TWIN PROBLEMS OF COTTON AND OF MONEY EXCHANGE DISCUSSED

—English Papers Comment Editorially; No Extent—

Telegraph's Financial Expert Says Half Billion Loan Needed.

London, Aug. 18.—The twin problems of American cotton and American exchange occupy a prominent place in the editorial and news columns of the London morning newspapers to-day.

"The Daily Telegraph's financial expert after declaring that an American loan of at least a half billion dollars will be necessary to adjust the exchange rate, says the exchange situation is complicated by the development with regard to cotton.

"It is a great pity," this expert says, "that an American loan was not arranged some weeks ago, for a matter is now cropping up which may cause unpleasantness in the States. The declaration of cotton as contraband will probably give rise to a protest in America, and if we meet this protest by undertaking to buy large quantities of cotton we shall find our indebtedness to the States and our adverse trade balance only augmented.

RENDERS PROVISION URGENT.

"This renders the provision of big British credits in America all the more urgent. Prompt action is necessary. There must be an end to the policy of drift or we shall see a further fall in the exchange rate, and every decline makes recovery to normal more difficult.

"The Times" says that the clearing house bankers committee has been taken into consultation with the treasury and the Bank of England regarding steps for improving the exchange situation. It is also expected says "The Times" that whatever action is taken will have the co-operation of both France and Russia.

WORK INFINITE DAMAGE.

"The French and Russian Governments," says the Times "are aware that the declaration of cotton as contraband is a step which will do infinite damage to the allies' cause. We hope to see an immediate agreement among the financial authorities in London and a meeting between the chancellor of the exchequer and his foreign colleagues in order that the measures so concerted

ALLIES MAKE GAIN OF FIVE HUNDRED YARDS ON GALLIOLI PENINSULA— OTHER ADVANCES SOON

By Special Wire to the Courier.

LONDON, Aug. 18, 11.35 a.m.—A further advance of 500 yards by the allied troops on Gallipoli peninsula is announced in a report from General Sir Ian Hamilton, the British expeditionary commander-in-chief, given out here to-day.

The statement follows: "Sir Ian Hamilton reports that in the southern zone the situation was unchanged during the 14th and 15th. The Turks kept up the usual artillery fire without much effect.

"In the northern zone the right flank of the Australian and New Zealand army corps' position was heavily attacked during the night of the 14th-15th, but all attacks were repulsed. At Suva the troops on the left flank made a short advance on the afternoon of the 15th, with a view to straightening out the line. They moved forward under considerable gun and rifle fire and gained about 500 yards, capturing a Turkish trench and taking two officers and 20 other prisoners."

THE COCKSHUTT WORKS AND MAKING OF SHELLS

The Toronto Telegram made the announcement that it had been decided to make the Queen City a munition centre, and in the course of the article said:

"Ontario munition makers have been anxiously waiting the arrival of Mr. Thomas, (who is out here for the British Government) so that all matters of organization may be closed, and the larger institutions, such as the Cockshutt Plover Works at Brantford, the Empire Brass Co'y at London and various Hamilton works may get right to work on shells.

COL. H. COCKSHUTT SEEN

With regard to the above matter, a Courier man saw Col. H. Cockshutt, President and Managing Director of the Plover Company, who said:—

"There is nothing of a definite nature to announce, but if the Empire needs output from the Cockshutt Works, we will certainly be prepared to meet the demand with others."

BERLIN REPORTS CAPTURE OF KOVNO—RUSSIANS MAY AGAIN HAVE TO RETREAT AND FORM A NEW LINE

By Special Wire to the Courier.

BERLIN, Aug. 18.—(By wireless to Sayville)—The following announcement was made here officially to-day:

"The fortress of Kovno, together with all the forts and an amount of war material which has not been determined, has been in German hands since last night.

"More than 400 cannon were taken. The fortress was captured by storm, in spite of the most tenacious resistance by the Russians."

Military experts agreed that the loss of the fortress of Kovno would be a serious blow to the Russians. The critic of the London Times, in an article published this morning, says:—

Montreal Gazette Publishes Report But Officials are Silent.

By Special Wire to the Courier.

Montreal, Aug. 18.—The Gazette has the following from Washington:

In a report sent by mail to the State Department, Pleasant A. Stovall, the American Minister at Bern, Switzerland, indicates that he has been given a very strong intimation from reliable sources that the Swiss Government is preparing to side in the European war with the Germanic allies on account of resentment over alleged interference with Swiss trade by the governments of the quadruple alliance.

Minister Stovall's report deals with conditions in Switzerland, with particular reference to the effect of the war on trade and commerce. He says that on account of the blockade instituted by Great Britain and her allies Swiss trade has been very largely cut off, and there has been a shortage of food, with consequent suffering.

Officials of the State Department and the Department of Commerce declined to give details of its contents. The report was marked "confidential," and is supposed to have been sent by mail instead of by cable on account of its length. Officials are understood to have been surprised over Minister Stovall's statement that Switzerland was preparing to get into the war.

