· ART OF GOOD SPEAKING

Senator G. W. Ross Speaks to Uni versity College L. and S. Society.

Starting on their new term last night n Convocation Hall, the members of ing to an address from Senator G. W. Ross. T. A. Russell, B.A., the new president of the society, delivered his inaugural address and J. L. Ross, B.A.,

Senator Ross was in a reminiscent frame of mind. He remembered when Toronto University had a teaching staff of but 16, whereas now it had 400 or more; also when it had 353 students in arts, while this year there were 1499 enrolled. He also remembered when women were barred from colleges and how legislators had turned quite pale when the subject was breached. Pointing out the advantages which students could obtain from active association with the Literary Society, Senator Ross said the art of good oral expression was one of the chief. Thru 37 years of public life he had known many men who were highly gifted as public speakers, and among them he could recall none more forceful than Sir John A. Macdonald.

By its antiseptic influence Dr. A. W. Chase's Ointment prevents all-danger from blood poisoning when applied to scalds, burns, sores and wounds.

It is soothing and healing. Takes out the fire and inflammation, heals up the sore, forms new, soft skin.

Dr. A. W. Chase's Ointment is best known because of its wonderful record in curing eczema, piles and all sorts of itching skin diseases.

There are a score of other ways in which it is invaluable in the home. Dr.A.W.Chase's

Ointment has no substitute which can be compared to it as a means of stopping itching and healing the skin. Hurrah for the winner! It takes nerve and red blood to win! Success to the athle to men in every walk of life depends upon Vim and Vigor as much as good generalship. The "staying quality," the tenacity of purpose, that carry off the honors in the field of athletics are born of a vigorous nervous system, powerful muscles and a bounding pulse, and it's the same qualities that constitute the foundation of success in every occupation. Rightly the world heaps honors upon the men of "push" and frown upon failure. "Victory to the brave, the battle to the strong."

Many a successful man of to-day-you can find him in the workshop, the mill, on the farm or holding high official position—remembers the time he sought my aid, and dates his success, his happiness in life, from the time he discovered and applied my grand remedy, ELECTRICITY. This wonderful force, when applied with the Dr. McLaughlin Electric Belt, is Nature's true Invigorator. It has made thousands of weak men strong and vigorous; has enabled them to turn defeat into victory; to achieve the success in this world that comes only to him who is able to put up a strong fight, a long

fight, to conquer the obstacles that are ever in the path to fame and fortune. The most powerful factor that has made my business a success is the warm recommendation given to my appliance by the men who have used it, and I continually place this evidence before you, day after day, week after week, month after month. You know that you are not the man you ought to be. You don't want to be a "misfit" forever. In this day of vast opportunities you can't afford to be merely a spectator all your life. Get some "live "ires" in your system! Build up your "Nerve Power" by a constant, steady infusion of the Electric Current, night after night, for a few weeks. Use the Dr. McLaughlin Electric Belt! It has transformed thousands of physical wrecks into successful men and women in the past, and is doing the same work to-day. Get on the "firing line!" Strike ful men and women in the past, and is doing the same work to-day. Get on the "firing line!" Strike out to the right, to the left, and the world will make room for you! Just read what people say who take my advice and use this Belt.

VARICOCELE-WEAK BACK - NERVES.

Dr. McLaughlin:

Dear Sir.—A short time ago I purchased one of your Belts. I am very pleased to say that I have received great benefit from it in every way. My Varicocele is almost gone and my back is much better. Before using your Belt, my nerves were in pretty bad shape—so bad that it interfered with my work. Any man can easily know what this means to me, as my health is greatly improved also, and I feel better than I have for the last five years, and work. Any man can easily know what this means to me, as my health is greatly improved also, and I feel better than I have for the last five years, and only wish I had had one of your Belts before. I have spent a considerable sum of money one way or another for different drugs, and to tell you the truth only wish I had had one of your Belts before. I have spent a operation, as that is what a doctor told me in a London, England, hospital. I I never thought there was a cure in the world for varicocele except an operation, as that is what a doctor told me in a London, England, hospital. I have for your kindness and all you have fone for me. You are at liberty to make any use of this you like in any of the papers, as I know it is thank you for your kindness and all you have fone for me. You are at liberty to make any use of this you like in any of the papers, as I know it is thank you for myself. I intend to recommend your Belt whenever I get a chance, as I think it is a God-send to any person to be in all true, as I have proved it for myself. I intend to recommend your sespectfully,

ALBERT RALPH.

