Strike Cloud Still Hovers Over Britain

Employs on London Underground Railways May go Out—Thousands of Persons Stranded at Seaside Resorts—Food Supplies Sent to Isle of Man by Warship.

LONDON, Aug. 18.—Scores of thousands of railway employes throughout the United Kingdom are on strike to-night and traffic everywhere is badly disorganized.

The leaders of the Amalgamated Society of Railway Servants declare that 220,000 men or nearly half the total employes of the railways of England, Ireland, Scotland and Wales, have answered their call to stop work. On the other hand, the managers of the railways say these figures are greatly exaggerated.

There is no method by which verification of either assertion is possible, but the fact is patent that the railway service all over the country is completely demoralized, even a limited passenger service being impossible.

Never before have the ministers of a British government made such earnest efforts to ward off a great labor war; yet to-night they have been unable to stay a movement that promises to entail inconceivable, possibly misery, to millions of people.

London an Armed Camp.
London has the appearance of an armed camp, for on all sides are to be seen soldiers, rifles in hand and leaden bullets in belts. While from the dome of St. Paul's the engineers are keeping in communication with the general staff by heliographic signals in the daytime and by electric flashes at night.

Undeterred by the failure of their negotiations on Thursday to effect a settlement of the dispute between the railway managers and their men, the whole of to-day again was spent by Premier Asquith, David Lloyd-George, the chancellor of the exchequer, and Sidney Buxton, president of the Board of Trade, in fruitless conferences with the leaders on both sides of the controversy.

An official statement issued at the Home Office at a late hour to-night says the strike has developed all over the country and produced a widespread, the only partial dislocation of the railway services. It adds that as far as its present effects are concerned, over two-thirds of the railway men remain at their posts and the companies are receiving numerous applications for employment.

Notes the absence of serious disorder and that the military authorities have the situation thoroughly under control. It also refers to the settlement of the London dock strike and says there will be a resumption in the unloading of goods to-morrow.

Striving for Settlement.
The statement concludes by announcing that Mr. Lloyd-George and Mr. Buxton will be endeavoring to arrange an amicable settlement of the railway trouble on fair terms.

According to the best available information, what jeopardizes the negotiations is less the obduracy of the strike leaders than the intractability of the strikers themselves, as manifested thru their persistent refusal to accept the terms of the proposed settlement. It is stated that Ramsay MacDonald and Arthur Henderson, the labor leaders in the House of Commons, and other members of the cabinet, spared no effort to induce the men's executives to accept the government's proposals, but without success. The negotiations, however, will be resumed at the Board of Trade to-morrow.

The present is an anxious moment for the military heads who are arranging to-night for a possibly prolonged camping of the troops in London. All kinds of stores have been requisitioned from Aldershot and depots for food and forage will be established in various sections around the city.

Most Effective in North.
Broadly speaking, the strike is most effective in the north of England, where many towns are completely isolated, and in the south of Wales. It is partially effective in the midlands.

Effect in Toronto
English Strike Ties Up Freight for Lake Vessels.
Already the strike of steamship help in England has affected Toronto and should the strike not be settled within a short time there will not be a pound of English freight entering Toronto, and that means tying up the freight vessels plying between this city and Montreal. The Inland Navigation Company operate several of these craft and they stated yesterday that the Dundhorn had returned from Montreal with a very light cargo.

The railways are also suffering but not as much as the steamers as many of the freight comes by water during the navigation season.
During yesterday afternoon a number of the Board of Trade members called up acting secretary Tolchard regarding the situation, and it is possible that they will hold a meeting some time during the next few days, providing the strike has not been settled.
The ocean liners have refused to accept any perishable goods and it is only a matter of a week until they will refuse to receive merchandise of any kind, as their sheds will by that time be filled from end to end.
Local merchants are beginning already to complain about the delay in receiving shipments and it may prove a serious matter to some of the Toronto business men if the men and their employers are not brought together quickly.

DOCKERS STRIKE SETTLED.

LONDON, Aug. 18.—The strike of dockmen, coal porters and car men, which began here August 1 and resulted in a dislocation of trade, almost famine conditions and rioting for nearly two weeks, was finally settled to-night. The strike was called off August 11 under the promise that the differences between the men and the employers should be arbitrated.

The chief points of the agreement reached are that the men may be engaged for work outside the dock premises, and that any differences which may arise shall be referred to John Burnes, an arbitrator, appointed by the president of the local government board.

SOUTH YORK UNANIMOUS FOR LAIRD OF DONLANDS

W. F. Maclean Nominated in Harmonious Meeting—Minister of Agriculture and Others Speak.

There was a large and representative gathering of Conservative Unionists from all portions of the county of South York assembled yesterday afternoon in the Labor Temple, Leeds, for the purpose of electing a member to put W. F. Maclean in the field as the Conservative candidate for South York in the general election of 1912.

The meeting was presided over by Mayor Geary, president of the Central Conservative Association. The bringing together of so many chiefs indicated that Mr. Kemp's nomination had the endorsement of the party all over the city, and reaching even to the leader, Mr. Borden himself.

Mr. Kemp was nominated by a large majority of the delegates. Mr. Borden, who had been regularly nominated for twenty years, and promised not to retire the next time.

Mr. Kemp got a reception that was flattering. Everybody seemed to think that a friend had been chosen. He thanked the delegates in a Christian name, for their assistance and promised to give a good account of himself in the coming year.

Mr. Kemp got a reception that was flattering. Everybody seemed to think that a friend had been chosen. He thanked the delegates in a Christian name, for their assistance and promised to give a good account of himself in the coming year.

EAST TORONTO NOMINATES A. E. KEMP

Thompson, Macdonald and Greer Retire in Favor of the Former Member in Enthusiastic and Unanimous Meeting of Regular Conservative Convention.

A. E. Kemp, a member of and worker in the Conservative party organization, was nominated last night to contest the riding of East Toronto in the interests of the Liberal-Conservative party. His nomination was unanimous and harmonious.

His name was received with cheers, prolonged and repeated, from a convention that met in the Labor Temple in Broadview-avenue. He spoke of himself as one of the workers, and was accepted with a generous and generous political brotherhood, that suggested the peaceful purposes of a happy Conservative party.

The convention was presided over by Mayor Geary, president of the Central Conservative Association. The bringing together of so many chiefs indicated that Mr. Kemp's nomination had the endorsement of the party all over the city, and reaching even to the leader, Mr. Borden himself.

