The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

**LABORATORY**  
OF THE  
**INLAND REVENUE DEPARTMENT**

OTTAWA, CANADA.

BULLETIN No. 159.

**OLIVE OIL.**

OTTAWA, August 4, 1908.

W. J. GERALD, Esq.,  
Deputy Minister of Inland Revenue.

SIR,—I beg to hand you a report upon 82 samples of Olive Oil, collected by our Inspectors throughout Canada, in May last.

Their examination in this laboratory results in the following classification :—

Genuine.....	64	samples.
Adulterated.....	15	“
Sold as Salad Oil, without the use of the word “Olive”....	3	“
Total.....	82	“

It is to be noted that several of the samples classed as adulterated are described as “ordinary Olive Oil,” “Huile d’Olive” or “Olive Salad Oil.” These names involve the use of the word “Olive,” and cannot be regarded as justifying the sale of an article which is not Olive Oil.

Olive Oil has been made the subject of inspection on three different occasions, including the present ; and the results of previous inspections will be found in Bulletins 67 and 111 of this department. The following synopsis is of interest :—

Bulletin.	Year.	Total Samples.	Genuine.	Doubtful.	Adulterated.	Per Cent Adulterated.
67.....	1899	75	40	5	30	40.0
111.....	1905	108	66	26	16	14.8
159.....	1908	82	64	3	15	18.3

It is to be noted that under the heading “doubtful” I have included such samples as are sold as “Salad Oil,” without the use of the word “Olive.”

I beg to recommend that this report be published as Bulletin No. 159.

I have the honour to be, sir,

Your obedient servant,

A. MCGILL,

*Chief Analyst.*
