

ADVERTISEMENTS IN THE TIMES YIELD RESULTS.

THE EVENING TIMES.

THE WEATHER. Westerly winds, fair and milder to-morrow.

VOL. I, NO. 170.

ST. JOHN, N. B., TUESDAY, APRIL 18, 1905.

ONE CENT.

A GREAT CROWD OF IMMIGRANTS.

Mount Temple Landed 1913 at Sand Point Today--They Were a Cosmopolitan But Healthy Looking Lot--This Number Is a Record.

The largest number of immigrants which have ever been landed at this port by any one steamer were brought here this morning by the C. P. R. steamer Mount Temple, Capt. Forster, from London and Antwerp. The passengers numbered nineteen hundred and thirteen, and were a very cosmopolitan lot, including Galicians, Italians, Belgians, Swiss, French and Jews.

During the voyage there were five deaths, all young children, who died from infantile diseases. There was only one second cabin passenger, Mrs. Sheelock. Pursor Fairhurst and Dr. Dunn, looked after the passengers in good shape, and report that they are a good lot. As soon as the passengers and baggage are put ashore the steamer will move to No. 1 berth, which will be vacated by the Manchester boat which is at present there. The Mount Temple brought out a good cargo for St. John and the west.

Until this morning, a "Times" reporter has never been stopped from boarding a steamer at Sand Point, to gather news of the voyage, but shortly after the arrival of the Mount Temple this morning, a reporter walked up the gangway during a lull in the disembarking of passengers, and was promptly ordered off the boat by Immigration Agent G. L. Sheelock. The reporter explained to explain that he was on business and wished to see the Pursor, Mr. Lantulum, but he was told to make any difference who he was, he could not come aboard. The news-gatherer thanked Mr. Lantulum and retired, but as his business was to get news, he looked about and saw that he could climb from one steamer to the other. This he did, and was so able to get the account of the voyage as above.

On one or two other occasions Mr. Lantulum has shown his authority in a rather disagreeable way. He had to spend a large sum of money for a customs preventive service on the eastern coast.

BRITISH CONSUL AT ST. PIERRE Will Make it Easier for Canada to Prevent Smuggling.

Ottawa, April 18.—(Special)—The trade and commerce department has been advised that a British consul has been appointed at St. Pierre, notwithstanding pressure from the Canadian government for years past, the French government always refused to sanction the appointment of a consul on this island.

THE WEATHER.

Forecast—Fresh southwest and west winds, fair, Wednesday westerly winds, fair and milder. Synopsis—The disturbance north of the Gulf is slowly dispersing and the general outlook is for an improvement in the weather everywhere. To Banks and American ports, westerly winds and fair weather.

THE CIVIC ELECTION.

Very Little Interest Taken in Today's Contest--Returns May Not Be in Before Midnight--A Quiet Day.

The personal of St. John's city council for next year will hardly be definitely known much before midnight tonight as the civic election returns will not be complete until that time.

In former years the polls closed at four o'clock and interested citizens could find out by the time they left their places of business whether Smith, Jones, or Brown would represent their ward at the council board.

This year the polls are kept open until six o'clock. This, coupled with the fact that there are 17 names on the ballot and that in civic elections the wards are not divided into sub-districts, with deputy returning officers and clerks, as is done in the provincial and federal contests but that all the ballots in each ward must be counted by the deputy returning officer and his one clerk will mean a consequent delay in making the results known.

Generally speaking today's election has aroused very little interest. The utter collapse of the citizens' league ticket and the fact that the mayor and Aldermen Hamm, Baxter, Christie, Lewis, Holder, McDoldrick and Macrae got their seats by acclamation detracted greatly from what was expected at the outset would be a very spirited contest. The city this morning presented an almost funereal aspect. Liquor saloons and hotel bars were closed in accordance with the law and there was an utter

HUMORS OF HISTORY--15.

The Bards. B.D. 500 onwards.

"In the time of the Saxons itinerant musicians, calling themselves Bards, travelled about the country and gave entertainments in the houses of the nobles. The custom still obtains, but the patronage of the peerage has been withdrawn."

VIOLATION OF NEUTRALITY.

This is What Japanese Press Charges Against Russia--France is Also Censured--The Latter Country Claims to Be Observing the Rules of War.

