Grandmother Lundy Dead

Knitted Four Hundred Pairs of Socks During the War.

Mrs. Elizabeth Sarah Lundy, known throughout the Dominion as the grandmother of the Canadian army because she knitted 400 pairs of socks for the Canadian Red Cross during the war, died on June 20 at her home in Lundy's Lane. She was 92 years old. She was in good health until a few days ago, when she fell in her home and died from the effects of the fall.

Mrs. Lundy lived nearly all her life in Stamford township. Her mother's family, the Stedmans, settled near Niagara Falls, N.Y., before the Revolutionary War. Their flock of wild goats gave the name to Goat Island. In 1845 Mrs. Lundy, whose maiden name was Sparkman, married Lanty Lundy, grandson of William Lundy and great-grandson of Thomas Lundy, who fought with the Canadian militia in 1812 and 1814.

The historic roadway, Lundy's Lane, was named for the family. Four generations of Lundys have been born on it, and some of the great-grandchildren of the original settler still live there. The property, when an Indian forest trail, was given to the Lundys over the great seal of King George III.

The foundation of the house in which Mrs. Lundy died was laid more than one hundred years ago. The house is close to the old Lundy homestead, in which stands the grandfather's clock brought to this country 140 years ago by William Lundy. The clock still runs.

Mrs. Lundy's fame as a knitter was nation-wide. When Canada first entered the war she joined the little band of women who worked under the name of the Lundy Lane Willing Workers. One day the president of the workers brought Mrs. Lundy a supply of yarn and needles. She thought it would keep her busy for weeks; but in a few days she received several pairs of socks and a request for more yarn. From that time on Mrs. Lundy was kept supplied with yarn, and in four years of the war she knitted one hundred pairs of socks a year.

Men in training at Niagara Camp learned of her dexterity as a knitter, and many of them walked from the camp to her home to have her knit them socks. She had many letters of appreciation from men overseas. Her boast was that her socks were smoothly knit, with no dropped stitches and no lumps and knots on the inside to hurt the soldiers' feet. She won many prizes for needlework at the Toronto Exposition.

Are Canadians Dishonest?

Canadians have been greatly astonished by the very small number of citizens who were honest enough to make their income tax returns for the year 1917. It is almost astounding to compare the figures given out in the House of Commons with those of the city of Toronto:—
Total number of people in Toronto who paid income tax to city on 1917 assessment. 31,687
Total number of people in Canada who paid tax to Dominion on 1917 incomes 31,310
Municipal exemptions—\$600 for single men, and \$1,500 for married men.
Dominion exemptions (1917-18) \$1,500 for single men, and \$3,000 for married men.

The figures given above show that more people in Toronto paid income taxes to the city than the number in the whole of the Dominion who paid Federal income taxes. The comparison is all the more startling when it is remembered that thousands of people who have to pay to the Government are exempt from municipal taxation on their incomes. For instance, rents from real estate, profits from industries and business places and dividends from shares are exempt from municipal taxes, but are taxed by the Government.

Toronto officials are of the opinion that if the city could levy taxes on the same incomes that the Government collects a tax from, and to the extent of the same percentage, the total income tax paid to the city by residents of Toronto would almost equal. If it did not equal, the total that was paid to the Dominion by individuals throughout the whole of Canada.

Will Inspect Grazing Lands.

Prof. W. J. Rutherford, dean of the Faculty of Agriculture, Provincial University, Saskatoon, has accepted the chairmanship of the committee to examine the lands now held under grazing leases in Southern Alberta, to ascertain what areas will be suitable for mixed farming in connection with the campaign now being carried on by the Soldier Settlement Board.

He Rose From the Ranks

"TED'S the sort of fellow that knows what's what," remarked a comrade when he was recounting the rapid rise of Major Edward Hooper Birkett, M.C., D.S.O., from the ranks to his present position in the Canadian Engineers. "I remember that when he was in our company serving as a non-com., he was the brightest of the boys and the life of the bunch. With all of that though he had his engineering work down cold. One night during our first few months in France after placing a night working party in their positions he was called away for a few moments. Meanwhile a high staff officer dropped in on us and ordered that Ted's dispositions be altered. Very soon afterwards we could hear Ted stumbling through the darkness and pouring maledictions upon the man who had dared to change his men. He isn't a very big fellow, but he went up to the officer and it gave us fellows a good laugh to hear him telling a colonel off while he was only a lance-corporal. Of course he had his nerve right with him, but he knew that he was right and that the officer had no right to change his dispositions."

And so it was throughout his term of service in France that Major Birkett's faculty of knowing "what's what" brought him steady promotion. He graduated from the School of Mining at Queen's University in 1909 as a mining engineer and had had considerable experience in Western Canada, Mexico and New Ontario when he was summoned back to the university to join the student company of engineers—the Fighting Fifth—which was being organized for service under one of the professors, Major Alexander McPhail, C.M.G., D.S.O. In the second week in August he tramped into Valcartier as a sapper, and his company was absorbed into the 2nd Field Company, Canadian Engineers, C.E.F., for active service.

