

European Intelligence.

Arrival of the Arabia.

The steamship "Arabia," which sailed from Liverpool on the 22d Nov., arrived at Halifax on the 3d inst.

The American ship Gen. Dunlop, while passing to the Eastward, close to Europa Point, missed stays, went ashore, and became a total wreck.

GREAT BRITAIN.

The ships James Baines and Lightning had arrived at Liverpool with one million and three hundred thousand pounds in specie. The London "Times" anticipates an early return to the rate of 6 per cent; but says that much will depend on the next advices from China and India.

The Bank returns from the week show considerable increase in bullion and in unemployed notes. The bullion is now £9,684,167, and the notes £3,606,815.

THE ATLANTIC TELEGRAPH.

The British Government has at the request of Cyrus W. Field, of New York, ordered steamers to be fitted out under efficient officers to examine thoroughly the coasts of Ireland and Newfoundland, and to sound across the Atlantic between these ports, to ascertain the best place for laying and landing the Submarine Telegraph Cable. The Government has further agreed to guarantee four per cent. interest per annum on the whole capital required to manufacture and lay down the cable between Newfoundland and Ireland.

Contracts for the whole extent of the Atlantic cable were signed in London on Tuesday the 19th, one half to be manufactured by Glass & Co. of London, and the other by R. S. Howell, at Liverpool. It is all to be completed and placed on board two steamers ready for sea on or before the 21st May next, and by the 4th July next it is confidently expected here that we shall be in telegraphic communication with the United States.

FRANCE.

PARIS, Friday 21st.—Everything to-day announced a vigorous reaction in the French Funds which closed to-day as follows:—Three per cents 67 to 65; four and a half per cents 81f. 60.

ST. PAUL.—A Republican movement has taken place in Spain, at Malaga. On the 17th the Garrison was attacked by persons proscribing the Republic. The troops resisted, and an order was soon re-established. Five of the insurgents were killed. The Garrison had seven men wounded.

MADRID, Nov. 20th.—The force of the artillery is fixed at 12,000; the Engineers at thirty-six hundred, and the Cavalry at twelve thousand.

Tranquility is restored at Malaga. There have been slight disturbances at Madrid. Numerous arrests have been made among the lower classes.

THE EAST.

Advices from Constantinople of the 13th, state that M. D. Couteffier had again endeavored to obtain from the Porte the dismissal of the English ships from the Bosphorus.

The attempts of Feroukh Khan had failed to effect with Lord Radcliffe a settlement of the disputes between England and Persia.

An English frigate had arrived at Constantinople, and other ships were expected.

The following is a partial list of the Ottoman Ministry:—Rudschid Pacha, Grand Vizier, President; Asih Pacha, ex-Grand Vizier, Minister of Foreign Affairs; Riza Pacha Seraskier, Minister of War; Mustafa Pacha, Minister without Portfolio. The names of the other Ministers were not known.

SPAIN.

The reported arrangement between the Spanish Bourbons has failed.—The Queen of Spain was kept in the dark as to the real project of the Clerical party which was her own eventual abdication, and the marriage of her daughter to the eldest son of the Infanta Don Juan.

The latest accounts from Spain report the Malaga insurrection as having no political aim, but as simply intended for smuggling purposes. It is understood that all the prisoners have been executed.

NAPLES.—The Governor of Palermo has ordered a strict surveillance to be exercised upon all French and English commercial vessels.

It is probable that within a day or two the Neapolitan question, which has remained in a state of stagnation for a long time, will be advanced a stage, one way or the other.

DENMARK.

The Prussian correspondence of Berlin says:—We learn from a good source that the last notes sent to Copenhagen by Prussia and Austria fix the 10th December as the period when those powers will have the question of the Duchies before Germanic Diet.

MARKETS.

Consols 92½. Cotton firm; Bows 7½; Mobile 7½; Orleans 7½. Breadstuffs dull, with a declining tendency.

TIMBER.

Deals £9 to £9 15s.

THE TRANSATLANTIC TELEGRAPH.

The British Government has agreed to guarantee four per cent. interest per annum on the whole capital required to manufacture and lay down the submarine cable between Newfoundland and Ireland. Contracts for the whole extent of the Atlantic cable were signed in London on the 19th of Nov., one half to be manufactured by W. Kuper, Glass & Co. of London, the other half by R. S. Howell & Co. at Liverpool. It is all to be completed and placed on board two steamers ready for sea on or before the

31st day of May next, and by the 4th of July next it is confidently expected that Europe will be in telegraphic communication with America.

