The Evening Chit-Chat
By **ROYE CAMERON**

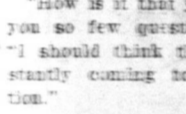

To know how to do thoroughly good work in any line brings a man halfway up the ladder of business success. But no further. Unless he possesses the equally important talent of knowing how to show other people how to do good work, there he sticks.

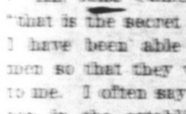

The men and women who have climbed to the top of the ladder of success were almost invariably men and women who have had that second ability.

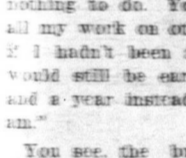

The other day I was visiting a business man who is at the head of a concern which makes two hundred thousand dollars a year. I spent the whole forenoon with him, and in that time the only call that was made upon him was to step a few checks.

"How is it that your employees ask you so few questions?" I inquired. "I should think they would be constantly coming to you for instruction."

"Ah, Miss Cameron," he answered, "that is the secret of my success. I have been able to pick and train men so that they won't need to come to me. I often say I am the only person in the establishment who has nothing to do. You see, I have put all my work on other shoulders. And if I hadn't been able to do that, I would still be earning a few thousand a year instead of being where I am."

"You see, the business man who is a very useful and important person in this world, you must learn to share responsibility and knowledge as well as to have them yourself."

Despair and Despondency
No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured patiently until the nerves are long exhausted.

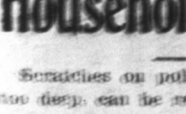

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.
It cures inflammation, leads ulceration and soothes pain. It tones and builds up the nerves. It fits for wretched and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you so "just as good."

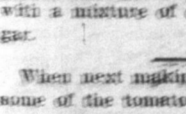

Household Notes.
Sponges on polished wood, if used too long can be removed by rubbing gently with fine sandpaper, and then with a mixture of olive oil and vinegar.

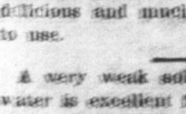

When next making tomato soup try some of the tomato paste rather than canned tomatoes. It will be found delicious and much more economical to use.

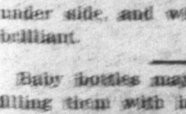

A very weak solution of ammonia water is excellent for cleaning a diamond. It should be applied to the under side, and will make it very brilliant.

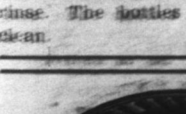

Baby bottles may be cleaned by filling them with hot water and fine sand or baking soda. Shake well and rinse. The bottles will be perfectly clean.

It is an excellent plan to cut the stems of flowers with a sharp knife. The stems should be cut at an angle, and the water should be changed frequently.

Keep a bottle of cast oil on a shelf in the bathroom and make it a rule that each member of the family, when she bath is finished, shall wipe out the tub with an oiled rag.

A good disinfectant is made by adding a hot poker to a lamp of camphor gum in a saucer. The strong fumes will clear the room of offensive odors in a few minutes.

Embroidered table linens should never be folded when put away, but rolled in a long roll with tissue paper rolled up with it. This will save a great amount of pressing.

Clear soup should be strained without forcing through a folded towel laid on a colander; otherwise particles of the egg used in clearing will be forced through and spoil the soup.

New shoes should be allowed to stand overnight in a pan in which just enough olive oil to cover the soles has been poured. They will last much longer and will never squeak.

To take axle grease out of goods, rub the spot with lard. Rub the goods in the hand as is washing, let stay in three hours, then wash out in cold water, using plenty of soap.

When making lemonade one of the lemons may be peeled and run through a meat chopper with a small piece of the peel. This will give the lemonade a delightfully piquant flavor.

In making a shoe bag or laundry bag that is to hang flat against the door, the brass rings instead of loops for slipping over the nails. They will not pull out as the loops may.

When preparing fish for broiling, split it open down the back. After washing and drying on a cloth, rub the fish well with oil and salt. This prevents it sticking to the broiler.

Just you try a glass of **CONVIDO** Port Wine at your lunch.

Motor Cars and Cycles

At last evening's meeting of the Municipal Council the names of the owners of motor cars and motor cycles as well as those of licensed drivers of such vehicles were presented to the Board. The list is hardly complete, but it appears that the number of registered motor cars is 65, cycles 27, and of licensed drivers 99. The total collected in fees for the season was given at \$1,995.25.

Returned From Camp.

