SALARIES OF TEACHERS.

Report of the Special Committee Appointed by the School Board to Regulate them for the Future.

The special committee of the Public School Board, appointed to regulate the salaries of teachers and staff officials, at a meeting with Chairman Douglas and Trustees Kent, Lee, S. W. Brown, Noble and Spence, decided to recommend as follows to the Board.

1. That the maximum salary of \$630 for assistant female teachers in the present salary schedule be struck out; and the following amounts in the respective grades be substituted therefor, namely: the sum of \$450 for teachers teaching in the first and second grades, \$475 for teachers teaching in the third grade, \$500 for teachers teaching in the fourth and fifth grades, and \$525 for teachers teaching in the sixth grade.

2. That assistant female teachers who have attained the maximum salary in the present salary schedule be placed in the grade in which they are at present teaching, and that the maximum salary of the grade in which they are at present teaching be increased to the higher grade.

3. That the principles of payment of salaries as recommended for assistant female teachers be applied in the payment of salaries of male principals, and that instead of "grade" the "number" of teachers on the respective school be the basis of payment.

4. That all text books and school supplies, as mentioned in a former report of the committee, be transferred from the secretary-treasurer's department to the inspector's department.

Tells—One Escaped.

Woodstock, Nov. 3.—Three tough cus-

tomers struck town yesterday, and last

night about 8 p.m. two of them entered

Marshall's pork store and proceeded to

help themselves.

The proprietor caught one of them, and

the other struck Mr. Marshall on the

head with a heavy club, knocking him

down.

The two men then ran east on Dundas-

street and up Light-street. A hue and

cry was raised, and they were overtaken

by a large posse of citizens on Well-

ton-street.

They made a desperate resistance, and

Mr. Walton, a druggist, and a boy were

badly hurt in the struggle.

One of them furnished a revolver, but

did not fire, and the other used a razor

with which he slashed the clothing of his

pursuers, but did not wound any.

He was finally knocked down by a lad

named Duggan, and was held until the

police at last arrived on the scene. The

other man succeeded in making his es-

cape in the darkness.

A third man, who did not enter the

store, was afterwards arrested near the

A Little Consolation.

New York, Nov. 3.—The Republicans

A COMPLETE REVERSE.

The State of New York Has Apparently

Gone Back Boldly to the Democrats.

Albany, N.Y., Nov. 3.—The complete

returns from the State, which are com-

ing in slowly during the early hours of

the morning, demonstrate that the Re-

publican landslides of the past two years

have been reversed, if not by giving as

large a majority for the Democrats, at

least by changing something like 240,000

votes. Governor Black's plurality in the

State of this year was over 240,000.

John Palmer, the Republican Secretary

of State, was the year previous by over

100,000. The indications are that these

enormous pluralities have been swept

away, and a reverse plurality of between

30,000 and 50,000 is given.

It is evident from the morning returns

that the Republicans will still control the

Assembly, although by a very largely

decreased majority. More surprising,

perhaps, than the returns on the State

and Assembly district tickets, were the

results of the municipal campaigns in the

large cities. New York, Buffalo,

Rochester, Binghamton, Syracuse, Utica,

Albany, Troy and Schenectady elected

Democratic mayors.

A Little Mixed in Maryland.

Baltimore, Md., Nov. 3.—With semi-

official returns from the counties in the

State except St. Mary's and Calvert,

and fairly good estimates from those

counties, the Democrats appear to have

selected enough members to the next

Legislature to give them a majority of

five on the ballot and ensure them a

United States Senator to succeed Sen-

ator Gorman. The State Senate will

be Republican by a probable majority of

six, while the Democrats appear to have

captured the Lower House by a

majority of nine.

PUBLIC AMUSEMENTS.

Both lawyers and laymen have heard of the famous "Leisure Case."

It is recorded in the criminal history of France as the most fascinating case that ever occupied the attention of any court.

Over that a brilliant play has been constructed which is an important feature in Mr. O'Neill's repertoire.

The story hinges on the fatal resemblance between an honest man and a bandit.

It is a sensational play, and interpreted by a capable company. In its earlier form it was known as "The Lyons Mail."

Although Mr. O'Neill has retained most of the salient features that made the old play a success, his changes and alterations have practically made "The Courier of Lyons" a new production.

