jump to Newark and Buffalo did not play with the usual snap, being defeated, 2 to 1, by Buffalo, an error and a wild pitch aiding the Bisons to victory. Score: R.H.E. Buffalo ..... 2 5 2; Providence ..... 1 7 2.

## From the Scrap Heap

San Francisco, July 20.—Willis Britt, manager of Stanley Ketchel, received a wire last night from his New York representative to the effect that Sam Langford had decided to accept the terms of the Nevada promoters for a match with the middleweight champion at Ely on Labor Day. Langford had, until last night, refused to accept the offer of Ted Hall, and it is presumed that the Boston fighter finally decided that the \$5,000 was ample remuneration for the chance of fighting for the title.

Memphis, Tenn., July 20.—Eugene C. Sims, of Sycamore, Ill., knocked out Larry Harris, of Baltimore, out last night in the seventh round at the Phoenix Club.

Chas. White, of Chicago, earned a clever victory over Pete Harvey, of St. Joseph, Mo., the bout going the limit, eight rounds. Savor was in distress several times, his staying powers saving him.

Toronto, July 20.—Jack Johnson, the colored fighter, who defeated Tommy Burns in Australia for the heavyweight championship of the world, and who is now the stormy petrel of the pugilistic world, will be the attraction at Hanlan's Point on Thursday, Friday, and Saturday evenings at 9 o'clock. Following in the wake of the Jeffries engagement the coming of Johnson to Toronto will be attended with more than usual interest. It will also give followers of the pugilistic game a chance to size up the two claimants for premier honors, and draw their own deductions. Johnson will give his training stunt, finishing with a boxing exhibition with his sparring partner. On Thursday evening, the first night of the engagement, Jimmy Oleott and Tommy Daly will box three rounds to a decision for club-house honors.

Young Corbett, on Saturday last, lost to Johnny Fraze in California in eight rounds. Yesterday at his training quarters, attended by his seconds, he was married to a young woman from New Orleans and Rothwell then stated that he was through with the fighting game forever so far as a contestant is concerned. He stated that in all probability he would go into the fruit growing industry in Southern California.

Tommy Burns is rooting for Stanley Ketchel, and he hopes that the Michigan gander will take from the Ethiopian the honors which Burns lost to him. This is what Burns says in a letter: "I see where Ketchel and Johnson are

## WINDSOR TRACK OPENS TO-DAY.

Large Entry List For the Week's Meeting.

The entire trotting world is looking with much interest to the opening of the Windsor trotting meeting to-day, because of its importance as the "curtain raiser" of the 1909 Grand Circuit. For many years the events over the Canadian track have given horsemen and followers of the sport the first true line as to the prospects of the season's best performers, and it is here that campaigners are driven in what horsemen consider their true form. Windsor has received an unusually fine entry list, which includes the very best prospects of the year, and the week's events promise to excel all former records.

The inclosure, where the meeting will be held, looks fine. A wonderful change has come over the place since George M. Hendrie, Walter M. Palmer and their associates bought the property. They have altered and added annually, and this year they have put on the finishing touch, which makes it look like a real racing plant. The grand circuit drivers went out on the homestead and admitted that they had struck something with class to it.

A neat club house has been built beyond the grand stand for members of the club and friends. Its double verandah allows the fortunate ones to sit there and view the racing without going into the stand.

Back of the new building, in what was a grove, is the paddock, looking cool and comfortable for the horses that are to race. Everything has been brushed up and the grounds are in attractive shape to entertain the trotting horse folks this week.

One particular in which the Windsor meeting is strong is in its officials. A. J. Keating is presiding judge, and Frank Walker will start the fields. No men are better known and the public has the utmost confidence in both of them. Mr. Walker has not been here since he started at the Highland Park meeting eleven years ago.

matched, but I don't think Ketchel has a chance. I would like to see him win, but he seems made to order for Johnson. I hope, however, I am mistaken. I certainly would like to fight Johnson again, and to show what I think of my chances will agree to fight him, winner to take all, if the fight is scheduled to go to a finish and no police interference. I hope Ketchel wins and then I will get Ketchel, and if he ever gets to be champion of the world—good luck to him.

"I think Ketchel will be easy for me. I notice he would not cover the \$5,000 Hugh McIntosh put up, and Johnson and Langford sidestepped it also, so if I am so easy you would think they would cover my money and toe the scratch. But at that I don't care if I never fight again. Believe me, I got mine, but would like another chance at Johnson in a finish fight to show that a white man is his master, and I certainly hope Ketchel knocks his block off."