The C. C. C. to the number of 30 broke camp at Topsail, where they had been staying ten days, and marched back to the city. They made good time on the march, leaving Topsail at 2 p.m. and arrived here about 5:30. They halted on the way at Bonanza's and had refreshments. The boys, who were accompanied by their parents, and the percentage of attendance in camp was very large, and at one time over 100 were under canvas. Lt.-Col. George and the other officers worked with assiduity to make the stay of the boys in camp a pleasant one and certainly succeeded.

Indigestion & Dyspepsia

It is quite a daily occurrence to hear persons say: "Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache. I feel too tired to do anything. I have no heart to exert myself, and at times I care for nothing. I often have a pain in the pit of the stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as

No Stint in Spending.

We observe that the Hon. S. Blandford has joined his chief in his political campaign in the Burin District. According to a message published by the Government Press, the Hon. S. D. Blandford is arranging for an Agricultural Exhibition there, and at the close of the Premier's speech at Lamaline "he made a capital speech, which was well received."

The attractiveness of the Minister of Agriculture, as a show man, is well known to those who had the pleasure of listening to his effort at the opening of the spectacle of the risks of the city last fall. We do not venture to characterize the speech as a "capital" one, nor would we commit ourselves to the statement that "it was well received," but we do not hesitate to avow that it received more comment than all the other speeches put together. Indeed, the remarks of his colleagues were as racy as they were pungent. If the Lamaline speech was as "capital" as the one in the Prince's Rink, we have no doubt the speaker will prove a highly edifying spectacle of the power of the Plenic Party to produce a Minister of Agriculture. We do not doubt that the honorable gentleman comes up to the Premier's ideal of a Minister. Otherwise, why should he have been appointed originally? Or being appointed, why should Sir Edward keep him in office? The quality which commends him to Sir Edward he possesses in an abnormal degree, and it makes him a favourite amongst the members, supporters and hearers of the Plenic Party. He is the peer of the Premier himself at "givings-out." He is not merely great in this respect. He is phenomenal, and well worthy of taking round on exhibition in a political campaign. He exhibited his quality at the exhibition in St. John's. He spent \$50,000 on that show, and now he is to have another chance in the Burin district. There were "lavish" of money for spending, and party hearers had the time of their lives. The heeler in Burin District may rely on it that there will be no stint in spending, so they may be up and doing while it lasts.

If the Plenic Party heeler have any doubt of the propensity of the Premier and the Minister to spend the People's money, let them turn their attention to the profuse way Experimental Farm money was scattered among Seymour, Downey and Devereux; and to the pickings of the Premier, Morrison, Jordan, Miley, Goodson and others on Arbitrations.

had never before seen the like of the givings-out practised since the Premier came into power and the Minister of Agriculture and Mines into office.

The more thoughtful may inquire how much of the railway loan of 1910 will be left after the Government pays for the completion of the Bonavista and Trepassay branches, and then ask: "Where the money is to come from to pay for the branches to Fortune Bay, Bonne Bay and the south side of Trinity Bay?"

How is the Premier to get the money for the Bay de Verde line which is being surveyed but is not contracted for?

Why our main 3 1/2 per cent. bonds, viz. those redeemable in 1941-4 for \$2,172,000, or roughly \$10,500,000, still stand at 92, in spite of the boosting and the booming of the last twelve months?

And when the Premier has answered these questions, he should be asked what cut short Mr. Emerson's trip to England, and why the Premier had to see Mr. Emerson immediately he returned, and what made it important enough to make him miss a train to see him and take a special to make up for the time lost in waiting to see him.

AT THE DOCK.—The Ethel, Olin, and S. S. Petrol went on the R. N. Co. dock to-day for repairs.

AT THE PARSONAGE.

Tea and Coffee Run Riot no Longer.

"Wife and I had a serious time of it while we were tea and coffee drinkers."

"She had gastritis, headaches, belching and would have periods of sickness, while I secured a daily headache that became chronic."

"We naturally sought relief by drugs without avail, for it is now plain enough that no drug will cure the diseases other drugs (tea and coffee) set up, particularly, so long as the drug which causes the trouble is continued."

"Finally we thought we would try leaving off tea and coffee and using Postum. I noticed that my headaches disappeared like magic and my old 'trembling' nervousness left. One day wife said, 'Do you know my gastritis has gone?'"

"One can hardly realize what Postum has done for us."

"Then we began to talk to others. Wife's father and mother were both tea and coffee drinkers and sufferers. Their headaches left entirely a short time after they changed from tea and coffee to Postum."

