Port Hope, May 30.—The first game of Senior C.L.A. ever played in Port Hope took place here today before about 1500 people. It was the best exhibition of the game seen here for some time, and, under the home team showed lack of practice, it was a victory by a score of 5 to 3.

The game started at about 2 o'clock, and the first period was a very close contest. Only one more goal was scored in the first period, and that was taken by the Tecumsehs just half a minute before the quarter ended. Port Hope scored the next goal in half a minute, and the next in 10 minutes, and at half-time the score stood 2-1.

In the third quarter the Tecumsehs scored one, while the Shamrocks failed to score. The Shamrocks scored two, while Tecumsehs only scored one. This left the score 4-2. Port Hope's second goal was scored in the fourth quarter, and the Shamrocks showed lack of practice in their shooting and passing. The Shamrocks scored two more goals, while Tecumsehs failed to score. The game ended with a final score of 8 to 0.

## KILLED IN BICYCLE RACE

Harry Elkes Loses His Life by Bursting of Tire While Following Motor.

### WAS MAKING WORLD'S RECORD

Victim Picked Up Unconscious and Died on the Way to Hospital.

Cambridge, Mass., May 30.—Harry D. Elkes of Glen Falls, N.Y., the premier motor race follower of the United States, was killed, while following another well-known motorist, F. A. Gately, a motor steersman, was seriously injured in an accident at the initial bicycle meeting on the new Charles River Park track this afternoon.

The accident occurred on the first lap of the 10th mile of a motor race, and was due to the bursting of the rear tire on Elkes' wheel, at a point where the track bank is an angle of about 45 degrees.

Elkes tried to stop his machine, and, in doing so, was thrown over the handlebars, turning a complete somersault, and, with his wheel, rolled down the embankment directly in front of Stinson's motor, which was manned by Gately.

The heavy motor struck Elkes, throwing Gately and the machine over him, while Stinson, who was following, fell. At the time of the accident, Elkes was well in the lead, having made new world's records for the 5 to 10 miles. The injured men were picked up and sent to the hospital, Elkes dying on the way.

The track is a five-lap one, and the principal attraction of the afternoon was a 20-mile paced race between Elkes, Stinson, Walworth and Moran. The first three were following single motors, and Moran was paced by a tandem. Stinson took the lead at the beginning of the race, with Walworth second, Elkes in third place, Moran being out of it from the start, but following rapidly behind. In the fifth mile, Stinson's tire burst, and he was forced to stop. His time for the five miles was 52.13, beating the world's record.

In the seventh mile, Stinson broke a chain of his second machine, losing a chain before he could again get into the race. Elkes was well in the lead, his time for 10 miles being 12.30.35, still well ahead of the world's record. At 15 miles, Elkes' time was 18.04, another world's record. In the first lap of the 10th mile, Elkes' rear tire exploded, and the motor which cost him his life came. The track attendants rushed to Elkes, and found him unconscious, with a terrible gash in his head. Stinson cut severely about the head and face, while Gately was removed from the track and placed in an ambulance, to be sent to the Cambridge hospital. The motor was forced by the vehicle was out of the grounds.

The race was continued by Walworth and Moran, the latter winning, completing the 20 miles in 26.20.25. Harry D. Elkes, the victim, has been prominent as a motorist for many years, having raced both in America and abroad. He returned from Europe only a few weeks ago, and was entered in the elite race representing the Philadelphia track.

## TAILORS AND PRESSERS.

No Strike To-Day, But Committees Meet Again.

The Executive Committee of the Tailors' Union were in session at the Palmer House on Saturday afternoon for four hours. Samuel L. Lauder, the international representative of the union, took up the several arguments for the men, while Secretary Miller of the Contractors' Association represented the Masters.

The following proposition was offered by the tailors. All pressers receiving \$12 and under to get an increase of 10 per cent, the hours to remain as they are at present, 52 hours a week; all over time to be paid at the rate of time and a half; legal notice to be paid for every six journeys, to be served on the men, and the several millers of the Contractors' Association represented the Masters.

OF INTEREST TO FARMERS.

Crossings Must Be Repaired at Their Own Expense, Says Judge.

A decision of much interest to farmers has been handed down by Mr. Justice Street on Saturday. The case was tried at St. Thomas in April last.

