A TRUE BILL IN MURDER CASE

(Canadian Press Despatch) Moncton, Oct. 10.—At the supreme court sitting in Richibucto today, Judge Barry presiding, the grand jury found a true bill against Ernest McEachern, charged with the murder of Gordon McLean at Mill Creek, Kent county on May 1 last. The jury was chosen and several witnesses were examined for the crown this afternoon. Dr. Abramson, provincial pathologist, St. John, testified that the wounds which the accused is alleged to have struck McLean on it human hairs resembling those taken from the head of the dead man. No blood, however, was found on the club.

COST OF LIVING REDUCED.

Increase in England Over Pre-war Average Only Half That of 1920. Cost of living in England, according to the latest monthly bulletin of the Ministry of Labor, showed the smallest percentage advance over the pre-war average that has been reported in any month since 1917. As compared with July 1914, the average percentage increase in food, rent, clothing, fuel and light combined, was last month 79 per cent, as compared with 81 per cent at the month before, with 99 per cent at the close of 1921, with 169 per cent in December, 1920. The postwar maximum was 176 per cent in November, 1920. At the signing of the armistice, the cost of living was computed 120 to 125 per cent above the pre-war average.

A twilight organ recital was given yesterday afternoon in St. John's Stone church by the organist, T. F. Browne. He was assisted by Miss Barker, violinist, and the whole recital was greatly enjoyed by the large number of music lovers present, the duets being especially pleasing.

HALIFAX MAN TELLS HIS STORY FROM GRATITUDE

Mr. John H. Wilson of Halifax says everyone should know about Dreco.

Gave him prompt relief from stomach trouble and allied symptoms. Verbal statements are received by the hundreds every day and many written testimonials come to hand speaking in a most flattering way what Dreco has done to bring comfort and health to the citizens of this city and country. This proves beyond all question of doubt that Dreco does what is claimed for it. A recent signed statement for publication is as follows:

Mr. John H. Wilson, sixty-eight years old, living at 807 1/2 Creighton street, Halifax, a retired Blacksmith, who has lived in Halifax all his life and in the one house sixty-five years, writes: "I have suffered for years with stomach troubles. I could not digest my food. I was nervous and never knew what it was to get a good night's sleep. I did not have any appetite, was always buying medicine, but this one bottle of Dreco has done me hours of good and now I am glad to tell people about Dreco. The second day after I started on it I could see that I was much better. Last night I was asleep before I hit the bed and got up feeling fine, ate a hearty breakfast. My appetite is much better, my stomach is in good condition, I feel fine in every way. I want all the people to know about Dreco. Dreco is made of the juices and extracts of many herbal plants, stomach and blood corrects many causes, such as gas in the stomach, weakness, poor appetite, nervousness, headaches, biliousness, rheumatism and such blood disorders as eczema, pimples, blotches, boils and eruptions. The first bottle usually shows splendid results. Go today to the Ross Drug Co., St. John (N. B.), ask for the Dreco expert, and let him explain to you the merits of this great remedy. There is no charge and he will tell you honestly if he believes Dreco will benefit you."

Mr. John H. Wilson

Conducted by Evangelist REV. W. O. NEASE of Oliver, Ill.

Assisted by the Pastor, Rev. C. S. Hilyard.

Penal Reformers Saw Hon. Mr. Robb

Requested the Minister of Trade to Make Observations While in Australia—Benny Swim Case Referred to. Montreal, Oct. 11.—A request that should look into the question of capital punishment and of penal institution treatment while in Australia was made to the Hon. James A. Robb, Minister of Trade and Commerce, by a deputation from the Canadian Prisoners' Welfare Association on Saturday. When seen at the minister's rooms at the Post Office, it was pointed out that according to cable news, the Government of Queensland had just passed a bill abolishing the death sentence, and in view of the recent statement of the Solicitor-General, Hon. D. D. McKenzie, that he would make some investigation on this subject, it was suggested by the deputation that the Hon. Mr. Robb could, while on his mission for the Trade and Commerce Department, also look into the matter so far as the Commonwealth was concerned. It was urged that in view of the main cause which had occurred at the hanging of Benny Swim at Woodstock the previous day, it was time for this country to consider for itself the matter of capital punishment. One member also alluded to the Hon. Mr. McKenzie's comment on the large number of youths in penitentiaries and the

Dyspeptics! Take Notice!!

The World Has Gone Forth That Stuart's Dyspepsia Tablets Reinstates You At The Banquets.

All you gassy, sour stomachs who fear to eat because from acidity you suffer the pangs of indigestion, let it

Ladies and Gentlemen! All Who Are Not Suffered With Stuart's Dyspepsia Tablets Are Out of Luck.

It is known that you find relief from such distress by simply chewing one or two Stuart's Dyspepsia Tablets after meals. A host of people have gone back to fried eggs and bacon, sausage, doughnuts, baked beans, fish and cheese, steak and onions, cucumbers, cream with coffee and so on because they discovered that after eating such things, a Stuart's Dyspepsia Tablet gave the stomach a sweetened alkaline effect and there is no acid, gassy heaving, belching, pressure and such distresses due to indigestion after eating. It is well to take notice of this and get a 60 cent box of Stuart's Dyspepsia Tablets at any drug store. Be armed and prepared for the dinners and banquets.

CHILD IMMIGRANTS CAREFULLY CHOSEN

J. Obed Smith, Dominion Superintendent, Declared No Complaints for Years—Conference at Ottawa.

Montreal, Oct. 11.—"For a period of years there has not been a single complaint received regarding the selected children who have been sent to Canada from any of the British institutions," J. Obed Smith, superintendent of immigration for Canada whose headquarters are in London, was in Montreal over the week-end, having arrived on the Canadian Pacific liner Melita. Mr. Smith was asked what ground there was in the complaint voiced by a social service worker that there had not been sufficient examination of the physical and mental condition of children sent to Canada from the British Isles. To that question he replied in the foregoing. "There has been a considerable change in the manner of caring for children in institutions in England. The old plan of maintaining them in barrack-like buildings has given way to the modern system of placing them in cottages groups, each cottage in charge of a 'mother.' These cottages are placed in pleasant surroundings and schools, and children brought up in such an environment are sure to prove useful citizens and a valuable asset. "When the time comes that any of the institutions desire to send a party of children to Canada, word is sent to the department. A representative is then sent to the institution, and a survey made of the intending immigrants. As a rule all are found satisfactory, but occasionally one may be set aside for a year. Then follows an examination by the medical adviser of the department. After that the Board of Trade physician makes an examination. Finally, when the children reach the vessel there is further examination by the ship's surgeon, who stands under heavy financial penalty if he allows a mentally defective to proceed. Then on landing there is the usual physical examination. That system affords, I believe, great safeguards, and as to the efficiency of the system, I may repeat that I have not heard of a single complaint. These children have a good grounding in education and should be very welcome in their foster homes in Canada. Indeed there is always a greater demand for them than is possible to fill."

The Best Cough Syrup is Home-made.

Here's an easy way to save 25c, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2 1/2 ounces of Pinex, then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for \$2.00.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every crevice of the throat, loosen the mucus, soothe the inflamed membrane, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

URGES FREE CLINICS FOR DOGS AND CATS

Humane League Delegate Says That Stray Animals Should Have Refuge.

St. Paul, Minn., Oct. 11.—Free clinics for animals whose owners cannot afford to pay for their care was urged by Dr. F. L. Ober of Duluth, Minn., county veterinarian, in an address before the convention of the American Humane Association held here.

"I should be glad," said Dr. Ober, "to devote several hours weekly to charitable cases if a place for a clinic were furnished. We have this kind now, though under the head of 'bad pay.' Why can I blame the boy who brings in his sick or injured dog even if he knows he can never pay? He would not be much of a boy if he would not lie for his dog. The fault lies with us for not furnishing some means for his dog's care when he is unable to pay."

