CANADA TO SUPPLY BIG PROPORTION OF FOODSTUFFS

Germany to Be Fed From Allied Stores—Dominion and U. S. to Replace Deficit.
TRADE MISSION BUSY Have Been Engaged in Important Conferences With Borden and Foster.

Special Cable From John W. Dufoe. Paris, Feb. 7.—Apart from their participation in the affairs proper of the peace conference gathering, the Canadian mission has been occupied during the past week with matters economic in character which closely affect the interests of Canada.

Dr. Robertson, representing the department of agriculture, and Mr. Lloyd Harris, of the trade mission here, have been in Paris and, in co-operation with Sir Robert Borden and Sir George Foster, have engaged in a series of important conferences. These included a lengthy interview with Lord Reading.

A matter of most pressing interest relates to the arrangements for the sale and distribution of foodstuffs throughout Europe, which has been considered during the past week by the supreme council of supply and relief. Sir John Beale, who is the active British representative on this body, has kept in close touch with the Canadian ministers and trade representatives, and Mr. Robertson also saw Mr. Hoover with Canada's interests, in respect to Canada wheat stuffs purchase.

Canadian Proportion Large. As a result of decisions by the supreme council, which have been given effect by arrangements made at Spa with the German representatives, considerable supplies of meats and fats will be sold from the allied stores to Germany. These will be drawn from the heavily-stocked reservoir of meat supplies in England, and purchases to replace Germany's allowance will be made in Canada and United States. Canada's proportion of the purchases to be thus made will be larger than the rate which prevailed in previous years. Additional purchases by Germany will, it is believed, be authorized. Dr. Robertson, before leaving for London today, said that the imminent resumption of bacon from Canada to England was to be expected, and that the prospects were that the whole of the bacon surplus would be taken in the near future.

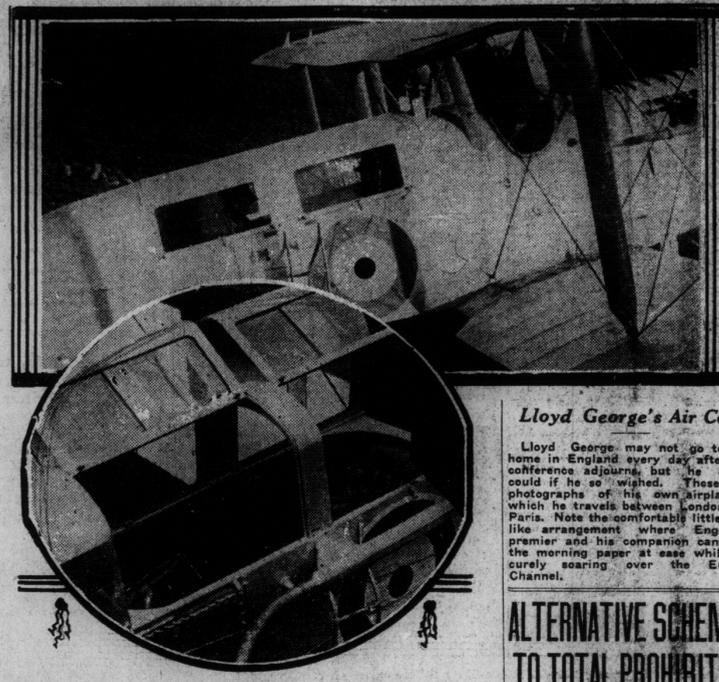

Arranging Advance Credit. Sir George Foster, with Mr. Harris, has been engaged in a series of conferences with the French Government to arrange the terms of an advance credit of \$25,000,000 granted by the Canadian Government and the distribution of the products to be purchased therewith. The object is to find out what is needed here that Canada can supply and in what proportions these shall be divided among food products, raw materials and manufactured goods. Satisfactory progress has been made, and in a few days the preliminaries will be settled and firm orders can then be given. Similar conferences have taken place with representatives of the Rumanian Government, whose wants are large and include mainly manufactured goods of all descriptions, and cattle for re-stocking depleted herds. Rumanian products are chiefly agricultural, oil, and if credits can be arranged, she will buy largely along the above lines.

There have also been interviews with representatives of the Belgian Government along similar lines and progress has been made towards a settlement of the preliminaries as to the use of the credit granted by Canada to that government.

Borden Sees Lloyd George. Sir Robert Borden has been busily engaged during the past week. He had two lengthy interviews with Premier Lloyd George, one in company with Mr. Lloyd Harris, at which a renewal of an interchange between Canada and Great Britain was discussed. Lord Milner, the new colonial secretary, who has just arrived in Paris, also discussed this and other imperial questions at a conference with Sir Robert Borden.

ABOLISH SUBMARINES IS BRITAIN'S DESIRE

London, Feb. 7.—In reference to the suggestion of the abolition of submarines which has been made by the Paris conference, Reuter's learns on high authority that the British admiralty strongly favors the total prohibition of submarine building and the use of the submarine in warfare. This naturally would be subject to an international agreement and the right of self-defense and safeguards. This attitude of the British navy has fact that the British is far ahead of all other nations in regard to the actual possession of submarines and of their potential production.

Lloyd George's Air Cab

Lloyd George may not go to his home in England every day after the conference adjourns, but he easily could if he so wished. These are photographs of his own airplane in which he travels between London and Paris. Note the comfortable and like arrangement where England's premier and his companion can read the morning paper at ease while seated, steering over the English Channel.

PARIS TO SELL FOOD DIRECT TO CONSUMER

Paris, Feb. 7.—Municipal barracks stores will be erected shortly throughout Paris, in which foodstuffs will be sold direct by the city to consumers. M. Clemenceau, the premier, told a delegation which called on him today, to discuss the question of the high cost of living and remedies to be applied in amelioration of the situation, that this action would be taken. The delegation comprised the prefect of the department of the Seine and members of the chamber of deputies. Particularly under discussion were the provisions of the bill of Minister of Justice Naul, which demanded penalties for profiteers in the necessities of life.

GREAT BOLSHEVIK ARMY PREPARED TO SWEEP POLAND

Warsaw, Feb. 7.—General Sheptitsky, chief of the Polish general staff, says it will be necessary for the Poles, if the allies do not do so, to open a route to Danzig in order to bring into Poland the army of General Hatter, as well as food supplies destined for Poland. German soldiers who have arrived from Russia expressed the belief that a great Bolsheviki army is preparing to sweep over Poland. It is reported that Gen. von Esterloff, formerly a member of the Russian general staff, has captured Kharkov and is advancing into the Ukraine. The "black plague" is reported to be raging in Kiev, the Ukraine, because of lack of soap. Countess Zanna Orda, 19 years old, has arrived in Warsaw from her estate near Pinsk, the countless says, rob all their victims of their clothes and burn all the clothes they are unable to use themselves. She reports that some German soldiers are joining the Bolsheviki.

GENERAL STRIKE IN UPPER HUNGARY

Amsterdam, Feb. 7.—A great general strike, which embraces the whole northwest of Hungary, started Monday at Komorn, according to advices from Budapest. All business was suspended and hotels and cafes closed.

On Thursday the strike spread throughout Hungary, embracing the merchants, public officials and the railway, postal, municipal and law employees, who declare their determination to continue the strike until the Czechs alter their behavior. The Czech commanders threatened the postal strikers with death, but without being able to secure the men's return to work.

COAL AND BREAD DROP.

Thanks to Toronto's unwinter-like winter, the householder will not have to pay as much for his coal as formerly. All the large dealers have dropped their prices of \$12 per ton for hard anthracite coal to \$11.50, and a still further drop is expected. Bread, too, has dropped in price. The cost of life is now 10 cents a small loaf, as against 11 cents, the prevailing price hitherto.

ALTERNATIVE SCHEME TO TOTAL PROHIBITION

Distillers of Canada Will Urge Government for New Regulations.

PROVINCIAL CONTROL With Zone System for People Who Hold Proof of Registration.

Ottawa, Feb. 7.—An alternative scheme to total prohibition will be brought to the attention of the government next session by the distillers of Canada, whose representative, R. T. Ferguson, of Winnipeg, is now in Ottawa. They will present what they call "a sane alternative to total prohibition."

Briefly it consists of provincial control of the liquor traffic with a zone system under which registered persons may obtain certain quantities of whiskey and wines of their particular brands for consumption in the home, with the penalty for misuse of cancellation of the personal license which would permit the holder to purchase from provincial controlled stocks including the right to enforce peace, order and prohibition bars, but they hope to force their view that total prohibition is an infringement on provincial and personal rights.

Quote B.N.A. Act.

They declare that the British North America Act conferred on the provinces the right to enforce peace, order and good government within their own borders, and that the courts have declared again and again that regulation of the liquor traffic is related directly to the question of peace, order and good government. They argue that the prohibition acts passed in various provinces did not actually prohibit the use of liquor in the homes of citizens. It was openly urged, they claim, by the prohibitionists that one reason why people should vote for them was that they were not prohibitory. They were, they state, voted into law by men who used alcoholic beverages and who voted on the assumption that liquor was not to be prohibited from the homes of the citizens.

GERMANS ASK POLES TO EVACUATE POSEN

Berlin, Feb. 7.—During their parleys with the Polish delegates the Prussian delegates asked for the evacuation of Posen by the Poles and also the restoration to their duties of authorities in East Prussia recognized in Prussia. The Poles declined an adjournment of the conference for two weeks. A suspension of hostilities in Prussia was refused by the Poles.

MINISTERS ABSENT WHEN HOUSE SITS

Ottawa, Feb. 7.—The house of commons will meet week after next with an unprecedented absence of cabinet ministers. There will be only ten out of the twenty cabinet ministers present. Five ministers, namely, Sir Robert Borden, Sir George Foster, Sir Edward Kemp, Hon. A. L. Sifton and C. J. Doherty are overseas, and no one here has yet heard when they are coming home. Hon. C. C. Halloran, who is slowly recovering from an attack of typhoid and appendicitis, will probably not be able to resume his duties here for a couple of months yet; Hon. Frank Cochrane is recuperating in the south, Sir James Loughheed and Hon. Messrs. Blondin and Robertson have no seats in the remaining ten members of the cabinet will have to give all the accounting of stewardship and double up on ministerial and departmental duties and explanations for the first weeks of the session at any rate.

