CAMROSE TOWN MAKES AN ALBERTA RECORD

First Place in Alberta to Have Three Transcontinental Lines  
WORK ON RAILWAYS PROGRESSING RAPIDLY  
A Great Amount of Activity in the Northern Town

Camrose, Alb., April 27.—For the first time in the history of Alberta the three transcontinental railroads were connected with one town when the steel of the C.N.R. was laid in Camrose yesterday.

The diamond crossing of the C.P.R. tracks is now completed and the steel of the C.N.R. is being laid south to the Battle River. The grade is completed about forty miles south of here and the track laying will be pushed as far as possible.

The telegraph crew are following closely and the poles are up as far as Camrose, while the wiring is finished up to five miles from town. The station and tank are at Lake Demar, five miles north, where they are erecting a water tank, for which water will be pumped from the lake. Some two hundred thousand ties are being shipped from B. C. by C.N.R. to Camrose and will be used on this line.

Mr. G. A. Bury, M.P., of the western division and F. W. Peters, of the industrial department of the C.P.R., came to Camrose in Mr. Bury's car, attached to a special. The celebration and re-dedication of the station is almost finished.

Mr. J. H. Dalrymple, assistant freight traffic manager of the G.T.E. and Mr. W. E. Mann, division engineer, came to Camrose in a special from Edmonton over the Grand Trunk's new line. Mr. Dalrymple was looking over the company's yards and station grounds with a view to locating the government and people will be fully protected. I think it might be a bad plan for you to write to the premier direct, though he appears to have a very high opinion of Mr. Waddell and the promoters generally. There is no doubt in my mind but that these promoters have pretty well got the ear of the executive, and it does not appear to me to be advisable at this time to attempt to force my personal views upon them.

When Mr. Goddard returns to Winnipeg, he will be able to explain matters to you that may give you a better insight into the situation. The concluding paragraph of this communication, Mr. Woodman explained, had reference to his own difficulty in securing a permit from the company for the service.

Mr. Wain, one of the directors of the Alberta and Great Waterways railway, testified that he knew very little about the matter. He held one hundred dollars of the company's stock, but he did not pay it. He got it from Mr. Minty and went into the matter as an accommodation to Mr. Minty. He attended the meeting of the directors at Edmonton, his expenses being paid by Mr. Minty and B. R. Clarke. Afterward he transferred his stock to B. R. Clarke without receiving any consideration. He had no interest in the company. He knew nothing about the affairs of the Canada West Construction company nor of its dealings with the Alberta and Great Waterways company. The witness said he was a brother-in-law of Mr. Minty.

Mr. Bain was examined at some length as to his knowledge of what occurred at the meeting in Edmonton where he was made a director and where all the assets of the railway company were handed over to the construction company. He testified that B. R. Clarke, Mr. Bain, however, knew very little about it, beyond what appeared in the minutes.

WOULD BUILD ROAD FOR \$13,000 A MILE

This Information Was Given to Government Says A. & G. W. Man

ESTIMATE OF ENGINEER WAS WAY BELOW \$20,000  
The A. & G. W. Had a Brief But Important Meeting on April 20

Winnipeg, Man., April 27.—Two witnesses were examined at the sittings of the Alberta and Great Waterways railway investigation commission. They were John Woodman, the engineer who made the original estimate of the cost of the road, and Wm. Bain, who was one of the directors of the company, the whole connected with its affairs was only completed. Mr. Woodman's estimate developed no points of very great interest. It was however, slightly in excess in the course of the afternoon by the production of a letter written to him by John Stocks, deputy minister of public works of Alberta, who seems to have had his own opinion of the whole business.

Mr. Stocks, after explaining that the railway company had already received the charter and its bond guarantee, said that the railway company was referred to have received charter and bond guarantee, as you will see by the papers. This department will not have any more to do with the railway business than some of the other departments, as the affairs are to be conducted under the chairman of the executive council, the Hon. A. C. Rutherford. I must at this time refrain from commenting on the personal opinion of the promoters, though I had my own opinion of them from the start, and recent events have only confirmed it. It is to be hoped, however, that the engineers appointed to look after this line in particular may be a stamp of men who will see that the interests of the government and people will be fully protected. I think it might be a bad plan for you to write to the premier direct, though he appears to have a very high opinion of Mr. Waddell and the promoters generally. There is no doubt in my mind but that these promoters have pretty well got the ear of the executive, and it does not appear to me to be advisable at this time to attempt to force my personal views upon them.

When Mr. Goddard returns to Winnipeg, he will be able to explain matters to you that may give you a better insight into the situation. The concluding paragraph of this communication, Mr. Woodman explained, had reference to his own difficulty in securing a permit from the company for the service.

Mr. Wain, one of the directors of the Alberta and Great Waterways railway, testified that he knew very little about the matter. He held one hundred dollars of the company's stock, but he did not pay it. He got it from Mr. Minty and went into the matter as an accommodation to Mr. Minty. He attended the meeting of the directors at Edmonton, his expenses being paid by Mr. Minty and B. R. Clarke. Afterward he transferred his stock to B. R. Clarke without receiving any consideration. He had no interest in the company. He knew nothing about the affairs of the Canada West Construction company nor of its dealings with the Alberta and Great Waterways company. The witness said he was a brother-in-law of Mr. Minty.

Mr. Bain was examined at some length as to his knowledge of what occurred at the meeting in Edmonton where he was made a director and where all the assets of the railway company were handed over to the construction company. He testified that B. R. Clarke, Mr. Bain, however, knew very little about it, beyond what appeared in the minutes.

Theodore Ravillon of Edmonton has purchased the very desirable property at the corner of Seventh avenue and 1st street west from Dr. Lafferty. The deal was put through by Gordon and Ryan and the figures are \$20,000. There are four lots. The purchaser will put up a seven-story office building this year. The sale is reported, and the building is not for a departmental store.

McLean Bros. a local real estate firm, sold \$200,000 worth of fine wheat land to a farmer from Eastern Ontario on the Bow River. This farm is situated on Calgary River, 13 miles southeast of Didsbury. The price mentioned included a large amount of improvements and the property, which was owned by a rancher named Adams, is considered one of the finest farms in Alberta for the growing of wheat.

"SWARMING"

AND TAKING THEIR MONEY WITH THEM

MUCH ALARMED ABOUT COLORED POPULATION

Edmonton Calls on Calgary Board of Trade for Help  
NEGRO IS DANGEROUS AND UNDESIRABLE  
But the Calgary Board Can Not Suggest a Ban

A letter was read at the Calgary Board of Trade yesterday from the Edmonton board asking the Calgary board to take up the evils of negro immigration, which was becoming a menace in Northern Alberta.

The letter stated that a large number of negroes were settling in the north, which was driving away the white settlers, and if not taken in hand at once, would be serious, as the negro settler was both unproductive and dangerous.

The president said the question was a knotty one and it was doubtful if the Calgary board could take it up at present. A member suggested that they be made to work on the A. & G. W. railway, but the president remarked that it was doubtful if the railway would be built.

The board agreed it was a serious matter and they would refer it to the International Congress and Chamber of Commerce. This organization will hold an international convention in London in June, and asked the board to have representatives. It is to be made stating that if possible the Calgary board will send a delegate.

The Toronto Board of Trade wrote asking for assistance in getting the railway company to run annual excursions between the cities, presumably upon the excursionist car to west and west west. The secretary was requested to write the Toronto Board of Trade for more particulars concerning these excursions.

CLARKE INTERVIEW WAS AUTHORIZED

The President of the A. & G. W. Railway Cannot Be Found in St. Paul, But Believed to Be There

In his evidence in Winnipeg Mr. Minty was inclined to cast suspicion upon the interview given out by W. R. Clarke to a St. Paul representative of the Alberta.

The Alberta wired its representative yesterday and received the following reply this morning: St. Paul, Minn., April 27.—Interview here with Clarke furnished by Pattinson, his secretary, and was authorized. He has been holding Clarke under cover and speaks for him.

Mr. Minty men are watching the Royal Hotel, where he is believed to be. No trace yet of Biggar and Cross, although it is believed they are here or in Minneapolis.

Down Goes Price of Flour  
Following the drop in price of flour announced yesterday by the Western Canadian Flour Mills of Toronto, flour in Calgary will be reduced in all grades in May 7 to the extent of 20 cents a barrel. This is the first reduction in flour since September last, when it dropped 20 cents a barrel only to increase 10 cents a barrel on Jan. 15 last.

Future of Calgary.  
The city of Calgary, Alta., which has long been in the small city class, is now growing more rapidly than any other centre in Canada. In some respects it is now the fifth city of the Dominion, and if progress continues in its corresponding ratio it may soon be disputing with Winnipeg for the commercial supremacy of the plains. What is the secret of Calgary's wonderful prosperity?—Vancouver News Advertiser.

CARPENTERS SAY 50 EMPLOYERS SAY 45

And That is Pretty Much the Difference Between the Two  
THE EMPLOYERS DISCUSS EMPLOYEES STATEMENT  
The Painters Claims Will Be Taken up at a Meeting Tonight

The carpenters presented a draft agreement with the employers last night. The agreement is to run to July 1, 1911, and provides two months' notice for a change.

Class A.—Under this agreement 8 hours shall constitute a day's work from 15th March to 15th November, to be performed between the hours of 7 a. m. and 5 p. m., except on Saturdays, when the hours shall be from 8 a. m. to 12 noon, and from 12th November to 14th March, 8 hours shall constitute a day's work from 8 a. m. to 6 p. m. and 5 days a week, and the minimum scale of wages paid journeymen carpenters in the district shall be 50 cents per hour.

Class C.—The wages of the party subject to the approval of the union's executive committee. Incapacitated through old age or physical disability, shall be such as mutually agreed upon by employer and employee.

Surveyors of Province Meet  
Mr. John M. Empey, B. A., S. D., L. R., District Engineer and Surveyor for the Alberta government at Calgary, returned from Edmonton last night, where he had been attending the meeting of the Dominion Land Surveyors and have a complete set of notes.

DR. DOWNON—Who has just been appointed Health Officer for Calgary. He has a wide knowledge and experience as a Doctor of Public Health, and also holds very high positions in the Dominion of Public Health and Bacteriological work. His British qualifications are L. R. C. P., F. R. C. P., F. R. S. E. L. F. P. and D. S. M. (Public Health), in 1904. He is a licensed physician of Alberta and Saskatchewan.

THE SYNOD DECLINES TO DEFINE LOCATION

But Favors the Establishment of Theological College at Once  
STRATHCONA NOT PERMANENT SITE  
Premier Rutherford Addresses the Members of the Synod

Edmonton, April 27.—A compromise was made today by the Presbyterian Synod on the question of locating a theological college in the province. The question came up yesterday when a motion was presented urging the assembly to establish a college in Alberta in affiliation with the provincial university at Strathcona. In amendment it was moved that the question be left over for a year to ascertain the best place for locating such an institution.

