APPEAL COURT AT CAPITAL OPENED

(Continued from page 1).

Dr. Robinson, of Saint John, of a portrait in oils of Hon. George E. Duncan Ludlow, first Chief Justice of the Province of New Brunswick. The presentation was made by Sir Douglas, who with Mr. Justice White and Mr. Justice Grimmer, composed the jury. In the course of his remarks, which took a historical bent, Sir Douglas referred to the unavoidable absence of Mr. Robinson, who otherwise would have unveiled the portrait. On the invitation of Sir Douglas, Col. Henry Montgomery Campbell, O. B. E., of Fredericton, came within the bar and unveiled the portrait.

DR. TAYLOR ACCEPTS
The portrait was accepted by Dr. F. R. Taylor, K. C., president of the Barristers' Society, on behalf of that body, who in his remarks also dwelt upon the history of bench and bar in New Brunswick. Dr. Taylor made formal application for permission to hang the portrait on the walls of the Supreme Court chamber, and the permission was granted. The presentation of the portrait of Chief Justice Ludlow leaves but two of New Brunswick's Chief Justices unrecorded by their portraits on the walls of the Supreme Court Chambers, Chief Justice Bliss and Chief Justice Saunders.

Col. Campbell, who today drew back the Union Jack from the wall, is a grandson of Chief Justice Saunders. DISTINGUISHED GATHERING

CASE OVER EGGS HAS WARNING FOR DEALERS

Federal Regulations Regarding Display Are Subject of Prosecution

Police Court proceedings this morning contained a warning to those dealing in eggs, when R. E. Morrell pleaded guilty to a violation of federal regulations regarding the display and sale of eggs and was fined \$20, which was allowed to stand. He was charged with displaying eggs for sale on April 7 without having the container marked or labeled with the name of the class and grade of eggs according to Canadian standards. He said the infraction was unintentional, and he had no desire to break the law. He had not misrepresented the eggs, and when they had been removed from the crate to the display basket the card indicating their grade had become mislaid.

William A. Ross, for the government, said this was the first case prosecuted in Saint John. There were some consistent violators, and prosecutions were being brought in order to make the dealers comply with the law. When not marked, purchasers could not tell the grade of eggs they were buying. The magistrate said that a fine up to \$500 or three months' imprisonment, or both, could be imposed. He would fine the accused \$20 and let it stand, but now that the matter was brought to the attention of the public the next violator brought before him would be dealt with more severely. The prosecution was brought at the instance of Ernest M. Mackinnon, egg inspector for the federal department of agriculture.

VETERAN DRIVER QUILTS C. N. SERVICE

Samuel W. Carson Retires After 44 Years Service—Worth Recognized

MONCTON, June 1—One of the veteran C. N. R. locomotive engineers Samuel Wesley Carson, retired from the service yesterday under the provisions of the President Pund Act, after nearly 44 years in the railway employ. He made his last run yesterday on the Ocean Limited, from Campbellton to Moncton, and pulled into his home terminal sharp on time.

Engineer Carson was one of the most efficient trainmen on the C. N. R. Speaking of his retirement, General Manager Walter U. Appleton said last evening: "Engineer Carson is one of the best drivers we ever had and I am sorry to see him retire. I do not know of any engineer who can take the Ocean Limited out of Moncton and bring it into Campbellton maintaining so even a rate of speed and on schedule time.

REPORTS ARE GOOD

Dr. J. H. Aillingham, who is ill in the General Public Hospital, was reported at two o'clock this afternoon as showing a slight improvement. The condition of John Kelly, former inspector of lights, who was operated on recently in the Infirmary, was reported good today.

WESTLEA DAMAGED, LIKELY TO DRY DOCK
ST. JOHN'S Nfld., May 31—The British freighter Westlea, from Montreal for a European port, which was forced to put back to St. John's after a collision with an iceberg off Newfoundland, will probably be the first non-Newfoundland craft to enter the new drydock here. The steamer has been lying at the dock with her pumps going since making port last week. Her bow plates below the water line are believed badly damaged and her forepeak flooded.

ANOTHER TENNIS COURT FOR McADAM
McADAM, May 31—The McAdam tennis officials are working hard to put a new court in condition for the summer months. The courts are on the plot which is used as a skating rink in winter. When the new court is finished it will bring the total of courts in McAdam up to four. The C. P. R. has loaned several men and a crane to the club to remove some bad rocks and to reach the work.

SAINT JOHN, N. B., JUNE 1, 1926.

WHAT LOS ANGELES DID.

The City Council of Los Angeles, has just made a drastic cut in the city budget for the next fiscal year.

Hitherto, it appears that the budget had been framed by a budget committee of the City Council which called in the different department heads.

This year the Mayor of Los Angeles decided to handle the pruning knife and the result is a reduction of \$6,378,500 which is spread over the five city departments as follows:

The fire department is cut \$1,524,033, leaving a total available of \$4,017,823; engineering department cut \$2,468,801, leaving \$1,549,022; police department cut \$1,847,072, leaving \$4,809,456; health department cut \$201,654, leaving \$51,822; building department cut \$886,690, leaving \$887,621.

The reduction is about 27.5 per cent. What Los Angeles did yesterday in this respect Saint John may do in the near future.

AFTER MUSSOLINI—WHAT?

What will happen to Italy after the death of Mussolini is the question asked by interested and well informed writers.

There are few world figures of the present day—or of the last half century for that matter—who have had so much written of them and their achievements as has Mussolini.

The fact that he has succeeded in dragging his country out of the mire of inevitable bankruptcy into which it was sinking, has been the driving force behind the inception of several new and important industries.

By creating an atmosphere of stability, and by placing his country on a sound financial basis, all these achievements have won for him the respect and confidence of the world bankers and almost the worship of his own people.