Mr. Kemp was nominated by a large majority of the delegates. Mr. Borden, who had been regularly nominated for twenty years, and promised not to retire the next time.

POORLY BALANCED.

WARD AND HEYD WILL RUN IN RECIPROcity RACE

Reform Association Adopted Popular Controller for South and Heyd for Centre Ridings.

Two candidates for the coming convention were decided upon by the Toronto Reform Association executive yesterday, and the names will be sent to the convention. They are, Controller J. J. Ward for South Toronto, and Louis F. Heyd for Centre Toronto.

Mr. Heyd has practised law in Toronto for the past ten years. He is the senior member of the firm of Heyd & Heyd. For ten years previous to the present he has been a member of the Toronto Reform Association.

Mr. Heyd has practised law in Toronto for the past ten years. He is the senior member of the firm of Heyd & Heyd. For ten years previous to the present he has been a member of the Toronto Reform Association.

A Great Crop

The crop advices from the west become more optimistic every day. Of course there is always the danger of frost, but over a great area in the west cutting has so far advanced as to render the crops immune to injury from this source.

Crop Expert Leconte, who is regarded as one of the most reliable judges in the entire west, and is employed by a syndicate of big Chicago men, who are interested in grain, wired to-day: "With another week of continued favorable weather, Canada will raise 240,000,000 bushels of wheat."

Mr. Leconte is generally conservative, and is always unprejudiced. His wire comes right from the golden fields and certainly sounds great.

MACDONELL MILITANT AT NOMINATION IN SOUTH

Fighting Speech From Claude on Receiving Third Endorsement for Bay Front Riding.

Without a word of dissent A. Claude Macdonell was, for the third time, chosen to represent the Conservatives of South Toronto at the convention held in Victoria Hall last night. The crowd of 400 delegates showed considerable enthusiasm.

In his address Mr. Macdonell lashed the Laurier regime unmercifully. "The time has come when, citizens of Canada should rise and free the country of these men," he said. "They have been unfaithful stewards."

When Mark H. Irish, the chairman, stood up to give the name of the candidate he said: "It is proposed that A. C. Macdonell be nominated for the Bay Front riding. The applause stopped him before he had finished the sentence.

The fifteen minute interval between the putting up of the names of the candidates was a record.

The fifteen minute interval between the putting up of the names of the candidates was a record.

CLEVER YOUNG STUDENT TAKES VARSITY HONORS

Galloway of Harbord St. for Prince of Wales and Edward Blake Proficiency Scholarships.

George Gordon Galloway, aged 17, son of William O. Galloway, statistician in the provincial department of agriculture, is the bright particular star of the new university year.

He has won the first prize in the matriculation examinations recently held, he wrote for honors and has made a brilliant record, being first in the award of scholarships with the Prince of Wales and the First Edward Blake general proficiency to his credit.

He was second man for the Edward Blake in classics and mathematics, second man in the Blake classics and moderns, sixth man in the Blake mathematics and moderns, first in the Blake mathematics and moderns, first in the Blake mathematics and moderns, first in the Blake mathematics and moderns.

CARRIES THE WAR INTO LIBERAL STRONGHOLD

Borden Meeting at Woodstock Very Encouraging—Sole Desire of United States to Estrate Canada From the Motherland, Says Hon. Geo. E. Foster.

WOODSTOCK, Aug. 18.—(Special.)—Right into the heart of the traditional Liberal ridings of Oxford, R. L. Borden carried the war against reciprocity. Although the crowd met him at the Grand Opera House to-night was not as large as on the previous evenings of this week, the place was more than filled and many people were unable to obtain admission. In spirit and interest the audience would compare favorably with those at Chatham, Simcoe and London, and there was a fighting spirit manifested which was a great encouragement to the candidates.

Owing to the strain on his voice, the Conservative leader only spoke for half an hour, but Hon. George E. Foster took up the cudgels for the opposition cause, and lavished argument upon argument in an absorbing crowd. Mr. Foster was particularly severe on the method behind the reciprocity project and he declared that the sole desire of the United States was to estrange Canada from the motherland.

Mr. Borden was particularly severe on the method behind the reciprocity project and he declared that the sole desire of the United States was to estrange Canada from the motherland.

Decide on a "Reading-Standard" --- You Won't Make a Mistake

For Reliability, Comfort, Speed, Durability and Performance Choose the "R.-S." Motor Cycle.

The best argument in favor of the "Reading-Standard" is that those who ride one are its most enthusiastic admirers.

If you own a "Reading" you're satisfied.

The "Reading-Standard" has proven its efficiency on every kind of road around Toronto—notice how easily, how noiselessly and gracefully it glides along.

The "Reading-Standard" has sprung into popularity with a bound in Toronto, and it has done so entirely on its own merits. It has all the good points of other makes with such additional advantages as the spring frame, shock absorbing system, two riding positions, luggage carrier, water-proof tool box with lock, most parts interchangeable, and of great importance to the inexperienced rider is the self-raising stand. See the "Reading-Standard" demonstrated. Price, \$285.00.

THE T. EATON CO. LIMITED

MACDONELL MILITANT AT NOMINATION IN SOUTH

Continued From Page 1.

candidates and the taking of the vote was dispensed with unanimously. The audience to a man rose and cheered, waved hats and hands when Mr. Macdonell stood up to speak. He was not able to proceed for some time. They called him again when he sat down.

"I am quite overwhelmed by the ovation you have given me," he said. "I have received this nomination on two previous occasions—I hope it will not be no more than a third time."

"No, no, no—no chance!" yelled the crowd. "With all my humble ability and strength I have endeavored to perform my duty in the past." (Applause.)

In referring to the dissolution of parliament Mr. Macdonell said that the Liberal party had dodged redistribution because that would have given greater representation in many places. "So they called off redistribution and said, 'Let us go to the country.'"

Referring to Sir Wilfrid Laurier's tactics in deciding upon the dissolution, he said that he had "skipped out of the back door."

"All of his speech at Simcoo was a defence—an effort to justify his actions. We find the whole country approving of the action of the Conservative party. I never saw the time when the party was more homogeneous—there is not a schism in the ranks."

Speaking of the government of Ontario, he said that "a better government" was never blessed with "Applause." All creeds, all colors, all nationalities have united on the platform of the Conservative party. It is remarkable that such a union could take place. Our only motto is "The good of the people."

The Laurier government has lost all idea of the proper attributes of a government. They have lost all of the instincts of government. They have polluted the well-springs of liberty. They have been the blackest government ever in Canada, and I hope, please God, that not another like it will hold power for hundreds of years.