There was considerable discussion upon the question this morning. The present political conditions were referred to and it was urged and tacitly admitted that despite the fact that a site had been purchased in Strathcona yet, and that the ultimate location was not yet settled.

It was decided unananimously that a mission be presented to the assembly under the title of a theological college to be established in Alberta, but no reference or recommendation was made regarding the location of such an institution. Affiliation with the provincial university was favored, but in the motion which had been presented reading "The Provincial University at Strathcona" the words "At Strathcona" were struck out.

In other words it was decided to recommend the establishment of a theological college in connection with the provincial university, but to make no declaration as to the location of the proposed institution.

The evening session was devoted to Home Missions. Rev. Dr. McQueen gave some very interesting figures. There were 125 mission fields, 226 preaching stations, of which 103 had been added this year.

On behalf of the W. F. M. S. Mrs. Olive Portman of Red Deer and Mrs. George Portman of Calgary, presented a report on the work of the W. F. M. S. in the province.

THE DOMINION HOUSE WILL PRODUCE NEXT WEEK  
The House Will Sit Next Saturday—Mueuring the Week  
Ottawa, April 27.—Sir Wilfrid Laurier this morning moved that the Commons sit next Saturday, and in reply to a question by Chief Conservative Whip Taylor, said it should be possible to prorogue the house in another week.

Under a question of privilege, P. E. French (Conservative) for Champlain said nothing in his speech at Ottawa last Sunday would justify the report that he urged the formation of a French-Canadian party in Ottawa of similar lines to those of the Irish Nationalists at Westminster.

OKOTOKS FARMERS ORGANIZE A BRANCH

United Farmers of Alberta Hold a Very Successful Meeting  
THEY GIVE REASONS FOR TAKING THIS ACTION  
The Meeting Was Addressed by Mr. W. J. Tregillus of Calgary

Okotoks, April 27.—A temporary organization of a local branch of the United Farmers of Alberta was formed here today, with Mr. Harold Bannister, president of the Okotoks Agricultural association, president, and Mr. P. P. Woodbridge, secretary. The meeting was held in Victoria.

Among the farmers present were John Old Bannister, A. P. Bremner, Harold Bannister, F. E. Woodbridge, D. Wanger, J. Eberly and E. Quinn. The meeting was addressed by Mr. W. J. Tregillus of Calgary, and Mr. George Hoadley, M. P., of Okotoks.

In introducing Mr. Tregillus, Mr. Bannister, who was chairman of the meeting, said: "The organization of this branch of the United Farmers of Alberta is one of the most important things for the farmers around here that has come up in a long time. The farmers must have better facilities for marketing their grain, and the time is coming when they will. The coming, especially the elevator companies, are treading on our backs. We must unite to get our rights."

He read a letter from a friend in Vancouver, B. C., who has been trying to market some of his oats, in which the writer said oats were worth 38 cents a bushel there now and the thought that would be higher. The writer said he had been informed by a man connected with the Vancouver milling company that the Alberta-British Elevator company is trying to corner the grain in Alberta, and that he is willing grain at cost in Vancouver, in order to freeze out the smaller millers.

This company is selling six cents a bushel lower than it should, reads the letter, with the purpose of crushing the competition. It made to go to 60 cents on its capital last year. The quicker you people in Alberta get after it the better."

Mr. Tregillus got the information in confidence from a man who is employed by the Okotoks mill. He is a non-union man, but he is not in the line that highway robbery."

Mr. Tregillus said: "We farmers want to realize our possibilities. We are the producers. Civilization depends on the farmer. He is the backbone of the most important industry in this country. We estimate that our wheat crop is worth \$10,000,000 at our present price. History shows that such cannot be accomplished when there do not organize, and yet farmers have always prospered. However, I am glad to say things are changing in this respect. We may become the best scientific farmers in the world, but we will not be able to do so unless we take care of the business end of our profession."

"We should be guided by California. There the farmers and fruit growers improve their methods of growing. But much that they overlooked the market. It was one of those calamities that are the forerunners of better things. Because of that lesson the Californians formed the most highly organized system of disposing of produce in the world. They not only found markets, but created them. We must do the same. The growers get too little; the consumers pay too much. The farmers are robbed daily. I head of an example as a fair load up north last fall. A farmer showed the seed inspector a sample of wheat he had sown for No. 3 to the provincial seed inspector. It was a good No. 1. A number of others told the farmer the same thing. So he lost \$400 on a crop of 10,000 bushels. He built the building of a pork packing plant and trade with British Columbia. A meeting of business men and growers is to be held in Vancouver next week to discuss this improvement of trade with Alberta and the necessary adjustment of the freight rates."

There is no reason why the farmers should not get a fair return on their labor and capital, and the farmers' union is to be held in Vancouver next week to discuss this improvement of trade with Alberta and the necessary adjustment of the freight rates.

AVIATORS HAVE KEEN RACE FOR BIG PRIZE

Paulhan Takes Unfair Advantage of English Aviator and Very Fierce Battle Follows

London, April 27.—Paulhan, the French aviator, and Graham White, the Englishman, agreed to postpone the race from London to Manchester for a \$10,000 prize offered by Lord Northcliffe, for the first man to fly the journey with one dismount, Paulhan broke the agreement and suddenly broke away while White was sleeping. He got a head of 70 minutes and 50 miles before White got going. The race was sensational. Both had to descend when darkness came on. They will probably proceed when the dawn breaks.

Paulhan Won Money.  
London, April 27.—Louis Paulhan, the French aviator, made his trip by aeroplane from London to Manchester with only one stop, thus winning the \$10,000 prize donated by Lord Northcliffe.

MURDERER WILL DIE AT BEGINNING OF JUNE  
Walter Received His Sentence Without Much Interest  
New York, April 27.—Albert Walter, convicted of the murder of little Ruth Wheeler, was sentenced today by Judge Foster in the general sessions to die in the electric chair in Sing Sing prison some time during the week beginning June 5. The condemned man displayed only a "hazy" interest in the court proceedings.

SEVERAL FIRE IN TOWN OF CONTENT YESTERDAY  
The Damage Was \$10,000. Cause of Fire Unknown  
Content, April 27.—A serious fire broke out here at 2 a. m. this morning. It destroyed the blacksmith shop, owned by H. G. Aitken. This private residence, a machine shop and the hardware store of Mr. Wilkinson. The damage was \$10,000, insurance \$5,000. Cause unknown.

Helping the Farmer  
In response to questions Mr. Tregillus explained how the United Farmers had helped a farmer who had been sold an inferior threshing machine not complying with the contract to compel the manufacturer to take it back, when the farmer would have been unable to have fought the case through the highest courts. He also told how the organization had forced the C. P. R. to pay damages for the loss of a train of cattle from Okotoks to Calgary, for which it was responsible which claim it had previously refused to recognize. He said another object of the organization is to encourage the lighting of provincial elevators and pork packing plants.

Mr. Hoadley and Elevators  
I think the question of elevators should be dealt with by the government, said Mr. Hoadley. The government was created to protect you, and if it does not, it is not carrying out its purpose. What Manitoba and Saskatchewan farmers have accomplished through organization should be a sufficient illustration of what you can do. Any other matters are other important matters to be considered besides elevators.

Women's achievements were due to the protection of combination. We should remember that and still there is no use of getting together unless we stay together. We are in parliament as a representative of a constituency, 50 per cent of which are farmers, as I have already explained on the floor of the house. My duty as it is to do all I can to help the tillers of the soil. Owing to the present mix up, I have had little opportunity to do so, however, except to protect my treasury from the onslaughts of railroad promoters.

PROSPEROUS AND BEAUTIFUL

To be convinced of the rapid growth and great activity going on in Calgary...

Leaving out of question the large number of business blocks in course of erection...

Another noticeable and pleasing feature of such a trip is the amount of care and work that is being given to the beautifying of the grounds surrounding Calgary's many beautiful homes.

The city, too, is not inactive in this line, and is planting a large number of trees on the boulevards.

The attempt that was made to create a scandal out of the sale of the Indian lands in the Selkirk district...

Whatever may be the future of the provincial university, and it seems to be very much alarmed about the competition of a few private individuals...

The lands in the reserve were held partly by Indians and partly by people who were not Indians within the law.

It is known out west that it is very difficult to deal with Indians, and they must have their own way.

There is some satisfaction in the fact that Alberta has had no peach orchards injured by frost or other late chills.

President Tory was right when he said that the enemies of the university were the enemies of the province.

We haven't seen much of our new townsmen, Mr. William Carey, but he seems to be a gentleman of great address.

Accepting the first meaning, then it is the greatest enemy of the province.

It is not as much sectional antagonism as he evidently believes that there is, but Premier Rutherford and his henchmen are responsible for all the sectionalism that exists.

Edmonton had just been selected for the capital, much to the disappointment of the people of this city.

But we were prepared for that and had

about forgotten it. But, just as good relations were being restored, some comes Premier Rutherford and adds...

It is useless now to point out the mistake that was made by the premier. That is past, and it seems that it cannot be undone.

But it was only the first move. Premier Rutherford arbitrarily placed the university at Strathcona.

President Tory refers to the enemies of his university with as much haughtiness and scorn as though he were speaking of such ancient and common enemies as the grasshopper or the weevil.

All that is necessary now to make the triumph of T. Roosevelt complete is for him to come in a mammoth procession home again with the thousands of captives chained to his chariot wheels.

Judging from the despatches it would seem that the best sellers across the line are: "The best picture and how I make them," "The secret of the mysterious crouch," and "The aggressiveness of the Dark Cloud."

It is fortunate that seldom a day passes without a notice of a new newspaper with office, and it is equally unfortunate that a notice appears of the building of a new "great" hotel.

It was too good to have our provincial weaknesses and shortcomings heretofore to the world over the telegraph wire, but it seems even more humiliating to have it flaunted to the world outside in a Manitoba court room.

President Tory has an idea that the people of Calgary are willing to spend their time, land and money and their fat kine to build up an educational institution that will have no object in life other than to sting the provincial university.

It would seem from the evidence that is being produced in Winnipeg that this railway company has not offered to build a railway for a subsidy of \$10,000 a mile, but a draft agreement was already prepared, which raises the obvious question: Why?

There is something in the Edmonton air which provokes strife. When the quiet, staid, old Presbyterian church sits down to hold a synod meeting in a peaceful manner, some springs the university question, and much discussion.

A MELANCHOLY BUSINESS (Ponoka Herald) Reading the proceedings of the commission re the Alberta Great Waterways Railway, a melancholy business...

The fact has been pointed out by promoters and their connection with the government reflects no credit on our legislators, and if it does not prove participation will bring home to the people of this province how their interests have been thrown away through reckless and incompetent action.

It is extremely difficult to forecast the result of this inquiry, as it may be taken upon Shakespeare's grand tragedy, Hamlet, about its principal character, Hamlet, for Clark, the president of the undertaking, and his adviser, if not a participant, declines to be interviewed.

