27TH YEAR

GENERAL STAFF OF EMPIRE PROPOSED TO THE COLONIES AS AID TOWARD DEFENCE

Naval and Military Plans Detailed to Premiers - Both Advise Against Withdrawal of Troops From South Africa - Canada Agrees With Haldane.

(Canadian Associated Press Cable). LONDON, April 23.—That this conference welcomes and cordially approves of the exposition of the general principles embodied in the statement of the secretary of state for war, and without wishing to commit any of the governments represented, recognizes and affirms need of the development, for the service of the empire, of a general staff selected from the forces of the empire as a whole, which shall study military science in all its branches; shall collect and disseminate to the various governments military information and intelligence; shall undertake the preparation of schemes of defence on a common principle and without in the least interfering with questions connected with the command or administration shall at the request of the representative governments advise as to the training, education and war organization of the military forces of the crown in every part of the empire.

At to-day's sitting of the colonial conference the foregoing resolution was agreed upon, which means there will be no monetary contribution to the creation of a central staff on which the self-governing dependencies can be represented if they so choose. The first lord of the admiralty, Lord Tweedmouth, outlined a scheme for imperial naval defence, and lengthily discussed its general trend.

The remarks of the colonial premiers on the subject were in favor of a discontinuance of the colonial contributions to the general naval expenditure, and the substitution of a system by which the colonies may train and keep up a certain number of ships, to be supplied by Great Britain, and undertake to maintain coaling stations and ammunition and food depots available to the imperial navy.

Admiralty and the Colonies. The conference in addition to the resolution respecting the general staff for empire, as already embodied in an official report issued this evening, announced the following:

The first lord of the admiralty explained the general principles upon which the admiralty held that the defence of the empire should be organized. He especially insisted on the necessity for unity in the control of the fleet, and explained that the one aim of the admiralty was to secure a force on such scale as to ensure retention of the command of the sea in any reasonably possible contingency. He stated that he did not desire to press for further contributions of men or money, but cordially welcomed the cooperation of the colonies in a form most agreeable to themselves. Whether the colonies contributed or not, the admiralty would do its best to secure them from over-sea attack.

After general discussion, it was decided that the question of naval defence should be adjourned to the colonial representatives being meanwhile invited to confer separately with the admiralty regarding the position of their respective colonies.

The conference adjourned until Thursday.

Haldane's Army Plans. Mr. Haldane's lengthy speech in the imperial conference on the question of a general staff for the empire is issued to-day. The war minister said in the practical point was the desirability in the case of supreme common need of a certain broad plan of military organization. After deprecating any rigid model and pointing out the similarity of his army scheme to the systems in Canada and the other colonies, he referred to the desirability of uniformity in the pattern in organization, in weapons, and other details, and remarked incidentally on the expedition and economy likely to be obtained if the self-governing dominions gave orders for ordnance stores, particularly of arms and ammunition, thru the war office, and that the reserve officers act as a general staff. This would be a great object, however, must be to make the general staff an imperial school of military thought, all the members of which would be imbued with the same traditions and accustomed to look at strategical problems from the same point

of view, and become acquainted with the principles and theories generally accepted at headquarters.

He gave a cordial invitation to the colonial experts to confer with his general staff as to the way of making an immediate beginning.

Mr. Haldane's speech was warmly received by the colonial premiers. He observed there was already an embryo general staff in the various departments of the empire, and he desired an interchange of officers between the colonies and the United Kingdom. He dwelt upon the importance of developing the means of manufacturing munitions of war in the various colonies. The Canadian government desired to prepare in every way for the full protection of their territories, and they were keeping close in touch with military developments in the home country.

Australia's Way. Premier Deakin observed that the commonwealth had fully accepted the principle of interchange of ability and weapons. He saw a difficulty in exchanging units, but specially pressed for extended interchange of officers. The commonwealth government proposed to obtain an extension by means of the local production of munitions of war. He noted the fact that cadets in Australia were now being passed thru the senior stage at a rate of 16,000 a year.

Premier Ward endorsed the principles enunciated by Mr. Haldane. Mr. Haldane put forward the suggestion that the South African forces be disbanded and re-enrolled, under an obligation to serve with the consent of the government authorities. He desired an expression of views by the conference in favor of the same principle.

Both the admiralty and the general staff in the Transvaal. The conference in addition to the resolution respecting the general staff for empire, as already embodied in an official report issued this evening, announced the following:

The World

MRS. PERKINS IS FREE; JURY OUT FOUR HOURS

Mr. Johnston Makes Eloquent Plea to Jury for Consideration - Judge's Charge Somewhat Against Prisoner.

CATUGA, April 23.—(Special).—Mrs. Matthe Perkins is free. After four and one-half hours' deliberation a jury of her own countrymen pronounced her innocent of the charge of murdering her husband by giving him strychnine. The verdict was received at 11 p.m. The trial lasted eight days.

During the closing sittings, Justice Mabee relaxed his decision against admitting the general public, and a large gathering of townspeople waited in the court to hear the verdict. There was no demonstration. The acting sheriff stated previously to his lordship's entrance that any offenders in this respect would be punished by his lordship.

His lordship said: "After a very long and patient consideration of the evidence, I have taken a humane and merciful view of this evidence. Your counsel in a very able and eloquent appeal said that the truth of the matter was known only to you and to your Maker. I sincerely hope, for your own peace of mind, and for sake of your soul, that the verdict of not guilty is true in deed, and in fact. You are now discharged."

The jury made an application for extra payment for the night sitting. The judge said he would make an order to that effect.

The Last Evidence. The closing evidence for the defence accused the conduct of expert medical testimony.

Drs. Graham, Chambers and Walter McKewen testified. The acting sheriff stated the conclusions of the doctors, who conducted the autopsy, and efforts to break their testimony produced the intensest indignation.

Ward deprecated Smart's suggestion. Thousands of men were got in New Zealand voluntarily.

Mr. Borden referred to the discussion in the imperial conference of 1905, when he expressed the opinion that no set of men should be labelled for any particular service, but that the Canadian militia should be made absolutely effective, so that when the moment arrived assistance could be rendered the British army by voluntary enlistment.

Mr. Jameson said that he quite agreed with Mr. Smart's suggestion, it was an idea, and an idea, and should be held over for consideration at the next conference.

OTTAWA, April 23.—(Special).—Although there can be no formal cabinet appointments until the return of Sir Wilfrid Laurier, the leaders are busy preparing the cabinet for him.

As Mr. Hyman will not return, it is agreed that Speaker Sutherland will enter the cabinet, probably as minister of agriculture, Sydney Fisher assuming public works.

Mr. Marcell, the deputy-speaker, cannot become speaker, as a French-Canadian, Hon. Mr. Dandurand, is speaker of the senate. It is, therefore, settled that Arch Campbell will be the speaker for the next session, and then probably go to the senate.

It is announced that Premier Pugsley of New Brunswick will not be in charge of railways or of any other spending department. He may enter the cabinet without portfolio. Neither will Mr. Carvell secure this coveted position. He may, however, succeed.

Frederick Borden as minister of militia, thus clearing the way for the almost certain appointment of E. M. Macdonald as minister of railways.

Botha Friendly to Laurier Asks Him to the Transvaal

In Fact, the "Chumminess" of the Two Premiers Has Attracted More Than a Passing Attention.

LONDON, April 23.—(Associated Press Cable).—Observers note the extreme cordiality which has sprung up between Premier Laurier and Premier Botha, members of races formerly not owing allegiance to the British crown, and both now the first citizens of their respective countries.

