WANTED FOR RENTER... Ten or twelve-roomed house in good residential location.

THURSDAY MORNING JULY 18 1918

VOL. XXXVIII—No. 13,763 TWO CENTS

NEW ADVANCE ON RHEIMS IS STOPPED
Germans Checked Completely in Attempt to Take the City—Enemy Attacks on Marne Repulsed by French, Whose Reserves Have Come Into Action Near Chateau Thierry.

FRENCH LINES HOLDING FIRMLY IN CHAMPAGNE

Enemy Nowhere Can Make Headway, Despite Determined Thrusts. GAINS MADE ARE SMALL. Germans Determined to Blot Out Rheims Salient if Possible.

As the Germans are still attacking the allied lines viciously on both sides of the Rheims salient, what gains they are making continue to be small ones... The official announcement states that Rev. P. L. Kerish has been appointed general secretary of the committee of local arrangements at Hamilton.

HAMILTON TO HAVE IMPORTANT GATHERING

Quadrennial Meeting of Methodist High Court to Be Held There in October. Official announcement has just been issued by the Methodist General Conference special committee that a strong committee of arrangements has been organized at Hamilton for the quadrennial meeting of the Methodist high court of the Dominion.

CORRUPTION FUND TO INFLUENCE U. S.

Germans Raised Ninety Million Dollars for Corruption. TO FOSTER PACIFISM. Enemy Aimed at Controlling Papers and Certain Colleges.

New York, July 17.—Declaration that fully \$90,000,000 of an aggregate sale of \$100,000,000 of German war bonds in this country early in the European war went into a "corruption fund" managed by Teuton agents here was made today by federal officials investigating German propaganda activities.

LIEUT. B. N. GARRETT IS REPORTED MISSING

Young Flying Officer, Whose Only Brother-in-Law, Went Overseas Last December. Lieut. Beverley N. Garrett of the Royal Air Force was reported missing on July 14, according to a cablegram received last night by his father, A. N. Garrett of The World Office.

FRENCH RESISTANCE CHECKS GERMAN THRUST AT RHEIMS

BRITAIN CARRIES BULK OF TROOPS

Over Half of the American Army Travels Under Union Jack. London, July 17.—Of the 637,828 American troops brought to Europe in the months of April, May and June, 356,816 were carried in British ships, according to a statement made in the house of commons today by Sir Leo Money, parliamentary secretary to the ministry of shipping.

GOURAUD BARRED CHAMPAGNE DRIVE

French Triumph Over Germans With Comparatively Insignificant Losses. TARGETS FOR GUNS. Allies Made Splendid Practice on Advancing Waves of Enemy.

Allies, With Alternative Advance and Recoil, Heroically Bar Way to Enemy West of City—Line Stands Intact on Whole Front.

Paris, July 17.—The French positions remain intact along the whole Champagne front, according to the war office announcement tonight. Heavy fighting continued throughout the day, and at some points the Germans were able to make gains, but they met with powerful resistance everywhere. The battle continued today with stubbornness along the whole front. West of Rheims, despite his efforts, the enemy was not able to make further advance.

NO BOUNTY IN SIGHT FOR GOLD PRODUCERS

Neither Does Government Favor the Importation of Oriental Labor to Aid Them. HOPE FOR IMPERIAL AID. Authorities Said to Be Anxious to Stimulate Production Within the Empire.

Ottawa, July 17.—Indications are that the gold producers of Canada will have to look for aid and encouragement to the imperial rather than to the Dominion Government. At present gold is not being profitably produced as the cost of production has steadily increased, while gold remains at a fixed value. Representations have been made from time to time to the Dominion authorities respecting the importance of the industry and the necessity for it being stimulated in some way by the action of the government.

BORDEN SENDS MESSAGE TO GENERAL CURRIE

London, July 17.—The following letter was forwarded by Sir Robert Borden, the Canadian premier, to Lieut.-Gen. Sir Arthur Currie, officer commanding the Canadian army corps, upon the former's return from a visit to the corps in France: "We have returned from our visit with fresh courage from the renewed inspection. The fine physique, magnificent spirit and splendid confidence of the Canadian corps were most impressive. If all our countrymen could have witnessed the gathering on Dominion Day for the highest and most present on the following day when the brigades paraded in battle order, there would be no need of any message from the Canadian corps to the army of Canadian people."

NEW SUBSTITUTE IN THE SOYA BEAN

Hundred Million Pounds of Beef Shipped by U. S. New York, July 17.—The federal food board announced tonight that it had received a statement from the United States food administration showing that nearly 100,000 tons of beef was sent abroad in May, principally to England, France, Italy and Belgium. The shipments for the month surpassed any previous record in the history of the country. While pork exports were 281,855,000 pounds for the same month, they were slightly less than in April.

NO STRIKE THIS WEEK BY RAILWAY SHOPMEN

Montreal, July 17.—R. J. Tallon, president of the Federated Trades of Montreal, Canada, said today in a statement that there is little probability of a strike order being sent out this week to the railway shopmen.

ADVANCING IN ALBANIA

French Make New Progress North of Devoli River, Capturing Village. Paris, July 17.—A French official communication says: "Eastern theatre—The usual artillery activity was displayed along the whole front. In Albania our troops made new progress north of the Devoli River. We occupied the village of Mevan, capturing about thirty prisoners."

FOUR MEN FOR ARMY FROM BASEBALL CROWD

Two Others, Despite Having Given Bonds, Fail to Report on Time. Reports from the office of Captain Tom Flanagan show that of the 47 men gathered by the civil branch of the military police in the raid on baseball fans Tuesday afternoon only four were found to be eligible for the army. The others, on being allowed a few hours' time, produced the required military papers, except two men, who gave bonds to report again to the police yesterday and up to last night had failed to do so.

AUSTRIA CONFISCATES HARVEST; SERBIA FACED WITH STARVATION

London, July 17.—It is learned from official Serbian sources that Austria-Hungary has confiscated the whole of this year's Serbian harvest, as well as the ration allowed the previous year. The Serbian people therefore are faced with starvation, besides which they are experiencing a further reign of terror and cruelty.

FOOD PRODUCTION IN ENGLAND MAY BE LOWER THAN EXPECTED

Washington, July 17.—Drought, early frosts, and labor shortage in England threaten to reduce somewhat previous estimates of food production, according to a cable advisory received today by the food administration from England. The food situation is described as better than last year, but the season of anxiety is not yet over. The possibility of the wheat crop will be revised. Barley and oats, potatoes and root crops also suffered.

SEDLIN JUNCTIONS BOMBED BY BRITISH

Royal Flying Corps Attacks German Bunkers, Airdromes, Dumps and Zeebrugge Mole. London, July 17.—The work of the British air forces in aerial operations is described tonight in the official statement as follows: "On July 16 repeated thunder and rainstorms prevented continuous aerial work. Our airplanes took advantage of the fine intervals to carry out reconnaissance work with the artillery and bombing."

COSTLY ADVANCE TOWARDS RHEIMS

Germans Achieve Gain on Six-Mile Front Against Allies. London, July 17.—Despatches arriving in London this evening say that at only one point did the Germans succeed in advancing today, and then at enormous costs. The despatches assert that at 11 o'clock this morning after two unsuccessful attempts the Germans, on a front of six miles, pushed into the French lines to a depth of one and a half miles at its deepest point at Rheims mountain.

BRITISH PATROL FIGHTS NORTH OF BETHUNE

London, July 17.—The war office communication issued this evening says: "We secured a few prisoners during the day in patrol encounters north of Bethune and west of Merville." "The hostile artillery developed great activity during the night with gas shells on the Villers-Bretonneux front. This morning the hostile artillery and trench mortars have shown increased activity in the Albert sector."

BERTHELOT LEADS ARMY

General Who Headed French Mission to Rumania Commands Franco-Italians. Paris, July 17.—After being permitted to print the information last night that General Gouraud of Danubius fame was commanding the French sector between Rheims and Massiges, the Paris newspapers today are allowed to reveal the fact that General Henri Berthelot, who headed the French military mission to Rumania, is now commanding the Franco-Italian army in the sector between the Marne and Rheims.

BRITISH DETACHMENT RAIDS AUSTRIAN LINE

Rome, July 17.—The official communication from Italian headquarters says: "On Monday evening a British detachment penetrated the enemy's lines southeast of Asiago. Heavy losses were inflicted on the garrison, and twenty-four prisoners were taken. Repeated enemy attacks yesterday resulted in lively activity between the northeastern slopes of Sasso Rosso and the Brenta. North of Grappa the enemy heavily stormed our advanced lines south of Col Toson, but was driven back."

DOWNPOUR OF RAIN SLOWS UP FIGHTING

With the American Army in France, July 17.—A downpour of rain over the battle zones between Chateau Thierry and Dormans, on the Marne front, has served to slow up the operations since early this morning. In the neighborhood of Fosseoy, in the river bend district, the Americans further improved their positions today.

FRENCH FIND RANGE OF BRIDGES ON MARNE

London, July 17.—French counter-attacks have brought the German bridges over the River Marne under the fire of the French artillery of medium calibre. General von Einem's army, which has now been definitely engaged on the German left wing in the Champagne, yesterday delivered five attacks between Suippes and Massiges. All the attacks were repulsed with heavy losses.

GERMAN ATTEMPT ELSEWHERE HINTED

Bad Weather Accentuates Comparative Failure of Offensive—Prognosticators at Fault. British Headquarters in France, July 17.—For once the German weather experts have been at fault. Bad weather has doubtless accentuated the comparative failure of the offensive, otherwise there might have been something suspicious in the little progress made to the east of Rheims. Even conceding everything to the gallantry of the French, and the foresight of their leaders, the progress made is puzzling, except on the hypothesis that no further progress was intended, the attack being a mere holding one to attract reserves from other sectors.

NEW SUBMARINE STUNT

German U-Boats to Capture Crews of Allied Merchantmen for Imprisonment. Amsterdam, July 17.—The Telegraph publishes a statement, which it attributes to a reliable source, that German submarine commanders have been ordered as far as possible to make prisoners of the crews of enemy merchantmen, particularly subordinate members of these crews. The German authorities, it says, intend to treat them not as civilian war prisoners, but to subject them to the most severe regimen of ordinary prisoners.

Various advertisements on the left margin including 'S', 'Drift', '88c', 'Cloths', 'Company Limited'.

MAY MAKE SURVEY OF COAL SITUATION

To See That Dealers and Household are Not Hoarding.

USE OF SOFT COAL

It Has Been Found Satisfactory in Parts of United States.

Coal dealers and officials alike have an air of solemn stillness these days. They are philosophers who believe "what the eye doesn't see the heart needn't grieve for." They can see no coal for the average householder in sight, so why grieve?

Let the future take care of itself. How long, excuses won't go next fall, and whether or not they can do anything now to help the coal scarcity the fact remains they are keeping mum on the subject and only hand out the very unsatisfactory news that deliveries in the fall, this year does not suit the clamorous householder.

One man told The World yesterday that he had always used anthracite to heat his large dwelling, but had been unable to place an order.

Letters were received from various sources yesterday that the coal situation between Leaside and Toronto is licensed. The suggestion was turned to the coal commission, who thought that the only result would be to lessen the competition now prevailing with the jitney service in the city.

The resignations of Police Constables Gohem, Reynolds and Dicks were accepted.

Ernest Armstrong, two years old, was brought to the Sick Children's hospital from Brampton last night suffering from severe burns. He set fire to the curtain while playing with matches.

The Ontario and Quebec committee of the military Y. M. C. A. paid their semi-annual visit of inspection to Camp Niagara yesterday afternoon.

The three days' virtual hold-up of the German effort represents the sustaining of casualties out of all proportion to the gains by the enemy.

At some point towards the close of the present campaign in October the Germans will probably have a crisis in man-power.

During the progress of the battle the Germans appear to have modified their strategic plans, from a complete occupation of the left bank of the Marne to a reduction of the Rheims salient.

The Germans lay claim to the taking of 5,000 additional allied prisoners, making their total for the offensive 18,000. The prisoners probably come from blockhouses established in the allied lines and held as an obstruction to delay the German advance.

WATERFRONT NEEDS MORE PROTECTION

'Helpless Condition.' is View of R. H. Greer at Laidlaw Inquest.

IGNORES DROWNING

Montreal Pleasure-Seeker Refuses to Lend Any Aid.

The inquest into the death of Mrs. Letitia Laidlaw and her little daughter, Nancy, aged four years, who were drowned at Long Pond, Centre Island, on the afternoon of Monday, July 8, was resumed last night at the morgue before Coroner Dr. J. E. Elliott, and after testimony of eight witnesses had been taken, the hearing was adjourned until Thursday, July 25.

Dr. Elliott stated that E. L. Cousins, chief engineer of the harbor commission, was to submit some blueprints showing where the dredging had been carried out in the pond, and the water depths.

The chief point brought out at last night's hearing was the statement made by Police-Serjeant W. Miles that there was no accommodation for bathing at Long Pond, and despite the fact that it was considered dangerous there, Little children were often seen paddling, but he stated that there were no rules.

WAR VETERANS VETERANS WOULD LOOK INTO COAL SITUATION

Suggestion Made That Money Be Pooled and Entire Supply Bought in.

YORK COUNTY AND SUBURBS WEST TORONTO WINS OVER MOUNT DENNIS

Three Mount Dennis clubs last night for a friendly game and were defeated by nine shots. Scores: York, Toronto, 12; Mount Dennis, 9.

Highway engineer for York County, who yesterday was elected D. E. Masonic Grand Lodge meeting in Windsor, Jno. B. Brennan was elected in Toronto west and John Graham in Toronto's East.

Ontario Masons Meet at Windsor Grand Master's Report Shows That the Order is in a Flourishing Condition.

Windsor, July 17.—The annual communication of the Masonic Grand Lodge of Ontario opened here today with 300 delegates from all points in Ontario in attendance and with most worshipful Grand Master W. H. Wardrope, K.C. of Hamilton, presiding.

Masonic greetings from the Windsor lodges were presented by a deputized worshipping Master Howe read an engrossed address referring to the fact that it was 16 years since grand lodge met here before, and in that time Masonry had enjoyed a remarkable growth from two lodges with about 400 members to four lodges with more than fifteen hundred members.

Grand lodge was shown to be in a flourishing condition when the grand master read his report showing more than 60,000 members and receipts for the year about \$22,000. He paid a high tribute to the late John Ross Robertson, referring to him as one of the outstanding figures in Canadian life whose death caused an almost irreparable loss to the grand lodge.

W. W. Logan of Hamilton is acting grand secretary and will likely be continued in office. There will be no changes this year in the principal officers.

District Deputies Elected. Judge D. H. McWatt, of Sarnia, will introduce a motion tomorrow to convene convention centres to Toronto, London, Hamilton and Ottawa. That the move will be defeated was the outspoken belief of many of the delegates tonight. Judge McWatt was the chief opponent to this year's convention being held in Windsor.

The following district deputies had been chosen up to this evening: L. L. Robert, Pye; London, Herbert Magill; Huron South, John Rork; Wellington, J. C. Rundle; Hamilton, John C. Gould; Niagara, Dr. W. A. Mackay; Toronto, West, John B. Bennett; Toronto East, J. A. Baham; Toronto Centre, E. James; Ontario, Charles Thorndike; Frontenac, William Campbell; Ottawa, Dr. A. H. Patterson; Algoma, W. W. Brown; Nipissing, A. E. Graham; Muskoka, Dr. A. H. Lambert.

Mechanic in Trial. Charged with robbing the cash box at the aviation camp at Long Branch to the extent of \$700 Pte. Adam Casselle, of the R. A. F. was committed for trial in the police court yesterday.

Called as the first witness for the prosecution, Corp. Benjamin Patton, the camp cashier, told of having locked \$710 in the cash box on the night of June 14 and of finding that sum missing on the following day.

"Who had access to the box?" inquired Colonel Deroun. "No person, the keys were in a case's register up on a shelf," explained Mr. Corley.

The man was arrested in a Hamilton hotel where he had registered with a woman as man and wife, by Detective Shirley of the city.

"He told me that he had won the money playing stud poker at Camp Borden," concluded the officer, winding up the evidence for the committal.

Falls Three Storeys. Malcolm Jennings, aged eight, 27 Wardell street, had a miraculous escape from death yesterday afternoon when he fell three storeys from an attic window in his home to the large front porch of the house.

He was picked up and rushed to the Hospital for Sick Children, where he was found to have sustained a fracture of the right arm.

Established 1872 BANK OF HAMILTON THRIFT is of vital importance, but alone it is not sufficient at the present stage in Canada's development.

The money saved must be used for the production of new wealth in order that the growth of the country may be unhampered. The Bank of Hamilton assists and encourages increased production.

Main Toronto Office: 5 Yonge Street. M. C. Hart, Manager.