Tommy has been touring Australia filling a vaudeville engagement and receiving \$1,250 each night for his work on the stage. He played in every city of any size in Australia and intends to take in New Zealand, as he has received a flattering offer from several managers in that country.

Mr. Burns has been accompanying the former champion, and they went from town to town in their big motor car.

Tommy says he will soon return without a title, but with a fortune. He does not mention the date, intending that for a surprise.

Frank Mantell surprised Jack (Twin) Sullivan in their recent bout in California. Frank seems to be improving right along.

George (Elbows) McPadden has re-entered the game and is looking for long or short, limited or unlimited bouts.

The directors of the Army Athletic Club of Boston would like to bring Sam Langford and Joe Jeannette together for a twelve-round go.

John L. Sullivan says that Sam Langford will whip Stanley Ketchel. But don't worry about that, for Stan. isn't whipped yet.

Since the Ketchel-Papke fight there is some question as to whether Jack Johnson will meet Ketchel. This fall, Al. Kaufman is now spoken of as likely to be Johnson's next opponent.

## COMMENT AND GOSSIP

Jim Jeffries is off to Europe, and now it is Johnson's turn to "bluff."

If Johnson sticks to that auto of his there won't be much for Jeffries to do, even if they ever come together.

Yesterday's Belmont-Zingari cricket match at Philadelphia only served to show the glorious uncertainty of the grand old game. After piling up immense scores against some of the strongest cricketers in the United States, the Toronto Hamiltons were pummeled for pieces, as a score of seven consecutive ducks—including the bats they played, by King. The redeeming feature of the inning was Gordon Southam's 18.

PLAYS BANDIT.

New Jersey boy is Influenced Through Moving Picture. Then Attempts to Emulate a "Wild West" Hold-Up Scene.

Burlington, N. J., July 29.—A sacrifice of a child's life, directly due to impressions received at a moving picture show, took place at West Burlington last night when 10-year-old Joseph Kane shot and killed Frances Lord, 4 years old. The police did not learn of the crime until this morning.

At the inquest, Magistrate Smith said as would not be the boy's arrest until after the inquest to-morrow. Young Kane recently attended a moving picture exhibition, where he viewed a portrayal of so-called "wild west" scenes. What was supposed to depict a hold-up was shown, and the boy resolved to become a "road agent."

Yesterday afternoon his parents were away from home. Joseph discovered a shotgun which his father kept behind a door in the kitchen. Starting out with the weapon he proceeded to terrorize the children of the neighborhood. Most of the youngsters whom he met complied with the order, "Throw up your hands." Among these were Thomas Ocas, 11 years old, and his brother, John, 5 years old.

These two Joseph induced to join him in playing "highwayman." Finally the tameness of having the victims accede to their demands to surrender palled upon the youthful "bandit." Just then little Frances Lord came into sight.

Mrs. Lord was about to call from a window of her home for her daughter. As she looked out the window she was about to utter words stiffed with horror of the sight which confronted her. "Joseph had spied the girl going toward them."

"Here comes Frances," he cried. "I am going to shoot her!" He stepped toward the baby and raised the gun to his shoulder. "Look out, Frances," yelled the boy. "I'm going to shoot you."

There was a flash from the weapon and the little girl fell to the ground. Blood streaming from her forehead, her head, her mother screamed and swooned.

Mr. Lord ran to the child and carried her into the house and summoned a doctor, but the child died a few minutes later.

CITY FATHERS

Will Enjoy Themselves at Maple Leaf Park To-night. Mayor McLaren and nearly all the aldermen will visit Maple Leaf Park to-night. They are going down to have a jolly good time and to pay a long deferred visit.

The city fathers visited the park before it was going properly, and now that everything is in full swing they are going to go in for fun in earnest.

James E. Hardy, known the world over as the "high wire king," is the big attraction this week. He presents the strongest aerial act the management has yet offered to patrons. Hardy has devoted half a lifetime to making his business a success. His acts are various and numerous, amusing and sensational, and performed with an artistic grace and completeness never before seen here.

This wonderful performer has given sixteen exhibition walks across the Niagara gorge, and is the only man of the present day with the well earned reputation of having performed over Niagara. He has also performed twenty-one times over the Greenock gorge at Rochester, N. Y., which is over 200 feet high and 1,400 feet wide. He is the only man who has ever attempted this feat. He has given 74 performances over Montmorency Falls, Quebec, his wife having been suspended immediately over the brink of the falls, 325 feet high. He is likewise the only man who has ever performed on Friday last, the 10th, in the park, but amuse and benefit. It is one of the finest relaxations a person can find after a busy day in the city.

