Thomas Cammack Killed Brother-in-Law and Tried to Murder Wife and Two Others at Ruther Glen.

They Fled and He Set Fire to the House, Burning Body of Murdered Man in His Home—Posses After Him, He Tries to End His Own Life—Murderer Formerly Lived in This City, and Many Facts About Him Are Related.

Another grim tragedy has been added to the annals of the parish of Kent, in Carleton county. It was only ten or a dozen miles as the crow flies from Holmesville, the scene of the murder for which George Gee will be hanged on Friday of this week, to Ruther Glen, where on Sunday night an even more shocking crime was committed by a man named Thomas Cammack or Cimmic, who formerly lived in St. John, and one of whose young sons is now visiting friends either in St. John or the neighboring parish of Lancaster.

The name of the murdered man is William Doherty, the same as that of the youth who two years ago on August 1st, was shot through the chest and died in St. John. It appears that William Doherty was kept company with Cammack's daughter, a girl of about 22 years, and her father objected. So great was his animosity that he several times threatened to shoot Doherty, but his threats were not heeded. On Sunday night last, about midnight, he armed himself with a revolver, went to the Doherty house, gained entrance by the cellar, and going to William Doherty's room shot him as he lay in bed.

The murderer fled to the woods in a man hunt for the murderer. Cammack was captured about 4 o'clock in the woods back of his home. The posse had no time to take him dead or alive. It was expected there would be a life or death fight before he would give up.

London, July 19.—The Daily Express says this morning prints the following despatch dated July 18, from its correspondent at Malta: "The British Mediterranean fleet is here today for Alexandria. It is believed that the destination of the fleet may be connected with the presence of the Russian volunteer fleet steaming in the Red Sea. The British cruiser Terrible is said to have sailed from St. John today for the purpose of looking after the interests of the British merchantmen."

St. Petersburg, July 18.—General Kurapatkin in a long dispatch to the emperor, dated July 17, tells of an attempt by the Japanese to pass in the neighborhood of Landsdown. Though a vigorous attack was made, and reserves were hurled upon them, the Japanese eventually had to withdraw. General Kuroki reported that the Russian losses exceed 1,000. The Japanese were more than fifteen hours on foot in the mountainous region.

London, July 19.—The correspondent of the Times at General Kuroki's headquarters, says that the Japanese losses during the fighting at Mo Tien Pass on July 17 were not trifling.

London, July 19.—The Daily Mail's correspondent says that the British steamers Woodcock and Dalnatica were held up by the Russians in the Red Sea and detained for three hours.

MAINE'S SUPPOSED CASE OF MURDER.

Limington, Me., July 18.—After a session lasting from 11 a. m. until 5 p. m. today the coroner's jury in the Skillings alleged murder case adjourned until Tuesday. Mrs. Mary Hall, housekeeper in the Skillings house; Jason Dalrymple, the man whom the police have been keeping under surveillance; his son Harold, and his father were examined.

HOW MURDERER STOLE IN UPON SLEEPING VICTIMS.

Detailed Story of the Awful Happenings in Doherty House—In-quest Held—Murderer's Son Held as Accomplice.

Midnight Assassin at His Fearful Work.

The murder occurred between 11 and 12 o'clock Sunday night. Cammack entered Doherty's house through the cellar, stole up stairs to the sleeping apartments where Cammack's wife lived. William Doherty heard the intruder, but before he could make an outcry, Cammack drew a revolver and fired two shots. Doherty died almost at once.

Posse After the Murderer.

Deputy Sheriff Foster was summoned, arriving this morning and proceeding to the scene of the murder. A posse of fifteen men was sent out scouring the woods in a man hunt for the murderer.

WAS HANGING AROUND ALL AFTERNOON.

He told reporter that Cammack was hanging around that day from noon, and that he stopped at his (Elliott's) house, asking if Alice (his wife) was there. Cammack said he had a letter for her. The murderer stayed around all afternoon. Late in the day Cammack's wife came along on a team with the two Ward children. He asked her to come out of the team as he wanted to speak to her. She refused, and Cammack caught her by the head, but could not hold it. Then he drove away, but returned at night to accomplish his foul crime.

FATHER CHAPMAN TELLS OF PEOPLE AND THE COUNTRY.

Cimic Worked in Mills About St. John, But Left Here About Time of the First Man of Quick Temper.

MONEY BURNED, TOO.

It is asserted that besides losing home and effects that about \$300 in money went up in smoke. The victim was a thirty young man and, with his brothers, had saved quite a sum. The remains of the victim were placed in a box in one corner of the room, and a small amount of money left to guard the murdered man. It seems a sad commentary on humanity that not a solitary mourner was there.

Some of the places where the tragedy has some connection was related in an interesting manner by the reverend gentleman.

GEORGE GEE HAS BEEN BAPTIZED.

Woodstock, July 18.—(Special)—George Gee, condemned to die on Friday, for the murder of the cousin, was this evening baptized in jail by Rev. Mr. Currier, an adventist.

MAN OF VIOLENT TEMPER.

Coming down to the man himself, Father Chapman says that at the present time he would be a man of between 50 and 55 years of age. He possessed a violent temper, however, he became a peddler and was a hard worker at his calling. He was smart, and a good workman. He is of sandy complexion, of about 150 pounds weight, and about five feet ten inches in height. In build he was well set and strong.

THE DOHERTY FAMILY.

As regards the Doherty, Father Chapman could not impart much information. While the Cimic family lived in the part of Carleton county which is in the parish of Kent, Carleton county, the Doherty family lived in the village of Glasville, in the adjoining parish of Aberdeen.

Boston, July 18.—(Special)—The Transcript said tonight in an editorial paragraph: "It may be necessary to plant a few mines in the Dardanelles to compel the Russians to observe their treaty obligations. The Herald will say tomorrow in a column editorial: 'It will be, indeed, singular if England does not protest against permitting Russia to have the free use of the Dardanelles for her Black Sea war ships; but this protest will get not upon the alliance with Japan, but with the terms of the treaty of Berlin, which interdicted the entrance to the Mediterranean sea of such warships as Russia might have in the Black Sea.'"

