ATTORNEY-GENERAL SAYS INVESTIGATION SHOULD BE MADE THOROUGH

Royal Commissioner Will Hold Sessions in Fredericton, Gloucester and Kent

W. H. Berry to Be Subpoened as a Witness--An Interesting Session Today--Statement of Matters Which Mr. Veniot Has Laid Before Commissioner

(Special to Times) Fredericton, N. B., March 18.—When W. B. Chandler, Royal Commissioner investigating the government departments, opened his court this morning there were present Attorney-General Baxter and Hon. John Morrissey and Messrs. E. S. Carter and P. J. Veniot who laid certain information before him.

Mr. Veniot said that he had no idea that any witnesses would refuse to attend with the exception of Willard H. Berry. "That is just what occurred to me," replied the attorney-general.

Commissioner Chandler, speaking with regard to the information concerning the work of the Farm Settlement Board in Gloucester and Kent counties, said that he doubted if the matter came within the scope of his commission.

Attorney-General Baxter: "If there is anything wrong we want it made right. If there is anything rotten we want it cleaned out."

Mr. Veniot said that he had suggested to Commissioner Chandler that, on account of the large number of witnesses who would be called in connection with the matters affecting Gloucester county, the hearing could be better held at Bathurst or Carleton Place.

In accordance with the suggestion sessions will be held at Bathurst in connection with the charges connected with public works in Gloucester county and probably at Beauséjour on charges connected with public works in Kent county.

Attorney-General Baxter repeatedly made the statement that the government was desirous of unearthing any wrong doing and made particular reference to certain people who, he said, had been going through the county making charges of wrong doing against certain departments.

The commissioner waived the formal reading of the charges preferred by Mr. Veniot in connection with public works in Gloucester and Kent counties and read a list of witnesses preferred by Mr. Carter in connection with the information in relation to the Dalhousie Lumber Company.

Mr. Veniot said that the men who were said to have made the attempt in regard to the roads were also acting as foremen on bridges.

Attorney-General Baxter asked if there would be any further information against any departments. He did not want an investigation in connection with one completed only to find that another was required in some other department.

Mr. Carter replied that the business of investigation was no more pleasant to him than to any one else. He had no intention of bringing forward information that he did not believe to be authentic and hoped there would be no necessity of asking further time than next Thursday.

There are certain gentlemen, said he, "who from time to time have indulged in a good deal of talk. I think that if they don't come out and make their charges that the commissioner should summon them and find out if they are speaking facts or merely hearsay."

Mr. Veniot said that the men who were said to have made the attempt in regard to the roads were also acting as foremen on bridges.

Attorney-General Baxter asked if there would be any further information against any departments. He did not want an investigation in connection with one completed only to find that another was required in some other department.

MR. VENIOT'S INFORMATION The information furnished by Mr. Veniot is as follows:—

RUISSEAU CARRIBOU BRIDGE, PARISH OF SHIPPEGAN, GLOUCESTER CO. In the item 842 for 3,000 feet spruce lumber, credited to P. F. Boudreau, I am informed and have reason to believe that this lumber was never delivered by him to this bridge that when the bridge

Two More Stages, Then Constantinople

Allies' Warships' Operations in Dardanelles Now in Fourth Phase—Twelve Miles Clear and Real Fighting About to Begin

London, March 18.—A Daily Telegraph despatch from Tenedos says: "Bad weather has seriously interfered with the operations in the Dardanelles. What has been obtained so far, is preliminary to a great attack on the forts there by direct fire. I anticipate this attack may be costly, but if the forts in the narrows are once reduced the works beyond them are not formidable and the way will be open to Constantinople."

"The allied mine sweepers are engaged in clearing the waters of the Dardanelles up to the narrows, as a preliminary to a great attack on the forts there by direct fire. I anticipate this attack may be costly, but if the forts in the narrows are once reduced the works beyond them are not formidable and the way will be open to Constantinople."

"A novel effect in war paint is presented by the allied fleet. Some of the vessels are daubed with irregular white patches on their grey paint, and the big masts and funnels are irregular masses of stripes. All this tends to make them less visible at a distance."

The Dardanelles operations are now in the fourth phase, according to the calculations of the allied admirals. The first phase was the demolition of the batteries at the entrance to the Straits. The second was the clearance of the mines in the first reach, as far as Cape Kephez. The third was the bombardment of Chanak Kalesi by the battleship Queen Elizabeth through a high angle fire over the Gallipoli peninsula, while another British ship inside the Straits observed the effects of the shots and notified the Queen Elizabeth by wireless under the protection of a French ship which circled about, firing on the batteries.

"The fourth phase, now begun, is the sweeping of the mines of Chanak Kalesi, which stands at the most formidable and narrowest point of the Dardanelles. The fifth phase will be the bombardment of Chanak. After that the remaining forts are not formidable and the way will soon be clear to Constantinople."

GREAT GUNNERY "Some of the most target work done was by the French ship Suffren, which at seven miles placed five out of six shots with her 12-inch guns within a square of twenty-five yards."