He lives in constant danger of assassination—such a man has had so much enemies—and yet goes about unafraid, believing absolutely in his own destiny.

And this is first Mr. Marconi's death which he says the manner of his death will have considerable bearing on Italy's future.

Big Stick In Poland

"Macha's" advice to the Polish Foreign Minister was disregarded by that official but was heeded by Pilsudski, successful leader of the revolt, who is proclaiming himself dictator. The advice was: "Throw away that useless little cane, and support yourself with the big stick as Mussolini does in Italy."

POEMS I LOVE

"If I Were King," by Justin Huntley McCarthy.
Beneath your feet what treasures would I find?
The stars should be your pearls upon a string.

THE stars should be your pearls upon a string.
The world a ruby for your finger ring.
And you should have the sun and moon to wear.

IF I were king—ah, love, if I were king!
What tributary nations would I bring
To stoop before your sceptre and to swear
Allegiance to your lips and eyes and hair.

THE BEST OF ADVICE

THE evil in the world has always been a mystery to man. So-called "crime waves," persecutions of one kind and another—"man's inhumanity to man," still makes "countless thousands mourn."

OLDTIME philosophers taught that the result of warring elements—the good and the evil—who fought for possession of the world.

What is the lesson that is taught alike by the correlation of forces, by scientific analysis, by the revelation of chemistry, . . . by astronomy . . .

It is the lesson of the unity of nature. To learn it rightly is to learn that all the things that we can see and know in the course of our life in this world, are so intimately woven together that nothing could be left out without reducing the whole marvelous structure to chaos.

The whole universe is animated by a single principle of life, and whatever we see in it, whether to our half-trained understanding and narrow experience it may seem to be good or bad, is an indispensable part of the stupendous scheme.

MAN'S gradual rise from the lower to the higher through the process of evolution accounts for much of what we call evil. It is imperfect development. And how far-sighted are we!

THE physical differences between man and ape are less important than between African and South African apes. Zoologically man is simply one genus in the old-world family of apes.

Psychologically he has traveled so far from apes that the distance is scarcely measurable," declares Fiske.

This rise from a bestial to a moral plane of existence involves the acquirement of the knowledge of good and evil. Conscience generated by the play a part analogous to that played by the sense of pain in the lower stages of life and to keep us from wrong doing.

When we have once grasped these ideas we can see—but faintly perhaps, but hopefully—that, as Fiske avers, "this mystery belongs among the profound harmonies of God's creation."

"Many are the pains of life and the struggle with wickedness is hard; its course is marked with sorrow and tears. But assuredly its deep impress upon the human soul is the indispensable background against which shall be set hereafter the eternal joys of heaven!"

FACIAL EXPRESSION.
CONSIDER your face, and the things folk can trace through expression you show day by day.

Let eyes twinkle bright. There you are, now—that's right. Say, isn't it easy to do? The fellow worth while is the man who can smile, and let cheerful sunshine seep through.

Judging from staid, radio music is one of the things the "DOESN'T" come out of a clear sky.

"Stuffy how people will kick over finding moths in a coat they only paid five dollars for. What do they expect, butterflies?"

There is hot and cold water in most homes. Wives keep their husbands in one, and throw the other on most of their plans.

"It's in the dark about our bills." "Sold she, ask, alas, And was the right? I'll say she was. The pills were all for gas."

Once there was a bashful fellow who reminded his girl of Venus. She didn't have any arms, either.

EMPEROR COOK

(London Daily Telegraph).
He ("Emperor") Cook impresses no one when he declares that "war has been declared against the miners," because that assertion is flatly contradicted by the tenor of the report of the royal commission which the government has accepted. His references to the "new mentality" of the navy, army and air force, a piece of bad taste which comes dangerously near the scold line, are happily important only as illustrating his own unbalanced mentality. His mysterious phrases about what the defensive forces would and would not do in an industrial crisis are exposed as nonsense, for the reason that it has never been, and is never likely to be, the practice to employ soldiers, sailors or airmen as strike-breakers. As Mr. Cook and others of his persuasion know, the armed forces would be used only in the case of such violent disorders that the life of the community was threatened. In that event no government, whether capitalist or socialist, would hesitate to employ them.

"AND now, Mrs. Sullivan," said the counsel, "will you be kind enough to tell the jury whether your husband was in the habit of striking you with impunity?"
"With impunity."
"He was, sir, now and then; but he struck me oftener wid his fist."

LIBERALS SUPPORT MINISTERIAL STAND

Division Occurs on Motion For Safeguarding Canada's Industries

Canadian Press Despatch.

OTTAWA, May 31.—A midnight division on a motion to adjourn the debate on a private member's resolution resulted in the passage of the motion by the narrow majority of one vote, in the House of Commons tonight.

The vote stood 54 to 53. The resolution under discussion, moved by General A. E. Ross (Conservative, Kingston), advocated the safeguarding of Canadian industries with respect to competition from other parts of the world.

Mr. Hon. Arthur Meighen, Conservative leader, protested. He asked that the house be permitted to record its view on the resolution.

Deputy Speaker Duff, however, put the motion for adjournment and the division resulted as above.

MOVES ADJOURNMENT.

Hon. Ernest Lapointe then moved adjournment of the house. Hon. Mr. Meighen asked the minister of justice if he would not give an undertaking that an opportunity would be given before the close of the session for the house to divide on the question of protection.

LIBERALS BACK MOTION.

Liberals present in the House voted solidly in support of the adjournment motion. All the Progressives present, with the exception of Miss A. MacPhail (Southeast Grey) and E. J. Garland (Bow River), also favored the motion.

