OUR FISHESIES.

We are glad to learn that those of our people who have been engaged in the Fishing business during the season now drawing to a close have met with very general success, and that a remunerative market is accessible to them in England and the United States, as well as in the Provinces, by ships to the old country and steamers to Boston, &c.

We hope that our trade in this branch of industry will be more fully developed next season, and that a larger amount of capital will be employed, in order that our own people may share in the advantages which our American neighbors have been reaping for many years past, whilst we have remained idle spectators.

We learn that Jas. McCraith, Esq., merchant, of this City, has employed labor and capital to a considerable extent, at Robinson's Island, during the past summer, in the fishing business, and has made it pay. Several others of our enterprising merchants in Charlottetown, Georgetown, Souris, &c., have done likewise and we hope successfully.

We may mention the luck of one fishing vessel which came under our own personal observation, as a proof of what may be accomplished in this invaluable source of oliver seed,

We may mention the luck of one fishing vessel which came under our own personal observation, as a proof of what may be accompliabed in this invaluable source of our wealth: That splendid schooner, the F. Treat, Clarke, master, arrived at this port on the 18th day of June last, on her summer voyage to the fishing ground, and in three weeks returned with a catch of upwards of 300 barrels of Mackerel, which were discharged on Queen's Wharf, and forwarded to market per steamers to Boston. The F. Treat proceeded again to the fishing ground, and has since made three more trips, making in all four trips, her average catch per trip being about twenty thousand dollars.

It may be said that the extraordinary success of this schooner is owing to the superior tact, courage, and skill of Capt. Clarke, who is so well and favorably known by the general public as master of the Sailing Packets between this port and Boston previous to the days of steam communication, during—which he very deservedly secured the confidence and respect of the whole public.

We admit that much depends upon the careful and judicious management of such men as Capt. Clarke, and we trust there are natives of this Island who, after some experience and practice, would be found to possess all the necessary qualities for becoming successful rivals to their American neighbors in the prosecution of this branch of home industry.

We sincerely trust that more of our wealthy merchants will, during the approaching winter, devote their attention and some of their spare cash to the building of fishual cash of their spare cash to the building of fishuance of their spare cash to the building of fishuance of their spare cash to the building of fishuance of their spare cash to the building of fishuance of their spare cash to the building of fishuance of their spare cash to the building of fishuance of their spare cash to the building of fishuance of their spare cash to the building of fishuance of their spare cash to the building of fishuance of their spare cash to the

will, during the approaching winter, devote their attention and some of their spare cash to the building of fishing schooners, and thereby employ their means to the promotion of the general prosperity of the Colony.

Charlottetown, Sept. 13, 1865.

The New York Tribune says, "the reason why Drak. Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material, and of pure quality, olthough the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantat ion Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size. At east twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government. Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Pacts are stubborn things.

are stubborn things.

" • • I owe much to you, for I verily believe the
Plantation Bitters have saved my life.

REV. W. H. WAGGONER, Madrid, N. Y."

Thy Friend, ASA CURRIN, Philadelphia, Pa.

Plantation Bitters, the popularity of which are daily increasing with the guests of our house.

SYKES, CHADWICK & CO.,

Proprietors Willard's Hotel, Washington, D. C.

no o o The Plantation Bitters have cured me of a de-rangement of the kidneys and the urinary organs that has distressed me for years. It acts like a charm. C. C. MOORE, 254 Broadway."

Such evidence might be continued for a volume. The best evidence is to try them. They speak for themselves. Pegsons of sedentary habits troubled with weakness, leastsude palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, disbetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters, in bulk or by the gallon, is an impostor. We sell it only in bottles. Sold by principal dealers throughout the habitable globe.

W. R. WATSON, Agent.

Are the sources of the deadliest maladics. Their effect is to vitiate all the fluids of the body, and to send a poisoned stream through all the channels of circulation. Now what is the operation of the Fills? They cleanse the bowels, regulate the liver, bring the relaxed or irritated stomach into a natural condition, and acting through the secretive organs upon the blood itself, change the state jof the system from sickness to health, by exercising a simultaneous and wholesome effect upon all its parts and functions.

Complaints of Females.

The functional irregularities peculiar to the weaker sex, are invariably corrected without pain or inconvenience by the

invariably corrected without pain or inconvenience use of Holloway's Pills. They are the safest and sur-dicine for all diseases incidental to females of all ages. Bilious Affections.

Bilious Affections.

All young children should have administered to them, from time to time, a few doses of these Pills, which will purify their blood, and enable them to pass safely through the fill-ferent disorders incidental to children, such as measles, hosping-cough, cowpock, and other infantile diseases. These Pills are so harmless in their nature as not to injure the most delicate constitution, and are therefore more peculiarly adapted as a corrective of the humors affecting them.

Dropsy.

Hundreds are cured yearly by the use of these Pills conjointly with the Ointment, which should be rubbed very bountifully into the parts affected.

Derangement of the Kidneys.

The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid so necessary for digestion, the Fills operate specifically infallibly rectifying its irregularities, and effectually curing jaundice, bilious remittants, and all the varieties of disease generated by an unnatural condition of that organ.

Holloway's Pills are the best remedy known for the following disease:
