BANGING AT SANTIAGO

Sampson and Schley Said to Have Renewed the Attack.

FIRST BOMBARDMENT WAS ONLY A FEELER

The Fleets Supported by a Land Attack on the Part of Insurgents—A Bloody Fight Was Reported to be Raging Last Night—Details Could Not be Obtained—Santiago to be Captured and Made the Base of Supplies—Spain Still Claims a Victory.

AGAIN BOMBARDING SANTIAGO.

New York, June 2.—A World despatch from Port au Prince says the American fleet has renewed the attack at Santiago, and it is reported that the rebels from Sigüenza camp have attacked the city in three columns. A bloody fight is now raging.

The above Associated Press despatch presents the most important news of the war situation received last night. The detailed accounts of the bombardment of Tuesday go to show that that engagement was only a preliminary one, designed to find out how strong the forts of Santiago were, Commodore Schley's ships and men appear to have escaped without damage of a serious nature, while of course the casualties on the other side can only be guessed at.

CHANGE OF PLAN.

Santiago Will Probably Be a Base of Supplies for the American Forces.

New York, June 2.—(Special to Toronto World).—A Washington special says: The chief significance of Sampson's move to Santiago is probably that that point is to be made the base of operations in Cuba for the present, instead of some point on the north coast, as originally intended. This change has been brought about by Cervera's peculiar tactics, as, if his fleet had not taken refuge at Santiago, there would have been no occasion for not adhering to the first plan.

Fighting at Santiago.

A Port au Prince, Hayti, special to The World says: The American fleet is reported from Santiago to have renewed the attack on the forts at the entrance to the bay this morning. Three thousand rebels are within three miles of Santiago, which is in a panic, momentarily expecting an attack.

Another Expedition Landed. A Tampa, Fla., special to The Herald says: The transport Florida returned to day, after landing one of the largest expeditions for arming and reinforcing of the Cuban army yet sent. Confined on board on a charge of desertion is an American named Tate. Tate told the captain he had killed a man on shore and did not care stay with the volunteers.

THE ACTUAL DETAILS.

Concise Account of the Bombardment of Santiago—The Fight Was a Little One. By Associated Press. On board the Associated Press Despatch Boat Dandy, off Port Antonio, June 1.—(Delayed in transmission).—The squadron commanded by Commodore Schley attacked the batteries at Santiago de Cuba yesterday afternoon, and also engaged the ships of Admiral Cervera, which were lying in the harbor. The Spanish flagship Cristobal Colon was struck twice by shells fired from the Massachusetts, and the Spanish batteries were badly damaged by the fire of the United States cruiser New Orleans.

None of our Business. Where Canadian Coal Goes To If Sold to Private Americans. Spain's Protest of No Avail. Washington, June 2.—The Spanish Government has made a protest to the British authorities against the shipping of Canadian coal from British North America to San Francisco for relief of the ships of Admiral Dewey's fleet at Manila and also against the shipping of coal from Nova Scotia to Atlantic ports for use by United States warships operating in the West Indies.

Princess Kung is Dead. He was Reported Dead, and Nearly Dead Alive Some Time Ago. Peking, June 2.—It was definitely announced yesterday that Prince Kung, President of Tung-Li-Yamen (Chinese Foreign Office), is dead, and the Emperor has issued a proclamation ordering the Chinese Court to go into mourning for a stated period.

Seen from the Dandy. An Account of Schley's Doings Before Santiago—Dead-Eye Shooting by Americans. On board the Associated Press despatch boat Dandy, off Port Antonio, Jamaica, June 1. For an hour yesterday afternoon

consciousness, and that the Chinese doctors in attendance had pronounced him dead. It was added that the Prince had since awakened, but that his condition was critical.

REMOVING THE SICK.

Hospital Ship Solace Sails for New York. Key West, June 2.—The hospital ship Solace sailed for New York last night, having on board 86 sick and wounded sailors and marines from the hospitals here. The patients will do better in a cooler climate and the Key West hospital room is likely to be all needed so soon as the forward movement begins.

RECORD FIRE IN INDIA.

Damage Will Foot Up to Twenty Million Dollars. Bombay, June 2.—A conflagration at Pechar, a fortified town of India, capital of a district of that name in the Punjab, which was not mastered for 24 hours, has destroyed 4000 houses, doing damage to the amount of four crores of rupees (about \$2,000,000). This is supposed to be the greatest fire on record in India.

PEACE MEASURES AFOOT.