WILL PAY HALF COST OF TREE SHIPMENT

Lancaster Highway Board Deals With Matter of Lot Ordered By Predecessors

The Lancaster Highway Board last night ratified the action of a private session on Saturday when it had been agreed that the Board would pay half of the costs of \$1,190 for a shipment of 727 trees that had come from the Dominion Nurseries in Montreal and had been ordered by the former Highway Board last September, shortly before the former Board went out of office.

The trees were ordered as part of a scheme of tree planting throughout the district which had been prepared by the late H. E. Gould. Last May a first shipment of 273 trees was received and planted. The whole scheme calls for 1,850 trees. The present Board will have an expression of the opinion of the people before completing the plan for planting, but has arranged that the latest shipment shall be planted along the main thoroughfares in the parish.

The full Board was present last night as follows: Chairman, Councilor W. Golding, Councilor William McCavour, Councilor Claude Sneyd, H. M. Stout and Secretary-Treasurer H. B. Crouse.

COLD WEATHER ACROSS BORDER PUZZLES MANY

Boston Bureau Chief Unable to Tell Why Spring Backward

BOSTON, May 31.—Weather is controlled by laws and some day people will discover these laws and the "why" of the weather. G. A. Loveland, chief of the Boston Weather Bureau, thus expressed his opinion after making known the fact that New England has suffered, since last fall, two of the coldest months on record.

This region as a whole, he said, has had an abnormally cold spring and added that, as yet, scientists do not know enough about weather to explain why.

THREE COLD MONTHS

Last October, he said, was very cold. In fact it was the coldest October recorded in the 40 years since the Boston bureau has been making observations of mean temperatures for the whole of New England. March and April of this year also were abnormally cold, taking New England as a whole. Readings were particularly low in the northern states, Maine, New Hampshire and Vermont. Last month brought the lowest mean temperatures recorded for April in 40 years.

Formerly, he said, young girls never touched whisky. Now they drink it with the boys.

"Prohibition is not preventing the ills of alcohol," he continued, "because you can get it if you have the money. The only way to prevent drunkenness is to educate the people. Prohibition in the United States has done no good—it has done harm and it is going to do more. Crime has increased, venereal diseases have not diminished, nor have diseases of the central nervous system."

Simple Way to Get Rid of Blackheads

There is one simple, safe, and sure way that never fails to get rid of blackheads, that is to dissolve them. Do this, get two ounces of peroxide powder from any drug store—sprinkle a little on a hot, wet cloth—rub over the blackheads, and at yet, scientists do not know enough about weather to explain why.

69 COUSINS LOSE IN FIGHT FOR MILLIONS

Wealthy Woman Leaves \$150,000 to New York Episcopal Cathedral

NEW YORK, June 1.—Surrogate Foley directed a jury which for nearly two weeks had heard testimony in the contest of the will of Miss Ella A. Rogers, to bring in a verdict sustaining the will. The jurors did so without leaving the jury box. Surrogate Foley will admit the instrument to probate.

Sixty-nine cousins conducted a legal battle over the \$2,500,000 estate of Miss Rogers, who was the daughter of the late Columbus B. Rogers. The testatrix died January 8, 1926, and she made her will three years before her death, when she was 68 years old. She left the greater part of the estate to Howard Pell, a cousin. She bequeathed to the Cathedral of St. John the Divine \$150,000 and the residuary estate of her father, making the bequest about \$750,000 in all. She left \$110,000 to charitable institutions. Mrs. Reid Haviland and Reginald M.

Will the Children She Has Reared be Ungrateful Because She is Only a Stepmother?—Shall Young Stenographer Leave Home to Escape Mother's Questionnaire?—A Business or Domestic Mother?

DEAR MISS DIX—Fifteen years ago I married a widower with three children who were mere babies. I have reared these children as if they were my own, shared their joys and sorrows. I loved them devotedly, and was sure they loved me. But this worries me: My friends and neighbors tell me that I am doing myself an injustice by nursing them when they are sick, and working to make them a happy and comfortable home. They say that when these children grow up they will marry and have homes of their own, and forget the stepmother who loved and reared them. Is this true? A STEPMOTHER.

DOROTHY DIX

It is not to be a mother to a little motherless child, and nothing else she can do has such far-reaching influence for good.

It isn't easy to be a good stepmother. In fact, it is one of the hardest jobs in the world, because, for one thing, it takes a big-hearted woman not to be jealous of her stepchildren. And, for another thing, the stepmother has not the superhuman patience which God sends as a consolation prize with every baby, thus enabling a mother not to be fretted at the faults in a child that drive other people crazy. And still, for another reason, the children themselves are always suspicious of a stepmother and resent her efforts at controlling them.

So when a woman has done what you have done when, when she has been a stepmother who loved her stepchildren and treated them as if they were her own, who has won their hearts, and made them a happy home in which they grew up to be fine men and women, she has achieved something great and wonderful, something for which she deserves a medal in this world, and for which she will surely receive a crown of glory in the next.

So be proud of yourself. Exalt your work, and tell those who try to discourage you that you wish to hear none of their evil croakings. Of course, your stepchildren will leave you and set up homes of their own when they are grown. That is what all normal young people do. That is what they would do if they were your own children. It is what you would want them to do, because you would know that that was best and happiest for them.

But don't for one instant believe that they will forget you, or cease to be grateful to you any more than they would to their own mother. As they grow older and have children of their own, they will appreciate more and more what you did for them, and they will honor you ever more than they would their own mother, because you did for them all that a mother would do, yet they had upon you none of the claims that a child has upon a mother. DOROTHY DIX.

DEAR MISS DIX—I am a stenographer 19 years of age, and pay my board every week to my mother. But notwithstanding this fact, I am compelled to ask for permission if I wish to go even to the corner store for a piece of candy. I am not ashamed to have her know where I go, but I dislike being questioned all the time, and forced to tell before going out. If I am fifteen minutes late from work, my mother is with me. I am thinking of leaving home, and going to board with some old and respectable friends. What do you think? REBELLIOUS.

