

HAS "DEWAR'S WHISKY"

BEST BEING ENOUGH BEFORE
PUBLIC TO
ITS VIRTUES TESTED?

Time is an
Unimpeachable
Test of Merit!

It is nearly 9 years since DEWAR'S was introduced on the Canadian Market, and each year the SALES have made steady advances, but the 12 months closing on the 31st March have eclipsed all previous ones by going nearly 25 p.c. ahead.

What do the CROAKERS say now, who never lose, what they think an opportunity, to circulate the utterly false report that the quality has deteriorated and the sales decreasing.

The quality has NEVER varied one iota under the standards set by the different grades.

And Mark You! Owing to its immense popularity no Brand has had to contend with so much re-filling of bottles.

NEW STOCK OF ST. RY. CO. TAKEN AT GOOD VALUE — MONT.-LONDON EX-DIV. SELLS AT SAME FIGURES AS BEFORE — TRADING WAS LIGHT — PRICES WERE LOWER.

Montreal, April 30.

The new stock, just issued by the Montreal Street Railway Company, made its first appearance in the market to-day and on a very small parcel of shares sold at 215, which is exactly the value of Right plus par value of 1 share, multiplied by 2 so as to constitute the unit of the Stock Exchange. Old Street stock was also sold at 256, that is eleven points higher than the new stock.

Another noticeable feature in the session's transactions was the closing price of Montreal-London at 30, though ex-div., which gives a quotation virtually 42 points higher. The advance in Montreal-London was very marked to-day. Rumor was going around that the advance was on some good news about the properties which was known only to insiders. On the Mining Exchange the advance was even more decided, as closing price there was 31.

Pacific opened the session with the decline of $\frac{3}{4}$ of a point at 95 $\frac{1}{2}$, receding later $\frac{1}{2}$ from this. The closing price for a broken lot was 96, but bid and asked prices showed no signs of advancement.

International stocks in London were lower to-day, holding at declines, however steadily to the lowered price, and American stocks on Wall Street seemed little disposed to follow the upward leading of Sugar. Locally, therefore, Pacific exhibited no indications of rally from long weakness.

A gain of $\frac{1}{2}$ point was scored by Twin City.

Royal Electric lost 1 point on not inactive business.

All the other stocks traded in were sold at previous figures.

Toronto at 97, Mont. St. Ry. Rts at 72 and R. & O. at 110 were at former quotations and with trading of the lightest.

MONTREAL MINING EXCHANGE.

MONTREAL-LONDON THE FEATURE — SELLING X-D TO-DAY — DEER TRAIL STEADY — GOLDEN STAR BETTER.

The market was fairly satisfactory for the opening session of the week. Deer Trail was steadier, and Montreal-London, which is selling x-d, was quite strong.

Golden Star was in better demand and sold at 6½.

The news of the resignation of the president of the Deer Trail Consolidated and the election of his son in his place is what has been discounted during the past week. The stock was inclined to be steady this morning, 13,000 shares sold at 7½, and 2000 at 7¾, the market closes with 7¾ bid, the stock being offered at 8 cents. The feeling has become decidedly better and we look for a recovery.

The new strike on the Iron Mask has discovered the ledge to be 10 feet wide at the 400 feet of depth, and it is therefore thought to be equal to the breadth of the same vein on higher levels when it was found to vary from 4 to 8 feet. The values are also satisfactory.

The shipments from the Le Roi mine continue to be steadily kept up. Last week the shipments amounted to 2,638 tons. The Evening Star also sent one car during the week, which makes for the year over 1,434 tons.

Centre Star was more active than it has been of late. Sales were made at 153 and 152½, 4000 shares changing hands.

Montreal-London was the feature of this morning's trading. The early sales were made at 28½; 12,000 shares were sold at 30. The stock sold as high as 31¼, and sold back again to 31. It closed in good demand. We predict higher prices for this stock in the near future.

Golden Star showed signs of recovery; 5000 shares sold at 6½.

Monte Christo was a little weaker and sold at 3¾.

NEW YORK EXCHANGE.