Gen. Botha has been so impressed with Sir Wilfrid Laurier's deep insight into affairs pertaining to a self-governing colony, that he has given him a pressing invitation to visit the Transvaal, believing that the spectacle of the brilliant and accomplished statesman of foreign descent, yet an advocate of the highest traditions of the British empire, will have a splendid effect on the people of the Transvaal.

It is noted also that both Laurier and Botha invariably agree in the discussions of the conference.

RAILWAYS AGAIN GET SUPPORT OF HOUSE

Hon. Mr. Aylesworth Refuses to Consider the Suggestion That the Government Should Enforce the Law.

OTTAWA, April 23.—(Special).—The house to-day went squarely on record by a party vote as opposing the enforcement of the Railway Act by the federal government.

It was Hon. Mr. Aylesworth who, yesterday stripped the provinces of all control over railway corporations, and who, to-day protested that the federal government should not be required to control these same corporations.

It was a bitter pill for the western Liberal members, who have been flooded with letters and telegrams from the constituents, driven almost to revolution by their mistreatment at the hands of the railway companies. These members, however, were compelled to acquiesce in the decision that federal laws cannot be executed by the federal government.

It is significant that no Ontario Liberal, representing a constituency crossed by the G.T.R., voted for this amendment, also if carried it would have devolved upon the government the duty of obtaining two cents a mile railway fare for their constituents.

The matter came up this morning upon Mr. Aylesworth's bill to amend the Railway Act. Its real purpose is to permit the employment of Mr. Shepley and other counsel before the railway commission, and to transfer the same into the schedule of tolls fixed by the express and telephone companies under the legislation of last session.

Mr. Aylesworth's bill was introduced by Mr. Maclean (South York), having given notice of his intention to move an amendment, requiring the minister of justice to enforce the provisions of the Railway Act, and of their own charters against the railway companies. Mr. Aylesworth pointed out that it was unreasonable to expect this government to enforce the federal law as federal laws were enforced by the United States government. In the United States were federal courts. These could not exist in Canada without changing our constitution. We had gotten that forty years of existence with the present B.N.A. Act. If it was so unsatisfactory to certain gentlemen, let them propose an amendment to the King.

Referring to the case in point, Mr. Aylesworth said that, supposing that the government were to enforce a company law in their manager, it was necessary that he should be cross-examined, and such cross-examination should be effective should not be the property firework of the police court, but should be conducted by someone instructed in technical knowledge and in position to bring out a hostile witness facts which otherwise might not be elicited.

After commenting upon this remarkable mis-statement, as the British North America Act explicitly provides for the creation of federal courts and the enforcement of federal laws by the Dominion government, Mr. Maclean (South York) said that it was idle for the minister of justice to humbug the country by claiming that our federal statutes couldn't be enforced without an act of the imperial parliament.

Charged to Fulfill Law. He read from the act creating the department of justice, and by the terms of which the minister, as attorney-general, is charged with the duty of supervising the execution of the law.

It was impossible for the private litigant to enforce public rights against the great corporation, but a few days ago the Standard Oil Company was tried and convicted at Ottawa. The trial consumed six weeks' time, the documentary evidence presented weighed three tons, and there were 15,000 exhibits. There was enormous expense on both sides, but the cost of enforcing the law was borne by the United States government, and in that trial the attorney-general of the United States had employed several eminent lawyers to appear for the people.

Mr. Maclean challenged the minister of justice to state any reason why this country alone among the nations of the world was unable to enforce its own laws.

"True, Mr. Aylesworth says that he is willing to enforce the law if he is asked to do so by the attorney-general," agreed the speaker, "but the commission is a judicial body not responsible to parliament. This is a responsible government, a political responsibility."

Longboat Given Real Toronto Welcome And Wears His Boston Laurels Modestly

Tremendous Crush of Citizens to See Him - Torchlight Procession Half a Mile Long to Escort Him to the City Hall, Where Address is Presented - Says "Thank You"; Mayor Does the Rest.

One of the greatest receptions ever tendered an athletic hero was given to Longboat, the feet Indian runner, on his arrival home last night from his victory in the Boston Marathon road-race.

The route of the procession was lined by thousands of men and women anxious to catch a glimpse of him.

When the train pulled into the Union Station there was a tremendous rush for the platform, where the Indian and his trainer, Ashley, were secured and fairly carried to the front entrance, where several bands and a torchlight procession half a mile long was waiting to conduct them to the city hall.

Longboat, with Aid. Graham, chairman of the reception committee, and his party were in a big auto. With a Canadian flag wrapped around him he stood for the entire length of the march. He was cheered to the echo, while fireworks lent a brilliant effect to the scene.

At the city hall he was received by Mayor Coatsworth and the members of the council. Complimentary speeches were tendered him at the West End Young Men's Christian Association.

The parade moved via York, King, Jarvis and Queen-streets. It was headed by the Queen's Own Band and included the following bodies: Representatives of Toronto Garrison League, Y.M.C.A. Physical Department, Young Toronto Athletic Club, in autos; Victoria Athletic Club; St. Francis Catholic Athletic Club; the Sunshine Club; Band of Governor-General's Body Guard and eighty men of the regiment in uniform; North End Athletic Club, with Charles Fitch, in carriages; Jarvis-street Collegiate Athletic Association, 100 strong; Royal Canadian Bicycle Club; Toronto Lacrosse League; Y.M.C.A. Physical Department, with H. O. Kerr, in auto; Band of 48th Highlanders; Y.M.C.A. West End Branch; Physical Department; Champion Longboat, in auto, with friends and the members of the city council in carriages.

Groups on the landing were members of the board of control, aldermen and civic officials, while the main floor was packed with thousands of Torontonians. The balustrades of the upper floor were lined with specially

the coach came to grief, the horses breaking away from the conveyance, leaving it stranded.

At the City Hall. The triumphal procession filed thru the James-street entrance of the city hall about 9:15 p.m.

The Marathon winner was given a tremendous ovation, as, in the arms of the mayor, he descended the steps to the landing. The modest bearing of the Onondagan pleased the launcy of the gathering.

When the tumult had in a measure subsided, it was to be observed that Longboat was standing on the mayor's right, with the watchful Aid. J. J. Graham close to his elbow and ready to administer any prompting necessary. On the left of his worship was Fitch, in the historic white sweater in which he sped to sixth place in the great event.

The wings of mercury, borne by Trainer Ashley, was deposited on the table beside the handsome cases in which reposed the medals, gifts of a grateful corporation to the trio of young Canadians, who had brought honour upon their country and the civic reputation was formally open.

Groups on the landing were members of the board of control, aldermen and civic officials, while the main floor was packed with thousands of Torontonians. The balustrades of the upper floor were lined with specially

THE MODERN MILKMAID.
"Where are you going, my pretty maid?"
"I'm going a-milking, sir," she said.
"May I go with you, my pretty maid?"
"Get a doctor's certificate first," she said.
"Can't bring bacteria on any terms: Cows are so apt, sir, at picking up germs."
Take a carbolic plunge and proxide spray.
Don sterilized rubber clothes—then, sir, you may.
If you can prove that your germs are all dead, you may go.
Go with me milking, sir," she said.
"Might I assist you, my pretty maid?"
"Get a bacteriologist's license," she said.
"Then I will let you help clean up my stable."
Polish the floors just as bright as you're able.
Bed them well down with sterilized straw.
Germs have such fondness for milk in the raw!
Then treat the cows to a lively shampoo.
A bath of hot water, and carbolic, too.
Polish their teeth with a sterilized brush.
Spray out their throats, and do all with a rush.
Ten billion more germs'll be born ere you're thru.
Get sterilized milk pails and stools for two.
Put a state seal on the sterilized door.
Spray the whole place with carbolic once more.
Then we'll be sure that the germs are all dead.
Yes, you may go with me, sir," she said.
—New York Tribune.