EDWARD MANNING PLAN SEND-OFF M. A. DIED TODAY FOR THE RIFLES

Former Grammar School Teacher and School Board Secretary Passed Away in Digby

After a lengthy and distinguished career in educational circles, in which he established a high reputation and acquired many heart-warming friendships, the death of Edward Manning, M.A., occurred this morning in Digby, N.S., where he has been residing for the last few years. He had reached his 82nd year.

The greater part of his life was spent in St. John, where he is held in great respect for his long and successful career as a teacher and his death resulted from pneumonia following a stroke of paralysis sustained some time ago.

Mr. Manning was born in Ipswich, England, in 1838. After having received his early education in the public schools there he was appointed a pupil teacher in St. Matthew's school, Ipswich, at the early age of fifteen years. His ultimate aim was to become a school teacher and he took the necessary qualifying examinations for entry into the Highbury College, London. Such was his ability in passing these examinations that one year was dropped out of the necessary course. In 1858 Mr. Manning was sent out to this city to start a Church of England school. This, however, did not prove very much of a success and in 1858 he joined the staff of the Grammar School. For the next eighteen years Mr. Manning taught there with marked success.

In 1876 he went to P. E. Island, where a few months after his arrival he was appointed chief superintendent of education by the Davies government, at the adoption of the free school law. At the end of three years the government was defeated and Mr. Manning, in common with other appointees of the Davies regime, was retired from office. It was in 1879, two years after the great fire, that Mr. Manning returned to St. John. At the time there was no vacancy in the public schools and he taught in private institutions till he again joined the Grammar School staff with which he remained till, in 1890, he was made secretary of the board of school trustees.

Mr. Manning was a member of St. John Lodge, A. F. and A. M. and was one of the earliest members of St. George's Society. He is survived by his wife, who was formerly Miss Sarah Betts, daughter of the late Captain Hiram Betts, of the city, and by three sons and two daughters. The sons are Dr. James Manning of this city, Edward B. Manning of New York, and Charles M. of the Bank of Nova Scotia, Toronto. The daughters are Miss Sarah Manning and Mrs. George G. Hare of Digby. The arrangements for the funeral are not yet completed.

The news of the death of Mr. Manning will be heartily and deeply regretted by all who knew him, for to know him meant to like him because of his kindly disposition and his uprightness. He left the stamp of many a man who was now men making their way in the world or looking back on success achieved.

While regarding still continues slowly as regards the 55th Battalion, only four or five more joining the ranks today, lively interest is being displayed in the formation of the Canadian Railway Construction Corps. Some twenty-five volunteers were enrolled here yesterday morning and are being trained.

RUSSIANS MAKE PROGRESS; FRONT

Czar's Men Driving Germans Back Towards East Prussia

FIGHTING VERY FERCE Russian Strategy Has Triumphed Over Von Hindenburg and Latter's Half Million Reinforcements Have Been of Little Use

Petrograd, March 18.—Battering away at the Austro-German lines over a battle front 600 miles long, the Russians are making progress in both Poland and Galicia. The Germans are falling back at many points towards the East Prussian frontier.

In the Carpathians the Russians have forced back the Austrians capturing hundreds of prisoners and some guns. In Bukovina the Austrians are retreating.

Although they have been unable to pierce the German line, the Russians have forced back the Austrians capturing hundreds of prisoners and some guns. In Bukovina the Austrians are retreating.

It is reported that one point in Northern Poland, near the Masurian lakes, the Russians are on the threshold of another invasion of German soil.

The fierceness of the fighting on the Bohemian front, the sector of Gossowitz, is shown by reports that 15,000 Germans have fallen there. Russian strategists again triumph in the Polish campaign. Although 600,000 reinforcements were sent to Von Hindenburg, the Russian commander never in such fashion that the German leader could not deploy his men.

German Steamers Interred Callao, Peru, March 17.—The German steamer Terra Coradoba, of the North German Lloyd line, has been detained by the Peruvian authorities until the end of the war. It is charged that she was supplying the cruiser Dresden with coal.

HUNGARY HAS WAR SCANDAL Vienna, March 18.—Two wholesale cloth merchants in Budapest have been arrested, charged with defrauding the government to the extent of several million crowns by supplying worthless material for field uniforms.

WAR NOTES Discussing the allied blockade of the German coast, the Cologne Gazette says it will go to the aid of the allies in a submarine warfare with complete recklessness and resolution.

The London Chronicle does not anticipate any difficulty between the British and American government over the German blockade.

It is reported that Denmark, Norway and Sweden have joined in a protest against the allied policy of reprisals on German commerce.

Extensive troop movements are reported under way in Austria-Hungary. The case of Werner Horn, the Vanceboro bridge dynamiter, was up in Banquet today. His counsel claim that since he is a lieutenant in the German army his case should come before the state department instead of the courts.

It is reported that Germans at Italian pleasure resorts have been privately notified to leave Italian territory.

Robert Campbell, son of Alexander Campbell, of London, Ont., died from wounds received in action in France.

Opening street prices in Chicago today ranged from one cent off to five eighths up, and then sharply advanced round. Commission took the buying side.