In October he was transferred to the 1st F.C.C.E. and reached France in February. After taking part in the battles of St. Julien, Festubert and Givenchy in April, 1915, he was promoted to lance-corporal, and in June his good work secured for him the rank of corporal. In December, 1915, he was granted his commission, and a year later he was promoted to captaincy. Meanwhile on June 13, 1916, he was awarded the Military Cross for conspicuous bravery in the recapture of Mount Sorel. In the face of repeated enemy attacks he organized his company and helped to rally infantry troops. On that occasion he was on duty for twenty-four hours and was wounded in the left hand. During the whole of his long period of service in the war this was his only injury.

He served in all the principal engagements of the Canadians, including the shows at the Somme, Vimy Ridge, and Passchendaele. In August, 1918, he was rewarded with his majority, and in addition he was mentioned in despatches on no less than five occasions for splendid service, and invested with the D.S.O.

Major Birkett is a son of John Birkett, treasurer of the Canadian Locomotive Co., Kingston, and Mrs. Birkett, and another brother, Lieut. Leonard Birkett, M.C., served for many months in France.

"Making Over" a Climate.

The latest suggestion toward "making over" a climate deals with that of Eastern Canada, which many people think would be improved if it were made milder. Mr. R. T. Elliott, a Canadian engineer, thinks such a change could be brought about by closing Belle Isle Straits. Among the results, in his opinion, would be that Montreal would become an open port during the whole year, the banks of the St. Lawrence would be in perpetual blossom of flowers and shrubbery, and, incidentally, people all the world over would long to live there. As an engineering problem, there seems no reason to doubt that the Straits could be closed, although at an expense which Canada might not care to assume just at this time. Whether the seasons would be so greatly changed is another matter, not conclusively settled by theoretical probabilities.

He Was Through.

Major—My boy, what do you intend doing when you get out of the army?
Private—Stay out, sir.

Unclean and Unpatriotic.

The man who markets unclean and filthy milk is especially unpatriotic.

Bernice Simpson

It is with deepest regret that this week we are called upon to chronicle the death of a young lady well known in religious and social centers here in the person of Miss Isabella Bernice Simpson, daughter of Mrs. Robt. Simpson, John street. Deceased was in her 23rd year at the time of her death, and had been a patient sufferer for some months past. A few weeks ago she left on a visit to relatives in Rochester, N. Y., in the hope that the change would benefit her health, but we regret to say that her fondest hopes, and those of her friends, were not realized, for on Thursday last she took a decided change for the worse, death relieving her of her sufferings on Friday last.

Deceased was widely and favorably known. Her upright character and kindness of heart endearing her to a large circle of friends, who will deeply mourn her loss.

The funeral, which took place on Monday afternoon to Waterdown cemetery, was largely attended. Religious services at the home and grave being conducted by Rev. R. A. Facey, pastor of Methodist church, assisted by Rev. J. F. Wedderburn of Knox church. The pallbearers were W. Langford, H. Prudham, V. Willis, Frank and H. Ward and R. Wilkinson.

The large number of beautiful floral tributes received amply testifies to the high esteem in which deceased was held by all classes of citizens.

The Garden Party

At a meeting of Executive of the Garden party held in the Township hall last Friday evening, the following program as drafted, was read by the secretary, and adopted.

Owen Smiley, Entertainer of Toronto. Miss Marwick, Soloist of Hamilton. The Laurie Brothers, Hamilton's Scottish Entertainers. The Great War Veterans' Band of Hamilton has also been engaged.

Mayor Carter of Guelph has kindly consented to act as chairman.

Col. D. McCrae of Guelph, father of the author of 'In Flanders Fields' will be the guest of the evening and will deliver an address.

Permission has been granted under the War Charities Act to sell chances on several useful and costly articles. Tickets are now on sale in the village.

The next meeting of the committees will be held on Monday evening July 14th in the Township hall, and a full meeting of committee members is requested.

The following are the committees for the day.

Ice Cream Booth—From 5 to 7 Mesdames P. Mitchell, W. A. Drummond, J. Scanlon, C. Richards, S. F. Smith, Baird, A. Slater, W. Langton T. Allen. From 7 to 8—Mesdames J. Langford, G. Rohr, G. Nicholson, S. Gallagher, J. Raspberry, F. Slater Misses Moore and Bella Drummond. From 8 to 9—Mesdames J. F. Vance R. Smith, A. B. Cooper, W. Drummond, E. Slater, J. Prudham. From 9 to 10—Mesdames P. Metzger, J. Green, J. Robertson, J. English, J. Bell, C. Galivan.

Tea Booth—6 to 8. Mesdames C. Drummond, A. DeLong, J. Tuck, A. Newell, E. Sawell, R. J. Vance, R. Spence, Miss Halliburton, B. Little. From 8 to 9—Mesdames J. Henry, A. Alton, J. Slater, R. A. Facey, H. J. Ieake, R. Griffin, Miss Armstrong. From 9 to 10—Mesdames J. Harvey W. Griffin, W. Spence, W. Smith, J. Kirk, J. Griffin.

Assistant Ticket Sellers—6 to 7 May Langford, Mamie Ray.

7 to 8—Agnes Forbes, Winnie Mc Gregor.

8 to 9—Miss G. Mann and Miss I. Richards.

THE POTATO.

Some Doubts as to Its Introduction.

Thomas Carlyle once declared that "the biggest gold nugget ever found was never half so useful to the world as one good mealy potato." Yet the potato had a hard fight for recognition. It is probable that the potato was originally an American plant, but its use became universal through its adoption as an article of food in Europe.