Some Easy Deserts
At this time of year milk and eggs are least expensive so may be used more generously. The busy house-mother, who has but little time to give to superlatives, will find these dishes little trouble and not costly.
Molded Parina—For each half pint of milk allow a large tablespoonful of farina, a pinch of salt, a tablespoonful of sugar and a teaspoonful of flavoring. Scald the milk in a double boiler; add the farina and stir until it has thickened nicely, then add salt and sugar, cover and cook half an hour. Take off and add flavoring. Pour into cups or molds which have been rinsed in cold water. When very cold turn out and serve with cream and sugar.
Light Tapioca Custard—Add a pint of milk in a double boiler. Add two tablespoonfuls of fine tapioca, stir very often until thickened. Separate yolks and whites of three eggs. Beat stiff with a whip the whites to a stiff froth, stir until thickened, then add the whites, turn and mix lightly for three minutes, then take off, flavor to suit and pour into a serving dish to serve cold. According to the season and taste add to be added to or served with fruit.

PERSONAL.
The Russian hound ran forward a few steps, pointing like a bird-dog, and Mrs. Faring halted, meditating a retreat to the house. But after a moment of this she laughed and went on.
"There's no harm in that poor little, bent-over thing!" she said. "If he should turn nasty, I wouldn't bite him in two. What an odd creature!"
The gray-haired tramp caught sight of her just then, and caught sight of the dog, too, and he turned a half turned, as if he meant to run away, but Mrs. Faring said:
"Don't be afraid of the dog. He'll not harm you."
The man grinned feebly, and made a funny little, jerky, shuffling bow.
"Oh, I'm sorry," she said. "I'm sorry! Come up to the house! I have no money here, but I will have them give you something to eat and then I will give you some money before you go."
The man made his awkward, jerky little bow again.
"Thank you, ma'am!" he said again. He shuffled uneasily.
"Could you call the dawg off, ma'am?" he said.
"To dogs." The Russian hound was sniffing at the stranger's knees with a most unbecoming curiosity. Suddenly it began to bark and yelp and to leech about the man, almost pushing him off his feet with its demonstrations of joy. Beatrice called out to it sharply, but it would not come to her. It continued to leap about the gray little tramp, kicking his heels and barking.

The World's Serial Story.
"I'm most extraordinary, Sergei never likes strangers." The man looked up at her with his uneasy, half-frightened grin.
"Could you call him off, ma'am?" he

"Consumption!" she said, dumbly. "He's going to die, a she had not a trace of feeling over it. She seemed to be beyond feeling."
"John, ma'am," said the little gray man when he could remember her name. "I don't know why—except it may be on account of the tales I tell them as I makes up out of my head."
"Tales?" she said, mechanically.
"Yes, ma'am," said the little gray man. "You see, ma'am," he said, "the gang has been good to me—even if they does kick me out at last, being suspicious-like. They picks me up somewhere—I don't remember where—with my head broke open—askin' your pardon, ma'am—and me very sick, and they nurses me very careful and kind, and feeds me and all, so I tries to please them by making up tales out of my head to tell when you're a-sitting about an evening. You see, ma'am, they is, and they just lies on their backs and yells when I tells them about my big horse and my horses and carriages and all."
The woman went white.
"Your—house—carriages?" she said, in a whisper.
The little gray man gave an apologetic laugh and shuffled his feet.
To Be Continued.

1889—Ladies' Box-Eton.
Known as the Jumper Coat.
Paris Pattern No. 1889.
All Seam Allowed.
The prevalence of the jumper styles is shown in the sleeve development of this jaunty little box-Eton, made of dark blue broadcloth, and as an evidence that these features will continue in popularity throughout the coming season. It might also be developed in the heavier cotton goods, such as pique, or poplinette.
The pattern is in seven sizes—32 to 44 inches bust measure. For 36 bust the Eton needs 3 3/4 yards of goods 20 inches wide, or 2 yards 98 inches wide, or 1 1/4 yards 110 inches wide.
Price of pattern—10 cents.

RULES OF THE CONTEST

MEN ARE NOT ELIGIBLE

AGE—Any woman over eighteen years of age and under fifty on July 22, 1907, may become a candidate by being properly nominated.

NOMINATING—Each candidate must be nominated on the properly filled out nominating blank which is printed in The Daily and Sunday World; or copies of nominating blanks may be obtained at The World Office.

Each candidate must be nominated by some responsible citizen of the town or county in which the candidate lives and be endorsed by three others who can be found at their residence or place of business.

NAMES OF CANDIDATES—Properly nominated, will be printed in The World every day after they are received and the endorsements verified and accepted.

THE BALLOTS—Ballots cast for persons not properly nominated will be destroyed, uncounted. See that your candidate is properly nominated and listed before you cast your ballots for her.

A ballot will be printed on Page 3 of The World each day. This will count one vote. Ballots cannot be changed or transferred after they are received by The World. Special ballots will be issued for paid-in-advance subscriptions, whether new or old, when payment is received by The World, according to the table printed on this page.

Ballots will be dated and numbered with an expiration date, they will not be counted unless received at The World Office before 5.30 p.m. on date of expiration. Ballots sent by mail must be sent to The Trip to London Editor, Toronto World, and postage must be prepaid.

Agents may send subscriptions to apply on the contest, but ballots will be sent to the subscriber.

THOSE WHO ARE BARRED OUT—No employee of The World or other Toronto newspapers or any member of such employee's family may be a candidate in the contest.

THE LAST BALLOT—Will be printed in The Toronto World on July 22, 1907.

No ballot will be counted unless received by The Trip to London Editor before midnight of July 22.

CONTROVERSIES—Any controversies which may arise will be settled by The World alone.

ACCEPTING THE CONDITIONS—In accepting nomination each candidate accepts and contracts to abide by all the above conditions.

THE DISTRICTS

FROM WHICH CANDIDATES ARE TO BE NOMINATED

DISTRICT NO. 1—Includes all territory within the present limits of the City of Toronto.
From District No. 1, the City of Toronto, the six candidates receiving the highest number of votes will be sent on this free trip to London.

DISTRICT NO. 2—Includes all territory within the present limits of the City of Hamilton.
From District No. 2, the City of Hamilton, the candidate receiving the highest number of votes will be sent on this free trip to London.

DISTRICT NO. 3—Includes all territory within the Province of Ontario, outside of the City of Toronto and the City of Hamilton.
From District No. 3 the four candidates receiving the highest number of votes will be sent on this free trip to London.

SUGGESTIONS

Nominations will not close until announced in The World.
Anyone anywhere can vote for any candidate who is properly nominated.
No extra papers will be printed for sale of coupons contained therein.
If you have any complaints to make kindly send them to The Toronto World Trip to London Editor. We want everybody to be satisfied.
A woman's home is where she eats and sleeps; a woman living and working in Toronto, but claiming residence elsewhere, must be entered in District No. 1.
It is easier to answer questions than to correct a mistake. Do not hesitate to ask questions that you want answered.
Be sure that you receive a receipt for all coupons left at the office. If you do not they will not be counted.
Any further information desired may be obtained by calling at The World Office, or by calling telephone Main 252 and asking for the Trip to London Editor.
Once entered, do not drop out.
Candidates may call on us at any time. We welcome you. Don't lose any votes. Watch the expiration dates on your ballots.

SPECIAL NOTICE Address all letters pertaining to the Trip to London and send all nominations, ballots and subscriptions to the
TRIP TO LONDON EDITOR
World Office, Toronto.
COUNTING—Is done on Wednesdays and Saturdays and the standing of the candidates announced to the public Mondays and Thursdays.