Crushed Between Cars. When he cranked his car while it was standing in high gear yesterday morning, a fracture of the left leg was sustained by two broken ribs when it crushed him against another car which was parked opposite 38 Victoria street. The man had left his car standing and then proceeded to crank it, standing in between the two cars. He was removed to his home.

Young Boy is Drowned in the Humber River. A young lad thought to be Teddie Bond, 2320 Dundas street, Runnymede, is believed to have been drowned in the Humber at Lambton during the Hydro-Electric picnic which was held there yesterday. County Constable Suggs last night telephoned the police of Keele street station that a boy had been drowned and gave a description of him. Some time later some other boys came to the station inquiring for a lad who was lost. The description given by them tallied with the description of the boy who was drowned at Lambton. The county authorities have commenced dragging operations.

Little Boy Injured. George Gordon Hatle, aged 7, 7 St. Clare's avenue, was removed to the Hospital for Sick Children yesterday evening in the ambulance suffering from a fracture of the left leg which he received when he pulled a window box filled with flowers over on himself. The boy's father is in France.

Run Down by Motor. When he ran in front of a motor car owned and driven by James Harter, 235 Brock avenue, yesterday afternoon, Fred Cormack, aged 8, 60 St. George street, was knocked down and slightly injured about the head. The lad was picked up by the driver and carried into his home.

Killed in Elevator; Pulled Wrong Cable. Robert S. McCormick's Body Found by Employer Early This Morning. Jammed between the first floor and the elevator in the Oscar Madauer & Company's plant, 22 Francis street, the body of Robert S. McCormick, 35, married, who lived at 600 Crawford street, was found early this morning by Oscar Madauer, the owner.

McCormick was last seen about 10 o'clock in the evening working on his ledgers by the night watchman, and was not seen until his body was found caught between the first floor and the elevator. It is believed by the police that he had gone down to the cellar and in getting out of the elevator he must have pulled the wrong cable and missed his footing. Dr. Livingstone, 241 Jarvis street, was called, but the man had been dead for some time. The body was removed to the city morgue.

Charged With Robbing Safe of Flying Camp. Charged with robbing the cash box at the aviation camp at Long Branch to the extent of \$700 Pte. Adam Casselle, of the R. A. F. was committed for trial in the police court yesterday.

Called as the first witness for the prosecution, Corp. Benjamin Patton, the camp cashier, told of having locked \$710 in the cash box on the night of June 14 and of finding that sum missing on the following day.

Dr. Livingstone, 241 Jarvis street, was called, but the man had been dead for some time. The body was removed to the city morgue.

Charged With Robbing Safe of Flying Camp. Charged with robbing the cash box at the aviation camp at Long Branch to the extent of \$700 Pte. Adam Casselle, of the R. A. F. was committed for trial in the police court yesterday.

Called as the first witness for the prosecution, Corp. Benjamin Patton, the camp cashier, told of having locked \$710 in the cash box on the night of June 14 and of finding that sum missing on the following day.

YORK COUNTY AND SUBURBS WEST TORONTO WINS OVER MOUNT DENNIS

Three Mount Dennis clubs last night for a friendly game and were defeated by nine shots. Scores: York, Toronto, 12; Mount Dennis, 9.

Highway engineer for York County, who yesterday was elected D. E. Masonic Grand Lodge meeting in Windsor, Jno. B. Brennan was elected in Toronto west and John Graham in Toronto's East.

Ontario Masons Meet at Windsor Grand Master's Report Shows That the Order is in a Flourishing Condition.

Windsor, July 17.—The annual communication of the Masonic Grand Lodge of Ontario opened here today with 300 delegates from all points in Ontario in attendance and with most worshipful Grand Master W. H. Wardrope, K.C. of Hamilton, presiding.

Masonic greetings from the Windsor lodges were presented by a deputized worshipping Master Howe read an engrossed address referring to the fact that it was 16 years since grand lodge met here before, and in that time Masonry had enjoyed a remarkable growth from two lodges with about 400 members to four lodges with more than fifteen hundred members.

Grand lodge was shown to be in a flourishing condition when the grand master read his report showing more than 60,000 members and receipts for the year about \$22,000. He paid a high tribute to the late John Ross Robertson, referring to him as one of the outstanding figures in Canadian life whose death caused an almost irreparable loss to the grand lodge.

W. W. Logan of Hamilton is acting grand secretary and will likely be continued in office. There will be no changes this year in the principal officers.

District Deputies Elected. Judge D. H. McWatt, of Sarnia, will introduce a motion tomorrow to convene convention centres to Toronto, London, Hamilton and Ottawa. That the move will be defeated was the outspoken belief of many of the delegates tonight. Judge McWatt was the chief opponent to this year's convention being held in Windsor.

The following district deputies had been chosen up to this evening: L. L. Robert, Pye; London, Herbert Magill; Huron South, John Rork; Wellington, J. C. Rundle; Hamilton, John C. Gould; Niagara, Dr. W. A. Mackay; Toronto, West, John B. Bennett; Toronto East, J. A. Baham; Toronto Centre, E. James; Ontario, Charles Thorndike; Frontenac, William Campbell; Ottawa, Dr. A. H. Patterson; Algoma, W. W. Brown; Nipissing, A. E. Graham; Muskoka, Dr. A. H. Lambert.

Mechanic in Trial. Charged with robbing the cash box at the aviation camp at Long Branch to the extent of \$700 Pte. Adam Casselle, of the R. A. F. was committed for trial in the police court yesterday.

Called as the first witness for the prosecution, Corp. Benjamin Patton, the camp cashier, told of having locked \$710 in the cash box on the night of June 14 and of finding that sum missing on the following day.

"Who had access to the box?" inquired Colonel Deroun. "No person, the keys were in a case's register up on a shelf," explained Mr. Corley.

The man was arrested in a Hamilton hotel where he had registered with a woman as man and wife, by Detective Shirley of the city.

"He told me that he had won the money playing stud poker at Camp Borden," concluded the officer, winding up the evidence for the committal.

Falls Three Storeys. Malcolm Jennings, aged eight, 27 Wardell street, had a miraculous escape from death yesterday afternoon when he fell three storeys from an attic window in his home to the large front porch of the house.

He was picked up and rushed to the Hospital for Sick Children, where he was found to have sustained a fracture of the right arm.

Established 1872 BANK OF HAMILTON THRIFT is of vital importance, but alone it is not sufficient at the present stage in Canada's development.

The money saved must be used for the production of new wealth in order that the growth of the country may be unhampered. The Bank of Hamilton assists and encourages increased production.

Main Toronto Office: 5 Yonge Street. M. C. Hart, Manager.

Crushed Between Cars. When he cranked his car while it was standing in high gear yesterday morning, a fracture of the left leg was sustained by two broken ribs when it crushed him against another car which was parked opposite 38 Victoria street. The man had left his car standing and then proceeded to crank it, standing in between the two cars. He was removed to his home.

Young Boy is Drowned in the Humber River. A young lad thought to be Teddie Bond, 2320 Dundas street, Runnymede, is believed to have been drowned in the Humber at Lambton during the Hydro-Electric picnic which was held there yesterday. County Constable Suggs last night telephoned the police of Keele street station that a boy had been drowned and gave a description of him. Some time later some other boys came to the station inquiring for a lad who was lost. The description given by them tallied with the description of the boy who was drowned at Lambton. The county authorities have commenced dragging operations.

Little Boy Injured. George Gordon Hatle, aged 7, 7 St. Clare's avenue, was removed to the Hospital for Sick Children yesterday evening in the ambulance suffering from a fracture of the left leg which he received when he pulled a window box filled with flowers over on himself. The boy's father is in France.

Run Down by Motor. When he ran in front of a motor car owned and driven by James Harter, 235 Brock avenue, yesterday afternoon, Fred Cormack, aged 8, 60 St. George street, was knocked down and slightly injured about the head. The lad was picked up by the driver and carried into his home.

Killed in Elevator; Pulled Wrong Cable. Robert S. McCormick's Body Found by Employer Early This Morning. Jammed between the first floor and the elevator in the Oscar Madauer & Company's plant, 22 Francis street, the body of Robert S. McCormick, 35, married, who lived at 600 Crawford street, was found early this morning by Oscar Madauer, the owner.

McCormick was last seen about 10 o'clock in the evening working on his ledgers by the night watchman, and was not seen until his body was found caught between the first floor and the elevator. It is believed by the police that he had gone down to the cellar and in getting out of the elevator he must have pulled the wrong cable and missed his footing. Dr. Livingstone, 241 Jarvis street, was called, but the man had been dead for some time. The body was removed to the city morgue.

Charged With Robbing Safe of Flying Camp. Charged with robbing the cash box at the aviation camp at Long Branch to the extent of \$700 Pte. Adam Casselle, of the R. A. F. was committed for trial in the police court yesterday.

Called as the first witness for the prosecution, Corp. Benjamin Patton, the camp cashier, told of having locked \$710 in the cash box on the night of June 14 and of finding that sum missing on the following day.

EATON'S DAILY STORE NEWS

Men! More Great Sale Values in Clothing Today!

"Men May Come and Men May Go---But I Go On Forever"

Thus sang the little stream as blithely it wended its way down towards the sea. Now although the July Sales do not go on forever, in fact only till the end of this month, men in droves are coming and going and each and every one goes contented and as happy with the product of his purchase as the little stream was with its care-free lot. And why shouldn't they be? Take for example this:

Big Half Price Clearance of Men's and Young Men's Suits.

It is a clearance, before stock-taking, of all odd suits from the men's, young men's and two-piece summer suit sections. Why shouldn't a man be happy if he needs a good suit and can get one of these whose values are extraordinary, both by reason of the quality and the style of the clothing? There is a great variety of conservative styles and patterns in tweeds, worsteds and cassimere-finished materials, including three-piece sack models with full lined coats and two-piece summer suits with quarter or half lined coats for summer wear. The trousers are finished with belt loops and cuffs. In the lot is a goodly number of snappy models for the young man or youth just coming into his first long trouser suit. It is advisable to come early, as this lot should not last long at these remarkable prices. Sizes 31 to 44 chest measurement. Today, half price, \$6.25 to \$16.25.

—Main Floor, Queen St.

Men's Nightgowns, Extra Good Value Today, at \$1.00.

And Many Other Warm Weather Needs for Men.

They are made from a fine quality plain white cotton or lawn, with full sized bodies, with yoke, breast pocket, and made with V-shaped neck, some trimmed with red or blue braid. Sizes 15 to 19. Each, \$1.00.

Men's Combinations, Special at \$1.29

In white or natural balbriggan, with short sleeves and in ankle length, or in natural shade with long sleeves and 3/4 length leg; Penangle, Zimmerkniit and Richmond brands, included. All have closed crotch. Sizes in the lot, 34 to 46. Special, \$1.29.

Outing Shirts at 79c

Of fine double white duck, made in coat style, with yoke and attached reversible collar, breast pocket and single band cuffs in imitation double cuff effect. Sizes 14 to 17, 79c.

Men's Bathing Suits, in cotton and wool mixture, made in athletic style, V-shaped neck and fastening on shoulder with single button, all in one piece style with skirt. The colors are blue and white, grey with cardinal or black with yellow trimmings. Sizes 34 to 44. Each, \$2.75.

Men's Colored Neglige Shirts of prints or cotton cambrics, made in coat style with laundered or soft double cuffs. The range of patterns is large, mostly in various arrangements of stripes of blue, black, green, tan or helio on light grounds. Sizes 14 to 17 1/2. Each, \$1.00.

Men's Coatless Suspenders, "Coatless," or invisible suspenders, worn under the shirt and fasten to trousers by means of nickel-plated loops; in fine quality plain white webbing, and made in both two and four-point models. Priced, per pair, 25c, 35c and 50c.

—Main Floor, Centre.

WE ACCEPT COUPONS OF VICTORY BONDS

FOR the convenience of customers Interest Coupons detached from Dominion of Canada War Loan Bonds will be accepted on or after due date in payment for goods bought in the Store or by mail.

Care should be taken to detach only such coupons as are due, the due date being printed on the face of the coupon.

Remarkable Sale Value

in Boys' Tweed Suits at \$3.95, for the last day of the July Sale.

Think of being able to secure a boy's suit such as these for \$3.95! It means a saving of dollars—and the fact that they are EATON-made, of durable tweeds, should be sufficient for any mother to realize their big value. They are in dark greys and greys, showing diagonal weave, have natty lapels, and well-formed shoulders. They are in the popular knife-pleat model, with belt attached at waist, durable body lining, and full fashioned bloomer pants, with strap and buckle at knee. Sizes 24 to 28 or 6 to 10 years. Sale price, today, \$3.95. —Main Floor, Queen St.

Three Rousing Specials for the Last Day of the Sale of Men's and Children's Hats.

Panama Hats at \$2.95; Straw Boaters at \$1.00; Kiddies' Outing Hats at 12 1-2c.

Once more the atmosphere is sizzling, and handkerchiefs are performing their usual summer occupation of mopping the perspiring brow. At last, summer hats—the Panama, the straw—come into their own. These at \$2.95 are not "Toys," but Panamas, made from South American fibre. They are in negligee, fedora, or sailor shape, trimmed with heat band. But it's not altogether the look, the lightness or the comfort which is the outstanding characteristic—it's the exceptional price. Sizes 6 5-8 to 7 1/2. Today, sale price, \$2.95.

These Boaters at \$1.00 Also Means a Saving

Although in the middle of the straw hat season these fine sennit boater straws are to be cleared out today at a characteristic July Sale price. They are trimmed with neat bands and well drummed leather sweat band. Sizes 6 5-8 to 7 1/2. Sale price, \$1.00.

Half-Price and Less! Children's Outing Hats at 12 1-2c

They are in linen shade with colored trimming, have well-stitched seams and brims, and are in rah! rah! shape. For this item we cannot take 'phone or mail orders, the quantity being limited. Not more than two hats to a customer. Sizes 6 to 6 7-8. Today, 12 1/2c.

—Main Floor, James St.

TO GRIP GERMANY IN STRANGLEHOLD

Hamburg Business Men Now Largely Discourt Mittel- europa Expectations.

NOT CURE FOR ILLS

Impossible to Cover All Needs From Domestic Sources.

Amsterdam, July 17.—Those pan-Germans who dream of a complete economic independence as the result of the projected Middle Europe League are rudely awakened by Philipp Heineken, director of the North German Lloyd Steamship Company, who, in the periodical Deutsche Stimmen, publishes an article which has attracted a good deal of attention. It is Bremen, Hamburg and the other seaports where the entente stranglehold will be the most severely felt, the director says, and the practical views of businessmen there are apt to clash with those of political schemers in Berlin.

Director Heineken, who expressly disclaims judging the question from a narrow shipowners' point of view, warns against exaggerated expectations from the "blessed" word Mitteluropa as a cure-all for the economic ills to which the central powers are heirs.

It is a popular fallacy, he declares, to imagine that Middle Europe will make up for lost markets abroad. He prefers the principle adopted at Vienna in a resolution of the federated Austro-German commercial unions last June which was, "The resumption of economic relations with all nations."

Director Heineken cites a series of figures taken from the German pre-war imports list and continues by saying that a glance shows it will be impossible in the future to cover all these needs from domestic sources. Austro-Hungary, which has no colonies, is especially dependent on overseas supplies. It is of prime importance, Herr Heineken thinks, that the central powers rid

themselves as soon as possible after the war of the shackles of what he terms a state of socialistic war administration and return to individual enterprise.

ENEMY FIGHTS TO SAVE WRECKAGE OF HOPES

London, July 17.—On the second day of the crown prince's great offensive the fighting degenerated into a disjointed series of local actions, which, altho fought with the greatest bitterness, are nevertheless limited, says a despatch from Reuter's correspondent at French headquarters, sent from France at 8 o'clock this morning.

These local actions, he continues, have been undertaken in the hope of saving what may yet be saved from the wreck of Monday's hopes. The German push down the Marne valley may progress a few miles further before being brought to a standstill, for they are fighting hard here. But the French are posted strongly on the heights overlooking the course of the river, and it is doubtful whether serious gain can be made by the invaders.

The six-mile penetration of the Germans to Festigny, noted in earlier despatches, does not mean a German advance of that distance south of the Marne, as Festigny is only about two and three-quarters miles south of the river at its nearest point.

A Million Dollars in Taxes Are Involved in This Suit

Regina, July 17.—The right of the provincial government to legislate in connection with levying a surtax on the Hudson Bay Co. was upheld by Mr. Justice Lamont in the Supreme Court of Saskatchewan today when judgment was rendered in the case of Bratts Lake rural municipality vs. the Hudson Bay Co. An appeal will be taken to the privy council. About a million dollars of taxes annually are at stake as almost every municipality in the province contains more or less land of the Hudson Bay Co.

GERMAN CITIES BOMBED.

