FORTY-THIRD ANNUAL REPORT

OF THE

MONTREAL GENERAL HOSPITAL.

The Annual Meeting of the Corporation of the Society of the Montreal General Hospital, was held in the Governor's Hall of the Institution, on the 16th May, 1865, when the Board of Governors presented the following Report, which was read and adopted; the President, John Redpath, Esq., occupying the chair.

The Board of Governors present their Annual Report to the Corporation of the Montreal General Hospital, with a concise statement of the receipts and expenditure of the Society for the year ending 24th April, 1865.

The moneys received during the year, amounting to \$15051.92, may be thus enumerated :—

Grant from Provincial Legislature.....	\$4,000.00
Interest, &c., on Permanent Fund.....	2,885.20
Collections and Donations from Citizens.....	2,918.05
Donation from Grand Trunk R. R.....	2,000.00
Pay Patients.....	1,747.35
Students' Fees.....	632.00
Rent.....	610.00
Sale of Stores.....	104.70
Private Board.....	57.50
Contents Poor Box.....	42.02
Assessments repaid.....	36.60
Funeral Expenses repaid.....	12.50
Left by deceased patients.....	6.00
	\$15,051.92

The tonnage dues for the last two years are not included in this statement, but have been received since the close of the fiscal year:—

Tonnage dues for 1863.....	\$1,501.44
Tonnage dues for 1864.....	951.53
	\$2,452.97

The expenditure of the year has been \$18642.06.* The items composing it are given in detail in the *book for that purpose on the table*: they may be condensed under the following heads:—

New furniture and fittings.....	\$ 580.29
Interest—Mr. Shakel's annuity.....	560.00
Taxes, \$256.20; Repairs, \$1,198.12; Insurance, \$160.45...	1,614.77
Salaries other than to Medical men.....	2,349.61
Salary of house Surgeon and Apothecary.....	475.00
Medicines and medical comforts (liquors, &c.).....	2,365.46
Food	7,173.89
Clothing (blankets, quilts, sheeting, ticking, &c.).....	931.79
Other expenditure (fuel, gas, water, &c., &c.).....	2,591.25
	\$18,642.06
Expenditure.....	\$18,642.06
Receipts.....	\$15,051.92
Deficit.....	\$3,590.14

From this statement you will perceive that the expenditure during the year has exceeded the income by the large sum of \$3590.14. If from this be deducted the tonnage duty for the year, viz., \$951.53, the actual excess of expenditure over income for the year will be \$2638.61.

On comparing the total outlay of the year with that of the year which immediately preceded it, it is found that the former exceeds the latter by the sum of \$3602.01.

This largely increased expenditure may be attributed to several circumstances, viz.:—To the large outlay involved in the treatment of the unfortunate sufferers by the Beloeil accident; to the great cost of provisions, fuel, articles of clothing, and servants' wages; and to the very considerable sum, about \$1200, expended in alterations and repairs essential to the usefulness of the Hospital.

It is important to remark, however, that the main causes of the increased expenditure this year will continue in operation in future, for it is not probable that the value of provisions, fuel, clothing and labour will materially decline, and it is certain that the number of sick poor claiming admission to the wards will continue to increase year by year, as has been the case for several successive years. The Governors earnestly hope that this unavoidably augmented and augmenting expenditure will be borne in mind by all interested in the welfare of the Institution.

The total number of patients who have participated in the benefits of the Institution during the year is 8,694, of whom 1,400 were in-door, and 7,924 were out-door patients.

Of the in-door patients there have been cured or relieved.....	1202
Died.....	94

Of the in-door patients, omitting 18 persons who, having died within three days after admission, are not included in the ordinary register, there were—

Several important alterations in the internal arrangements of the Hospital have been made. The surgery, consulting and waiting rooms, previously situated on the ground floor of the Reid wing, have been transferred to the body of the building on either side of the main hall; that floor has been converted into a dormitory for the female servants, whereby a large ward previously used for that purpose has been obtained for the admission of patients, equivalent to a gain of eight beds. The door in the Reid wing, which opened upon St. Dominique street,—and which for many years was the only one used for the admission of visitors, patients, &c.,—has been closed, and the original way of entrance by Dorchester street through the body of the building has been thoroughly renewed and restored, a change which has been attended not only with much convenience, but also with marked improvement on both the external and internal appearance of the building. The floors, doors and wainscoating of the entire body of the Hospital have been newly painted, and the apartments occupied by the resident medical officers have been changed from the body to the Reid wing, and been furnished anew.

In accordance with a resolution passed at the last annual meeting of the Governors, the subject of the erection of a building for patients suffering from small pox and other infectious diseases, received the careful consideration of the Governors—plans and estimates were procured—but in view of the commercial depression which has prevailed for the last two years, they concluded the

time an inopportune one in which to make an appeal to the citizens for subscriptions towards that very desirable object. It is hoped that at some not distant day, the public mind having become interested in the matter, and our wonted commercial prosperity having returned, a successful call may be made upon the generosity and public spirit of the citizens of Montreal for the erection of an institution so essential as a sanitary measure.

In the past year the Institution has suffered the loss of one of its oldest friends, in the person of the late Hon. George Moffatt, who had been one of its founders and original "Life Governors," and who at all times took a warm interest in its prosperity.

With their usual consideration and public spirit the Directors of the Montreal City and District Saving's Bank have presented the hospital with the handsome donation of \$600; and Charles Alexander, Esq., by the contribution of £25 to the charity, has become qualified for nomination to a life membership. It is matter for regret that these are the only donations to the "Permanent Fund" during the year.

The Directors of the Grand Trunk Company—by the hands of their managing director, C. J. Brydges, Esq.—have contributed to the income of the year the sum of \$2000, in consequence of the large extra expenditure incurred in the treatment of the sufferers by the accident at Belœil; and with much liberality have also promised an annual contribution of \$400.

Inasmuch as the Hospital is largely dependent upon the contributions of the citizens of Montreal for the maintenance of its usefulness, it has always been deemed a matter of great moment to secure influential persons to interest themselves in the troublesome duty of making the annual canvass for subscribers, and the Governors acknowledge with many thanks the labours of the following gentlemen in this arduous work:—

James P. Clark, W. B. Cumming, H. Thomas, Thomas Wilson, Charles Geddes, Stanley Bagg, J.P., George Mathews, R. W. Shepherd, E. E. Shelton, John Elliot, and Alexander McGibbon, Esquires.
