FRANK CHANCE OPERATED ON FOR HEADACHE

Noted Baseball Player Likely To Get Back Into Game Again

HIT ON HEAD WITH BALL

New York Sheriff Takes Charge of Boxing Bout in New York and Says All is O. K.—Jack Twin in a Draw

(Canadian Press) New York, Sept. 17.—Manager Frank Chance of the Chicago National League baseball team was operated on here yesterday for a blood-clot at the base of the brain. He was reported today as resting easily. His physicians believe that the operation will result in a permanent cure and that Chance will be able to return to baseball as a player.

Chance has been troubled with violent headaches for more than a year. His affliction was believed to have been caused by a blow on the head from a pitched ball.

New York, Sept. 17.—Several bouts were fought at Madison Square Garden last night under the watchful eye of Sheriff Julius Harburger, whom Governor Dix recently warned against permitting any actual prize fight in this city. The sheriff examined the boxes before and after the contests and he declared that the exhibitions were in the true style of boxing, and that referee Billy John showed human feeling when he stopped the bout between Kid Williams of Baltimore and Billy Fitzsimmons of Yonkers, in the eighth round. The Yonkers man had been completely out-fought.

George Kirkwood of St. Louis out-pointed Benny Kaufman of Philadelphia in a ten round bout, and Louis DeFourestier, the French lightweight champion, had the better of every round but the first of ten he fought with Tommy O'Keefe of Philadelphia. After the opening round, which was even, the Frenchman outpointed his man cleanly all the way to the end. DeFourestier had a head and face O'Keefe was cautioned several times for clinching and holding. DeFourestier was awarded a decision of ten rounds and was sent back to his home.

Buffalo, N. Y., Sept. 17.—Jack Twin Sullivan and George (One Round) Davis of Buffalo, boxed ten fast rounds before the Buffalo Athletic Club last night. The newspapers' decision was a draw. Sullivan was frequently warned for hitting after the referee ordered them to break. In a preliminary, Joe Clark of Jamestown, had a shade on Joe Goldberg.

ISMAY SAYS NOTHING

London, Sept. 17.—Bruce Ismay, who is shooting in Yorkshire, telegraphs as follows in response to an inquiry as to whether or not there is any truth in the rumor that he is about to retire: "I have no communication to make at present."

Another report which has gained currency is that Harold Sanderson would retire from the vice-presidency of the International Mercantile Marine, but Sanderson yesterday gave emphatic contradiction to this, declaring that he had not the slightest intention of retiring.

Mr. Sanderson said he had heard no such change as that which had been reported as impending. He was convinced, he said, that had any such thing as retirement been contemplated, Mr. Ismay would have been the first to announce the fact.

Other officials at the company's headquarters gave a complete denial in general substance to the report.

PANDEMONIUM IN PARLIAMENT

Scene of June Last, When Hungarian Speaker Was Shot at, is Almost Lived Over Again

(Canadian Press) Budapest, Hungary, Sept. 16.—The opening session of the Hungarian parliament today was marked by a wild outburst of factional feeling, which was prevented from becoming a free fight only through the intervention of party leaders. The uproar commenced as soon as Count Stephen Tisa, the president of the lower house, entered the chamber. He was received with cries of derision and abuse, which were mingled with hissing and whistling. The president took his seat with a dignified calm, treating the opposition outburst with indifference, but all his efforts to restore order were unavailing. Not a word could be heard in the chamber, and it was followed by a scene which was read without anybody hearing a word of it, and it was followed by a scene which was read without anybody hearing a word of it, and it was followed by a scene which was read without anybody hearing a word of it.

Big Strike is Planned for Election Night in Gotham

New York, Sept. 17.—A general strike of waiters and cooks that will paralyze first class restaurants and hotels in this city at the opening of the winter season, is the latest plan of the International Hotel Workers' Union. A statement by one of the local union officials says: "Election night has been practically decided upon as the psychological moment when we will help to bring home to the employers more forcibly than ever the justice of their demands. Unless the individual proprietors reach an understanding with the organization of the hotel workers within the next few days, the men will walk out on election night."

(Special to Times) Woodstock, N. B., Sept. 17.—A man named McDonald, an employe of the McLean Company, contractors on the Valley Railway, is in a serious condition at the Fisher Memorial Hospital as the result of being too near a blast on the railway. He has fractures of both legs and other injuries that make his condition critical.

The accident occurred this morning in a rock cut near Hartford. Three others were hurt, but so far as learned their injuries are not serious.

Considerable blasting is going on at this point and several accidents have occurred, owing, it is thought, to employe not heeding the warning of the foreman to get out of the line of danger.

