PRINCE HENRY.

His Welcome in Canada-Arrived in Boston Sharp on Time Today.

NIAGARA FALLS, March 5.-Prin Henry spent two hours here this after-noon, and was welcomed by Major noon, and was welcomed by Major Maude, representing the governor general, and by Hon. Richard Harcourt, who headed the delegation appointed by the Ontario legislature to welcome the Prince on behalf of the people of the province.

A pleasing incident was the presentation of a photo of the monument of Kaiser Wilhelm I., Prince Henry's grandfather, erected in Berlin, Ont, by German residents, which the Prince graciously accepted and acknowledged in felicitous terms.

by German residents, which the Prince graciously accepted and acknowledged in felicitous terms.

ROCHESTER, N. Y., March 5.—
Prince Henry saw Niagra Falls today from every available point of view, and declared the view magnificent. When his train arrived in this city fully 20,000 people were out to welcome him. At Syracuse, in the evening, he was again greeted by a great throng and presented with an address.

WORCESTER, Mass., March 6.—
Prince Henry's train passed through here at 8.15 a. m. It was the only train that ever passed through the Union station here in the memory of anybody without stopping. A delegation of the city government was on hand with a present for the prince, but could not get near enough to the train to throw it aboard as the train sped through.

BOSTON, March 6.—Prince Henry's train reached the south terminal station at 9.35 a. m. just on schedule

DESPERADOS CAPTURED.

Charged With Murder and Daring Train Robberies.

EL PASO, Tex., Mar. 6.—Geo. I. Musgrove, said to be a leader of a band of south-western desperadoes and a brother of the noted "Black Jack," who was hanged at Clayton, N. M., a year ago, has been captured near Alama Gordo, N. M. He is wanted in New Mexico on charges of murder, post office and train robbery. Among other depredations committed was the robbery of the post office at Fort Sumner, where a half dozen men were held up and a 12-year-old boy was killed.

The robbery of the post office caused the federal authorities to take a hand in the chase and inspector Doran, atter a week's work, succeeded in locating Musgrove, who will be brought here today. The arrest of Musgrove was followed by the capture, near Clifton, of Wat Neil, J. Cook and Joe Roberts, supposed members of the same gang. They were rounded up by Arizona rangers on Blue river, after a hard chase. EL PASO, Tex., Mar. 6.-Geo. I. Mus

THIS BEATS THE BOERS.

MANILA, Mar. 6.—A court-martial has been ordered to try Major Littleton, W. T. Waller and Lieut. John H. A. Day, of the Marine Corps, on Mar. 17 next, on the charge of executing natives of the Island of Samar without trial. Some of the circumstances in the case are peculiarly atrocious. One native was tied to a tree and publicly shot in the thigh.

The next day the man was shot in the arms. The third day he was shot in the body and the fourth day the native was killed. Friends of the two officers attribute their actions to loss of mind, due to the privations which they suffered in the Island of Samar.

THE STORM.

SARATOGA, N. Y., Mar. 6.—The blizzard here came to an end at midnight after twelve inches of snow had failen. Country roads are badly drifted, but railway traffic is unimpeded. READING, Pa., Mar. 6.—As the result of the extraordinary fall of snow street railway traffic in this city is at a standstill and not a line is running to the country districts. Great drifts were reported during the night along the lines of the steam railroads, but the trains manage to get through, although some were very late.

MORMON ACTIVITY.

COPENHAGEN, March 6.-The Mor COPENHAGEN, March 6.—The Mormon missionary propaganda here has become so active that they are distributing literature even within the Danish churches, urging young girls to attend Mormon meetings. Statistics show that one out of every twenty-two emigrants to the United States becomes a Mormon. The clergy in connection with the government are continuing their plans to put an end to the proselytizing.

THE FIRE RECORD.

PLAINFIELD, N. J., March 6.—The most destructive fire in many years destroyed the Babcock building on West Front street and adjoining buildings early this morning. Loss was \$250,000 on which there is a full insurance. Part of the upper floors of the Babcock building was occupied by offices, lodge rooms and club rooms and in the rear part of the building lived a number of families. So far as known there were mo casualties.

THE TURK'S TROUBLES.

CONSTANTINOPLE, Mar. 6—Osman Pasha, son of the famous Kurdish chief Bedrahan Pasha, whose trial on the charge of high treason began here Feb. 20 behind closed doors, has been sentenced to death, but the sentence will be commuted to perpetual imprisonment. General Nazmi Pasha, a son-in-law of the former Grand Vizer Ali Pasha, has been arrested.

