For the benefit of those who see nothing but suffering and death before them, I wish to say there is hope for you yet. I have been in a like condition myself and owe my restoration to health to the ever-reliable Histogenetic remedies. This last spring I was togenetic remedies. This last spring I was utterly prostrated by a severe attack of La Grippe, which resulted in bronchitis and other serious complications. When my case seemed perfectly hopeless my friends decided to try Histogenetic medicine, and in less than three days a change for the better was so apparent that we were all inspired with hope. I continued the treatment for a number of weeks, progressing slowly, but surely, day by day. I am now comfortably well and am still gaining in strength and power of endurance and am a wonder to those who knew how hopeless my case was. To show my gratitude to Dr. J. Eugene Jordan for his wonderful remedies, and to my Heavenly Father for commanding this blessing to rest upon them. I take this way to let all afflicted ones

My voice and all one side were badly affected. At last I tried Dr. J. Eugene Jordan's Histogenetic Remedies. In three months my voice became strong. My limbs, which were almost useless, regained full power. I no longer needed to be assisted to the table or from any one place to another. My muscles developed wonderfully, considering that I am 74 years of age. I can walk to church and back regularly. The effect has been permanent now for about 12 months. Last April I had a severe attack of pneumonia and Histogenetic Remedies cured me in a few days, and on the 8th of this month I took congestion of the liver and right lung. I was so bad J could not have lived long. In a few hours the Histogenetic Remedies once more gave immediate relief. It is only two weeks, and 1 am sitting up every day and nearly well. Arrangements—Mr. Oeler's Candidature—The Prison Conference.

The Trades and Laber Council met last aight. President George Bradley in the chair.

Delegate T. W. Banton read the report of the Legislative Committee, which specially referred to the eight-hours' movement in England and the strikes which had ensued. The report stated: "The lesson of these costly strikes tends to prove the utter impossibility of ever permanently and securely establishing the eight-hour day by means of the one-sided and gru-lly barbarous method of a universal strike. Experience has shown that only partial successes can be gained here and there, where local circumstances are especially favorable. But that the true remedy must be sought through legislative means is gradually forcing itself on the success of the eight hours movement. It would never be granted in some trades, whist others were content to work ten, Stail he was glad that the result of the agitation had leen the resuction of the hours of labor in somes trades from ten to nine.

Delegate McCormack said that the Bricklayers' Union set an example to other trades. They only worked 50 hours a week. Other trades should follow their example.

Delegate D. J. O'Donoghue read the report of the Munutinal Committee, which pointed the pointed of the man and the pointed the pointed to the man and the strikes and the pointed to the point of the man and the success of the eight hours movement. They only worked 50 hours a week. Other trad s should follow their example.

The report was adopted.

Delegate D. J. O'Donoghue read the report of the Municipal Committee, which pointed out that the recommendation of the civic deputation to the sanitary convention at St. Louis as to privy pits is the same as the committee proposed six months ago—an outside water closet costing \$10. "The health of the city demands immediate action in this direction. Diphtheria is still raging, and may be expected to continue until a different system prevails."

The committee was pleased to note the good work going on in the Health Department. The action of Dr. Allen on the ice question was endorsed. The committee objected to corporation employes being employed in other capacities or running for trustee of the school board or other offices. Such persons could not be impartial when questions affecting the corporation should arise. It is impossible to have a pure school board so long as employes of the corporation or any government are eligible for school trustees. The report condemned the abuse of the Local Improvement Act.

Delegate McCormack was severe on the aldermen who encourage every extravagance during the year and on the eve of election pose as ecohomists.

aldermen who encourage every extravagance during the year and on the eve of election pose as economists.

Delegate O'Donoghue was not in favor of continued attacks on the City Hall staff. If the staff was necessary it should be well paid; if not, dismissed. If any pruning were needed the operation should begin at the top. [Applause.]

The report was adopted.

A letter was received from T. E. Moberly, secretary of the Citizens' Committee, stating that the committee would gladly confer with the council in reference to the candidature of Mr. E. B. Osler.

The Baron's Paper. E. A. Macdonald issued the third number of his paper. The Factor, last hight. The Baron is skating on some ticklish ice and Baron is skating on some ticklish ice and may be summoned to Osgoode Hall for disrespect of the Bench. He has a big contract on hand in his platform, which runs: The political enfranchisement of women; free public school text books; the Swiss Referendum; immediate Independence for Canada; the imposition of the English Succession Tax; the abolition of the Income Tax; the abolition of the Tax on Personal Property; the examption of, all buildings to the extent of \$2000 each; no exemption of lands from taxation; the assumption by Government of all telegraph and telephone systems, to be operated by the Postoffice Department.

An examination of the mortuary returns at City Hall reveals rather a startling state of affairs. It is generally known that diphof affairs. It is generally known that diphtheria, typhoid fever and scarlet fever are epidemic in the city. Few know, however, that really more than one-half of the deaths reported are caused by these diseases. The returns for November up to date show that 108 deaths have been reported. Of these 30 were from diphtheria, 13 from typhoid and 8 from scarlet fever. Of the remaining number there were about 20 returned as stillbord, which practically reduces the total number to 88.

Extraordinary! Deadly Strychnine Re-moved. Was blood poisoned with strychnine 25 years ago? Many attempts by skilled physicians failed ago? Many attempts by skilled physicians failed to arrest the ravages of the horrid lif-destroyer. One yea ago tried St. Leon Mineral Water, took copious draughts, which cleared my system of the deadly poison, the outoreaking, etc. It has also raised me to a ligher state of health, strength, and enjoyment of life than ever before experienced. No money consideration could equil its value to me. I prize St. Leon above everything. H. W. Lockwood, Westport, Ont.