HERE FOR FUNERAL Mrs. Peter Clark of Dorchester, Mass., arrived in the city last night called home by the sad news of the death of her brother, Matthew O'Neil. "FINDERS" NOT "KEEPERS" It was possible to reach out and pick up money in King street this morning. Several \$1 bills were scattered by the wind from the hand of a man who was changing a larger bill and they were strewn in the roadway until picked up by himself and others after a frantic chase.

Quarter Million Men In Mighty Conflict

Thousands of Big Guns Thundering Night and Day For Weeks in Champagne District—A Vivid Pen Picture From the Front

Paris, March 18.—British warships which bombarded Westende have been shelled by the Germans with their 16-inch guns. It was these guns which bombarded the trenches of the Belgians and Indians at Nieuport.

Wounded French soldiers declare that the meagre official bulletins fail to give any idea of the fierceness of the fighting in the Champagne district. Nearly a quarter of a million men have been engaged there in a mighty conflict on the Les Meunil, Perthes, Beaune-Jour line between Rheims and the Argonne forest.

Thousands of big guns have been thundering night and day for weeks. The fields are covered with rotting corpses. The ground is torn with shell fire and the explosions of mines. The horror of the long fight, the tension of battle, and the stench of decaying flesh and burning gun powder, together with the fumes of poison bombs, have driven hundreds of soldiers into stark madness.

Fighting is again in progress near Arras and Albert, where the Germans are trying to win back some of the ground they had previously lost.

Three German Princes Killed In Battle In Which British Defeated Enemy

London, March 18.—A tribute to German bravery in the great battle of Neuve Chapelle in Northern France when the British defeated the Germans, is paid in an official eye-witness' narrative. This account reports that three German Princes, including Prince Leopold of Hohenzollern, a member of the reigning family of Germany, were killed in the conflict.

The narrative tells of desperate fighting and terrific slaughter in the ranks of the Germans. It was a prisoner who gave the information about the three princes being killed. The German losses are estimated at 19,700. Of this number 1,700 were prisoners.

SOLDIER MUST PAY \$20 OR GO TO JAIL DOZEN STEAMERS AT NEW YORK WITH WAR SUPPLIES

Hauling Young Scotchman Along Street—Another Gets into Trouble With Policeman

New York, March 18.—Work is being rushed in the loading of more than a dozen steamers here with food supplies, ammunition, guns, motor trucks and other material for the allies. Several steamship companies have been compelled to charter additional vessels.

The steamer Malte was at the French Line pier today, taking on board a 15,000 ton cargo said to be chiefly war supplies while another French vessel, La Gasconne, was being prepared to take horses to the allied armies on the continent. She was formerly in the passenger service. The Philadelphia was to leave for Liverpool today with a large cargo and the St. Louis and Orduna were loading to sail on Saturday.

The Europa and other Italian steamships sailing this week had their decks crowded with horses and their holds well filled with army supplies.

BELGIAN MINISTER TO THE VATICAN Rome, March 18.—Baron Van Den Heuvel, newly appointed Belgian minister to the Vatican, presented his credentials yesterday to Pope Benedict. The baron emphasized the loyalty of the Catholics of Belgium and said he felt certain of the assistance of the Holy See in attaining "the ultimate triumph of the rights of Belgium."

The Pope responded with expressions of solicitude for the welfare of all his children and pledged his untiring efforts to diminish the suffering occasioned by the war and to hasten its end.

THE RIVER STEAMERS Captain Harvey Weston, of Gagetown, recently appointed master of the steamer Victoria arrived in the city yesterday from his home. He will be in charge of the steamer from now on.

Mr. Peter Clark of Dorchester, Mass., arrived in the city last night called home by the sad news of the death of her brother, Matthew O'Neil. Her husband had not been well so that she was unable to come home on the death of her other brother, Daniel J. O'Neil a few days ago. Arrivals at noon today were Mrs. T. Killackey, Mrs. W. A TRIP THROUGH THE REFINERY

Some Impressions of The Big Sugar Plant

VALUABLE ASSET FOR CITY

Plant Now Employs 400 Men and Furnishes Work For Many Others—Cleanliness and Purity The Motto of The Progress—How Sugar Made

The size of the plant, its absolute completeness, the organization of both men and machinery to produce the greatest results with the least waste of energy, the spotlessness of the premises, and the great care taken to ensure the purity of the product were some of the chief impressions left after a visit to the Atlantic Sugar Refinery this morning.

It would be hard for anyone who has not seen the refinery from the inside to realize what this big industry means for St. John. The construction of the plant to begin with left an immense amount of money in the city, and today they are giving steady employment in the plant to four hundred men. In addition to this they are furnishing extra employment to large numbers of other men handling their inward cargoes of raw material, and helping with the transportation of the finished product.

St. John will profit not only by the direct financial benefit of such an industry, but also from the publicity which the city will receive from their advertising campaign, which is now in full swing from Halifax to Alberta.

Standing at the portals of the harbor it is a business monument which cannot fail to impress every visitor to this city.

Since the plant has progressed towards completion, visitors have been excluded, not only because of the necessity of safeguarding valuable equipment and trade processes, but also to prevent accidents to persons not acquainted with the premises.