EBERT BRANDS ARMISTICE TERMS AS UNHEARD OF

Frequently Interrupted by Independents at Opening of National Assembly.

WARNS THE ALLIES Says Hunger is Better Than Disgrace, and Privation Than Dishonor.

Weimar, Feb. 7.—The opening of the national assembly yesterday afternoon was impressive for its solemnity, earnestness and simplicity. Chancellor Ebert's opening speech, the delivery of which occupied a full hour, was frequently interrupted. The Court Theatre was thronged long before the appointed time. The Berlin policemen assigned to Weimar kept the huge crowd outside from interfering with the arrival of delegates and others entitled to attend. The women were the distinct curiosity of the afternoon, and the only mournful event at the opening of the session was a hesitancy, followed by a shrill, excited "yes" of acquiescence, as the first woman's name was called. The second woman on the list had not expected to hear her name, and showed evident embarrassment, as it was almost shouted out.

Herr Ebert received only a brief ovation on his entry. He found himself so heckled by independent socialists that he was forced in the middle of his speech to turn upon them with the declaration that their disorder showed how little evil times had taught them. He aroused approval when he began by declaring: "We have the dead soldiers' graves, and nobles, by the grace of God." He said the people were now ruling themselves. There was disapproval mixed with approval when he declared that the revolution would decline responsibility for the shortage of food and the defects in food in Germany.

Armistice Terms Ruthless.

"Our enemies declare they are fighting militarism, but militarism has been dethroned," Herr Ebert asserted, whereupon an independent interposed again. The speaker next turned to the armistice terms imposed between them as unheard of and ruthless. The whole house was with him when he protested against the expulsion of Germans from Alsace and the requisition of property.

The assembly broke into shouts of indignation when the speaker referred to the 800 prisoners of war still held in captivity. All these, he said, showed anything but a spirit of reconciliation. "We warn our opponents not to drive us to the uttermost," he declared. "Hunger is preferable to disgrace and deep privation to preferred dishonor." The Germans, he said, laid down their arms with confidence in President Wilson and the present free government he leaves it is only its right to enter the league of nations and work with real energy.

The turn, therefore, to all the peoples of the world for justice. We ask that our economic life be not destroyed. The world has fought for inner self-determination it cannot be perfected from the outside."

MEN ARE ORDERED TO RESUME WORK

London, Feb. 7.—The electrical trades union this evening ordered an immediate resumption of work by its members pending action by the national body on the question of the change in attitude of the government with regard to the strike.

An official statement issued this evening by the electrical trades union says: "Owing to an extraordinary meeting of the executive council having been convened for Sunday to consider national action to secure a forty-hour week, and further, owing to the extraordinary change in first refusal to intervene and then intervening to safeguard capital in suspending the civil rights of trade union members, we order immediately a resumption of work pending national action."

Tubes Not Running.

Despite the fact that it was announced late last night that an agreement had been reached for the settlement of the strike of the employees of the tube system and the London District, there was no resumption of service today, and the management stated that it was not probable that any trains would be run during the day.

No official reason was given for the men's failure to return to work, but some of the employees who were willing to talk declared that they were not satisfied with the agreement made by their representatives with the board of trade, and would not go back to work "today at any rate."

CORONER'S JURY BLAME MILITARY

Inquest on Rodriguez Elicits Fact of Hurried Trial.

London, Feb. 7.—The Metagama sails with 52 officers and 425 other ranks, with wives and children, tomorrow, morning, total of 1400, about double the number sent last week via the Turin. New arrangements to visit a previous hardships which wives and families have sometimes experienced. No women and children need now leave their residences here until the morning of sailing.

The military authorities were in error when they discharged Pto. Rafael Rodriguez, the Mexican soldier who died in the General Hospital from tuberculosis, before he was able to look after himself, was the verdict of a coroner's jury at the morgue last night. Rodriguez had been discharged from the army as physically unfit as the result of gunshot wounds received in France. The medical board who examined him before he was discharged could not find any traces of tuberculosis, although within two months from the time Rodriguez was granted his discharge he was arrested and sent to the jail farm. When admitted to the farm the returned man was in the last stages of tuberculosis.

So serious was his condition that Major Morrison, the farm superintendent, ordered the prisoner removed to the General Hospital, where he died the day after being admitted. The juryman praised Major Morrison for the way in which he had treated the dead soldier, and made the suggestion that Coroner Mason have the military authorities see that the back pay which Rodriguez was entitled to be forwarded to his relatives.

The hasty trials in the morning police court were again gone into, but the juryman, the coroner in his address, did not mention it in their verdict. Rodriguez was sentenced to three months at the jail farm on January 19, on a charge of a breach of the Ontario Temperance Act. Constables Black and Allen, the officers who arrested Rodriguez, did not swear to their evidence that Rodriguez did not enter a plea of "not guilty" when he was tried in court by Magistrate Kingsford.

Not Guilty.

William Bell, a prisoner from the explosion on Beakonsfield, was serving a term for the same offence as was committed by Rodriguez. He swore that he followed Rodriguez in the court and when the prisoner called and the charge read, Bell distinctly heard him answer "not guilty." "Within a few minutes a plea was entered and the sentence imposed and Rodriguez walked down stairs. After Bell had been sentenced he went below, Rodriguez was ill and he fetched him a drink of water while in the cells in the city hall. Another prisoner had intimated to him that Rodriguez looked very ill.

While waiting to be transferred from the jail to the farm, Bell said that he and Rodriguez and a number of other prisoners were all in the same room at the Toronto jail. Dr. Parry, witness said, had given him several white pills to give to Rodriguez. Dr. Parry, the witness, said that he had examined Rodriguez and found that he was in fit condition to be sent on the farm. He denied the story of Bell that he had prescribed tablets for Rodriguez.

County Crown Attorney Greer questioned Inspector Gregory as to the morality department as to the authority of the police searching suitcases of persons coming in from Montreal on suspicion. Mr. Greer pointed out that there was no provision in the Ontario Temperance Act that gave the police the privilege of picking out respectable people who looked suspicious to them and searching their travelling bags.

The only explanation forthcoming from Inspector Gregory was that the police used discretion in approaching and searching people.

WANTS THE GOVERNMENT TO ASSIST IN AVIATION

An Aeronautical Advisory Committee From All Over Country Advised.

The Aero Club of Canada, thru its acting president, has, through the Aero Club, had sent a communication to Sir Thomas White, acting prime minister, pointing out the many advantages that would accrue to the Dominion by assisting aviation. The letter suggests that the government should create an aeronautical advisory committee selected from the Aero Club in the various parts of Canada, who are familiar with the progress of aviation. The Aero Club of Canada has a present membership of over 3000, and a great majority of which are trained officers of the Royal Air Force, many of whom are now demobilized.

DISCUSS TERMS FOR EXTENSION OF ARMISTICE

Supreme Council Not Satisfied With Manner in Which They Are Being Carried Out.

SOCIETY OF NATIONS Commission Covers Half of Draft, But Compulsory Service Article Amended.

Paris, Feb. 7.—Marshal Foch will go to Tervre on Feb. 17 to fix the conditions for a third renewal of the armistice and the discussion of the conditions to be imposed, which took up considerable time of the supreme war council session today.

It is understood that the council will fix a brief time in which the Germans must carry out the conditions they have only fulfilled in part. In this respect it is noted that none of the German merchant ships which were to have been sent to certain allied ports have yet been handed over.

Germany's tactics of obstruction and procrastination are said to have reached a climax in a threat made at Weimar by Chancellor Ebert that Germany would break off negotiations with the allies.

The supreme council official bulletin issued this evening says: "The supreme council today discussed the terms of the extension of the armistice with Germany. The discussion will continue Saturday. The labor legislation commission discussed the representation which will be given to governments and organizations of employers and working people in the proposed permanent international conference. It was decided that women should be equally eligible as men as delegates to the conference."

Peace Commission.

The official statement regarding the fourth meeting of the commission last night reads as follows: "The fourth meeting of the commission of the league of nations met at 8.30 o'clock last evening at the Hotel de Crillon. Messrs. Kramarz, Venizelos, Dmowski and Deuryant (Diamond), representing respectively the Czechoslovak republic, Greece, Poland and Rumania, took up their duties as members of the commission. "The commission provisionally approved a number of additional articles

TORONTO BROKERS BOTH COMMITTED

Captain Fisher Gives Evidence of Dealings With Firm.

In the police court yesterday morning Joseph Tomenson and Beverley Browne, Toronto brokers, were committed for trial on charges of receiving \$18,000 stolen money from His Majesty the King. Tomenson was represented by T. R. Ferguson, Browne by Peter White, K.C. Both entered pleas of not guilty and elected to be tried by a jury.

Lieut.-Col. Forbes, district paymaster of No. 3 military division, was the principal witness called by the crown. Before the committal was made Col. Forbes, in explaining the system used by the army to distribute pay money to the paymasters, said it was made either by pay parades or by cheque. After a paymaster had made his payments to soldiers and there was a surplus left over he was instructed to deposit the money in the bank.

When Col. Forbes learned that Capt. Fisher, who is serving a four-year term for stealing between \$45,000 and \$50,000 from the army funds, had been purchasing stock with Tomenson and Browne, he called to consult Tomenson, who is alleged to have replied that business transacted between himself and his clients was confidential.

Had Big Credit.

The colonel visited Tomenson later and learned that Captain Fisher had a credit with his firm of approximately \$15,000. He had subsequently put two officers in the office of Captain Fisher to look over his accounts and found that none of the surplus money had been sent to the bank. On Aug. 2, 1918, they found out that Captain Fisher had cashed a cheque for \$20,000. A number of days later it was discovered that Captain Fisher had

How Boots Were Made Fifty Years Ago

The contrast in the making of goods fifty years ago and today is clearly illustrated in the Footwear Department, where the old-time shoemaker of the sixties is alternately plying his awl and wax thread in the making of boots, while alongside him the modern sewing machine is turning out boots at the rate of 300 pairs a day. The comparison is most interesting, and demonstrates the surprising development in footwear manufacture during the last half century.