Outline of Promised Legislation-The Speech From the Throne.

The Speech From the Throne.

(Special to Star.)
FREEDERICTON, March 5.—The local legislature was formally opened by Leut.-Governor Snowball at 2.30 p. m. today. His honor was attended by his aides-de-camp, Cols, McLean and Coll, and by Capt. Lister and his secretary R. S. Barker, The party was preceded by Sheriff Sterling and Coroner Mullin. At the parliament buildings a guard of honor from the R. C. R. I., under Capt. LeDue, presented arms and a royal salute was fired by a detachment from the Woodstock Field Battery in command of Major Good.

The governor was finet at the door by the sergeant-at-arms and escorted to the chamber, where the blinds were drawn and the gas lighted. Speaker Robinson escorted Governor Snowball to the chair, and the speech was then read. Premier Tweedie moved the adjournment of the house until to-morrow.

Rev. J. D. Freeman was the chaplain of the house, but he having removed to St. John, it will be necessary to appoint another chaplain. The appointment will be for only the present session, as the house will dissolve before another session.

The only changes in the seats to be occupied by the members are that Mr. Allen removes to the seat vacated by Senator Thompson, Mr. King will take Mr. Allen's former seat and Dr. Ruddick will have the seat of the gentleman he succeeds, Mr. McLeod.

The officials of the house will be the same as last year and Dr. Hannay will gain be the official reporter of the proceedings.

FREDERICTON, March 6.—The local legislature was formally opened this afternoon. The speech from the throne referred to the royal visit last fall, the assassination of President McKinley, the prosperous condition of the province, the dairy industry, wheat growing, Queens County coal fields, winterport business, Eastern Extension award, fishery award claims, and the Quebec resolution of 1888. The unsatisfactory state of the branch railways of the province connecting with the I. C. R. was referred to, and the house invited to consider whether the dominion authorities might not properly be urged to make arrangements for their operation. Bills to amend the public health act, providing among other things for the compulsory vaccination of children attendings the public schools, to amend the law relating to investments by trustees, a workman's compensation for injuries act, a bill to provide a forest reservation, a bill to provide for the importation of horses, were among those promised in the speech.

Colonel Luscomb, Major Turpin and Capt. Dixon of the Military Athletic League have just returned from Canada, where they went for the purpose of arranging for the presence of Canadian troops at the military tournament, which is to be held in Madison Square Garden this month. They visited Dr. F. W Borden, Canadian Minister of Militia and Defence, and Lord Ayliner, the adjutant-general of the Canadian forcess and they would send the Highlanders from either Montreal or Toronto. A review will be tendered Dr. Borden some night during the week and it will be attended by several Canadian officers. The Highlanders band will come with the soldiers.

HIS APPROPRIATE QUOTATION.

(Philadelphia Evening Telegraph.)

"Some years ago," said a preacher,
"we inaugurated in our Sunday school
the practice of our children quoting
some Scriptural text as they dropped
their pennies into the contribution box.
On the first Sunday in question, a little
shaver walked up and said: The Lorloveth a cheerful giver,' and in dropped
his penny. 'Charity shall cover a
multitude of sins,' and in dropped the
next. 'It is more blessed to give than
to receive," quoted the third, and so
on, Just then up walked a little fellow with the unmistakable remnants
of molasses candy on his chubby face,
and, as he dropped his cent, he bawled
out: 'A fool and his money are soon
parted.'" (Philadelphia Evening Telegraph.)

LONDON, March 6.—The second levee held by King Edwar since his accession to the throne, occurred at St.
James Palace today. It was not so
largely attended as the first of the
king's levees, but it was surrounded
by the same elaborate ceremonial. A
dense fog marred the function from a
spectacular point of view, both within
and without the palace. No Americans
were presented, but the members of
the U. S. embassy attended the ceremony.

VICTIMS OF SNOWSLIDE.

TELLURIDE, March 6.—The bodies of Reddin Boughen and John Nixon were found yesterday in the ruins of their cabin, which had been crushed by a snow slide.