Nominating Blank
World Trip to London

A nominating blank must be received for each candidate before she can be voted for. The names of the women nominated in each district will be printed in The World regularly. This blank does not count as a vote, and need only be sent in once for a candidate.

We herewith nominate Name of woman.
Whose age we know to be over 18.

of as the most popular

A BEAUTIFUL FACE
All the old methods of securing beauty and a perfect complexion are replaced by the RUBBER COMPLEXION BULB.
It prevents and removes wrinkles, pimples, blackheads, and freckles. It makes the skin soft, clear, smooth and white. A single rubbing produces remarkable results. Blackheads in many cases are banished in a few minutes. The spread with which it cleans the complexion is almost beyond belief. No woman who owns one of these bulbs can have any further fear of wrinkles or blackheads. Always ready, no matter how late in the evening, to get you out of order. The regular price is 10c. In order to let our Catalogue of other specialties we will send the Complexion Bulb complete with full directions for thirty-five cents, postage paid. You cannot afford to miss this bargain. Address:
The F. E. KARN CO., Limited
Cor. Queen & Victoria Sts. TORONTO, CAN.

JOHN CATTO & SON Replenished Stocks.

This belated spring has caused many to put off shopping from day to day. Warm weather cannot be far off, however, and to those who have still to buy their summer wear we commend our full and carefully selected stocks.

Wash Dress Materials.

Pre-empted amongst washable dress fabrics this season are the new French Printed Cotton Voiles. The dainty designs and colorings shown in these have met with the approval of our already large stock.

White Shirt Waists.

Just unpacked, a splendid lot of White Embroidered Lawn Shirt Waists, fine, delicate patterns, good materials, at \$1, \$1.50, \$2, \$2.50, \$3, \$3.50.

Shepherd Check Dress Fabrics.

Strong is our stock of Shepherd Check and other Black and White and Grey Dress Fabrics this season. We forward the present volume in this and provided such a collection that you cannot fall of satisfaction, whatever your demand.

Man. Is, Cos umes, &c.

In this department, as elsewhere, it can readily be seen that we aim to present exclusive designs and patterns garments, avoiding large quantities of any one style, and thus preventing over-duplication. All the best European and American designers are to be found here. The fit, finish and materials are first-class in every way, and the prices are right.

Our Millinery

has achieved such popularity as to fully justify the position we have taken in offering the products of our own millinery. We have also proven that in the selection of world-famous models for reproduction and modification, our artistic taste is sound and in good taste.

Linen Handkerchiefs.

A most comprehensive stock of every imaginable size, width of hem, quality, etc., in Ladies' and Gentlemen's Linen Handkerchiefs, comprising a SPECIAL OFFERING of 50 dozen Men's Small, Hemmed, Pure Irish Linen Handkerchiefs, slightly imperfections, worth \$1.50 to \$2 a dozen.

To Clear at \$1 a Dozen.

Mail orders promptly filled.

JOHN CATTO & SON King-street-Opposite Postoffice, TORONTO.

MULOCK GOES TO WEST TO SETTLE COAL STRIKE

Sir William Appointed Chairman of the Conciliation Board—Conference is Begun.

Fernie B. C., April 23.—(Special).—The informal private conference between miners and operators commenced to-day. President Sherman acted as chairman. The operators are in the position of guests of the union.

Mackenzie King, deputy minister of labor, arrived to-night on a special train in company with Superintendent R. B. Jamieson of the western division of the C. P. R., and G. J. Bury, from Winnipeg.

The visit of Mackenzie King and other officials offering intervention is looked upon unfavorably by both parties.

Mackenzie King has announced the name of the third member of the investigation board appointed by the department of labor as Sir William Mulock, who will be the chairman of the board, and who leaves to-night for the west.

The general feeling all round is more optimistic to-night.

ARRESTED FOR SHOPLIFTING Brooklyn Woman Says She Was Formerly Resident, Here.

NEW YORK, April 23.—(Special).—Martha Lautenberger was arrested for shoplifting in a large departmental store in Brooklyn this afternoon as she was about to walk out with two large shopping bags containing money belonging to two other women shoppers.

She said she was 40 years old, lived with her second husband at Jamaica and New Jersey avenues, that her former name was Sevier, and that she came from a respected Toronto family, in which city she had resided and moved in society as well, also in Detroit and Buffalo, where she has relatives.

She had always borne a name beyond reproach, and she said she was a victim of a mistake. Her husband, neighbors and lawyers testified to her previous good conduct. The woman owning the latter held her in \$300 bond on the other complaint.

TO CURE A COLD IN ONE DAY Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

STEAMSHIP ARRIVALS.

Table with columns: Date, Ship Name, From, To. Includes arrivals from Hamburg, London, Liverpool, etc.

THE WEATHER

Metropolitan Office, Toronto, April 23.—(Special).—The disturbance which was moving north-eastward toward the Great Lakes, and gains is falling along the north shore. Stormy conditions are indicated for eastern provinces. In the west the weather has been fair and cold.

Minimum and maximum temperatures: Dawson, 18-46; Adlin, 18-27; Victoria, 44-58; Vancouver, 42-60; Kamloops, 44-60; Calgary, 28-34; Edmonton, 22-40; Battleford, 22-38; Prince Albert, 18-38; Regina, 20-34; Winnipeg, 22-36; Port Arthur, 28-40; Parry Sound, 24-28; Toronto, 32-46; Ottawa, 38-52; Montreal, 40-60; Quebec, 38-40; St. John, 36-44; Halifax, 32-38.

Probabilities. Lower Lakes and Georgian Bay—Strong winds and gales from north and northwest, colder again. Some scattered showers of sleet, but mostly for night.

Ottawa Valley and Upper St. Lawrence—Strong winds and moderate gales from northeast and northwest, cooler, with rain or sleet.

Lower St. Lawrence and Gulf—Strong winds and gales from northeast, with rain or sleet.

Maritime—Strong winds and gales from east and south, with rain. Lake Superior—Strong northwest winds; fair and cold.

Manitoba, Saskatchewan and Alberta—Fair and cold.

Opportunity to Teachers That They Should Seize

Chairman Kent of the Board of Education Enthusiastic in Endorsation of The World's Trip to London.

It's funny how a good thing takes. "Twas but yesterday that The Toronto World announced that it intended to dig down into its beneficence and its pocketbook and to send on a World tour to London eleven of the fair sex, nominated and elected by popular ballot to be the eleven most popular women in the city and province.

And a few hours after the paper had been circulated amidst the offices and homes and studios and colleges and schools, the public "caught" the idea, and with a hurrah and many began working up their friends to unite with them on a popular candidate for nomination.

The idea that whoever of this vast city and country population is handed this Marathon prize won't have to pay a cent of any kind for any part of her trip to the world's seat of power.

"That's one offer with no strings to it," is the terse way a Toronto broker put it.

It Takes the Teachers. There are many teachers in this city, and they have many friends. Even yesterday a three weeks' trip with the busy, and it will be a wonder if the special car de luxe that slides off the special train station with the picked eleven in a month does not contain a teacher or so.

With a Toronto World in his hand, Mr. Fielding, who is in charge of education, was conversing enthusiastically with a gentleman in his office yesterday when the door opened and a World reporter stepped in.

"We were discussing this trip to London when your paper is offering to women, and I had just remarked that some of our teachers should jump that opportunity for a vacation jaunt," exclaimed the hale trustee.

"An opportunity like that should be soon to our teachers, and more particularly to our women, as it covers a portion of their summer vacation period."

Month of Pleasure. "It would give some of them an opportunity to realize their fondest dreams, and that without the slightest strain or inconvenience."