The veterinarian who has the fundamental principles of humaneness should be a leader in his community for education of his clients along these lines. He should teach them that the income for license and sale of animals would support a small animal hospital, as is done in New York City.

H. G. WELLS' CHANCES

Election as Labor M. P. for London University Likely.

(Canadian Press Cable) London, Oct. 11.—H. G. Wells, the noted author, who has been nominated as the Labor candidate for London University for the House of Commons in the general election, is a graduate of London University. It has been understood for some time that he would be the Labor nominee for the university, and his selection is no surprise. Wells has not a very high opinion of his own speaking powers, it is said, but in the British House of Commons a speaker's matter is much more important than the manner of his delivery.

The Manchester Guardian's London correspondent, some time ago, when it was first stated that Wells would probably be the Labor candidate for London University, said "His chances for success are not promising."

In the last general election the Labor candidate for London University, Sidney Webb, polled 2,141 votes, to 2,810

**WE NEED MORE
ADVERTISING**

This is Advice of General Secretary of Merchants' Association — Delegates Welcomed.

A considerable quantity of Yankee advertising was needed at the present time to better forward the claims of the development of Canada, according to advice contained in a short address by E. M. Brown, general secretary to the Retail Merchants Association of Canada, when he was replying to addresses of welcome to outside delegates from Mayor McLellan, W. F. Burditt, president of the board of trade; R. E. Armstrong, secretary to the board; and F. A. Dykeman, at the opening session of the eighth annual convention of the provincial branch of the Retail Merchants' Association yesterday afternoon in the assembly room of the N. B. Telephone Co. Ltd.

"If there is one criticism I would like to make about the country down here, it is this—you do not blow about yourselves enough. Now, when the Yanks entered the war, they said, 'We'll equip 5,000,000 men.' And, if that is not enough, we'll equip 10,000,000. And, if that is still not enough, we'll equip 20,000,000. That scares the Germans. You have the same sources down here but you do not let the world know about it. You need some Yankee advertising." Mr. Brown's remarks followed short speeches by outside delegates, who were inclined to adopt a rather pessimistic outlook and the general secretary's words struck a very cheery note.

Reports from the president, the secretary, and the delegates to the dominion convention were received and adopted, while the appointment of committees on resolutions, nominations and credentials was completed before adjournment last evening to the Imperial Theatre as guests of the provincial board. Walter Golding, manager of the Imperial, welcomed the delegates.

In welcoming the convention to St. John, Mayor McLellan paid tribute to the standing of the Retail Merchants' Association.

W. F. Burditt, president of the local board of trade, followed the mayor, in an address in which he urged that co-operation be the keynote of their endeavors. He recalled conditions of former years when divisions were rife and noted with pleasure, the operation that now exists to exist. He expressed the hope that their liberations would be fruitful. R. E. Armstrong expressed a similar sentiment to Mr. Burditt and was followed by F. A. Dykeman, vice-president of the local branch, who welcomed the delegates and announced the trip down to Musquash this afternoon. He felt the trip would be one of education and enlightenment to the delegates.

The chairman replied to these addresses and also J. Weddall, Frederick J. W. Scovill, St. Stephen's; F. B. Holman, Charlottetown; Messrs. Scovill and Holman spoke on the matter of discrimination that was being practiced against ports of the maritime provinces in the routing of export trade through the United States ports. They felt that some action should be taken by the province in a united manner.

William Hawker, in moving a motion to adopt the report, complimented the president on his splendid address. He included in the motion a section to incorporate the address into the minutes and this was carried unanimously.

At this point tea was served through the kindness of the Red Rose tea people and a phonograph concert was enjoyed through the courtesy of W. H. Thorne & Co.

Secretary's Report.

The report of the secretary, Miss Frances Y. Alward, then was read and adopted. It was as follows:

"In submitting this eighth annual report of your organization, I again come with the report that we have in many ways demonstrated practical usefulness during the year to our members, both from a dominion-wide and provincial standpoint.

"I do not need to tell you of the great financial depression under which Canada has been laboring during the last two years, and this last year has been one of great business depression in our province. This depression has naturally had a great effect on our organization, in more ways than one. First, from the fact that several of our firms

Said the Salad—

"People who love salads know that Lea & Perrins' Sauce is just as necessary with me as mustard is with a ham sandwich."

YOU will find that a few drops of Lea & Perrins' impart a delicious flavor to food. It is a keen appetizer and a delightful relish. Salads, cold meats, croquettes, stews and all fish and cheese dishes have a new and appetizing flavor when a few drops of Lea & Perrins' are added.

Lea & Perrins' Sauce
The Original and Genuine Worcestershire

who were members have gone out of business, strong enough financially to stand the great crisis through which we are now passing; secondly, from the fact that our merchants have not had the time this year to give to our work when formerly they had given their time and talent freely. This made it necessary for the secretary to do more strenuous work in the interest of our association, and she was more than glad to be able to do it.

"This year the provincial office has experienced the most strenuous year since the inception of the organization. Eight years ago today the first organization meeting of the Retail Merchants' Association of Canada was held here in St. John. Two weeks later the officers were appointed, and on Nov. 1, 1914, the provincial office was opened, the secretary leaving the next day to move his family to St. John. Your present secretary has, therefore, had eight years of experience in association work, first as stenographer, bookkeeper, acting secretary, and since 1918 as secretary, and never before has the provincial office undergone such difficulties as we have had during the last year. However, we have had the joy of overcoming these difficulties to a great extent, and I believe, considering this year of financial depression, that we have the association on a better financial basis than ever before.

lieve one of the best means of the secretary meeting the members. I have visited the towns of Fredericton four times, St. Stephen once, Moncton once, Port Elgin, Richibucto, Buctouche, Harcourt, Devon and other smaller towns. Each time I visited a town I had never been in connection with our work, I found that it cemented our members more strongly to the work when they talked with the provincial secretary, who when they told her the organization had been of no benefit to them, could tell each member just what it had done for that one firm, either directly or indirectly.

"St. John is really the only branch large enough to organize trade sections. We now have in St. John eight sections, and I intend very soon to organize provincial sections. We now have only one provincial section, viz., the printers' and publishers' section. This was organized in February last. Convention at Halifax.

"In August I attended the convention of the dominion board in Halifax. The other delegates from our province were Mr. DeWolfe, our president, and S. L. Emerson, of St. John. Through a misunderstanding between the dominion secretary and myself, there was a little mixup regarding our accredited delegates, but it was not many minutes till our delegates were given all the privileges of the convention. Each delegate this year to the dominion convention paid his own expenses. At a meeting of the provincial board, held previous to the convention, it was passed to pay the secretary's expenses, but owing to financial situation of the association I paid my own expenses, and

am very glad I went, for it was there that I learned that the New Brunswick secretary was not the only one who had troubles, and I also was glad to learn that our province was less in debt than any province in the dominion, with the exception of Nova Scotia, and also that Nova Scotia and New Brunswick were the only two provinces who had their per capita tax paid to date.

"Last year I reported that we had every large firm in our province as members, with one exception. This last year I have had the pleasure of bringing that one firm in as members; also several other firms in St. John which have never been members.

"Two years ago we had the luxury tax as a great menace, but after being in force six months, we had the honor of being a means for the removal of the tax. This year we have had the sales tax to fight, and I can use no other word for it. Our dominion board is gaining victories over the government in this sales tax matter, and we have faith enough in our organization to know that before many days it will be adjusted in the interest of our retailers. With our dominion secretary present, there is little need of me telling the benefits of the dominion board during the last year. But I must mention the amendment to the criminal code regarding guessing contests. This will put a stop to this evil, which has been making trouble in all provinces.