London, July 17.—British aviators again have attacked Offenburg, near Karlsruhe and Thionville, near Metz, says the official statement from the air ministry issued last night. Good bursts were observed at Offenburg, and a fire, followed by explosions, was started at Thionville.

NEW GERMAN FORCES MAKE GAIN ON MARNE

Paris, July 17.—Today's French official statement says: "South of the Marne new German forces pushed forward and attacked yesterday and last evening the heights north of St. Agnan and La Chapelle-Monthodon. The enemy succeeded in penetrating into the Bourdonnerie Farm, and the battle continues with violence on the slopes and woods immediately south of this point.

"Further east, despite very vigorous attacks, the French held the enemy in the southern outskirts of Bouquigny Wood and at the village of Nesles. The Germans likewise launched a powerful attack in the direction of Monvoisin, on the south side of the Marne, southwest of Venouseuil, but were thrown back from this locality by a powerful counter-attack by the French.

Between the Marne and Rheims violent combats developed in Courton wood. A German attack in the region of Vriigny broke down completely.

"East of Rheims German local attacks were fruitless, notably in the region of Prunay. A renewed attack of the enemy in the direction of Beaumont on the south side of the Vesle, suffered a sanguinary repulse. The French positions throughout have been maintained intact."

PEACE DRIVE FAILURE LIKE ARMY'S ATTACK

Washington, July 17.—There is only one opinion in official circles here as to the note addressed by Baron von Furian, the Austro-Hungarian foreign minister, to the Austrian and Hungarian premiers on the subject of peace. That is, that this evidently carefully framed communication was designed to prepare the way for peace negotiations immediately upon the hoped-for successful conclusion of the present great German drive against the entente force along the Marne and east of Rheims.

In the assurance that this drive would be successful, if not in opening the road to Paris, at least in inflicting great losses upon the enemy, the central powers, it is believed, felt that in their panic and desperation the entente powers will be prepared to discuss peace.

FOOD CONDITIONS IN THE BRITISH ISLES

Ottawa, July 17.—Another striking example of the democratic growth in British public life since the outbreak of the war is the appointment of W. R. Clines to the office of food controller of Great Britain in succession to the late Lord Rhonda.

A cable by the British ministry of information states that for some time past Mr. Clines has been Lord Rhonda's right hand man as secretary to the food ministry in parliament. He started life as a mill hand and has been a Labor member since 1914. His appointment is received with enthusiasm in all quarters.

"Central imports, excepting rice, are considerably lower than at the same time last year, but the consumption of bread remains much the same. The demand for frozen meat in the allies armies continues very heavy and increased supplies of dried and frozen fish have been particularly welcome. Supplies of cheese have considerably increased, but the demand is still much in excess of the supply owing to the necessity to rebuild stocks.

"The coal requirements of the allies have largely increased and 75,000 skilled miners have been called into the army, so that it is inevitable that domestic supplies of coal will be restricted by a quarter at least. The board of trade has issued an order, accordingly, for household fuel and lighting, basing the estimate of coal needed on the number of rooms in the house."

SENSELESS BLOODSHED.

Thus Von Burian Talks While Germans Force Slaughter.

Amsterdam, July 17.—The Austro-Hungarian Government regards the war as "senseless and purposeless bloodshed," and believes it might be ended at the moment when the allies again manifest feelings of humanity, Baron Burian, the Austro-Hungarian foreign minister, made this statement in the concluding portion of his address to the Austrian and Hungarian premiers Tuesday, according to despatches from Vienna.

LIEUT. CALVERLEY KILLED.

London, July 17.—Lieut. Osbert Leveson Calverley was killed flying in England. He belonged to Oakville, Ont., and joined the air force in January last.

VON SEYDLER BELITTLES ALLIED PROPAGANDA

Amsterdam, July 17.—Dr. von Seydler, the Austrian premier, delivered his expected address in the lower house of the Austrian Reichsrath yesterday, says a Vienna telegram. The prime minister, the message adds, was received by the Czecha with uproarious shouts and by the Germans with loud applause.

Speaking on the situation in Austria-Hungary, Dr. von Seydler said: "The internal propaganda methods of our enemies are so absurd that they only testify to their profound ignorance of our conditions. These arrows will rebound against our unshakable devotion to the dynasty, the loyalty of our citizens to the state, and the firm internal cohesion of our state within the framework of the monarchy.

WILL BUILD SHIPS ON A LARGE SCALE

Quebec, July 17.—A new shipbuilding concern has been formed here with a capital of \$5,000,000 and will operate one of the largest shipyards in America on the shores of the St. Lawrence opposite Quebec City. The new concern will take in a number of existing firms, among which are some Ontario companies. The new syndicate will comprise the Federal Shipbuilding Company, of Sarnia; the Dominion Shipbuilding Company of Col. lingwood, and Dusault and Hutchinson, of Levis.

The firm will build steel vessels for the French Government, and yesterday the building of the docks and yards was started.

The Federal and Dominion shipbuilding companies will cease building ships in Ontario.

TO BREAK WITH BRITAIN.

Lenine Said to Be Peevish at Landing on Murman Coast.

Amsterdam, July 17.—Premier Lenine is about to break off diplomatic relations with Great Britain and any other entente power connected with the landing of armed forces on the Murman coast, according to news said to have been received from Moscow by Berlin newspapers.

U. S. WILL RELIEVE SCARCITY OF FODDER

Ottawa, July 17.—Arrangements have been completed by the Canada Food Board with the United States food administration by which 15,000 tons of linseed oil cake and meal will be supplied to relieve the conditions which prevail in Canada owing to the scarcity of feed and fodder.

The food board will be responsible for the allocation of the oil cake and meal to all dealers who wish to import these commodities must attach to the regular import application blanks a sworn statement of the quantities sold during the three years prior to July 1, and distribution will be made on this basis. Applications should be sent direct to the Canada Food Board.

GERMAN MASSES HELD IN FORTY-EIGHT HOURS

On the French Front in France, July 17.—Thirty-eight hours have sufficed for the holding of the German masses launched in the crown prince's great offensive on Monday. The enemy units which were turned back from the direction of Paris, and are endeavoring to ascend the Marne, are being held in check by the French troops.

To Form a Federal Policy For Obtaining Grain for Seeding

Regina, July 17.—Negotiations towards the formation of a federal policy to secure a sufficient supply of seed wheat and seed oats for distribution throughout the Dominion for next spring's seeding, will be under way at Ottawa within a few weeks, according to announcement today. A. E. Wilson, Dominion seed purchasing commissioner of Regina, will leave for Ottawa in a week or so to confer on the situation with Hon. T. A. Creer, minister of agriculture, and George H. Clarke, federal seed commissioner.

SENSATION IN GERMANY

Paris, July 17.—"It is perhaps too early to speak of victory," says The Echo de Paris, "but we may say that the enemy has suffered a gigantic failure, which will cause a sensation throughout Germany."

CANADIAN MOGULS DARE ALL HAZARDS

Come Thru Safely Despite Shell Fire and Congested Right of Way.

Ottawa, July 17.—Roland Hill writes from France as follows: "From Moose Jaw to Amiens is a fiery, yet during the German offensive there was an old Canadian Pacific engine which had done its duty in both places. It is still running along these new lines in France, and is entitled to a locomotive wounded stripe, for it was a casualty during the recent heavy fighting. Manned by a Canadian crew, this mogul from the prairies did consistently good work, until a fragment of shell laid it out. Now it has been thru the casualty clearing shop for engines, and is running steadily.

The Canadian railway operating companies did their own little share in frustrating the Hun attack. One Canadian engine was attached to a long ammunition train which was caught when the enemy shelled and bombed a narrow funnel thru which many trains had to pass at that time. The crew stayed with the train, and when morning and peace dawned, found two dead engines and an empty train ahead of them on a track that even a construction train would not dare. These Canadians pushed the engines ahead of them, and into a much bombed siding, then ran their own train along a sky line which the Hun had observed on, and into their appointed dumps in a little sheltered valley.

Another Canadian engine, with empty trucks, found itself in the mainstrom near Albert, took its chances of having the line behind it broken, and then came victoriously thru with two dead casualty clearing stations, bags, baggage, nurses and all. Some of the railways operating crews worked 36 hours at a stretch during the crisis, and took tremendous chances, but always came thru with luck. One engine after two solid days work, hauled fifty trucks and four dead engines back to safety, over a congested track, its crew having to be brakenmen, signalmen, despatcher, and everything."

ACTIVITY PRESAGES EARLY COMPLETION OF GREAT VIADUCT

Big Steel Rails Are Being Rapidly Put Into Place Along Bridge.

HASTENING THE WORK

Big Switch for Broadview-Danforth Corner Has Been Ordered.

The clang of the riveters' hammer is echoing in the Don Valley these days, and each pistol-like report marks another step towards the completion of Toronto's \$2,000,000 engineering enterprise connecting the east with the west end of the city.

The big 60-foot girder rails are steadily creeping along the viaduct, and in a couple of days they will be completed from the west side of Broadview avenue to the Rosedale end. Connecting will start at the beginning of the week, and when this has set the treated wooden blocks, which are already handily ranged, will be laid.

The temporary roadway from the head of Parliament to Sherbourne streets does not put the importance of a great deal of time or labor, and this will be paved with macadam with a bituminous surface.

The construction of the concrete supports to carry the trestle over Glen and also the necessary steel girders are not yet expected to be completed.

The large brick house at the head of Sherbourne street and standing partly on the road is to be vacated by Aug. 1, but in the meantime it will not interfere with any of the work.

HOW TO GET THE VIADUCT GOING

Editor Word: The work of raising and paving the Don viaduct has, I am glad to see, been started again, and the rails ought to be on the ties from Danforth, across the bridge to Castle Frank by Saturday.

The large brick house at the head of Sherbourne street and standing partly on the road is to be vacated by Aug. 1, but in the meantime it will not interfere with any of the work.

vehicles and street cars get from across the Don to Castle Frank. All the other changes will follow in due course. When the Church street cars go across then the Broadview line could be withdrawn from the bridge.

FERRY BYLAW AGAIN UP BEFORE BOARD

The ferry bylaw when brought before the board of control yesterday occasioned some brisk discussion.

"Somebody in the city solicitor's department has made a bonehead mistake in drafting the bylaw," said the mayor.

"We should dismiss the whole department," said Controller O'Neill.

"They couldn't even draw up a simple bylaw," said the mayor.

"It wasn't the fault of the department," said the mayor, "The city clerk should have seen that the bylaw was properly drawn."

Controller McBride: "Let us get a written understanding from the company that they will not increase children's fares or fares of island residents or picnics and ball games and that it shall remain in force for the duration of the war."

"That is just what I was going to suggest," said Howard Shapley, who appeared for the ferry company.

"I think that is all right," said Mr. Colquhoun.

Controller Robbins: "I will not support that. I do not approve of any increase."

The board finally decided to ask the government to approve the bylaw as it stands and they would secure an agreement from the company with the stipulations mentioned.

MAYOR GIVES REPORT UPON OTTAWA TRIP

After returning from Ottawa, Mayor Church has this to say about the purpose and results of his trip: I conferred with the posts department and with the deputy minister, Mr. Coulter, with regard to the deferred increases to the postoffice employees.

This appropriation passed the house, but not in the manner recommended by the department. A sub-committee of the treasury board is dealing with the matter, and I urged the government that immediate action be taken.

The mayor also conferred with General Fleet, General Ashton, and General Helmer with regard to the twelve hundred artillerymen now at Petawawa.

He also discussed the leasing of Stanley Barracks with the military authorities.

Repairs Are Needed at Places on the Lake Front.

Acting Parks Commissioner R. C. Harris, in a letter to the board of control yesterday, stated that "very grave damage had been caused along the lake front by the storms of the season."

GRAND TRUNK TIME TABLE CHANGES

Train No. 89, leaving Toronto at 6.05 p.m. for Hamilton, St. Catharines, Niagara Falls and Suspension Bridge, will commence Sunday, July 21, leave Toronto at 5.45 p.m., making direct connections at Suspension Bridge for Buffalo, New York, Philadelphia, Pittsburgh, etc.

Train No. 108, arriving Toronto 10.38 p.m. from Buffalo, Suspension Bridge, Niagara Falls, St. Catharines and Hamilton, will commence Sunday, July 21, arrive Toronto 10.10 p.m. Particulars under any Grand Trunk Ticket Agent, or C. E. Horning, District Passenger Agent, Toronto.

FARMERS' APPEALS SECURE EXEMPTIONS

These, However, Will All Expire on First Day of November.

Hearing of appeals against military service was resumed in Toronto yesterday at Osgoode Hall at a tribunal presided over by Justice Maester.

The majority of the applications for exemption were by farmers of Sutton West, Maple, Keswick and other sections within the Toronto military district. Of 37 men appearing, 31 were granted exemption.

A lengthy discussion took place between the president of the tribunal and Geo. B. Meadows of the Geo. B. Meadows Co. Ltd., wire, iron and brass manufacturers, who appeared to ask exemption for C. J. Bennett, an employee who had revolutionized the firm's method of accounting.

Mr. Meadows said the firm had tried to train a school teacher to take the accountant's place, but the teacher had failed to make good.

The applicant was allowed exemption for six weeks. Albert B. Gilverson, son of the president of the Rice Lewis Co., on exceptional domestic grounds, was exempted until Nov. 1, it being explained that owing to the father being granted six months' absence, the son would have to take charge of the executive duties.

Exemptions Granted.

Matthew Charpentier, Cedar Brae, Sutton West, to Nov. 1; John A. Harton, Ravenshoe, to Nov. 1; George Bachs, Keswick, to Nov. 1; Mathew Nealon, Sutton West, to Nov. 1; Albert Burdett Gilverson, 21 Roxborough drive, to Nov. 1; Douglas R. Howard, Sutton West, to Nov. 1; Fred Shaw, Sutton West, to Nov. 1; George V. Barber, Sutton West, to Nov. 1; Robert Sherwood, Baldwin, to Nov. 1; David W. Scott, Sutton West, to Nov. 1; Charles W. Graham, Sutton West, to Nov. 1; Thomas Chapsenier, Sutton West, to Nov. 1; William O. Welrick, Maple, to Nov. 1; Robert W. Clarkson, Maple, to Nov. 1; John S. Gilton, 21 East Dundas street, to Nov. 1; British subject; Richard H. Yeatman, Mount Dennis, to Nov. 1; Frank Hawkrigg, Lambton Mills, to Nov. 1; Herman W. Stiles, Virginia, to Nov. 1; Joseph O. Brockbank, Ravenshoe, to Nov. 1; John W. Yarrick, Keswick, to Nov. 1; Orvan Huntley, Keswick, to Nov. 1; Silas Cryderman, Baldwin, to Nov. 1; Ross Stiles, Sutton West, to Nov. 1; Robert R. Haffey, Maple, to Nov. 1; Ezra Sedore, Zephyr, to Nov. 1; William O. Silversaires, Zephyr, to Nov. 1; Percy C. Walker, Mount Dennis, to Nov. 1; Percy C. Walker, Mount Dennis, to Nov. 1; John Gould, King, to Nov. 1; George B. Ferguson, King, to Nov. 1; Charles William Stephens, 6 Marshall street, to Oct. 1; Christian Gledhill, Bennett, 694 Euclid avenue, to Sept. 1; Thomas Henry Hodgins, 808 West Bloor street, to Sept. 17; Samuel Garfield McMillan, Ravenshoe, to Nov. 1; George William Fairbairn, Sutton West, to Nov. 1.

Exemptions Refused.

Walter Henry Lindsay, Thornhill; William Marwood, Teston.

RESORTS IN THE CANADIAN PACIFIC ROCKIES

Banff, Lake Louise, Field and Glacier, the ideal mountain resorts, are in the heart of the Canadian Pacific Rockies, and on the main line of the Canadian Pacific Railway.

RULING CLEAR AIR.

Attorney-General's Department Gives Opinion on Alternative Positions.

The discussion which has been agitating the city hall regarding the eligibility of members of the council to sit on other boards was settled yesterday by a statement from the attorney-general to department.

The local board of health is defined as a committee of council and therefore the ruling does not apply to the aldermen sitting on it.

The right of Commissioner Bradshaw to sit on an arbitration board was determined as at right by the department as the act applies only to members of the council and not employees of the city.

MAYOR THINKS RAIDS ARE OF LITTLE USE

Numerous complaints have been received at the mayor's office regarding the action of the Dominion police who on Tuesday last held up 5,000 people returning from the baseball park.

"Such grandstand scenes seldom result in adding a single soldier to the service, and Toronto has had enough of them."

