NEWS ABOUT HOME.

TOWN TOPICS.

Girls, Widows, And Matrons, By hundreds, Went to Wednesday's wedding.
Huron Presbytery will meet in Goderich during the second week of July.
Rev. Mr. Thompson, of Brucefield, has been in poor health during the past few weeks.
The small boy now delights to run around barefooted, although it is not his sole delight.
BASE FISHING.—Knights of the rod and line are now hauling up bass from the breakwater.
WON A PRIZE.—Mr. Joseph Williams, of Goderich, got a \$15 prize picture from the Ontario Society of Artists at the recent drawing.

A Treat for the Show-Gobs.

Messrs. Pullman & Hamilton, who will be favorably remembered by the public, have associated themselves with Mr. Dan. Shelby, of Buffalo, a gentleman of large means and extended experience, enabling them to largely increase their establishment, which will hereafter be known as Shelby, Pullman & Hamilton's Great United Mastodon Shows.
They have secured a very large collection of rare wild beasts, birds, elephants, etc., a museum of 20,000 curiosities, a circus company of the best performers, besides other attractions of which the public will be more fully informed hereafter when the great show comes.
It will travel entirely by rail, and will lose nothing by comparison with the largest and best shows on the road. It may be expected at an early date, and will undoubtedly merit and receive a large patronage. We advise our readers not to miss the opportunity thus afforded of one day's pleasant recreation, especially as this will be the only show that will visit our town this season. And the ladies; by all means, should see the afternoon performance, and take all the little folks to see the wonders, to them it will be a treat—one not to be forgotten.

HYMEN'S BONDS.

The joining in wedlock of Mr. Edmund A. Boice and Miss Belle Williams.
On Wednesday morning last quite a flutter was caused in town by the marriage of Mr. Edmund A. Boice, of Louisville, Kentucky, and Belle, second daughter of Rev. Dr. Williams, of the North Street Methodist Church, Goderich. It had been known for some time past that the wedding was on the tapis, and among the fairer portion of the community there was consequent anticipation. It was understood that the event would take place at 10 a. m., but long before that hour hundreds of the fair descendants of Eve were tempted to bend their steps toward North Street Church, where the ceremony was to take place. At the church the gathering was large, but here as is usually the case, the scarcity of males was the distinguishing feature. Punctually at 10 o'clock the organ pealed forth Mendelssohn's "Wedding March," as the bridal party passed up the aisle to the head of the church, and took their places. The fair bride was the cynosure of all eyes, and looked as many of the lady spectators laconically remarked, "Lovely." She was arrayed in a beautiful light tinted silk, with the usual bridal veil, and orange blossoms. The bridesmaids were Miss Allworth, of St. Thomas, and Miss Carrie Williams, sister of the bride, and they were tastefully dressed in pale blue satin and cashmere and satin toques. Mr. George Williams, of St. Thomas, brother of the bride, and Dr. Boice, of Detroit, brother of the bridegroom officiated as groomsmen. The ceremony was performed by Rev. Dr. G. Sutherland, B. D., L. L. B., of Clinton, assisted by Rev. J. E. Williams, pastor of the Alexander Street Church, Rochester, N. Y., brother of the bride, and Rev. Dr. Williams, the father of the bride, pronounced the blessing and benediction. The church was beautifully decorated with chivalric flowers on the occasion.

Marine News.

The first boats to reach Chicago this season from the lower lakes, were the propeller Anna Smith, Capt. John T. Hutton with the schooners R. Doud and Columbian, of the Parker fleet, coal laden from Ashabula. They arrived in Chicago at noon Sunday, May 8th.
The big schooner David Dows is likely to prove a "white elephant" to her owners. She was built to carry 140,000 bushels of grain, and loaded 80,000 bushels of wheat out of Toledo harbor last Friday morning, but finally stuck on the shoals abreast of Turtle Island light and was one foot out of water. If she was intended to carry a full cargo from Chicago to Buffalo she could never pass the Lime Kiln crossing without being lightened.

Manufactories.

Str.—Among the many industries that might be carried on in Goderich is that of the manufacture of lumber. There are two very good situations in the town suitable for the purpose—the one on Hawley's flats, and the other at Astrill's Point. The most profitable saw mill is said to be that of fifteen millions capacity. It would require about \$100,000 to establish such a saw mill—say, about \$40,000 for mill, saw works and other necessary plant for carrying on the business, and the balance for the purchase of first year stock and timber limits. The stock can be got out at present prices at the following cost:—
Standing timber..... \$1.50 pr. M.
Crown Land dues..... 75
Getting out logs..... 2.25
Booming, rafting, etc..... 2.75
Interest..... 80
Incidentals..... 1.00
Sawing, planing and shipping..... 1.00
Total..... \$10.50
A fair lot of logs would run as follows, and at present prices would realize:—
210 p. c. clear and pickings at \$28..... \$2.80
35 " dressing at \$15..... 5.25
45 " culm at \$10..... 4.75
10 " culm at \$7..... 0.70
Total..... \$13.47
This shows a profit of nearly 30 per cent. Then we have not taken into consideration the "manufacture" of salt, staves and headings from the refuse of the mill; also the exhaust steam. It is claimed that a mill of this size would supply fuel to manufacture about three hundred and fifty barrels of salt per day, besides furnishing a large quantity of material for staves and headings. It might be claimed, by some, that there was a great risk in towing the logs, but I can refer to the large mills at Clevedon, Toledo, Erie, Buffalo and Tonawanda, which have been in operation for the past fifteen years, and have towed their logs from the west shore of Lake Michigan through Lake Huron, the river and Lake Erie, and they contend their mode is as successful as freighting lumber by vessel. I suppose the question of capital would stand in the way of any private parties going into a large undertaking of this kind, but it might be done by forming a joint stock company, and I think if some of our leading citizens would take hold of it and give it a start, they would find plenty of capital in Ontario to take all the stock given employment to from one hundred and fifty to two hundred men and as the manufacture of lumber and salt means labor for the workmen and artisans of the town, every one interested in the prosperity of Goderich, would be benefited thereby. It would take about 3,500 or 4,000 car loads to carry the products of this one mill to market, which would be a great inducement to other railroads to come to Goderich; and once such an institution became a fixed fact, the tendency would be for other manufactures to spring up.
I have just thrown these ideas out for the purpose of having some of our enterprising business men consider the matter and investigate the subject.
Yours truly,
L. H. HARRIS.

Dentistry.

M. NICHOLSON, SURGEON DENTIST. Office, residence, West Street, three doors below Bank of Montreal, Goderich 1752.

The People's Column.

FOR SALE—A COMPLETE SET of Blacksmith tools, in good order, will be sold cheap for cash. For particulars apply to MRS. NOLAN, Goderich. 1784-5.

TO RENT—A COMFORTABLE house on South Street, containing 8 rooms, kitchen and pantry, with soft water, good garden. Apply to GEORGE McMAHON. 1784-5.

TO RENT—A STONE HOUSE near to the station, with 7 acres of land, orchard and a quantity of small fruit, in good state and also soft water. Will be rented cheap. Apply to WM. DICKSON, 404-5.

TO LET—AFTER THE 28th MAY, the house on Stanley St., at present occupied by James McIntosh, Esq., Apply to Mrs. SKIMMING, Esq., 1784-5.

MISS WESTON, PRACTICAL Dress and Mantle maker, would intimate to the ladies of Goderich that she has begun the business of dress making, next to Smith's planing mill. All work done in the newest and most fashionable styles. Apply for Cornwell's patterns. 1780-2m.

WANTED—AN EXPERIENCED Get to do an acre of land, well work in the home of the United States Consulate. Family consists only of the Consul and wife. Good wages will be given. For particulars apply to JOHN HIBBARD. 1781.

GODERICH HIGH SCHOOL—THE next Entrance Examination will be held on Thursday and Friday, the 24th and 25th inst. Candidates must notify the Town Inspector, or the Head Master, not later than the 14th of June. For particulars apply to H. I. STRANG, B. A., Head Master. 1782-3.

Real Estate.

FARM FOR SALE—LOT NO. 1, con. S. W. D. Township of Ashfield, containing 107 acres, 70 of which are cleared, free of stumps, a good frame barn, 2000 and 2000, a nice young orchard, the property is in first class land, within a mile and a half of Gravel Road, and in consequence most easy terms. For particulars apply to H. R. ADCLIFFE, Real Estate and Insurance agent, Goderich. Also several bush lots in same Township. 1785-4f.

FOR SALE—LOT 9, LAKE SHORE Twp. of Colborne, containing 12 acres, 20 acre cleared, balance in timber, soil a good clay loam. As this property adjoins the Point Farm it is in consequence most slightly situated. For particulars apply to J. J. Wright. 1778-4f.

HOUSE AND LOT FOR SALE—AT Dunganon, 12 miles from Goderich, consisting of 1 acre of land, well enclosed, a frame house, a good well and pump are also on the premises. The lot has been well improved. Terms very easy. For particulars apply to Mr. J. M. ROGERS, Merchant, Dunganon, or R. E. BROWN, Notary P. O. 1767-4f.

HOUSE, AND LOTS NOS. 33 AND 35, corner of Front and St. James streets, in the town of Goderich, for sale cheap, or will be exchanged for farm property. For particulars apply to A. S. STEWART, office of Crabb's Store, or J. C. CURRIE, auctioneer.

SHEPPARDTON—FARM FOR sale 60 acres, 50 acres cleared and well fenced. Brick Cottage 25x30, stone cellar full size of house. A large creek runs through the lot, no waste land on the creek. A very fine orchard surrounds the house. Good barn and other buildings. Terms very easy. Apply to L. H. HARRIS, lot 9, Lake Shore Road, Colborne Township, or to GARROW & PROUDFOOT. 1792.

FARM FOR SALE—BEING LOT 9, con. 13, Colborne, about six miles from Goderich, comprising 50 acres, 30 cleared, a frame house, and a new frame barn 50x35, and a stable and other outbuildings are on the premises. A young orchard, good pump, etc. on the farm. The farm has a road on two sides of it. Four acres fall wheat are sown. Distance only 1 mile from a post office. For particulars apply to Wm. SHIELDS, Sheppardton P. O. 1777.

