"Succeeds well in seizing on the salient points of the words of the Royal Prescher, and in bringing them home to present duty."—Glasgow Daily Review, Feb 6, 1871.

"Characterized by directness of aim, sound sense, and right appreciation of the sacred writer's meaning."—The Preachers' Lantern, (London), Feb. 1871.

"It is a good book of sterling value."-The British and Foreign Ecclesiastical Review, April 1871.

"His Book may be recommended as worthy o take a place in the Homiletical Literature of coclesiastes," - British Quarterly Review, April 271

"The production of a highly cultivated mind.

We have read several works on Eccleiastes, and well remember the pleasure with which years ago we perused the 'Royal Preacher,' but for fine criticism, comprehensiveness of thought, striking illustration and unostentatious, yet eloquent and forcible style, The Wispon of the King, we think, surpasses them all."

M. Croix Courier, March 6, 1871.

"The volume is not an unworthy companion f Dr. Buchanan on the same book."—The Ho-ilist (London), April 1871.

"A series of charming Essays. . . Each chapter branches out into innumerable topics of a secondary and collateral nature, giving to the work a boundless diversity enriched with stores of ethical as well as of spiritual wisdom, evincing at once acute observation of social life and of human character, and containing the noblest lessons for practical guidance. Our author's style is remarkable for its free, unconstrained flow, almost collequial at times, but invariably signalized by elegance, force, adaptation to the subject, and not seldom by originality of thought in combination with terseness and beauty of expression. . There is about it a freshness, as well as a fullness of practical teaching, rarely to be met with in ordinary Biblical commentaries."—Londonderry Standard, Feb. 15, 1871.

"This is a bright, breezy book, both interest

"Every portion of the work indicates ex-tensive scholarship and mature thought."— Belfast Northern Whig. April 8th, 1871.

Belfast Northern Whig. April 8th, 1871.

"The force, raciness and robust manliness of Mr. Bennett's style and mode of treatment will arrest attention and excite interest in quarters where preaching or writing of the average quality would fall flat and dead."—Home and Foreign Record. March, 1871.

"So plain yet so suggestive, so practical yet so profound are these Lectures that while vou read them you feel their deep ruth and reality; that you are in contact with realities both visible and invisible; that you are in close contact with the beating heart of nature and humanity, and that all their life and hope flow

Head Quarters, March 1st, 1871.

"The writer is evidently well acquainted with the literature of his subject, and that acquaintance reveals itself almost unconsciously in every page. There is no ostentation of reading or learning, but there is everywhere the gleaming forth of light which cannot be hid.

The style is simple, intelligible, graceful. It shows at once that Mr. Bennet is a man of literary culture, who can express his thoughts with scholarly chasteness and good taste. We could not open a page without meeting some thought vigorously expressed. The work is eminently fresh and readable." — Pres. Witness, Hatwax.

"Hayrarals in the treatment of his theres."

"He reveals in the treatment of his themes strong common sense, a firm grasp of thought, a logical acumen and a clear insight into human character. Even when dealing with trite ideas he imparts to them a novelity and interest by which they are lifted into an importance they scarcely deserve. The style throughout is lucid, pure, compact, forcible,—and it is his own—the garb of his own thinking. We have met in our perusal of the book with numerous paragraphs of finished and brilliant rhetoric—fine specimens of pulpit oratory. He is never tame nor tiresome. We have not found one slip shod sentence in the volume."—Christian Visitor, (Baptiet) March 6th, 1871.

"We were not prepared to find him writing."

"We were not prepared to find him writing in such a finished style and issuing such a volume as the result of certain preparations made for an evening lecture to his congregation." If all his pulpit perfermances are equal to these, his people have reason to rejoice in the Providence which guided his steps to them."— Evangetical Witness, May 1st. 1871.

"This is a remarkably thoughtful, volid book Mr. Bennet is evidently at home in Metaphysics and Ethics, and he is a shrewd observer of human nature in its ordinary manifestations; consequently he ranges over the lessons of the Preacher with a power of illustration which shews his mastery of the subject. The style is close and direct, and yet so lucid, that any reader may understand every sentence in the volume.

It will, we doubt not, take its place, as it ought to do, among our household expositions of this treatise of observation and Jewish wisdom"—The Presbyterian (Philadelphia), May 20, 1871. REGISTER GRATES,

"The lessons to be learned are drawn with a master's hand, and are expressed with a combined force and beauty that we have rarely seen surpassed in the production of any author. The ordinary reader will find noth ng that is above his comprehension, and yet it would be difficult to find a common-place thought or form of expression. A combination of these requisites we deem the highest merit a writer can possess. "We will be much disappointed if the book do not command a wide circulation. Wherever a sound literature is felt to be a deside atum, The Wisdom or the King has but to be known to be prized as a work that the world will not willingly let die."—Saint John Telegraph and Journal." "THE WISDOM OF THE KING is well worth careful reading. Indeed you cannot read much of it at once. There is a constant play of fancy about the thoughts, and often the very words, that is admirably suited to the Scripture book, of which this is an exposition, but which demands such constant attention on the reader's part that he gets tired, for he does not know where it is to end. The style is compact, lucid, often sparkling and epigrammatic, the sentence cut sharply, but with a poetic full ness of original illustration that redeems them from all hard ness."—Halifax Monthly Record, (Church of Scot land).