ITALIANS CLIMBED UP TEN THOUSAND FEET

—And Drove Back the Austrians—

Advance in the Alps That Result in Big Gains.

By Special Wire to the Courier.

Rome, Aug. 17.—Via Paris, Aug. 18.—Further Italian advances through the passes of the Alps and a brilliant bayonet charge which captured a strong line of Austrian entrenchments in the Tolmino region are described in the official report issued to-night at army headquarters. The statement says:

"In the rugged Orter range between the upper valleys of the Adige and the Adige one of our detachments, set out during the night of August 16 from Capanna, Milano and divided into squads joined by ropes crossed the snow-capped summit of Turckett (10,500 feet) and surprised groups of the enemy. It then proceeded to Hinter Madatsch Spits (10,000 feet) supported by a detachment of the enemy which it attacked and dispersed and solidly occupied the summit.

"In upper Rienz further progress by our infantry is reported. We occupied Sattlerberg west of Lange Alpe. In the Monte Nero section we captured several of the enemy's trenches in the neighborhood of the Visio Peak. Later a counter-attack by the enemy on our Visio positions was vigorously repulsed.

"In the Tolmino zone our brilliant offensive developed against the hills of Santa Maria and Santa Lucia commanding positions situated to the right of the Isorno. After the customary preparatory shelling by artillery our infantry dashed forward with the bayonet and stormed a line of strong entrenchments extending along the western slopes of these heights. The enemy suffered very heavy losses. We captured seven officers and 547 men, four machine guns and a great quantity of ammunition."

BRITISH LINES ARMED WITH LATEST GUNS

By Special Wire to the Courier.

Quebec, Aug. 18.—Captain Graham of the Tenth battalion, first Canadian expeditionary force, who arrived last night on board the Allan Line Corsican in command of four officers and fourteen men of the first Canadian contingent, went through the Ypres, Festubert and other engagements with the Canadians. He stated that the British and Canadian troops are being better protected in the trenches by the acquisition of heavier and better pieces of artillery and a steady increase in machine guns. Before receiving his wounds during the latter part of June at a place which the Canadians have christened "Plug street," situated at about ten miles south of Ypres, all the men of the Tenth battalion were receiving instructions in machine work. The object is to train every member of the battalion so that all will be able to operate the gun in case of necessity.

Captain Graham stated that gas was not proving effective. He did not expect that the allies in the west would resort to the poisonous fumes in view of their varying results.

Captain Graham is a resident of Regina.

Mrs. Arnoldi, formerly of Toronto, who has converted her home into a hospital for convalescent officers, known as the Roland Gardens Hospital, also arrived on the Corsican.

GERMAN CREW CHEERED MEN OF A BRITISH SHIP

By Special Wire to the Courier.

Copenhagen, Aug. 18, via London 12.14 p.m.—German cheers for men in the British navy is an unusual war time incident reported from the North Sea by the captain and crew of the German trawler Gudrun, belonging to Altona, which has just arrived at Estbjerg.

The captain relating the experience of the trawler said that the Gudrun was stopped in the North Sea by a British squadron. He promptly got his boats ready and distributed life belts believing his ship was certain to be sunk.

When the British scamen reached the trawler the captain begged for time to take to the boats and admits that he was staggered at the short and pointed reply: "You can take the whole ship; we shall not harm you."

The captain adds that the British left amid the hearty cheers of the greatly relieved Germans.

DEFENDED CRIME

By Special Wire to the Courier.

San Francisco, Aug. 18.—J. G. Woodward, mayor of Atlanta, in an address here last night declared that Leo M. Frank, who was lynched Monday night, suffered the "just penalty for an unspeakable crime."

The Atlanta mayor at the same time warned former Governor John M. Slaton, now in California, not to recommend that all restrictions be removed from the sale of refrigerated meat imported from America. Hitherto only certain dealers have been permitted to sell this meat. The first sales under the new importations have been going on for several days at prices lower than domestic beef.

The average price of a carcass is equivalent to about 15 cents a pound.

SUBS ACTIVE OVERNIGHT

By Special Wire to the Courier.

London, Eng., August 18.—The Norwegian steamers Romulus and Mineral have been sunk. The crews were saved.

The Mineral was a vessel of 640 tons gross, was built in 1890 and was owned in Narvik. The Romulus of 2000 tons gross was built in 1913 and hailed from Kragero.

London, Aug. 18.—The British steamer Bonny, 2702 tons gross, and the Spanish steamer Isidoro, 2,044 tons gross, have been sunk. Twenty-one of the crew of the former vessel and eight of the latter were picked up.

The trawler George also was sunk. Her crew was saved.

CHINA TAKING SOME EXPERT ADVICE NOW

—From an American Professor—

With Regard to Her Problems of State Government.

By Special Wire to the Courier.

Peking, Aug. 18.—At the request of President Yuan Shi-Kai, Professor Frank J. Goodnow, legal adviser to the government, has deferred his departure from China until September 8th in order that he may advise the constitution drafting committee of ten appointed by the president, who are now assembling in Peking. Their decision, it is believed here, will follow monarchical lines as definitely and rapidly as the nation will permit.