"During the year our membership has fallen off, but taking into consideration the fact that we have no organization in the depression already mentioned, we have kept the membership up well. We now have 678 members.

"I cannot close without thanking Mr. DeWolfe and the executive for their co-operation in my work, and I most heartily wish the incoming executive and my successor the greatest possible success for the next year.

"E. L. Mahoney, Secretary."

E. L. Mahoney, who is in charge of the insurance section of the organization, explained the essential features of the section to the members and answered several questions on the conclusion of his address.

The president then read a telegram of regret from J. A. Banfield, Dominion president of the association, following which A. H. Milton spoke briefly and the gathering adjourned. At the short evening session, previous to the theatre party, S. L. Emerson presented a report on the Dominion convention held in Halifax.

The following committee men were appointed: Resolutions, A. A. McIntyre, chairman; William Hawker, H. E. Beck, C. H. Burt, Norman Smith; nominating, Stanley Fisher, chairman; J. J. Weddall, Everett Hunt, F. P. Grimmer, S. C. Webb, G. B. True; credentials, J. W. Scovill, chairman; C. H. Smythe, F. B. Price.

**SUPPORTS UNION
OF THE COLLEGES**

Rev. F. D. Meader, of Saint Thomas College, Places a Strong Argument Before Canadian Club.

That amalgamation of all of the institutions of higher education in the maritime provinces into one large university is the best means of overcoming the present chaotic condition of university instruction in the east, was the opinion expressed by Rev. F. D. Meader, of St. Thomas College, Chatham, and formerly registrar and treasurer of St. Michael's College of the University of Toronto, in an address on university federation in the maritime provinces, at the Canadian Club luncheon at Bond's last evening.

Rev. Father Meader, who has been a member of the faculty of St. Thomas College, Chatham, for the last two years, was connected with St. Michael's College, Toronto, which is federated with the University of Toronto, for several years, and spoke with a clear idea of the advantages which he felt would come to the maritime universities if they availed themselves of the opportunity which the scheme, as outlined by the Carnegie Foundation for their amalgamation, would present, just as St. Michael's had profited by federating with Toronto. He made out a strong case for advocates of amalgamation of the universities of the maritime provinces, and made unfavorable comparisons of our system of education with that of the province of Ontario.

BEN FRANKLIN'S HOME IN PHILADELPHIA TO BE RAZED

Ramshackle Shanty Will Be Torn Down, But Parts of It Are to Be Preserved.

Philadelphia, Oct. 11 — Benjamin Franklin's first Philadelphia home is to be wiped out of existence. The house at No. 111 Spring street, where the philosopher took up his residence upon his arrival from Boston, is to be torn down along with numerous other buildings, to provide for the approach to the

BAKER'S COCOA

"My mother and my mother's mother used it, and I have used it all my life. There never has been anything better, never anything quite so good. Indeed, it seems to me that Baker's Cocoa is better and better as time goes by. No other cocoa seems to have such a delicious flavor or such an attractive color."

Walter Baker & Co., by processes peculiar to their method of manufacture and by the use of the most improved machinery have produced a cocoa which can be and is used as a standard for purity in chemical analyses.

ASSERTS EX-KAISER LIVING IN MEMOIRS

Delcasse Denies Proposing Franco-German Alliance Against Britain—Always Sought Entente.

(Special Cable to the New York Times and Montreal Gazette)

Paris, Oct. 7.—In an interview Theophile Delcasse, former French Foreign Minister, replies to the charge against him in the ex-Kaiser's memoirs that he planned an alliance between France and Germany for the purpose of fighting England. He says William II. declares seriously so much error that it is difficult to distinguish the truth from the falsity they contain," he says. "For example, William II. declares seriously that he was notified France wished to join Germany and Russia in order to fall upon England. This was at the time of the Boer War. That France, who had succeeded a short time before in arranging a particularly difficult situation between her and England, and whose real policy was directed toward a Franco-English entente, would have proposed such an evil thing to the Berlin cabinet—that's too dirty! I would use another term except that I'm referring to the man who during a long time represented a great country, and I would disgrace myself in using words fitly to describe his statements.

"The truth is that William always expected France to practice a policy based on fear. In 1914, the day when the German Emperor declared war on Russia, his first move was to mass most of his army in front of us. He believed that would scare us. If today he talks so much of Franco-English policy and the Entente, it is because he had seen but too late for him, that this policy had for its object to assure the independent States which he wished to make dependent on Germany.

Delcasse said that when Foreign Minister he never concealed the fact that the basis of his policy was a Franco-English entente. He said that following the incident of Fashoda up until 1904, it had been no secret to the German government that France was planning an entente with England. He continued:

"On March 23, 1904, I had a long conversation with Prince Radolin, German Ambassador, in which I laid the situation before him, giving him the substance of our accords with England. He made a long report, but in Berlin it was said all that was of no importance. William pleased himself with saying that the difference between the English and French temperaments was so great that the two nations could never conduct together the slightest enterprise."

It was mentioned by the former minister that the ex-Kaiser alleged Delcasse had tried to prepare, prior to 1904, a military alliance between England and France, and it was this that tended to force Germany into a war for self-preservation.

"There was the project of a military accord between France and England,

SCIENCE POINTS THE WAY

MADE IN CANADA

To no one body of men does the present generation owe more for its good health than to dentists.

The clean healthy mouths of people of to-day are a tribute to modern science. And Colgate's Ribbon Dental Cream has played its part. Colgate's cleans teeth the right way—washes and polishes, doesn't scratch or scour. More dentists recommend Colgate's because it is the SAFE Defturice to use Every Day.

William said," continues Delcasse, but it was simply an accord against aggression. Is it that proposed accord which William took for a pretext to say that we pushed him into war? However, that may be, and if I am attacked for that, I ask one question. Suppose the accord in question had been concluded and that it had been made public, would there not have been great probability that this notice, given in 1905, would have restrained Germany in 1914?"

Speaking of the affair at Tangier, Delcasse said: "William tries to put all the blame on Bulow. That's not very kind. I remember when the Kaiser used to run around Germany saying to his people: 'You ought to have only one will, the will of your King.' He talks now as if everybody

UNEARTH TOMB OF HEROD'S COUSIN

Antiochus was One of Those who Directed Slaughter of Children in Bethlehem—Found in the Oldest City.

Philadelphia, Oct. 11.—The burial place of Herod's first cousin, Antiochus, has been found by explorers of the Museum of the University of Pennsylvania at Beth Shan, in Palestine, according to announcement made at the museum by Dr. George Byron Gordon, the director. Antiochus, in all probability, was one of the men charged by Herod with directing the slaughter of the children of Bethlehem, as narrated by St. Matthew, in the vain effort to kill the Christ Child who had been described to Herod by the wise men as the "King of the Jews."

No discovery made by archaeologists since a start was made a century ago on the exploration of buried cities in the Near East has aroused so much interest among followers of Christianity. It is the nearest approach so far made to the founding of the Christian religion. Information of the discovery came to the museum from Dr. Clarence Stanley Fisher, director of excavations at Beth Shan, who has just concluded the second half year of operations there. In a letter to Dr. Gordon some time ago he announced that a hard stone sarcophagus was found in one of the Roman tombs at the site. On it was an inscription in Greek.

Puzzled by Inscription.

"The letters were quite clear," Dr. Fisher wrote, "but the date at the beginning and the name at the end puzzled us. We have in the camp no works of reference, and so could not look up any of the details. On Monday we had a visit from Pere Vincent and two of his colleagues and, of course, showed them the sarcophagus. They could not get the meaning, but supposed, as we had done, that the last name was some local family name."