SHEPPARDTON—STORE WITH Post Office, for sale, with 1 acre of land. Stock all fresh and good. Will sell on very easy terms, having other business to attend to. For further particulars apply to R. T. HAYNES. Also 100 acres of land, West half of Lot 5, on the 3rd con. E. D. Ashfield, Good Orchard, Frame House, and a stable. Fifty acres cleared and well fenced. Apply to GARROW & PROUDFOOT. 1792.

VALUABLE FARM FOR SALE. Lot 6, Con. 8, Township of Colborne, Co. Huron, containing 98 acres 75 of which are cleared and in a good state of cultivation. There is a frame House 20x25 with cellar under the whole, kitchen 16x20, wood shed 16x25, stable 18x25, for horses, also cow stable 18x12. There is a well with a never failing spring, and a good young orchard with about 40 trees, selected. Terms easy. For particulars apply to THOMAS WATSON, proprietor, Carleton Place, GARROW & PROUDFOOT, Goderich. 1790.

THE DOMINION ODDFELLOWS, published at Napanee, is the newest fraternity organ. It is excellently got up, and is likely to be successful.
PATER NOSTER ROW.—North street has three churches upon it, and a factionous correspondent suggests that it henceforth be called Pater Noster Row.
THE CATCH.—The catch of salmon trout during the week was fair, a boat bringing in about eighteen owt. on Wednesday evening. Whitefish are very scarce.
Geo. Rhynas, the druggist in Blake's Block, has introduced a new feature into his business by placing a night bell on the front door. This will prove an accommodation to the public.
THANKS.—Our thanks are tendered to Mrs. A. Boice, nee Miss Belle Williams, for a piece of wedding cake. It was excellently made, and the kindness of the fair bride was appreciated by the editors.
CAMP MEETING.—A camp meeting will be held in Ashfield about the third week in June, in connection with the Methodist Church of Canada, which will be superintended by Rev. Dr. Williams, Chairman of the District.

GODERICH ROWING CLUB.—At the adjourned meeting of the Goderich Rowing Club, the following officers were elected: Hon. President, H. K. Attrill, Esq.; Hon. Vice-President, Sheriff Gibbons; President, H. E. Johnston; Vice-President, Jas. M. Sheppard; Sec. Treas., A. S. McGaw; Captain, W. Gooding; Executive Committee, with the officers, R. S. Williams and Geo. Cox; Regatta Committee, F. W. Johnston, Jas. Mitchell and D. McDonald. The Executive Committee are empowered to canvass for subscriptions for the maintenance of the club.

HIGHLY COLORED.—One day last week a young man called at Sallows' photograph gallery to have his picture taken, and previous to undergoing the ordeal, wished to "spruce up." Going into the wrong dressing room, he found what he considered to be a solution for the hair, in a bottle on the table, and immediately proceeded to apply the contents. The bottle however, and after minute service, to startle at the Indian City on the 24th of May. Prizes to the extent of \$500 are offered in the various games, and some of the best athletes in Canada and America are likely to take part.

TO WHOM IT MAY CONCERN.—A number of papers are inserting the following advertisement without charge. It applies to Goderich as well as other places. "Wanted—About 70 young men, of all shapes and sizes, from the tall graceful dandy with the base ball moustache, (nine on a side) down to the little humpbacked, carrotty-headed, weazel-eyed upstart. The object is to form a gaping corps to be in attendance at the street corners each Sunday during the ensuing summer before and after divine service, to stare at the females as they pass, and to make delicate and gentlemanly remarks on their person and dress. All who wish to enlist in the above corps will appear at the various street corners next Sunday, both morning and evening when they will be duly inspected and their names, personal appearance and quantity of brains, registered in a book, which will be published and to be published. To prevent a general rush, it will be as well to state that none will be enlisted possessing intellectual capacity superior to that of a well-bred donkey."

Queen's Birthday Notes.
Ice cream.
Hip, Hip, Hurrah!
Railway trip at single fare.
The fire-cracker nuisance will not be abated.
Queen Victoria will be 63 years old on Tuesday.
A ball and supper will be held at the Point Farm.
The volunteer company have had several parades recently, in anticipation of the 24th. On that day they will meet and fire the usual feu de joie.
Doubtless a number of our townpeople will attend the picnic at the Matland Falls, under the auspices of Ben Miller Band. Swinging, croquet and a variety of other popular games will be indulged in.
There will be an entertainment on the evening of the Queen's Birthday in the North Street Methodist Church in the interests of the Sunday School. Mrs. Ross, of Montreal, has kindly consented to allow her name to be placed on the programme.

LI-QUOR TEA.—Mr. Geo. Rhynas, the druggist, has accepted the agency of the Li-Quor Tea Co., of London, Eng. The tea is put up in half pound packages, which are given every person who purchases 3 lbs. It is not necessary to buy more than half a pound at the time. Here is an excellent opportunity to drink good tea, and improve the intellectual powers.

WAR IN EUROPE.—The outlook in Europe is not very encouraging to our business. But the large amount of business done at R. B. Smith's during the last few weeks is sufficient to prove that it is the large stock and the low prices, which draws the trade. Received this week, new carpets, dress goods, dress muslins, parasols, &c.
LIGHTNING RODS.—P. S. will always get the best. The Ontario Copper Lightning Rod Co., make the best, and give a ten years policy to its patrons. Be wise and be safe. Wm. Kitt, Clinton, Ont. 1787-4f.

Sale Register.
27 Acres of land, being the site of the present site of the Goderich Hotel, situated on the east side of the town, will be sold on Saturday, May 21st. Sale of 50 acres of land, Lot 26, 7th con., of the Township of Huron, in the County of Kent, under the authority of the Auctioneer, Garrow and Proudfoot, Auctioneers, Goderich, J. C. Currie, Auctioneer, Seager and Morton, Vendors' Solicitors.
Saturday, May 21st—Auction Sale of desirable Building Lot on West Street, Goderich, J. C. Currie, Auctioneer, Seager and Morton, Vendors' Solicitors.

He should van his spurs.
The Queen must have pressed to honor the late Lord Beaconsfield if he be true, as reported, that she desires to confer a peerage on young Coningsby Disraeli. The late earl could not complain that he was neglected in his lifetime. He won more prizes than usually fall to the lot of English statesmen, ascending by degrees from the bottom to the top of the ladder, getting a postage for his wife in her own right, an sardonic for himself, and enjoying the rare pleasure of calling the Queen his personal friend. What more could an English statesman desire? or what greater honors could his sovereign wish in reason to bestow? If young Coningsby has in him the stuff of which his uncle was made he can earn a peerage for himself, and doubtless that is the view Gladstone makes of this subject. (Toronto World, 1881, 5/23, 24.)

Goldwin Smith and Beaconsfield.
We believe that Mr. Goldwin Smith was interviewed on the subject of Lord Beaconsfield, and asked if he intended having an article in the *Illustrated* stirring up the career of the late statesman. His reply was that he had fought Beaconsfield all his life as hard as he could, sincerely believing that he was an enemy of the people; but for that very reason he would not stir up the subject. (Telegram.)

It should van his spurs.

The late earl could not complain that he was neglected in his lifetime. He won more prizes than usually fall to the lot of English statesmen, ascending by degrees from the bottom to the top of the ladder, getting a postage for his wife in her own right, an sardonic for himself, and enjoying the rare pleasure of calling the Queen his personal friend. What more could an English statesman desire? or what greater honors could his sovereign wish in reason to bestow? If young Coningsby has in him the stuff of which his uncle was made he can earn a peerage for himself, and doubtless that is the view Gladstone makes of this subject. (Toronto World, 1881, 5/23, 24.)

It should van his spurs.
The Queen must have pressed to honor the late Lord Beaconsfield if he be true, as reported, that she desires to confer a peerage on young Coningsby Disraeli. The late earl could not complain that he was neglected in his lifetime. He won more prizes than usually fall to the lot of English statesmen, ascending by degrees from the bottom to the top of the ladder, getting a postage for his wife in her own right, an sardonic for himself, and enjoying the rare pleasure of calling the Queen his personal friend. What more could an English statesman desire? or what greater honors could his sovereign wish in reason to bestow? If young Coningsby has in him the stuff of which his uncle was made he can earn a peerage for himself, and doubtless that is the view Gladstone makes of this subject. (Toronto World, 1881, 5/23, 24.)

HORTICULTURAL SOCIETY.

Information in regard to Bedding Plants.

The Stratford Beacon of last week in its report of the Stratford Horticultural Society meeting, had the following on BEDDING PLANTS.

Verbenas.—If I were confined to a single class of plants for summer decoration out of doors, the verbenas would be my choice, for in it we have a greater range of color than in any other plant, with the exception, perhaps, of the geranium. In addition to this it is a plant of trailing habit that is seldom injured by heavy rains or strong winds, and one of the most floriferous of the floral kingdom. It begins to bloom when only a few inches high, and never ceases until destroyed by frost. Most people err in not putting this plant out before they do, as it will stand quite a sharp frost uninjured, and by getting the benefit of the cooler days and nights in the latter part of May the roots take hold of the soil, thus enabling it to better withstand the scorching sun during the early part of June. It is also necessary, in order to have a continuation of good bloom throughout the summer, that the verbenas, in common with all other plants, should have fresh and rich soil. It is not particular whether it is of a clayey or sandy nature, providing it is fresh and well drained.

Geraniums.—The geranium is justly entitled to be called the queen of flowers, for no plant can compare with it for general utility. It is one of the few plants that can be made to bloom the entire year. It is useful alike for the window, the conservatory or the flower garden. When bedded out, young plants that are not root-bound are much preferable to those that have done service in the window or greenhouse during the winter, as it is too much to expect a plant that has bloomed all winter to continue to bloom freely during the summer. The treatment recommended for the verbenas will also apply to the geranium, both in regard to soil and early planting. As soon as the trusses of bloom begin to decay they should be cut off, for one truss only, if allowed to seed, is said to tax the recuperative powers of a plant as much as half a dozen trusses of bloom will do. A plant as usually grown in a 2 1/2 or 3-inch pot for bedding purposes is apt to become root-bound. If the same sized plant were grown in a 4-inch pot it would give better satisfaction when bedded out, as the roots would then be in good working order, in which state they would be kindly to the change by throwing out new roots at once. Nor is this all to be gained by having the roots in good working order, for if you transplant a plant that is pot-bound into the open ground, the matted ball of earth and roots will generally resist all the water you can give it, thus leaving the plant to perish for want of sufficient moisture. This, combined with the fact that most amateur gardeners defer planting out their geraniums until they consider all danger of frost to be over, is in my opinion the chief cause of this plant not doing as well as it otherwise would if planted out from the 20th of the 24th of May, for after this date there is not likely to be frost sufficiently hard to materially injure the geranium. As a proof of this I would say that I have this winter had eight degrees of frost in my geranium house, but saved them all by a copious drenching of cold water. I cannot leave this plant without referring to some of the variegated-leaved varieties. Notable among these are the bronze and silver-leaved, the former being one of the most attractive plants we have, while the latter is equally useful to contrast with dark-leaved coleus, &c.