Lewis J. Seidensticker, the manager of the plant, speaking of this today explained the necessity of this, while expressing his regret that the nature of their business made it impossible for them to throw open their doors to their patrons and the public generally.

It was as the representative of the public that the wished newspaper representatives to see the plant that they might give their readers their impressions of the place.

It is the company's loss that they cannot throw open their doors, for no one can pass through the plant without being coming an enthusiast on the subject of "Lantic" sugar.

The main idea of the process seems simple, but the size of the plant is an indication not only of its capacity, but of the immense amount of machinery and apparatus required to convert the raw sugar into the table article, according to the high standard which the company has set for itself.

Starting at their own wharf, where the sixth cargo of sugar is now being discharged, the haulers delivered at the company at their scales inside the warehouse doors. Here the sugar is weighed, then stacked roof-high by means of traveling car lifts. As it is required it is dumped in the capacious main of the big machine which starts it on the way towards refining.

The melt house, the melting house, the building of four stories adjoins the warehouse, and in this building the sugar is turned into a heavy liquid. From this building it is pumped to the top of the ten-story structure, one-half of which is devoted to the char process of purification.

By the way, it was the large quantity of this char which was brought into the city last fall, which was mistaken by some persons for gun powder, and the char house, which is so full of a black dust as to mean the ruin of any clothes but overalls, is the part of the building which other persons have regarded with suspicion because they are not allowed to enter it.

After the char process, the syrup starts at the top of the other half of the ten-story building and works downward for the refining process. Tremendous copper boilers play an important part in this part of the work.

The grade of sugar, white or yellow, fine or medium granulated, depending on the mixture of the syrup and the boiling process. From this the sugar is passed to other machines, where the water is extracted by centrifugal process, and then winnowed for further drying. The fine sugar then passes through the granulating machine, and is ready for packing.

That is, if it is up to the standard, the sugar must be perfect, or it cannot leave the building. The slightest defect, even an occasional speck, means that the whole batch has to be turned back, to go through the whole process again.

From the time it starts to the time it is shipped, the sugar is not touched by human hands. Even the weighing and packing is done by automatic machinery. The greatest precautions are taken to keep it absolutely clean, and the finishing touch of it is found in the lining of the freight cars with paper to prevent any contamination during shipment.

Space does not suffice to describe the operation plant, the great boiler house,

SEVEN MORE CHINESE ON OPIUM CHARGE

The case against ex-Police-man Joseph Jeffrey was continued in the police court yesterday afternoon. Hop Lee resumed the stand and continued his evidence regarding Jeffrey's raid on Saturday night. Ye Hoy was then called and testified. During the testimony J. A. Barry asked Chief Simpson to produce some of the pipes secured by Jeffrey. At this point Hum Gung said that he was sick and asked to leave court. When he opened the door he was stopped by Detective Killen and from that on excitement reigned supreme. Mr. Mullin, who was acting for the plaintiff, asked for an explanation and the Magistrate said the Chinaman could go. He was brought back in a short while by the detective. The detective then entered a charge against Hop Lee for running an opium den and charges of being inmates against the other seven Chinese present in court. They were later arrested in the guard room. Six of the Celestials were allowed out on \$500 bail, but Hop Lee was kept in jail as he was unable to procure the necessary \$500. The case against Jeffrey will be continued on Friday.

THE WAR NEWS

The German press intimates that as a result of the British blockade of the German coast the German submarines will wage a more relentless war upon vessels bound to and from British ports.

The militia department will continue recruiting men and sending them forward until there are at least fifty thousand Canadians on the firing line.

Recruiting for the 55th Battalion is said to be somewhat slow, and it may be necessary to start a recruiting campaign.

A campaign for fish eating is suggested to relieve the Canadian market and help the fishing industry.

The news from Petrograd continues to be very encouraging, and conveys the impression that the Russians are making headway against both the Austrians and the Germans.

Thus far the press comment does not indicate any serious difference of opinion between the governments of Britain and France and that of the United States.

The town planning commission is to be congratulated on having lost no time in the demarcation of a town-planning area for Greater St. John.

It is gratifying to observe that Mr. Pelletier is endeavoring to give the St. John Globe some assistance in having a thorough probing of certain charges affecting lumber operators and crown land officers.

WARMING UP

There are some interesting developments at Fredericton. Mr. J. K. Pinder is after all to be chairman of the Public Accounts Committee.

The feeling appears to be growing in Ottawa that the Borden government will plunge the country into a heated political controversy early in the coming summer.

The feeling appears to be growing in Ottawa that the Borden government will plunge the country into a heated political controversy early in the coming summer.

The Cleveland Plain Dealer says that in the year 1912-13 no less than one hundred and twenty-six American cities reported that their boards of education furnished heat, light and janitor service for social centre usage of the schools.

Mr. Stewart's crimes are that he has asked for some very proper information, and that he has very properly protested against having words put in his mouth by the official reporter which he did not say.

The Plain Dealer very aptly says that there is too much saving of gas and electricity at the expense of social development.