ANTI-OFFICIALISM PERTURBS LABOR

Holds That a National Convention Would Help to Allay the Unrest.

London, Feb. 7.—Greatly perturbed at the growth of what they call anti-officialism among members of the union, Chairman Brownlie of the Amalgamated Society of Engineers, has written to The Pall Mall Gazette, saying that the recalcitrant element constitutes a minority. Nevertheless, the union executives are confronted with a struggle between constitutional and unconstitutional sections. He emphasizes urgently the international code of labor laws, which might have a calming effect. General Secretary Williams of the Transport Workers' Federation thinks the Labor Party and the Parliamentary committee of the Trade Union Congress should call a national labor congress to consider the present labor unrest, otherwise he fears grave and seriously embarrassing trade unionists to oppose to the utmost the official strike movement.

VESSELS STILL FACING FLOATING MINE DANGER

Ottawa, Feb. 7.—The danger to vessels from floating mines, has not yet been removed, and the naval department has issued instruction to masters sailing from Canadian ports who must pass through the dangerous zones. In the meantime, the department is continuing the mine-sweeping operations off Halifax, which have lately not been very productive of result. Owing to the fact that the mines after being logged and sunk, fishing vessels are probably now running more danger than any other kind of vessel, though the fact that mines sometimes get caught in the nets, are hauled in and dumped on the deck of the ship, with the result that it is blown to pieces. The dangerous areas as given out by the naval department, include the Atlantic off Nova Scotia, ninety miles from Halifax, certain parts of the North and Baltic Seas, and the Atlantic Ocean, all the Mediterranean and the Black Sea, part of the India and China Seas and off New Zealand.

EMBARRASSING TO JAPAN.

Peking, Feb. 7.—Attempts are being made by the Japanese to induce the Chinese Government to dissolve the action of its delegates at the peace conference, for the reason that they are seriously embarrassing Japan, according to semi-official Chinese sources here.

MONTENEGRO APPEALS AGAINST SERBIA

Paris, Feb. 7.—King Nicholas of Montenegro, in a proclamation to his people, charges the present Serbian administration with conspiring to defeat Montenegro's legitimate aspirations to become a member of the Jugoslav federation. Simultaneously with the issuance of the proclamation, Dr. Peter Cvetkovic, acting minister of foreign affairs for Montenegro, today sent an appeal to the peace conference declaring that Montenegro is besieged by Serbia and that its vital interests are being ignored by the peace conference.

Rush Order for Big Steamer Comes to Canadian Vickers

Montreal, Feb. 7.—It was announced yesterday that the Canadian Vickers, Limited, Montreal, have just closed a contract with an important French group for the construction of one 3,800 dead weight tons cargo steamer for the coal and nitrate trade between France and Chile. The vessel will be delivered, completed ready for service, in June this year.

STEAMER SINKS—ONE SAVED.

Copenhagen, Feb. 7.—Only one of 18 members of the crew of the Danish steamer Carmen was saved when the steamer was sunk by a mine Sunday in the North Sea.

PROTEST BY STRIKE AGAINST SPARTACANS

Berlin, Feb. 7.—The whole City of Dusseldorf has "walked out." The employees on all public service lines are striking in keeping with the threat to the executive council of the communistic government to call a general strike of all bourgeois classes if their demands were not granted. Theatres and restaurants were forced to close, as they are without service. Big industrial plants have shut down, as office forces everywhere have joined in the walk-out. This unique protest is the first of its kind to be applied on a big scale as a retaliation against Spartacan terrorism.

Man Setting Off Dynamite Surprise for Waking Milkmen

Kingston, Ont., Feb. 7.—To wake up in the morning and find a man in their room lighting a fuse to two sticks of dynamite was the experience of Oliver Robinson of the City Dairy and one of his employees. The two men slept in a room in the dairy building, and just as they were about to get up yesterday morning they were startled to see a man in the room lighting a match and bending over a basket. The man left the room hurriedly, and on investigation it was found that he had lighted a fuse to two sticks of dynamite, but the fuse went out, thus preventing a terrible tragedy. The police are working on the case, but thus far no person has been apprehended.

WILL PUBLISH NAMES OF CONVICTED GERMANS

Coblenz, Feb. 7.—The names of all Germans convicted of violations of army regulations in territory occupied by allied forces are being published in German newspapers, together with the address of each, the offence charged and the fine or sentence imposed. By a new order which has been published for the guidance of civilians, the sale or gift of any substance containing alcohol or any preparation susceptible of being used for the purpose of making alcoholic beverages, excepting light wines and beer, is forbidden. This regulation is supplementary to a previous order forbidding the sale or gift of all alcoholic drinks excepting light wines or beer.

Station Master at Calabogie Nearly Victim of Gunman

Renfrew, Ont., Feb. 7.—Station Master Walker at Calabogie, on the Kingston and Pembroke line, had a narrow escape yesterday when William Wardell, who lives about five miles from the station, entered the waiting room and fired at Walker point blank with a .44 rifle. The bullet passed through the sleeve of a sweater Walker was wearing and scorched his arm. Walker made after the man, but Wardell took to the fields and made his way into a bush and disappeared.

NO MORE MONSTER SHIPS FOR CANADA'S TROOPS

London, Feb. 7.—The Canadian Associated Press learns that in order to secure the greatest despatch in the handling of troops on their arrival in Canada, it has been decided that the monster ships will no longer be used. It is stated that while this facilitates the handling of troops on their arrival in Canada and prevents delay there, it greatly increases the difficulties here in finding the necessary transport. The number of ships is limited and great competition is taking place to secure them among different parts of the empire and the United States. It is suggested therefore, that the question of arrivals in Canada should be considered, not by results of any one week, but on the average for one month. The Canadian Associated Press is assured that the steady homeward flow of 30,000 monthly, after February, will be maintained, but it is impossible to parcel this number into regular weekly sailings of 7,500.

Former Quebec Parliamentarian To Face Gambling Fraud Charge

Montreal, Feb. 7.—Arthur M. Acrement, notary, ex-M.P., charged with conspiracy to rob Michael Connolly, contractor, of \$125,000 in an alleged gambling scheme, must face his accuser in the courts of Montreal. Judge Cusson today dismissed the contention of the defence that the courts of Canada had no jurisdiction.

LIQUOR DID NOT LACK A HEAD

Teamsters Have a Unique Drink at University Expense.

During the past six months there has been large quantities of alcohol, more or less impure and adulterated, shipped into Toronto. Some of it has been consumed and some confiscated thru the vigilance of the police and the O.T.A. officials, but it is safe to say that the two teamsters employed by a local express company would have much rather preferred paying a "3300 and cost" fine for drinking alcohol which was used for pickling human heads to be used for anatomical purposes.

Yet this is what happened. A keg containing liquid with a very alcoholic odor arrived at the office of one of the express companies, addressed to the pathological department of Toronto University. The two teamsters, detecting the smell, thought that an opportunity which they might not have again had arrived. So they made a small hole in the top of the keg and inserted straws similar to those used in ice cream parlors.

Everything went well until the police, who had an eye on the goods, asked an official to come down to the depot and explain the presence of the alcohol and a possible breach of the O.T.A. The official, however, stated that the keg contained, and on being opened it was found to contain a head which had been put in the alcohol to preserve it until it was required for anatomical purposes by the university medicals.

TORONTO BROKERS BOTH COMMITTED

Big Sums Handled. Witnesses testified that he had paid the accused firm between \$50,000 and \$60,000, which was always rendered in cash, of ten and twenty dollar bills, asked by the crown attorney if he ever tried to pay by cheque, Fisher replied that he had tried, but the firm would never accept cheques. On one occasion he had given Browne \$5,000, and when the latter asked him for more, he had stated that he would not be able to finish his pay parcels if he turned over any more cash. Questioned further, witness said:

"Mr. Browne used to give me my balance every day. On the Friday preceding my arrest, before I went to Tweed, Ont., I was told my balance was between \$15,000 and \$20,000. I called him from Sunnyside pavilion. I asked him if he would pay some money to my credit as paymaster, but Browne said he could not do it. He said Col. Forbes had been in and ordered them not to pay anything to my credit."

On another occasion, witness said, Tomenson had called on him and warned him to fix up his books, as they were "getting wise." "I replied that it was none of their business," said the former officer. On the afternoon after the foregoing Tomenson had a conversation with Col. Forbes, whom he met on the street. Browne told Fisher of the occurrence and had intimated that the latter need not worry, Tomenson hadn't tried anything.

Witness also stated that Browne had once remarked to him, "Well, Bud, we made some money out of the government today." In reply to questions, Fisher stated that he was born in Fredericton, N.B., and had worked in secreted duty for five years in cross-examining Colonel Forbes. Mr. Ferguson enquired, "So far as you know, Captain Fisher did nothing wrong until July, 1918, and it is rather a mistake to charge the accused with receiving money stolen in 1917?"

"I don't want to say without knowledge," replied witness. "Mr. Ferguson: And you have no knowledge?" "Col. Forbes' Not in this one account. He had two accounts of Base Hospital and A. M. C. units, which took him considerable time to square up."

Col. Forbes told Mr. Ferguson that Fisher had told him of having deposited certain sums with Tomenson & Co. for which he had received no credit. One was a cheque for \$7,278.96 which he had received from Bryant, Dunn & Co., brokers, dated October 29, 1918, which was exhibited in court, endorsed by Fisher and Tomenson & Co. The other was \$2500 in cash.

Miss Myrtle Sides, who knew Browne and Fisher for some time, swore that she heard Browne remark to Fisher, at a dinner in her house last Thanksgiving, "We made well out of the government today."

DR. JEWETT TELLS WIRELESS WONDERS

World Makes Great Strides During Period of the War.

Dr. Jewett, of the Western Electric Company, addressed the Club at luncheon yesterday on the latest developments of wireless telephony. During the war great studies had been made in this direction both in America and England. Dr. Jewett thought that the advantage was slightly with the American inventors. The wireless telephony was established in 1917 at Montauk Point and first of all communication was made with Washington, then with St. Francis, then Panama, and after obtaining leave from the French authorities, which was a great concession, finally across the Atlantic with France.