"I began to enquire among my parishioners and found to my astonishment that numbers of them use Postum in place of tea and coffee. Many of the ministers who have visited our parsonage have become enthusiastic champions of Postum." Name given by Canadian Postum Co., Windsor, Ontario.

Thirty-Seven Passengers Killed.

Special to Evening Telegram.
MANCHESTER, N.H., To-day. The Leigh Valley passenger train ran into spread rails on a trestle near here. Thirty-seven persons were killed and sixty were injured, several fatally. Many of the passengers were war veterans from the campment of the Grand Army of the Republic at Rochester.

Here and There.

D. G. N. Murphy will resume practice Monday, Sept. 4.—aug26,131

FROM VANCOUVER.—Mrs. Ivany, of this city, who had gone to Vancouver last year, returned by the express to-day on a visit to her friends.

Apply Stafford's Liniment to the forehead for headache.—aug19,11

FIRE FIGHTING.—Officers Nugent and Wheeler of the Fire Department with six volunteers are over the South Side Hills to-day working to put out the fresh fires there.

SQUID ABUNDANT.—A message to the Fisheries Department from Holyrood to-day says that squid were there in abundance last evening and this morning. But one vessel baited, however.

FUNERAL TO-MORROW.—The funeral of the late Geo. Gorman who was drowned at Western Barrons Pond, will be held to-morrow afternoon. Interment will be at the S.A. cemetery.

SPORTS AT BELL ISLAND.—The Sports Council at the recent Regatta at Bell Island that had to be postponed on account of the weather, took place this afternoon under favorable conditions.

A DANGEROUS CUT.—Residents of the west end of LeMarchant Road say that their is a dangerous cut there in the street, left open by the City Council, and that three people fell into it last night.

OPORT MARKET.—Nrd. Stocks. 28,120 qts.; Consumption, 5,400 qts.; Norwegian Stocks, 7,350 qts.; Consumption, 2,170 qts.; Stocks at Vienna, 470 qts.

ANOTHER YACHT COMING.—We learn that Messrs. Harve & Co. had a message from the owners of another yacht now at Halifax, asking for quotations in coal, and it is not unlikely that she will call here for a supply.

PRETORIAN COMING.—Hon. John Anderson had a message from Mr. Harry Coward stating that the R. M. S. Pretorian was leaving for here to-day but that she had no freight from Liverpool.

PRETORIAN LEFT.—Mr. E. McNab had the following message to-day from his brother, Mr. T. A. McNab: "Sails to-day; Cowan, Lumsden, Taylor, board and 10 former residents of this country come to see their trippers."

WOMAN BADLY HURT.—Mrs. Jas O'Brien's horse took fright at a motor car, yesterday on Savage's Bridge, near Outer Cove. Mrs. O'Brien was thrown out of the vehicle and injured so much that she had to come to town to-day for treatment.

The German pantryman who jumped overboard from the S. S. Florizel this trip when coming through Hell Gate, was not drowned, but simply Henry Lamb, the captain and other officers of the ship are indignant that such a misleading report should appear in the papers of St. John's, insinuating that the man was drowned.

HIT BY STREET CAR.—Yesterday a lot of apples fell from a cart and a trunk went on in the middle of Water Street to pick some of them up. The cart was struck and the man would have been killed but for the quickness of the motorman. As it was he was hit by the fender and driven along the street about 30 yards. He escaped with few injuries.

FIRE TO-DAY.—An alarm from the box at Barnes Road called the Central fire engine and the fire was out shortly after noon to-day. The fire was in an old shed, the property of Mr. M. Connelly, at Gorman's Lane, off Barnes Road. The firemen put it out in about fifteen minutes and prevented the fire from spreading. The inside of the building is all burned out.

LABORERS VERY SCARCE.—Laboring men are so scarce in St. John's the past two weeks that steamboat contractors in many cases have been and are working with half their supply. The Florizel and Bonavista had half their supply and the Almeriana is very short at present. The reason of this is that laborers find it far more profitable to fish at present than to stay ashore at \$1.20 per day.

WILL REFEREE MATCH.—The wrestling match between Olson and Anderson, which will take place on the 4th inst., will be refereed by Mr. Horwill, gymnasium instructor of the training ship Calypso. It is not his first time to referee a match here and all can look forward to a just decision from him.

RT. REV. MONSIGNOR VETICH who is in town to-day from Conception Harbor, says that the total receipts of the excursion to Conception Harbor will be about \$1,400. The Monsignor and his people are very grateful to all who helped them so generously, including the T. A. Band, the people of Avondale, Chapel's Cove, Harbor Main and Holyrood who sent carriages, also the friends from St. John's, including Messrs. W.J. Higgins, Mr. Osborne and the daily papers.