The robbing of the stage coach, the continuation of the stage of Mr. O'Neill in two different guises, the pleading of youth and innocence, the dramatic and other strong features, are of frequent occurrence in the history of the play.

Mr. O'Neill will present on Saturday evening for the first time in this city, "Monte Cristo."

"The Man From Mexico." An early announcement for this city's theatrical engagements in New York, Mr. Collier is surrounded by a large company of clever comedians who will present for the first time here his very latest and what is claimed to be the best play that attained such instantaneous success at Hoyt's.

It ran to overflowing audiences continually for fifty nights, and it did not stop so late in the theatrical season, the middle of June, when it closed with the company at the Lyceum in New York.

Mr. Collier is now negotiating with the managers of the Lyceum to return engagement. Willie Collier has been identified with quite a number of long runs, or extended engagements in New York, and judging from the undoubted hit he made in his last New York engagement, he will return there and remain for an indefinite period. At the Grand next Monday.

Miss Alexander's New Sketches. Miss Jessie Alexander returned yesterday from Montreal, where she gave a very successful evening. Her new monolog, "Looking Backward," was particularly well received. In addition to her own three original sketches at her recital on Friday evening, she will give "White Ship," and some "English Country Experiences," by Kate Douglas Wiggin, and "The Story of the Three Cello Solos" by Mr. Paul Hahn. A large attendance is assured by the demand for seats at Nordheimer's.

Large Crowds at the Princess. The Cummings Shoe Company are drawing larger crowds to the Princess Theatre, where they are presenting "Arabian Nights." In addition to their own three original sketches at her recital on Friday evening, she will give "White Ship," and some "English Country Experiences," by Kate Douglas Wiggin, and "The Story of the Three Cello Solos" by Mr. Paul Hahn. A large attendance is assured by the demand for seats at Nordheimer's.

Anthony Hope. Anthony Hope, the popular English novelist, last week gave readings in New York, Brooklyn, Hartford and Cambridge to large and appreciative audiences. His new play, "The Man From Mexico," has been demonstrated a great success. He will give an evening reading from his own works in Massey Hall on Monday, the 22nd inst.

Nansen in Glasgow. Speaking of a visit to Glasgow from the distinguished Arctic explorer and his wife, Frau Nansen, The (Glasgow) says: Dr. Nansen was the object of much "howling" in Scotland last week. For a few days he and Mrs. Nansen enjoyed the hospitality of the western capital, an arrival here from Edinburgh, on Monday, the distinguished visitor was welcomed at the station by a group of well-known Glasgow gentlemen, including Sir Henry Watson, chairman of the local branch of the Royal Geographical Society, and Dr. Turner, the association's secretary. A large crowd of people had assembled near the station, who listened to the lecture given by Nansen and his wife at the residence of their host and hostess, Lord and Lady Kelvin.

The subscribers' list for Dr. Nansen's lecture at Massey Hall closes at the Main book store and Nordheimer's next Thursday.

"The White Slave." From the pen of Bartley Campbell, who contributed "Mr. Partner" and "An Evening with 'Z'," to the stage, will be the new Toronto Opera House next week, with many local issues in different States, now more apparent than ever that the people of the United States must legislate for themselves on the financial question. Free and unlimited coinage at 16 to 1 is nearer now than it was a year ago. High tariff upon a gold basis has disappointed those Republicans who looked to it for relief. Taken as a whole, the situation is very encouraging. I think I voice the sentiments of Democrats, Populists and Silver Republicans when I say that the situation is continued with even more earnestness, until the gold monopoly is broken and the monetary trust is destroyed. The fusion forces increase their percentage in Nebraska, and probably their actual majority. William J. Bryan.

THE WEST INDIAN SUGAR INDUSTRY

The World, on 3rd instant, referred to the ruin which is impending over the West Indies through the remarkable decline which has taken place in the price of sugar during the last few years. We quoted at considerable length from the London Times of Oct. 4, which describes the lamentable position of these colonies and the disastrous condition into which they are drifting, unless some remedial measures are taken to avert this calamity.