The men were working a mine in Bear Creek basin, about five miles from Telluride. The basin is full of snow and it is feared that other miners have been killed there. The body of James Kraul, who was killed by the first snow slide at the Liberty Bell mine, was found yesterday by a party which was preparing the bridge house for the use of the rescue parties. Fourteen bodies are known to be still in the snow.

MARBLE FALLS, Texas, March 6.—
Fire has broken out in the cedar brakes near here, and great tracts of valuable timber are being consumed. Everything is as dry as tinder, and there seems to be no way of controlling the fire until it burns itself out. Few people live in the path of the fire and they have had ample warning.

BOER AGENTS WARNED

Must Not Interfere With Shipment of Mules From New Orleans.

NEW ORLEANS, La., Mar. 3-It de

NEW ORLEANS, La., Mar. 2—It developed here today that Secretary of State Hay had written a letter to Mayor Capdeville, which was referred to Gov. Heard, expressing the fear that the Boer representatives and sympathizers in New Orleans might attack the British horse and mule quarters at Port Chalmette, just below the city, where the mules and horses are kept awaiting shipment to the British army in South Africa.

Gen. Pearson, the Boer agent at New Orleans, after the failure of his suit in the United States court to break up the mule-shipment business, wrote a personal letter to President McKinley, in which he protested against the British being allowed to use the United States as a base for their war supplies. The letter was so emphatic in denoucing the mule depot at Port Chalmette as to fill Secretary Hay with the belief that Gen. Pearson intended to organize a force to attack the depot. He accordingly wrote to Mayor Capdeville, expressing his apprehension, and asking him to assure the British officers that the mule depot would be pretected.

But the depot is just below the city

tected.

But the depot is just below the city limits, in St. Bernard parish, where Mayor Capdeville is wholly without power or authority. The mayor accordingly referred the communication to Gev. Heard, and the latter sent it to Sheriff Nunez of St. Bernard. The latlow no fights or other trouble in his parish growing out of the Boer-British difficulty. As a precaution, however, he arrested two Boer agents who were found in the neighborhood of the mule depot, and they were warned to keep away from there.

WESTERN GROWTH.

While windy orators in the United States occasionally talk about annex ng Canada this country continue quietly to annex the citizens of that ountry. We do not witness the move ment in the east, but it is growing in the west. An agent of the dominion mmigration department, who has jus ome from the west, tells the Ottawa Journal that about 75,000 of the Amer ican farming population of the north ern and western states are expected to move into Canada this year. They have taken up a large amount of land within driving distance of the C. P.

The evangelical conference in Pennsylvania, which passed resolutions condemning patent medicines would rob many people of their most cherished privilege. There is a vast army of individuals to whom the announcement of a new cure-all is a message of de of a new cure-all is a message of de-light. They have already tried all the old ones, and are thirsting for the new. If they were deprived of the privilege of experimenting on themselves with a new pill or tonic or powder their days would be full of trouble and heartweariness. Why should the good brethren in Pennsylvania do this thing? is there not enough spiritual quackery within the borders of the republic to keep them busy? From Shiloh in From Shiloh in Maine to Dowie's Zion in Chicago and on to Utah and the coast, spiritual nostrums without number are being produced and scattered far and wide. LETTERS FROM THE PEOPLE.

HOSPITAL AFFAIRS.
To the Editor of Star,
Sir,—In its crusade against the General Public Hospital the Telegraph does not tell all the facts. Many of the stories concerning the conditions prevailing in the hospital, which were formerly well known, have been told in a one-sided manner with the evident intention of showing the worst possible side of the matter to the public. Stories of patients who say they were cruelly used have been publishel, shocking descriptions of flith have been told, and recently the alleged abuse of the dead has been made the excuse for sensations.

A few facts as to the other side of these stories may not be out of place. The building itself is an old one, and, like most old buildings, is simply infested with rats and mice. Traps have been in continual use and other methods have been employed for the extinction of the rodents, but in spite of the numbers caught every day, they continue to increase and flourish, which is a habit that rats and mice are known to have. Under these circumstances it is not surprising that they may sometimes be found in the wards as well as in other parts of the building, where during the night, quietness prevails. None of the hospital staff deny that thee and rats are plentiful in the building, and all agree that they should be exterminated, but the question out there is who is to do it? Every member of the staff has his or her own duties to perform and in the past no one of them has felt like turning ratcatcher for the commissioners. Bedbugs, too, are known and always have been known to be no strangers in the building. The evidence so far adduced before the royal commission has shown that a certain amount of carelessness may exist, but on the other hand with the entirely insufficient staff in the hospital many things may have been overlooked. All kinds of patients are received in the institution. It is no uncommon thing for a patient to be taken there whose clothes have to be burned at once, and who must be given a bath before he or she is fit to occupy a bed in what is supposed to be a clean ward. Vermin are brought into the hospital every day in the week, and in spite of all precautions, they cannot be exterminated. One of the hardest duties which falls to the lot of the matron is keeping the wards free from these creatures. In spite of all that can be done, they are sometimes found on the beds. Nothing is more natural when persons of almost all conditions of life are found together in one room. But whenever one of these creatures is seen steps are at once taken to cleanse the bed or other article on which it may be found. I

