WEDDING OF EARL OF MINTO TODAY

Bride Was Miss Marion Cook of Montreal

Marriage in St. Patrick's Church Congress Hall—Eight Bridesmaids—The Honeymoon in California—Gifts Numbered Hundreds.

Montreal, Jan. 19.—A wedding of rare interest took place this afternoon in St. Patrick's church congress hall when Miss Marion Cook of Montreal and Morris Earl, became the bride and the Earl of Minto. The hall had been transformed into a chapel festooned with southern smilax, with the new ends surmounted with sheaves of Madonna lilies tied with gauze ribbons.

The bride was given away by her father, G. W. Cook, and was attended by eight bridesmaids, while four small couriers, dressed in costumes of the period of Charles II, also attended her.

Among the bridesmaids were Lady Rachel Cavendish, daughter of the Duke and Duchess of Devonshire, Lady Margaret Scott, daughter of the Duke of Buccleugh and Holm, Marguerite Shaughnessy, daughter of the Baron and Baroness Shaughnessy.

The bride wore an ivory satin gown, simply draped on one side and with long skirt, sleeves falling over the hands, and a rounded neck. A tulle train, falling from the waist line, was embroidered in wax pearls and crystals and from her shoulders fell a train of Minto lace of Brussels applique. The train was fastened to the gown on both sides with long tassels of steel pearls and crystal beads, which dropped below the knee.

A tulle veil was worn over the face and was held in place by a small band of pearls and crystals, with miniature orange blossoms. She carried a prayer-book that her mother carried at her own wedding.

The best man was Captain Oswald Balfour, military secretary to the governor general, and the ushers were Stuart MacLennan, Alex. Tolson, Hartley and P. Patterson, and Cadet Herbert Cook. The priests officiating at the wedding were Mr. Donnelly and Rev. G. McShane.

The wedding was followed by a reception at Juniper House, the residence of P. N. and Mrs. Beardmore. This evening the Earl and Countess of Minto will leave for Athens, South Carolina, where the honeymoon will be spent.

Among those present at the wedding were the Duke and Duchess of Devonshire and the Countess of Minto, mother of the groom. Guests came from Ottawa, Toronto, Hamilton and New York.

At the wedding, several hundred presents were received by the bride.

Under the terms of the contract for the boat, the promoters collectively agreed to deposit \$100,000 as a guarantee of good faith. This sum was to be deposited with the Central Union Trust Company on or before November 30, 1920. The managers of the respective boaters agreed to deposit each \$50,000 on the same date.

Paris, Jan. 19.—Georges Carpentier's fight is being held by the Morgan Harjes Bank of this city. It was deposited on November 22, and is the equivalent of \$50,000.

San Francisco, Jan. 19.—Forefits of both Jack Dempsey and Georges Carpentier for \$50,000 have been posted to insure their meeting for the heavyweight boxing championship of the world, according to Jack Kearns, manager of Dempsey, denying reports from New York last night that the fight had been cancelled because the principals had failed to post their forfeit money.

Kearns positively denied the New York reports that the fight had been called off in an interview given Harry Smith, sporting editor of the San Francisco Chronicle, and published today.

"It is an absolute falsehood," Kearns is quoted as saying. "I am positive the deposits have been made and in the hands of Robert Edgren, who was named as the man, with full power to act. My money was posted three days after the Carpentier coin was put in the bank, and I have my receipt in my New York office. I know also that the Frenchman left his coin in this country."

All the principals have posted the deposits required under the terms of the contract, Rickard declared, and the contract has not been violated in any way. Plans for the bout are being continued by the promoters, he asserted, and it is now expected to stage in on July 2.

"The contract has been given up by everyone," said Rickard, "there has been no change in plans and the whole suggestion is a dream. There is no one who could call off the bout, so long as the contract is carried out by the principals."

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, listened last evening to a very discriminating and excellent address on the waste of brain in these provinces.

"You wouldn't expect a feller to handle that subject in an evening—would you?" queried Hiram.

"What do you know about it?" demanded the reporter.

"I been watchin' it a long spell," said Hiram, "but I hope he rubs it in good."

"For example?" queried the reporter.

"Every crook in the country," said Hiram, "every feller that's tryin' to gouge his neighbor. Every one that think about nothin' but how he's goin' to get a noo necktie or make a splash of some sort. All of 'em wastin' brain they arts and crafts."

"That is what the speaker asserted last night," said the reporter. "He says our educational method, or lack of it, neither develops nor salvages creative brain power as it should be done."

"An' I hope he'll come agin. I'll bet your folks spends a lot of time every day an'writin' for somebody else an' can't read the name on the door-plate—to say nothin' about knowin' how to create a necktie. Yes, sir, he's got a brain goin' to waste. You tell that feller from Halifax if he'll come out to the Settlement an' talk me an' I'll give him a real good time."

THE STORY OF 22 CASES OF WHISKEY

Windsor, Ont., Jan. 19.—It is said that Ralph Ringman of Galt, Ont., en route from Hamilton, Ont., to Chicago, drove his automobile to the river bank of Windsor. Then he took twenty-two cases of whiskey with his car, placed them on the river bank and with his auto crossed to Detroit on the ferry.

He went on a little farther, where he was arrested by a little red head in a blue coat, who was carrying a gun. The man was taken to the Windsor police station, where he was held for a few days.

ONCE RICH, HE DIED PENNILESS

Samuel Collins' Bank Balance 87 Cents

Father Left Estate of \$2,000,000—Son, Fearing Poverty, Built Mausoleum and Buried His Coffin With Ceremony.

Newark, N. J., Jan. 12.—The body of Samuel Collins, aged seventy-five, who died virtually penniless in a hospital here last week, from pneumonia, will be placed in a \$10,000 mausoleum at Stroudsburg, Pa., which he built for himself and members of his family years ago.

