

ONE CENT

open, floor-in

ST. JOHN STAR, TUESDAY, AUGUST 15, 1905.

W. E. C. NAZRO, who has called for the Panama canal employees to endeavor to devise amusement enterprises for the canal employees to reconcile themselves to the uninteresting life on the isthmus. The government regards his novel mission as a most important one.

ROY NORTHROP BURST BLOOD VESSEL.

The crew of the steamer Crystal Stream, which arrived about 3 yesterday afternoon, from Cole's Island, brought with them the death of Roy Northrop, which took place Saturday night. The immediate cause of the boy's death, according to Coroner Earle of Grand Lake, was the bursting of a blood vessel when the boy was in the water.

The Crystal Stream arrived at Cole's Island shortly after six on the night of the accident. Young Northrop was working unusually hard after the landing in order to get his work done in time to go in bathing before dark, and was then going to spend the night with his cousin, Thomas Northrop, one of the deck hands, whose home is a short distance from Cole's Island. In his haste the boy got much overhauled, and at ten minutes past seven, when the work was done on the boat, he with others went to a raft a short distance from the wharf and undressed to take a bath. Roy was the first to get undressed, and going to the edge of the raft, covered as he was with perspiration, he jumped into the water, thinking it to be quite shallow. At that point, however, the water happened to be 20 or 30 feet in depth, and upon striking the water he immediately went to the bottom, not to rise again. Neither Roy nor his cousin were able to swim, but under the circumstances it would have made little difference to the ill-fated boy, as the effect of the bursting blood vessel alone would doubtless have caused his death.

While the accident was taking place the father of the boy sat on the wharf not 300 feet distant, but out of sight of the raft, talking to one of the deck hands. The other Northrop boy, Thomas, when his cousin jumped in, was scarcely undressed preparatory to following him in the water, when he was notified that Roy did not come to the surface again. Even then he did not seem to realize what it meant, and ran around to the wharf to tell Mr. Northrop that the boy had got in the water and couldn't get out.

The father and several others ran to the spot where he had gone down, but no sign of the boy could they see anywhere. It was not two minutes after the boy had struck the water before they were on the spot, but it was two minutes too late. The alarm was soon given, and the whole neighborhood turned out to search for the body. As darkness came on they gave up the task and many left for home, thinking to follow it up in the morning. A number of men in boats continued the search a while longer, however, and with the aid of boat-hooks, the body was finally discovered, about an hour and a half after the accident, not more than 20 feet from the end of the raft, where he had jumped in.

Coroner Earle of Grand Lake was summoned, and yesterday morning held an examination, which showed that death was due to a bursting of a blood vessel, caused by a too sudden change of temperature. While the examination was being made the body was bleeding badly at the mouth and nose.

The burial took place yesterday afternoon at Thornetown, the original home of the family. Mrs. Northrop with one son and one daughter went on yesterday morning to attend the funeral. The deceased had been very popular among the boat hands since his going on board. He had a happy, jovial disposition, and was very obliging. His comrades on board the boat were struck with horror to learn of his sudden death, and have not yet quite recovered from the shock.

WITHDRAWN ALL CLAIMS AGAINST CO.

David Russell Willing to Surrender Entire Holdings in Abbey Effervescent Salt Company.

MONTREAL, Aug. 14.—It appears that David Russell has expressed willingness to retire his entire holdings in the Abbey Effervescent Salt Company, and also to withdraw all claims that he might have against the company, doing this because his friends are of the opinion that he is under moral obligations to help them. A communication in which Russell made known his views of the matter was sent to Ralston Smith as a member of the committee of the company. Writing under date of July 5th, Russell recalls that in May last he sent a letter to Sir George A. Drummond, wherein he stated he was anxious to help the shareholders in every way possible. The letter proceeds: "In order to accomplish this I have by today's mail sent instructions to London to surrender to the company my entire holdings in the Abbey Effervescent Salt Co., Limited, amounting to 16,335 shares, £10 each. Thus the capital of the company can be reduced by £163,350, and I also agree to withdraw any claim to foreign rights in order that they may legally revert back to the shareholders of the Abbey Company, to deal with them in any manner they may deem advisable, on account of my withdrawing my claim for \$181,815.84, which I personally paid in cash at five per cent bonds of the shareholders. My reason for adopting this course is that a number of my friends who are shareholders, claim that I am under a moral obligation to help them." As yet the company has not taken advantage of Mr. Russell's offer.

C. P. R. FINANCES.

Dividend of Two Per Cent on Preference Stock and Three Per Cent on Common Stock.

MONTREAL, Aug. 14.—At a meeting of the directors of the Canadian Pacific Railway Company today, a dividend of two per cent on the preference stock for the half year ended June 30th last was declared. A dividend of three per cent, for the same period was also declared on the common stock.

The results for the fiscal year to June 30th last were:

Gross earnings—Fifty millions four hundred and eighty thousand eight hundred and eighty-two dollars.

Working expenses—Thirty-five millions six thousand seven hundred and ninety-four dollars.

Net earnings—Fifteen millions four hundred and seventy-five thousand and eighty-eight dollars.

Income from other sources—One million five hundred and eighty-four thousand six hundred and eighty-three dollars.

Total net income—Seventeen millions fifty-nine thousand seven hundred and fifty-two dollars.

Less fixed charges—Seven millions nine hundred and fifty-four thousand and sixty-six dollars.

Less amount applied against ocean steamships and pension fund—Two hundred and thirty thousand dollars.

Net revenue available for dividends—Eight millions eight hundred and seventy-five thousand six hundred and eighty-six dollars.

After payment all dividends declared, the surplus for the year carried forward to one million seven hundred and eighty-four thousand five hundred and fifty-three dollars.

RUBBING IT IN.

Secretary Elhu Root was talking about the humanity of judges.

"They are humane men," he said. "I could tell you many moving stories of the pain that they have suffered in the infliction of severe sentences. It is not altogether pleasant to be a judge."

"That is why I cannot credit a story that was told me the other day about a judge in the west. A criminal, on trial before this man, had been found guilty. He was told to rise, and the judge said to him:

"Have you ever been sentenced to imprisonment before?"