DUNDONALD HAS TALKED TOO MUCH, SAY SOME BRITISH NEWSPAPERS.

"Well if mischief for Imperial Connection Does Not Result from Toronto Demonstrations"—"Time Government Cabled Late Commander-in-Chief to Return Home." Montreal, July 18.—(Special)—A special London cable says: "The Times, referring to Lord Dundonald's speech at Toronto, says it might have been better taste if he had refrained from repeating to popular audiences his grave indictment against the Canadian ministry. 'His search light is of a very startling character. His charge of indifference is almost as grave a charge as it is possible for a soldier, who has been responsible for the defence of a country, to bring against constitutional authorities. 'We are sure it is an unfounded charge so far as it implies to Laurier and his colleagues as a body any lack of zeal for the safety of the dominion. On the other hand Dundonald's allegations will create the impression that the militia has not been administered in some respects with a single eye to its efficiency. 'Lord Dundonald has appealed to Caesar well knowing the personal penalty he may have to pay from the ministers and party politicians, to public opinion and the electorate. The appeal is admirably irregular but it will be heard, we imagine, and determined on its merits by the tribunal to whom Dundonald has taken it. 'The decision will be awaited in Great Britain with much interest as well as in Canada, for the issue is nothing less than the efficiency or inefficiency of the national defenses of our greatest colony and the fitness or unfitness of her present ministers to provide for them.'"

BAPTIST ASSOCIATION.

Cheering Reports, But More Men Wanted for Home Mission Field.

The 57th session of the New Brunswick Baptist Association opened in Sackville Main street church Friday evening with an interesting meeting of the B. Y. P. U. Saturday morning an early prayer meeting was held at 7 o'clock, led by Rev. B. Barry Smith, of Moncton. At 9.40 devotional services were led by the moderator, Dr. Brown, of Hopewell Cape, after which Rev. N. A. McNeil, of Petitcodiac, was elected moderator; F. W. Zimmerman, clerk; Dr. Brown, assistant clerk; Chas. Lund, Sackville, treasurer.

Reports from forty-two out of fifty-two churches were read, the largest showing there has been for many years. The reports of home missions stated that the demands for home mission labor had never been greater, but sufficient men to fill the fields had not been forthcoming. Evangelistic work has been done by Revs. A. H. Hayward, I. Wallace and Brother Marple. The additions for the year in this department are gratifying. There are in New Brunswick at all, under the Eastern, Western and Southern Associations, 24 fields, including 32 churches, with 10 preaching stations, which should be regularly helped by the home mission board. The financial statement for the past year showed receipts of \$3,165.96; disbursements, \$2,771.54. The twelfth cent fund stood: Receipts, \$1,857.64; disbursements, \$1,087.64.

Foreign missions were then discussed. Dr. Brown strongly urged members of the Baptist church to give aid toward the noble cause of foreign missions, and also recommended the union of the maritime societies with those of Ontario and Quebec.

The Telegram published declarations denying its story, but declined to withdraw its charges, and in consequence an action for libel is now being entered.

BISHOP HANDY PRESENT.

At Farewell Reception at St. Philip's Church, Monday Evening.

Bishop James A. Handy, formerly of Baltimore, but now of District No. 12, of the A. M. E. church, which includes the conferences of New Brunswick, Nova Scotia and Bermuda, was present at the reception given at St. Philip's church last night to the retiring pastor, Rev. Mr. Coffin, and the delegates to the forthcoming conference. The delegates present were Revs. Chas. Coffin, Woodstock; Rev. John C. Colman, Halifax, and George Gilbert Walker, of this city. Mr. Walker, who is a son of Dr. A. B. Walker, is a candidate for ordination. The reception was a very pleasant affair. The chair was taken by Charles Haddon, who in a few brief remarks paid a high compliment to the work which Rev. Mr. Coffin had done in the church, and to the pleasure which the congregation felt at entertaining the delegates to the conference. It was also announced that owing to press of business Dr. Daniel, who had promised to be present and address the gathering, found it impossible to attend. The evening was very pleasantly passed with vocal and instrumental music and at the close of the programme the Ladies Aid Society of the church served refreshments of strawberries, cake and ice cream.

HER BROTHER DROWNED.

Sad News Comes to Mrs. James W. Bridges of Fredericton.

Mrs. James W. Bridges, of Fredericton, has received intelligence of the accidental drowning of her only brother in the waters of Lake Ontario. Talbot Metcalf was one of a merry party that left Port Hope (Ont.) on Thursday last for a cruise on Lake Ontario. Mr. Metcalf has been employed on ocean liners ever since he was 17 years old and was looked upon as the senior of the party. On Thursday evening, when they were off Belleville, Mr. Metcalf was forward fixing the bowsprit, when a heavy squall hit the yacht and he lost his balance, fell into the water and sank. Everything possible was done to rescue Mr. Metcalf, but he was gone. His body was recovered.

The late Talbot Metcalf was about 32 years old and is survived by a widow and one daughter. His mother and one sister, Miss Margaret Metcalf, live at Port Hope (Ont.), and two sisters—Mrs. J. W. Bridges and Miss Metcalf, who is visiting her, are in Fredericton.

Church Scandal, former St. John Clergyman. Rev. W. C. Vincent, of Logan avenue Baptist church, Winnipeg, and a former pastor of Carleton, is involved in a church scandal in which the name of a young lady member of his choir and Sunday school, is mentioned. Rev. Mr. Vincent, who is described as a nervous and mental wreck in consequence of the charges made against him, is now on his way to a sanatorium in the maritime provinces. He is about 40 years of age and about six or seven years ago he left for the west. He is a graduate of Acadia and holds an excellent record. His wife was a daughter of William Colwell of this city.