BANDITS ROB THE MAIL CAR

Make Good Job of It and Get Away into the Woods

Chattanooga, Tenn., Sept. 17.—Three masked men held up the Memphis Special, on the Southern railway, westbound, at 1:30 o'clock this morning, near Stevenson, Ala. The mail car was looted, but the amount secured is unknown. The men boarded the train at Stevenson, entered the mail car and covered the four clerks with pistols. The clerks were bound, and the fourth was ordered to open all sacks of registered mail from which the robbers filled a bag with packages supposed to contain valuables.

After the car had been thoroughly ransacked, the fourth clerk was also bound, and one of the robbers pulled the emergency cord, the train coming to a stop in a thick wood. The robbers then fled, taking a few moments for a signal to proceed. The clerk then investigated and found the mail clerks almost suffocated by the robbers, which the robbers had pinned on top of the car.

When the train reached Huntsville, deputy sheriffs were summoned and a posse organized to search the territory around where the men left the train.

A HEAD-ON COLLISION ON I. C. R.

Freights Crash Together on Siding Near Truro Today

HAPPENS IN FOG

No One Hurt, But Damage Done to Rolling Stock—Ross Cummings, Superannuated, Goes West on First Day of Recreation

(Special to Times) Truro, Sept. 17.—A head-on collision between two special freight trains occurred at McCurdy's Siding, at 7:05 this morning, and though considerable rolling stock is damaged, and both engines are out of commission, there was fortunately no loss of life.

Stonache's special, west bound, with Driver Rushton, had a cross on Smith's outboard special with Driver Simpson in the cab, at McCurdy's siding. Stonache's train had arrived and was on the siding when Smith's special came along. Owing to a dense fog prevailing, the engineer passed the points before the brakeman of the westbound freight could get them closed.

The trains came together with terrific impact and the pilots of both engines were destroyed and both locomotives put out of commission. They were later hauled into the Truro yard and by one o'clock the track was clear for the passing of regular passenger trains.

Ross Cummings, who has been in the employ of the I. C. R. for forty-one years has been superannuated and today, his first day of recreation in all that period, he will start for San Francisco to visit his daughter. Mrs. Cummings will accompany him and his son Parker will go along as far as Winnipeg. Mr. Cummings has this station master at Truro for nearly fourteen years, and he will be missed at this junctural point. For twenty-two years previous he was day yard master in Truro. His other lines of service was on the first trains that ran out over this line. Best wishes follow this railway veteran as he begins his life of recreation.

Plan For Simms Homes in Fairville—Factory Likely Ready in December

Owing chiefly to the difficulty of securing land at a reasonable price and also to the lack of building societies here which would co-operate in the work, the plans for building homes in Fairville for the married men among the employes of the Simms factory has been abandoned for the present, but may be taken up later.

The new factory is nearing completion and, in spite of the loss of about thirty days through wet weather, will probably be ready for occupancy in December. There has been some delay in securing the equipment for the generating plant and also the glass for the windows on account of the British shipping strike, but the company expects to have the plant ready for work by Christmas time.

ARE SLOW TO ACQUIRE GUM HABIT

In England Heavily Backed American Effort Does Not Start Out With Rush of Success

(Times' Special Correspondence) London, Sept. 17-London's cables, it seems, take kindly to chewing gum, but the other inhabitants of this metropolis do not. According to a man who is trying hard to sell it, the only folk in these islands who care a hang for gum are the drivers of taxis, hansom and "four-wheeled."

This man was in the Strand yesterday, the first street of chewing gum who has appeared there. He stood by the curb, with the newspaper and flower sellers and the vendors of penny toys, and he had quite a trayful of a well-known brand of American gum which he was crying lustily at a penny a packet. Two packets were purchased and the merchant was asked how he found business.

"Botten," he said. "This here chewing gum ain't no go in this country. I've been here ever since nine o'clock this morning (it was then one-thirty), and I haven't sold a shilling's worth yet. It don't appeal to English people. They buy it once and never again, except cabmen. They seem to take to it. I don't know why, but I always can find a customer on a cab-rank."

"Selling the gum in the streets is a new game, isn't it?" was asked. "Pretty new," replied the pessimist, "but they've had men trying it on the people in the theatre-square for several weeks now. They (referring to the purveyors) are advertising it on the drop curtains in the theatre, too, besides on the boardings and in the newspapers. But it won't go. They think it will but it won't."

"We try it in the country," he added, "and it goes, and with the air of a partner in the enterprise, but the sale's very quiet. I go to all the racematches, but I don't make nothing worth speakin' of. That's my bicycle over there," (indicating a "No-vintage safety leaning inside the gateway to Charing Cross, and carrying a sign in praise of the gum) "but I'm fed up with this game after six months of it."

