BEAR RIVER WINS IN CLOSE GAME

Local Ball Players Defeated 3 to 1— Teams Even Till Last Innings. Best Game Here This Season.

On Friday Bridgetown and Bear River baseball teams tried conclusions here and a most interesting contest was well fought out with interest sustained right up to the close. The local boys showed marked improvement over the last game in which these two teams met and no scoring was done till the fourth innings by either team. Bear River getting a tally in the fourth innings through the courtesy of the base umpire, Alexander made a safe hit to centre field, Kennedy following drove a grounder to centre which was picked up by Grimshaw who in the estimation of practically all present tagged Alexander who ran off the base line while trying to make second. Grimshaw then threw at first retiring Kennedy. Rice fanned Beeler, made a hit to right field bringing Austin home. There were a few other decisions made by the base umpire which were generally considered pretty much off. However the ninth inning opened with 1 all. Bridgetown had an expensive error with a wild throw. Bear River scored in two runs. The game as a whole was a good one, the best by far seen here this season and outside a few little features mentioned above was a very satisfactory one abounding in interesting plays and sharp fielding.

Details below. Harry McKenzie umpired at the plate most satisfactorily. Both batteries did excellent work. Austin is improving as a batter, making a safe hit every time up.

BABY BAND RECEPTION

The Women's Missionary Society of the Bridgetown Baptist Church accepted the cordial invitation of Mr. and Mrs. Frosser and entertained the children and their mothers at the parsonage Thursday evening, July 12th. Mrs. Warren, Pres. of the W. M. S. presided.

The weather was ideal. The little ones were equally so. The songs and recitations by the boys and girls were much enjoyed. Then came a social time and refreshments, which certainly did credit to the committees in charge.

The young ladies contributed much toward the enjoyment of the small guests, as well as rendering other assistance which was appreciated. There were 40 juveniles and 65 adults present, ranging in age from two months to past 70 years. The Supt. Mrs. C. Young, was assisted by Mrs. E. C. Hall and Mrs. Clark. Eighteen were enrolled as annual members, and thirteen as life members. The others were members. The offering amounted to about \$25.

We would offer sincere thanks to our Pastor and wife for their kind hospitality.

Nothing is pleasing the Paradise people more these days than the progress with which its new railroad station is being erected.

A delightful social occasion was enjoyed Friday evening in the Paradise church vestry when about seventy-five B.Y.P.U. members from Clarence and Paradise spent the evening together. Following the election of officers, it being the semi-annual business meeting of the Paradise Society, ten dollars of missionary money on hand was voted to Miss Cora Elliott to help purchase a typewriter for her work in Bobbit. Short of hand addresses were given by Mr. Harold Marshall, of Clarence, and Mr. Harold Balcom, of Paradise the two unions delegates to the International B.Y.P.U. convention recently held in Boston. Both these young men did themselves and their societies much credit as speech makers. The main programme of the evening was given by the Clarence young people as follows:

Reading, "Saved and Savior".
Mrs. V. B. Messenger.
Solo, "The Song that Reached my Heart".
Miss Pearl Sprowl.
Reading, "How Martha Trained her Second Husband".
Miss Belle Marshall.
Duet, Mrs. Ralph Williams and Mrs. V. B. Messenger.
Dialogue, "Aunt".
Ear Trimpet.
Miss Margaret Marshall.
Miss Pearl Sprowl, Miss Davies, Mr. Ernest Marshall and Mr. Harold Marshall. This dialogue was particularly enjoyed and expressed considerable talent. A social hour with refreshments brought to a close a very pleasant and profitable evening.

ST. JAME'S CHURCH ANNUAL SUNDAY SCHOOL PICNIC

A Varied Programme of Great Interest to Both Teachers and Scholars.

Thursday of last week saw another added to a long list of highly successful S. S. picnics under the auspices of St. James' Church. Morton's Point, Clementsport, was the place again chosen and with this objective the bulk of the party numbering a hundred and twelve, got away between nine and ten o'clock. An ideal day, a score of friends providing transportation, others contributing valuable articles and boxes of chocolates for race prizes, candies and peanuts for scrambles, lime-juice for drinks, not to mention well-filled baskets for the refreshments of the inner man—all these things contributed to a "glorious twelfth" at one of the most delightful spots on the Annapolis Basin.

On arrival at Clementsport, host Morton received the party with charming hospitality and, throughout the day, none worked harder than he or entered more heartily into the spirit of S. S. picnic. The Rector, Rev. A. W. L. Smith, was also on hand, and a great help. The races were brought off shortly after lunch. Then came a real baseball match be-

tween a Clementsport team and one got up amongst the picnickers. At the end of the ninth innings the score stood three all. But an extra innings brought Clementsport an extra run and thus the game stood when time was called. The game was thoroughly enjoyed by players and spectators alike. It was now 4:30 and therefore time for scrambles and distribution of prizes previous to getting ready for the return journey. Kind friends had provided so generously for this that not only did those present get a rich reward, but each member of the Primary class unable to go will be remembered. By six o'clock the whole party was well under way for home which was reached in due course by a hundred and twelve happy people. It should be mentioned that in addition to these, the C. G. I. T. groups camping at Ely Hall, Clementsport, joined the picnickers at the grounds.

Where so many kind friends gave assistance and in such a variety of ways, to mention any in particular would be invidious. The Sunday School staff, therefore, on behalf of the children, would ask each and every helper to accept their grateful thanks for everything done to give them such a perfect day's enjoyment.

SILK FACTORY FOR CANADA

Large Manufacturing Firm to Establish Business in Canada.

Ottawa.—Advice has been received by the Commercial Intelligence Service of the Department of Trade and Commerce that as a result of tariff changes in the last budget, Courtaulds Limited, one of the largest manufacturers of artificial silk in the world, contemplate the immediate establishment in Canada of a factory sufficiently large to supply the whole Canadian market, and that Mr. H. Johnson, the managing director of the company, is leaving at once for Canada to select a site and arrange for the erection of a plant. As for the past number of years Canada has imported approximately annually two million dollars' worth of artificial silk, the establishment of this new industry, will likely to decrease imports, will on the other hand furnish home employment to that extent.

CLOUDS WITH SILVER LINING

There's never a day so sunny But a little cloud appears; There's never a life so happy But has had its time of tears; Yet the sun shines out the brighter When the stormy tempest clears.

There's never a garden growing With roses in every plot; There's never a heart so hardened But has one tender spot; We need only pursue the border To find the forget-me-not.

There's never a cup so pleasant But that has bitter with the sweet; There's never a path so rugged That fears not the print of feet; And we have a helper promised For the trials we may meet.

There's never a sun that rises But we know 'twill set at night; The tints that gleam in the morning At evening are just as bright; And the hour that is the sweetest Is between the dark and light.