Tokio, April 18.—Discussing the presence of vessels of the Russian second Pacific squadron at Kamranh Bay, on the east coast of French Indo-China, the Jiji Shimpo declares that the use of the Island of Madagascar was a direct and prolonged violation of the principle of neutrality, but on account of the distance, Japan in that instance simply lodged a protest. The paper, however, insists that Russia is now using Kamranh Bay as a base for action against her opponent and says she intends to use it as the point for effecting a junction with the remaining division of the squadron.

"Protests" the paper asserts, "are unavailing. The time for action has come." The Nichi Nichi today says France has been a party to keeping the location of the Russian squadron a secret, and adds that France does not observe the twenty-four hour rule, but, the Nichi Nichi continues, "The spirit of neutrality affords no excuse for extending such hospitality to a belligerent squadron," and it expresses the hope that France will take steps to abide by her obligations and duties as a neutral power.

The Ashi Shinbun asserts that France has deliberately kept the presence of the Russian squadron a secret, expresses regret at the fact and hopes the government of Japan will act decisively. Paris, April 18.—The French government has taken every precaution to secure the observance of neutrality in French waters in Indo-China. To this end, instructions have been sent to M. Beau, governor general of Indo-China, calling his attention to the regulations concerning the observance of neutrality drawn up at the opening of the war. These are identical with the neutrality rules observed during the Spanish-American war. It is believed that Admiral Deljeux (commander of the French naval forces at Saigon) in proceeding to

Kamranh Bay (where part of the Russian Pacific squadron has been seen) is following the governor general's instructions. Manila, April 18.—Two unknown steamers have anchored in Lileguyen Bay, Island of Luzon, about 180 miles north of Manila Bay.

The Greedy Kaiser. New York, April 18.—A Pekin dispatch to the Herald says: "Germany has just demanded exclusive mining rights in the prefectures of Teng Chow, Lia and Ching Chow, in the Shantung province. These prefectures cover the entire Shan Tung Peninsula, including the neutral zone around the Foo.

A Naval Decision. Tokio, April 18.—The navy department today declared Tsugara Straits a zone of defense, with the usual maritime restrictions. The Fifth Jap Loan. Tokio, April 18.—It is expected that subscriptions for the fifth domestic loan will be opened on May 1. The amount of the loan will be one hundred million yen (equivalent to about \$50,000,000) and the conditions will be similar to those of the fourth domestic loan.

BIRTHDAY GIFT.

To H. M. S. Dominion, First-Class Battleship, 16,500 tons.—St. John Citizens Liberally Subscribe.

The magnificent battleship Dominion, is one of the four sister ships built by the British government, and recently launched, and which have been named respectively, Dominion, Commonwealth, New Zealand and Africa. They are all of the same tonnage, and are the largest and finest battleships in the British Navy.

HELPLESS INVALID

Passed Through the City Today From Portland, Maine. Mrs. Elizabeth Cornell, of Portland, Maine, was a passenger on the Boston train today. She was accompanied by her two daughters, Rose and Ethel.

Mrs. Cornell is suffering from a brain disease, and is absolutely helpless. Her daughters are very much distressed over their mother's illness, and are taking her East, where she will live with a brother in a rural district.

JOE JEFFERSON.

West Palm Beach, Fla., April 18.—At nine o'clock to-day, there was no material change in the condition of Joseph Jefferson.

A NEW BY-LAW.

It is expected that a civic by-law will be adopted compelling the citizens to provide themselves with respirators. The filth that accumulated during the winter on the streets is now dried up and the air is full of it whenever the wind blows. This dry dust is full of germs and microbes, and things, which the people breathe into their systems. Hence there is danger of an epidemic. Hence the need of respirators. The only other alternative would be to clean the streets or to turn out the watering carts—neither of which is to be thought of for a moment. The civic authorities had some hope that rain would wash this filth into the gutters and on into the sewers, but there is no sign of rain.

Why is a hat?

A correspondent asks if this paper can enlighten him regarding the immediate destination of the Russian fleet. Opinions differ, but the general view appears to be that the fleet will shortly affect a junction with the one that defended Port Arthur.

THE TIMES NEW REPORTER.

The present cold wave, co-incident with the civic elections, is a return of the frost that struck the Citizens' League. Tomorrow will be warmer.

SENSATIONAL DISCLOSURES.

Russian Detective Rounds Up the Gang of Terrorists Who Murdered Sergius--Converts to Assassination in Governor Trepoff's Family.