"They could spend the first month of their summer vacation at their homes, and then they could finish up with this glorious trip, affording at once recreation, relaxation, physical and mental improvements, general education, and a change of scene."

Continuing, Mr. Kent said it was a very commendable idea on the part of the board of education, and at the same time an opportunity to go abroad had never before afforded the women of Toronto, and especially the teachers, in whom "was much interested."

When the board of education permitted the women to go, "that the time was always limited to a few days, and necessarily the trip was so short that not great good could arise from it. A three weeks' trip with the women of a sea voyage and a sojourn on the continent, was an opportunity of a lifetime."

He believed that quite a number of the Toronto teachers would be nominated for the trip, and that they would be very popular with their pupils and the parents in the community.

IRON AND STEEL BOUNTIES ANNOUNCED BY FIELDING

Government is Attacked For Its Policy Towards the Sydney and Soe Industries—How the Farmer Should View It.

OTTAWA, April 23.—(Special).—Mr. Fielding this afternoon announced the remaining business of the session. It had been intended, he said, to ask for an appropriation to aid in the construction of the terminal at the foundry in Quebec. The matter would not be pressed at this session, but at the next session there would be a liberal grant and a national committee would be appointed. The Dominion Lands Act Bill would be withdrawn, also the bill respecting proprietary and patent medicines. He pointed out that the bill would not be reached this week. If not, it would be the fault of the opposition.

Mr. Fielding admitted that nearly all the iron and steel in Canada was imported from the United States. He pointed out that the iron and steel industry in Canada was very limited and had richly repaid the government and the people. He anticipated great results from the bounties of electric smelting.

The View of the Farmer. "I am a protectionist and the son of a protectionist," said W. F. Macleod, who is a farmer. He said that the iron industry is the basis of national prosperity. The farmers of Canada would not oppose iron bounties when the question was fairly stated.

Certain politicians and newspapers had endeavored to persuade the people that the iron industry in Canada was a great industry. He said that the iron industry in Canada was very limited and had richly repaid the government and the people.

Mr. Fielding presented his resolutions providing bounties upon iron and steel. The bounties are announced upon a scale. He spoke of the many protests and petitions received from Ontario. The signers were from seven provinces. The proposed bounties during the next four years would not exceed \$7,500,000, in his opinion.

Foster and Fielding. Hon. George E. Foster replied that the Liberal party had not formerly been the party of protection. Now it was not only a protection party, but it claimed to have discovered the factors. Mr. Fielding announced as his own peculiar discovery, that "iron was the basis of all industry." But did Mr. Fielding discover it and if it was true, why discourage the industry by putting a duty on iron ore? He regretted that Sir Richard Cartwright could not have heard this speech. Mr. Fielding He would have patted him on the back and whispered to him, "Go it old boy. We need the offices, but, oh, what a pack of lies and nonsense it all is."

Mr. Fielding, like all converts, tried to make up in zeal and fury for his years of heresy. He even claimed that giving a bounty on iron caused people to drink more whiskey and chew more tobacco. Mr. Foster insisted, however, that bounties were objectionable and custom duties were more desirable, less costly and more certain.

Mr. Patterson claimed that he had always favored developing Canadian industries. The Liberal party had not changed its policy from Local Union 204 will take place in the Labor Temple at 5 p. m. to-day, when a draft agreement, which was presented a few weeks ago, will be considered. The proposed scale calls for an increase all round of \$1 per week. At present, apprentices get \$8, journeymen \$13, and foremen \$15 per week. The new agreement is to take effect May 1.

The men will be represented by John Gardner, A. J. Cleveland, George Stevenson, W. Thompson and Albert Leslie. Thirty-two employers have been notified of this number, 27 have already recognized the union.

The new Biscuit Bakers' Union will submit an agreement to Christie Brown to-day or to-morrow. The stipulations differ but slightly from the already-existing conditions of the plant. The men don't ask for a closed shop, and the increase will hardly average \$1 per week.

Prosperity Elsewhere. Mr. Osler (West Toronto) pointed out that prosperity was confined to Canada during the last year—1907, \$1,650,000,000. The United States had made greater gains proportionately than Canada since 1896.

Dr. Chisholm (East Huron) doubted the wisdom of these large bounties. In diameter, manufactured in Canada from steel produced in Canada, from ingredients of which not less than 50 per cent. of the weight thereof consists of pig iron made in Canada, when sold to wire manufacturers for use of, when used in making wire in their own factories in Canada, on such wire rods made after the 31st December, 1906, six dollars per ton.

(c) In respect of steel ingots manufactured from the proceeds of electric smelting during the calendar years—1907, \$2.10 per ton; 1910, \$2.10 per ton; 1911, \$1.70 per ton, and 1912, 80 cents per ton.

(d) On pig iron manufactured from Canadian ore produced during the calendar years—1907, \$1.70 per ton; 1908, \$1.70 per ton; 1909, \$1.70 per ton; 1910, \$1.70 per ton; 1911, \$1.05 per ton, and 1912, 60 cents per ton.

(e) On pig iron manufactured from Canadian ore produced during the calendar years—1907, \$1.70 per ton; 1908, \$1.70 per ton; 1909, \$1.70 per ton; 1910, \$1.70 per ton; 1911, \$1.05 per ton, and 1912, 60 cents per ton.

(f) In respect of rolled, round wire rods, not over three-eighths of an inch

LONGBOAT GIVEN WELCOME

Invited guests, and the broad steps to left and right from the landing were a living spectacle, being jammed with exuberant Y.M.C.A. boys, whose faces were beaming with the joy of the vocal feature of the occasion.

Harbord Will Help. The mayor read a brief communication from Principal Haggarty of Harbord Collegiate, announcing that the pupils would contribute toward the Longboat education fund.

"I think you may count on a handsome subscription from us, concluding this message, and at the announcement the audience waxed demonstrative."

The other notes haven't reached me yet, but no doubt they will tomorrow, and there was laughter and more applause, and at the announcement, which will be presented to Longboat in illuminated form, as follows:

Civic Address. To Thomas Longboat: Dear Sir—We, the mayor and corporation of the City of Toronto, beg to offer you a most hearty welcome on your arrival home after winning first place in the great American Marathon race, which took place at Boston, Mass., on Friday last.

Your success in this contest, the best long-distance runner of an entire continent, in record-breaking time, entitles you to the proud distinction of being the champion amateur long-distance runner of America, and adds another important event to the long roll of athletic victories now standing to the credit of Canada. As Canadians we admire the splendid demonstration of physical endurance, indomitable pluck and dogged perseverance which you have shown, and we all look forward with keen interest and warm sympathy to your future career, feeling assured that those qualities which you have shown in this contest will bring to you a wide measure of success in the future, in whatever walk of life you may choose to follow.

Citizen's Souvenir. We ask your acceptance of the accompanying medal as a souvenir from the citizens of Toronto. The corporation is also desirous to give expression to its appreciation of your victory in a more tangible manner by making a substantial contribution to the fund which is being established by the citizens for the purpose of assisting you in acquiring a thorough education.

In conclusion we ask you to spare a few moments of your time to visit the health and prosperity we express the fervent hope that you may be able to enjoy the honors which you have so gallantly won.

Signed on behalf of the corporation of the City of Toronto, by the mayor, clerk and treasurer. Peteh Hordoch, Treas.

The echoes of applause which greeted the presentation of the medal, and the Longboat waving commendation of the rest of the day, were in the words of the mayor, who in his speech, spoke in a most impressive manner, and in which he expressed his confidence in the future of the city.

Mr. Longboat, who acted as chairman on the platform, was Chief Martin of the Brantford Reserve. The prize he had won was placed on a table beside Ald. J. J. Graham, who acted as chairman. On the platform were: Chief Martin of the Brantford Reserve; Thos. Ward, Messrs. Lynd, Bates, Ald. Keel, Deputy Chief Stark and Col. Gallows.

