A brief discussion followed regarding the character of Picquart's former orderights.

A brief discussion followed regarding the character of Picquart's former orderly, Savignaud, who testified yesterday to posting fetters in May and June, 1897, addressed by the colonel to M. Scheurer-Kestner, the former vice-president of the Senate, who has been prominent in obtaining a revision of the Dreyfus case. During this discussion, Savignaud protested that he had been confounded with a bandsman of the same hame who had a bad character.

A Point for Drevius. A former sergeant, who was at one time employed in the War Office, testified to seeing Dreyfus copying the list of railroad stations mentioned in the plan of mobilization, to which Dreyfus replied: "It is true, but I copied the list by order of Captain Resse." (Sensation.)

General Gonse refused the request on the ground that the witness must not know the hame of the address. General Gonse, it appears from the testimony, was greatly enraged when he learned of the result of M. Gobert's examination of the bordereau, and visited the expert repeatedly. The latter always insisted upon learning the name of the suspect.

But Dineens' trade in fine hats and furs has more than doubled in the new corner—because the house has never slackened its pace as the leader of fashions in hats and furs. The chief reason why more people trade at Dineens' is the well-recognized fact that the same immense scope for selection of new styles, and the same great assortments of qualities at different prices—and the same generous values—are not found in any other hat and fur house in Toronto.

BERTILLON MADE

Dreyfus Never in the Bank. Dreyfus Never in the Bank.
Dreyfus here declared in the most positive manner that he had never been at the Bank of France, where M. Gobert was employed, or had relations with anyone there. The prisoner reasserted that his sole desire was to know the truth. He admitted he had been engaged in various financial operations, but said he had never asked either for written or verbal information from the Bank of France. described how, from an examination of an official report on Dreyfus, from which Dreyfus' name had been removed, M. Gobert had the malicious satisfaction of telling General Gonse the name of the officer they wanted to arrest. It was after M. Gobert had refused to incriminate Dreyfus that M. Bertillon was entrusted with the examination of the bordereau, and after a few hours' study M. Bertillon positively attributed the bordereau to Dreyfus. From that time forward M. Gobert heard no more of the Dreyfus case. He was not asked to submif a report, but described to the then Minister of Justice, M. Guerin, the circumstances in the case. M. Guerin, continued the witness, intimated that "these were soldiers' affairs," which did not concern him as chief of the civil judiciary.

"I had reached this point in my experiments when I was summoned to the Cherche Midl prison by Major D'ormescheville. The major explained that he wished my personal opinion on cryptographic methods (sympathetic inks, etc.), which might help the family of Dreyfus in corresponding with him. The request was partly due to the fact that a number of letters addressed to the prisoner by his family had not been received.

"During the course of the interview, Major D'ormescheville produced one of these letters. I had hardly cast my eyes on it than I was astonished to notice the same kind of a negative 'O' with which Presumptive Proof.

Dreyfus Did Not Write 14.

Col. Jounust asked M. Gobert for a more definite criticism of the bordereau and that witness replied that he noticed certain similarities between the handwriting of the bordereau and that of Dreytus. But, he cause it was now proved the bordereau and that of the court of the witness replied that the provided of the cause it was now proved the bordereau and had since been confirmed, "because it was now proved the bordereau and his opinion had since been confirmed, "because it was now proved the bordereau and his opinion had since been confirmed, "because it was now proved the bordereau was the work of Esterhazy." (Sensation).

Replying to the court, M. Gobert suggest that the judges compare the bordereau with a letter admitted to be in Esterhazy's handwriting, and dated from Rouen, August LT, 1894, and with documents written by the bordereau. "Not will then unmittak by the bordereau." "You will then unmittak by the bordereau." "You will then unmittak by the bordereau is the Esterhazy's handwriting and not in the handwriting of Dreyfus." General News of the City.

Hamilton, Aug. 25.—(Special.)—The inquest on the body of Thomas Kenny, the Grand Trunk wheel tester, who was killed a few evenings ago at the Stuart-street station when passing between cars, was concluded to-night. The jurors brought in a verdict of accidental death, but recomconcluded to-night. The jurors brought in a verdict of accidental death, but recom-mended that on all such occasions, when trains are about to be moved, a signal should be given either by ring of bell or by

REPRIMANDED WITNESSES. Magistrate Ellis Said They Should Not Have Bought Liquor in Unlicensed House.