STRIKE CLOUD STILL HOVERS OVER BRITAIN

Continued From Page 1.

but has not caused trouble in the south of England. On only a few of the Irish railways have the men gone out. The situation in Scotland is uncertain. Edinburgh reports that a general strike has been declared there, but at Glasgow the men have postponed their decision as to whether they will answer the call until Sunday.

The price of food, as far as London is concerned, either in the hotels, restaurants or in the stores, shows but little change, and a resumption of work to-morrow by the dockers, in unloading 50 ships that are waiting to discharge their cargoes, will tend to bring the food situation here to about normal. Should the strike continue, a serious question will be the milk supply, for which London is wholly dependent upon the railway service.

The great central station at Marylebone, in the northwest section of the city, closed to-night at 8 o'clock, and the railway is bivouacked there to-night. Some others of the local stations closed temporarily to-night and restricted services on the lines out of London are announced for to-morrow.

The line going to the southward from London and Col. Kynin-Taylor started immediately for Liverpool.

Call for Special Constables. In addition to his appeal to the members of the National Reserves, the Lord Mayor of London to-night requested that all citizens who are willing to serve as special constables in case of need shall assemble at the Guild Hall to-morrow and enroll their names.

Reports from Wales say that some 20,000 or 30,000 additional colliers will be idle to-morrow.

Thousands of holiday makers are stranded at the seaside and country resorts who have money and unable to obtain transportation home.

The Liverpool-street Station, where some 80,000 commuters arrive and depart daily, was the most congested point of London probably to-day. This evening the platforms were packed with thousands awaiting a chance to get to their suburban homes. A large majority will not reach their homes before morning.

IMPORTANT ARREST

Police Apprehend Albert Lawrence Who Had Much Stolen Property.

In the person of Albert Lawrence, who resides in West Queen-street, Detective Archibald believes that he has a bad thing. He arrested him yesterday upon a charge of theft of a watch which he had sold to a Victoria-street second-hand dealer. The watch was formerly the property of Charles Green, 25 Rhodes-street, in the east end of the city.

The new steamer is one of the most commodious vessels on the lake, and on her capacity for carrying three hundred tons of package freight. Her license calls for 1200 passengers, and there is a seat for every one. The Dalhousie is not only a commodious boat, but a remarkably comfortable one. Her main cabin is 120 feet long, and the seats are after the style of those found in trains. She is a steel vessel, and 30 feet over all. Her draught is eight feet forward and nine feet six inches aft.

On her trial trip she made seventeen and a half miles per hour, and on her way from Collingwood to Port Dalhousie she made twenty miles an hour, running at 100 revolutions per minute, which was just two-thirds her limit speed.

Captain Maddick is in command, and Captain Fahy is first officer. J. F. Brown is chief engineer, W. Newton is purser, and the two wheelmen are Geo. Wilson and W. Kyle.

FEEDING THE ISLANDERS

The battleship Warrior arrived at Douglas, Isle of Man, this afternoon to provision the hungry islanders.

Reports from Wales say that some 20,000 or 30,000 additional colliers will be idle to-morrow.

Thousands of holiday makers are stranded at the seaside and country resorts who have money and unable to obtain transportation home.

The Liverpool-street Station, where some 80,000 commuters arrive and depart daily, was the most congested point of London probably to-day.

This evening the platforms were packed with thousands awaiting a chance to get to their suburban homes.

A large majority will not reach their homes before morning.

Major Roche, having been ordered from Ireland to join his regiment at Aldershot, on arriving at Plymouth found the train stalled by strikers. He promptly mobilized a party of soldiers who were returning by boat from a furlough, borrowed rifles from the local territorial, drove off the strikers at the point of the bayonet and got his train thru.

The international combine of steamship companies has no hope of getting away any ships from Liverpool this week. The best it expects to accomplish to-morrow is to sail the steamer Philadelphia out of Southampton and the steamer Minneapolis out of London.

These vessels, however, were fully booked up long ago, and consequently their sailing will not help to diminish the number of stranded Americans in England.

THEATRES SUFFER

The theatrical and music hall business is likely to suffer severely from the strike. Several hundred companies are now out touring the provinces.

A majority of them move on Sundays by special train and as these trains probably will be discontinued many of the theatres and music halls throughout the country are expected to be dark next week.

The pressure of work on the telegraph offices by reason of the strike is tremendous. Postoffice department has notified the public that all messages are subject to delay. The telephone service also is being overworked.

Numbers of sporadic strikes are occurring throughout the country as a result of the railway movement. The barbers of Bristol quit work to-day to pull up the rails? Do you want to absorb all products available for export, and that would mean, declared Mr. Foster to loud applause, getting a better price for our goods? Do you want to fill up the steamboat channels?" he asked.

"This simply means leaving your mother's home and having to go to that of a hostile people."

"This pact at the best is only reciprocity in spots," remarked Mr. Foster. "You give to the farmers of the United States, twelve times your number, the same free entrance to your protected home market as they give to theirs. He admitted that there were instances where a border of 4000 miles where a fitful or a reasonable exchange of national commodities due to our over-production or spare production on one side or the other. This, however, was local, and it was no basis upon which to form a broad and general tariff for the benefit of the whole country."

What Taft Wants. There were two things which President Taft was after. First, after the rich and almost unexhaustible resources of Canada. What was Sir Wilfrid's unstatesmanlike attitude? "I suppose they will pay us for them." Was it unworthy of the head of the government?

They were then to cart them across the border and finish them in their own country. (Hear, hear.) Is it not better for Canada, which has the raw material, to drink it at home? (Hear, hear.)

Discussing President Taft's views with reference to the pact, Mr. Foster said the meaning which the United States read into the pact was "Checkmate to closer connection with the motherland."

FIREMEN WANTED

WANTED—Locomotive firemen between 21 and 30 years of age, height 5 ft. 7 in. must be able to read and write and possess good eyesight and hearing. Apply in person to FOREMAN, IRVING TRUNK ROADWAY ENGINE HOUSE, AT TORONTO OR MIMICO.

EDUCATING THE ENGLISH

Bourassa and Monk Hold Meeting at Lachine.

MONTREAL, Aug. 18.—The policy of educating English-speaking electors in the aims, ideals and tenets of Nationalism, was inaugurated to-night at Lachine by Messrs. Bourassa and Monk before a gathering of some 600 English-speaking people. Although the rain fell intermittently through the meeting the crowd remained and evinced a good deal of enthusiasm. There was good applause and occasional exclamations of dissent, but on the whole the Nationalist leaders got a good reception, as might have been expected in Jacques Cartier division, which Mr. Monk has so long represented.