St. Petersburg, April 18.—Gradually many interesting details surrounding the recent arrest of a band of about a dozen terrorists, are leaking out. The capture, which is regarded by the authorities as being of immense importance, was accomplished by Kaskovsky, the Russian Leecoq, who was dismissed from the secret police service several years ago, on account of his connection with Philippe, the spiritualist, who created such a stir at court, and who went to Paris to live.

Governor General Trepoff, upon his appointment as governor general of the province, induced Kaskovsky to return to St. Petersburg, and within two weeks the detective captured the entire band which had been operating here, under the direction of the central organization, which apparently has its headquarters in Switzerland.

Alfred Henry McCullough, the man killed March 11, by the accidental explosion of a bomb at the Hotel Bristol, whose real name was Baucans, was one of the chiefs of the terrorists, having charge of the manufacture of bombs and Kalieff who killed Grand Duke Sergius also belonged to the same group.

After Baucans' death, Kalieff's duties devolved upon Mile Leontieff, daughter of Gen. Leontieff, who recently was appointed governor of Yakutsk, Eastern Siberia, who became a convert to terrorism during her stay at Lucerne, Switzerland. Kalieff's identity was established through the discovery of a photograph belonging to Savinoff, who had been his comrade both at university and in exile. When Kalieff was charged with his identity he admitted it, saying immediately: "Savinoff had been arrested." The police, later, thought they had captured Savinoff, and so announced publicly. But it turned out that the man held under that name was another, and that Savinoff, whom Kalieff evidently had confided, his intention of killing Grand Duke Sergius, is still safe abroad.

NEWS OF MONCTON.

Shediac Elections---Fire at Lutz Mountain---Petty Thefts Reported.

Moncton, April 18.—(Special)—The civic elections in the town of Shediac which are taking place today are exciting much interest. The fight for the majority is very keen. The candidates are Dr. L. J. Belliveau and Dr. E. A. Smith. There are four aldermanic candidates in each ward and the contest is lively.

KILLED IN THE WEST.

Cape Bretoner Meets an Awful Fate in British Columbian Mine. Vancouver, B. C., April 18.—(Special)—Pinned for hours beneath a huge piece of rock weighing 1,000 pounds, Norman Ritchie, of Baddeck Bay, Cape Breton, died at Granby mine, near Hazelton, a minute before the rescuers succeeded in releasing his body. Ritchie was a mucker boss.

FUNNY MR. BOURASSA

Rushes to the Other Extreme on the School Question--He Asserts That Sir Wilfrid Has Conceded Entirely Too Much.

Montréal, April 18.—(Special)—Henri Bourassa, M. P., delivered one of his characteristic speeches tonight before a large audience at Monument National. The hall was crowded to the doors, and numbers were obliged to stand. The audience was composed of the better class of French-Canadian citizens, of Montréal, and although their applause of what in Ontario would be considered extremist views, was quite generous, there was no tendency towards an excitable demonstration of popular feeling.

THE CIVIC ELECTION.

than under the flag of any other county in the world. He then proceeded to review the history of separate schools in Canada, and in the course of his remarks declared that he would oppose with all his force the amendments introduced by Sir Wilfrid Laurier, and that he could scarcely believe that the federal government would insist on the bills as amended, and thus destroy the rights of the minority. He quoted Mr. Tarte as having written to La Patrie to the effect that the minority in the west would accept the amendments with satisfaction, and while crediting the ex-minister with sincerity, he said that Mr. Tarte had been misled, because the minority would not accept the proposals with satisfaction. Not one tenth had been asked at Ottawa of what had been accorded to the Protestant minority in Québec, and yet there were some who would even deny them the right to speak French or to elevate their face before the cross of Christ. The speaker predicted that the Manitoba school question would never be settled until the minority in that province should receive their full measure of justice. The suggestion that he rose to speak, he began by saying that he had been misled in thinking that the speaker declaring that two wrongs could never make a right.

THE EVENING TIMES, ST. JOHN, N. B., TUESDAY, APRIL 16, 1906

The Crimson Slipper.

BY DORA LANGLOIS.