ANSWER: I suppose that mother's questionnaire has driven more girls away from home than any other one thing in the world.

It is the eternal "Where have you been? What made you go there? How long did you stay? Whom did you meet? What did he say? What did she say? What did you do? Where are you going? What are you going for? How long are you going to stay?" And so on, and so on, and so on, each question falling like a blow on frayed nerves, that makes girls marry the first man who asks them, or pack their suitcases and beat it away from mother's never-ending flow of questions.

There is nothing they do or leave undone about which she does not put them through the third degree. She doesn't leave them a shred of privacy or a vestige of freedom, and when this comes at the end of a long and tiresome day, it becomes the torture of the Inquisition.

Girls do not stop to remember that mother's curiosity is based on her love for them, and her desire to know everything about their daily lives, and her anxiety to keep up with them and in touch with every detail of their existence. And mother forgets that you can never force confidence, and that the more questions she asks the less she is really told.

But the pity of it all is that the only remedy for the questionnaire breaks mother's heart, and is bad for the girl.

For mother can never learn enough sense to let her children alone, and not nag them with questions, and when the girl leaves home to escape the inquisition she runs into grave danger that she would have avoided if she had had the protection of her home. DOROTHY DIX.

DEAR DOROTHY DIX—I am a widow with three boys, aged 8, 10 and 12. I also have my parents to support. My husband left me fairly comfortable, and if I was very careful and economical I could live on my income. But after my husband died I went to work to take my mind off my troubles, and I have been so successful that I make a man's salary, which enables me to give my boys advantages I could not give them if I did not work. My children, however, idolize me, and tell me that I should stay at home as other boys' mothers do. My mother cares for them during the day, and I am always with them in the evening. Should I give up my job or not? CONSTANT READER.

ANSWER: Certainly not. Don't consider for a minute doing such a foolish thing. Suppose you were sitting idle in the home during the day. How much of that time would your boys spend with you? Not ten minutes. They would be about their school work and their play, living the lives of natural, normal, healthy boys. The only time you would be with them would be in the evenings, as you are now.

With the money you earn you are able to give them better educations, better advantages in every way than you could if you stayed at home. You will even be able to stake them when they start out in business. And, believe me, they will have far more respect for your opinion as a successful business woman, and you will have more influence over them than you would if you were purely a domestic woman.

Also, consider yourself. In a very few years now your boys will be grown, and you go about the business of life on their own account. Then you will be left desolate if you have no work, nothing interesting to fill your days. DOROTHY DIX. Copyright by Public Ledger Company.

HEED CONSTIPATION'S WARNING

Kellogg's ALL-BRAN brings sure relief because it is 100% bran. Even before constipation wrecks the health, it shows its face with wrinkles, spots the skin, breaks the cheeks. Unpleasant breath and headaches are merely outward signs of the inward havoc this dire disease promotes. Bid yourself forever of constipation. Stop it before too late! Kellogg's ALL-BRAN has brought relief to thousands where all else has failed. Doctors recommend it. They know ALL-BRAN brings results. It is not an uncertain post-bran product.

Charming New Summer Frocks Come From Paris

MANY new ideas are being introduced into the charming summer dresses sent us from abroad. Dresses for both formal and informal wear are being turned out in dainty colorings and with pretty and unusual trimming features. Pictured above are three dresses that have interesting trimming details, although they are used with restraint and the effect is the opposite of bizarre. At the left is a frock of semi-formal type of cream colored crepe. Delicate Spanish lace and pearl edging on the skirt are the trimming. This dress is worn over a black or colored slip, the contrasting color showing through the mesh of the lace. A soft giraffe is threaded through the lace at the hips. The lines of this frock would be becoming to a woman of any build, but would be especially becoming to the "stylishly stout."

The formal type of frock (centre) features among other details the V-shaped décolletage. The material is gold sequins and pearls. The straight line of the bodice are joined to a full skirt that flares from the hips, and the V of the neckline is not extreme. Gold brocade shoes and a heavy linked gold slave bracelet and necklace add color to the costume.

A simple and dressy little frock for warm weather (right) impresses one at first sight as being principally a baby. This striking feature of the frock is composed of cotton crepe in contrasting colors to the rest of the frock. The fabric employed for the frock is roshana crepe, the paneled skirt being a corian plaited on the side.

Yellow is emphasized as the smartest color for summer wear by many shops. Diversified tones, preferring the sunni shade, are exploited in apparel appropriate for varied occasions.

An indication of the warm weather trend is the growing interest manifested in the crisp cottons, entrancing organdis, batiste, and dimity.

FURTHEM WAISTCOAT ADDS PURTHER NOVELTY TO THIS CHIC SATIN SUIT

Perfectly tailored, of shimmering heavy black satin, this two-piece suit is arresting in its combination of mannish line and feminine charm. The waistcoat is of cream moire with a satin flowered pattern, while the skirt is of finely pleated wash silk, also in cream. The narrow tie is black satin. Patterned waistcoats of this type are very smart, and are worn with navy serge suits as well.

IN NEW YORK SEE SAWING UP and DOWN BROADWAY

CONY ISLAND in summer garb. Only badly rain-drenched. And white paint and gilt splattered about everywhere. A bored pilot brings a roller coaster car to its stop after the breathless journey. All winter he operates an elevator in one of the Manhattan skyscrapers. He says he always gets work on a fast express elevator so that he can "keep in training."

ONLY one big new attraction at Coney this year. A new "thrill ride." They call it "Bob's coaster." It covers a square block and is "bigger and better" in figure eights and dizzy drops. Or something like that. Just below it, another novelty—"The amusement department store," where you can walk right into the structure and find almost every available park amusement, from merry-go-round to freaks.

