Constant Injections of Stimulants Resorted to to Combat Heart Irregularity-Patient Is Extremely Weak and Kidney Trouble Threatens to Develop Bright's Disease.

Special Cable to The World. ROME, April 10. - (Copyright.)-(Midnight.)-A decided improvement in the Pope's condition was observed this morning, and it was maintained thruout the day and night up to the hour of filing this despatch to The World, when the pontiff was resting quietly, having slept all the evening. Inflammatory Speeches Made

LONDON, April 10 .- (Can. Press.)-"Our answer to the government's eat and mouse bill is £15,000 pounds added to our war chest tonight," said "Gen." Mrs. Flora Drummond, in closing the suffragette meeting at Albert Hall, over which she presided. It was the biggest meeting ever held by the Women's Social and Political Union.

The subscriptions included two for £1500 each and two for £1000 each. Among the American contributors were Mrs. August Belmont and Mrs. J. J. White of New York, and Miss Scott-Troy of San Francisco.

Great laughter greeted the an-nouncement of a subscription of half a crown, accompanied by a bogus note signed by the chancellor of the note signed by the chancellor of the exchequer, David Lloyd George. The note read: "I have great pleasure in presenting to you my first dividend from my Marconi wireless shares."

In opening the meeting Mr. Drummond said: "Fight on, fight on. That is the message that Mrs. Pankhurst would send us from Holloway Jail, were she able to get it out, and fight on is what we intend to do."

STRIKE IN BELGIUM WILL PROVE GREATEST IN WORLD'S HISTORY

BRUSSELS, April 10.—(Can. Press)—All the hopes that the general strike for manhood suffrage would be averted have vanished one by one, and it now seems certain that the most sweeping attempt yet made in the world's history to apply the methods of organized labor for purely political ends will begin Monday.

The leaders in the movement display the utmost confidence, and the strike fund now amounts to approximately \$3,000,000, and fresh contributions from home and abroad are pouring in hourly. The bulk of the Conservative middle class population who, up to the present, because of the assurances of the government and clerical press that the strike was a bluff and a bogey, regarded it with unconcern, are now beginning to be badly scared, and their fears are increased by forebodings of disorders and brigandage, with which a certain section of the press is filled.

The Socialists, however, laugh at these terrors. They profess to believe that the measures they have taken are fully adequate to prevent serious trouble.

The questions now on the table are, first, how long will the Liberals struggle against the adoption of closure? and (2), what will the senate do with the naval bill? Some are of the opinion that the Liberals will permit closure to go thru after a few days' debate and thus permit the naval bill passed without seeming. In her excitement Miss Condy called out, and the man jumped thru the door and sprang towards the entrance off Wilton Crescent. Thinking that he had likely taken the \$600 out of the cash register the girl ran down the steps and before the thief could get out the door she was on his back. Swinging sharply the fellow knocked Miss Condy to the floor. He had not got down the front steps, however, before the cashier threw herself on him again.

The man punched, twisted and kicked in attempts to get free. Miss Condy fought back as best she could, catching him by the hair, coat, trousers or in fact any place where she could grasp him. The Democratic caucus of the house had reached only the third schedule of the new bill at the end of today's work. Representative Underwood and the other Democratic traiff leaders were making no apparent effort to limit debate or hasten a party decision on the bill. This deliberate progress has raised the hopes of the wool and sugar interests that they may be able to organize sufficient strength to change the bill in the caucus, so that i will pass he house with at least a small duty on wool, and without the provision to make sugar free in 1916. the department, a thing which showed that there was no pressing need for a change. So it was in Dumfries, whence no complaint had come, altho it had been in existence four years. Appli-cation after application had been refused, and it was hardly fair to state that some had been issued to favored classes, for it was the circumstances and particular conditions which al-ways decided. Moreover, the majority of these were different in not drawing their membership from the communi-ty. E. M. Trowern, of the Retail Merchants' Association, then gave a fiery condemnation of the bill. "There are condemnation of the bill. "There are more than 10,000 retailers in the province," he stated, "and if they knew that legislation of this character was being considered, this room wouldn't be able to hold the men who would come here to oppose it. We are not in sympathy with any proposal to put a rope around the necks of 99 merchants in 100 to catch one thief. What do we care what other provinces are doing? Why should we follow Saskatchewan?"

Col. Brock said he represented the Ontario Associated Boards of Trade and represented the interests of 10,000 business men who were members of the association. "Two weeks ago this bill was considered at our meeting in London, and there were only two men who said anything in opposition to it." Strike is Settled.