tract, and all goods not procured in this way are purchased by order of the commissioner for the month. Patients sometimes request little dainties in place of the regular food supplied. Under the present system of management these cannot be furnished, for the hospital staff are not permitted to buy as much as a seldlitz powder or a sandwich without an order from the commissioner. The contract food is said to have been bad. The bread was sour, the butter strong, and other articles unpalatable. This is all explained by the statement that the supplies are procured by contract, and the fault is again in the system of management—not in the nurses.

The most recent attack developed by the Telegraph is in regard to the method of disposing of the dead. The statement has been made that bodies are placed in the morgue wrapped in a sheet. What else would be done with them? The clothing of the patients is often destroyed, in other cases it is looked after by their friends. When a patent dies, his friends are at once notified and requested to arrange for the burial. This is sometimes done, but in the majority of cases the body is left to be disposed of by the hospital authorities. The undertaker is allowed three dollars for conducting the funeral, and out of this he could hardly be expected to furnish clothing. No appropriation has been made by the commissioners for the furnishing of clothing, and bedclothes used in the hospital are not supposed to be sent away.

A new morgue has been built in the building and has been kept clean up till the present, although on the staff of the hospital there is no one whose duty it is to clean it. The old morgue, since the smallpox epidemic, has been allowed to fall into disrepair.

FOR LIBERAL UNITY.

HOSPITAL AFFAIRS.

LONDON, March 5.—Sir Henry Campbell-Bannerman, liberal leader in the house of commons, speaking in London tonight before the National Liberal Club. made a strong plea for liberal unity.

Without extending the olive branch to Lord Rosebery in such a fashion as to presage a coalition of the two forces, Sir Henry began comparing Lord Rosebery's new league to an excellent army equipped with a general staff but without recruits. He said no true friend of liberalism would introduce discordant factions into the party and thus paralyze efficient action. Under certain circumstances, he said, their duty would be to fight such a section with all power and energy. Sir Henry said he had been assured, however, and that he was ready to believe that this new section of the party was working on parallel lines and for identical objecting of the party.

Sir Henry denied that any personal differences were responsible for the split in the party.

own mind and was not torn by internal dissensions.

Byery reference made by Mr. Redmond to Lord Salisbury, the premier, Mr. Wyndhum, the chief secretary for Ireland, Lord Rosebery and H. H. Asquith, M. P., was greeted with groans and hisses by his hearers.

Continuing, Mr. Redmond said that the demands of the people for home rule were made of the people for home rule or wipe it off the slate, it would remain, the speaker said, to confound, confuse and divide English parties, to wreck English governments, to ruin English statesmen, to paralyze English parliaments, and to blast the moral influence of England before the world, until it was settled by the concession of the Just, moderate and constitutional demands of the Irish people.

EXTINGUISHED FIRE WITH MILK

ANSONIA, Conn., March 4.—The barn of Joseph G. Dickinson in Woodbridge, was saved from destruction by fire by the pouring of 200 quarts of milk on the flames.

Forty cows had just been milked and Forty cows had just been milked and a farmhand was distributing hay to the animals when one knocked the lantern from his hand. The loose hay blazed up and the stable was soon in flames. Seizing the heavy milk cans in his arms, one at a time, the man dashed in among the terrified cattle and spread the milk on the blazing hay, and the flames were put out. Ten of the cows were so badly burned that they must be killed. The man was burned about the hands.