Mr. Monk gave a very clear and concise statement of his case, laying much stress on the fact that the Nationalists were not in favor of leaving the country unprotected, nor desirous of dodging taxes such as the navy would necessitate. He emphasized the fact that the main idea of himself and his colleagues was to secure for the people the right to speak on such important projects as reciprocity and the navy bill. The government had no right to go ahead in such cases without securing a mandate from the electorate.

Conservative Committee Rooms. The list of Conservative committee rooms for the City of Toronto is now complete with the exception of two in the southern-district. They are as follows: Centre Toronto—142 East Queen, phone Main 4233; 345 Spadina-ave., phone Colford 7649; 308 West Queen-st., Main 1630; 223 Spadina-ave., Col. 7796; 333 Yonge-st., Main 4075; corner Agnes and Elizabeth-sts., Main 4522; 1 Arthur-st., North Toronto—27 College-st., phone Col. 7624; 565 West Bloor, Col. 7388; 55 1/2 Yonge-st., 801 Yonge-st., East Toronto—Corner Queen and Sauter-sts., Main 3577; Gerard and Parliament-sts., North 5670; corner Queen-st. and Kenilworth-ave.; and 352 Pape-ave.

West Toronto—360 West Queen-st., Park 2412; 1012 West Bloor, Jct. 1027; Dundas-st., near Brock-ave., 631 College-st.; 170 West Queen and West Bloor, near Clinton-st. South Toronto—350 West King-st., Main 1088; Yonge-st., Arcade, 1246 West Queen-st.; 443 West Queen-st. Two more will be opened in this constituency.

Excelsior Rink Opens To-Day

Donald Sutherland, Conservative candidate for South Oxford, followed with a campaign speech, urging his hearers to heed the warnings of Sir-Lionel Lloyd Harris and German. Reciprocity turned backward the progress of Canada for thirty years.

J. D. Wallace spoke briefly.

TORONTO'S RUN UP SCORE AGAINST WINNIPEG C. C.

Three Batsmen Get 50 or Over and All Except Two Have Double Figures.

The first day's play of the cricket match for the Canadian championship yesterday on Varsity lawn between Toronto and Winnipeg C.P.R. would make it appear that the championship has little chance of going west.

A large number of ladies were present, and partook of afternoon tea, kindly dispensed by the ladies of Toronto C.C. from a prettily-decorated tent.

Table with columns: Player Name, Runs, Wickets, etc. Total runs: 315.

SOCCER TO-DAY.

The Royal Hearts will practice on the east side of Don Park, Riverdale Park, to-day at 2 p.m.

The All-Canadian soccer football team, who are entered in the international tournament at Rosedale, will hold their first practice Saturday on Riverdale Park.

The football enthusiasts will have another chance of seeing their favorite game to-day at Rosedale grounds, where a doubleheader is to be played.

The first game is the semi-final of intermediate Ontario championship between Green

O'Keefe's SPECIAL HALF AND HALF

A brand new brew that joins O'Keefe's celebrated line of SPECIALS to-day. For all lovers of "Half-and-Half" at its best. A Special extra mild blend of O'Keefe's Special Ale and Special Stout.

BOTTLED ONLY AT THE BREWERY O'Keefe Brewery Co. Limited - Toronto

River and Davenport Albions, and the second is the semi-final of senior Ontario championship between the undefeated T. & D. champions, Baracas and Peterboro.

The British United Football Club play Moore Park on the Eaton A.A. grounds at 2:15 p.m. to-day, in the semi-final series of the Intermediate League.

The Victoria Quilting Club. A very interesting game of quilts was played on Thursday evening between Joe Coleman and the Pittsburgh Infants on the Victoria grounds.

Toronto Swimming Tournament. The annual tournament of the Toronto Swimming Club will be held on Saturday at 2:30 p.m. at the club house, Hamilton's Point.

Violet Will Start Here. When the list of entries in the 218 pace, which will be raced at Dufferin Park next week, during the Toronto Driving Club's meeting that begins Tuesday at Dufferin Park, was published, the name of Violet (2174), was omitted.

Amateur Baseball. Two fast games are assured Saturday afternoon at the Northern Senior League in Jesse Ketchem Park.

Baseball. The Don Valley Senior League's second game of a series of three to determine the championship between the Lourdes and Riverdale, who have been running neck and neck all season, will be played this afternoon on the Don Flats at 3 o'clock sharp.

The Express and Freight teams of the T. Eaton Co.'s Mail Order Department met on the Don Flats last night for a friendly game of baseball.

Freight Express. The following members of St. Ann's Junior B.C. are requested to meet at the corner of Queen and Dundas Saturday at 1:30 for their game with Centrals at Rosedale Park at 2 p.m.

The following members of St. Ann's Junior B.C. are requested to meet at the corner of Queen and Dundas Saturday at 1:30 for their game with Centrals at Rosedale Park at 2 p.m.

Ontario Crop Bulletin

The following statement regarding the condition of crops in the province, based upon returns of correspondents under date of August 15th, has been issued by the Ontario Department of Agriculture:

Fall Wheat.

According to the May bulletin this crop suffered more or less from winter-killing in many counties, and a considerable area of fall wheat land had to be plowed up or was reserved for spring grains. ...

Spring Wheat.

This crop, like all the grains, suffered from the drought and unusual heat of the season. ...

Barley.

This crop will also be below the average in yield. The straw is described as being rather lighter in weight than usual owing to the great heat and drought. ...

Oats.

Oats have fared the worst of the grain crops, although some good yields are reported. ...

Rye.

Where grown for grain this crop has been of fair yield and quality, although short in straw. ...

Peas.

The unusually high temperature prevailing at different periods of the growing season told severely upon the peas, the crop being dried up owing to the heat and drought. ...

Beans.

There has been too much heat and too little rain for beans in the first stage of growth, but some correspondents are of the opinion that there is ample opportunity for the crop to pick up before it is ready for harvesting in the early part of September. ...

Hay and Clover.

Clover did not winter well, and in many quarters the excessive heat and drought of May and June did much to draw back. ...

Corn.

Late planting owing to the drought of May, was the greatest drawback to the corn crop. ...

Potatoes.

A light yield of small potatoes will be the general rule, as the season has been too late and hot for best results. ...