The pansy is another fine bedding plant in shaded situations. It is so well known that it needs neither description nor praise. What it wants is a good soil, with a northern exposure and plenty of water. It will then prove its gratitude by giving an abundance of flowers of double the size it would under ordinary treatment. Although a hardy plant, it is desirable that young plants should be set out as soon as the weather will permit, in preference to the old roots, as they will produce much superior flowers.

The heliotrope is one of those delightful plants that no one can afford to do without, on account of the delicacy and sweetness of its flowers. It is somewhat tender, therefore should not be planted out as easily as verbenas or geraniums. Annuals.—The Phlox Drummondii is without doubt the most beautiful and useful annual in cultivation—beautiful because of its long continuance in bloom and durability of the cut flowers in water. The flowers are white, crimson, scarlet, lilac, violet, etc., with a distinct eye of some other color. If planted in masses they have a much finer appearance than if mixed with other plants. It is not necessary to dwell on the merits of many of our annuals. There are many others well worthy of attention which will bloom at least two or three months during the summer and fall—notably, single petunias, balsams, stocks,

asters, salpiglossis and zinnias, the three last being autumnal flowering.

Sub-Tropical Gardening.—Of late years a great deal of attention has been paid to this style of decorating lawns, and it is justly gaining favor among people of taste and refinement. Instead of being dependent on the quantity of bloom produced, plants of a very different character are brought into use, such as the tanyah or caladium esculentum, cannas, bronze and silver-leaved geraniums, coleus, centaureas althamtherias, &c, all of which are grown for the beauty of their foliage. A circular bed of about 16 feet in diameter, arranged with the following plants has a rich and tropical appearance from the time they are set out until killed by frost: For the outside row centaurea candidissima, a silvery-leaved plant of compact habit and a foot high, backed by two rows of dark leaved coleus, height, 1 1/2 ft. At the back of these put a row of caladium esculentum, which, with its large dark green drooping leaves makes a fine contrast with the dark-leaved coleus; then fill up the centre with cannas, which will grow from four to seven feet high, thus forming a gradual slope from the centre to the outside edge. With the exception of the cannas, these plants should not be allowed to bloom. There are many varieties of plants not here mentioned well worthy of attention, but it would be useless to attempt to name them all, the foregoing being the most suitable for general bedding purposes.

Mr. Gough and the Oxford Boy.

John B. Gough, in the course of his lecturing life, has found himself in some tight places, but his wit has never failed to bring him out safely.

An amusing story is told of him when he went to Oxford, England, to address the students on temperance. The students sent word to Mr. Gough that they "would not have temperance," and advised him not to persist in lecturing, but he went to the hall. For twenty minutes he spoke in pantomime amid the deafening cat calls of the boys.

Finally he stepped forward, demanded British fair play, and offered to whip every one of the five hundred students singly. This offer was loudly cheered, and promptly accepted, and a big six foot athlete was sent up on the stage. Gough, who is a little man, backed off as the big fellow approached him, and explained.

"My friends, you evidently misunderstand me. This is to be an intellectual contest, not a prize-fight."

The students cheered again at this evidence of American shrewdness, and ordered the debate to proceed. The college lad was, therefore, obliged to discuss with the temperance champion. He was at a disadvantage, but he quoted Scripture, and reminded the plucky lecturer that it was one of the Apostles who wrote to Timothy—a young man, too, like themselves—to take a little wine for the stomach's sake, and for his other infirmities. The lads shouted vociferously at this.

Gough slowly examined the six-footer from top to toe, and then said, "My friends, look at this athlete, this fellow with muscles like steel, who can wield the club of Hercules, who can bend an English yeoman's bow, who could knock down an ox with a blow of a hammer. He is the personification of health and strength, but he thinks he needs a little wine for his stomach's sake!"

Gough's inimitable manner of saying this had a tremendous effect. The students fairly yelled with delight, and their defeated champion retreated.

Another was sent up. He was the intellectual giant of his class, in contradistinction to the six-footer. He, with much self-confidence, made a finished argument for liquor drinking, based on Christ's changing the water into wine at the wedding feast. His comrades cheered him to the echo, and thought his argument unanswerable, and Gough was chaffed for his defeat.

"Young men," said he solemnly, "I admit that your champion has forestalled me. He has said to me just what I came here to charge you to do—Drink all the wine you can find that is made entirely out of water."

Queer Mania.

We are now in the midst of the season in which the female portion of the community ties a towel about its head and proceeds to lay violent hands on the carpets. House-cleaning is an annual mania to which all females are subject about this time of the year. So far, all attempts of the most distinguished medical authorities of the age to account for the annual appearance of the disease, to diagnose its peculiar features, or to recognize its premonitory symptoms, have been in vain. The first indication that the attack has seized its victim is the tying up of the head with a towel, which is probably done through intention.—This may be taken as presumptive proof that the disease in some way affects the brain and that nature wisely impels the victim to take precautionary measures for the protection of the seat of reason. A curious phase of the suddenness with which the disease comes on is that discreet and well-disposed women, to all appearance possessing well-balanced minds, and looked upon as models of propriety, have retired to bed at night without a thought of guile, have seem-

ingly slept the sleep of the just, and have deliberately got up in the morning and proceeded to destroy the happiness of the family and shatter the peace of the domestic hearth by beginning to whitewash. How many men are there to-day who could go into the witness box and deny that they have gone home to dinner and found their wives, daughters and servant girls wrestling with the furniture and carrying on in the wildest and most hilarious manner as the result of an attack of the house-cleaning mania? We venture to say that if the truth were known the asylums are filled with females who have fallen victims to this fell disease, either through not having a properly balanced mind or through neglecting to tie a towel round their heads; while we are assured by a retired temperance lecturer that more men have been driven from their homes and forced to drown their sorrow in the flowing bowl because of the misery produced by house-cleaning than from any other cause. There is perhaps no more melancholy object on earth, or one more calculated to excite the compassion of all good men, than the spectacle of a confirmed house-cleaning sufferer from an acute attack of the house-cleaning mania. At these times the whole atmosphere of the house in which the disturbance is being created seems to be filled with tuck-hammers, washstands, lamp chimneys, brooms, whitewash brushes, pails, stove pipes, old boots, soap, scrubbing brushes, cold meat, chairs, plug hats, step ladders, and a couple of strange females.—(Toronto Telegram.)

A Paper that Pleased Everybody.

There is one editor who has achieved the feat of running a newspaper to suit everybody. Occasionally, to be sure, he has complaints, but he never fails to satisfy the complainers that they are in the wrong. It wasn't always so with him. He only adopted the system after he got desperate. It was one day after he received some complaints, that he tried it. A man came in and said: "Why didn't you print the whole of the proceedings of the Society for the prevention of Cruelty to Hogs, instead of a brief abstract?" The editor replied: "Oh, you made a speech that wasn't in the report, eh?" Then he went around the counter. The dust flew for a few moments and then it became more quiet. The editor relaxed his grip on the man's throat sufficiently to let him speak, and he said that he guessed that the article was all right, and he had only come to renew his subscription. He was let up, and paid the money, and left, and as he went out he collided with a man who had an ugly glare in his eyes, and dancing up to the editor said: "What d'ye mean, sir? I pay for a sensible newspaper and get a lot of stuff about cruelty to hogs. You ought to be put in jail for printing such a report." The editor went around the counter again, and again the dust flew. It was fully five minutes before the editor could get the man's coat torn off and put him on the floor with his head in the coal scuttle. But he did it, at last. The man said: "We needn't prolong this agony. Your paper is the best in the world. It is all right. I'll take it for ten years in advance." Eight more visitors had the same experience. Then came one that the editor couldn't thrash. It was a woman: "What d'ye mean by publishing fashion articles from a three-year-old magazine?" she asked. "I made a bonnet according to your directions and its three years behind the style. Oh, you wretch! You mean, horrid, insignificant—oh-h!" "My dear madam you are right. I am not fit to run a paper. I'll stop at once," said a reporter. "John, don't send up any more copy. Kill that article saying that this lady was belle of the ball last night." "Stop she cried. "Your paper is the household treasure. I don't care about the bonnet, and came to ask you to our house to tea to-night." The editor says he wouldn't drop the rule for anything. Everybody leaves satisfied with his paper.

A New York patent medicament

advertises an "Elixir of Youth," one bottle of which will prevent a person's ever growing older. Dare say. One dose kills a dog.

Yellow Oil is the most deservedly popular

remedy in the market for Rheumatism, Neuralgia, Sprains, Bruises, Frost Bites, Sore Throat, Lame Back, Contractions of the Muscles, Croup, Quinsey, and every variety of Pain, Lameness, or Inflammation. For internal or external use. Yellow Oil will never fail you. Sold by all dealers in medicine.

It acts upon the Liver, the Kidneys and the Bowels, curing all manner of Bilious complaints, Kidney complaints and diseases of the Blood. Ask your Druggist for Burdock Blood Bitters. Sample bottles 10 cents, regular size \$1.00.

Newspaper Laws.

We call the special attention of post-masters and subscribers to the following synopsis of the newspaper laws:

- 1. A postmaster is required to give notice by letter (returning a paper does not answer the law) when a subscriber does not take his paper out of the office, and state the reasons for its not being taken. Any neglect to do so makes the postmaster responsible to the publishers for payment.
2. If any person orders his paper discontinued, he must pay all arrearsages, or the publisher may continue to send it until payment is made, and collect the whole amount, whether it be taken from the office or not. There can be no legal discontinuance until the payment is made.
3. Any person who takes a paper from the post-office, whether directed to his name or another, or whether he has subscribed or not, is responsible for the pay.
4. If a subscriber orders his paper to be stopped at a certain time, and the publisher continues to send, the subscriber is bound to pay for it if he takes it out of the post-office. This proceeds upon the ground that a man must pay for what he uses.
5. The courts have decided that refusing to take a newspaper and periodicals from the post-office, or removing and leaving them uncollected for, is prima facie evidence of intentional fraud.