WORK ON PARTRIDGE ISLAND.

Dr. Montzambert Here to Inspect Quarantine Station.

Growth of Passenger Business Here Necessitates Proper Facilities—New Hospital and Detention Buildings—Better Water Supply.

Dr. Montzambert, chief medical officer of the Dominion is at the Royal. He is on an inspection tour and has just visited the Tracade Lazerotte. Last evening Dr. E. March, quarantine physician here, called upon Dr. Montzambert and they had a talk over quarantine matters at St. John.

To a Telegram reporter, Dr. Montzambert said he would go to Partridge Island today to inspect the station, which is to be much improved by the government. Tenders are now being asked for the erection of a hospital and two detention buildings, an acetylene gas plant is to be established and the island water supply improved.

With the new buildings, there will be accommodation for 1,000 steerage immigrants besides quarters for a ship's officers and cabin passengers. The reason for the new buildings, Dr. Montzambert said, is the growth of the passenger business at this port. Until recently St. John has been a mercantile port but now the passenger traffic here is great and the necessity of a proper quarantine station was made manifest.

The water supply from the station is to be led from Carleton. The city is to lay pipes to bring the water to the island. The improvements are estimated to make the station here as well equipped as any in Canada. Dr. Montzambert will be here until Monday when he will go to Halifax. He says there is not much in the way of improvements at the Halifax station contemplated.

WEDDINGS.

Galbraith-Boyd.

"Pirkade," the handsome residence of Mr. and Mrs. J. H. RELATIVES OF THE LATE CAPTAIN PECK HELD UP BY A KEY WEST UNDERTAKER.

Refused to Forward Bodies Till He Was Paid the Sum of \$1350 in Cash—Quoted Coffins at \$200 to \$600 Each—Refused to Accept a Steamer as Security.

The bodies of Capt. Peck, his wife and daughter, who were drowned at Dry Tortugas (Fla.), arrived in Brooklyn (N. Y.) last Friday evening and were interred the following afternoon. The Key West undertaker who prepared the bodies for burial insisted on cash payment before he would forward the remains. For his services he demanded \$750. He did not feel prepared to accept a certified cheque or draft, and though the owners of the steamer "Mal," which Capt. Peck commanded, even offered to him hold the steamship as security, he refused. After he had received the money he communicated with Dr. Peck, the captain's son, respecting coffins and quotes the price in cash from \$200 to \$800. Dr. Peck advised a Brooklyn undertaker and was advised to order the cheapest, which was done and \$900 was paid. The total expenses up to \$1,350.

Mr. Weed, a Brooklyn lawyer, advised for Peck to take legal proceedings against the Key West undertaker, for his charges were considered exorbitant, but Dr. Peck and other members of the captain's family, though agreeing with Mr. Weed that the charges were much too high, decided to take no action. The main object was to secure the bodies and give them burial.

He did not feel prepared to accept a certified cheque or draft, and though the owners of the steamer "Mal," which Capt. Peck commanded, even offered to him hold the steamship as security, he refused. After he had received the money he communicated with Dr. Peck, the captain's son, respecting coffins and quotes the price in cash from \$200 to \$800. Dr. Peck advised a Brooklyn undertaker and was advised to order the cheapest, which was done and \$900 was paid. The total expenses up to \$1,350.

Mr. Weed, a Brooklyn lawyer, advised for Peck to take legal proceedings against the Key West undertaker, for his charges were considered exorbitant, but Dr. Peck and other members of the captain's family, though agreeing with Mr. Weed that the charges were much too high, decided to take no action. The main object was to secure the bodies and give them burial.

IN MEMORY OF THE LATE REV. D. MCGREGOR.

Tablet Unveiled in St. Stephen's Presbyterian Church, Truro.

Amherst, N. S., July 17.—(Special)—A very interesting memorial service was held in St. Stephen's Presbyterian church this evening, the anniversary of the death of the former pastor, Rev. D. McGregor. A memorial tablet has been placed in the church by the congregation, and this was formally unveiled.

The tablet is of white marble face, on a black marble background, shield shaped, with the following inscription: "In memory of Rev. D. McGregor, for twenty years pastor of this church; born at Lake Ainsley (N. B.), died at Amherst, July 19, 1903. He shall rest from their labors and their works do follow them." Rev. Christopher Munro, of Oxford (N. S.), who was for many years closely associated with the deceased in Presbyterian work, preached the memorial service, the choir singing appropriate music.

STEAMER CHAMPLAIN

The Latest Addition to the Fleet on the St. John River.

There will soon be a new name in the river steamboat fleet. The boat which the Star line has been building will be called the Champlain, and in the course of a week will be ready to start on her maiden voyage. The boat is the hull of the Queen, practically destroyed by fire, and it was thought that the name would not be changed, but now that the change has been made, it is generally admitted to be for the best.

The Champlain was sailed from Marble Cove to Gregory's wharf Monday afternoon, to have her rudder shipped. She has plenty of deck room, her machinery and fittings are first class, and it is believed she will prove speedy.

Pratt's St. John River.

George E. Tirrell and Mrs. Tirrell, of Boston, are guests of H. W. Belding and Mrs. Belding at Carter's Point, where Mr. Belding's family are again spending the summer in part of the year. The cottage they are now occupying is in the Elaine on Saturday night. Speaking to a Telegram man at Carter's Point on Saturday evening, Mr. Tirrell remarked that when coming down from Boston in the steamer he had heard a passenger say the St. John river was finer than the Hudson, and was a good deal surprised at the statement. He had expected to see a pretty stream, but was simply amazed at the beauty and size of the St. John as it was revealed on the trip as far as Carter's Point. He proposed to see more of it, and regard its shores as a delightful summer resort.

Mr. Tirrell is a brother of Chas. E. Tirrell, one of the representatives of Massachusetts in the United States Congress, and Mrs. Tirrell is a native of Kings county (N. B.).