THE QUESTION OF THE

Hygienic Bakery

ST. JOHN'S CHURCH. Professor Stockley's lecture this evening upon the new Shakespearian theories promises to attract a large assemblage. It is very rare in literary history that a theo y for so long ridiculed as worthy of a lunatic's imagination, should later be raised to serious consideration. If their efforts do no more than to contribute to the further study of Shakespeare's works, Mr. Donnelly and Mrs. Gallup will not have written in vain. Professor Stockley's lecture will commence at 8 o'clock. Alderman White has consented to preside.

TEMPLE OF HONOR,

An adjourned meeting of the Grand Temple of Honor was held last night in Alexandra Temple hall, to consider the report of the committee on the state of the order. This report treated of the membership and subjects relating to its future welfare. It was discussed pretty thoroughly and many points of interest brought out, and was finally adopted as a whole. The matter of the Supreme Council meeting in St. John in August next was considered, but final action was postponed till the annual meeting of the Grand Temple in June.

renders a strike impossible, it is claimed.

In speaking of the agreement tonight, President Shaffer said:

"The magnitude of this deal may not be realized, but it is the greatest that has ever been effected in the history of the working people with capital.

"It is agreed that, pending negotiations, the mills shall continue to operate, the present rate of wages to be paid. The agreement holds good until July 1, 1903, during which time the present scale will be paid. If any differences arise, however, whether questions regarding hours, or, in fact, anything, they will be discussed at a conference. The question of recognizing mon-union mills may be subject to discussion at conference."

When asked how many mills and men would be affected by the agreement, Mr. Shaffer said that it included every mill in the United States and probably 100,000 men.

ONTARIO'S REFERENDUM.

ONTARIOS REFERENDUM.

TORONTO, March 5.—The second reading of the prohibition referendum took place in the legislature today. In moving the reading, Premier Ross said the bill had been well received by those parties interested. The people wanted prohibition at any cost, those who wanted it on fair terms, and those who objected to prohibition, believed the bill could be enforced. The basis of the vote would be that of the election of 1898, which was 456,976. One more than half of this would carry prohibition. The vote on the referendum would take place early in November.

The men are quite intelligent fellows. One is a brass worker. The other a gilder, and both are Upper Canadians. Being out of work and walking the streets of Montreal, they accepted the job of taking care of cattle from that city to St. John, and here shipped as cattlemen, receiving, they say, one pound each for the run to Glasgow, and one shilling for the return voyage to St. John. While at Glasgow they stopped over night in a house from which two dead bodies were taken the next morning. The men had died of smallpox.

A corner lot in Sydney that sold five years ago for \$2,000, and a year ago for \$7,000, has just changed hands at \$10,000.

Mrs. Alex. Black, of Fredericton, died today in her 80th year, leaving one son and six daughters. She suffered a stroke of paralysis about a month ago.

It is stated that W. B. Smith, of North Sydney, is endeavoring to form a company to bottle the waters of the Willmot Spa springs, near Middleton, N. S., and build a sanitorium.

The Numidian is due at Halifax on Saturday next. Her passenger list in-cludes 153 steerage, 33 second cabin and 2 first cabin passengers. The im-migrants will disembark at Halifax. It was expected that the two patients in the isolation hospital would be released today, but on account of the storm they were kept another day. Both have entirely recovered.

The prevailing snowstorm has given work to quite a number of the prisoners now in jail who are fondly imagined to be serving hard labor sentences. Thirteen of them were busy shovelling today and the work was done in just as energetic a manner as is shown by the city's gravel scratchers—one shovelful and an eight bars rest.

THE JAMAICA SERVICE.

Complain of Bad Management at the Island End,

Complain of Bad Management at the Island End.

Considerable complaint is expressed by wholesale fruit dealers in regard to the manner in which the new Jamaica steamship service is being conducted. It has been found practically impossible to have goods, ordered from Jamaica shipped here by this line, and in a number of cases consignors who were asked to forward fruit have been compelled to send their shipments via Halifax and Boston. One firm in this city ordered a large consignment of fruit from one of the leading companies in Kingston and expected to receive it by the last trip of the S. S. Ask. It did not come, but a letter has been received stating that the agent of the line in Jamaica positively refused to accept a package of freight on consignment. The produce now being brought is shipped by one agent to another, in the same manner as is done by American and Canadian fruit companies, and on this account the service is of absolutely no benefit to the dealer who wishes to import his own stuff.

A Kingston paper, in an article dealing with the new service, recently contained the amazing statement that when the Ask reached St. John on her first voyage, the people here failed to recognize the fruit she carried as bananns, because it was of such a high grade and in such fine condition. This will scarcely be borne out by the condition of the bananas brought on the last trip of the steamer, and which are now being sold on commission by the fruit dealers here.