"Ottawa is simply ruining the tourist trade in Toronto, and it is also interfering with our Exhibition. The newspapers are advertising any merchandise that is necessary to have registration papers to come here. As we are a summer resort city, the action of some of these federal officials in injuring some of the city's trade and commerce. There has been little result from such operations in the districts. Any advertisements in this way are more than counterbalanced by the judicial exemptions granted by judges through the country. There should be an impartial enforcement of the act all over Canada. These raids are not being held in Quebec, Toronto has constituted a number of times, according to it is no necessity for such raids, as they are of practically no use."

DEPUTY FIRE MARSHAL CRITICIZES METHODS

The report of the deputy fire marshal in regard to the cause and circumstances of the recent fire which occurred at the Thor Iron Works, was control Employment of alien labor, carelessness on the part of the workmen in throwing lighted matches about the factory, and a condemnation of the city's system of laying water mains are also items contained in the report. It reads in part:

"The fire might have been caused by the careless throwing of a lighted match or the contact of a broken electric plug with a metal on a bench, thereby causing a short circuit."

RECALLS SERVICE DURING CIVIL WAR

Admiral Bleeker of United States Navy Speaks to Kiwanis Club.

Rear-Admiral Bleeker, retired, of the U. S. navy, gave an interesting recital of personal experiences in the various cruises yesterday at the Kewawana Club luncheon at the King Edward. The Kewawana Club has adopted the name from an Indian word as meaning service and has some interesting customs. A prize for good attendance is awarded at each meeting. Each member introduces himself after luncheon.

Admiral Bleeker was unable to say much in regard to present naval conditions, as since his retirement the changes in guns, on ships and in armor were such that he scarcely knew anything about them, and if he did, he would not be permitted to tell it.

Running over his early experiences at Annapolis and Newport he told of cruising after privateers in the Alabama period, of Mediterranean service and visits from royalty. One princess wished to see "one of those dear little midshipmen," and they were not permitted to tell it.

Earthquake of the coast of Bolivia, when the Town of Rio was destroyed and all the shipping in the harbor except one old merchant ship, the Freedom, which was heavily moored, was swept out to sea, clearing the harbor fifty deep, and men in a great many of the floating back to the city and far inland, were described. Cargoes were scattered along the coast for miles.

He missed the Spanish war, as a member of a broken leg, but got down to the Philippines afterwards and saw a lot of service there. He met Captain, now General, Pershing there as an intimate friend, and spoke of him as a great favorite.

In the Borneo colonies he met Sir Harry Keppel. "You are looking well," he said to Keppel. "The relics of a misadventure life," was the reply. He held next day to keep an appointment to go to the Derby with the Princess of Wales.

Improved Day Train Service, Toronto, London, Detroit, Canadian Pacific Railway.

Train No. 628, re-established daily except Sunday, leaves Toronto 7.45 a.m., arrives London 11.35 a.m., making intermediate stops; connection for St. Mary's.

For full particulars and additional service, see current folders.

THE SOLDIERS' AID COMMISSION

has been incorporated by the Province of Ontario for the purpose of assisting and reinstating discharged officers and men in civil life.

EMPLOYMENT. We cordially invite the co-operation of the public in the important work of securing employment for soldiers who have been discharged from military service.

CLASSES FOR VOCATIONAL RE-EDUCATION OF SOLDIERS WHO HAVE BEEN SO DISABLED AS TO PREVENT THEM FROM RESUMING THEIR FORMER OCCUPATIONS ARE PROVIDED FREE OF COST, AND IN ADDITION, THE SUPPORT OF THE SOLDIER AND HIS DEPENDENTS IS PROVIDED DURING THE PERIOD OF RETRAINING AND FOR ONE MONTH AFTER.

RELIEF FUND. Donations for the assistance of soldiers' families in temporary distress will be thankfully received and acknowledged, and should be made payable to the order of the Commission.

NOTICE OF APPLICATION FOR DIVORCE. NOTICE is hereby given that Vernon Balm Bailey of the City of Toronto, in the County of York, in the Province of Ontario, will apply to the Court at the next session thereof for a Bill of Divorce from his wife, Anna Bailey of the City of Toronto, in the County of York, in the Province of Ontario, upon the grounds of adultery and desertion.

GERMAN CASUALTIES. London, July 17.—Casualties sustained by the German troops in the offensive up to the present are estimated to number 100,000, according to a news received from France today from the battle front in France.

"Traction"—The Aristocrat

Keep tab on the autos passing you with "Traction" equipment. Almost without exception you find "The Master Tire" on cars whose owners take pride in their possession. "Traction" is so aristocratic-looking that instinctively one feels it is always the right tire for the car he has or the car he is going to get.

It is almost certain if a motorist is not using "Traction" that he prefers an anti-skid at a lower price like Dunlop "Special," or a smooth tread like "Dunlop Plain."

The Dunlop Line gives you an excellent opportunity to select the tire you want—at a just price.

Dunlop Tire & Rubber Goods Co., Limited. Head Office and Factories: TORONTO. Branches in the Leading Cities.

Makers of High-Grade Tires for all Purposes and General Rubber Specialties.

DUNLOP TIRES

Q. Quebec, July 17.—The expected strike at the Davie shipbuilding plant, Lauzon, did not materialize today. All the men went to work as usual.

There is a delicacy about mentioning piles. And yet so many suffer needlessly who could be readily relieved and cured if they only knew about Dr. Chase's Ointment.

Men tell one another about this remarkably successful treatment. But many women pine away their health and vitality, dread a surgical operation and not knowing how easily they can be cured at home by Dr. Chase's Ointment.

NEWS OF LABOR

C.N.R. TEAMSTERS RETURN TO WORK

Men of Dominion Transport Company, However, Still Out.

The 40 men from the C.N.R. Transport Company who have been out on strike for the past week returned to work this morning at a wage of a straight \$76.14 a month and under the terms of the MoAdoo award for railway employes. Geo. Ward for the strikers' committee stated last night that while it was true that the men had hoped to get a wage of \$80 a month the MoAdoo award provided for a rising scale of wages according to the fluctuations in the cost of living, and that in these circumstances the men were willing to abide by the award. Negotiations were conducted between Geo. Ward for the strikers and R. Chas. Vaughan, assistant third vice-president of the C.N.R. The strike of the Dominion Transport Co. remains unsettled. The members of the strike committee stated that W. J. Langton, superintendent of the company, refused to offer anything beyond the \$5 bonus offered prior to the strike. He stated to the men one of them reported, that the Shelden and Hendrie companies were paying no more than the straight \$70 a month with the \$5 bonus which was provisional upon the men staying on to days of the Geo. Ward, president of the strikers' committee, stated that when he approached Mr. Langton on behalf of the men he was ordered out of the building, and was told that he was liable to arrest.

PIECE WORK ABOLISHED BY PROPOSED SCALE

The International Union of Journeymen Tailors has considered a reasonable wage and living scale which is to commence on September 1 of this year. It imposes upon the employer the mandate to furnish free work-shops, to consent to a weekly wage scale to be determined by the local, an eight-hour day and time and a half for all overtime. This scheme if followed by the union will do away with the system of piece work and payment for space. Hitherto tailors have had to rent space in which to do work ordered by employers.

COURTS

CONDUCTOR CLAIMS SHOT WAS ACCIDENTAL

Harry Hay, a conductor on the C.P.I. between Toronto and St. Thomas, appeared in the criminal court yesterday before Judge Morson on the charge of stealing a quantity of goods and tickets from the company, and also with shooting with intent at Detective Harper. He pleaded guilty only to having stolen some condensed milk. Detective Harper told how he had found a quantity of canned goods in the conductors' pockets, and said Hay fired a revolver at him. Sgt. G. Ham, one of the company's police officers, had seen Hay take a revolver from his pocket and fire at Harper. Accused declared that he did not know the revolver was loaded and that it went off accidentally. Judge Morson found him guilty of theft and sentenced him to six months' imprisonment.

REDUCED THE TERMS.

Judge Morson yesterday in the criminal court sentenced David Davidson and Charles Watson, late produce merchants on Royce avenue, who both pleaded guilty to the charge of having stolen a large quantity of merchandise, to three months on the jail farm. At first his honor passed sentence of six months, but on the plea of Frank Hughes, who appeared for accused, and in view of the fact that both had been previously of good character, he reduced this.

SENTENCES SUSPENDED.

In the county judge's criminal court yesterday, Roger P. Moffatt and Haley Briggs, convicted on the charge of having received a motor car knowingly it to have been stolen, were let go on suspended sentence by Judge Morson.

ESCAPED FROM JAIL.

Judge Morson in the criminal court yesterday sentenced Frank Deyvestor, who escaped some time ago from jail, to six months in addition to his unexpired term of two years in the Ontario Reformatory. County Crown Attorney Greer stated that a serious thing allowing the prisoners any freedom at all.

PLEADED FOR WOMAN.

In the criminal court yesterday, Myrtle Long, headstrong, guilty to the charge of having stolen a club bag and various other articles from the T. Eaton store, T. O'Connor, who appeared for the woman, put up a strong plea for her and asked for suspended sentence for the sake of the children.

STOLE FROM HOSTS.

James Jackman was found guilty by Judge Morson in the county judge's criminal court on the charge of having stolen a sum of \$20 and a watch valued at \$50 and was sentenced to 30 days in jail. The theft was committed in the house he was visiting.

WATER TRIPS.

Of all the summer water trips, there is none more delightful than that by the Canada Steamship Lines' steamers down the St. Lawrence. Leaving Toronto daily for Kingston, Alexandria Bay, Thousand Islands, Montreal, Quebec and Saguenay. Tickets and all information can be had at Webster & Son, 53 Yonge street.

GIRLS TO PULL FLAX LEAVE FOR CAMP

One hundred and three farmers, garbed in the orthodox khaki knee breeches and gaiters, left the Union station yesterday by the 415 train, bound for the flax fields in the Drayton district. They were in charge of Mrs. W. Galbraith, organizer, and the whole party of about 150 was under the care of J. Goulding, representing the Canadian Flax Mills. They were a kind of advance guard of the total 400 that is expected to be on duty within the next few weeks, and the party that left yesterday are to prepare the tents, erect the stoves, etc. Of the party about 75 were from Toronto and the remainder from the surrounding neighborhood. They will live under canvas, and the camp will be established in the district. To each tent there will be eight allotted, and the girls who are going to pull flax will start at five in the morning and work thru until 11 a.m. when they will return to camp for their midday meal. They will o'clock and work until dusk. Mrs. Galbraith, who is a member of the Victoria League, London, England, stated that the girls will be drilled every day by returned soldiers. "They will do their own catering, build their own tents, and even build their own camp," said Mrs. Galbraith. "They receive their transportation, and will be paid at the rate of \$14 per acre. An active girl should be able to pull an acre in two days." "The flax industry is to be one of the largest in the country," said Mr. Goulding, "and we are going to boost it thru. Nearly all the girls are high school girls who have nothing else to do." The girls will be gone about six weeks. With them they have their mascot, a beautiful blue Persian cat, from Queen Alexandra's Mews at St. James' Palace, which was brought back by Mrs. Galbraith about three years ago. Mrs. Galbraith explained that no girl under 14 has been taken unless accompanied by her mother.

The Toronto World

FOUNDED 1820. Morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

THURSDAY MORNING, JULY 18.

Are We Alive to the Coal Situation?

We dislike to have to disagree with Mr. R. C. Harris, fuel controller for Ontario, but we see nothing in the present coal situation to justify his confidence that there is no need for alarm about the fuel supply for next winter.

It should not be beyond the capacity of the authorities to provide statistics of the coal on hand, the coal in sight, and the coal that is merely problematical, and to contrast it with the actual consumption last year, and with the prices.

For here is one solid fact which cannot be ignored. At this time last year coal was quoted in the city at \$9.50, while today it is \$11. And nobody can get any at \$11 either.

Mr. Harris' statement is somewhat ambiguous. He says that "at the present time there is no justification for the statement that Toronto householders face a serious fuel famine."

What is the matter, then, with the World straining a little also and striking the people up to cope with the situation which has to be met next winter as surely as the snow falls?

People who have stoves in their houses can perhaps manage to concentrate their activities in one or two rooms during the day. It does not hurt anybody to sleep in a cold room if they have sufficient covering.

The public, however, in spite of official assurances, are waking up to the fact that coal is practically not to be had for love or money.

We are not aware that the undertaking to provide a large reserve supply, sufficient to cover the needs of those unable to purchase in advance and who rely on buying in small quantities during the winter, has been taken care of, and as a protection against real suffering among a large class of the population no step is more necessary.

We are not aware either if anything has been done by the fuel administration to compel deliveries from stocks now in hand which are being held for a rise in prices, or for the cheap way of getting profits by compelling householders to haul their own coal, or by selling it to those outside the city who do their own hauling.

CANADA MUST TAKE OVER ALL HER RAILWAYS

As far as we know, the Canadian ministers that went to London to negotiate with the Grand Trunk directors the taking over of that railway and its associated line, the Grand Trunk Pacific, made no substantial progress, and it is current in the press that they are returning to Canada as they left it.

We believe today that one way to get public control of the railways of Canada is to deal with the Canadian Pacific first, in any case, to take them all over. Here are two articles dealing with the matter.

LAST-MINUTE GOVERNMENT.

(Ottawa Citizen, July 16, 1918.) The country is brought to the verge of an industrial breakdown by the stoppage of the railways, before the government can pull itself together to govern in the national interest.

The German Defeat.

Cautious critics are now admitting that the present German offensive is a main action. It is suggested that the enemy will very speedily attack again in a new phase to make up for the setbacks at the Marne.

At any rate the German people are becoming more revolutionary minded. The propaganda which the allies have tardily begun is having its effect. The German people will hear what Lloyd George had to say, that the allies do not want a yard of German land, but they do want an end of the Hohenzollerns and of militarism.

At any rate the German people are becoming more revolutionary minded. The propaganda which the allies have tardily begun is having its effect. The German people will hear what Lloyd George had to say, that the allies do not want a yard of German land, but they do want an end of the Hohenzollerns and of militarism.

DISPUTE OVER PERMIT.

On Controller McBride's motion, the board of control yesterday backed up the council in cancelling the permit issued to build a garage on Lancaster avenue.

A Line of Cheer Each Day of the Year

THE PROTECTOR. A Day is like a Baby unto me. A Portion fair of Love's own minded gold.

And when the twilight hour falls I'm That little day that I have held secure Will smile on me, and I shall know the good Of having lived, and loved, and served in Fatherhood.

The Woman Who Changed

BY JANE PHELPS.

Mr. and Mrs. Babcock Accept George's Invitation.

CHAPTER CXXXVI. To my delight, Mr. and Mrs. Babcock were to visit us. That is, Mrs. Babcock was coming with her husband, and they would spend the two days they were in town, with us.

"I certainly shall! What a nice party we will have. Just ten of us. I will make out the menu and let you see it. What shall we do the first night?"

"Nothing, I think. You must remember that Mr. and Mrs. Babcock are not as young as you are. I think we will dine quietly, then have some music afterward. You can ask Merton Gray to drop in and help out, if you like. He might be willing."

"I am going to ask a favor," I said after she had talked for a moment. "Mr. and Mrs. Babcock of Chicago, business friends of George's, are to spend a couple of days at our house. They are very musical. Would it be asking too much for you to drop around Wednesday evening, and help me entertain them?"

PROMISING OUTLOOK FOR CROPS IN QUEBEC

Quebec, July 17.—Official figures issued today by the Quebec provincial bureau of statistics indicate that, while in 1917, 277,400 acres were seeded with wheat this year, the acreage in wheat runs up to 338,000 acres, a raise of 22 per cent.

There was a raise of two per cent in the oat acreage, of which 1,582,000 acres are under cultivation this year. There is less hay cultivated this year, but more products of every kind are cultivated. Two hundred and forty thousand acres have been sown in potatoes; beans show a raise of 22 per cent in the acreage, 67,300 having been sown this year.

IDEAL VACATIONS FOR GOLFERS

Golfing on links swept by the pine-scented breezes of the Northland, is one of the attractions which has been an increasing number of visitors from all parts of the continent to the territory served by the Grand Trunk Railway in the Highlands of Ontario.

GAVE CONSTABLES THE SLIP.

Sarnia, July 17.—Constables Hollien and Banks, the former a Toronto officer, arrested William Greenway at Point Edward, charged with theft from the steamer freight shed. Up in the town they allowed Greenway to go for a drink at the bar of the Queen's Hotel while they remained in the hallway. That was the last they saw of their prisoner.

FATAL FRENCH TRAIN WRECK.

Paris, July 17.—Fifteen persons were killed and about 50 others were injured, 20 seriously, when a passenger train was derailed today near Vierzon, 20 miles northwest of Bourges.

FOLLIES OF THE PASSING SHOW--By Mitchell

(Copyright, 1918, by Public Ledger Co.)

CHARLES MITCHELL. HAVE YOU EVER NOTICED? Some people never see the sunny side—they frolic fabulously.