It was brought by a farmer named Palmer of Yarmouth Township, in the County of Elgin, whose lands are crossed by the Michigan Central Railway. Years ago the company built an overpass over the crossing, but it was found to be unsafe, and the company refused to repair it.

The judge found in favor of the farmer, and ordered the company to repair the crossing at their own expense. The company appealed, but the judge's decision was upheld.

The judge's decision is a landmark case, as it establishes the principle that a railway company is responsible for the safety of its crossings, and must bear the cost of repairs.

The case was heard in the County Court at St. Thomas, and the judge's decision was a surprise to many, as the company had argued that the crossing was a public highway, and therefore not under their control.

## AN ACCIDENT A MURDER?

Correspondent Who Has Made a Study of Crimes Analyzes the Evidence So Far Adduced in Collingwood Case.

Editor World: As one who has made the study of criminals and crime a particular hobby, the Collingwood mystery is extremely interesting. While in the colonial service of her late Majesty, my opportunities for the indulgence of this somewhat gruesome hobby were not limited, and I made the most of them.

On leaving the service I took a trip down the South Pacific in search of health, and spent three months at New Caledonia, the French penal settlement, an island practically populated by thousands of criminals, whose crimes illustrate every imaginable shade of horror and atrocity.

It is not my present intention to enter into any psychological theories which I may have arrived at as the outcome of my observations in actual contact with criminals, but the foregoing remarks are merely illustrative of an interest in crime very far removed from the morbidly unhealthy, and altogether an excuse for the above remarks.

Points of Contradiction. Nevertheless, I have read such glaringly contradictory reports of this case as have been published in the press, and I am convinced that the truth is somewhere between the two extremes. The contradictions are as follows: 1. The fact that the bullet did not pierce the handkerchief.

KILLED BY BURST WHEEL

Albert Holden, Mill Hand at Parkdale Rubber Works, Meets Almost Instant Death.

8-TON BIT OF WHEEL FLIES AWAY

Crashes Thru Roof and Goes Up 150 Feet in the Air—Many Escape.

Albert Holden, mill hand at the Gutta Percha and Rubber Co. factory in Parkdale, was thrown about 25 feet against a brick wall, by the force of the bricks dislodged by the flying part of a 15-ft., 20-ton bit of the reclaiming factory. This happened at 11:40 Saturday morning, as soon as possible Dr. Hunter, Burns and Lowe were summoned to give the necessary assistance. They immediately sent for the ambulance, but it was of no avail, as Holden died on his way to the Westcoast hospital. His skull was fractured and several ribs broken, besides an sustained severe internal injuries.

Wheel Struck Him. Holden was returning from the engine room of the works where he had been carrying a pan of hot water when he came upon the reclaiming factory. ## A MESSAGE TO MEN

Is Your Back Weak? Do You Dragging Pains? Are You Easily Tired? Have You Varicose Veins?

If you have any of these symptoms, or any other sign of the weakness of your nerves and vitality, you will find new life in Electricity. You will say as Mr. Richard Pincombe, of Poplar Hill, Ont. Read his letter:

Dr. McLaughlin, Dear Sir:—The Belt is simply perfect. It did for me what doctors have been trying to do for me for years. It has given me new life and vitality. I am now as well as I ever was. I am now as well as I ever was. I am now as well as I ever was.

I don't see how anyone can doubt the value of Electricity as the most natural of all remedies for the cure of ailments which afflict the human body.

## ELECTRICITY IS THE REMEDY OF TO-DAY

Take the case of Mr. Frank Mitchell, of Dunbarton, Ont. This is his letter—

Dr. McLaughlin, Dear Sir:—The Belt is simply perfect. It did for me what doctors have been trying to do for me for years. It has given me new life and vitality. I am now as well as I ever was. I am now as well as I ever was. I am now as well as I ever was.

Read this letter from Mr. Alfred Rounding, Sarnia, Ont. This is what he says:—

Dear Sir:—I must say that I thank you very much for what your Belt has done for me. I feel like a new man. I feel like a new man. I feel like a new man. I feel like a new man. I feel like a new man.

My business is a success. I am now as well as I ever was. I am now as well as I ever was. I am now as well as I ever was. I am now as well as I ever was. I am now as well as I ever was.

I don't want your money if I can't cure you. I don't want any man to buy my Belt on speculation. I take all the chances. I am not advertising that I give my Belt away. I am willing to cure you before you pay me. All I ask is that you give me reasonable security. You may then use the Belt at my risk and

## PREACHED ON GAMEY CASE

Rev. J. E. Starr Scores Politicians Generally for Corrupt Practices.