Later in the day, the manager of a large confectionery shop in the suburbs which has big display ads of the same brand of chewing gum, was asked how it went, and gave much the same account as the man in the street. He said he had a few steady British customers but, thought, personally, it must be "nasty." Perhaps it would help some if the people interested hired "don-ostrotors," for it is reported that the Britons who sample the gum swallow instead of chew it.

Anyhow, it is early in the day yet to be so sure. "Yes, indeed, you know, never, guess he's a millionaire," he backed by many thousands of British pounds as well as meeting him."

REPORT ABOUT THE ST. JOHN BREWERIES

For some time there have been rumors that the local breweries were to be absorbed by outside interests. Messrs. Jones of Simons Jones, Ltd., said this morning that offers had been made by a local broker but that nothing definite had been done and that they were not expecting to see any changes in the business at present. From another source it was learned that both the Labatt and the Carling brewing interests were trying to secure the Jones plant.

With regard to the James Reedy brewery in Fairville the story is to the effect that negotiations are in progress with the Dominion Brewers, Ltd., for the sale of the plant and business at a figure considerably over a half million dollars. At the office of the company the morning all knowledge of this was denied.

PROVINCIAL PERSONALS

Moncton Times-Maurice B. Megee, of the staff of the Bank of Montreal, has been transferred to the head office in Montreal. Miss Lottie Nixon, of Moncton, is on a trip to the west, and is at present the guest of her brother, Gerald Nixon, in the city of Edmonton.

Among former Moncton men doing well in Edmonton are C. B. Manning, secretary to the city commissioners; P. A. Edgington, C.E., son of John Edgington, city engineer of Moncton, on the engineering staff of Edmonton; Jack Rippey, son of William Rippey; Jack Buchanan, once with the L. C. R. freight claims agent's office, now travelling freight agent for the C. N. R., and some of his time in Edmonton; Jas. Tighe, formerly a clerk at the Brunswick, now in Edmonton travelling for a fruit firm, and Gerald Nixon in charge of a bookstore.

COMMISSIONERS' MEETING

At the meeting of the city commissioners today a request for permission to lay a siding in Marsh street was received from J. A. Lively. Protests have been received from some of the residents that the siding was to be used in connection with a hide warehouse and they objected to the latter in the neighborhood. The matter was referred to the commissioner of public works.

The commissioners also discussed matters of finance, including funds for new fire hydrants which are required, and also for the improvement of the new playground at Rockwood Park. In the latter matter they are awaiting word from the Horticultural Society.

"What an insignificant-looking little man he is to be sure." "Yes, indeed, you know, never, guess he's a millionaire," he backed by many thousands of British pounds as well as meeting him."

BUNTY, FINE SCOTCH COMEDY, IS ENJOYED VERY KEENLY HERE.

First Presentation in Opera House is Marked Success—One of the Best City Has Seen.

Bunty Pulls the Strings, a delightful, wholesome Scotch comedy, opened a four nights engagement in the Opera House last night, and was particularly well received.

The play is from the pen of Graham Moffat. On account of the simplicity of the play, it is much different from any of the plays that have been seen here for some time.

The plot dates back to the year 1880, when the old hoop-skirts were in fashion. It tells of a charming little Scotch lassie, who on the death of her mother, takes up the duties of house-keeper for her father.

The role of Bunty Biggar, the principal character, was entrusted to Miss Dawson McNaughton, a charming little Scotch lassie, and it could not have been given into more capable hands.

Playgrounds, Social Centres and Community Work Needed

MR. BRADFORD POINTS THE WAY

Reference Made Also to Need of Medical School Inspection, Detention Home for Protestant Girls, Children's Aid Society and Prison Farm

John Bradford, supervisor of community work in Amherst, who spoke here on Sunday, was the guest of honor at a dinner in Bond's last evening. About 25 invited people were present. W. C. Cross, president of the Y. M. C. A., occupied the chair, and after the dinner had been served Mr. Bradford gave an interesting talk on the good that had been accomplished in Amherst during the last year.

Through his efforts a study of the recreation situation was made and the new \$50,000 school building was thrown open at night as a community and social centre with gymnasium classes for employed boys, young men, employed girls and young women, reading and story clubs, sewing classes, social evenings, first aid and health talks, reading and lectures.

The law relating to the sale of tobacco to minors has been more strictly enforced. In the schools medical inspection has been inaugurated, story telling has become a feature, a school nurse has been employed and domestic science is being taught.

Through the campaign led by Mr. Bradford there has been an increased attendance at Bible classes, new Sunday schools have been organized and a federation of men's Bible classes was formed and this has become an aggressive force in public affairs.

Juvenile police court cases have been handled, with the result that the number of cases have been reduced from thirty-five in a single month last year to none for the corresponding month this year.