It seems strange that the king's word should be taken throughout all that legal gentleman should be compelled to attend at Edmonton and be allowed to force an indignity on the people of this province, and to convert what should be a solemn inquiry into a farce.

THE ROYAL COMMISSION (Camrose Mail) If there was ever a doubt in the mind of any man as to the loss and unusual complexity of the railway government with the Great Waterways Railway, the Royal Commission now has ceased to exist.

The investigation before the Royal Commission is not a mere inquiry into the facts, but a guarantee that they could fulfill their obligations, and this amount was made to appear in the transaction by a species of legalism with which strategists with absolutely no security whatever.

The fact has been established too that the members of the Company knew absolutely nothing about railroading. This is the first venture in the road business. They are promoters pure and simple, and as such care not a straw so long as the road is shuffed off on the province and the proceeds of the bonds secured.

The statement was made in the Legislature on the last day of the session by the editor of the Canadian that there was every reason to doubt that the company intended to operate the railway and that the government should at once assume control of the expenditure.

The investigation, however, has brought to light a telegram from Mr. Waddell, the company's engineer, to Mr. Clarke warning him not to agree to operate, and saying that he would make a grave error if he did.

One would be quite safe in stating that he never had such the intention of the Clarke to operate the road, for did the contract require one cent of guarantee that they would ever finish, equip or operate.

Engineer Waddell proved also to be a man entirely without railway experience, except for a brief term spent with a C. P. R. survey party thirty years ago.

He is a bridge engineer and a good one, but so far as we know there has been no bridges of any consequence on the Waterways road.

Yes, this engineer, who is without experience in his work, of \$75,000 additional for services on the draws \$25,000 a year salary and a bonus side. This is equal to \$10,000 per year and all expenses. Money is no object.

The specifications were criticized very severely in the Legislature. Engineer Waddell has admitted that they were "hampered," but claims that they never intended building in accordance with those specifications. They say that they did not intend to build a bridge of their opportunities. Out of the

goodness of their hearts they would have built a good road.

The investigation has brought to light a draft agreement prepared previously to the fact that the government prepared estimates at \$12,500 per mile. Mr. Waddell submitted later an estimate of \$25,000 per mile to the government, and another of \$17,000 per mile to the company.

The fact remains that the government entered into this deal without knowing anything about what the deal was likely to cost.

The deal shows up as far the most extreme insouciant ever claimed it to be.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the patient strength by building up the constitution and giving the system a new lease of life. The proprietors have no such faith in their cure as to offer any money back guarantee. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, etc. Take Hall's Pink Pills for constipation.

Ottawa Sees Halley's Comet. Ottawa, April 27.—The first view of Halley's comet by the naked eye was obtained in Ottawa this morning by Observers Nox and Mellon from the top of the "Citizen" building.

Editorial At the foundation of this business is the idea of good service for everybody. Perhaps nine stores out of ten are organized with the idea of supplying the person of average wants with average merchandise.

The Hudson's Bay is the tenth store. Not one person in a hundred—if we can make it so—need go away from "The Bay" without getting exactly what is wanted.

Of course we are not infallible. But we are persistent and experienced and have unusual facilities and no end of energy in working to get the right things.

And along with the will to provide an unusually good service for everybody goes the will to tell the clear, plain, interesting truth about the merchandise, both in advertising and across the counters.

They Quality Store

Other Great Value Events in Dress Goods for Tomorrow

Seasonable offerings from this popular section have been more than eagerly responded to the last few weeks by those women who have learned through experience what Hudson's Bay values mean.

And the number of women who are becoming educated to Hudson's Bay advertising is so vastly increasing, we look to another record day's selling tomorrow.

The fact of the matter is—the values are too good to miss.

Colored Venetians, in black, myrtle, pearl grey, taupe, tan, mid-brown, grape, wisteria, cardinal, navy, etc. in a splendid quality, close weave, with fine smooth finish. They are splendid weights for separate skirts and long coats in particular. All are 50 inches wide and regular \$1.25 yard.

FRIDAY 75c

Satin Cloths, Repps, etc.—A large quantity of odd pieces of splendid quality dress materials, including satin cloths, repps, panamas, poplins and diagonal seers. All are in good shades and are simply short lengths of the season's most popular selling lines. Regular 75c and 85c yard.

## Savi-icitis

Will attack every man, woman and child in Calgary. Watch this paper for the cure.

## SPORT

(Continued from Page 3)

### KETCHEL DREW WITH MR. SMOKE LANGFORD

Six Rounds of Hard Going With Honors Just About Even—No Decision Given.

Philadelphia, April 27.—Sam Langford of Boston and Stanley Ketchel of Michigan met tonight in the arena of the National Athletic club in a six round bout, and at the end there was little to choose between the two men, if anything, Langford had a slight advantage, but a draw would have been a fair decision.

After the first round both men fought viciously, Ketchel playing for the colored man's stomach, while the Boston fighter used a straight left, varied occasionally with a right uppercut. It was one of those damaging blows which caught Ketchel flush on the nose near the close of the third round and started the blood flowing in a stream. Langford thereafter played for the damaged organ, driving his long left straight to the face repeatedly. This attack seemed to unnerve Ketchel, and he swung wildly many times, while Langford was cool all the time.

Langford was the first to appear in the ring. He was accompanied by Young Mississippi, Geo. Byers and George Cole, his seconds. The colored fighter was given a warm reception. He was followed a moment later by Ketchel, who entered the ring with Eddy Baum, Jimmy Kelly and Nick Mulder.

Ketchel was cheered to the echo as he crawled through the ropes. It was 10:23 when the men came into the ring. They waited until 10:25 for Referee McGirgan. Jim Flynn, the Los Angeles fireman, came into the ring, and was introduced by the referee, who then called the men to the corner of the ring and gave them their instructions.

Round 1.—The men advanced cautiously. Ketchel was first to lead with a light left for the wind. Langford missed left and right, and Ketchel tapped the colored man on the head. They clinched and in the break Langford landed light left on the wind, Langford missed repeatedly. Ketchel was forcing the fighting. He landed a left on the wind and right to the same place as the bell rang. Not a solid blow was struck.

Round 2.—Both advanced quickly to the centre. Langford tried left for the head. In a hot mixup, Langford sent two good lefts to the wind and head. Ketchel drove a right to the head and again to the wind. Langford sent a left to the head. Each landed lefts to the head and Ketchel sent a right to the wind. Another mixup and clinch and the referee had to pull them apart. Ketchel ended the round by landing left to the wind as the bell rang. As in round one, Ketchel did the forcing.

Round 3.—Ketchel started the third round with a left lead for the head, but was blocked. Langford jabbed two lefts to the face and then sent Ketchel's head back with a straight right. Both landed lefts on the wind. Langford jabbed left at the mouth and drove a hard right to the wind, and Ketchel sent a left to the face and they clinched. Ketchel sent Langford's head back with a hard left, and repeated the blow a second later. Langford missed a left uppercut, and Ketchel drove a hard left to the face. They were clinched at the bell.

Round 4.—Up to this time Ketchel was doing all the forcing. He did not let the colored man get set. Ketchel led left to the wind and they clinched. Langford sent two hard lefts to the jaw, and Ketchel was more careful. Ketchel drove a hard right to the wind. Langford brought the blood from Ketchel's nose with a stiff left. Langford chopped a hard left to the nose, and the blood came from the injured member in a stream. Ketchel hit a hard right to the wind, and Langford uppercut a hard one to the chin. This was Langford's round by a good margin.

Round 5.—Ketchel led light left to the face, and then sent a hard right to the jaw. Langford again punched the damaged nose, starting the blood afresh. Langford sent left to the face, and Ketchel sent right to the body. Both drove lefts to the face and Ketchel sent a hard right to the nose. Ketchel missed a hard uppercut and they clinched. Ketchel landed on the wind and Langford uppercut to the chin. Langford swung a right as the bell rang, but fell to the floor.

Round 6.—Langford lifted Ketchel off the floor with an uppercut. Both drove hard lefts to the head, and in a clinch Ketchel punched Langford's stomach, and Langford again started the blood flowing. He slugged Ketchel with a right to the wind. Ketchel was weakened. Langford sent his head back repeatedly. Ketchel was weak on his legs and they clinched repeatedly. Langford played for the damaged nose, and had Ketchel covered with blood when the bell rang.

Jim Busy Again

Ben Lomond, Cal., April 27.—Jim Jeffries, after the light training of the past two days, has resumed his work with eagerness. Accompanied by Armstrong, Farmer Burns and Joe Choyinski, he started at dawn yesterday on the miles of regular road work between the big trees and Ben Lomond, Bill Papke going over part of the run. Jeffries got into light costume in the gymnasium and worked with chest weights, medicine ball and skipping rope. His program for the afternoon included five or six rounds of fast sparring with Sam Berger, Armstrong and Choyinski.

Hillhurst Executive Meeting

A meeting of the executive committee of the Hillhurst Football club will be held in the club house tonight at 8 p. m. promptly. All members are earnestly requested to attend.

# BOYS' DAYS Thursday and Friday

## LOCAL NEWS

Mrs. Reynolds, 205 Second street west, will not receive today, nor again this season.

Avoid alcoholic and capsaicin tonics which burn hair and scalp. Use Bearline's hair grease pomade which feeds the roots and makes hair grow.

Today at Starland the great Roosevelt in Africa pictures with special lecture. Admission 15c and 10c.

Longfellow's poem, "Death of Minnehaha," sequel to "Hawatha," will be shown at Starland on Monday night, 3:30-1:30.

An emergent communication of Ashlar Lodge, No. 23, A. F. & A. M., will be held in the Masonic hall, Victoria block, tonight at 8 o'clock, when the third degree will be exempted. Visiting brethren will be welcome.

The Oxford v. Cambridge boat race and the Grand National Steeple Chase, moving pictures which have been taken by Starland L.A.'s, representative in England, took place on March 18th and 23rd, and will shortly be shown in all Starland theaters.

The first run of the special grand attraction, "Roosevelt's Hunting Trip in Africa." The genuine picture, special lecture, Starland, the best prices, 15c and 10c for children. 3:30-1:30

## WILD FLOWERS FLEE FROM GROWING CITY

Once They Bloomed Luxuriantly on Crescent Heights and Mission Hill Now Are Retreating.

The rapidity with which new subdivisions are being laid out in the environs of Calgary and the steady tramp, tramp of the intending purchasers who are brought out to view the lots, are proving disastrous to the beautiful wild flowers that grow around the city, according to M. S. M. E. Moodie, a local botanist, who addressed the Calgary Horticultural society's last meeting of the season in the Grain Exchange rooms last night.

"A few years ago it was possible to collect an abundance of flowers by going no further than Crescent Heights or Mission Hill," she said, "but it will soon be necessary to go ten or fifteen miles to obtain varieties. Some pretty bushy flowers grow on the south bank of the Elbow river, but this land is being divided into lots to be placed on the market, so I suppose that is the end of them."