Frederick Kerr, a local art dealer, said yesterday that Mr. Collins formerly was a prominent art dealer and broker. In a furnished room he occupied was a bank book showing a balance of seven cents. His body remained unclaimed at the morgue several days. Kerr attributed Collins' loss of fortune to speculations in art objects and to losses in real estate.

Collins' father, who died fifteen years ago, left a \$2,000,000 estate. Collins' former estate at Stroudsburg was the show place of the city. For several years he was obsessed with the fear that he had lost his fortune, and he had arranged for a funeral service, purchased a casket and employed a clergyman and conducted the ceremony, burying the casket with much solemnity.

TWO ARRESTED AND TWO SOUGHT

Police Say They Have Broken Up Gang of Gunmen Who Killed Two Detectives.

Tellico, Jan. 19.—The police say that breaking up of a gang of gunmen who killed two railroad detectives on Monday, has been accomplished. Two alleged members of the band are in jail.

One of these—Edward Foley of Denver, and Omaha—has confessed and has implicated Royce Richardson, a negro, also under arrest, and two others, both white, for whom police detectives of Pittsburgh and Cleveland are searching.

These are the latest developments in Monday's hold-up of a New York Central ticket agent, his robbery and the murder of Louis Choeder and A. E. B. in the Pilot building in St. Paul.

WOULD HAVE CHARLES ON THE THRONE AGAIN

London, Jan. 19.—A new party has been formed in Budapest by Count Julius Andressy and is demanding restoration of former Emperor Charles and a reunion with Austria, says a Reuter dispatch from Vienna. The dispatch adds that an attempt has been made to secure Jewish support by a promise of abandonment of the anti-Semitic campaign.

LEAVES MOST TO HIS SECRETARY; YOUNG ACTRESS

"Wife Well Provided for by Separation Agreement"—Will of J. J. Ryan.

New York, Jan. 19.—In the will of the late Jos. J. Ryan, son of Thomas P. Ryan, filed yesterday, the testator left to his wife, Nannie Morse Ryan, the sum of \$100 qualifying the bequest by saying:

"I make this bequest to her inasmuch as ample provision has been made for her support and the support of our children during her life time by a separation agreement."

The bulk of the estate is left to Dorothy Lucille Whiteford, of New York, an actress, twenty-two years of age, who acted as confidential secretary to Ryan.

COMMISSIONERS ON PENSIONS GIVE STATEMENT DENIAL

Ottawa, Jan. 19.—The board of pension commissioners has issued a reply to a man to the effect that the percentage of man's disability was being reduced as the pensions have been increased. Owing to frequent complaints made to the Dominion Command, C. W. V. A., the secretary, C. G. MacNeil, placed the matter before the commissioners.

In reply they stated that no order had ever been sent out to the medical boards ordering them to reduce the disability allowance in order that the increase in cash grants be to some extent nullified.

In proof they pointed out that the number of pensions increased equalled the number that had been reduced during the last year. They added that the full extent of the review of each case was allowed to the pensioners.

WAS INVITED TO "COME OUT AND BE LYNCHED"

Police Rescue Detroit Man From 200 Negroes in Stock Matter.

Detroit, Jan. 19.—Police rescued James Crocker last night from about 200 negroes who had gathered in front of his home, demanding that he "come out and be lynched."

According to the officers Crocker claims to have designed a compressed air engine and to have accepted "loans" from members of his race amounting to about \$10,000 "giving away as security," stock in his company. Holders of the "stock" place the amount Crocker is alleged to have obtained at \$800,000 and charge that he was about to leave the city.

When Crocker was taken into custody for his own safety, it was found that a warrant had just been issued charging him with violation of the state law against issuing stock without the sanction of the state securities commission.

WORCESTER HAS 20 FIRES AT ONCE

Boston Firemen to Aid of Sister City

Loss Placed at \$1,000,000—A Sensational Rescue—Outbreaks in Holyoke and Rochester.

Worcester, Mass., Jan. 19.—Fire in the business and lumber district of this city early today necessitated a general alarm, bringing all the fire apparatus in this city and also aid from Boston and nearby towns. The fire started in the seven-story Knowles building and this was quickly laid waste. The fire then spread across Main street to a group of three-story buildings. In a short time fire numbering in the vicinity of twenty were reported from all quarters of the city and reports of incendiaries were rife. The loss is estimated at \$2,000,000.

So far as known, there was no loss of life, but there was one sensational rescue. Leslie G. Kingborn, manager of an automobile agency, was rescued from a window ledge on the seventh floor of the Knowles building. A seventy-five foot extension ladder was put up and he was taken down by firemen.

Worcester, Mass., Jan. 19.—A later report says the loss runs upwards of \$1,000,000. The origin of none of the principal fires was determined definitely, but the police said they had only the faintest suspicion of incendiaries.

Rochester, N. Y., Jan. 19.—Fire yesterday in the Pilot building in St. Paul, resisted the efforts of the firemen for more than two hours and resulted in damages to the building and the belongings of several small manufacturing concerns estimated at \$100,000.

Holyoke, Mass., Jan. 19.—With the mercury at 10 above zero an overfed furnace in the Ewingville Grammar School set fire to the building yesterday and the structure was destroyed. The 200 or more pupils marshaled by their teachers as fire drill marched out to safety.

STOP THE SALE OF WORTHLESS STOCKS

Massachusetts Commission's Report After Investigation of Conditions There.

Boston, Jan. 19.—Stringent "blue sky laws"—including registration of brokers and salesmen and official investigation of certain classes of "securities"—at their own request, recommended in a report filed at the State House by a Special Commission to investigate the Sale of Corporate Securities and Related Matters. The commission includes Atty. Gen. J. Weston Allen, chairman; William D. T. Freely and Samuel Spring.

Citing the urgent need of such legislation, the commission indicates that a wholesale mauling of Massachusetts investors has been in progress by declaring that "fraudulent or worthless securities amounting to between \$30,000,000 and \$50,000,000, were sold in this Commonwealth during the last year."