"No, your honor," said the criminal, and he burst into tears.

"Well," said the judge, "don't cry. You're going to be now."

What is the Meaning of "Well Balanced" Flour.

A perfectly "balanced" flour is one which contains the greatest amount of nutriment in its most easily digestible form. No single variety of wheat will produce "well balanced" flour. It requires the careful selection of different kinds.

The makers of ROYAL HOUSEHOLD FLOUR have more than a hundred elevators, scattered throughout the greatest wheat growing country in the world, which enables them to secure the very pick of the wheat that will yield perfectly balanced flour—

—The kind of flour that produces the best, the largest and the strongest loaf—

—The loaf which contains the greatest amount of bone, muscle and brain-making protein and the lowest percentage of waste.

ROYAL HOUSEHOLD makes bread which reduces the labor of digestion—and gives greatest nutrition for least stomach effort.

It's the "balance" in flour that makes bread easier to digest and gives it many other qualities which are usually attributed to other causes.

Ogilvie's "Royal Household" Flour.

HARRY MCCLASKEY HAS GONE BACK TO NEW YORK.

He Is Kept Pretty Busy These Times —May Go to Europe Next Year.

Harry McClaskey, accompanied by his friends, Dr. and Mrs. Niles of New York, left for home yesterday morning on the St. Croix after a very pleasant outing at New River Beach. Mr. McClaskey and Mrs. Niles on Sunday evening entertained a number of friends at Mr. McClaskey's parents' home to an hour of music. All who were present agree that the St. John tenor has improved wonderfully since he was here last. His voice perhaps is not any purer or sweeter, but he has gained the faculty of deep expression, and has in fact changed so greatly that one would hardly know it was the same singer. His facial expression is now not the least of his art, and he seems to throw himself wholly into his singing. The rendition of the dramatic composition "If Thou Wert Blind" is said to be one of the finest bits of work heard here for a long time.

Mrs. Niles has a very fine soprano voice, and she was heard to excellent advantage, both in solos and in duets with Mr. McClaskey. The latter has during the past couple of years become in a sense famous all over America through his singing for the phonograph or gramophone companies. He is engaged by the Edison, Columbia and Victor companies, and has been doing exceedingly well in this. In addition he has his work in the church of the Incarnation in New York, and is besides a member of a well known male quartette which aggregation has received a very flattering offer for a tour of ten concerts in New England next year. Mr. McClaskey has not yet decided whether he will accept this offer or not, but there is still plenty of time for consideration. Mr. McClaskey is second tenor in the quartette.

MANY SALMON AND SOME BIG TREES.

B. M. Farris Speaks of Industries in the West.

B. M. Farris, who came recently from the west to attend the wedding of his brother, is in the city. Mr. Farris is a son of Hon. L. P. Farris, and went to Bellingham, Wash., four years ago. He is now teller in the First National Bank of that city. Bellingham is a flourishing place, having grown in population from 15,000 four years ago to 80,000, and has the largest salmon cannery in the world. At this factory one hundred thousand fish are canned every day. They grow a few large trees in that neighborhood, too, according to Mr. Farris. From one he mentioned one hundred and fifteen thousand feet of lumber was manufactured. Mr. Farris is an enthusiastic westerner, and expects to return to Bellingham in a few days.

A PARTIAL ECLIPSE.

Many People Were Moon-Gazers Last Night.

There was a partial eclipse of the moon visible last night to those who watched up to see it. The middle of the eclipse occurred at 11:41. The moon entered the shadow at 10:39, and left the shadow 45 minutes after midnight. The night was very clear, and many people enjoyed the spectacle. There is really no scientific importance attached to an eclipse of the moon. It always happens and can only happen at the time of a full moon, and is caused, as most people are aware, by the earth passing between the sun and the moon, the earth's shadow being cast on the moon. The reason an eclipse does not happen at every full moon is because the orbit of the moon does not coincide with the plane of the earth's orbit.

The next eclipse of the sun will take place on the 16th of August. The eclipse will commence shortly after sunrise. Those who desire to see the total eclipse, however, will be obliged to go to Labrador.

ENGLISH ENGINEER VICTIM OF HEAT.

Had Been Working in Hay Field at Burton—Was En Route to Coal Fields.

FREDERICTON, N. B., Aug. 14.—The long list of victims of the extreme heat throughout this section of the country has been augmented by a sad fatality at Burton on Saturday. Geo. Hopper, a young Englishman, had been employed by John Rusk in the hayfield. On Saturday he left the rest of the haymakers to go to a spring nearby for a drink. He was gone an exceptionally long time, and his friends became alarmed. Later on he was found lying by the side of the road, and those who discovered him thought he was dead. He was carried to Mr. Rusk's house, and a doctor was summoned, but the poor fellow was past all physical help, and soon passed away. So far as can be learned, Mr. Hopper had no relatives in this country. He was 23 years old and was an expert engineer, being en route to the coal fields near Chipman, Queens Co. The funeral took place yesterday, Rev. H. E. Diblee officiating.

FUNERAL OF H. W. COX.

HALIFAX, N. S., Aug. 14.—The funeral of H. W. Cox, who was drowned on Saturday, took place today. Among the floral tributes was a wreath from the Liberal and conservative election committees, and one of the ward two section in which he worked. It showed how highly he was esteemed not only by his own political friends on the conservative side, but by those on the other side who knew him.

MESSRS. FRASER MAY NOT REBUILD.

And Fredericton May Lose Aberdeen Mills.