Spain Seeking European Intervention Through an Ambassador. London, June 2.—At the Assizes yesterday the grand jury found a true bill against Walter C. Nichol, editor of The Province newspaper, charged with criminal libel on Premier Turner and the President of the Council, C. E. Pooler. This means that the case against Senator Templeman of The Times and Hewitt Bostock, M.P. of The Province, will be proceeded with.

OTTAWA NEWS NOTES.

A New York Artist to Paint Lady Aberdeen's Portrait—The Protest Against Mr. Powell, M.L.A. Ottawa, June 2.—(Special).—W. H. Funk, a well-known artist of New York, arrived in Ottawa today to accept a commission offered him by Lady Laurier, Lady Thompson, Lady Ritchie and Lady Tilley, on behalf of the National Council of Women of Canada. The commission is the painting of a full-length portrait of the Countess of Aberdeen, wife of the Governor-General of Canada.

ONE OF OUR BUSINESS.

Where Canadian Coal Goes To If Sold to Private Americans. Spain's Protest of No Avail. Washington, June 2.—The Spanish Government has made a protest to the British authorities against the shipping of Canadian coal from British North America to San Francisco for relief of the ships of Admiral Dewey's fleet at Manila and also against the shipping of coal from Nova Scotia to Atlantic ports for use by United States warships operating in the West Indies.

Princess Kung is Dead. He was Reported Dead, and Nearly Dead Alive Some Time Ago. Peking, June 2.—It was definitely announced yesterday that Prince Kung, President of Tung-Li-Yamen (Chinese Foreign Office), is dead, and the Emperor has issued a proclamation ordering the Chinese Court to go into mourning for a stated period.

A POWERFUL COMBINATION.

UNCLE SAM: Waal, I ain't none surprised at that thar intelligence, for I kalkilate I jest about got the slickest ships, the smartest sailors and the most powerful newspaper liars on 'arth.

THE THIN END OF THE WEDGE

United States Officials Seem to Expect to Gain a Point Over the Canadian Sealers.

Washington, D.C., June 2.—The Canadian negotiations recently concluded here led to the signing of a protocol which formally agreed to the exact subjects to be submitted to an international commission. While the protocol makes no preliminary agreement on the several questions, yet it is the general understanding among officials that the Behring Sea question will be adjusted and finally settled by the complete termination of pelagic sealing. This has been a source of controversy for many years, the United States seeking to put an end to pelagic sealing, and Canada, through the Imperial Government, contesting against this termination of an industry very profitable to many citizens of the Canadian coast. During the recent negotiations, however, it developed that this industry was practically extinct, and was no longer profitable to any considerable number of Canadians. It was stated by those well versed in the matter, that only two Canadian vessels were engaged at present in sealing operations in Behring Sea. Heretofore the Canadian sealers have gone to Behring Sea by the hundreds, and it was therefore in a position to meet the contention of the United States without seriously injuring a large established industry. While no agreement toward giving up pelagic sealing was reached during the recent meeting, the discussion was along lines indicating that the coming commission without difficulty and with due regard for the interest of both Governments, could put an end to the Behring Sea controversy by agreeing to a complete suspension of pelagic sealing. It is understood, also, that the protocol specifically recites that there shall be three representatives from each Government in the Canadian-American commission.

STRUCK BY A THROWN STICK

Mrs. Avlina Brettingham Died Yesterday in Grace Hospital.

Eleven Weeks Ago Deceased Accidentally Received a Wound, but it Healed Up and Was Not Considered Serious—A Few Days Ago It Affected the Brain and Death Followed.

At midnight on Wednesday Mrs. Avlina Brettingham, a patient in Grace Hospital, died suddenly. It is thought as the result of a blow on the head, which she accidentally received on March 17 last. Deceased was 38 years of age, and was the wife of George Brettingham, a wholesale tailor, who lives at 91 Duke-street. On St. Patrick's Day she was walking from her home to her husband's place of business, and when passing along Adelaide-street east, she encountered a crowd of boys teasing a man. The man chased his tormentors, and being unable to make a capture, threw a black-thorn stick at them. The stick missed the boys for whom it was meant and struck Mrs. Brettingham on the head, inflicting a nasty injury. The man who threw it ran away when he saw what he had done, but he is known to the authorities.

The wound bled freely, but the lady hurried to her husband's office, where it was attended to. In a short time it healed up and little more was thought of it.

Recently Mrs. Brettingham became ill from an internal ailment, and on May 2 was admitted to Grace Hospital, where she appeared to be progressing favorably until a few days ago, when symptoms of a brain trouble became manifest. Her head rapidly got worse until death occurred. In view of the circumstances of the case the hospital authorities notified Coroner Emory, who issued a warrant for an inquest, and a post mortem examination was made yesterday by Drs. Anderson and McPherson. The examination showed that death had been due to the result of a blow and an inquest was

BARBARITY IN CANADA

Outrageous Treatment of Workmen on the Crow's Nest Contract.