PERMANENT LOAN CASE OPENED AT OSOGODE

Official Referee J. A. C. Cameron opened the hearing of the Dominion Permanent Loan Co. liquidation at Osogode Hall, and disposed of the several routine matters before beginning the hearing proper. James Egan, K.C., represented the liquidators, and I. F. Hollmuth, K.C., appeared for the general body of shareholders, while some 30 other solicitors appearing for individual interests, were also present.

Mr. Hollmuth opened the first question, when he questioned the right of the official referee to place on the list of contributors shareholders for dividends alleged to have been paid improperly. However, without reserving judgment, Mr. Cameron ruled that he had jurisdiction and announced that he would exercise it, also that he would proceed in the speediest way to collect all sums due to the company, where there were thousands of contributors, and many interests. It was in the interests of everyone concerned that the issues should be tried by himself as they arose.

Holders of provincial loans, and prepaid shares were given two days to decide whether they would accept the ruling. Those who are not satisfied with the defense drawn up by the shareholders' committee are given 15 days in which to file a special defence.

The claim under the winding up against the estate of the late P. M. Holland as regards \$9,825.15 claimed for illegal dividends, do not affect the outcome of stayed proceedings against his estate. In this action four directors' estates are being sued to recover \$400,000.

LIVE STOCK MARKET

The week just closing has been marked by great strength on the Union Stock Yards Exchange for all classes of cattle, especially the beef and heavy steers, and heavy hogs. A number of firms were in the market for this class of cattle for the export trade, and this had the effect of stimulating business to an appreciable degree. Some idea of the strength of the market may be gathered from the fact that choice steers sold at from \$15.50 to \$16.50, and in a few cases, it is said, very close to \$17 per cwt. The prices for butchers' steers and heifers advanced fully 50c and more. On Tuesday and Wednesday the market for cattle was moderate and strong prices prevailed, closing strong on Thursday. Fat hogs, it is estimated, advanced \$1 for the week. Taken all round, it was a wonderful week, and if we have only a moderate run on Monday trade ought to hold pretty steady.

On Monday the trade opened very strong for lambs, with only about 300 on sale, and sold up from 50c to \$1 higher for the choice ones with the medium class up from 50c to 75c. On Tuesday and Wednesday trade was strong for choice lambs, and sold up with the heavy and medium selling off from 50c to \$1. The sheep trade opened at 9c to 10c, and held steady.

VETERANS G.W.V.A. OFFICIALS SCORE LOW SCALE

Unanimously of Opinion That Pensions Should Not Affect Wages.

All representative returned soldiers are opposed to the policy on the part of certain manufacturers of offering returned soldiers wages below standard. While some of them point out that now that the war is over the manufacturer is governed purely by economic conditions, and is ready to buy labor at the lowest rates procurable, and to sell its products at the highest figure they emphasize the point that any exploitation of the soldier is taking advantage of the present economic situation to reduce wages. They say they cannot now pay fancy prices prevailing before the armistice was signed. No amount of newspaper articles or mass meetings will prevent the real profiteer from taking advantage of the best markets. However, what sentiment is shown is directed toward the returned soldier.

Sergt. W. E. Turley, G.W.V.A., said: "The policy of offering rates lower than standard to returned soldiers can not be too strongly criticized. It is unfair to both soldier and the worker generally. The fact is that the manufacturer is taking advantage of the present economic situation to reduce wages. They say they cannot now pay fancy prices prevailing before the armistice was signed. No amount of newspaper articles or mass meetings will prevent the real profiteer from taking advantage of the best markets. However, what sentiment is shown is directed toward the returned soldier."

Sergt. George H. Gustar, West Toronto G.W.V.A., said: "The principle is absolutely wrong, and is, I believe, carried out by only a minority of employers. The C.M.A. is in favor of the maintenance of the present standard of wages and also of giving preference to the returned man."

Sergt. Major J. V. Conroy, organizing secretary for the G.W.V.A., said: "The co-operative committee of the C.M.A. and the G.W.V.A. has been brought into being for the very purpose of doing the right thing by the returned man, and I am sure that any such cases as suggested which might be referred to the returned man, will be properly adjusted, the majority of employers not being desirous of taking any advantage of the returned soldier. These cases being those touching the policy of regulating any tendency to lower the general wage scale and of making the returned soldier an instrument to this end."

Quite Wrong. George Murrell, secretary Central G.W.V.A., said that any attempt to pay the returned man a wage less than that of the skilled work or unskilled work as the case may be, is low standard, and was entirely wrong in principle. There should be an organized movement to prevent manufacturers from paying returned men on the basis of pensions they may be receiving. This is a system which discriminates the man who puts it into operation.

W. McLaughlin, executive member of the Grand Army of Canada, was of the opinion that this system where adopted is brought about by the system of voting the right in factories as now administered. No sooner has the returned soldier attained that quality of perfection which will enable him to produce articles of greater value than the manager, in certain factories at least, offers him a bonus. If the management then pay him a bonus it can afford to pay him wages of standard value. He could quote a case properly authenticated of a firm which pays the returned man a bonus for an article as finished as any for which that same firm would pay the ordinary skilled civilian six cents. Why this discrimination against the returned soldier?

Members of the Machine Gun Corps of the 4th Battalion have written a letter to the press in Toronto pointing out that the man at the front today has every reason to desire the peace, demobilization, and that, if any of them would desire to remain in Belgium or any other continental region longer than necessary.

MANY LIVE ISSUES.

Central G.W.V.A. at their coming session at Columbus Hall on Monday next will take up many live issues, among others being those touching upon the maladministration of the Workmen's Compensation Act as affecting returned soldiers, the arrears of the widow of the Canadian imperial reservist who fought as grandly as any man for the principles of the empire, and whose pension is less than that granted to widows of members of the C.E.F., and also the grievances of the men called before the board of pensions on the regulation military wage of \$11.0 a day instead of the standard civilian rate of daily wage, governed always by the prevailing standard rates in the province.

Returned men have a grievance against the administration of the Workmen's Compensation Act as affecting returned soldiers. Cases have been brought to light showing that the medical experts of the administration board have differed diametrically with the private physicians who have been called in to attend the accident cases, and who have, therefore, first hand knowledge of the men seeking compensation. As the result of those diverse opinions the board has simply ignored the claims of the men upon the advice of the "experts."

Mayor Church and other dignitaries, military and civilian, including Thomas Roden and T. A. Russell called before the board of pensions meeting of Parkdale G. W. V. A., which is to be held on Tuesday evening at Khaki Templars' Hall, Queen street and Dovercourt road.

Parkdale G. W. V. A. has 759 fully paid-up members, and is progressing rapidly from a very point of view. The president of this branch, Lieut. Col. A. T. Hunter, will address next Sunday afternoon's session of the Open Forum at Foresters' Hall, College street and Yonge street.

INDICTED I. S. C.

The Grand Army of Canada is drawing up a document, for press publication, which will be nothing less than a grand indictment of the invalid soldier's commission and the soldiers' civil re-establishment, a list of specific instances of maladministration in the treatment of the returned soldier in the hospitals being specially selected for reference.

SALARIES INCREASED, DESPITE DR. HUNTER
Fireworks by Trustee Dr. John Hunter featured the meeting of the finance committee of the board of education last night, when the committee proceeded to consider the estimates and salary increases. Dr. Hunter made several ineffectual attempts to state his objections when the meeting opened, but the committee calmly proceeded on its way, and Dr. Hunter, reaching for his hat, did likewise.

With the chief objector out of the way, the committee, under the chairmanship of Trustee C. A. B. Brown, decided to raise the salaries of principals and assistants to receive an increase of \$100 for the year 1919, while the same treatment will be accorded the Technical School and High School of Commerce. The public school teachers, as is usual, coming in at the tail end of the procession, were not all considered for salary increases, but those who were taken up received the same increase, while the remainder will come up for consideration at the next meeting of the committee.

A. S. BARR TO ORGANIZE 'VARSITY WAR MEMORIAL'
A. S. Barr, whose reputation as a university athlete is known throughout Canada, and who was coach for Toronto Varsity team for some time, will undertake the work of organizing the university war memorial campaign. At present he is assistant registrar under the Military Service Act for this district. He will have a staff of about fifteen stenographers and clerks at Hart House, where the office of the organization will be, and will give part of his time to the M. S. A. administration.

It is estimated that about 50,000 graduates, undergraduates and ex-students are scattered in the army. What form the memorial will take has not yet been decided upon. There for require soldiers' scholarships for children and dependents. Many are also in favor of chimes, but the difficulty seems to be that there is no suitable place for the university from which to suspend them, and the cost of erecting a building for the purpose would be beyond the finances of the fund.

Brunswick Lodge, L.O.L., No. 404, will initiate 16 returned soldiers and 10 civilians at its next meeting on Thursday night at Victoria Hall, refreshments being served.

and is still with the 19th Battalion in France.

Riverdale G. W. V. A. at its session on Thursday night threw out a resolution to request the registration of all government employees from the executive of that branch. This was considered in the light of a test case for the government employees who is also a member of the G. W. V. A. in any part of the Dominion, and holds an executive position with the returned soldiers' organization. It was definitely shown last night that many of these members employed by the government are really employed by the government, and that they had worked harder for the returned man than most civilians. (Comrade) W. E. Turley, provincial secretary of the association for Ontario, pointed out that the policy of appointing returned soldiers in the government service, in the interests of the returned soldier, was above criticism, and was a worthy appointment than that of ward heepers for the same positions.

Major Hamilton, local representative of the soldiers' civil re-establishment, stated at the Parkdale G. W. V. A. meeting that many of the large firms were taking back returned men. The T. Eaton Co., he said, was employing 1187 returned men, while the Massey-Harris Co., which recently employed hundreds of Chinese, was now employing only five. However, many manufacturers were still dilatory in their duty toward the returned soldier, and it was this factor which was largely responsible for the bias against the alien among the returned men.

Approximate figures of paid-up members of the branches of the Great War Veterans in Toronto, show that the G. W. V. A. has a total paid-up membership in this city of at least 2500 members, with 143 branches organized branch at Mount Dennis, an offshoot of West Toronto. The latest approximate figures, which are in the main correct, give the following figures: Riverdale 809, Parkdale 739, Central 790, Mount Dennis 70. These figures do not include the auxiliary membership of this association, which totals several hundreds. The total membership for the Dominion is 45,000 paid-up members, with 143 branches, 81 of which are in Ontario. This is only natural, in view of the fact that the Province of Ontario has sent 225,000 men overseas.