On behalf of the C.A.A.U. Deputy Chief Stark extended congratulations to Longboat. He was glad that he had found a home in the Young Men's and Christian Association.

Chief Martin said that as soon as the tribune knew that Longboat was in the city they knew he would win. He predicted that if the young Indian remained under the shelter of the Y.M.C.A., he would get the best of his education for his brother Indians.

President McGillivuddy of the Central Y.M.C.A., and Rev. C. O. Johnston also delivered short addresses. Big-Time at Hamilton.

At Hamilton a large crowd of the victor's old friends gathered at the station and cheered loud and long when he stepped off the train. The Toronto delegation arrived shortly afterwards in charge of Controller Ward, Ald. Church and Ald. Chisholm, with a crowd of enthusiastic sporting men, representing the various Toronto clubs. There was all kinds of hand-shaking and congratulations.

There was all kinds of hand-shaking and congratulations.

On behalf of the C.A.A.U. Deputy Chief Stark extended congratulations to Longboat. He was glad that he had found a home in the Young Men's and Christian Association.

Chief Martin said that as soon as the tribune knew that Longboat was in the city they knew he would win. He predicted that if the young Indian remained under the shelter of the Y.M.C.A., he would get the best of his education for his brother Indians.

President McGillivuddy of the Central Y.M.C.A., and Rev. C. O. Johnston also delivered short addresses. Big-Time at Hamilton.

At Hamilton a large crowd of the victor's old friends gathered at the station and cheered loud and long when he stepped off the train. The Toronto delegation arrived shortly afterwards in charge of Controller Ward, Ald. Church and Ald. Chisholm, with a crowd of enthusiastic sporting men, representing the various Toronto clubs. There was all kinds of hand-shaking and congratulations.

COBALT --- Nipissing Strikes Vein Twenty-Six in Cross Cutting --- COBALT

ARE EAGER FOR POWER FILE WAITS WITH BOARD

Municipalities Furnish Hydro-Electric Commission With Orders - Seventeen in Line.

A meeting of the hydro-electric power commission was held yesterday morning for the transaction of routine and other business.

The principal item before the commission was the list of applications for power from the municipalities which passed the power bylaws last January. Of these the commission considered the application at the next meeting, but there is no doubt of its endorsement. Including St. Thomas the applications from the western municipalities' union amounts to 44,000 horse-power. They are:

Table listing municipalities and their power requirements: Toronto (15,000), London (6,000), Toronto Junction (4,000), Hamilton (3,000), Stratford (2,500), Brantford (2,500), Guelph (2,000), St. Thomas (1,500), Paris (1,000), Ingersoll (1,000), Woodstock (1,000), Berlin (1,000), St. Marys (750), Waterloo (700), Preston (600), Hespeler (500), Paris (500).

As soon as the St. Thomas application is received the commission will issue contracts to the several municipalities with the terms and rates. These having been accepted the commission will then proceed to supply the power required.

It does not appear that the commission anticipates any trouble about the supply of power. Several applications have been received from the Niagara companies and the transmission is looked upon as a detail. An Ottawa dispatch last night said that Hon. Mr. Beck was dissatisfied with the state of affairs at Ottawa, but Mr. Beck explains that the hydro-power commission have only been endeavoring to assist the municipality. That city will not be able to develop its own power for some years. An effort was made to get a supply from the Hull (Quebec) company. The commission used its influence and got better rates and a shorter term (10 years), and placed the city in a position to fulfill the agreement which the citizens by vote have ratified. There is some delay on the part of the city council in closing with the Hull company, but with the aid of the commission has no power to interfere.

LARDER LAKE STAMPED.

Tremendous Rush to the New Gold Fields.

NEW LISKEARD, Ont., April 24.—The stamped to the new gold fields of Larder Lake has assumed tremendous proportions. There is great excitement here. Miners and prospectors arriving here from that district for supplies report rich strikes and state that claims are increasing in value rapidly, especially in the vicinity of the wonderful Blue Bell properties. This company's holdings are said to be enormously rich and high prices are offered for adjoining claims. The representative of the Blue Bell company here states that twelve stamp mills and other machinery is to be put in at once and that they expect to be shipping out gold within ninety days.

LATCHFORD'S PROGRESS.

Business and Hotelmen Will Take Care of Spring Influx.

LATCHFORD, April 23.—Latchford's business men resent some of the articles that have appeared in the press to the effect that the town's progress will be retarded for fully a year. Out of 16 business places destroyed last week to-day nearly all are ready. Material is ready, men are here, and it is only a matter of a few days until the whole of those burned out will be going again.

Besides the Empire Lumber Co.'s large mill, which was not injured in any way, there are three or four other firms which lumber agencies here, ready to sell to these builders.

Besides those burned out there still remains a new store in Simpson's Block with \$3000 worth of groceries; T. C. Patterson, with \$8000 to \$10,000, general stock; J. J. Larkin, with \$1000 stationery; Aboud & Co., \$2000 general; Empire Lumber Co., general stores, with \$25,000 general stock; James Doig, with \$2000 groceries; D. Macgregor, with \$2000; R. H. Burton, with \$2000.

Even before the fire had stopped burning these men had more goods ordered to be rushed forward, and to-day they are all ready for the spring rush, which is expected when the ice goes out. As for miners and prospectors pitching their tents to wait here, we will certainly take care of them. Here, with three of the best and largest hotels to be found in this north country, we certainly will not ask any of them to pitch their tents to wait for the ice to go out. The town can furnish ample accommodation for a thousand people on the spur of the moment.

SHOULD BE BOUGHT OUT.

Foster Shareholder Writes in a Racy (Not Silver) Vein.

Mining Editor World: With quite a collection of sympathetic spasms. I read the letter of the Foster-Cobalt-Shareholder in your issue of this date. Poor man, and poor me. I own 200 shares of that valuable asset, purchased at \$3.54, and, do you know, sir, I feel supremely satisfied about the matter, as a doctor of my acquaintance purchased a quantity at \$3.87, and I do detest a doctor. There is nothing the matter with the stock, only as "Shareholder's" intimates, it hasn't been Fostered enough, and, by George (W.K.).

No doubt "Shareholder" is up against a hard proposition, solid rock is generally considered so, and 94 feet of it, my wig, it is enough to make any fellow feel rocky. Still, there is a way out of all this for every one; as I told you, I am a holder

of 390 shares of stock; I am also a hoodoo. I bought United States Steel, preferred, at 106; it dropped to 49 3/4, I bought United States Steel common at 55; it dropped to 3 7/8. I bought Atchafalaya at 84; it dropped to 60. I am warranted to knock the stuff out of the most gilt-edged stock in the market. I only wonder I didn't buy Nipissing at 24. Any little man who wishes the market to rise, let him buy me out at the price I paid, and once I am disposed of he'll wonder who'll be in it with the stock. You see, if the market is depressed, I'm not. Another Shareholder. Toronto, April 23.

TO REGISTER MINE TITLES.

Halleybury Deputation Asks for Central Office.

Arthur Ferland, reeve of Cobalt; P. T. Lawlor, mayor of Halleybury; S. B. Briden, councillor of Halleybury; M. P. Wright, and Weldon C. Young of Halleybury, Jack Merrill of New York and Halleybury, and Mr. Bain of Toronto waited on the government yesterday.

The deputation asked for a central registration office at Halleybury, where all of the deeds and other documents pertaining to mining property would be recorded, and where weekly or semi-monthly reports would be collected from the sub registration offices. The premier said this was his idea of what should be done, and he would use his influence in the direction, but as Hon. Mr. Cochrane was on his way home a decision would be left to him.