OH, YES, there's a "Charleston Palace." At least a place big enough to house all the Charleston hounds in New York. "Devoted exclusively to the art of Charleston," reads a docket. But then, I never did claim to be an artist.

"FROZEN CUSTARD" will be the summer fashion in "what to eat when boardwalking." A second cousin to "Eskimo pie." And a dozen new methods of disguising the good old "hot dog." Advice to your inventors: Discover any new trick summer resort dish and get rich!

ALL Coney Island isn't boardwalk! Just one block north and a very sizeable town makes its appearance. A year-round population commutes to New York, but makes the heatless part of its income in summer. Just now cellars are being turned upside down to corian plaited on the side.

Yellow is emphasized as the smartest color for summer wear by many shops. Diversified tones, preferring the sunni shade, are exploited in apparel appropriate for varied occasions.

An indication of the warm weather trend is the growing interest manifested in the crisp cottons, entrancing organdis, batiste, and dimity.

ADVENTURES of the TWINS

by OLIVE ROBERTS BARTON

THE GREEN DINGBAT SPEAKS

The Twins took the little rag-bag Whiffet by the hand and led him away. They could still hear the Balloon Man crying his wares, and the green parrot chattering away on his post. "Yes, my dear, I'll have three lumps in my tea, well—if you insist—"

"Don't worry, Whiffet, we'll find your lost shadow somewhere. It can't have gone so very far," said Nancy. "How many buttons have you left out of your fortune?"

"The Whiffet reached into his pocket and pulled out all his buttons. 'Two pearl ones, four bone ones, three shoe buttons, one of the old alpaca duster, a collar button and a snapper,' he counted.

"Well, you're rich yet," said Nick. "What are you asking for?" said the Whiffet, putting his fortune away again. "Because there's a sign over there that says 'Side-Show,'" said Nick. "Will you pay our way in?"

"Sure," said the little rag-bag creature, who was kind-hearted even if his clothes had shrunk and he hadn't such a thing as a shadow about him. So they went to the side-show tent and paid a shoe-button and three pins apiece to get in.

The side-show man, who wore three sets of spectacles on his nose, four neckties, and two suits of clothes, looked at them closely. "You look honest," he remarked. "Pass in."

The first thing they saw was a sign. The sign said: "Ask the Dingbat. He'll tell you." Under the sign sat a queer-looking person at a table. The queer-looking person who sat at the table was green and he could wiggle his ears.

"What are we to ask you?" said Nick. "Ask me how old Anne is," said the Dingbat.

"Well, how old is Anne?" said Nancy. "Where is my shadow?" said the Whiffet. "I lost it coming over the stile."

The green Dingbat turned blue, then red, and then to a beautiful dark raspberry. "Ask Mr. Snopsey," he said. "The pirate, who lives in a cave between Hidy Go Land and the sea."

FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly. BETTER THAN SODA. For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and quickly regains this souring waste from the system without purging. It is as pleasant to take than soda. INSIST UPON "PHILLIPS". Each bottle contains full directions—any drugstore.

EGYPTIAN VOTE CAUSES BRITISH KEEN ANXIETY

Situation Grave If Zaghlul Accepts Premiership

CABINET MEETS

Possible That Adly Pasha May Be Nominated For Post

By HERBERT BAILEY.

British United Press. LONDON, June 1.—Considerable importance is attached to the meeting of the Cabinet last night at which the new Egyptian dilemma was discussed.

The situation as outlined to the British United Press by government officials today was full of difficulties owing to the recent victory of Premier Zaghlul at the polls.

TO ASK ZAGHLUL

The present premier has not yet resigned, but when he does King Fuad will naturally send for Zaghlul to form a government.

It is possible that the situation will become grave because he is bitterly opposed to all British reservations and demands full complete independence for Egypt.

Zaghlul, feeling that he is too old to assume the Premiership again himself, may decide to suggest that Adly Pasha should act as premier with himself as the power behind.

AWAIT DEVELOPMENTS.

If this eventuality, the situation would probably be much easier, and it is hoped that under these circumstances Lord Lloyd, the British High Commissioner in Egypt, might be able to work out some semblance of harmony with the Zaghlul party.

EVOLUTION A GAIN UP IN TENNESSEE

State Defends Law in Appeal From Conviction of John T. Scopes

Canadian Press. NASHVILLE, Tenn., June 1.—Tennessee, through counsel, arose in its supreme court to defend its law that no theory denying the Divine creation of man shall be taught in its public schools and universities.

After five attorneys had attacked the state's new famous anti-evolution law from all angles, Edward T. Scopes, as counsel for the State, in the appeal of John Thomas Scopes from a conviction in Rhea County Circuit Court, contended that the state has the power to protect its children from the teachings of evolutionists.

The law was argued because it was, in the eyes of the court, a misdemeanor case in which a misdemeanor appeared as plaintiff-in-error of appeal from a fine of \$100 imposed for teaching the evolutionary theory.

Not Customary Says Premier King to Dispatch Official Message May 24

Canadian Press.

OTTAWA, June 1.—"Why did not the Government on Empire Day send a message of cordial goodwill and hearty appreciation and affection to the Mother Country?" asked T. L. Church, Conservative Toronto (Northwest) in the House of Commons yesterday.

It has not been the practice for the Government of Canada under any administration to send an official message to Great Britain on Empire Day, nor for the Government of Great Britain or any of the dominions to send a similar message to Canada," he was informed.

The Prime Minister of Canada, however, has each year since his accession to office had pleasure in sending a message of goodwill to the Mother Country on Empire Day, on behalf of the Government and people of Canada, to the London Times and occasionally to other journals. This message was forwarded this year as usual.