"As soon as they returned to Jerusalem Pere Vincent looked up the name and has just sent me a letter giving the meaning of the inscription. The inscription refers to Antiochus, the son of Phallion. The latter was the brother of Antipater, founder of the Herodian Dynasty, and father of Herod the Great. Hence, the owner of our sarcophagus was the first cousin of Herod the Great. "Now the interesting part is that the father, Phallion, was killed in his district during a battle with Pompey, and his son, Antiochus, was supposed to have died here some time later. The discovery of his coffin in our cemetery proved this point beyond a doubt. So far as I know, this is the first sarcophagus of the Herodian family which has been found.

Of almost equal importance is the announcement that Dr. Fisher had found in deeper levels of occupation the first known Sarcophagus of the Philistines. It will be recalled by readers of the Bible that the Philistines defeated King Saul on Mount Gilboa, which overshadows the ancient fortress city, and, cutting off his head, nailed his body to the city walls.

Hope to Find Philistine Records.

Historians have been puzzled to account for the Philistines heretofore, as contemporary records of them were few and far between. The hope is now entertained that somewhere in the ruins may be found perhaps their own version of the great battle story told in First Samuel.

Archaeologists consider the Philistine coffins of even greater importance than the sarcophagus of Antiochus or the stone of King Sety I. of Egypt, the latter found in the first years of work at Beth Shan. The coffins were made of clay and differ from any heretofore found. Each bore the likeness of a human face, modeled into the clay at the head of the coffin.

Levels of six cities have been found so far at the Beth Shan, and it is known there are more below. The site is said to have been occupied for a longer continuous period than any other place of human habitation. It was also the most fought over spot in the world, since it commanded the waterway between Mesopotamia and Egypt and was necessary to the conquest of Palestine. Crusaders fortified the hill, and General Allenby took it from the Turks in the World War.

A NEW SOCIETY

FOR YOUNG MEN

The young men of the congregation of St. John the Baptist church, Broad street, met last night in the basement of the church and organized themselves in the new society, to be known as St. John the Baptist Society. The meeting was largely attended and marked by great enthusiasm. Plans were made for the activities of the season along social and athletic lines.

Thomas Killen presided before the organization was completed, as he, with Daniel Griffith, George Cunningham and J. Duddy had been most active in promoting the organization.

The election of officers resulted as follows: Honorary president, Thomas Killen; president, Daniel Doyle; vice-president, Gregory McDermod; recording secretary, Edmund Lowe; financial secretary, Alister Fraser and treasurer, Rev. J. J. McDermott.

TWO VACANCIES IN HOUSE.

Lanark and Moose Jaw Seats Are Now Empty.

Ottawa, Oct. 11.—The death of Mr. Stewart caused a vacancy in Lanark, which has been generally Conservative. The decision of the Saskatchewan courts has unseated R. M. Johnson, of Moose Jaw, and caused a second vacancy. For the moment, therefore, the Liberal party has a slight majority in the Commons over the combined Conservative and Progressive forces. The results of bye-elections in the two ridings will thus be awaited with interest. It is likely that the Progressives will nominate candidates in both constituencies, inasmuch as both are largely rural in character. The bye-elections will indicate, consequently, whether or not the Agrarian movement has retained its strength in the prairies or made headway in Ontario. Conservatives are confident of carrying Lanark. Some suggest that the government may not nominate a candidate in either constituency.

LARGE AUDIENCE ATTEND SERVICES OF REV. DR. MORGAN

The earnest eloquence of Rev. Dr. Campbell Morgan attracted large gatherings for his two meetings yesterday afternoon and evening. In the afternoon in St. Andrew's church he gave the second of his series of four addresses on the portrait of Christ, found in St. Luke's Gospel, and in the evening in Centenary church he spoke of the church and her mission regarding the Bible.

The last part of his afternoon address Dr. Morgan devoted to a consideration of the virgin birth. The Protestant church, he said, had too long wronged the Virgin Mary. Nothing in the world was more sublime than motherhood and on the brow of the mother of Jesus that crown shone most brightly. He drew a picture of the town of Nazareth, a city of some 10,000 inhabitants set on a hillside above the world's highway to Jerusalem, and a city full of corruption. This was the home of Mary whom the angel had hailed as "imbedded with grace" when he came to bring his message of portent.

In refutation of doubts cast on the virgin birth Dr. Morgan declared that a sinless child had been born of an earthly virgin through an act of God and his conception of God was that He did not break laws but might suspend one law to put another law into effect. He did not believe God to be limited by the laws of the universe, which man had discovered for he believed there were many laws which man had not discovered.

For the theme of his evening address Dr. Morgan took the phrase "The pillar and ground of the truth" which are found in the first verse of the third chapter of the First Epistle of Paul to Timothy.

In closing Dr. Morgan said that the trouble with the church at present was that it was jelly regular, splendidly dull, that church members had lost their passion and their devotion was dying. He was not asking for a simulated enthusiasm but when the church got back to the power and purity of Pentecost there would be abounding enthusiasm and elevation which would not react.

AMERICAN TRACTOR PLOWHS ASTOUND RUSSIAN PEASANTS

Alexandrovsk, Russia, Sept. 4.—(By Mail)—Town folks and peasants alike of this part of Southern Ukraine were hardly able to believe their eyes recently when twenty-five American tractors, with ploughs attached were put to work in the fields near here to prepare thousands of acres for the fall planting.

Peasants of the Alexandrovsk district, one of the famine areas, had become discouraged because of lack of work animals and the summer's crop failure, but the arrival of the tractors gave them a new lease on life. In pre-war days Alexandrovsk was the

centre of a thriving agricultural community, with many factories in operation turning out agricultural machinery. But these implements were all horse-drawn, and the natives knew of nothing else. So when the queer looking tractors were set up in the fields, and, without being urged by cries or whip, began the task of ploughing, the peasants shook their heads and said such crazy things just could not last. But before many days the peasants had become tractor converts, and now most of them are hoping the day may come when they themselves will be able to own a steam horse for their fields.

The tractors and ploughs were brought here by the American Menomonee Relief Organization, which is endeavoring to work out a plan for the upbuilding of Russian agriculture.

A "Coming Out" Sale of Thirty Fur Coats

Here, there and everywhere, through hundreds and hundreds of regally draped furs, went the Bargain Marker—and this is the conclusion he came to: That thirty clever St. John ladies will discover this week they can afford a fur coat more than any other—that there's something in Hudson Seal marked \$75 below today's wholesale—and, among many others, that Pony, at the height of its favor, is at its lowest price—here.

Now for as many of the thirty as may be sketched quickly.

The Two in Hudson

Flashing black Skunk creates the shawl collar and cuffs on these two 40-inch Hudsons, themselves a symphony in diamond tinted blacks. Pull through belt of the same velvety soft Hudson may be worn all around or to let the back hang in graceful folds. \$850 at today's wholesale—a small deposit claims them at

\$275

This Electric Stands Alone

A silvery grey Australian Opusum adorns this flowing Electric Seal in a deep shawl collar and turned back cuffs. It has two side pockets, a beautiful, lasting lining, and a 36-inch length. Priced down from \$185 to

\$140

Three Banded Muskrat,

Less \$50
The bright and shadowy brown tones of carefully treated Muskrat are emphasized again in the shawl collar and reverse border. Convertible belt, side pockets and lined in a silk brocade of natural green and gold. Repriced this week from \$200 to

\$150

Two Lynx Trimmed Pony—\$75

A cape collar and bell cuffs in natural Australian Lynx sets off the wear-proof black of this rippling Russian Pony. The pull through belt permits either drape of its 36-inch length. The \$95 price permits most anything when reduced to

\$75

Six Other Pony Favorites

Bronze brown Australian Lynx this time for the trimming and deep shawl collar and cuffs. Forty-five inches long and flowered silk lining. \$30 off the label makes them each

\$95

Three Mink Marmots at \$100

The moire effect of the wavy brown stripes in Mink Marmot are accentuated by the snug shawl collar and bell cuffs of these three 40-inch coats with convertible belts, slash pockets and Tussah silk linings. Price last week \$160—this week each