Sir Robert Borden tries to make it appear that the action of the Liberals in regard to the navy policy encouraged Germany to believe that Canada would not support the Mother Country.

The citizens of St. John should not fail to give a word of cheer to the men of the 6th Mounted Rifles, who leave tomorrow for Amherst, and after a period of training there will go to the front.

An Ottawa dispatch announces that the militia department will continue recruiting men and sending them forward until there are at least fifty thousand Canadians on the firing line.

GERMANS WANTED TO KNOW IF CANADIANS HAD ARRIVED

Kingston, March 18.—In a letter from the front to Dean J. C. Connell of Queen's Medical College, Lieutenant Col. A. E. Ross, of the First Canadian Field Ambulance, says:

"We went a week ago to the very front for instructions with several troops. Eight officers of No. 1 and No. 2 Field Ambulance went up and took in all the work. Of course, the officers did not realize we had a good organization, and so started in to teach us work that we have been doing for the last six months. However, we gained by experience.

"The medical men are doing excellent work. You may talk about your big medical men in such a war, but the man who can give Tommy a hot bath does more for him than all else. The day after we got to the trenches, the Germans called out, 'Have the Canadians arrived yet?' We will give them some fun when they come. This was to the Middlesex Regiment. The Middlesex men did not know that we were coming."

WORTH HEARING

Mr. Sevigny, Borden's deputy speaker, has made some speeches which were considered worth reporting. On Oct. 31, 1910, in a speech at Tinwick he said: "The navy bill is an attempt by Ontario and the provinces of the west to coerce Quebec and enslave our people forever. What has England ever done for you? She has no need of your help."

ATTORNEY-GENERAL SAYS INVESTIGATION SHOULD BE MADE THOROUGH

(Continued from page 1)

I am informed and believe that the said M. J. Robichaud, M.P.P., was in possession of knowledge of the fact that said lumber had not been delivered when said oath was subscribed by the structural superintendent before him.

The said amount of \$42 was paid by check No. 41,821, dated January 9, 1914. Work of repairing this bridge was done in 1913.

The pay sheet for this bridge for December, 1913, contains the items \$22.39 and \$30 paid to one Antime Chlason. The said Antime Chlason informs me that he only worked on said bridge for amount of \$26; that he was paid the sum of \$29 in cash by the foreman of the bridge; that he never saw the check issued in his favor for \$22.39 and that the endorsement of his name on said check is a forgery. Check is No. 41,818, issued February 16, 1914.

The pay sheet of this bridge for August, 1913, contains the name of "Edward D. Chlason, horse and cart, one day, \$27"; for September, "Edward D. Chlason, horse and cart, twenty-six days, \$22"; October, "Edward D. Chlason, horse and cart, twenty days, \$47"; November, "Edward D. Chlason, horse and cart fifteen days, \$30"; December, "Edward Chlason, horse and cart, twenty-three days, \$46."

In all the sum of about \$170 was paid to the said Edward D. Chlason. I am informed and have reason to believe that this person is only a child and at time of repairs to this bridge was not more than ten years of age, and was attending school. He is a son of the foreman of the works.

In September, 1913, Nolasque Hachey is on pay list eight days as laborer at \$1.50 per day, and twenty-six days, self, horse and cart at \$2 per day.

The structural superintendent's estimate for repairs to this bridge was \$42,000. The actual amount expended was \$2,966.93.

NIPISIGUIT STEEL BRIDGE, BATHURST, GLOUCESTER CO.

On the pay sheet of this bridge appears the name of Frank Robinson for "225, stone for bridge." Date is August 29, 1914.

The said Frank Robinson personally informed me that he never delivered or sold any stone for this bridge. The account is sworn to before A. J. H. Stewart, M.P.P., as a justice of the peace by Valentine Robichaud, structural superintendent. I am informed and believe that both the justice of the peace and superintendent had knowledge of the fact that no such stone was delivered.

MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water, and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the joints and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the best twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effective lithia-water drink which overcomes uric well.

NON RUSTABLE D & A CORSETS

The War tax on corsets adds nothing to the retail price of a D & A or a La Diva Corset.

Because they are Made-in-Canada—But, about fifty cents, out of every dollar paid for imported corsets, now goes for customs duties and profits on them, which add nothing in corset value.

Stewart, M. P. P., who then transferred said lands to Farm Settlement Board, the sum of \$100 was paid for the said lands. The Royal Bank of Canada formerly held these lands as security for \$1200 due it by the Knowles Brothers. When the sale was concluded, notwithstanding that \$1500 was paid for said lands, the Knowles Brothers only received credit for \$1200.

And while the final title passed from A. J. H. Stewart to Farm Settlement Board, the check was made payable directly to the bank. I am informed that \$800 of proceeds of the \$1500 check was passed to A. J. H. Stewart, M. P. P., or some other person who had no right or claim to it.

AUBARRE RUISSEAU BRIDGE, PARISH OF SHIPPEGAN, GLOUCESTER CO.

I have been informed and believe that above accounts are not correct.