ENEMY AGAIN ATTACKS AMERICANS ON MARNE

With the American Army in France, July 17.—The American troops cooperating with the French at a point where counter-attacks were carried out yesterday, were attacked again this morning by the enemy, who by reason of the nature of the ground was able to make slight gains at some places, while at others the Americans again pushed their way back.

BOTH LEGS CUT OFF

North Bay, Ont., July 17.—Harold Edward Saunders, fifteen years of age, of Third street, was found on Monday night in the E. and N. O. yards with both his legs off. He was taken to the hospital at once but died yesterday. The boy was engaged checking cars and no one witnessed the accident.

SUFFOCATED IN ROOMING HOUSE.

Calgary, July 17.—Tom Maroney, returned veteran, was suffocated, and Alex. Forsy, another veteran, narrowly escaped a similar fate, in a fire in their rooming house here this morning. The cause of the fire is unknown.

INOFFENSIVE OFFENSIVE, IS WAY FRENCH PUT IT

Paris, July 17.—"The German inoffensive offensive" is how a witty writer, Gustave Thery, describes the latest effort of Gen. Ludendorff, and the advances from the front seem to justify this paradox. If the fighting has not resulted in a French victory, it is held here, it has at least been a serious failure for the Germans. The objective of the enemy was Chateau against which he directed a converging attack from the north by way of Souain, and from the northwest by way of the Frenay sector.

CHANGED IN STRENGTH ONLY

THOUGH the Government's regulations have compelled us to make lighter beers, the quality, taste and purity of O'Keefe's brews remain unchanged. The same model brewery produces them—the same sanitary conditions are observed—and the same cleanliness in manufacture insisted on.

O'Keefe's IMPERIAL BEERS LAGER ALE STOUT Are changed slightly — in strength only. As thirst quenchers and refreshing, invigorating stimulants, O'Keefe's touch the spot. Mild, light and pleasant, they are ideal as summer beverages.

BASSETT BLEWETT DIES AFTER A LONG ILLNESS The death occurred yesterday at his home, 329 Keele street, after a lingering illness, of Bassett Blewett, whose ill about 20 years ago, when he re moved to Toronto. He was connected with the American Customs Department here until four or five years ago, when falling health compelled him to give up his work. He leaves a widow, Mrs. Jean Blewett, whose literary work is widely known, a son, J. G. Blewett, of Ed monton, Alberta, and a daughter, Mrs. E. A. Kelly. Mr. Blewett had been confined to his bed for a year and a half. He was connected with Howard Park Methodist Church.

Prof. Mulveny Answers Telephone Call Hello! Is that Prof. Mulveny's, Parkdale 45307? Yes, lady. Is Prof. Mulveny there? Yes, Prof. Mulveny is speaking. In Have you a worm remedy for children? You can tell me, if I brought my little girl down, if she had worms? Made that a labor clearing market might solve the problem by making the farmers and men willing to go out on the farms and pick up worms at a central point and agree on terms. It was also suggested that the telephone companies might be utilized, announcements made in the churches, Sunday schools, and garden parties, to let the farmers know that sufficient help was available to meet all needs. Dr. W. A. Riddell of the trades and labor branch pointed out that there was not a chance of making up the difference in wages that a man would receive on farm and in his usual employment. In order to have the scheme work out successfully, the provincial government would have to make up the difference. Rev. J. A. Miller of the farm labor department of the government employment bureau said that while they were in a much better position now than last year, they didn't want to be caught at harvest time. He believed that a big campaign should be conducted to secure expert plowmen for the fall, so as to prepare the land for next spring. Did you read Braskey's used car advertisement in classified section? "Some list" of used cars.

Are You Master or does your business "master" you? Does it insist on following you home and to bed and worrying you day and night until you are on the verge of nervous collapse? A few weeks' use of Dr. Chase's Nerve Food will wonder for any business man or business woman whose nervous system has failed to stand the strain. It nourishes the nerves back to health and vigor.

THE WEATHER

Meteorological Office, Toronto, July 17. (5 p.m.)—A few local showers and thunderstorms have occurred today in the Maritime Provinces, while in all other parts of the Dominion the weather has been fine. The temperature has been very high in British Columbia, Alberta and Saskatchewan, and moderate in the other provinces. Minimum and maximum temperatures: Toronto, 55; Vancouver, 65; Kamloops, 66; Edmonton, 55; Calgary, 56; Regina, 64; Medicine Hat, 64; Port Arthur, 46; London, 62; Kingston, 72; Ottawa, 60; Montreal, 64; Quebec, 60; St. John, 52; Halifax, 54. Probabilities:—Lower Lakes and Georgian Bay—Light winds; fine and warm. Upper St. Lawrence, Ottawa Valley and Lower St. Lawrence, Gulf and North Shore—Light winds; mostly fine and warmer; thunderstorms in a few localities. Lake Superior—Light winds; fine and warm. Western Provinces—Continued fine, with high temperature.

CHEAPER HOG FEED READY BY AUGUST

Announced at Meeting of Representatives of Agriculture Department at Guelph. HOUSES FOR HIRED MEN O.A.C. President Says They Would Greatly Relieve Farm Labor Shortage.

Guelph, July 17.—District representatives of the department of agriculture in conference at the O.A.C. this morning listened to addresses explaining the new standard dairy and hog feeds which are being placed on the market to alleviate the stock feed shortage. C. F. Bailey, assistant deputy minister of agriculture, explained the extent of the scheme which is being carried out by the agricultural section of the Ontario resources committee. Prof. A. Leitch explained the formulae being used for the feeds. He announced that the hog feed would be available by Aug. 1, nine mills having entered into contracts with the department to manufacture it. The price will be \$57 a ton delivered. The cost to the farmer, Prof. Leitch assured the representatives, would be less than a hog feed mixture of barley and oats. "The housing branch of the Ontario resources committee would fall in its effort to combat something toward solving the problem which faces this province today, if it did not take thoroughly into consideration housing conditions in rural parts of Ontario," said Prof. Sisson, secretary of the recently formed housing committee. Dr. G. C. Creelman, who presided, advised that the department proposed for hired men would greatly relieve the present acute farm labor shortage. "The appointment of the agricultural representatives was the greatest forward movement that has ever been made in Ontario," said Hon. Nelson Mondwiff of Stratford. He believed that if farmers would have larger wages lies the rural problem would be solved, as social life would then be what it should be. Prof. S. B. McCready of the Ontario resources committee explained the work of that organization. Mr. Curran and Mr. Forstney explained the purpose of "pig clubs," after which they, together with J. W. Stark, were appointed a committee to draw up the rules governing clubs of this character. The afternoon labor conditions of the farms were discussed by Dr. Riddell and Rev. J. A. Miller of the trades and labor branch of the government, followed by J. S. Knappp, J. W. Stark, G. A. Williams, Fred Forsythe, D. Elliot, Dr. F. Macvannell and W. P. Macdonald. The chief topic of discussion at this afternoon's session was the question of labor on the farms. There were many eulogies heard of the splendid work being done by the farmer. Dr. Creelman's testimony was very frank. "I have the feeling of the mourners' bench and have been converted to 'women on the farm,'" said the commissioner of agriculture. He had been against the farm labor shortage had been broached first by Sir Wm. Hearst and was opposed to giving them a special course at the O.A.C., but the premier insisted, and the department for admittance was made as stiff as possible. Twenty-nine girls took the course, and stuck to the question all day of the three weeks. "If the girls are farmers' daughters and have the scholastic attainments, they are going to be accepted at the best of times as a man," was the interesting announcement made by Dr. Creelman in concluding his remarks. Regarding the question as to whether women can be used to advantage in picking apples, Mr. H. Sirett said they would not be as good as men, because they can't handle the heavy ladders and baskets, but as far as picking was concerned could do equally well.

Demand for Farm Labor. The prevailing opinion among the district representatives present at the conference is that the demand for farm laborers is not so acute as it was this year as last. All were of the opinion, however, that the demand in the harvest fields of Ontario in the autumn will be much greater than at present. Several of the representatives spoke rather unfavorably of the situation, made that a labor clearing market might solve the problem by making the farmers and men willing to go out on the farms and pick up worms at a central point and agree on terms. It was also suggested that the telephone companies might be utilized, announcements made in the churches, Sunday schools, and garden parties, to let the farmers know that sufficient help was available to meet all needs.

HABEAS CORPUS IN SUPREME COURT

Application of G. E. Grey, a Draftee of Nipissing, Comes Up Today. BENNETT SIDETRACKED Aime Geoffrin, K.C., is Retained to Argue Case Against Government.

Ottawa, July 17.—There is considerable gossip as to what may happen when the habeas corpus case involving the validity of the order in council cutting out all exemptions under the Military Service Act in the case of unmarried men between the ages of 20 and 23 comes up for hearing in the supreme court tomorrow. The case is not an appeal from the Alberta supreme court although its decision might practically set aside the ruling of the Alberta court. It is on the contrary an application made by George Edwin Grey of Nipissing, a draftee, to the supreme court of Canada. R. B. Bennett, ex-M.P. for Calgary, who won the Lewis case in the supreme court of Alberta, will be here tomorrow. It is by no means certain that he will be allowed to take any part in the argument. Counsel for the petitioner are F. H. Chrysler, K.C. of Ottawa, and C. C. Robinson of Toronto. It is understood that Mr. Bennett will make the point that Mr. Chrysler has been acting as counsel for the government in the department in the exemption case that have come on appeal before Mr. Justice Duff, and the intimation is made that he is presented with the nature of a reference by the government to the supreme court rather than a cor-voerted case. Geoffrin Retained. It was, however, announced this afternoon that Aime Geoffrin, K.C. of Montreal, had been retained to argue the case against the government, but whether he is the attorney of the petitioner or merely has a watching brief for other draftees, cannot be definitely ascertained. Mr. Geoffrin is one of the ablest lawyers in the country, and should be allowed to address the court. Mr. Bennett may be satisfied, at present, he is quoted as saying that the present case was hurriedly gotten together for hearing before the Supreme Court of Canada so as to obviate the necessity of appealing the Carl Lewis case. As matters now stand, Mr. Bennett has certainly been side-tracked, not to say lost in the shuffle. The government's case will be presented by E. L. Newcombe, K.C., deputy minister of justice, and W. N. Tilley, K.C. of Toronto.

INSIGNIFICANT CHANGE TO WEST OF RHEIMS

On the French Front in France, July 17.—While the enemy was attempting a strong push towards Epernay in an effort to cause the evacuation of the mountains of Rheims, he also was making a number of attacks on each side of that city. So far all these assaults have been bitter failures. The eastern side of Rheims remains exactly as it was yesterday, and the fluctuations on the western side according to the military commanders, are absolutely insignificant. NEW LINE OF ATTACK. Action for Declaratory Judgment That Soldier is Not Liable to Conscription. Montreal, July 17.—A novel line of attack was made today on the I.R.A. in the action entered in the superior court on behalf of a soldier named Jacob Elenshony, of Russian birth, against Hon. C. J. Doherty as attorney-general of the Dominion. The case is taken for the purpose of obtaining a declaratory judgment establishing that plaintiff is not subject to the Military Service Act. This is the first declaratory action instituted here, and the attorney-general is called by it to defend the legality of the orders-in-council issued under the War Measures Act. It is taken to reinforce the plaintiff's position, already taken by habeas corpus writ.

WAS CAUGHT WITH WHISKEY.

Niagara Falls, July 17.—John Sellick, a Toronto man, was caught at the upper bridge with two quart bottles of whiskey and arrested by Officer Greenwood of the provincial force. In the police court today Sellick said he did not think he was coming back to Canada, where he crossed the bridge, but had the idea that he was only heading for the Maid of the Mist. He was fined \$200, and his wife drove back to Toronto in the afternoon they came here in to get the money.

Babe Ruth Pitching Also Hitting to Win

At Boston (American)—Boston took both games yesterday from St. Louis. The first was a 6-1 win with Babe Ruth hitting for two runs in the bottom of the ninth. Babe Ruth pitched the second game and made two doubles in two times at bat. In the fourth inning of the second game Schang and Severoid clinched at the plate. Babe Ruth was not out of the game until he had pitched 10 1/2 innings. The scores: St. Louis 0 0 0 0 0 0 0 0 0 0 0 Boston 6 2 1 2 0 0 1 7 12 0 Batteries—Wright and Numamaker; Bush and Mayer. Second game—..... R.H.E. St. Louis 0 0 0 0 0 0 0 0 0 0 0 Boston 2 0 2 0 0 0 4 0 Batteries—Rogers and Severoid, Numamaker; Ruth and Bohan, Mayer. Called end fifth inning, rain. At Washington—Washington came from behind again yesterday to defeat Cleveland, 5 to 4. Chapman's fielding was a feature. Score: 3 0 0 0 1 0 0 0 4 1 Cleveland 1 0 1 3 0 2 0 3 1 1 1 Washington 5 2 1 1 1 1 1 1 1 Batteries—Matter and O'Neill; Harper, Matteson and Pincish. At New York—New York Detroit game postponed, rain. Two games today. At Philadelphia—Philadelphia-Chicago game postponed, wet grounds. Two games today.

AMATEUR CERTIFICATES GRANTED AND REFUSED

At the regular weekly meeting of the T.A.B.A. last night, E. J. Collett was given a certificate to play at Victoria Park. I. Bolton, was reinstated. W. B. Markie played last Saturday without a certificate and was suspended, also Markie did not appear and give an explanation. R. Walters was refused a transfer from Meivor to St. Patricks. C. McAllister was granted a certificate to play with Guelph Foresters. Other playgrounds team were given permission to play July 26 in Whittby. No more certificates will be given this year. ATHENAUMS LOSE AT HAMILTON. Hamilton, July 17.—Hamilton semipro. defeated Toronto Athenaeums in a hitting game tonight at Victoria Park. About 1000 fans turned out and gave testimony to the popularity of twilight ball in this city. The local aggregation broke off to a good start, getting six tallies in the first inning. Toronto was shut out up to the eighth, when their only run was scored. The score: Hamilton 6 1 0 0 0 1 0 2 1 1 Athenaeums 0 0 0 0 0 1 0 1 2 1 Batteries—Muir and Fisher; Hawkins and Corvan.

THE SAFEST MATCHES in the World Also the Cheapest ARE EDDY'S "SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished. CHEAPEST because there are more perfect matches to the single box than in any other box on the market. War time economy and your own good sense will urge the necessity of buying none but EDDY'S MATCHES.

Baseball Toronto - 6 Binghamton 1

ONSLOW SLUGGED LEWIS, THE UPS

And With Howley is Banned From Game at Binghamton

ROW AND RUNS IN FIRST

Leafs Knocked Barnes Out While Justin Had Bingos at His Mercy

Binghamton, July 17.—The Toronto Leaflets fought their way to a victory in the first game of the series with the Bingos here this afternoon by winning the game, 6 to 1, with little effort on their part. It was plain to see when the teams came together that the Toronto would be for blood, for now the Leafs are the runners up in the flag chase.

The members of the Toronto team missed their train at Buffalo and did not arrive at the field until 3 o'clock, making the scheduled double-header an impossibility. At 2:15 a shower set in that lasted half an hour, and made the field so wet that it was 4:30 o'clock before it was in condition to play.

The first inning was the scene of the first fight of the year on Johnson Field. Two umpires, O'Brien and Lewis, were assigned to work in Binghamton today. In the first inning the bases were full and Justin hit a hot grounder to Hartman. The Bingo manager was in a good position to field it, but Callahan, who had just pitched, threw to Hartman, who was second when the ball was hit. In nearing second base he got in Hartman's way and prevented him from fielding it cleanly. Two men scored on the play and the side was safe all around.

Hartman protested that Callahan interfered and umpire Lewis, who was officiating on bases, sustained his objection and declared Callahan out. This made the two men who had scored go back to second and started a controversy over this decision and nearly every Binghamton and Toronto player protested in the middle of the game. Callahan's interference and Howley was banished from the field. Howley protested that Callahan interfered and umpire Lewis, who was officiating on bases, sustained his objection and declared Callahan out.

TRINITY CRICKETERS WON

The boys' cricket match last evening at Oakwood resulted in Trinity defeating Oakwood by 41 to 28.

PENNY ANTE

I'll trade seats with you Joe. Maybe you can get sumpin' over here. Howling a seat it's the man. I swapped places with him once. 'Am' I went home broke! Nothing doing. I'm just beginning to get a few hands. Hey Eddie, what's to change my luck? All he's just trying to get out of his deal.

CUBS WIN LONGEST GAME OF SEASON

Defeating Phillies by Pinching Hitting in the Twenty-First.

At Chicago (National)—Establishing a season's record for extra innings, and coming within one inning of the league record, Chicago yesterday defeated Philadelphia, 2 to 1, in a 21-frame pitchers' duel between Watson and Trier. The National League extra-inning record was established in 1917, when Brooklyn and Pittsburgh went 22 innings. Philadelphia and Boston established the American League record in 1906, when they played 24 frames.