THE FINDINGS OF THE ROYAL COMMISSION

Company and Contractors Did Not Live Up to Their Agreement—Men Treated Worse than Dogs—Made to Live in Hovels Swarming with Lice and Vermin—Subjected to All Manner of Harshness if They Dared to Complain—A Scandal on Humanity.

Ottawa, June 2.—(Special).—The report of the commission appointed by the Government in January last to enquire into the charge of ill-treatment accorded the laborers on the Crow's Nest Pass contract by the company in charge, or its contractors, is out. It will be a painful revelation to Canadians to peruse it. A member from the Great West stated in the House yesterday that the case of the two young men, Fraser and Macdonald, who were left to die with less care than humanity would accord a dog, was not an isolated one. He never spoke a truer word. Commodore Judge Dugas, Frank Pedley and Mr. Appleton of Winnipeg tell a tale which completely vindicates Mr. Bell of Pictou, who cited the particular cases in the House. It would harrow up the blood.

What the Commissioners Found. The findings of the commission are substantially as follows: 1. The company and its contractors have not lived up to their agreement with the workmen. 2. No arrangements were made to receive the men upon their arrival at MacLeod. 3. The men were compelled to sleep on frozen ground in the open air without blankets or shanties, open cars or tents, without fire of any kind. 4. No measures were taken to keep the men clean; in fact the surroundings were simply disgusting. They were kept in filthy hovels, swarming with lice and vermin, and without ventilation or light. 5. The contractors were undoubtedly to blame for having allowed the men to sleep under tents in January, with the thermometer down to 30 and 40 below zero.

Remedies Suggested. The report of the commission concludes by suggesting six remedial regulations. They are: 1. To have agents engaging men under Government supervision, and to stipulate that men must be in good health. 2. To have employers protected from demands by agents. 3. To have a stringent code of law to be adopted to protect honest laborers against tyranny and ill-treatment by contractors; to fix wages, price of supplies, and of transportation. 4. The company or officer in charge ought to be held responsible for the men's wages, and the agents should examine carefully all contracts between contractors and men. The minimum rate of wages should be \$2 or \$2.50 per day, and not more than \$4 or \$5 per week should be charged for board. 5. The sale of liquor should be prohibited where work is going on. 6. Officers who should be appointed and empowered to remedy any grievances and to enforce the regulations.

WHERE ARE BRAY'S FRIENDS?

He is Likely Known in Toronto or Hamilton.

He Succeeded or Was Murdered in Vancouver Six Weeks Ago, and Was Wrongly Identified as the Son of H. J. Bray—Owned a Claim in the Klondike.

Provincial Constable Campbell of Vancouver, B.C., visited the local detective headquarters last night, and he would like to locate the relatives of John Bray, whose tragic death in Vancouver, B.C., at the latter end of April, was reported in The World. It was thought here for some time that deceased was John Bray, son of H. J. Bray, a commission merchant, who was in business for a long time in Toronto, but was not in Vancouver at the time. Bray arrived in Vancouver early in December last year, and he told parties in his own way to the Klondike, where he had a claim on the Big Salmon River. He drank considerably and constantly delayed his departure for the gold district.

The authorities of the coast city have strenuously endeavored to find the dead man's relatives, but to no avail. Bray told parties in Vancouver that he had been at one time on the police force either in Toronto or Hamilton, the parties could not remember which. The Toronto police were shown the photographs which were taken after death, but they do not recognize him. There are a number of people named Bray living in the vicinity of Parkville, Ont., and Detective Campbell has communicated with them, but most of his letters are unanswered.

Bray was 48 years of age, 5 ft. 9 1/2 in. tall and would weigh about 185 pounds. He had dark brown hair, inclined to be curly and a long reddish brown mustache. The Vancouver police do not think Bray was murdered. They are of the opinion that he committed suicide, although there is much mystery surrounding his death. On March 22 he left the hotel at which he was staying in Vancouver and when he returned at night acted in such a strange manner that he was sent to the city lock-up. He had three bullets in his head, but the fact was not known then. From the lock-up he was sent to a hospital, where he remained a couple of weeks and was discharged. He wandered around with the bullets in his head until April 21, when he was last seen alive. Three days afterwards he was found dead. A post mortem examination showed that the three bullets were fattened out and embedded in the man's skull, and one of them was pressing upon the brain. There was a quantity of rough on rats in the stomach, and a log of this poison was found in his pockets.