In view of that fact, it is set forth "the mere enforcement of criminal statutes is inadequate to control fraudulent promoters."

"Every year one or more of the other states adopts legislation rigorously limiting activities of fraudulent promoters," says the report. "Driven out of these states, the fraudulent promoters come into Massachusetts, and as competition becomes keener among them, their schemes grow bolder and their offerings more alluring, while at the same time every advantage is taken of the omissions and loopholes in their recent laws."

"The time has come when the Commonwealth must realize that fraudulent promoters are a dangerous type of criminals, and that the welfare of the Commonwealth will continue to be menaced as long as we are blind to the extent of the evil."

CHURCHILL AND THE DOMINIONS

London Papers Discuss His Appointment

Interesting Criticism as Hon. Winston Assumes Charge at the Colonial Office—Likely Follow Chamberlain, Says Telegraph.

London, Jan. 19.—(Canadian Associated Press)—Prominent London dailies publish interesting criticisms this morning on the appointment of Hon. Winston Churchill to the colonial office.

The Chronicle, the chief coalition organ, repeats insinuations already leveled from some quarters that Mr. Churchill's appointment means reckless military adventure in the mandated territories and colonial possessions. It adds that a change which would remove the great self-governing dominions from the sphere of the colonial office is not only one which the dominions desire, but one which will free the colonial office from the complications of separate tasks and allow it to concentrate its efforts on the more homogeneous business which properly belong to it.

The Morning Post, the chief organ of high Toryism, which, in spite of the fact that Mr. Churchill did brilliant work as its correspondent during the South African war, has long displayed extreme hostility to him, says it would be ungracious now to recall the blunders which would long ago have ended the career of any other politician and wishes him well, declaring that it is no reflection upon himself that the premier seems to have considered political exigencies in filling the office.

The Standard will start with a great opportunity, the Post adds, for the self-governing colonies are now, in fact, partners in a vast but dimly realized enterprise of developing a common inheritance for the common good.

The Daily Telegraph discusses the character of Mr. Churchill in a general manner, remarking that he not only admires the empire but understands it, and is therefore unlikely to treat the dominions with the thoughtless patronage and unsympathetic aloofness which in the past had done Downing street a term of reproach.

Mr. Churchill, it thinks, is likely to follow in the footsteps of Joseph Chamberlain, who broke definitely with the earlier bureaucratic tradition.

In admitting that the dominions are somewhat disposed to break loose from the colonial office and deal only with the premier, the Telegraph merely observes that while the colonial office may be shorn of some of its functions, it will have sufficient responsibilities in any case.

Claims for Some \$2,000,000 Following Loss of 200 Lives in Steamship Wreck.

Seattle, Jan. 19.—Hearing on the petition of the C. P. R. for limitation of liability in connection with the wreck of the steamer Princess Sophia, in October 25, 1918, began in federal court here today.

The company seeks to limit the liability to the amount in passenger fares and for freight carried on the ship and the amount which may be realized from salvage of the wreck.

Quebec Premier Makes Statement in Case of Blanche Garneau.

Quebec, Jan. 19.—(Canadian Press)—"I have every reason to believe that within a few weeks, or even a few days, the murderers of Blanche Garneau, will be in the Quebec jail," said Premier Taschereau in the legislative assembly yesterday, in reply to Arthur Sauve, leader of the opposition, who submitted a motion calling for correspondence in connection with the murder mystery.

"Thanks to the effective work of our detectives, we are on the trail of the guilty parties. We know them, we know their names," the premier said, and hastened to add that none of the names mentioned up to the present in the newspapers or elsewhere were those of the guilty parties.

GOOD THINGS COMING TO THEATRES OF ST. JOHN.

Intense Thrills In Jack London Film

"The Mutiny of the Elsmore" With All Star Cast, at Imperial Theatre Tonight.

Thrills of the most intense description were the order of the day this afternoon when the picture of the most gripping and thrilling of all that man has ever known, "The Mutiny of the Elsmore," with an all-star cast, was the feature attraction at the Imperial Theatre. The picture is scheduled to run for ten days and during this time opportunity should be open for all who care to be thrilled to take in the production, and test its quality for mixing the chills creep up and down the spinal column.

"The Mutiny of the Elsmore" enjoys the distinction of being one of the most gripping and thrilling of all that man has ever known. It is the picture of the late Jack London's novel of the same name, and is a masterpiece of dramatic art. The story concerns John Pike, the first mate of the sailing ship, the "Elsmore," who has signed up a motley crew of thugs and gunmen from the water front dives of Frisco, and who once at sea finds himself pitted against these hostile forces for the mastery of the vessel.

In the role of John Pike is Mitchell Lewis, and supporting him are Helen Ferguson, Noah Berry, Casson Ferguson, William V. Mong, Sidney D'Aubrook, Norval MacGregor and J. P. Lockney. This picture was directed by Edward Sloman from the scenario by Albert Shelley LeVing. Jackson Rose photographed the production.

MUCH BUSINESS WAS TRANSACTED BY THE COUNCIL

Hospital Matters to be Taken Up by Committee

Another Deal With County Houses—The Financial Situation—To Extend Fire District to Milford—Parish Officers.

A large volume of business was transacted at the adjourned session of the municipal council which opened at 10:30 o'clock this morning, and at 1:15 the meeting adjourned until this evening at five o'clock.

Included among the business transacted today was the appointment of parish officers. Arrangements were made for the Lancashire assessment for the extension of the Lancashire fire district to Milford. Committees were appointed to deal with the disposal of the houses erected by the county housing board and to meet the hospital commissioners regarding the proposed improvements regarding the hospital.

The finance committee sat before the regular meeting.