THE RECIPROCIITY TREATY.

The New York Herald's Washington Correspondent writes that a movement will be made early in the session of Congress (assembled on the 1st inst.) for the amendment of the Reciprocity Treaty or the repeal of the Act giving it effect. To this end a call will be made on the Secretary of the Treasury for information as to the working of the treaty, and it is believed that it will show that the United States have lost largely as far as revenue is concerned, while the Canadians have received all the benefits. The amendment sought is to enlarge the free list between the two countries to all articles actually grown by each respectively. This will include tobacco and sugar, which are now excluded, and from the duties on which the Canadian Government derives a large portion of its revenue, and if it refuses to accept this very proper amendment, then notice is to be given so as to put an end to the treaty. Some of the most prominent members of both houses feel a warm interest in the subject, and there is little doubt that the matter will be successfully pressed.

THE VICTORIA BRIDGE.—This Bridge, which we need hardly say, crosses the St. Lawrence a short way above Montreal, will be one of the great wonders of the world.—It was commenced in July 1854, and is under contract to be completed in 1860.—The total estimated cost was originally about \$7,000,000; but recently the plans have been amended so as to reduce it to a little over \$6,000,000. The extreme length of the bridge, including the abutment at each side, will be 7,000 feet, or rather more than two and a quarter miles. There will be 26 piers of solid masonry supporting the iron superstructures of the bridge. The centre span will be 330 feet, and the other spans each 242 feet wide. The weight of iron in the tubes will be 8,000 tons, and the contents of the masonry 30,000,000 cubic feet, when the whole structure is finished. The famous Britania Tubular Suspension Bridge, crossing the Menai Straights, and now one of the curiosities of the world, will scarcely be a circumstance to it. Including the embankments at each side, the total length of the bridge from river bank to river bank, will be 10,281 feet or very nearly two miles.

Nine piers of the bridge are now completed, but are as yet unconnected by any road way. They present a plain surface on the two sides and lower end; the side facing the current being of a wedge shape, in order to break and turn aside the blocks of ice, to provide against whose destructive power has been the great engineering difficulty of the enterprise.—[Toronto Globe.]

ECONOMY OF THE ARMS.—The horse-shoe nails dropped in the streets, carefully collected, resawed in the form of swords and guns. The clippings of tailors' shops mixed with the parings of horses' hoofs, or cast-off women garments, appear afterwards in the dress of courtly dames. The bones of dead animals yield the chief constituents of lucifer matches—phosphorus. The dregs of port wine, carefully rejected by the port wine drinker in decanting his favorite beverage, are taken by him in the form of Seidlitz powders. The washings of coal gas re-appear carefully preserved in the lady's smelling bottle as an ammoniacal salt.—[Scientific American.]

PROGRESS AND EXTENT OF THE PHOTOGRAPHIC ART.—The city of Paris alone contains one hundred and ten establishments exclusively occupied in the manufacture of materials used by photographers, and some of them employ one hundred and thirty workmen. There are seven hundred photographers in Paris, some of whom execute eighty, ninety, or one hundred portraits a day, the average being five portraits a day by each photographer, costing fifteen cents each, and sold at an average of six dollars. The stereoscope is also a branch of photography in which one Parisian firm has invested one hundred and twenty thousand dollars.

MASONIC.—At the regular semi-annual communication of the Provincial Grand Lodge of Ancient Free and Accepted Masons in and for the city and District of Quebec and Three Rivers, and the dependencies, held yesterday at the Masonic Chambers, St. Francis street, the following brethren were elected to office, and installed in due form by the Right Worshipful the Dep. Provincial Grand Master, Bro. Geo. Thompson:—S. G. Warden, V. W. Bro. Jos. White; J. G. Warden, V. W. Bro. Dean; P. G. Treasurer, V. W. Bro. R. Neill; P. G. Registrar, V. W. Bro. Geo. T. Cary; P. G. Secretary, V. W. Bro. Geo. Vreay; Asst. P. G. Secy W. Bro. H. P. Leggett; S. G. Deacon, W. Bro. C. Tiltone; J. G. Deacon, W. Bro. Weston Hunt; P. G. Dir. of Ceremonies, W. Bro. R. H. Smith; Asst. P. G. Dir. of Ceremonies, W. Bro. J. Lewine; P. G. Sword Bearer, W. Bro. Jacobs; P. G. Organist, W. Bro. A. F. Knight; P. G. Stewards, Bro. C. Secretan, jr. and Leblanc; of "Albion" Lodge 17; Bro. Dupont and Wyatt, of "St. John's" Lodge, 214; Bro. Reeve and Phillips, of "Alma" Lodge 831; Com. of Genl. Purposes, Bro. Jas. Scott and H. P. Leggett; Pursuivant Comtee Bro. J. G. Wyatt and Dupont; P. G. Tyler, Bro. W. Williamson.—[Quebec Mercury.]