Mr. Bradford pointed out some of the conditions prevailing in St. John, among others the fact that about 10,000 children in this city had very little room to play and so far as the playground situation practically no place for the children by the street and there was a law against their playing there. This was a dangerous state of affairs.

He advocated a broader policy for Y. M. C. A. workers and advocated the establishment of proper playgrounds for the children. One of the strongest points in his talk was the urging of medical inspection in the schools. This he pointed out would be a great help to the growing boys and girls as they are subject to vision, etc. would be detected and proper treatment secured.

Mr. Bradford had visited the Boys' Industrial Home yesterday, and last evening Superintendent Macdonald was present and at his request gave the history of two cases, one of which showed conclusively that failure to discover and correct a defect in a boy at school had led him into truancy and bad conduct, and the other showed that failure of the educational system to reach the parents made their boy in the end an inmate of the reformatory. Mr. Bradford in his remarks said that he had visited half a dozen institutions for delinquent boys, and this one at St. John was the most home like of them all. He spoke in high praise of it.

Hon. R. J. Ritchie expressed great pleasure at having heard Mr. Bradford, and out of his court experience cited instances to emphasize the need of the reforms advocated. He spoke of the St. John juvenile court and its work, and urged very strongly the need of a detention home for Protestant girls, who when guilty of offences must go either to the jail or the penitentiary. He told of a number of instances where Mr. Bradford had spoken to know what to do with Protestant girls who had come before him and whom he felt ought not to be sent to jail, although he could not properly set them at liberty.

Commissioner Agaz expressed his great pleasure at hearing Mr. Bradford, and referring to playgrounds observed that he had only made a beginning in St. John. The department of which he was the head would have to deal with parks and playgrounds and no doubt have a good deal to do with them. He recognized the importance of these things of which Mr. Bradford had spoken, saying he was very important.

No report can do justice to his answers to questions, his illustrations taken from experience, and the clearness with which he impressed upon his hearers' minds the points he sought to impress upon them.

GATHER IN WINNIPEG IN INTEREST OF GOOD ROADS

President of Canadian Highway Association Now in Ontario Enlisting Support

Toronto, Sept. 16.—With Toronto as his temporary headquarters, W. F. Kerr, of New Westminster, B. C., president of the Canadian Highway Association, is spending a few weeks in Ontario with a view to arousing interest in the convention of the association, which is to be held in Winnipeg, October 9 to 12.

Mr. Kerr said that prospects were bright for a very successful gathering in Winnipeg next month. He found sentiment all over the country keenly aroused over good roads and this, he believed would ensure a bumper gathering of enthusiasts in the Manitoba capital. Not only were the automobile men keenly interested, but he found the same sentiment prevailing among city residents, men who had but little occasion to use the country roads.

Mr. Kerr said that he had had but one bumper gathering of enthusiasts in the Manitoba capital. Not only were the automobile men keenly interested, but he found the same sentiment prevailing among city residents, men who had but little occasion to use the country roads.

George P. Holt of New Haven, Conn., eighty years of age, a veteran of the civil war and of Indian encounters in the west has presented to the historical society of his native town, Milford, his "wide-awake uniform," which he wore during the "Wide-awake" organization movement. In this organization, the purpose of which was to promote the election of Lincoln, Mr. Holt was a leader. The uniform, which consists of a cape, bears across the back in large letters the words "Wide-awake, 1860," and upon the front a huge eye, signifying that the organization was alive to the work before it.

FOUR OF WORLD'S GREATEST TRACK ATHLETES WHO WILL RETIRE THIS FALL

New York, Sept. 16—Many of the famous track athletes will be missing from the ranks next season. Among those who have announced their intention of quitting the sport this fall is Ralph Craig of Detroit, intercollegiate 100 and 200 yard champion in 1911 and winner of the 100 and 200 meter races at the Olympic games in Stockholm last June.

NO RUSH AT OTTAWA TO SHOW THEIR LOYALTY

Borden and Ministers Scattered About and the Navy Question is Not Taken Up

Ottawa, Sept. 16—The "German peril," so far as the Borden ministry is concerned, seems to be imminent only when speeches are to be made, and a safety vent found for Tory imperialism.

Since the cabinet reassembled after Premier Borden's mission to London, absolutely nothing has been done towards formulating a naval policy or toward giving "immediate and effective aid" to the Mother Land.

The "emergency" has not yet been before the council for the "further consideration" deemed necessary and there is apparently no prospect of the question being taken up for some weeks yet.

The cabinet has not met for several days and in the few meetings held since Premier Borden's return only routine matters have been considered.

Hon. J. D. Hazen, minister of naval affairs, is now in the maritime provinces, and will not return here for several days. Then he and Hon. Robert Rogers will probably go to the Pacific coast.

Hon. Frank Cochrane is off on a ten days' holiday. Hon. George E. Foster will bequeath for England a fortnight hence, and will be away two months.