FREDERICTON, N. B., Aug. 14.—The loss of the Aberdeen fire is now estimated at about \$85,000, of which amount \$35,000 is covered by insurance, \$30,000 on the lumber and \$15,000 on the mill and plant. The chief question with the citizens of Fredericton, however, is not one of what has been but what will be, whether or not the Fraser & Son will rebuild on the old site. Some citizens allege the enterprising firm could not be blamed if it refused to construct another mill after the treatment it received a few years ago at the hands of the city council in respect to the fire protection. Had the city at that time agreed to the request made by Fraser & Son to extend the water system further up town, such a calamity as that which happened on Friday last might not have occurred. At the present time the Frasers are not in a position to say whether they will rebuild or not; but people as a rule take an optimistic view and feel that with the assurance of proper fire protection, the enterprise will be started up again. It is not at all likely that the present council will attempt to follow in the steps of its predecessors and deny fire protection, but on the other hand will do all in its power to encourage the rebuilding of the property just destroyed. The statement of assurance upon the burned property is as follows:

LUMBER.	
Phoenix of London	\$14,000
Home of New York	6,000
MILL.	
Phoenix of London	\$5,000
North Briton	3,500
Atlas	2,500
Queen	2,000
British America	2,000
\$15,000	

The removal of the Infantry School from the city is very much felt, and the officers and soldiers' quarters in the Queen street present a most dead appearance. The city newspapers are not boasting very much just at present what Laurier and his government have done for this section of the country.

From 83 degrees in the shade on Saturday to 77 on Sunday evening is the changeable record of the York county atmosphere.

PERSPIRATION ODORS

Are absorbed and neutralized by South African Foot Powder. LADIES are urged to try this pleasant Antipruritic Powder for Toilet and Nursery, 25 cts. from your own Druggist, or C. K. Short, St. John, N. B. By mail on receipt of price.

ST. STEPHEN HAD SERIOUS FIRE.

Large Portion of the Town Was in Danger—Assistance From Neighboring Towns.

ST. STEPHEN, Aug. 14.—A fire that for some time threatened great destruction occurred in the upper end of the town early this afternoon. Soon after dinner an alarm was sounded for a fire at the residence of Mrs. Arthur Bradley on Hawthorne street. This proved to be a burning barrel of shavings and was easily extinguished. As the firemen turned to leave, great volumes of smoke were noticed overhead, and investigation revealed that around the corner on Union street a barn owned by the Jas. Murchie & Sons Co., and containing thirty-five tons of hay, was a sheet of flames.

The St. John fire department was the first to throw water, but almost instantly the flames leaped to the barn of Geo. F. Pinder, not one hundred feet away, and that structure was soon burning fiercely. The departments from Milltown, N. B., and Milltown, Me., came down, and the four companies fought valiantly until the flames were subdued.

Mr. Pinder's barn was entirely consumed and the shed destroyed. The house and ell were saved, though badly damaged by smoke and water. Mr. Pinder and his wife are both out of town, and the amount of insurance cannot be learned. The damage will amount to \$1,500.

The Murchie & Co. barn and contents, which were completely consumed, carried \$400 insurance on the barn and \$200 on the hay.

The origin of the fire is much in doubt, though unless caused by spontaneous combustion it was probably of incendiary origin.

A strong wind was blowing directly on the town and chimneys were carried for long distances. The fire caught on the roofs of F. P. MacNichol's barn, S. C. Stewart's barn, Hiram Hartford's house, Judge Stevens' house, and away down town on the roof of W. A. Miller's store.

SCHOONER CAPSIZED; CREW OF 5 DROWNED.

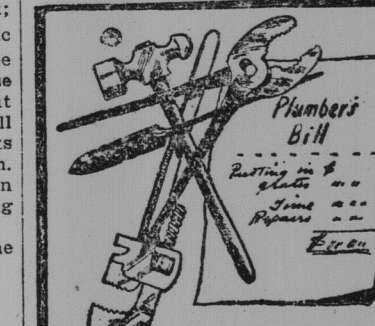

HALIFAX, N. S., Aug. 14.—The schooner Garland, lumber laden, was capsized about five miles off Low Point, C. B., in a sudden and terrific squall of halibut, which swept the coast after noon today. The disaster was observed from the lighthouse, and the crew were seen to climb over the sides, but when the squall had cleared, the sea was dashing over the vessel, the men having been swept away and drowned.

Word was immediately sent to Sydney, and the Dominion Coal Company's steamer Cacouna went out to the scene of the wreck. The steamer found the vessel on her port side with two lifeboats and mainmast set. They saw a couple of oars floating about, but no sign of life anywhere. The steamer cruised about for over an hour, but saw no trace of a boat or anything to show that the crew had escaped the wreck. The Garland was owned in South Port, P. E. I. She was 51 tons register, and carried a crew of five. It cannot be ascertained tonight where the vessel was from, but apparently she was bound for Sydney.

J. L. MACDOUGALL MAY RE-ENTER POLITICS.

Rumored That Wright, M.P., Will Resign in Favor of A. B. Aylesworth, K. C.

KINGSTON, Aug. 14.—It is rumored here that Aaron Abel Wright, M. P., will resign his seat in South Renfrew in the house of commons, that he will be provided with an office and that A. B. Aylesworth, K. C., prospective minister of justice, will run as the liberal candidate in South Renfrew. Renfrewites are suggesting that J. Lorne MacDougall, late auditor general and former member of South Renfrew, might re-enter the political arena and say his election would be assured. He could make some lively reading for the house and country.

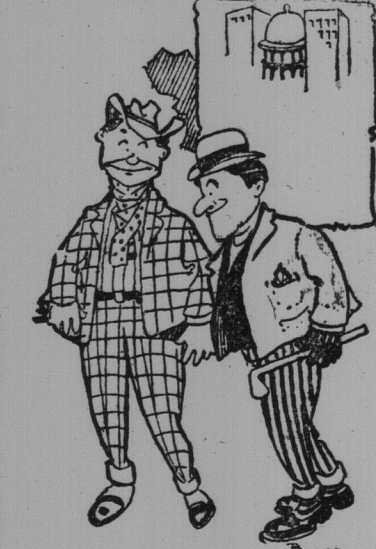

Did you ever have your range grates burn out? If you did you will know what that means in common ranges—it means plumbers, delay, muss and big bills—because common ranges are built that way. As range grates must some time burn out you are certain to have that kind of trouble if yours is a common range.

If you have the Pandora you won't have any trouble, because you can take out the old grates and put in the new ones in ten minutes, and a ten cent piece for a screw-driver does it easier in the Pandora than a whole kit of plumbers' tools will do it in common ranges.