DRIVE OUT CATARRH

Nose, head and throat passages that get completely clogged with the poisonous Catarrh mucus.

Don't be a slave to it another day—disgusting, loathsome, dangerous disease that it is!

Conquer it now before it conquers you! Remember, the longer you put off looking after Catarrh, the harder it will be to drive it out of your system.

Don't let Catarrh go on filling up your nose, your head and your throat with its filthy, poisonous secretions! Don't let it make you a howling, spitting, foul-breathed nuisance that everyone wants to avoid! Take it in hand at once, before it destroys your health—your happiness—your very life welfare!

Drive out Catarrh before it sets down into your lungs. It's a terrible mistake to drive it only an annoying, disagreeable trouble. It's far worse than that—it's a fearful, dangerous one. Unchecked Catarrh frequently destroys smell, taste and hearing, and may open the door to the most dreadful of diseases. Be warned in time! DRIVE IT OUT NOW, before it's too late.

Write to me today and let me show you, entire without charge, just how to get rid of Catarrh ABSOLUTELY and PERMANENTLY. I'll gladly study your case and give you

MEDICAL ADVICE FREE

that will be of tremendous help to you—counsel and information that are sincere—reliable—valuable.

Don't hesitate to accept my aid. You're truly and freely welcome to it. Simply for the asking you'll receive the benefit of my 25 years of experience—my wide knowledge of Catarrh and its cure. I am a graduate in Medicine and Surgery, Dublin University, Ireland, formerly Surgeon British Royal Navy, and this Catarrh disease has been my life study—I'm familiar with its workings from start to finish. I can tell you just what to do for it—just how to drive every trace of it entirely out of your system. Thousands have accepted this offer and now they are free from Catarrh. You can be also, if you will. Read the list of questions carefully, answer them or have me write your name and address plainly on the dotted lines, cut out the Free Medical Advice Coupon and mail it at once to

NAME

ADDRESS

QUORUM WAS LACKING THIRTEEN MEN ABSENT

City Council Unable to Do Business—Disappointed Several Deputations.

"There are several deputations here," said Mayor Geary after the roll was called yesterday at the abortive council meeting; "they will not wish to come back again so why not hear them informally?"

C. A. Dunlop headed a deputation from North Rosedale, which wanted a line there straight from the Glen-road bridge to Summerhill-avenue around the macreose grounds and back. They did not want the loop. Mr. Dunlop said his side of the business was closed, just half an hour after the time set for the meeting, were the mayor, Controllers, Church, Hocken and Spencer, Aldermen Dunn, Maguire, May, McBrien, McCausland, Rowland, Weston and Yeomans.

The absentees were therefore Controller Ward and Aldermen Chisholm, Hilton, Paclan, O'Neill, Heyd, McBride, McMurtrein, Sweeney, Graham, McCarthy, Anderson and Baird.

The important business to be considered was the North Toronto annexation and the Humber boulevard agreement.

The meeting was held in court room number 1. The council chamber is now in the hands of the workmen, who are preparing to re-decorate it. They have put up part of the scaffolding already.

May Meet Next Friday.

Another meeting of the council may be called for Friday next. It will be held at Tuesday's meeting of the board of control.

There is considerable business ahead of the council so it is probable that a meeting will be called soon.

It was to the disgust of the twelve members of the council present on time to have constituted a meeting that the thirteenth name necessary to form a quorum was found to be lacking when the count was made.

From two o'clock, the time the meeting was called for, did not look as if enough would be present. But they drifted slowly in, hope was kept alive and the roll called was withheld until almost the last minute. It was started a few seconds before 2:30. The rule is that if there is not a quorum half an hour after the time for which the meeting is scheduled, no meeting can be held.

Ald. McBride was in the building at the time the roll was called. He had been in the council chamber some time before, but as the minutes became tedious and the fate of the meeting hung in the balance, he silently faded away. Soon after the clerk had folded up his record, Ald. McBride floated into the room.

But it was too late, and many faces, dark with frowns, glared at him. So he is now in disgrace with the rest of the council. His explanation for being absent was that he went down to the exhibition office to pay for some horse entries.

J. J. Was Surprised.

About two minutes after the death of the meeting, Controller Ward scolded in. He was over half an hour late and too late to save the meeting, he tried to appear surprised.

Ald. Graham was another of the fatally tardy ones. He came all the way from the place at the top of Lake Simcoe where he is summering, to attend the meeting, but he did not go to the

SEVEN YEARS' PAIN FROM ACUTE NEURALGIA

Cured Through the Use of Dr. Williams' Pink Pills.

Neuralgia is not a disease—it is only a symptom. It is the surest sign that your blood is weak, watery and impure, and that your nerves are literally starving. Bad blood is the one cause of good pain, red blood is its only cure. There you have the real reason why Dr. Williams' Pink Pills cure neuralgia. They are the only medicine that contains in correct proportions, the very elements needed to make new, rich, red blood. This alone reaches the root of the trouble, soothes the famished nerves, and drives away the nagging stabbing pain and braces up your health in other ways. Mr. J. Brennan, an ex-sergeant of the 2nd Cheshire Regiment, now a resident of Winnipeg, Man., says: "While serving with my regiment in India, on a hill station, I contracted a severe cold which brought on acute neuralgia, at times lasting for three weeks. I was constantly suffering almost every month in the year for over seven years, the pain being sometimes so severe that I was almost dead. On my return to England I seemed to get no better, though I spent large sums of money for medical advice and medicine. Then I came to Canada, and about a year ago saw the advertisement of Dr. Williams' Pink Pills in a Winnipeg paper. Although I had been told that my complaint was incurable I told my wife that I intended giving the Pills a fair trial. I was suffering from terrible pains when I began taking the Pills, but before the second box was finished the pain began to disappear, and under a further use of the Pills it disappeared entirely, and I have not had a twinge of it during the past year. Only those who have been afflicted with the terrible pains of neuralgia can tell what a blessing Dr. Williams' Pink Pills have been to me, and you may be sure I shall constantly recommend them to other sufferers."

These Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Seabrook Bluffs is only forty minutes' ride from Yonge-street and is without doubt Toronto's most picturesque suburb. It is over a mile long and is the largest and healthiest place for a home. Price \$6 per foot up. Plans and full information at White & Co., 35 Victoria-st., Main 5465.

Miss Mary Mackie of Toronto, who played Cressa in "The Arcadians," at the Princess is to be married to Gerald B. Jackson, of Paterson, N.J. Miss Mackie is a daughter of the late A. A. Mackie, Dowling-avenue. Miss Mackie has decided to abandon her successful stage career on account of the strain upon her health.