In the pay sheet of this bridge is an item of \$181. It is for 1085 yards of stone at 10 cents per yard and a small quantity of lumber, delivered or sold by Edward Jennings. I am informed by men employed on this bridge that the said Edward Jennings never delivered or sold such stone to this bridge. The check is No. 11,422, dated Feb. 22, 1910. Account is sworn to before A. J. H. Stewart, M.P.P., justice of the peace, by Valentine Robichaud, structural superintendent.

GIRLS! BEAUTIFUL, CHARMING HAIR, NO DANDRUFF—25 CENT DANDERINE

Try This! Doubles Beauty Of Your Hair and Stops It Falling Out

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yet—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter and just try it.

county, that a check was issued to his son in 1911, who was only ten years old, for work on the above named bridge; the fact that most of his teeth were imperfect. His explanation that his teeth had been shot away in action in India when he was in the Imperial army and that their absence did not interfere with his digestion resulted in the officers giving orders that he be taken along.

NEARLY AN ACCIDENT

Bystanders held their breath this morning in King street as an automobile and two lads on bicycles threatened to crash near the corner of German. Both boys were wheeling down the hill near the curbing. The motor was going almost apace with them with the intention of turning into German while the two lads were planning to continue down King. The three machines were nearly even as the car, after one short "toot," turned into the side street. Only the promptness of the boys in wheeling immediately with the car saved them from colliding. As it was one boy was thrown off his wheel.

BEST HE COULD DO WAS TO RAISE TWO LITTLE DIMES

A "Beery" Supporter Tries To "Touch" Local M. P. on The Train From Fredericton

A bunch of legislators, through with their week's work and happy in the thought of some going for the week end, boarded the train at Fredericton for St. John. The president of the council, Mr. Wilson, the attorney general, Mr. Baxter, and Messrs. Granman, Lockhart and Tilley were in the group. They were just nicely seated when a beery individual appeared in the car door, looked this way and that and started down the aisle, searching for a friend. He found him—the Hon. J. E.—(and to whom is he not a friend?) and made his demand. There wasn't any question that he had plenty of beer—but he didn't think so. Mr. Wilson was of a different mind and though he was a minded how long and how often the suppliant had voted for him, John was firm and was none too well pleased to be thus publicly importuned for change. A happy thought evidently struck him. He saw Baxter with a newspaper held close, furtively watching the proceedings and in some way he managed to make the garrulous elector wise to the fact, for J. E. M. got a beery greeting. "I'm glad you got your billet, Attorney," exclaimed the beery elector rapturously. "Lend me two dollars."

"It's two now is it?" said Mr. Baxter. "A little while ago it was only one." "Well, make it one." "No, you've got enough." "Well, make it fifty." "No." "A quarter then." "No." "What! And I always voted a Conservative ticket. I've voted for Johnny Wilson—he keeps a tin shop, and for Mr. Granman of the North End—he keeps a tin shop, too—and when Mahoney came to me and that preacher fellow and wanted my vote I turned 'em down. No, sir, D. J. Purdy asked me father how I was going to vote and my father said 'I never asked him.' The Liberals are no good. Andrew G. Blair put up a monument in St. John—that grain elevator—and the rats from the North End went and claimed to death for want of grain. The Conservative party is my party. I've voted for Johnny Wilson, Mr. Granman, and Mr. Tilley."

"You didn't vote for Lockhart, he's a Liberal," interrupted a joker. "If he's a Liberal, he's no good. If he's a Conservative, he's all right," replied the boony one. "I've voted for George Fowler. He's alright. I've voted for Frank Smith, he was elected a month or so ago in Carleton. I told 'em the Liberals couldn't lick 'em. Now Baxter, either. Say, Attorney, I'm glad you got your billet, and the looker pleadingly at the member for St. John county. But it was no use. The change did not come. It was nearly time for the train to start and the North End voter—he was vouched for by Mr. Granman—was pushed. He had never met with such negative responses before. Party fealty seemed to have no value. He must try a new trick if he wanted to make his heroes give up. The idea came to him all at once and he went right at it. "Say, I was in Carleton county and voted for Smith, and I know what's coming when that man Carvell comes up again. If I had seven votes, I'd vote again him. He'll get what's coming to him, you bet." "That's so, you bet he will," exclaimed the members in chorus. "Say, Attorney, I'm glad you got your billet—couldn't you?" "Here's ten," said Mr. Baxter, producing a dime. "Thank you. I always voted the Conservative ticket and I will till I die. You know it, Johnny Wilson and you Mr. Granman. You can always count on me." "Here's another ten," said Mr. Wilson. "It's worth it!" "Just then the bell rang, the conductor sang out "Board" and the beery voter vanished.

THE SOLDIERS' BOOTS

Ottawa, March 17.—At the enquiry hearing today into the supply of boots to the first Canadian contingent it was said today that there had been cases of ill-health arising from the issue, and a Halifax officer, Capt. Mumford said he attributed at least three cases of tuberculosis to bad boots issued, through wet feet being contracted. Major McKenzie of the 25th Battalion, St. John, said the boots issued were made of "rubbery" leather. Q. M. S. Watnright of Calgary said that the Canadian boot might last three days under active service conditions.