In the Peking Gazette Dr. Goodnow to-day explains his opinions concerning the government of China. He says that succession to the executive power, often, particularly in the South and Central American states, led to civil war which resulted in the worst possible form of government—military dictatorship. The Chinese, he says, could not afford to permit civil war or a great disorder which would almost certainly lead to foreign intervention with the probable loss of political independence.

It is understood that Dr. Goodnow in his documentary advice to Yuan Shi-Kai, recommended that the change from a republic to a monarchy should first be made acceptable to both the thinking people of China and the foreign powers, and that Yuan Shi-Kai is following this advice in sanctioning the forming of the so-called peace society, the nominal object of which is the discussion of the best form of government for China.

The inauguration of this peace society is fixed for Saturday. The promoters announce in the newspapers that it has numerous adherents.

A virtual ultimatum was sent to the warring factions in Mexico to stop fighting.

PRO-GERMAN TALK MAY CAUSE ARREST OF THIS AUSTRIAN

By Special Wire to the Courier.

Chatham, Aug. 18.—Following an argument between two Galicians, one Russian and the other Austrian, it is expected that the local military authorities will attempt to locate Mike Phillips, the Austrian, because of certain pro-German remarks he is said to have made to Lawrence Kaul, a native of the part of Galicia in Russia. The men met on Duke street, and, being acquaintances, they indulged in conversation. According to statements made to the police by Kaul yesterday morning Phillips used very strong language in upholding the German-Austrian cause. It is further claimed that Kaul was a member of the 24th Regiment for some time, and that he joined the regiment in May, 1914, giving his nationality as Austrian.

The police decided that the case was one for the military authorities to investigate, so Kaul told his story to Major Lewis, commander of the local regiment, and it is expected that steps will now be taken to locate the forger who is believed to be in another part of the county. It is claimed that Phillips said that victory for the foes of the allies was now assured, and that after the war was over the vengeance of the victors would be visited on the heads of the vanquished.

A SUICIDE.

Ottawa, Ont., Aug. 18.—Elzear Fiset, acting assistant deputy postmaster-general, committed suicide by shooting at his home here. He is survived by a wife and two children. He was a clerk in the post office department.

THE SITUATION.

Over the Courier's leased wire today there comes the thrilling story of how the Italians, by penetrating some of the passes of the Alps, delivered a brilliant bayonet charge, which resulted in the capture of some important Austrian trenches.

In the Eastern theatre matters still remain in a very critical condition, as far as Russia is concerned. By this morning's wire there comes a statement from Berlin that the Kovno fortress has fallen, and this cannot be regarded as otherwise than serious news.

As far as the Balkans are concerned, matters are still in a seething condition, without any definite announcement, while the surprising statement is made that Switzerland may join forces with the Kaiserites. They have the name of a mercenary people, and Berlin has probably made some big bid with money as the chief part of the offer.

The sorely-stricken Belgians are yet in the game. They still hold the bridgehead at Dixmude, despite another fierce German assault. The incident is of little material importance, but eloquent of the magnificent spirit which still animates King Albert and his troops.

THE BALD-HEADED MAN.

An exchange has a learned article on the above subject and the necessary steps to take in order to avoid entrance into the ranks of the smooth-faced. For the most part, those whose domes have pushed their way through the thatch in which other mortals rejoice do not care one way or the other, but there are others who do. They either buy toupees, which do not fool anyone very much, or else let what hair they have grow long and then plaster it over the intervening space in a sort of trellis-work.

This getting bald and the ridicule thereof is quite an ancient custom. It is on Biblical record that some impudent children said to Elisha, "Go up, thou baldhead! Go up, thou baldhead!" just as if they were ushers in a modern theatre. As the result a couple of the average baldhead of the present day finds it inconvenient to have his ears along, and any jibes at his condition he has to take with the best grace possible, and find refuge in some such old-time remark as that which affirms that it is impossible to have hair and brains at the same time. It is also suspected that Daniel must have been bald when he escaped from that den of lions without having a hair of his head touched. Caesar was also bald—but why go on with the shining list?

There have been many explanations of the primary causes which conduce to Nature's clearance work upon some domes. One that as youngsters they were so good, and received so many approving pats on the head, that the roots became stunted and finally gave up in despair. Another that of pulling garments over the head when undressing, instead of letting them drop gracefully around the feet, and so on. The baldheaded fraternity labor under some disabilities, of course. In a thoughtless moment, when brushing the few locks they have left, they may suddenly drift on to the shining surface, with the result of a sprained wrist, and they have to pay as much for a hair-cut as a man with a tousted forest of wavy strands. It is understood that the barber gentlemen square their consciences in this regard on the basis that it is worth the price to hunt for the hair. Then there are, of course, compensations. No danger from bats getting into their flowing locks, for instance, or meeting with any such experience as that of Absalom, who had the overflow on top of his head catch in an oak tree. Still further, it is utterly impossible for them to get into such a rage as to tear their hair, or to become so weary as to despairingly brush their hands through it.

