CENTREVILLE NEWS

Easter Sunday passed off very quietly here. The weather was cold and disagreeable and by actual count only one brand new Easter hat was in evidence at Sunday morning service. All the pastors preached sermons based on the resurrection at the morning service.

There was a sacred concert in the evening in the Baptist church, the best yet, and there have been some good ones in the past. The musical program was excellent. Mrs. S. Johnston sang a solo "The Holy City." A duet, "At the Dawning of the Day," by Miss Burpee and Mrs. Johnston was much appreciated. There were various choruses by the children, all sung in a manner that showed an abundance of practice. The recitations and exercises by the young ladies and children were all interesting and put on without a hitch. Miss Mary Harold excelled herself in her recitation "The church and the world." The musical part of the program was under the direction of Mrs. W. B. Webb while Mrs. F. D. Tweedie looked after the literary part. The ladies deserve great credit for their painstaking drill of the children. The church was artistically decorated with potted plants, green and lilies innumerable. The collection, amounting to \$15, was for Missions.

G. L. White is seriously ill. His sister, Mrs. A. Humble of Moncton, is here to see him.

Miss Kathleen O'Hara is home for the Easter holidays.

Miss Pertis Reid is home from Normal School for Easter vacation.

Miss Vanwart, our popular primary teacher, is spending her vacation at her home in Rockland.

Mrs. Robert Dickinson and baby are home from Woodstock.

Mr. and Mrs. Smith, Woodstock, spent Sunday here at the hotel with Mrs. Smith's mother.

Harry Hagerman has moved into the tenement over B. B. Estabrook's store.

Amos Downey has moved the old restaurant up alongside his old shop and will later use it for a blacksmith shop.

W. Bruce, manager of the Bank of Nova Scotia, spent Easter holidays in St. John.

Miss Marguerite Campbell is visiting in Woodstock.

Howard Reid and Amos Downey have each bought new pianos.

The Valley train did not reach here until 1.30 Sunday morning. Delay was caused by a land slide at Kingsclear.

John Gilland is soon to move to East Florenceville and will there be employed by B. F. Smith.

Mrs. J. E. Alexander spent Monday in Woodstock.

Roland O'Hara left for Fredericton Monday where he is to work in the munition factory.

Don't Be Dyspeptic

The dyspeptic has thought only of the stomach when the real source of trouble is in the Liver, Kidneys and Bowels. Dr. Chase's Kidney-Liver Pills thoroughly cleanse and purify the digestive and excretory system and in this way put the organs of digestion into splendid working condition. A little patient urging on of these organs when sluggish will restore the habit of healthful digestion.

A. R. FOSTER IS APPOINTED SHERIFF

Many Congratulations are Offered a Capable and Experienced Peace Officer

The appointment of Albion R. Foster to the High Sheriff's office is certainly a fitting one, and even his political adversaries find no fault. No one is surprised. Although there were several aspirants for the post none could so well qualify as the new incumbent.

Albion Foster was born at Middle Simonds just 44 years ago.

SHERIFF A. R. FOSTER

the son of George Foster who filled the position of deputy sheriff for 25 years. When he was 22 years of age Albion was appointed deputy sheriff by the late Sheriff Balloch, and was reappointed year by year until the Hazen government came into power in 1908, when his head was among the first to go to the block. During his long experience he developed into a most capable officer and became known for his efficiency all through the river counties. In 1908 he was appointed Chief of Police having jurisdiction along the construction of the N. T. R., but was relieved of this position when the Liberal government was defeated in 1911. Subsequently Mr. Foster served with the C. P. R. department of investigation. Therefore no one is going to contend that he has not sufficient experience, as well as natural adaptability for the new job.

Sheriff Foster was sworn in on Friday and immediately appointed Hedley V. Mooers of Woodstock as his deputy, who will also act as jailor. Both new officers are deserving and receiving hearty congratulations from all quarters.

The county sheriffs are appointed on the first of April, and hold office for one year.

Action for Cruel Treatment of a Dog

"Dogs delight to bark and bite," an ancient and orthodox hymn writer tells us, and when Frank Burlock of Bannock met Earl Phillips' dog near Coldstream bridge, and the dog showed a fine set of natural teeth, and emitted a deep and minatory growl—as Burlock claimed—he promptly threw an axe at it and wounded it so severely that it had to be killed.