HAD REVOLVER READY

Mrs. Jynners Imagined a Grivance Against the Police.

But for the timely intervention of Staff Inspector George Kennedy yesterday morning, Morality Officer Thomas Bloodworth might have met death at the hands of a woman frenzied by the fancied retention of money which her husband has ceased to contribute for her support.

VAUGHAN GLASER AT THE GRAND

Vaughan Glaser and his company will appear at the Grand Opera House next week in "The Prince Chap" and the week of Aug. 23 in "The Way." The first named play is from the pen of Edward Pebles, and "The Only Way" is a dramatization of Chas. Dickens' "A Tale of Two Cities." Mr. Glaser has the best company this year he ever brought to this city, and he will also mount the plays with that great care to detail for which he is noted. The play of the opening week appears to be just suited to Mr. Glaser's fine presence. He of course has the title role, in a poor quarter of London. The curtain first rises on the studio, soon after a poor artist's model enters the studio and pleads with the sculptor to care for her little child. The sculptor is loth to take this extra heavy burden on his shoulders, but he cannot resist the importunities of the child, and finally consents. When the child enters the studio there are many touches of deep pathos, as well as bits of comedy, which are different persons, for the reason that she is shown at five years of age, at eight years of age and at sixteen. Previous to the opening of the story the sculptor is in love with a beautiful American girl, and she is in love with him. This American girl pays a visit to the studio and discovers the child. Believing that it is the sculptor's own child, she leaves him, and he is broken-hearted. Several years later the American girl returns to the studio and learns that when she left the sculptor years before she killed all the love she had for her. He takes her in his arms, and the curtain descends on a happy pair.

FINE BURLESQUE AT GAYETY.

It has remained for Jacobs and Jencks, the owners of the "Golden Creek Extravaganza Company" and other burlesque shows to raise burlesque from the disreputable stigma that has in many instances been attached to it and place it on a level with comic opera and musical comedy that contains in correct proportions, the very elements needed to make new, rich, red blood. This alone reaches the root of the trouble, soothes the famished nerves, and drives away the nagging stabbing pain and braces up your health in other ways. Mr. J. Brennan, an ex-sergeant of the 2nd Cheshire Regiment, now a resident of Winnipeg, Man., says: "While serving with my regiment in India, on a hill station, I contracted a severe cold which brought on acute neuralgia, at times lasting for three weeks. I was constantly suffering almost every month in the year for over seven years, the pain being sometimes so severe that I was almost dead. On my return to England I seemed to get no better, though I spent large sums of money for medical advice and medicine. Then I came to Canada, and about a year ago saw the advertisement of Dr. Williams' Pink Pills in a Winnipeg paper. Although I had been told that my complaint was incurable I told my wife that I intended giving the Pills a fair trial. I was suffering from terrible pains when I began taking the Pills, but before the second box was finished the pain began to disappear, and under a further use of the Pills it disappeared entirely, and I have not had a twinge of it during the past year. Only those who have been afflicted with the terrible pains of neuralgia can tell what a blessing Dr. Williams' Pink Pills have been to me, and you may be sure I shall constantly recommend them to other sufferers."

These Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Parkhill. We consider that a half acre or acre block in this property at the present prices is an excellent investment. The location is ideal and close to the city. Information may be had at C. White & Co., M. 5465, 35 Victoria-st.

PUBLIC AMUSEMENTS

ROYAL ALEXANDRA.

Lyman Howe Pictures.

"Here is really a reproduction that compels the applause of every intelligent observer," says the dramatic critic of The Cincinnati Tribune after witnessing Lyman H. Howe's exclusive scenes of the coronation, which will be presented at the Royal Alexandra next week. "They are so startling in their truth to life," he continues, "that one is lost in admiration for the stupendous and glittering spectacle." You can hardly realize that you have not been on terms of intimacy with King George himself for he is ever before your eyes and upon such easy terms of approach that you feel you might almost touch him by stretching out your hand. The Queen is ever his companion in all of the ceremonies, and it is quite evident that Mr. Howe's photographers were permitted so close to the royal equiptage that both the King and Queen at times seem to be looking you squarely in the eyes.

A hazardous climb to dizzy alpine heights will be one of the many other scenes of the entirely new program. All the incidents of the expedition, starting with a vertical ride in a car of the Cog Wheel Railway of Mont-reux, and another on the Wetterhorn Suspension Railway will be shown. After the spectators can go on higher by mechanical means the journey is resumed over snow-bound chasms and icy ridges where a mis-step any moment would be fatal. Finally, they are rewarded by the rare sight of looking down upon a vast, rolling sea of clouds and wonderful sunset and moonrise views over the glittering peaks.

In a pictorial ramble thru Australia, Mr. Howe will plot his audience down the Danube from Passau to Vienna, and then thru the boulevards, parks, palaces, etc., of the Austrian capital. Rugged nature in New Zealand will be shown during a ride on a diligence over the mountain passes. Scenes of turbulent nature are witnessed while "Shooting the Rapids in Japan." Still stranger scenes will be visited in the Faroe Islands, where combat is shown between a large "school" of whales and their captors. Spectacular views are provided by a squadron of Belgian cavalry during that seems impossible. Other subjects reveal new animals, snap shots at the London Zoo and floral studies in the colors of nature; in fact many of the scenes will be all aglow with the actual hues of nature.

There will be matinees daily.

WOMAN RECENTLY ACQUIRED AN AUTO

mobile: The man has been spending the summer in town, doing nothing but going on long rides thru the surrounding country. He went out the other night, and at 10 o'clock he called up the garage in a nearby town and reported: "This is Mr. Blank. I'm out in the Chester-road. I've turned turtle. Will you send after me?" "Can't," was the response. "This ain't no fish pond. This is an automobile house."—Philadelphia Times.

Just try
the delicious juice of fresh crushed green mint leaves.

"The beneficial confection" is full of it!

If you're nervous it soothes you. If you eat poorly it creates an appetite. If you have eaten indigestibles it helps digest them. It cleanses teeth and perfumes breath besides.

Fine for automobiling and all outdoor games. Keeps the mouth refreshed—prevents dryness. Every pocket should have a package.

Made in Toronto, Canada. Your dealer should sell it.

WRIGLEY'S SPEARMINT PEPSIN GUM

Look for the Spear!

Wm. Wrigley, Jr. Co., Ltd. 7 Scott Street, Toronto, Ont.