HAMILTON, April 11.—(Special.)—The strike of the hydro linemen has been settled in favor of the hydro department. The men were holding out for \$3.25 and \$3.50 a day. They will receive from \$2.79 to \$3.06 a day.

This schedule of rates will be increased automatically, counting from the date of the announcement of any increase of the rates paid by the Toronto Hydro-Electric System, to a limit of \$3.25 and \$3.50 per day respectively.

Sergeant Beatty said that he ha only struck to protect himself. He was becoming played out with the tussle, and had to do something when Farmer "A man must be very strong whe

Beatty Struck Farmer.
That he knocked Constable Farmer 'A man must be very strong when two powerful sergeants could not hold him," commented Mr. Curry.

That Farmer fell to the road after being hit with the baton was another statement elicited by Mr. Curry. The policeman still kept kicking, however, and Sergeant Beatty did not believe that he was presented to the dealers. to the pavement by cracking him on the whole trouble Farmer never struck the whole trouble Farmer never struck him. was the statement made by Sergt. Beatty, when questioned by Mr. Curry. There was no doubt in his mind that Constable Farmer was drunk, said Sergt. Beatty. Patrol Sergeant Redford entered the station about 9.30 and informed him of the officer's condition. He went with Redford to the vicinity in which the policeman should have been. Redford saw the man thru the window of the drug store, and Beatty and Sergeant Beatty did not believe that he was unconscious or had ever been succonscious, simply stunned, in his option. He was willing to swear that se had not hit the constable on the egs prior to the blow on the head; he is a struck him on the leg, a gentle tar, while he was lying on the ground some time later, tho.

Speaking of the time Patrol Sergeant window of the drug store, and Beatty entered.

Farmer.

As to whether he refused to send for a doctor or not Sergeant Beatty declined to say and was upheld by the magistrate. He had sent for the inspector. Mr. Curry wanted Beatty to tell what charge had been registered against Farmer when brought to the station, but Magistrate Kingsford again sustained Mr. Corley saying that Witness had, however, discovered that Farmer did not have his rubber cape on altho all the other men were wearing them. He ordered the man to get his cape. He thought that Patrol again sustained Mr. Corley, saying that the books could be produced at the Sergeant Page had visited him on the beat prior to the time Redford reported him as being unable to attend to his duties. again sustained Mr. Corley, saying that the books could be produced at the proper time.

Redford Testifies.

Patrol Sergt. William Redford said that Farmer had struck him on the face. There was no mark left by the blow, tho. Redford told of leaving Beatty with the prisoner and going to 'phone. When he came back the policeman was lying on the ground bleeding. As far as he knew, no blows had been struck in the drug store.

He had seen two officers attempting to escort another uniformed man, testified Thomas Henderson, the only civilian witness produced by the police.

"There was an officer in a rubber coat, who hit the man under the jaw," added Mr. Henderson. One of the officers told the prisoner if he came quietly there would be no fuss. Mr. Henderson said that he had never seen Farmer raise his hands to protect himself. He could not say that the blow was a deliberate one. He heard the report of the baton striking on the man's head while several feet away. He could not say if Farmer was under the influence of liquor or not.

Smnt to Trial. Farmer should have been.

"Now when you went into the drug store Farmer was trying to get out!" continued Mr. Curry. "Did you notice there is there a man phoning?" "Have you since discovered, looked "Did you refuse to let Farmer 30 out "I am asking you, did you refuse to let Farmer go out the front door?"

Snnt to Trial.

Crown-Attorney Corley stated that the prosecution would not call any more witnesses. The magistrate thought that there was sufficient evidence to send the policeman up for trial. J. W. Curry said that, in justice to the defence, the crown should call the other witnesses who had been subpoenaed. Counsel remarked that it was only fair that he should know what kind of evidence the prosecution intended to submit. Mr. Corley refused to call the witnesses, and an argument of counsel and magistrate followed. Mr. Kingsford said that he could not order the witnesses to be called.

Farmer was allowed ball on his personal surety of \$200.

Extreme Limit of Anti-Semitism Reached in Russian Duma Bars Many Prominent Citizens.

Special Cable to The World. ST. PETERSBURG. April (Copyright.)-The Nationalists, who control the duma, have forced on the new Military Medical College a charter containing a clause excluding from the institution all persons with Jewish parents or grandparents.

The Reicz newspaper, leader of the Liberal wing of enlightened Russian public opinion, protests against going to such an extreme limit of anti-semitism. It points out that the charter of the new college will bar some of the most distinguished men in Russia from sending their children as pupils.