VICTORY

We are still sorry to report Miss Beatrice Rosencrans on the sick list. We hope she soon recovers.

Mr. Fred C. Simpson has gone to Port Wade to work.

We are glad to hear that Mr. Kenneth Milberry is improving in health.

Mrs. Walter Gehue is visiting at Bear River.

Mrs. James Wagner is the guest of her mother, Mrs. Jubal Kaulback.

Mr. and Mrs. Stewart Potter and daughter, Gertrude, accompanied by Mrs. W. Crouse, were the guests of Mrs. Joshua Simpson, Sunday, July 1st.

Mr. and Mrs. Kenneth Beeler, of Annapolis Royal, and Mrs. Harry Potter and two daughters, of Cape Antevalle, were the guests of Mrs. Ozias Darres, recently.

ONE 50c BOX BROUGHT HEALTH

Years of Constipation Ended By "Fruit-a-lives"

The Wonderful Fruit Medicine Anyone who suffers with miserable health; who is tortured with Headaches; and who is unable to get any real pleasure out of life; will be interested in this letter of Mrs. Martha de Wolfe of East Ship Harbor, N.S.

Mrs. de Wolfe says, "For years I was a dreadful sufferer from Constipation and Headaches and I was miserable in every way. Nothing in the way of medicine seemed to help me. Then I tried 'Fruit-a-lives' and the effect was splendid; and after taking only one box, I was completely relieved and now feel like a new person."

Box a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-lives Limited, Ottawa, Ont.

LESS CRIME IN CANADA

Convictions For Drunkenness In N. S. Show a Marked Decrease.

Ottawa.—A very marked decrease in criminal offenses in 1922 as compared with the previous year is recorded by the Dominion Bureau of Statistics. A general decrease in drunkenness is also shown, most notably in British Columbia.

The total number of offences tried by the various criminal courts in Canada during the year ending Sept. 30th, 1922, was 153,929 as compared with 182,720 in 1921, the decrease being 10.28 per cent. Convictions decreased from 177,173 to 158,339 or 10.52 per cent. The acquittals of indictable and major offenses increased from 5,547 to 5,590 during the year.

In convictions for drunkenness, Nova Scotia decreased 30.80 per cent. from 3,156 to 1,492; New Brunswick decreased 13.8 per cent. The Province of Prince Edward Island shows an increase. The decrease for all Canada is 26.8 per cent. from 34,382 convictions in 1921 to 25,048 in 1922.

FORCED TO CANCEL HONEYMOON TRIP

Groom's Pocket Picked of \$75 and Railway Ticket.

Hamilton, Ont.—His pocket picked of \$75 and a railway ticket while he was waiting with his bride at the T. H. & B. station, Harry Roberts was forced to cancel his honeymoon trip. With confetti covered hat and coat, carrying his suitcase and his bride still wearing the bridal bouquet, the happy couple plodded their way down the street to the police station to report the theft.

"A bad beginning makes a good ending," reminded Detective Thompson.

"Hope you're right," replied the bride.

UNIQUE CEREMONY AT ANNAPOLIS

A quiet and impressive ceremony took place at St. Thomas' Church on Sunday evening, June 24th, when thirty-three Indians of the Micmac tribe celebrated the anniversary of the first baptism in Church, that of the old Chief Memberton. (A tablet commemorating this event, which took place at Port Royal on St. John the Baptist's Day, 1610, was formally unveiled at this church on June 24th, 1915). After the Way of the Cross had been recited by Rev. Monsignor Grace, the Indians came slowly from the vestry, each carrying a lighted candle, and encircling the baptismal font, beautifully decorated with flowers, marched in solemn procession around the church, afterwards kneeling at the altar rail during the Benediction of the Blessed Sacrament. The Chief of the tribe, Ben Pictou, over ninety years old, was in the group with his children, grand-children, and a great granddaughter, who with two other little girls, carried banners. The church had been tastefully decorated with flowers by the young ladies of the parish, and numerous candles lit on the three altars. The choir rendered appropriate music, and a French hymn was sung, during the lighting of the candles, by Miss Sylvia Muise, the Misses Josephine and Corinna Murray, and E. J. Muise, Spectator.

JUSTICE FOR THE POOR

Do the Canadian courts afford suf-
 ficient means of defense for those
 accused of contravention of the pro-
 visions of our Criminal Code? This
 is a question that is frequently asked
 and it is often answered in the nega-
 tive by those who have intimate
 knowledge of our processes of law.
 Many of those who are dissatisfied
 with the present system suggest that
 it might be considerably improved if
 Public Defenders were appointed in
 connection with the Courts in our
 larger centres of population. The
 Public Defender would be an emi-
 nent attorney whose duty it would be
 to conduct the defense for any poor
 person unable to retain private coun-
 sel. Like the Crown Prosecuting At-
 torney he would be paid a salary
 from public funds and he would hold
 office during good behaviour.

The arguments in favor of such a
 system are numerous and are voiced
 by men of influence and wide experi-
 ence in both Canada and the United
 States. For instance the Hon. T. L.
 Woolwine, a California attorney who
 holds a position corresponding to
 that of a Crown Prosecutor in Canada,
 says: "The office of Public Defender
 was created for the protection of
 those too weak to help themselves.
 No man should be convicted of crime
 without having had the opportunity
 of making a proper legal defense, and
 it is to my mind a duty of the state
 to provide him with such defense if
 he is unable otherwise to secure it."

This attorney, in company with many
 other attorneys and judges in those
 cities of the United States where Pub-
 lic Defenders have been appointed,
 holds the opinion that a permanent
 salaried official of this sort can con-
 duct the defense of indigent pris-
 oners better than any other person. In
 many courts it is customary to as-
 sign cases to any lawyer who hap-
 pens to be willing to undertake the
 defense for the consideration of a
 fee of about \$25 provided out of pub-
 lic funds. Under this latter system,
 as may be conjectured, accused per-
 sons have not always received ade-
 quate defense. Too frequently in-
 efficient lawyers who could make
 better living have hung around court
 rooms in the hope of picking up as-
 signments of this sort, with the re-
 sult that the defense has over and
 over again been inadequate or per-
 functory. The Public Defender, on
 the other hand, would be an attorney
 of experience and ability. Not only
 would his work be more efficient, but
 it would cost the public less to pro-
 vide his annual salary than to dole
 out fees to special lawyers.