Miss Moodie has spent 10 years collecting the flowers that grow in Alberta, and in the vicinity of Calgary in particular, and now she has 240 different specimens. She thinks that ten times that many might be collected if a person had the time. Last night she showed the audience 150 specimens of different flowers that can be found within ten miles of Calgary, describing the appearance and habits of each. It was surprising to learn how many different flowers are native to the prairies and thickets near here.

Miss Moodie called attention to the fact that this spring is nearly a month early, as the birds of Canada are coming into our nest now, while they generally do not do so until about May 15. She said the flowers are blooming ahead of time, and she pointed to the prairie phlox, western dog violet, Salsation and buffalo bean among the varieties already in blossom. She told of the blue columbine, shooting star, and lupinus as among the outdoor flowers that might well be domesticated.

Several plants, which have important medicinal properties, such as the Seneca root, she also described, incidentally mentioning a poisonous milk vetch growing on the prairies of Southern Alberta in a few spots, which the weed inspector says is very injurious to cattle, and a flower called by the Indians the death canase, the bulb of which is poisonous.

She called particular attention to what is known as the alpine aster, which is found nowhere on the American continent except in the Bow valley, Bow Pass in the Rockies and the Rockies. They formerly grew profusely in the locality of Fifth avenue between Seventh and Eighth avenue 15c Moodie also told of a number of varieties of flowers growing here which have not been named.

## Balsamic Essences

Make Wonderful Cures for Catarrh, Colds, Bronchitis, Throat Weakness.

To cure an ailment in the throat or chest, to root out Catarrh or Asthma, it is essential that the medicine be conveyed direct to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhose, which alone can be breathed in one second to every air cell in the breathing organs. The healing vapors of Catarrhose mix with the breath and descend through the throat, down the bronchial tubes, to the deepest air cells in the lungs—all parts are saturated with the rich balsamic essences that ease, heat and cure.

Catarrhose has entirely displaced the old-fashioned remedies, such as cough syrups, sprays, inhalants and sedative powders. It contains none of the opium, chloral and drowsy narcotics, and is entirely free from liquid cough and catarrh remedies.

The extraordinary curative power of Catarrhose is well explained in a letter from A. B. Cowan, the well known restaurateur of Carleton, who writes: "Some time ago I suffered severely from a frightful cold in the head and chest. It was nothing but a continual cough, hawk, headache from morning till night. My nose and throat were so completely stuffed up that I could scarcely breathe. Catarrhose eased the cough instantly, that would not yield even to the doctor's medicines. Hour by hour Catarrhose relieved and by pursuing its treatment I have been permanently cured of all traces of Asthma, Catarrh and Bronchial Irritation."

Once you try Catarrhose you'll realize how indispensable it is—the large dollar size contains an indelible hard rubber inhaler and sufficient medicine to last two months. Smaller trial sizes 25c and 50c. Beware of the substitutes and imitations. Catarrhose—use the genuine and you'll get the best.

By mail from the Catarrhose Company, Kingston, Ont.

## SEASON ONE MONTH EARLIER THAN 1909

The Vegetation as Far Advanced Now as it Was at End of Last May.

The season of 1910 is probably the earliest since farming operations were commenced on a large scale, in this province, and is fully four or five weeks earlier than that of last year.

"Natural vegetation at the end of April is fully as far advanced as it was at the end of May, 1909. The leaves on the trees are a larger area than they were at the end of last year, and already the first green fields are showing a green tint. The early spring and fine weather have enabled the farmers to not only seed a larger area than ever before, but to put the land in better condition for receiving the seed.

The spring has, perhaps, been somewhat dry, but owing to the better cultivation of the ground and the large amount prepared last fall, there is sufficient moisture to give the young seedlings a fair start. The main thing is to get the seed in the ground on a well prepared seed bed, and the result will be a better crop than in years past. The farmers of no country on earth ever faced a season with brighter prospects than do the farmers of Alberta that of 1910.

**ADDITIONAL LOCALS.**

**Drop in Price of Flour**

Toronto, April 27.—The Western Canada Flour Mills Company have announced a reduction of 20 cents a barrel in the price of flour, going into effect today. The best quality has been reduced to \$5.50 and the second grade to \$5.00. This is the first reduction made since September 1 last, when flour was dropped from \$5.50 to \$5.00. On January 15 last it jumped again to \$5.75 and remained there until today.

## An Awful Fear Caused Nervous Breakdown

Mrs. S. J. Carman had, as her letter discloses, we thought to see that fear engenders worry, and worry affects health and results in a general breakdown of the nervous system.

"The first winter I spent in Canada to not only seed a larger area than ever before, but to put the land in better condition for receiving the seed. The spring has, perhaps, been somewhat dry, but owing to the better cultivation of the ground and the large amount prepared last fall, there is sufficient moisture to give the young seedlings a fair start. The main thing is to get the seed in the ground on a well prepared seed bed, and the result will be a better crop than in years past. The farmers of no country on earth ever faced a season with brighter prospects than do the farmers of Alberta that of 1910."

My blood was made rich and red, my nerves so strong that nothing troubles me now.

Mrs. Carman, who is well known for miles around her home town of Portland, voices the opinion of everyone that has used Ferronox. It is sure to give you strength, certain to bring you robust health, unflinching in maintaining a reserve of vigor that defies weak turns, nervousness, insomnia and poor health. Try one or two tablets at meals, 50c per box, six boxes for \$2.50, all dealers. The Catarrhose Company, Kingston, Canada.

## AT THE THEATRES.

**At the Orpheum**

The Orpheum was again packed to the doors, proving that this popular playhouse has become a favorite with the theatre-goers of Calgary. One seldom sees in vaudeville acts that are as present playing at the Orpheum. Adair De Armond, the Kregers, and Bert Lewis are all headliners. Next week Manager Sherman will introduce to the patrons Harry Bernard and the "Merry Makers" in the musical farce, entitled, "McCabe in Paris," with special scenery and electrical effects and fine costumes.

## Roosevelt Pictures

The long-awaited magnificent picture of the great American's three months hunting trip in Africa arrived yesterday and were shown to enormous crowds last evening and undoubtedly proved to be one of the greatest successes in the natural motion picture line ever put out by the manufacturers, and so it should be. The whole world is following the doings and sayings of this great personage in his travels, so that the picture is being shown in every town in the world.

The picture will be shown again today, commencing at 2 p. m. and the price of admission both afternoon and evening, will be 15c for adults and 50c for children. The picture is a real opportunity of attending the majesty and witnessing this historical masterpiece.

## "Brown's in Town"

A rollicking farce comedy will be presented at the Lyric theatre tonight by the Eckhardt company. "Brown's in Town" is decidedly broad and goes to the heart of the matter. A young man who has not finished his education badly falls in love, and without his father's consent marries the girl of his heart. In order to keep it a secret, he hides himself in the country in the name of Brown. A friend comes along and they explain that they are visiting people by the name of Brown. More friends accidentally come along and the same story is told. At last their friends want to see Brown, and one by one each one is made to play the part of Brown until the air is blue with Brown. The last straw that breaks the camel's back is the arrival of the young man's father. The poor old gentleman is shamefully deceived for the time, but when several Mrs. Browns appear and only one Mr. Brown can be found he is told that his son is stopping with a Mormon. The old man then shows his temper and he is about to take his son home when the truth comes out, and of course, all is forgiven. The comedy runs the balance of this week, with a matinee on Saturday afternoon.

## At the Lyric

Contrary to what would be expected from its name, "A Knight for a Day" is not a laugh at the mail-coat period, but a rollick principally of today, tomorrow and the next day, of everyday people and of everyday place—Evansville, Ill.

The big gaily which delighted Chicagoans for a year, New Yorkers for six months, and Bostonians for the past summer comes to the Lyric theatre for an engagement of three nights and Wednesday matinee on Monday, Tuesday and Wednesday. The fact that it is still under the direction of Mr. B. C. Whitney, its original producer, is a guarantee of the perfectness of the production, which for scenic splendor and entrancing electrical effects is said to excel anything ever before attempted by this popular producer.

There are girls with the production, of course, and many of them—hand-light girls, sea-saw misses, sweet girl graduates, Corseton belles and beaux, stage door courtesans, grand opera choristers and dancing madcaps, all drilled under the personal supervision of Gus Solke, until they are as vital force in, rather a necessary adjunct, to the presentation. Many of the catchy songs will live long in memory, especially "The Little Girl in Blue," "Whistle As You Walk Out," "I'd Like Another Situation Just Like This," "What Pools We Mortals Be," "The Garden of Dreams" and "Life is a Sea-Saw."

Celebrated Norwegian Poet Dead

Paris, April 26.—Bjornstjerne Bjornson, the Norwegian poet and novelist, died tonight.

**WOULD BUILD ROAD FOR \$13,000 A MILE**

(Continued from page 1.)

Minty, Emerson, Sutherland and Haves were present at the meeting. The witness said he had never seen the minutes of the meeting.

**Shares for Advice**

Mr. Woodman said that he was to get five shares as part of his pay for his engineering advice. He understood that Mr. J. K. Cornwall was the incorporator of the proposed railway. Witness said he prepared a statement of the probable cost of the road, but he had never been over the country through which the road was to run.

Mr. Woodman produced his original report on the railway, also all communications he had concerning the Athabasca railway, and informed the commissioners that he had no objection to them seeing them. Mr. Johnston read Mr. Woodman's report, which showed that he had estimated the cost of the first hundred miles from Edmonton to Ft. McMurray at \$51,200. This, he pointed out, was exclusive of legal expenses of organization, and the cost of special bridges, tunnelling, etc., at Edmonton. Witness, in his report, commented on the fact that it was hard to make an accurate estimate of the cost of the road as he had not been over it.

Mr. Woodman said he got some information as to the nature of the country from Hudson's Bay men and some from J. K. Cornwall, whom he met once in Winnipeg in the year 1897. Mr. Woodman said he was present at a meeting at which it was decided that Mr. Haves and Mr. Davidson should be sent to England to see and float the enterprise. Minutes were kept of the meeting, which were taken either by Mr. Minty or Mr. Emerson. Witness said that his estimate of the cost was discussed at a meeting of the syndicate, and he added \$1,000 a mile for terminals. Mr. Cornwall was in the city about the time of the presentation of the second estimate and attended one of the meetings, but he could not say what the date was.

**Mr. Cornwall Expected Aid**

Mr. Cornwall expected that a guarantee of bonds would be secured from the provincial government. It was expected that the government would guarantee bonds to the extent of \$1,000,000 a mile, but that the syndicate would get more if possible.

Mr. Justice Beck—You would not require a larger grant if you could not get it?

Mr. Woodman—No.

**Draft Agreement With Government**

Witness continuing, said that he had seen a draft agreement purporting to be an agreement between the Athabasca syndicate and the Alberta government providing for the guarantee of the bonds of the road to the amount of \$1,000,000 a mile, interest to be charged at 4 per cent.