It will be noticed that no reference is made in the above to baldheaded women. There are none, and never will be. If anyone seeks to argue to

the contrary, it is quite sufficient to indulge in the somewhat inelegant expression, "Rats!"

AS TO RECRUITING.

Toronto is talking of the number of men it has enlisted, Mayor Church making the boast that the total is between 21,000 and 25,000. The Queen City has certainly done splendidly, but no better, for instance, than Brantford.

We have enlisted some 1,300 in a population of 26,000. In each case the percentage, it will be noticed, is one-twentieth, but Toronto has many additional sources. For instance, a larger transient population and the fact that it has the whole Province to draw from in the matter, for example, of university and medical corps.

Hats off to Toronto, all right, but equally hats off to Brantford and other smaller centres.

NOTES AND COMMENTS.

Forty-eight hours without rain! Most extraordinary!

The Brantford gun fund has scored a bulseye, all right.

Ottawa is talking of a municipal shell factory. Such a move might help the work problem in more than one community.

Sir Wilfrid Laurier and Sir George Foster are to make joint speeches at a recruiting meeting in Napanee. That has the right tone about it.

The King of Bulgaria has fired his medical adviser because he found him to be a German spy. Don't make any mistake about it, they are everywhere and all over.

Hon. Mr. Casgrain denies that he said 15,000 Canadians were going to the Dardanelles. As to that, the chances are that there would be no outside knowledge of any such move until they were there.

The Kaiser has chosen an architect to supervise the rebuilding of Belgium on a German plan. As usual, his nibbles is going ahead of the schedule. Said rebuilding will be done under the auspices of the Allies and to suit the Belgians.

Our neighbors over the line are just awakening to the fact of what the Kaiserites have been up to in their own land. Uncle Sam is a smart gentleman, but he needs to keep both his eagle eyes on that stop-at-nothing outfit.

HAIL AT CAMLACHIE

Grain and Corn Flattened in Storm of Monday Afternoon. Camlachie, August 18.—A severe windstorm, accompanied by hail and a very heavy downpour of rain passed over this locality yesterday afternoon about 3 o'clock. Several fields were completely covered with water. Grain and corn crops are flattened to the earth. Several fences and trees were blown over and considerable damage was done to Mr. Jas. Douglas' silo.

ARRESTED AT WINDSOR

James McTavish formerly of Stratford Charged with Non-Support. Stratford, August 18.—James McTavish, formerly an employee at the local electric power house, has been locked up by the police at Windsor on information from the local police that he is wanted here on a charge of non-support of his wife. He will be arraigned to-day or on Thursday morning. McTavish left his wife almost three years ago but for some time provided, for her support. Recently, however, he has failed to provide the necessary funds, it is charged, and his arrest followed.

HARVEST ON SUNDAY

Wellington County Farmers Take Advantage of Fine Weather. Guelph, August 18.—It is said that the fine weather on Sunday appealed to several farmers, who reside in the vicinity of Guelph, and that they got busy and worked all day getting in their crops. They were aware that what they were doing was against the law, but took the bull by the horns and made hay while the sun shone. When asked what he thought of a farmer who took the law into his own hands and worked Sunday to get his crop under cover, Chief Randall said: "If I knew—which I don't—that any farmer was working Sunday, I would take no notice. I think it would be a case of necessity. It would be outrageous to bring a farmer up and fine him under the circumstances. That is my unvarnished opinion. He should be fined for having his grain out. No man who is trying to preserve his crop should be fined under the circumstances."

CHOLERA SPREADING

Paris, Aug. 18.—A Havas despatch from Zurich says that the latest report regarding cholera made by the Austro-Hungarian minister of the interior, states that the disease is spreading in that kingdom. Six hundred and seventy new cases have been officially reported, the majority in Galicia.

REMAINS FOUND

Paris, Aug. 18.—The remains of the famous Florentine painter, Fra Angelico, who died in 1455, are believed to have been found in the church of Santa Maria at Florence, according to a Rome despatch to La Liberté.

"THE CUP IS FULL" SAYS AN ITALIAN PAPER

Time Now to Take Action with Regard to Turkey.

By Special Wire to the Courier.

Rome, via Paris, Aug. 18.—Turkey, according to a Bucharest despatch to The Giornale d'Italia, has recalled permission for the departure of Italians, a large number of whom including 700 reservists are waiting to sail at Jaffa, Beirut, Mersina, Alexandria and Smyrna. The Giornale says the news is confirmed in authoritative circles, and it further learns from a reliable private source that Tukey is continuing to send arms, money and proclamations to Libya with the object of provoking a native rebellion against Italy. The paper concludes: "The cup is full. We have serious reasons to believe that the government will take energetic action toward the Porte to end these violent proceedings which Italy cannot tolerate."

ABUNDANCE OF POTATOES IN FATHERLAND

By Special Wire to the Courier.

Berlin, Aug. 18.—There is an unexpected abundance of potatoes in Germany, according to a statement made to the budget committee of the Reichstag by secretary of the interior. The explanation, he said, was the great economy practiced because of the underestimate of the supply at the beginning of the war. The imperial bureau of potato supply has distributed over 10,000,000 hundred weight of potatoes, starch factories and distillers.