SUMMER SCHOOL OF SCIENCE.

Dr. Bailey Compares Brain System With Telephone Service.

Dr. Andrews Entertains and Instructs With His Blow-pipe—Lecture by Former New Brunswick, Now Noted Professor, Promised.

Charlottetown, P. E. I., July 16.—The weather continues fair and the work of the summer school of science is progressing well. The latest figures put the total enrollment at 160.

Dr. Andrews, a gymnast tablet and a hot blast blow-pipe got together this afternoon and the result on the tablet was something unique and beautiful. No more splendid object can be produced in nature than the pure chemical elements that cover the tablet. Dr. Andrews is an expert at this work and bases a large part of his instruction in chemistry upon the blow-pipe work. It is so easy to handle the blow-pipe and tablet and the little tin lamp; and the chemicals used as re-agents are so few, that the method is of great value to teachers who cannot obtain the use of a regular laboratory.

Dr. Andrews is down for three evening lectures which have the following attractive titles: "What is Life?" "Genetics and Geography;" and "Evolution and Faith."

Dr. Andrews is a strong churchman and at the same time a close and careful student of science. His views on these matters are well worth listening to. The other lectures of the course include The Microscope and Camera in Biology, by Prof. W. F. Weston of Greenwood, North Carolina; Prof. Weston comes originally from Hartland (N. B.), and has acquired an international reputation for his wonderful work in using the natural light to produce colors in his camera. He obtains splendid pictures without the use of any other lens. This is only one of the many curious things that Mr. Watson can do with his camera and his microscope.

"The Natural History of the Oyster" is a subject that should appeal to the residents of the island and no doubt a large number will attend. Dr. R. B. Wright, M. A., of Toronto University, is the lecturer.

Miss Turner, of Truro, will lecture on "Domestic Science in the School." A material as well as an intellectual education is among the possibilities. The last lecture of the course will be given on Wednesday, July 27, by Dr. P. Knight, of Queen's University, Kingston.

Dr. L. W. Bailey, of the U. N. B., gave the second lecture of the course on the subject of the Human Telephone or out of the ear that they contain. The object of the lecture was to show the anatomy between the structure of the human nervous system and that of an ordinary telephone system. In each case lines of communication run out from a central office by which messages are transmitted or received. In each case many different instruments are employed, each connecting a central station with some more or less distant point, but are ordinarily independent of each other. In the case of the ordinary telephone, central, each connecting a central station with some more or less distant point, but are ordinarily independent of each other. In the case of the ordinary telephone, central, each connecting a central station with some more or less distant point, but are ordinarily independent of each other.

ST. VITUS DANCE.

MUST BE TREATED THROUGH THE BLOOD AND NERVES.

One of the Worst Cases on Record Cured Through the Use of Dr. Williams' Pink Pills.

St. Vitus dance is a nervous disease chiefly afflicting children. There are a number of signs which may be detected early, such as twitching of the muscles of the face, shaky hands, a jerky motion of the arms, a trembling or a dragging of the legs, irritability and restlessness. This dance is caused by diseased nerves and blood—that is why it is always cured by Dr. Williams' Pink Pills. The pills fill the veins with pure red blood, soothe the inflamed nerves, and restore the system to normal. Mrs. Luffman, of Picher's Mills, Ont., tells how Dr. Williams' Pink Pills cured her daughter, Louise. "I do not know it possible," says Mrs. Luffman, "but anyone could be afflicted with this severe form of St. Vitus dance than that which attacked my daughter. Her arms and legs would twitch and her left leg became numb as though paralyzed. Her speech became thick and indistinct and she could neither stand still nor sit down. Two doctors attended her, but they could do nothing. The last doctor who attended her told me she would never get better. It was at this discouraging time we decided to give her Dr. Williams' Pink Pills. After taking two boxes we could see an improvement; she could sleep better and the spasms were less severe. From that on she steadily grew better, and after using eight or ten boxes she was as strong and healthy a girl as you will find anywhere, and she has not had the least symptom of the trouble since."

Dr. Williams' Pink Pills are the surest cure for St. Vitus dance, hysteria, neuralgia, nervous troubles of men, women and children. But you must get the genuine with the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper. Beware of cheap imitations. Sold by all medicine dealers or sent post paid at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

STOCKTON AND McQUIRK.

"A Lover of Right" Asserts That the Lawyer's Position Has Not Been Properly Presented.

In reference to the telegraphed report that John J. McQuirk, of Gloucester (Mass.), has sued F. W. Stockton, of Sussex, for alienation of his wife's affections, a resident of Sussex, who signs himself "A Lover of Right," sends a long communication to The Telegraph. He makes charges against McQuirk which may or may not be sustained in court. Continuing, he writes in part:—"The plaintiff in this case says that F. W. Stockton's whereabouts is unknown to him. We are confident that if there should be a suit called in the courts of Gloucester, Mr. Stockton would be present to defend himself. We know whereof we speak when we say that the relations between Mrs. McQuirk and Mr. Stockton were of a business nature. No one will deny the fact that Mr. Stockton advanced Mrs. McQuirk money to start a lodging house and dressmaking establishment, with the understanding that she was to pay him interest and the principal as fast as it was possible for her to earn it. We furthermore know that Mr. Stockton met another New Brunswick young woman in an established lodging house, and that young woman is earning an honorable living at the same time and paying Mr. Stockton payments as they mature.

"We feel that we should make this statement as we know Mr. Stockton, and while like most human beings he may have weaknesses, the charge he and his family are now suffering under caused by a fellow like McQuirk, is unjust, and we would ask the readers to await the end of this matter before passing judgment. "Thanking you for space and trusting this will to some extent clear up this unjust matter, we remain, Yours very truly, SUSSEX (N. B.), July 14, 1904.

ORDAINED DEACON.