FLOWERS AND PLANTS.

ALEX. WATSON

Florist, South street, wishes to inform the people of Goderich and vicinity, that he has on hand a splendid assortment of BEAUTIFUL FLOWERING PLANTS of almost every variety, and also a choice collection of BEDDING PLANTS, AND SHRUBS, and all kinds of VEGETABLE PLANTS in their season. The public are cordially invited to examine the stock. Remember that the earliest purchasers have the best choice. ALEX. WATSON, South St.

P. S.—Also for sale, a heating apparatus, suitable for amateurs, consisting of boiler, four-inch pipes, and expansion tank. 178.

MRS. WARNOCK

begs to remind her numerous customers, in and around Goderich that she has opened out her new stock on HAMILTON STREET, OPPOSITE THE COLBORNE HOTEL

and solicits a continuance of their patronage, as she can with confidence recommend her goods as being first class in every particular. The aid of MISS CAMERON, an accomplished milliner, has been secured as assistant.

A CALL IS RESPECTFULLY INVITED. Wanted immediately, a number of apprentices to learn millinery. Hamilton Street, next door to W. Mitchell's Grocery. 178.

W. S. Hart & Co.

PROPRIETORS OF THE Goderich Mills (LATE PIPER'S.)

Reg to return their thanks to the public for the liberal patronage received during the past year, and to state they are prepared to do

GRISTING

on the shortest notice, or for the convenience of parties living at a distance will exchange grists at their town store

(Late W. M. Hilliard's.) Masonic block, East St. Goderich. Highest price paid for wheat. 178.

THE UNDERSIGNED HAVING DECIDED TO RETIRE FROM THE Grocery Business,

will on Monday next commence to sell AT AND BELOW COST his entire stock of CHINA, GLASSWARE, GROCERIES, SHOP FURNITURE, &c.

TERMS CASH

H. COOK.

Goderich, 27th A. rd. 1881. 178.

NOTICE

Giving up Photographing in Goderich.

In returning thanks for past favors, would just say, those wishing a benefit will please notice former prices and present:

will be done on SHORTEST NOTICE. J.G. BALL.

THE HURON SIGNAL

Is published every Friday Morning, by Mc GILLICUDDY BROS., at their Office, North St., off the Square.

GODERICH, ONTARIO.

And is despatched to all parts of the surrounding country by the earliest mail and trains.

By general admission it has a large circulation throughout the Province.

TERMS.—\$1.50 in advance, postage prepaid by publishers; \$1.75 if paid before six months; \$2.50 if not so paid. This rule will be strictly enforced.

RATES OF ADVERTISING.—Eight cents per line for first insertion; three cents per line for each subsequent insertion. Yearly, half-yearly and quarterly contracts at reduced rates.

JOB PRINTING.—We have also a first-class jobbing department in connection, and possessing the most complete out-fit and best facilities for turning out work in Goderich, are prepared to do business in that line at prices that cannot be beaten, and of a quality that cannot be surpassed.—Terms Cash.

FRIDAY, MAY 20, 1881.

THE HIGH BOARD FENCE.

Last week arrangements were made by a circus company to give an exhibition in Goderich. The advance agent went to the authorities and took out a license for the performance, paying a stipulated price—\$30, we understand. The agent, who knew his business, claimed the privilege of putting up a high board fence on the west side of the Square, without additional charge, and the authorities, who evidently did not know their business, allowed the claim. It will be remembered that last year our townsman Captain Cox was severely injured by the falling of a circus bill board, for which the town was forced to pay the doctor's bill, amounting to a snug figure. Well, when it became known that a "heads up I win, tails up you lose" bargain had been made by the circus advance agent, considerable feeling was manifested against the town guardians, and when a high board fence screened off the view of the Court House square from the principal business part of the town, the wrath of the townsfolk waxed hot. Some time between sundown on Saturday, and sunrise on Sunday, a few of the jokers of the town got together and decorated the bill-boards with manifestations of public opinion on current events. Ye gods and little fishes! what an arraignment of the Town Fathers, et al. From end to end of the high board fence bore evidence of concentrated thought and labor, and the result was that until Thursday morning the circus board fence exhibited a strong indictment against the gentlemen who had permitted its erection, with a few good-natured comments on some of our best-known local celebrities thrown in, to lend variety to the bill of fare. The event furnished a good deal of amusement to our residents, but there is a danger of running a joke too far, and it is to be hoped the last board fence has been erected on the "Square," with or without the consent of the Town Fathers.

The Toronto Telegram makes a good point when it says: "The English law courts allow a man to affirm instead of taking an oath. If an affirmation is good enough upon which to hang a man, or set him free, it ought to be good enough to allow a member to take his seat in Parliament."

The London Free Press is solicitous about Mr. Blake, and thinks his visit to the Maritime Provinces "a risky venture." It is also afraid that he will make "some awful blunder," to the injury of the Reform party in Ontario. Mr. Blake is not one of the "blundering" kind. He is guided by principle in all his public acts, and no telegrams from Ontario as to the truth of his statements will need to be sent him while making political addresses in the Maritime Provinces. The solicitude of the Free Press is touching, very touching.

The attention of the authorities is called to the fact that at the north end of North St., (one of the finest streets in Goderich, by the way,) there is an accumulation of filth that would give an immoderate reputation to a cess-yard. Tree cuttings, garbage, manure, defunct dogs, fiesel cats, carrion and other abominations to sight and smell are spread around in not pleasing variety, and it almost seems as if that particular locality is looked upon as a dumping heap for the refuse of the town. When we visited the spot, on Monday last, a large hawk was viewing his estate and doubtless cogitating:—

I am monarch of all I survey My right there is none to dispute. The town dumps its off-hand carrion here, And thus I come in for my loot.

Mr. JOHN D. RONALD, the erratic fire engine manufacturer of Brussels, is being airily himself in the Toronto papers, and alleges that he has been badly used by THE SIGNAL. John D. Ronald is the same gentleman who blathered about the benefits of the N. P., when being examined in a Chancery suit brought against him by the village of Brussels, for breach of contract in fulfillment of by-law. John D. got \$20,000 a couple of years ago from Brussels to induce him to locate in that village. This nice little plum has melted away, Brussels has nothing to show for it in the shape of an active industry, and John D. has been driven to the wall. John D. is an ardent believer in the N.

About Long Prayers.

To the Editor of the Signal:—

Sir,—An article appeared in your publication of May 15th, which, if you are not its author, you are I suppose responsible for, asking the question, "Why do ministers make their public prayers so long?" After making this inquiry you asked, "Is it a general grievance?" You stated, also, that "the would-be a skilled craftsman, who would correctly interpret the question, for doubtless there are many reasons." You, however, give some of the "many reasons." But I think they are of such a nature as not to strike the mind of the reader as absolutely correct. For instance you presume that some "preachers" (clergymen) are perhaps the better word) make long prayers because their hearts are so full that they "cannot restrain" themselves. Further on you state that "beautiful" and "hacked" expression, "Long prayers in the closet make short prayers in the church." How does the clergyman get his heart full but by long prayers in the closet? In one sentence, then, you are encouraging that which in another sentence you give as the cause of the defect which you are endeavouring to remedy. But, proceeding further, you say, "I fear do so because they have fallen into the habit. Some pray at length in public so that the sermon may not be too long; and a few, we imagine, make lengthy prayers just to fill up the time of service. Let the reasons be what they may, long prayers in public are not related by either saint or sinner."

It Didn't Work. If the appointment of Mr. Boyd to the Chancery was designed to weaken the law firm of which Mr. E. Blake is a member, and so give him less time for attending to his political duties, the scheme fails by the re-entry of Mr. S. Blake into practice.—Advertiser.

The Storage Scandal.

Miss O'Brien, a daughter of the historical Smith O'Brien, has created a stir with the steamship companies by declaring that the accommodations for steerage passengers are such that comfort is out of the question, and decency is outraged. The charge is accompanied by specific statements as to the arrangements made, and if she is not woefully astray, the companies are very much to blame for treating the emigrants with less delicacy than they would a shipment of cattle. It is only fair to the companies to say that the question remains to a great extent one of variety. An examination, however, would be the proper thing under the circumstances.—Ex.

A Tumour on the Body Politic.

The pretty young Earl of Shelburne, who ran away with another man's wife the other day, is a good type of the young bloods who are privileged with seats in the English House of Lords, because they happen to be the eldest sons of their fathers. The "evil of a hereditary legislative aristocracy is that the title descends to their posterity, without the talents and the utility that procured it. The most useless, and offensive tumour on the body politic is the titled son of a great man, whose merit has placed him in the peerage. The name, face, and perhaps the pension remain; there may even be a slight flavour from the cask, but it is empty.—[Telegram.

Treating for Business.

The Monetary Times says: Commenting upon the passage of the Scott Act in Lambton County, which closed all the liquor bars on the 2nd May, and the attitude assumed by various hotel keepers in virtually closing their houses and refusing to accommodate travellers, a correspondent, who deems beer and whiskey-drinking a waste of time and money, asks: "Is it necessary for commercial travellers to treat in order to procure an order? I do not think so. I know in our county town (Sarnia) two of the leading merchants, who have been doing business on their own account for 32 and 37 years respectively, and who have paid 100 cents on the dollar all that time. Of each it can be truthfully said, that they never treated or received a treat of liquor in any bar of their adopted town. They are not preachers of teetotalism, but their attitude towards themselves, but on those whom they bought and those to whom they sold."

The British Grain Trade.

LONDON, May 16.—The Mark Lane Express, in its review of the British grain trade the past week, says: Dry, harsh winds have materially reduced the crop prospects. A change, unless it comes shortly, will be too late to save the spring wheat, which begins to look yellow. Altogether the season is among the latest recorded. Trade continues classically dull, and rates since Monday have been slowly declining. There was a better inquiry for red wheats Friday on account of the preponderance of white in foreign imports. The foreign trade is nominal; rates Wednesday unchanged. Friday they declined 1s, but buyers only slightly at present necessities. Although holding a strong position, supplies are much smaller, chiefly from America. The off coast market was solely for American red winter, which was held at 7s 6d per qr., against a most languid inquiry. The floating bulk is still large, but decreasing. Flour everywhere is difficult to sell. As the foreign supply grows, values are declining; foreign was tedious and laborious of sale, and the demand comparatively small. Values are declining; rates: the foreign trade was nominal. Oats were in fair demand, and heavy samples dear; foreign steady but slow at unchanged rates. Maize was drooping; mixed American fell slightly Friday.