The celebrated Count Witte, formerly Russian premier, who helped negotiate the treaty of Portsmouth that ended the Russian-Japanese war, is one of those whose children would be barred, for he married a Jewess. The De Giers family, which has

numbered many eminent statesmen, in-cluding two clever ambassadors, would be excluded. So would be the czar's private doctor, Bertenson, who twice saved the czarevitch's life and who is a favorite with the imperial family. The list would take in Gassman, the assistant minister of justice, and several senators. Still further evidence of the revival of anti-semite feeling in efficial quarters comes to light at the official quarters comes to light at the City of Kieff, where the governor has ordered the police to drive off the streets 1700 Jewish students at a commercial college. His excuse is that Kieff is outside the Jewish residential

The company recognized the union to the extent of stating that it would re-employ all of its men, irrespective of affliation with the Amalgamated Association, but insisted upon its right to deal with a committee of its own employes in adjusting wages and hours. President William D. Mahon of the union declined to concede this point and the negotiations came to an abrupt close. Mayor Fuhrmann was hopeful tonight of bridging the narrow chasm, despite statements from both sides that they had gone as far as they could.

Street car service under military police protection was maintained on Main street and Elmwood avenue, two of the principal thorofares, for six hours today. The cars were sent to the barns at nightfall and the military patrol withdrawn from the streets. There was only one clash during the day, and that was not of a serious character. A mob formed on Main street and began pelting a car, but it quickly dispersed when the troops fired a voiley. The shots were fired over the heads of the crowd.

The suggestion to reinstate the men and to accept the mayor as ambitrator on questions that could not be settled otherwise came from the street railway officials. "I'll be honest with you, however. I am supposed to belong to the trust."

"Is the trust honest?" asked Mr. Maclean.

"No," said Mr. Forgan. "I do not belong to It."

J. G. Turiff asked if in order to prevent two orthree banks controlling the financial business of Canada, it would not be necessary to establish small banks.

Mr. Forgan stated that if amalgamation continued until it reached the danger mark, he could see the necessity for so doing. He believed, however, that it was difficult to start new banks in Canada.

to be what was wanted.

He considered that the proposal to establish central gold reserve agents to which banks may issue their notes in excess of capital was a worse one. The proposal to tax circulation and money loaned in foreign countries was unwise.

Mr. Maclean asked if the American Government did not save the situation in the United States in 1907. "The government was not worth a hill of beans," answered Mr. Forgan.

Revenge is Sweet.

Revenge is sweet, and so Dr. Forbes Godfrey of West York found it last night when he "god even" with Hon. W. J. Hanna, who robbed him of his marriage bill two weeks ago.

Dr. Godfrey's revenge came when Mr. Hanna's bill was being discussed in committee and struck the government just as hard as it struck Mr. Hanna. Dr. James McQueen of North Wentworth introduced an amendment to the clause placing the responsibility of the marriage of insane or feeble-minded people jointly upon the minister and the marriage icense issuer instead of on the minister alone, as in the old act. Dr. McQueen's amendment provided that when these two parties were in doubt as to the sanity of the contracting couple medical certificates should be required and if passed it would have made the bill very similar to the one proposed by Dr. Godfrey.

Dr. McQueen and Dr. Godfrey spoke in

Dr. McQueen and Dr. Godfrey spoke in favor of the amendment from a medical standpoint, both claiming that a physician was the only person who was competent to judge whether a person was insane. N. W. Rowell ridiculed Mr. Hanna's bill and stated that the only thing new in it was that the license issuer had to bear the blame along with the minister. This he said was of little importance, for he said that, if anything, the minister was more competent to judge than the issuer of the license, who was just an ordinary man in most cases. He favored the amendment, and so did Allan Studholme.

WASHINGTON. April 10 .- President Wilson forgot about the tariff and matters of state for more than two hours today and watched Washington defeat New York 2 to 1 in the opening game of the season here. He tossed the first ball from the grandstand, according to

Vice-President Marshall, members of the cabinet, senators, representatives and a great number of official folk were filled the park

Bundled in a heavy fur-lined overcoat, the president sat with his daughter, Miss Eleanor, and Secretary Tumulty, in a box to the right of the home plate. He was obviously an interested spectator, applauding and cheering frequently. Mr. Wilson has always been a baseball "fan," being a frequent visitor at the college games at Princeton, and himself a player in his youth. Charles Sterrett, who played first base for New York, was one of his pupils at Princeton three years

of his pupils at Frinceton three ago.

The president was cheered enthusiastically by the crowd.

For an early season game there were few errors, and the game did not lack in exciting plays. McConnell of New York was hit less frequently than Johnson, but the latter had the better support.

The president stayed thruout the nine innings and then autographed several baseballs for the players.