JOKE?

Young Woman on Car Threatens Suicide In Canal. About 7.30 last night a young woman on a Burlington car threw a piece of paper from the window near the Sherman avenue crossing.

On the paper were the following words: "I am going to drown myself at the swing bridge. Good-bye." "R. 87."

An Italian, who lives at 157 Princess street, picked up the piece of paper and at once took it to the police. Inquiries of Captain Lundy, at the swing bridge elicited the reply that that was the first he had heard of the case, and there had been nothing similar there. The police are of the opinion it is some one trying to work off a joke and excite curiosity.

BIKE THIEVES.

Two Good Wheels Reported Stolen Yesterday Afternoon. Bicycle thieves are at work again. Two valuable wheels were stolen yesterday. Mr. M. S. Glasco, of 37 King street west, had his Cleveland wheel stolen from outside of his house. The number of the machine is 65,350. Mr. Charles Groves left his bicycle in front of the Arlington Hotel, corner of John and King William streets, for a few minutes while he went inside. When he returned, it was nowhere in sight. It was a good Hartford machine.

THE LATE POPE.

Rome, July 29.—To-day was the sixth anniversary of the death of Pope Leo XIII, and a funeral mass was read at the sacred college in the presence of Pope Pius and the high dignitaries of the church.

BAND CONCERT.

The 13th Regiment Band will give a special musical programme on board the steamer Modjeska to-morrow afternoon, leaving Hamilton at 8.15, returning about 8 p. m. Tickets for round trip 50c. Come and enjoy a pleasant sail and an up-to-date programme of music.

TEA TABLE GOSSIP.

The shoe stores will be closed all day at Niagara Falls. The employees will join the general at Niagara Falls. Radial car 307 broke an axle at Irondale yesterday. Its passengers were transferred, and the car was sidetracked.

A meeting of Ingersoll old boys will be held at the New American Hotel on Thursday evening at 8.15, for the purpose of organizing for the re-union next month.

The wife of one of the city ministers recently lost a necklace of gold beads, valued as a wedding gift. The finder will confer a favor by returning them to the Times office.

The search is still being kept up in the lake for the body of Charles Green, but so far no signs of it have been discovered. Men are keeping watch along the shore, and a boat is still at work trying to locate it.

Sam Landers, of this city, is an aspirant for the office of President of the Trades and Labor Congress of Canada. At present he is Vice-President for the Province of Ontario. The convention will be held this year in Quebec.

HIT POLICEMAN.

Well-Known Crook Made Desperate: Attempt to Escape. Had Served Long Terms in Hamilton and Toronto Jails.

(Special Despatch to the Times.) London, Ont., July 29.—James Riehlly, a well-known crook, who has served several long terms in Hamilton and Toronto, made a daring attempt to escape from Constable Smith in the police station this morning. He is a huge man, about six feet five inches tall, while being brought from the cells he threw himself on Smith and with a terrific blow on the face knocked him to the ground. He had to go down the corridor to escape and while doing so other officers captured him. He was arrested last night at the G. T. R. station on a charge of stealing the property of David Grant, a Chicago traveller. He was about to get aboard a train for Toronto, and would not begin to button around him, and which left about a foot and half of his arms showing. He had taken the coat and other property from the room and by means of Smith's key, unlocked the door and made his escape. He was committed for trial this morning at the next sessions on a charge of stealing, and will appear in a week for examination on the charge of assaulting P. C. Smith.

EXTRA TRIP.

Oaklands Becoming a Very Popular Picnic Resort. Traffic to the north shore has increased to such an extent on Wednesdays that the Hamilton Ferry Company has decided to have the excursion boat John R. make a special trip every Wednesday afternoon during the season, leaving the John street dock at 2.30 and returning about 6.30. This will be a feature that will be appreciated by people who are in the habit of spending Wednesday afternoon at the park. "Baby's Day" on the bay was inaugurated yesterday afternoon, the John R. making a two-hour cruise of the bay with a boat load of mothers and babies.

HORSE THIEF AT LARGE.

So far no arrest has been made in the horse stealing case, in which a man hired a horse and buggy from E. J. Smith, livy stock, King street east, on Friday last, the 16th. The police are working, and hope very soon to apprehend the thief. Following is a description of the stolen horse and buggy and of the thief: Black horse, 10 years old, 15 1/2 hands high, good condition; black, open box buggy, red gears; black harness. Description of thief: Age 28 years; height 5 feet 6 inches; dark complexion; small, dark moustache; eyes set close together; dressed in grey suit of clothes; black Christie or black Fedora hat.