(Continued.) In spite of his loyalty to the masonry of our friendship which so sternly insisted that confidence should never be demanded, still less surprised in the vulgar way in which mere acquaintances sometimes jolt one's secrets out of one by sudden question, I could not fail to notice when we went into luncheon that Herman's eyes continually left his plate and flitting had retired, he saw with some confusion that I had observed his glance.

never formally adopted her; he does not appear to have been her legal guardian or trustee. It's just about as toward a pillar for Mrs. Grundy to swallow as any girl with her living to make could have to offer. But don't go worrying yourself about other people's affairs, Duncan; you look as if you would do much better to put things at the back of your head and get some sleep.

EDUCATION IN QUEBEC.

Humiliating Facts Set Forth in the Reports of Inspectors.

A Fatal Indifference and Neglect on the Part of the People—Pitifully Small Salaries for Teachers.

The reports of the school inspectors of Quebec province are deplorable. In the Levesque district, F. X. E. Beland states that there are 30 female teachers without diplomas, for the reason that the commissioners and trustees are too poor to pay certificated teachers, while young girls who have no qualifications whatever are frequently availed of for cheapness.

sary to life, who injure or ruin their health for years to come, whose sole consolation is that of having done their duty, when they have given a little happiness to beings dear to them.

CITY GOVERNMENT.

A civic election is in progress in the city today. Not a single public meeting has been held, nor has any candidate done more than say that if elected he will serve the city to the best of his ability.

Dr. Laberge, the chief medical health officer of the city, is of opinion that such a regulation would diminish the danger of contagion, as the removal of the old paper and the use of the paste would have a destroying effect upon microbes and obnoxious insects.

The manager of a gas plant in an Ontario town has been discussing the cost of gas and telling Montreal aldermen that it would be to the city's advantage to have its own illuminating plant.

The greatest obstacle to progress and satisfactory city government is the spathy of the citizens. They elect a city council, or permit to elect itself, and hand over to it the control of affairs, with no apparent interest in the whole matter.

Possibly the recent agitation will prompt some of the old as well as the new members to put forth greater efforts to secure value for money expended, whether in the ordinary departmental work or in public contracts.

PUBLIC HOUSE TRUST.

The views expressed by Mr. Eben Yezina, and the recent general interest aroused in temperance reform and liquor law enforcement, have led some equity concerning methods of reform in England, where it is not a consumption of liquor. On this subject the following letter from Mr. Reginald Cripps of London to the Montreal Witness sheds some light.

"As secretary of the People's Refreshment House Association, which was founded by the Bishop of Chester and Colonel Craufurd, in 1896, for the purpose of managing public houses on reformed lines, I beg to submit that a great deal can be said in favor of our scheme (which has been adopted by the subsequently formed public house trusts)."

The Montreal Gazette makes these observations concerning lobbyists of the present day and those of a cruder age: "The New York Times bewails the fact that the professional lobbyist of today conceals his purpose under the mask of solicitation for the public weal, whereas the old-time promoter frankly approached legislators with a proposition embodying his wants and his limitations as regards payment for their gratification."

It is that legislators have grown superstitious, that the public has become more watchful, or that the promoter himself has simply assumed a veneer which is popular and pays him well? Comparatively recent manipulations in Ontario indicate that however roundabout, the new style of lobbyist is quite as effective as the old, who came with the bribe clutched in his hand."

The Master Painters and Decorators' Association of Montreal has recommended that a by-law be passed authorizing the removal of old wall-paper from dwellings that are being re-papered, and the use of an adhesive paste in putting on the new.

THE EVENING TIMES, ST. JOHN, N. B., TUESDAY, APRIL 18, 1905

BOYS' EASTER SUITS.

We've had so much to say lately about Men's Suits that some may think we're neglecting our Boys' department. But that's not so. We're better prepared with Boys' Suits now than ever before.

Larger Stocks, Better Styles, and Better Values than ever

Boys' 3-Piece Suits, - \$2.50 to \$6.50

MOUNT PEELE AGAIN ACTIVE.

May Have Another Demonstration of the Earth's Internal Vigor.

New York, April 19.—A despatch from Fort de France, Martinique, to the Herald says: "Both on April 13, and April 14, ashes and stones were thrown up from Mount Pelee, accompanied at times by white clouds, emitted from a point south of the main crater. On these days there was an intermittent and rather loud rumbling. The eruption was especially marked on the evening of April 14, when much matter was thrown from the crater, accompanied by abundant clouds of vapor."

During the night numerous luminous points could be seen far down toward the base of the cone. Yesterday (Monday) as well as yesterday and the day before, the volcano remained quiet.