There are many claimants for the honor of its introduction. Some say that it was the naturalist Clusius who planted the tuber in the Botanical Gardens at Vienna in 1588, but the Spaniards say that the plant was brought from South America about 1580. They assert it was taken from Spain into Italy and Belgium, and that it was from a Belgian that Clusius obtained his roots.

There are other stories, however. Sir John Hawkins on returning from Santa Fe in 1563 had with him some potatoes, but it is more than probable that they were yams or "sweet potatoes," the same that Columbus described as "not unlike chestnuts in flavor." Sir Walter Raleigh is said to have got the real potato from Virginia in 1586, but his claim is disputed, and it is asserted that the genuine "Irish" potato is a native of Chile.

Minard's Liniment Co., Limited.

Gents,—I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinarians had treated him without doing him any permanent good.

Yours, etc.,

WILFRID GAGNE.
Prop. of Grand Central Hotel,
Drummondville, Aug. 3, '04.

Tradition has it that Sir Francis Drake made a present of potato roots to Raleigh, who planted them in his garden in County Cork in 1594, but it is not until 1610 that we have any authentic record of potatoes in Ireland. In 1697 a book on herbal medicine was written by Gerard, the frontispiece to which was a portrait of the author holding a potato in his hand.

When potatoes were first used for food it was the "seed" or "apple" that was used, and it was some time before the tuber was found to be the most delicious food. Up to the end of the seventeenth century the potato was out of the reach of people of moderate incomes. It is recorded that in 1663 potatoes were sold at one shilling (25 cents) a pound in the London markets, but the sale was small because so many people believed that the potato caused leprosy and fever. Others declared that they were endangering their souls if they ate the potato, since the tuber was not mentioned in the Bible.

It appears that nothing or little was known of the potato in Scotland until long past the middle of the eighteenth century. The Duchess of Buccleuch in her "Household Book" for the year 1701, speaks of the potato as "an esculent of great rarity."

There is no doubt that the Irish were the first people to recognize the value of the potato as a staple article of food.

THE MIDDLE TEMPLE.

Holds Stage Where Queen Bess Saw Shakespeare.

The hall of the Middle temple, London, contains a table made from a tree presented by Queen Elizabeth.

The top is 30 feet long and 3 inches thick and forms "the high table" for the Benchers of the Inn. The dais on which it stands is at the western end of the hall, and on the actual floor boards of this platform Shakespeare performed "Twelfth Night" for the entertainment of "the Virgin Queen," who opened the hall in 1572.

The eastern end of the hall is occupied by a magnificent carved screen, finished in 1574, the upper part of which forms the Minstrels' gallery.

The walls of the hall are paneled to a great height, and both the panels and windows above are richly embellished with the coats of arms, dating from the sixteenth century, of legal luminaries, members of the Inn. Among them may be observed the arms of Sir Walter Raleigh, Peyps and of the present lord chancellor and the present lord chief justice of England. Portraits by Vanduyck, Lely, Kneller and Murray, together with suits of well-preserved armor, greatly add to the mural adornment of this historic edifice.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve those troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by government analyst to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Shinplasters."

One of the curious forms of money which the United States government has resorted to was the "shin-plaster currency." These bits of paper money were called "shinplasters" by reason of their size and not because of the use to which they were put. It was a strange condition of affairs which led to their issue. The Civil War had put a great strain on the finances of the United States. Metallic money grew scarce. In the first place it was exported and in the second place it was hoarded in vast sums. The government had issued "greenbacks" to take the place of silver dollars and five and ten dollar gold pieces, and as dimes, quarters and halves had also grown scarce it was decided to issue fractional paper currency. It was seriously needed, because there was great inconvenience throughout the country from a lack of small change. Merchants used postage stamps, tokens of various forms, their own "promises to pay" or script, and even buttons were employed as small change, to be later redeemed by the merchants in goods. It was to meet such conditions as these that the government issued small paper notes in denominations of 10, 25 and 50 cents.

Minard's Liniment Cures Garget in Cows.

Buttons.

The Elizabeth era gave vogue to the button and buttonhole, two inventions which may be regarded as important, since they did much to revolutionize dress. The original button was wholly a product of needlework, which was soon improved by use of a wooden mould. The brass button is said to have been introduced by a Birmingham merchant in 1689. It took 200 years to improve on the method of sewing the cloth upon the covered button. Then an ingenious Dane hit upon the idea of making the button in two parts and clamping them together with the cloth between.

The most important branch of the button industry in the United States is the making of pearl buttons, the material for which is obtained from shells gathered along the Mississippi River. The industry has grown up within the last twenty years.

Minard's Liniment Cures Diphtheria.

End Your Catarrh To-day

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be cured right at home by inhaling "Catarrhose." In using Catarrhose you don't take medicine into the stomach—you just breathe a healing piney vapor direct to the lungs and air passages.

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhose is breathed—sneezing and coughing cease at once, because irritation is removed.

Use Catarrhose to prevent—use it to cure your winter ills—it's pleasant, safe and guaranteed in every case.

Sootch Stew.