W. P. Dunham Presented for Ordination in St. Jude's Church, Carleton.

In the presence of a large congregation in St. Jude's church, Carleton, Sunday morning, His Lordship Bishop Kingston ordained Walter P. Dunham deacon.

Dunham is a Carleton young man. He was studied in the Theological College, Montreal, and has recently been lay reader at Fredericton Junction. Until September heads a large congregation at Carleton Place, New Brunswick. His ordination to the priesthood will not be until a year from the present.

At the ceremony Sunday the candidate was presented by Ven. Archbishop Ross, of Chatham. Mr. Scovil, rector of St. Jude's, also took part in the service, and the sermon was preached by Bishop Kingston.

In the evening, before another large congregation, the service was conducted by Bishop Kingston, with Rev. Mr. Scovil and Mr. Dunham assisting.

DR. SMITH'S SUIT AGAINST WIFE FAILS.

Hampton Magistrate Dismisses the Charge of Malicious Injury to Property.

Hampton, N. B., July 15.—The case of Dr. J. Newton Smith against his wife, Annie S. Smith, for malicious injury to property, which came before Magistrate Piers last month and was postponed, was disposed of this afternoon. After several witnesses were examined Scott E. Morrill, acting for Mrs. Smith, moved for dismissal for want of evidence, which the magistrate quickly did. Dr. Smith was represented by Fred. M. Sprout. An appeal is to be asked for.

Back to Nova Scotia.

A. J. McLeod, counsellor-at-law, Boston, has retired from practice and removed to Nova Scotia, taking up his residence at Chathamport. Mr. McLeod has been for 35 years a practicing member of the Suffolk bar of Massachusetts. In the capacity of commissioner for Nova Scotia, he is also well and favorably known throughout this province, and he receives a hearty welcome back to his native land. Though retired from active legal labor it is hoped his pen will not be idle. His "Notary of Grand Pre," an historical romance written by him in 1900, is an interesting book, and has had a large sale, both here and in New England. In his early years Mr. McLeod was a vigorous writer in political causes of the time, as was his father before him in the columns of the old Nova Scotian. R. R. McLeod is a brother, and Grace Dean Rogers, author of "Acadian Folk-lore," is a daughter.—Halifax Herald.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., WEDNESDAY, JULY 20, 1903.

YACHTSMEN AWAY ON ANNUAL CRUISE.

The Fleet Was to Anchor at Gagetown Last Evening.

HAD FINE WEATHER.

The Fleet is Smaller Than Usual—Spent Saturday Night at Carter's Point—A Camping Party at Oak Point—The River Very Attractive—Next Sunday's Service.

The annual cruise of the Royal Kennebec Yacht Club was begun on Saturday afternoon, and the fleet anchored last night at Gagetown.

A smaller number of yachts than usual went out on Saturday, but the weather conditions were favorable and the cruise promises to be one of great enjoyment.

At 3 o'clock on Saturday afternoon the signal gun was fired and the yachts soon got away. Commodore Thomson, with a party of guests on the *Scion*, was the sailing fleet away, and followed in their wake. There was a large party at the clubhouse to witness the departure of the fleet, and the scene was one of great beauty and animation. The *Dahinda*, *Windward*, *Robin Hood*, *Hermes II.*, *Louville*, *Canada*, *Lightning*, *Petrol*, *Rose*, *Kathleen*, *Kelpie*, *Samol* and *Privateer* were the craft of the sailing fleet, and made a pretty picture as they sailed out and across Grand Bay and into the main river.

The wind was light, but the yachts made fair progress to the first rendezvous, at Carter's Point. The *Dahinda* and *Petrol* continued on up river, and the *Scion* went on to Oak Point, but the others spent the night at Carter's Point. They were joined there by Fleet Captain J. Fraser Gregory in his steam yacht *Zuleika*, and by the *Dawn*, but the latter went farther up river, and returned this evening.

A very pleasant evening was spent at Carter's Point. The fleet came to anchor long before dusk, and many of the yachts went ashore. Some went on board the *Scion*, where they were hospitably entertained. Small boats were moving back and forth between the yachts, and the sound of music and song was borne on the breeze. Phonograph and gramophone were heard, as well as voices in chorus. Lights gleamed across the waters, and through the night was dark and a still breeze blowing, the yachtsmen greatly enjoyed themselves.

Sunday morning the fleet sailed for Gagetown. Until about noon the wind was very light, and the yachts flew out all their canvas. Progress was slow, but the weather delightful. Before they reached Oak Point a good breeze sprang up and held for a time, but subsided. Late in the afternoon it came up again, and the yachts held their course for Gagetown.

The Telegraph representative was on board the *Lightning*, which is a fast sailer for the cruise this year. It is the first time she has been on the river. There were ten persons on board of her, and they had ample accommodation. She is a fast sailer in a heavy wind, but not in light air.

The other boat new to the river is Mr. Lovitt's yacht, *Hermes II.*, which is a very handsome craft and a fine sailer.

The *Telegraph* man went with two other left the *Lightning* at Oak Point early yesterday afternoon and enjoyed the pleasure of a return voyage to the city on the *Zuleika*, arriving at 8 o'clock. Fleet Captain Gregory had a party including four ladies on the *Zuleika*, which is admirably fitted up with every comfort for cruising purposes. The *Zuleika* lay at Oak Point yesterday, and that lovely place had other visitors, for a party of eleven, including five ladies, went there on the *Scion* Saturday afternoon and went into camp for a night. They have three tents and all the necessities of a camping outfit. The *Dawn*, and with several ladies on board, lay at Oak Point wharf.

The steam yacht *Dream* passed up the river yesterday forenoon. The *Beatrice* Waring arrived at the *Cedars* with an excursion party, returned later with an excursion party, returned later when the *Zuleika* came through Grand Bay. The *Zuleika* passed three tugboats with large rats on the way down.

All along the river could be seen evidences of the growing popularity of the shores of the St. John for summer dwellers and outing parties.