Mr. Frederick Addison, late proprietor of St. George's Union came to an end this morning. The committee to whom was remorning. The committee to whom was referred the report of the general secretary, thomas X. Yeates, reported, heartily endorsing it and recommending that it be printed.

Reports from St. George's societies were next received. George Musson presented that from the Toronto society. The society was organized in 1835. As far back as 1858 it paid out \$800 in relief; ten years later it was paying out \$2000 a year, and year after year the amount has increased. The outcome of the witnesses, who are added since last February. The invested funds were \$16,000, with a large interest in St. George's Hall.

H. N. Kittson presented the report of the Hamilton society. Its receipts for the past year were \$1420.73, and its expenditure \$654.92. The permanent fund amounts to \$673.38. It has 316 members.

James Hewer presented a verbal report of the Guelph society, which, he said, was in a flourishing condition, with 85 members.

This ended the business. President Rus.

Ocean Grove, N.J., Aug. 25.-President McKinley addressed 12,000 persons in the Auditorium this afternoon. He was introduced by Bishop Fitzgerald, who said that there is no conflict between the Stars and Stripes and the flag of the Cross, and that "they float side by side for humanity liberty and truth." The President said:ieve that there is more love for our counlieve that there is more love for our country and that more people love the flag than ever before. Wherever that flag is raised it stands not for despotism and oppression, but for liberty, opportunity and numanity, and what that nag has done for us we want it to do for all people and all lands which by the fortunes of war have come within its jurisdiction. That flag does not mean one thing in the United States and another in Porto Rico and the Philippines. There has been doubt in some quarters respecting the policy of the Government in the Philippines. I see no harm in stating it in this presence. Peace first, then with charity for all, establish a government of law and order, protecting life and property and occupation for the well-being of the people, who will participate in it under the Stars and Stripes." When the President finished the big building shook with the intensity of the applause. When the tumuit stopped, the President said: "I have said more than I intended."

Yesterday a man, somewhat advanced in years, a little below the medium height and having the appearance of one who had and having the appearance of one who had recently passed through great suffering, was to be seen on the streets of Woodstock. Many knew him and recognized mim, though an absence of a year and a hair in the wilderness of the north was by no means without its visible effects, as Mr. James Clark of Corinth, one of the party which was organized at Tilsonburg and started out from that place on Feb. 28, 1898, to seek gold where they were led to believe they had a reasonable chance of minding it. The rush to the Klondike, it will be remembered, was at that time at its height. Expeditions were organized in various parts of the country and information sought regarding the best routes to the land of promise. Mr. Clark was an old California miner and the fever came upon him again in all its strength. Others in the district were also desirous of trying their luck in the new Eldorado, and the party was formed. It comprised besides Mr. Clark, Benjamin Hawkins and Arthur Allan of Tilsonburg, Watson Fire and N. Kerr of Prince Edward Island. A former mounted policeman named Diamond was to meet them at Edmonton.

Preparing for the Trip.

A very complete outlit for the expedition was provided and Mr. Clark himself studied the maps of the country through which it was necessary to pass and sought all the information that was available concerning what they would have to expect in the course of their long journey. The Edmonton route commended itself for many of the most part free from difficulties that attended a passage by way of Dawson. Gold existed on the rivers that had to be followed on the way to the Klondike proper and Mr. Clark and his associates did not believe that it would be necessary for the rest of their days. They trusted imported to give. Even if they should not settle gold in very large quantities, they would, they believed, never have reason to great they are they would, they believed, never have reason to great they are they would, they believed, never have reason to great they are they should not believe that region was in the summer time much like a holiday excursion? Chicago, Aug. 25.—Inspector Shea, who is in charge of the West Side police district, has issued an order in which he practically affords protection to poker games. His order reads: "No form of gambling but draw poker will be permitted in this district hereafter. Where other games are found they must be stopped at once and not permitted to continue."

Not since the palmy days of "Al Hankins, Mike McDonald, Pat Sheedy, "Dirty Shirt" Brown and Kirk Gunn, when gambling in all forms was allowed to run "wide open," has such an order been issued. Chief Kipley, when asked this evening about the order issued by his subordinate, announced that it was "all right."

"If Inspector Shea is doing his best to confine the gambling in his district to draw poker, I am entirely satisfied and believe he should be complimented," said Kipley.