On referring to the report of the commissioners, published in full in Sugar, London, Oct. 25, we find that they agree that the sugar industry in the West Indies is in danger of great reduction, which in some colonies may be equivalent, or almost equivalent, to extinction; the depression of the industry is due to the competition of other sugar-producing countries, and in a special degree to the competition of beet sugar produced under a system of bounties; it is not due to any considerable degree to over-cultivation in management, or to inefficient process of manufacture, or to inadequate supervision consequent on absentee ownership, and the removal of these causes, wherever they exist, would not enable it to be profitably carried on under present conditions of competition; the depression in the industry is causing sugar estates to be abandoned, and will cause more estates to be abandoned, and will cause distress among the laboring population, including a large number of East Indian emigrants, and will render it impossible for some, and perhaps the greater number, of the sugar-producing colonies to provide without external aid, for their own government and administration; if the production of sugar is discontinued, or very largely reduced, there is no industry or industries that could completely replace it in such islands as Barbados, Antigua and St. Kitts, and he profitably carried on and supply employment for the laboring population; in Jamaica, in Trinidad, in British Guiana, in St. Lucia, in St. Vincent, and to some extent in Montserrat and Nevis, the sugar industry may in time be replaced by other industries, but only after the lapse of a considerable period, and at the cost of much displacement of labor and consequent suffering.

RAILWAY ACCIDENTS

Railroad accidents will happen as long as railways are operated, but what the public would like to know is why there are so many from "unexplainable accidents." There is a cause for every accident, but it is not always the cause is never discovered, or if it is, the public are not informed of it. We have not a reliable list at hand of the number of railway accidents and number of people killed in Canada this year up to date, but in the United States one of the most astonishing things uncovered by an examination of the list of the United States this year is the number of accidents for which no cause can be assigned, or at least, has been assigned. In 1896 there were 100 accidents from "unexplainable" causes, while this year, with three more months to hear from, including October, there have been more than twice that number. This is the more amazing when it is known that in 1896 the number of wrecks from causes which could not be explained had steadily decreased. There is something wrong here. Every accident should be made the subject of a most searching inquiry, so searching that, in a large measure, the cause would be located. The Railroad Brotherhoods have taken considerable interest in this matter, and with good cause, as statistics show that the death list in nearly all fatal accidents has been in the hands of the railroad men. In the 69 fatal passenger train accidents that have occurred in the United States this year, 54 passengers, 29 engineers, 22 firemen, 33 trainmen, 12 postal clerks and 17 tramps have been killed. Thirty-one of the 46 had one fatal wreck each. Thirty-eight had two or more. The Southern Pacific has had during the last month, by its reckoning, four. To date there have been 367 persons killed in freight and passenger cars surely the traveling public should be protected by such a searching inquiry in every case as will fix the cause, or fasten the blame on someone.

NOTES ON NEWS

On this day, 28 years ago, died perhaps the greatest practical philanthropist of the century, a man whose name is known by the good and the bad alike. He was a man whose goodness lives after him—George Peabody. Born in Massachusetts in 1795, as an English Puritan father, of course, serving an apprenticeship in 1827 he settled in England as merchant, shipper and money broker. Having been appointed Commissioner for Maryland, he declined the office and received the thanks of the Legislature. Among the numerous acts of munificence by which he distinguished himself were the gift of a large tract of land for the foundation of the Peabody Institute in Baltimore, and the assistance to the Arctic expedition under Dr. Kane in search of Sir John Franklin, the establishment of the Library and Scientific Institute at Baltimore, and the endowment of the Museum and professorship of archae-

must not be touched. The colonies may go to ruin, but the price of sugar must not be increased. The chairman of the commission, Sir Henry Norman, dissects from his colleagues on the question of the imposition of countervailing duties on bounty-aided sugar brought into the United Kingdom, and urges that duties should be levied on such sugar as an amount equal to the bounty that has been paid on it by any foreign Government, even although the people of the United Kingdom should have to pay a halfpenny per pound more for their sugar. He says: There seems to be no measure except this which is likely to save a considerable group of British colonies from serious disaster, or prevent obligations falling on the Mother Country which will be almost onerous and very difficult to meet in a satisfactory manner. In other words, better to submit to the halfpenny per pound increase than incur the risk of what may be infinitely worse.