Mr. O'Brien said the grant would be \$15,000. Last year, he said, the deficit in taxes was \$200. The vessel cost \$6,838. Lancashire's proportion was fifty per cent, to be paid for in ten equal instalments. Interest was figured at \$305. On his motion the parish was authorized to assess for \$2,818 to wipe out the deficit and pay for the grant interest etc. for this year.

Councillor O'Brien moved that Lancaster fire district be extended to Milford and that the parish be permitted to arrange to assess for fire protection for Milford until the time when the cost of five hydrants can be included in the annual assessment. An alarm was sent in from Box 83.

DR. LOGAN'S ADDRESS.

It is said of Dr. J. D. Logan that in his college days he "got in wrong" with the professors by reason of original observations and comments not provided for in the curriculum. The habit appears to have survived his college days, and today as in his football days at college, he is in the forward line, vigorously playing the game for an improved educational system. Dr. Logan frames two indictments against our educational system. One is that the universities are doing high school work instead of developing the creative power of the student brain.

It is worth while to have such a speaker as Dr. Logan, himself a ripe scholar, put his finger on weaknesses of the system, and even if he be regarded as too radical and too sweeping in his criticism he leaves upon the minds of his hearers a well defined impression that his criticism is far from being wholly unjustified.

TRADE ACCEPTANCES.

An interesting development of business in the United States, aimed to prevent plunging into a trade acceptance, is what is called trade acceptance. It is now being used by about twenty thousand business concerns, some of whom give acceptance, some take them, and some employ the method both ways.

A trade acceptance is negotiable at a bank. In this respect it differs from the open account. There is a Trade Acceptance Council, composed of prominent business men, whose purpose it is to promote the new plan and to see that it works out well.

There was an intelligent and proper use of the acceptance results almost invariably have been satisfactory and the method has become firmly established. It is commended by prominent business houses, industries and banks.

Of course, there is more than loose buying behind all these cancellations. There is a moral lapse somewhere which if it should spread would be fatal to the stability of business conditions and relations. The habit of cancellation of orders without regard for the consequences to the other party to the agreement is one that should be stamped not only as dangerous but not according to the ethics of trade.

The case for an improved public hospital was so strongly presented before the municipal council yesterday that only financial considerations could stand in the way of a favorable response to the appeal. Can this community afford to let financial considerations stand in the way?

THE TRAMPS.

I spend my quiet days and hours where winter does no wailing, where in December gorgeous flowers the countryside are tinting. Here comes the beastly weather of countries stocked with sleet and ice, and snowdrifts stuck together. Here also come the unwashed tramps; all day I see them drilling; and lots of them are wicked scamps who'd knife you for a shilling.

CANADA—EAST AND WEST

A manufacturing company in Rochester, N. Y., is carrying on an annual business of millions of dollars without the use of currency. Money has been done away with in all the corporation's transactions. All payments are made and all remittances received by check or other credit instruments.

The concern is the Todd Protective Company. The purpose is to demonstrate a method of doing away with pay-roll robberies and other thefts of cash, and to show the efficiency of modern banking methods. According to L. M. Todd, president, the plan is working out successfully.

(New York Times.)  
A family of six persons suffering from

discovered on the second floor at 783 1-2  
Third avenue, Brooklyn, yesterday morning.  
Two months ago Peter Aran, his

wife, Marcos Aran, and four of their  
six children came here from Porto Rico.  
Unable to obtain employment, either for  
himself or others of the family able to  
work, Aran's small fund was soon gone.  
Yesterday morning Charles Aran, seven  
years old, knocked at the door of Morris  
Englehardt, who lives on the ground  
floor. The little boy, who was so weak  
he could hardly stand, gave Englehardt  
to understand that his family was in  
trouble. Going upstairs, Englehardt  
found Aran and his wife and their three  
daughters—Carmine, 20; Lola, 16, and  
Rosa, eight—all lying on mattresses on  
the floor, and suffering intensely. There  
was no furniture in the room and no  
fire.

of the Fredericton Diocesan Synod was  
held yesterday afternoon. A discussion  
of the Leonard Foundation scholarships  
was discussed. In the evening the board  
of missions met. The treasurer submit-  
ted a financial statement and the bishop  
in his report showed that a large in-  
crease of contributions would be need-  
ed in 1921.

**HOUSE LETTER BOXES.**

To the Editor of The Times—  
Sir—I have received several thousand  
circulars from the chief post office super-  
intendent, Montreal, of "Notice to the  
Public" for distribution by letter car-  
riers, especially requesting patrons to  
have placed openings for receipt of let-  
ters where no such opening or letter box  
is, at their home or place of business.

Following receipt of which, letter car-  
rier will call in uniform and advise party  
concerned, to explain benefits, etc. At-  
tractive boxes or plates improve the ap-  
pearance of doors rather than disfigure  
them.

Landlords and tenants should come to-  
gether on this question, each benefiting.  
I am certain parties installing boxes  
will be more than repaid by the great  
advantages derived in the delivery of  
their mail, during their absence from  
home, and the giving carrier advantage  
of time saved along the route, securing  
earlier receipt of postal matter.

I trust citizens generally will interest  
themselves in the object of the circular  
and keep abreast of other leading cities  
in Canada and the United States where  
these features have been generally adopt-  
ed.

**FIVE MEMBERS OF  
FAMILY MURDERED**

Prominent South Carolina  
Family Shot to Death—No  
Sign of Solution.

Pamplico, South Carolina, Jan. 19.—  
Discovery of two additional bodies dis-  
closed that five members of the Bigham  
family living near here, were shot to  
death on Saturday. Bodies of three mem-  
bers of the family, one of the most  
prominent in this section of South Car-  
olina, were found yesterday.

Authorities here spent the whole day  
in an attempt to solve the mystery of  
the murders, but said they had found no  
solution. They said they were working  
on the clue afforded by a revolver found  
in the hand of L. S. Bingham, aged forty,  
head of the family, and one of the vic-  
tims.