PRICES FOR AMERICAN STOCK IN LONDON STEADY AT DECLINES — THREATENED STRIKE IN N. Y. CENTRAL — SUGAR HAD A SHARP ADVANCE THIS FORENOON — ON THIS THE LIST ADVANCED, SOLD DOWN AND ADVANCED AGAIN.

New York, April 30.

The London market for Americans is somewhat lower, declines extending from $\frac{1}{8}$ to $\frac{3}{8}$. There is said to be very little business in this department, but on whole prices for Americans are firm at declines.

All last week London was a moderate buyer of our securities in this market, but in no case did their purchases assume large proportions.

Little news of importance has come out over Sunday bearing on stock values from the local markets. Briefly the fact is that there seems to be a possibility of a general tie-up along the N. Y. C. There is nothing of an unfavorable nature in this news. The hotbed of the strike is in Buffalo, and strike leaders there claim that if their demands are not acceded to by one o'clock to-day they can send out some 30,000 men.

Investigation along the line of N. Y. C. however, goes to show that these strike leaders overestimate their strength, for outside of Buffalo there seems to be very little dissatisfaction among the employees of the road.

Saturday's bank statement was about as expected, and exercised no influence on stock values. In spite of a small gold shipment last week no apprehension is felt in banking circles as to the immediate future of the money market. We can readily spare gold just now, and it is thought that money will continue around 2 for some time to come.

It seems quite likely that the conditions which influenced prices last week will again be in evidence this week.

There is no abatement of the rumors in regard to Sugar, and so far as actual news is concerned there is nothing.

Official denials of any settlement of the war were plentiful last week although the Street was flooded with rumors, the origin of which, nobody was able to trace.

In the departure of Mr. Keene for Europe, the Bears on the local market have been deprived of an able leader. There is quite an outstanding short interest and any covering movement on their part may result in a sharp upward turn.

New York (noon) April 30.

During the two hours of business this forenoon, the market has been distinctly two-sided. At the opening there was quite a little burst of activity and in spite of lower prices from London, prices in our market were well up around Saturday's closing. There was some covering of shorts, but under the leadership of Sugar, the general list showed quite a little strength. This strength, however, was destined to be short-lived. The apparent strength of the market attracted some little selling, and under this selling prices receded rapidly. In the way of news there has been nothing. The morning's papers announced the possibility of a general tie-up on the N. Y. C. lines, and the stock has been inclined to heaviness, although there was no heavy selling.

The usual crop of rumors, most of them coming from Boston, have been circulated in regard to a settlement of the Sugar war. London was a moderate seller of stocks, but their transactions have been insignificant. Since this selling movement, again strength has developed throughout the list

and now prices are well up around those of the opening.

Mop. has been one of the noticeably strong stocks, the feature being the scarcity of stock when any considerable buying orders came into the crowd. There has been a good demand for it in this morning's loan crowd. A premium of 1-64 being at one time asked for the use of it.

Leather common was another stock which enjoyed universal strength. The same buying which was responsible for the advance on Friday and Saturday has again been in evidence, but the public are a little wary about taking hold of this stock, especially when so many bull tips are being circulated. It is thought, however, that an effort may be made to put it up, in order to market some stock bought at considerably higher prices.

MINING NEWS.

MINING PROPERTY SOLD.

Toronto, April 29.

The most spirited bidding experienced at a timber sale in Toronto for many years took place Saturday. It was at the judicial sale of mining property in the district of Nipissing, Ont. The bidding went merrily on until \$25,100 was reached, by Mr. Macintosh, and the property was knocked down to him at that figure. The properties sold included four parcels and they are said to contain nickel and copper deposits. They were offered subject to a reserve bid, fixed by the Master-in-Ordinary.

SHIPMENTS FROM ROSSLAND.

Rossland, B.C., April 28.