It must not be lost sight of that the increase in the price of sugar will be partly compensated by the increase in revenue to be derived from duty on sugar. Take the sugar trade with Germany. The present export bounty on raw sugar is 59.5 cents per 100 kilos; on refined sugar \$4.49 cents per 100 kilos; equal to about £15.00 and £11.50 per ton respectively. If a countervailing duty equal to the bounty were imposed and should have the effect of raising the price to some extent, the revenue would gain to some amount as the cost to the consumer. On refined sugar the duty would only be three-fourths of a farthing per pound. The consumption of sugar in the United Kingdom is about 1,500,000 tons. Under Sir Henry Norman's policy probably one-half of this supply would come from the best-sugar countries of Europe, on which the revenue would gain as much as the consumer would gain. The other half would come from India. The other half would come from India. The other half would come from India. The other half would come from India.

The death is announced at Fredericton, N. B., of a gentleman who was probably the oldest public servant in Canada. Mr. Andrew Tupper, entered the Civil Service in 1837, and was 81 years of age, and up to the day of his death, Oct. 25, he had been in the service for 60 years. He was a member of the House of Commons, and held several high offices. He was a man of great energy and ability, and his death is a great loss to the service.

Mr. W. A. Falls, M.L.A., and H. A. Ward followed with short speeches, after which Dr. Willoughby was called upon. The doctor spoke for an hour, making up the general doings of the Government, especially criticizing the department of finance, education and agriculture.

Mr. T. D. Craig, M.P., was first called upon, and he made one of his pithy addresses dealing with provincial matters as he knew them when he represented the riding at Toronto. He made special reference to the financial deficit.

Editor World: There may be some verbal difference between the questions which I gave from memory as being placed before the candidates for the degree of B.D. at the late examinations in Wycliffe and those published over the name of the same. It is, however, a distinction without a difference. The questions are all as they would call them, "reading questions," and no matter by what authority assigned, they are all the same. Another important point which comes to light, and of which one-third of the candidates were ignorant, is that the machinery was as perfect as could be desired, and it is to be regretted that the machinery was not as perfect as could be desired, and it is to be regretted that the machinery was not as perfect as could be desired.

Editor World: In regard to the very erroneous suggestion made by "H." in a letter published in your issue of the 27th, the use of duplicate deposit slips, would be kindly enlarge more fully as to his starting point, and the reasons for his suggestion, in favor of the public by doing so. THE LAW IS VAGUE.

Judge McDougall on the Question of the Exemption of a Monthly Tenant's Goods from Seizure.

Judge McDougall yesterday handed out a judgment which fills many legal hearts with joy and also places the Ontario Legislature in the somewhat ridiculous position of lawmakers who cannot frame a law that it can be understood or interpreted. Judge McDougall declared that he could not gather the intention, supply a meaning or guess at the interpretation of a law which he declared that it had no meaning at all.

The judgment points out that the words of the amendment are confusing. Do they mean that the tenant's goods are exempt from seizure only when he is exactly two months in arrears, or that when his arrears exceed two months no goods are to be exempt, or that goods to the value of two months' rent are to be exempt? The learned judge says: "It is impossible to put a fair and reasonable interpretation upon the language of the Legislature, which is very effectual to me."

With regard to the salaries paid civil and Government employes in Toronto, there appears a most unjust discrimination against women teachers. There are at present on the teaching staff of the Public Schools of Toronto 445 teachers and 54 principals; of these only 60 are men. The 421 women teachers are most wretchedly paid compared with other employees of the Government or the City.

In her fifth year of service a woman teacher receives \$206—just \$4 less than the salary of many of the young women assistants and attendants at the Public Libraries (\$210), and \$20 less than the street sweepers (\$226). The income of a 227-year-old man at the Central Prison (\$250) receives less than \$40 more than the average salary of women teachers in Toronto is only \$165—just \$50 less than the average salary of women teachers in London (\$215), who everyone acknowledges are none too well paid; while the average salary of stenographers at the City Hall is \$528.

After 14 years of meritorious service the woman teacher receives \$630—just \$10 more than the attendant in the Mayor's office (\$620), just \$12 more than the messenger at the City Hall (\$618), and just \$14 less than the baker at the Central Prison (\$632). To sum up, there are 150 teachers who receive less than \$400, 350 teachers who receive less than the poor paid clerk in the Customs Department (\$600); 320 teachers who receive less than a laborer at the cattle pens (\$600); 320 teachers who receive less than a scavenger (\$477); and not one of the 421 teachers receives as much as the scavenger's foreman of the Street Cleaning Department (\$524). Not one of the women teachers receives the average salary paid subordinate clerks in the Toronto Postoffice (\$758).

BABY MURDER THE SUBJECT.