A Rash Adviser.

LONDON, May 17.—Michael Brennan, in a speech at Ballyron Sun, declared that a year hence any reformer who proposes to compensate landlords will be laughed off the platform. He characterized the Land Bill as a miserable measure, and advocated a general strike against rent. He said the anti-slavery movement in America commenced by offers of compensation to slave-owners, but slavery was washed away in blood. He said people should make it impossible for landlords to collect rent. He thought the cry recently raised in some parts of Europe of "Land and Liberty" would be found to be the rallying cry of the "rich race the world over. They must not waste time in the discussion of the Land Bill, but make the country better, and make it impossible for landlords assisted by police and soldiers to collect rents. A Dublin correspondent thinks the advocacy of such a programme by Kettle and Brennan indicates that they are commissioned by Parnell to test public opinion to see whether the idea of a general strike against the payment of rent will be accepted.

TEXAS.

Another Letter from Mr. Hugh Johnston.

Canada Ranch, Bosque Co., Texas, May 12th, 1881.

To the Editor of the Huron Signal:—

In my former letter, I had, something to say about this country, its resources of water, woods, crops, resources, &c., and now propose to say something about the kind of sheep best adapted for this country, so far as my experience has led me to believe. The Merinos endure vicissitudes and extremes of weather better than any other sheep, and they will flourish, wherever the soil or horse will flourish, and the English or mutton sheep require too much care and shelter to be successfully raised here just yet; they require the richest and most abundant pasturage, the dry hill sides and long ranges of scanty short herbage would not suit them, their place in the rich moist plain, and, therefore, not so well adapted to our habitual extremes as the hardy Merino; as the sheep adapted to the scanty, dried up or poor hill side pasturage, no English mutton sheep can compare with them. It will not require any formal array of facts from me to show that the profits of sheep husbandry on the prairies must succeed, and that the profits of sheep production far exceeds those of horse, cattle or swine production. He who embarks extensively in sheep husbandry in the older States or Canada, must buy a large amount of comparatively high priced land, clear up, fence, sow, pasture, build for shelter, &c., before he is ready to purchase a flock of sheep to make a beginning. All this requires an outlay of much capital, whereas the prairie sheep farmer can commence operations without buying anything but his sheep. Or if he does not wish to be a pure nomad, he can buy acres for less than the annual income of acres of the ordinary grazing lands of the old States or Canada. His principal capital is a decent knowledge of his business, and enough energy to persevere in it. Thus have started large majorities of the pioneers of sheep farming in this State.

Northern men are generally told that they ought not to commence sheep husbandry on the prairie until they have all the convenient appliances. Of course the sooner he can surround himself with them the better, but he acts wisely in not waiting for them. The object of the sheep man is to get on the edges of the creeks in the valleys where he builds his house, sheds for sheep, and fences for his grain and root fields and pastures of rye, oats and barley for early spring feed for his cows and lambs. When he obtains the banks of the creeks and the clumps of wood land he in effect has the permanent control of the hills and pasturage for many miles in extent. There are immense tracts of land owned by non-residents which lie open and free to the use of all, in some parts around us there is a class of nomadic shepherds, who keep sheep and take no hire, give no stipend, build no hut, inclose no pasture, nor do any thing until they have all the convenient appliances. They generally have served flock owners for a few years, and earned sufficient to invest in enough sheep to commence a flock of their own. They follow their sheep by day over the prairies, herding them in little temporary inclosures at night to protect them from wolves and dogs (wolves I have not seen in my travels yet) in the fall they erect a temporary arrangement for their sheep during the winter, and on the first appearance of spring grass, they resume their wanderings.

Merinos were found to be the sheep required here, as wool is the prevailing commodity, so that breeding for mutton is little pursued, the greatest attainable length, weight of fleece and thickness of wool is the first point to be gained by the shepherd, so as to make it most profitable to shear twice a year. A sheep can be raised as cheaply in Texas as a goose or turkey in Canada, the climate is so genial, that sheep, hardly need a shepherd and multiply with unexampled rapidity. As I have already said, small capital is sufficient for going into the wool business, and this fact makes it more attractive than the cattle business to men of moderate means. Mexican ewes can be bought for 50cts each, in Mexico, and driven across the country but the drive is so far from here, that those who own the ranches and have a fixed place of abode, are content to put up with a dealer lot of ewes. One thousand ewes and Merino bucks constitute a good flock to begin with, if you want to own your own land you can purchase it for a dollar an acre. Shearing costs five cents per head, and as it is the custom to shear twice a year instead of once as in Canada, we have an extra crop of wool. The yield of wool will average about 6 lbs each, and when the breed is improved by the Merino crop it will increase to 7 lbs.

From what I have seen of the returns, the business is a remarkably good one, as far as remuneration is concerned. The fact is, there is no business so easy to manage or that pays so large a profit as the raising of cattle or sheep, and no country where it can be more successfully engaged in. It is much more productive than general farming, the fickleness of the season has but little to do with the general results. A heavy rain or a few days of hot sun, often ruins a field of grain, but the contingencies of weather do not affect a head of cattle or flock of sheep. In summer they are always sleek and handsome; some sleep are subject to the scab which is too well known to need description. The sheep, if properly attended to in time, by dipping and rubbing carbolic ointment; but another drawback is the screw worm, which is the product of a fly that deposits its eggs in raw places on both cattle and sheep. If they are allowed to hatch, the worms penetrate to the vitals and speedily kills them. The remedy is to wash all raw places with carbolic or cresylic ointment.

In southwestern Texas, a comparison of cattle raising and wool growing would show that in proportion to the capital required one industry is about as profitable as the other. The former involves a more active, isolated and adventurous existence than the latter, but both are attractive to young men, who desire to get far away from loafing around the street corners, and hotels of towns and civilization, and lead a free life in the open air, in a climate where

Legal Notices.

There will be offered for sale by public auction at J. C. Currie's Auction Mart, Goderich, on Saturday the 21st day of May, 1881, at 10 o'clock noon the following property, to-wit: Lot No. 14, on West Street, in the Town of Goderich, containing one-quarter of an acre of land more or less, and situated almost immediately opposite the residence of Mr. Geo. H. Parsons. This property is very favorably situated for building purposes on one of the best streets in the Town, and convenient to business. The Vendor, who resides in Great Britain, requires an immediate sale, and he will therefore sell at public auction. Terms and conditions will be made known at time of sale or on application to the undersigned. Title indisputable. For full particulars apply to Messrs. Miller & Cox, Barristers, &c., St. Catharines, or to

SEAGER & MORTON, Barristers &c., Goderich, Ont.

J. C. CURRIE, Auctioneer, Goderich, May 20th 1881.

CHANCERY SALE OF A HOUSE.

And Lot in the village of Salford. Pursuant to a decree and order for sale, made by the Court of Chancery, in a cause of Seymour v. Stearns, there will be sold by public auction, with the approval of Henry MacLennan, Esquire, Master of the Court, at Goderich, in the County of Huron, on Saturday, the 21st day of May, 1881, at 12 o'clock noon, the following property, to-wit: Lot No. 14, in the village of Salford, in the Township of Colborne, containing one-quarter of an acre of land, more or less, on the easterly side of the Gravel road, leading North from Goderich, to bid, and containing four bedrooms, kitchen, parlor, dining room and pantry. There is also upon the said lot a small orchard of about forty five trees chiefly apple and plum and a few peach trees, also a good well and cistern. The property will be sold free from encumbrances.

Terms of Sale.—Twenty-five per cent of the purchase money to be paid down on the day of sale to the Vendor's Solicitors, the balance without interest to be paid into Court in three weeks from the day of sale, when the purchaser shall be entitled to a conveyance and to be let into possession.

In other respects the conditions of sale shall be the standing conditions of sale of the Court of Chancery.

Further particulars may be obtained from the auctioneer or from the Vendor's Solicitors, Goderich.

Dated at Goderich the 5th day of May A. D. 1881.

H. MACDERMOTT, Master of the Court, Goderich.

GARROW & PROUDFOOT, Vendor's Solicitors, 1785-31.

IN CHANCERY.

In Re Sayers, Sayers vs. Kirkpatrick. Pursuant to the order of this Court made in this cause, bearing date the twenty second day of November, A. D. 1880, there will be sold with the approval of John Gustavus Stevenson, Esquire, Master of the Court, at Goderich, in the County of Huron, on Saturday, the 21st day of May, 1881, at 10 o'clock in the forenoon, the following property belonging to the estate of the late Edward V. Sayers, to-wit: 1st. The west half of the north half of lot thirteen in the first concession, south of the Talbot road in the Township of North Cayuga, containing fifty acres more or less.

2nd. The one half interest in the Kirkpatrick & Sayers tract being a part of the County of Huron, including buildings and plant.

3rd. The one eighth interest in the Matlandville St. Well Co.

4th. Paid up stock to the amount of \$400 in the Petroleum Salt Co.

5th. A number of notes, book debts and the Division Court judgments, amounting in the aggregate to \$4627.

6th. A set of plat-form scales now in the storeroom at Cayuga.

The property will be put up in six separate parcels as above.

The purchaser shall at the time of sale pay cash. The parties to the sale, with the exception of the vendor, are to be at liberty to bid. In all other respects the terms and conditions of the sale will be the standing conditions of the Court of Chancery. For further particulars apply to Messrs. Henderson & Snider, Vendor's Solicitors at Goderich, or to Messrs. Seager & Morton at Goderich.

Dated at Cayuga, April 21st, 1881.

(Sd.) J. C. STEVENSON, Master at Cayuga.

COURT OF REVISION.

The Court of Revision for the

The Canadian Pacific Railway Co.

EMIGRATION TO MANITOBA AND THE CANADIAN NORTHWEST.

Sale of Lands.

To encourage the rapid settlement of the Country, the Canadian Pacific Railway Company will be prepared, until further notice, to sell lands required for agricultural purposes at the low price of \$2.00 an acre, payable by instalments, and will further make an allowance by way of rebate from this price of \$1.25 for every acre of such lands brought under cultivation within three to five years following the date of purchase, according to the nature and extent of the other improvements made thereon.