Several cities in the United States
 have adopted the Public Defender
 system as an experiment and later
 have confirmed it as a permanent
 feature of their court system. Testi-
 mony from all of these cities con-
 firms the statement of Judge Frank
 R. Willis. It was he who said after
 noting the results of the system in
 his own Department: "I find that in-
 stead of the ordinary methods of de-
 fendants' attorneys in trying to se-
 cure an acquittal by any or all kinds
 of means, legitimate or otherwise,
 the Public Defender has uniformly
 endeavored to present the facts of
 each case thoroughly to the jury, and
 tried to secure only such verdict as
 the facts of the case would warrant.
 It has been a great saving to the
 county in the matter of expense and
 has usually been productive of a more
 fair and impartial administration of
 justice than the method formerly em-
 ployed of appointing attorneys un-
 familiar with criminal law to repre-
 sent the defendants' interests."

When the Canadian public has had
 opportunity to discuss the ever-in-
 creasing mass of evidence as to the
 efficacy and satisfactory results of
 the Public Defender system it is not
 improbable that there will arise a
 clear demand for its adoption in this
 country as a method which will en-
 sure justice for the poor.

**HOW SHOULD NEWSPAPERS
 TREAT CRIME?**

From an Interview by Prof. J. B.
 Waite in the Dearborn Inde-
 pendent.

To my mind newspapers publish
 not too much fact, but too little. In
 the long run the public cannot suffer
 through knowledge of the truth, if
 they get the whole truth and nothing
 else. To deny the value to the people
 of facts and all the facts, is to stan-
 dard the whole idea of democracy. It
 is never knowledge, but ignorance,
 that leads to blundering public ac-
 tion, and perpetuates the evils of
 popular government and misguided
 personal action.

"Possibly I am myself a fanatic in
 the enthusiasm of my belief that we
 Americans, as a people, are capable
 of guiding our actions better and
 more wisely than any intellectual
 oligarchy can indirectly guide them
 for us, and so I suggest that not less
 news of crimes be printed, but more.
 To print the results to the criminal
 of the crimes he has been convicted
 of committing, to let the public know
 what the punishment has been for
 these misdeeds, is looking up the ef-
 forts of administering justice."

"The press does, as far as I am
 aware, give publicity to every crime
 committed. But it does not—of that
 I am sure—it does not give publicity
 to every punishment imposed for con-
 viction of crime. And, more particu-
 larly, news of the crime is usually
 front-page stuff, while news of the
 punishment, when it is reported at
 all, is back-corner stuff and is relat-
 ed in an infinitely lower tone."

"For instance, the post office Pub-
 lisher at Toledo a year or so ago was
 a spectacular affair which drew scare-
 heads from all the nearby papers. A
 number of men and women were con-
 cerned in it and securities of immense
 value were taken. The papers went
 at length into all details, the plan-
 ning which had preceded it and the

methods by which it was carried out.
 I, like the rest of the world, should
 be disappointed if papers ceased to
 give such facts.

"But I wonder how many people,
 who read all about the robbery, now
 know that the Government has re-
 covered most of the loot and that
 caught and tried singly and in groups,
 most of the actors in the crime are
 lock-stepping the cold corridors of
 Leavenworth penitentiary? You and
 I know it because we happen to be
 interested in Toledo and its affairs
 and from back page and middle page
 we have picked up and remembered
 the casual announcement that one
 after another had been caught and,
 later, had been convicted. Knowing
 vaguely from the papers that several
 had been caught I recently looked up
 the records. I was astonished to
 find that 25 men and women had been
 not only arrested, but tried. Of these
 25, 21 were found guilty, and sen-
 tenced. Two were given life sen-
 tences and three others terms that
 were practically for life. Exclusive
 of the life terms, the total of sen-
 tences was more than 184 years. The
 papers give special publicity to cer-
 tain subjects when they choose to do
 so. For example, during the first half
 of January, 1911, the Cleveland pa-
 pers gave about 500 inches of space
 to crime. During the last half of
 that month they gave 4500 inches of
 crime. Crime itself, however, had
 only increased from 345 to 362.

"The whole matter, then, resolves
 itself into this: Punishment for crime
 is utterly and absolutely useless such
 punishment gets publicity. And only
 the press can give it publicity. To
 that extent the press is responsible
 for the contempt of law and the
 crime for which this country is
 notorious among nations.

"But to the extent that the press
 will feature punishment as well as
 crime, to the extent the press will
 give force to deterrence and will
 create a new respect for law and a
 surprising decrease in crime."

MY ANnapolis VALLEY HOME

As I have seen several poems
 written on "My Annapolis Valley
 Home," I simply thought that I would try
 to write a few lines on what I see in
 the Annapolis Valley.

Hon. J. B. M. Baxter wanted to
 know whether the minister of rail-
 ways could tell the House whether
 Sir Henry Thornton might have ac-
 quired a castle or two in London,
 but to this there was no reply.

In answer to a plea by General
 Ross of Kingston for the housing of
 the various government offices of

When the first green blades com-
 mence to shoot up
 The heads to the pastures are sent,
 When they graze peacefully all day,
 Always guarding the pasture fence.

When the snow mantle leaves the
 ground,
 The men with the ploughs are seen,
 As they plough deep furrows in the
 mellow land
 To plant their vegetables and grain.

When the first green blades com-
 mence to shoot up
 The heads to the pastures are sent,
 When they graze peacefully all day,
 Always guarding the pasture fence.

How a gray picture it evening to see
 The cows at the pasture gate
 Waiting patiently for human hands to
 come.
 And to see them of their milk.

What better time than when the or-
 chards are in bloom
 To watch the bees as they flit from
 tree to tree;
 Or to listen to the birds as they
 chaunt their merry songs
 To tell us that May is here.

Then the lovely days of June follow
 With the soft mellow breeze
 That waves the grass white with
 daisies,
 And one's heart with joy seems to
 thrill.

Next the hot days of July come,
 And the men in the hay fields are
 seen
 As they cut and dry the fragrant hay,
 And stow it in the mows away.

After cutting the hay the merry group
 Go to the orchard where the trees
 are laden with fruit.
 To pick the apples, and sort them out
 right
 And pack them in barrels headed
 tight.

Between times the group go to the
 harvest fields
 And gather in the vegetables and
 grain
 So when Winter time comes around
 Their barns and houses will be full.

When the snow mantle covers the
 ground again
 Every heart is merry with Christmas
 cheer,
 And each one kneels and prays at
 night
 To thank God for living here.

 The lease of the present offices in

**GOVERNOR COX OF MASSACHUSETTS
 VISITS THE MARITIME
 PROVINCES**

Governor Channing H. Cox, of
 Massachusetts, Mrs. Cox and party,
 left Boston on Friday, July 13th, on
 the S. S. "Governor Dingley" for St.
 John, New Brunswick. When Premier
 Veniot of New Brunswick was in
 Boston with the New Brunswick
 Tourist Association in June, he ex-
 tended a cordial invitation to Gov-
 ernor Cox to visit New Brunswick,
 which he is now pleased to do.