Cecil Pitts Dead.

Hon. John Harvey to-day had a wife from Vancouver, conveying the sad information of the death there this morning of Mr. Cecil Pitts, nephew of Hon. James S. Pitts. The deceased who was a single man, was well known and very popular in St. John's. Since Dr. Rismiller came here Mr. Pitts has been with him, and when he moved to British Columbia accompanied him there. Death was the result of a stroke of paralysis. He was about 30 years of age, and leaves to mourn him besides his uncle, a mother and two brothers who live in London. To the bereaved relatives the Telegram extends its sincere sympathy.

Nobleman's Yacht Here

The yacht Conqueror arrived here to-day from New York after a run of 4 days and gets 100 tons of Welsh coal for her bunkers from A. J. Harvey & Co. She is owned by the Duke of Manchester who bought her from F. W. Vanderbilt of New York, and she is at present bound to Southampton. She is 174 tons net, 268.18 tons gross. She is 138 ft. in long, 24 ft. in beam and 13 ft. in depth, and was built by Russell & Co. of Fort Glasgow, in 1889. She is a very pretty modelled vessel, is built of iron and steams at a very rapid rate.

Police Court News.

To-day a disorderly was fined \$5 or 14 days.

A carman summoned by I. G. Sullivan for ill-treating his horse was fined \$1 or 6 days. Another was summoned by Const. E. Lawlor for the same offence and was fined \$2 and costs or 7 days.

An assault case was withdrawn.

John Rice summoned the Reid Nfd. Co. for the value of a cow which perished on the Bruce and was one of a shipment last year. The case was not concluded up to 1 p.m. Mr. Wood for complainant, Mr. Furlong, K.C., for defendant.

Train Notes.

The west bound express arrived at Fort aux Basques at 12.45 a.m. to-day.

The incoming express arrived at St. John's at 12.50 p.m. to-day bringing 50 passengers, including J. Murphy, J. Murray, Rev. Fr. Gough and J. Jeans.

The local arrived from Whitebourne at 12.35 p.m. to-day.

CAPE REPORT.

CAPE RACE. To-day. Wind W.S.W. light, weather fine; the steamers Almeriana and Bonavista passed in and Themis west yesterday. Nothing in sight to-day. Bar. 29.90. Ther. 54.

MARINE NOTES.

The S. S. Bonavista got here from Montreal at 2.30 a.m. to-day. She left here Friday last at night, had fine weather all the way and called at Summerside, Charlottetown and both Sydney's. She has a % cargo including 60 head of cattle and about 80 sheep. She has 18 round trippers on board and 10 former residents of this country come to see their trippers.

Coastal Boats.

NFLD. PRODUCE CO.
The S. S. Pogoia left Greenspond at 2 a.m. coming home.
The S. S. Susu left Garnish at 9.35 a.m. to-day.

REID'S BOATS.

The Argyle left Placentia at 4.45 a.m. to-day.
The Solway is still north of Twillingate.
The Clyde left Exploits at 2 p.m. yesterday.
The Dundee left King's Cove at 5 p.m. yesterday.
The St. John's left Trinity at 3.45 p.m. yesterday.
The Glencoe left Rose Blanche at 7 a.m. to-day.
The Home is north of Port aux Choix.
The Invermore left Port aux Basques at 1 a.m. to-day.

Elaborate Preparations

Chicago, Aug. 18.—George Hackenschmidt who is matched to wrestle Frank Gotch on Labor Day, has installed his chef, whom he brought from England to prepare his food while in training at his north shore quarters.

Hackenschmidt's programme of training will be instituted to-day on the schedule used in England. Dr. Roller will be the chief mat expert for the Russian until Americus, trained down a bit, the Baltimore mat expert having put on considerable flesh since his mat experiences last season. That Americus expects to be of great help to Hack' in developing speed for the offensive work against Gotch and in teaching him to void the tricky, speedy attack of the champion, he confidently believes.

Here and There.

POGOIA SAILING.—The S. S. Pogoia will sail north at noon next Wednesday.

CHRISTIAN BROTHERS. St. Patrick's Hall and Holy Cross Schools will reopen on Monday, August 28th.—ad.11

ALMERIANA ARRIVES.—The S. S. Almeriana arrived here to-day after a run of 51 hours from Halifax. She brought 200 tons cargo, and sails for Havre, France on Monday. Her passengers were—T. P. Parzdy, F. Bowbrooks and Mrs. Parker.

