Newcastle, N. B.

MARITIME FREIGHT RATES QUESTION

Views of the Public to Reach
Railway Board Before Aug
16th.

Hon. H. A. McKeown chairman of the Board of Railway Commissioners said before leaving for Ottawa, Wednesday, that he could not say definitely whether or not the present reduced freight rate on potato shipments from eastern to western provinces would prevail after the month of August, the time when this special monthly rates clause will have expired. He was accompanied by Mrs. McKeown.

He stated that the Board of Commissioners would not visit the Maritime Provinces in a body, but that they have requested the public to organize, firms, companies and individuals to state their views on

the Maritime freight rates matter in writing before the Board prior to August 16.

Hon. Mr. McKeown further stated that he did not expect any action would be taken regarding the communications received until fall.

Millerton W. I. Monthly Meeting

The regular monthly meeting of the Millerton Women's Institute was held at the home of Mrs. John Hackett, Chelmsford, Thursday, July 16. The meeting opened in the usual way by singing "O Canada." Three visitors were present. Miss Nutter, supervisor of the Women's Institute, sent a paper to be read at the meeting on "The problem of the feeble minded." This paper was read by Mrs. W. A. O'Donnell. The meeting closed with the National Anthem.

WILLIAM JENNINGS BRYAN DEAD

DAYTON, Tenn., July 26—William Jennings Bryan was discovered dead in bed here this afternoon by a servant. He had retired to his room in the early afternoon for a nap and was found dead at 4.30 o'clock. Mr. Bryan was born in 1860 and was 65 years of age.

Heart disease was given as the cause of his death.

LESS SPEEDING

Since announcement last week that Mr. A. E. Quartermain of this town had been appointed patrolman on the highway bridge and Tarvia road, there is a noticeable difference in the speed of motorists. It is to be hoped that the good work will be kept up and thereby make this highway safe.

ANOTHER ACCIDENT ON TARVIA ROAD

Another Sunday of perhaps early Monday morning accident occurred on the tarvia over the week end when a car, stolen from the garage of G. P. Burchill, South Nelson, crashed into the culvert near G. E. Fisher's farm between 12 o'clock and 1 o'clock in the morning.

How many were in the car is not known, as yet, though the authorities are working on the case, but Louis Williams of South Nelson was very badly hurt and had to be conveyed to the Hotel Dieu hospital by Greg McEachren who passed along a few minutes after the accident. Word from the hospital stated that Williams was very badly cut.

The car had been taken out of its garage sometime after 9 o'clock Sunday night. It is pretty badly wrecked with windshield gone, front axle bent and fender crumpled up.

CONDITIONS ON NORTH SHORE REPORTED GOOD

Chief scaler A. T. Murchie returned to Fredericton Friday night after spending several days on the North Shore on official business. He states that the country looks well with crops in good condition potatoes looking particularly well.

Mr. Murchie says that the cut of last season which reached the saw-mills is about half manufactured. Chatham owing to local conditions has had no milling this season but adjoining places have had mills running steadily.

Pulpwood Operations
The Snowball interests have cut much budworm and fire damage pulpwood on the Tabusintac selling it to the Fraser interests. It is possible that if rail rates are satisfactory that there will be extensive operations in pulpwood in the area covered by the 1923 fires, for the Edmundston pulp mill of the Fraser companies.

Preparing For Logging.
Cruisers are now in the woods lining things up for the ensuing logging season. Some crews will be in the woods next month preparing for those to follow them and supplies already are going in.

Potatoes Good in North.
O. C. Hicks of the Soils and Crop Division of the Provincial Department of Agriculture also has returned from the North Shore. He states that from a farming viewpoint that part of the Province looks well. Potatoes are better than in other sections the missing reported from the Upper Saint John and other parts not occurring there.

OPPOSITION CANDIDATES SELECTED AT CONVENTION

The Opposition party in Northumberland county met in convention here Friday afternoon and nominated S. D. Heckbert, of Chatham; J. Leonard O'Brien, of Nelson, Akery Holmes, of Doaktown and Frank Lavole, of Rogersville, as its candidates in the Provincial elections to be held on August 10th next. Eight names were submitted to the convention, the other four being Dr. W. B. Jones, of Chatham, C. E. Fish Newcastle; Mederic Chaisson, of Rogersville, and W. A. Bamford, of Doaktown. A single ballot sufficed, as the four men above mentioned secured a majority of votes in the convention. E. W. Watling, of Chatham, and D. P. Doyle, of Newcastle, also were nominated but both withdrew for personal reasons. After the ticket had been named the convention was addressed by Hon. Dr. J. B. M. Baxter, leader of the Provincial Opposition party. He gave an outline of the Opposition party's policy and strongly scored the Veniot government for its extravagance. The four successful candidates for nomination also gave short addresses, thanking the convention for the honor conferred upon them and expressing confidence in the outcome of the campaign.

The convention opened in the opera house about two thirty o'clock. The accredited delegates in attendance numbered one hundred and seventy one.

The gathering was called to order by A. D. Holyoke, Provincial organizer of the Opposition party. He explained the purpose of the convention and asked that a chairman and secretary be named. On motion John Betts of Millerton, was appointed chairman and Thomas Maltby, of Newcastle, secretary. The chairman made a short address expressing his confidence in the successful outcome of the elections. Mr. Holyoke then informed the convention that it was the wish of the Opposition leaders that only the names of those opposed to the present government and supporting the policy of Hon. Dr. Baxter should be placed before the convention for nomination.

After the various candidates had named scrutineers, the balloting was proceeded with the result of the first ballot as follows:

J. L. O'Brien—146.
S. D. Heckbert—135.
F. J. Lavole—124.
A. Holmes—92.
C. E. Fish—73.
W. A. Bamford—42.
W. B. Jones—37.
M. Chaisson—35.

The first four were declared elected, having secured a majority of votes, on motion the vote was made unanimous.

NEW FISH HATCHERY FOR MIRAMICHI

The Department of Marine and Fisheries has been urged by T. W. Caldwell, M. P. for Carleton-Victoria, to construct an up-to-date fish hatchery on the headwaters of the Miramichi. In answer to his requests he has received the following letter from the Minister of Marine and Fisheries.

Ottawa, July 17.

Dear Mr. Caldwell:—

After careful consideration of the whole situation and the requirements in the way of salmon and trout fry on the central part of New Brunswick, and in view of your urgent representations, I have decided to authorize the construction of an up-to-date salmon and trout hatchery in that district, located at a point where it will best cover the numerous waters in conjunction with the existing main hatcheries at Grand Falls and Saint John, and the subsidiary hatchery on Tobique River.

Plans and specifications are now being prepared and construction will be undertaken as soon as the necessary preliminary arrangements have been completed for a hatchery of upwards of three million egg capacity.

Yours very truly
J. P. ARTHUR CARDIN,
Minister of Marine and Fisheries.

PREPARING FOR GENERAL ELECTION

A short but vigorous campaign with candidates and supporters aroused to an unusual degree of activity and excitement has already begun, and will continue to the eve of the provincial election, Aug. 10th. At the present time both government and opposition organizations have exceptionally large clerical staffs attached to headquarters. For over a week past the task of getting all possible names placed on the voters' lists has been pursued with vigor, and prior to that, for a considerable period, opposition workers had made pretty thorough surveys of the county. Both parties of late, however, have been working at top speed, energetic efforts made, especially to get all women voters possible on the lists. With this end in view canvassers have been sent to all sections and great numbers of registration cards filled out. The women voters in the present campaign have been eagerly sought after and many of them in turn have become enthusiastic. They will play an important role on voting day and in the days that still intervene before election.

With the closing of the period Saturday, in which names could be added to the electoral lists, this phase of organization work ended and this week candidates take the tide of oratory which is hoped will carry them into the haven of the legislative halls at Fredericton.

The campaign promises to be both "peppy" and personal and many will be told what they want to hear, believe what they want to believe, and grow indignant at what may be true but "unpartyotic." Voters will be instructed and then re-instructed, party and progressiveness, province and partisanship, hydro, pasteurized milk and "boose" will all be tossed into the political pot and the voter left to select what he likes best. Out of it all will emerge the solution of the people.