What Can Be Done to Prevent it in Toronto?

AWFUL STATE OF AFFAIRS

Explained by Mrs. Boutbee to the Civic Board of Health.

Are Innocent Babies Murdered at Birth for Vainly Money—Philanthropic Women Ask the City Authorities to Take the Matter in Hand and Regulate Baby Farms and Boarding Places for Women.

The proceedings of the meeting of the Board of Health were greatly animated by the presence of a deputation of representative ladies, who had come to make suggestions as to the regulation of baby farms when Dr. Sheard's report came up. Mrs. Boutbee led the speaking, and notified the board that the deputation did not represent individuals, but child-saving organizations. She explained that the unfortunate babies murdered, or else left on the streets, the great majority came from maternity boarding houses. Baby farming, or, in other words, the murder of children, was rampant. It was only this week that the speaker had had in her own arms three poisoned babies picked off the streets. One was dead and the other two were dying.

Mrs. Willoughby Cummings spoke for the Local Council of Women, Mrs. Lillie Fox for the Children's Aid Society, and Mrs. Adams for the Haven. Mrs. Boutbee resumed that the women of Toronto were unanimous in thinking that something had to be done to protect women and children.

Dr. Sheard, after reading his report, explained that the accommodation houses he referred to in his report were not registered, but those advertised in the newspapers. He explained that babies were not kept in such places more than 24 hours after birth, so that none but new-born babies were ever found there. They were given to persons who charged \$20 or so for their care, and who found it convenient to have them die of cholera infantum when the babies were a few days old.

With His Little Hatchet. James Duffy, 114 Jones-avenue, is in trouble, because he "did it with his little hatchet." William Oxley had a little cherry tree in the yard of his house, 121 Brookly-avenue, and Duffy is his brother-in-law. Mrs. Oxley asked Duffy to cut down the tree, and while he was doing so Oxley appeared. Oxley then took a hatchet and struck Duffy on the head. He said that he was angry because Oxley had taken the tree, and he had a hatchet with him. He said that he was angry because Oxley had taken the tree, and he had a hatchet with him.

Christmas in the Old Country. White Star Line, Royal and United States mail steamers sail every Wednesday from New York. Germanic sails Wednesday, Dec. 8, will be due to arrive in Queenstown Wednesday, Dec. 15, and at Liverpool the following day. Teutonic sails Wednesday, Dec. 21, and at Liverpool on the 22nd. Intending passengers should secure their accommodation as early as possible.

Sale of Household Furniture. Messrs. W. A. Murray & Co. have instructed Messrs. C. J. Townsend & Co. to sell by auction, at the Walker Building, the balance of their stock of household furniture, carpets, curtains, etc., this morning at 10.30. The entire stock must be closed out. This is a rare opportunity for parties furnishing.

Business Embarrassments. James Stewart, general store, Turnberry Township, has assigned to Robert Young. The creditors of V. Ballou, hotel, Freeport, will meet to-day. A. S. Stewart, Hamilton, is offering to compromise.

Adoption Again. Mrs. Boutbee again coming to the press, claimed that adoption in nine cases out of ten means the child for \$10 or so. So long as the money lasted the child was all right, but when it was gone it was left to starve. If it refused to die it was put in the street or in the hands of a miserly man who can't stop children being born, said she. Something had to be done with mother and child, and she believed that regulated and inspected baby farms, with punishing for children who were sold under the bill. Oldright was stung by Mrs. Boutbee's remarks that children could not be hindered from being born.

Flourace's Record is Wanted. Florence Grant, who is charged with stealing two pairs of boots from Charles Newton, 292 College-street, and also with assaulting him, was committed on both charges and was remanded for a week so that her record may be looked into.

DEPLORABLE DOUBLE DROWNING.

Edward and George Parker of Parkersville Lost Their Lives by Chasing a Wounded Deer.

Bracebridge, Nov. 3.—A double drowning accident occurred at the foot of Balsam Chute, on the north branch of Muskoka River, on Monday afternoon, when Edward and George Parker, sons of William Parker of Parkersville, were drowned. The story of the accident is as follows:

A party, including the father and two sons, were deer hunting. George Parker shot and badly wounded a deer near the river. The animal made for the water and was followed by the young man, who jumped into the river after the deer. Parker wore a belt filled with cartridges and probably the accident was too much for him, as he immediately sank. His father, who was on the shore near by and saw his son sink, gave the alarm, and Edward, the elder brother, came to his assistance, jumping in after him, but he too disappeared almost immediately. An attempt was made to recover the bodies, but owing to a swift current and a bad eddy at the foot of the chute, they were unsuccessful until an hour afterwards, when the body of Edward was recovered. The body of George was not yet found. Edward was married and leaves a young widow and one child.