At Pittsburgh—Pittsburgh made it three straight victories over Brooklyn by winning yesterday, 5 to 4, in 11 innings. With the Leafs, who were leading, and two men out, Southworth was passed. Cushman, the next batter, got a single to left, sending Biebs across with the winning run. The visitors' runs were scored on two errors, and the witness of Cooper in the fourth inning, when he hit a batsman and passed two others.

At Cincinnati—New York and Cincinnati broke even in double-header yesterday, Cincinnati winning the first game by 2 to 1, and New York taking the second, 1 to 0. In the first game the visitors made 13 hits off Schneider, but could score only one run, while the local team won by a 3-0 margin.

At St. Louis—St. Louis broke even with Boston by winning yesterday's game in the ninth inning, 4 to 3. A single by Betzelle after two were out scored Fisher with the winning run.

At Detroit—Detroit won two games from Baltimore, 5 to 4, and 4 to 3, in two games yesterday.

At New York—New York won two games from Baltimore, 5 to 4, and 4 to 3, in two games yesterday.

GOODLUCK TO WAGNER AND HIS LEAFLETS

They Have Done Well of Late—Jack Warhop Will Be Sadly Missed.

The Leafs certainly may write the sun shone on this home stay, and the fans showed their appreciation by turning out thousands of spectators. On Saturday there was a wonderful crowd in the stands, and on Sunday and Tuesday the attendance was away beyond anyone's anticipation, but then, Toronto is a baseball town, and so long as the club is making money, it is not surprising that the same young Leaflets had all this appreciation coming to them, because they put up a record that only a very few other clubs have ever had.

EASY WIN

At Toronto—Toronto won two games from Philadelphia, 4 to 0, and 3 to 1, in two games yesterday.

AMATEUR BASEBALL

With the leadership of No. 2 Section of the Military League, the Amateur League will inaugurate its season on Saturday night.

MISS DETROIT BEAT MILE-A-MINUTE

Put-in-Bay, Ohio, July 17.—After winning all competitors for two days in the motorboat events, Miss Detroit II broke a valve in the third heat of the race today and was forced out on the third lap of the 15-mile course.

HEATHERS WON AT GALT

Galt, July 17.—Five rinks of Brantford Heathers visited here this afternoon and won by 22 shots.

BY GENE KNOTT

When Jack Warhop leaves the club it will be with a heavy heart, because he has been pitching good ball this season. But there is another man in the field who some think will more than fill his position, yet it is merely a case of time when he will be called upon to be a good pitcher, but it is equally certain that he will not be called upon to be a good pitcher.

HOW WILLARD MADE FORTUNE

Defeating Royal Canadian Draughts in Final Game by Two to Nil

If Jess Willard had been a ball player he might have returned home with a fortune of \$100,000. He won one fight and then he won another fight, and then he won a third fight, and then he won a fourth fight, and then he won a fifth fight, and then he won a sixth fight, and then he won a seventh fight, and then he won an eighth fight, and then he won a ninth fight, and then he won a tenth fight, and then he won an eleventh fight, and then he won a twelfth fight, and then he won a thirteenth fight, and then he won a fourteenth fight, and then he won a fifteenth fight, and then he won a sixteenth fight, and then he won a seventeenth fight, and then he won an eighteenth fight, and then he won a nineteenth fight, and then he won a twentieth fight, and then he won a twenty-first fight, and then he won a twenty-second fight, and then he won a twenty-third fight, and then he won a twenty-fourth fight, and then he won a twenty-fifth fight, and then he won a twenty-sixth fight, and then he won a twenty-seventh fight, and then he won a twenty-eighth fight, and then he won a 3. Apprentice allowance claimed.

PHILADELPHIA CIRCUIT HAS RICHEST PROGRAM
Philadelphia, July 17.—This, the second year of the Grand Circuit races in this city, finds Philadelphia in the front ranks of the chain of big events.
With a total of \$17,500 offered in stakes and purses, this city has the honor of giving the richest program that will be held for at any one week meeting in the big rings. The one-week meeting at Poughkeepsie, N.Y., which will follow the local events, and which is also in charge of Secretary Al Saunders of this city, stands second, with a total of \$12,000 offered for the fast ones.

BRIGHTON BASEBALL CLUB
Brighton, July 17.—At a meeting held here for the purpose of organizing a baseball team the following officers were elected: Honorary president, Rev. Mr. Pettit; president, R. Whitton; vice-president, Dr. Rundle; treasurer, H. B. Phillips; manager, Claude McCracken; captain, Gerald Ross; chairman property committee, Hugh Broadbridge.

Binders, Dr. Benson, Belleville... 4 2 6 2
Bobby Hill, M. Wade, Belleville... 2 5 4 4
Sidonia, Ridpath, Bloomfield... 6 4 4 3
Paisacker, Ridpath, Bloomfield... 5 6 5 5
Starter, J. A. Turnbull, Toronto.
Judges—Dr. J. A. Simmons, Cranford, S. Ross, Brighton, H. Curry, Belleville.

FRESH FRENCH TROOPS ENTERING INTO ACTION

Paris, July 17.—On the Marne front our troops of the second line, and perhaps our general reserves, already are entering the action. The Temps today in reviewing the progress of the enemy offensive. "Where our troops have assumed the offensive to the north of the Champagne-Monthodon, we have regained ground."
The situation in general is regarded by the military critics of the newspaper who writes the article as "relatively satisfactory" since the enemy had not been able to attain any of his presumptuous aims.

BRITISH MINOR ACTIONS SECURE PRISONERS

London, July 17.—The war office reports: "We captured a few prisoners and machine guns during the night in a successful minor enterprise east of Villers-Bretonneux. A raid attempted by the enemy in the same sector was repulsed. A few prisoners were secured also in the course of a successful raid carried out early this morning by English troops in the neighborhood of Hulluch. "Hostile artillery has been active in the Somme and Ancre sectors, north of the Scarpe, northeast of Bethune and north of Bailleul."

INGERSOLL AVIATOR KILLED.

Ingersoll, July 17.—Word was received today by Mrs. Walter Waite that her son, Flight Lieut. Lawrence Waite, had been accidentally killed in England on Tuesday. The cablegram did not give particulars of the accident. Flight Lieut. Waite joined the Flying Corps several months ago, and had been training in Texas before leaving for England, about six weeks ago. Up to the time of his enlistment he was employed in the office of the Morrow Company.

SUMMER RESORTS IN ONTARIO.

The Muskoka Lakes, Point au Baril and Georgian Bay resorts, French and Pickering Rivers, Rideau Lakes, Severn River, Lake Massey district and Kawartha Lakes are conveniently reached by the Canadian Pacific Railway. Particulars from Canadian Pacific Ticket Agents.

TORPEDOED CREW TOOK THINGS CALMLY

Left Vessel, Picked Up in Five Days and Later Took to Boats Again.
Ship was Sunk Some Seven Hundred Miles Southeast of Nova Scotia Coast.
Canso, N.S., July 17.—Reporting the sinking of their vessel on Sunday, July 7, by a U-boat, twenty-two men of the crew of the Norwegian iron sailing ship Marosa, arrived here early this morning in the two boats in which they had made their escape before the submarine sank their ship.

COBALT \$5000 CLUB HAD SUCCESSFUL YEAR

Cobalt, July 18.—The Cobalt \$5,000 Club, which collects money in the town and camp for Red Cross, Patriotic Fund, and other war purposes, has just closed a successful year, the total voluntary donations to the different funds passing through the hands of the organization during the last twelve months being \$44,559.66. The Cobalt \$5,000 Club was formed in June, 1916, its object being to raise at least \$5,000 per month for war purposes. It is incorporated under the War Charities Act. The total amount collected in the two years is \$116,447.91, from a population of between 5,000 and 7,000, or about \$17 for every man, woman and child.

EXTRA HEAVY FIRING ALONG MARNE FRONT

With the American Army in France, July 17.—Extraordinarily heavy artillery fire has been in progress today on both sides along the Marne front between Chateau Thierry and Dormans. East of Rheims the American troops in their sector are holding all their positions. In some localities periods of quiet equalling that preceding the offensive prevail, but there appear to be signs of further activity.

QUENTIN ROOSEVELT KILLED IN AIR FIGHT

Paris, July 17.—Lt. Quentin Roosevelt, youngest son of the former president, has been killed in an air fight, the semi-official Havas News Agency announces. His machine fell into the enemy lines on July 14 on the Marne, near Chateau Thierry, and it was not in flames when it fell. He was returning from a patrol flight when he was attacked by a German squadron. It was seen that Roosevelt suddenly lost control of his machine, having probably received a mortal wound. Quentin Roosevelt, in April, 1917, joined the Canadian Aviation Corps to train for service with the American army. He was commissioned last fall, and in the present spring began active service with the American air forces on the French front.

GERMANS KILL GERMANS

Paris, July 17.—Ninety-four Germans were killed and 74 Germans were wounded on the night of July 16-17 when five German aviators bombed a prisoners' camp in the region of Troyes, 56 miles behind the French battle front. The aerial bombardment lasted for one hour. Two French soldiers of the camp guard were wounded.

BRITISH AIRMAN MAKES QUITE NOVEL RECORD

With the British Army in France, July 17.—To shoot down five German airplanes out of a patrol of six that attacked him on a flight beginning at 9:30 o'clock in the morning, to lunch at the airbase by noon, and to sit down to an early dinner in London that evening was the recent experience of an officer of the Royal Air Force.

DUVAL EXECUTED

Paris, July 17.—M. Duval, director of the Germanophile newspaper Bonnet Rouge, was executed early today for treasonable actions against the government. The execution of M. Duval is the second, growing out of the German propaganda of "Bolshevism" or "defeatism" in France. The first to face the firing squad was Solo Fashas. Soon after his execution the trial of Duval and six other defendants was begun.

COBALT \$5000 CLUB HAD SUCCESSFUL YEAR

Cobalt, July 18.—The Cobalt \$5,000 Club, which collects money in the town and camp for Red Cross, Patriotic Fund, and other war purposes, has just closed a successful year, the total voluntary donations to the different funds passing through the hands of the organization during the last twelve months being \$44,559.66. Mr. and Mrs. George Alexander, Manly, Ontario, are spending the summer at their house in Fort Sydney.

Miss Marjorie Fennell, Miss Isabel McCauslin and Miss Myrtle Prunt left last week to spend the summer in Ottawa.

WOMEN TO HELP SOLDIERS' COMFORTS

It was definitely decided last evening that the management in charge of showing "Hearts of the World" in the Allen Theatre, commencing Saturday, July 27, would cooperate with the soldiers' comfort committee of the W.C.T.U., thru its superintendent, Mrs. M. C. Dawson, in permitting the sale of articles, principally flowers, in aid of this worthy cause.

"Few realize how grateful we are," said Mrs. Dawson, "that the management has given us this opportunity. I was present at the opening of 'Hearts of the World' in Los Angeles. That is the reason I made the request of the management to let us sell roses at the Allen Theatre.

"In Los Angeles, at Clune's Auditorium, which holds 4000 people, after standing in line with thousands of others, I finally got into the place. Mr. Griffith spoke on his experiences in the front line trenches. He said, 'The Germans heard that I was here and they made it hot for me, concentrating their fire on the place where I tried to set up my camera. One can truly say that the picture was taken under difficulties, but we made it. And the same spirit that made the picture is making history and success to our allies over there.'

"The W.C.T.U. could not endorse nor work with an ordinary picture," said Mrs. Dawson, "but this picture we can work with on account of its splendid purpose."

Fry's Iced Cocoa. RECIPE: Keep on hand a syrup made up of one half cup of FRY'S Cocoa, one cup of sugar, one cup of warm water...

METHODS ARE SHOWN TO PRESERVE FOOD

Department of Agriculture Expert Gives Demonstration to Women.

A splendid demonstration of canning and drying vegetables and making jams took place at 33 West King street yesterday afternoon when Mrs. Woelard, the expert of the Ontario Department of Agriculture, showed Toronto women one more way of helping to win the war by conserving the food supply already to hand.

ROYAL YEAST

Has been Canada's favorite yeast for over a quarter of a century. Bread baked with Royal Yeast will keep fresh and moist longer than that made with any other...

War Garden Bulletin

MARKETING GARDEN TRUCK

Nine out of ten war gardeners are able to use most of the vegetables they grow, but among those who have gone in for vacant lot gardening there will be some who will realize how popular the meeting would be, and will have a large room next time...

Drying Vegetables. Before drying vegetables they must be cleaned well, blanched and cold-dipped, and then cut into small pieces and thrown on the dryer which may be hung over the kitchen stove...

WOMEN TO HELP SOLDIERS' COMFORTS

It was definitely decided last evening that the management in charge of showing "Hearts of the World" in the Allen Theatre, commencing Saturday, July 27, would cooperate with the soldiers' comfort committee of the W.C.T.U., thru its superintendent, Mrs. M. C. Dawson...

Any Way You Turn you will find WRIGLEY'S. Everybody thinks of WRIGLEY'S when chewing gum is mentioned. This is the result of years of effort to give mankind the benefits and enjoyment of this low-cost sweetmeat.

WOMEN IN UNIFORM NUMEROUS AS OTHERS

"As many women dressed in uniform are to be seen in English towns, now, as arrayed in ordinary attire" is the condition reported in a communication received at the Methodist offices, Toronto, from Rev. W. Walkinshaw...

ANNOUNCEMENTS

NOTICES of future events, not intended to raise money, 25 per word, minimum 50c; if held to raise money solely for Patriotic, Church or Charitable purpose 4c per word, minimum \$1.00; if held to raise money for any other than these purposes 5c per word, minimum \$2.50.

FLEW UNDER BRIDGE

Niagara Falls, July 17.—Two Beattsville aviators today performed the feat of flying under both bridges on Niagara River, the first time it has been done. They sailed thru the gorge like two great swallows.

ASK MILLION A DAY FOR OTISSE'S NEIGHBOR

Jake Davidson Property in Matachewan Is One of Most Spectacular in Northern Ontario—Much Ankerite and Wide Area of Intense Shearing.

The Jake Davidson property in the Matachewan gold area lies immediately west of the Otisse. It comprises five claims or 200 acres. Negotiations for its purchase have been under way on several occasions, but as yet nothing has been done. It is understood that the price asked is \$1,000,000, and that the terms of payment are very drastic. They do not allow sufficient time for exploration. The Davidson is one of the most spectacular properties in northern Ontario. There are enormous quantities of ankerite and a wide area of intense shearing. There is a very large ore body somewhere on this property and when thoroughly opened up it should be a big producer.

The strike of the schist on the Davidson is slightly north of east. This is also the direction of schistosity and of the ore body on the Otisse which adjoins the Davidson on the east. In fact, as a rule, mineralized zones in northern Ontario have a northeast course.

On claim M. R. 5523 the Sutherland group free gold has been found while doing the assessment work. This claim is less than half a mile north-east of the Otisse. Three diabasic dikes cut across the claim. As they have faulted the surface and as they are, no doubt, of a later date. They have, however, added to the quantity of gold for there may be many depositions of the precious metal after veins are formed. Two of the dikes on the Sutherland property have displaced a band of porphyry 60 feet wide and in this free gold has been found. This band also runs

northeasterly and continues for the full length of the claim.

Belt's Known Extent

Jack Hollinger owns a property between the Otisse and M. R. 5523 and C. F. Jordan has gold east of the latter. The discoveries on these properties establish the existence of the mineralized belt from the Davidson to the Montreal River, a distance of about two miles. It has also been proved that the belt continues east of the river one and a half miles to the syenite or porphyry in the Township of Burrows.

Mr. Burrows, the assistant provincial geologist, considers this syenite an important formation since several gold-bearing veins have been located in it.

Matachewan differs from all other gold fields in northern Ontario. In the first place it is not a diabasic dike, and the gold is found in quartz or at all events in a mixture of quartz and schist. The porphyry is also a highly altered quartz porphyry quite unlike the feldspar porphyry at Matachewan. The sedimentary rocks at the latter place are also in much greater volume than at Porcupine. They are generally low lying at Porcupine, while at Matachewan they attain elevations up to 200 feet.

Porcupine is 100 feet or so above the drainage basin of the Mattagami River. That it is rather flat it is not by any means a low level. However, lacks the rugged aspect of Matachewan and its alteration of hill and valley. Porcupine is on the Hudson Bay watershed, while Matachewan belongs to the St. Lawrence system though it is not more than 25 miles south of the older camp. Matachewan is more picturesque than Porcupine, and the swift flowing Montreal River is in striking contrast to the sluggish St. Lawrence in the latter district.