Vol. 2 No 30 NEWCASTLE, N. B. JULY 28 1925 FREE

The Financial Post

Featured on its editorial page, June 26th, the success of Mohr in making chocolates of such quality that "a firm located at the extreme eastern end of Canada has been able to capture markets in every

section of Canada, overcoming handicaps of watersheds and distance from markets."

Another extract: "The presumption of a Canadian concern trying to sell chocolates in a country (England) famous for chocolate manufacture was viewed with dismay, but in the end the market was captured. Mohr's Chocolates today enjoy a good share in the Old Country."

HOWARD P. ROBINSON NEW PRESIDENT

Howard P. Robinson, of Saint John was elected president of the New Brunswick Tourist and Resources Association at the annual meeting held on Wednesday afternoon, at the Board of Trade rooms, succeeding C. C. Avar, retiring president. Raymond S. Peck, director of the Canadian Government Motion Picture Bureau, and F. C. Badgley, assistant director, received assurance of co-operation in their work of filming interesting provincial features.

President Avar, in his address, emphasized the importance of the tourist industry and said the number of tourists coming to the province could be at least fifty per cent greater than last year. More advertising, better hotel accommodation and an increased interest in the welfare of visitors were advocated. On Mr. Avar's suggestion, the date of the closing of the fiscal year was changed from June to December 31.

The retiring president also advocated that the financial support of hotels, garages and others, directly benefited by tourist travel, be sought. Also that private camp sites be encouraged and that the president and secretary-treasurer visit different sections of the province to ascertain actual conditions.

The question of advancing the membership fee to \$5.00 will be discussed at the next meeting.

New Law Provides Stiff Penalties

Smugglers of liquor, local bootleggers and even purchasers of an occasional bottle, now face stiff jail sentences as an amendment to the Customs Act, passed at the recent session of the Federal Parliament, has greatly increased the penalties for the smuggling of liquor into the country. The full text of the amendment has been received by the Customs Officers and they are instructed that heavier sentences are possible for offenders.

According to the instructions received the man who may be found with one bottle in his possession upon which the lawful customs duties have not been paid is liable under the amendment, and may be sentenced to prison at the discretion of the magistrate.

In the past the penalty for the offence which is now indictable, was an imprisonment for six months or pay convicted person. Under the amendment of a \$200 fine, optional with the term upon the first conviction, the term of imprisonment to be imposed is not less than one year and not exceeding seven, while for an old offender, the term may stretch anywhere from three to ten years. Fines when imposed will be in proportion to the value of the liquor seized.

DEVICES MAKE WOMEN LAZY

The modern housewife is not getting sufficient exercise, Dr. Guy E. Manning of San Francisco, editor of the Pacific Coast Journal of Homeopathy, declared today in an address to the 81st, annual convention of the American Institute of Homeopathy.

"The labor-saving devices which have come on the market to make the work of the modern housewife easy are making her lazy, instead," said Dr. Manning. Every man is anxious to spare his wife unnecessary labor, but for her own good she should take some exercise.

"Men need the same kind of scolding, because many of them are downright lazy. But they will go out for golf if they have half a chance or will take vitacious exercise in a ball park which is not a bad place if he'll entuse properly in the game."

After Every Meal

Pass it around after every meal! Give the family the benefit of its aid to digestion. Cleans teeth too. Keep it always in the house.

Laurier's Library Bought For Canada

Sir Lester Harmsworth Presents It to Dominion Government.

Sir Lester Harmsworth has purchased Sir Wilfrid Laurier's library and presented it to the Canadian Government. This valuable collection was secured through the efforts of Dr. Doughty, Dominion archivist, and will be placed in the Northcliffe collection, which now occupies a large room in the new archives building.

Sir Wilfrid Laurier's library contains one of the finest collections of Canadian historical works that is to be found in the Dominion. The late Premier was a great student of Canadian history, and seized every opportunity to add to his library works dealing with the political de-

velopment of the Dominion. Sir Lester Harmsworth, who is a brother of the late Lord Northcliffe, was always greatly interested in Canadian affairs and spent immense sums in acquiring historical documents, both French and English, dealing with Canadian history from the earliest period. It was he who acquired the valuable Montcalm and Wolfe papers, which he presented to the Dominion Government at the request of Dr. Doughty, and are now known as the Northcliffe collection in memory of his famous brother.

PRESBYTERIANS WILL BUILD NEW CHURCH

Re-Organization by Presbyterians of Chatham and Vicinity Has been Effectuated.

At a largely attended meeting of the members and adherents of the Presbyterian Church of the Town of Chatham and vicinity, held in the Masonic Hall building on Wednesday evening, it was unanimously decided to continue a Presbyterian Church in affiliation with the Presbyterian Church in Canada; and immediate steps will be taken to build a Church and Sunday School suitable to the needs of the congregation.

The following Trustee Board was elected from a list of eighteen nominees—D. P. MacLachlan, R. A. Loggie, F. M. Tweedie, J. K. Loggie; A. T. Ross, Clifford Galloway; James Goodfellow, Wm. Mowatt, Wm. Johnston.

The Trustees were instructed to procure plans for a church building and submit same to a meeting of the congregation for approval.

Committees were appointed to organize a Sunday School, provide a library for same, and make arrangements for congregational picnic; also to take the necessary steps with a view to securing the services of a permanent minister.

At a subsequent meeting of the Trustee Board on Friday evening, the following officers were elected—F. M. Tweedie, Chairman, D. P. MacLachlan, Treasurer, A. T. Ross; Secretary; and the several necessary committees were chosen to carry on the work of the new congregation.

Duke of Athol Mentioned as Governor General

Who will be the next Governor-General of Canada?

This question is one of the most popular topics for speculation wherever Canadians in London meet at any social function such as the King's garden party.

A number of names are being discussed. Among those most mentioned are the Duke of Athol, whose wife is a particularly able and popular personality in the House of Commons. There is a general consensus of opinion that he would make an excellent appointment if no member

of the royal family is available. It is known that the King considers both the Duke of York and Prince Henry too young at present to occupy such an important position, but is willing to give his assent to their appointment if Canada expressly wishes it.

Other names freely mentioned are those of Lord Willingdon, who has taken a great interest in Canada and recently presented High Commissioner Larkin with the Quebec Shield at Hastings; also Earl Caven, to whose nomination there is a natural objection that Canada would probably not want two soldiers in succession at Rideau Hall.

Meanwhile, until somebody is definitely chosen, the Anglo-Canadian world in London is going to continue an interesting series of speculations.

Police Failed To Find Trace

Of Professor Joseph Victor Collins, Who Disappeared Monday

LONDON, July 22—A twenty-four hour search by Scotland Yard, has failed to reveal even a trace of Professor Victor Collins, of Stevens Point, Wis., delegate to the World Federation of Education Associations who disappeared here Monday.

Prof. Collins had intended to take a late train Monday night for Edinburgh where the educational convention is in session. He went to the station to obtain railway tickets and that was the last his daughter saw of him.

ADVERTISING AND BUSINESS

Advertising and business are close partners. They are responsively sympathetic. In the times of the years ago advertising was good in periods when business was good, and if there was a panic advertising slumped. Now there is less indication that business affects advertising in as great a degree as advertising affects business. In the old times merchants, for example, advertised in the local papers liberally when business was high, spirits high, cash plentiful and when they "felt they could afford to spend money with the newspapers." But that era has passed.

Business men put their first rank business judgement, sense, skill into their advertising campaigns; for on these advertising campaigns depends the volume of their business. Competition is sharp; if business is good they advertise to keep it so and to get their own share and a little more if possible of what's doing in the trading line; if business is "cool," then they realize the absolute necessity for advertising for a number of good reasons. The

people, they know, are then eagerly looking for the best places and the best prices, the business is not plentiful enough to go around with two or three liberal helpings and they resort to attractive, intense, emphatic advertising to get the largest possible proportion of what there is in sight.

In the old times the business men put advertising into the business system only when he thought the system was strong enough to stand it, nowadays he feeds his business a regular diet of advertising to keep its circulation normal, its strength vigorous, its growth steady; he gives it the extra treatment when he finds that a tonic or a stimulant is most required.