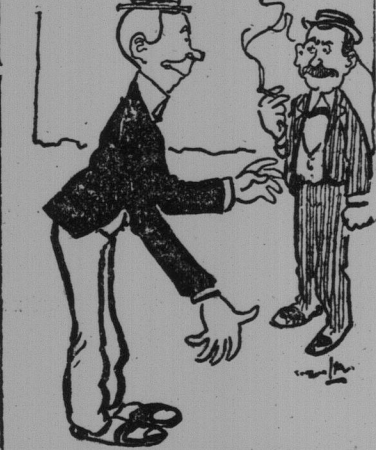

McClary's Pandora Range

Warehouses and Factories: London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton.

Life's Funny Side.

TO BE SURE. Jigson—I understand that you and Booser went shooting together. I'm surprised that you should go gunning with a drunken man. Higson—I didn't know he was loaded.

ONE ADVANTAGE. "Don't you hate to live at a boarding house?" "Oh, I don't know; it has given me such a reach that I am able to scratch my own back."

NOT VERY DEEP. Miss Vassar—I'm just wading through Tennessee. Mr. Barnard—So am I, dear. I've just gotten to the middle of "The Brook."

CALLED HIM DOWN. Irate Passenger (on street car)—suppose you think yourself a gentleman? Conductor—No, I don't think I'm anywhere near a gentleman.

GROWING WORSE.

During the twenty-two years since Mr. Blair became premier of New Brunswick several reorganizations have taken place in the government, but none of them has amounted to a change of administration. Men have taken the place of Mr. Blair who are less effective in most things, but who can easily beat him in running the province in debt. The provincial administration seems now to have absolutely fallen under the control of speculators and adventurers.

Year after year the bonded debt is increasing, and of late we are adding to direct obligations large indirect debt in the form of guarantees. When a measure is introduced for a public enterprise no one knows when it will stop. There is no finality about any public contract. Money is appropriated for an undertaking with the positive enactment and solemn official assurance that not a dollar will be paid until the work is completed. Then the whole is paid before the work is half done. Other loans and guarantees follow and the obligation of the province is doubled. Still the work does not get finished. Finally the other parties to the contract disappear altogether. And no one knows who they were or what they got. But we have the debts and the party finished job, and the demand for its completion.

The Central railway job is a sample. It could be said for Mr. Blair when he was here that costly as he was, he got something done. His contracts were contracts. Yet he was not so costly as his successors. The province paid him one way and another much more than it paid Mr. Fraser and Mr. King as leaders of the government when they held the position of attorney general. But Attorney General Pugsley has drawn in salary and for special services more than the annual amounts that satisfied Mr. Blair. No one knows how much he has received in the same time as legal advice of concerns having business with the government. They talk about extra indemnities at Ottawa. What would they say there to a minister drawing \$10,000 a year, with a nominal salary and indemnity of \$2,000?

THE MODERN YUKON.

The production of gold in the Yukon has steadily fallen off since 1900. In that year the yield was more than double last year's output. After some gleamings of fine gold the chief discovery was made in 1900. The next year gold to the value of \$2,500,000 was sent out. This was multiplied by four the next year, and in 1903 the yield was \$13,000,000. Dawson was then a city three times as large as it is now. There was a further increase to \$25,000,000 in 1905. That was the climax. In 1904 there was a drop of \$4,000,000, and in 1905 another equal falling off. In 1906 the output was down to \$11,000,000, and last year to \$10,000,000. This year the yield will be still less.

Notwithstanding all this we expect that gold mining in the Yukon is more profitable now than it was in 1900. If the produce of the field then amounted to double the yield of last year the men who got it were more than double the number now in the country. The cost of living was far greater than it is now. The output of 1900 would probably not nearly pay the board and other expenses of the men then dwelling in the district. Today there are not one-tenth as many adventurers spending money which they took into the country. Most of the men there are at work in some department of industry and depending for a living on their efforts, not on the money which they took from home.

THE COBALT COUNTY.

There is at present a great rush of prospectors and investors toward the silver and cobalt mines of northern Ontario. New companies are formed and incorporated daily, for the average mining promoter is one who operates with other people's money. But the advance guard in the field is largely composed of substantial investors who are expending their own money and proceeding with prudence on business principles. Millions will probably be lost in this field of activity as in other mining districts. But there is every reason to believe that great wealth is there for the men who have knowledge and resources to bring it out.

Our fellow countrymen the Doukhobors are once more organizing pilgrimages. The last party reported was travelling without baggage and without need of any. They left their clothing at home. It cost Canada several dollars per head to bring these eccentric people here, but if they should march to a more Southern clime, where garments are less necessary, Canada could bear the loss.

In the western town of Lloydminster the first Sunday of August, Presbyterians, Methodists and Baptists united in a communion service. The three parties officiated. Church union would not be a violent operation in that neighborhood.

The Toronto News is publishing as a serial, Mr. Theodore Robert's new novel "Brothers in Peril." It is a story of Old Newfoundland.

The subject of the union of the Maritime Provinces has been the topic of discussion of the Maritime Board of Trade at Yarmouth. It is not a live subject but it ought to be. It will be a burning question with the people of New Brunswick who are willing for union with the capital at Halifax, or the people of Nova Scotia with the capital at St. John, or Fredericton, or Moncton, or the people of Prince Edward Island with the capital on the mainland.

The Maritime Board of Trade, which meets at Yarmouth today, has important business on the programme. The meetings are a sort of parliament, without power to act but with infinite power of telling legislators what they ought to do.—Sun.

Great Britain has withdrawn her former North American squadron from this station. But it may perhaps be said that the naval contingent now in the St. Lawrence is the strongest British fleet ever seen in Canadian waters.—Sun.

Norway is practically unanimous for absolute separation from Sweden. That must settle the question. Sweden would not attempt to force the sovereignty of King Oscar on an absolutely and uniformly unwilling people.—Sun.

THE LAST ROSE.

Save me the last rose from the garden To see in my absence of sweets. For the first are forward and harden In forcing their proudish conceits;

And so I would rather wait long For the last that looks up to the skies And hold in its heart, like the swan, The sweetness it yields ere it dies.