Inquest.—Inquest was held at St. Mary's before George L. Hatheway, Esq., on Wednesday the 26th inst., on view of the body of Thomas Bubar, who was accidentally killed by the falling of a tree.—[Head Quarters.]

The Standard.

ST. ANDREWS, DEC. 10, 1856.

THE PRESIDENT'S MESSAGE.

By the U. S. Mail on Saturday, we received a copy of President PIERCE'S annual Message to Congress, which occupies nearly seven columns of closely printed matter in the "Eastern Argus," a Portland paper.—A large part is taken up with a defence of the policy of the Administration with reference to the Slave question. The finances of the country are declared to be in a good condition. The public debt has been reduced to \$90,737,121, which might be paid off in a few months. A reduction of the Customs' revenues is recommended of about \$50,000,000. The Post Office department is in debt about \$2,787,000. The Foreign relations of the Country are said to be in an amicable state.

That part of the Message which has reference to the relations existing between Great Britain and the United States, we give in full. The President says:—

"When my last annual message was transmitted to Congress, two subjects of controversy, one relating to the enlistment of soldiers in this country for foreign service, and the other to Central America, threatened to disturb the good understanding between the United States and Great Britain. Of the progress and termination of the former question you were informed at the time; and the other is now in the way of satisfactory adjustment.

The object of the convention between the United States and Great Britain of the 15th of April, 1850, was to secure, for the benefit of all nations, the neutrality, and the common use of any transit way, or interoceanic communication across the isthmus of Panama, which might be opened within the limits of Central America. The pretension subsequently asserted by Great Britain to dominion or control over territories in or near two of the routes, those of Nicaragua and Honduras, were deemed by the United States not only incompatible with the main object of the treaty, but opposed even to express stipulations. Occasion of controversy on this point has been removed by an additional treaty, which our Minister at London has concluded, and which will be immediately submitted to the Senate for its consideration. Should the proposed supplemental arrangement be concurred in by all the parties to be affected by it, the objects contemplated by the original convention will have been fully attained.

"The treaty between the United States and Great Britain of the 6th of June, 1854, which went into effective operation in 1855, put an end to causes of irritation between the two countries, by securing to the United States the right of fishery on the coast of the British North American Provinces, with advantages equal to those enjoyed by British subjects. Besides the signal benefits of this treaty to a large class of our citizens engaged in a pursuit connected in no inconsiderable degree with our national prosperity and strength, it has had a favourable effect upon other interests in the provision it made for reciprocal freedom of trade between the United States and the British Provinces in America.

"The exports of domestic articles to those Provinces during the last year amounted to more than twenty-two millions of dollars, exceeding those of the preceding year by nearly seven millions of dollars; and the imports therefrom, during the same period, amounted to more than twenty-one millions—an increase of six millions upon those of the previous year.

"The improved condition of this branch of our commerce is mainly attributable to the above mentioned treaty.

"Provision was made, in the first article of that treaty, for a commission to designate the mouths of rivers to which the common right of fishery on the coast of the United States and the British Provinces, was not to extend. The commission has been employed a part of two seasons, but without much progress in accomplishing the object for which it was instituted, in consequence of a serious difference of opinion between the commissioners, not only as to the precise point where the rivers terminate, but in many instances as to what constitutes a river. These difficulties, however, may be overcome by resort to the umpirage provided for by the treaty."

We understand Tenders have been put in from two or three very sound and good parties for the construction of the Railroad commencing at the 32d mile and extending to the 40th mile. Owing to the unavoidable absence of the Commissioner and Manager, on particular business relative to the Company's affairs, we learn that the contracts will not be finally settled until next week. Mr. JOHN PARKINSON has been appointed Clerk to the Railroad Company.

Provincial Grand Royal Arch Chapter.

At a Convocation held on the 26th ult., in St. Mark's Chapter Room, M. E. Companion J. ALLEY, Grand Superintendent, was pleased, by virtue of his authority, to appoint, among others, the following Officers:— M. E. Companion, A. W. SMITH, H. J. AYMAR, J. S. T. GOVE, Scribe E. C. MAGEE, " N. C. MORRISON, Janitor.