Mr. Johnston handed the document to Mr. Woodman, who, after reading it, said he had never seen it before.

Witness said he attended the meetings of the syndicate after 1897, where reports were received and discussed in connection with the financing of the road. Mr. Cornwall attended only one meeting of the syndicate. Mr. Bowen came to Winnipeg in May or June, 1897, and attended a meeting of the syndicate, witness being introduced to him by Mr. Minty. Mr. Bowen wished to secure the rights under the charter of the Athabasca syndicate. Mr. Bowen had come down from Mr. Cornwall. Mr. Bowen said he represented the capitalists, who were building street railways on the coast. Soon afterwards witness was introduced to Mr. Bowen, representing W. R. Clarke of Kansas City. Mr. Bowen was negotiating at Edmonton with the government through Mr. Cornwall, who introduced him to the government members. Witness said that he met Mr. W. R. Clarke in Winnipeg in 1908. This would be in the month of July. He understood Mr. Clarke was the capitalist backing Mr. Bowen.

Mr. Woodman said that he sent Mr. Cecil Goddard out to make a reconnaissance of this line. His instructions to do so came from Mr. Clarke. He understood Mr. Goddard's report was for Mr. Clarke's personal information. Mr. Goddard consulted Dr. Waddell in reference to his report after he returned from the survey. He came to Winnipeg and went on to Minneapolis to see Dr. Waddell and Mr. W. R. Clarke. He was asked to continue to Minneapolis to discuss Goddard's report, but as he had only short notice and had not had time to go into the report he declined to do so. Witness only presented one report as to the estimate of cost. He had never seen Mr. Goddard's completed report. Mr. Woodman said he did not remember having commented on the legal expenses in connection with securing the right of way.

Mr. Phillips was sent out at the same time on the survey as Mr. Goddard but he (Witness) had never met him, nor did he see his report. Mr. Woodman said that Messrs. Clarke and Waddell went to Edmonton with a report on the survey. He had heard that they were successful in getting the bonds guaranteed by the Alberta government. The question of the guarantee of the bonds was never discussed at any meeting.

**OF DOUBLE INTEREST IS THIS LETTER**

It Reports a Remarkable Cure of Kidney and Bladder Disease From Belleville, Ont.

Also Recalls Dr. D. M. Waters' First Purchase of Dr. A. W. Clarke's Pills and Ointment a Quarter of a Century Ago.

When you read this letter you will readily understand why it is of special interest to us, for the druggist who sold the pills in this case gave his first order in 1885.

For twenty-five years Mr. Waters has watched the growth in popularity of Dr. Clarke's Kidney-Liver Pills and other medicines and can now point to hundreds of cures in Belleville and vicinity resulting from his recommendations of these well-known medicines. If you are tired of experimenting why not use a medicine which has proven its undoubted control over diseases of the kidneys and liver? Let this letter convince you or send to us for records of hundreds of other cases.

Mr. Mark Ottrey, Bay Side, Ont., writes:—I purchased two boxes of Dr. Clarke's Kidney and Liver Pills from my druggist, D. M. Waters, Belleville, Ont., and the amount of satisfaction my wife obtained from their use has led me to ask my druggist to send you this letter.

"Mrs. Ottrey suffered considerably with kidney and bladder trouble causing great pain at times. The definite, direct and specific action of Dr. Clarke's Kidney and Liver Pills on the liver, kidneys and bowels enables them to bring about cure in the most complicated cases. One pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Toronto.

Faulkner told witness that he had sold his interests to Clarke for \$1,000.

**Deputation Asked \$13,000 A Mile**

H. H. Par'ee cross-examined the witness and in reply to counsel Mr. Woodman said his first connection with the Athabasca syndicate was on or about December 24, 1898. In January, 1897, the Alberta House met and Messrs. Haves and Faulkner and J. K. Cornwall went up to Edmonton to present a government bill for the road. The deputation asked for \$12,000 a mile guarantee. The deputation returned to Winnipeg in February of the same year.

Mr. Woodman said the understood from the members of the Edmonton deputation that the government had planned down the proposed a meeting of the syndicate was held and it was decided to grant Haves money to go to the old country to float the enterprise.

**TWO SOUTH AMERICAN NATIONS WHICH ARE NOT AT WAR NOW**

Brazil and Uruguay Have Come to Terms.

Rio Janeiro, April 27.—The Brazilian senate has approved by a unanimous vote the treaty signed by Brazil and Uruguay in October last, by which Brazil cedes to Uruguay a part of the waters and the island of Lake Mirim and of the Jaguar river.

The chamber of deputies had already approved this treaty. Uruguay is accorded free navigation for merchant and war vessels between the lake and the ocean by the Brazilian waters of Sangonalo and the Rio Grande. These concessions have been made voluntarily by Brazil without any compensation whatever.

**Presentation to Mr. Fielding**

Ottawa, April 26.—Hon. W. S. Fielding was tonight presented with the receipt for an investment of \$100,000 made in his behalf by personal friends. At the close of last session members of the house of commons and some influential individuals formed a committee for the purpose of receiving subscriptions for a testimonial to the minister in recognition of his long service as member of parliament and minister of finance. The response to the call of the committee was most satisfactory and was not limited by party affiliations. Many contributions were received without solicitation.

**SPORT**

(Continued from page 2.)

**By The Dopester**

The entire history of this People's shindie contest does not reflect any credit upon the man Parker, who is running it on behalf of the newspaper which donated it. The final decision is difficult to believe. The decision is unparliamentary and as the donors are British, it will give the public a very poor opinion of British fair play. However, it must be remembered that the case is of the unfairness and incompleteness of one single man, and not of the great British sporting nation. As a matter of fact, the outcome is both unfair and up-British.

Let us go into the history of it. The Caledonia football team is composed of young Calgarians, all working men. The majority of the players are stone cutters, though there are also printers, plumbers and ranchmen. They are the best on earth, but they are working men and are not rich. They organized the team and have run it ever since and all by themselves.

The shindie contest was put up for competition the Caledonians took several journeys throughout the province, keeping the game alive, and defeating their opponents. The shindie journeys were frequently quite expensive.

The first shindie game was played in Toronto. The second game was played in Winnipeg, and the Caledonians went after it and got it. They lost their time and paid their expenses. They met the other teams and won out. They were expected that the games would be played in Calgary, as the Caledonians held the shield. However, Calgary was ordered to Vancouver to defend the title. The club wanted to play the game in Calgary, but they were without the slightest objection: They played the shindie to a tie. They made no proposition for a joint division of the shield, but they said they would play to a tie. They said nothing about leaving on the next train, but waited over and played a third game with the same team, winning by a large score, and defeating the other team. The boys were in Vancouver for more than two weeks defending the shield.

This displeased Mr. Parker, who found that the Caledonians did not listen to some of his suggestions. He came to Calgary and told the writer that he was trying to get some of the Caledonians professionalized. That evidently did not succeed.

Last year the shindie games were played in Calgary. The Celtics of Vancouver beat off their first opponents and played the finals on a Saturday evening. The Celtics then played their opponents, and scored the only goal. However, a Caledonia player was on the ground when this happened and the umpire blew his whistle and disallowed the goal. The Celtics made no kick about the decision.

The Caledonians asked for a replay, but the Celtics declined to do so. There was nothing to it, then, but that the Caledonians hold the shield. And they thought so and every person thought so, until it was announced this week that there had been an arrangement between the clubs for joint ownership. There had been no such arrangement and the idea is a silly one.

The man Parker listened to a statement from the Vancouver team, but though he passed through this city made no effort to get at statement from the Caledonians. And now it seems that he has ordered a replay in Vancouver on May 24.

This is the limit. Had he ordered a replay in Calgary, there would not have been so much objection. Had he ordered a replay at a neutral point the action would have been high-handed, but might be defended. But to order a replay upon the enemy's grounds is rather remarkable. When the Caledonians played the games in Vancouver, the Caledonians played them in Vancouver. When Vancouver played the games in Calgary, the man Parker ordered them to be played off in Vancouver.

The date is fixed at the close of the Celtics' season and before the Caledonians' season has begun. The whole thing is unfair, and it is to be hoped that under the circumstances that the Caledonians will hold to the cup until they learn the reason why they should give it up. If this is the way that the People's shield is handled, it might be better to do away with the shindie game entirely, and place the championship in the hands of fair and honorable people.

**BANKERS OF COMPANY—Imperial Bank of Canada and Bank of Montreal**

**BOARD OF DIRECTORS**

JOHN I. A. HUNT, London, President  
Goderich Hunt Bros., Limited, Millers, Vice-President  
CHARLES WURTLE, Toronto, Director  
Vice-President National Iron Works, Limited, Toronto.  
JOHN GARRICK, Toronto, Secretary  
The Maple Leaf Flour Mills Co., Limited, HEDLEY SHAW, Toronto, Managing Director  
Maple Leaf Milling Co., Limited.

**D. C. CAMERON**, Winnipeg, President.  
President Rat Portage Lumber Company, Limited.  
**CAWTHRA MULLOCK**, Toronto, Vice-President.  
Director Imperial Bank of Canada, Director Confederation Life Association.  
**CHARLES W. BAND**, Toronto, Vice-President  
James Carruthers Company, Limited, Grain Exporters.

**NEW COMPANY A GOING CONCERN.**

Maple Leaf Milling Company, Limited, is a new Company which has taken over the whole undertaking as a going concern of the Maple Leaf Flour Mills Company Limited, including the assets of the Hedley Shaw Milling Company Limited. The company has mills at Kenora, Khorod, St. Catharines, Welland, and Port Colborne (the last named in course of construction) in the Province of Ontario and at Brandon in the Province of Manitoba. When the construction at present under way at Port Colborne is completed the company will have a total milling capacity of 12,500 barrels per day. The company has at present thirty-five elevators situated throughout the Western Wheat Belt, and fifteen additional ones are being added at the present time. A million bushel elevator is being constructed next to the new mill at Port Colborne. The company has also warehouses and offices at Toronto, Winnipeg, Kingston, Ottawa, and Montreal.

**MARKET FOR OUTPUT.**

The rapid growth of the business of the two companies taken over has long made apparent the necessity of additional milling capacity. Further their mills, including the total output put from the Western Wheat Belt, makes it absolutely necessary to have more mills in Canada to handle it. Last year this output amounted to about 125,000,000 bushels, and experienced men estimate that by the end of the year 1920 Canada will be producing fully 500,000,000 bushels annually. A great proportion of this will of necessity find its way into Canadian mills. Larger demands are bound to come as the population of the country increases, and the enquiry for the Canadian product, both from Great Britain and from the foreign markets of the world, will increase. The chain of mills now controlled by the new company will enable it to secure its full share of the trade of every section of Canada, as well as of Great Britain and foreign countries.