## ELECTION SAW-OFFS ARE WRONG

Representatives Here Automatic Pastors—At Other Churches in the City.

Thoroughly earnest was the discourse of Rev. J. E. Starr at Bathurst-street Methodist Church last night. His topic was, "The Attitude of the People on the Gamey-Stratton Case." The keynote of the evening was struck when the congregation sang with deep emotion the concluding hymn, "God Save Our Native Land."

Had there not been diseased conditions in the body politic of Ontario, said the pastor, there would never have been thrown to the surface such a putrid mass of evidence as had been revealed in this case. As soon as the charges were made the attitudes adopted were according to party interests. The wrong to the state was lost sight of. One would have imagined that the Ministers of the Crown would have desired to get at the truth, but they merely became a defence.

There was no excuse for this attitude. Not in twenty years had there been a moral issue between the parties. Since Sir Oliver Mowat's promise of prohibitory legislation it had been merely a question of "in" and "out."

The speaker would suggest a much less expensive method of legislation. He would substitute the issue raised by Edson so that they could rise and speak. These could be distributed, two to each constituency, properly labelled "Conservative" and "Liberal." They could be voted for, and the winners shipped back to settle down in the chairs in Queen's Park. This twice a year would be a page book could poke them into activity.

Citizen Should Judge. Let the sensible citizen read the evidence that had been adduced, and he could not help seeing that wrongs were being done to the state. The citizen ought to speak out without regard to parties.

Some might say that preachers should not preach politics. He was merely preaching the gospel. There was scarcely a political question in his mind. He had his centre about a moral nucleus. Ministers were supposed to preach the gospel so that it would hit home. Moral interests, however, supersede material or party interests.

Could a minister of the gospel neglect to perjure, or pursue a policy of chicane? No? If the Bible was true, another wrong that was being done was the saving of election trials. The electors were thereby defrauded of their rightful representatives. The revelation seemed hostile to party interests as to what should be exposed and what concealed.

Whether or not money passed between Stratton and Gamey—as to which he thought the public were entitled to an independent attitude could the country be brought back to its pristine purity. The politicians were as honest as the people who sent them to the legislature—the guilt was the voters'.

At St. James' Square. Both morning and evening services at St. James' Square Church yesterday, in connection with the celebration of the jubilee, were conducted by Rev. J. Munro Gibson, D.D., of London, Eng. The church was crowded much beyond its capacity on both occasions, and many people were unable to obtain an entrance.

Dr. Gibson, in the morning, dwelt on the pentecostal year, looking back on the work which had been accomplished during the past half century. In the evening he spoke of the pentecostal day, and the work which is to be done by the church in the future. He took as his text the words "Not by might nor by power, but by my spirit, saith the Lord." The church has a noble record, is a great force, and has much influence behind it, but there must be a demonstration of the Holy Spirit, on which alone they could rely for success.

A platform meeting was held in the church in the afternoon, at which the Rev. Alex. Gilray, D.D., of College-street

## How to Furnish a Seven-Roomed House at Simpson's for \$500.00.

Parlor, dining-room, kitchen, vestibule, hallway, stairs, landing, front bedroom, second bedroom, sewing room and bath room furnished complete for \$500.

SPECIAL DISCOUNTS TUESDAY.

June, the month of brides and roses, the month which launches so many hopeful young housekeepers into the mysteries of housekeeping. June is here to-day, and we inaugurate its arrival by a great effort to impress upon all those who are going to furnish houses this month that at Simpson's money goes furthest. The burden of the story to-day is that we can furnish a nice cozy little house tastefully, comfortably and well for \$500. Of course you may want a simpler house to begin with, which wouldn't cost so much, or you may very easily have planned a much larger expenditure. The point is that a \$500 house will give you a splendid foundation to go by. You may get an accurate idea from this little model house we describe to-day of what the one you have in your own mind would cost at this economical store. Those whose plans just about fall into line with the average figure we quote—\$500—will find it of much greater saving if they will follow the programme as we have laid it out for Tuesday. Tuesday we have grouped special values in every department contributing to the furnishing of a house, and while of course we will vary the details to suit the purchaser, the exchanges must necessarily be at regular prices.