The body of Mrs. L. S. Bingham, aged  
sixty, mother of the head of the family,  
was found in the yard of the Bigham  
home, a bullet wound in her head. The  
body of Mrs. Marjorie Black, aged  
thirty-five, was found in her room  
on the second floor of the Bigham home,  
also with a bullet hole in her head. The  
body of Mrs. Black's nine-year-old

adopted son, was found near the back  
of the house, his forehead having been  
pierced by a bullet fired at close range,  
while another adopted son, five years of  
age, was found near a fence in the back  
yard with a bullet wound in his head.  
The five-year old boy was still alive  
when found, but died.

The first of the bodies was found by  
E. D. Bigham, brother of the dead man,  
who occupied a portion of the Bigham  
home, but who told the authorities that  
he was out driving at the time the trag-  
edy occurred.

L. S. Bingham, who died several years  
ago, served as a member of the South  
Carolina House of Representatives and  
Senate, and at one time was a candidate  
for congress.

**GETS \$30,000 FOR BAD BOOZE.**

Chicago, Jan. 19. — Blindness caused  
by wood alcohol was the ground for a  
verdict of \$30,000 damages returned in  
the Circuit Court in favor of Sara  
Greenberg.

The award, which was said to be the  
first of its kind in Chicago courts, was  
against the saloon partnership of Cohen  
& Alkin.

**CHILD MAY RECOVER  
FOR PRENATAL INJURY**

Appellate Court Justices Hold, Three to  
Two, Human Rights May Precede  
Birth.  
(N. Y. Times.)  
The Appellate Division of the Su-  
preme Court, by a vote of three to two,  
decided yesterday that a child is entitled  
to recover damages for a prenatal injury.  
The court heard a suit in behalf of  
Joseph Drobner, an infant, against  
August L. Peters, owner of the property  
at 19 West 118th street, because the  
child's mother fell through an open coal  
hole in the sidewalk just before the birth  
of the child, which caused permanent  
prenatal injuries to the infant.

Justice Merrell, writing the prevailing  
opinion, in which Justices Laughlin and  
Smith concurred, ruled that the rights of  
human beings do not necessarily origi-  
nate at birth, but in many cases precede  
birth in their origin. Presiding Justice

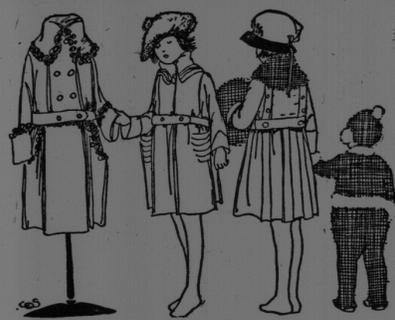

Clarke, writing the minority decision,  
said that while he admired the humani-  
tarianism of Justice Merrell, he believes  
that "through all the centuries of the  
common law no such action has been  
sustained," and he concluded that "such  
right of action does not now exist."  
Justice Page concurred with him.

**PERSIAN AFFAIRS.**

London, Jan. 19.—The Persian pre-  
mier, Mochir-Edd-Dowlah, who had re-  
signed from office, withdrew his re-  
signation after the merchants had threat-  
ened to close the bazaars and other  
pressure had been brought to bear, ac-  
cording to a Teheran despatch to the  
London Times. The Shah announces  
his intention of remaining in Persia dur-  
ing the national crisis.

This, the correspondent thinks, is a  
definite answer to the persistent rumors  
that the Shah intended to abdicate in  
favor of his brother Valiah, the heir  
apparent, and proceed to Europe for  
reasons of health.

**MARY GARDEN GIVES HER OPERA PLANS**

Says She Will Make "Opera the Thing," But Will Pay Good Artists Their Price.

Chicago, Jan. 19.—Telegrams and cables wishing Mary Garden success as director of the Chicago Opera Company poured into the offices of the opera association. Miss Garden, the first woman to be appointed to such a post in this country took complete charge of the company and prepared to sign tonight in Montevideo.

She denied herself to would-be interviewers and when demands for statements became more numerous stationed two bulky guards at the doors of her suite in the Blackstone Hotel. A musical publication was given a statement, but representatives of daily newspapers were denied admission.

"I will surround myself with the greatest people," Miss Garden was quoted as saying. "I will pay my artists at their real value. With such artists as Galli-Curci, Muratore, Titta Ruflo, Baklanoff and Vanni Marcoux, I would have no discussion as to the fee they demanded, as artists who draw are the cheapest in the long run. Then I would fill in with good people but I would not pay them fancy salaries."

"I do not believe in a star regime but in good ensembles. I would make the opera the thing and have an understudy for every role. Then if a singer were ill there would be no change of opera."

"I am a fighter. I am an Anglo-Saxon and we love nothing better than a fight. I am right there in the fray, but the Latin race must be treated with kindness and I would put their checks."

"I will give 50 per cent of operas in Italian, 35 in French and 15 in English for the present, until Wagner and other big German composers' works will be presented in the language intended, when I will treat them all alike, 35 per cent Italian, French and German."

"When good opera comes to be written by American and English composers, I would have their work performed in English. Real American opera in English is my most cherished hope."

The story whispered around the Auditorium that gained the greatest credence during the day was that the Walska incident had something to do with the choice. Mme. Kalska, the Polish prima donna and wife of Alexander Smith Cochrane of New York, came on to make her debut in the title role of "Zaza." She is said to have been engaged for the part by Harold F. Mc-

Cornick, chairman of the board of directors, and principal financial backer of the opera. Mr. McCormick is known to be a close personal friend of Mr. Coch-

rane. The diva, after a preliminary rehearsal with the company, left Chicago hurriedly. She made no explanations. Her departure left room for the wildest speculations, among them that her husband was jealous because of the story that she preferred stage kisses to his.

Her fellow-artists, however, are reported to have said that the real reason of her hasty flight was that her voice was not large enough to fill the Opera House. Gino Marinuzzi, then the artistic director, is said to have asked her to let out her voice, and when she could not do so refused to let her appear.