\$100

After all this now, the half has not been told. There are other Ponys and there are other Electric Seals at rivaling reductions. There are Marmots and Brazilian Wallabies—but perhaps you might come to look, if just at the prices. A small deposit holds any coat till November 1. And after that—

Elderly Couple Find New Vigor
Tanlac Again Proves Its Merit

That Tanlac is the ideal medicine for elderly persons has been proven in thousands of cases, but it is doubtful if any case is as interesting as that of Mr. and Mrs. George A. Davis, well-known and highly respected residents of Landow, Md.
"I had pneumonia last spring, and it left me terribly weak," said Mrs. Davis. "My stomach was upset, I scarcely ate a thing and there was always a terrible pain in my back. But Tanlac gave me a splendid appetite, my nerves are steady and I have regained my strength so I feel twenty years younger."
"I spent hundreds of dollars trying to get well," said Mr. Davis, "but nothing gave me the relief I wanted until I took Tanlac. I had stomach trouble so bad I could hardly eat a thing, and even had to go on a soft boiled egg diet. I was so racked with pain and so weak and nervous that once I actually fell and broke my nose."
"But since taking Tanlac I now enjoy perfect health, have a fine appetite and my nerves are steady as a rock."
NOTE: The International Proprietaries Co., distributors of Tanlac, have an office in their offices at Atlanta, Georgia, over fifty thousand signed statements from representative men and women from every State in the Union and every Province in Canada. Many of these are from prominent people in this city and section and have been previously published in this paper. Tanlac is sold by all good druggists.

AUTO NUMBERS
TO BOOST SALES

Los Angeles Stores Find They Make an Excellent Basis for Mailing Lists—Optical Company Writes to Every New Motorist.

When a man buys an automobile in Los Angeles he at once becomes a prospect for several lines; and he is not allowed to be in ignorance of the advantages of those lines, either. Some retail concerns make the fullest use of these names for direct-by-mail follow-up.
In an early mail he receives a catalogue from the Western Auto Supply Company, chain automobile accessories stores concern, which has stores in several western cities. This alone suggests many items to the new driver and some to the old, and the next time a man is downtown he will stop before one of the windows, and many step inside, referring to the catalogue that was mailed to them. The mail-order business alone of this concern amounts to a great deal. An optical concern puts forth its goods in a well-worked letter that reads as follows:
Mr. Wilbur T. McLean,
3622 East Wendell avenue,
Los Angeles, Calif.
Dear Mr. McLean: Do you know that the peculiar light in Southern California is a great nuisance to outdoor photography? Well, it is. Our sky is blue in color, but in comparison with the usual deep cobalt and indigo sky of the eastern sections. Furthermore, there are only a few days in the year when we have suitable clouds in the sky to tone down our light.
This peculiar, clear, bright light, singularly characteristic of our climate, unfortunately causes unnatural disturbances in the super-sensitive retina of the eye, which can be readily relieved by "Crookes lenses" made particularly for this purpose.
Moringing occasions more eye strain than possible as you stare the eyes are called upon to do. Combine the debility of eye strain with your fatiguing light conditions, it is no wonder that you so often hear people remark: "Riding seems to tire me more than it should."
For thirty years we have enjoyed a distinction of being the leaders in optical work in Los Angeles. We have an organization of expert optometrists who are at your service for consultation, free of charge.
You are cordially invited to visit our stores at your convenience to avail yourself of this service.
Come in any time.
CORTEZ OPTICAL COMPANY.
One of the most ingenious pieces mailed is that of a group of close to a hundred dealers who make up "Automobile Numbers." These dealers co-operate to publish a large catalogue, in which each space in proportion to his needs and the size of the book is "Automobile Row." Two things have been done to influence a prospect to refer this book for his future reference. One is that of a group of close to a hundred dealers who make up "Automobile Row." SNAKES ROBBED OF VENOM FOR CURE

Poison Extracted from 33 Bronx Zoo Moccasins and Copperheads to Obtain Serum—Whiskey Myth Exploded.

New York, Oct. 11.—Poison was extracted from thirty-three snakes at the Bronx Zoological Gardens this week because the demand for snake serum has been greatly stimulated, following extensive laboratory experiments which are said to prove that the whiskey treatment aggravates snake bites instead of curing them.

Raymond L. Currier, Curator of Reptiles, caused twenty-four copperheads and nine water moccasins to give up their poison, which was developed into serum by Dr. Afranio Amaral of the Department of Snake Serum Therapy. The experiments, supposed to prove that whiskey helps to kill snake-bite victims instead of curing them, were carried on at this institution in Brazil under the direction of Dr. Amaral, who is now engaged in research work at the Harvard Medical School. These experiments were described by Dr. Gilbert Vander Smissen, a specialist in the treatment of snake bites, who assisted yesterday in the delicate work of poison collecting in the glass room of the Reptile House at the zoo.

The general old standard remedy for snake bite has been suspected of worthlessness by physicians for many years, according to Dr. Vander Smissen, but the recent experiments in Brazil have proved that a quart of Scotch or rye actually hinders the patient's chance of recovery.

Test Sober and Drunken Mammals.

The Brazilian experiments are conclusive, according to the specialist, in spite of the hundreds of miracles attributed to whiskey in the last few years. The activity of poisonous snakes in biting human beings increased one hundredfold, according to investigators, and hundreds have reported themselves snake-bitten in communities hitherto regarded as snakeless. Judged by the demand for prescriptions, it is asserted that Long Island has been wholly misrepresented in the natural histories which allege that it is almost free from poisonous snakes. It has all the reptiles of a tropical jungle, according to recent medical history.

"The procedure in the Brazilian experiments," said Dr. Vander Smissen, "was to take a series of mammals and dose them with whiskey. Then poisonous snakes were caused to bite them. A similar series of mammals was kept sober and they, too, were bitten by snakes. The intoxicated animals all died five or six hours before the sober animals."

"The fact of the matter seems to be that whiskey or any other alcoholic liquor, instead of counteracting the poison, merely acts to speed up the circulation, to spread the poison more quickly throughout the body and to

Paint Your Cheeks from the Inside Out

Ironized Yeast Produces Remarkable Results on Blood and Complexion in a Few Days' Time

You, madam, are only one of the millions who suffer every day from a dull, drab, unattractive complexion. These days of beauty-labor are over. Ironized Yeast is the one great Nature-secret

For a Summery Complexion All the Year, Take Ironized Yeast. It is not a mere mixture of yeast and iron, but is yeast ironized, which gives a substance all by itself. It is Nature's recipe, face cream, skin beautifier, purifier, skin beautifier, all in one! Man has never, will never, be equal to it! Ironized Yeast begins to act immediately on blood, nerves, tissues and complexion. It cures skin spots, mudiness, sallowness, pimples, blackheads—all beauty thieves—to vanish! In their place you will notice your complexion blooming out in new beauty like a chrysalis into a beautiful butterfly. This is not a vision, but a fact. Nature does it, that's all we know. Start with Ironized Yeast today. Sold at all drug stores at \$1.00 a package. Each package contains 60 tablets, each tablet is sealed. They never lose their power. Harold F. Ritchie & Co., Ltd., Toronto, Sales Agents. You will feel like hugging yourself after you have used Ironized Yeast a short time. Then with the added use of your favorite cream and powder, you will own at last the exquisite complexion you have always dreamed of having. Beware of substitutes.