—Frank L. Stanton.

FREDERICTON WANTS ENGINEER BARBOUR

FREDERICTON, Aug. 13.—At a special meeting of the city council tonight it was decided to employ F. A. Barbour, a well known engineer, for the purpose of examining the Fredericton water supply and report upon the possibility of obtaining a system of gravitation, and if not what means may be taken to improve the present system of filtration. Reports were received from the city engineer and from Water Superintendent Alexander Burchill, who pointed out that the pumping station had reached the limit of its capacity and that a new one would be needed soon. Mr. Burchill recommended a new crib well and an additional pump. The strength of these reports it was decided to engage Mr. Barbour.

ROOSEVELT NOT FOR HARVARD.

Collier's declares that President Roosevelt would not make a suitable President for Harvard University. In the issue of August 13 it says:

Rumors are revived, from time to time, that Mr. Roosevelt, after having been offered the Presidency of Harvard, Such a choice would be a yielding to temporary glamour. No doubt in the stirring of the world would result a number of dead modes of thought and feeling would be disturbed, and a general shaking up might to some extent be wholesome for the university. But Harvard's function in the country is to stand not merely for efficiency but for proportion, for balance, and for measure. It is to be a model of self-control. It is an atmosphere which, as Montaigne said of wisdom, is like that above the mists, serene and clear. Now, Mr. Roosevelt is one of the most useful men in public life, but it is not for this measured wisdom that he stands. "You have had the longest, the most distinguished, and the most useful term of service that any American has ever had," he wrote the retiring Minister to Sweden, a good man, whose labors, however, have been possibly no more useful or distinguished than those of Franklin Pierce, upon a regularity in, act. There was no compelling reason for him to appoint John McLaughlin, of child labor notoriety, to a consular position. It was merely the latest instance of unwelcome caprice. In politics the President does so much good that his inexperience and his indiscriminate in thought, and some irregularity in choice of men is lost in the amount he accomplishes for good. In a place, however, where it is of the first importance to stand with quiet assurance for fixed and illuminated ideals, it is hard to conceive of Mr. Roosevelt as the most felicitous choice to carry on the work that Mr. Eliot has done.

MAY CAMP IN THE ALPS.

The statement that appeared in a morning paper to the effect that Chester Martin intends renting a chalet in the Alps for a short time is entirely incorrect. Mr. Martin will sail shortly for England, and after spending a week or so at Oxford may join a party of young men who have talked of sampling in some part of Switzerland for a few weeks before resuming their studies in October.

WITH ADVERTISERS.

Special sale of fine ostrich neck ties, both black and grey. Great bargains. Also sale of fancy neckwear and fancy summer hosiery tomorrow at F. W. Daniel & Co. See advt. on page 5. Dr. Eric's Tablets

FOR... Summer Complaint, Dysentery, Diarrhoea, Cholera, Etc.

These Tablets are prepared with the finest herbs and effect a sure and safe cure.

Price, 25c.

LOCAL NEWS.

The St. John County W. C. T. U. will hold its quarterly meeting in Carleton Wednesday afternoon.

The school board was to have held a session last evening, but owing to a quorum not being present, the meeting was adjourned until next Monday. A few bills were passed.

Rhodes, Curry & Co. have just completed a new private car for Earl Grey, which is said to be one of the best pieces of work ever turned out in Canada.

John de Angella has come back to St. John, and yesterday bought out the shoe shining business on Union street formerly conducted by "de fella named Gus." John will stay here for a time, but does not intend giving up his work in Boston. He will hereafter run both the recently purchased shop and the old one on the corner of Water street and Market square.

At the meeting of the maritime board of trade to be held this week in Yarmouth, St. John will be represented by W. S. Fleher, vice-president of the maritime board; J. N. Sutherland, H. Tilley, Croxby and B. N. Abbott. Mrs. Tilley will accompany her husband on a brief visit to Yarmouth. J. B. M. Baxter had intended going over but will not be able to do so.

William Malcolm, son of Andrew Malcolm, Duke street, returned on the May Queen yesterday afternoon from Chipman, where he has been supplying during the last four Sundays in the Presbyterian Church, for the pastor, Rev. D. McD. Clark, who has been absent. Mr. Malcolm after spending a few days at home will go back to New Scotland and continue his mission work there.

The city laborers have stayed their hands, and for the present will continue working for the present wage of \$1.40 per day. The meeting held last evening was not largely attended, and the question of demanding \$1.50 per day would be dealt with. The only other business done was of a negative character. It was decided to take no part in the Labor Day demonstration.

NOT JUST AS GOOD.

When you go to your druggist to buy "Ozone" ask and demand "Solution of Ozone, the coupon kind." This will give you a twenty-five cent package of "Celery King." It will give you the best preparation of "Ozone" in the world, and it gives you about twice as much for your money as other brands, sixteen ounces for fifty cents, over twice that much for a dollar, and a package of the well known remedy, "Celery King" free.

We put "Celery King" coupons in our "Ozone" because the people know "Celery King" because it gives better results than "Celery King" and because no other firm can give "Celery King" with "Ozone." It cures, that's the reason we give you a package free and that's the reason you should never buy any other kind.

Ask for "Solution of Ozone, the coupon kind," fifty cents and one dollar at your drug store, and don't take any other kind, because if you do you won't get a package of "Celery King."

THE KILTIES.

(Detroit News.)

He was Scotch and he was from Windsor. The odor of smokeless whiskey was very strong on him. The sights and sounds of Decoration Day had set him going at a holiday pace, and the music of the Kilties' band set his Scotch blood jumping more than was really attributable to whiskey.

His plans were to interview the bandmen after the performance and invite them, each and several, to join in some of the smokeless and talk over the old days among the Heather.

"Hoot, kiltie, come awa' wi' me an' use tae be on't."

"Dooan an' blitzen, he been wan Roostan, he?" asked a second bandman. "Hey, Roostan, gwan an' duck yourself."

"Further Scots, has a wee drapple whiskey wi' me for the days o' auld lang syne," was the only answer the Scotch could make.