Mrs. Bentley Has a Second Husband. Brantford, Nov. 3.—Mrs. Maria Bentley, widow of the late Caleb Bentley, who was tried and acquitted, was married recently to Matthew Bentley, a well-to-do farmer of Harley, a widower, with one daughter, Mr. and Mrs. Rhodes were in the city yesterday, shot and killed by a woodworker of this city, yesterday afternoon. He then shot himself, dying instantly.

DEPLORABLE DOUBLE DROWNING.

Edward and George Parker of Parkersville Lost Their Lives by Chasing a Wounded Deer.

Bracebridge, Nov. 3.—A double drowning accident occurred at the foot of Balsam Chute, on the north branch of Muskoka River, on Monday afternoon, when Edward and George Parker, sons of William Parker of Parkersville, were drowned. The story of the accident is as follows:

A party, including the father and two sons, were deer hunting. George Parker shot and badly wounded a deer near the river. The animal made for the water and was followed by the young man, who jumped into the river after the deer. Parker wore a belt filled with cartridges and probably the accident was too much for him, as he immediately sank. His father, who was on the shore near by and saw his son sink, gave the alarm, and Edward, the elder brother, came to his assistance, jumping in after him, but he too disappeared almost immediately. An attempt was made to recover the bodies, but owing to a swift current and a bad eddy at the foot of the chute, they were unsuccessful until an hour afterwards, when the body of Edward was recovered. The body of George was not yet found. Edward was married and leaves a young widow and one child.

Mrs. Bentley Has a Second Husband. Brantford, Nov. 3.—Mrs. Maria Bentley, widow of the late Caleb Bentley, who was tried and acquitted, was married recently to Matthew Bentley, a well-to-do farmer of Harley, a widower, with one daughter, Mr. and Mrs. Rhodes were in the city yesterday, shot and killed by a woodworker of this city, yesterday afternoon. He then shot himself, dying instantly.

Two Deaths Over a Game of Poker. Rochester, N. Y., Nov. 3.—As the result of a quarrel over a game of poker, George Durban, an employe of the Erie Railroad, shot and killed his partner, William P. Pond, of the Erie Railroad, at a game of poker, yesterday afternoon. He then shot himself, dying instantly.

The World's Special Correspondent in Vancouver Gives a Brief Review of Work Being Done

Vancouver, B.C., Oct. 29.—The papers on the Pacific coast are still full of Klondike news. The public fairly gloat over the news of big strikes on the different creeks and the story of every Ton, Dick and Harry that comes back from Dawson City to civilization is published as gospel truth. One story is to the effect that a small party of men has been discovered in a saloon for speculation at Dawson City.

MR. SCHELL SHOT HIMSELF.

A Well-Known Importer at Baltimore Afflicted With Suicidal Melancholia.

Baltimore, Md., Nov. 3.—Thomas B. Schell, President of the Schell Packing Company, Atlantic Wharf, East Pratt street, committed suicide by shooting himself in the left temple in his office this afternoon. He has been afflicted by melancholia for some time. Mr. Schell was one of the leading pineapple importers of the United States and probably did more to build up that trade with Baltimore than any other man in the business. He established canneries at Nassau, in the Bahama Islands, and maintained a large fleet of vessels between the Bahamas and Baltimore during the season. He was universally esteemed as a business man and promoter of the interests of the port.

At a meeting in the Grand Council, in order to collect his dues, Harding sued Jackson L. Little, Grand Secretary of the Ontario branch, for \$100, and was awarded judgment for \$400. Little is appealing the decision.

Convicts Released.

J. J. Cosgrave has been reinstated on the Inland Revenue staff. Several years ago Cosgrave, who was then a conservative member of the House of Commons, was dismissed from office for signing a petition calling for a meeting to discuss the Home Rule Bill. He was reinstated as preventive officer, but in 1895, when Cosgrave was a member of the House of Commons, he was dismissed from office for signing a petition calling for a meeting to discuss the Home Rule Bill.