NIGHT CLERK SLAIN IN HOTEL

Believed to Have Been Victim of New York Gangsters' Vengeance

New York, March 17.—Gangsters murdered Charles Miller, night clerk of the Hotel Altam, at 189 West 84th street, between Broadway and Seventh avenue, firing five shots into his body while he was alone at the hotel office at six p. m. The gunmen occupied, but not before the elevator operator ran his car to the floor when alarmed by the shots and saw them running from the street door. Miller died an hour later in the New York hospital while Detectives Ditch, Devaney and Hayes, of the Second Branch Bureau, were trying to get from him some clue to his murderers. Miller, almost strangled by the flow of blood from his desperate wounds, motioned to one of the officers to lift him up from the pillow of his cot, and managed to gasp just before he died: "There were two men—never saw before."

The cash register behind the office counter had been opened, and at first directly upon the blood and mucous surface of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

ONE KILLED AND FOUR INJURED IN WEST RIVER MILL

Watsonville, N. B., March 17.—When a boiler in the mill of C. T. White & Sons at West River, Albert county, blew up tonight Edgar P. McQuaid, of Alma, N. B., was killed and John Yensen, John Fletcher, John Mills and Beverly Reicker injured, the first probably with fatal results. McQuaid and Yensen were in the boiler room when the explosion came while Mills and Reicker were nearby. The injuries to McQuaid were attended to by Dr. Murray and Dr. Carnwath, but he was beyond recovery and died within two hours. Dr. Carnwath, who is the coroner for the district, has decided that an inquest is unnecessary.

FOOD PRICES IN VIENNA ARE DOWN LED BY WHEAT

Speculation by Galician Refugees Blamed in Part—People Eating More Horse Meat

Venice, March 17.—Word comes from Vienna that many articles of daily food have more than doubled in price there since the war began, and that there has been a secret speculation in foodstuffs which has aroused the indignation of the people in both Vienna and Budapest. Authoritative quotations of the Vienna markets disclose that flour now costs 3 cents a pound and that dried peas are 11 cents a pound as compared with 4 cents last July. Split peas now cost 15 cents and hard 40 cents a pound, which is double the price they were selling for when war was declared. Eggs being 3 and 4 cents apiece, compared with their former price of 2 cents. Beef is selling at from 25 to 30 cents a pound, while pork brings from 24 to 40 cents. The consumption of horseflesh is steadily increasing. Today it costs from 10 cents to 16 cents a pound, compared with 8 cents last summer. Sugar, thanks to the beet product, has risen in price very little. It now costs 8 to 9 cents a pound, which is only half a cent more than before the war. Bread has gone up considerably, and now costs from 8 to 12 cents for a two-pound loaf. The quality leaves much to be desired, as it is only 50 per cent flour. The remainder is a mixture of meals made from corn, barley and potatoes. The Vienna bakers, famous for their excellent bread, do not seem to have learned how to mix these ingredients advantageously. Petroleum is quoted at 80 cents a gallon; it cost 29 last July. Soft coal has risen by \$10 a ton, and it is difficult to obtain at any price. An announcement by the government says: "If we can obtain sufficient labor, the next harvest is assured." The war having robbed the industries of the country of most of the able-bodied men, thousands of boys and girls have been released from the schools and with the married women are being pressed into service. By a special decree of the Austrian ministry, all children between twelve and fourteen years of age are excused from school work, and this host of child labor is being organized systematically, like an army. The older boys are acting as officers. The purpose is to send these young people out to work in the fields. Certain peasant laborers in the rural districts demanded higher pay. This induced legislation whereby they are now compelled to labor at the old wages. By distributing seeds and agricultural machinery the government has sought to

BRITAIN'S NEW BATTLESHIPS

Six Craft, 32 Knots, 16 Inch Guns, to be Ready Before Year's End—Last Word in Naval Construction

London, March 17.—England now is building six battle cruisers of 32 knot speed. They will be mounted with a new sixteen-inch gun. Such is the assumed perfection of the building arrangements under the special speeding plans prepared by the admiralty that these ships, it is expected, will be launched within five or six months from the date of laying down; and they will therefore be in condition well within the present year. These ships are supposed to be the "last word" in naval construction. They will all have their proper complement of light cruisers and destroyers.

The four boys killed were playing near by and met instant death. Those injured were passing in the street, who were knocked down.

FAIRVILLE EVENTS OF ST. PATRICK'S DAY

Red Cross Function a Great Success; So Also St. Rose's Dramatic Production

A very successful tea was held yesterday afternoon at the home of Mrs. J. V. Anglin under the auspices of the Lancaster Parish Red Cross Society, and there is ample evidence that results will be highly satisfactory to all interested. An immense Union Jack occupied a conspicuous place on the outside of the house and at various other vantage points flags were in evidence, the whole effect being most pleasing and patriotic. Inside the decorations were green and white, in keeping with St. Patrick's Day. A pot of shamrock was in the centre of each small table, while the centre piece for the large dining table was a Paddy hat filled with shamrock. Tea was served from four to six o'clock. The refreshments were dished out to the smallest detail.