Still another report had it that Mme. Walska's flight from Chicago was due to differences with Miss Garden. Since then the organization has been at sixes and sevens. Mme. Walska's departure was followed by the resignation of Marinuzzi as artistic head.

The young Italian composer likewise had no explanation to make except that he was tired of "temperamentalism" and was suffering from insomnia as the result of constant bickerings.

Among those people who help make Chicago opera possible by attending it there was nothing today but praise for Miss Garden and her selection. Generally speaking, that also was true of the artists, but here and there in that group came the question, "Can she be both the artist and impresario?"

**AUTO SPEEDERS JAILED.**  
Second offender automobile speeders in New York will not be fined hereafter, but sent to jail, Magistrate Frederick B. House said recently in the Traffic Court. He also recommended that the secretary of state revoke their driving permits.

Suiling the action to the threat, Magistrate House sent a third offender to jail for fifteen days and six second offenders for five days.

**"DRY" LEGISLATION FORECAST IN CHILE**

Sub-Committee of Government Commission Reports in Favor of Prohibition of Planting New Vineyards.

Santiago, Chile, Jan. 19.—Sweeping measures intended to combat "alcoholism," including the prohibition of the planting of new vineyards the grapes of which are destined for the manufacture of alcoholic beverages, are proposed in the report of the sub-committee of the Government commission recently appointed to study the question.

Other recommendations include a tax which virtually would prohibit the importation of liquors, prohibition of the replanting of vineyards after 1923, nation-wide reduction of the number of establishments selling alcoholic beverages, increased cost of licenses for the sale of liquors prohibition of the erection of new breweries and limitation of the production of beer.

The sub-committee also proposes absolute prohibition of the manufacturer of all classes of alcohol in the nitrate producing regions, an increase in the tax on all alcoholic drinks manufactured in the country, and encouragement of vineyard owners to transform their products into non-alcoholic beverages.

The Government commission will consider the sub-committee's report next week with the view of drawing up a bill on the subject to present to Congress.

**PRESIDENT'S YACHT.**  
Washington, Jan. 19.—It will cost \$50,000, according to estimates, to remove the elevator in the presidential yacht, the Mayflower, which was constructed at a cost of \$16,000 when President Wilson first became convinced. He has never used it, nor has he boarded the ship since his illness.

**MILLION ARE IDLE IN MOTHERLAND**

Roadmaking Proposal is Considered Inadequate—Urge Reopening of Trade With Russia.

London, Jan. 2.—(Associated Press correspondence)—The proposal by the government to alleviate unemployment by big road-making and house building schemes and other work of public utility is called inadequate by the leaders of the unemployed.

Official returns give the number of registered workless in the United Kingdom on December 10 as 591,074, an increase of 50,721 during the preceding fortnight. London alone accounts for 141,533 and the proportion of men to women out of work is roughly as three to one.

Labor leaders say these figures are inadequate. They declare that at least 250,000 other manual workers and as many clerical workers are out of jobs, though not on the government books. These would bring the workless army to well over 1,000,000, and counting their dependents, a grand total is arrived at of close upon 4,500,000 sufferers from lack of work in one way or another.

**Trade With Russia.**  
Clamor for re-opening trade with Russia is growing and the chairman of the London Unemployed Council has told the Associated Press representative that by acting in concert with all other labor organizations, they were confident of being able to force the government's hands.

"If an American business man is able to get \$5,000,000 worth of contracts out of Russia, that means that there is another \$5,000,000 worth of waiting there for British trade," he said.

Meanwhile, public charity has been deeply stirred by reports made by social workers on many cases of genuine distress, with the result that gifts, both in money and kind, have been pouring into the local unemployed centres.

The danger of food riots which threatened some weeks ago, has apparently to large extent vanished.

In the letter Dr. Roberts reflected on Dr. Barrie's work in Dr. Roberts' practice while the latter was serving as a major in the Medical Corps during the war.

**PORTUGAL'S DEFICIT LARGE**

Amount Lacking in 1921-22 Budget is \$32,000,000.

London, Jan. 19.—The Portuguese minister of finance has presented to parliament the budget for 1921-22, in which it is estimated the deficit will be approximately 205,000,000 escudos (nominally \$125,500,000), says a Lisbon dispatch to the Exchange Telegraph Company.

The minister estimates the revenue from direct and indirect taxes at 214,410,000 escudos. The ordinary revenue he estimates at 165,277,000 escudos and extraordinary revenue at 49,133,000 escudos. Ordinary expenditures the minister estimates at 266,404,000 escudos, and extraordinary expenditures at 214,254,000 escudos.

YOU wondered—everybody wondered, and practically nobody knew how Edison "did his bit." At last the official announcement is out! Come in and get your copy of the bulletin: "What Did Edison Do During the War?"—or write, if you can't call.  
It tells what Edison did while Chairman of the Naval Consulting Board—how he spent months at sea, experimenting and inventing devices for foiling the German submarines.  
The bulletin also tells how Edison stood the gaff and kept the price of the New Edison down to bed-rock during the era of high costs and soaring prices. The New Edison has increased in price (in the United States) less than 15% since 1914—part of this increase is war tax. The bulletin also tells Mr. Edison's views on our Budget Plan which makes the New Edison easy to buy.

**SEES WAR CLOUD THREAT IN EUROPE**

Paris, Jan. 19.—"In 1921 there are more causes for war than in 1914." That is the verdict of M. Scelle, professor of international law at Dijon University, on the European situation. M. Scelle sums up his views in fourteen points. They are as follows:

1. A portion of Asiatic Turkey is pregnant with immediate conflict, even among the Allies. Four or five nations are engaged in this struggle.