NEEDS OF GOLD MINES GET MORE RECOGNITION

Conditions Seem Favorable for Assistance to Industry in British Empire and United States—Vital Necessity of Maintaining Gold Standard.

Stock Makes Sensational Rise, But Later Forfeits Part of Gain.

GOLD BONUS RUMORED

McIntyre Advances Two Points—Adanac Most Active in Cobalt List.

Dome furnished the feature on the local mining market yesterday, the Standard Exchange being followed by almost as pronounced a reaction in an attempt to adjust itself to the rapidly shifting price scale in New York. Dome's opening rather heavy on the big exchange at 7.50, but made a rapid ascent to 8.75, reacting to 8.50 at the close, while locally the high points were 8.75.

The price later set back carried the stock down to 8.00 here, with the final bid 8.10 and 8.50 asked. Sales of Dome were light, amounting to only 200 shares, as against 3,000 in New York.

Dome's furry appears to have been an offshoot of the movement in Alaska Gold and kindred stocks on the New York curb. There is much gossip in circulation to the effect that the U. S. Government will announce a bonus on gold production, and it is believed that, in this event, the Dominion Government will take concerted steps. Much attention is being given by publications in Britain as well as in the United States and Canada, to the serious economic aspect presented by the selling production of gold, and confidence is growing that the allied powers will take steps to remedy the situation, hence the revival of interest in gold stocks.

The Porcupine list as a whole was strong yesterday. McIntyre moved up two points to 126, and the U. S. demand at 123 1/2 and 124. Thompson-Krist sold 1/2 higher at 8 1/2. Lake Shore repeated Tuesday's quotation at 25, and Dome extension again sold at 9.

The British Empire produces about 52 per cent. of the world's gold, and the countries, including Russia, account for 21.5, the neutrals 8.1, and the central powers less than one per cent. The world's production in 1916 was \$47,000,000. If the large issues of paper money can be preserved from depreciation during the reconstruction there seems to be no prospect of this in the central empires or in Russia, Turkey or Bulgaria. It is therefore all the more important that the credit of the allied countries be maintained after the war. A depreciated currency would mean a tremendous shrinkage in the value of war bonds and all governmental securities, and the equivalent of an actual shortage of capital. We assume that a large proportion of the money of the allied powers has gone into securities of this class. If they are not saleable, except at a heavy discount—in other words, if the credit of the nations is impaired—it will result in general stagnation and the very hardest of hard times. Hence the vital necessity of maintaining the gold standard and every means in our power adding to the supply of the precious metal.

There is now about \$10,000,000,000 on hand as a reserve, but the percentage in reference to paper has necessarily been decreased since the end of the war. It is 25 per cent. as it was 10 per cent., and it is certain that without aid to our gold mines the production will decrease at least 25 per cent. No doubt the big mines, those having large tonnages of high-grade ore, can continue notwithstanding an increase in costs, but many of the small mines will be forced to cease operations.

The Rand had a total production of \$2,300,000,000 to the end of 1916, but the dividends paid were not 25 per cent. of the total, and even before the war the largest mines had difficulty in balancing income and expenditure. The British Government must see the necessity of keeping the mines going in the Rand, for in 1918 the production of gold there was \$185,000,000, and it is now decreasing owing to increasing costs and a considerable shortage of labor. The Rand has produced \$147,000,000 since 1915, but its dividends have been only \$40,000,000, or 27 per cent. of the whole, and this is the biggest producer in the United States.

Everyone recognizes that the government must have revenue to meet the output connected with the terrific struggle which we are engaged. At the same time it is a question whether the special tax on gold mines has assumed the best form. It should be shifted from the mines and placed on those in receipt of dividends therefrom. In other words it should be levied as an income tax against shareholders. In addition to this a bonus should be paid on each ounce of gold produced and this bonus should be sufficient to cover the increased costs occasioned by the war.

It would not be any special favor to the gold mines, it would in fact only put them on a par with other mines whose product has advanced in price as the result of increasing costs.

In addition to these alleviations an adequate supply of labor should be provided by impressing aliens or else by bringing men from other places where men can be secured until the close of the war.

Hennen Jennings, consulting engineer of the United States Bureau of Mines, has expressed the opinion that the income tax suggested would bring more revenue than the present specific tax on the mines. The latter has also the effect of deterring capital. It is to a certain extent an innovation and it seems to be aimed directly at the mines. Whereas an income tax would pass unnoticed with other levels of the same character. But in placing a tax on dividends from mining investments the amortization of the capital should be considered and the proportionate impact. Any such an income tax would pass unnoticed with other levels of the same character. But in placing a tax on dividends from mining investments the amortization of the capital should be considered and the proportionate impact.

The difficulty with gold mines is well understood. The price of gold has been fixed price, while the cost of production has greatly increased. Labor has gone up 25 per cent., while machinery and all kinds of supplies have increased from 10 to 150 per cent. The value of other metals has increased, and the increased cost of producing them and this places the gold mines in an exceptional position and entitles them to preferential consideration at the hands of the government.

To all appearance northern Ontario is prospectively the great gold field in the world. In the Porcupine the Hollinger outcrops any known gold mine, and the recently discovered Matachewan gold area seems to be another, if not a

ADANAC OPERATIONS YIELDING RESULTS

Vein Four or Five Inches Wide With Encouraging Formation Opened Up.

Crosscutting on the Adanac is yielding results which strengthen confidence that important discoveries will soon be made, according to M. R. Cartwright, manager of the mine, who was in the city yesterday.

Referring to the vein opened up at the 310-foot level in the face of the north crosscut and running parallel thereto, Mr. Cartwright said that at first only a calcite stringer was encountered, but that since a vein four or five inches wide of carbonate, hematite and nicotite had been opened up. In view of this it had been decided to start a crosscut east and west to pick up known veins and see how they are and so to continue following the line of the vein first mentioned. Operations so far had borne out exactly the views of Geologist A. R. Whitman as to the

Whitman's Views.

Mr. Whitman, in a recent letter, said: "The indications as I saw them in the north crosscut seem to be entirely favorable and can only encourage you to continue it. The flat shearing for 200 feet back from the face showed such strength and consistency in dipping toward the south that it can probably be regarded as distinct evidence of the correctness of our former hopes regarding the dip of the diabase contact which the crosscut is approaching.

"The flat shearing which has come in from the west dip toward the southeast instead of being continued in the usual manner to confirm the contours of the Kewatin contact which were drawn on the original map submitted. The vertical jointing also tends to confirm the evidence of the inclined shearing.

GERMAN GOLD HOLDINGS.

London, July 17.—A despatch from Berlin indicates that the amount issued by the Imperial Bank of Germany, as of July 6 gives its total holdings of gold as 2,246,419,000 marks.

GOLD DISCOVERY IN B.C.

Vancouver, July 17.—A gold discovery, 20 miles east of Burns Lake on the G. T. Railway in the southern part of the Babine range, is reported here. The report on prospects by D. J. Lagarry, California mining engineer, led A. Erskine Smith of this city immediately to take an option of \$75,000 on part of the property. It is stated that ore extracted averages \$62 a ton and that the ore is valuable to ship direct, freight working out around \$23 a ton, leaving a profit of \$30 a ton.

PRICE OF SILVER.

London, July 17.—Bar silver, 48 1/2-16d. New York, July 17.—Bar silver, 59 3/4c.

SHIPPED 500 BARRELS.

H. F. Slater, manager of the Rock Wood Oil and Gas Company yesterday received a wire from H. V. Stubble stating that 500 more barrels of oil were shipped on Tuesday and that operations were going ahead smoothly.

LONDON MARKET FIRM.

London, July 17.—The stock market continued its favorable course today. The news from the war theatre was still the chief influence toward the firmness of both home and allied securities, while Russian securities were further strengthened by the strong financial committee above mentioned, and by developments in Russia. Oils, shipping and Marconi stocks were active and higher. Other sections of the market were quiet. Money and discounts were quiet.

STRONGER THAN FICTION.

The voters of Sioux Falls, S.D., recently ratified by a vote of 1180 to 824 an increase from five to six cents in the local street railway fare—financial America.

MINING NOTES

It is understood that arrangements have been made for the development of the Passimink claims, about two miles north of Hill Lake, near Pailin Lake. A plant is to be installed.

Milling rock is being hoisted from the Passimink vein in the McKinley-Darragh mill. It is not so rich as the best of the vein, but there is understood to be a considerable tonnage.

There has been considerable staking in Agotawekami Lake district, south of Abitibi Lake, in Quebec Province. Sam-Cole has staked Cobalt and several other claims to be satisfactory. Several Cobalt companies have sent men into the field to check up the claims. It is stated that the formation is good.

The operations on Thompson-Krist have been very satisfactory. About twenty-dollar ore, across about forty inches, has been struck on the line into Thompson-Krist. The company has sufficient money to operate for some time, if it can get a contract from the Vipond. It is estimated that since the annual meeting about eight thousand dollars has been received under contract about twenty thousand dollars in the treasury.

According to reports, the United States Government has ceased buying silver. Large quantities were purchased during the past few months. The Philadelphia Mint is reported as melting 1,200,000 silver dollars daily. Silver certificates outstanding on June 20 were \$292,693,936, compared with \$493,960,611 on May 1.

The shaft on the Castle property at Gowanda, is now down about a hundred and fifty feet. At about a hundred feet the shaft left the vein and is now in diabase. It is proposed to continue the shaft until the lower contact is reached before starting a lateral shaft. It is anticipated that the objective will be attained at from 300 to 350 feet. The geological agreement is basing its hopes of encouragement rather than on any anticipated

The Northern Miner says: Cobalt mining men have looked over many kinds of mining propositions that the war has set a prospective value to because of the shortage of certain minerals that have been imported by North America. As a general rule, those deposits are in such shape that it would take too much time to get them in shape of a big, dropping sharply, the gamble is too big.

The quotations on molybdenite in the United States, where Canadian ores and concentrates may be shipped under contract at \$1.25. It is understood that Canadian producers are either operating under contract and they receive higher than present market prices. The market has been buoyant as compared with the United States, especially Colorado.

NEW YORK CURB.

Hamilton B. Will received the following wire at the close of the New York curb market yesterday: The market on the whole was strong and active today, although there were two or three stocks which were reactionary. Burns Bros. Ice was the feature of the industrial list, advancing \$1.50 a share to 6.60. It had a bearish bear, but Martin and Aetna were strong, the former selling above Tuesday's high. United Motors reacted somewhat under profit taking by quick turn traders. Houston sold off about \$3.50 a share from yesterday's best price.

TOTAL CLEARANCES.

Item	Yesterday.	Lt. wt.	Yr.
Wheat	1,233,000	567,000	406,000
Receipts	708,000	83,000	133,000
Shipments	1,165,000	817,000	682,000
Wheat and flour	329,000	248,000	429,000
Oats	228,000	885,000	858,000
Shipments	573,000	349,000	815,000

NIPISSING'S OUTPUT

During the month of June the Nipissing Mines Company produced \$440,657, thereby establishing the highest total for any month. The output of the month, however, was not so good as in December, 1917, when \$440,793 was produced, and September of the same year, when \$249,225 were produced.

The total production from the Nipissing, as shown in the official monthly statements, during the first half of the current year is \$1,491,577. This compares with \$1,491,577 during the first six months of last year. The following is a summary:

Month	1917.	1918.
January	\$307,019	\$172,983
February	295,546	271,527
March	305,045	254,934
April	329,417	359,082
May	338,347	261,569
June	340,657	269,469

Totals \$1,919,234 \$1,491,577

It will be noted that during the half year the value of the output showed an increase of \$427,072, or a large increase amounting to an average of \$71,276 monthly, or approximately \$2,350 every two hours, above the record during the first half of 1917.

COBALT DIVIDENDS ARE ON A SMALLER SCALE

Dividends authorized by the silver mines of the Cobalt camp for distribution during the first six months of 1918 amounted to \$2,268,527, as compared with \$3,115,379 in the corresponding period of 1917, thus showing a decrease of \$746,852 or approximately 24 per cent.

The reason for this striking decline is evident when it is considered that only eight Cobalt mining companies have authorized dividend payments to date. This is as compared with more than 13 in the first six months of last year. Analysis of the dividend record for the two years shows that Aladdin-Cobalt, Caribou Cobalt, Crown Reserve, Penn-Canadian, Peterson Lake and the Vipond were the companies which appeared in the list a year ago, have not made any distribution of profits to their shareholders so far during the present year; meanwhile the La Rose figures are \$0 per cent. below what they were a year ago. Mining corporation disbursements show a decline of \$207,506, while the Timiskaming distribution has been exactly cut in two. On the other hand, Seneca Superior, which recently paid a dividend of one-half of one per cent. per share, did not appear.

GOLD HOLDINGS OF U.S.

The total amount of gold held in the United States on July 1 was \$2,075,482,215. On the same date in 1917 it was \$2,090,707,793, which shows that the United States net gold export of \$150,000,000 during the 12 months was nearly offset by new production of gold of about \$100,000,000.

The conditions on the gold market in the States show that gold was \$2,439,921,932 at 1918. It was \$2,092,915,315 at that date in 1914, just before the war began. It was \$1,914,765,998. As compared with October, 1906, the United States gold supply has exactly doubled.

RAND OUTPUT IN JUNE.

The output of gold at the mines of the Rand in June was 725.47 tons, valued at \$3,091,658. In May the output was 741.317 fine ounces, valued at \$3,145,915.

To Stimulate Gold Production

"We believe that unless substantial help is given, gold will be at a premium of 50% in five years."

The above is the statement of the American Mining Congress, a body formed a short while ago to go into the matter of gold mining, to review prevailing conditions and to suggest ways and means to prevent the threatened falling off in the production of gold.

Gold mining throughout the world has suffered seriously through the inevitable inflation of commodity prices. The cost of everything connected with gold mining, including labor, has advanced in some cases over 100%, while at the same time the value of an ounce of gold has remained fixed at \$20, so that actually the value of gold has decreased, as it has less buying power than in pre-war times.

Rising costs with a fixed value for the output have caused the gold producers not only of Canada and the United States, but also in South Africa, to conserve their ore bodies until more favorable conditions return, thus bringing about a serious shrinkage in the production of the yellow metal. It is this decline in output that has brought about the concerted action in gold producing countries to obtain aid in some shape or form, so that the gold producer may not operate at so great a disadvantage, and that the gold supplies may not become depleted.

By the leading authorities it has been stated that at no time in the history of the world was the maximum production of gold so essential. The expenditures by the belligerent countries since 1914 have been on a scale never before approached in history. On the other hand, the mining of gold, on which the tremendous credits established by the nations at war are based, has fallen off, and unless some effective means are taken to revive the industry, the output of the precious metal will become so insufficient as to cause it to sell at a premium.

According to one authority, the national debts of the fighting countries have passed the \$120,000,000,000 mark, and whereas the gold reserve of the world before the war was about 35%, at the present time it has declined to about 8%, and the war debts are still piling up on an increasing scale, while the production of gold since 1915 has suffered a severe setback.

Hence, the Mining Congress formed at Washington find that "many things may be properly done for gold mining. First, gold production may be relieved from war excess profits tax law; gold mining may be classed as a war industry, through which preference might be given in obtaining its supplies; freight rate advances as relating to gold mining might be remitted; and lastly, its employees may be made immune from the draft."

A further suggestion has been made in both England and the United States, that the government pay to gold producing companies a bonus on their output. One mining man has suggested a bonus of \$10 per ounce, claiming that at this price the value of the metal relative to other commodities would be in about the same position as it was a couple of years ago.

While the bonus above suggested seems perhaps extravagant, a review of the increases which have taken place in the wages for labor, the cost of steel products, the increase in freight rates, and the enormous advance in explosives, all of which have had to be borne by the gold producers, lead to the conviction that some such action must be forthcoming if the gold mining industry is to be put on the same basis as before the war. While the mining of gold is undoubtedly most essential, even the most patriotic person could not expect the gold mines to deplete their ore resources under conditions which in many cases would mean the dissipation of its attainment, of a very large percentage of the income derived from the sale of the product.

It seems eminently unfair to the gold producers that while the price of the subsidiary mineral metal, silver, has been advanced by government action to a figure which is over 70% above the average for the last ten years, gold should remain at the same price as in pre-war days, while every factor in its production has become substantially more costly.

Interests closely connected with the gold mining industry are confident that, the attention of the Allied governments having been called to the situation, some action favorable to the gold mines will surely result, whether it be in the form of a bonus or in other ways equally effective.

The conditions above have been fully discussed by the drastic depreciation in the value of the gold securities, so that any betterment in conditions brought about either by government action or by a suggestion that the conclusion of hostilities is close at hand, must be reflected in the gold securities market.

We believe that the worst, as regard the gold stocks, has been witnessed, and that from now on the situation will become increasingly bright. Gold securities bought on a "war-time" basis cannot fail to make a handsome profit, if held for the coming "peace-time" prices.