John Fisher, who is serving a term in Buffalo for smuggling, will be released today, but will be immediately placed in custody again. Chief Inspector John Murray of the Attorney-General's Department, went over to Buffalo last night to see about extraditing Mr. Fisher, who is wanted on a charge of burgiary.

On 28th November last a store at Bridgeburg, Welland County, was burglarized and a quantity of tea, tobacco, etc., was taken. Fisher was arrested by the United States Government for smuggling tea, which was being sold by the pound to housekeepers on the other side of the border. This tea was part of the stuff stolen at Bridgeburg. Fisher was sent to the Erle County Penitentiary for smuggling, and now his sentence has expired he will have to answer for the burglary.

In military prisons an offender is sometimes sentenced to carry cannon balls from one place to another and pile them up all day long. That is all. Perhaps it does not seem very terrible but it soon wears his life out. It is practically a death sentence, and he knows it; he would rather be shot. Many a sick man feels the same way about the burden of disease that he is lugging back and forth from day to day. He would as soon be down with a mortal disease. It will come to that sooner or later.

A man's life can be dragged out by dyspepsia and liver complaint. The experience of Mr. J. T. Cardwell, of Pall Creek Depot, Pittsylvania Co., Va., shows how Dr. Pierce's Golden Medical Discovery saves people from consumption by waking up their nutritive organism and giving it power to supply pure, healthy blood, which drives out blood poisons and dead tissues and builds up sound, wholesome flesh and muscle.

"If feel it my duty," writes Mr. Cardwell in a letter to Dr. Pierce, "to write you of the lasting benefits derived from the use of Dr. Pierce's Golden Medical Discovery and little 'Pellets'. Seven years ago I contracted a severe cold, which baffled the skill of one of the best physicians in my State. R ran on and I continually grew worse until I concluded to write to the 'World's Dispensary Medical Association.' The answer to my inquiry advised me to use 'Golden Medical Discovery' and 'Pellets' for indigestion and liver complaint; at this time two months had passed. In two or three days after I had commenced the use of your medicales my cough had entirely stopped, my digestion was better, my low spirits driven away and I felt new life and vigor in my whole body." This marvelous "Discovery" makes nerve force and rugged power. It is far better than oily emulsions; it does not make flabby fat, it does not increase the weight of corpulent people.

The boa constrictor Frank was fed last evening and ate a dozen live pigeons. Madame Louise Morelli astonished her auditors with her trained jaguars. Herr Canoz and his trained bears, wolves and hyenas are still another attraction. Spider Kelly and the boxing kangaroo are most amusing, as are the trained elephant, the clown Bobby Mack, with the performing dogs and monkeys, and the baby orang-outang in charge of Alex. Day.

Charles Under Arrest.

Charles Franklin, a negro, who gave his address as 112 Munro-street, was arrested yesterday by Acting Detective Forrest on two charges of theft. It is alleged that he sfole a set of harness from John Gillespie of 1225 East Queen-street, and a blcycle from W. J. Sutton, 741 East Queen-street.

Strand Hotel, on East Adelaide-street, and left his bicycle, on which was tied a vallee, standing on the curbstone. As soon as befinished his story a man hurried into the station from another entrance carrying a vallee. His explanation was that he had found it on Adelaide-street. Higgins recognized it as his property and immediately quit the station without even giving the finder a reward.

Frederick Hamilton, aged 15 years, fractured his wrist while playing yesterday, He was taken to the Hospital for Sick Children.

Franklin, an aged and respected resident, died here a day or two ago under very distressing circumstances. Mrs. Franklin, who was 75 years old, lived with her daughter, Mrs. Louis Oakes, on Gaywood Dairy Farm, in South Walsingham.

A 4-year-old bull, a thoroughbred Jersey, was running with a herd of cows in a field adjoining the lane and yards to which they had access in order to get water. Mrs. Franklin saw the bull in the yard just as some people were leaving the house and went to drive it away. This enraged the bull, and the animal rushed at her and caught her on his head, carried her ten yards and tossed her in the air, and as soon as she reached the ground did the soon as she reached the ground did the ten to the property to the grounds.

OLINGAL SUBJECT OF THE Massachusetts stake races this afternoon fully 10,000 people were present. The Massachusetts stake race, which has proven to be the greatest troof of the year, was quickly finished, after the start was given, Charley Herr, Toom Boy and Lecco by David Cahili of Lexington, Ky., winning it. The event came over from Wednesday. Charley Herr, Toom Boy and Lecco having the lane and yards to which they having two heats each. Tom Boy at the time of the postpoument was a fair favorite. Charley Herr was admired for steadiness, but people thought his speed limit had been seen. But there was no Qoo stake. It is claimed that upwards of \$100,000 depended on the event, in fact the largest sum of any trotting race in this country, barring the Futurity at Louisville.