RICH STRIKE ON THE ARGYLE

Shipping Ore Expected in the Next Sixty Days.

Word has just been received from Halleybury of a rich strike on the Argyle property. This is the famous section in the concession 2, Bucks Township, which was recently bought by Boston and Ontario capitalists, who have gone steadily to work to make a mine and not sell stock.

J. B. Phillips, M.E., who is general manager of the Argyle Silver Mining Co., brought down with him a sample of vein matter from shaft No. 5, which is down only eight feet, and from which on Saturday night was blown out quantities of native silver. Mr. Phillips reports that two rich veins run thru this shaft, which is in the Kewatin, described by Prof. Miller in his report to the government, and further development on this shaft should give immense values.

Engineers who have just been over several of the producing mines of this section express the unanimous opinion that the Argyle will produce more silver from the surface down than anything in the district, and the work done on the properties up to date is the most minierlike and scientific in the world. All traces of the fire which occurred a week ago and destroyed the messhouse and office of the company have been removed—a new and larger building is nearly completed and with the five other buildings constitutes a model, up to date mining camp.

Mr. Phillips has his own crews at work sinking three shafts, and with the reputation for moving more rock than any two crews in the district, Mr. Phillips should be producing shipping ore within the next 60 days.

None of the company's stock is for sale at any price—the owners having gone into the business for mining only, and it is confidently predicted that before the summer has fairly opened the shares will have an earning value of \$5 on a par of \$1.

EXPERT PROSPECTOR.

Locates Claims After a Hard Fall and Winter.

NEW LISKEARD, April 23.—H. L. Beattie of St. Catharines, Ont., an expert prospector and miner, has just landed in New Liskeard from Larder Lake with some beautiful specimens of free milling gold and copper. One sample has just been assayed and a return of 514.25 ounces to the ton of gold, value \$10,677.44. A second sample assayed 7.25 ounces gold to the ton, value \$150.96, and a third assay from another sample gave 24 per cent. of copper.

Mr. Beattie has had some very trying experiences in the Larder Lake district during the past fall and winter; one of which was he was left with a compass, or even any food, a gun or matches. A small ax was his only friend. He walked for a whole day, and was tired and hungry. He became frightened and naturally cried out in their hurry to escape, and Mr. Beattie's translation was that the old drakes were saying, walk, walk, walk, and after they had circled round above his head for some time, he took to the hunt and walked in the direction they had flown, with the result that he came out on a high bluff overlooking the new famous Larder Lake, and about one mile from where his mining claim now is, that the foregoing large assay for gold has been taken from.

Mr. Beattie says he was quite exhausted when he came upon a prospector's camp and found some food. He had practically given up all hope of ever seeing his family again.

Mr. Beattie says there many other good properties in this district.

The Dr. Reddick claim, which he visited, shows free gold on the surface, and Mr. Beattie has no doubt whatever but Larder Lake will be a mining camp by next autumn that will rival, if not surpass, Cobalt itself.

He also says Truxa Township, which he prospected in part, has some good showings in copper and gold.

GET ONE CLAUSE THRU.

C. N. R. Satisfied to Secure Bonding and Terminal Privileges.

OTTAWA, April 23.—There was another fight at the railway committee to-day over the Canadian Northern Bill, which asks for about 2000 miles added to its system in the west. The western members opposed this at a previous meeting, because of the failure of the road to give proper transportation facilities.

DON'T WAIT, HERE IT IS

\$10.00 INVESTED NOW Should Make \$100 to \$1000

LARDER LAKE GOLD

PLEASE TAKE NOTICE

I have the claims. I have the gold. I have assays of \$8000 per ton and up. I have samples of ore where the gold is so thick in the quartz that it would be almost like assaying gold dollars to get its value. I am incorporating a company under Ontario laws with 1,000,000 shares of \$1 each, to take over and operate these rich claims.

My rich ledge, I think, runs through adjoining claims. I shall secure these additional claims, making about fifteen 40-acre claims in all.

I will issue a limited number of shares to a few investors at a very low price for about ten days. Then I will put the shares of my company on the market for subscription, at an advance price. I will put men at work after May 1st, to push development as rapidly as possible. I believe the shares of my company will soon go up to 50¢, 60¢, 70¢, 80¢, and \$1 par.

With me, you will be interested with THE MAN ON THE GROUND—in the Mine—with mining men of wide experience.

Write immediately to my agents, P. V. FRASER & CO., 23 TORONTO STREET, TORONTO, or write to me personally, c/o P. V. Fraser & Co., and you will receive full particulars of this proposition. If preferred, you may write to any reputable broker, asking them to see me, and I will give them full particulars. I will give personal interviews day or evening by appointment. I will show samples of ore at interviews in Toronto, or to prospective investors in nearby towns.

My first offer, AT BOTTOM PRICE, will remain open only about ten days, and to a limited number. Write immediately to myself or to my agents, Fraser & Co., 23 Toronto-street, Toronto, Canada. L. W. Spear, Mine Developer. I will give good references.

P. V. FRASER & CO., Financial Agents, 23 Toronto Street, Toronto, Canada

HARRIMAN FAIR TO HEARST.

Tipped Off Publication of Famous Letter in the Rival World.

NEW YORK, April 23.—Edward H. Harriman was the principal witness to-day at the final hearing in the case of Frank W. Hill, Harriman's former secretary, who is charged with having sold for publication in The New York World his now famous letter written by Mr. Harriman to Sidney Webster, in which Mr. Harriman declared that he personally had contributed \$50,000 toward the Republican campaign fund of 1904, and that President Roosevelt had promised him to appoint Senator M. Depew ambassador. Hill sold a copy of the letter, which he transcribed from his original shorthand notes. Magistrate Washburn gave his decision on May 1.

Mr. Harriman denied to-day that he ever gave permission to any newspaper to publish the letter. On the other hand, he said, he tried to prevent its publication.

"When I learned that it was in print, I called up The American and told the manager, at the other end of the telephone line, that it was only sent to the World," said Mr. Harriman.

"Did you then give them permission to print the letter?" he was asked. "I did not."

OPPOSITION TO PUGSLEY.

Mayor of St. John Will Contest for the Liberal Nomination.

ST. JOHN, N.B., April 23.—(Special.)—Premier Pugsley will not have it all his own way by any means at the Liberal convention on Friday night.

Already Mayor Edward seems to have announced his intention of contesting for the nomination. Failing in this, he will not, however, be a third candidate in the by-election if a Conservative should take the field.

Disaffection in the party is shown in the complaint that an old Conservative has been made lieutenant-governor; an old Conservative has been given an important commercial position in South Africa; an old Conservative, at Campbellton, has been made an old Conservative, is being put forward by the Liberal organization.

E. NORTHUMBERLAND ELECTION

WARWORTH, April 23.—(Special.)—Ezekiel Northumberland Liberals to-day nominated A. A. Mulholland, manager of the Northumberland Paper Co., at Campbellton, to contest for the county for the Dominion house.

Starch Digested by Malt Extract

Process Employed in Immense Factory Which Makes World's Most Perfect Food.

One great food factory in Canada is providing thousands of people with an ideal wheat food, which perfectly nourishes and supports every part of the body without taxing the weakest digestion. This food is Malta-Vita. It is made from choicest whole wheat, thoroughly washed, cleaned and steam cooked in the cleanest food factory in the world.