In consequence Burlock found himself in magistrate Cameron's court on Saturday. Charged with wilfully wounding the dog, and about half of Bannock and surrounding country were present as interested spectators. M. L. Hayward appeared for Phillips the complainant, and J. R. H. Simms the Bath barrister represented the accused.

The evidence for the prosecution showed that the dog was less than a year old and of a playful and harmless disposition—that Burlock admitted that he wounded the dog and failed to give any valid excuse.

Burlock the accused called John Burlock, Abiatha Burlock, George Burlock, Wallace Burlock and Mrs. Jane Ross to prove that the dog was a "public danger."

At the conclusion of the evidence eloquent and fluent addresses were delivered by counsel and judgment will be given in a few days.

Vol. VIII. APR. 12, 1917 No. 43

A GOOD APPOINTMENT

The temperance people of New Brunswick will now see how unfounded and how grossly unfair was the charge made by the Murray government press and speakers that the opposition would not enforce the prohibition law. Ex-Premier Murray himself stands condemned, for repeatedly on the public platform he made the charge. It is not always safe to make unfounded charges. Mr. Murray did not dream that his government would be beaten, and he felt quite safe. How does he feel now? The Foster government has named as chief inspector the nominee of the Dominion Alliance, a gentleman who has been the trusted and honored agent of the Alliance in this province and who has been engaged in labors connected with prohibition in other provinces as well as in New Brunswick. Nor will the government interfere with the work of the new inspector. A member of the old government is said to have intimated that he would expect to be dictator in his constituency, but the Foster government proposes to enforce the law, and to that end will back up its chief inspector.

It is now the duty of all good citizens also to get behind the inspector, and to do their utmost to make New Brunswick bone dry. If it is found the law needs strengthening, that can be done when the people are clear and urgent. The law should be enforced to the hilt and the storm centre will not be around the saloon men of today, but the boot-leggers and dive keepers of the period after the first of May.—Times.

Three years ago this month, Mr. L. A. Dugal rose in his place in the Legislature and preferred grave charges against Mr. J. K. Flemming, the then Premier. He proved his charges to the hilt. Flemming was forced out of the government and the government was itself forced out by the electorate. Now after a lapse of three years, Mr. Dugal returns to Fredericton and is sworn in as a member of a new administration. Every friend of good government must rejoice that Premier Foster in forming his cabinet took cognizance of the great public service rendered by the man from Madawaska.

Notorious Jim Sirois Again Heard From

A few years ago James F. Sirois, a Frenchman, was arrested here and examined before Justice Barnett on a rather complex charge of fraud. One of his offences was that he represented himself to be a "government inspector of school-children's eyes" and prescribed and sold at huge profit spectacles on the strength of his bogus official capacity. He was tried at Woodstock and was sent to Dorchester for three years penal servitude.

A report came from Fort Fairfield that last week one James Sirois was arrested for obtaining money under false pretences and is held for trial under \$2000 bonds.

A Boom on at Edmundston

R. B. Owens, C.P.R. agent at Edmundston and formerly agent here, was calling on Hartland friends yesterday afternoon and was given the glad hand. He has been spending the holidays with his mother and sisters at Woodstock. Mr. Owens says Edmundston is sure to have a big boom, commencing right away. The Fraser interests are already going ahead with their pulp enterprise and are making big purchases of real estate, land which they will require to use in their undertaking. There seems absolutely no truth in the Gleaner's story that the Fraser's were to transfer their activities from Edmundston to Grand Falls, a report that was reprinted by The Observer last week.

William Crandlemire has purchased a new driving horse.

Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it.

A few drops of a drug called Freeone applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of Freeone, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and use as your wife's dresser.

AUTOINTOXICATION OR SELF-POISONING

The Dangerous Condition Which Produces Many Well Known Diseases.

HOW TO GUARD AGAINST THIS TROUBLE

"FRUIT-A-LIVES" — The Wonderful Fruit Medicine — will Protect You

Auto-intoxication means self-poisoning, caused by continuous or partial constipation, or insufficient action of the bowels.