City Council.

The land will be taken to widen the street.

The solicitor, Mr. W. R. Howley, reported against Mr. T. Bates proposal to erect a house on a line off Gower Street where there is now a stable. Councillor Mullaly expressed the opinion that if the place was considered a suitable place for a stable, it should be good enough for a dwelling house. The other Councillors over-ruled his suggestion and refused to allow Mr. Bates to erect a dwelling on the stable site.

The Solicitor also reported that the Council had the power to control the sale of cod in the coves. The act on this being quoted, Councillor Mullaly suggested that rules be formulated and notices be published instructing the fishermen that they should confine their fish selling operation to the houses that had been built for their convenience. Councillors Channing, Ryan and Martin, Myrick and Coaker also took part in the discussion, all favoring the idea of restricting the fishermen to the houses that had been built for the sale of fish. A committee of Councillors, Mullaly, Coaker and Myrick was appointed to deal with the question and report.

The Reid Nfd. Co. and James Baird Ltd. were reported to be wasting the water supplied to their premises. The Inspector will report any further violation of the act and those premises will be dealt with according to law.

M. A. Devine was given permission to repair his house on Duckworth St.

The Secretary laid on the table a report of the names of owners of automobiles and motor cycles and the revenue the Council derived from this source. The total was about \$2,000 half of which goes to the Government. Councillor Mullaly moved that the Government's share should be sent them at once. The Mayor and the other councillors expressed the opinion that the Government should send their bill first as "it is a good man who pays when he is asked."

The Secretary reported on Mr. G. W. Ayre's house, Casey's Street, which is on the new street line. The cost of improvement was estimated including the removal of the house. The Secretary was instructed to get similar information to other houses the removal of which would improve the street.

After the reading of the Engineer's, Sanitary Inspectors and Collectors reports and the passing of the pay rolls the meeting adjourned at 5.30.

Rolling Stones of the Peerage.

Open a Peerage book where you will, and you can scarcely fail to find a name that does not contain at least one "rolling-stone" in whose veins is an adventurous strain which has carried him through many strange adventures before he subsided into the er of the aristocrat or the weariness of a coronet. Indeed, you will find several of them wearing their coronets and helping to make our laws to-day.

Few men have reached the House of Lords through stranger byways than the present Lord Harcourt—Earl, Viscount and Baron. "When," he says, "as a young man of twenty-four, I left England for a Tasmanian mine, I had no more idea that I should ever succeed to a title than the average working man."

Escape From Death.

In 1894 this peer-to-be was plying his pick in a silver-lead mine in Tasmania; a year later he was busy pegging-out claims in the West Australian gold fields. From Australia he wandered to the United States and drilled rocks in Montana for ten hours a day, "at union wages," before faring to Alaska, on his round-about way to the gold mines of South Africa.

"For ten years," his lordship recalls, "I worked like a nigger, on wages which once sank as low as 2s. a day. I could tell you of some night shifts underground, at a temperature of 95 degrees, when there were 12 degrees of frost up above; and of more than one escape from a violent death."

Courtesy Robert Percy, third son of present Lord Lyveden, can look back on a career even more adventurous than that of his class have led 28 or 30 years before the House of Lords opened its doors to give him welcome. THE POET PHILOSOPHER.

I often buy gold bricks by mail; in fact, I'm always sending kale to farmers here and fakers there, and rainbow dealers everywhere. I've blown myself for logus ore, and orange groves on Greenland's THE WISE shore, and meercaum mines and moonlight plants, ginseng INVESTOR and rubber elephants. The fakers get me in their snares, and sell me wind and Belgian hares. But when my fellow townsmen talk, and ask me to invest in stock to help some local enterprise, I am conservative and wise. "Nay, nay," I cry, "your boasting schemes are merely wild and woolly dreams. I cannot spend my hard earned dollar to help to make this village grow. Your schemes would yield but six per cent, which fills my soul with discontent. I want to see my wealth increase hand over hand, and never cease, so I'll buy ice in Hudson's Bay, and mines a million miles away, and wireless stock and pickled snakes and gravel pits and other fakes." I think my view is safe and sane, yet people say I give them pain, and now and then a vagrant egg breaks on my bosom or my leg, and now and then a long dead cat comes up and hits me on the hat.

Mr. Daymond Dead.