The lands thus offered for sale, will not comprise Mineral, Coal or Wood lands, or tracts for Townsites and Railway purposes.

Contracts at special rates will be made for lands required for cattle raising and other purposes not involving immediate cultivation.

Intending Settlers and their effects, on reaching the Company's Railway, will be forwarded thereon to their place of destination on very liberal terms.

Further particulars will be furnished on application at the Offices of THE CANADIAN PACIFIC RAILWAY COMPANY at Montreal and Winnipeg.

By Order of the Board, CHS. DEINKWATER, Secretary.

NOTICES.

OFFERED FOR SALE... A correspondent has written us, desiring the Township Council to give a grant toward celebrating a 'Harvest Home' during the coming summer.

Colborne.

Mr. G. W. Berry has purchased the stock of the Clendenning estate and removed it to Lucknow. FALL WHEAT.—The fall wheat in this section looks bad, and fears are entertained that a half yield will not result.

Milburn.

The recent rains have freshened up fall wheat and brought out spring grains, and the fields in this neighborhood look like a green carpet. Good Stock.—Mine host of the Exchange has sold a calf of only twelve months old to a Lucknow cattle raiser for the fine sum of \$50.

Garbraid.

Mr. Joseph Morris will be pleased to learn that he is around once more after a severe illness of three weeks' duration. Although pulled down considerably in flesh, he is as buoyant in spirits as ever before.

Lochalah.

A singing class has been organized in this place under the tutorage of Mr. Ward, of Kincardine. There are over sixty pupils in attendance.

Leoburn.

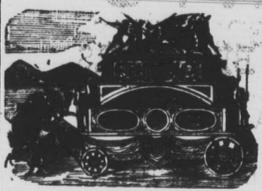

The farmers in this vicinity are now about through seeding, the meadowland looks well, and the fall wheat promises a fair crop; the recent rains having produced rapid growth.

Metecological Report.

Weather report for the week ending May 17th.—Wind at 10 p.m. South, fresh, partly cloudy. Thunder, foggy all day. Number of miles wind travelled in 24 hours 420.

Has Prof. Neil Smith's Dog Circus and Troupe of Canine Comedians.

DISSOLUTION of PARTNERSHIP.

The partnership heretofore existing between EPHRAIM DOWNING and JOHN DOWNING, under the name and title of

E. & J. DOWNING,

Boot and Shoe dealers, Goderich, Ontario, has this day been dissolved by mutual consent. The business will be carried on by

E. DOWNING,

to whom all moneys owed E. & J. DOWNING must be paid, and who will pay all debts contracted by the late firm.

EPHRAIM DOWNING. JOHN DOWNING.

S. MALCOMSON, Witness. Goderich, May 10, 1881.

TO THE PUBLIC.

In thanking the public for the very large patronage bestowed upon the late firm of E. & J. DOWNING, during the past seven years, I respectfully solicit a continuance of that esteemed patronage. It will be my aim always to give satisfaction to all who may deal with me, and to still further increase the excellent business which you have heretofore assisted us in building up.

Yours respectfully EPHRAIM DOWNING.

Corner of East Street, Court House Square, Goderich, Ontario.

The Detroit, Mackinac, and Marquette Railroad Company

NOW OFFER FOR SALE OVER 1,300,000 ACRES

Of the Choicest FARMING and TIMBERED LANDS in the Northern Peninsula of Michigan.

Desired to be the best wheat-producing region in the world. These lands are situated in the counties of Chippewa, Mackinac, Schoolcraft, and Marquette, and embrace many thousands of acres of the best agricultural lands in the State of Michigan.

Among those in the counties of Chippewa and Mackinac are tracts of what are known as the "burnt or cleared" lands. These lands offer many advantages over the prairie lands of the West, as the timber lands adjoining have a supply of fuel at little cost. The soil being a rich clay loam of great depth. The timber remaining upon the land being generally sufficient for the settlers' use in building and fencing.

These partially cleared lands are now offered at the low price of from \$4 to \$4.50 per acre, one-fourth cash, and the remainder at purchasers' option, at any time within nine years, with interest payable annually at seven per cent.

Roads are being opened through these lands, and no better opportunity has ever been offered to men of small means to secure a good farm, and intending purchasers will be wise by availing themselves of this chance before prices advance, as the lands are being rapidly taken and settled upon.

The lands more immediately on the line of the Detroit, Mackinac, and Marquette Railroad from the Straits of Mackinac to Marquette are more heavily timbered, and are almost universally good agricultural lands, leaving splendid farms when the timber is removed.

The iron and lumber interests of the upper peninsula are of such magnitude as to call for all the charcoal and lumber that the timber and wood upon the lands will produce—this will enable the settler to make good wages while clearing the land.

Lumber Mills and Charcoal Kilns will be built at various points along the line, and Furnaces are now being erected along the line of the road at Point St. Ignace.

The great demand and good prices for labor, both in winter and summer, make these lands particularly desirable as homes for the poor man. The lands adjacent the Railroad are offered at prices from \$5 upwards, according to location, value of timber, etc. The lands are at your very door, and are being rapidly settled by Canadians.

For pamphlets, maps and other information, address W. O. STRONG, Land Commissioner, 39 Newberry and McMillan Building, Detroit, Michigan.

Fun and Fancy.

Why are good resolutions like a fainting ladies? They waxy carrying out.

Some men are called muffs because they are used to keep a first hand in.

A husband recently cured his wife of diversills by kissing the servant girl and letting his wife catch him at it.

A critic as a critic: A recent visitor to an art gallery said he preferred the statues to the pictures, because you can see all around the statues, but you can't see only one side of the pictures.

A backwoodsman, on hearing an eastern bishop preach a sermon in a frontier church without a manuscript, said, "He is the first of them fine fellows that I have ever seen who could shoot without a rest."

A boy from the country was recently taken into a gentleman's family. One afternoon, just before dark, after having been called up to the drawing-room, he came down into the kitchen laughing immoderately.

Riding in a railroad car. Husband—"You are quite comfortable dear?" Wife—"Yes, love."

Something New in Entomology.

Last Sunday, as Mr. Jones was returning from church with his family, he discovered a new and singular-looking bug on his front door step.

"Bring the microscope, children," he called, "and tell your ma to hurry; I want her to look at it; I'm sure it belongs to the Hemiptera class and is a new specimen."

"Oh, pa, ain't it splendid! It's got four wings, eight eyes, and oh my! ain't it a sparkler, though! Red and green and yellow, and—oh, it's getting away, ain't it pa?"

"Then it isn't dead," cried Mr. Jones, in ecstasy; "I want quiet sure whether it is dead or not. Let me look! Yes; it's a terrestrial, I think, after all; it belongs to the genus Pentonema—the antennae have that peculiar flexible look; and yet, now that I look again, the eyes seem to indicate that it is a phytocoris, in which case it will be very destructive to your ma's plants, and we must kill it at once."

"Well, I guess not, Mr. Jones," broke in his wife, who was looking with much interest at the new specimen. "I paid two dollars for that bug last week to wear on my new bonnet, and I must have dropped it off when I came in. It belongs to the genus millinera, and couldn't be any deader if it had been baked for a century. Science will have to get along without it, Jones; it's already classified." Poor Jones?

A Barber on Baldness.

Speaking of the credulity of many people touching the efficacy of hair tonics, an intelligent French hairdresser says:

Very often the hair falls out after sickness. In such cases it generally grows again without the aid of any hair tonics whatever; but when it falls out from natural causes it never grows again.

The celebrated Dr. Bazin, who was formerly physician in chief of the St. Louis Hospital in Paris, and who is known throughout the world as the most learned specialist for affections of the skin, told me one day that there was nothing that could make the hair grow after the baldness had come on gradually.

This I believe firmly, for, if there was anything of the kind, we would not see so many New York doctors with heads as completely destitute of hair as the backs of turtles. I am even persuaded that these gentlemen would follow the example of those Greek heroes who, under the leadership of Jason, made a voyage to Colchis to bring back the Golden Fleece.

I don't think I am far from the truth when I say that during the past twenty-five years that I have practised the profession of hairdresser, I have made the trial upon different bald heads of more than five hundred different hair tonics, and I am bound to admit that I never saw a single head the hair of which was restored after baldness. At the end of so many failures, I am completely undeceived as to the value of all the preparations, and I would not now commend any one of them, because I would be afraid to commit the crime that is designated by the words, "obtaining money under false pretences."

In my pathological studies upon the hair, I have found that people who perspire a great deal from the head are apt to get bald. The bad habit of wearing hats indoors is also very hurtful to the hair.

During the last hundred years only four British statesmen, except Lord Beaconsfield, have been honored by a public monument. They were Chatham, Pitt, Perceval, and Peel.

The motion to raise one to Pitt was opposed by his former colleague, Mr. Windham, on the ground that the great Minister's career had not been beneficial to his country.

The Fashions.

Latest New York Modes.

New York Evening Post.

Draculots made of shagreen satin ribbon, hand-painted on the ends, are to be worn with light summer toilets, made with elbow sleeves.

White snowdrops and white clover blossoms will, the coming season, be the favorite floral garnitures for bridesmaids and "sweet girl graduates."

Steel buttons set with mock jewels are the latest fancy Parisians. They are in flower designs and are called Watteau buttons. They make a pretty addition to some toilets of French foulard.

The ugly wrinkled suede Saxe gloves are still very popular, when stretched to their full length reach above the elbow. They are often drawn over the close-fitting jersey sleeves when worn with street costumes.

Almond and pale gray cheese cloths will again be fashionable for morning dresses. They are trimmed with many rows of knife-plaited ruffles around the neck of the skirt, and the long Greek overdress is draped in flowery folds and adorned with Polanza lace and bows and ends of bright satin ribbon.

Roman sandals and delicately embroidered silk stockings in all the new shades of color will be the fashionable foot-dressing with summer toilets. There are also some lately imported novelties in hosiery, showing handsome colors in the new sombre or shaded effects—for instance, a delicate rose-pink tone, changing gradually up the stocking, through several grades of color, to a rich crimson top.

Moire is decidedly taking rank among the handsome fabrics for dressy toilets; it is worn not only in its original state forming a whole toilet, but it is frequently used for trimming dresses of Surab and other silks, and also in combination with plain woollen materials.

The moire waistcoat, rounded over the bosom, is finished in a point, and fastened with buttons of blue steel. The long basque and the second skirt coming down into a point at the side are also of the moire. The back of the skirt is caught up with swinging loops of broad, moire-striped satin ribbon.