Instead of the refuse matter passing daily from the body, it is absorbed by the blood. As a result, the Kidneys and Skin are overworked, in their efforts to rid the blood of this poisoning.

Poisoning of the blood in this way often causes Indigestion, Loss of Appetite and Disturbed Stomach. It may produce Headaches and Sleeplessness. It may irritate the Kidneys and bring on Pain in the Back, Rheumatism, Gout, and Rheumatic Pains. It is the chief cause of Eczema — and keeps the whole system unhealthy by the constant absorption into the blood of this refuse matter.

"Fruit-a-lives" will always cure Auto-intoxication or self-poisoning — as "Fruit-a-lives" acts gently on bowels, kidneys and skin, strengthens the bowels and tones up the nervous system.

WOMAN NOW IN PERFECT HEALTH

What Came From Reading a Pinkham Advertisement.

Paterson, N. J.—"I thank you for the Lydia E. Pinkham remedies as they have made me well and healthy. Some time ago I felt so run down, had pains in my back and side, was very irregular, tired, nervous, had such bad dreams, did not feel like eating and had short breath. I read your advertisement in the newspapers and decided to try a bottle of Lydia E. Pinkham's Vegetable Compound. It worked from the first bottle, so I took a second and a third, also a bottle of Lydia E. Pinkham's Blood Purifier, and now I am just as well as any other woman. I advise every woman, single or married, who is troubled with any of the above ailments, to try your wonderful Vegetable Compound and Blood Purifier and I am sure they will help her to get rid of her troubles as they did me."—Mrs. ELISIE J. VAN DER SANDE, 36 No. York St., Paterson, N. J.

INTERESTING LETTER FROM BATTLE FIELD

The following letter, which will be found of thrilling interest, was written to Miss Bessie Flewelling of Avondale:

Some Where In France Feb. 22, 1917.

Dear Friend: Well at last got a few minutes to write in acknowledgment of your very welcome box. I got it some time ago but only just had time to drop you a card. I enjoyed the candy very much. Thank you; you are very kind. So your brother is over here now? If he is in the ranks he has some idea of what it means to face the hardships of trench war. I hope he can stand it and is lucky. If you would send me his address I might get to see him. I passed one battalion that had some 140th boys in it but they were C company and

FOR HEADACHES, BILIOUSNESS, CONSTIPATION, INDIGESTION

Nearly all our minor ailments, and many of the serious ones, too, are traceable to some disorder of the stomach, liver, and bowels. If you wish to avoid the miseries of indigestion, acidity, heartburn, flatulence, headaches, constipation, and most of other distressing ailments, you must see to it that your stomach, liver and bowels are equal to the work they have to do. It is a simple matter to take 30 drops of Mother Seigel's Syrup after meals, yet thousands of former sufferers have banished indigestion, biliousness, constipation, and all their distressing consequences in just this simple way. Profit by their experience. As a digestive tonic and stomachic remedy, Mother Seigel's Syrup is unsurpassed.

Kendall's Spavin Cure The Old Reliable Horse Remedy

THOUSANDS of farmers and horsemen have saved money by using Kendall's Spavin Cure for Spavins, Curb, Ringbone, Splint, Bony Growths and Lameness from many other causes. It keeps horses working. A \$1 bottle may save a horse for you. Get a bottle the next time you are in town. Sold by druggists everywhere, \$1 a bottle, 6 for \$5, also ask for a copy of our book "A Treatise on the Horse"—or write to Dr. B. J. KENDALL COMPANY, Enosburg Falls, Vermont.

I didn't happen to know your brother. I am still all right. Don't you think me pretty lucky? But, believe me, I have plenty of it. It is the nearest to hell a person can get. Still it has some wonderful things about it. Take for instance as a bombardment starts up on a pitch-dark night. Guns going off so talking is almost impossible. Instantly everything is that light it is almost blinding; every shell bursts with a different light, clear from a dull red to a blinding white flash and some almost a blue shade to them; all sorts and shades of flares, some for light and others for signals. Some go up and float along, others go up and burst into different colors; others go round as they go up, all sorts of them. But it takes a fellow's attention when a shell lands along side of him and knocks out two or three of his chums and the concussion knocks down the rest. Believe me there is some jar to them. I have had some pretty close calls, too many to be worth mentioning; but enough: I am here yet. Every one don't get hit. I have seen lots of fellows get hit their first trip in. I always think that looks hard, but it is luck. Some are unlucky. Canada seems good to me now. Won't I enjoy getting back and be among people I know again! If I can manage to get past the next five or six months alright I think I'll be safe after that. It is a dreadful thing this war. I hope there never is another. Just to think, the suffering and hardships it has caused! What fools there is in the world even at this advanced stage of civilization. I expect they worry awful over us boys at home, more than we do ourselves. I hope we both get back safe. Harold is still in "Blighty." He has been lucky. If I get another week in I'll have spent the same length of time in France, he did. Well, Bessie, it is not light enough for me to see whether this paper is dirty or not but I know it must be; every thing else is; but if you really wish me to write it will be enough to answer for a letter. At present I am in the tightest corner I have ever been yet. It is almost impossible to get any writing done. Ever as always your sincere friend

Fred W. McElwain.

THE COST OF GROWING POTATOES

In potato growing provinces like New Brunswick there is always more or less discussion as to what it should cost to grow a good crop of potatoes and statements vary from as low as \$40 per acre to as high as \$125. Naturally there will be much variation in cost according to local conditions and especially to the ability of the land to produce without expensive fertilizing. It should be borne in mind that it will usually cost the potato spe-

cialist more to grow his crop (than it will the farmer who follows mixed farming and makes his potato crop merely one of his many activities).

With a view to getting actual figures under the average conditions in New Brunswick, a careful record has been made at the Dominion Experimental Station, Fredericton, for the past two seasons with an acre of land set apart for this particular purpose.

Neither rent of land nor depreciation of machinery was included in the calculation, for these two are items that are largely in the hands of the individual grower. As a general rule, however, it would be fair to charge as rent, 10% of the value of the land, and special potato machinery will depreciate from 25 per cent to 50 per cent per year if used steadily for ten days each season. In 1915, the depreciation of the potato digger alone, used at the Experimental Station, was \$6 per acre.

In 1915, the acre was planted with Green Mountain, Irish Cobbler and Empire State. Seed, cultural operations and harvesting cost in all \$67.93. Eighty barrels of 165 pounds each of marketable potatoes were obtained and sold at \$1.75 per barrel making a profit over cost of production of 90c per barrel. Seven barrels of culls were sold for 35c, so that the total profit for the acre amounted to \$75.50.

This land was very wet naturally and during the very rainy weather of June and July was several times flooded, causing missed hills and inferior plants generally. This land was originally cleared many years ago and after cutting hay for thirty years it was allowed to grow up to spruce, birch and alder. It was again cleared in 1913 and grew buckwheat in 1914.

In 1916, an acre was planted with Green Mountain seed.

The total cost amounted to \$92.33, the increase over 1915 being due to high priced seed, higher priced fertilizer ingredients and very dear copper sulphate.

One hundred and twenty barrels of marketable potatoes were harvested and could have been sold at \$2.25 per barrel, making a profit per barrel over cost of production of \$1.56; plus six barrels of culls at 50c, \$3, making a total profit of \$190.20.

Market price when potatoes were dug was \$2.25 per barrel.

Had a Nervous Breakdown, Could Not Sleep or Work

Is Now Cured and Attributes His Recovery to the Use of Dr. Chase's Medicines.

Some splendid results have been reported to us from the combined use of Dr. Chase's Kidney-Liver Pills and Nerve Food. In complicated cases they work together with great success. While the Kidney-Liver Pills arouse the action of liver, kidneys and bowels, and so overcome derangements of these organs, the Nerve Food enriches the blood, strengthens the nerves and builds up the system in a general way. Mr. R. B. Hillman, Purbrook, Muskoka, Ont., writes: "About four years ago I was all run down and could not work, and as to writing a letter, I could not do it on account of my hand shaking so badly. My nerves were unstrung and I was troubled with a nervous breakdown. I could not sleep soundly and would start up so suddenly as to almost jump out of bed. My kidneys were bad, too, and I had awful pains in the back all day. I doctored with our family doctor, but he did not seem to know what I needed. I was recommended to try Dr. Chase's Nerve Food and could sleep well three nights after starting the use of the Nerve Food and Kidney-Liver Pills. I take great pleasure in recommending these medicines, as I have proved that they do all that is claimed for them."