**SECURITY AND EARNING POWER.**

The assets of the old Companies taken over as above stand in excess of all liabilities and without any allowance for good-will, trade marks, etc., at \$3,770,524.11, this amount being ascertained on the basis of an appraisal by the Canadian-American Appraisal Company, Limited, as of March 17th, 1910, of the capital assets taken over, and the certificate of Messrs. Price, Waterhouse & Company, as of February 28th, 1910, as to current assets and current liabilities, with a liberal allowance for all contingencies. There has also been placed the Treasury \$1,000,000 of additional cash, besides permitting of the completion of a 6,000 barrel mill and a million bushel elevator and storage warehouse at Port Colborne, and of fifteen additional elevators in the West, will provide the new Company with further working capital. As per certificate of Messrs. Price, Waterhouse & Company, of London, quoted below, the earnings of the old Company on the present plant amounted from September 25th, 1908, to August 20th, 1909, to \$218,843.32 and from August 21st, 1909, to February 28th, 1910, to \$168,793.29, being for the latter period at a rate equal to over 13 per cent. on the preferred stock of the Company.

**LOCATION OF MILLS AND MANAGEMENT.**

Mr. Hedley Shaw and Mr. D. C. Cameron, under whose direction the properties of the old companies have been developed, will retain large interests in and be actively identified with the new Company. Mr. Hedley Shaw is Managing Director.

The location of the new 6,000 barrel mill at Port Colborne is without exception the best in Canada. A complete report on the advantages of the Port Colborne site, prepared by Mr. Hedley Shaw, will be found in the prospectus.

Prospectuses and forms of application may be obtained at any branch of the Imperial Bank of Canada or the Royal Bank of Canada, from Guardian Trust Company, Limited, Toronto, and from Cawthra Mullock and Company, Toronto.

### Indigestion Cured

This disease from which so many suffer gives the average physician a great deal of trouble. The best medical men have endorsed PSYCHINE, and recommended it in scores of the most obstinate cases. It has never failed in a single instance to give prompt relief. When directions have been followed, a few doses will remove that tightness and weight on the stomach. Taken regularly it positively cures General Distress, Flatulency, Nervousness, Coated Tongue, Heart Burn and Palpitation. If you have never used PSYCHINE, don't hesitate a moment longer. Try PSYCHINE to-day.

#### PROOF

Mr. Arthur Tomlinson, 18 London Street, Toronto, says: "For six or seven years I was troubled with indigestion and dyspepsia. The most acute of the stomach the doctors said, originated the troubles. I tried scores of remedies without avail. Eventually I used PSYCHINE and this brought immediate relief and cure."

**NO HOME SHOULD BE WITHOUT PSYCHINE** It prevents the children taking cold, wards off that terrible malady, La Grippe, and completely fortifies them against disease. It should always be used for colds, weakness, loss of appetite, bronchitis and weak lungs.

For sale by all druggists and dealers, 50 cents and \$1.00.

Dr. T. A. SLOCUM, Limited TORONTO

### PSYCHINE GREATEST OF ALL TONICS

#### Jews Can Become Citizens of United States Some Day

An Important Bill Before the United States House.

Washington, D.C., April 27.—In order to settle the mooted question of whether Jews, Armenians and Syrians can successfully apply for citizenship

in the United States, the immigration and naturalization committee today favorably reported to the house a bill by Representative Hayes of California providing that nothing in the statutes which are Armenian, Syrian and Jews from becoming naturalized citizens. Courts in different parts of the country have held opposing views in the meaning of the law in the case.

### PEARY SAILS AWAY TO TALK TO EUROPE

He Will Be Away About Six Weeks—Will Be Decorated Some, While Absent.

New York, April 27.—Commander Robert E. Peary sailed on the steamer Kron Princess Ceclie today for a lecture tour of England and the continent. He is accompanied by Mrs. Peary and their two children, and by Capt. Robert A. Bartlett, the Newfoundland skipper, who commanded the Arctic ship Roosevelt on the trip to the North Pole.

"I shall be away only about six weeks," Peary said. "I expect to be back in New York harbor on June 10. I shall deliver my first lecture in London on May 4."

His opening address will be delivered before the Royal Geographical Society, to which he is to tell the story of his polar trip. On that occasion, the society will present a gold medal to him and a silver medal to Captain Bartlett. In Rome, on May 20, the commander will receive another gold medal. In addition to those at London and Rome, he is to speak to the societies at Paris, Berlin, Brussels, Vienna and Edinburgh. He also will deliver an address in Budapest, Glasgow, Leeds, Aberdeen and other cities.

#### Massachusetts Will Choose Senators by Popular Vote

After Years of Agitation the Principle Was Endorsed.

Boston, Mass., April 27.—After many years of agitation the advocates of the election of United States senators by popular vote won a victory in the house of representatives today, when a resolution favoring popular election was submitted for an adverse committee report by a vote of 193 to 88. The resolution had behind it about a quarter of the Republicans.

#### U. S. Steel Has Dividend.

New York, April 27.—The directors of the United States Steel Corporation this afternoon declared a regular quarterly dividend of 1 1/4 per cent. for the quarter ending March 31. The regular dividend of 1 3/4 per cent. on the preferred stock was declared. The directors of the steel corporation report the unfilled orders on hand March 31 as \$4,402,514 tons. The total earnings for the quarter ending March 31 were \$37,616,876. The net earnings were \$31,503,194.

GEORGE POWELL—Who has just been appointed assistant city engineer of Toronto.

lar dividend of 1 3/4 per cent. on the preferred stock was declared. The directors of the steel corporation report the unfilled orders on hand March 31 as \$4,402,514 tons. The total earnings for the quarter ending March 31 were \$37,616,876. The net earnings were \$31,503,194.

### SERIOUS CHARGES AGAINST ELEVATORS

Three Companies Charged With Violation of the Elevator Act—Two Were Punished.

Winnipeg, April 27.—It has been known throughout the grain trade for some weeks that an important investigation in connection with the operation of terminal elevators was being carried on by the Dominion government officials, but such absolute secrecy was maintained that it was not possible to secure any details until the fines had actually been imposed and paid by the elevator companies involved.

The story in brief follows: At the close of navigation on Dec. 10, 1909, Inspector Gibbs of Fort William followed his usual custom of measuring elevators. The work was done on the Sunday following the close of navigation, which was on Friday. Gibbs found when comparing figures resulting from his measurements and statements given by elevators to warehouse commissioners that there was in the case of a number of elevators very serious discrepancies.

The law requires that each terminal elevator shall furnish weekly to the warehouse commissioner a statement of the amount of each grade of wheat in their elevators. When Gibbs found the serious nature of the discrepancies he laid the matter before Mr. Horn, chief inspector for at Winnipeg, who in turn consulted with Mr. Cattle, warehouse commissioner, and the matter was then referred to Ottawa, and the department instructed Cattle to investigate under the powers conferred upon him in the act.

For the sake of convenience the investigation was held in Winnipeg, books being brought here from Fort William. It is the first time that an investigation of this nature and gravity has been held under the act and counsel for various elevators raised many technical objections which in the end they waived and the investigation was proceeded with.

The following charges were laid: One against C.P.R. elevators, one against Consolidated, five against Port Arthur Elevator company, and six against the Empire elevator company.

### It will mean money in your pocket if you contract the newest disease called

# SAV-ICITIS

Its tendency is to give you an itching mad-dening craving to save money

In each case the charge was the same, that of furnishing to the warehouse commissioner incorrect statements as to the amount and grade of wheat in these elevators. In the case of all the elevators the matter was put before them and they were given reasonable time in which to explain how the mistakes, if they were mistakes, had occurred.

In the matter of the C.P.R. elevators very careful checking showed that the mistake was purely a clerical one, and they were consequently given a clean sheet.

In the matter of the Consolidated, the defendants were confident that they could prove an error in the same way and they did all in their power to facilitate the investigation. It was proven, however, that while the actual discrepancies on which the charge was brought had not been intentional, it had occurred through the elevator following the practice of loaning wheat which is a violation of the act, and their case went to trial.

The magistrates, however, gave them the benefit of the doubt, and only imposed a nominal fine of \$10.

In the matter of Port Arthur elevator and Empire elevator the charges were taken up and on investigation were all sustained and the department at Ottawa instructed their counsel here to prosecute, and the case came up before Police Magistrate Daly on Friday, April 23.

The Port Arthur elevator was proved guilty on five charges of false statement and fined \$100 for each offence. The Empire elevator was found guilty on six charges of a similar character and fined \$500 for each offence. The fines were all paid this morning and the cheque went forward to Ottawa this afternoon.

Would Consent to Death

Natchez, Miss., April 27.—Ed. Keaton, 110 years old, who lives near this city, declares that he is determined to die a natural death. Last night he was bitten by a rattlesnake, but the doctors say he will get well.

### THE AURORA IS NOT LOST AND NO ANXIETY YET

There is No Great Fear About Newfoundland Vessel.

St. John's, Nfld., April 27.—A report brought to the city by the sealing steamer, *Beaumont*, that the *Aurora*, another vessel of the fleet, with a crew of 18 men, has not been seen since the first of the month, is not regarded by the *Aurora's* owners, C. T. Bowring & company, limited, with alarm. They expected their vessel would return to port by next Monday. They said that she was a staunch ship and that ice conditions this season had been more favorable than for many years.

Captain Abraham Keane, commander of the *Aurora* for eight years, said that the *Aurora* is one of the best ships in the sealing industry. He did not fear for her safety.

Another expert fisherman who expressed no alarm for the safety of the *Aurora* is Hon. Archibald Piescott, minister of marine and fisheries in the Newfoundland cabinet.

He preferred that the ice conditions were so favorable that no mishap could befall the vessel, but he said that it is not uncommon for the sealing vessels to be unreported for three or four weeks. The steamer *Kite*, which arrived on Sunday, was unreported for 36 days.

### Piles Quickly Cured at Home

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper

### HAPPY DAYS FOR PETE THE YOUNG ALLIGATOR

He Glories in the Sunshine in His Home at the Fire Hall

These are happy days for "Pete," the pet baby alligator of Chief Smart of the fire department. While everybody else in town was sweltering around in the heat yesterday, winding away his perspiration with their handkerchiefs and wishing Alberta was not quite so sunny, "Pete" was having the time of his life.

In his little tank out in front of the fire headquarters building he just seemed to bask in the glare of the sun, but he showed more signs of happiness than he ever has since in captivity.

"This is fine," he said in his cute little baby alligator language to Chief Smart, who says he understands him. It probably reminded him of his late home in Florida, and "Pete" is certainly a long way from home. But he is getting to be a spoiled baby. Too much pampering by the firemen. When he got tired of feeding on little chunks of porthouse steak, "Pete" was fed flies. He preferred 'em alive, so the firemen have tried to catch them alive for him as much as possible. They have captured every fly within a block of fire headquarters and the surface of the tank is black with the insects, some alive more than others. He has more than he can eat, and that's bad for any baby.

### THE STEEL COMPANY ABL TO INCREASE DIVIDENDS

The Action of the Company in Line With Popular Expectations.