Few people realize the extent to which the theatrical attractions in Toronto during the Exhibition araw people to the Fair. It is a fact that hundreds of visitors have remained in the city for an extra day for the sole purpose of having an opportunity of
witnessing a performance of "Superba,"
and that that show has always been the
popular Fair attraction has proved the
truth of the statement that Exhibition visitors desire and must have
an extravaganza, a spectacle with
plenty of scenery and plenty of
amusement for the two Fair weeks. Visitors come to the city to be amused, and as
a legitimate successor to "Superba" Mr. A.
J. Small this year, after a great deal of
negotiation, succeeded in securing a contract with "The Evil Eye," the production
with which Mr. Charles H. Yale met
with so great success last year. It has the
immense cast which would surprise one
even in comic opera, and its "roster" incliddes such people as Al H. Wilson, the
comedian, Fanny Bloodgood, Lillian Wrenn,
Rosaire and Elliott, the English grotesque
clowns, and a support of fifty people. The
play is fitted with bright new songs, and
by special request here, Sydney Ellis' great
ballet song, "By Your Side," will be sung
by the entire company. There are fifty people in the company, and because of its size
and the difficulty in arranging the scenery
Mr. Small has announced that matinees
cannot be given on any other days than
those regularly scheduled, that is Tuesdays,
Thursdays and Saturdays.

FIRE BRIGADE REORGANIZATION.

-No Report Received Yet From Chief Graham.

The Parks and Gardens Committee and the Exhibition Committee yesterday made a joint inspection of the preparations for the opening of Canada's great fair on Tues day next. The party consisted of the Mayor, Ald. Score, Woods, Davies, Spence, J. J. Graham, Crane, Steiner, Frankland, Dunn, Lamb, City Treasurer Coady, Park Commissioner Chambers, President With-row, Dr. Andrew Smith, ex-Ald. Maughan, ex-Ald. Close, ex-Ald. Crocker, ex-Ald. Lesile, Major Manley, J. C. Hamilton, W. S. Lee, J. K. McNaught, G. Booth, George Valr, S. E. Briggs, v. ince, R. H. Hamilton and Manager H. J. Hill.

All in Readiness.

All in Readiness.

A tour was made of the Exhibition grounds, which presented a busy scene. Many cattle and implements have already arrived, and signs of the form-coming show abounded on every hand. The new machinery hall, which phoenix-like has arisen from the ruins of the old building destroyed by fire a few weeks ago, was visited. It is a splendid building, up to date in every respect. It is lofty and well lighted. The hall is 36 feet longer and several feet wider than the former one. The cost was \$17,000, which was defrayed by the City Council. Additional swine pens have been built, and an addition made to the music hall. Satisfaction was expressed at all these improvements. Park Commissioner Chambers was highly congratulated on the admirable condition of the lawns and flower beds. The latter are, as an enthusiastic citizen exclaimed, "enchanting."

Luncheon was partaken of on the grounds. Chairman Score of the Parks and Gardens Committee presided, with Park Commissioner Chambers and Manager Hill in the vice-chairs.

The chairman congratulated the directers of the Toronto Industrial Association on the forwardness of the preparations and prospects of continued success for the greatest annual fair on this or any continent. This was the 21st annual exhibition, the association had gained its majority and its permanence, and success was assured. He thanked the Chy Council for this year's generous aid, and concluded by proposing the health of President Withrow and the directors of the Exhibition.

Still Cramped for Room.

The president, in responding, said the association still greatly needed additional buildings. Exhibits this year had been refused for want of accommodation. Mr. Withrow concluded with an interesting sketch of the inception, early difficulties and success of the Fair.

Dr. Andrew Smith, first vice-president, in responding to the toast of his health, endersed the remarks of the president, and favorably compared Canada's great Exhibition with those he had seen in the British Isles, Germany, France and Belgium.

Ex-Ald. P. G. Close was interestingly reminiscent.

His Worship wrote two days ago to Chairman Frankland asking if he had received this important report. At a late hour last even-Reorganization Needed.