Notwithstanding the fact that the grain crease has gone forth that black gros de mer silks have had their day for the present, the merchants in the leading houses of the city declare that the sales of these goods were never greater than now, and that that they are purchased and worn not alone by elderly people, or ladies who do not care to be quite "in style," but by the leaders of fashion themselves.

The fact is, a handsome black silk toilet is one which can never really lose caste. It is too elegant and becoming a costume to be relinquished, and for many purposes and occasions no other dress can satisfactorily take its place.

Yermicelli lace has lost the little popularity it ever had, possibly by its becoming duplicated in common qualities and inferior patterns. It never was a pretty lace at best, but its rather novel design gave it the favor it at first received. Just now, point d'Aurillac ranks first among the beautiful laces which are to adorn the lovely summer toilets, and which are also fashioned into pelerines, fichus, scarfs, and fraises of endless variety.

The design of this cream-colored edging is a combination of two distinct varieties of lace, the first fine and delicately pointed scallop resembling a thread of France lace pattern, and the next a full rounded mesh after the Spanish pattern. The designs are outlined with a heavy silk thread, giving them a rich effect. Another edging called "Polanza" lace is an exceedingly delicate lace imitation of real point, costing \$1 a yard.

A Flirt.

The meanest woman on earth is a flirt—a girl who will win a man's heart purposely without caring anything for him, who hangs her conquests about her neck as Indians do the scalps of their enemies, and who will even enter into engagements of marriage which she means to break, for the purpose of putting her foot more entirely upon the honest heart of one who loves her.

Every woman is loved more than once, I suppose. Almost all girls are forced to refuse offers. But an honest woman will avoid one when she can, if she does not love the man enough to accept him.

It is a great thing, the true, tender, earnest affection that a man gives the woman on whom he desires to bestow his life-long care and the honor of his name, and any one who does not understand this, has a heart not worth the winning.

As for a male flirt, he is not only mean, but two wicked to talk about.

Opportunity.

If we but saw how the gates of opportunity open and close, how the possibilities of to-day neglected, become to-morrow the things which never can be done; how unused strength wastes away and brings up behind it no other strengths; how the grace that lies about all our occasions, ready to flow upon them at the touches of our intelligence, alighted, lifts itself up into the heavens and leaves us in hardness and death; how on one hand, when used it drops upon us like the rain and distils like the dew; how work done makes work easier; how the voluntary use of 'all that is within us' and without us, too, of soul and sinew, of love and thought, of time and strength, and hours of prayer, will bring upon us the gentle pressures of God's newest, freshest grace.

If we but saw such things as these what girdings there would be among us.

During the last hundred years only four British statesmen, except Lord Beaconsfield, have been honored by a public monument. They were Chatham, Pitt, Perceval, and Peel.

The motion to raise one to Pitt was opposed by his former colleague, Mr. Windham, on the ground that the great Minister's career had not been beneficial to his country.

Household Hints.

CARROT PUDDING.—Mix half a pint of boiled carrots, purced, with half a pound of flour, ten ounces of currants, six ounces of chopped suet, spice and sugar to taste, three eggs and a little milk; boil for three hours in a basin; orange arrow-root sauce.

LIVER AND BACON.—Have beef liver cut thin; cover it with boiling water; for one pound of liver have one-half pound of bacon cut in slices; fry brown; have the liver seasoned with salt, pepper and flour; fry brown in bacon fat. To make the gravy, put one-half tablespoonful of flour in the fat, remaining in the pan; cook until brown; add one-half pint of water; season with salt and pepper and pour it on the liver.

LEMON CAKE.—A toothsome cake can be made by using two eggs, one and three-quarter cupfuls of sweet cream, two cupfuls of sugar, three cupfuls of flour, three teaspoonfuls of cream-tartar and one and one-half teaspoonfuls of soda; it should be baked in four square tins; while they are baking the lemon jelly should be prepared; beat the white of one egg, slightly squeeze over it the juice of the lemon, and stir very stiff with white sugar; spread this between the cakes, precisely like jelly; if icing is desired I think the best method of making it is to stir the white of an egg stiff with sugar, about as stiff as Indian wash, and spread with a knife; much time is saved, as the egg needs to be only slightly beaten.

"THEY ALL DO IT."—To beautify the teeth and give fragrance to the breath use "Peppery" the new toilet gem. Get 5 cent sample.

DYSPEPSIA.—Strengthen your digestion, tone the stomach for utilizing and assimilating every atom of food you take, the body needs it for strength and vigor. Zepes cleanses the entire system, stimulates the liver, keeps you regular and able to eat ten-penny nails. Letters and postal cards come in daily extolling Zepes from Brazil. Positive proof of health and vigor it gives, in a 10 cent sample. Sold by F. Jordan.

EPPE'S CHOCOLATE.—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Eppe has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal attack by keeping ourselves well fortified with pure blood and a properly nourished frame.

How to Get Rich.—The great secret of obtaining riches, is first to practice economy, and as good old Deacon Snyder says, "It used to worry the life out of me to pay enormous doctor's bills, but now I have struck it rich." Health and happiness, and all supreme in our little household, and all stands untroubled, while its low price and readiness of access places it within the reach of all. Try it and be convinced. All chemists keep it in 25 and 50-cent bottles.—ad

ANCHOR LINE.

UNITED STATES MAIL STEAMERS. Sail every Saturday. NEW YORK TO GLASGOW. CABINS \$40 to \$80. STEERAGE \$35. These Steamers do not carry cattle, sheep or pigs. NEW YORK TO LONDON DIRECT. W. JOHNSTON & CO. Proprietors Toronto.

DOORS, SASHES, BLINDS, AULDINGS, and every Description of Interior Finish. STAIRS, HANDRAILS, NEWELS and BALUSTERS A Specialty. Send for Price Lists. SHINGLES, LATH & LUMBER. Estimates on application. Address FRANCIS SMEETH, Goderich.

COUNTY GLEANINGS. Mr. Robert Winters, of Seaford while out fishing on the 8th inst. succeeded in capturing from the river Matland a monster trout, which when dressed weighed three pounds and three-quarters.

Mr. Wm. Fowler, of the Huron Road, Tuckersmith, left for Dakota. Mr. Fowler took with him eight horses, which he intends using in breaking up his land there. He expects to be absent the most of the summer.

It is said that the late Duncan McEwen, of Hay, left a fortune of between sixty and seventy thousand dollars. He died without a will and the property will, consequently, be divided equally among the several members of his family after Mrs. McEwen gets her third. There are five sons and one daughter.

SCIENCE.—R. Cameron, formerly carriage maker in Lucknow, left some time ago for Dakota with a car load of horses to sell. Owing to the speculation not turning out as well as he expected, he became dependent and finally ended his life by hanging himself. His body was brought back to Lucknow and interred.

GOOD CATTLE.—Mr. Hart, of the 3rd concession of Stanley, sold one bull which turned the scales at 1,950 pounds, and Mr. John Murdoch, of the London Road, sold a two year old steer, which weighed 1,530 pounds. Mr. Murdoch received between \$90 and \$100 for this steer.

SALT.—The Seaford Expressor says: One of our largest and best farmers the other day expressed it as his belief that if a liberal supply of salt had been sown upon the wheat last fall before the snow came it would not have been killed out by the spring frosts, as the salt would have strengthened and hardened the blade.

FUNERAL SERMON.—On Sunday last the Rev. Wm. Hay preached a sermon in connection with the death of the late lamented A. B. McWilliams. The church at Seaford was crowded with an attentive congregation. The discourse was founded on the words of the Saviour to Mary: "Woman, why weepst thou?" The whole service was deeply impressive.—Brantford Expressor.

A GOOD TEAM.—The demand for horses is on the increase, and prices are continually getting higher and higher. One day this week Mr. Joseph Snively, of the first concession of Morris, sold a pair of colts, one four and the other five, to an American buyer in Seaford, for the sum of \$370. They were a fine team, and were sired by "England's Wonder." There is nothing pays much better just now than raising good horses.

Mr. Graham Williamson, with his family and effects, left yesterday for Grand Forks, Dakota, where he intends engaging in the general blacksmithing and wagon-making business. Mr. Williamson is an excellent mechanic and a good square business man, and our best wishes go with to his western home. If he should be as successful he Dakota as he was while engaged in the blacksmithing and plow making business Seaford, he will have no cause to complain.

OBITUARY.—Many of our readers will deeply regret to learn of the death of Mr. Chas. Tough, of the Brownson line, Stanley, which took place on Monday, the 2d inst. Mrs. Tough had attained the good age of 70 years. She had been a severe sufferer for several months, and her death was not unexpected. She was a quiet, unassuming, Christian woman, and none was more sincerely beloved by those who knew her. Her aged partner and family have the sympathy of all in their great and irreparable loss.

A sad case of drowning occurred in Seaford on the evening of May 12th. A young man named Asher Cosins, aged about 22, attending High School here, other pupils, went down to the river to bathe. He had been in the water but a short time when his companions saw him go down and never come up again. It is thought he was seized with cramps. The body was recovered at 7:30 p.m. His people reside in the township of Tuckersmith. He was a clever and accomplished young man, and highly respected.

On the 4th inst., a cattle buyer named Michael Boland found his way to Grand Bend, and got into bad company, where he was relieved of \$70 hard cash. Warrants were immediately issued for the arrest of a woman named Mrs. Mirabeau. They were tried by our worthy J. P.'s, Mr. Dalziel and Mr. J. Reith, found guilty, and constables Dalziel and Todd introduced the "darbies" to the young gent, and with a little resistance they were put on, and ho for Sarnia goal, where they await further trial.

CANADIAN NEWS.

Twenty students of Cornell university visited the agricultural college at Guelph. In the voting on the Canada Temperance Act in Colchester county, N. S., on Friday, the Act was carried by a large majority. The London Ministerial Association recently discussed a paper on the popular amusements. In the course of the discussion Rev. Dr. Evans spoke as leading the people to the devil.

A new style of giving autographs was inaugurated by Hanian, who split up one of his boats which was damaged, and writing his name on the fragments distributed them among the Genevieve Ward party and some other friends.

Mr. Plummer, of Toronto, has been appointed Superintendent of Indian Agencies in the Provinces of Ontario, Quebec, Nova Scotia, and New Brunswick, at a salary of \$2,800 per annum.