Herr Delbrueck stated also that there was a balance of 7,000,000 double hundred weight from the previous grain crop, which must be added probably 50,000,000 double hundred weight from the new crop. The prospects for a supply of meat are satisfactory, and a normal quantity of sugar has been obtained for the coming year.

FRENCH OFFICIAL

By Special Wire to the Courier.

Paris, Aug. 18.—The French War Office this afternoon gave out a statement on the progress of hostilities, reading as follows: "The next line to be repulsed and we made about 50 prisoners."

"There was fighting yesterday with bombs and hand grenades in the Argonne at Haute-Chevancee, at Fontaine-aux-Charmes and in the forest of Cheppy. Our bombardment yesterday of the German positions near the Linge destroyed two heavy batteries and caused the explosion of several depots of ammunition.

"On the crest of the Sondernacker, two fresh and violent counter attacks during the night against the position taken by us yesterday were completely repulsed and we made about 50 prisoners."

PRESENTED WITH WATCH. Galt, Aug. 18.—Dr. H. F. McKendrick, who leaves on Thursday night for England to join the Royal Army Medical Corps as a surgeon, was last evening presented with a gold wrist watch by a number of his friends at a dinner at the Waterloo Golf and Country Club.

WORST IN YEARS. Saskatoon, Sask., Aug. 18.—The worst electrical storm of the year occurred last night. There is every appearance that it was general, but it was apparently unaccompanied by hail, and the rain was noticeably warm. Little wind accompanied the rain, and it is believed that no flattening of uncut crops will result. Harvesting operations will, however, be seriously delayed by the great amount of water which fell.

CROPS DAMAGED. Edmonton, Alb., Aug. 18.—The worst rain storm of the year broke over the city yesterday morning, and it is probable that considerable damage was done to the heavy standing crops by the rain, although the amount of wind will lessen this to some extent.

TRAIN SMASH. Calgary, Alb., Aug. 18.—Canadian Pacific Transcontinental number three from Toronto to Vancouver, crashed into a rock slide near Golden, B.C., early this morning. The engine turned turtle and Fireman John McLennan was killed. All the coaches kept the track and the passengers escaped with a severe shaking up. Wrecking gangs have been despatched to the scene.

CATARRH LEADS TO CONSUMPTION

Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.

Hood's Sarsaparilla is so successful in the treatment of catarrh that it is known as the best remedy for this disease. It purifies the blood. Ask your druggist for it.

TWIN PROBLEMS

may become the joint act of the allied powers."

U. S. TO VIEW FAVORABLY. The Daily Chronicle in discussing cotton declares there is good reason to hope that the United States will view in a favorable light the action declaring cotton contraband.

"The British government can devise any means for preventing injury to the cotton growers its efforts will be keenly appreciated. We at each high value to unofficial America's unmistakable sympathy for us in this war and nothing must be done to estrange it."

"If the enemy succeeds in reducing Kovno, and is thereby able to cross the Niemen he will be in the rear of the Russian line north of Sventia, and with the junction of the two wings of the German general, Field Marshal Von Hindenburg's army, the position of the Russian right flank will be very difficult."

The official German statement of yesterday announced the capture of the forts in the southwest of Kovno, together with 4,500 prisoners and 240 guns. This was interpreted for foreshadowing the fall of the fortress proper, but its accomplishment was the great economy practiced because of the underestimate of the supply at the beginning of the war.

The imperial bureau of potato supply has distributed over 10,000,000 hundred weight of potatoes, starch factories and distillers.

AFFIDAVITS THROWN OUT OF COURT

By Special Wire to the Courier. Wolfville, N.S., Aug. 18.—Affidavits by Todd Woodworth and Frank B. Keever, re-moot agents, who bought horses in Nova Scotia for the government last August, and whose horse dealings the Davidson war contracts commission is anxious to probe, explaining why they cannot leave the United States just now, were rejected this morning by Sir Charles Davidson.

F. L. Sangster, lawyer for A. De Witt Foster, paymaster of the horse buyers, sought to have the statements incorporated in the record, because Woodworth and Keever were unable to come to Nova Scotia to give evidence because important business deals demanded their constant attention in the States.

Mr. Sangster read the telegrams sent by Mr. Foster, urging Woodworth and Keever to come to Canada and testify before the commission, particularly as their absence was being interpreted as a reflection on him (Foster). When neither Keever nor Woodworth would agree to come here, Foster went to Boston, and pointed out to them personally the necessity for them testifying. Both repeated the reasons for their inability to leave the United States just now, but agreed to make a sworn statement. Seeing that nothing better could be done at that time, he accepted the affidavits and asked the commissioner's permission to sign them. He hoped that later Woodworth and Keever would attend. On behalf of and in fairness to Mr. Foster, he hoped the statements would be accepted.

John Thompson, K.C., commission counsel, said he was sending telegrams to both Woodworth and Keever, and Dr. Chipman, the veterinary, also across the border, advising them in the name of the commission that their attendance was necessary.