Lodges requiring a Chapter, will be furnished with full information on application to the Grand Scribe. By command of the M. E. G. Supt'd. S. T. GOVE, Grand Scribe, Provincial Grand Chapter.

HIBERNIAN LODGE, No. 818.—I. R.—At the Annual Meeting of Hibernian Lodge No. 318, holden Dec. 2d, 1856, the following Brethren were elected Officers for the ensuing year:— Br. J. W. Chanüller, W. M. J. Brookfield, P. M. Chas. McGee, S. W. Wm. Ballantine, J. W. S. Getty, G. Tho. T. Odell, T. D. Graham, S. D. E. De Wolfe, J. D. P. Mabee, Stewards A. Neal, I. G. J. Craig, J. G. J. Bailey, Tyler.

EVENING LECTURES.—Comp. Chase of the "Masonic Journal," has some excellent articles in his last number—original and selected—his remarks upon a proposal to get up a Masonic Lottery, are to the point, and cannot be upset by any Bro. no matter how versatile his genius or high his standing. A masonic lottery, I shaw, the idea even is an abortion. Our worthy Brother advocates evening Lectures, and says:—"Now that the long evenings are come again, we suggest to our Lodges that they get up some Lectures as a means of instruction and amusement.—There is hardly a Lodge but has one or more among its members qualified to write a half-hour's address upon some point connected with Masonry, and suggest they try the experiment. We notice that in some places the plan has been adopted with good success. It tends to awaken enquiry into our history, principles and jurisprudence, and creates an increased interest in all that pertains to the Institution. Choose a committee to invite and engage brethren of your Lodge, and perhaps adjacent Lodges, to prepare and deliver short addresses, from fifteen minutes to one hour each, according to their opinion. Where adjacent Lodges adopt this plan, they might "change works" with each other, and thus secure to each a double number of Lectures.

Try the experiment, brethren, and let us know how you get along." Some few weeks since, it was announced that the Government had matured a comprehensive Emigration scheme, and it gives us pleasure to state that they are about to put it in execution. M. H. PERLEY, Esq., who has been requested to visit England, by Lord Clarendon on Imperial business, has been employed by the Executive to aid in carrying out their scheme. A better qualified and more competent agent could not be engaged for this important duty. Mr. Perley is "the right man in the right place," as he is thoroughly conversant with the resources, trade, soil, climate, statistics and wants of this Province. There can be no question as to his ability to induce a respectable class of emigrants to make New Brunswick their home. We augur the best results from his mission, and congratulate the Government on their appointment of so influential and fit a person as Mr. Perley—whose qualifications are appreciated by the British Government, as he was long since promoted to the important situations of Imperial Commissioner of the Fisheries and H. M. Emigration Officer for New Brunswick.

A NEW MASONIC ARRANGEMENT.—The Masonic Journal says, "The first quarterly meeting of a newly organized association, termed itself the Masonic Board of Relief was held on Monday evening last at Odd

Fellows' Hall, at the corner of Grand and Centre streets, New York. The Board is constituted of delegates from the different Masonic Lodges in the city, and has for its object the relief of destitute widows and children of deceased members of the fraternity. This is a new arrangement, and it is thought will prove much more efficient to accomplish the end aimed at than the old system of having each Lodge make provision for the impoverished widows and children of their respective members.

If there be any of our readers who doubt touching the magic powers of PERRY DAVIS' PAIN KILLER to relieve Pain, we advise them to buy one twenty-five cent bottle of the Agent, and give it a trial. We never yet knew it to fail. Its great sale caused some unprincipled men to put up an imitation, in itself a worthless nostrum; owing to which the genuine is now put up in new bottles, with two fine steel engravings on each bottle.

Holloway's Ointment and Pills.—Another astonishing cure of an Ulcerated Ankle by these Remedies.—Henry Todd, of St. Andrews, suffered with an ulcerated ankle for 14 years, he was a complete cripple with it, and had told twenty different medical men that he would give half his fortune if he could but get cured, yet he still suffered. He was considered beyond human help: however finding none of his advisers could benefit him, he determined to see what Holloway's Ointment and Pills would do, and instead of spending any more of his fortune in consulting medical men, he purchased a few pots of Holloway's Ointment, and a few boxes of Holloway's Pills, and these two remedies in seven weeks made him a thoroughly healthy man, his ankle was completely cured, and he now can walk better than ever he has been able for the last fifteen years.