More Honor to Mr. Wallace. Ottawa, June 2.—(Special).—Supreme Grand Master N. Clarke Wallace was made the recipient of a number of pieces of elegant silverware to-day. The Grand Lodge of Ontario East made the presentation, accompanied by a suitable address, to which Mr. Wallace feelingly replied.

Belgian Prince at Montreal. Montreal, June 2.—The Belgian Crown Prince, who is traveling incognito, under the name of Count Bets, arrived here this evening, and after spending several days here, will proceed to Quebec.

TO GIVE TWELVE CONCERTS

The S.O.E. Band Will Entertain Hamiltonians.

Finance Committee Meet - The First Drowning Accident of the Season - An Unfortunate Hitch in the Test of the Water Supply - Officers for the Historical Society - Hamilton News.

Hamilton, June 2. (Special.) - The Finance Committee met this evening and arranged for a series of twelve open air concerts to be given by the Sons of England band.

The first concert will be held next Thursday evening. It was decided to instruct the City Engineer to place floor decorations on the statue of Sir John Macdonald on the anniversary of the statesman's death, June 6.

The Internal Management Committee of the Board of Education met this evening and considered the case of W. H. Elliott, head master of the Model schools.

The date of the annual drill of the school work from January to June, Mr. Elliott will be without employment during the period each year. From September to December he will have charge of the County Model school.

It is proposed that the year round by appointing his assistant to Inspector Baird, who requires assistance in his duties.

Constables Fuller and Alken and several citizens recovered the body this evening. They found it a little north of the spot where it was lost.

The remains were removed to the parents' home. This morning no inquest.

An Unsatisfactory Test. This morning Inspector Howe of the Canadian Fire Underwriters' Association made two tests of the water pressure obtainable here for fire protection.

First Drowning Accident. Late this afternoon the first drowning accident of the season occurred, the victim being John Benson, 40 years of age, on Napier-street.

Provincial Historical Society. The annual meeting of the Provincial Historical Society was held in the Ottawa Hotel last evening.

JUDGES AND THEIR SALARIES

Solicitor-General Fitzpatrick's Bill Struck a Snag in the House.

Mr. Davin Kicked Against the Increased Expense to the Country Which Passage of the Bill Would Involve, and Mr. Foster Backed Him Up - Solicitor-General Defended His Measure, Which Passed Second Reading.

Ottawa, June 2. (Special.) - The Opposition was very complainant this morning and a number of bills were hurried through various stages.

Mr. Fitzpatrick, in defence of his bill, admitted some of the judges might be superfluous, but recalled that they could not be removed excepting by a vote of the House.

Mr. Fitzpatrick Defends His Bill. Mr. Fitzpatrick, in defence of his bill, admitted some of the judges might be superfluous, but recalled that they could not be removed excepting by a vote of the House.

BANGING AT SANTIAGO.

Continued from Page 1.

commander to bring on a general engagement, to being merely his desire to locate the batteries on the hills above the harbor and to determine the location of the Spanish fleet.

At 1 o'clock the signal to form column was hoisted on the Massachusetts, and the New Orleans, Iowa and Vixen fell in the order named.

The Massachusetts steamed slowly until about five miles west of the harbor entrance, when she turned in toward the shore and, when she was about one mile off, she opened fire on the batteries.

The Iowa came next, and, like the Massachusetts, devoted her attention to the batteries. She opened fire on the batteries at a range of about 10,000 yards.

35 feet

Goodrich Inner Tubes have such good rubber that they stretch thirty-five feet, seven times their length.

They hold air for exactly a month because they have good rubber.

If you ride a detachable tire, you will improve it by buying a Goodrich Inner Tube specially for it.

And Straw Hats in endless variety for men, boys and children. It goes without saying that you can be suited here if anywhere, and better too, than you would reasonably expect.

- Ladies' Fancy Colored Lisle Hose, drop stitch, black foot, in heliotrope, cardinal, yellow, blue, pink and Nile green, all sizes 35

T. EATON CO. LIMITED 190 YONGE ST., TORONTO.

THE TORONTO WORLD ONE CENT MORNING PAPER.

SIR RICHARD'S SURRENDER TO FEAR. As for Mr. Tarte, Minister of Public Works, the Montreal Witness, the leading Liberal organ of Quebec, frankly admits that he is a political jobber.

It is Sir Richard who is not only becoming complacent toward expenditure upon political jobbery, but willing to lend his reputation for honesty as a shield to Mr. Tarte's hostling projects.