THINKS HE WAS ROBBED.

Thomas Henderson, an aged inmate of St. Peter's Home, received a gift of \$50 from a friend yesterday. He was up town during the afternoon and evening and fell in a fit on Bay street, whence he was removed to the city hospital. This morning he discovered that all of his money but \$1 and his gold pin and cuff links were gone. The authorities at the home are inclined to blame one, J. B. Corn for the loss of his money and valuables.

EIGHTY-ONE TO-DAY.

Mr. Wm. Cliff, 236 Herkimer street, is receiving the congratulations of his many friends to-day on his having attained to the good old age of 81 years. Mr. Cliff, though having been under the doctor's care for some time, is still hale and hearty, and able to tell many anecdotes of his younger days. The Times joins in the congratulations.

MAY LOCATE IN CODERICH.

Goderich, July 29.—The Good Roads Manufacturing Company of Hamilton waited on the Town Council of Goderich with a proposition to borrow \$50,000, without interest and free taxation. They purpose buying the large plant of the Rogers Manufacturing Company, now idle, belonging to the Doty engine works. They purpose increasing their output, and consider Goderich a very favorable location for shipments west.

For the Half Holiday.

"It be open on Wednesday morning, and can promise quick delivery of any Semi-ready Suit bought before 12 o'clock. It's worth while getting a Semi-ready \$15 suits for \$8," said Joseph McClung.

Fralick & Co's. July Clothing.

Sale starts Wednesday. It will pay you to get next to the clothes situation; look around, then come here. There isn't a suit sold in Hamilton for \$20 any better than our \$15 suits. Another line at \$9.98 equal to most \$15 suits. 13 and 15 James street north.

BACK TO WORK.

Steel Plant Strikers May Accept Former Wages. Question of Rent in the Way—Annoyed at Police.

Pittsburg, July 29.—The strikers at the Standard steel plant held a mass meeting two miles from Lyndora this forenoon, at which they ratified a plan to return to work for the former scale of wages, provided the company would reduce the rate of back rent payments from 20 to 10 per cent. According to the strikers, the company charged them rent for their dwellings during the several months the plant was closed down. In some instances this amounted to one hundred dollars, with the average about sixty. As nearly one thousand men occupied company houses, the latter has been extracting each pay day from the wages a sum equal to 20 per cent, say the men, which they declare, is too much.

There are still mutterings of resentment heard towards the state constabulary on account of the shooting of one of the strikers on Sunday, and as the saloons at Butte have been reopened trouble may result.

The sheriff received word from Gov. Stuart to-day that the matter of keeping the state troopers there would depend wholly upon his word.

Concerning the reducing of the rate of arrearage rent payments, Attorney W. D. Brandon, for the company, declared later that this would amicably be settled and that the strikers could prepare to carry out their part of the agreement, as the only men who would be charged a higher rate would be the ones that had prepared to leave the district.

SUTTON'S END.

(Continued from Page 1.) Adams with two revolvers, according to Adams' testimony.

The witness, Adams, fell into a number of discrepancies in his testimony, which his counsel, Arthur B. E. Inney, former U. S. district attorney at Washington, will endeavor to clear up to-morrow afternoon, at a hearing with the cross-examination. Mrs. Sutton's lawyer began to question Adams to-day about an interview with Sutton's sister, Mrs. Hugh A. Parker, shortly after young Sutton's death. Mrs. Parker, who is attending the hearings with her mother, had wanted to question all the young officers who were supposed to know something about her brother's death. She had asked Adams to grant her a talk alone and tell the truth about the matter, according to the testimony.

PREMONITIONS.

Sutton's Mother Knew Sister Got Warning for Brother. New York, July 29.—"Nearly 3,000 miles away at the very moment he died, I reeled as though I too had been struck. My head seemed bursting with pain; I pressed my throbbing temples; my heart almost stopped beating; I thought that I should swoon."

"Something has happened to Jimmy," I cried as they led me upstairs. "The family laughed at my fears. I began to pray."

The next day the message came from Annapolis that my boy was dead—a suicide, I knew then it was false; I have fought every day and hour since to prove it."

Twenty months ago Mrs. James N. Sutton, mother of Lieut. Sutton, made this statement, according to T. N. Tiller, an American reporter in Washington. A few days later a naval investigation board declared that Lieut. James N. Sutton, U. S. N., had killed himself.