At St. John a Committee, consist-
 ing of Premier Veniot, the Mayor of
 St. John, and leading citizens, met
 Governor Cox and party at the wharf.
 They were entertained in St. John
 over Sunday, sightseeing and motor-
 ing up the St. John River.

From St. John the party proceeded
 at 1.40 p.m., Monday, 16th inst., by
 private car, supplied through the
 courtesy of the Canadian National
 Railway, to Truro, staying there
 over Monday night. Next morning,
 18th inst., the party proceeded to
 Platon for the big Platon Celebration.

On Wednesday morning, July 18th,
 Governor Cox and party proceeded to
 Halifax, arriving there at noon. Pre-
 mier Armstrong, Mayor Murphy, and
 a distinguished committee met the
 train on its arrival and escorted the
 party to the Provincial Building,
 where a reception was held in the
 Legislative Chamber. The Governor
 and party visited the Waegwoltic
 Club on the Northwest Arm, during
 the evening and witnessed the won-
 derful scene of pleasure and motor
 boats, which cannot be surpassed in
 America. The beautiful suburbs of
 Halifax were seen by auto during the
 afternoon.

On Thursday morning, through the
 courtesy of George E. Graham, Gen-
 eral Manager, Dominion Atlantic Ry.,
 the Governor and party proceeded to
 charming Kentville, and stayed over
 and took a drive through the far-
 famed apple orchards. Friday was
 spent at beautiful Digby and a night
 spent there at the "Pines" Hotel. On
 Saturday, July 21st, the party pro-
 ceeded to Yarmouth, taking the steam-
 er the same evening for Boston.

The trip of Governor Cox was one
 of unusual interest, for it is the first
 time a Governor of Massachusetts
 has ever made a tour of the Maritime
 Provinces. The trip was made pos-
 sible through the courtesy of the
 Eastern Steamship Lines Inc., The
 Canadian National Railway, Domini-
 on Atlantic Railway, the Premiers
 of the Provinces and Mayors of the
 cities en route. Undoubtedly Gov-
 ernor Cox received a cordial welcome
 everywhere. The trip is looked upon

as a great incentive for persons from
 New England to visit the Maritime
 Provinces, the great Summer Tourist
 Playground of America.

The interest created this season in
 development of tourist travel from
 New England to the Provinces, is
 something phenomenal, but it is but
 a prelude to the thousands upon
 thousands who will flock there next
 year, from the Atlantic to the Pacific,
 to commemorate the "Old Home Sum-
 mer of 1924". In all these great de-
 velopments the Canadian Club of
 Boston is the outstanding and great-
 est single factor in New England.

A RARE WHEAT

A trip on the S.S. "Prince Albert",
 between Kingsport and Parrsboro,
 can be enjoyed by everyone, be he
 visitor or native, with a few hours'
 leisure, as it is less than two hours'
 sail across the land-locked Minas
 Basin. Wolfville is also a port of
 call, adding further interest to the
 trip.

At this season Nature's handiwork
 is everywhere evident, but for real
 loveliness the view from the deck of
 the "Prince Albert" as she steams
 out of the busy little ports of Wolf-
 ville or Kingsport, is unsurpassed
 anywhere on the Continent. Dykes
 of pale green and undulating mead-
 ows of a darker hue, with a cluster
 of white cottages in the foreground
 flanked by red flats uncovered by the
 receding tide, furnish a picture for
 the artist. Again the eyes are con-
 fronted by majestic Cape Blomidon,
 with a fleeting glimpse of Cape Split
 and in the distance the purple, sap-
 phire green or silver of the Parrs-
 boro shore, changing color with each
 passing hour as brilliant sunshine
 and fair blue skies may decree. The
 scene inspires a feeling of restful
 appreciation of the wondrous beauty
 with which Nova Scotia is endowed
 and well rewards the time taken for
 the trip.

CLEMENTSPORT

Capt. M. N. Rice, of Boston, who
 has been spending a few days at his
 home, left for Boston on Thursday
 last to join his ship, the "Doris
 Camlin". During his stay he got
 Mr. Roy Merritt to take him on a trip
 through the Valley accompanied by
 his wife and little son and father,
 Mr. A. M. Browne. On their way
 they called on friends at Belleisle,
 Bridgetown, Paradise and Lawren-
 ceton, and returned home in the wee
 hours of the night. Thanks to Mr.
 Merritt for his safe arrival.

Mr. and Mrs. I. F. Brown and son,
 Clyde, and Mr. and Mrs. Alton Brown,
 of Lawrenceton, motored to Clem-
 entsport on Wednesday last and were
 guests of their cousins, Capt. and
 Mrs. Milton Rice.

Miss Ida Freeman, of Goffstown,
 H. C., spent a few days with her
 cousin, Arthur M. Brown.

Mr. Anisie Brown of Lawrenceton,
 spent Dominion day with his father,
 A. M. Brown.

**FORMER PASTOR RECALLS DAYS
 OF FIFTY YEARS AGO**

South Rawdon.—A pastor of almost
 fifty years ago was the speaker on
 Sunday at the Centenary celebration
 service of the Rawdon Baptist Church.
 Rev. Maynard Brown, D.D., was pas-
 tor of the church in 1876 and was
 ordained by this church forty-seven
 years ago at Ellershouse. He spoke
 of the days long-since past, seeing
 many changes since that day. Dr.
 Brown took as his text, John 4:29:—
 "Come, see a man, which I tell me all
 things that ever I did; is not this
 the Christ?"

**TWENTY THOUSAND MAJORITY
 AGAINST BEER BILL IN
 MANITOBA**

Winnipeg.—Winnipeg and Manitoba
 electorates decided emphatically that
 they did not want public drinking
 places. The vote against the beer
 and light wines bill, allowing these
 beverages to be sold in the dining
 rooms of the hotels of the Province,
 is about 15,000, and may go to 20,000.

Winnipeg went dry by over 10,000
 on this measure, where a few days
 ago it went wet on Government sales
 by 26,000. The wet majority in the
 country and city in the last referen-
 dum was 40,000; the dry majority in
 all Manitoba will probably reach 20-
 000. The dry vote was about the
 same on the last referendum, and
 the wet vote fell away by many thou-
 sands.

 TWIN BOYS**

Tells How Lydia E. Pinkham's Veg-
 etable Compound Relieved Her of
 Inflammation and Great Weakness

West St. John, N. B.—"I was in a
 general run-down condition following
 the birth of my twin boys. I had a great
 deal of inflammation, with pains and
 weakness. Finally my doctor recom-
 mended Lydia E. Pinkham's Vegetable
 Compound. He said that your medicine
 would be the only thing to build me up.
 I am sure he is right, for I am feeling
 much better and am gaining in weight,
 having gone down to ninety-three
 pounds. I was in bed for over a month,
 but am up again now. I have recom-
 mended the Vegetable Compound to my
 friends and give you permission to use
 my letter."—Mrs. ELLEN A. RITCHIE,
 82 Rodney St., West St. John, N. B.

