The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

GROUND WHITE PEPPER

LABORATORY

INLAND REVENUE DEPARTMENT

OTTAWA, CANADA

BULLETIN No. 250

GROUND WHITE PEPPER

OTTAWA, February 19, 1913.

WM. HIMSWORTH, Esq.,
Acting Deputy Minister,
Inland Revenue.

SIR,—I beg herewith to hand you a report upon two hundred and seventy three samples sold to our inspectors as Ground White Pepper in September and October of last year. The inspection was made throughout the Dominion, and may be taken to fairly represent the article as found upon the Canadian market.

The result of the analysis may be summarized as follows:

Found genuine.....	215	samples.
“ adulterated.....	53	“
“ doubtful.....	5	“
Total.....	273	“

It thus appears that adulteration in White Pepper amounts to 19% of the samples collected. The last report upon White Pepper is contained in Bulletin No. 203, of March, 1910; on that occasion one hundred and forty samples were reported and adulteration amounted to 17%.

It will be seen that both White and Black Pepper continue to be among the most extensively adulterated foodstuffs on the market.

I beg to recommend the publication of this report as Bulletin No. 250.

I have the honour to be, Sir
Your obedient servant,

A. MCGILL,
Chief Analyst.