Business men are coming to the same view of advertising as an element, a vital, everyday, regular, steady element in business.

GIVE SCOTT'S REGULARLY

Wheat-Eating People

Canadian farmers grow the best wheat in the world and Canadians naturally eat more wheat than any other race of people, considerably more, strange to say on the average than the people of the United States.

The following table shows succinctly the number of bushels per capita eaten by various races and people: Canada, 9.5; France, 7.9; United Kingdom, 6.0; Australia, 5.5; United States, 5.3; Argentine, 5.2; Chile 3.4; Sweden, 2.5; Germany, 3.2; British India, .8; Mexico, .8; Japan .5.

World's Deepest Mine

The deepest mine in the world is the Morro Velho, Brazil. It has reached a vertical depth of 6,426 feet below the surface of the earth. This great depth is attained not by one shaft but a series of five, staggered to follow the 45 degree pitch of the lode with which it is connected by cross-cuts.

In India there is a mine in which a depth of 5,400 feet has been reached; while in Michigan there is a copper mine which is one mile deep vertically. In South Africa there is a mine where the engineers are planning to sink a shaft to a depth of 5,000 feet.

Choppy Bits

No war is over until the allies are as friendly toward one another as they were toward the enemy.

It isn't recorded that any people became great by scoffing at religion.

...we have teeth. The trouble is money are the kind that come out at night.

Substitute for Sugar

...of great importance to the sweetening world has been made by the United States Department of Agriculture—that large quantities of a chemical known as inulin can be extracted from artichokes, and that this substance is sweeter than itself as great again as cane sugar.

Artichokes want practically no cultivation, and are regarded more as useless weeds than anything else in North America, though the Indians used them as a food before the white men arrived.

Careful experiments are being made to see how far inulin can be used as a substitute for sugar, which is still expensive when compared with its old price.

The Editors Reply

Simpkins considered himself a humorist. He sent a selection of his original jokes to the editor of a newspaper and confidently awaited a remittance. His excitement ran high when he received a letter, obviously from the newspaper office.

He opened it with feverish haste. There was no cheque, however, just a small note, as follows:

"Dear Sir,—Your jokes received. Some we have seen before; some we have not seen yet."

A Hot Argument

—Never helps develop cool judgments.

—Is a poor way to make warm friends.

—Seldom settles any real differences.

—Cannot be conducted in low tones.

—Means tongues in high wits brains in neutral.

—Never smothers any old animosities.

—Seldom increases any one's self-respect.

SENATE VACANCIES WILL BE FILLED

Hon. A. B. Copp or Hon. W. E. Foster May Get New Brunswick Appointment.

A despatch to the Toronto Mail and Empire, under Ottawa date line, declares that before the prospective Dominion general election the Government will fill the present vacancies in the Senate. There are nine seats now vacant two in the Prince Edward Island quota, one in New Brunswick, two in Quebec two in Ontario and two in Alberta. The Mail and Empire despatch mentions the following as possible appointments to these vacancies:

Prince Edward Island—Hon. John Sinclair and J. J. Roches, M. P.
New Brunswick—Hon. A. B. Copp and Hon. W. E. Foster.
Quebec—Hon. Jacques Bureau, Sir Lomer Gouin and Hon. Dr. Beland.
Ontario—W. G. Raymond, Dr. Rankin, W. M. German and W. D. Euler, all members of the present Parliament.
Alberta—Hon. Philippe Roy, now Commissioner General in Paris; W. A. Buchanan and Hon. Frank Oliver.

OHIO BOYS SPEND VACATION IN N. B.

Reach New Mills in Two Special Cars to Camp Several Weeks

A camp for the sons of wealthy citizens of Cleveland, Ohio has been established at New Mills, between Campbellton and Bathurst, on the North Shore, and recently two special cars carried them to their vacation site, according to A. H. Lindsay. "This camp is ideally situated," Mr. Lindsay said "and offers these boys every opportunity for healthful recreation, including baseball, swimming, fishing and hunting. Horseback riding is included. There is a staff of experts in charge and the boys are delighted with it. They will remain there for several weeks yet. It costs quite a bit of money to bring these boys down here but it is only another indication of the growing popularity of this province as a vacation ground during the hot summer months."

INDEED HE WOULD

There were three of them—an Englishman, an Irishman, and a Scotsman; and they had been discussing the relative values of their respective nationalities.

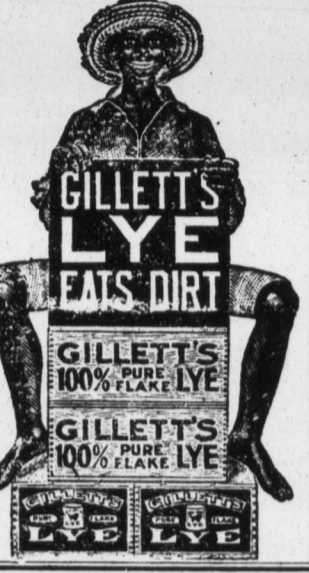

"Well well," said the Englishman, who was bent on an amicable solution of the question, "I'm proud of being an Englishman, but if I were not an Englishman I would—well, I would be an Irishman."

"And sure," replied the Irishman, quite ready to return the compliment "if I were not an Irishman—I would be an Englishman."

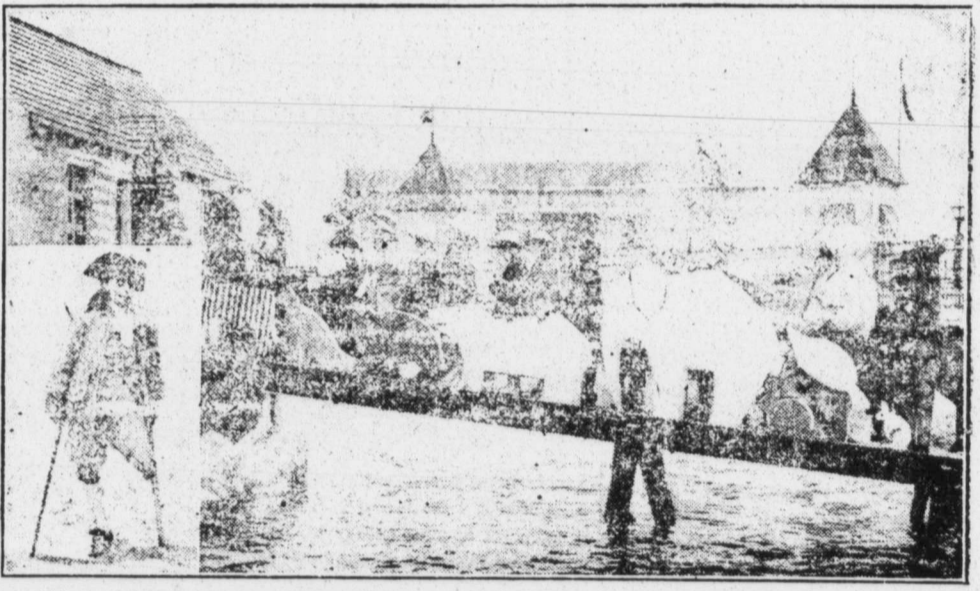

"And now what would you be if you were not a Scotsman?" continued the Englishman, addressing the Scot.

"What would I be if I were not a Scotsman?" repeated the latter.

"Well, if I weren't a Scotchman—ah, I would be just dem weel ashamed o' mysel'."

Alice Discovers New Wonderland at Wembley

"The animals went into the Ark in case it should rain." "Long John Silver was also there."

"I know what we'll do," said Alice, "let's go to Wembley." "What do you want to go to Wembley for?" asked the Walrus, who was always asking foolish questions anyway.

"I want to see the sailing ships and sealins-wax and cabbages and kings," replied Alice.

"Ha, ha," laughed the Walrus, "you won't see any sealins-wax there, it's all at Madame Tussauds and I have my doubts about the cabbages, too."

"Well, I shall see lots of sailing ships and kings," said Alice starting to cry, for she was very fond of cabbages, "and, anyway, if you go to the Exhibition you won't be able to get in to Treasure Island as they don't admit adults unless they are escorted by children."

"Oh, all right," said the Walrus, who, being 182 years old, no longer regarded himself as a child and had secretly wanted to go to Treasure Island all the time.