Local merchants who ordered goods from Jamaica are receiving them via Halifax and some of these orders are being filled by a Kingston company which offered to guarantee the line a regular freight of \$1.800 per trip.

Mary McNamee tried to disguise herself and fool the court by changing her name to Maggie. The deception was discovered and in spite of the change wrought in her complexion by last night's storm she was recognized. Mary was found on Charlotte street early last evening fly officers Marshall and Baxter, in a condition which the officers describe as "spiflicated" and was this morning sentenced to two months in the Good Shepherd. She had to walk to that institution and on the way endeavored to entertain the officer who escorted her, with remarks such as would never be attributed to the author of Watt's hymns.

fax. Commissioner Thomas and the inspectors who went from here will return tomorrow.

Dr. Heiser said that he examined almost five hundred immigrants from the steamships Neekar and Carisruhe, and out of the whole number practically none were detained on account of being unable to pass the medical examination. All of these persons were destined to American points and were to have landed at an American port. The reason they were in such a healthy condition is that the agents in Europe who send immigrants to American ports will receive only those who are physically sound. All applicants are compelled to pass an examination before leaving their own countries and another one required by the regulations of the steamship line before sailing. The immigrants who were landed at Halifax were examined in all three times before leaving Europe and any who might be considered unfit were compelled to remain behind.

Steamship companies bringing immigrants to Canadian ports do not examine them in Europe and consequently the percentage of rejected persons landing in Canada is much greater than in the United States. American companies are compelled to deport all rejected immigrants, but Canadian contains the united States can be dumped in Canada.

Orangemen Will Awaken Interest in Their Insurance Branch.

(Toronto World, March 4.)

The insurance branch of the Most Worshipful Grand Orange Lodge of British America met last night in Victoria Hall, with the president, Dr. T. S. Sproule, M. P. of Markdale, in the chair. There were present John McMillan, Dr. Beattle Nesbitt, Dr. John Noble, John Hewitt, J. S. Leighton, Secretary, Edward Floody, Emerson Coatsworth, Jr. and William Lee. The meeting was the first of the branch held outside of the regular sessions of the Grand Lodge of the order and was called for the purpose of devising plans to increase the membership of the association. Dr. Sproule stated that the insurance in force was \$2,800,000, while up to date \$300,000 had been paid in death claims. The amount paid out during the past year amounted to \$30,000. It was decided to hereafter hold annual meetings of the association. The executive committee will consider the suggestion that a reserve fund be instituted. Steps will be taken at once to instil greater interest into the branch. (Toronto World, March 4.)

CHANGED THE SEASONS.

The tail end of the heavy snow storm which has been sweeping over the New England and Atlantic states arrived here on schedule time last night. In an hour or two it changed the appearance of the town, from early spring to mid-winter. A heavy fall of snow made the use of wheels almost an imposibility, and this morning sleighs were brought out again. In all five inches of snow fell. A fresh breeze blew all night from the northeast and attained a velocity of thirty-two miles an hour this morning. While the snow was fairly, heavy and sticky the wind drifted it al over the place. Traffic was not, however, blocked to any extent, although the Boston train was delayed two hours. The street cars experienced little difficulty in running on schedule time. Before noon the barrometer moved upward and the forecast is for better weather. The tail end of the heavy snow

The salvage money awarded to the crew of the steamer Tanagra, for the work done by them in subduing a fire in the hold of that vessel some time ago has arrived. Among those who obtain a share is H. L. Waring of this city, who was at that time third engineer on the vessel. When the fire was discovered in the cargo, volunteers to fight it were called. Mr. Waring responded and was lowered down with others. At the risk of their lives they played a stream of water on the fire and finally subdued it. The action of Mr. Waring and those with him was brave in the extreme and they well deserve any reward that might be given to them.

LEPREAU, March 5.—Miss Nellie Reynolds is visiting friends in St. John. A. J. Gregory, mother and sister, spent Saturday visiting the Gregory mill and boarding house.

Miss Maggle Hope, of Little Lepreau, who has been sick for over a year, is fast recovering under Dr. H. P. Reynold's care.

Mrs. D. A. Kennedy, who is in New York for the good of her health, is expected home about the middle of March.