2. Baltic competition is more bitter than ever.

3. The Sarre Valley contains the germs of a conflict for the future.

4. The blaze may break out in the Ruhr at any moment.

5. Patchwork reconstruction of Poland, the Danzig corridor and the isolation of East Prussia are so many wasps' nests of trouble.

6. Silesia is a burning question. Teschen puts Poland and Czechoslovakia in brutal opposition.

7. Jugo-Slavic cannot achieve her unity.

8. Reactionary Hungary is simply awaiting her hour to spring upon her neighbor.

9. Austria cannot live alone.

10. Bulgaria is sulky and stealthily plotting revenge.

11. Greater Greece of the Serres Treaty is an absurd and impossible conception.

12. Rumania is threatened by her neighbors on the Bessarabian and Transylvanian flanks.

13. Anglo-American rivalry.

14. Antagonism of the Japanese and Americans in the Pacific.

Over the whole dark picture the shadow of Bolshevism throws still darker gloom.

Such, says M. Scelle, is the present record of wars in embryo; such is the appalling result of the great war peace conference of Paris. The professor takes the foregoing as the text for an earnest sermon to his countrymen. He reproaches them bitterly for their indifference to foreign politics, for the careless way in which they accept the dictation of secret diplomacy and refuse to take to heart the terrible lessons of the great war and the years that came before it.

More than ever is the warning justified today, he says, when the scales are still trembling between government by Briand, who will not shut his eyes to the voice of moderation and empro-

SHOWED A BIG ROLL; BEATEN AND ROBBED

Young Man in Boston Attacked in His Room and \$5,690 Stolen From Him.

Boston, Jan. 19.—Sergeant Miller of the East Dedham street police station, arrested a young man on suspicion of being implicated with three young men, armed with revolvers, a hammer and a bill, who entered the room of Joseph Peters on the fourth floor of the rooming house of Mrs. Jennie Morrison at 116 Chandler street, on a recent evening, and stole \$5,690 from Peters, after beating him insensible.

The prisoner denies being implicated with the robbers. The police assert he was a caller at Peters' room Sunday afternoon and was one of the few persons who knew Peters had such a large sum of money in his room and where he kept it.

The prisoner is employed in a lunch room at the South End, near the lodging house, where Peters was accustomed to eat, and Peters had shown his money in the lunch room to his friend in the cafe.

Peters is a bookkeeper and a native of St. Louis. He has been in Boston for some months, and has been partly secured by judicious investments. He was bookkeeper for two years for the Buffalo Dry Dock Company in Buffalo, and when he first came to Boston he was bookkeeper for the Market Trust Company at Brighton. He has been unable to secure employment, so his loss is a particularly severe blow to him.

Peters was going to deposit the money in a local bank for safe keeping. He now has a certificate of deposit for a considerable sum at the Cosmopolitan Trust Company, he says, and because of the closing of the four trust companies some months ago and the loss of the use of this money he was afraid to deposit his \$5,690 in a local bank, fearing that might also be tied up. That is why he had so much money with him at the time of the robbery.

The money was in banknotes of the denominations of \$1, \$2, \$5, \$10, \$20, \$50 and \$100 bills. The packet was done up with rubber bands and was lying on the

MORNING NEWS OVER THE WIRES

The election in Sackville yesterday resulted as follows: F. B. Doncaster, mayor; Arthur B. Tower, Edgar Ayer, George F. Estabrook, Stewart Babcock, Clyde G. Steadman, as aldermen.

Hope for a further gratuity to veterans during the coming session of the federal parliament is discouraged by C. Grant MacNeil, Dominion secretary of the G. W. V. A., who says that attempts to dictate to the government are merely "blaying at the moon."

A message of Canada's friendship for the United States, a presentation of the Dominion's problems, and an exposition of her progress, were the subjects dealt with by E. M. Macdonald, of Pictou, N. S., former M. P., in an address to the Canadian Club of Boston last evening.

"No bill," was the verdict of the grand jury last evening in Frederick in the case of the King vs. Herbert L. Stephenson, charged with wounding Arthur L. Noble with intent to kill.

The jury was out two and a half hours. William H. Myrton was burned to death and his son John suffocated to death when their home in Boston was damaged by fire yesterday. The fire is thought to have been started from a pipe which the father had been smoking.

BIG THEFT FROM ROOMS OF RELIEF SOCIETY Vienna, Jan. 19.—The offices of the American Quakers Society, which has been engaged in relief work, were entered by burglars recently and one million crowns stolen.

BANQUET, DEBATE AND OTHER GOOD THINGS ENJOYED

Taxis Boys of Ludlow Street Church Have a Delightful Evening.

The Taxis Boys of Ludlow street Baptist Sunday school held a banquet in their hall, Guilford street, last evening.

In the absence of the pastor, Ralph J. Rupert presided over the table. After the boys had done ample justice to the good things provided, the mentor of the square, R. H. Parsons, led the boys in a lively sing song, which was greatly enjoyed.

Rev. Isaac Brindley, who was a guest during the evening, delivered a very striking address to the boys on "The Boy Who Complains."

A debate on the subject, "Resolved, that the government of Canada is more democratic than that of the United States," provoked great enthusiasm, the members of the respective sides exhausting their powers of oratory.

Canada while Rupert, Orr as captain, was upheld by Robert Orr as captain, and W. Donohue.

United States - Rupert Mahony, captain; Wm. Von Richter, Ed. Von Richter and J. McAndrews.

During 1920, Satisfactory Increases were made in the Rate of Interest Earned and in the Net Surplus on the Company's own standard, which was still further strengthened.

The Gain in Surplus on the basis of the Government standard was approximately \$300,000.

Scale of Profit Distributions is Maintained. The following table shows examples of actual distributions in 1921 for five-year periods and the original estimates issued in 1900, when the present rates were adopted.

**STOWAWAY IN COURT.**  
 There was only one prisoner on the police court docket this morning, Amos Sayers, who was taken into custody on charge of stowing away on the C. P. O. H. policemen he was turned over to them to be taken before the immigration authorities.