The Flavor Lasts!

Take Triscuit with You

Take it with you on the fishing trip, on the automobile tour, to the Summer camp, the bungalow in the woods, the cottage by the sea, wherever you go to escape the trials of housekeeping, the worries of business or the weariness of Summer days.

TRISCUIT

is the Shredded Wheat wafer, made of the whole wheat, steam-cooked, shredded and baked by electricity. It is crisp, tasty and full of nutriment. Serve it with butter, cheese, caviar or marmalades—or eat it with nothing. Enough Triscuit can be taken in a fisherman's creel to supply all the strength needed for a day's sport.

Shredded Wheat Biscuit with berries or other fresh fruit, served with milk or cream, makes a complete, wholesome, nourishing meal. If you like Shredded Wheat Biscuit for breakfast you will like Triscuit for any meal with butter, cheese, caviar or marmalades. Contains more nutriment than meat or eggs and is more easily digested.

Made only by
Canadian Shredded Wheat Co., Limited
Niagara Falls, Ont.

Private Sales of Horses, Carriages, Harness, etc., EVERY DAY.

Canada.

PEASE FURNACE

QUALITY IS ECONOMY.

Which is the sole reason for the unparalleled success of "PEASE" Furnaces and Boilers. All the materials are carefully and accurately tested before being used—also during each process through which the materials are put until they are turned out as finished products, the same care and accurateness obtains. The result is that "PEASE" Furnaces and Boilers have earned a reputation for wear, durability and economy, which is unequalled.

WOULD BOYCOTT CHINESE

Resolution Passed by International Typographical Union.

SAN FRANCISCO, Aug. 15.—The International Typographical Union in convention here, passed a resolution to-day expressing its sense of the convention that all members of the union should refuse to patronize Chinese laundries, restaurants and other establishments. Local unions are ordered to assess fines for violation. The resolution was introduced by Delegate G. M. Sheldon of Lowell, Mass.

A proposal by Delegate Maxwell of Topeka, Kas., to take \$100,000 from the old age pension fund, which is now \$400,000, and use it for the erection of a permanent administration building in Indianapolis, was referred to the national executive council to be voted at the next general election.

25 BUSHELS TO ACRE.

WINNIPEG, Aug. 18.—Crop bulletins from almost 300 districts of the west, received to-day, claim an average yield of 25 bushels to the acre. Five thousand farm hands have been completely assigned to various districts in the city's mfl mfwyp jppppj where harvesting is in full swing. With an average temperature of 47 and very little rain during the past 24 hours, fields are taking on the harvest hue and there is slight anxiety apparent over the possibility of frost arriving before the grain has been cut.

CONSESSION TO CANADIAN FIRM.

CARACAS, VZ. Aug. 18.—The Venezuelan government has signed a con-

KIDNAPPED

And Forced to Work Vessel for Six Weeks.

NEW YORK, Aug. 18.—A dramatic tale of the sea was told in police court here to-day by George Allen, aged 16, of Sioux City, Iowa, who was charged with being a vagrant.

Allen claimed that after his arrival in New York six weeks ago he was asked by a foreigner, whom he met casually, to take a ride in a launch. With thirty-nine other men, most of whom were Italians, he said the launch sailed down the bay and put all hands on board a steamer bound for Porto Rico.

When they attempted to enter the launch again, he claims, they were driven below at the point of a revolver. For the next six weeks, he says, they had to work the vessel to and from Porto Rico, after which he was sent ashore penniless. He also claims that all of his clothing was stolen while he was on the boat.

Allen was released in the custody of an agent of the Children's Society.

St. Thomas and Return, \$2.15, Aug. 22 via Grand Trunk Railway System. Tickets going 8:0 a.m. train, valid returning following day. Full particulars at city office, northwest corner of King and Yonge streets. Phone 2131 429.

POWERFUL INDICAMENT OF TRUST-RUN POLITICS

Lifetime Liberal Writes on Social Problems Which Government Must Not Ignore.

Editor Toronto World:—From the time I was old enough to talk, part of the religion of our home was the Toronto Globe, and reform in politics and it has been that way all my life...

In conversation with a prominent Canadian lawyer he told me of one mouser so strong and powerful that it has cleared out competition as clean as the government controls the sale of postage stamps...

for from 18 to 20 cents an hour, when he sits down to his table, almost pays out half an hour's wages more than the honest value of the article on his table controlled by this trust.

Before I was in conversation with a gentleman who gave an opinion on a property for a big American institution to open a branch to manufacture the same articles in Canada...

In England to-day we see a great struggle going on between capital and labor and she has waited almost too long for Lloyd George to make himself heard...

Rauschenbusch says, "While a workman is in his prime he is always in danger of losing his job when he gets older he is certain to lose it, it is hard for an elderly man to get another...

age working people finally went on the parish. In Germany they have a system of insurance for old age. The fact that so few Germans have emigrated in recent years is probably due in part, to the hope held out by this slight capitalization of their life's labor...

The proportion of wages, the 500 mentioned above paid and retained, is simply assumed for the sake of concreteness in the argument. The actual proportion would of course vary with the profit of the concern. Wealth—to use a homely illustration, is to a nation what manure is to a farm...

While the south of us, they wasted on needless parallel roads, enough capital to build a comfortable home for every family in our country. Now that they have nearly ceased to compete the grievances of their monopoly are among the gravest problems of the United States industrial life...

Take the Toronto Street Railway. They increased their capital from \$2,000,000 to \$12,000,000. Of the four million, one million went in the shape of a bonus to the shareholders. In fact, every quarter a percentage of the earnings of that corporation is turned over to the City of Toronto...

CLEAN-UP SALE

Beginning Saturday Morning at 9 o'clock, about 30 Choice Lots, all that remain unsold in Paisley Gardens and Lawrence Gardens, will be offered to the public at the Clean-Up Sale Price of \$4 to \$7 per Foot Front.

Each lot is approximately a half-acre in extent, fine and level for building. The frontage ranges from 160 to 200 feet by a good depth, allowing each purchaser the opportunity of breaking up his purchase into several building lots, and selling them at good profit.

SATURDAY AUGUST 19th

The Big Clean-Up Sale starts at 9 a.m. sharp Saturday and ends at 5 p.m. The probability is that all the lots will be sold very quickly.

PAISLEY GARDENS AND LAWRENCE GARDENS

Paisley Gardens and Lawrence Gardens are two of the high-class, accessible properties of North Toronto. They are surrounded on all sides by exclusive homesite property, selling from \$10 to \$20 and upward per foot-front.