The cheapest cut of lamb or mutton may be used in making this stew, but all skin and fat must be trimmed away. Three pounds of the meat cut into small pieces will make a meal for a large family. Put it in the kettle, after washing it, and cover with three pints of cold water, bring quickly to a boil, skim and add half a cup of barley that has been soaked in cold water over-night. After the stew has again reached the boiling point, draw the kettle to that part of the stove where its contents will simmer gently for an hour and a half. Fry in drippings or butter a quarter-cup each of chopped turnip, carrot, and onions. When these soften a little, which will require about five minutes, add them to the stew. Salt and pepper to taste, then continue simmering until the vegetables are done, then stir in two tablespoonfuls of flour rubbed to a cream in one tablespoonful of butter, and cook until slightly thick. This is the famous dish of Scotland, and for school children or hard-working people it cannot be beaten. Serve very hot.

Minard's Liniment Cures Colds, Etc.

Interested in Strangers.

Many of the native customs mentioned by "Merrigal" as Samoan or Melanesian seem to be observed all over the western Pacific, the Sydney (Australia) Bulletin says. The extreme deference to the chiefs was practiced by the Maoris and Fijians particularly. In Papua the Trobriand natives are the only tribe with any regard for the claims of high descent. They never stand in a chief's presence, much less walk past him. The custom of placing a stone in a leaf on a path as a "no thoroughfare" sign is common in Papua.

A favorite trick there is to knot a vine or long grass across the tracks as a warning to go back. The north-eastern Papuan welcomes a visitor by feeling over and pinching the caller's arms and trunk, remarking at the same time what splendid condition he's in. Coming from a people who have been and are, when they get a chance, unblushing cannibals, this is rather disconcerting, however complimentary.

\$100—REWARD—\$100

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. \$100.00 for any case of Catarrh that HALL'S CATARRH MEDICINE fails to cure. Testimonials free. F. J. Cheney & Co., Toledo, Ohio.

THREE GOOD RECIPES.

Vegetable Pie, Cold Savory, Snow Cream.

Why not try vegetable pie with crust. For it take two onions, two carrots, one turnip, outer leaves of celery (best part reserved), half a pint of icon bone stock, one ounce of lentils.

Wash, clean and prepare the vegetables, cut them into small pieces and arrange them in a pie dish in layers, putting the lentils, which have previously been soaked for twenty-four hours, in the centre; pour over the the stock and half a pint of water, put into the oven with a dish over it, and bake for two hours (or it could be boiled in a sautepan and put into a pie dish afterward if more convenient). Mix a fairly stiff paste, roll out and place over the vegetables in the pie dish, trim the edge and mark it neatly, bake in a moderately hot oven for three-quarters of an hour.

Cold Savory—To make cold savory take six oysters, two hard-boiled eggs, a little bestroot cut in strips, two sticks of celery cut in strips, one tablespoonful of mayonnaise and fill six small paper cases with the mix-

ture. Put a slice of hard-boiled egg on the top and sprinkle with salt and cayenne and place a blanched and broiled oyster on the top of the egg. Garnish with parsley. Shrimps or flakes of cold cooked fish can be substituted for oyster. Any cooked vegetables, such as peas, small dice of carrots, and potatoes, or cooked finely shredded French or scarlet runner beans can be used for salad, and this can be made in one large dish if liked. Snow Cream—For snow cream take two ounces of confectioner's sugar, two ounces of jam, two whites of eggs, two spoonfuls of red jelly. Whip all together for half an hour, and then stir in about four tablespoonfuls of boiled rice. The jelly and sugar may be omitted, but in that case the sweet takes much longer to whip.

Effigies Thought to Bring Luck.

The scarab of the land of the Pyramids is the expression of the hope of resurrection and the desire to live long. As the beetle was supposed to be always born anew, so the carrying of the beetle or its image came into the customs of the ancients. The warriors of an elder day hung the images of gods about their necks, and many of the brooches and pins of the old figures were the effigies of luck-bringing divinities.

Candied Fruits.

Candied fruits are delicious. Limes, apricots, pines, pineapple. And other tasty ones.

CURED HIS RHEUMATISM!

"I am eighty-three years old and I doctored for rheumatism ever since I came out of the army, over 50 years ago. Like many others, I spent money freely for so-called 'cures' and I have read about 'Uric Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change. You might just as well attempt to put out a fire with oil as try to get rid of your rheumatism, neuritis and like complaints by taking treatment supposed to drive Uric Acid out of your blood and body. It took Mr. Ashelman fifty years to find out the truth. He learned how to get rid of the true cause of his rheumatism, other disorders and recover his strength from 'The Inner Mysteries' now being distributed free by an authority who devoted over twenty years to the scientific study of this trouble. If any reader of this paper wishes 'The Inner Mysteries of Rheumatism' overlooked by doctors and scientists for centuries past, simply send a post card or letter to H. P. Clearwater, 65-C Street, Hallowell, Maine. Send now, lest you forget! If not a sufferer yourself, cut out this notice and hand this good news and opportunity to some afflicted friend. All who send will receive it by return mail without any charge whatever.

SKATING ON SALT.

Good as Ice Rink Except in Very Warm Weather.

Nature has been 'conquered' once more. Men can skate not on ice, but on salt. A salt skating rink, constructed by a patented process, was recently exhibited and operated in Berlin.