**VERY PLEASANT TIME.**  
 St. Elizabeth's Society of St. Peter's church held a most successful bridge and dance in the Knights of Columbus' rooms last evening. There were more than 300 present, and from all indications all had a most enjoyable evening. Mrs. Elizabeth Walsh was general convenor, and was assisted by Miss Sarah Lynch, president; Mrs. Louis Owens, secretary; and Miss Margaret McCloskey, treasurer. During the evening refreshments were served. Miss Lynch, Mrs. Sarah Doherty, Mrs. R. J. Walsh and Mrs. Margaret Corkery poured and were assisted by members of the society. **THE NEW BOYS' CLUB.**  
 The preparations for opening the new south end boys' club in Broadview avenue are proceeding with despatch. The entrance from the avenue has been completed, the glass put in the windows that were broken, the stoves put up, and last evening all the committee met there, with Frank White, chairman of the South End Improvement League, presiding. James H. Hamilton reported gratifying success in the canvass for funds. Great enthusiasm was manifested, and it is clear the new club is in good hands. A director is now being sought and the club will soon be opened. Books and games will be gladly received. The building is admirably suited for its purpose, and the club will be a great boon to the boys of the south end.

**KENNEDY-QUINLAN.**  
 A wedding of interest was solemnized in the Cathedral this morning when Rev. William Duke, who was celebrant at nuptial mass, united in marriage Miss Constance H. Quinlan, daughter of Jeremiah Quinlan, and Dr. Walter J. Kennedy of Boston, Mass. The bride, who was given away by her father, looked charming in a costume of brown duvetyne, with hat to match and carried a bouquet of pink roses. She was attended by Miss Kathleen Doherty, who wore a becoming tailored suit of brown with cream hat and carried a bouquet of sweet peas. Charles Borque supported the groom. Following the ceremony a dainty wedding breakfast was served at the home of the bride's father, 29 Elliott row. Dr. and Mrs. Kennedy will leave this afternoon on a honeymoon trip to Montreal and from there will proceed to their new home in Boston. They were the recipients of a large number of magnificent presents. W. G. McIntyre of Montreal, brother-in-law of the bride, was present at the ceremony.

**NEW POINT IN MURDER CASE**

Hon. W. P. Jones Presents it in Seeking Reserved Case for Newman Clark.  
 Before Judge Chandler in the case of the King vs. Newman Clark, who was tried at Andover in December for the murder of Phoebe Bell, Hon. W. P. Jones, K. C., this morning moved for a reserved case. He said that the trial judge charged the jury that where the prisoner sets up the defense of insanity it is his duty to establish the fact of insanity "beyond a reasonable doubt." This charge was in accordance with the decision of the supreme court of Alberta, but the supreme court of Canada has decided that such a charge is improper and entitles the accused to a new trial.  
 Until this year, he said, there was no provision for appealing, when the provincial court was unanimous in a criminal case. But, by an amendment to the criminal code the accused now has an appeal where two provincial courts give conflicting judgments on some point.  
 Mr. Jones said that it was his desire to have a decision by the Supreme Court of Canada.  
 Dr. W. B. Wallace represented the attorney general.  
 Judge Chandler decided that, in view of the decision of our court of appeal, by which he was bound, he could not grant a reserved case, but that he would make a certificate setting out the facts of the case, and was asked by the jury and giving his reasons for refusing to grant a reserved case, and then the accused could apply to the court of appeals of New Brunswick on February 8 for a reserved case. Then, if the court of appeals granted a reserved case he would relieve the prisoner until such time as the question was decided. If the court of appeals of New Brunswick refused a reserved case the minister of justice has the power to grant a new trial.

**MINNEDOSA HAD A ROUGH PASSAGE**

The C. P. O. S. liner Minnedosa arrived on port last night from Liverpool and Havre with 214 passengers, 1163 bags of mail and 2000 tons of general cargo. Captain G. C. Evans O. B. E. who is in command of the steamer, said that they encountered heavy seas and head-on winds throughout the entire voyage across the Atlantic.  
 Among the cabin passengers was Major General Sir J. Percy, C. B., K. E., C. M. G., D. S. O., who was formerly chief of the British Mission to Russia. Brigadier General Thacker of London, England, was also among the cabin passengers. The majority of the third class passengers consisted of Czechs, Slovaks, Russians, Greeks, Armenians, Italians and German Hebrews. The majority of them are listed for the United States.  
 Major General Sir J. Percy is enroute to British Columbia to take over an apple ranch. He had a most distinguished military career and was head of the British Mission attached to the forces of General Baron Wrangel last June in the Crimea. During the great war he was chief of the staff to the Second British army on the western front commanded by General Sir H. C. Plummer. His military career has extended over a period of thirty years. He served in the South African war and in two frontier campaigns in India. It is his first trip to Canada and he is accompanied by his wife and two children.  
 Soon after the liner reached mid-ocean an Ethiopian stowaway was discovered. Before he could be placed under arrest he mysteriously disappeared and efforts to locate him failed.  
 A special train took the cabin passengers to Montreal, Toronto and points west this morning.

**At Work In Our Window Wednesday**  
 In order that the merit of the 1900 Cataract Washer might be apparent to the women of St. John we have arranged a demonstration of this famed washer in our window for Wednesday, Jan. 19.  
 The 1900 Cataract Washer is the pioneer of washers—also the peer because of its utmost simplicity, low cost of operation and because it works on the principle which governs the proper washing of clothes—the water is forced naturally through the fabric rather than the fabric forced through the water. Thus washing the clothes with no injury to the fabric.  
 Incidentally the 1900 Cataract Washer is made by the largest makers of washers in the world.  
 The machine used for demonstration is exactly the same as the one you'd buy except glass is used in order to expose the interior working of the water etc.  
 You'll want to see this machine in operation—so be here Wednesday.