Sir Charles Davidson said Woodworth and Keever were making vain excuses for staying away, as they had done before. These men could not hope to deal with the commission in that fashion. They declined to allow the affidavits to go on the records. They were of no value whatever. He wanted to add that he fully appreciated Mr. Sangster's sincere efforts to obtain the evidence of the men.

Mr. Sangster urged the commissioner to change this decision because the statements should be evidence of Mr. Foster's anxiety to get their explanations of their ideas.

Sir Charles declined again to accept the statements and said further: "They must understand that their non-attendance here does not conclude their connection with this commission. I will see to that."

HARVEST HELP EXCURSIONS.

ROLL OF HONOUR

SEVERAL thousand officers and employees of the Canadian Pacific Railway enlisted for active military service with the Canadian Expeditionary Forces, and the majority of them are now in Europe, bravely battling for Canada and the Empire.

As particulars of Army Reservists are not available, the following is a partial list of those who have given up their lives for their country, or been wounded in action, and does not therefore indicate fully the extent to which the Company's officers and employees have participated in the great struggle.

Table with columns: NAME, IN COMPANY'S SERVICE (AS, AT), NATURE OF CASUALTY. Lists names of railway employees and their military status.

August 24 and 28 from stations in Ontario, North and West of Toronto, but not including line Toronto to North Bay. Fare \$12.00 to Winnipeg. For particulars as to tickets West of Winnipeg, etc., apply to any Grand Trunk Ticket Agent. Take the "New Transcontinental" short route to Western Canada. Harvest Help special train will leave Toronto 2.30 p.m. Aug. 21st and 24th via North Bay and Cochrane. No change of cars. The Grand Trunk Pacific Railway is the shortest and quickest route between Winnipeg, Saskatoon and Edmonton and traverses some of the best farming country in Manitoba, and the most rapidly developing section of Western Canada.

ROMANIAN KING'S DOCTOR A GERMAN SPY.

LONDON, Aug. 18.—A despatch to Reuter's Telegram Company from Petrograd says: "A despatch received here from Bucharest says that information arriving in the Roumanian capital from Sofia is to the effect that King Ferdinand has dismissed Doctor Groetzel for twelve years his medical adviser, because he discovered Dr. Groetzel was a German spy."

TRAINS ARE RUNNING

By Special Wire to the Courier. Calgary, Alb., Aug. 18.—Trains are again running on the main line of the Canadian Pacific Railway, following the blockade which resulted from a landslide at Golden last night. Number 3 westbound passenger train which ran into the landslide was held up about six hours, but is now proceeding west. Fireman John McLennan, who was killed, was a resident of Revelstoke. Number 4 eastbound, was delayed for two hours.

Le Pas, Man., election will be held on Wednesday, Sept. 1, nominations on the 25th inst.

THE TIME IS UP. St. Swithin the martyr, who takes a horrible revenge by causing the rain to descend for 40 days if by any chance a shower should fall on the anniversary of the removal of his body from a burial ground, has his inning this year, but he will soon be struck out, for his inning comes to an end on Wednesday, when the 40 days will have expired. St. Swithin may have been a fine man and his friends may have been many, but that does not apply to this age. The most unpopular man, if the old saw is right, especially with the farmers, is St. Swithin. This is, of course, if he is responsible for the 40 days rain. But then, you never can be sure of anything since the revelation that it was Noah, not Adam, that caused our downfall.

BOTH MEN DIED FROM HEART FAILURE. London, Aug. 18.—The enquiry yesterday at Shorncliffe into the circumstances of the death in his tent on Monday of Bandsman Arthur Edward Jones, of the 43rd Highlanders, Winnipeg, resulted in a verdict that the death was due to heart failure.

There was also an enquiry into the circumstances of the death of Pte. Joseph Martin of Winnipeg, of the 28th battalion, Port Arthur, who died on Monday. Death was attributed to heart failure. Pte. Martin broke his leg jumping off a wagon, gangrene then set in and caused his death.

FATHER AND THREE SONS ON SERVICE

Brantford Man Makes Proud Record for the War -- All Canadians.

Mr. Geo. A. Williams, a recruit, who joined the Second Dragoons overseas force last night, is a Canadian of Brantford, whose family has a proud record of service. He has three sons and all have enlisted, and when the last son joined Mr. Williams could restrain himself no longer and joined too. "I've been waiting to go all along," Mr. Williams said this morning and when my third boy joined nothing could hold me."

Recruiting yesterday was again brisk it being an especially good day for the Second Dragoons, nine men joining. The 32nd Battery is also recruiting men in daily. The men will not start to drill until enough have joined to man a gun. Once drill begins the names of the recruits will be furnished to the press daily, but until then they are withheld because the recruits are still working.

The 32nd Battery have given nearly 75 per cent of their men to overseas service, in all ranks. Thus they have very few men available who are experienced, so any person who is interested in artillery work, but has no knowledge of it need not hesitate to offer his services. To train an artillery man for service takes practically a year, as the men besides learning the working of the gun also must know how to ride horseback, an accomplishment particularly in the artillery, not picked up in a day.