There are many women who find their
 household duties almost unbearable
 owing to some weakness or derangement.
 The trouble may be slight, yet cause
 such annoying symptoms as dragging
 pains, weakness and a run-down feeling.
 Lydia E. Pinkham's Vegetable Com-
 pound is a splendid medicine for such
 conditions. It has in many cases relieved
 those symptoms by removing the cause
 of them. Mrs. Ritchie's experience is
 but one of many.

 RECIPIENT OF APPRECIATIVE
 ADDRESS**

Mr. B. S. Banks, retiring Principal
 of Lawrenceton schools, where he
 has presided with marked ability for
 the past thirteen years, was the re-
 cipient of the following appreciative
 address from the School Board on
 behalf of parents and citizens.

Sir:—We wish to express the high
 appreciation of the excellent services
 you have rendered as Principal of the
 Lawrenceton schools during the
 period of thirteen years, the longest
 term of any Principal in its history.

The school has always enjoyed a
 high standard of excellence, but we
 feel that during your long principal-
 ship its highest peak was reached.

Many young men and women have
 passed out from your training who
 will look back on you as having been
 instrumental in giving them an ex-
 cellent mental equipment. They will
 make their mark in the world largely
 through your painstaking efforts. For
 one's pupils to look back in after
 years with gratitude to their teacher's
 stimulus and inspiration is one of a
 teacher's reward. In consideration
 of the large numbers who have been
 so fortunate as to have had you as
 their teacher, we feel that your re-
 wards will be rich.

It is with deep regret we learn that
 you have decided to retire from active
 teaching as we would have been glad
 to have had you remain with us.

Since you have decided to retire,
 we wish both to you and your good
 lady many years of health and hap-
 piness.

Signed on behalf of the parents and
 citizens of Lawrenceton school sec-
 tion.

WEDDING

Wright and Nichols.

On Thursday, July 12th, at the home of Mr. and Mrs. J. Manning Nichols, of Deep Brook, a quiet, yet pretty wedding was solemnized at twelve o'clock noon. The contracting parties were Miss Harriet Margaret, only daughter of Mr. and Mrs. J. M. Nichols and Dennis Basil Wright, eldest son of Mr. and Mrs. Gardner Wright of Princedale. Rev. I. D. Lytle, pastor of the Baptist Church, performed the ceremony.

The bride was attended by Mrs. Carl Nichols, matron of homes. The groom was supported by Mr. Carl Nichols, brother of the bride. The bride wore a pretty gown of white silk voile and carried a large bouquet of pink roses and snap dragon. The parlor was prettily decorated with ferns and flowers.

After congratulations the happy company retired to the dining room where a dainty luncheon was served. At four o'clock the bridal couple, accompanied by Mr. and Mrs. Carl Nichols, left by auto for a trip thru the Valley and South Shore.

They received an enthusiastic send off to which the elaborate decorations of their car gave testimony. The bride is one of Deep Brook's most popular young ladies and has a host of friends here and elsewhere. The groom is a successful teacher and has made many friends in towns where he has taught.

Mr. and Mrs. Wright leave here in August for Advo care where he has accepted the Principalship of the school there.

Obituary

Robie Freeman Starratt.

There passed away on June 28th, at Stoney Point, New York, Robie Freeman Starratt, only son of the late Col. W. E. Starratt, of Paradise, N. S. The remains were forwarded to Paradise, N. S., and on the arrival there on July 2nd, were taken to the home of his cousin, Mr. H. D. Starratt. On Tuesday a funeral service was held at the house conducted by Rev. W. S. Smith, assisted by Rev. J. H. Balcom, appropriate music being rendered by the Paradise male quartette, after which the remains were laid to rest in the family lot in the Paradise cemetery.

Mr. Starratt was in his 58th year, and was the last of his family, his sister and her husband having passed away only three months previously.

UNITED CHURCH NOTES

The service this coming Sunday evening will be of the nature of a special musical service.

The Sunday School picnic was held this Tuesday at Clementsport, a fine company going and an extra good time experienced.

GRANVILLE CENTRE

Miss Estelle Eaton, of Feller Institute, Grand Ligne, Que., and Miss Vera Eaton, who for two years has been teaching the preparatory department in Parrsboro Academy are spending their vacation at the home of their brother, V. A. Eaton.

Miss Isa Roney, of Annapolis, and Miss Annie Roney, Principal of Berwick school, are visiting their mother, Mrs. Mary Roney.

Mr. Carroll R. Gillatt, manual training teacher at Sydney, C.B., is spending the holidays with his parents, Mr. and Mrs. W. A. Gillatt.

Mrs. E. P. Gillatt, who for a number of years has been matron in the "Home for Aged Ladies", St. John, N.B., has been compelled to resign her position on account of ill health. After spending a few weeks at her home here she will go to Toronto to visit her daughter.

Mr. Ivan S. Troop, of the General Electric school, Lynn, Mass., is at home for the holidays.

Mr. Gregg A. Gillatt, of Alberta, is spending a few weeks with his parents, Mr. and Mrs. E. P. Gillatt.

Mrs. Cecil Hadley, two children, and Miss Hannah Tanch, Rosedale, Mass., are guests of their brother, Mr. Boyd Tanch.

Mrs. Wm. W. Troop is visiting her sister, Mrs. G. O. Fulton in Truro.

Mr. Norman Wade and Mr. Arthur Milbury are making extensive improvements on their houses.

Mr. and Mrs. Spibney, of Greenwood, Kings Co., were recent guests of Mr. and Mrs. Hattie Daniels.

Mr. H. V. McCormick has returned from spending a few weeks with his brothers in Massachusetts.

Mrs. Ansie Hudson has moved into her new home recently purchased from Miss Ida Wade.

Miss Annabel Condon and little Iris Shaffner, Lower Granville, were guests of Mrs. Simcoe and Mrs. Norman Willett.

On Thursday evening, July 5th, instead of the regular social service in the U. B. Church, a Roll Call was held, conducted by Pastor Gibson. Previous to the address which was appropriate for the occasion, Mr. V. A. Eaton, Church Clerk, called the membership roll, which was responded to by nearly every member, resident members in person and non-resident by letter. A thank-offering of \$46 was received.

On Thursday afternoon, July 12th, the Annual Meeting of the W.M.A.S. was held at the home of the President, Mrs. H. A. Goodwin. An invitation had been extended the Society at Granville Ferry. About thirty in all were present. After the usual devotional exercises and business President introduced our visiting Sister from Granville Ligne Mission where address was listened to with much interest. As Miss Eaton is from our church and society her mission has a double interest for us at home. After a solo by Mrs. V. A. Eaton, Pastor Gibson spoke to us on the work in Bolivia, S.A.A. Social hour and tea followed which was thoroughly enjoyed by all. Offering for missions, \$25.