Jo-Bel

THE WONDER SALVE (Registered)

Will Cure Anything Curable. Mr. David Jones, Nauwigewauk, one of the Fighting 26th, returned from overseas with an apparently incurable sore on his leg. A year ago he could only walk with the aid of a cane, and thought his leg would have to be amputated. He had been in the hospital without result. Someone told him to try Jo-Bel. He did—one 50 cent box cured him. Maybe it was a miracle. Watch this space. Sale all druggists, or Jos. A. Murch, 137 Orange street, St. John, N. B. Price 50 cents and \$1.00. Mail orders supplied.

speed the chemical changes which it causes.

If you want to kill a snake-bite patient, give him whiskey. The best treatment for snake bites today seems to be to remove as much poison as possible mechanically, to wash the wound and then to treat the patient with serum. My own experience indicates that nothing else should be done. We have often injected permanganate of potash about the wound, but this, it is likely, does more harm than good. The drug kills tissue and seems to have no beneficial influence."

Collecting the Poison.

The snakes were collected into two kegs for the poison extract yesterday. They were lifted out by large wire hooks and placed on a table, where an instrument was placed just behind the head to render it impossible for them to strike. Each of the thirty-three snakes wriggled and struggled, but none succeeded in threatening the nimble operators, who are used to handling quick-thinking reptiles.

Allowing the first snake an inch or two of room in which to strike, Mr. Dittmars placed a glass funnel covered with parchment before the reptile. It struck instantly, the quarter-inch fangs penetrating the parchment. Each of the snake's natural hypodermic needles ejected poison. The snake specialist then caught the subject back of the jaws and squeezed the poison glands, forcing another drop from the fangs. The poison was allowed to run from the small funnel into a glass receptacle. One after another the thirty-three snakes were thus treated, and a total of sixty drops of poison collected, the venom of the moccasin being kept separate from that of the copperhead. There is no specific serum at present against moccasin and copperhead bites. Victims of these snakes are treated with antivenom and other snake serums which have a beneficial effect, but are not so efficient as the specific serum is expected to be.

Obtain Serum From Horses.

On his return to Brazil Dr. Amaral will use the two types of venoms in developing antivenoms from horses. For this purpose magnificent percherons are used. A dose of one-twentieth of a drop is first injected. A big healthy animal hardly notices this. A week or so later a larger dose is given. This is repeated for months until the horse is finally unaffected by a dose which would be promptly fatal to an untreated animal.

After the horse has developed immunity to this extent, it is able to furnish serum in large quantities. A quart or more of blood is extracted. From this the clear serum is drawn off. This is strongly charged with substances, developed by the poison treatment, which have the power to neutralize the venom. The horse may be bled again and again for serum, but after a certain period the immunity wears off, and a new producer of serum has to be developed. The same horse is not used over and over for this purpose. The serum from a horse which has undergone a second course of poisoning undergoes complications of some unknown kind and is of less value in treating patients.

Quick Treatment an Essential.

"The snake serum, if injected a few hours after the bite, is an infallible remedy," Curator Dittmars said yesterday. "The one drawback to it is that it must be handy. The patient must be treated within six hours or so, or else the work of the poison is so far advanced that it cannot be counteracted. It should be distributed through all

localities where snake bites are frequent. Hundreds of lives have been saved by it. It has not only been speeded by the rescue of victims by long-distance telephone and automobile, but by radio and aeroplane. I have just returned from a trip to Southern California, where there are several poisonous varieties of snakes, and I learned that in several cases airplanes have been sent out from San Diego and other points to ranches where snake-bite cases have occurred. The call for the remedy has usually come by long-distance telephones, but in some cases it has been relayed by radio.

"The serum will be developed in laboratories in Brazil, because the serum laboratories in this country are all working to capacity in producing remedies for diseases which are more common in this country than snake-bite. Because of the number and variety of snakes in Brazil and the great annual death rate from them, the development of the serum treatment has advanced much further there than elsewhere."

Dr. Vander Smissen said that the Brazilian medical men had developed a polyvalent snake serum, which means a combination of snake serums. Very often the patient does not know what kind of a reptile bit him and specific antivenom cannot be used. The polyvalent serum, however, contains a fraction of specific serum against the

venom, and the action of the specific is aided by the varieties of serum in combination with it. The snake poisons closely resemble each other, and any type of serum has more or less effect in killing any kind of snake poison.

The sixty drops of venom obtained yesterday, after working several months in the veins of percherons, will produce several hundred doses of serum. These will be distributed in the localities where moccasin and copperhead bites are most frequently reported.

MEMORIAL TABLET.

The quarterly meeting of the St. John Power Boat Club was held last night in the club rooms with Commodore J. H. Barton presiding and a large attendance of members. An interesting feature of the meeting was the presentation to the club of a handsome bronze tablet bearing the names of the members and their sons, who enlisted and served overseas during the late war. The tablet contains a list of forty names and was the gift of Rear Commodore Ronald A. McAvity. Heartly thanks were extended to the donor in a unanimous standing vote and all present joined in singing "For he's a jolly good fellow" and then gave three rousing cheers for the Rear Commodore.

Y. M. C. A. CLASSES.

The Y. M. C. A. gymnasium classes are now in full swing and the schedule for the season has been completed. All of the classes are well attended and the members are getting to work in good style. The average attendance in the various classes is as follows: "Comers," 46; Junior A, 72; Junior B, 50; High School, 20; Junior business boys, 30; and young men's class, 30. The senior leaders' corps held its first meeting last night and there was a good attendance. The wrestling

for Rheumatic Conditions

The absence of sugar or other sweetening properties make ENO'S "Fruit Salt" invaluable for the treatment of rheumatism, gout, sciatica and lumbago. ENO attacks the causes of such conditions at their source, and in addition to relieving existing pain, its daily use lessens considerably the chances of their recurrence. Every druggist in Canada sells

THOMAS' THOMAS' THOMAS' THOMAS' THOMAS'

ANNUAL AUTUMN FUR SALE

Opening Thursday Morning, October 12th and Continuing Until Saturday, October 21st.

In former years we have held our Annual Autumn Fur Sale in November, but this year we have decided to hold it in October. There are several reasons for this. First, we have been able to purchase very advantageously from several of the large fur houses; then, the season this year is slightly in advance of other years; and finally, we have decided to give the people of St. John and vicinity such bargains in fur garments and separate pieces that the name F. S. Thomas and Fur Values will be associated throughout the province with one another.

Nothing will be withheld during this Fur Sale. Everything in Furs in the entire store will be subjected to startling reductions. You can see both "price tags"—the former price and the Sale price. And the F. S. Thomas label means a positive guarantee as to quality and workmanship.

Animal Scarves

A marvelous showing of Animal Scarves of Black Lynx, Wolf in Taupe and Cinnamon, Alaska Shawl Collars, Neckpieces of Mink, Ermine and other favored Furs; all at prices for our Annual Fur Sale of from 25% to 50% discount.

Siberian Grey Squirrel Stoles

Beautiful Stoles of Siberian Grey Squirrel, Hudson Seal, Scotch Mole and others are just the thing for evening wear. We ask you to inspect these. During the Annual Fur Sale these will go at 25% discount.

Mail Orders will be shipped same day order is received

Hudson Seal Coats

The quality of the pelts in these Hudson Seal Coats is unsurpassed. Made in full smart body lines in varying lengths. Exquisitely trimmed with Alaska Sable, Beaver, Squirrel and Fitch. The large Shawl collar and modish wide cuff make this garment one of our smartest and most popular coats. The new silk girdle may be had in place of the belt if desired.

BASEBALL

Seniors Averages.

The official averages for the two local professional teams were given out last evening by the scorer, William Carney. These averages included the league contests played by both the St. Peter's and the St. John's and also the exhibition games played by both teams. The averages show that the St. John's were the heavier hitting team while the champion St. Peter's had a wide margin in fielding.

\$15,000,000 WILL CONTEST.

Estate of James A. Murray Involved in California Controversy.