The scenery is now at its best, and it is difficult even to imagine greater pleasure than that which the splendid river and its lovely shores offer to all, who seek relief for a season from the worries and cares of the work-day world.

At Oak Point Sunday afternoon, the conditions for enjoyment were ideal. The man who now sits at a city desk recalling the pleasure of the afternoon can see again the lovely beaches of sand and hear the incessant sound of water breaking on the shore; can hear the wind in the murmuring oaks, and the clear call of a bird; can see the wild rose running riot in the fields; and, as the tide rose against the river current, the hurrying legions of the waves, sweeping past the Point; can hear the distant murmur of voices, and the music of a gramophone from a tent on the verge of the grove; can see the hammocks among the trees, the yachts in the haven, the fields and groves, and away beyond Grass Island the white sails of the disappearing fleet. On the horizon in one direction huge masses of cloud are rising, with an occasional roll of distant thunder, the legions of the sea fogs send their skirmishers inland, even to Oak Point, and after the heat of the early afternoon coolness comes with the evening. It is said there are many people even in St. John who have never heard the call of the river, and do not know what pleasure is close within their reach. They are the poor for the lack of that knowledge, and the inspiration which awaits them beyond the sentinel hills that guard the Narrows.

While the number of yachts on the annual cruise of the R. K. Y. Club is smaller than usual, there will be a grand gathering of the fleet at Carter's Point next Sunday morning when the annual service will

be held, the preacher being Rev. Lindsay Parker, chaplain of the fleet.

Boston Club's Cruise.

Boston, Mass., July 16.—Thirty boats started from Boston this afternoon on the annual cruise of the Boston Yacht Club. The first stop will be at Marblehead, then Portsmouth. Monday's run will be to Portland (Me.), where the yachtsmen will be entertained by the Portland Yacht Club.

Tuesday the combined fleets of Boston and Portland will cruise to Five Islands (Me.), being joined at the mouth of the Kennebec by the Kennebec Yacht Club of Bath.

A race will be held off Five Islands Wednesday.

CARLETON COUNTY MURDERER CAUGHT.

(Continued from page 1.)

line and river, the nearest villages being Bath and Bristol, on the river bank. It is a farming and agricultural district.

The settlement was established in 1773 by Surveyor General Hon. Michael Adams, when Father Chapman was parish priest at Johnville. Mr. Adams called the settlement after Father Chapman, as a matter of courtesy, on account of the priest's activity in promoting the interests of and securing settlers for the new settlement. Cimmie and his first wife and family were among the first to take up land there. His wife and some of the children, as Catholics, naturally came under his care. The settlement now contains probably twenty-five or thirty families scattered about.

The manner of living of the residents was of the ordinary simple nature, with all the accompaniments of farming and lumbering pursuits. Cimmie, interested in the manner of labor and particularly in lumbering worked around the headwaters of the Miramichi and Tobique river.

Chapmanville is handy to a settlement established by a St. John man, a son of the late Professor Mills, who gave to it the name of Beaufort, which was his second name. This also is near the headwaters of the Miramichi.

Near it also is Feceton, in Aberdeen parish, about fourteen miles east from Bristol and one of the starting points of parties destined for salmon or trout fishing in the Miramichi and Tobique river.

Glasville, Aberdeen parish, Carleton county, where the Dohertys live, was named in the fifties by a Scotsman named Glass and is one of the finest agricultural districts in the province.

As regards that section of the country in general, Father Chapman describes it as a wilderness for miles and miles, all good fertile land but unsettled. The northern part of Chapmanville runs along the Victoria county boundary line. The country is undulating and slightly hilly and is entirely unsettled. The nearest post office address to Chapmanville would be either Argyle in Aberdeen parish, or Killfail, in Kent parish. From Foreston to the nearest settlement on the Miramichi is Boiesworthy, a distance of sixty-five miles through a howling wilderness, while Plaster Rock is the nearest on the Tobique, about thirty-six miles from Aberdeen.

If Cimmie had wished to evade capture he could easily have led his pursuers a nice chase through this woody country. An expert woodsman, his existence in the forest would have been a matter of no small import to him, where the streams run thick with fish and the woods are filled with berries, etc., and the district wish name.

NEW FIELD SECRETARY AT COUNTY CONVENTION.

Rev. J. B. Ganong at Westmorland Gathering of Sunday School Workers Parents and Address—Officers Elected.

The Westmorland County Sunday School convention, held at Point de Bute July 13 and 14, was fairly well attended. The register showed the names of four ministers, five parish and city officers, five Sunday school superintendents, seven teachers and five visitors, making a total of 26. Though the delegates were few, the local attendance was large and the convention was a very instructive and beneficial one. One of its most interesting features was the first appearance at a county convention of Rev. J. B. Ganong, who succeeded Rev. A. Lucas. Everyone was impressed by his earnestness and energy, and felt that under his guidance Sunday school work will grow.

In the absence of Miss McDougall, Miss Laura Colpitts very efficiently filled the office of secretary.

Rev. G. A. Steele, Sackville, gave an address on Qualifications and Responsibilities of the Superintendent. He should be a Christian and a student of the Bible. He should have some idea of the day school so as to systematically conduct the Sunday school.

Rev. D. Hutchinson spoke on the Importance and Mission of the Sunday school. He is important in that it is the foundation of the life of the child is young. Sunday school work deals with human life in its most important stages. It is an evangelizing agency, an educational force and a character builder.

A paper on Importance of Temperance Teaching in the Sunday School, by Rev. I. M. Baird, was read by Rev. Mr. Ganong.

Mr. Ganong's interesting conference on primary work full well the primary conference which was taught by Miss Dorothy Donald. Mrs. Jackson Stevens read an excellent paper on the Purpose and Value of the Bible. H. Trueman gave a few stirring remarks on Our Financial Needs.

Rev. G. A. Steele, in the home department, this department was originated 23 years ago in New York. Its object is to reach the people who cannot reach the church in any other way, and if we want people to come to Sunday school we must make it interesting to them.