Sergeant-Major Geo. H. Gustar, secretary of West Toronto G. W. V. A., yesterday afternoon related the case of an aged couple, the husband 84 years old, and the wife 78 years old, whose son was killed on Flanders fields many years ago, and who were insured for \$1000 in respect to this son. This insurance which was made out in monthly payments of \$30 a month, had come to an end, and the couple face starvation. West Toronto G. W. V. A. is taking up this case with a view to having the board of pensions grant a permanent pension on compassionate grounds, made possible thru a clause in the Pensions Act, recently added to the act thru the representations of the G. W. V. A.

Lieut. Col. Albert McGeehan was last night elected to the Dominion War Veterans' Association, Captain John A. Macdonald being elected first vice-president, and Major Ross C. Cochran, second vice-president. Major W. H. Cooper was elected secretary, and W. Stewart Thompson, accountant. Two hundred and twenty-seven applications for membership were received and accepted.

\$285,956.30

That, in a figure, expresses the noble generosity of the citizens of Toronto to the Salvation Army.

We of the Salvation Army hereby pay this our heartfelt tribute of thanks to all who gave to the cause, and to those who not only gave generously of their money but of their labor to insure the success of the campaign.

\$14,609.57 G.W.V.A.

There were two outstanding things in our campaign: One was the blessing of the Veterans, the other the magnificent support of the Industrial Workers. Veterans in civil life and in uniform went from house to house for four nights after each day's hard work, and as a result turned in the magnificent amount here recorded.

\$50,300.00 Labor

From the number of industrial workers' subscriptions gathered by the unselfish labors of the members of the Kiwanis Club, we conclude that almost every worker in Toronto gave something. We are proud, oh, so proud, of this, for it was a sterling recognition, of our service to their fellow-men and women.

\$5,205.36 Schools

The pupils in the Public, Separate and private Schools and Colleges of Toronto gave this most generous amount.

We are proud of this, because a great deal of it came from the savings of little boys and girls and older children, who though they may know nothing at all about our work, will live, we hope, to see the day when the social side of it may no longer be necessary.

\$16,554.21 Tag Day

This splendid sum was given to our "taggers" on the last day of the campaign. The balance of the money was collected by the team workers, and to these we repeat our most heartfelt thanks.

Cash in Bank \$261,849

Toronto made a world's record in its gift to the Salvation Army. No other city of equal size contributed so generously; no other city of any size contributed so well in proportion.

Toronto set another record for the amount of actual cash in the bank at the end of the campaign.

Toronto set a third record, for, in proportion to the amount asked for, no other campaign had such a large number of workers, or such a large number of contributors.

Here we wish to acknowledge, and return thanks, for the services of Mr. N. L. Martin and the unselfish band of accountants who assisted him.

The signing of the Armistice created entirely new conditions. It was necessary for us to readjust our whole policy and appeal. Our preliminary work was done while the Victory Loan was in progress, and this was followed by the Christmas holiday season. Consequently, with the War being over, we had no indication as to the response of the people to the First Peace Campaign.

To the campaign organizers, to the Executive Committee who led the campaign day and night for weeks, and to the great body of business men who forsook their businesses to rally around the Executive Committee for the down-town canvass we will never be able to fully express our gratitude.

We especially recognize and give thanks for the excellent work of the leading labor representatives, the factory superintendents, foremen and the factory employes for their splendid response to our appeal. To the members of the Kiwanis Club, Great War Veterans' Association, to the School Board, Principals, Teachers and Children, and to Government, Municipal and Military authorities, our unbounded thanks are due for their endorsement and co-operation, and to the great generous public whose heart and purse were opened so liberally to the appeal of this great army of workers.

We are deeply sensible of the great responsibility with which we are charged in the administration of this fund. We shall spare no effort to discharge that responsibility faithfully and well in carrying out the purposes of the campaign—providing for the soldiers both overseas and at home, and their wives, widows and dependent and orphan children.

We shall maintain the house-to-house, day-and-night visitation service at the homes of the soldiers' families. These and other features should do much to restore good cheer and confidence amongst returning soldiers.

We shall present annually an audited financial statement to the public, showing receipts and disbursements of this Fund.

The only way we can express our heartfelt thanks is in the same old-fashioned way we have been doing for the last sixty years, namely, in the humble-hearted service of God to our fellow-men. We thank you!

Salvation Army Headquarters, Toronto, February 6th, 1919. W. J. RICHARDS, Commissioner.

FEEBLE-MINDED BECOME A MENACE

Enquiry Shows Boy Burglary, Theft and Child Motherhood Rampant.

Mr. Justice Hodgins resumed the enquiry at the parliament buildings yesterday into the problem of dealing with feeble-minded children.

Dr. C. M. Hincks said feeble-minded boys commit adult offences. One boy of 15 boasted that he had broken into nine houses on Roxboro road. In two and a half years 761 mental delinquents had appeared for theft. There had been 234 unmarried mothers under 16 years of age in the same period before the court. Charges had ranged up to attempted murder.

Dr. C. K. Clark said that defective children included two classes, the mentally deficient and those who had inherited social disease. It would be highly desirable for a juvenile court judge to combine a knowledge of both classes.

The Toronto juvenile court was "not at all up to date." No ordinary judge could deal with such children's cases. There were too few places to which to send defective children.

Dr. Mary Mackenzie Smith said she had found about two per cent. of feeble-mindedness among rural school children.

Col. A. E. Farwell attributed feeble-mindedness in the Uxbridge district to intermarriage among relatives.

Mrs. Mary E. Laughton, secretary of the Big Sisters movement, emphasized the importance of adequate care for the normal girls.

SHOULD NOT BE PAID.

Hon. Dr. Cody, minister of education, has notified the Toronto Board of Education that there did not appear to be any general feeling in Ontario in favor of the payment of trustees for membership in school boards.

LIEUT.-COL PRICE ILL.

Lieut.-Col. W. H. Price, member for Parkdale, in the Ontario house, who returned from overseas two weeks ago, is lying ill at the Toronto General Hospital, where he was operated on yesterday.

TWENTY PER CENT. NET ON SCHOOL PLUMBING

Assist. Supt. Waste was examined at the public school enquiry yesterday morning respecting the cost of gas fittings. He stated that he had no knowledge of attempted overcharges by contractors.

Robert Patterson, of the Sanitary Heating Company, testified yesterday afternoon respecting the frozen pipes last winter.

Supt. Bishop produced a letter showing that school pipes were frozen to a greater extent than usual in the United States last winter.

H. Hodgson stated that the plumbing firms were allowed 20 per cent. in profit on materials supplied.

Big Sisters Detail Work Done During Year for Young Girls

The annual meeting of the Big Sisters was held yesterday afternoon at the Little Sisters' Clubhouse, 21 Carlton street. Mrs. Sidney Small, president, reported the work done on the house was given by Mrs. Edward Byrne, who said that \$1000 had been expended on furnishing, and \$3000 provided for the first year of its management. In the short time that the club has been opened, 245 girls, not members, had been entertained at tea on Sunday afternoon. Wednesday evening is set aside for the club meeting of girls, and lessons are given in physical culture by a professional teacher.

For preventive work, a club for girls between five and fourteen, has been opened, and now has 35 members, who meet on Tuesday and Saturday afternoons, when they have games and are taught needlework.

Work on Big Customs Examining Building About to Commence.

Work will commence in the next two or three weeks upon the new Dominion Government Customs examining warehouse, which will face Front street, and extend from Bay to Yonge. The building will be of the same general design as the new Union Station, except that instead of being flush with the street, it will present a somewhat appearance. When completed, a part of the new building may be temporarily used as a city postoffice, but the government expects next year to erect a new general postoffice on the square bounded by Adelaide, Victoria and Lombard sts.

U.S. CONSUL PROTESTS. Recommendations of the board of control that business licenses be refused to aliens will not go to the council on Monday. It was decided to withdraw the clause from the order paper by the controllers yesterday, owing to a number of protests received from the American consul and other officials.

PAUL KELLOGG DESCRIBES BRITISH LABOR MOTIVES

"The same work year in and year out is denuding a man," said Paul Kellogg, editor of The New York Survey, in a lecture on "British Labor and Reconstruction" given yesterday afternoon in the biological building of the University of Toronto. He then went on to say that lack of scope for originality turned a workman into a cogwheel, and the pent-up emotions naturally resulted in revolution. The speaker gave this as the reason of so much of the labor trouble.

Mr. Kellogg, speaking on the British Labor party, said that bishops, Oxford dons and brigadier-generals were united in England for the success of labor problems, and often urged their petitions thru the columns of the various London papers.

He stated that the British workman and the returned soldier were united in planning for a successful reconstruction period. In this, the speaker added, England would be helped by her very sense of freedom.

A large audience attended Mr. Kellogg's lecture, including many social service workers and university students.

Chief Inspector R. H. Cowley has issued a report showing that the Toronto public school attendance has increased by 23,000 since 1912. The present registration is 67,023.

HEALTH FIGURES TOO STAGGERING

Controllers Rule Out One Hundred and Sixty-Five Thousand Dollars.

NO NURSES' RESIDENCE Measles Hospital and Much-Called-for Equipment Become Dreams.

At the meeting of the board of health yesterday afternoon, on the recommendation of Dr. C. J. Hastings, M. O. H., it was decided that all buildings now under the control of the public health department be placed under the jurisdiction of the property department, including the Isolation Hospital and the City Morgue.

In regard to the department's estimates, which were presented, Ald. Hastings exclaimed, "The figures simply stagger one!"

The general summary of the figures are as follows: 1-General administration, \$50,246.08 2-Medical dental and quarantine service, 106,338.97 3-Public health, nursing and co-operative work, 161,652.68 4-Laboratory service, 18,974.79 5-Isolation Hospital service, 128,402.22 6-Records, statistics and social service, 13,816.82 7-Food control, 18,195.98 8-Sanitation service, 75,029.30 9-Capital expenditures, 24,815.46 10-Total, 686,000.00

Arrears in 1918 salaries, passed by council, and for which no provision was made in 1918 estimates, were passed by the committee, to the extent of \$13,351.69.