Premier Borden will be in Montreal next Saturday and in Toronto next week. Hon. Col. Sam. Hughes will not return to Ottawa until next month.

Hon. Martin Burrell is spending six weeks in British Columbia, whereas the cabinet Premier McBride and get his naval views.

Other ministers will also be absent from the capital at intervals for the next month or so.

The outlook for "speedy and effective aid" is not nearly so good as the outlook for further delay and procrastination.

Moreover, it is practically decided that parliament is not to meet until January, thus involving further delay before the government's policy is finally sprung upon Germany.

Meanwhile considerably more than a fortnight will have elapsed since the government took office.

BIG QUESTIONS ARE BEFORE CANADIAN HEALTH CONGRESS

Toronto, Sept. 16—Dr. H. P. Bryce, medical superintendent of education for the dominion government, delivering the first address before the second annual congress of the Canadian Public Health Association today, asked these questions:

"How shall Canada save her people from physical and mental degeneracy due to industrialism as seen in the great cities of older civilization?"

"How long can a country, essentially a producer of raw material, by virtue of geographical location and extent of territory still largely undeveloped, continue to develop normally and prosper, when it has shown a displacement of rural population during the last ten years to an extent never witnessed before in the history of any people, and an increase of urban population rapid beyond the paleontological days of the United States immigration?"

Answering queries, Dr. Bryce said the existing conditions demanded a lessening of cost of agricultural production, careful preparation and conservation of farm products, and the cheapening of transportation between consumer and producer.

More varied and intensive farming would provide constant and profitable employment for farm laborers.

Dr. Bryce condemned the big packers for eliminating competition in buying by dividing up the territory amongst themselves, by freezing out the small drovers and butchers, and by getting control of civic or rural cattle markets.

Dr. J. H. Elliott, of Toronto, dealing with tuberculosis, said that every large municipality should have a sanatorium. The death rate could be lessened if improved social, hygienic and housing conditions could be secured.

Other ministers will also be absent from the capital at intervals for the next month or so.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy Made From Garden Sage, Restores Color to Gray Hair

A feeling of sadness accompanies the discovery of the first gray hairs which unfortunately are looked upon as heralds of advancing age.

Gray hair, however handsome it may be, makes a person look old, and all know the advantage of being young.

Aside from the good impression a youthful appearance makes on others, simply knowing that you are "looking fit" gives one courage to undertake and accomplish things. So why suffer the handicap of looking old on account of gray hairs, when a simple remedy will give your hair youthful color and beauty in a few days' time?

Most people know that common garden sage acts as a color restorer and scalp tonic as well. Our grandmothers used "Sage Tea" for keeping their hair dark, soft and luxuriant.

In Wye's Sage and Sulphur Hair Remedy, we have an ideal preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp and thin, weak hair that is split at the ends or constantly coming out. A few applications of this valuable remedy will bring back the color, and in a short time it will remove every trace of dandruff and give you improved growth and appearance of the hair.

Get a fifty-cent bottle from your druggist today. Notice the difference in your hair after a few days' treatment. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

CITY FINANCES DEALT WITH BY MAYOR AT MEETING OF COUNCIL

Increase in Valuation Urged—No More Police Vacancies to Be Filled at Present

At the meeting of the city commissioners yesterday afternoon Mayor Frink introduced the subject of increased civic revenue and advised an increase in the valuation of property in the city by a million or more.

This would give about \$300,000 additional revenue. He also spoke of the large expense the city was under in the maintenance of the county home and other county institutions and he advised the re-adjustment of the burden so that the county would have to bear a just share of the expenses.

Commissioner McLellan introduced a resolution by which the police force is to be reduced by one man every time a vacancy occurs, until the council orders otherwise.

The invitation of the Massachusetts State Firemen's Department to the commissioner and the fire chief to attend the convention in Boston was accepted.

Payments on contracts are to be paid tri-monthly in future.

A bond issue to the amount of \$60,000 is to be made.

The city engineer was given ten days' leave of absence to attend a convention of the Waterworks Association in Washington (D. C.).

Several tenders were approved for the harbors, fisheries and public lands department.

SPORT NEWS OF A DAY; AT HOME AND ABROAD

Baseball Youthful Fans. One of the most pleasing features of Saturday's ball game was the kindness of John Russell, Jr., in admitting the boys of the Wiggins Male Orphans' Home and other boys...

When Eddie Ramsey was hit by a pitched ball in the last inning of Saturday's game on the Shamrock grounds, the ball broke one of his ribs. He did not know it till yesterday.