When used together the Nerve Food should be used after each meal and at bed-time, and the Kidney-Liver Pills only as often as is necessary to keep the bowels in healthy condition. Dr. Chase's medicines are for sale by all dealers, or Edmundson, Bates & Co., Limited, Toronto.

A Sidelight on the Cost of Living

An interesting sidelight on the reason for the high cost of living appeared recently in the Toronto World. Its place of origin was the Port Hope. It appears that the farmer entered the place of business of a carriage dealer and announced that he wished to purchase a buggy. when told the price was \$90, he said: "My father bought a buggy exactly like that for \$60, 20 years ago." The dealer remembered the sale also, and said: "Your father turned in 300 bushels of potatoes to pay for it. I will do better for you than I did for your father. You bring in your 300 bushels of potatoes and I will let you have in return one \$90 buggy, one \$75 wagon, one \$20 suit of clothes, one \$20 dress, one \$5 baby dress, one crib, one \$3 box of cigars, \$10 worth of sugar, \$10 worth of coffee, \$10 worth of tea, \$100 worth of gasoline, \$17 worth of lubricating oil." The total figured up \$365 as the present value of 300 bushels of potatoes. It is stated that farmer climbed back into his motor car, with the words, "I guess I haven't any kick coming on the high cost of living. Send out the \$90 buggy."

DEATH SADDENS KNOXFOD HOMES

Amazed horror, followed by a surge of deepest sympathy swept the place on Thursday afternoon, March 29, when news came of the death of Mrs. Harry Toms at an isolation hospital in Douglas, Arizona, on March 22, of small-pox.

Mrs. Toms was Bertie, second daughter of Mr. and Mrs. L. O. Worserton of Upper Knoford and before her marriage was a teacher holding a first class license and with much experience in Carleton county schools.

The little colony of two score or more of N. B. friends residing in Douglas were inexpressibly shocked and grief-stricken that one of their number, so highly regarded as a capable, amiable home maker and friend, should be snatched thus from their companionship to sicken and die so far from her relatives.

Three young men friends of Knoford, Howard McGrath, Henry Wheeler and Charles Lawrence, accompanied the sorely bereft husband at the graveside, while Rev. E. W. Simonson also a Carleton county man, and at present rector of Douglas Episcopal church, read the burial service.

A memorial service was held in Lower Knoford United Baptist church on Easter evening by the pastor Rev. W. J. Hurlow.

On the heels of what was a real neighborhood sorrow came another shock to our senses and grief to our hearts.

On Friday evening, March 30, the wife of Stanley Burke, the bride of a year and a day, crossed over into the Beyond leaving an infant son a few hours old.

Mrs. Burke was Bina, only daughter of Mr. and Mrs. Arch Tracey of Royaltown, near Boundary, Maine, and beside her sorrowing parents, a brother, Norris, in the U. S. west, survives.

The family into which she went lovingly welcomed her, tenderly cherished her and truly mourn her. The burial took place in Upper Knoford cemetery.

300 bushels of potatoes to pay for it. I will do better for you than I did for your father. You bring in your 300 bushels of potatoes and I will let you have in return one \$90 buggy, one \$75 wagon, one \$20 suit of clothes, one \$20 dress, one \$5 baby dress, one crib, one \$3 box of cigars, \$10 worth of sugar, \$10 worth of coffee, \$10 worth of tea, \$100 worth of gasoline, \$17 worth of lubricating oil." The total figured up \$365 as the present value of 300 bushels of potatoes. It is stated that farmer climbed back into his motor car, with the words, "I guess I haven't any kick coming on the high cost of living. Send out the \$90 buggy."

The "Big Value" of this New McLaughlin Four is the talk of Canadian Motorists.