Married.—At Howard Settlement, Canterbury, on the 18th ult., by the Rev. Thomas Hartin, Missionary, Mr. Daniel Grant, Jr., to Miss Lavinia Elizabeth, daughter of Mr. James Dickinson, all of the above place.

Deceased.—On the 23d ult., at the Pomeroy Ridge Mrs. James McKenzie aged 72 years.—Mrs. McKenzie was a native of Sutherlandshire Scotland.—She emigrated in 1803 married in 1806 and settled in St. James 1810.—Mrs. McKenzie left behind an aged husband who is an Elder in the Presbyterian Church a numerous family and a large circle of friends so lament the loss of one who was endeared to the affections of all by her amiable disposition and gentle manner which she uniformly exhibited in her whole christian course.

Hibernian Lodge, No. 818, Under registry of the Grand Lodge of Ireland.

THE BRETHREN of Hibernian Lodge No. 318, intend celebrating ST. JOHN'S DAY, (27th inst.), by dining together at their Lodge Room. Dinner on the table at 6 o'clock. Transient and Visiting Brethren are invited to attend. THO. T. ODELL, Secy.

Daguerreotype Likenesses. JOHN BELL respectfully announces to the Inhabitants of St. Andrews and Vicinity, that he is prepared TO TAKE LIKENESSES in a superior style, in Rooms adjoining Telegraph Office. Parties wishing a correct Likeness, would do well to call early. St. Andrews, Dec. 3, 1856.

### SHERIFF'S SALES

to take place at the Court House.

Real Estate of Samuel Joy Dec. 6.

To be sold at Public Auction, on Saturday the 6th day of December, 1856, at the Court House in St. Andrews—

All the right, title, interest, claim and demand of Samuel Joy, of, in and to, that **PIECE OF LAND**, situated in the Parish of St. Stephens, lying on the Eastern side of the road leading to Clarke's Point, containing **ONE ACRE** more or less, purchased by the said Joy from Samuel Getchell.

To satisfy an execution at the suit of Seth Kimball, endorsed to levy £45 12 0 Sheriff's fees, &c.

**THO. JONES**  
Sheriff of Charlotte  
St. Andrews,  
Sheriff's Office,  
19th May, 1856.

### "ADMIRAL"

For EASTPORT, PORTLAND, and BOSTON

Steamer "ADMIRAL"

Capt. M. Small

will leave St. John every MONDAY, at Eight A. M., for Portland and Boston, returning leaves Boston on Thursdays. For Freight, or Passage, apply to

**GEORGE THOMAS**, Agent,  
82, Water Street.

**SOUTHERN and WESTERN STATES** and CANADA—Through Tickets to all the principal places on the Southern and Western States and Canada can be obtained at the Admirals Office

St. John, 9th April, 1856.

### Ufford's

#### Smoke Consuming Patent Lamp.

It is arranged to produce, without smoke and with only the purest quality of oil or gas, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements.

Price \$1 25, 50c, &c.

We have one of the lamps in use, and are able to conform to the favorable testimony of the Traveller, having found it answering well to what is claimed for it. Particulars may be obtained from no person who has ever tried one of the lamps could be willing to give it up for ten times its cost, if it could not be replaced. (New England Farmer.

Boston, 117 Court street, head of Sudbury.

### PARKS & FOLSOM,

436, Washington St. Boston

P. & F. would respectfully give notice, that they still continue to manufacture the Melodeon and Seraphine, in a variety of styles, which, in point of finish and tone, are not surpassed by any other manufacturers. Also, the Melodeon Organ, with a sub-bass, suitable for Churches, Vestries and Halls. The public are invited to call and examine before purchasing.

Dealers supplied on favorable terms.

**Honorary Cause!!**

**TESTIMONY**—Mr. Edmond Seeger, an advertisement that the Post might be relied on, applying to DR. BOARDMAN, 294 Washington street, corner of Suffolk Place, BOSTON, was induced to leave home and test the Doctor's skill. I was so deaf that I was unable to hear ordinary conversation; to my astonishment, in twenty minutes my hearing was perfectly restored. I recommend all persons to try the Doctor's new method of cure.

FRANCIS RICHARDSON, of Stoughton, letters, post paid, attended to.

Remedial and Apparatus sent by express.

St. Andrews, April 15, 1856.