Salinas, Cal., Oct. 11.—A contest over the probating of the will of James A. Murray, mining men of San Francisco and Butte, Mont., who left an estate valued at between \$15,000,000 and \$20,000,000, was filed in the Superior Court here on behalf of Andrew, Raymond, Joseph A. and Maurice Murray of Detroit, Mich., cousins of the deceased.

Murray died in Monterey, Cal., May 21, 1912, and left an estate valued at between \$15,000,000 and \$20,000,000, was filed in the Superior Court here on behalf of Andrew, Raymond, Joseph A. and Maurice Murray of Detroit, Mich., cousins of the deceased.

The plaintiffs assert that the San Francisco courts distribute the estate, security valued at between \$600,000 and \$1,000,000, between two of the heirs without being aware that this security was not a part of the estate proper.

The contestants are suing for a tenth share each of the Murray estate.

Was a Noted Man. New York, Oct. 11.—Henry E. Buermyer, eighty-four, one of the founders of the New York Athletic Club and the first amateur heavyweight boxer of the U. S., died in Brooklyn last night.

At one time he was said to be the most powerful athlete in the country. According to accounts, he could put two ninety-eight pound dumbbells at the same time. He ran the 100 yards in 16 3/4 seconds.

Had Good Season. L. R. Acker, Halifax horseman, passed through the city yesterday en route from Brockton, Mass., to Halifax, after a successful season on the short ship at the Rochester, N. Y., and Brockton, Mass., fairs. During the season his horse won thirty-two first places, seven second and three thirds. His four horses arrived yesterday on the S. S. Governor Dingley in charge of their driver and trained, Dan Steele.

Accept Challenge. The East End Boys' Club basketball team accepted the challenge of the Central Baptist church for a game on Wednesday night at eight o'clock at the Boys' Club room, City road.

WOMAN BREAKS MAN'S RECORD FOR FIRST TIME IN SWIM HISTORY.

Hamilton, Bermuda, Oct. 11.—In the swimming meet held at St. George recently, in which American and Bermuda women swimmers participated, the 100-yard free-style event was won by Gertrude Ederle of the Women's Swimming Association of New York in one minute 45 seconds. This time breaks the former world's record of one minute 40 1/2 seconds, held by Charlotte Boyle Clune of New York, and was held by Hilda James of England. In the 400-yard back stroke race Sybil Bauer, Chicago, won from Ethel McGray, New York, establishing world's records at the 300, 400 and 440-yard marks, the figures being respectively 4:19-3/4, 5:50 and 6:24-1/2. The old record was 6:28, held by Harold Krueger of Honolulu. This is the first time in the history of swimming that a woman has beaten a world's record held by a man.

Cannot Meet Prudhomme. Ottawa, Oct. 11.—Moe Herscovich of Montreal, ex-amateur welterweight champion of Canada, cannot fill his engagement here on Saturday night against Corporal Prudhomme, a P. C. L. 1 man, who represents Canada at the Olympic games. Herscovich, according to the promoters is forbidden by his doctor to engage in heavy work for at least a week.

CONVICT JUMPS OFF WALL

Paroled Drug Addict Killed in Fifty-Foot Leap.

Ostings, N. Y., Oct. 11.—William Lane, 45, paroled convict, who made a futile attempt to escape in Grand Central Terminal when being taken back to Sing Sing Saturday afternoon, this morning cheated the law by plunging fifty feet from the six-tier gallery in the prison cell block to the stone flagging below. He died four hours later.

According to Warden Lewis E. Lawes, Lane was a drug addict. It was reported that Lane had been arrested in Manhattan as a parole violator for trying to send drugs to prisoners in an up-State prison.

THIS LUCKY STEEPLEJACK FALLS IN WATER TANK

Glasgow, Oct. 11.—Glasgow claims to have the luckiest steeplejack in the world. A miraculous escape from death is reported in the case of George Armstrong, who was at work repairing the top of the highest chimney stack in Glasgow, when he lost his balance and fell. At the foot of the stack is a water tank, protected over the top by iron bars three feet apart. Armstrong fell headlong into the tank without touching any of the bars, and sustained only minor injuries.

NEW C. N. R. BOARD ASSUMES OFFICE

The new directorate of the Canadian National Railway lines held a meeting yesterday in Toronto, and formally took over their duties. Major Graham Bell, vice-president, was in the chair in the absence of Sir Henry Thornton who has gone to England to wind up affairs here.

The retiring directors also held a brief session and handed over the lines to the new board.

Following the meeting of the new directorate, the following appointments were announced: W. D. Ross, vice-president and general manager of the Grand Trunk; S. B. Hungenford, vice-president and general manager of the Canadian Northern system; C. G. Bowler, general superintendent, Toronto, promoted to be vice-president and operating manager of the Grand Trunk Railway; W. R. Davidson, promoted to general superintendent of the Grand Trunk, headquarters at Montreal; H. A. Fish, general superintendent of the Grand Trunk, Montreal, transferred to Toronto; Robert P. Ormby, secretary of the Canadian Northern Railway, acting secretary of the new board of directors.

LOCAL NEWS

A BIRTHDAY PARTY

Twenty-two boys and girls, friends of Ronald Garnett, were pleasantly entertained last evening in honor of his eleventh birthday when they assembled at his home, 63 Richmond street. Supper was served, after which the entertainment took the form of dancing, singing and games. Many beautiful and useful presents were received from his friends.

C. P. R. HUNTSMEN

Grant Hall, vice-president of the C. P. R. who arrived in the city yesterday after a successful hunting trip in the New Brunswick woods along the Shore Line, returned to Montreal yesterday afternoon. Mr. Wanklyn, general executive assistant of the C. P. R. who has been on a hunting trip in the New Brunswick woods, was due at Ennisville today to entrain for Montreal.

HIS BIRTHDAY

Last evening at the home of Mrs. R. Stevens, 133 Prince Edward street, friends of her grandson, little George Murray, gathered for a birthday party in his honor and spent a happy few hours with games, music and refreshments. The young host was the recipient of a large number of gifts from his friends.

WON SCHOLARSHIP

Winners of county scholarships at the U. N. B. Fredericton, were announced recently, among them Guy D. Scovil of St. Stephen. Mrs. Miller was wrongly given. He is a son of Wm. G. Scovil of Oak Hall and a resident of Hampton. Mr. Scovil is passing a successful course in engineering and chemistry. He was a scholarship winner also last year.

TO PENITENTIARY

Word was received today at the headquarters of the investigation department of the C. P. R. in this city that Alfred Mignault, who was arrested at Grand Falls on charges of breaking and entering the C. P. R. building as well as four stores, was yesterday sentenced to serve three years in Dorchester by Judge Cameron, who presided over a session of Victoria county court in Andover.

POLICE COURT

In the police court this morning three pleaded guilty, and two said they were not guilty of being drunk. Police Constable Ross of the C. N. R. said that a party of three men had come into the city yesterday morning and were drinking in and out of the station at various times up to noon. All were drunk, he said, and one of them was calling the passengers names. Fines of \$8 or two months in jail were imposed in each case and the three arrested at the station were allowed to go when they said they had tickets for Nova Scotia points and paid their \$8.

MRS. ISOBEL MILLER

The death of Mrs. Isobel Miller, widow of William Miller, occurred at her home, Prospect street, Fairville, at one o'clock this morning after a lengthy illness. Mrs. Miller was in her eighty-fifth year and had spent practically all her life in Fairville. Her husband died nine years ago. Coming originally from the north of Ireland, Mrs. Miller was a member of the Presbyterian church and a regular attendant at St. Columba until falling ill was prevented. She is survived by two daughters, Mrs. Annie L. Larrie and Eleanor, at home, and two sons, William, living in St. John, and Samuel, at home.

WIRELESS FOR S. S. EMPRESS

Plan in Connection With Repairs—Enquiry Tomorrow Morning.