WOMEN'S CLUBS MEET

ATLANTIC CITY, N. J., June 1.—Greetings from the American Women's Clubs of Toronto were presented to the convention of the General Federation of Women's Clubs by Mrs. T. L. Crossley, retiring president of the Toronto organization.

The membership of the Canadian delegation, mostly made up of "lonesome brides," said Mrs. Crossley, quoting a young speaker at one of their meetings as having complained she knew "no one to talk to but the ice man."

GUNMEN HOLD UP THREE IN ALLEY AND THEN ESCAPE IN AUTO

ATLANTIC CITY, N. J., June 1.—The Canadian delegation, mostly made up of "lonesome brides," said Mrs. Crossley, quoting a young speaker at one of their meetings as having complained she knew "no one to talk to but the ice man."

The two assailants met the three men in an alley and opened fire after a brief altercation, making their escape in an automobile.

Seveles said he had met the bootblacks only a few minutes before and that their assailants tried to rob them.

PROBE OF TORONTO HARBOR REQUESTED

TORONTO, Ont., June 1.—By a vote of 21 to 4, City Council last night passed a resolution asking the Dominion Government for an order-in-council appointing Judge Denton of the York County Court a Royal Commissioner to investigate the affairs of the Toronto Harbor Commission from its institution in 1911 to date.

No limitations were placed on the scope of the inquiry in the resolution which reads as follows: "To inquire into, examine and investigate the various transactions of the Toronto Harbor Commission in acquiring or disposing of property, the revenues and expenditures of the Toronto Harbor Commissioners, the performance of their duties by the members, officials, servants, and agents from time to time, the extent of the work done by them, and the cost of same, and generally of all matters pertaining to the business of the Toronto Harbor Commission from its institution in 1911 until the present time."

MOSCICKI NEW PRESIDENT OF POLE REPUBLIC

Pilsudski Nominee Is Elected by Parliament

British United Press.

WARSAW, June 1—Ignace Moscicki, candidate of the Middle Parties of the Polish Parliament and endorsed by Marshal Josef Pilsudski, leader of the recent revolution, today was elected President of Poland by the Parliament, to succeed President Wojciechowski, who resigned following the recent military coup.

Marshal Pilsudski last night explained his position as follows:

RECOMMENDS MOSCICKI

"The constitution as it stands hampers me. I cannot work under it. I do not wish to be a mere figurehead. If you need more representation choose a man like Moscicki, who is a scholar and a man of contemplation. I am of a fighting nature."

The party caucuses which ended last night, decided to run three candidates in today's presidential election, M. Biniski, for the Right parties; Prof. Moscicki for the Pilsudskians and Deputy Marok, for the Socialists.

Moscicki's election was forecast on the second ballot. Pilsudski probably will have the post of minister of war.

Deadly Snakes From Africa On Steamer

NEW YORK, May 31—Arrival on the steamship Half Moon of a shipment of reptiles from South Africa, collected by J. L. Buck from regions seldom penetrated by white men, was reported here by him. The snakes have been in boxes nearly two months, provided only with water. During all that period they had no food, and the process of unpacking them was conducted cautiously.

This was done in a series of cages in the reptile house at the Bronx Zoological Garden. In the shipment are nine green mambas, the most deadly snake of Africa. It is a tree cobra which attacks human beings. It grows to a length of twelve feet and is slender and whip-like.

There are also two boomslangs, a black snake with bulging eyes. It has

the habit of inflating its neck and releasing the air, producing a dull, booming sound from which it derives its name. There are also three giant black colubras, one more than eight feet long.

OAKS from ACORNS

A little more than a year ago Dilard Coal Co. Ltd., brought the first shipment of a new coal to Saint John. The coal instantly became popular. Sales grew beyond all expectations. The newly formed company, The Eastern Coal Docks Ltd. is formed to take over this growing trade for the purpose of combining it with a deep water wharf and modern coal handling facilities so still greater volumes can be handled, and a well rounded stock of other household fuels carried as well.

To help finance the enterprise Eastern Coal Docks Ltd. are issuing some Preferred Stock. It has a special feature of profit sharing over and above the customary 7 p.c. and carries a bonus of Common Stock as well.

It is an investment well worthy of investigation.

Particulars on application.

Two Cleveland Stars

Homer Summa of Gentry, Me., is the regular right fielder of the Cleveland Indians. And what is more, he will remain in that post for some time to come, barring accidents, wet weather and epidemics. This after laboring for four years to prove that he is a big league outfielder worthy of a speedy position and regular hours. Homer joined the Cleveland team in 1922, coming from the Wichita Falls team. He brought along a pretty record and high hopes. The record included a .352 batting average over a string of 156 games. With the Tribesmen his first season he broke into 12 games. He and Jamieson make a fast pair.

Action And Pep Feature Boxing Tourney Events In The Armories Last Night

Plenty of action of the slam-bang variety featured the city amateur boxing championship, held last evening in the Armories, most of the lads showing a willingness to mix it, letting science play a secondary part. An exception was the showing of young Murphy, of the St. Mary's A. C. of Halifax, who substituted for J. Fitzgerald of the same club.

Murphy, who captured the 112-pound crown, showed a considerable amount of skill and worked a good straight left to much advantage. It was regretted that Pat Whipple and Reg. Harper, who won their classes by default, did not have a better chance to show their wares. These two put on an exhibition bout, but neither extended himself.

Three of the bouts were won by the kayo route, Joe Coyle, of the Y. M. C. I., toppling over William Dalling, of the E. E. B. C., in the first round of the 145-pound class; Arthur Walker, of the E. E. B. C., making Arthur Breen, of the Y. M. C. I., take the count in the first session of the 135-pound class, and Murphy flooring E. Goldworthy, of the E. E. B. C., in the first round of the final of the 112-pound class. Goldworthy showed considerable talent, and with more experience ought to show well.