So away they went.

When they arrived at Treasure Island they found a real train—not a very big one, it is true, but nevertheless, the real train in the world—putting like a grampus, at a little station labelled Banff, as if anxious to get on its way around Wonderland.

"Look," said Alice, "there's Peter Pan."

"That ain't Peter Pan," said the Walrus, whose education had been sadly neglected, "that's a Canadian Pacific engine."

"I don't care," answered Alice, starting to cry again, for, like all modern children, she hated to be contradicted by her elders, "it's called Peter Pan because it goes everywhere and never gets old or tiresome." This sly reference to his are effectively rebuffed the Walrus, who now relapsed into silence, and didn't say another word until they were seated in the little train and slowly pulling out of Banff.

It would take too long to describe all the things they saw or all the wonderful people they met, but they had such an interesting time that Alice soon forgot all about her cabbages and sealins-wax.

There was Long John Silver, with his one eye and wooden leg and piratical disposition; and there were Mother Goose, Sir Francis Drake, Robinson Crusoe and Man Friday, Humpty Dumpty, Little Bo Peep, Jack and Gill and all the other fairland people Alice had read about but never met before. And they saw the animals going into the Ark which Noah had provided for them in case a rainy day should come along and wash off all their paint.

Of course, they saw lots of other things, too—the Rocky Mountains, for instance, and the Golden Hind.

"While we're about it," said Alice, when they had seen all there was to see at Treasure Island, "we might as well go in and see the Canadian Pacific Pavilion. Everybody goes there, you know." So in they went, and saw all the good things to eat and wear and work with that they have in Canada. They were shown around the building by a big man in blue who had "C.P.R." on his epaulettes, and explained to them that the initials meant Canadian Pacific Railway, and that they had put up this building and made Treasure Island in order to let the boys and girls in England know what a fine country Canada is. But it presently began to get dark and Alice had to take the Walrus home and give him a bath before he went to bed.

"Well, that's that," remarked the Walrus, when they got outside.

"Of course, it is," replied Alice, "what else would it be?" "I mean it's all over now," grumbled the Walrus who had been annoyed because Alice had refused to allow him to go into the Ark with the other animals, "and you didn't see any sealins-wax or cabbages, and not many kings either."

"That's quite true," replied Alice patiently, "but I've found out a lot about Canada and I've had a jolly good time, so you may grouse as much as you like—I'm quite satisfied."

And so they went home, and the funny part of it is, Alice did not wake up—for she had not been dreaming at all.

Puts Flavour into Home Cooking

Don't think of Mustard merely as a spicy relish to enjoy with cold meat.

Mustard is a seasoning to be used as widely as you use salt and pepper.

Mustard brings out the natural hidden flavours of cooked dishes and, adding its own flavour, gives them a new zest and relish.

Colman's Mustard
aids digestion

Nut-Flavored Potatoes

The homely Irish potato may soon lose its simplicity and adopt sophisticated foreign manners if experiments now being conducted by the U. S. Department of Agriculture succeed.

Agricultural explorers have brought from the high Andes of Columbia and Peru rare varieties of potatoes that have a flesh as yellow as butter and a delicious nutty flavor. The tubers are a little smaller than the North American variety. Experts of the department are now engaged in crossing the new Andean potato with the common "spud". It is hoped that new forms will be developed that will combine the flavor and color of the Peruvian potato with the size and reliability of the North American tuber, and one that will be readily adaptable to the climate of the United States.

"Our people are not under the whip, now nor at any time. They paid too much for freedom in the past to give it up now."

I quote from the statement in your last issue signed by L. H. MacLean. I ask then why do we sell our birthright for a mess of pottage? Shall we not keep that independence for which our forefathers paid? What are we getting in return for the enormous sacrifice we are asked to make? Church Union may some day be an accomplished fact; and the day may even come when the lion and the lamb will lie down together. But that event must be preceded by a long, long time of training, and Presbyterians will take to heart Mr. MacLean's own words, and will need consider whether the long looked for millennium has come and we're brothers all in word and deed, or whether we are not giving up that freedom so nobly earned—the freedom to worship after our own Presbyterian way (I had almost said ritual)—for a empty consideration—sowing dissension in the ranks of a hitherto United Presbyterian Church—driving our fellowman from the Church of his fathers—opening a wound which years will not heal—forcing another split in ranks which have had hitherto a semblance of Unity.

That New Brunswick MUST vote on Union under the Federal Act is amply proved by the fact that Mr. MacLean, much against his will, is doing so. That other churches in New Brunswick are doing so—That many churches in New Brunswick recognized this fact long ago, met the situation fairly, and held their FIRST voting by ballot.

I do not propose to get into any controversy in this matter, but I say here and now, and I say it with conviction, the property of St. James' Presbyterian Church cannot pass into Union until the laws now standing on our Statute Books are complied with. I may say that the Rev. Mr. MacLean said to me that these laws "could be repealed." That is true. What fair minded man in the Congregation will second this proposal?

Yours very truly,
R. T. D. AITKEN.

SCHOOL BOOKS DISTRIBUTION

Many Shipments Have Already Been Made and Others Going Forward

In the distribution of free school books from the School Department, applications have been received from some five hundred of the fourteen hundred school districts of the Province. Three hundred shipments have been made and the department would have its work facilitated if the remainder of the districts would send in their applications.

Grade V and Standard III
The free text books are being supplied to the lower grades up to and including Grade V. Grading however is in effect only in the town schools. The rural districts are classified in five standards covering the same work as the eight grades. In the rural school the free books are furnished up to and including Standard III. Fifty Thousand Pupils.

Approximately fifty thousand pupils are to be supplied with books of whom twenty thousand are in rural schools. With applications coming in more rapidly the work could be speeded up.

Keep Children Well During Hot Weather

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through.

They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

BEGIN MOVING BUFFALO NORTH

Surplus Animals in Nations Park at Wainwright Go To Wood Buffalo Reserve

The success of Canada's experiment in conservation of buffalo is shown by the steady increase in the herd in the Buffalo park at Wainwright. In 1909 the herd numbered 709, over two thousand have since been slaughtered for commercial purposes, and this spring there were about eight thousand in the park. The herd has now reached a point where there is a substantial surplus over and above the average storage capacity of the park. That surplus this year is to be disposed of by sending the animals to the Wood Buffalo park near Fort Smth, on the borders of Alberta and the Northwest Territories. The first weekly shipments have begun and will continue at the rate of two hundred animals per week until a total of about two thousand animals has been transported. The buffalo are loaded on railway cars at Wainwright and shipped to Waterways, Alberta. Here they are transferred to scows, which are towed down the Athabaska and Slave rivers to the Wood Buffalo park where the herd will be under the care of the Northwest Territories and Yukon Branch. The Wood Buffalo park or reserve is an unfenced area of ten thousand five hundred square miles, in which a herd of wild wood buffalo has ranged and thriven for many years.

The experiment is one of great moment, both as regards the conservation of buffalo and as to economic and food conditions in the north country.

GAVE SITE FOR NEW CHURCH

Large Clerical Staffs Attached to Both Political Headquarters

The Jewett Estate, property on Charlotte street, just below Carleton streets, which had been one of the suggested sites for Fredericton's new high school, is to be the site of St. Andrew's Presbyterian Church, which is the name that has been given the church which is to be erected in Fredericton by the recently constituted continuing Presbyterian congregation.

The property has been given to the newly formed Continuing Presbyterian congregation by Mrs. Eliza Jewett, a life-long Presbyterian, at the suggestion of her son, John Jewett, who has deeded in fee simple the property which, it so happens, adjoins the lot on which is located the Manse of St. Paul's Church, the congregation of which has just voted to 1 in favor of Church Union.

Announcement that Mrs. Jewett has given the Charlotte street property as the site for the new church was made at the weekly meeting of the new congregation, held Thursday night at the Oddfellows' Hall, Queen street, when the deed of the property was read to the congregation by Isaac Crockett, who presided. The congregation received the announcement with the singing of the Hymn "Praise God From Whom All Blessings Flow."

It is expected that the erection of the new church will soon be commenced.

Rush to Beardmore Gold Country

Development Work Was Commenced on Some of the Claims.

