Newfoundland Royal Naval Research and mind, it trembles on every erve. Suitable young men from lip. That one word 'war' means more than pen can e'er unravel to the hearts of men; means more than even symmetrical should apply to the nearest pathy can share. He only feels it who can answer prayer.

Therefore, to the God of Peace Newoundland would raise a prayer for those engaged in the fearful struggle and unceasing strife. She would pray that the rash, fierce blaze of riot may not last long, but like violent fires soon burn itself out, and in the end that right may triumph and gain the laurel-crown to wear.

Newfoundland has sent forth volunteers to mingle in the great struggle. We believe it will be a comforting thought for our soldiers on the far distant fields to remem per that loved ones in the dear old nome are sending up to the Throne of Grace petitions for their preser vition, and we hope that they on the field 'Where mingles war's rattle with groans of the dying' will at times have a practical realization of the Communion of

Saints.

Vast and boundless are the claims upon sympathy and prayer in the present unrest and thirst of nations for war, for only God alone can command peace to fold her wings in every clime.

Prayer is the friend of the brave.

War Summary

Martial law has been declared throughout the Union of South Africa, as a result of the discovery of a rebellion in the northern part of the Cape province, which adjoins German southwest Africa.

The proclamation of martial law declares there is reason to believe that the government of German southwest Africa is endeavoring to corrupt other citizens of the Union with promises of the establishment of a republic in South Africa.

It has been decided to remove the Belgian government to France, King Albert, however, will remain with his troops in the field. Some of the ofly changed, and the Siek Man, so long ficials of the Belgian government and the members of the diplomatic corps accredited to Belgium already have

left Ostend for Havre. The eastern arena of the war has recorded no particular activity, other than continued preparations for a decisive combat in Russian Poland along a battle front, which probably will extend from Kalisz to Lods, to Pietrkow, to Kielce, and to Busk, in Galicia. Germany claims to hold all the western part of Russian Poland, with the exception of Warsaw, and it is becoming clear that the German military operations in the eastern theater are

being concentrated in Poland. The Kaiser Wilhelm canal, accord ing to an Amsterdam report, has been closed to ordinary traffic for the duration of the war.

Prince George of Servia, brother of he crown prince, is reported to have been mortally wounded. Prince Oleg, son of the Grand Duke Constantine of Russia, has died of wounds received in

There has been a briet armistice at Kiao-Chau, China, to bury the dead. The governor of this German territory is endeavoring to arrange for the departure of all non-combatants remaining in Tsing-Tau,

London, Oct. 28.—The Admiralty has warned ship owners that the Gernans have succeeded in laying mines around the north of Ireland, and that Stone ships should therefore not pass within sixty miles of Tory Island.