The islands in question contain three thousand six hundred square miles, and a native population of thirty thousand. The people are copper colored, and the productions are cotton, coffee, sugar cane, dye-woods and every species of tropical fruits and plants. The Australian mail steamers have selected the islands as a port of call for coaling purposes, and men have gone there to erect buildings and construct wharves. The natives are friendly and Christianized, American missionaries having been there twenty years.

ROBINSON & RALSTON. GOLD 7-30 LOAN.

A profitable and secure Investment THE Worthern Pacific Railroad Companyoffers

to the public an investment security which combines the ready negotiability, the conveni-ence, and the high credit of a first-class Railroad Bond, with the solidity and safety of a Real Estate Mortgage on Land worth at least twice the amount loaned.

Traffic. As officially reported, the gross earn range of the present Pacific Railroad (Union and Contral) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent, is from Local business, and, it is stated, fully 55 per cent, or nearly Nine and a Half Millions, are not over converting areas of the second Millions are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a dividend of more than 9½ per cent. on its total cost. With its great and unquestioned advantages in distance grades a limits and triadvantages in distance, grades, climate and tri-butary fertile country, the Northern Pacific is assured of a vast and profitable business from he outset, with a large increase for the future The Value of Land Grants. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is \$7.04 per acre—the highest average of any grant being \$13.98, and the lowest \$3.07. With few exceptions, the average selling price has steadily increased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable

nave seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7.04 per acre, they will yield more than \$161,009 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant (\$3.07), they will produce more than \$70, 000 per mile. These facts regarding Pacific Railroad earnings, and the market value of Railroad Lands, as shown by actual sales to settlers, show the three-fold security of North-ern Pacific Railroad Bonds. Construction. The road is now completed across Minnesota, (255 miles); work is progressing westward through Bakota, and 65 miles are under construction on the Pacific coast. Including purchased lines, the Northern Pacific Company now has under its management 575 miles of finished track.

miles of finished track. Contracts are let for the construction of 635 miles more, to be finished before the close of 1872.

The 7-30 Gold Bonds. The first mortgage hands of this contracts are let for the construction of 635 miles more, to be finished. Ine 1-30 Gota Bonds. The first mortgage bonds of this company, which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features:

1. They are exempt from United States tax; the Principal and Interest are payable in gold—the principal in 30 years and the interest series. the principal in 30 years, and the interest semithe principal in 30 years, and the interest semi-annually at the rate of 73-10 per cent. per annum, Denominations, from \$100 to \$10,000. Present selling price—par-and accrued interest in United States currency at present rate of gold (100) these bonds yield 8 per cent gold

interest.

2. The bonds are a first and only Mertgage on the Road, its Equipments and Eernings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each of the Road will average 23,000 acres to each mile of track.

3. They are at all times receivable at 10 per cent, premium (1.10), in payment or exchange for the Company's Land at market prices—a provision which practically gives the holder the

provision which practically gives the holder the power of foreclosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bendhold rs. (Messrs. Jay Coeke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon

if necessary.

Exchanging 5 20s. In view of the ability and Exchanging 5 20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,—\$140,000,000 having been called in for cancellation since September 1st—many holders of 5-20s are exchanging them for Northern Pacifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third, All marketable stocks and bonds will be received at current prices in exchange for received at current prices in exchange for Northern Pacific Seven-Thirties without expense to the investor.

Westmorland
GENTLEMEN,—
At the request of many friends in different sections of the County who believe that the affairs of the people of our Province have not been managed by the present Executive with proper regard to their importance, and that a system of stricter economy should be adopted in the administration of the Government, I shall be a candidate for the present vacancy in the representation of this County.

If elected I shall at all times give my utmost attention to the Local affairs of every section of the County and in every way further the interests of this my native County and the Province generally. A PPLICATION will be made to the Legislature of New Brunswick, at its next session, to obtain a charter for the construction of a line of Railway from a point on the Western Extension Railway, near Harvey, to a point on the New Brunswick and Canada Railway, near Canterbur, in the County of York.

(b.) The balance, by an equal rate per pupil according to the average number of pupils in attendance at School, and the number of teaching days the School has been open. The Trustees of Districts recognized as poor Districts in any year, to receive, in this latter apportionment, special aid not exceeding one third more per pupil than the Trustees of other Districts within the County.

One-half of the County fund is to be apportioned and paid semi annually.

No public moneys will be received by Dis-T. R. JONES & CO. READING FOR ALL One-halt of the County fund is to be apportioned and paid semi annually.

No public moneys will be received by Districts which fail to establish Schools under the Act. It will be observed that the amount of Provincial and County moneys to be expended in any District in eaid of Schools will depend almost exclusively upon local exertion, or the direct efforts made by the people of the several Districts in maintaining their own Schools. The sum to be received by the Teacher from the Province is definite, but the exact amount that will be received by the Trustees from the County Fund on account of the average attendance of pupils, cannot be known at the time of the School meeting. The meeting should, therefore, be careful in voting its estimates to authorize a sum amply sufficient to enable the Trastees to meet the liabilities of the School year. Any balance remaining in the hands of the Trustees, is, of course, t, be carried to the credit of the next School year, while any deficit arising from an anthorized expenditure may be carried forward and provided for in the estimates of the following year.

The first disbursement of the County Fund will be apportioned on the School attendance made between January 15th and April 30th, inclusive.