PORT ARTHUR, Ont., July 22— "Tenderfeet" experienced mining men and prospectors are now on their way to the new gold strike in the Beardmore district, 130 miles east of here on the main line of the Canadian National Railways, and many claims already have been registered at the mining recorder's office here. Thirty claims were recorded yesterday.

Engineers, representing large mining concerns are reported to be enroute to the new field, while last night, an advance guard of "city fellers" left for the gold camp, the party including a tailor, a shoemaker, a merchant and an auctioneer.

Development work has commenced on some of the claims, and the Neenan property at Mileage 18 has been stripped, and will be the first to be viewed by engineers. Prospectors who arrived here yesterday to stake their claims, declared the district to be a real "gold country."

THE SEA OTTER

The time is not far distant, when people will point to the sea otter as they now point to the passenger pigeon. Due to the ruthless slaughter of this wonderful fur animal they are now practically extinct. The Foulke Fur Company of St. Louis, Mo., in advertising their sale of Alaska Sealskins, handled for the United States Government, listed 7,000 sealskins and only two sea otter.

Bank Amalgamation Was Ratified

New Health For Suffering Women

Aching Backs and Tired Limbs Need not be Endured.

Too many women endure suffering that casts a shadow over half her existence. An aching back, tired limbs, attacks of faintness, splitting headaches need not be a part of woman's life. Such trials indicate plainly that the blood is thin and watery and that the sufferer needs the help of a real tonic such as Dr. Williams' Pink Pills. Suffering women who have used this medicine speak of it in the highest terms. Among those who have been thus helped is Mrs. Ada L. Harman, Virden, Man., who writes:—"Following the birth of a still-born child a few years ago, I had a very serious time. I was so weak for months that I could not walk across the room without a feeling of faintness. I had scarcely strength enough to stand up, and when dressing would have to sit down two or three times. My face and lips were colorless, I had no appetite, and life did not seem worth living. A friend urged me to try Dr. Williams' Pink Pills and I got six boxes. Before they were all gone I felt improved. My appetite was returning, color was coming into my face, and I was visibly stronger. I continued taking the pills and fully regained my former good health. I consider Dr. Williams' Pink Pills a blessing to weak women, and hope my experience will induce some other sufferer to try them."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

KEEP FLOWERS FRESH

Flowers cut early in the morning will last much longer than if cut later in the day, while those taken before they are in full blossom will wither either. On the other hand, a little powdered charcoal placed in the bottom of the vase will successfully remove the faded ones.

The water should, of course, be changed each day, and it will add much to the lives if the stems of the flowers are wiped before replacing.

Silver vases, it will be found, are apt to make roses fade very quickly and it is a good idea to use a little mortar in the water. A much more satisfactory method, is to use wet sand in the water. Where vases or bowls other than glass ones, are used it not only keeps the flowers fresh longer than water, but has an additional advantage in keeping the container stable and less easy to knock over. The idea of keeping cut flowers has, by the way, been taken much further. A friend of mine dipped the blooms of her favorite flower in a solution of gum arabic.

FAST HORSES ARRIVE FOR CHATHAM RACES

Fast Horses arrive

The big stable of horses travelling on the Maine and N. B. circuit will be in Chatham this week for the two days races on Wednesday and Thursday and all that is needed is fine weather to make this meet the most remarkable the North Shore has ever seen.

A special train arrived yesterday at 5 o'clock from Fredericton with horses for the races. These are the horses that have been smashing records right and left since they have rounded into shape and on the fast Chatham track even greater things are expected of them and the events of these two days are expected to go down into history.

The track has never before offered such big purses, a \$1000 free-for-all, a \$500 junior free-for-all and \$400 purses for each of five other events making a grand total of \$3500 in all. But it has put Chatham on the big circuit and the racing will be well worth the big attractions that had to be offered to stage the events here.

The events for the two days are as follows.

Wednesday, July 29	
1. 2.14 Mixed	Purse \$400
2. 2.24 Trot	" 400
3. Junior Free for All	500
Thursday, July 30	
4. 2.17 Mixed	Purse \$400
5. 2.17 Trot	400
6. 2.24 Mixed	400
7. Free for All	\$1000

SUGGEST L. OF N. TO GOVERN WORLD EDUCATION PLAN

Edinburgh, July 22—A resolution suggesting the League of Nations as a suitable governing body for a world education plan designed to promote the peace and progress of all nations has been prepared by one of the group meetings of the world federation of education associations in session here.

The university group has formulated a program providing for the interchange of teachers and students by all the leading institutions of higher education in the world. The plan would mean more than 1,000 transfers annually.

Another group resolution asks schools throughout the world to observe May 18 as "International Good Will Day". A resolution was also drafted recommending the preparation of a text book for world wide use on the subject of international relations.

G. K. Chesterton, the British author and the Marquis of Aberdeen addressed a luncheon for the educators today.

INTERVIEW WITH FIELD MARSHAL HAIG

Canada is the Last of Dominions to Weld Returned Men Into One Body.

PORT ARTHUR ONT., July 22—Interviewed here today, prior to embarking on the steamship Noronic with his party en route for Sarnia London Toronto and Montreal, Field Marshal Earl Haig expressed his conviction that the time and trouble expended in visiting the returned men of western Canada and the Pacific coast has not been wasted.

"Canada" said the Field Marshal, "is the last of the Dominions to weld its returned men into one united body in which loyal comradeship and the strengthening of the ties of empire stand paramount to all other issues. It was my hope and the hope of those who accompanied me to the recent convention of the British Empire Service League in Ottawa and subsequently on the trip across Canada that we might aid in bringing about the unification of the various organizations which under different names and different officers, are attempting to save and to represent the returned men of this Dominion. The objective is to overcome the difficulties to be adjusted did not, and do not now appear to be unsurmountable. The solution lies entirely as I see it, in a reestablishment of that confidence in one another and that faith and comradeship and the determination to work together to achieve a common objective, which characterized the Canadian and, indeed all corps of the British army during the late war and which contributed to such a large degree towards the success which we won and the honor they brought to Canada and the whole Empire."

"The conditions exist among the returned men of Canada today is not dissimilar to that which existed in Great Britain and other Dominions shortly after the close of the war. Except in Canada that condition no longer obtains as a result of the foundation in 1921, of the British Empire Service League. That League is entirely nonsectarian in character. It is completely detached from, and has no association with any political party. Its programme is to weld all the returned men's organizations of the Empire into one comprehensive organization in which the various entities while preserving the autonomy in all respects may find a common meeting ground for discussion and solution of those difficulties which are common to all, which includes in its objects the welfare of the returned men and those widowed and orphaned by the late war, closer co-operation between the Dominions and the Old Country and a closer and greater reciprocity between each and every dominion and colony.

"Such a league can only function when it has as its members those who can speak in a voice of full authority for all the returned men in the dominions they represent. Unhappily that condition does not exist in Canada at present and it was to bring about that unity or rather to sow the seed which we trust will bring it about that my colleagues and I have made this trip across Canada and

back.

"The spontaneity and warmth of the welcome we have received in each place, large and small, that the limited time at our disposal has permitted us to visit, has assured us that our mission has, at least, not been unacceptable. But that which has given us the greatest hope that some of the seeds of our appeal to the returned men of Canada will take root and flourish, has been the many expressions of a desire for unity and the formation of one ex-service organization in Canada. It has been a keen pleasure to me to realize that a very large number of returned men, who now belong to no veterans organization in Canada, have given me their promise to join and to support to their fullest power anybody which can speak with one voice and under one name for all the returned men in Canada. I have been given to understand that something like 50 per cent of the returned men of Canada, belong to no organization today. But I am convinced that all or nearly all such men will gladly ally themselves with anybody which can speak with authority for the service men of the dominion. It is equally encouraging to be told, directly and indirectly, that men, now members of different organizations stand ready to respond to the call to join one unified body representing them all, whenever the call is issued by those who constitute their leaders.

"That is the thought I have brought back with me from Western Canada. I am now on my way to visit Toronto and Montreal. I hope that before I sail from your great country a definite step forward may be noticeable in that movement for the unification of all organizations of returned men, which is so close to my heart, and which seems to me as important for Canada and the whole empire as for Canadian ex-service men themselves."