The particular job which is exciting the indignation of the Witness has its basis in the Montreal harbor improvement project. It is a question of two million dollars, and the Minister of Public Works is charged directly and specifically with steering the expenditure of one million dollars, or half the appropriation, upon docks at Maisonneuve and Hochelaga.

Looking at the names of the favored speculators we find some very dear friends of Mr. Tarte. For instance, there is Sir William Van Horne, whose name gives assurance that the deal is a big one.

Then Mr. Shaughnessy is another. He will be remembered in this connection as having given Mr. Tarte a generous lift. Mr. Prefontaine's name is also mentioned and it is plain enough, says the Witness, that Mr. Tarte and Mr. Prefontaine are hand and glove in the scheme.

The citation of the Maisonneuve job suggests to the Witness another similar episode, to which it refers as follows: We give in another column a history of the Quebec graving dock, which, under Mr. Tarte's old party management, was a failure.

It is extraordinary that Mr. Tarte should have been able to induce Sir Richard Cartwright to propose to the Government, one million of which is to be spent upon a project which has not yet been planned out, for which there have been no regular estimates or engineers' designs, and with which a jobbing scheme is very manifestly connected.

It is discouraging to all who hoped for pure, honest, economical government to find Sir Richard Cartwright taking the place of Mr. Tarte in proposing this most iniquitous project to Parliament, as he did yesterday.

And Straw Hats in endless variety for men, boys and children. It goes without saying that you can be suited here if anywhere, and better too, than you would reasonably expect.

AMERICAN VIEWS OF THE CONFERENCE.

If the American commissioners come to the conference at Quebec in the spirit expressed by The New York Commercial-Advertiser, it is to be feared that the results of the conference may not be as satisfactory as has been hoped for.

The United States does not want anything anywhere of Canada except fair treatment, and Canada wants reciprocity and various other things from us, says the Commercial-Advertiser. In fact the Americans want to fish in Canadian waters and dig for Canadian gold; they want Canadian logs for their saw mills and Canadian nickel ore for their refineries; they want to work on Canadian railways, and quite a number of Canadian railway men have been ousted to make way for them; they want the privilege of bonding goods through Canada.

Fortunately some of the American papers are more reasonable. The New York Times says: "We have not in a long while had any differences with Canada that could not have been avoided or adjusted with a little good will on both sides."

The Chicago Inter-Ocean thinks that Canada has at times manifested a petulant disposition in the discussion of international questions, but says that fortunately this commission will begin its work at a time when there is more than ever before a sympathy between the people of the two countries, that the present conditions are favorable to conciliation on both sides, and there never has been a time when the controversies could be settled more equitably.

The Philadelphia Record which believes in "free trade as they have it in England" says: "There is such a manifestation of friendly feeling in Canada, Great Britain and the United States that the time is most opportune for the removal of all causes of irritation and for paving the way to mutually advantageous trade."

Unfortunately Canada will go to the conference under a certain disadvantage. If the Canadian tariff were as high as the American tariff it would be an easy matter to lop off a little on both sides. If there were export duties on legs and unrefined nickel, if we had a stringent Alien Labor Law in force and all our provinces excluded American miners from staking claims, we could meet concession with concession, but as it is we have given the Americans almost everything they want beforehand, and the danger is that they may consequently consider that nothing is offered them at the conference in exchange for the privileges we ask from them.

Sugar, London, May 15, publishes a number of extracts from articles on farming in Germany contributed by Mr. F. P. Hoening, a practical expert, which are included in a Foreign Office report. Among these extracts are the following: "In treating on farming in Westphalia, Mr. Hoening says: There are two large sugar factories, and sugar beetroot is extensively grown. The sugar factory Beckhard worked up 825,000 cwt. of beetroot during one season, and manufactures sugar from 10,000 cwt. of beetroot per day. The factories have been in existence since 1834, and the effect of growing sugar beetroot and the cultivation necessary for growing a good crop has been of the utmost value to the soil. The land has almost doubled in value, as the crops following the sugar beetroot are so much heavier and better in every respect. The cultivation of sugar beet in Germany has made many a man's farm pay, which previously was kept almost at a loss with difficulty. A good crop of sugar beets means three or four consecutive good crops of anything you like to grow; and that is not all, for the certainty of a good crop after sugar beet is very much enhanced, whereas formerly yields per acre varied largely. Wherever sugar beetroot has been successfully cultivated, it has been found that yields are less variable and increase largely. This is due to the deep cultivation of the soil and the incessant hoeing necessary to produce that crop. Beetroot will not grow where weeds flourish; these must be got rid of by hoeing three or four times a year, and this constant hoeing and cultivation of the soil produces not only good beetroot, but better consecutive crops."