The score:

NEW YORK, April 10.—Boston defeated New York in the first game of the season here today before a big crowd by a score of 8 to 0. The usual opening day ceremonies were omitted with the exception that Mayor Gaynor threw out the first ball. Sunless skies and a cold wind made conditions unpleasant for players and spectators alike.

Perdue held the home club at his mercy and the champions made only two singles. Not one of McGraw's men got further than second base. Boston started to hit Tesreau in the fourth and from that inning on they rapped the ball hard. Crandall was slaughtered in the ninth inning. Boston put up a fine defensive game, giving their pitcher faultless support. Maranville, the recruit shortstop of the visitors, was the bright star of the game, both in the field and at bat. BOSTON. April 10.—The world's champions lost to the former title-holders in the opening game of the season to-day, Mayor Fitzgerald put the ball into play from the pitcher's box. Six pitcher's followed him during the afternoon. Joe Wood, star of last season's campaign, lasted but five innings, during which the Athletics drove out nine safe hits and scored seven runs. Strunk scored the last of these tallies by stealing home. Coombs developed poor form after four hitless Boston innings, the Red Sox scoring five runs during his tenure of the mound.

An unusual play and a funny one occurred in the sixth innings. Lapp was on third and Coombs on second when Murphy hit to Wagner, the latter throwing to the plate to catch Lapp. But Lapp scampered back to third, which he found occupied by Coombs, with Murphy on second. Cady tagged Lapp at third, but, as he was entitled to the base he was safe. Coombs returned to second and Murphy moved back towards first. Hall three wide to Janvrin in an effort to catch Murphy. Jump to Scranton For Three Games.

NEW BRUNSWICK, N.J., April 10.—
(Can. Press.).—Intense cold, accompanied by a high wind, made it impossible for Toronto and Utica to play here toady. In addition to unfavorable weather conditions, the ball park here is a wretched one, and Manager Kelley decided tonight to jump to Scranton without delay. Tomorrow's game here was accordingly canceled. No games are scheduled with the Leafs at Scranton until Saturday. They will work out morning and afternoon at Scranton, and play the team of that city, Saturday, Sunday and Monday, Instead of remaining idle on the 15th inst., the day before the opening game, the Toronto team will play Trenton.

Ex-Buffalo Manager's Team Beat New York Easily-Athletics Hammered Wood.

The major leagues got away to a good start yesterday with two National League games being played and three contests in the Ban Johnson circuit.

It was a day of surprises and the fans will have a busy session this morning. John McGraw and his mighty Giants were handed an unmercifu' beating by the much despised Bean-eaters and Foxy Georgie Stallings fooled them all. all.

Not a New York player got past the middle station, so well did Perdue have them eating out of his hand. The Boston team fielded in mid-season form, while the Giants booted three chances. It was a bitter pill for the big New York crowd to swallow.

Charlie Ebbetts' Brooklyn outfit got sweet revenge for the one-to-nothing trimming that the Phillies gave them on the occasion of the opening of the new park in the New York suburb on Wednesday. The Dodgers hammered three Philadelphia pitchers to all corners and won hands down with an 11 to 3 score.

An inspection by physicians of the entire Minneapolis baseball team was ordered by President Cantillon following the ordering of Pitcher Ralph Comstock to the pest house with smallpox.

The Millers played the Cubs in Chlcago, and the players of the two organizations were closely associated for two days.

On receiving the news Murphy, of Chicago, immediately ordered his players to submit to the inspection.

Basketball Season Closes at West End 'Y

The Business Men's Basketball League, which closed last night at the West End Y. M. C. A., has been a great success. The contestants, while they fought hard for first position, did so with the best of feeling. The following is the standing of the teams.

WRESTLING AT CENTRAL Y.

Some of the best wrestling bouts of the season are expected tonight at the Central Y. M. C. A., championships. The entry list is the best yet. Stolt, the Finn, and Haynes, the 145-pound city champion, will battle it out to a finish as both now have had a decision one over the other and are out for a fall. Durnan, the 125-pound city champion, thinks he can put it over both Walsh and Jacobs. Both these men are in good shape and will put up a hard struggle. The bouts will be held in the Central Y. M. C. A. gym annex at 8.15. The draws are as follows:

115-Pound Class—G. Duguid vs. George Parry, R. Hood bye.

135-Pound Class—W. Jacobs vs. H. Inman; M. Walsh vs. A. Durnan.

145-Pound Class—W. Jacobs vs. W. Thomson, M. Haynes vs. W. Harvey, S. Stolt vs. T. Harpley, S. Burke vs. Ellis.