Regular shipments begun a week before last from the Le Roi, are being steadily kept up and show an advance of average of that week, which was at the rate of 2,500 tons. Last week the shipments were 2,638 tons, but this includes a specially heavy shipment last Friday, when upwards of 20 cars, or about 620 tons were sent to Newport smelter. This was split into two shipments, eleven cars by the regular freight and nine cars by the outgoing passenger. The Le Roi shipments for the past week only include six days. The Evening Star sent one car away during the week. Appended is a statement of the shipments for the week and year to date:

	Week	Year
Le Roi	2,604	71,831.5
Centre Star		10,603.
Ir Mask		7,017.5
Evening Star	29	1,234.5
Monte Cristo		352.5
I. X. L.		224.5
Giant		224.5
Total	2,633	37,808.5

CAMP MCKINNEY.

Camp McKinney, April 17.-- The great strike on the Dayton continues to be the talk of this camp. A new sensation is promised soon, and those on the inside believe those lynx-eyed prospectors, Hamilton and Yonkin, will cut the ledge on adjoining ground, reasonably on the Porto Rico. An open cut on the Dayton, 120 feet from the first discovery, shows the ledge as strong as ever, the ledge matter under the oxidized stuff panning gold freely.

One mile from Dayton is Omaha camp,

where the lemon company's properties are located. The lemon stamp mill was compelled to shut down today for 30 days to await another ore feeder which is en route from Peterborough, Ont. Omaha camp is clean-cut, well-built camp, located on the government wagon road. Mr. Greevy, president of the company, is at present here. An important strike was made on Monday in a drift at the 210 level, and a new formation two feet wide, resembling the Cariboo ore, is coming in.

The Waterloo company is ordered to start its mill on May 1st. The Graham boys, who are largely interested in the Waterloo have taken hold of the property, and it is due them to say that under their management it is on the road to triumphal success. They are now in five feet of solid ore, identical with that being milled by the Cariboo. From this out the Cariboo is going to the front on its merits.

LE ROI.

This mine is now in regular working order. The usual development and shipping is going simultaneously. Some misunderstanding as to the exact date of the recommencement of shipping caused a little delay in the first shipments, but since Thursday last everything in connection has been working regularly and smoothly. The general experience of the contract system has been borne out by the special experience of this mine so far. All classes of miners are making at least the average wages, but those who are better skilled than others are getting the benefit of their knowledge, and are obtaining a high figure for their work. As far as the mine is concerned, the method of work employed pays it, for though higher wages are being paid, yet more is being done in less time than was the case heretofore. Surface work is still proceeding at the collar of the combination shaft. The grading for the hoisting engine will be completed in a few days, when the foundations for the necessary buildings and machinery will be begun upon. The combination shaft is being upraised from the level of the Black Bear tunnel, and has attained a height of 100 feet above it. Work is now commencing on the surface to run down and connect, and the shaft should be through to the surface within six weeks. On the Black Bear flat the battery of three boilers recently arrived from Fraser & Chalmers, of Chicago, is being put in place. The other battery, which was ordered from the Jenckes Machine company of Sherbrooke, Que., is not started upon. Two boilers came up with the Chicago battery, but as the third is missing, and also the floats and fixtures of those that did arrive, no progress can be made towards installation.

CENTRE STAR.

Similar conditions are obtaining on the Centre Star, where work is proceeding on similar lines to that in the War Eagle. More contracts will be let this week. On the surface progress is being made with the headworks of the new hoist, and the foundations for the engine are still being completed. A part of the roofing has already been started and a good showing should be made this week. In the compressor house the cap stones are finished and are being set in place. These are heavy granite blocks with anchor bolts running through each, bedded into the concrete below. The shipment of the compressor, long overdue, is as yet delayed. The fire boys had their usual Saturday afternoon drill, and the jet of water under a pressure of 140 pounds, has a very wide range and force. A new six inch main is to be connected with the snow pump and taken up the hill, and this connected with the hydrants on the middle level. When

this is done the same pressure that can now be exerted at the pump will be possible at the hydrants. Grading is proceeding over the surface of the property, and it will in a short time become a very pretty spot. Foundations for an extension of the present timber framing shops is in progress. A machine saw similar to that in operation on the Black Bear flat for the La Roi mine, will find a place in the new carpenter's shop.