The ladies of All Saints' Anglican Church are holding weekly ten cent teas in their "circle". Mrs. Willard Withers and Mrs. LeBaron Troop have recently entertained. Proceeds are for church purposes.

Mr. Ronald Loney, B.A., of Paradise, student at Harvard University, Mass., spent the week-end here, the guest of Mr. and Mrs. V. A. Eaton.

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How Is It Done?

Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistence" in poorly thought out methods.

Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so again.

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management, "boarder" milkers, scrub beeves, poor quality hogs or non-profitable hens.

That even under present conditions profits may be made is testified by shrewd, skillful, observant and hard-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speed, with excessive borrowing and the often consequent disaster.

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more high-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rotations including clover and ensilage crops (corn, sunflower, pea and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing seed or interested in fruit? We can give you information that will help you. Do you breed live stock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have some that will help you.

We have published and have for free distribution 300 different reports, bulletins and circulars dealing with matters of interest to you. Ask for what you want, or for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

Crop Returns Should be Increased

On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922 as contrasted with all-Ontario average crop costs and crop profits are given below. The all-Ontario figures are in brackets:

	Cost per acre	Profit per acre
Hay	\$21.13 (\$13.50)	\$11.21 (\$5.09)
Corn for		
Forage	\$47.50 (\$33.75)	\$10.38 (\$2.86)
Oats	\$26.47 (\$19.32)	\$ 7.33 (.04)

Similar results can be shown from the Dominion Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs wisely applied up to a reasonable point always increase crop profits. This is true on the Experimental Farm—and on any and every farm.

TELLING CANADA

If in the event of war with a rival nation, the nation, for the sake of argument, that violates one of these treaties—could Canada—could South Africa—hold its own without sending out S. O. S. to the Mother Country? It is no answer to say that the Mother Land, for her own interests, would

voluntarily come to the youngster's aid. That is beside the point. With sovereign rights should go sovereign responsibility if one gets into trouble; and until the Dominions, by very material sacrifices they have not yet made, take adequate shares in a common Empire defence fund, it is the most transparent nonsense for them talking sagely about sovereign or even equal treaty or other rights with Westminster.

GRANVILLE STREET RESIDENTS STARTED When Big Car Crashed Into the Front Room.

A Packard automobile, owned by James Farquhar, ran amuck on Blower Street shortly after five o'clock last week and was only stopped when it crashed into a house, 21 Granville Street, at the foot of Blower Street.

The car crashed into the front of the building, stove in part of the wall, tore out the window sashes and penetrated far enough into the room in the front of the residence to damage the piano. In addition to causing extensive damage to the property, the car was also the means of greatly alarming the residents of the house, who were, luckily, at the time of the accident, in the rear of the building.

The car was parked on Blower St., west of Barrington Street, and it is believed that the brakes must have worked themselves loose, setting the car in motion. At the time there was little traffic at the corner, and several pedestrians who were crossing the street were able to get out of the way in time. Although gathering momentum as it descended the hill, the car kept a straight course and crashed into the building almost directly at the foot of the hill. Had the car not kept a straight course, or had any occupants of the residence been in the front of the house at the time of the crash, the accident might have been much more serious.

SAYS WIRELESS AGE IS COMING

British Scientist Predicts Remarkable Progress in the Near Future.

London.—Under the heading, "Coming of the Wireless Age", a British scientist contributes a striking article to a London newspaper, in which he predicts that wireless will be used in the near future for directing ships at sea, train and trolley services, traffic control on the road, fleets of battleships and aircraft. "It will be possible," he says, "to direct the path of everything moving on the surface of the earth, not even excepting human beings, by means of wireless."

The initial step in harnessing this potent and little-known force was the establishment some weeks ago of a wireless lighthouse on Inchkeith Island, in the Firth of Forth. By means of this "lighthouse", ships can be directed through the dangerous channels of the Firth by wireless, so that there is no possibility of their running ashore or being wrecked even on the darkest night or in the densest fog.

Steps are being taken, in conjunction with the British Board of Trade and the meteorological office, to internationalize wireless direction of ships at sea. At the present moment there is lying in the Port of London a ship that has been specially fitted with powerful wireless receiving sets to give demonstrations of this new method of navigation in all the principal ports of the world.

Setting out from London, this missionary ship will sail for China, via the Mediterranean, Indian Ocean, and the Straits, and hence on to North and South America, and back across the Atlantic to Europe and South Africa giving demonstrations at every big port en route.

The most ambitious effort, however, will be a cross-Atlantic aeroplane flight which is to be made later in the summer. The machine will carry both pilot and observer, but their attentions will be confined to the actual flying side.

Setting out from Newfoundland, for the first 600 miles of its flight the aeroplane will be directed by the Glace Bay Wireless Station. Then it will be picked up and navigated by a wireless "lightskip", cruising in mid-ocean, to a point where control will be transmitted to Ongar, the big operating station in this country. The whole 2,000 miles of flight will be directed by wireless.

THE REPORT OF THE COMMISSION ON THE U. S. COAL INDUSTRY

The Findings After an Eight Months' Investigation By Men Appointed the United States Gov't.

Washington.—The Federal Coal Commission, in a report made public, contended the anthracite mining industry should continue in operation under private ownership, but under official scrutiny and open publicity as to costs and prices, wage contracts between operators and mine workers should be made enforceable by penalties against infraction from either side, and power should be vested in federal government to take over and operate the mines in any emergency resulting in cessation of operations.

Concluding an eight months' investigation of the industry the commission declared anthracite to be a limited natural monopoly, non-traded, exhausted, and affected by a public interest which makes it a subject for special governmental treatment.

Without interpreting the facts developed by the inquiry, the commission found that of each dollar paid for anthracite coal by consumers, half went to cost of coal at the mine, one fourth to freight and a quarter to the retailer. Operators and retailers, it was declared, divide eleven or twelve cents out of each dollar in profits while labor cost was 12c. \$1.55 in 1913, has advanced to \$1.12 per ton. The average worker gets "the income for a family of five", the report said, between \$1,500 and \$2,000 a year.

The commission finds that the anthracite output has not kept up with the increase of population, and unless additional miners enter the industry, it is in danger of increasing the output. Improved practices in the use of anthracite are urged and recommendations made to reduce the number of market sizes, for better impaction of coal so as to prevent loss of quality, and the larger use of substitutes.