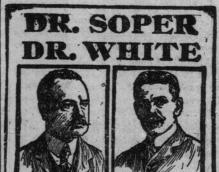

158-Pound Class—T. Ball vs. W. Holmes, J. Sullivan bye.

THE PUBLIC AND WATERED STOCK.

At the recent annual meeting of the American Academy of Political and Social Science Mr. Samuel E. Barker. North American, delivered an address on the burdens of false capitalization. lic has been greatly misled by the advocates of unrestricted private management, more especially in the case opolies. It is matter of knowledge to those who have investigated the history of such exploitations that in many instances the actual expenditure on the enterprise has been met by the proceeds of bond issues and that the common stock, in part handed out gratis to the agencies thru which the bonds were turned into money, for the rest simply represented the profit of the promoters. This Mr. Barker elucidated by his reference to two distinct classes of investors, one a voluntary class and the other "those who have in reality supplied the invested capital, or a large part of it, but with thought long and deeply over his polinothing to show for what they have done, and have the added and continutransportation rates and prices for

BELLEVILLE, April 10 .- (Special.) -A small strike occurred in this city and in consequence there is nothing doing in one department of the civic administration. The teamsters and men who were employed upon the street and at the present time engaged at cleaning up the streets struck for higher wages and refused to con-tinue working. The teamsters demand \$4 instead of the \$3.50 they were receiving and the laborers \$2 per day instead of \$1.75. The matter will no doubt be amicably arranged in a day or two.

St. Andrew's Glee Club.

The St. Andrew's Glee Club gave their annual recital at the Canadian roresters' Hall last evening. The club, consisting of 22 male voices, under the leadership of E. R. Bowles, rendered an excellent program. The club were assisted by Herr Water Kirschbaum. The latter was very popular with the audience, who brought him back with repeated encores. Among the most popular numbers of the evening were "Po' Het' Lane," "When Father Rode the Goat," "Soldiers' Chorus" from Faust.

An English writer, after a faithful trial, asserts that a new ball has been produced that will outdrive any ball put up against it by as much as 20 to 20 yards. It will require only a few more inventions, such as this, to rekindle the embers of ball standardization, which have been banked for some time. Every one is very well satisfied with the balls of today, and any innovations will be regretted. If a man alone could use a longer flying ball than all others, he would enjoy an advantage, but as soon as such appears everyone uses it. The maker enjoys brief prosperity until other makers twig his secret of his process, and then "everybody's doing it," to the detriment of our courses and the game.

A broken thigh and a severe shaking up were sustained by Stanley Iddenden of 93 McRoberts street at the Dodge Pulley Works, Pelham and Osler avenues, Pulley Works, Pelham and Osler avenues, during the noon hour yesterday. Iddenden was the elevator man and had just commenced his duties that morning. He was on the first floor, and thinking the elevator was in place, he stepped out into the shaft, falling to the basement, a distance of nearly 20 feet. Speers' ambulance was summoned and the wounded man was taken to the Western Hospital.

But the little worm was stupid and could not help little Brown Bear.

Little Brown Bear heard a whir over his head, and he lcoked up and saw a hat flying about.

The wind had blown the clouds into the sky and the stars were hidden. The pine tree signed louder, and the other trees, too, began to sigh in the wind. And you can imagine that Little Brown Bear was glad to hurry back to the cave and snuggle driving the same tree stars. "Hello, bat," he cried. "Come down here a minute, will you?"

The bat flew down and lighted on a sleep as a good child should do night.

Making a Lawn—Sodding vs. Seeding.

This is too large a subject to discuss freely in our limited space. Nevertheless a few valuable hints may be mentioned, the following of which cannot possibly lead one astray. But, after all, it will be hints only.

A lawn may be formed either by the laying of sods or by sowing seeds The former is an expensive piece of business, no matter how small the lawn contemplated. The time gained by sodding is, after all, so slight, regular municipal contest. The ef-that it is hardly worth considera-described fort to obtain the best officers possible tion, when compared with the seed ing method. Therefore it is advisable to purchase from a reliable seed man such of the innovation. The arduous work of the several lawn grass mixtures as they offer suited to one's special requirements. If the lawn contains shady spots, grass seed suited to these spots must be used; while, for a free, of counting the ballots is still in prosunny sweep, exposed to the direct rays of the sun for hours at a time. special blends of hardy grasses should

be used. In addition to the selection of a proper blend of grass seed, the next important factor in the production of a perfect lawn is proper soil and its preparation. Good, deep, rich loam overlaying gravel or other porous subsoil, insures proper drainage, permit-ting rain and surface water to persolate down and thru the top soil, keeping it evenly moist, neither saturated nor dried out, the surplus water being stored or drained off below. Having such subsoil conditions, it now be necessary to spread a layer of well-rotted manure, and turn the top soil with plow or spade to a depth of at least eight inches. The roots will then go deep enough to be free from any danger of drought or frost. The whole scheme in laying a perfect lawn that will be permanent is to make conditions so inviting below that the grass roots will penetrate a

It is all blotted with tears, this record of his life-childhood, boyhood, youth, manhood, humor, passion — veritable growth of an immortal spirit—annals of that love which lifteth us above the earth-and then!