A NEW FAST I. C. R. TRAIN. (Montrael Star.)

(Montrael Star.)

The officials of the Intercolonial Railway Company are at present making arrangements to place on the road a new fast limited train, between Montreal and Halifax. The new train wiff be known as the through passenger and mail train. It is proposed to make the run between the two cities in less than twenty-five hours. In conjunction with the maritime express the new train would establish a double daily mail out of this city.

ceived from the nurses, it proved successful.

The treatmet I received while there was certainly all that the most exacting could desire, and as my case required and got a great deal of attention, I think I am qualified to express an opinion. I experienced no difficulty in getting attention from either the house physicians, Drs. Macaulay and Lunney, or the nurses and always found the matron, Miss Mitchell, most anxious to have things as they should be. My room was always kept in good order, my medicines given regularly and every need promptly attended to. To the nurses, Misses Belle Smith, Ellis, Holder, Kellier, Murphy, Ferris, Ida Smith and Hall I feel especially grateful and am convinced that it is owing to the existence of such an institution as the General Public Hospital that my life was saved. In conclusion I may say that should occasion require I would without doubt return to this institution for treatment. Thanking you for this space, I remain,

In the Right of Way, Gilbert Parker has returned to Canadian scenes and people, the protrayal of which brought him. Into prominence as a writer. This latest work is one of the strongest pieces of fiction recently published. In brilliancy of literary execution and subtle analysis of character, The Right of Way is probably the best thing Mr. Parker has yet produced. The story is largely a brilliantly powerful description of the character development of Charles Steele, as he appears in the different parts of lawyer, man about town, and finally after a peculiar incident as tallor's assistant in the little town, and finally after a peculiar incident as tallor's assistant in the little village of Chaudiere. Charles Steele, the accomplished, insolently cynical, is one of the most interesting characters in recent faction. Here and there throughout the book the reader is reminded of the scenes and characters in some of Mr. Parker's former works. His description of the habitant and his life is charmingly told. The heroine, the sweet and beautiful Rosalie Evanturel, stands in vivid contrast to the man, of whose life she later becomes a part. Altogether the story is a magnificent one, which will increase Mr. Parker's reputation.

THE Octavius Newcombe Co. are operating their extensive factories in this city to full capacity, endeavoring to keep pace with orders for their popular Newcombe planos. The Newcombe planos have been extremely popular throughout the Dominion of Canada for a number of years, and the company have been obliged to increase their manufacturing facilities from time to time in order to keep pace with their constantly growing business. While these planos have always met with a great deal of favor among the musical critics of the country, they have increased in popularity to a great extent since they received a gold medal at the Paris Exposition in 1900. The Newcombe plano is a strictly high-grade instrument, and possesses excellent tone quality, and has received the endorsement of many of the leading musicians and artists in Canada; they have also been highly recommended by visiting artists, who have used these planos for concert and recital work in this city and in other parts of the country. They make a specialty of their case designs and their planos are always finished in the highest possible manner; they are made throughout of carefully selected material by the most competent mechanics which it is possible to secure —N. (Goldwin Smith in Atlantic Monthly.)
When John Stuart Mill ran for parliament in Westminster he was asked at one of the meetings chiefly composed of the working classes, whether he had ever published the opinion that the working classes of England, though they differed from other countries in being ashamed of lying, were generally liars. He answered without hesitation that he had, whereupon there was vehement applause. The first workingman who spoke after Mr. Mill's admission said amid cheers that the working classes wanted friends, not flatterers.

Maud Muller on a summer's day
Set a hen in a brand new way.
(Maud, you see, was a city girl,
Trying the rural life awhirl.)
She covered a box with tinsel gay.
Lined it snuely with new-mown hay.
Filled it nicely with eggs, and then
Started to look for a likely hen.
On the flock selected one,
And ther flock selected one,
And there he thought that her work was
done.

I know how to make you see." You bet But still it stood, and worse Shrieked forth its down to the universe, Kicked over the bax with a say. And ignominiously flapped away. Then a bad boy, over the barnyard fence, Tee-heed: "Say, Maud, there's a difference Tween hens, you know, and it is that One says 'Ka-doot!' and one 'Ka-dat!' Then Maud recalled that the ugly brute She tried to set had said "Ka-doot!" And ever since that historic day She blushes in an embarrassed way To think of the hobble she made once when She tried to set a gentleman hen.