All skaters will welcome the invention of a method of producing by purely chemical means and without the employment, or a costly refrigerating process of saline crystalline mass which exhibits all the characteristic properties of ice. The surface of the mass can scarcely be distinguished from a surface of natural or artificial ice, and the resemblance is increased by the fact that the shavings produced by the skates have all the appearance of snow. The mass is entirely odorless and contains no ingredient injurious to the health or the clothing of the skaters. It can be utilized for skating with ordinary ice skates in every season and climate, except when the temperature is higher than 86 degrees F.

The mass can be applied to any tight floor of wood, cement or asphalt, from which it can easily be removed by chipping or steaming. It is preferable to construct the skating floor in a building, but it may be installed

ISSUE NO. 28, 1919

HELP WANTED—MALE.

SUPERINTENDENT FOR WOOLLEN Mill, for night work. Must thoroughly understand Carding and Spinning, and be a good manager of help. Good position to right man. Apply, stating age and full details of experience, to Silingsby Mfg. Co., Brantford, Ont.

WANTED—BOSS WEAVER, FOR Crompton and Knowles Looms, on heavy work, first class opening to right man. Apply, stating age and full details of experience, to F. O. Box 5, Hamilton.

MISCELLANEOUS

IT IS ALWAYS SAFE TO SEND A Dominion Express Money Order. Five Dollars costs three cents.

AUTO OWNERS AND MECHANICS. Don't lose your tools. Stamp your name on every one and be insured against loss and theft. We will make for you a Stamp hand cut from tool steel. It will last a lifetime; send \$05 for each letter of your name and 10c postage. If only your initials are required send \$05. Crown Stamp & Die Works, Waterdown, Ontario.

NURSING.

NURSING—NURSES EARN \$15 TO \$25 a week. Learn without leaving home. Send for free booklet. Royal College of Science, Dept. 134, Toronto, Canada.

FARMS FOR SALE

125 ACRES NEAR WATERFORD, 100 under cultivation, 13 acres of hardwood brush, balance pasture land, good sand loam soil, 2 storey white frame house, stone basement, barns with other necessary outbuildings, 2 miles to electric cars, all health is reason for selling, price \$10,000, \$2,500 cash, balance 5%. Chas. E. Shaver & Co., 38 James street south, Hamilton.

200 ACRES—PETERBORO COUNTY, comfortable house, log barn, 18 acres cleared, balance pasture and timber; some crop now in; all for \$800. Write or phone C. P. Doherty, Kilmount, Ont.

ONE TEN ACRE, AND ONE 25 ACRE fruit farm, all varieties of fruit, soil, clay loam, with good buildings, farms on the Hamilton, Niagara Falls Stone Road, street car stops at farms, also they adjoin the town of Beamsville. Will sell or exchange. Apply, E. J. Griffiths, 1150 College street, Toronto, Ont.

500 ACRES SANDY LOAM, 25 ACRES in bush, 75 miles from Toronto, Good house and barn. Will sell in block or sections. Apply, Albert Brennen, 127 Barton street east, Hamilton.

HOME BUILDERS.

Write for Free Book of House Plans, and information telling how to save from two to four hundred dollars on your new home. Address, Haldiday Company, 11 Jackson Street East, Hamilton, Ontario

BUSINESS CHANCES

FOR SALE—MOVING PICTURE MACHINE, reels, slides, screen, electric attachment, gas tank and outfit; will exchange for medium size gasoline launch in good condition. Address Box 7, Kearney, Ont.

FOR SALE OR EXCHANGE.

HOUSE WITH EVERY CONVENIENCE in village of Grimsby. Steam heated, car stops at door. Would consider exchange for same or smaller place between Stoney Creek and Brantford. Apply, Box 36, Grimsby, Ont.

In the open air if it is protected from rain and drying winds.—Scientific American.

GREAT BOON TO WEST.

Many Returned Soldiers Are Going on the Land.

Reports from the various Soldier Settlement administration centres in the West indicate that possibly five thousand applications made by returned men have been approved. At 160 acres each this means the taking up of 800,000 acres of land. But the movement is only beginning to get under way. If the scheme is not too badly "knocked" by mistaken critics it is reasonable to suppose that between 3,000,000 and 4,000,000 acres will, in this way, be taken up. Think of what it means to have this addition to permanent settlement in Alberta, Saskatchewan and Manitoba. Twenty-five thousand such settlers getting an average loan of \$4,000 would mean \$100,000,000 put out in three provinces.

Speaking at Regina recently Major Ashton, of the Soldier Settlement Board, pointed out the possibilities of the scheme to Saskatchewan. Probably about 30,000 soldiers, he said, would return to that province, and the records show that 75 per cent. of them were either farmers or farm laborers. If three-fifths of them, or 18,000 took advantage of the Soldier Settlement scheme and had an average loan of \$4,000 it would mean the advancing of \$72,000,000 for farm development work in Saskatchewan alone. To date one-third more applications have been approved from Alberta than from Saskatchewan, so it is easy to see what the West has to gain through the successful working out of the Soldier Settlement scheme.

If the loan companies were to put out \$50,000,000 this year on farm loans in the prairie provinces what a wonderful thing it would be considered. With any appreciable measure of success, the Soldier Settlement Board will do better than that. Compared with anything that the western provinces have done in the way of assisting agriculture through loans, even now the Soldier Settlement scheme is a great success. During the two years that the Saskatchewan Farm Loans Board has been in operation it has not loaned much more than \$2,000,000, and Manitoba has probably not loaned more than \$3,000,000. Still, both of these provinces are claiming a great deal of credit for what they have done, and rightly so. Their work in this respect goes to show that the possibilities before the Soldier Settlement Board as a means of promoting permanent settlement are wonderful.