Pinkerton Aways. Hugh Pinkerton, the sharp second baseman of the Marathons, left on the Boston train last night for the Hub where he will join Mrs. Pinkerton on a short holiday before returning to their home in Sanford, Me. He was the recipient of two fine pipes and other remembrances yesterday from groups of admirers of the clever little second sacker.

Don't Like to Pay Dues. The recently incorporated Baseball Players' Fraternity is now the big talk of the fans, outside of the coming world's series. Some say that the formation of this body will eventually lead to a war, while others declare that it will die a natural death.

The obstacle in the way of the success of the organization is the assessment of the players. It is said that the 280 players already enrolled have been asked to pay dues of \$18 each annually, which would mean a total of \$5,040.

If there is anything the modern player hates to do, says a baseball writer, it is to part with money. The player of today is a great contrast to the old-time player who liked nothing better than to throw his money away. Nowadays they use all their coin buying farms, orchards and carriages, and they don't part with a cent that won't bring back its equivalent at least.

It is believed that this assessment will cause the death of the new union. If this does not cause its demise it is said that a war with the managers will mean the knock-out punch. It is understood that the first thing the players will ask for is a representation on the national commission, which request will most likely be refused, with the result that a war will be started.

The Catcher. The Washington team is a corking good ball club this year, but no one factor has played a more prominent part in the success of the club than the catching department. In John Henry and Eddie Ainsmith, Clark Griffith has two of the greatest receivers in the business. Both have wonderful arms, and it is always a good bet that the runner who tries to steal will be thrown out. Both are fairly good batters, death on foul flies and for catchers they are mighty fast on their feet. Better still, they do not get their pitchers continually in the hole by calling for twelfth balls. So true are their arms that they don't have to continually report to the waste ball to get the runners stealing. The Boston club is going well because Bill Carrigan is having the best year of his career; because Cady, secured from the Newark club of the Eastern League, has developed into a star in a year; because Nunnaker, who is doing very little catching of late, is a better receiver than the regulars on a number of the major league clubs. True, Carrigan has not a very good arm, but he manages to get the ball down to second in good time.

Football U. N. B. Captain.

Hal Murray of Moncton will captain the U. N. B. football team this season. "Babe" Church of Milltown will act as coach. The squad have started practicing and expect to be in shape before long.

British Matches. London, Sept. 16.—The feature of the first league Saturday was the victory of Derby County over Sunderland on the latter's own grounds. The county got promotion only this season, after a spell in the second division. Chelsea, the other promoted team, also achieved a meritorious victory over Sheffield United.

Everton maintained its great form by a heavy defeat of Notts County, while Blackburn Rovers, last season's champions had a runaway victory over the Spurs. Oldham Athletic also did a fine thing by beating Newcastle United.

In the second division, Hull City nearly promoted last season, beat Glossop on the same ground. The following are the full results:— First Division. Blackburn F. C., Tottenham H. C., Bradford C. C., Liverpool F. C., Chelsea F. C., Sheffield U. C., Sheffield W. F. C., Manchester U. C., Aston Villa F. C., Oldham A. F. C., Newcastle U. F. C., Sunderland F. C., Derby C. C., W. Bromwich A. F. Wells Lost On a Foul. London, Sept. 16.—Hughie McEwan, lightweight champion of Australia, won the decision in his fight tonight in the "Blackfriars" ring, against the English champion, on a foul. Wells was disqualified in the fourteenth round for knocking McEwan down. The fight was fast and furious throughout.

McFarland Ring Wizard. Packey McFarland, of Chicago, known throughout the pugilistic world as the "Stock Yards Champion," because of his being the idol of that section of the city, is accumulating a fortune rapidly and has set his plans to make \$100,000 in the next year. This is to be done by a combination of his brain and brawn.

McFarland has gone about his ring contests the same as a contractor secures a job. If the task can be completed in three days the brainy contractor realizes that it is folly to waste size and submit his machinery to unnecessary wear. It is the same with McFarland. If he sees that a bout can be ended in three rounds he will fight ten, but, if in trying to end the bout quickly and decisively he feels he is endangering his tools, which are his hands, why he simply wins by the scientific route. It is that element of uncertainty which has made McFarland the magnet to attract ring-goers. His science at times is bewildering and ardent followers of the game are oft-times at a loss to follow his plan of attack and defence, says a writer in the Philadelphia Ledger.

"BUGS" RAYMOND

Wonderful in Physique and Strength, a Great Pitcher, But Too Erratic

Arthur I. Raymond, who was found kicked to death in a Chicago hotel in a few days, was known as "Bugs" on account of his eccentricity. He was a comparatively young man. He was a member of the New York National League pitching staff for two years, 1908 to 1910, and was regarded as one of the greatest and speediest pitchers that ever lived. He was a man of wonderful physique and strength, but exceedingly erratic, owing to his habits.