### A MARVELLOUS REMEDY FOR A MARVELLOUS AGE!

### Holloway's Ointment.

#### THE GRAND EXTERNAL REMEDY

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to and organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Quilts, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

### ERYSIPELAS, RHEUMATISM AND SCORBUIC HUMOURS.

No remedy has ever done so much for the cure of Erysipelas of the Skin, as this Ointment. Scurvy, Sore Throat, Scrofula, or Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

### SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, suppuration or contraction of the joints, even of 20 years standing.

### PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

- |                    |                      |
|--------------------|----------------------|
| Bad Legs           | Chicongo-foot        |
| Bad Breasts        | Childbirth           |
| Burns              | Chopped hands        |
| Bunions            | Corns (soft)         |
| Bite of Mosquitoes | Cancers              |
| and Sand Flies     | Contracted and Stiff |
| Coco-bay           | Joints               |
| Gout               | Fistulas             |
| Elephantiasis      | Glandular Swelling   |
| Scour              | Lumbago              |

for New Brunswick

### LET US REASON TOGETHER.

### HOLLOWAY'S PILLS.

#### WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the Weak, the Nerves, the Delays, and the Irritation, of all plagues, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

### THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

### DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

### GENERAL DEBILITY, ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may be equal to the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons in delicate health, or where the system has been unpaired, as its invigorating properties never fail to afford relief.

### FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

- |                       |                    |
|-----------------------|--------------------|
| Ague & Fever          | Jaundice           |
| Asthma                | Liver complaints   |
| Bilious complaints    | Lumbago            |
| Bleaches on the skin  | Piles              |
| Bowel complaints      | Rheumatism         |
| Colic                 | Retention of Urine |
| Constipation of the   | Scrofula, or       |
| Bowels                | King's Evil        |
| Consumption           | Sore Throat        |
| Debility              | Stone and Gravel   |
| Dysentery             | Secondary symptoms |
| Erysipelas            | Tic Douloureux     |
| Female Irregularities | Tumours            |
| Fever of all kinds    | Veneral Affections |
| Fits                  | Worms of all kinds |
| Gout                  | Weakness, from     |
| Head-ache             | whatever cause     |
| Indigestion           | &c. &c.            |
| Inflammation          |                    |

**W. H. MOWAT,**  
St. Andrews, May 1, 1856. (Impd.)

### AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Headache, Pains in the Breast Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and such sicknesses and ailments might be prevented, if a harmless but efficient Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates acrimony and often fatal disease, which might have been avoided by the timely and judicious use of a good purgative. This is also true of Children, Excessive symptoms, and Stomach Derangements. They all tend to become or produce the long-acted and formidable distempers which lead the hearse all over the land. Hence a reliable family physician is not the first importance; the pills he uses, and how they have been perfected with consummate skill to meet that demand. An extensive trial of the virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, and they are not established by persons of such exalted position and character as to forbid the suspicion of fraud.

Among the eminent gentlemen to whom we are allowed to refer for praise, are—

DR. A. A. HAYES, Practised Chief of the Port of Boston, and Surgeon of the State of Massachusetts.

DR. J. HAYES, M. D., an eminent Surgeon and Physician of the City of Lowell, who has long used them in his extensive practice.

H. C. SOFTS, Esq., Chief of one of the first merchants in New York City.

C. A. DAVIS, M. D., Surgeon and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but expense forbids mentioning them; the certificates of these eminent public men is shown in their original form.

These Pills, the result of long investigation and study, are offered to the public as the best and most reliable medicine for bilious state, and all other diseases which can be cured by medicine.

They are compounded not of the drugs, but of the medicinal virtues only of Vegetable Kingdoms, selected with the most judicious care, and combined together in such a manner as to insure the best results. This system of compounding has been followed, as was found in the Charters of the Pills, to produce a more efficient remedy than had hitherto been obtained by any process.

While we are so anxious to obtain every medicine is furnished with more or less of acrimony, and the impurities which it contains, each individual should be careful to select the genuine article, and to be satisfied that it is the genuine article, and to be satisfied that it is the genuine article, and to be satisfied that it is the genuine article.

As it is frequently expedient that the medicine should be taken under the control of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, we have supplied the accurate Formulae by which every Federal and Pills are made to the whole body of Practitioners in the United States and British America.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their full exposure is their injury. I have no objection.

The composition of my preparations is laid open to all eyes, and all who are conversant with the science of medicine, freely acknowledge the superiority of their ingredients. The Charters Patent was pronounced by scientific men to be a wonderful medicine, and its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, as they will be ready to testify that their preparations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal vessels to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, and by their action on the bowels, and by correcting whatever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.

Prepared by **JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.**