Using the Libraries.

During 1918 more than 120,000 books classified as "Useful Arts" were lent by the public libraries of the Province of Ontario to the schools. An inestimable amount of good was done by the libraries in assisting men and women in vocational study.

The libraries are entitled to be rated as an essential part of the technical educational system of the province. The libraries reach a larger number of people with technical books than will ever be reached by technical schools. They can also provide books on subjects that are not commonly taught in technical schools and can supplement the work of instruction given in technical schools. The libraries can also serve men and women who can not attend a technical school.

During the same year the Canadian National Library for the Blind circulated 5,101 books in the province. The total membership for the year was 572.

Libraries were established in all the military camps in the province for the use of the soldiers-in-training. Each camp was visited by a representative of the Public Libraries Board, for the purpose of studying conditions and of arranging for the reception of the books and for their circulation. The purchase of the books, their preparation for use, shipping, etc., were all done within a few weeks. About 8,000 volumes were purchased and 2,500 were received as gifts. The libraries sent out ranged from 250 to 2,500 volumes each.

Libraries were sent to the following camps: Petawawa, Niagara Camp, Deseronto, Leaside (R.A.F.), Fort Henry Camp, Camp Borden (R.A.F.), Camp Mohawk (R.A.F.), London Camp, Beamsville (School of Aerial Fighting), Armour Heights (R.A.F.), and Brockville Camp.

The following hospitals also secured libraries: Whitby Convalescent Hospital, St. Andrew's Convalescent Hospital, Davisville Orthopaedic, Guelph Military Hospital, Mowat Sanitarium, Kingston, Wellington Street Barracks, Ottawa, Imperial Munitions Board, Beamsville; Soldiers' and Sailors' Settlement, Kapuskasing; Soldiers' and Sailors' Training School, Monteth; Freeport Hospital, and Fort Henry Hospital.

The circulation of travelling libraries greatly increased.

Ontario's Largest Family.

Mr. and Mrs. Albert Schingh, of Ottawa, became the parents of a bouncing baby boy on May 31. It was their 21st child, probably the largest family in Ontario. Mr. Albert Schingh, father of the 21st, is now in the employ of the Ottawa Electric Railway as a conductor. Both he and Mrs. Schingh are in their 44th year, and will celebrate the silver anniversary of their wedding in August.

McClary's Sunshine

It is after a furnace is installed and the first cold snap tests it that you know whether your investment in COMFORT was wisely made or not. Don't take a chance on it.

You can be sure of it under the McClary's guarantee. McClary's engineers will plan your heating system without charge. They will guarantee that the Sunshine furnace, installed according to those plans, will heat your home comfortably.

Take advantage of this service. Have a comfortable, well-heated home.

CAN'T PUNCTURE OR BLOW OUT

Dayton airless tires in the past six years have been used by thousands of owners of light passenger and delivery cars in all parts of the civilized world, and have conclusively demonstrated:

- 1st—They can't puncture nor blow out.
- 2nd—They ride much longer as smoothly as pneumatics.
- 3rd—They give much longer wear than the average pneumatic.
- 4th—They absolutely will not injure the car. They have been endorsed by 50,000 or more satisfied users, including the late George Westinghouse and Edward Grey formerly Chief Engineer of the Ford Motor Company.

Fiers of live elastic built about one inch apart inside the casing and vulcanized or welded to it take the place of an inner tube. Nothing can happen but wear. We have standardized on 30x3 1/2 and the price is right.

THURSDAY, JULY 10, 1919

LOCAL MENTION

The results of the Entrance examinations are not as yet known.

Mrs. E. Douglas, Mill Street, is visiting friends at Galt.

Miss Maud Small of Kilbride visited over Sunday with her sister, Mrs. Fred Hamilton.

Mr. and Mrs. P. T. Ballantine (nee Della Griffin) of Windsor, are visiting friends here.

The Union Sunday School picnic will be held at Wabassa Park on Wednesday, July 23rd.

Mr. Guy McGregor of Brantford paid a flying visit to friends in the village on Monday last.

Mr. John Simmons of the Hamilton Road spent Sunday with Mr. and Mrs. J. W. Griffin.

Miss Reta Henry left on Saturday to take a six weeks course at the Kingston summer school.

Mr. and Mrs. Hughes of Brantford and Miss Plewis of Chataoogua, Tenn. are the guests of C. P. and Mrs. McGregor.

Mr. Will Horning and sister, Miss Ella Horning, left on Wednesday of this week for Victoria, B. C. and other western points.

Miss Clara Radford and Miss Nettie Buttrum of Waterdown are spending a few days with Mrs. W. Sovereign of Freeman.

Miss Violet Buttrum of the Hamilton Road and Miss Ruth Flatt of Millgrove were the guests of Mrs. J. Griffin on Monday last.

Pte. Geo. Arnold arrived home last week after two and a half years service overseas. After a five-day furlough he returned to Toronto.