New York, April 27.—At the quarterly meeting of the United States Steel Corporation today, the directors declared a regular dividend of 1-4 per cent on the common shares, thereby increasing the rate from 4 per cent to 5 per cent a year.

In a statement to the directors, Chairman Gary announced that any additional disbursements heretofore made on the common stock will take the form of extra dividends.

The action of the directors was in line with popular expectations, although the course of the steel common in the late season market seemed to inject some uncertainty on this point.

Earnings for the quarter ending March 31 last were \$35,616,578, with net returns of \$2,009,000.

These figures are likely to cause some disappointment, as conservative forecasters had fixed recess returns at not less than \$2,000,000.

Comparison with the first quarter of 1909, when an open market, with resultant cuts in prices, prevailed, shows a marked increase in earnings and business on hand.

Gross returns for this year's first quarter are \$4,668,608 greater than those for the corresponding quarter of last year, while net earnings are larger by \$2,418,825. Unfilled orders on hand on March 31 aggregated 5,402,315 tons, against 3,542,595 tons at the end of the last year's first quarter.

The usual quarterly dividend of 1-4 per cent on the preferred shares, payable May 28, was declared.

The common dividend is payable June 29.

### BEAR MANGLER KEEPER IN THE NEW YORK PARK ZOO

There Was a Sensational Battle—Man Badly Hurt.

New York, N.Y., April 27.—With his body badly mangled by teeth and claws and his left arm almost torn from its socket, Richard Spicer, a keeper at the Bronx Park Zoo, was rescued unconscious this afternoon from the bear pit, after a desperate struggle with an angry bear. He was removed to a hospital in a serious condition after a hard fight with the animal. Patcha, a huge brown Russian bear, which had always been considered mild tempered, became angered when being locked into a box, and trundled across the park from her winter quarters to the pit. In the pit when Spicer attempted to make her sit up and pose for a picture with her cubs she sprang upon him, dealing him a terrific blow with her paw. She then seized him by the arm and dragged him into the den, clawing and mauling him. Sanborn grabbed an iron bar and rushed to rescue Spicer, who was unconscious. Patcha turned on him, but the photographer managed to fight her off with the bar. His screams and the cries of a hundred spectators brought other attendants, who beat off the bear and rescued the imperiled men.

### How Prisoner Escaped

Trenton, N.J., April 27.—John Aitkens, a prisoner, escaped from the Jersey State prison by sawing the bars in the windows of the fire room, where he was employed, and scaling the outer wall. This is Aitkens' third term in the institution. He was sentenced in 1909 from Union County to serve 23 years on the charge of murder.

### W. ASSELTON SMITH—Who has been appointed to Toronto Court of Revision.

How the Emperor Keeps Pledge He Made to His Subjects.

Berlin, April 27.—The leading feature of the present political situation in Germany is the complete and remarkable self-effacement of the Kaiser, which has been evident from the very beginning of the heated controversy now proceeding in regard to the franchise question in Prussia. The Kaiser, formerly the most prominent controversial politician in his country, has disappeared from party politics, and after thrusting himself into the very forefront of all current public disputes and faction rivalries for two decades, William II has abandoned the habits and customs of a lifetime, and has enveloped himself in an impenetrable reserve.

The Kaiser's present reserve stands in such striking contrast to the freedom with which he previously plunged headlong into the strife of party politics that the whole character and personality of his imperial majesty seems to have changed within the last few months. From the beginning of his reign in 1888 till 1908 the Kaiser delivered public speeches upon almost every subject under the sun, and many of his utterances dealt with questions both of home and foreign policy.

His attitude in his own country, he criticized others, he asserted his views on many questions of German and Prussian domestic affairs with powerful emphasis, so that for twenty years he was the central figure in many heated controversies.

### MAKES PARENTS PAY SMALL RANSOM FOR RETURN

Young Woman in Denver Has New Plan for Blanking Mothers

Denver, Col., April 28.—A young woman about eighteen years old has made a practice here of temporarily kidnapping young children in the day, and charging a small amount of money for services rendered.

She was brought to the attention of the police today by Mrs. J. C. Harris, of 2424 Weldon street, one of her victims. Mrs. Harris' three-year-old son Edward disappeared from the front yard of the Harris home at 9 o'clock yesterday morning. The police were notified and asked to look for the lad, but he could not be found.

About noon he was taken back home by a nicely dressed young woman, who proceeded to collect 50 cents from Mrs. Harris for restoring the child. She said: "I am Chief of Police Armstrong's daughter. It is my special business to recover lost children, and I make a nominal charge of 50 cents for my services."

"If your little son ever stays away from home again just notify me and I will find him for you. You can reach me by calling this number," and she handed Mrs. Harris a card bearing a telephone number written in pencil. Then she accepted 10 cents from Mrs. Harris and departed.

Premier Murray Very Ill

Halifax, April 27.—Hon. George H. Murray, premier of Nova Scotia, is seriously ill. He was removed to the Victoria General Hospital today for an operation which was performed this afternoon, and was rendered necessary by the blocking of an artery in the left leg. The limb had become very much swollen, and Mr. Murray suffered intense pain. The operation consisted of a slight incision to relieve the swelling. It afforded some ease, but the surgeons report tonight that the condition of the leg gives but slight hope of their being able to save the limb, which will likely have to be amputated below the knee. They will know definitely tomorrow. The blocking of the artery was first observed on Sunday night. Hon. Mr. Murray had been ill for two weeks previously with grippe.

### BAD FLOODS CAUSED BY CLOUDBURST IN NEW YORK

Three Feet of Water Dashed in at the Middle of the Night.

Rochester, N. Y., April 27.—A special from Hornell, N. Y., says that a cloud burst in that section last night has caused one of the most disastrous floods in the Canastota river valley.

North Hornell has water three feet deep in the streets. In the middle of the night the fire department was called out to rescue families.

### KAISER NOW EFFACES HIMSELF IN POLITICS

How the Emperor Keeps Pledge He Made to His Subjects.

Berlin, April 27.—The leading feature of the present political situation in Germany is the complete and remarkable self-effacement of the Kaiser, which has been evident from the very beginning of the heated controversy now proceeding in regard to the franchise question in Prussia. The Kaiser, formerly the most prominent controversial politician in his country, has disappeared from party politics, and after thrusting himself into the very forefront of all current public disputes and faction rivalries for two decades, William II has abandoned the habits and customs of a lifetime, and has enveloped himself in an impenetrable reserve.

The Kaiser's present reserve stands in such striking contrast to the freedom with which he previously plunged headlong into the strife of party politics that the whole character and personality of his imperial majesty seems to have changed within the last few months. From the beginning of his reign in 1888 till 1908 the Kaiser delivered public speeches upon almost every subject under the sun, and many of his utterances dealt with questions both of home and foreign policy.

His attitude in his own country, he criticized others, he asserted his views on many questions of German and Prussian domestic affairs with powerful emphasis, so that for twenty years he was the central figure in many heated controversies.

### BIG DEAL IN REALTY ON SECOND ST. EAST YESTERDAY

Citadel Fence Company Sells Property to the Calgary Laundry Company.

The Citadel Fence Company and Iron Works, comprising seven lots and building on 2nd street east, between 5th and 6th avenues was purchased yesterday by the Calgary Laundry Co., who will erect a new building with complete modern laundry equipment. The property is behind the Ontario dry on 2nd street east, and is a very valuable site.

The deal was put through by Messrs. Doughty & Franks, local real estate agents.

### HINDOOS ARRIVE IN CALIFORNIA

East Indians Banned by New Regulations for Entry into Canada.

San Francisco, April 27.—Thirty more East Indians, most of whom are Sikhs, arrived yesterday on the *Clayo* and are now at the Angel Island immigration station, waiting to be admitted to the United States.

The Hindoos, like the large bands who have recently arrived on the Pacific coast, are unskilled laborers. Many of them will go into Oregon and Washington, where they are to be employed by big manufacturing corporations.

The arrival of the Hindoos has stirred up leaders of labor unions in California, and a strong protest is being made against their admittance to America.

Recently the Asiatic Exclusion League passed resolutions in which it was asserted that America would be facing another Asiatic problem unless immediate steps were taken to stop the ever-increasing flow of immigrants from India.

### MORE TROUBLE IN TURKEY GOVERNMENT SENDS TROOPS

The Albanian Risings in Those Parts Have Become Serious

Constantinople, April 27.—The Albanian risings have again become serious, and the government has decided to dispatch two brigades of reinforcements, equal to sixteen full battalions, to the affected districts from Smyrna and Salonika. Last reports say several thousand Albanians attacked eight Turkish battalions near Shtimlyia, Northern Albania, and successfully prevented the Turkish occupation of Dulya Pass. The Albanians then captured Kachanik Pass and seized a military train conveyed by 1,500 Turkish soldiers who were dismayed and sent back to Uskub. The capture of Kachanik endangers communication with Uskub and threatens the complete isolation of the Turkish army in Kosovo plain in Upper Albania. The Albanians are displaying such skill as to lead to the belief here that their leaders probably include some of the members of the old bodyguard of the late Sultan Abdul Hamid. Unconfirmed reports make reference to heavy casualties in the fighting.

### Had Given Up All Hope of Living

Heart Trouble Cured by Milburn's Heart and Nerve Pills

Mrs. Andrew Savoy, Grattan, N.B., writes:—"In the year 1905, I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors, but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law."

"One day a friend came to see me, and calling me by name, said, 'Lizzie, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good. I was able to say, 'Yes, I feel a good deal better this morning.' He said, 'Well, will you get another box right away.' I took two boxes and three doses out of it, and I was perfectly well again. I have not been sick since then."

"I will never be without them in my home for God knows if it had not been for Milburn's Heart and Nerve Pills, I would not have been alive now."

Price, 50 cents per box, 3 boxes \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## A FORTUNE HERE

For the Man Who is Quick

528 ACRES \$200.00 PER ACRE 528 ACRES

This is without a doubt the very best, close in, sub-dividing property obtainable within the 3 miles radius that can be bought at the above figure. Almost every acre of this splendidly located land can be used for sub-dividing purposes. 400 acres of this lies due east of what is known as Nose Hill, and immediately north of La Grange, where 25 ft. lots are sold from \$50 upward. This land, situated as it is on a sort of plateau, commands an excellent view of the city and surrounding country, and would make an ideal spot for a suburban house. The other 128 acres which borders on Nose Creek and N. Balmoral, is meadow land, and cannot be excelled for garden purposes. On this property is built a \$2,500 house, also out-buildings and everything necessary for an up-to-date dairy. The terms on the above property is 1-3 cash and balance to cover five years. We will consider selling in parcels from 100 acres up. We are safe in saying that this property will double in value in 3 years time. Come while the chance is open and make money.

### THE EVIDENCES AT ROYAL COMMISSION

Further Verbatim Reports of the  
Testimony Given by the Different  
Witnesses—Mr. Cornwall Begins.