First Impressions Are Important

In a world where appearances are valued as indexes to character, *Your Stationery* should represent you worthily—always and everywhere.

That atmosphere of character and refinement, which should distinguish all self-respecting correspondence is assured when you place your stationery order with us. If you allow us to furnish your

Letter Heads, Bill Heads, Shipping Tags, Office Forms, Envelopes, Statements, Etc.

they will reflect the dignity and self-respect of the discriminating, and be an excellent advertisement for your business, for a business man may be judged by the quality and style of his printed matter.

The Advocate Job Printing Department

is without doubt the best equipped on the North Shore, and consequently in a position to turn out all kinds of Job Printing *Neatly, Promptly and Satisfactorily*, at very reasonable prices.

We are constantly adding new type and material to our already up-to-date equipment, and we have recently put in several of the newest type faces manufactured.

Let Us Prove

to YOU the truth of the above statement by giving us a trial order for any of the above mentioned office requisites, or an order for

Posters or Dodgers, any size Flyers, Circulars, Programs Menus, Display Cards, Business or Visiting Cards, Price Lists, Booklets

in fact, ANYTHING YOU WANT PRINTED Neat, Artistic Two-Color Work a Specialty. Call on us when you need anything in our line. We assure satisfaction. Mail orders receive our careful and prompt attention. Write us for prices.

Yours for Good Service

Fletcher's CASTORIA

MOTHER! Fletcher's Castoria is a harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, prepared to relieve Infants in arms and Children all ages of

Constipation	Wind Colic
Flatulency	To Sweeten Stomach
Diarrhea	Regulate Bowels

Aids in the assimilation of Food, promoting Cheerfulness, Rest, and Natural Sleep without Opiates

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*
 Proven directions on each package. Physicians everywhere recommend it.

BIRD'S SHINGLE DESIGN ROLL ROOFING

Red or Green

Lower in price than any ordinary Shingles and comes in rolls which makes it easy to apply.

It looks well on the roof, across the street you can hardly tell the difference between an ordinary Shingle roof and a roof covered with Bird's Shingle Design Roofing.

It is weather proof and fire-proof. Suitable for new buildings or may be laid over old, wooden shingles.

Come in and see this roofing and let us give you an estimate for your requirements.

Made in Canada by
Bird & Son Limited, Hamilton, Ont. and Pont Rouge, Que.

We are also headquarters for Bird's Asphalt
 Twin Shingles, Paroid Roll Roofing, Combination Wallboard, Art Craft Roll Roofing, and Black Building Paper.

SEND PICTURES OF ALL KINDS BY WIRE

Anything that can be photo-
graphed from fingerprints of
criminals to elaborate interior
decoration, is now being accepted
as a "message" by the American
Telephone & Telegraph Company.
The most delicate detail, accord-
ing to the company officials, has
been transmitted as distinctly as
words.

One commercial use made of
the new process was the sending
of an advertisement layout photo-
graphed from a plate of type
from a New York firm to a Chic-
ago newspaper, in which it ap-
peared the same day.

An X-Ray picture of a human
hand was another message sent
out, demonstrating possibilities
for medical purposes.

News pictures were among the
first sent over the wires, Presi-
dent and Mrs. Coolidge leaving
the capital in Washington after
the inauguration ceremony, were
seen the same day in Chicago.
Photographs of the effects of the
recent tornado in Southern Illi-
nois also were transmitted.

Company officials declared that
photostatic copies of signed wills,
checks and the like, acceptable as
evidence, would be a valuable
part of the new business.

WORKING GIRL'S EXPERIENCE

Read How She Found Help
in Lydia E. Pinkham's
Vegetable Compound

Arnprior, Ontario.—"I must write
and tell you my experience with your
medicine. I was working at the factory
for three years and became so run-down
that I used to take weak spells and
would be at home at least one day each
week. I was treated by the doctors for
anemia, but it didn't seem to do me any
good. I was told to take a rest, but was
unable to, and kept on getting worse.
I was troubled mostly with my periods.
I would sometimes pass three months,
and when it came it would last around
two weeks, and I would have such pains at
times in my right side that I could hardly
walk. I am only 19 years of age and
weigh 118 pounds now, and before taking
the Vegetable Compound I was only
108 pounds. I was sickly for two years
and some of my friends told me about
Lydia E. Pinkham's Vegetable Com-
pound, and when I had taken a bottle of
it I felt a change. My mother has been
taking it for a different ailment and has
found it very satisfactory. I am willing
to tell friends about the medicine and
to answer letters asking about it."
—Miss HAZEL BERNDT, Box 700, Arnprior,
Ontario.

A day out each week shows in the pay
envelope. If you are troubled with some
weakness, indicated by a run-down con-
dition, tired feelings, pains and irregu-
larity, let Lydia E. Pinkham's Vegeta-
ble Compound help you.

O'BRIEN LTD.
July 15th, 1925. Nelson, N. B.

CANADA HAS A GREAT MARITIME TRADE

Not long since we published
figures, supplied by Mr. Orrmsby-
Gore in the House of Commons,
showing the contribution of the
various Dominions of the Empire
towards the maintenance of sea
power. These contributions were
expressed in the charge sustained
per head of population. In the
United Kingdom this amounted,
in 1925, to 1 lb 4s 10d. In Can-
ada the corresponding figure was
15 cents. When we consider the
difference in the populations of the
United Kingdom and Canada, the
relative proportion borne by the
latter country becomes very much
smaller still. The Toronto Globe
apparently is very much annoyed
at the publication of these fig-
ures. It declares that "Canad-
ians think they can spend their
money more usefully in develop-
ing their country—in building
railways, bringing virgin acres
under cultivation, and pushing
back the frontiers of settlement."

A more unworthy argument on
the part of a great people we con-
fess we never came across, nor
can we believe that it will be very
generally endorsed in Canada. In
effect it amounts to the postulat-
ion that it is the business of
Great Britain to pay for the naval
defence of Canada whilst the
Canadians employ their money to
the "more useful" purpose of en-
riching themselves. Maybe the
Toronto Globe thinks that the
Dominion is sheltered by the
Monroe Doctrine. This is a
sentiment not likely to appeal
to the Canadian spirit generally.
The magnificent share which the
manhood of Canada bore in the
Great War is the most striking
testimony to the character of
that spirit. For our own part,
we much prefer to believe that
the apparent indifference shown
on the subject of sea power is the
result of a want of realization of
what sea power means. And yet
Canada has a great maritime
trade, which shares in the secu-
rity and freedom of the seas sym-
bolized by the White Ensign.

THUNDER FOR ALL

At any moment, statistics show
there are on an average about
1,900 thunderstorms in progress
in the world giving 360,000 light-
ning flakes an hour, or 100 a sec-
ond.

These are among the figures in
a report just issued by the Brit-
ish Air Ministry Meteorological
Office on "The Distribution of
Thunderstorms Over the Globe,"
the author being Mr. C. E. P.
Brooks, M. Sc.

Mr. Brooks explains that, on
the whole, the earth will experi-
ence 16,000,000 thunderstorms a
year, or 44,000 daily.

Java is probably the most
thunderly region of the earth, and
this, Mr. Brooks points out,
should be taken into account in
planning air routes to Australia.

Areas where thunder is rare-
ly or never heard include the Ar-
ctic and the Antarctic regions.
During an Arctic expedition last-
ing two or three years thunder
may be experienced once, or, at
most, twice.

PALM TREE MAY SUPPLY POWER FOR MOTOR CARS

The palm tree which has yield-
ed food, drink and soap for man-
kind may next supply fuel for
motor cars. Recent experiments
to find a substitute for gasoline
in the tropics have shown that
the sap of the Nipa palm plentiful
in Philippines and North Borneo
is source of an abundant and
cheap supply of power alcohol.