Mr. William Daymond died at 7.30 last evening at his late residence, No. 155 Gower Street. He had been subject to inflammatory gout and was unable to sleep in his bed the past four years. There are two sons and three daughters surviving him—Joseph, residing on Duckworth Street, and William in Canada. Mrs. J. E. Furneaux, Misses E. and S. Daymond. Deceased was born in this city in 1822 and was the eldest of a family of eight children. He was educated at Mr. Benson's school, and when 15 years of age was given a position in the Commercial Insurance Co. He had a taste for mechanics and at the age of 18 years went to learn the cabinet making business with Mr. Creed. About 29 years ago he retired from active work. He lost all his property in the great fire of 1846 and also in 1852. He suffered by the Bank Crash. Mr. Daymond was a

highly respected citizen, was very tenacious of any course of action adopted. He was a firm believer in British Rule and British Constitution. To his relatives the Telegram extends its sympathy.

Makes Hair Grow.

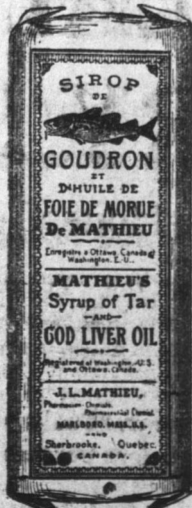

McMurdo & Co. have an invigorator that will grow hair or money back. The time to take care of your hair is when you have hair to take care of. If your hair is getting thin, gradually falling out, it cannot be long before the spot appears. The greatest remedy to stop the hair from falling is SALLYA, the Great American Hair Grower, first discovered in England. SALLYA furnishes nourishment to the hair roots and acts so quickly that people are amazed. A large bottle for 50c.

CHRONIC BRONCHITIS

Cannot be cured with ordinary soothing syrups. The disease must be attacked at the root to eradicate the irritation of the lungs, heal the wounds and strengthen the respiratory organs. The composition of

MATHEU'S SYRUP of Tar and Cod Liver Oil and other Medicinal Extracts marks it amongst all other remedies as the true specific for the diseases of the throat, the bronchial tubes and the lungs. Here are a few conclusive proofs:

CHURCH POINT, July 31, '08. Blacking & Mercantile Co., Ltd., Dear Sirs,—Nearly one year ago I had my first order of Mathieu's Syrup from you. It was not known in this country, and I gave samples to several families whom I knew would use it. After a few weeks I began to have a cough for it, and trade has increased wonderfully since. I have not the least doubt but that it will soon be the best selling remedy for coughs, colds, etc., on the market. In my store here sales are good and our people ask for it. Several stores in this country now keep it in stock and report sales increasing. I have bought from you since August 16th, 1907, 4 Gross and have only three dozen on hand at this date, and which I am holding for retail trade in my store. Yours truly, LOUIS A. McLANSON.

Calbman's Fares.

Editor Evening Telegram. Dear Sir,—In regard to the letter in the Daily News of yesterday, signed by "Calbman," I beg to contradict the "Calbman's" view of the matter, that the Calbman's prices for driving to Signal Hill are too steep. Any Calbman in the city is satisfied to take passengers to Signal Hill and wait from ten to fifteen minutes for him for one dollar. If we take from one to four passengers to Signal Hill and wait (which is very often the case) from fifteen to thirty minutes, and sometimes one hour, for them, it is well worth \$1.50, and we Calbman never get any more. In regard to the \$2.50 racket that you have mentioned, we would like you to point out that man to us so that we could bring him to account, so as not to injure our Calbman's character no more than another. Thanking you, Mr. Editor, for space. THOMAS LAWLOR, Calbman, St. John's, Aug. 25, '11.

FRACS BETWEEN FISHERMEN.

Yesterday afternoon several Lunenburg fishermen assaulted on Campbell & McKay's wharf and started a fight for all right. Two of the men were treating each other badly when Const. Faraday put in an appearance and quashed the row. He took one who was badly out, to the station, but the other "bit out." Another threat of being arrested by a posse of police the others also left the place.

Eczema on Face and Hands

Gave up work—Could not shave—Relief and cure obtained from DR. CHASE'S OINTMENT.

"I had eczema nearly all over the body," writes Mr. John Gordon Campbell, foreman Holland Grove Lumber Co., Sudbury, Ont., "head, neck and wrists were blistered and itching with it. I could find absolute relief by no cure until I obtained Dr. Chase's Ointment. After using this ointment I was almost instantly relieved and soon completely cured. "So bad was the eczema that I had to give up work. Could not shave. It was so bad that they had to take me out of camp in a wagon and send for a new foreman. I cannot recommend this ointment too highly." As a means of soothing raw, flaming, irritated skin no treatment can be compared to Dr. Chase's Ointment. It often heals in a single night. You can see the effect for yourself. The good it is doing. Sample box free 50 cts. a box, at all dealers or Edmondson, Bates & Co., Toronto.