"You see, my dear"-I copy from my notes—"we have in our blessed isles an atmosphere lending glamor, to all things, whether woman's skin or a slum town. Why, British portraiture and landscape are respected, even by our own art critics, and they are far from lenient." I replied that I wanted air, air for King David.

"Now, when we come to air, that's very serious. Not until I lost my lady did I ever hear that faint thin, swaying echo when her grove seemed to be humming tunes. At times when dew was falling, I have heard the pattering of millions and millions of little feet, just as she said, making the grass bend.

The papers often have pictures of my lady, the last as the Electra of Euripides. I love her most of all in the Greclan robes, for once she dreamed that she and I had been Greeks in some lost forgotten life. Perhaps this is not our only life, of our last life, and we may be mated in some place yet to come, where we shall not part.

Tears drop on the paper, and shame poor fool Jesse. The Book says that He shall wipe away all tears. If my bear had only lived, I should not have been so lonely. I wonder if—God help me. I can't write more. The book is finished.

FOUR DOLLARS A DAY TAXES ON A COLLEGE STREET RESIDENCE

University's Demands For Release of Business Restriction Termed a Holdup by Property Owners-Willing to Pay a Fair Price-Hon. J. J. Foy's Act Will Probably Have to Be Amended.

by property owners on College street, near the corner of Yonge street, it is conceded that Hon. J. J. Foy's act, relating to the avenues and approaches to Queen's Park, will have to be amended before the bill is passed by the house.

Telegraphy of the Foresters' Hall, the Upper Canada Bible Society building, and the two hospitals on the south side of the street.

Want Square Deal.

Dr. Ryerson declared that the street was now no longer a residential street.

The government held a conference with the city council and the property owners at noon yesterday, and the attendance at the meeting was sufficient to show that the feelings of the property owners run very high. One man is paying \$4 a day taxes on "residence" land. The majority of the property owners who attended the meeting were physicians, and without exception they all declared that the exception they all declared that the action on the part of the university was the rankest kind of hold-up.

To Hold Conference. After listening to the complaints of the residents, Hon. Thomas Crawford suggested that the residents and the city council should hold a conference with the board of governors of the university before the bill was pre-sented to the house for its second reading. This policy seemed pleasing to the residents, so they immediately organized and arranged for a conference with City Solicitor Johnston at 5 o'clock, to arrange for the meeting with the university authorities.

"At present," he said, "there is a cloud on our titles. All we are asking is that we should be asked to pay only a fair price to the university. It's hardly fair that a flat price should be forced upon us."

Hon. J. J. Foy stated that in the Hon. J. J. Foy stated that in the agreement of 1889 all that had been stated was that on the College street imposed for smashing electric light property no "hotel, shop, factory or boarding house should be erected."

Dr. McKeown said that it was the property had time that the university had cases succeeded in purchasing lots and on the street had been excessively high, and that the price of \$245 a foot, asked by the university, for the waiving of its claim, was excessive.

Taxes He Paid.

In this connection, it is interesting o note the amount of taxes that Dr. mittee: Dr. McKeown, Dr. McLaughlin, Dr. G. S. Ryerson, Dr. W. J. Wilson, Dr. W. H. B. Aikins.

From the discussion that took place at the noon meeting it appears that agreements and dealings between the university and the College streat results. In the the amount of taxes that Dr. Ryerson has been paying on 126 feet of property, supposed to be residential. Bill Requiring Newsboys to Be Twelve Years Old Is Opposed.

Are Toronto's "newsies" under 12 years of age to be brushed from the streets?

This is the question which members of the Ontario Legislature will consider shortly. A clause in Hon. W. J. Hanna's bill for the 'protection of neglected and dependent children, if passed, will prohibit them from selling newspapers on the streets. The clause reads as follows:

"No girl under 16 years of age, and no boy under 12 years of age, shall engage in or be licensed or permitted to engage in any street trade or occupation."