Mrs. J. V. Anglin and Mrs. Charles Tilton poured and the ice cream was in charge of Mrs. Fraser, assisted by Mrs. Hallifax and Miss Ferris. A pantry sale was under the direction of Mrs. Cecil McVell with Mrs. Thos. Duffield, Miss Douglas and Miss Edna Ready assistants. Three candy tables were presided over by Miss Beatrice Compton, Mrs. Dunlop and Mrs. McCarthy.

Those who replenished were: Mrs. Richard Cushing, Mrs. J. M. Queen, Mrs. James Lowell, Mrs. Trauman, Mrs. John Stears.

Tea was served by the following ladies: Mrs. Murray Long, Mrs. Richard Stuart, Mrs. James McLennan, Mrs. Wm. Baxter, Mrs. Cliff Sutton, Mrs. Chas. Barnhill, Miss Margaret Dunham, Miss Gertrude Lowell, Miss Ethel Wilson, Mrs. Chas. Brownell, Miss Elizabeth Long, Miss Jen Gregg, Mrs. J. M. Roach, Mrs. H. M. Stout, Miss Helen Gregory, Miss Godfrey, Miss Cowan, Miss Edinoll, Miss Marie Ready, Mrs. W. A. Anderson, Mrs. S. A. Worrell, treasurer, looked after the door receipts and Mrs. L. A. Condon considered for a cut glass bowl, donated to the society which brought good returns. A feature which attracted considerable interest, and rightly so, were four checks of \$25 each, contributed to the society and proudly displayed in the parlour, as prizes already won in sight and bearing the best of good will from the donors, Hon. J. B. M. Baxter, Dr. F. L. Kenny, W. E. Foster and E. L. Rising.

The committee in charge of which Mrs. Louise Hetherington was convener, have every reason to feel gratified not only in the attendance, but also the expressions of congratulation at the whole decorative scheme and the energy and thought expended in carrying out arrangements in such detail. The success of the Red Cross has certainly distinguished itself in its first effort toward raising funds.

St. Rose's Play

The St. Rose Dramatic Club staged another successful play last night in the presentation of "Tris" or Beyond the Rockies. The attendance was so large that the play was sold out in advance to the hall after 8 o'clock and it is believed the financial returns will be very gratifying.

In the role of Tris, Miss Blanche O'Brien added to laurels already won in previous performances at the whole natural and effective throughout. Misses Margaret O'Keefe and May Conway did excellently and entered into the spirit of the piece from the rise of the curtain.

The male cast was fully up to the standard including J. J. O'Toole and W. J. Quigg. J. C. Calnan proved himself a very satisfactory villain and J. G. Hennessy, the hero, was fully up to the demands made upon Macaulay. The other members of the club acquitted themselves creditably and the stage settings and scenery were in harmony with the requirements. The proceeds are to be given to the orphans. The play will be repeated this evening when another record audience is looked for.

The following is the cast of characters:

Hank Jordan, W. J. Quigg; Nat. Webber, J. G. Hennessy; Jack Hamlin, J. C. Calnan; Judge Annanias Lovetoddy, J. J. O'Toole; Hallelujah Billy, J. Jamieson; Zena Grimes, Thos. Conway; Braose Bill, W. MacKinnon; Omaha Jake, J. Murphy; Californian Joe, Eugene Gillis; Arizona Jack, Edward Gillis; Officer, J. McCurdy; Susie Smith, Miss May Conway; Mrs. Robbie and Miss Penelope Prim, Miss Margaret O'Keefe; Tris, Miss Blanche O'Brien.

The specialties were "When I Dream of Old Erin, I'm Dreaming of You," Messrs. Wilfred McKinnon, Eugene Gillis, Edward Gillis, Joseph Murphy, and James McCurdy; "Mother Machree," "Tip Top Tipperary Mary," Mrs. James T. Dalton; violin solo, "Sounds from Erin," Miss Irene Macaulay; Big reel dancing, Matthew Humphrey; Melodies of Ireland, Master Cyril Looney; James Lacey, Irish comedian and dancer.

The ladies of Baxter L.O.B.A. held a supper and sale in the Orange Hall, Fairville, last evening and it was liberally patronized. In addition to the local members, young ladies from west end and Lovville assisted at the tables and the arrangements were carried out very successfully. After tea games were played and prizes won. Tonight will be devoted entirely to games and similar amusements.

BUNDLE OF STRAW HIS WRITING TABLE

Letter From Otty D. Lingley Formerly of Street Railway Staff

Mrs. Lingley of 87 High street has received a letter from her son, Otty D., who is with the First Canadian Contingent now in France. At the time he wrote he was in the best of health, although his accommodations were not like those of a hotel. Instead of a writing desk or table he used a bundle of straw, and was in a barn. He also sent his photograph taken at Salisbury Plain which shows that he was ready and fit to take his place in the field and in the front line. He was formerly employed with the St. John street Railway Co. and would like to be remembered to his fellow workmen of the union as well as many others in St. John.

Germans are reported fortifying the valley of the Largue and near Muelhausen and Altkirch where an important action is expected.