Just in Case. One thousand dollars was passed for quarantine guards. While this amount was not used in 1918, it is necessary to include it in case of an outbreak of smallpox or a similar disease.

Two thousand eight hundred dollars was passed to pay the salaries of two new veterinarian inspectors, to inspect the cattle at the slaughter houses.

Recommended increase in salaries for 1918 amounted to \$5170.

The physicians for their services at the baby clinics, caused some lively discussion. Dr. Hastings pointed out that the doctors were not really paid enough for the services rendered. The doctor's request for \$2600 for this work was carried after the doctor explained the circumstances.

Provision for help at the open air schools and Forest schools, which was previously paid by the board of education, was passed to the extent of \$3,290. The board of health has to look after the children in every way, with the exception that the teachers are supplied by the board of education. The amount will be deducted from the estimates of the board of education.

Notly Contested. The request for \$5,877.45 for a full number of doctors and dentists for 1919 was hotly contested by Alderman Ryding. He moved that \$1,000 be deducted from the amount. The motion was carried. No seconder could be found for his motion, however, and it was lost.

The request for \$5,500 for the Health Bulletin and sundry printing was cut down to \$2,000.

The estimates included \$3,500 for a new ambulance, but this was cut down by \$1,000 on the motion of Chairman Cowan.

A capital expenditure to the extent of \$13,000 for a nurses' home was stricken out by the committee, as well as an amount of \$16,700 to furnish the same.

Sixty-five thousand dollars for the measles hospital and \$6,000 for equipment were also ruled out by the board.

In reference to the proposed nurses' home in connection with the Isolation Hospital, Dr. Hastings said that the conditions were very bad at present.

The total cut made by the board of health amounted to \$165,400.

WILLS AND BEQUESTS. Robert A. Dutton, a grocer, who died Jan. 11, left an estate valued at \$18,829, of which his widow will receive the household goods and an interest for life in \$4000, while a son, Robert A., will inherit the business. The residue of the estate is to be equally divided between the children, Beatrice B. Hall, Dora H. Hoffman, and Odette Isabella Harris.

So long as he remains unmarried, Albert H. Power will continue to inherit the estate of his wife, Mary A. Power, who died Oct. 27, 1918. If the terms of the will are to be forfeited, the estate will revert to testator's children.

Thomas Joseph Creedon, who died Jan. 25, left an estate valued at \$4004, out of which he bequeathed \$50 to the parish priest at Schomberg, Ont., for masses, and a further sum of \$100 was set aside for a tombstone. The greater part of the estate went to testator's widow, Mrs. Bridget Creedon.

Hulda Westman, kindergarten director at Dufferin School, who died Dec. 2, left an estate valued at \$3117, which will be divided between two sisters.

Elizabeth J. Simpson, who died Nov. 9, left her estate of \$2808 to be divided between sisters, Mrs. Kate Short, Belfast, \$700 to her nephew, John Short, Sandwich, Ont., and the remainder to three nieces.

Pto. Frederick Kerr, who was killed in action in France on Oct. 11, left his entire estate to his mother, Mrs. Elizabeth Kerr. The estate is valued at \$1720.

MORE BRITISH FILMS. At a meeting of the executive committee, Ontario division, of the Navy League of Canada, held in Toronto on Feb. 5, a resolution was passed congratulating the Hon. T. W. McGarry, provincial treasurer, upon his recent action in restricting the appearance of United States films, so far as they convey an exaggerated impression of the place of the United States in the war, unduly displaying a foreign flag, and neglecting all reference to the great place of Britain's army and navy in the war, and the achievements of Canadian troops at the front.

GOVERNMENT AIR BOARD ABOUT TO BE CREATED

It is rumored that the Dominion Government is about to create a new commission to be known as the air board, under the chairmanship of W. F. Nickle, M.P. for Kingston. The board will have control of government airplane service, which will be extensively used in fishery protection, prevention of smuggling and the prevention and fighting of forest fires. It is not anticipated, however, that the government will develop the airplane for commercial and postal purposes in the immediate future.

FIRST ARMORY BANQUET.

The first official banquet to the returned soldiers will be tendered to seven hundred of their number in the armories on February 20, if the arrangements now under way can be completed by that time. General Gunn, who is the originator and leading spirit in the work, is in touch with the caterers, and already the cooking apparatus has been installed. Assistance in registering and tabulating the names of men will be rendered by the G.W.V.A.

Mayor Church moved at the board of control meeting yesterday morning that the notice given the Toronto Electric Light Company last year by the city council, of intention to purchase, be rescinded. This was carried without comment.

NO LENIENCY FOR M.S.A. OFFENDERS

Defaulters under the Military Service Act in Quebec and Montreal districts have been, it is said, assessed only a very light fine, \$5 or \$10, and deprived of their civil rights. C. Leeslie Wilson, registrar for this district, was of the opinion that this leniency is unauthorized under the act and that the department of justice would see to it that there is no lightening of the fines provided for defaulters. "The action taken by the department in this district indicates the intention of the government to see that substantial justice is done in the case of every offender against the Military Service Act," he said.

Mr. Wilson further stated that he had seen dispatches from Montreal regarding the small fines imposed on the offenders but had been informed that the attorney-general's consent to prosecution in these cases had not been procured as is required by the act and that therefore the sentences were illegal.

Defaulters in Montreal appear to be given as heavy fines as in Ontario. Mr. Wilson knew of no authorization by the department of justice for the statement which is reported to have been made in Quebec that defaulters would be let off with a small fine and deprived of their civil rights.

What Union Labor Will Demand at Peace Table

The man with the hoe has broken the silence of the centuries. Almost every dispatch from Paris emphasizes the fact that the most potent voice in the reconstruction of the world after the great war is that of labor. It is speaking at the peace table itself. The laboring forces of almost every country are making demands. What every American, be he employer or employee, desires to know is what demands American labor is making and should make at the conference.

To answer this question, THE LITERARY DIGEST has asked the editors of journals voicing various phases of labor opinion in this country to give their opinions, and the result is published in this week's LITERARY DIGEST, dated February 8th, together with the demands of English, French, Belgian, and other labor leaders. These spokesmen for organized labor have very clear ideas as to what ought to be done in Paris and Bern, and there is no doubt that this highly informative article will be widely read and discussed.

U.T.S. READY FOR NEXT ROUND IN O.H.A.

University Schools Junior team will go into the next O.H.A. round. U.T.S. clinched the prep college group honors by defeating St. Andrews 7 to 2 at the Arena yesterday afternoon. St. Andrews played sterling hockey for the first period and then blew up. The defence opened wide after this stage and Dunk Munro put the game on ice by scoring four goals in the second period.

MUNRO WILL HANDLE JUNIOR SEMI-FINALS

Woodstock, Feb. 7.—Tommy Munro of London has been appointed by W. A. Hewitt, secretary of the O.H.A., as referee for the O.H.A. junior semi-final series between Woodstock and Kitchener. The Newman I.H.I. seniors of Toronto were unable to play here tonight as intended. However, the red and white will receive a workout at Tillsonburg.

EXPECT RECORD CROWD AT TONIGHT'S CONTEST

Every Seat Sold—Both Teams in Perfect Condition for Tussle. Tonight's senior game between Dentals and Hamilton at the Arena will draw a record crowd. Every seat is sold and some of the fans were willing to pay fancy-prices for tickets yesterday, but they turn the trick, home and home game for the group title will likely be the order.

BASKETBALL

City Playgrounds Juvenile O.A.B.A. team defeated the Broadview boys at Royal Temple Building last night in a league fixture, 18-10. The half-time score was 10-6 in favor of the winners. The low scoring was due to the close checking of both teams. Miller and McLean worked some good combination for Broadview, while Gidd and McVicar combined splendidly for Playgrounds.

BEACHES PLAY CLASSICS AT THE ARENA TODAY

A fast game is assured for this afternoon at the Arena, when, starting sharp at 2:30, the Classic A.C. and Beaches A.C. teams will meet in the opening game of the eastern section of the senior series. While these teams have been great rivals for years, an added incentive will be the fact that the winner will qualify for the intermediate O.H.A. semi-finals. Classics will likely feature their team from the following players: Goal, Clairmont; defence, McMillan, G. Smith and Kirkpatrick; forwards, Cecil Hill, Charters, N. Smith, McCleure, Peleus and Quinton.

WOODSTOCK WIN BOTH

Ingersoll, Feb. 7.—Senior and Junior games with Woodstock Collegiate Institute were played by the I.C.I. at the Massey Arena tonight. Both games were won by the visitors, who showed splendid form in each series. The seniors were defeated by 6 to 1, and the juniors by 6 to 3. Both games were fast, and created much excitement amongst the many students present. The senior game was keenly contested, but the visitors showed superior form. The work of Johnston was a feature. Only two periods were played in each game. The half-time scores were: Seniors, 2 to 1; Juniors, 3 to 1.

GREENSHIELDS HOME IN NEED OF FUNDS

Cost of Living Makes Aid for Refined Women Difficult.

The annual meeting of the Julia Greenshields Home, which was founded forty years ago, was held yesterday afternoon. Rev. A. L. Fleming, presiding. The Rev. James Murray, D.D., conducted the opening exercises, and the report for the year was read by Mrs. H. S. Strathy, recording secretary.

The report regretted the death of Mrs. R. B. Henderson, who for upward of ten years had acted as honorary secretary. It also referred to the loss by death of a devoted friend, Dr. J. Milton Cotton. Two new physicians had joined the staff, Drs. Herbert G. Wilson and Dr. Malcolm Cameron. The unfailing care and kindness of the matron, Mrs. Woodside, was recorded. The statement was made that it will be necessary to raise something like fifteen hundred dollars in additional subscriptions, if the requirements of the inspector from the department of the provincial secretary are to be carried out. Receipts for the year were \$3801.42, and expenditure the same. The government grant \$768.89, civic grant \$200. In his address, the chairman referred to the founder of the home, Miss Julia Greenshields, and to the support it had received from Dr. Goldwin Smith. The institution was founded as a home for women of refinement, in reduced circumstances, and has accommodations for about thirty. Attention was drawn to the fact that among four deaths which had occurred during the year, the average age was 55 years and four months. The speaker thanked the medical staff, and all who had served the institution in any way, and drew attention to the need for an increase in revenue, owing to the increased cost of living. Mrs. A. L. Fleming, president of the board, at the conclusion of the business showed the visitors thru the house.