Charitable Lady True Blues. On Tuesday evening next Rose of Sharon Lodge, Lady True Blues, will hold a benefit concert in the parior of Shaftesbury Hall, in aid of the sick sister's fund. Over a Century Old. Many cases are known of persons living to be over 100 years old, and there is no good reason why this should not occur. By paying attention to the health by using Burdock Blood Bitters when necessary to purify the blood and strengthen the system much may be added to the comfort and happiness of life even if the century mark is not atteined.

MILLIONS UPON MILLIONS OF additional profit would reach the farmers if they had cheaper, speedier and direct freightage to Enzand. A fraction per lo, or per bushel saved in this way would annually return millions, now lost through middle-men, slow transit and expensive freightage. This question of getting the abundant surpuls of food stuffs to the markets of the Old World speedily and cheaply is the leading one for Casada. Her production of everything in this line will now increase with wonderful rapidity, and the most profit able outlet is direct shipment to England.

THE FOUR-LEAVED CLOVER Is generally supposed to bring good luck to its fortunate possessor. So does the "Happy Thought" Range. There is this

important difference between them, however, that in one case the good fortune is a matter of supposition merely, while in that of the "Happy Thought' it has been proved over and over again. There are over

6000 of them in use in this city and every one a perfect success. Send for Illustrated Booklet "Happy Thoughts"

A Tory paper in the West says that Mr.

Prominent English statesmen have said that whenever Canada authoritatively expresses a desire for severance from England even that desire will be promptly gratified.

To be sure, if Canada possesses the treatymaking power, her increased independence would simplify the accomplishment of political union were that a definite purpose in the Canadian mind. If Mr. Laurier, Sir Richard Cartwright and others are really aiming towards that end they are sure to appreciate

power to combat contagious diseases. By inference we may anticipate their answer as affirmative from the fact that they have called upon the Provincial Board for assistance. Yesterday it became known at City Hall that the deaths reported for November up to date numbered 108, of which about 20 were still-born and therefore to be deducted from the total, leaving 88 deaths from specified caut. Of these 88 no less than 51 died from the infectious diseases diphtheria, typhoid and scarlet fever. It is well to ask if the health guardians are neglecting any of their duties or are careless where they should be sorry to take the manager of our personal affairs — our solicitor or banker — from the stump. It would be sorry to take the manager of our personal affairs — our solicitor or banker — from the stump. It would really be out of place for Mr. Osler to go about using personal solicitation on this occasion. He has not sought the office, and if he is called to it by the vote of the citizens he will accept it at no small personal sacrifice.

You admit that "Mr. Osler has been nominated under such ausgests that the best element among the restepayers will support to the control of the restepayers will support to the control of the restepayers will support to the control of the restepayers will support to the control of the rest

placards is a permissive provision of the Public Health Act—it is made optional with Boards of Health whether they shall use placards or not—and in Toronto they are not used. In Ottawa and various other cities, in perhaps every town and township of the province, the health officers post up warning placards on houses where cases of smallpox, diphtheria, typhoid and scarlet fever exist. Is it wise for Toronto to disregard so sensible a precaution and permit people to innocently walk into infected premises? That this spreads the contagion in this city is indispretable. Is it not foolish to dispense with placards to please business interests, and to humor a popular disrellish for having one's house shunned as a plague spot by passing crowds? The presence of an infectious disease in a house is no discredit to its occur-

The Capadian bank statement for October is satisfactory. Notes in circulation show a gain of over \$2000 compared with the previous month the total being \$37,182,768. This exceeds that of any previous October.

December wheat opened in Chicago at 93% and closed at 93%: in New York at \$1.05 and closed at \$1.05%; in Milwaukee at 89% and closed at 890; in St. Louis at 93% and closed at 92%: in Toledo opened and closed at 97%: in Detroit at 97% and closed at 97% and closed at 97%.

The expansion of circulation in the Domin ion from July 21 to Oct. 31 was \$6,602,000. This is the largest in seven years, which leads to the conclusion, remarks The Monetary Times, that this sum of \$6,600,000 has been distributed to our farming population and that they have received more for what they had to sell than hey aver did before.

Everybody Delighted! Everybody Astonished!

To Work! to Win! That is what we are on earth for, and every day sees us striving to benefit you and build up our trade by obtaining and selling the most magnificent values.

We here present our last great effort! We have done what seemed impossible! We have bought a big pile of OVER-COATS, actual staple \$20 goods, at a figure that allows us to give them to you at \$12. Every one new and perfect. Every one giving you \$6 to \$8 more value than you pay for. We have but one thought for them and that is SELL! SELL! A colossal choice of style and color.

OUR \$10 OVERCOATS are very popular, and so they should be for such goods at such prices.

IF YOU'VE ONLY \$4, \$5, \$6 or \$7 TO SPEND in an Overcoat you can come to us without fear. We've catered to your pocketbook, too.

OFFICE OF THE PUBLIC ANALYST. MONTREAL, Sept. 9th, 1887. To the Canada Sugar Refining Co., Montreal To the Canada Sugar Refining Co., Montreal:
GENTLEMEN.—I have personally taken samples
from a large stock of your Granulated Sugar,
"REDPATH" brand, and carefully tested them
by the Polariscope, and I find these samples to be
as near to absolute purity as can be obtained by
any process of Sugar Refining.
The test by the Polariscope showed in yesterday's yield 99.90 per cent. of Pure Cane Sugar,
which may be considered commercially as assoLUTELY PURE SUGAR.