Rev. Mr. Flemming addressed the convention on How Should Parents Co-operate in S. S. Work. They should send their children to the school, and consider the instruction received there as an adjunct to home training.

The following are the officers for the ensuing year:

President—Howard Trueman.
Vice-President—Charles E. Knapp.
Secretary—Dorothy Donald.
Business Manager—Department—Geo. J. O. Lee.
Superintendent Primary Department—Mrs. P. S. Emma.
Superintendent I. B. R. A.—Rev. D. Hutchinson.

The following Vice-Presidents for parishes: Moncton, Jackson Steves; Sackville, M. J. Macdonald; Grand Falls, R. Doherty; Shediac, Jessie McDougall; Sackville, R. D. Ward; Bay Verte, Nelson Goodwin; Point de Bute, William Tingley; Bolesford, J. R. Taylor.

The following are the officers for the ensuing year:

President—Howard Trueman.
Vice-President—Charles E. Knapp.
Secretary—Dorothy Donald.
Business Manager—Department—Geo. J. O. Lee.
Superintendent Primary Department—Mrs. P. S. Emma.
Superintendent I. B. R. A.—Rev. D. Hutchinson.

BIG TIME AT CALAIS.

Firemen's Representative Here in Connection With Tournament in September.

Willis Hughes, of No. 1 Hose Company, Calais fire department, and William Fleet, of the Fredericton fire department, were in the city Monday arranging for excursions to Calais for a muster of firemen in the Maine town on September 5, 6 and 7. It is proposed to have a tournament with all kinds of competitions for firemen, singly and by teams, and a horse show and horse races will also be features of the three days' jollification.

Mr. Fleet came to the city with Mr. Hughes to assist him in his work and they returned home last night after discussing their arrangements with the railway people.

FEARED HER HUSBAND.

And Asked Police to Keep an Eye on Her Home.

Through fear of her husband's determination to gain possession of the children, Mrs. James Clayton, of No. 45 Acadia street, requested her friends to call on North End St. Joe, Monday, to devote special attention to her home.

As far as could be learned Mrs. Clayton's sorrow was not the outcome of any threat on the part of her husband, but she felt nervous, and thought that what she dreaded might possibly occur.

Mrs. Clayton was very reluctant to speak of her domestic troubles. She is not divorced, but of late has not been living with Mr. Clayton. There are three children. The eldest, a girl, is six years of age.

According to the mother the children show no disposition to return to their father.

OBITUARY.

Captain Garret Vanwart.

The death of Capt. Garret Vanwart, Main street, took place shortly after noon Friday, Capt. Vanwart was a well known citizen, having been in business here before he became a captain of the steamer Star, which vessel he was also part owner. He was a native of Lunenburg, but had lived in St. John for many years.

Funeral of Mrs. Agnes R. Little.

Apothai, July 14.—The large procession which followed the body of the late Mrs. Agnes R. Little to her last resting place in the Church of England cemetery, and the mass of floral tributes from so many different friends, testified to the popularity of this estimable lady. After a brief private family service held by Rev. Geo. Neal, at the deceased's late residence, the body was taken to the Church of the Assumption, where the beautiful Church of England service was held in the presence of a crowded congregation. The singing of hymns was as follows: "Hark My Soul, Arise," "The Church's Lamentation," and "Resurrection Morning," which were especially chosen by the deceased before her death, and were sung by the church choir.

Dr. Little, husband of deceased; her only son, Walter Egan, her two sisters, Cora and Sarah Sharp, and one brother, George, have the deepest sympathy of all who know her, in their bereavement.

STORY OF THE CRIME TOLD FROM BRISTOL.

Family History, Too, in Which Convict in Dorchester is Said to Figure.

Bristol, N. B., July 18.—(Special)—A shocking murder took place Sunday night at Rutherglen, Carleton county, about fifteen miles from Bristol.

William Doherty was shot and killed and his two brothers were shot—one through the shoulder and the other in the chin.

The shooting was done by Thomas Gimie, a man about sixty years of age, who lives at Chapmanville, about three miles from Doherty.

Cimie came to the Doherty house about midnight on Sunday, the inmates all being asleep. He gained admittance through the cellar and began his work of destruction intending evidently to murder the whole family which, at the time included the three brothers and two smaller children.

The first shot killed Willie Doherty, and this aroused the brothers, who in their efforts to escape the assassin were each wounded though not seriously. They and the children escaped to a neighbor's house.

Cimie then set the house on fire and burned it and the body of Willie Doherty.

Dr. Sonerville was notified and went to the scene of the tragedy to attend to the wounded, and Sheriff Foster, with a number of constables, also went to the place.

Cimie is a desperate man and as he is well armed, it is not supposed he will be easily taken.

Cimie came from St. John several years ago and settled in Chapmanville and was known as an industrious man. His wife died some years ago, leaving five sons and three daughters. Later he married a sister of the Dohertys and this marriage has been the cause of much trouble.

This woman's first husband—a man named Boyd—is now serving a 25 year sentence in Dorchester penitentiary.

The motive of the crime so far as known was Doherty paying attention to Cimie's daughter against the latter's wishes, and also because the Dohertys had a house for Mrs. Cimie when matters would come to a crisis between her and her husband.

LEFT ST. JOHN TO BE MARRIED, BUT GROOM WAS PLACED IN JAIL.

Dusky Bride-to-Be Had to Return from Nova Scotia Disappointed.

One of Indiantown's prominent colored citizens, who brought a would-be bride from St. John Saturday, was taken for debt before the ceremony took place, and the colored lady was obliged to return to the city singly, while the would-be groom was endeavoring to fight clear of the debtor's law. This affair is the principal topic of conversation in the social whirl of Indiantown this morning.

Steamer Westport called at Digby today on a return trip with excursionists who spent Sunday in Bear River. A large number of people were chattering yesterday notwithstanding the inclemency of the weather.