The Colored Ball tossers of Hamilton will play an exhibition game with the Waterdown Team at the Show Grounds on Thursday evening.

Mr. and Mrs. W. R. Pearson and Miss Mary Pearson have motored to Detroit and while away will join a party as house guests of Mr. and Mrs. George Meynell of Chatham, at their summer residence, Erie Beach.

A picnic in connection with the Convention of the Diocese of Niagara was held on Tuesday last at Wabassa Park. Representatives from the different parishes and Sunday schools in the Diocese were present. A most enjoyable time was spent and several instructive addresses were delivered.

Mr. and Mrs. J. A. Keir, formerly of this village, after traveling and residing in different parts of Ontario and spending two winters each in California and Florida, have returned and intend building a home in C. P. McGregor's Maple Park Survey.

Miss Kerr and Miss Boyd, two former teachers on the Public school staff here, have been successful in securing new positions. The former will teach in the Paisley Public school, while Miss Boyd has secured a good position as teacher in one of the Toronto schools. We are sorry to lose these two young ladies from our school staff, as they have both proven themselves to be capable teachers as well as being popular with the citizens generally.

The Waterdown and East Flamboro Bean Club will hold a picnic at Lake Medad on the 25th of July next. The Waterdown Orchestra under the able leadership of Professor A. Young has been engaged for the occasion. Autos will leave the Club House on Mill Street every hour to convey all who wish to attend. It is to be hoped that none of the picnickers will follow the example of the colored damselfrom the Ambitious City and flop into the water, as that would spell disaster to the fishing industry there.

NOTICE

The Council requests that the ratepayers of the village cut all weeds and grass on streets in front of their property.
D. DAVIES, Reeve.

The Evaporator has again resumed operations. Cherries and Raspberries are now wanted at the factory.

Mr. Markle and Jas. Kew are building a new Service Garage on Main street opposite O. B. Griffin's store.

The storm which passed south of the village last Saturday afternoon did considerable damage to the fruit and crops in that locality. In the village several trees were blown down. The flag pole at the American hotel failed to withstand the storm.

Mr. F. J. Shaidle, who qualified last month as a champion member of the McCaulay Club of Montreal, is spending the week in Montreal at Head office, and is one of the three speakers at the Insurance convention to be held there. He will represent Ontario, Quebec and the Maritime Provinces. Mr. W. D. Sills of Richmond, Va. will represent the United States and Mr. D. N. McLean of Edmonton, Alta will represent Western Canada. This is certainly a very high honor conferred on our local townsman and we heartily congratulate him.

Track Meet

The first Twilight Trackmeet of the season was held on the Fair Grounds last Thursday evening. There was a good attendance of contestants and great enthusiasm was shown in all the events. The following is the standing of the competitors:

E. Nicholson	25
S. James	23
H. Armstrong	20
Harry Slater	19
R. Ribson	15
G. Lillycropp	15
J. Galliven	15
Hilton Slater	13
C. Robertson	13
Frank Maxwell	11
Russel Allen	9
H. Field	9

A Soft ball match between the North and South of Waterdown will be the chief feature of this week's program.

Millgrove

Mrs. Tuppel of Buffalo, formerly one of our Millgrove young ladies, visited in our village a short time ago.

Miss Gooder of Toronto has been visiting at G. Shelton's.

Mrs. Nephin of Hamilton visited at G. F. Griffin's last week.

Twenty-one members of the Delta Alpha S. S. class picniced at Webster's Falls one day this week and all report having a very good time.

Mr. Markle Cummins is building a new barn on his farm.

Rev. R. Albright preached an excellent sermon last Sunday evening to a large congregation.

Mr. Harvey Binkley of the 5th con. West Flamboro, met with an accident while driving his car. Harvey is laid up in bed with two broken ribs and the car is laid up in the garage.

Mr. John Dalton and Miss Alta Carey were quietly married at the home of the bride's parents on July 2nd. They are now touring in the west, and after their return they will reside in Millgrove.

Suspicious at That

Old Jenkins was mad with rage. For twelve months he had taken the plate around at the local church every Sunday. Now someone else had been asked to perform the duty.

"I consider I have been grossly insulted," he said to a friend.

"But," said the latter, "I don't think there is any bad feeling toward you."

"I don't know about that," roared Jenkins, "but it looks very suspicious. The fellow they have asked to do the job has only got one arm."

Waterdown

Some say it is the beauty of its streamline design that makes the new Chevrolet "Baby Grand" Touring Car so appealing. Others are equally enthusiastic over its mechanical perfection, the deep, wide seats and roomy body. But all agree that it is a car of unusual merit and well worthy of bearing the name "Chevrolet."

If you want an automobile that you can take genuine pride in owning—one that is economical to operate and dependable for all needs—you should inspect this new Chevrolet model. It is a car that leaves little to be desired at a price that pleases.

LOST BOUNDARY RECORDS.

Strange Story of How They Were
Recovered.

In 1818, Great Britain and the United States agreed that the 49th parallel of latitude should be the boundary between Canada and the United States, from Lake of the Woods to the "Stony Mountains," as the Rockies were then called. West of that to the Pacific, the country was "free and open" to both parties for a period of ten years.