Since the earliest ages wheat has been recognized as the natural food of mankind. Scientists confirm this, and have proved that it is the only food the earth produces which contains every element of food required by the human race from infancy to old age. In Malta-Vita the cooked wheat is mixed with pure barley malt extract, which converts the starch into maltose (also called malt sugar) just as saliva does with the starch of ordinary food when it is thoroughly chewed. "Malt-Vita" is "the perfect food"; it is practically predigested. It is promptly absorbed by the blood and converted into energy of brain and body, whether it be thoroughly chewed or not.

Malta-Vita, better than any other food represents every element required for health and vigor. It is delicious to the taste, acceptable to the most delicate stomach, and quickly assimilated without depleting the vital energy or causing physical distress. It builds up and maintains strength and gives greater working endurance to heart, muscles, nerves and mind than any other food that can be eaten. Grocers sell it at 10 cents for a large, sealed, air-tight package.

CONDUCTOR GUILTY.

Held Responsible for Manslaughter in Gourock Railway Wreck.

GUELPH, April 23.—At the spring assizes held here to-day, Conductor Thompson was found guilty of manslaughter in connection with the wreck at Gourock on the 22nd of September last.

TEMPLEMAN RESIGNS.

OTTAWA, April 23.—(Special.)—Hon. William Templeman, minister of inland revenue, has tendered his resignation as president and also director of the Aigoil Cobalt Co., owing to being responsible for the administration of the geological survey and mines branch.

Senator J. H. Ross has been appointed director, and Senator Melvin Jones president.

London Tax Rate.

LONDON, April 23.—The city council have struck the tax rate at 21.14 milia.

PASTE THIS IN YOUR HAT.

Two red lights—Arthur-street car. Two red lights—Church-street. Two green lights—Dunlop-street. The above light changes have been made in identifying street cars at night. The similarity of lights will not conflict, as other lines carrying the same colors do not cross the route lighted the same.

Train Wrecked in Transvaal. LONDON, April 23.—Alexander Stuart, K.C., of this city, to-day received a letter from his brother, Major Duncan Stuart, stating that the latter and his wife were passengers on a train which was wrecked on March 14 on the Alkmaar Railway, in the Transvaal.

DR. A. W. CHASE'S CATARRH CURE... 25c. Is sent direct to the diseased part by the Improved Shower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

MINE'S MINING SHARES AND REAL ESTATE Cobalt, Larder Lake and Elk Lake Mining Properties Steadily Deal In. 15 YEARS' EXPERIENCE IN NEW ONTARIO I know of no safer investment in Real Estate than in Halleybury, the Queen City of the Temiskaming. Dr. Reddick Larder Lake Mines, Limited

(NO PERSONAL LIABILITY) Head Office: Room 45, Central Chambers, - Ottawa, Ont.

OFFICERS AND DIRECTORS: Lt.-Col. S. Maynard Rogers, President and Managing Director. Robert Stewart, M.P., Vice-President. Sir Frederick Borden, K.C.M.G., M.P., Ottawa. Col. Sam Hughes, M.P., Lindsay, Ont. Dr. Robert Reddick, Winchester, Ont. Charles W. Dimick, Boston, Mass., and John G. Forgie, Barrister, Pembroke, Ont., Directors. D. Smiley Sawyer, Ottawa, Ont., Secretary-Treasurer. Dr. Reddick and his associates, Messrs. Hummel, Knott and Flynn, are the men who made Larder Lake famous, being the original discoverers of gold in the Larder Lake region, and after carefully prospecting, selected, staked and recorded what are universally acknowledged some of the very best claims in this region. All of this work was done before the first fall of snow so that in purchasing this property we know that we have the best that could be procured in the Larder Lake region. The claims all have a number of large quartz veins, showing values in Gold, Silver and Copper. Assays ranging from \$8.40 in silver, and \$122.00 to \$1,868.00 in gold have been recorded. It is acknowledged on all hands that our property is the heaviest mineralized in the country. A gang of men have been at work since the 15th of February putting up the necessary buildings and taking in supplies, machinery, etc., and actual development will commence shortly. To intending purchasers we would advise this as a good investment and would be pleased to receive a call from any who desire further information. We are offering \$200,000 of the Treasury Stock at par value, \$1 per share. For Prospectus and full information write the company.

Buy Cobalt Development Co., Limited, at Once Authorized Capital \$5,000,000 Shares Par Value \$1.00 These shares will be advanced to 25c per share on May 1st, 1907, as the improvement in the properties of the above Company warrant this advance. We have for sale a small allotment of shares at the first issued price of 70c per share. These shares are fully paid and non-assessable. Send for prospectus and particulars. SAMUEL HERBERT & CO., Toronto, Can. Phone M. 18. P. S. This will be traded on all the Canadian and American Curb markets.

We Recommend Purchase of Bailey Cobalt Shares The Bailey Cobalt Mines, Limited, owns 5 claims, containing approximately 216 acres, in Coleman Township, and a good 40 acre claim in Lorrain, adjoining the Bailey Mine. The Bailey Mine has a true fissure vein carrying high silver values. Shaft is down 65 feet, with drift into Malheur Mountain, a wonder of the camp. Next to the Nipissing, this is looked upon as being one of the largest, most regular, veins in the camp, being similar in formation to the famous "Big Pete" Mine, which it adjoins.

BANK RATES REDUCED BY EUROPEAN BANKS

New York Stocks Close Strong After Period of Dullness—Canadian Foreigners Weak

World Office, Tuesday Evening, April 23. The softness in the foreign securities which has been so perceptible to traders for several weeks past, came into stronger evidence today, when supporting orders were sharply fewer for these specialties.

Canadian Northern Railway gross earnings for week ending April 21, 1907, increase, \$3900.

Good demand for stocks in loan country. American Woolen has now paid off a considerable portion of floating debt.

Further increase in bank loans may advance money rates, but strength of foreign exchange is favorable sign at present.

The Bank of the Netherlands, Amsterdam, reduced its minimum rate of discount 1/2 per cent, to 5 per cent.

LONDON.—The Bank of England today sold £250,000 gold for shipment to Paris.

PITTSBURGH.—The Pennsylvania Railway will order 133,000 tons of steel rails for the system for the year 1908.

There seemed to be some Smelters stock for sale around 135, and some of the floor buyers became quite aggressive when this appeared, causing a reaction of a couple of points.

One of the best factors, according to the foreign houses and best banking opinion in London, is that the movement of money abroad, reduction in bank rates of Amsterdam and Berlin was taken to indicate that the Bank of England rate would be reduced on Thursday.

Who is Your Executor?

Have you considered the appointment of a Trust Company as your Executor? It provides absolute security, efficient management and skilful and cautious service, and its duties are performed as a minimum cost.

YANKS STAND BY UNION JACK

Make Honduras Revolutionists Apologize for Insulting the Flag.

PUERTO CORTES, April 23.—An amusing instance of the armed resistance to American marines by Honduras revolutionists came to light in the official correspondence of the American gunboat Marietta.

Among sundry acts for which an apology was asked was the cutting down of a British flag at Salado. Revolutionists threatened the life of Wm. Collins, a British subject, who had raised his flag for protection. U. S. Commander Fullman declared that his marines would not allow insults to the British flag.

DETROIT, April 23.—Up: Black Rock, 1 1/2 p.m. Monday; Schillingers, 4; Amasa Stone, 4.50; Bethlehem, 7.10; Ketchikan, 9.50; Brower, 1.10 Tuesday morning; Madrox, 1.20; Neptune, 1.45; Warren, 1.50; Sawyer, 2.00; Grammer, 5.10; Muncey, Shrigley, Shawnee, 5.40; Pellet (arrived 5.10); Harlow, 6.20; Holmes, 7.15; Donnacoma, 7.20; Paine Adams, 7.40; Ontario, 8.10; Frank, oil, 8.10; Pellatt (cleared), 10.10; W. J. Ocker, 1.12