YOU NEED NOT PAY UNTIL CURED

So pronounced are my cures, so strong is my faith in my belt ask is that you give me security for the Belt while you wear it.

"EMPRESS" BADLY DAMAGED May Have to Go to England for

MONTREAL, Oct. 15.—(Special.)—It has been decided that the passengers booked for the Empress of Ireland, scheduled to sail from Quebec for Liverpool on Friday of next week, will be transferred to the Corsican, of the Allan Line, leaving on the same day.

After the accident of Thursday the Empress was only able to make eight miles an hour, proceeding to Quebec and arriving with 17 feet of water in the hold. After temporary repairs the After the accident of Thursday the Empress was only able to make eight n'iles an hour, proceeding to Quebec and arriving with 17 feet of water in the hold. After temporary repairs the Empress will steam to Halfax for drydocking, as the Levis drydock is not barge enough. It is possible that she may be patched up sufficiently at Quebec to cross the Atlantic for permanent repairs/ but if so she will carry no passengers.

It is not known yet whether the Empress was only able to make eight estate on Summerhill-avenue, adjacent to Reservoir Park. This is the property the city lately declined to purchase for park purposes.

Thru H. H. Williams, the purchase was made on Thursday, for the same price which Property Commissioner Forman considered \$1000 too high, viz., \$63,500. Since they secured it, the purchasers have refused \$10,000 in advance of that figure.

no passengers.
It is not known yet whether the Empress struck a sunken derelict or whether she ran in too close to shore and grazed the ledge. An investigation will be, held.

HELP FOR THE "ATHABASCA" Alberta" Leaves, and Government Steamer "Simcoe" is Ready to Go.

CWEN SOUND. Ont.; Oct. 15.—(Special.)—Superintendent Buchanan, who left for the scene of the mishap to the S.S. Athabasca, grounded on the Flower Pot Island, in the Lake Huron-Georgian Bay Channel, this morning telephoned that the steamer was six feet out of water forward, and with sixty feet of water at her stern, and she would have to be lightered. A big howlder had penetrated the bottom. bowlder had penetrated the bottom, and the vessel was leaking badly: He asked that the Alberta be despatched at once, and she cleared at 2.20 with filty freight handlers.

Mayor Harrison later received a messnge from Parry Sound offering to

send the Dominion Government steam-er Simcoe. The message was forwarded to Superintendent Oborne at Toronto, who, while expressing appreciation, said that in all probability th Alberts and the two tugs would do the work. However, the offer was for-warded to Superintendent Buchanan at Tobermory. The cowerful tugs Tra-veler and Mongelia and a lighter of the Playfair Wrecking and Towing plant are also available The point on the Flower Pot is said

to be very near where the steamer Manitoba went on fifteen years ago, and was released by similar methods to those row being employed.

PORTED CIGAR?

Bananas ripened on the trees in Jamaica are vastly different in flavor from those imported into Canada.

Cigars brought from Havana to Can-ada are different in flavor from those made in Canada of Cuban tobacco.

The sea voyage affects the flavor of cigars in boxes-while it does not leaf tobacco packed in specially constructed bales.

"Nobleman" Cigars are made in the Davis factory of the cream of the Cuban crops. "Nobleman" Cigars have the delicate aroma and delightful flavor of the natural leaf.

We bring half a century's experience to bear in selecting and blending the Cuban tobacco used in making "Noblemen" Cigars.

We offer you a better cigar in "Noblemen" than you can buy in imported brands at double the price. And "Noblemen" prove it.