J. C. Elliott, West Middlesex, brought the clause to the attention of the members of the house when the bill was being discussed in committee yesterday. Mr. Elliott protested against it, stating that he was of the opinion that there would be hundreds of boys in Toronto who would be deprived of their means of getting a living if the clause were passed.

Mr. Hanna thought that boys under

12 years of age should not be permitted to sell papers on the streets, but the premier differed with him. "The boys will look after them-selves," said Sir James. "In selling papers on the streets they acquire plenty of good air, good constitutions

OBJECTS TO ARMORIES START ON HOUSES BY WILLOWVALE PARK

Editor World: I understand, thru the daily papers, that Sir Henry Pellatt has purchased the strip of land west of Willowvale Park to east side of Crawford street, with a frontage of about 200 feet on Bloor street, for the purpose of erecting an armory for the use of the Queen's Own Rifles. This plot of land, I understand, was to have been purchased by the city for the extension of the park, and a plan has already been submitted to the parks committee by the present park commissioner, and been submitted to the parks committee by the present park commissioner, and if the plan submitted by Mr. Chambers could be adopted it would, without doubt, make this one of the finest parks and playgrounds in Toronto, which is so badly needed in this thickly populated section of the city.

If the scheme as proposed by Sir Henry Pellatt is carried out it will not only spoil the park but the property in the vicinity of the park. Such a building erected in a pit thirty feet below the level of the road would only lèave a mass of roof to be seen to the

CATTLE MARKET AGAIN EASIER

Sheep, Lambs, Calves and Hogs Were Unchanged.

Receipts of live stock at the Union Yards were 80 cars, comprising 1000 cattle, 1694 hogs, 129 sheep, 184 calves.

The market for cattle was slow and draggy, with prices again lower than on any day this week. Just how great the depreciation, was would be hard to say, as there was a wide difference of opinion expressed by buyers and sellers. All agreed that fat cows were no lower, but steers and heifers were 10c per cwt. lower than on Wednesday's market. Sheep, lambs and calves, as well as hogs, sold at about steady prices with Wednesday's prices.

Exporters.

There were a few cattle of export weight and quality that sold from \$6.80 up to \$7 for steers, and bulls at \$5.30 to \$6, but none were exported, all being taken by the local abattoirs.

TWO IMPORTANT ARBITRATIONS TO DETERMINE LEASE RENEWALS

Two leasehold arbitrations of importance will be on next week. One, of determine the value of the northeast corner of York and King streets, of more than usual interest. The proceedings on this property are etween William Ramsey of Scotland, the freehold owner, and the Irwin between William Ramsey of Scotland, the freehold owner, and the Irwin estate, holders of the lease, and the arbitration is to settle the rental to be paid for a 21-year renewal. This is the property that it was said the Imperial Bank were thinking of using; the leaseholders have right of renewal at an arbitrated value, and their rights are to be exercised. If they do not care to accept the award, then the land will be cleared for the owner to do with as he wishes. D. R. Wilkie has been asked to act as arbitrator for the ground owner.

The other arbitration concerns the property on Widmer street, between Adelaide and King streets. The arbitration will be between the Hospital Trust, owners of all the property on both sides of the street, and some of the leaseholders. Just how many leaseholders have applied for their 21-year renewal rights by arbitration is not definitely known, but there are seventeen leases in the two block fronts, all made about the same time. These proceedings are likely to develop important proportions, as there has not been an arbitration in the neighborhood for twenty years. The Hospital Trust, it is understood, will endeavor to prove that the land is now worth warehouse and factory prices. Small houses at moderate rentals occupy the land.

He drew a laugh by teclaring that Turkey was not as bad a country as Americans were wont to imagine. The Turk, he declared, was a hopelessly ignorant person, fanatically religious and of Mohammedan faith. The policy of the stronger European nations has been to keep them in this condition, because in the event of the awakening of the Turk, and the country becoming of sufficient strength, the strategical position she occupied at the same manner; these exchanges would keep on till a man secured a wife to his liking.

Most Terrible War.

"The present war is one of the worst terrible in which the Turk has ever engaged, and the first war for centuries in which Christian has conquered Mohammedan." The speaker pointed out one of the causes of the late war was the failure of the Austrian Government to keep the Treaty of Berlin (1876) by which the powers agreed to late and maintain the individual in the advised any of the members who

The third cause he put down as a dif-ference in religion. "It is not what is called a religious war," he declared, "it s not one country against another, but one class of people under one government fighting that government in order to get rid of it. These people are Christians, and the Turks are Mohammedans. The people of the Balkan states are fighting the Turk as their oppressors of 600 years; the Turk is flighting the Balkan states as an enemy of his religion."

Soldiers Ignorant.