106 INCH WHEEL BASE

4 INCH TIRES

DELCO STARTING & LIGHTING

GENUINE LEATHER UPHOLSTERING

FULL "U" DOORS—EXTRA WIDE

TONNEAU SEAT 48 INCHES WIDE

The New McLaughlin Four is powered high in proportion to its weight, which is under 2100 pounds. This gives you all the speed you want with enough reserve power to take the hills on high gear.

The car was designed to be an efficient, economical, easy running and easy riding automobile for the man who does not care to invest in a six-cylinder model and it fulfills all these functions admirably.

The specifications alone are sufficient evidence to the man who knows motor car values. Read them and compare them point by point with other makes of cars selling under \$1000.00.

We already have many orders for this model and our output for 1917 is fixed. The demand will doubtless be greater than the supply, but orders will be filled in rotation. Send for literature.

During the past winter she spent several weeks at the Florenceville hospital but there she gained only temporary relief.

She is survived by her husband and five children who mourn the loss of a faithful wife and affectionate mother. The sons are Rex, at home, and Isaac, of the 104th Batt., C. E. F. The daughters are Mrs. Ira Parkhurst of Unity, Me., Mrs. Elbridge D. Packard of Bridgewater, Me., and Miss Beatrice at home.

A Builder of Health

Nothing can be of greater assistance in building up the system than Dr. Chase's Nerve Food, for this food-cure forms new, rich blood, and nourishes and restores the feeble, wasted nerve cells. Gradually and naturally the body and mind regain vigor and energy, and you feel again the joy of living which comes only to people in good health.

Had a Nervous Breakdown, Could Not Sleep or Work

Is Now Cured and Attributes His Recovery to the Use of Dr. Chase's Medicines.

Some splendid results have been recorded to us from the combined use of Dr. Chase's Kidney-Liver Pills and Nerve Food. In complicated cases they work together with great success.

While the Kidney-Liver Pills arouse the action of liver, kidneys and bowels, and so overcome derangements of these organs, the Nerve Food enriches the blood, strengthens the nerves and builds up the system in a general way.

Mr. R. B. Hillman, Purbrook, Muskoka, Ont., writes: "About four years ago I was all run down and could not work, and on to writing a letter, I could not do it on account of my hand shaking so badly. My nerves were unstrung and I was troubled with a nervous breakdown. I could not sleep soundly and would start up suddenly as to almost jump out of bed. My kidneys in the back all day. I had awful pains in the back all day. I doctored with our family doctor, but he did not seem to know what I needed. I was recommended to try Dr. Chase's Nerve Food, and could sleep well three nights after starting the use of the Nerve Food and Kidney-Liver Pills. I take great pleasure in recommending these medicines, as I have proved that they do all that is claimed for them."

When used together the Nerve Food should be used after each meal and at bed-time, and the Kidney-Liver Pills only as often as is necessary to keep the bowels in healthy condition. Dr. Chase's medicines are for sale by all dealers, or Edmanson, Bates & Co., Limited, Toronto.

John E. Stewart,

Plaster Rock, N. B.

Dear Sir: Reference to bulletin 239 on potatoes by C. A. Zavitz, B. S. A. of the Ontario Agriculture College, page 48, just to hand shows that after experiments conducted at Guelph, Ont. for five years, the average results give an increase of 23 barrels per acre per annum in favor of freshly cut seed potatoes which were coated with land-plaster, or gypsum, over those which were left untreated; also, that this was superior to slaked lime, the percentage of crop marketable being higher.

Experiments carried on on through the cooperation of the Experimental Union in some twenty other places throughout Ontario obtaining 97 good reports therefrom in the five years during which the test was being made disposes of any argument as to soil conditions at Guelph being especially favorable to his experiment, and we know also that the section already is full of lime, there being a number of lime-kilns in operation a short distance from the farm.

You can cut the potato seed one month before planting and coat them with Tobiex Gypsum Lime; it is this which causes the seed to heat and rot in the ground. The longer you keep the life off the seed in the ground, the larger the potato will grow. Notice when digging; if you find the seed still alive, you find large potatoes.

The above, only confirms what I have said as to the value of the plaster rock deposit in the province from an agricultural standpoint.

Can we not do something to impress this view upon the farmers of New Brunswick and get them to make a larger use of this material?

Yours truly,

H. P. TIMMERMAN,
Industrial Commissioner