Cool and Refreshing. Attention is called to the Grenadier Ice Company advertisement in another column. Those who have not yet ordered their supply of ice-cream do well to give this company a trial. There is no question that there will be a large shortage of really good ice-cream this summer, but the Grenadier company, with their usual foresight, have on hand a sufficient stock to supply all their regular customers. This company only handles pure Grenadier and Lake Simcoe ice. Their special family service rates are being taken advantage of by a large number. All orders received by 10 o'clock the same day.

Cotton Markets. New York, June 2.—Cotton—Futures closed dull; sales, 62,700 bales; June, 6.17; July, 6.14; Aug., 6.13; Sept., 6.12; Oct., 6.11; Nov., 6.10; Dec., 6.09; Jan., 6.08; Feb., 6.07; March, 6.06.

COUNTY AND SUBURBAN

Toronto Junction, June 2.—(Special).—Mrs. Brown of Woodland Villa, Pacific-avenue, and Miss Marritt, left for Ridgeway to-day to attend the annual meeting of the Church of the Disciples of Christ. The wheat market took a rapid downward tendency today. This morning \$1.06 was paid. This evening the highest price paid was 95c.

Mrs. Johnson and Miss Shriverton were to-night appointed delegates from the Sons of Temperance to attend the Plebiscite Convention in Toronto. The staff of the Toronto Junction College of Music, assisted by friends of Mons. P. X. Mercier, who is leaving for Paris shortly, gave an excellent concert at the Burn Hall to-night. This was the last appearance of Mons. Mercier before his departure, and was very successful. He was but slightly expressing the sentiments of the college staff and music lovers in general, and was very well received, and sang with that evenness, ease and rich technique for which the timbre of his voice is famous on no other stage.

The lawn party held by the Zion Presbyterian Church of Westport, on the grounds of Mr. Leslie Armstrong, yesterday afternoon and evening, was a decided success. There was a very large attendance, particularly in the evening. During the afternoon those present enjoyed themselves with playing lawn tennis, croquet and other games. Tea and refreshments were provided by the ladies. In the evening the grounds were beautifully lit up with electric lights, and addresses were delivered by Revs. J. D. Fitzpatrick and J. A. Brown. Songs were rendered by the choir, and the evening was a very successful one.

The village of East Toronto has ordered a new village four-wheel water cart, fitted with the new patent sprinklers, and having a capacity of about 800 gallons. It is expected to be finished at the end of next week. The Grand Trunk Railway have just about completed the improvement of a north side of their yard, and will begin early next week to remodel the old yard. The Methodist Church last night presented their pastor, Rev. C. Webber, with a very handsome watch, and a pair of glasses, in recognition of his services to the church. The managers of the Y. M. C. A. are having gas pipes put into their large building.

North Toronto. Mr. John McKeown, who was somewhat severely injured by a collision with one of the Metropolitan cars of Wednesday last, is making fair progress towards recovery. "Bill" Sadler, hostler at the Davistown Hotel, had quite an experience with a runaway yesterday. He was unhitching the horse from the shed of the hotel, when it started away. Bill hung on, however, but had to relax his grip when the horse fell on his head. The horse afterwards turned up Yonge-street and got tangled to the buggy. The Finance Committee will meet at the Town Hall to-night.

Atwater. Atwater is being prepared by a number of citizens for the arrival of the electric railway, and it is hoped that the Metropolitan will extend their road here at an early date. Mr. J. W. Hutchinson's new brick residence at Atwater, which was completed and opened for occupancy a few weeks ago, is a very fine building. The funeral will take place at St. George's Cemetery on Saturday afternoon.

Ilionington. The whole community was thrown into deep sorrow this morning, when it was heard that Edward J. Musson, son of the village postmaster, had passed to the realm beyond. Mr. Musson was in his 35th year, and had been declining for only a few weeks. The funeral will take place at St. George's Cemetery on Saturday afternoon.

Now Enjoys Sleep. A Toronto Man Points Out the Right Medicine for Dyspepsia and Indigestion. Toronto, April 26, 1893.—Frank Holt, (foreman of the Toronto Cotton Baiting Co., of Toronto) has the following to say for Ward's Pills: "I have been troubled for the last 7 years with nervous dyspepsia and have been unable to obtain any relief, either from the use of doctors' prescriptions or patent medicines. I have been confined in factories most of my life and blame that, as well as the excessive use of tobacco for the upsetting of my nervous system, stomach trouble, etc. About a month ago I was advised to try Dr. Ward's Pills and they at once gave me relief, and after giving them a good trial I have been restored to health. I now enjoy my sleep and can eat anything without discomfort, and relish my food. I heartily recommend these Pills, as they have restored my appetite and soothed my nerves, for which I am sincerely grateful."