The following are the names of the men who yesterday joined the different detachments:

SECOND DRAGOONS. Wm. Simons—Single, English, 31. Wm. Atfield—175 Clarence, married, Canadian, 38. Thos. Wilson—Scotland, married, Canadian, 28.

Geo. A. Williams—226 Brock, married, Canadian, 43. Geo. Richardson—101 Aberdeen Ave. married English, 29. Geo. Knight—79 Emily street, married Scotch, 30.

Thos. Withers, Scotland, single, Canadian, 41. Wm. Kennedy—Hagersville, single, Canadian, 32. Edwin Jones—Jerseyville, single, Canadian, 37.

J. M. Fasken—2125, married, Paris, Canadian. F. E. Dale—23, single, Brantford, English. Wm. Patterson—32, single, Ayr, Scotch.

25TH DRAGOONS. Jess Simon—Canadian, Lynden, 22 single. Beattie Draper—Canadian, 49 Emily street, 52, married.

Geo. Nunn—English, 50 Nelson St., 30, married. Sam Looby—Canadian, 9 South St., 19 single.

Germans Defied Brazil and Set Up Government

New York, Aug. 18.—Passengers who arrived here this week from South America bring a startling story of a German attempt to stir revolution in a part of Brazil and to set up an independent government under the German flag. The events are stated to have taken place last January, but the facts were concealed by the Brazilian government and are only now made known.

According to the reports that were brought here the German population of Rio Grande do Sul, a region near the Uruguay frontier, actually set up an independent government during the month of January and defied the Brazilian government. They were in a majority in that district, which arrested the leaders of the revolt and put them in prison. The movement was quelled and carefully hushed up.

BRANT WAR SERVICE IS TAKEN UP

Y. M. C. A. Organizes Another Effort in the City.

Initiated by the officials at the Y. M. C. A. and endorsed by Mayor Spence, a movement is to be started among the citizens of Brantford which will not cost any person any money, but which will result in aid and encouragement being given to the boys in the trenches in various and diverse ways.

A study of conditions has convinced the Y. M. C. A. officials—who have much of their information first hand from their representatives in the trenches—that a certain percentage of the men in every contingent in the trenches are something more than a mere cog in a large machine. A certain amount of promiscuous effort has been made to have people write letters to such men, but the Y. M. C. A. has determined to get the matter down to a system so that nobody from Brant county will be overlooked.

The idea therefore is to form a war service bureau, and have the citizens become members of it. All that each member has to do is at certain stated intervals write a letter to a certain soldier abroad from Brant county whose name will be given him. The Y. M. C. A. through their own members has to be able to obtain the names of men who actually never receive letters, so that no superfluous writing will be done.

A further object will be attained also by this bureau. Simple little presents often might be forwarded to soldiers by their people, but they don't know how to go about it. It is surprising the number of people who do not send articles to the front for this reason. This bureau will place itself at the disposal of such people, and will show them how the little remembrances which mean so much, can reach their destination.

Following is the tentative prospectus of this bureau, which it is hoped will shortly get going at full speed ahead.

Name: Brant War Service Bureau. Purpose: To let the men at the front know that they are able to obtain the names of men who actually never receive letters, so that no superfluous writing will be done.

1. List of names and addresses of each soldier. 2. Endeavor to have no man overlooked in the matter of correspondence.

3. To show especially prisoners of war our personal interest, that is of courage Brant County men who are prisoners of the enemy. 4. Soldier's employment bureau, to get in touch with returned soldiers and endeavor to obtain employment for them.

5. To serve as a channel to direct personal donations so they may reach their destination, in this matter working through the Y. M. C. A. officers at the front.

Funds: To raise not more than \$200 for postage and stationery from excess of the machine gun fund. Members: Citizens who will promise to write once a week to some soldier at the front.

Organization: President, vice-president, secretary-treasurer, and check-up committee which will meet every two weeks.

Headquarters: A meeting place will be provided at the Y. M. C. A. here and at Hamilton for their assistance, and all the friends who assisted in any way.

Mr. Hyatt called the Courier today and wished to thank the police here and at Hamilton for their assistance, and all the friends who assisted in any way.

As a couple sat on a seat in the Bronx Park, New York, things shook here and at Hamilton for their assistance, and all the friends who assisted in any way.

THOS. A. IVEY'S FUNERAL HELD AT PORT DOVER

Port Dover, Aug. 18.—The funeral was held yesterday of Mr. Thomas A. Ivey, who was killed in a collision in Hamilton Saturday night. Mr. Ivey was born in Haldimand county in 1847. He married Nancy Ann Booker of Rainham township, who survives him. He taught school at Nanticoke for a short time then moved to Port Dover, and engaged in a general business. Subsequently he moved to Brantford, where he engaged in baking and confectionery. In the early days of the Bell Telephone Co. he assumed the Brantford agency when it had a list of twenty-four subscribers. Nearly a decade later, when the Brantford exchange had been built up by his persistent efforts to nearly 300, his fondness for floriculture led to his resigning the management to devote his energies solely to the occupation of a florist. The venture proved profitable and he conceived the idea of forming a joint stock company with his sons and daughters. The company erected a plant here in 1908. To-day they have an up-to-date plant, with two hundred thousand square feet of glass, with an agency in Montreal and a branch in Hamilton.