The Mayor is not pleased at the delay of Chief Graham of the fire brigade in presenting the report on the Bay-street fire and the lack of intelligent direction thereat. The chief was ordered to report forthwith and to state the equipment of which the brigade is deficient. His Worship wrote two days ago to Chairman Frankland asking if he had received this important report. At a late hour last evening Ald. Frankland told The World he had received no communication from the chief. The Mayor said yesterday that it was evident that drastic measures of reform and reorganization are imperatively necessary. His Worship is determined that the brigade shall be placed on a thoroughly satisfactory basis.

Ald. Bowman spoke to a similar effect and said that he was prepared to advise the immediate resignation of Chief Graham.

Graham.
The Technical School. Ald. Lamb has returned from two months' holiday at his summer residence on Lake Simcoe. He intends that his committee shall take up the Technical School question. He is in favor of adopting Hon. Mr. Ross' recommendations, and says it is absolutely necessary that the present board shall be reconstituted.

Extension of Leave of Absence.

City Clerk Blevins has not recovered sufficiently to return to his official duties at the end of the leave of absence granted him by the City Council. Yesterday Dr. Pyne called on the Mayor and submitted a cletter to His Worship, which states: "I must ask you to get an extension of leave of absence for Mr. John Blevins, the City Clerk. He is not fit for duty yet, and I would suggest that another month be granted him. I trust yourself and the City Council will grant this request."

Extension of Time Secured.

Assistant City Solicitor Chisholm has the control of the council will see the council will see the council will be control of the secured.

Assistant City Solicitor Chisholm has secured an extension of time to apply for leave to appeal to the Supreme Court against the decision of the Court of Appeal, affirming the Divisional Court's judgment of \$100 in favor of Captain F. ntown "Keep the head cool and the bowels open" is old but eminently sensible advice for people to follow during the summer season. But the head won't keep cool, no matter what you do, if the bowels are

onstipated.

First thing, then, is to consider the owels. If they don't move regularly very day take Laxa-Liver Pills.

They're the nicest acting little pill you wer tried.

Immediately her lungs were suffused with water, and when she came to the surface she was not able to cry for assistance, but, fortunately for her, Mr. Pine, without a moment's hesitation, threw off his coat and leaped into the water. With one arm encircling the now unconscious woman he used the other to swim towards the shore, and, although the rescued woman weighs probably in the neighborhood of 169 pounds, and her gallant savior is of slim build, he managed by herculean efforts to swim with his unconscious burden to shallow water, where Guards Neill and Farker met them with the boat.

Once on the beach an immense crowd assembled on the boardwalk, the pier and the strand, and loudly cheered and applauded the gallant rescuer, who did not cease his enforts in behalf of the unconscious woman upon reaching the shore, but worked over her, with several others, in the attempt to restore respiration, which was apparently entirely suspended.

Hard Fight for Life.

For upwards of haif an hour they utilized all the expedients commonly employed in the resuscitation of the drowned, four doctors who were in the crowned lending their assistance. Twenty minutes elapsed before Mrs. Harberson gave any signs of life, and it was feared for a time that she was beyond aid. Mayor Thompson meanwhile appeared on the scene and assisted the police in keeping back the crowds, which had now assumed great proportions, directing the guards in their labors over the exhausted bather as well. Finally she was restored to consciousness sufficiently to be removed to her bath house, where for another hour physicians worked with her. To-night she is still under the doctor's care, and it is said that this has been the most difficult case of resuscitation experienced this season.

Mrs. Harberson is a guest at the Chetwoode, and Mr. Pine is located at the Roman. A notable feature of the rescue was that the hero of the occasion modestly left the scene of the rescue as soon as possible and endeavored to withhold his name from publication.

ney Pills, and Was Cured.

Neepawa, Man., Aug. 25.—There is an old saying that murder will out. It seems to be still more true that the merits of Dodd's Kidney Pills should always be coming to the front. Dodd's Kidney Pills are life-takers, however, and the more the knowledge of their value spreads the better it is for mankind. That Dodd's Kidney Pills is the only medicine that will cure Bright's Disease, people are continually finding for themselves by experience. When everybody has this simple, absolute fact imbedded in their minds—Dodd's Kidney Pills are the only cure for Bright's Disease—that disease will never claim another victim.

Mrs. T. H. McKee of Neepawa writes: "For ten years I had poor health. I doctored in Ontario for weakness; came to Manitoba four years ago, and still grew worse. Eight months ago I was selzed with in the light's Disease.