"Eighty per cent. of the Turkish army do not know why they are fighting. All they are told is that they must shoulder a gun and fight against the enemies of their religion. Toronto Suburb Was Incorporated by Private Bills

Committee.

The incorporation of the Town of Leaside stirred very little opposition in the private bills committee of the legislature yesterday morning, altho the City of Toronto will lose the first year's taxes to the township. Mayor Hocken, who was present. however, found no fault with the arrangement as he felt that the amount for 1918 would not be very serious in any event. Representatives of York Township, however, had expected a greater contest over the matter and turned ou in force to present their claims. They stated to the chairman, Hon. I. B. Lueas, that the township stood to lose the area of 1025 acres and that they should be remunerated in some fashion. Hocken assured the committee that the final acceptance of the new terri-

This Will Soon Be a Familiar Sight

N many cities as much as one-tenth of the people move every year. And in every city the percentage is larger

than you imagine. Now, if you are moving this year you naturally want to get a happier location than you have had before. That doesn't mean that you necessarily desire to pay a lower rent or get a smaller house, but it does mean that you desire some compensation for moving. Therefore; the first thing you wish to do is to get in

touch with all of the most desirable places for rent. The old method of doing this was to go around from street to street and from house to house. But in the light of our twentieth century progress this is a foolish way of doing. It is foolish because your legs cannot travel nearly as far as your eyes or your mind. Therefore, the place that is most desirable is likely to be overlooked.

Rent" Ads in this paper you will cover as much ground in five minutes with your eyes as your feet could get over in Desirable places for rent are in this paper now, because people who have houses and apartments and homes

-Brazilian Up and Down.

The Toronto stock market failed to show any initiative yesterday, and the trading movement thruout seemed to ack a leader. Speculation was of narrow proportions at the opening of busness, and with no new factor to induce operations it was natural to find the exchange drifting into extreme dulness as the day wore on. Net earnings in the usual favorites were small, but certain of the industrials which have een much in the public eye of late continued to attract attention, and in some instances lower prices were re-

LOOKING AHEAD

Foresight is a spiendid quality, and in forecasting a stock market, is exceedingly beneficial. Our forecast of the mining market is that prices will improve. A circular is being sent out on Peterson Lake, and we will obtain and mail same on request. With the financial situation improving, we advise the purchase of the active mining issues.

FOREIGN EXCHANGE.

Glazebrook & Cronyn, exchange and appropriate memorial to the late sumer.

BROCKVILLE, April 10.—(Special.)—George Toner, fish and game overseer of this section of the River St. Lawrence, made a seizure of two sets of gill nets and a large number of muskrat traps in Jones Creek. This makes eight sets of nets and upwards of 100 traps the inspector has taken while in illegal use this season.

Great interest is being manifested in this work (as it forms the first example of the early Ecclesiastical Art, of which the Continent and England are so justly proud). W. J. Allen, Sc., for Ottawa leaves Teronto on 10.45 p. m. train daily. The Grand Trunk Rawlinson Limited, is responsible for the construction. A reproduction of a photograph of one of the panels will in illegal use this season.

PETERBORO CASE

Light and Power Problem Is Causing a Deal of Dis-

cussion.

Peterboro is rent in twain on the matter of the light and power problem, one faction fighting earnestly for the installation of the hydro-electric system and the other striving tooth and nail against it. The bitterness of the strife was brought to a climax in the private bills committee of the legislature when representatives of the different interests laid bare the outdifferent interests laid bare the outlines of the two standpoints in outspoken fashion and caused the settle-ment to stand over for a day.

In the expropriation of the Peter-boro Light and Power Company it was claimed that the fact of taking over the plant did not include the franchise, and the counse I of the company, Messrs. Strachan Johnson and I. F. Hellmuth, asked the privilege of taking it into court for disposition.

A strange position was taken by one of the counsel retained by a large number of the local manufacturers. He claimed that thru fear of monopoly they wanted an independent company as well, as that municipally controlled For the first time in the history of Canada Medieval Art finds an introtario Commission, that their aim was duction into this country, in a fitting to supply power at cost to the con-

Plans, specifications and forms of contract to be entered into can be seen on or after April 3rd, at the office of the Chief Engineer, of the Department of Canal, Peterborough, Ont.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of \$1,000.00 made payable to the order of the Minister of Railways and Canals, must accompany each tender, which sum will be forfeited if the party tendering

sarily accepted.

By order,
L. K. JONES,
Asst. Deputy Minister and Secret
Department of Railways and Canals, Ottawa, 4th April, 1913.

Newspapers inserting this advertisement without authority from the Department will not be paid for it,—39430.