The members of the board of management include Mrs. A. L. Fleming, president; Mrs. W. D. Molesworth, treasurer; Mrs. H. S. Strathy, recording secretary; Mrs. Dunlop Stewart, corresponding secretary; W. P. Molesworth, treasurer, and the directors are Mrs. E. G. Fitzgerald, Mrs. Herbert Langlois, Mrs. Arthur Molesworth and Mrs. A. Carmichael. The advisory committee includes R. S. Cassels, K.C., Rev. A. L. Fleming, R. B. Henderson, Major G. N. Molesworth, Rev. James Murray, D.D., and H. S. Strathy.

WOULD ALL WOMEN ACT AS THIS ONE?

A Wonderful Psychological Study is Picture "Don't Change Your Husband."

Suppose a beautiful and refined woman, with romance as one of the compelling motives of her life, a husband who is immersed in business, unintentionally neglectful and inclined to carelessness. Then imagine a handsome, debonair, romantic and convincing young man who appreciates the situation, and is overwhelmed by his admiration for the wife. Suppose the wife, deceived by the fine speeches and the result of odious comparisons, leaving her husband and marrying the interloper, who is at best a trifle. Then consider her position when the second spouse proves selfish, is inclined to stray—while meantime the first husband reforms, becomes as neat as a pin, and saves her from a disgraceful situation as the result of another woman's entrance into No. 2's affections. What would the wife do? Go back to number one? To find the answer to this question the public is referred to Cecil B. DeMille's newest special attraction picture, "Don't Change Your Husband," by Jeanie MacPherson, which will be shown at the Allen Theatre next week. This is one of the best psychological photoplays which Mr. DeMille has ever produced. Gloria Swanson, Elliott Dexter, Lewis J. Cody, Theodore Roberts, James Neill, Julia Payne, Sylvia Ashton and others compose the cast.

BRASS PLANT GUTTED

The Hunt Brass Goods plant, at 59 Paton road, was destroyed by fire at 9 o'clock last night with a loss estimated by the fire department at \$5000. A defective stove pipe in the centre of the building is given as the cause of the fire. The building is a one-story galvanized iron structure. Fire raged on over an hour before the firemen had it under control, and for a time it was spectacular, attracting large crowds of people. Prior to the ending of the war, the firm were making brass shell fittings. At present they have been engaged on the manufacture of electric fixtures. The firm is owned by W. C. Hunt. The loss to contents was \$4000 and \$1000 to building, covered by insurance.

AN EXCITING CHASE

Max Mandell, of 39 Nassau street, was arrested last night charged with picking pockets. Policeman Hamilton saw Mandell snatch a lady's chateleine in a crowd on Yonge street. When Mandell saw the officer he started to run up Yonge street. Hamilton boarded a passing motor car, gave chase and caught Mandell within a few blocks. When searched the police say they found the chateleine containing \$1 on Mandell. The purse was identified by Mrs. T. Gray, of 61 Crawford street.

Many labor men who advocate a six-hour day point out that the question of the fight for existence on the part of the lesser paid men is irrelevant, since the employers will be forced to raise the wages at the same time as they increase the time of the working day. The experience of the eight-hour schedule of the Freight Clerks' and Freight Handlers' Union with the three great corporations, the C.P.R., G.T.R. and N.B., disproves this optimistic forecast.

ESCAPED FROM COBOURG, ARRESTED ON STREET

William Lawrence, With Bad Record, Caught After Long Search.

William Lawrence, no home, was arrested on Yonge street last night by Detective Nussey. Lawrence is wanted in Cobourg on charges of jail breaking and assaulting one of the jail guards.

Lawrence is 24 years of age. In December, 1918, he was tried in Cobourg by Judge Ward on a charge of burglary and was sentenced to serve a sentence ranging from three to fifteen months at the prison farm. While incarcerated in the county jail awaiting his removal to Burwash to serve his sentence, Lawrence acted so kindly that he became a trusty with the guard and was allowed privileges.

Roaming around the jail building, he secretly managed to get a piece of iron bar concealed in his cell and when the guard entered on the morning of December 25, Lawrence is alleged to have made a murderous attack upon him. The guard was rendered unconscious by the force of the blow, and fell in the cell. Snatching the keys from the prostrate man, Lawrence is alleged to have attempted to get away.

The guard's wife, who was in the vicinity at the time, and attempted to stop Lawrence, who it is charged, seized the woman by the throat and hurled her with such force against the railing as to break three ribs. The police have been searching between Toronto and Montreal ever since Lawrence made good his getaway. He will be arraigned in police court this morning and remanded until an officer from Cobourg arrives to take him back for trial.

SOCIETY

Conducted by Mrs. Edmund Phillips.

His Excellency the Duke of Devonshire will arrive in Toronto on Friday the 21st inst., in time to be present at the first Mendelssohn Choir concert in Massey Hall, and will stay at Government House with His Honor the Lieutenant-Governor and Lady Hendrie for a week, leaving for Ottawa on the night of the 27th inst.

The consensus of opinion of the wives of the Lieutenant-governors of the provinces as to the wedding present for H. R. H. the Princess Patricia, in answer to the letters written to them by Lady Hendrie (and communicated to Lady Borden), is to invest Mrs. money in Canadian Victory bonds, enclosing the certificates in a silver Jewel case or mesh bag, there being no doubt that her royal highness will be able to make good use of the interest for the men of her regiment or other patriotic projects, in many of which she is deeply interested. Quebec and Montreal have already sent in large contributions, and Lady Hendrie hopes that Ontario will not be behind.

His Honor the Lieutenant-Governor and Lady Hendrie are issuing invitations to a ball at Government House on the 19th inst.

Lady Hendrie will give a luncheon on Friday, Feb. 28, for the wives of the members of the provincial house.

Dr. and Mrs. Frank Baldwin Jewett, New York, are spending the week-end with Sir John and Lady Eaton.

Mrs. James Somers gave a bridge party of four tables yesterday afternoon at her house in Avenue road, when the tea table was lovely and fragrant with a basket of mixed flowers, hyacinths, tulips, freesia, and daffodils, with blue ribbon interwined and tied on the handle. Mrs. Mitchell and Mrs. J. Stewart poured out the tea and coffee, assisted by Miss Jean Mitchell and Miss Vera Stewart. The guests were: Mrs. Church, Mrs. Charles Fuller, Mrs. J. B. Reid, Mrs. Hanley Baines, Miss Marie Macdonell, Mrs. N. Allen, Mrs. Herring, Mrs. Ian Bond, Mrs. George Wilson, Mrs. Charles Stewart, Mrs. Gourley, Mrs. Leslie Seale, Mrs. Howe, Mrs. Hirschfelder.

Mr. Angus Sinclair and Miss Dorothy Sinclair are leaving for California on Monday.

Miss Ryckman gave a small luncheon for Miss McKee yesterday when the guests were Miss Beryl Beatty, Miss Marjorie Beatty, Miss Dorothy Green, the Misses Dorothy and Marjorie Candee, Miss Haley, Boston.

Mrs. Austin Crowther was the hostess of a small tea yesterday afternoon in honor of Miss McKee, when the hostess wore a becoming gown of red georgette crepe and the polished table was arranged with a yellow bowl of spring flowers. Mrs. Graham Watson and Miss Marjorie Beatty were also present, and coffee, assisted by the Misses Candee, Miss Rosamund Ryckman, and Miss Jessie Greene.

Miss Dorothy Sinclair gave a dance of about 30 young people last night, when the beautiful rooms of Mr. Angus Sinclair's house in Rosedale looked their best. The young hostess looked very pretty in black tulle and lace; Mrs. Gilbert Stairs also wore filmy black with orchids; Mrs. Kenneth MacKenzie wore rose satin trimmed with gold; Miss Scott, daughter of General Scott, Princeton, wore a smart pink frock; another guest staying in the house was Miss Grace Drayton, Ottawa, who was in a gown of black and blue.

Miss Helen Davidson, Peterboro, is the guest of Mrs. Yoris Ryerson.

Mrs. Dorothy Lash gave a handkerchief shower for Miss Doid, Buffalo, on Tuesday.

Mrs. F. Barry Hayes is giving a small tea for girls on Tuesday. Miss Lillian C. Smith, St. George street, is in town from Chicago.

Captain and Mrs. William Wallace are in town from Ottawa.

Engagements. Mr. and Mrs. E. G. Moran, 52 Waverly Road, Toronto, announce the engagement of their eldest daughter, Daisie, to Harold P. Ellis, R.A.F., second son of Capt. W. Ellis, Royal Engineers, and Mrs. Ellis, Alverstoke, Gosport, England. The marriage will take place early in the summer.

The honorary governors who will visit the Toronto General Hospital during the week commencing on Feb. 9 are Mr. Frederic A. Mulholland, Mr. Frank Morley,

GOOD NEWS

Every little burden added makes the load heavier. The high cost of living is made up of the high cost of the various food essentials. Every few cents added to the price of eggs, of butter, of milk, of sugar and of bread, make the cost of living too high to be endured by those who are not wealthy. It is good news then, that George Lawrence has once more taken the initiative and has done his best to lift a little of the burden of the high cost of living. Hundreds of thousands of Toronto people will rejoice to know that

George Lawrence Has Reduced the Price of Bread

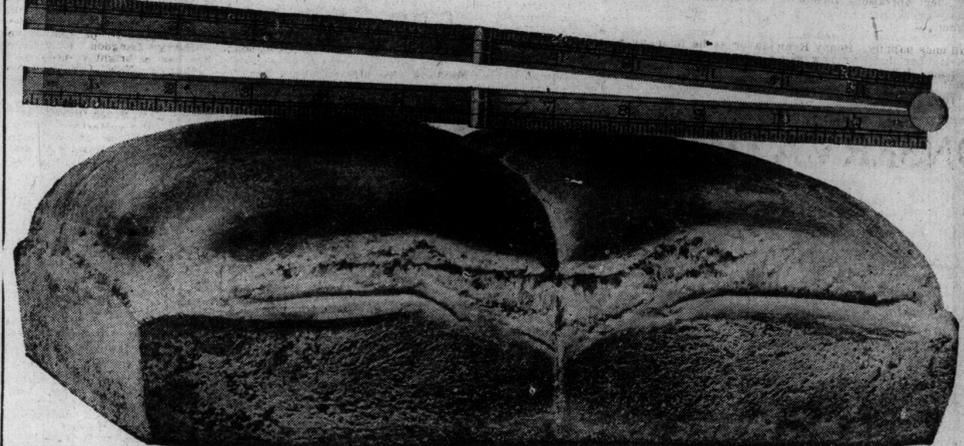

With soldiers returning who have no employment, with munition factories closing, thousands thrown out of work and with the pitiful bereavement of many families who have lost their bread winners on the field of battle, this announcement of reduced cost of bread will be the gladdest news that has come to many homes for many months.