JOE M'GINITY WONDERFUL MAN OF BASEBALL

Twenty-five Years in Organ-
ized Baseball—He says Pitch-
ers are Not Worked Enough

At the age of 54 Joe McGinity,
the original "Iron Man" of the
major leagues, has finally retired
from active work in the pitcher's
box. McGinity began to attract
attention as a professional more
than twenty five years ago and he
has been using his salary wing,
also his head, ever since. The
"Iron Man" became a minor
league star as a member of the
Baltimore after that club had
been cut out of the National League
circuit in 1898. Ned Han-
lon, then managing the Brooklyn
signed McGinity a year later and
was handsomely rewarded. The
"Iron Man" shared the pitching
burden with Bill Kennedy, Frank
Kistner, Jay Hughes, and Jimmy
McJames in 1900 when the Brook-
lyns won their second pennant.

McGinity really the star box-
man of the 1900 champions, used
a "raise ball" a greater part of
the time. His understand of "Sub-
marine" delivery was copied years
later by the noted Carl Mays.
But McGinity also shifted to the
"side arm" or "overhand" meth-
od of shooting his curves and
speckers to opposing hitters.

Under fire, the "Iron Man" was
as cold as ice. He had nerves of
steel and unlimited stamina. Fur-
thermore he was a fighter and a
driver, qualities that appealed to
John McGraw, who signed him up
in 1903 to pitch for the Giants
McGinity together with M. Ath-
ewson, Wiltse and others, pitched
the Giants into their first National
League championship under
McGraw in 1904. De, eat ng in
1905, the Giants won the world
series with the Athletics, four
games out of five, McGinity
recording one of the victories.

After receiving his release from
McGraw, McGinity became the
manager, pitcher and part owner
of the Newark Internationals.
But he soon became disgusted
with a losing venture and went
out west to seek his fortune.

The "Iron Man" was a typical
rolling stone. He tried his arm
with one minor league team after
another—so many of them that it
became hard to keep track of his
whereabouts. But he continued
to pitch with much of his old
cunning until Father Time called
him out of the game forever.

McGinity was a horse for
work, always ready to answer the
call of his manager. He once
told me that a first class pitcher
needed only two days of rest be-
tween games and invariably he
practiced what he preached. In
perfect physical condition at all
times, the "Iron Man" frequently
worked out of his turn with win-
ning results. Yet his salary when
he pitched for the Brooklyn and
Giants didn't exceed \$5,000.

Discussing the methods of some
of our modern boysmen McGinity
used to laugh at their inability to
pitch more than one or two gam-
es a week. He showed contempt
for big husky fellows who insisted
on resting four or five days after
a fairly strenuous game.
"Four pitchers used in rotation
are enough" the "Iron Man"
argued. The more games a man
pitches the more effective he
must be. Carrying as many as
ten pitchers means lack of prac-
tice for all of them."

Eaton Company To Start Groceries In Maritimes

Financial Post.—During the
past few months the T. Eaton
Company has been carrying the
chain store idea into Western
Canada in the grocery field and
has established groceries in
some half dozen cities including
Calgary, Edmonton and Regina.

Following this venture into the
Western field it is reported that
the company will enter the Mar-
itimes in a similar way, establish-
ing groceries in the principal
commercial centres.

This move on the part of the
big department and mail orer
house has caused a lot of conje-
cture in retailing circles. Has the
handling of groceries by mail
order been unsatisfactory? Is the
company getting into the field to
keep out other chain stores? Will
the plan lead to a chain of de-
partment store branches for other
lines of merchandise in the future?
These are some of the questions
being asked.

Further Report On Federal Election

In a despatch from Ottawa the
Mail and Empire says it is believ-
ed in the capital that there will
be an election this autumn, al-
though according to the corres-
pondent, "the cabinet continues
to be divided on an appeal to the
electorate."

The despatch says that the
premier is in the position that he
must himself make the decision in
regard to an election, when the
Governor General returns to
Ottawa about August 20. The
despatch continues:

"Hon. Arthur Meighen will
leave for Portage La Prairie this
week, and while in Manitoba,
will open the campaign. He will
address at least three large polit-
ical picnics in that province, the
first being at Stonewall, near
Winnipeg, one in the southern
part and another in the northern
part of the province.

New Method of Making Hay with Hot Air

Madison, Wis., July 27.—Made
hay while the sun shines was good
advice when grandfather tried it
his life on a high wheeled bicycle
but to-day, in a manner of speak-
ing, it is hot air.

Experimental engineers of the
Department of Agriculture, Uni-
versity of Wisconsin, reported
today on a new method in hay
making recently demonstrated at
Genesee Depot Experimental
Farms.

By means of the high pressure
hot air fan, new mown hay war
ready for baling eight hours after
making. Besides obviating the
two or three weeks of field dry-
ing, the artificial process elimi-
nates the risk of moisture damage
and pests. Twelve loads were
handled on the rack in one opera-
tion.

Several hundred farmers wit-
nessed the demonstration this
week. Howard T. Greene, owner
of Brookhill, the experimental
farm, plans to make this year's
hay by hot air, rain or shine.

SPUR RAILWAY AT GRAND FALLS

Contract Awarded to the E.
F. Powers Construction Co

At a meeting of the new hydro
commission on Tuesday afternoon
Hon. P. J. Veniot presiding, the con-
tract for the spur railway line at
Grand Falls, necessary for hydro
development at that place was awarded
to E. F. Powers Construction Com-
pany, headquarters at Saint John,
their tender of \$29,250 being the low-
est received. The road will be slight-
ly over a mile in length. The Power's
tender was \$11,000 below the estimat-
ed cost of the railway construction—
\$40,000.

The following are the tenders re-
ceived: H. G. Phillips, Charlottetown
\$54,575; F. W. Pirie, Grand Falls
\$42,145.45; Waugh MacPhail, Wood-
stock, 40,975; Stewart Bros., Victo-
ria county, \$39,030; K. MacLagan Co.,
Devon, \$39,647.50; Burpee Construc-
tion Co., Devon, \$34,370; Dexter and
Richards, Fredericton, \$29,335 and
E. F. Powers Construction Co. Saint
John, \$29,250; J. W. McMullin, Gage-
town, \$42,035.

A delegate, representing the coun-
cil of the Town of Woodstock, asked
that an engineer of the commis-
sion be sent to that town to look into
the matter of the proposition of the
town's acquiring the plant of the
Woodstock Electrical Company.
Request was granted. An order was
issued for the survey of the Mus-
quash district as regards the instal-
lation of electrical distribution. It
was also ordered to construct an ex-
tensional service to Duck Cove from
the Provincial Hospital Annex.

At the request of the people of Nau-
wigewauk, a survey was made some
time ago and was submitted to the
meeting by S. R. Weston, chief en-
gineer of the commission. Three
routes were surveyed, the cost of
construction estimated in each as
well as the cost of power to the con-
sumer. It was ordered that the three
proposed routes be submitted in de-
tail to the people along with the cost
of energy for each route and to al-
low the people to make their own
choice.

At a meeting of the executive in
the evening, arrangements were
made for the flacing of four survey
parties locating the main transmis-
sion lines between Grand Falls and
Fredericton and to St. Leonards,
across country to Campbellton and
thence to Bathurst. W. S. Lea, of the
firm of Lea Bros., Montreal, the con-
sulting engineer of the commission,
who has been at Grand Falls to verify
checking up, confirmed the findings
as already submitted to Premier Ven-
iot and which were announced by
him when he addressed the govern-
ment convention, held here, last
week.

THE ADVOCATE

Local and General News

ORANGEMEN ATTEND SERVICE

The Orangemen of Tabusintac held a Church parade on Sunday afternoon when Rev. Dr. Harrison of Black River was present and preached an inspiring sermon.

GOING TO THE RACES?

If you are going to the horse races in Chatham on Wednesday and Thursday of this week go by way of the Str. "Max Aitken." She leaves for Chatham at 1.15 p. m. and returns immediately after the races.

G. W. V. A.

The local branch of the G. W. V. A., who have reorganized and elected new officers, are bringing in the Lynch Midway Show to raise money to carry on their work. The public and members of the G. W. V. A. are asked to co-operate and make this affair a success, thus encouraging the society.

OPPOSITION MEETING

A meeting in the interests of the Opposition was held last evening at 8 o'clock in Trout Brook. The speakers were L. J. O'Brien, F. D. Swim and David Ritchie. There was a large attendance and the speakers were given a splendid hearing. The issues of the day were fully discussed and the opposition forces expect to take a good vote out of Trout Brook. 12-0-0. P.