O'KEEFE'S Special Extra Mild Ale is a distinct and special brew. It is more than a light ale. It is Special Extra Mild-so light that it agrees with the most delicate stomach and will not cause Biliousness or Headaches.

The O'KEEFE Brewery originated this delightful Ale and gave it the very descriptive name -Special Extra Mild Ale.

If you have been drinking a Special Extra Mild Ale at all, you have been drinking O'KEEFE'S. Thus, you are familiar with the richness and delicious flavor of this masterly brew. As there are now other ales bearing the title Special Ale, we

caution you to specify O'KEEFE'S whenever you order Special Extra Mild: Don't merely ask for Special Ale or Special Extra Mild-

INCIDENCE OF ASSESSMENTS.

A petition is being circulated and is being largely signed, it stated, in 200 Ontario municipalities, asking that municipalities be permitted to tax improvement values at a lower rate than land values; business assessments, incomes and salaries to be classed with improvement values, and the difference in the rates, in every case, to be determined by the municipality.

It is obvious at once that the last clause could not be passed by a legislature which refuses, as in Ontario, to permit the bonusing of any industry. Any discrimination allowed to municipalities in the incidence of taxation could easily be manipulated for that

If the discrimination asked for was made general by the legislature, the effeet would only be temperary. In a short time the taxes subtracted from the business and added to the land would be included in the rent, and the tenants would be no better off. Where the business man owns both land and building he is indifferent about the division, and anxious only about the tax

The agitation is associated with the Yonge-street assessment. It is quite clear that any change in the incidence of taxation here from tenant to landlord would quickly be adjusted thru rentals. The tenant always has to pay the taxes, tho the landlord always tries to have it appear that he is the man

EATON'S DAILY STORE NEWS

Monday We Inaugurate Fashion's Fall Festival

Some of the glory and bewildering beauty of Canadian Autumn is transplanted to the store, and with pillars festooned with Autumn leaves in their peerless beauty, and darting, glittering gold fish in their little aquariums, suspended from golden scrolled supports, hanging baskets resplendent with the fruit of the land and twinkling lights everywhere, the Store has donned a festive garb to proclaim the enthronement of Fashion in the realm of newness of style, weave, color and effect—a Festival emphasizing the complete preparedness with which every section gladly bids you welcome.

Mr. Paul Charbonneau, a young man well-known in the town of St. Jerome, Que., is one of the host who fear testimony to the value of Tr. Williams Pink, Pills. He says. Williams' Pink, Pills. He says.
When I left school I became a book-keeper in an important office. Probably due to the confinement I began to suffer from indigestion and loss of strength. I became pale and seemingly bloodless, and was often seized with palpitation of the heart and violent headaches. I tried several remedies, but they did not do me a fift of good. I was advised to try Dr. Williams' Pink Pills and did so, and the use of eight boxes brought the back to perfect health and trength. I have since enjoyed the best of health and cannot say too much in praise of this valuable medicineer.

You can get Dr. Williams Pink Pills from any medicine dealer or by mediat 50 cents a box or six boxes for, \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Free-Edward Freeland and the Wm. Free-iand estate, represented by the To-ronto General Trust, were desirous of finding a purchaser. Assessment Com-missioner Forman says that at this time the city might have obtained an option subject to approval by the leg-islature. This course was not, how-ever taken, but as the commissioner acted under instructions, the blame appears to rest upon the board. He was asked to make a valuation, and estimated the property was worth \$255,000. When tenders were advertised for, it was too late to secure an op-tion, but Mr. Forman acquainted the owners with the fact that the city

"We venture to say that all the strenuous work and labor undergone, sufferings and starvations, and sarrifice of human life during the long period thru which explorers in search of the north pole have been gits placed upon the altar of individual honor and glory, rather than as adminis-tering to the advance of scientific knowledge or to the general good of for the Applicant. knowledge or to the general good of

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and wirllity, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

An Opportunity to Double Your Money Without a Risk of Losing One Cent.