Local Notes. Rev. Dr. Workman and Chabellor Burwash are attending conference at Lindsay. The Royal Canadian Bicycle Club held a six-mile handicap race Saturday from Cicely's to the Half-Way House. Those who are thinking of purchasing bicycles will do well to examine the stock of the Clapp Cycle Co., 463 Yonge-street, who are now holding a clearing sale, and you will find all the leading makers represented, in both the new and second-hand lines.

THE SLATER SHOE "The Broadfoot." Shaped for short thick feet, wide English model, broad and full throughout, wide tread, flat, thick sole, and stoutly stitched. A masculine shoe for portly men. Laced and congress; colored and black. All sizes and widths. Goodyear Welted. Stamped on the soles \$3.00, \$4.00, \$5.00 per pair.

Our immense variety of French Damages, all the complete selections in price and quality. These are marked low the usual prices. Special Orders are given special attention at all times.

BREAD, CATTLE, PEDLARS

The City Engineer Lays Out Work for the Board of Works.

No Sidewalks Next to the Curb—Several Denunciations Before the Property Committee—Stock Yards to be Inspected—A Lot of Bread Weighs 3 Lbs.

Yesterday was a "hot" day at the City Hall in more sense than one. The decorations of the monuments in Queen's Park, to which ceremonies the Council was invited, made everyone discontented with the City Property Committee was the only committee that met, and among other things they decided what a lot should weigh.

In the morning City Engineer Rust's fortnightly report was issued to the Committee on Works. He states that the Board of Works loop line has been commenced, and recommends, for reasons, that the Toronto Railway Company be allowed to use T rails, provided that these rails, if found unsuitable, will be replaced by grooved rails.

He also proposes to alter the side of the Board of Works, ordering that when dredging and filling is being done in future by the sand pump, the City Surveyor shall take measurements. Mr. Rust declares he has in his department competent men to do this.

He declares there is no need for a double shift at present, besides such a change would require \$5000 or \$8000 additional appropriation, and the work could not be done as well at night as in the day.

To Mend the Ways.—The following local improvements are recommended on petition:

Beaumont-street, Dundas to Dovercourt-street, concrete walk; cost \$1200; city's share \$500; annual cost 13.5 cents per foot for 10 years. Colborne-street, Gladstone to Beacomhedge, cedar block pavement, cost \$900; city's share \$120; annual charge 17.1 cents per foot for five years.

Death of Rev. William Birks.—Rev. William Birks, for over 40 years a minister of the Methodist Church, died suddenly at his home, 251 St. Clair-street, at 11:30 a.m. on Thursday.

Standard Loan.—A deputation composed of A. Callow, H. Baker, H. Lawson, George Stacey and representing the Journeyman Bakers' Association, asked to have the standard loaf fixed at 15 pounds instead of the 16 lb. standard.

City Hall Notes.—During the month of May, 1898, building permits to the value of \$178,745 were issued. This is \$70,000 more than last year.

Street watering on Sundays would cost \$50 a day. Two thousand trees have been planted on the Island, between Hanlan's Point and Centre Island. They have 100 acres for this purpose."

NOTES FROM LONDON.

Major Beattie Able to Sit Up—Oil Strikes Near New York.

London, Ont., June 1.—Major Beattie, M.P., has so far recovered as to be able to sit up. A party of 20 people left here over the Grand Trunk yesterday for Manitoba and the Territories. They came from points north.

The earnings of the London Street Railway Company for the week ending May 28, 1898, were \$24,604, being a decrease of \$88.70 from the corresponding week last year.

The people in and around Inwood, Lambton County, are very much interested in a couple of oil strikes, which have been made in the vicinity lately. Two wells, yielding 40 barrels a day, are already in operation two miles from the village, and syndicates are being formed among the residents of Inwood and the farmers thereabouts for the purpose of sinking other wells.

VANDERBILT-DRESSER WEDDING.—The wedding of Miss Florence Dresser to the Hon. G. W. Vanderbilt took place at the American Church, Paris, on Tuesday evening, June 2.

Paris, June 2.—The religious ceremony of the wedding of Miss Florence Dresser to the Hon. G. W. Vanderbilt took place at the American Church, Paris, on Tuesday evening, June 2.