He started out with Rockford, Ill., and Waterloo, Iowa. While a member of the latter team he won nine straight games, but the attention of Ed Barrows, then the Detroit manager. Barrows thought better of his bargain after he had purchased Raymond, and sold the eccentric pitcher to the Atlanta Southern League club. Raymond was disgruntled at his failure to get at least a one-game try-out with Detroit, and walked in his own southern surroundings. The manager mistook the eagerness for inefficiency and traded Raymond to another club in the same league.

It was as difficult to manage off the field as he was when playing, and during his connection with the Giants Manager McGraw was kept busy watching the big pitcher. On one occasion McGraw suspended Raymond for an infraction of the club rules. The big pitcher was found behind a bar the next day in his Giants uniform dispensing drinks. During a trip from Chicago to New York McGraw and Raymond engaged in a fist fight in the sleeping car. The manager handed Raymond a surprise party and the pitcher promised to behave himself thereafter. He was suspended several times by McGraw before he was finally released.

Raymond, in form, was a clever pitcher, and relied upon his cleverness to win games, as he used his brains with speed, strength, and a good assortment of curves. Invisable Airship Invented. Baron Adam Reanne, a well-known airship and naval engineer, has taken out a patent in England for an invisible airship. Invisibility is to be achieved by making the outer case or envelope of the airship, a metal possessing a highly polished surface, which will be permanently maintained by means of a covering of transparent varnish.

The outer cover will thus to all intents be converted into a mirror, and invisibility will be achieved by reflection. The baron says that there will be no recurring shade down at the bottom of the keel, as would be the case with the latter shell taper to a point. The airship will then always take the color of the surrounding elements, and, though larger than the biggest liner, will be invisible at any height above 2,500 feet. Special electric devices will also be used for the engines.

Gold coins made before June, 1887, and silver coins of a date previous to June, 1847, are not accepted by the Bank of England.

REV. LEB. MCKEIL OF FAIRVILLE DEAD. Beloved Anglican Clergyman Was Almost Oldest in Province—Funeral on Thursday

The death of Rev. LeBaron W. McKel, for many years the beloved pastor of the Church of the Good Shepherd, Fairville, and one of the oldest Anglican priests in New Brunswick, occurred this morning. His illness had been a lingering one and it was known for some days that the end was near. With loved and loving ones around him he passed away at half past six o'clock.

Rev. Mr. McKel was born in Kings County, N. B., in 1841, and was therefore seventy-one years old. He received his college education in Kings College, Windsor, N. S., and was graduated there in 1864. In the next year he was ordained by the late Bishop Medley in Fredericton. He had labored faithfully in the forty-seven years that have followed, in Bahrurst, Douglas and Bright, St. Martins and Fredericton, coming to Lancaster eighteen years ago and there remaining as rector of the Church of the Good Shepherd until a few weeks ago, when he retired and was succeeded by Rev. Walter P. Dunham. On the occasion of his retirement his congregation paid him a marked tribute of love and respect. He had endeavored himself to them all by his public qualities, as he had won the esteem of the whole community.

Rev. Mr. McKel married Annie Ellen Rudolf of Lunenburg, who died seven years ago. There survive three sons—Cecil, Medley, and Rudolph, and one daughter, Doris, at home, and two married daughters, Mrs. M. Zwicker and Mrs. A. H. Rudolf of Lunenburg. There are also four brothers—Frederick, Albert, Ed ward and George, and three sisters, Mrs. D. A. Arams, Mrs. E. Ferguson and Mrs. E. Hibben. For all there will be deep sympathy shown by many friends.

On Thursday morning at a quarter past seven o'clock the body will be taken from his residence to the church, where he so long labored in his Master's work. There will be Holy Communion served at eight o'clock and thereafter until the time of the funeral service at half past two that afternoon the clergymen of the diocese will take watch beside the bier. Interment will be in the Church of the Good Shepherd cemetery, Manawagonish road.

They were allowed to go on condition that they would not repeat the offense.

Herbert Nice, charged with blasting rock in Clarendon street last week, pleaded guilty. Policeman Ward told of rock having been sent in the air over the tops of houses, into Main street and doing damage to several houses. The damage to one house amounted to \$50. Nice said that he had made good the damage done. A fine of \$50 was struck against him and allowed to stand.

FATHER OF CANADIAN CLUBS HERE

Charles R. McCullough of Hamilton an Interesting Visitor

CONFEDERATION ANNIVERSARY

He Has Proposed That the Fredericton Convention Discuss Semi-Centennial—Impressed With St. John and Sees in Maritime Provinces Great Summer Country

Charles R. McCullough, of Hamilton, widely known as the father of the Canadian Club movement, and president of the Federation of Canadian Clubs, is in the city on his way to Fredericton to attend the annual convention of the clubs, which will attract delegates from all over the country. It is Mr. McCullough who has proposed for discussion at Fredericton the celebration of the semi-centennial of Confederation and the fostering of Canadian ideas and sentiment.