"It's aye, Scettle, wat in the bloomie' ell d'ye want, hanyway? Hilt call the bobby. Hilt drunk you are."

But the Scotch had collapsed. There wasn't a Scotchman in the whole bunch of Kilties.

The Franklin Challenge.
The Franklin baseball team wish to state that it was a picked team that played St. Luke's and not their aggregation at all. They are willing to play the St. Luke's for any amount from ten to twenty dollars a side, on any grounds except the Shamrock grounds. They desire an answer through the sporting columns of this paper.

CRICKET.

MONTREAL, Aug. 14.—The Marylebone Cricket Club of London, Eng., began a match with a team representing all Montreal today. The Montreal captain won the toss and went to bat first. Montreal being retired for 105.

In their first innings, Marylebone put together 103. In their second inning, Montreal put on 73 for six wickets, when the play was called for the day.

For Montreal in the first innings, 88 top score was made by Richards, 28; not out. Watson for Marylebone scored 24.

TENNIS.

BOSTON, Aug. 14.—The fifteenth annual tournament of the Longwood Cricket Club closed this afternoon, with a slow and uninteresting match between former national champion Wm. A. Larned and Clarence Hobart for the Longwood cup. Larned winning in straight sets, 6-3, 6-2, 7-5.

QUOITS.

In the quoit match last evening on the Market Square, Carleton, F. Brown carried off the honors by defeating Robert L. Brittain, the best two out of three games. Score, 21-16, 21-11. Oscar Ring leads the quoit tossers in the West End championships.

THE TURF.

FOUGHKEPSIE, N. Y., Aug. 14.—The Grand Circuit trotting and pacing meeting which began at Hudson River Driving Park here this afternoon, furnished three good races under favorable conditions of track and weather for a fair-sized crowd.

YACHTING.

CANADIAN BOAT WON.
CHARLOTTETOWN, N. Y., Aug. 14.—The second race for the Canada Cup ended in a win for the Canadian boat, the Temeraire. The start was made at eleven o'clock, the American boat Ironquids, crossing the line three seconds ahead of the challenger. A strong breeze was blowing from the east and white caps were rolling.

The course was a windward and leeward one, four miles to a leg, twice around, with a five and a half hour time limit. The crew of the Temeraire shifted her bowsprit about a foot ahead, which raised her fore canvas somewhat higher and permitted of an increase of about three feet in the length of her spinnaker boom. A change was also made in some of her upper tackle, which allowed her main sail to go up much higher. There was no change on the Ironquids.

After a good race, during which the Temeraire was ahead the whole time, she crossed the line at 1:22, a winner. Both yachts now have a win each to their credit.

WRESTLING GOSPEL.

Although very few persons are aware of it, George Hackenschmidt revolutionized the training methods of wrestlers while he was in this country. His ideas of getting into condition were so unique that the majority of grapplers have imitated him, with the result that the majority of the knights of the mat have been considerably benefited in the way of condition. In the past wrestlers used to get into shape by merely working exclusively on the mat. They never thought of giving any attention to roadwork or boxing or fencing or any other exercise that would aid them in making their muscles supple. The result was that while they were on the floor, either acting as the aggressor or on the defensive, they were all right. But as soon as they were in a standing position their legs began to tire and they were compelled to get down on all fours once more or suffer a chance of being thrown.

Hackenschmidt surprised a lot of wrestlers who were anxious to lend their services in his training camp when the Russian suggested a spin on the road. He was told that the custom was an uncommon one in this country, and that if he indulged in too much of this kind of exercise he would certainly feel the effects of it. The Russian simply smiled and went ahead with the methods that had aided him so much in the past. He ran five miles every day, boxed, fenced and only gave about a half hour to wrestling. As a consequence, when he faced Jenkins at Madison Square Garden he was in the best of trim. His wind was perfect and his legs never gave him any trouble.

Jenkins' methods of training are similar to those of the foreigner, except that Tom does not believe in too much road exercise. He boxes and does a number of flips in the gym and develops his wind by a number of stunts. Most of his labor, however, is confined to wrestling. He says that a wrestler should do a lot of this exercise, because in this way he trains the muscles that he uses on the mat in an important bout. Frank Gotch trains a great deal like the boxers. There is nothing that he likes better than road work. Speaking about his methods, Gotch recently said: "A number of wrestlers put in their time working on the mat, but I find that I am always in better shape and that I can last longer when I train on the road. I also do considerable boxing."

It is Gotch's desire to try to meet Jenkins again, and he is positive that he can beat him in any other city than New York.

Clarence Bouldin, the "Cuban Wonder," returned to the mat the other night and met Jim Parr, of England, in a handicap match at Cleveland. Bouldin won without much of an effort. Parr was a clever wrestler a few years ago, but of late he has displayed very poor form. He has been beaten in succession by Jenkins, Gotch and Hackenschmidt. Quite strenuous and constant wrestling has not done him any good or else he is going back rapidly.

A new wrestler has arrived in this country. He is known as W. Demitral, the "Terrible Greek." The Greek is a heavyweight and came into prominence by throwing John Rooney the "Giant Grappler," of Chicago, in a recent match. Demitral's wonderful strength and prowess. It is said that his physical development is perfect and that he is nearly as strong as Hackenschmidt. Demitral is equally at home at either Greco-Roman or catch-as-catch-can. He prefers the latter style, however. Demitral is now matched to meet Wm. Bauman, of Rochester, in that city. Demitral has contracted to throw his opponent three times in one hour or forfeit a certain sum of money.

GOOD WHEAT CROPS IN ONTARIO.

R. A. Thompson, M.P.P. for North Wentworth, Talks on Provincial Matters.

R. A. Thompson, the liberal member for North Wentworth in the Ontario legislature, and a prominent flour miller, is at the Clifton, accompanied by Mrs. Thompson.

Mr. Thompson brings glowing accounts of the great crops of fall wheat that have just been harvested in his province, and thinks that the Ontario millers will in future get a larger proportion of the flour trade of the eastern provinces than they have in the past. There is an abundance of wheat of a fine quality, and other crops are equally good.