Their Spirits Improving.

Reports brought through the lines to spaniarus and rilipinos in tims city are that the spirits of the insurgents are improving. The generals are telling their followers that American inaction during the past month is due to discouragement and demoralization. Through the American secret service come dinerent stories, that the Filipino army is becoming decimated by desertion to the number of 20 or 30 a day, and is fast losing heart and on the verge or disruption. Past experience with the secret service justifies a suspicion that many of its employes, most of whom are natives or Spaniards, are deeply interested in holding their places by seeming to earn their pay, while the refugees who come through the lines have been disposed to give reports which they think will please the authorities. There was a time when Agoinaldo's biggest army hung in the balance, when its destruction appeared inevitable. That was when McArthur had captured San Fernando, and Lawton was marching upon San Isidro with the Filipinos scattering before him. Lawton had made himself a terror to the insurgents because no obstacles stopped him.

What the Rebels Feared.

With Lawton at San Isidro, the rebels feared he might sweep around upon Tarlac.

that the Fliphno army is becoming decimated by desertion to the number of 20 or 20 dr. was dr. wan in that losing heart and on the dr. was and it has been and the distriction appearance who come through the lines have been dr. was successfully as the balance, when its destruction appearance who come the proper in the balance, when its destruction appearance who come the proper in the balance, when its destruction appearance was marching upon San Isidro with the Philphnos acustrering before him.

What the Rebels Feared.

With Lawton as San Isidro, the rebels feared may be as it was a successful to the completion of th being such tactics, an army will be needed that can move rapidly and strike day after day, follow up a defeat without waiting for rations and thus giving the enemy no time to reorganize. To capture them, most of the generals here think, cavalry will be necessary.

Anarchy at Manila. Anarchy at Manila.

London, Aug. 25.—The Labuan correspondent of the Reuter Telegram Company tables that reliable news received there free from Manila says that an indescribble state of anarchy prevails. The Americans, according to these advices, accupy a radius of fifteen miles there. Around-the town of Iloilo they occupy a radius of nine miles, and around Celu they occupy a small radius. The rest of the country, it is added, is in the hands of the Filipinos. The correspondent also says it is reported the Filipinos have murdered the crew of the steamer Saturnus. the Filipinos have murdered the crew of the steamer Saturnus.

A despatch to the Associated Press from Manila, Aug. 5, said the steamer Saturnus of the Compania Maritima, coasting under the American flag, had been beached under the insurgent trenches at San Fernando, and had been burned Aug. 2.

All to His Widow. The will of the late Alexander Findlay, a city postal clerk, was entered for probate yesterday in the Surrogate Court. The estate, which is valued at \$3000, consists of property at 86 McCaul-street and 346 Markham-street, and \$200 in cash. The entire estate is left to the widow of the deceased.

Children Taken Home. The four little children who were found on Milloy's wharf by Patrol Sergeant Geddes on Wednesday afternoon, and who were taken to the Children's Shelter, were yesterday claimed by their mother, Mrs. Hoage of Oshawa. It appears that the children were brought to the city by their father, who mysteriously disappeared on arriving here. He has not yet been found.

Mr. Percy H. Clarke will receive the society's parchment certificate for assistance rendered in the same rescue.

The Demon Dyspepin—in olden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. A Magic Pill—Dyspepsia is a foe with which men are constantly grappling, but cannot exterminate. Subdued, and to all appearances vanquished, in one, it makes its appearance in another direction. In many the digestive apparatus is as delicate as the mechanism of a watch or scientific instrument, in which even a breath of air will make a variation. With such persons disorders of the stomach ensue from the most trivial causes and cause much suffering. To these Parmaleers Vegetable Pills are recommended as mild and sure

The Excelsior Bicycle Club, after being HOW US A WEAK N

and we will show you a man whom we have made strong and vigorous. We have done this very thing for weak men-old and young-thousands of times. It requires no great effort of ours to cure sufferers from the effects of early follies practised during boyhood years, because we understand thoroughly the complicated sexual system, and have invented the means through which the weakened nervous and glandular systems are built up in a gentle but perceptible way from the very foundation.

