TWO DISTINGUISHED POLITICIANS.

Among those who would be likely to take part in the Montreal demonstration to Sir Wilfrid Laurier were two residents of that city named Brunet.

One of these claims and occupies a seat in the house of commons, where he gives the premier an unwavering support. He was officially returned in a by-election for the St. James division of Montreal, the returning officer having declared that Mr. Brunet received more votes than his opponent, Mr. Bergeron.

The facts are otherwise, for it was afterward shown that the vote counted here was not necessary to the vote cast. In one poll alone, where the declared vote was thirty for Mr. Brunet and only six for Mr. Bergeron, only fifty votes were actually cast.

DEATH OF JOHN FISHER. A Well Known Citizen Found Dead Yesterday Morning.

John Fisher, a descendant of the Fishers of shipbuilding fame, and well known in St. John for many years, was found dead in his bed Monday morning.

Mr. Fisher had been in poor health for some years, suffering from asthma and a weakness of the heart, but was until yesterday quite able to attend to his duties. He roomed in his own house on the corner of Pitt and St. James streets, tenanted by James Welsh, and took his meals in the home of Thomas Williamson near the door. Last evening Mr. Fisher was not so well as usual and Dr. Daniel was called in. Mr. Fisher went to bed, asking that he might be called early this morning. At five o'clock Mrs. Williamson, who was up, heard him moving about his room, but on going to call him between six and seven o'clock, found him dead in bed. Death was due to heart failure.

Mr. Fisher was sixty-two years of age, and leaves four children, Charles and Edward, at present residing in New York; Mrs. Annie Sullivan, of Philadelphia, and Mrs. John B. Jones, of this city.

THEY BURN THE MORTGAGE. The Free Baptist church at Hartland, N. B., Thursday evening was the scene of a joyous event to the members of that church, when a Thanksgiving service was held at which the mortgage on their parsonage was burnt. The building cost over \$1,000, the last cent of which has now been paid.

The jury found Thompson and McCormick guilty. Thompson was sentenced to 15 years, and McCormick to 10 years imprisonment in the Dorchester penitentiary.

ALLUSING COFFE. Nearly Killed the Nurse. When one of the family is sick Mother seems to be the only person who can tenderly nurse the patient back to health. But we forget sometimes that it is pretty hard on Mother. Mrs. Probst of Albany, Ore., says: "About twenty-seven months ago, Father suffered with a stroke of paralysis, confining him to his bed for months, and as he wished Mother with him constantly, his care in a great measure fell to her lot. She was seventy-four years old, and through constant attendance upon my father, lost both sleep and rest, and began drinking coffee in quantities until finally she became very weak, nervous and ill herself. Her physician's order, she began giving Father both Postum Coffee and Grape-Nuts, and in that way began using both herself. The effect was very noticeable. Father improved rapidly, and Mother regained her strength and health, and now both are well and strong. Mother says it is all due to the continued use of both Postum and Grape-Nuts."

HEROIC RESCUE.

C. C. Gregory, who was chief engineer for the contractor who built our island railroad, passed through Sumner yesterday on his return from Newfoundland, where he had been one of the arbitrators in the Reid railway case with the Dominion government.

Mr. Gregory was also one of the arbitrators in the celebrated Ononduck suit against the Dominion government some years ago.

Since Mr. Gregory left the island, in addition to his high position as an engineer he studied law and is now a leading barrister, and as such is being consulted in nearly all important railway suits of the Dominion.

A heroic act of his while building the island road has never been recorded. It occurred at the Queen's wharf in Sumner. While the late Capt. Evans was docking the old S. Lawrence, a woman belonging to the west end of the island walked, or fell overboard. It occurred at the Queen's wharf in Sumner. While the late Capt. Evans was docking the old S. Lawrence, a woman belonging to the west end of the island walked, or fell overboard.

He immediately sent the late Dr. Jarvis to attend the woman and quiet her down. He took a friend to prescribe for himself.

The newspaper men in the morning wanted the particulars, but Mr. Gregory requested them to say anything about it, and they didn't.

CHATHAM.

An Autumn Thunderstorm Experienced on Sunday Night.

B. B. University Students Attend Sunday Morning of an I. C. R. Bridge-Moose Hunters Paup Mill Situation.

CHATHAM, Oct. 20.—The town was treated to a regular autumnal thunder storm last night. It began about ten o'clock and lasted until after midnight, and prevented many timid citizens obtaining their usual quantity of sleep. It rained heavily during the night, but this morning broke fair and is now blowing fresh, with promises of fine weather, probably cold.

The second span of the I. C. R. bridge across the Miramichi at Bridge-Moose was removed yesterday and the new span successfully placed. The operation is effected by means of screws, which are floated under the structure at the proper time of tide, and upon the screws the span is lifted off the abutments and removed. At the same time the new erection is being floated into position upon similar screws, which are placed. Indeed, the actual change occupies only a few minutes. Among the spectators yesterday was a large contingent from Fredericton and adjacent towns. The university engineering class, under the special conduct of Mr. McKensie of the engineering department of the Intercolonial, was present and took a deep professional interest in the work.

A party of hunters from the United States were fortunate enough to secure four fine specimens of big game on the north side, near Tabusintac, two moose and two caribou. John Connell was the guide and the visitors highly of the attention shown by him. It is reported that Mr. Connell's captive moose met an untimely end at the hands of an over zealous hunter. The story is to this effect: The hunter, who was in the woods for the purpose of luring a moose into the vicinity by her calling, and one having been seen to cross an open space, was followed by a hunter, who was unaware of the moose's being placed, and inadvertently shot the animal which he saw amongst the trees and which proved to be the celebrated moose of the Connell party. The veteran sport and moose-catcher, Chas. Gunn, spent last week on the headwaters of Black River in company with John McLaughlin, and another party consisting of Mr. Connell and J. H. Hanny occupied Jiney's camp near Vondy's brook, but neither party met with the luck they anticipated.

The scholars of the High school have been enjoying a few holidays in consequence of the progress of some of the heating apparatus, which, it is expected, will be completed today.

No new developments have been made public respecting the tide pulp factory. It is said that the American Harmsworth, representing their agents toward Gloucester Co., in the vicinity of Bathurst, with a view to utilizing the water power, has been unable to develop the power of the falls on the Robinau river. These gentlemen were in Chatham some weeks ago and made a superficial examination of the plant.