\$4 to \$7 Per Foot Front

Get an early start on this Clean-Up Sale. Outing to North Toronto by seeing the plans now open. Phone or call for information. Offices open to-night. Take a street car up North Yonge street on Saturday to our branch office at Glen Grove and Yonge (phone North 5432).

A dainty dish fit for a Queen

the aggregate wealth of the country, more than all the rest of the nation put together, and at the rate we are traveling in Canada, it will be worse than that in a few years.

"Almost every class outside of the laboring class have long ago won a recognized standing in law, custom and public opinion," says Rauschenbusch. So long ago that they forget they ever were not. For instance, the medical profession is recognized by law...

There is an old chestnut that if you give a working man \$ a day, he will spend it. Perhaps some would and some wouldn't, but whether that be the case or not, let the government finance for the people on this percentage basis from their employers. The cost of living has increased so rapidly and will continue to increase that it will take a man with \$5 a day and steady work to prepare in his own way for the future.

THIS BOOK FREE To Weak Men

To the man who wants to regain his youth, who wants to feel like he did when he was budding into manhood, I offer a book which will show him the road to happiness—a book of 80 pages, which is brimful of the things he likes to read, which will give him courage and enlighten him as to the cause and cure of his troubles.

DR. McLAUGHLIN'S ELECTRIC BELT

Builds up broken-down men, restores youth and vigor, and makes men look and feel strong. It will cure every case of Rheumatism, Nervous Debility, Weak Stomach, Kidney and Liver men and women. It will not fail; it cannot fail, as it infuses in the weakened parts the force of life and strength.

To those who are tired of paying without results, and to those who doubt if anything will help them, I make this offer: If you will secure me my

PAY WHEN YOU ARE CURED

I will let you have my Belt without paying me one cent in advance. AMPLE PROOF WILL BE GIVEN YOU ON REQUEST.

Mining Markets Close Strong at Week-End—Porcupines Busy

Porcupines Exceedingly Active But Price Changes Are Small

Advances Made in Some Shares—Hollinger and Rea Decline Slightly—Preston East Dome Has Busy Day—Cobalt Bull.

World Office, Friday, August 18, 1911.
The mining market opened strong this morning, particularly in the medium priced issues and good advances were made right from the first. Small declines occurred later on, but the day's business was resultant in a slightly higher position for the Porcupines. There was practically no short selling for the reason that the shorts have not entirely covered themselves yet, and are devoting all their energies to protect themselves while prices are comparatively low.

While the market was exceptionally active, some observers state that Porcupines are not on a sound basis yet, and that before there can be any noticeable advance, a drastic shaking is necessary. However, the general tone is good, and most brokers are decidedly bullish.

Preston East Dome provided considerable excitement during the long day. During the day 110,000 shares changed hands. No reason is given for this exceptional activity, but the buying is sound and coming chiefly from the public, augurs well for that stock. The price went up from 50 at the opening to 51 1/2 on the unusual demand, but naturally fell back a fraction as there seemed to be plenty of holders glad of even a small profit.

Dome Extension was stronger, closing at 55, the high for the day. Rea was still weak, the best it could do being 8 1/2, and closing at 8 3/4, a distinct loss for the day.

Heavy liquidation in Hollinger kept that stock down below the long dollar mark for the majority of the trading. It closed off at 8 3/4. Strange to say, the fall generally seems to follow the leader in its declines, possibly because brokers believe its setback is only temporary and that this can be easily accounted for.

Coronation cut loose again. This stock opened considerably below the previous close, but went up to 13 at the end of the day.

Cobalt Lake was fairly busy with but little change. The silver shares are being trading, and there is enough enquiry to keep them generally firm.

It is hard to make a prediction upon the market for the week, but it is believed that the summer season is not through yet, but the consensus of opinion is that the mining market closed very strong and well able to hold its firmness until the opening of Monday.

LARDER COMING ALONG.

Mr. James Tigne, who is largely interested in Larder Lake, recently returned from the camp and brought down numerous samples from some of the claims. These samples were shown to the World and they were all heavily mineralized and plentifully impregnated with free gold and sulphides. Mr. Tigne says that there is more gold now being taken in Larder than at any time of the camp's history and he expects this camp to attract equally as much interest as the other rich larder camps in a very short time.

WEST DOME BUYS HALF OF KERTZ CLAIMS

Negotiations Completed for Purchase of Part of Much Heard of Claims by Lucky Scott.

The West Dome Mining Company has purchased and paid for the two half interests in the two Kertz's claims, of which there has been so much discussion and talk of threatened litigation.

When P. Augustus Heinz and his associates purchased the Foster property, now known as the West Dome, its interest was left out. Mr. Heinz and others contending that it was better to drill the property first, and find out if there were any veins, than to pay the price asked for them. Recent developments have proved this beyond question of a doubt, and negotiations were entered into some time ago, and have just been brought to a successful termination, as a result of which the West Dome Mining Company owns every right, title and interest to their five valuable claims adjoining the "Dome."

This interest was purchased from Elijah Woodward, H. M. E. Pell, and others closely connected with the international Nickel Company and the famous Dome Mine. The interest was paid for with cash and stock, the vendors taking pooled stock on a basis of \$2.50 a share, and advance above the present market price of the stock. After several unsuccessful attempts to consummate this deal, all negotiations were turned over to A. W. Scott, who immediately got busy, and made an excellent deal for the West Dome Mining Co.

THE LATEST NEWS FROM PORCUPINE

Sensational Story Regarding Wonderfully Rich Find on North Dome Received.

Altho definite news from Porcupine has been lacking during the past week, the work of development on the various properties goes on apace and in some instances at least, the results are highly satisfactory. This fact is evidenced by the following telegrams received last night by that progressive brokerage house, Charles A. Stonehaver & Co., 24 Broad Street: "The authenticity of these wires can absolutely be depended upon coming as they do from this firm's special representative in the camp. Mr. E. S. Little, it is said, never sends a wire to his firm over his own signature, without first viewing the discovery for himself. Little in Porcupine is known as the 'Man from Missouri' and must be shown. The wires received from Mr. Little last night were as follows: 'Porcupine, Aug. 18.—An engineer of world wide reputation, who, thru my request, was yesterday allowed to go thru the underground workings of Hollinger said to me after his visit, 'Hollinger is one of the world's gold mines and is being handled as splendidly from a mining standpoint as any mine I have ever examined.'"

PRICE OF SILVER.