The many tempting propositions put before the public to-day to invest their savings, carry with them a greater or less degree of uncertainty.

ONE chance to increase the amount invested, and TEN chances to lose all. A few dollars invested with me to-day will double in a very short time, with absolutely no chance to lose one dollar.

In the last few days we have witnessed the drop-PROPOSITION ping of two of the strongest mining stocks on the market. One stock alone depreciated over three millions of dollars in one day. I offer you Real Estate in a growing city. Real Estate in growing cities is ever increasing in value, with practically no chance to depreciate.

I have for sale Lakeview Sub-division, Regina. Lakeview Sub-division practically adjoins the Government Grounds, on which the new Parliament Buildings are now being erected at a cost of \$1,500,000. These lots are 25 feet wide by 125 feet deep, all well located, and each lot guaranteed to be high and dry.

THE Regina has at present a population of 12,000. Regina's assessment in 1906 was \$7,100,000; in 1908, \$13,412,180-practically doubled in two years. Regina's building permits for 1905 amounted to \$750,000. Buildings at present under construction total \$2,210,000. Regina has a Postoffice, built at a cost of a quarter of a million dollars. Regina's City Hall cost \$150,000. The Dominion Exhibition will be held in Regina in 1911. What city can show a better record than the above?

It is, therefore, quite safe to say that property at the price at which I am offering lots in Lakeview Sub-division will undoubtedly double in

Money invested in Real Estate is absolutely safe. If for any reason it should not increase in value as soon as expected, your money is certainly safe, at least. Stock manipulators cannot move the property, and this is an assurance that your savings will not be taken from you. The penitentiaries are full of wreckers of banks and loan companies. Put your savings beyond reach of such as these. Invest to-day in a lot in Lakeview Sub-division—\$10 cash and \$10 per month will buy a lot. Price of lots, \$100 to \$150, according to location. Send \$10 for each lot desired and secure the best location.

Write for free map of property and booklet, giving valuable information about Regina.

Port Arthur—Fort William TO LET

THE TWIN CITIES

Combined Population 32,000

The Greatest Cities of the World are at the National Ports of Transhipment

We believe this to be absolutely true. It is the case with London, New York, Montreal and Philadelphia. On inland waters, it is true of Chicago, Buffalo, and Duluth. To the same degree that the principle of transhipment applies to other cities, does their importance stand or fade commercially. This is the case in such cities as Toledo, Milwaukee, Ashland, Wisconsin and the river cities of the middle west. Port Arthur's position is superior to all of these. It monopolizes with Fort William a unique national position.

The Position of the Twin Cities is National

The Dominion Government have taken over the harbors and made them, national ports.

At the head of Thunder Bay, there is bound to be one of the largest cities in Canada. The city will grow as the country grows. The city is the home of the world's greatest steel tank elevators, and three great transcontinental systems of railway. There are miles of freight sheds and tens of miles of sidings. The street railway system is making money—so is everybody.

KERR LAKE SECTION

Earners and Dividend

Bar silver in London, 23 7-16 oz. Bar silver in New York, 50%c oz. Mexfean dollars, 43c. Shareholders of the Kerr Lake Mining Company came in for another windfall yesterday in the shape of an increased dividend. The quarterly dividend was raised from 6 per cent, to 7 per cent, so that the stock is now paying dividends at the rate of 28 per

cent. per annum.

The mines of the Kerr Lake district are in the van as earners and dividend payers. It is admitted that Kerr Lake could pay a much larger annual dividend end than 28 per cent. If it would stope out a moderate quantity of ore it is blocking out. Dividends now being paid come practically from development ore. If Kerr Lake stoped out half of the ore it is blocking out it could probably pay as high a dividend as Crown Reserve, which is now paying dividends of 60 per cent, per annum.

The mines of the Kerr Lake district an ore body.

While the Right of Way Company has made an excellent record as a shipper and dividend payer, its mining rights along the railway track are not sufficient to make it one of Cobalt's permanent mines.