There were 150 persons present to-day, including General Horace Porter, the United States ambassador to France, and Mrs. Porter, Mrs. Chauncey M. DePue, the Count and Countess de Castelle and the Duchesse de Nemours.

The bridesmaids were Miss Florence Reid and Miss Daisy De Montmoulin and the bridesmaids were Misses G. H. Osgood Field, Joseph Howard Hunt, Count Antonio Sala, Rutgers Leroy and Frank Andrew Field.

Chicago Wedding Presentation.—Thursday afternoon, a deputation of Messrs. Pugsley, Dingman & Co., manufacturers of the celebrated "Pink Pills for Pale People," visited the bride and groom.

At Osgood Hotel, Toronto, May 28, on application of G. T. Purford & Co., proprietors of the Grand Opera House, a perpetual injunction was granted by Chancellor Boyd restraining Theodore Suter, druggist, of St. Catharines, from selling a pink-colored pill in imitation of Dr. Williams' Pink Pills for Pale People.

Business Embarrassments.—Alfred Hunt, private banker, Bruce bridge, has assigned to Sheriff J. W. Bettis, and later assigned to J. W. Bettis, the Toronto real estate among the assets of H. W. Falman, broker, St. Thomas, assigned to C. B. Armstrong, a realtor, near June 9.

New York Gossip.—Henry A. King & Co., 12 King-street east, received the following despatch to-day from New York:

The stock market showed a moderate falling off in activity from yesterday, but while price-taking continued to be the feature in some instances, the undertone of strength of the speculation was not impaired.

What Happened to Jones.—Editor World: The above is the name of a very popular comedy, now being acted at the Grand Opera House. What happened to Jones is what the citizens want to know.

Small Pill, but Powerful.—They that are weary of the little market will be glad to find a little wonder among pills. It is a little wonder among pills. It is a little wonder among pills.

Needs More Space.—Dr. Bryce is rejoiced to see that the problem of the little market will be solved. He says it is a shame that such a small space is granted for this purpose."

Money Gets Easier Still.—Continued from Page 8.

WEAK MEN, OR OLD,

suffering from DRAINS, LOSSES, WEAK BACK, IMPOTENCY, VARICOCELE, etc., I say to you as man to man, as physician to patient, DRUGS NEVER CURE. Why not use nature's own simple remedy,

Electricity? With my ELECTRIC BELT and SUPPORTING SUSPENSORY I cured 5000 last year. Book, "THREE CLASSES OF MEN," explaining all, sent sealed, free upon request.

(There is but one genuine Electric Belt and that is the Sanden. Don't be deceived by cheap, worthless imitations. I have had 80 years' experience and control patents covering every part of my belt.)

DR. C. T. SANDEN, 140 Yonge-St., Toronto, Ont.

East Buffalo Better Market.—The Buffalo market, N.Y., June 2.—Cattle—Receipts were quiet and unimportant. The market was irregularly strong. The market closed irregularly, but generally strong.

London Stock Market.—London Stock Market, June 1 and 2. Consols, month.....112 1/2. Consols, account.....112 1/2. Canadian Central.....112 1/2.

At the Police Court.—The case of Mary McGarrig, charged with causing the death of her baby at Mrs. Beasley's maternity home, Adelaide-street west, was adjourned till today, after Dr. Freer's opinion had been taken.

Wedded at Stayner.—Stayner, Ont. June 2.—A very pretty wedding was celebrated at the residence of Mr. W. H. Robinson, senior member of the firm of Robinson & Co., at Stayner.

Canadian Criminal Cases Annotated.—No more appropriate comment on No. 1 of Vol. I of this useful work can be made than that it is a masterpiece of the pen.

German Liner Wrecked.—Acrca, West Coast of Africa, June 2.—News was received here to-day of the loss of the German liner, Lothar Bohlen, which left Hamburg on May 11, for West Africa.

Business Embarrassments.—Alfred Hunt, private banker, Bruce bridge, has assigned to Sheriff J. W. Bettis, and later assigned to J. W. Bettis, the Toronto real estate among the assets of H. W. Falman, broker, St. Thomas, assigned to C. B. Armstrong, a realtor, near June 9.

Two ways to use up clothes—rubbing them on a washboard, and washing them with harmful things. Unless you want to waste money, don't do either. Use Pearline. Use Pearline rightly, and there's no washboard needed.

FOGG & CAIGER BRASS FOUNDERS, 103 King-street East. Brass, Copper, Phosphor Bronze, Zinc and Aluminum Castings.

GRAPE SALINE Assists the Liver, preventing Biliousness. 25c. A BOTTLE is the price.