Mr. Thompson is rather cautious in his estimate of the wheat crop, but said that Premier Whitney had a great opportunity to distinguish himself. He had a very large and loyal following, and some very strong colleagues in the cabinet. The government was moving with deliberation, and had made no bad breaks as yet.

Mr. and Mrs. Thompson have visited Nova Scotia and Prince Edward Island previous to coming to New Brunswick, and will leave for the west today.

In spite of his years King Leopold of Belgium, is one of the most daring of men. Not only is he given to riding in an automobile at tremendous speed, but he also employs as a chauffeur one Marcel, who is a pronounced anarchist. In view of the many attempts made on the lives of European rulers, the king's retention of this employee is regarded as foolhardy. He has been warned against the man by the police of Belgium, France and Germany, but he pays no heed to their counsel. He addresses Marcel as citizen (citizen), the title which was substituted for all others in France during the reign of terror. Thus the cynical king pays mock deference to the leveling theories of equality.

AT "THE LONDON HOUSE."

SAILOR HIT WITH A ROCK

MONCTON, N. B., Aug. 14.—As a

result of the bad feeling which exists

between Point de Chene young men and

Norwegian sailors visiting that port in

summer, one of the Norwegians lies in

a precarious condition and is not likely

to recover. In a fight on Saturday

night the Norwegian was struck in the

back of the head with a rock and had

to be assisted to the ship. It is likely

that unless something is done to put a

stop to these fights murder will result.

ST. JOHN STAR, TUESDAY, AUGUST 15, 1905.

LOCAL NEWS.

Henry Harvey, the smallpox patient at the Isolation Hospital, was discharged last Friday. He has fully recovered.

The St. John Tennis Club met last night and elected one member, F. J. G. Knowlton.

Policeman Totten and Gossline left yesterday morning on a holiday fishing trip to the Metapedia.

Two drunks at the police court this morning were fined, one \$2 or five days, the other \$5 or two months, the distinction being the difference between a first offender and an habitual drinker.

Harry Frederick Bain, aged five years and two months, son of Howard Bain of Kentville, N. S., died suddenly at 5 o'clock yesterday afternoon. The child was a nephew of John Bain, 40 Celebration street, this city.

A fire in an abandoned black lead mine shaft, near Murray and Gregory's mill, created a little excitement about 1 o'clock this morning. The mill watchman and tugboatman easily extinguished it. The fire, it is thought, had been set by boys.

A teamster while driving along German street with a load of bananas about 4 o'clock yesterday afternoon had rather a novel experience. A spark from a pipe, it is supposed, set the straw and almost immediately several bunches of the fruit were blazing merrily. The fire was extinguished by means of a garden hose from a nearby house.

The directors of the street railway had a meeting yesterday but the question of extending the line to Millidgeville was not formally discussed as the plans have not yet been prepared. J. M. Robinson formerly managing director was presented with a handsome silver punch bowl in recognition of his services. The presentation was made by Col. H. H. McLean.

John Murphy of Kingsville Road, Milford, received word yesterday afternoon to the effect that a young man named James Murphy of Milford had been killed during the morning in Madison (Me.) Bath Mr. and Mrs. Murphy are greatly distressed as they fear it is their son James Murphy who left a week ago for Madison to work in a pulp mill.

SAN TOY.

It is seldom that so many favorite actors and singers are brought together as those which we will hear in "San Toy," which is to be presented under the personal direction of John C. Fisher. "San Toy" is held to be the most entertaining musical play now before the public. The story tells how a Mandarin, Yen How, in order to save his daughter, San Toy, from the Emperor, raises her as a boy and gets along very nicely until she falls in love with an English soldier. The courtship has almost reached the eloping stage when the Emperor demands Yen How to send his daughter to Pekin. Yen How complies with his majesty's wishes, and sends his daughter to the forbidden city, where she dons dresses and becomes a great favorite with the Emperor, who finally revokes the order he had given to have Yen How beheaded. After many complications and intrigues the Emperor sanctions the marriage of San Toy and the English soldier. There is something refreshingly funny going on all the time, fun of the good healthy kind in plenty interspersed with several delightful musical numbers which might properly be termed "gems." "San Toy" has the picturesqueness, the fairyland quality and the atmosphere of the real musical comedy. The stage pictures are beautiful. Mr. Fisher has provided new scenery and imported from China an expensive new wardrobe for this year's production. The company is a large one, including such well known people as George E. Mack, Edward Bagley, H. B. Burcher, W. L. Romaine, Nagel Barry, Fred P. Huntley, Florence Smith, Viola Kellogg, Mabel Strickland, Dorothy Marlowe and many others, assisted by a grand chorus of select voices.

STRAIGHT-FISHER.

Benj. H. Straight of Bangor, Me., formerly of Cambridge, Queens Co., and Miss Mary E. Fisher, of Bristol, Eng., were united in marriage this morning at the Free Baptist parsonage, Victoria street. Rev. David Long performed the ceremony. Mr. and Mrs. Straight left by the steamer Crystal Stream for Cambridge, Queens county, where they will spend a few days and return to their home in Bangor.

TOO LATE FOR CLASSIFICATION

TO LET—Shop, Lower Cove Slip, 22x40, one story, suitable for workshop or warehouse. Rent low. Apply to STIRLING & PATRIGUIN, Brass Founders, 38 Water St.

WILL SHOOT PROWLERS

Mount Pleasant Residents Tired of Inaction of Police, Will Take Law in Their Own Hands.

The murderous assault upon the man Naves near the park last night has stirred residents in that locality to rebellion, almost, and no doubt very forcible measures will be made upon the city to adequately protect that section against prowlers and lurkers.

As it is now, beautiful Rockwood and its quiet, untroubled approaches are veritable havens for the thug, the insulting tough or the sand-bag artist. Not only is this a menace to the safety of people, but it is a stain on the locality, and one which may be eventually wiped out by a vigilance committee, if the police do not act.

A prominent citizen says his home is practically surrounded almost every night with suspicious-looking hoodlums, either watching, sneaking, or out-and-out toughs. On one occasion he found one of them trying to open a lower window in his house, but when an empty revolver was placed to the pane the man hastily vacated. A few days later a second prowler tried to effect an entrance, but the same revolver was brought into play, but this time it was loaded.