The program opened with a neat scrap between Arthur Walker, of the E. E. B. C., and Frank Powers, of the Y. M. C. I., in the first round of the 112-pound class. Goldworthy showed considerable talent, and with more experience ought to show well.

The program opened with a neat scrap between Arthur Walker, of the E. E. B. C., and Frank Powers, of the Y. M. C. I., in the first round of the 112-pound class. Goldworthy showed considerable talent, and with more experience ought to show well.

100-POUND CLASS.

The 100-pound class brought some pretty scrapping. Jack Lifford had an easy time getting into the final, his fight with a slim youngster named Best, being stopped in the first round when it was seen that Best was outclassed. He struck tough going in the final, however, when he clashed with Joe Bryson in one of the hardest bouts of the night.

RUGGED BATTLE.

Gerald Donovan and Arnold Connolly put up a rugged battle in the 108-pound class. Donovan's superior generalship and hitting power pulled him through but the loser showed all kinds of gameness.

The 112-pound bouts brought some rapid action. Ernest Goldworthy quickly disposed of Cuthbert Kane, the fight being stopped by referee Powers in the final round after Goldworthy's final knock-out.

Final.—Murphy beat Goldworthy, 125 pounds, final—Dave McNulty, Holy Trinity, beat Harvey, St. Mary's A. C., Halifax.
147 pounds, final—Joe Coyle, Y. M. C. I., beat William Dalling, E. E. B. C. Knockout.

NELSON READY TO ABIDE BY M. P. B. RULING

EARL NELSON is ready to stand by the decision of the registration committee of the M. P. B. in regard to the appeal from his release from the Saint-Johns by the Royals Athletic Club. The papers and statements in connection with this have been forwarded to Halifax, and a decision is expected some time this week.

Will Play With St. Johns If No Release Given

Questioned regarding the matter this morning, Nelson said that he had made his statement in the matter and was prepared to act according to the decision. If his release is granted, he said he would immediately join the Royals, while if it was not granted, he would don a Saint John's uniform and get into the game before it was too late. Friends of Nelson say he signed with the Saint John's on the understanding that there would be no Royals' team, but since technicalities are holding him, they advise him not to let them stand in his way. Much interest centres on the ruling to be made by the registration committee.

Games Tonight

The Shamrocks and the St. Peter's will clash on St. Peter's Park in the County League this evening at 8 o'clock. Knudsen will pitch for the Shamrocks, and probably Burgess for the St. Peter's.

In the South End, St. John the Baptists and the Crescents will clash. Dalton and Richardson will be the opposing twirlers.

In the City League, the Trojans and Saint John's will meet on the East End grounds. Kerr and Tippetts or Stirling will be the opposing twirlers.

WILLS IS WINNER

CLEVELAND, O., June 1.—Harry Wills had little trouble winning from Jeff Clark, Atlantic City veteran, in a six round exhibition here last night. Although wearing twelve ounce gloves, Wills scored his opponent twice and it was apparent he could have stopped him had he so desired. Billy Wallace, Cleveland junior lightweight, outpointed Harry (Kid) Brown of Philadelphia, in the ten round main go.

"SALLY, IRENE AND MARY" AT IMPERIAL

Elaborately Produced Musical Comedy Story Attracts Big Crowd

Stories of theatrical life always register well pictorially. There never has been a more vivid stage story screened than that of "Sally, Irene and Mary," which opened at the Imperial yesterday and concludes today.

Sally, Irene and Mary are three delightful girls, even though Sally is a bit cold and mercenary and jealous. She is beautiful and wears some of the loveliest gown creations ever seen on the screen. There is little wonder that she is jealous of any other girl who threatens to step in and usurp her place in the affections of the rich and prominent Marcus Morton.

Irene shows a decided weakness of character, like so many girls we all have known. A striking beauty, but a sentimental one whom you would like to give a real severe talking to, or pet like a spoiled kid sister.

Mary is the impish type of young woman with a great deal of balance and common sense beneath her curly head. Her simplicity and naturalness make her a character that is greatly loved from the opening shot to the fade out.

Constance Bennett, who has come into prominence on the screen for several noteworthy performances of late, is cast in the role of Sally. She is a willowy blonde beauty who bids fair to follow in the historic footsteps of her famous father, Richard Bennett.

Joan Crawford, a newcomer to the screen, plays the part of Irene, putting great thought back of her work. Some of the most poignantly dramatic scenes in the picture fall to her. What girl has not suffered the torment of caring for someone who does not give her his affection in return?

Mary is a most appealing character. Genuine and sincere, with a great sense of humor, Sally O'Neil plays the part as no one else could for she actually is Mary.

William Haines is the hero, Jimmie Dugan. As a screen plumber he is riotously funny and as an actor he gives a letter perfect performance, winning the audience completely.

Others who give noteworthy performances are Kate Price, Aggie Her-

MARIE PREVOST IN "HIS JAZZ BRIDE"

Stars as Flapper Wife, With Matt Moore at Unique Theatre

Beatrice Burton's novel, "The Flapper Wife," made its screen debut here yesterday as "His Jazz Bride," with Marie Prevost and Matt Moore in the leading roles. It will remain at the Unique Theatre for two days. "His Jazz Bride" makes excellent entertainment, even while it preaches a sermon that might well make certain frivolous wives blush.

Gloria Gordon, a pretty little stenographer, wins the heart of a young lawyer, Dick Gregory. They marry, Gloria's theory is that the only important function of a husband is to supply funds for her clothes and amusements, sets out to treat her husband rough and tell him nothing. His job is to foot the bills. The husband, Dick, gets his nose to the grindstone and the gay little Gloria rube it in.

"Why don't you make more money?" she asks. "Other men do."