NEW YORK MARKET SHOWS STEADINESS

Aspects of War Situation Closely Watched—Home Developments Favorable.

New York, July 17.—The stock market today kept pace with latest aspects of the war situation. Advances from the western front occasioned moderate selling of long holdings and intermittent bear pressure, but the reaction made relatively little headway.

Domestic financial developments were distinctly reassuring, the rapid sale of the \$50,000,000 Bethlehem Steel note issue affording evidence of a strong investment inquiry for high grade securities.

Reduction of the Pittsburgh, Cincinnati, Chicago and St. Louis Railroad dividend was not regarded as symptomatic of general railroad conditions, the cut, according to the directors, resulting from technical rather than financial reasons.

Sumatra Tobacco, which rivalled United States Steel in point of activity, was again one of the few noteworthy features of the general list. The stock fluctuated violently within an eight-point radius and closed at a loss of 5%.

United States Steel's extreme break of 1 1/4 points was half way retrieved later and related issues finished for the most part at nominal recessions.

Rally in Motors Motors and subsidiaries were in demand toward the end at average gains of one point and minor metals, including low priced mining issues, owed their gains of 1 and 2 points to the activity of pools.

Bulls were in the background throughout the session, even Reading showing unusual apathy at a net loss of a large fraction, and shipments lost part of their recent gains. Sales amounted to \$70,000 shares.

International issues were the firmest features of the bond list, the Liberty group being the most active. Sales amounted to, (par value) \$4,725,000.

Old United States bonds were unchanged on call.

CANADIAN CAR STOCKS ARE HOLDING GROUND

Activity Lessens at Montreal, But There is No Reactionary Tendency.

Montreal, July 17.—A reduction in the volume of business in Canadian Car stocks was responsible for decreased activity in Canadian stocks today. While the activity in the Car stocks was on a much smaller scale than on Tuesday—about 800 shares—most of the changing hands—both common and preferred—held steady to strong. The common sold at 84% and closed 84% bid, or 1/4 lower for the day, while the preferred, when selling at 84% bid, closed 84% bid, or 1/4 up from the previous day.

Montreal Power, the steamship stocks and Wabasso Cotton were the changing features in the balance of the list. Power was firm at the 3/4 point, advancing 1/4, scored on Tuesday, upward of 200 shares being absorbed at that price, with 76 bid for more stock at the close. Steamship common was in fair demand at 41, or unchanged, while the voting trust sold 1/4 higher at 43 1/2. Wabasso Cotton advanced 3/4, to 45%.

Total business today: Shares, 2,439; Unlisted shares, 57 bonds, \$32,700.

STOCKS OF BONDS, PREVENTION STILL LOW AT MILLS

Washington, July 16.—Mills stocks of newspaper paper showed virtually no improvement during June, according to the federal trade commission's monthly review of the industry. At the beginning of the month only about one week's output, 26,161 tons, was on hand.

Reports from pulp mills at the end of the month showed no production, and nine others only a small part of their normal capacity, the principal reasons assigned for loss being repairs, fire and lack of help and fuel.

MONEY AND EXCHANGE

London, July 17.—Money 2% per cent. Discount rates, short bills, and three-month bill, 3 1/2-2% per cent.

Paris, July 17.—Trading was active on the bourse today. Three per cent. rentes, 61 francs 80 centimes for cash. Exchange on London, 37 francs 15 centimes.

RAILWAY EARNINGS

The Grand Trunk shows a fair increase in earnings for the second week of July, while the C. P. R. and C. N. R. show increases for the period. The earnings for the week follow:

Table with columns: C. P. R., C. N. R., Grand Trunk, and other railway companies with their respective earnings.

LARGE EARNINGS BY MAPLE LEAF

Cash Position is Greatly Strengthened—How Profits for Year Compare.

Net profits of \$1,021,266, very close to the high record of 1914-15 when they totaled \$1,048,995, are shown in the report of the Maple Leaf Milling Company for the fiscal year, which ended March 31 last.

The showing is further evidence that the profits of milling companies are being well maintained despite the fact that fixed prices have limited the profit per barrel and that lack of transportation facilities have hampered operations somewhat.

The most striking feature of the statement is elimination of bankers' advances. These stood at \$1,392,328 on March 31, 1917. During the ensuing 12 months these were entirely wiped out and in addition some \$346,212.452, while contingent reserve is increased from \$861,007 to \$617,589, and depreciation reserve from \$350,000 to \$560,000. Accounts receivable stand at \$408,599, while inventories show grain, flour and feed, etc., on hand valued at \$1,999,818 compared with \$4,067,547. Investments stand at \$330,279 against \$55,789, the big increase being largely due to liberal absorption of Canadian war loans.

Total liquid assets now stand at \$2,205,784, against which stand current liabilities of only \$987,384. This compared with current liabilities totaling \$3,047,780 the previous year-end against current assets of only \$4,067,547. The 1917-18 profits of \$1,021,266 compare with \$788,644 in 1916-17, \$550,528 in 1915-16, \$1,048,995 in 1914-15, and \$418,169 in 1913-14. Surplus carried forward has increased from \$238,968 in 1913-14 to \$1,572,506 in 1917-18, and dividends from \$175,000 in 1913-14 to \$851,080 in 1917-18.

The annual meeting of shareholders will be held Monday, July 29.

TORONTO MARKET EXTREMELY DULL

Steamships Preferred Sells Higher—Fairly Good Demand for War Loans.

Trading was at an exceedingly low ebb on the Toronto Exchange yesterday, the turnover in stocks, exclusive of 100 shares of Dome Mines, falling to the trifling total of 187 shares.

Whatever life there was in the market today had to be confined to the war loans in which transactions, with a par value of \$16,200, were fairly substantial when judged by the standards of earlier in the week.

Bullish talk on the Steamships issues persists, and the preferred stock moved up yesterday to 75%, a gain of 1/2, while 41 was bid for the common while any stock being offered below 41%. Steel of Canada common was unchanged at 64%, and the preferred likewise stationary at 92 1/2. The Mackay issues were slightly firmer, the common selling at 75% and the preferred at 45. Broken lots of Bank of Commerce, Dominion Bank and Standard Bank were traded in at unchanged prices.

The war loans were inclined toward buoyancy, the 1925 issue being 1/4 higher at 87 1/2, the 1921 loan unchanged and the 1927 loan up 1/4 at 83 1/2.

GRAIN AT WINNIPEG

Winnipeg, July 17.—Today's cash market was dull, there being no demand for oats, barley or flax. Oats closed 3/4c lower, 44c; barley at 62c; flax, 84c; higher, at 84 1/2c; flax closed 3/4c lower for July, at 84 1/2c; October, 6 1/2c lower, at 84 1/2c.

Winnipeg market: Oats—July, 81 1/2c to 82c; October, 84 1/2c to 85 1/2c. Barley—July, 62c; October, 62 1/2c to 63c. Flax—No. 3 C.W., 81.25; No. 1 feed, 80c; No. 2 C.W., 81.25; No. 1 feed, 80c; No. 2 do., 80c; No. 3 C.W., 81.25; No. 1 feed, 80c; No. 2 C.W., 81.25; No. 1 N.W.C., 81.25; No. 2 C.W., 81.25.

COALITION ELECTED

London, July 17.—In the East Finsbury, London, election, H. E. Cotton, Coalition, was elected with a vote of 1,156. Captain Spencer, Pemberton Billing's candidate, received 976 votes, and A. S. Belcher, independent, 199.

PRACTICALLY ALL STEEL DEVOTED TO WAR USES

Automobile Makers Get Little Consideration From Washington.

Washington, July 17.—Further drastic curtailment of the so-called lesser essential industries may result from the enlargement of the war program, the consequent increasing demand for steel and existing shortage in the supply.

War requirements for the last six months of this year will be approximately 20,000,000 tons, the war industries board announced today. The greatest output of a like period for the steel industry was 6,500,000 tons, the board stated.

Automobile manufacturers, it was stated today, have asked the war industries board to allow them sufficient normal production of passenger cars. The board replied that it could not promise at most 3% per cent., and that possibly none at all could be granted.

LIVERPOOL COTTON

Liverpool, July 17.—Cotton futures closed steady. New contracts, July 22-31, August, 23 1/2; September, 19 3/8; October, 19 1/2.

WHY EXCHANGE IS HIGH

"Why is exchange high?" is the pertinent question asked in the heading of an article in The Star, the monthly publication of the staff of the Sterling Bank. The writer points out that the present premium of more than two per cent. on remittances of funds to the United States constitutes an abnormal condition, and the pith of some of his conclusions is as follows:

The Canadian banks do not create these funds; they buy them. According as the supply is plentiful or scarce they sell at low or high prices. The banks stand to lose as well as to gain as the price fluctuates.

The writer points out that the customer pays more, not to the bank, but merely to the bank to the original holder of the exchange. The unfavorable balance of trade is the greatest factor in the scarcity of United States funds, and the balance has never been so adverse as during the past year.

Other factors are the ban upon the sale of Canadian securities in New York, the embargo upon exports of Canadian metals, and the absence of British money which in ordinary times flow into Canada in exchange for Canadian commodities and are utilized to meet Canadian obligations in the United States.

When Canadian grain crosses the border next fall there may be a drop in exchange, but it is likely to be a temporary one and not a permanent one-half of one per cent., unless government measures are taken.

The trade balance for Canada for the fiscal year ended March 31 last was \$250,000,000. In the first three months of the present calendar year there was an improvement as imports from the United States decreased \$36,000,000, while exports from Canada increased \$20,000,000.

The interest and principal due upon Canadian securities held in New York would be added to the unfavorable balance of trade in arriving at the discrepancy between what is paid for the things she sells and what Canada owes for the things she buys.

Plans under consideration, including, probably, some arrangements between the governments of Britain and the United States with regard to the payment of cash for Canada's grain crop will render available for stabilization of the exchange part of the funds which is owing by Britain to Canada for munitions supplied.

In a brief statement may be summarized as follows: (a) Exports to the United States. (b) Proceeds of sales of securities. (c) Drafts upon Great Britain or other countries outside of Canada and the United States. (d) Gold shipments.

If the sum of all these means positively exceeds the total value of imports from the United States, then the individual owing money in the United States will have to pay for the premium for American funds or buy at a premium and export to the United States some commodity, e.g., silver or gold, in order to satisfy his creditor's claim.

MACDOUGALL HEADS NOVA SCOTIA STEEL

General Manager of the Dominion Iron and Steel Company Succeeds F. H. Crockard.

Montreal, July 17.—The resignation of D. H. MacDougall, general manager of the Dominion Iron and Steel Corporation, at his appointment as president of the Nova Scotia Steel and Coal Company is announced today.

Mr. MacDougall succeeds F. H. Crockard as president of the Nova Scotia Company.

Recently there were rumors of a merger between these two companies, but tentative negotiations are on foot towards this end never came to anything.

Mr. Crockard was reputed to have been one of the highest paid company officials in Canada, and 's said to have received \$100,000 a year. He is an American.

Mr. MacDougall's connection with the Dominion Iron and Steel Company has been an almost continuous one since the turning of the first sod in the construction of the big plant at Sydney, since which time he has been successively resident engineer, resident manager of the Wabasso iron mines, superintendent of mines and quarries and latterly general manager of the Dominion Steel Corporation, in which position he has held since the beginning of 1916. He has been very successful in settling labor disputes amicably.

SHIPBUILDING MERGER HAS A LARGE CAPITAL

Shipyard to be Operated on St. Lawrence Opposite Quebec City.

Quebec, July 17.—With a capital of five million dollars, a new shipbuilding concern has been formed and will operate one of the largest shipyards in America on the shores of the St. Lawrence, opposite Quebec City. The new concern will take in a number of locally existing firms, among which are some Ontario companies. The new syndicate will comprise the Federal Shipbuilding Company of Sarnia, the Dominion Shipbuilding Company of Collingwood and Dussault & Hutchinson of Levis and a number of old country French capitalists.

The firm will build steel vessels for the French Government, and yesterday the building of the docks and yards was started. When the steel vessels for the French building companies will cease building ships in Ontario.

"No truth whatever in the report so far as we are concerned," was the statement by the Dominion Shipbuilding officials in regard to the above report.

MORE RAINS HELP TO DEPRESS CORN

Oats Higher on Bullish Reports From Canada and North Dakota.

Chicago, July 17.—Better crop conditions, together with the fact that wheat premiums were almost a thing of the past, exercised a bearing influence on corn. The market closed nervous, 1/4c to 1 1/2c net, with August \$1.60 to \$1.65, and September \$1.60 to \$1.65. Oats gained 1/4c to 1c and provisions a shade to 1/4c.

Good rains over Kansas, Nebraska, and the Dakotas, and reports of increased acreage and a strong rally ensued, fresh selling pressure developed and a temporary recovery in the price of the time the rest of the day.

On the other hand, much notice was taken of the fact that No. 2 winter wheat was now selling here at the government guaranteed minimum, and that pillars refused to pay more, in this connection it was said that the southwest, where the wheat harvest has been finished, led the late selling of corn.

Wet weather delays to cutting and threshing gave strength to oats. There were also bullish crop reports from North Dakota and Canada.

Cover by shorts made provisions firm. Offerings were scarce.

Board of Trade

Manitoba Wheat (In Store, Fort William), No. 1 including 2% Tax, 23 1/2c; No. 2 northern, 22 1/2c; No. 3 northern, 22 1/2c; No. 4 wheat, 22 1/2c; Manitoba Oats (In Store, Fort William), No. 2 C.W., 25c; No. 2 C.W., 24c; Extra No. 1 feed, 30c; No. 1 feed, 30c.

LABOR DAY LAUNCHINGS TO EXCEED RECORD

Washington, July 17.—American labor has proposed to the shipping board that Labor Day this year shall be made a second Fourth of July in the making of the celebration number of ships to help defeat Germany.

Chairman Hurley today referred the proposal to Samuel Gompers, president of the American Federation of Labor, who will take up the question with unions on the Pacific coast, where the suggestion originated, with a view to making the celebration national if it met general approval.

There were 95 hulls made ready for launching July 4, ahead of the time set for their completion. This addition was the greatest ever made to any national tonnage in a single day. It is expected an attempt will be made to equal or surpass the record on Labor Day.

MACDOUGALL HEADS NOVA SCOTIA STEEL

General Manager of the Dominion Iron and Steel Company Succeeds F. H. Crockard.

Montreal, July 17.—The resignation of D. H. MacDougall, general manager of the Dominion Iron and Steel Corporation, at his appointment as president of the Nova Scotia Steel and Coal Company is announced today.

Charming New Styles in Satin Hats

Are a particularly attractive feature of the latest arrivals in the Millinery Department, one of their chief glories being that they are smart and fashionable for wear now or in the autumn.

As for styles, there is everything from the youthfully jaunty and popular "Blue Devil" tam, with its touches of beading and embroidery, to the smart close-fitting model for the matron. Mostly white and navy, and their moderate prices range from \$2.25 to \$5.00.

Black Velvet Tams

Are much in vogue. We are featuring several of the leading styles; developed from lustrous Lyons silk velvet. Prices, \$4.50 and \$5.00.

On Sale Today—Mill Ends of

Aeroplane Cloth 33c

A fabric of marvelous firmness, strength and smartness, suitable for motor coats, women's suits, men's shirts, etc.; 36 inches wide. One to eight yards in a piece. Today, yard, 33c.

Silk and Cotton Wash Goods 69c

These are experimental pieces—no two alike, and each cost more than a dollar a yard to make. Ten attractive designs and colors. 36 inches wide. Extraordinary value, today, yard, 69c.

Cotton Shantung Voiles 39c

The regular value is 59c, but the manufacturer needed the money, and we bought them at a great concession. 36 inches wide. Lavender, pink, Nile, linen, sky, Joffre blue, copen, navy, grey, rose, brown and black. Today, yard, 39c.

Suiting Specials

Men's Finished Serges, almost indestructible—fine for women's suits. Comes in men's wear, navy and black—50 to 54 inches wide. Priced at, yard, \$3.50, \$4.00, \$5.00, \$6.50.

Gabardine Suiting. Lovely fine twills—firm, close weave. Generally dark navys and black. Soap shrunken—52 and 54 in. wide. Yard \$3.50 and \$4.50.

Cheviot Suiting Serge. Resists all sorts of weather—does not spot or shine—navy and black. 54 in. wide. Yard, \$3.00.

We guarantee all our navy and black serges and gabardines—fast dyes and soap shrunk.

Fine Broadcloths—Old values actually marked at less than we are paying for similar goods. Navy, Russian, nigger, taupe, purple, wine, fawn, copen and black. 54 inches wide. Satin and suede finish. Yard, \$5.00.

The Silk Section will be the Centre of Remarkable Selling Today—6 Sale Items in