"I fully intended shooting at the man," said the enraged citizen, "but he cleverly dodged until he got out of sight."

A NATURAL CURE

For Nature's Ill—Sulphur Spring Water, Free Trials Tomorrow.

There is good news for sufferers from rheumatism, indigestion and kindred troubles, inasmuch as a natural sulphur spring water has made its appearance on the market here, which is claimed to be a certain remedy for them. The water is shipped daily from the Penobscot Natural Sulphur Springs Co., of 24 Waterloo street, open their doors today for business, and will give a free jar of this wonderful water to all sufferers who call, or send a post card to their address. Already quite a number of marvelous cures have been effected.

The management of the business will be in the hands of James and Samuel Watson who are anxious to know of sufferers from rheumatism, indigestion, dyspepsia, kidney trouble, eczema, skin eruptions, etc. Call at once at 24 Waterloo street.

F. E. MARVIN MAKES A STATEMENT.

Last week the statement appeared in two or more St. John papers to the effect that the directors of Riverview Park had intended purchasing certain lots of ground adjoining to make a playground for children but two citizens had stepped in ahead and bought it for themselves. F. E. Marvin who is one of the purchasers states that he was very careful not to interfere with the prospect of a children's playground. He had learned of the project, and desiring to obtain a lot if it were not to be so used, he went to the proprietor and asked for the refusal in case the park directors should not buy. Later he met one of the directors who volunteered the statement that there was no intention of buying the lot for a playground. It was after this assurance was given that Mr. Marvin leased the lot. He had nothing to do with the two other gentlemen who are said to have leased lots adjoining the park.

CARLETON NOTES.

The Dufferin House (West St. John) has lately undergone extensive improvements in preparation for the coming season's winter port business. The proprietors, Mr. and Mrs. Duffy, are doing all they possibly can to make the house comfortable and attractive. A big winter's business is expected. Among other improvements is an increased bedroom accommodation. The West Side Salvation Army corps are experiencing a boom, their meetings being more largely attended than ever. A number of excellent workers have recently joined the ranks, and their efforts are a great assistance to the work.

TWO PICNICS TODAY.

The depot presented a lively appearance all morning. Besides the usual heavy traffic on the incoming trains, the station was thronged by the crowds from the Calvin Austin. Two church picnics also took advantage of the splendid day. At 9.25 the St. Paul's (Valley) school picnic crowd left for Westfield. They were followed at 10 o'clock by the St. Peter's church picnic to Torriburn. The second train made up of ten cars, was especially crowded. Other trains left at 12.30 and 2.30 for Torriburn, and another at two for Westfield.

BE PURCHASERS; NOT KICKERS.

If you desire your sons and daughters to learn how to encounter difficulties and force their way through them; to turn hard experience into capital for future struggles; to be workers, not idlers; purchasers, not kickers; motors, not clogs; then purchase for them a course of training at the Currie Business University, Ltd. A certificate from this school assures them a first-class position.

JAP NOBLEMAN DEAD.

TOKIO, Aug. 15.—Baron Sannomiya Torihane, grand master of ceremonies at the imperial court of Japan, is dead from cancer.

THIS EVENING.

Quincy Adams Sawyer at Opera House.
Meeting of labor committee re parade.
Regular meeting of Court La Tour, I. O. F., in Foresters' Hall.
Concert and dance at Ferns by Carleton Cornet band.

LATE PERSONALS

Mrs. Wm. Mayble and family of West End have returned from their summer residence, Clifton, Kings Co. Mr. and Mrs. Charlie Doyle, 158 Britannia street, are visiting friends in Bathurst.

Miss Carrie Winslow, of Fredericton, is the guest of Mrs. L. W. Barker.

L. P. D. Tilley has returned from a visit to St. Andrews.

Mr. and Mrs. T. Wilson and two children, of Toronto, arrived in the city from St. Andrews.

Miss Tait, of Dorchester, is visiting Mrs. Walter Holly, Coburg street.

Miss Evelyn Stockton, daughter of A. A. Stockton, M. P., who has been nursing in New York, is expected home on Saturday.

Miss P. Lovell, of Boston, arrived in the city this morning.

W. W. Hubbard arrived in the city this morning from Woodstock.

Wm. Kerr and Gordon Kerr have gone to Grand Falls on a two week's trip.

Miss Tona Kerr, daughter of Wm. Kerr, is expected home on Saturday from Halifax.

Mrs. Murray MacLaren and two children have returned from Oak Point where they have been spending two or three weeks.

Golden Stockton, son of A. A. Stockton, M. P., has returned from St. Andrews and leaves shortly for London, Ont.

CHRONOLOGY OF A

STAR WANT ADVT.

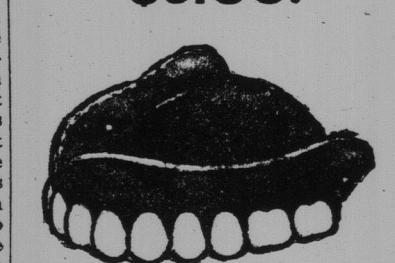

WANTED—At once, experienced dining room girl. Apply W. C. T. U. coffee rooms, Germain street.

The above notice was handed in to the Star at 2.30 yesterday. It was a little late, but got there just the same. A little before four o'clock a Star newboy was at City Road with an armful of papers. He sold one to a bright girl who desired work in her line. At 4.30 she had reached the place, satisfied the manager in the matter of references, obtained her engagement and was ready to go to work.

SCHWAB MAKES A DENIAL.

NEW YORK, Aug. 15.—"I am not going to Scotland nor to see Mr. Carnegie, nor am I going to Europe on business in any manner connected with the Russian armour plate contract. "I am going abroad to learn how to build the best ships in the world, and my trip at this time concerns itself with nothing else." This statement, according to the American, was made yesterday by Charles B. Schwab in midst of hurry and confusion of preparations for his departure for Europe this morning. "I leave with Archibald Johnson, general manager of the Bethlehem Steel Corporation, and we will be back in three weeks. Our trip has no other significance than that stated."