She met her proposed with laughter, and almost immediately aughter. He said: "All right, Mabel, I'll go to the altar."

And string myself up to a nuptial."

CAPTURED AFTER ATTEMPT TO TAKE HIS OWN LIFE, TOO.

Woodstock, N. B., July 18.—(Special)—Sheriff Foster and Constable Woolworth left for the scene of the Rutherglen murder at an early this morning.

This evening the deputy sheriff wired that he had found Cimie at his own home where he attempted suicide by shooting.

When found he was in a dangerous condition.

Dr. Commins of Bath, was called to attend the wounded man and has gone to his aid.

THE STEAMER SENLAC

Now Runs on Schedule Time on the South Shore Route.

The steamer *Senlac* on her present trip landed fifteen passengers at Lockport, twenty at Shediac, forty at Liverpool, and twenty-seven at Halifax. Between Lockport and Liverpool a large whale "sounded" close alongside, and the steamer company brought it aboard. Among the passengers landed here were Frank Power, of Lunenburg; Robert Irwin, of Sackville; Mr. Donahue, druggist, of St. John; Miss Edna Smith, of St. John, and Mr. Cocksburn, a prominent horticulturist of Ontario. It will be interesting news to the ports served by this steamer to know that the unsatisfactory method of arriving and departing at the ports is now done away with, and that the steamer is sailing on schedule time—Halifax Herald.

PROVINCIAL NEWS.

Last week fifty thousand salmon were placed in Pleasant Lake. The fish came here in charge of William Sheasgreen, of South Elk hatchery. Four thousand trout have also been consigned to the Pleasant Lake waters this year—Sussex Record.

Being to conflicting dates of other exhibitions, the Sussex exhibition committee have been compelled to change the dates of the Sussex exhibition and races. The exhibition dates will now be October 2nd, 4th, 6th and 7th, and the races Oct. 4th and 5th to which changes, we call the attention of our readers generally.

The fishermen who have already returned from their spring trip report success. The average is about eight hundred qts. Business prospects look much brighter. The fish merchants are this busy preparing exhibits for the provincial exhibition.

SUMMER SCHOOL FOR SUNDAY SCHOOL WORKERS

Resume of the Work Done at the Presbyterian School in Fredericton in the Past Two Weeks.

The summer school for the better training of Sunday school workers, under the auspices of the Presbyterian Synod of the Maritime provinces, has just closed its sessions in Fredericton. The course of studies extended over two weeks, opening on Tuesday evening, July 5, and closing Thursday evening, July 7, and was a general movement—one of the most important features of present-day church activity, looking towards the better equipment of Sunday school teachers and more intelligent training of the young in Scripture and religious knowledge. There is no more hopeful sign in church life today, than this turning of the hearts of the fathers to the children.

Two years ago the first of the summer schools in connection with the work of the Presbyterian church in the maritime provinces was held at Halifax in Pine Hill college. Last year schools were carried on in St. John, Charlottetown and Sydney. Next week, a school will begin its sessions in New Glasgow. With each year the interest has deepened, the wisdom of the movement has justified itself the more. Now is the movement restricted to one church. At Sackville a highly successful school of methods has been held for two years under the auspices of the Methodist church.

This year's most successful. The school in Fredericton, just closed, has been in the highest degree successful. The enrollment reached about 140, almost fifty per cent beyond that in St. John last year, while the actual number in more or less regular attendance at the school rose much beyond that number. The program had been prepared with great care and wisdom and was carried through with perfect smoothness and without alteration in a single particular—a fact which speaks volumes for the wise and careful management of Rev. J. C. Robertson of Milltown, the convener of the Presbytery's committee.

During the first week the outstanding features of the school were two valuable courses of study. The one, by Rev. A. H. Foster of St. John on "The Divided Kingdom" covered the most illuminating number of the period covered by the Sunday school lessons for the current half year. The other by Prof. W. C. Murray, of Dalhousie University, was a series of studies in "Child Mind," in which the lecturer led his hearers into fields of knowledge hitherto unexplained by many of them.

No other addresses of great value and interest found a place on the programme of the first week, one by Rev. G. D. Ireland, of Woodstock, on "Literature in the Bible," and the other by Rev. J. J. McCaskill, of Port Kent (Me.), on "Culture and Practice in Bible-Class Teaching." The latter has already appeared in *The Telegraph*. On Sunday the pulpit of St. Paul's church was occupied at both services by Rev. Principal Falconer, Litt. D., of the Presbyterian College, Halifax, who preached a scholarly and strong sermon. In the afternoon a most creditable exhibition of practical Sunday school work was given by the Sunday school of St. Paul's church, under the leadership of its excellent superintendent, A. H. McFarlane.

The Second Week.

During the second week the larger share of work devolved upon Principal Falconer, who conducted a series of studies in the Life of Jesus Christ, as recorded in the

GOSS IS FREE

Second Stage of Settlement Adultery Case is Reached

Frederick Goss is again a free man compact under terms of which he has given his liberty with his own woman with whom he lived, an acquittal. Mrs. Goss came here from New Brunswick and had issued warrants for her husband and Beatrice Patience, who lived with him. The charge, "The woman was arrested and held in custody, but in a few days she was released." Then came propositions of a divorce which finally reached an agreement between the woman and her husband and her parents, who were returned to her husband and wife in the fall of 1901. She was then brought to St. John and set at liberty.

A New Song.

The *Telegraph* has received from publishers a copy of a new song from the States, and is sung nightly in the home of Miss Pauline. The title "It was Summer Time in Dixie" The chorus runs:

It was summertime in Dixie, when I kissed the fairest flower,
It was summertime in Dixie,
When I kissed the fairest flower,
It was summertime in Dixie.

It is stated that nearly 300,000 copies of this song were sold within a few days of its issue. It is published by the Theatrical Music Supply Co., 46, W. 28th St., New York, at 25 cents per copy.