The engineers who laid the line of the T. & N. O., had no control over Cobalt veins and the north cross cut driven for development purposes from the old Right of Way shaft, has been in barren ground.

Practical Fraternity Supplement Local Operations.

Cobalt has been stricken by a typhoid epidemic which, following so closely upon the conflagration of some months ago, is causing great suffering and has overtaxed the already severely strained local resources and facilities. The municipal and health authorities, with local resources and conflagrations and other interests here. the coming season in Massey Hall, and also in their own auditorium on Col-lege-street. The attractions include the celebrated Cambrian National cal mining and other interests, had done wonders towards relieving the suffering caused by the great fire; but when typhoid invaded the town, tho celebrated Arctic explorer, who was with Cook on his last expedition to the north pole. NEW YORK STRONGER

Our information from New York is that better buying of Cobalts is transpiring at that centre than for months past. We see also good buying in our own market and putting the two together we conclude that improvement is prices is purely a matter of time.

The usual thing with stocks is that they jump into activity and rise in price almost unexpectedly. Knowing this, the sale course is to buy when trading is quiet and prices are low. Both of these conditions exist now. We have a special list of stocks which we are advising our clients to buy. Send for this and entrust us with your buying or selling orders.

Friday Evening, Oct. 15.
A strong upward swing in American securities left room for bullish operations in some of the more speculative issues on the Toronto market to-day. Interest was mainly concentrated in Dominion, Coal and Dominion Iron, both of which advanced beyond yesterday's figures on moderately heavy

The actual developments during the day were not of particular importance. We continue builish on the market as a whole and firmly believe that those who maintain a kullish position will be amply rewarded. The rise in these shares is now resarded among traders as one purely epeculative, and professionals are will-ing to operate on either side of the stocks, according to the strength imparted to them by the insiders.

Mackay and Twin City advanced in consonance with the improvement in the speculative position, but elsewhere in the market transactions were small

parted to them by the insiders.

Mackay and Twin City advanced in consonance with the improvement in the speculative position, but elsewhere in the market transactions were small and enquiry from the outside quite light.

Sales of Toronto Electric Light and Sao Paulo are now definitely traced to the cleaning up of long accounts of suspended Toronto Stock Exchange firm. The offerings of Sao Paulo were easily absorbed by new buyers and by the outstanding short interest in the market. This, however, was not the case with Toronto Electric, which lacks a short interest and an entire absence of buying power owing to the opposition which the company is bound to meet from the municipal plant.

The financial interests which are holding the Toronto Electric stock as collateral appear to-day to have concluded that it is inadvisable to not out.

Friday Evening, Oct. 15.

Except for weakness and irregularity, due to liquidation of long stock carried by the late firm of Wyatt & Co., the Toronto market to-day was much stronger. With the turn in the market, speculation has again centred in Dominion Coal and Dominion Steel shares, but neither of these has yet reached the price made on the last advance. Sentiment was again helped by Wall-street buoyancy, but most of the speculative business was among those in the closest kind of connection with the market. Financial institutions are holding some securities, awaiting buyers, among which are Toronto Electric Light, and these will be on sale every time an actual buyer puts in an appearance. HERBERT H. FACTS.

We reproduce a cut showing the building purchased by us as the future home of Patriarche & Company. It is a magnificent piece of architecture, and one of the handsomest in the city. It was formerly owned and occupied by the late Ontario Bank as its Head Office. We are fitting up the entire ground floor for the general offices of Patriarche & Company. The rest of the building is rented to tenants. The income on the investment is a very substantial one, but we purchased this with another object in view, and that object is to give confidence to our clients who deal with us on a margin basis. The purchase of the building by Patriarche & Company at a cost of over \$100,000 gives a security that cannot be doubted in any way. It shows that we have come to stay, and that your business will be looked after. We can make money for you, and we are here to do it. By making

money for you we obtain your good-will and your clientage. We not only wish to retain the clients we have already secured, but we wish new ones.