A despatch from Pointe a Pitre, Guadeloupe, to the Herald says: "There was a slight earthquake felt throughout this region on the evening of April 16. Up to this no reports have been received of damage done. No volcanic disturbances have been reported from the other West Indies and as far as local advice goes neither the earthquake nor Martinique has anything to fear in this respect."

A despatch from St. Vincent says: "No activity has been manifested by the Soufriere during the last twenty-four hours. It is believed that a volcano has entered upon another period of quiet."

Prof. Robert T. Hill, formerly member of the U. S. Geological Survey, writes to the Herald, in view of the above despatches: "From the foregoing of its crust, and the renewed activities of volcanoes, at Mount Pelee, St. Vincent, Vesuvius and elsewhere, it appears as if we were about to have another demonstration of the fact that this globe of ours is not a dead planet, but a remarkably live and living world at work."

It is now evident that there are great periods of volcanic disturbance accompanied by earthquakes, alternating with periods of quiescence. When the West India volcanoes exploded in 1902, as they had been exploding at long intervals for fifty million years—there was a general activity at many other localities throughout the world.

Hints to Pipe-Smokers. Don't refill a heated pipe. Lay it away to cool; take another pipe and fill with Rainbow Cut Plug Smoking Tobacco.

MEXICAN S. S. SERVICE OFF. Instead, Canada Will Subsidize a Line to Run to Cuba.

Ottawa, April 18.—(Special)—The proposed steamship service between Canada and Mexico of the Atlantic Coast Line has fallen through. The reason for this is that the Mexican government has refused to contribute anything for a line that calls at Cuban ports on the way to and from Canada. As it is impossible to get any steamship that will take the contract under the terms suggested by Mexico, the arrangements are off. The department of trade and commerce has decided, therefore, to offer a subsidy to a line of steamers to Cuba, touching the Bahamas. Tenders have been sent out for monthly service all the year round between Canada and Cuba, calling at Charlottetown, Halifax and Yarmouth. In summer, the steamer will start at Montreal and in winter the terminus will be Halifax. The department asks to have the line established this season. The proposed line on the Pacific has not yet been started and further negotiation will have to be made between the two governments before this can be done. The proposed line to Cuba, is a monthly one.

SKINNER'S CARPET WAREHOUSES. Are being shown the newest designs and colors in CARPETS, CURTAINS AND House Furnishings. For the Season of 1905. Carpets made up and stored until required.

THE EVENING TIMES, ST. JOHN, N. B., TUESDAY, APRIL 18, 1905

ALL THE NEWS OF THE SEASON'S SPORTS.

ABOUT "SPIT BALLS" AND PITCHING IN GENERAL.

No baseball report is considered complete now unless it includes several references to the latest thing in the pitching line, commonly called "spit ball."

Chicago, April 15.—"Doc" White has a new one. He reported it to Comiskey yesterday. He calls it his dizzy dervish.

The Big Leagues. National League. BROOKLYN, April 17.—Innings: R.H.E. Brooklyn 100010002-4-62

St. Louis, April 17.—Innings: St. Louis 201002223-8-11 Chicago 000000000-1-71

Happy Jack. Chesbro, the American League's premier pitcher, showed a sample of his skill yesterday.

AT GRAND FALLS. County Court Meets Today at Andover—Very Cold Weather.

Grand Falls, April 17.—The ice above the Falls started yesterday, and has been running intermittently since.

The thermometers dropped below the freezing point on Saturday night and the cold weather still continues.

The April term of the Victoria county court will open at Andover tomorrow at 11 a. m.

Don't Waste Matches. Pipe-smokers who have trouble in getting their tobacco "going" should try Rainbow Cut Plug, which lights readily and smokes freely.

It is a great idea, said the czar, a fleet of home-crafting his face.

What idea is this? asked the Court official.

Maybe we can keep changing officers so often that the Japanese will be confused and chase the wrong general.

BRITT-WHITE GO POSTPONED.

Have Been Refused a Permit to Hold it on Date Scheduled.

Boxing Promoters Fined at Chelsea—McGovern a Nervous Wreck—George Gardner Knocked Out.

San Francisco, April 17.—The Yosemite Club today was refused a permit to hold its fight during April.

Portland, Me., April 17.—George Gunther and Andy Watson, two colored pugilists of Boston boxed twelve rounds at Seaver of Toronto and in 1901 was brought back by Invader of Toronto, winning from the Canadian in the series.