This is another new office and another fat salary.

Joseph Seeton, a Halifax merchant, is said to have offered Wm. C. Whitman, a member of the legislative council of Nova Scotia, \$1,000 to resign his seat, hoping to get it for himself.

Mr. Gordon Brown sailed on the Parisian on Saturday along with Sir John Macdonald. Mr. Wm. Houston, it is said, will have editorial charge of the Globe during Mr. Brown's absence.

London, May 16.—A young man named Geo. Ross, having from Watford, was arrested this afternoon as an amiable lunatic. His mania was shown in asking every woman he met to marry him, offering her a trip to England for the honeymoon.

Durling a circus performance, at Windsor, May 17, about 11:30 p.m., burglars entered the store of Messrs. Cameron, Bartlett, & Co. by way of the cellar window and stole a quantity of black and broaded silks, gents' silk handkerchiefs, and kid gloves valued at \$1,500. The goods were found to-day by Detroit detectives on Belle Isle, where they had been hidden.

Last week an engine on the Canada Central left the track near Mackie's Station, on the western extension, and rolled down a fifteen-foot embankment. Wonderful to relate, driver Muldoon and his stoker, who were in the cab, both escaped without receiving any serious injuries, although the engine was wrong side up when she stopped. The damage was not great, as the engine was going slow when she left the track.

The lightning accompanying the thunder storm May 12 struck the house of James Dunsmore, Harmony, tearing the chimney down and demolishing three or four lengths of stove pipes. It singed the carpet beside the stove, and further down in the cellar, it tore two large holes on each side of the stove—large enough to admit a half bushel measure. This is the second time that Mr. Dunsmore's house has been struck, the first time being about twenty years ago, when one of his sons was instantly killed.

A supper was given at the Beecher House, Waterloo, May 11, on the occasion of Mr. Lewis Beemer having given up the sale of intoxicating liquors in connection with his hotel business. About seventy-five couples sat down to a repeat supper in excellent style. After getting up, addresses were given by several clergymen and other gentlemen. In the course of the evening Mr. Beemer stated decidedly that it was his intention to discontinue the traffic in strong drink. The temperance workers and prohibitionists, of whom there are many in this vicinity, are highly elated over the event.

THE WORLD OVER.

Four deaths from sunstroke in New York Saturday. Hon. E. Blake has been elected treasurer of the Ontario Law Society.

New York ladies have a passion for dandelions, and wear them at the throat and in the belt. Stanley Matthews' nomination to the United States Supreme Court was confirmed in the Senate by a majority of one.

A boy named Edward Knox cut off a stick on a lath saw, at Kingston, on Tuesday. He did not intend, however, to sever his wrist when he started.

At the Spring sittings of the Court of Chancery now in session at Lindsay, ex-Vice-Chancellor Blake has been retained for nearly every case on the docket. Trickett will probably be accompanied by Harry Kelly in his trip to America. He expects to get on matches with Riley, Hosmer, and others, besides taking part in any regattas that may take place.

The captain of the ocean steamer ship Somerset, which runs between New York and Bristol, disappeared in a mysterious fashion during the vessel's last outward trip.

The revised New Testament has been issued to the public. A leading journal says the English revisers would have done well to pay more attention to the American renderings.

The San Francisco city government has passed a by-law ordering all boys to be at their homes at 9 o'clock at night, under penalty of arrest and fine.

A singular disease has broken out among the cattle in Ludlow, Mass. Several have died. The lungs are found dark and honey-combed, and water is found on the brain.

Gladstone will probably accept a peerage and a seat in the House of Lords after the passage of the Land Bill. It is said that his title will either be Earl of Oxford or Earl Harwarden.

John Rea, Solicitor at Belfast, well-known for the riotous scenes he created in court when defending the participants in party processions, has been found dead in bed, having committed suicide with a revolver.

A tube containing either dynamite or gun cotton with fuse attached was thrown into the doorway of the Central Police Station at Liverpool on Tuesday. A loud explosion followed, and many windows were broken, but nobody hurt.

The jury in the inquest on the body of the child found in a servant's trunk, at the Ottawa Hotel, Brockville, found a verdict of manslaughter against the mother, Maggie Wylie, who is at present in a very precarious condition.

The Sheriff of Clayton county, Ia., started for New York State with a convict prisoner, but by the time he reached Syracuse it was found that the inmate had become violently insane, and he and his prisoner went to the asylum together.

Intense excitement has been occasioned at Washington by the announcement that the struggle between President Garfield and Conkling has culminated in the resignation of both the Senators from New York state, Conkling and Platt.

At New York five small-pox and thirty-five typhoid fever patients were carried from the city last week. The number of deaths reported for the last seven days is just double the number of births, the former being 822 and the latter 411.

Four champions fought between John Sullivan, of Boston, and John Flood, for \$2,000 a side, contested on a barge in the Hudson river on Monday night. Sullivan whipped Flood in eight rounds, lasting sixteen minutes. Flood was knocked senseless, and terribly beaten from the start.

The Ven. Archdeacon Palmer, D. C. L., died at Mountjoy Square, Dublin, on May 15. He was a well-known figure in the Guelph, Ontario, from its earliest history, having resided in the now "Royal city" from 1832 till 1876, when he was forced on account of physical weakness to resign the rectorship of St. George's Church and proceed to England for the benefit of his health.

On Monday, after a fair voyage, Sara Bernhardt landed at Havre, where a huge crowd of admirers, fifty thousand at least according to one estimate, assembled to greet her. Among them stood a deputation of the life-boat men, for whose benefit Sara is to play in Havre, and a number of journalists and artists from this city. Sara was much affected.

Mr. Ira Payne, the celebrated pistol shot, has made a match in England of a most peculiar nature, staking £100 that he shoots one hundred grapes consecutively from the hand of a lady, each grape to be held by a natural steam. A Mr. G. W. Moore stakes £100 that the feat is not performed. The distance selected is eight paces, and the weapon to be used a pistol.

Mr. Gibstone, when at home at Hawarden always reads the lessons of the day in the parish church on Sunday. People go many miles to hear and see the Premier perform this duty. He goes through it with nervous hesitations and trembling modesty. With his full figure, his mellow voice, his poetic expression and grand calm of manner, now almost majestic, he is an imposing and sympathetic figure.

A cloud as low as the tree tops rushed over Bedford, Indiana, May 13th with the roar of a hurricane, occupying only thirty-five seconds from the time it was first approaching till its disappearance. The sun was clearly shining at the time. From 10 to 15 degrees reduction in the temperature followed the passage for about ten minutes. The same phenomena was observed at Bloomfield.

Lord Shrewsbury will marry Mrs. Munday, with whom he eloped a short time ago, as soon as her husband procures a divorce. Shrewsbury has already settled a large sum upon her. People wondered by what means the lady's brother so quickly discovered the fugitives' hiding place on the continent, but it is now said that at the proper time their whereabouts was judiciously communicated by Mrs. Munday herself.

A volume of smoke rises constantly from the midst of a densely wooded morass in Florida, and has for fifty years been a mystery to the people of that region. The spot is five miles from the nearest point to which any person has ever penetrated. The negroes believe it is an entrance to hell, and regard it with awe. Some of the whites accept the theory of a volcano. Judge White lately organized an expedition to explore the swamp, but failed to make a way into the tangle of rank growth.

DEER-LOADING OF CATTLE.—The Court of Appeals in the action against Marwood & Sons, steamship owners, West Hartlepool, rendering a decision reversing the decision of lower courts, and deciding that a contract between a shipper and a ship owner for the shipment of cattle on deck is illegal, that the shipper has no remedy under such a contract against the shipowner or owners of the rest of the cargo for cattle jettisoned for safety. The court said that the law of England and other civilized countries held the practice of carrying cattle on deck to be illegal.

THE EMIGRANT STEAMERS.—Every steamship calling at Queenstown for the past week has been inspected by a Government official, accompanied by Miss O'Brien, authoress of the article detailing the horrors of emigrant ships. It is believed the charges will be completely refuted. The staterooms are completely separated. The arrangement on most steamers is as follows:—The men who are alone are assigned to the forward part of the ship, unmarried women to the after part, and married people amidships. Sometimes after a section has been unduly crowded, young women are assigned to quarters with the married people. This is the only point to which the inspecting officer is likely to take exception.

Goderich Markets.

Table listing market prices for various goods including Wheat, Flour, Oats, Peas, Barley, Potatoes, Hay, Butter, Eggs, Cattle, Pork, and Wood.

Banking.

BANK OF MONTREAL. CAPITAL \$12,000,000. SURPLUS \$5,000,000.

Goderich Branch.

C. R. DUNSFORD, Manager. Allows interest on deposits. Drafts, letter of credit and circular notes issued, payable in all parts of the world.

CANADIAN BANK OF COMMERCE.

Capital \$8,000,000. Res. \$1,000,000. President, HON. W.M. McMASTER. General Manager, J.P. ANDERSON.

Goderich Branch.

A. M. ROSS, Manager. Interest allowed on deposits. Drafts on all the principal towns and cities in Canada and Great Britain and the United States, bought and sold.

Accidents.—Mrs. Rose, of West Wawanosh, slipped on the door step on Monday, of last week and dislocated her shoulder. Dr. Young of Londonborough covered her and set it. She is now recovering. Mrs. Jas. Cox of the Maitland block, Hullett fell into the cellar of her house last week and received some more bruises.

Goderich Township.

HORSE LOST.—Mr. James Perdue, of the Bayfield Line, last week lost a valuable 6 year old mare, a few hours after foaling. He had refused \$150 for it. The foal is living.

Brussels.

NEIL McLACHLIN has the pasture in the Agricultural grounds this season. He paid \$21.25 for it.

JOHN SHANNON has leased the tannery from Stit Bros, and has entered upon the management of the same.

BIO LOAN.—Tom Smith had on no less than 5,680 dozen eggs, last week in one load, for Hamilton & Co., of Wingham. Who can beat that?

We are sorry to hear that our old friend Alex. Duncan is going to leave Brussels to take a situation in Listowel. Alex. is a first-class workman and a good citizen, and we are sorry to see him go. Our loss will be Listowel's gain, however.—[Post.]

The Brussels salt well is fairly under way. A depth of about two hundred feet has been reached. The contractor who has had much experience, declares that the indications are precisely those of other places where salt has been obtained.—[Post.]

BORN.