Meanwhile, she makes merry with a jazz-mad crew; a crew who dance literally as well as figuratively on a burning ship, careless of results. The big scene where the ship goes down with the jazzers aboard makes a thrilling spectacle. "His Jazz Bride" is exciting drama, with a lot of cleverness and laughs in it.

THRILLING RACES IN TURF PICTURE

"The Million Dollar Handicap" Feature Picture at Queen Square Theatre

In "The Million Dollar Handicap," which opened at the Queen Square Theatre yesterday for a two-day run, there are two thrilling horse races. The first deals with a bit of unusual business in motion picture stories in that its result is quite realistic to followers of the "sport of kings." One man bets the other that his horse is best, the agreement being that the loser shall purchase the winner's horse. Ralph Lewis as Porter is the loser. He purchases Langdon's horse, which has been doped and finds himself with a useless animal.

The Canadian Institute of Chemistry may meet in Saint John or Halifax in 1927, as an invitation to that effect was extended at the opening session of their annual convention at Montreal yesterday.

LOCAL SOCCER LEAGUE

St. Andrew's and Queen's Park will play an exhibition game of football on the Barrack square on Wednesday evening at 7 p. m. These teams have already played two games. Queen's Park won the first and the second game ended in a draw. The Queen's are running the champions hard for honors this season and a thrilling game is expected, as both teams are rapidly rounding into form. It is to be hoped that a bigger crowd of spectators will be on hand on Wednesday evening to help boost the game for the coming season.

THEATRE TAX IS EXPLAINED BY HON. A. J. LEGER

Provincial Secretary Speaks of Phases of Impost Effective Today

SOME NEW SOURCES OF REVENUE TAPPED

How Tax Will Affect the Patrons of Amusement Houses

Hon. A. J. Leger, Provincial Secretary, over long distance telephone, said that theatre tickets of 35 cent would be taxed 8 cents commencing today. There will be a 1 cent tax up to and including 25 cents. The 35 cent seats will be taxed 9 cents instead of 2 cents as heretofore. This is the most important change in the new amusement tax legislation as affecting theatre patrons.

Forty cent tickets will be taxed 4 cents, fifty cent tickets 8 cents and so on, a 10 per cent impost on each increase of 10 cents in the price of admission. There will be a tax of 5 cents on passes or complimentary tickets.

WHEN EXEMPTED.

The new amusement tax legislation for freedom from tax on tickets sold exclusively for the benefit of religious, educational and charitable institutions or societies within the province, provided not more than three performances are given within the province. However, the Government must be convinced of the sincerity of such promotions before exemption is granted. School and college athletic contests, college entertainments, etc., are not taxable if the proceeds go towards a school or college within the province. This latter clause, it was said, might have a special bearing upon collegiate shows traveling in the interests of Nova Scotia colleges and other institutions outside the province. Shows devoted to strictly patriotic objectives will be tax free. Children 12 years of age and under will be granted freedom from tax on Saturday, same under the late Government, which instituted the amusement tax in general.

NEW SOURCE.

By the new legislation the Imperial Theatre in Saint John will be the most important source of new revenue as most of the seats sold in this house are of the 35 cent denomination. There is an increase of 1 cent on this price of admission. There are practically no 40 or 60 cent tickets in the house so little new revenue will accrue in these departments.

It is expected, however, much of the new revenue will be paid up in the bowling alleys, billiard halls, business dancing places, lunch rooms and other places of general public entertainment where the amusement tax has not been heretofore imposed. Hon. Mr. Leger said today that machinery will be supplied for the collection of the new tax in these places, with the same close adherence to the rule as in theatres.

GOVERNMENT SAYS LOSS

Monday's Times-Star was a surprise to theatre managers and had not been forecast. By imposing a scale of tax on the seating capacity of the theatres of the province according to population of town or city, Hon. Mr. Leger says the government is taking a loss instead of making a gain. It was considered equitable to make this scaled arrangement rather than impose a flat tax of \$150 on each theatre, large or small. The only houses affected adversely will be the Imperial Theatre in Saint John, to the tune of nearly \$200 extra, one theatre in Fredericton and two in Moncton. However, Hon. Mr. Leger says these increases will not offset the losses in the smaller towns which had been paying a flat \$150 rate.

TAX DISTRIBUTION

According to the officials of the Treasury Department at Fredericton an objective of \$100,000 in amusement taxes is the mark. Last year it was less than \$60,000. In conferences at Fredericton theatre managers protested against having their patrons, chiefly the working classes, overloaded with increases whilst well-to-do dancing parties, bowling, billiard, baseball and all other forms of entertainment demanding considerable money, were free. The theatre managers said they were willing to bear their share of the increase and succeeded in pointing out where the balance could be raised. Hence the new law, which the government says it will enforce rigorously.

CHIEF IN CITY
W. L. MacFarlane, chief inspector under the prohibitory law, arrived in the city yesterday from Fredericton by automobile and said the road was in good condition. There was nothing new in his department at the present. He was in Saint John on routine business. The monthly check-up of the local vendors was now underway, the inspector said, and everything was all right so far. He was accompanied by Mrs. MacFarlane and Mrs. A. S. MacFarlane and will return to Fredericton this afternoon.

BIRTHDAY PARTY.
Mrs. E. N. Stockford, 8 Richmond street, entertained last evening in honor of the 14th birthday of her daughter, Minnie. The dining room table was nicely decorated with pink and white streamers, and in the centre was a large birthday cake, with pink and white candles. Entertaining contests were participated in by the children, those winning being Hazel and Roberts Currie and Marjorie MacDonald. Among others present were Marjorie Hamilton, Ada Boyne, Bertha Cameron, Ellen Stockford, Viola Walks, Elizabeth McAlary and Muriel Brewster.