It finds the legal right to enter of a man to work as he pleases. It finds also the right of collective bargaining. It distinguishes between economic and political strikes and holds that under the guise of fixing wages and working conditions a campaign to advance a political theory should not be waged. It insists that collective bargaining implies collective keeping of the bargain, and suggests penalties for the breach thereof of any new agreement entered into.

Summer Complaints Kill Little Ones

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours they may be beyond aid. These tablets will prevent Summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are growing children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

COLLEGE FEDERATION

Inquiries as to the future of King's College elicit the information from official sources that it is now practically certain that the College will move immediately to Halifax and carry on its work next year in co-operation with Dalhousie University.

Several details yet remain to be settled, but they are not of such a character as to interfere with the proposed alliance. On the other hand the negotiations are not finally completed, and no information can be given out as to the exact conditions of the federation.

Rumor has it that Mr. Allison authorities are in favor of the general principle of federation and removal, but will take their own time about putting it into effect.—Windsor Tribune.

DIED AT AGE OF 106 YEARS

At Hunter's Lodge, Annapolis Co. N. S., there passed away one of our oldest neighbors, Mrs. Annie Woodworth, having reached the advanced age of one hundred and six years.

Her mind was able to recall events which for the most of us have been history for many years. Her late home being somewhat removed from our village did not afford us the privilege of knowing her as intimately as we desired, but as we had opportunity we were glad to find her ready to claim Christ as her personal Saviour. She leaves to miss her who had remained so many years, five daughters, a son and many interested friends.—Com.

MICMAC ANNUAL CELEBRATION

St. Anne's Day, July 26th, is the annual celebration of the Micmac Indians and special gatherings are to be held at the principal reservations throughout the Province. It is expected that the one at Bear River will be of great interest this year and besides the religious celebration on the day itself there may be a programme of sports on the day following.—Annapolis Spectator.

CAPTAIN HOSE ON NAVAL POLICIES

Stresses Importance of Sea Protection to Economic Welfare of Country.

Ottawa.—An insight into the importance of the British navy to the country was given the members of the Rotary Club of Ottawa at their weekly luncheon, when Captain W. Hose, R.C.N., director of the naval service, Ottawa, delivered an address on the "relation of the navy to the economic life of the country."

The speaker stated that he was basing his remarks on the firmly founded belief for the present and for some time in the future, navies would be necessary, and that complete disarmament was impossible for some time to come.

The speaker referred to the controversy concerning the establishment of the British naval base at Singapore, which when completed, would control the sea routes about Australia and other British Dominions in the Pacific. How did it affect Canada?

"Our trade with these countries amounts to about \$21,000,000 a year, and of this the tin trade amounts to about a million. What will happen if the tin trade was interfered with? The canning business in Canada will go out of business and fishermen, dairymen and fruit growers will suffer to the extent of many millions a year."

Canada allowed \$1,500,000 yearly for the protection of her own trade by her own ships. Under the most stringent economy this amount did not go very far, and the problem of the naval service was to give a maximum amount of protection for the amount granted. The best way to assure this protection that had so far been arrived at was the concentration on the trade outlet of the country and with an active force of 400 men, and a reserve of 1,500, the department was doing its utmost.

THE RAVAGES OF THE POULTRY RED MITE

(Experimental Farms Note)

Few keepers of poultry realize the full extent of the injury done by red mites. With the warmer weather the mites flourish and multiply until the poultry buildings become infested with these pests, and the harm is done.

The red mite is the most dangerous of the external parasites that attack fowl, and if allowed to spread unchecked far worse losses might accrue than breeders imagine.

These parasites are most injurious to young chickens and brood hens. The persistent loss of young chicks and the failure of hens to bring off good hatches are often due to the irritation caused by the unsuspected presence of the red mite.

The attacks of hoards of mites weaken and predispose the fowl to many maladies, as well as materially reducing the yield of eggs.

Some prominent scientists are convinced that the bite of the mite is venomous and that even worse disaster might result than merely weakened condition brought about by the sucking of the blood.

Undoubtedly many cases of disease and debility occurring in the late Spring, Summer and Autumn are directly attributable to these pests; therefore information that will render easier their recognition and extermination should be of interest at this season.

Many people are unaware of the presence or appearance of the mite. They may not visit their poultry houses at night, and the parasite is nocturnal; it dislikes light. The adult is seldom found on the fowl in the day, but the larvae from the deposits of eggs and dirt that have accumulated in the cracks and crevices of the house and fittings, and climb to his roosting victim to gorge himself with blood.

In cold weather the mites are practically dormant, and are seldom seen; but the advent of Summer will bring them forth in their myriads, and unless vigorous methods are taken to check their activities, in some cases the death of the infested fowl will follow, or the whole flock will become generally anaemic and unproductive.

The presence of the mite may be readily detected by a close examination of the roosts and nest boxes. The practice of running one's hand along underneath the roosts once a day is advisable, as some parasites will adhere and can be seen and felt distinctly.

Immediate extermination is vital, and steps should be taken at once to rid the building of all material that will harbor and protect the mites. Fittings should be removed, dirt and filth brushed out with a stiff broom, and the inside of the buildings and furniture thoroughly saturated with a powerful germicide by means of a spray pump or brush.

Some of the coal tar by-products used as sprays vary in efficiency when used in economical strength solutions; but where the mites are evident in small batches and only in places, these insecticides may be applied with a brush in their full commercial strength.

A five or ten per cent. solution of carbolic acid is very effective, but not without danger as a spray. It can, however, be recommended in proper precautions are taken.

The most economical and effective preparation is a five to ten per cent. solution of coal oil and soap suds, which should be applied twice with an interval of two or three days between applications.

WALTER T. SCOTT, Poultry Division, Central Experimental Farm.

SIR HENRY "REGRETS" ACTION BY SENATE

Prince Albert.—In a reply to a telegram from the Prince Albert Board of Trade, to Sir Henry Thornton, President of the Canadian National Railways, urging special consideration for northern Saskatchewan's needs for branch line completions, Sir Henry states:

"Regret action by Senate precludes our doing construction work on any branch lines in Canada this year."

RESPONSIBLE FOR MARK'S COLLAPSE

London.—The German government, itself is responsible for the catastrophic depreciation of Germany's currency, is the finding of the Reichstag's committee of inquiry which issued its report. The report, adds the message, says the collapse of the market was particularly due to extensive purchases of foreign coal by the railway administration without notifying the Reichbank or other authorities.

RAISING ONIONS

A farmer in the Middle West conceived the idea that onions would be profitable to raise, and on the strength of it he produced a big crop for the east side of New York market, says the Los Angeles Examiner. When asked how much money he made, he shrugged his shoulders and remarked disgustedly:

"De ducks got 'em." That sounded interesting and he was asked to explain.