The Albertan found the evidence at the Royal Commission so voluminous that it decided to discontinue the publication of the reports. One day's proceedings takes about 10 pages a day. However the Albertan has received several requests for the same and will continue the publication of the reports.

The report is resumed on the morning of April 14.

It reads as follows:  
The commission met pursuant to adjournment and the further taking of evidence was resumed as follows:

Mr. Walsh: My lords, Mr. Johnstone and I think that owing to the situation in which we find ourselves there is only one thing for us to do, that is to proceed to take the evidence of such witnesses as can be procured within this jurisdiction, and then the evidence of such other witnesses in other jurisdictions as we may be able to secure the attendance of either voluntarily or compulsorily process. We propose making a start, therefore, by calling Mr. Minty to the witness stand. But before doing so, I think it is just to Mr. Johnstone and myself, I should state fairly what I think of what I have no hesitation in characterizing as the grossest breach of faith which Mr. Minty has been guilty of, and also state, in some measure at any rate, the extent to which we are handicapped by this breach of faith. The public naturally looks to us as counsel representing the commission to see that all of the facts that should be brought out at this inquiry are brought out, and we perhaps would be blamed for any failure to bring out a full and fair exposition of the facts. I stated, my lords, that Mr. Minty's conduct is nothing less than a gross breach of faith, and I state that deliberately. My first duty, after being appointed as counsel to the commission, was to communicate to Mr. Minty the fact that the evidence of Mr. Clarke, Mr. Bain and himself was absolutely necessary before this investigation could be closed, and I asked him to let me know if they would submit themselves to the jurisdiction of this commission, and give their evidence here.

Mr. Minty's reply was a telegram stating that the parties mentioned would gladly attend. That was followed a few days later by Mr. Minty's coming to Edmonton, three or four days in advance of the first sitting of the commission and for the avowed purpose as he expressed it to me, of placing himself at the disposal of the commission and facilitating in every possible way by his presence here for the purpose of giving evidence and bringing Mr. Clarke, and Mr. Bain and any other people connected with the company who might not be residents of Alberta here for the purpose of giving evidence.

Then Mr. Minty submitted himself for examination as a witness before this commission, and his evidence is not yet concluded. I am strongly inclined to think, although I haven't had any opportunity to consider it at all, that Mr. Minty in the attitude which he has taken toward the commission, and his conduct, and his contempt of court, and as such has subjected himself to punishment by this commission; of course, only if it can be found with the facts before me, and it may be that my learned friend and I will, when we have an opportunity to consider the matter further, perhaps ask your lordships to issue a warrant against Mr. Minty, based upon his contempt. There is no question about it but that he has submitted himself to the jurisdiction of this commission. There is no doubt about it from the perusal of the evidence that he gave at the first sitting that he implicitly promised to come back. Whether he did or not he was there as a witness with a full knowledge of the facts that his further attendance would be required before the inquiry would be closed, and we find him coming back two or three days in advance of the reopening of the inquiry, and staying here until the evidence before the inquiry resumed, and then not having the courtesy of coming to the commission and stating in person what the reasons were by which he had neglected him in taking this course, simply sending a letter which he marks personal, saying he is not going to attend further.

In this connection I wish to say that one of the last evening's papers reported that I had stated to the commission yesterday that Mr. Clarke had offered to submit himself for examination in Winnipeg. I did not say that; it is not true. So far as any intimation to us is concerned, Mr. Clarke does not intend to submit himself for examination before this commission at all, either here or in Winnipeg or elsewhere, and I have no hesitation in saying this, that it would be a matter of utter impossibility, as far as I can see now, to get Mr. Clarke's evidence before this commission.

Then, in reference to the manner in which we are handicapped by the course in which Mr. Minty has seen fit to take, I beg to point this out: In Mr. Minty's examination as a witness before this commission the statement was made by him that there was an old minute book of the Alberta and Great Waterways company which he hadn't brought with him. At page 141 this takes place, in answer to question by myself: Q. And from what you have told me, I think there is no harm to repeat it, there was a former minute book from which the present one was written up?  
A. Yes.  
Q. And you have not got that one here?  
A. It didn't occur to me to bring it, you can see it at any time.  
Q. Is that in Winnipeg?  
A. Yes.  
Q. You will bring that with you when you come again?  
A. Yes, certainly unless you make a commission down there to examine it.

Mr. Justice Scott: That is a clear intimation that he was expected to return and give further evidence.  
Mr. Walsh: Yes, my lord. And the last question: would rather have you bring it here? A. I will bring it.

Now, Mr. Minty handed to Mr. Biggar, which were handed in yesterday a few productions which don't amount to that (snaps of fingers). The minute book hasn't been brought here. He is asked also about the books of the Canada West Construction company, and he promised to consider on his return whether he would submit them for our examination or not. Mr. Johnstone and I, in going through the productions after adjournment, satisfied ourselves beyond doubt that the books and papers of the Canada West Construction company were probably the Alberta material things regarding production from the hands of the company that we could find. They are not here. There is not a person in Edmonton, so far as we have been able to ascertain, that can tell us the first thing about the Canada West Construction Co., and I make this statement to your lordships and I am going to prove it, and I have the right to say now, what we intend proving in this connection. We understand to prove before this commission that the Alberta and Great Waterways Co., in the events that have happened, is nothing but a myth and the Canada West Construction Company is the substance. We intend to prove that out of the \$7,000,000 authorized capital of the Alberta and Great Waterways company, \$50,000 was paid up nominally. We intend to prove that that \$50,000 was not paid in money, it simply represents a feat in book-keeping, slight of hand. We intend to prove that the sum of \$50,000 was placed to the credit of the Alberta and Great Waterways company in the books of a bank in this city, and in order to balance the entry the corresponding debit was made against W. R. Clarke; that that \$50,000 remained to the credit of the Alberta and Great Waterways Co., for a very few hours, until that organization meeting was held. At that organization meeting that was held within an hour after the \$50,000 was placed to the credit of the company, a resolution was passed authorizing the issuing of a cheque for that \$50,000 to W. R. Clarke; that the cheque was issued on the same day and the \$50,000 went to the credit of the company, and the next day the cheque was turned into the bank to the account of W. R. Clarke, debited to the account of the Alberta and Great Waterways company, and thus was the \$50,000 of paid up capital. We undertake to prove this, that at that same organization meeting on the 28th day of October a contract was made between the Alberta and Great Waterways Co., and what is known as the Canada West Construction Co., under which the Canada West Construction Co. undertook to construct this road, and as a consideration for it they were to get the entire proceeds of the bond issue, the said issue intended to prove that, as a matter of fact, an assignment was made by the Alberta and Great Waterways Company to the Canada West Construction Co. of the \$7,000,000 now in the bank representing the proceeds of the sale of the bonds. I state these facts for the purpose of satisfying your lordships how utterly impossible it is for this investigation to be completed without a full examination into the affairs of the Canada West Construction Company, and the Alberta and Great Waterways Co. today. There is no person in the province of Alberta who can give us the slightest information about them. We go down to the offices of the company; they don't know who the officers of the Canada West Construction Co. are or who they are working for, and we must have these papers and books of the Canada West Construction Co. So it seems to me that in view of what I have stated there can be no question about it but that our efforts to procure the full information which we should procure are much handicapped by the action Mr. Minty has seen fit to take. Then, there is another matter. Mr. Minty handed to us before he went away a suitcase containing all the documents which he said he had in his possession relating to the matters to be inquired into. We were given every opportunity to examine these. We took them to our rooms and examined them. They were left by Mr. Minty in the possession of Mr. Biggar. When we had finished we took them back to Mr. Biggar's office. They are still there. Mr. Biggar has undertaken to have them—

RALPH PULITZER—a young American sensational writer.

Now, Mr. Minty handed to Mr. Biggar, which were handed in yesterday a few productions which don't amount to that (snaps of fingers). The minute book hasn't been brought here. He is asked also about the books of the Canada West Construction company, and he promised to consider on his return whether he would submit them for our examination or not. Mr. Johnstone and I, in going through the productions after adjournment, satisfied ourselves beyond doubt that the books and papers of the Canada West Construction company were probably the Alberta material things regarding production from the hands of the company that we could find. They are not here. When we had finished we took them back to Mr. Biggar's office. They are still there. Mr. Biggar has undertaken to have them—

(To Be Continued.)

### This Hint Might Save You Money.

Very often the cheapest and poorest production yields most profit. Some dealers with their own profit in view try to "push" inferior preparations when Zam-Buk is asked for. They talk about "just as good," or "practically the same," etc.

Not one dealer knows what is in Zam-Buk! If any dealer tells you that something else is "just as good," ask him how he knows!

Besides, the imitation is never as good as the genuine article. When buying Zam-Buk, therefore, be sure and see the name on the packet. The name is protected by law, and therein lies your safety.

THE FAIR CONTRACTORS WITH UNIO

But the Painters Wage Scale Prev

IF NOT THEY TO WALK O

Both Painters a Complain A Low W

The Master Painters meeting last night Ramsay & Co. to disc made by the painter an increase in wages 6 hours per day.

The meeting was w did not adjourn until association refused to out. But stated that d of Bowers, Bishop, an arbitrate with a c from the painters. Th held on Thursday ne company's office. Th Mr. Ramsay in dis stated that the givon arbitration, he should they arrange ment their fulfillin they had tendered o at the old scale. Th He further claim'd Mr. Ramsay furth was no such thing i heretofore the pa in Calgary were op union and non-union. He further claim'd were not even acti builders' exchange t trade intending to ch whole city are bou players of that tra every year.

The painters are d their first c association are not c contracts and at the advance in wages.

Carpenters The local carpenters satisfied with the ch submitted agreement for suggested by the build Wednesday night.

The carpenters cla the worst paid trad that carpenters elier since receive consid a minimum of 40 to 4 as offered by the c in carpenters' uni not a very strong o about 60 per cent of holding cards in it. ment at present, 41 1-8 cents per hou of the union's c.

In Winnipeg, where al wages is lower; carpenters receive 45 get 50 in Lethbridge, and in Vancouver, eight hour day.

Some of the troubl arise. Whether there will be a strike is not and in any event the does not expire unti the whole city are ab offered by the report the men claim that the thing and treat it as a real demands are com Monday next in th and the course of ac will come up for disc

May Go Out Mr. J. N. McDougall of the painters' union might that the union's adjustment in wages for strike on May 7 unie grant their demand 40 and 50 cents an expect an answer. Painters' association? We are out to win Douglas. "Our deman in this city are ab They get only 40 ce are compelled to work day. In fact, the pain they receive 50 cent Vancouver 50.

"At our meeting, las in 25 new member membership of the There are only 160 whole city, and w practically every one May 7."

The yearly agreem 7th of May, and has in for about three year, ing that at the end adjustment in wages for ment would stand for Winnipeg is the onl ern Canada that call they are paid 37 1-2 but the cost of living i here.