But in ten years the boundary was not settled. In 1824 Russia surrendered all rights to the territory south of 54 degrees, 40 minutes. Time passed, and the country was still "free and open," but an influx of American settlers began to arouse jealousy. In 1844 the political cry of the Democrats in the United States was "Fifty-four forty or fight!" which meant that the United States would have the Pacific coast up to the Russian territory or fight Britain for it. But in 1846 a treaty was made, continuing the 49th parallel "to the middle of the channel which separates the continent from Vancouver's Island."

The commission on the boundary made a map survey, but only got 93 miles of lines cut and erected stone pyramids at frequent intervals in that marked distance.

A few years later, settlers found three lines cut and two sets of pyramids. The boundary was lost. Who could say which was United States and which Canadian soil?

The Canadian settlers applied to the Provincial Government of Victoria, and the query was passed on to the Dominion Government. The simple thing would be to write to London, Eng., and obtain the required information re the surveys of 1857-1861.

In his recent pamphlet on the subject, Mr. Otto Klotz, Chief Astronomer of the Dominion, says:

"Now the extraordinary thing happened. This final report with the necessary data of the survey was not to be found in London. Time and again search was made by different persons for the missing document, but all to no avail. To add to the remarkable situation, the duplicate final report was not to be found in any of the Government archives in Washington.

"Does history record any similar circumstance? Two governments are engaged for years on an expensive international work, a boundary survey; the respective commissioners sign joint final reports and transmit them to their respective Governments, and the reports are nowhere to be found — apparently vanished from the face of the earth!"

"Such was the situation in 1898, when the writer (Mr. Klotz) was sent by the Dominion Government to London and Petrograd on a special mission, in which was included the obtaining of information regarding the records and final report of the above survey. All the offices in London were visited in which there was the faintest likelihood that the records might be stored, but without result, and no one seemed to be able to give any assistance.

"It was the writer's first visit to Europe, and naturally a visit was paid to the Royal Observatory at Greenwich, as he was astronomer for the Dominion Government.

"By chance, his eye caught the initials, B.N.A. on some boxes on top of the library shelves. Like a flash those letters interpreted themselves as standing for 'British North America.' At his request, the boxes were taken down, the dust of years removed, and in them lay the long-lost records of the international survey of the 49th parallel."

"Bars" To Be Awarded.

Canadian soldiers will be awarded bars to the general service medal for the following engagements:

1915—Second battle of Ypres, April and May; St. Julien and Langemarck.

1916—Mount St. Eloi, April 3 to 19; Sanctuary Wood, and Hill 2, June 2 and 3; the battle of the Somme, October and November.

1917—Vimy Ridge, April 9 to 13; battle of Arleux and Fresnoy, April 28-29, and May 3; Hill 70, August 15; and Passchendaele, October 25 to November 10.

1918—Battle of Amiens, August 12; capture of Monchy-le-Preux, August 25 to 28; Boiry and Cherisy, August 30 to September 2; breaking of Queant-Drocourt Line, September 3 and 4; Crossing of Canal Du Nord and Capture of Boulon Wood, September 27 to 29; capture of Cambrai, October 19; capture of Deain, October 20; capture of Valenciennes, October 25 to November 2; and the capture of Mons, November 7 to 11.

It is possible that bars will be given also for the battles of Festubert, Givenchy and Hooge.

A Difficult Question.

One day I was getting dinner in my tent and the usual company of natives watching the performance, when there came along a couple of men who had just landed and who, evidently, had never seen an Eskimo before. I overheard their conversation, relates Rev. S. Hall Young in his book, "Adventures in Alaska." "Say, Jim," said one, "just look there. Did you ever see the like?" (A pause.) "Say, do you think them things has souls?" "We-e-ll," drawled Jim, "I reckon they must have. They're human bein's. But I'll tell you this: If they do, they've all got to go to heaven, sure; for the devil'd never have them around."

GRIFFIN'S JULY SALE

Rich Red Salmon - 45c

During the Summer

Kent House, Montmorency Falls, P.Q. Built 1778, by General Sir Frederick Haldimand, Governor General of Canada. Later the home of His Royal Highness, Edward Augustus Duke of Kent (fourth son of King George III and father of the good Queen Victoria).

What the Duke of Kent's Famous House tells us

LOOK at this house. Who would ever realize that it is 140 years old! What an example of property preservation by surface protection.

But it is only an example. The real point to appreciate is that if it is a house we own, or any other thing, its surface is its danger point. That is where disintegration begins.

Your floors—wood or cement—your doors. Their damage is sure, without surface protection. That's wear. Your steel garage, metal roof, metal parts of your wooden house. Their ruination is certain without surface protection. That's rust. Stucco, and even cement, have their

durability aided by protective coatings as well as their appearance enhanced. Every manufactured article you own—your desk, your chair, comes to you with a necessary surface protection.

Everything with a surface needs surface protection—save the surface and you save all.

And so, may we say: don't paint and varnish merely for appearance. Watch the surfaces of all your property of every kind and see that they are given a coat of fresh protection as soon as it's needed. Loss from neglect is so much greater than the cost of protection.

THIS announcement is issued by the Canadian "Save the Surface Campaign" Committee, for the purpose of educating the public in the Preservative and Protective value of Paint, Varnish and Allied Products for the Conservation of Property, and has received the approval of the Canadian Trade Commission in the following words:

"The realization of the above objects will lead to employment during the Reconstruction Period and bears our entire approval."