MINARD'S LINIMENT CURES GAR-GET-IT COWS.

Complaints of Stench.

Editor Evening Telegram. Dear Sir—Several nights this summer the stink from the sewers supplying into the cove of the City has been unbearable. But last night after midnight until morning it beat all records owing to its being calm. Can we wonder at the death rate being what it is when there has been nothing done to abate this nuisance? Let the sewers of the cove be run further out, so as at low tide the water of the harbor will cover them, to keep the stench from permeating over the whole city. We can spend money for a City Hall, also waste money in erecting a stand to sport on and ventilate the sewer from our body, but what we want is less "gas" and more work. Work of a lasting kind, the flushing of our drains daily. The ash carts covered over, Water Street swept after the traffic of the day is over, not having the sweepers sending the dust in your face as you go past in the day time. Plague (cholera) has destroyed thousands of lives lately abroad, but if the latter reaches here, God help us. This city had it about sixty years ago and we don't want a repetition and to bear the cry of the carpenter, as it was then, at all hours of the night, "Bring out your dead! Bring out your dead!" Yours truly, WATCHMAN WHAT OF THE NIGHT? St. John's, Aug. 26th, 1911.

Change in Engineers

Some changes are being made this trip in the engineers of the Fleet. Third Engineer McFarlane is starting ashore and is being replaced by Engineer Carnell. Mr. Carnell will go as 4th Engineer. The reason why Mr. McFarlane is starting behind is because he will soon leave here for Glasgow to go up for his chief's certificate and would not sit here. His brother being the examiner for 4th Engineers. This shows a manly spirit on his part.

OUT OF HOME

The staff friends of Miss Leah Head of the Bath's Arm, Church of England School Teacher at Herring Neck, will be glad to hear that she is out of hospital, having successfully undergone an operation for appendicitis. She is grateful to Dr. Keegan and the staff nurses under his charge.

Death in a Mysterious Manner.

Mr. Jno. Lidstone, of Cabot Street, was hurt severely Wednesday morning as he passed by Mr. M. A. Duffy's house. Just west of his home, he was suddenly hit in the hand by a missile. The pain was intense and he had to proceed to Dr. Mitchell's surgery where it was found that some of the small bones of the back of the right hand were broken and the tendons severed. Since then the member remains swollen and inflamed and Dr. Mitchell attends him daily. What kind of missile it was that struck him, Lidstone does not know. No person was about at the time. He thinks it might have been a bullet from a pistol or rifle. Anyhow, the fact of a man being laid up in a bad blow in his hand has a large family depending on him.

And Tucker at Conception Harbor Garden Party —A Gala Day.

Wednesday last, being the day for Monsignor Vetch's garden party, Mrs. Tucker, Tucker and myself started for the train at eight o'clock. We walked every "bank" of the way to the train for the simple and unvarnished reason that we were short of cash. We just had enough to carry us over the day and we know it. When we arrived at the station, every one we knew was there, and as we all had our tickets bought before hand we had no delay in getting aboard. The first old chum we ran up against was our old poetical-looking friend who is ever to be found at his place in the Custom House. He met us with his usual happy smile and made us feel at home at the start. Soon the ding dong of the locomotive bell sounded and away we went and soon crossed the trestle bridge and "straightened her up" for the journey. There were cars in one stretch, all filled with passengers for points all along the line, but the big bulk were consigned "this side up" to Avondale. Mrs. Tucker sat up nice and straight and ate all the chocolates that were passed to her. She had none herself, but as 'twas her first time on the train on an excursion she hopes to be excused. You're awful out of place without chocolates on a train, she says, for a box of chocolates will do more to get you a good name than a monument. Mrs. Tucker got mad when we were travelling along about Toppal, crowds of young "tuckatoons" always on the go, banging doors and stumbling up against Mrs. Tucker. She stood it for quite a while, but at last she lost her temper and hailing the young fellow, enquired if "he had the walks." Mrs. Tucker says this is a nuisance on the train and should be stopped by firing a couple of the jaspers out through the nearest window. Mrs. Tucker saw no cows on the track as she often saw before. 'Twas one of the side shows on former occasions but the "fashion seems to have gone out." The scenery on the road, Mrs. Tucker says has so often been described and so vividly and truly portrayed by our genial friend Mr. Isaac Morris, that it would be like putting molasses on bread over good butter, to attempt to say more. But one thing we have to say and that is that anyone who has not gone over the road this summer should be stopped before the season is over and drink in the healthful scenery of Conception Bay. A run to Toppal costs only 60 cents return trip. Spend sixty and avail the blues. At the different stations along the line groups of young ladies came to take a squit at us. Many of them were visitors from the town, out trying to get burnt brown and made healthy for the winter, and at the same time to gather enough fruit to clear expenses. They looked as if they wished their vacation were over, but "not wishing to give it to them at home to say" they were trying to live out the ordeal. Mrs. Tucker says 'tis a mistake to stay out too long, for you get very yawney on the fifth day about 9 p.m. You don't pretend you get yawney but you do just the same and long for a round of the "Nickel." After drinking in a lot of more scenery, we arrived at Hollywood. Oh, here is the grandest sight you ever wish to see. As you go around the Beach and look down the immense Bay, 'tis a sight to make you "sit up." But, again, Mr. Shortis has told you all about this and as 'tis not in my line, I hasten it. We soon arrived at Avondale the end of our journey and we were received in a whole-hearted manner by Monsignor Vetch. Carriages were in waiting, but although we counted them three times we could not make