### WE MAKE NO IDLE BOAST.

We are telling you facts. If you wish to be cured, it is but waste of time and money to "try" a dozen or more "remedies" to remove your weakness. Drugs cannot do it. Why? Because they don't reach the "right spot." The stimulative properties that drugs contain are supposed to act upon the weakened glandular system, but

in reality act only upon the stomach; thus the drugs prepared and intended for one part of the system are absorbed and digested by entirely different organs. Most detrimental results follow, in some cases the digestive organs being completely ruined. If your experience so far have been failures, try our famous invention, the DR. SANDEN ELECTRIC BELT, using the proper treatment, which is restoring to the weakened organs their natural vitality or Electricity.

# Dr. Sanden Electric Belts Are Used the World Over.

It is thirty years since Dr. Sanden invented his famous Electric Belt, and during this time we have cured upwards of a hundred thousand weak men who suffered from varicocele, weak back and night

The vein filling of quartz in the main tunnel measures fully eight feet, and along side of the hanging wall is foued the rich paystreak that measures from an inche to a foot in thickness. The first ore chute was encountered 40 feet from the portal of the tunnel and was followed along for a distance of 75 feet. Then 50 feet was passed through quartz when a second rich ore chute was run into; this was also followed for 75 feet. These ore chutes are composed of a black and white quartz seam containing tellurides of gold. The values are surprisingly rich. Mr. Bedler informed the correspondent that when the ore is taken to the sorting house it is sorted into two grades. The richest class samples \$500 to the ton, and the second grade runs \$300. This is not all, for after the ore is carefully sacked, the waste is kept as, on close sampling, it was found to run \$19 to the ton. Already a large amount of ore has been carefully sorted and sacked and has been stored awaiting shipment. When this shipment is made, or a series of shipments made, then the investing public will realize the fact that the Morning Glory is capable of being a rich dividend payer.

At a Lower Depth.

About the middle of the second ore chute, or 300 feet from the portal of the tunnel, a winze is being sunk, following the hanging wall and this rich ore. To-day the winze was down a depth of 90 feet. It is a substantial looking plece of work and reflects credit on the foreman and his six able assistants. At the bottom of the winze a careful examination of the paystreak would indicate it to be widening cut, as the black quartz in which the rich ore is found is noticed to be spreading out through the bottom of the winze. The Jaystreak itself has also widened out from a foot in the tunnel to 16 inches in the winze. The total depth from the surface

I led off yesterday with a nice sale of HILLSIDE CONSOLIDATED. After this orders came in for RAMBLER CARIBOO at prices varying from 36c to 38%c. I turned over 1000 at 40%c, and was unable to fill several orders, the prices quoted not being within market limits. VAN ANDA is still a feature, and I sold 5000 at 11% DEER TRAIL is enquired for. I had a bid of 25c from Montreni and sent them 1000. BIG THREE, DARDANELLES, WHITE BEAR, RATHMULLEN and WINNIPEG are being dealt in. I ordered 2750 Winnipeg from the west, being unable to get what I wanted here. I will pay 30%c for another 500 should such be round. Gold Hills is steady. I disposed of 1000 at 9c. The market generally is strong and I anticipate good business from now on REPUBLIC stocks are quiet just now, but there is a good time coming in these.

Grand Forks, B.C., Aug. 18.—Clarence J. McCuaig, the well-known Montreal mining man, will shortly revisit the Slocan, Republic and the Boundary country. It is reported here that his western trip will be undertaken largely with a view to compromise with the miners, and the carly resumption of work in the Payne mine. Mr. Wlikes, the organizer of the Miners' Union, was in town to-day. He is engaged in forming branches of the union throughout the country. Speaking about the situation in the Slocan he said: "I expect to see work resumed in the mines very shortly. One thing is certain, the eight-hour law will not be repealed."

Our annual Fair-time Exhibition of new fashions in Furs and Hats opens on Monday.

We have always succeeded in making these Exhibition-Week receptions at our store most interesting occasions for winning new patrons. The desire to sell, which may be uppermost in our aim at all other times, is banished entirely on this occasion for the greater desire to show visitors from out-of-town the elegantly fashioned proofs of our leadership in correct styles and the lavish evidence of the immense extent of our direct fur importations and direct importations of the finished products of the great English and American Hatters.

An inspection throughour suites of elegantly appointed display rooms-and our large fur workrooms and fur storage vaults—and the incidental study of the wide scope in varieties and prices which this house affords to intending purchasers, will establish a lasting personal acquaintance with hundreds of visitors from out-of-town next week.

To-night the store remains open until 10 o'clock.