We endeavor to advise the public of the best purchases, whether they deal with us or with other firms, and give them the benefit of the knowledge that we obtain of the different mines and their operations. You must remember that the time to buy stocks is when no one else wants them. Don't wait until a bull market is on, because the other fellow gets the pro-fit beneath you. From every indication it is quite apparent that an upward swing of the market will take place shortly, and large profits can be made by investors at the present time. We venture to say that you cannot invest money to greater advantage than in Cobalt mining shares at the present level. Send us your orders, but BUY NOW.

Purchases on the market are Right of Way, Beaver, City of Cobalt, Hargrave and Otisse. These will all make substantial profits.

NEW YORK STOCKS, CHICAGO GRAIN, etc., dealt in on moderate margin. Why keep your money on deposit at 3% while opportunities occur weekly that will make you 100%. Fortunes are made by DOING THINGS. Five Hundred Dollars invested in Crown Reserve is now worth One Hundred and Fifty Thousand Dollars. You can do as good. Follow our advice

THE RIGHT OF WAY MINING COMPANY

The best buy in the listed securities to-day and an opportunity of great merit is the purchase of the Right of Way mining stock. This Company secured four miles of the best territory through the heart of the Cobalt camp, the lease being granted in the fall of 1906 direct to the Company from the Government. In 1907 the Company paid 14% dividends, the same in 1908. In 1909 a quarterly dividend of 6% was decided upon, with bonuses as the financial position of the Company would warrant; 37% has been paid to the shareholders during the present year, the last dividend being on the 1st of October. This Company has always adopted the policy of keeping a large surplus on hand to insure systematic methods of mining and regularity in the payment of dividends. They have over \$150,000 cash on hand applicable for dividends at the

A short time ago an opportunity occurred to extend the operation of the Company to the Kerr Lake district, adjoining the Hargrave properties on the south, and consisting of ninety-two acres. These claims lie immediately southwest and east of the Hargrave, Lawson, Crown Reserve, Kerr Lake and Drummond mines, and northwest of the Beaver and Temiskaming mines. They are in the centre of the richest district in the Cobalt camp. There is to be an issue to the present shareholders of three share for one without cost. This will take place within the next two weeks. You will make at least double your money by getting the old stock now. An investment here will more than double your money, and return you a very handsome profit in the shape of dividends at better than 14% per annum on the money invested.

We expect to see Right of Way stock sell above Crown Reserve.. Crown Reserve sold at 15c per share, so did Right of Way. Right of Way has better properties than Crown Reserve, and the shareholders are going to reap the benefit. It has crept up to be the fourth largest shipper in the Cobait camp. It was the fourth largest shipper last week, and the fourth largest shipper for the whole year. It will climb into third place next.

We recommend this stock absolutely as a money-maker on account of the vigorous policy pursued by the Company in its operations. There are over one hundred and twenty-five men at work. With lots of cash and regular dividends, there is only one thing that this stock can do, and that is go up. If you do not send us your orders send them to you broker. If you will not take our word, write to the Mines Department of the Government, and they will let you know what this Company has done. Don't let anyone put you into something that is not equally as good.

He expected a sale to total \$750, so one can see his sale was small. But three or four buyers came a long distance thru the rain, for it was a bad day, and these men knew no neighbors who are often afraid to outbid one another. The result was that the sale totalled \$1060. Mr. Geo. Jackson, the auctioneer said: "I believe that The World ad. and the presence of The World representative made Mr. Stone twenty times the price of the expenditure. Postmaster John Howden of Whitby says Sugog has one of the cleverest women of Canada as her resident. Miss Adams richly deserves the compliment. She farms about 250 acres of the choice clay lanks of the seland and does it well. Some years ago her father died, leaving the place in somewhat encumbered circumstances. With a woman's hopefulness and the enthusiasm of youth, Miss Adams not only placed the farm on a good financial shals, but made it a producer of the first class. It is only another instance of what push and enterprise can do in Old Ontario.

To-day the 100-acre farm in Ontario offers more opportunities to the bright young man than almost any other occupation.