"Well, it was like dis. I shipped 'em to de commission man and he send me a paper which said how much he got for dem; den he deduck his commission, he deduck freight, he deduck spoilage, he deduck cartage, he deduck some oder ting, an' me get \$1.72."

WEAK DIGESTION DUE TO POOR BLOOD

Perfect Digestion Will Come If the Blood is Made Rich and Red.

There is no tonic for the stomach that is not a tonic for every other part of the body. But the stomach depends, as does every other organ, on the blood for its energy.

There can be no perfect digestion unless you have rich, red blood. This is scientifically true. The way, then, to tone up the stomach is to enrich the blood.

Most stomach remedies try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work, as nature intended. There is no pleasure in eating predigested food. Tone up your stomach, then your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin, you need Dr. Williams' Pink Pills to restore the strength to your blood; in addition use care in the selection of your diet and your stomach trouble will soon pass away.

Mrs. Charles La Rce, Fruitland, Ont., suffered severely, and tells what Dr. Williams' Pink Pills did for her. She says:—"I was a terrible sufferer from stomach trouble. The doctor called it nervous indigestion. Everything I ate distressed me, and I became so weak and rundown I could hardly walk. I had a pain around my heart most of the time, and I slept very poorly. I was afraid I would not get well, as the doctor's medicine was not helping me. In this serious condition Dr. Williams' Pink Pills were recommended and I decided to try them, and I can truthfully say that they made me feel like a new person. I will always give this medicine a word of praise when I get a chance for I think there is nothing to be compared with it for dyspepsia, or any one weak, nervous or rundown."

You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams Medicine Co., Brockville, Ont.

CHIPMUNK AND JUNCOS

Walking out from Hampton to Bridgetown one morning early in July, my attention was attracted by a soft chirping just over a fence and I stepped up to the fence to see what was there. A few feet from the fence, on a stone, sat one of our striped squirrels commonly called the chipmunk. It was probably a young one, as it seemed rather under size. About two feet away on another stone sat a junco watching the squirrel.

Presently the squirrel jumped down between the two stones, and the junco at once flew down close to the squirrel and began fluttering about it in about the manner that I had read of in cases of birds being "charmed" by snakes. Personally I am very skeptical about this charming business and had never heard of a squirrel having this power, so the little scene before me was very interesting. At this point another junco arrived and both birds fluttered around the squirrel making a demonstration which, however, was so mild as to seem almost friendly. They did not seem frightened or excited, and the chipmunk hardly seemed to notice them although they kept lighting in the grass only a few inches from it, and several times one of them flew right onto the squirrel's back where it must have rested slightly for a moment before dropping on to the ground a few inches away.

Presently the squirrel moved toward a bush, the birds following and continuing their strange conduct. When the squirrel went under the bush, they flew about on the lower branches. Then the squirrel came out the lower end of the fence, the birds following and perching on the fence quite near it. As I was silent and motionless the little creatures did not seem to notice me. They came my way and the squirrel paused for a few seconds on the toe of my foot. The birds flew past very close to me. A rod or two down the fence and the squirrel disappeared in some bushes, the birds flew away, and the chase was over.

I am inclined to think that the two juncos were mates and probably had their nest near the spot where I first saw the squirrel. No doubt they did not care for its company and were trying to drive it away, but so gentle were their efforts that the squirrel was in no hurry and only moved along as it felt inclined to go.

Quality Plus

When you buy King Cole Tea you expect quality. But you also look for something more—for a certain taste that is pleasant to you, and that will be repeated in every cup you make. The quality is produced in Nature's Garden; but the taste is the outcome of expert blending which gives King Cole its characteristic rich flavor—the flavor you like. Is it not worth much to have your cup of tea always—as you like it?

GIRL OF SMALL MEANS MAY BE FASHIONABLE

Never has there been a time when it was such a simple matter for a girl on a small dress allowance to have clothes that are not only becoming and appropriate, but possess the look of sophistication which distinguishes frocks that are just pretty. This is particularly true of country clothes which grow simpler and simpler. In these, color plays an important part and the use of handwork that is perfectly executed to distinguish it from the rather mediocre type that has been turned out in such quantities.

On the sheer frocks of voile, chiffon and handkerchief linen infinitesimal tucks and fine hemstitching are employed with telling arrangements are possible and the result is always attractive. Much has been done with pleats, for nothing seems to have escaped their influence.

This Summer there is an almost unprecedented vogue for white and the newest exponent of this mode is revealed in a costume which combines a skirt of white pleated crepe de chine and a white crepe blouse that boasts a jabot frill at one side. The frill is piped with green. It is by a discriminating choice of accessories that a woman reveals her knowledge of fashion. Seemingly unimportant these trifles have a way of making or marring a costume which is a little short of amazing. One of the most effective means of introducing color into one's costume is thru the medium of accessories. A choicer of amber or lapis beads, a gay parasol of cretonne or batik silk, a beautifully woven scarf of linen to protect the neck from a strong sun or a belt of interwoven strands of leather and fine china beads are all trifles, but contribute much to the effect.

RESIDENCE OF MRS. STEPHEN WALKER DESTROYED BY FIRE

The residence of Mrs. Stephen Walker, who lives near Walker's Brook, a short distance below town, was totally destroyed by fire on the morning of July 4th at an early hour with practically all its contents. Mrs. Walker was absent at the time on a visit to her sister. Her daughters, Miss Mildred and Miss Nellie, were at home and their cousin, Miss Mary, with them. About 2.30 they were awakened by smoke and flames bursting in upon them, giving them only a few moments to snatch up clothing and a few other belongings and make their escape. Miss Nellie got out through an upstairs window. The cause of the fire is believed to have been a defective fuse. Loss over three thousand dollars and insurance very light.

A most fortunate circumstance was the fact that the household dog became restless at the presence of smoke and his barking aroused the young ladies just in time to extricate themselves from a most perilous situation.

Shampoo This Way with Olive Oil and you will have hair with gleam and softness of silk

Olive oil for the shampoo, say leading hair specialists. Olive oil for the shampoo, agree women who have learned the secret—who are admired for their lovely hair. And this, specialists tell you, is why: Olive oil cleanses thoroughly but gently. It never leaves hair dry and brittle—robbed of the delicate gloss and sheen that means beauty. It washes away all dirt and oil. Dissolves and removes clogging dandruff. It leaves hair fluffy and soft. But never dry, never dull. Pleasant and shimmering as new silk, instead.

And this means beautiful, attractive hair—without which no beauty of face or dress is quite sufficient. Olive oil treatment in its finest, most convenient form, is PALMOLIVE SHAMPOO. Thousands and thousands of women use it today. They find it most economical—for a treatment that costs a great deal when given by specialists. You may have a 15c trial bottle free, by sending the coupon. Or you can get full-sized bottles at your dealer's. A single shampoo will amaze you.