TEN CENTS A LOAF ELEVEN TICKETS FOR ONE DOLLAR

You Save Ten Cents on Every Dollar's Worth

George Lawrence has, on many occasions, lowered the price of bread when conditions made it possible and has saved the citizens of this city millions of dollars in the last twenty years by his generous policy. His motto is: "Not the most I can get, but the least I could take and the best bread I can make." Show your loyalty to Toronto's fair-price baker and order a loaf today.

REPORT ISSUED BY HOUSING COMMITTEE

Essential Features of Dwellings Include Detachment, Sunlight and Sanitation.

The Ontario housing committee issued its preliminary recommendations on types of inexpensive houses yesterday. In the foreword the committee dealt with the amount set aside by the provincial and federal government and with the necessity of determining the type of house which would eventually become a standard.

The essentials are summarized as follows: Sufficient land to give each family privacy and plenty of air, watertight floors, walls and roof, one or more rooms for cooking, eating and general day use. Bedroom for parents, bedroom for male children, bedroom for female children. Provision for "solet" with sanitary water closet and sewer connection. Running water fit for drinking. Kitchen sink with waste connection to sewer. Uninterrupted daylight and ventilation thru windows in every room. Additional features which are desirable but not essential are: Bath tub, laundry tub, clothes closet, porches and verandahs.

It will be noticed that a cellar has not been provided for in the foregoing. Reasons for and against are contained in the report which, however, states that the subject will be further gone into. The report states that the

mistake in the past, has been the provision of too many rooms, which are frequently too small. It is accordingly suggested that four to six room houses are best suited to needs of the average workman.

A space of at least twelve feet is recommended to be preserved between houses or groups. The rear of the house should be at least 50 feet from the rear of the lot, which would leave space for gardens, and play room for the children. Open fences are recommended, while outhouses are deemed undesirable.

Big Rooms. The rooms are graduated in size from the living room with an extent of 144 square feet, and a width of 11 feet, to the kitchen, 80 square feet, and 8 feet wide. Ceilings are to be 8 feet high, and sloping conditions to be accepted only under certain restricted conditions. The plumbing is detailed and is to be of the highest

CHILDHOOD CONSTIPATION

Constipation on one of the most common ailments of babyhood and childhood and unless it is promptly cured will undoubtedly lead to disastrous results. To cure this trouble nothing can equal Baby's Own Tablets. They are with the bowels and instantly regulate the bowels and sweeten the stomach, thus banishing colic, wind, colds, etc. Conventional medicine, writes Eugene Valliant, St. Mathieu, Que., writes: "When my baby was constipated I gave her Baby's Own Tablets and am well satisfied with the result." The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

efficiency, while electric lighting is preferred over any other system. Materials are to consist of brick, tile, stone or concrete, wooden frame, and division walls are to be of brick or other strong substance. If these standards are adopted, it will be found that a sixteen foot frontage is the narrowest upon which the smallest of the houses, four room, can be constructed.

Amsterdam, Feb. 7.—There are 39 dead and more than 100 wounded in Bremen hospitals as a result of the recent fighting there, in which the government forces defeated the Spartacists, and it is believed the casualties will largely exceed this number, according to a Berlin despatch to The Telegraph.

Another Sensational Hold-Up Occurs in Kingston District

Kingston, Ont., Feb. 7.—The second sensational hold-up in this district inside of a week occurred last night on the York road, one mile west of Cayuga, and it was apparently the same highwayman who robbed William J. O'Shea of Catearaqui a week ago who are the guilty parties. In this case, Daniel Rogers, who lives at Camden East, was in Kingston during the day. He took the precaution before leaving to hide his money inside the cushion of the seat of his rig.

ATTEMPTED HOLD-UP.

Kingston, Feb. 7.—An attempt was made last night to rob the store of A. Wartelsky. A man pointed a revolver at him and demanded money. Mr. Wartelsky refused to give the man the money and the two got into a struggle. Mrs. Wartelsky, who was in an adjoining room, heard the noise and rushed in, when the hold-up man made his escape.

CANADA PERMANENT MORTGAGE CORPORATION ANNUAL MEETING

The Annual Meeting of Shareholders of the Canada Permanent Mortgage Corporation was held at the Head Office of the Corporation, Toronto Street, Toronto, on Friday, February 7th, at twelve o'clock noon.

REPORT OF THE DIRECTORS. The Directors have much pleasure in submitting to the Shareholders the Annual Statement of the business of the Corporation for the year 1918, which has been duly certified by the Auditors.

GENERAL STATEMENT December 31st, 1918. LIABILITIES. LIABILITIES TO THE PUBLIC. Deposits and Accrued Interest, \$5,461,936.42.

ASSETS. Mortgages on Real Estate, \$25,318,586.75. Advances on Bonds and Stocks, \$6,000,000.00.

We beg to report that we have examined the foregoing accounts together with the books and vouchers of the Corporation, and that we have obtained all the information and explanations we have required.

The adoption of the Report of the Directors was moved by the President, Mr. W. G. Gooderham, who said:

The Report which has just been read is one which it has afforded your Directors and Officers much satisfaction to submit.

In addition to payment of the usual ten per cent. dividend, we have once more increased the Corporation's Reserve Fund by a quarter of a million dollars. This fund now amounts to Five and One-half million dollars and is only one-half a million less than the paid-up Capital.

The money on deposit with the Corporation consists chiefly of the savings for their money, and at the same time to obtain a reasonable rate of interest thereon.

The extremely heavy withdrawals for the purpose I have referred to have been to such an extent replaced by new deposits, which have been most satisfactory.

The Shareholders, by a unanimous vote, approved and ratified certain resolutions which the Directors had made for various war relief purposes.

The Board met after the adjournment of the Annual Meeting and re-elected Mr. W. G. Gooderham President, Mr. W. D. Matthews First Vice-President and Mr. R. S. Hudson Second Vice-President.

ANTI-TYPHUS TRAIN RUNNING TO SIBERIA Is Equipped by Allied Forces to Prevent Spread of Disease. SECRET OF TROUBLE Battle Against Typhus is a Battle Against "Cootie."

Consideration of plans for the organization of a Canadian Red Cross train to combat typhus in Siberia was announced last night in a cable to Canadian Press, Limited, by Dr. B. Playfair, special correspondent with the Canadian Siberian forces.

The necessity and object of this medical expedition is explained in the following mailed despatch, just received from Mr. Playfair: Vladivostok, Siberia, Dec. 25.—Today the first "anti-typhus" train equipped by the allied forces in Siberia to fight the dreaded menace of this disease along the Trans-Siberian Railway, left Vladivostok on its first journey westward.

The journey of this anti-typhus train is a sequel to the arrival, some weeks ago, at the junction point of the Bikkid-Usaurian, a few miles from here, of the now famous "train of death." Railwaymen stationed at that point reported that the train was carrying a mysterious train in the yards of the junction, from which numbers of dead were carried out each day.

The battle against typhus is a battle against the humble, but, in war, necessary "cootie." Scientists have discovered that this loathsome germ of typhus is a very elusive person to another, so the elimination of the louse is the immediate objective in this instance. The refugees on the train are given a very pitiable condition with vermin, and it is feared that they infected others by spreading the disease-bearing "cootie." The anti-typhus train is now likely to be a constant success of candidates, some unfortunates, others bathing or being close cropped by barbers, and still others waiting for fresh raiment. Other disinfection trains may be equipped.

THIEVES CARRIED SAFE OUT THE BACK DOOR At 7 o'clock yesterday morning a member of the firm of the Thompson Publishing Company, 75 Bay street, discovered that a safe containing a small safe had been stolen. The thieves took the safe, weighing about 200 pounds, out the back door and moved it away from the premises. They did not make very much of a haul, as it contained but a few worth of postage stamps and a life insurance policy made out to Mr. Thompson. The theft is thought to have taken place early in the morning.

Map of Porcupine Gold Camp

In the above map is shown the location of the properties of the Sovereign Porcupine Gold Mines, Limited. To continue development on the 40 acre claim next the Hollinger, the World's greatest gold mine, we are selling shares in the Sovereign at what we consider a bargain price of 25 cents. When the stock is listed and the company's properties proved, we confidently expect the shares to sell at materially higher prices. To our clients and others we say with emphasis that we regard this as the very best offer that has yet come out of Porcupine for future prospective profits.

The labor situation already shows signs of improvement, and we dare to express the hope that with the return from overseas of a number of our old hands, and as the country changes more and more from a war to a peace basis, we will be able to consider our full share of skilled and stable men with whom we will earnestly endeavor to establish relations of co-operation and mutual good will...

During the year certain necessary extensions and additions to the plant which have been deferred owing to war conditions, will be proceeded with. This will involve the completion of the mill, the installation of an extra compressor, the erection of a refinery and other buildings.

Touching on ore reserves, he says: "The tonnage is approximately as shown in last year's statement, and the work having been stopped early in 1918 because of scarcity of labor, and almost prohibitive prices of machinery and materials and supplies had amounted to \$11,000 more than at the end of 1917. Coal, explosives, cradles and the mill pebbles making up about \$133,000 of this sum."