NEVER HAD ITS EQUAL

Rochester, N.Y., Man Found Something Good in Canada

Mr. Thos. Johnston, whose home is in Rochester, N.Y., is enthusiastic over one Canadian product at least. He says: "While visiting in Millbrook, Ont. I was suffering from a sprained knee, and could get nothing to help me until my father gave me a bottle of Egyptian Liniment which relieved me in a few minutes. I never had anything to equal it in my life. I am sure if your Liniment was introduced to the people of Rochester it would sell like hot cakes."

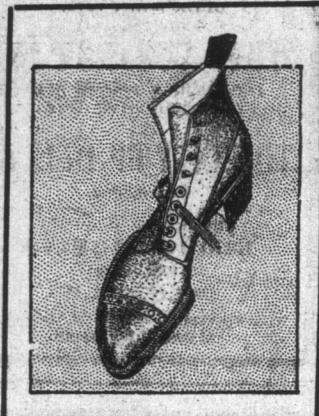

Quick work is one of the strong points of Douglas' Egyptian Liniment. It goes right to the spot. It stops bleeding at once, prevents proud flesh or inflammation, and is a positive safeguard against blood-poisoning. It will instantly relieve all kinds of aches and soreness. 43 25c. at all Druggists. Free sample on request. Douglas & Co., Napanee, Ont. 'em a "hundred and fifty." The Monstignor saw that the ladies were attended to first and driven down to the Harbor. But then he called for the "middle-aged gentlemen" to come next, but not a solitary individual came forward, for the simple reason middle-aged men forget their age at a time like this. After a while we "got there" all right, and soon we found ourselves seated "head on a case" was canopied and a score of ladies from the village pushing along plenty of good pork and cabbage, potatoes and veal. I was half ashamed of a grocer of the higher levels, the fresh air and the general surroundings made him forget that three plates full is sufficient to put you down to Philadelphia, a great pity, that we don't get more horse racing in this country. Talk about your Marathons, why they can't hold a candle to a good old-fashioned horse race. Why should I buy a roofing that
needs to be painted every lit-
tle while to keep it tight,
when, for the same money or less, I
can buy AMATITE which needs no
painting?

The outer surface is composed of
real mineral matter, which makes
painting unnecessary.

With an Amateite Roof on your
building you and your roofing trou-
bles. When you buy a roofing that
requires frequent painting you begin
them.

Smooth roofings that require paint-
ing are a nuisance and an expense.
When you buy them, you buy trouble
not protection.

Why
"Paisley Flour"
marks an advance in
home baking.

It eliminates the time and trouble taken when
using yeast.

Takes away the uncertainty of ordinary
baking powder.

It is always fresh and pure, and retains its
raising power very much longer than self-raising
flour and cake mixtures.

It gives improved results in lightness, fineness
and digestibility.

"Paisley Flour"
The SURE raising powder.

-is mixed one part to eight of ordinary flour.

"Paisley Flour" is packed in 22c, 14c, and 5c
tins. The 22c tin contains 14 ozs. and will
raise half a stone of flour, the 14c tin contains
7 ozs. and will raise 3 1/2 pounds
of flour, the 5c tin contains 2 ozs.
and will raise 1 pound of flour.