Twenty years ago Mr. McCullough called together half a dozen friends in his office in Hamilton, and as a result of their informal discussion the Canadian club idea was born.

Mr. McCullough and his wife and children have been in the maritime provinces for five weeks, spending most of that time in Prince Edward Island and one week in Halifax. He has devoted much attention to tracing the itinerary of the confederation conferences, and has been most successful in doing so. In St. John today he is securing some facts concerning the movement for the election, in Ottawa, in the semi-centennial year—five years hence—of a national memorial perpetuating the memory and crowning achievement of the fathers of confederation, and Mr. McCullough has done much to promote this plan.

Mr. McCullough, who has seen something of St. John, expresses himself as most favorably impressed by the appearance and energy of the spirit displayed here and the prospects for extensive development. He is delighted with the maritime provinces as a summer country and believes that many thousands of upper province people would come here to spend their summers if they really knew more about our attractions.

AUTOMOBILE BURNED

Mr. Dunfield's Runabout Destroyed Near Model Farm

A runabout motor car, belonging to Bliss H. Dunfield of this city, was destroyed by fire near Model Farm last night. The car had been out driving in the car, and when near Model Farm something went wrong and the car stalled. Mr. Dunfield telephoned in to the city and had another car go out to tow him in. While being towed to the city the runabout broke away from the other car and went down over a hill and through a fence. It caught on fire, and before any assistance could be rendered was enveloped in flames. It was a total loss.

Mr. Dunfield has had the car only a short time, having purchased it from a man in Nova Scotia. The car was partly insured, but the insurance was not nearly enough to cover the damage.

SEPTEMBER BRIDES

A very pretty wedding was solemnized in the Cathedral of the Immaculate Conception at 8:45 o'clock this morning when Miss Annie Ellen Doyle, daughter of Mrs. Bridget Doyle, was united in marriage to William Howard, son of the late James Howard of Sussex. The ceremony was performed by Rev. A. W. Meahan, who celebrated nuptial mass. The bride was daintily dressed in cream marquisette over cream pique silk dress, trimmed with duchesse lace, and a cream plush hat trimmed with willow thistles. She carried a bouquet of roses.

Miss Mary Doyle, a sister of the bride, acted as bridesmaid, and was gowned in a whipcord melon shade dress and an English feather handkerchief. She carried a bouquet of pink carnations. The groom was supported by his brother James Howard. The bridesmaids were James Daley, Vincent Murphy and Frank McCann.

After the ceremony the wedding party drove to the home of the bride's mother, 116 Brussels street, where luncheon was served. Mr. and Mrs. Howard left on the 11:20 o'clock express this morning for a honeymoon trip to Charlottetown and other parts of Prince Edward Island. On their return they will reside at 29 Carlton street. The bride's going away dress was of navy blue with hat to match.

Both the bride and groom received many handsome presents. The groom's present to the bride was a gold bracelet with emerald settings, and to the bridesmaid a pearl ring. To the groomsmen and ushers he gave gold scarf pins. Among out of town guests here for the wedding were Miss Annie Campbell, of Boston, Mr. and Mrs. P. Howes of Sussex and Mr. and Mrs. M. McElrath of Bridgewater, Mass.

Turner-Perry. At the home of Mr. and Mrs. R. E. Akerley in Adelaide street at nine o'clock this morning, Rev. B. E. Nobles of Victoria street Baptist church united in marriage Frederick Freeman Turner of Amherst and Mrs. Elizabeth Jane Perry of this city, sister of Mrs. Akerley. There were no attendants. IF THE CLOTHING YOU BUY THIS FALL BEARS THE OAK HALL LABEL you'll have every reason to be satisfied with your purchase and you'll save money. An Oak Hall label on a suit or overcoat stands for the utmost in looks, in wear and in value that it is possible to give. Ever since we started in business we've lived up to the principle of never putting our name on any garment we couldn't conscientiously guarantee for satisfactory wear. As a result of our adherence to this principle, our business has developed from a very small beginning in 1889 into the greatest retail clothing concern in Eastern Canada. Of course, other things besides our square dealing policy have been instrumental in bringing about our extraordinary success. Progressive methods have also been a factor. But our ability to undersell other stores (an established and unquestioned fact) has been the chief reason for our unrivalled and constantly growing following. And each season finds us better prepared to provide for the wants of our ever-widening circle of patrons. This fall finds us with larger stocks and greater varieties than ever—all ready for you to see and choose from. It will be well worth your while to see what you can get here, and we'll be glad to welcome you and show you what we have, whether you buy or not. So come!