WENT OVER BANK

Mr. Liffches of Newcastle had a miraculous escape from death last Wednesday when his car went over the bank of one of the steep hills between the Hatchery and Shillalah Cove on the Northwest Miramichi. Liffches car stalled or failed to make the steep grade, and then began to reverse, finally plunging over the embankment at the side of the road. The car was damaged but the owner escaped in an almost miraculous manner.

CHURCH UNION VOTE

'St. James' Church, Newcastle, started last evening to take a vote by ballot under the Dominion Act, on the Church Union question. The Dominion Act provides for the vote to be kept open for the space of two weeks. Mr. R. T. D'Altken objected, on behalf of the non-concurring members of the congregation, to the vote being taken with the ballots bearing the name of the person voting, and as a result the non-concurring members refused to vote and left the building.

ENJOYED SAIL

A large number of excursionists enjoyed the sail to Redbank on the Str. "Max Aitken" last Saturday afternoon. The excursionists were loud in their praises of the beautiful scenery along the Miramichi River between Chatham and Redbank and the Saturday afternoon excursions on the "Max Aitken" are becoming more popular each week. Many people take advantage of the opportunity to sail to Chatham from Newcastle and return on Saturday evenings after the steamer's arrival from Redbank at 7.15 o'clock. This trip is made each Saturday evening and the fare is only 25 cents. Can you beat it?

A COMPLAINT

A number of complaints have been received by the Park Committee regarding a number of men who persist in occupying the seats in the square, each and every day at all hours, thereby making it impossible for women and children to occasionally have an opportunity to rest themselves in the square. It is also complained that these men are in the habit of passing more or less insulting remarks to passers, and it is considered the duty of the police to see that such actions are stopped, also that they should see that the seats are not monopolized by the same men hour after hour and day after day.

ST. ANNE'S PICNIC

The celebration of St. Anne took place Sunday at Burnt Church. Large crowds motored down river to take part in the celebration.

SHIPPING NOTES

Shipping has been more lively the last week, than usual. There are two steamers loading at the Miramichi Lumber Co's mill, Douglastown. One cleared Saturday for the United Kingdom. The large Dutch steamer Helena is loading at Ritchie's mill for F. E. Neale. The S. S. Brompton Manover cleared last week for the United Kingdom, also for F. E. Neale. The Fritjof cleared Saturday with a cargo of laths for the United States. There are two large 4 masted schooners loading laths.

BUILDING NEW ARMORY

Newcastle is to have a new armory. A building 110 by 60 is being erected at the corner of George and Campbell streets. Charles Sargeant is excavating a foundation 25 by 40 under the front part of the building. The rear is to be used as a gun shed and will be of concrete. Accommodations are being provided for the use of the caretaker who will reside in the building. Separate rooms will be used for storing harness, clothing, tents and other equipment. Somers and Ramsay are the contractors.

OBITUARY

ALBERT RAMSAY

The death of Albert Ramsay of Barryville occurred in the Hotel Dieu Hospital on Wednesday morning. The deceased was 34 years of age and survived by his wife and a family of five young children; also his father Peter Ramsay of Chatham Head, one brother and four sisters. The remains were taken to Barryville for interment.

CHATHAM MEETING A STORMY ONE

Last Thursday evening the Opposition held a meeting in Chatham to appoint delegates to attend the Opposition Convention in Newcastle on Friday, and during the proceedings a lively tilt ensued between E. W. Watling, J. Y. Mersereau and Dr. Jones. E. W. Watling said he felt compelled by the malicious untruths that were being spread abroad about him by members of the opposition party to give denial in public to them. He referred particularly to the report that he had been disloyal to his party at the last election and wanted anyone who had any charge to bring against him to make it. This challenge brought J. Y. Mersereau and Dr. Jones to their feet with the declaration that this had occurred at Black River poll, where they alleged Ald. Watling instead of staying at the poll where he was supposed to have been, had instead of this, been away practically the whole day, the underlying charge in the statements evidently being that Ald. Watling had thus secretly aided the Liberal candidate W. B. Snowball in the last federal election as against the conservative nominee C. P. Hickey, although Ald. Watling had worked all through the campaign ostensibly in the interest of Mr. Hickey, speaking from the platform on many occasions and touring the country for him.

Ald. Watling declared these statements by the other two party leaders to be false and gave a detailed statement of his movements that day, and in this he was supported by Ex-Mayor Hickey, who testified to the work that Ald. Watling had done. The meeting was very hot by this time and finally a motion to adjourn was put through and the discussion came to an end so far as the public meeting was concerned.

NEWCASTLE TRIMS CHATHAM 8-0 AND NELSON 4-3

The local boys were sure on their toes last Wednesday evening when they played and defeated the Chatham Baseball team in the postponed game of June 22nd. The locals handed their opponents a shut out game winning by 8 scores. The fans were on hand in large numbers to see the last home game of this year's series and their home team sure gave them a treat as a farewell for this season. Every moment of the game was filled with peppy plays, while Chatham were at their wit's ends and try as they might, were unable to get a man across home plate. The visitors had 9 men left on bases, which proves conclusively the brand of ball the locals were putting up. Graham pitched excellent ball for Newcastle and had no difficulty at any time in holding the visitors in check. Especially in the first, second, and fifth innings did Graham pull himself out of exceedingly difficult holes and apparently it was of no trouble whatever for him to do so. The locals scored 2 in their first, 4 in the third and 2 in the fourth. Dutcher's home run strike in the fourth was a feature of the game and a double play by R. Nelson and Jack Keating in Chatham's fifth drew forth loud applause. Keoughan pitched for Chatham and his offerings were severely dealt with by the locals. Ashford umpired the game in a most satisfactory manner.

In one of the hardest contested games of this year's series, the locals defeated the Nelson team last Friday evening in Nelson by a score of 4 to 3. Graham and Lindon worked for the locals while Briggs and Coughlan was the battery for Nelson. Graham had 10 strike-outs to his credit and Briggs had 9. Both pitchers pitched good ball and were given good support by their team mates. The fans were on hand in large numbers and were given an excellent exhibition of fast baseball. W. Watling of Chatham umpired the game in a most satisfactory manner. Newcastle scored one in the first; one in the 4th, and two in the fifth, while Nelson scored one in their first and two in their second.

Chatham defeated Loggville Friday night in the latter town by a score of 7-0. Friday night games completed this year's series of the Miramichi Baseball League with the following postponed games yet to be played:— Newcastle in Chatham, Nelson in Chatham and Loggville in Nelson.

The present standing of the teams is as follows, showing Chatham, Newcastle and Nelson all bunched up for first place and as a result, is keeping the enthusiasm and excitement up to a high pitch as it is possible for any one of the three teams to win the pennant while none of them can afford to lose a game.

	Won	Lost	P. C.
Chatham	10½	5½	65%
Newcastle	11	6	64%
Nelson	10	5	62%
Loggville	1½	15½	8%

WEDDINGS

MacKNIGHT—MacCALLUM

The marriage of Miss Helen MacCallum, daughter of Mr. and Mrs. John MacCallum of Tabusintac and Joseph MacKnight of Burnt Church was solemnized at the Manse Newcastle, Wednesday, afternoon Rev. L. H. MacLean officiating. After the ceremony the happy couple left on a motor trip through the province. On their return they will reside at Burnt Church where the groom holds a responsible position with the J. W. & J. Anderson Co. Mr. and Mrs. MacKnight have the best wishes of a host of friends for a long and happy wedded life.

Stohart Mercantile Co.
 LIMITED

Vote For The Opposition Ticket

It stands for good Government and no extravagance.

A sane Hydro Policy and no class legislation.

Sidney Duncan Heckbert
Leonard Joseph O'Brien
Akeley Holmes
Frank Theophilus Lavoie

Quality STABLES' GROCERY Service.

-STRAWBERRIES-

We do not think berries will be any lower. The Ontario Crop was a failure, which will make imported Jam high this fall.

No. 1 Berries at 15c per box and 13 lbs. Atlantic Sugar for \$1.00. We advise our customers to put up large quantities and do them now.

Flour has dropped all brands this week 98 lb. bgs. at \$5.25