"On the day following the night that Mrs. Sutton felt that 'something is wrong with Jimmy' her husband stood before the little family group in Portland."

"Can you stand a shock?" he asked the mother. "About anything except Jimmy," she replied.

"It's about Jimmy," he father replied; "he's dead at Annapolis."

"How did he die? Did a cannon explode? Was he murdered? Did he drown at sea?" the mother asked. "No," was the reply to each question. "Now, then, what do you mean?" she asked.

"They say he committed suicide," said the father. "They say a lie; Jimmy did not, could not take his own life," the mother answered. The conviction of that moment marked the beginning of the fight, the last act of which is being enacted at Annapolis this week.

Mrs. Rose Sutton Parker, sister of Lieut. Sutton, also tells of a supernatural warning of her brother's fate. "After I had received the news that Jimmy was slain," said Mrs. Parker, "and was on a train crossing the Rockies on my way to his funeral, he came to me in a dream."

THE WEATHER.

FORECASTS—Light to moderate winds, fine. Wednesday southerly winds, fair and warmer.

SUDDEN CALL.

Mrs. Duff Died Without a Moment's Warning. Death came with terrible suddenness this morning to Mrs. M. Duff, an old and respected resident, who roomed at the residence of Mrs. Witticombe, 59 Cathcart street.

For the past few months Mrs. Duff had been troubled with a weak heart, but last night and early this morning she was feeling quite well. This morning she remained in bed and asked that her breakfast be sent to her, as she felt sleepy and intended to get another nap. She was given a light breakfast, and Mrs. Witticombe left her to have a quiet sleep. Mrs. Witticombe left the house for a few minutes and when she returned she found Mrs. Duff at the back door, gasping as though in a fit. She called assistance, but despite all that could be done, Mrs. Duff passed away. She was 64 years of age and leaves a family of two sons and one daughter. P. C. Bettles is a son-in-law. Dr. Hopkins was summoned and said death was due to natural causes.

The remains of James J. Jackson arrived this morning from Toronto, and were taken to the residence of his mother, 223 George street. The funeral will take place from his mother's residence on Wednesday afternoon. L. O. L. No. 1,019, will attend in a body. Death occurred at a widow, two sons and one daughter, all grown up and residing at home.

GROCERS' HOLIDAY ON WEDNESDAY.

GOT 18 MONTHS.

Ottawa, Ont., July 29.—Albert Miron, who stole a horse in Ottawa on circus day, June 22, and jumped the town, was sentenced to 18 months in the penitentiary for defecating in public places. He appears before Magistrate O'Keefe to-day and was sent to the Central for 18 months.

MANAGER DEAD.

Montreal, July 29.—James G. Monk, local manager of the American Bank Note Co., is dead in his fiftieth year. In his younger days he was a noted athlete and oarsman.

THE ICE PROBLEM.

The ice bill is no small part of the household expenses, and the weather. All householders who can afford it at all feel that they cannot do without ice, but while worrying over the bill, they often allow waste, by not giving proper care or thought to the matter.

It seems absurd to ice chest slant, but it is a fact that time after time, even in careful families, the door of one or more of the compartments is left on a crack.

This, of course, lowers the temperature of the chamber and wastes ice rapidly. It is no economy, for the same reason, to use little ice for the size of the refrigerator.

The temperature rises, through lack of sufficient ice to keep it down, and he next piece that is put in goes much faster than it should. It is better to get a large block of ice several times a week, as large as one as your refrigerator will hold, then a small one every day.

INDUSTRIAL CENTRE.

Busiest Manufacturing Region on Earth Due to England's Coal. About the busiest industrial region on earth is the lowland of England from Lancashire and the Mersey River on the west to Newcastle-on-Tyne in the northeast. Here are scores of cities and towns, the home of the textile industries, the potteries, the great shops busy with iron and steel and other raw materials, manufacturing goods of high value for a market as wide as the earth.

Over all this lowland hangs a black pall of soft coal smoke, the landscape studded with tall sprouting chimneys. For all this endless activity in manufacture, says the World To-day, is wholly due to the location in these lowlands of fabulously rich deposits of coal.

Coal for a century and a half has been a magical bank account in Great Britain, bringing into existence these great artisan populations, making demands on every continent for the metals and timber and textile fibres for the busy mills, and then calling on the farms and ranges of America for Argentine and other new lands, for the bread and meat to feed these industrial millions.

Of all this textile territory Manchester is the central market and clearing house. In the Manchester Exchange 177 towns are represented, eleven of them having each a population of 100,000 or over.