Deceased was at one time a member of the Brantford Board of Education and Board of Trade. On his removal to Port Dover he became active along the same lines, and was Past President of the local Board of Trade.

His death makes the first break in the family circle. Besides his wife, he is survived by four sons, London B., William J. T., Harry B., of this place, and Ashley B., of Brantford, and three daughters Mrs. Joseph Lamb, Miss Ida M. and Mrs. M. E. Howell, all of this place.

Impressive services at the residence yesterday afternoon were conducted by Rev. Mr. Austin of Pontifill and by Messrs. Mills and Buchanan of Hamilton. Interment was in Port Dover cemetery. The funeral was largely attended.

MISSING BOY RETURNS HOME TO BRANTFORD Albert Hyatt, the missing boy, has been discovered and is now safe at home with his parents. He, as was suspected, had taken the trip to Warton, where his uncle and aunt reside, and announced the fact to them that he had come for a short holiday and was thus made welcome. It is over a week now since he left the city, and it had its effect, for when his father journeyed to get him he was, to use his delighted parent's expression, "hooked to death to see him," and was willing to leave for Brantford then and there.

Mr. Hyatt called the Courier today and wished to thank the police here and at Hamilton for their assistance, and all the friends who assisted in any way.

Sporting Comment

The Brantford ball team returns home to-morrow after the most disastrous road trip it has had since June. For a team which only a week ago had both hands near the pennant, the record is awful. If they lose to-day they will not have won a single game on the trip, and will not have won a game in Guelph this season.

Somehow or other the pitchers and the batters don't fit into each other. When the Brants go out and chalk up 10 or 12 hits their pitcher blows, as on Monday. On the other hand, as was the case yesterday, their pitcher hurls a gilt-edged game, then the team can't hit. Two or three reliable pitchers going to pieces, and a heavy hitting team reduced to helplessness day after day is not an inspiring spectacle, but it is what has been presented to local fans for the last week. Everyone hopes there will be an awful break soon, and that the Red Sox will go out some afternoon and bat the covers off all the balls in the league.

London is ere for six games in three days, and apart from the fact that the Cockneys are coming, quite strong lately, it will be somewhat of a treat to see them play. London hasn't made an appearance here since the opening day in May, as rain killed their last series in town. So it will be a welcome change to see all the new faces, and if the Brants get back to form and Del Chase out there again, there will be plenty of interest happen over the dyke, before the loyal fans shine up their shoes for Sunday.

Now that the days are getting shorter, and stationers are beginning to advertise school books, one's interest turns gradually toward the great event in sport, the world's series. There is a closely contested race on in both big leagues, but Philadelphia in the National and Boston in the American, have the edge. Brooklyn is hanging on grimly to the Quakers and Detroit too is winning more than it is losing. Washington took a great spurt once but dropped back again. It would certainly have been interesting to local series and Merlin Kopp in the outfield. Maybe next year will see something like that, with other Canadian League players drawing down \$1000 per game.

There is talk of Frank Shaughnessy managing bigger league ball next year, and one fan suggested that he take hold of the Toronto International team, fire all the old players and build a team out of the best material in the Canadian League and see how far he could go. With such a manager and with two or three old heads thrown in to ballast the team, Shag might surprise some of the moguls of Class A ball. There certainly is some promising material floating around in this league, which, if properly used, might cause James J. McCaffery to smile again.

The Ottawa papers spoke very kindly of Buster Burrell in the games last week. In spite of an injured hand, Buster walloped out hits with praise worthy regularity, and helped the team considerably. Buster certainly kept up a terrific stride, both in hitting and fielding this year, and it would be a nice reward for him were he to go up.

Castlegar mill is running full time now with a pay roll of \$5,000.

THE PROBS

Toronto, Aug. 18.—Important depressions cover the Gulf of St. Lawrence and Texas, while the cool wave covers the Great Lakes. Rain has been general in Eastern Quebec and the Maritime Provinces, and a few scattered showers have occurred in Alberta and Saskatchewan.

FORECASTS

Moderate winds, mostly north and northwest, fine and comparatively cool to-day and on Thursday.

French Labor Men Agree to Peace

Paris, Aug. 18.—The general federation of labor, the French revolutionary labor body, at a conference last night adopted a resolution appealing to the international working classes to work so that peace may represent the triumph of right over might, and that through the acceptance by all countries of obligatory arbitration, the suppression of secret diplomacy and of the burdens of armament may arise the possibility of a federation of nations, assuring to all peoples the right to dispose freely of themselves and safeguarding the independence of all nationalities.

NO TRUTH IN RUMOR OF A DOMESTIC LOAN

Ottawa, Aug. 18.—There is no truth in the rumor that Canada is considering a domestic loan. With reference to a New York published rumor to this effect, it was ascertained yesterday at the Finance Department that no loan, either domestic or foreign, is under consideration or likely to be considered for some months to come.