Captain L. A. Demers of the Dominion Wreck Commission, who arrived in the city yesterday with his secretary, J. T. Down, to hold an enquiry into the stranding of the steamer Empress, said this morning that he had not yet definitely fixed upon the other members of the commission, which will sit in the Board of Trade rooms tomorrow morning at ten o'clock.

Captain Angus MacDonald, who was in command of the Empress when she went ashore, is expected to arrive in the city tonight.

In connection with the steamer, R. E. Armstrong, secretary of the St. John Board of Trade, received a letter from A. D. MacTier, second vice-president of the C. P. R., saying that the company had decided to install a wireless equipment on the Empress while she was undergoing repairs to fit her for service again. This would practically ensure absolute safety in crossing the bay by providing connection with the range-finding station at Red Head. It would also facilitate the matter of accurate steering in a fog or rain.

The government steamer Arammore, secured by the C. P. R. to replace the Empress, arrived in port this morning and will be placed on its route tomorrow morning. As some alterations will have to be made to her cabins, no passengers will be accommodated tomorrow, but passenger service will be resumed Friday morning.

The Empress reached Halifax last evening at five o'clock. She is to go into dry dock there.

FRENCH LABOR QUESTIONS.

Paris, Oct. 11.—General agitation and unrest prevails in the liquor organizations throughout France due to the modification of the eight hour regulations for marine employees. The labor unions now demand the enforcement of the eight hour day in the other classes of labor.

The printers' union has given notice that the union will not condone hereafter working overtime at the ordinary tariff. The practice of disregarding the eight hour day by the consent of the workers is quite general in French workshops.

CHESLEY STREET BRIDGE MATTER BEFORE COUNCIL

Matter of Sharing Cost with C. P. R. is Still Undecided.

Old City of Portland Records Referred to—Petitions for Lights and Sewers Received— Repairs to Ashburn Bridge Passed.

The matter of the city's sharing in the cost of the reconstruction of the C. P. R. bridge across Chesley street came up before the weekly meeting of the common council this morning but a motion made by Dr. Frink for the city's participation under certain conditions was not seconded and the matter remains in abeyance. Other minor matters were dealt with. The mayor presided and all the commissioners were present.

Reporting on the matter of the Chesley street bridge, Commissioner Frink said that the railway commission had suggested the city assuming one-third of the total cost of \$2,100. He said that the records of the old City of Portland had been searched to see if the railway was given permission to cross the street. He found that on Sept. 12, 1888, claims for damages had been made by the city to the St. John Railway and Bridge Co.; on May 12, 1884, a committee was appointed to guard the interests of the city in connection with the railway, and on Sept. 1, 1885, an agreement was entered into between the city and the railway and bridge company.

Dr. Frink said that on October 2 he had written J. M. Woodman of the C. P. R., asking that, if the documents referred to in these records were in possession, he would like to have them in order to establish the city's responsibility. So far he had received no reply. He moved the adoption of his previous report in which he recommended that the city bear one-third of the cost if it could be ascertained that permission to cross was given by the City of Portland.

Both Commissioner Thornton and Commissioner Wigmore spoke against any payment by the city and as the motion had no second, the matter will be referred to the table.

A petition from the residents of Dufferin avenue for the installation of two street lights was referred to Mr. Thornton.

A petition was presented from Thomas M. Foley asking that a sewer be provided for about twelve families in Barker and Somerset streets. He offered a right of way through his property. The matter was referred to Commissioner Wigmore.

Commissioner Bullock asked if a commissioner of water and sewerage could not bring a report of any sections of the city in which there were two or more families which were not served by city sewers.

Mr. Wigmore replied that he could bring in a report of new and renewal requirement in the city system that would be in the vicinity of \$1,000,000. He said that there were some wooden sewers in the city from twenty to thirty years old that required replacing, but he promised to bring in the report asked.

A communication from The Municipal Review, successor to the Municipal Journal, asking the city for subscription to the publication was referred to the mayor with power to act. The price quoted was \$10 for six copies, or \$20 for twelve to the end of 1923.

FOR REMOVAL OF HAWTHORNE

Rev. W. D. Wilson Brings Word of Resolution Passed by Temperance Alliance.

Rev. W. D. Wilson, field secretary of the N. B. Temperance Alliance, arrived in the city today from Woodville where he attended a meeting of the alliance yesterday, Donald Fraser presiding. He said that a resolution was passed urging the government to pass an order in council prohibiting the exportation of liquor and another resolution advocating the dismissal of Chief Inspector Hawthorne on the grounds that no serious attempt was being made to enforce prohibition, and that his successor be a man who was in sympathy and favorable to a strong enforcement of the act. The alliance also passed a resolution expressing opposition to the law allowing export liquor agencies, which they considered opened the doors for illegal distribution of liquor throughout the province.

WATER RATES ARE ABOUT HALF PAID

Receipts to Date More Than Last Year's Record— Tomorrow is Last Discount Date.

Although only about half of the amount of the water assessment had been paid into the city chamberlain's office last night, the receipts to date have been more than \$20,000 more than they were on the same date last year, so the chamberlain announced this morning. The total assessment was slightly more than \$182,000, some \$160,000 more than in 1921, and he received up to closing time last evening was in the vicinity of \$94,000; a little more than half the assessment. There was quite a rush at the office today. Tomorrow will be the last day of the discount period.

WEDDINGS

Irvine-Squires.

At St. Luke's church, at seven o'clock this morning, an interesting event took place when the rector, Rev. R. P. McKim united in marriage Frederick J. Irvine, a popular railway mail clerk of this city, to Bridie, youngest daughter of the late George and Helen Squires of Halifax. The bride was given in marriage by J. D. Williams. She was gowned in a very pretty navy blue tricot suit with canna hat and vampire fox fur, and wore a corsage bouquet of Ophelia roses. Miss Lillian Bromfield, organist, played Mendelssohn's wedding march. The young couple were unattended. Some very valuable presents were received, including several substantial checks. Mr. and Mrs. Irvine left on this morning's train on a honeymoon trip through the province. On their return they will reside at 45 High street.

Dixon-Hayter.

A very quiet wedding took place in Knox Presbyterian church yesterday at 1.30, when Rev. R. Moorhead Legate united in marriage Miss Edna L. daughter of Mr. and Mrs. Jas. H. Hayter of this city, and Edwin J. Dixon, also of the city. The bride was given away by her father and was very becomingly attired in a suit of navy velvet with hat to match, and wore a handsome seal cape, the gift of the groom. She also carried a bouquet of Ophelia roses. The groom is a very popular young man. He served overseas with the D. A. C., under Colonel Harrison for over four years. Mr. and Mrs. Dixon left by automobile for a trip through Nova Scotia, and on their return will reside in this city.

THE HOBBLING MARK.

Berlin, Oct. 11.—The flood of new currency has literally knocked the crutches from under the hobbling mark, and in consequence of the great expansion in German money, the hoarding of dollars and of the other high currencies has become the almost exclusive form of investment by all classes in Germany. Considerations of patriotism seemingly have failed to impress the natives.

NOTABLE YEAR FOR EXHIBITIONS

N. B. Fall Fairs Uniformly Successful, Says Minister of Agriculture—The Potato Freight Cut.

Generally the fall fairs in the province of New Brunswick have been well above the average from all standpoints, so D. W. Messereau, minister of agriculture, told a Times reporter this morning. Mr. Messereau here to attend a meeting of the provincial government. The north shore, he said, had shown a particularly noticeable improvement and the fairs this year were on the whole equal in their live stock and agricultural products exhibits to the larger exhibitions.

A gratifying feature of this year's shows, he said, was that they were all a financial success, which seemed to indicate that the period of depression had passed. All in all it was the most successful round of fairs for several years.

Mr. Messereau commented particularly on the great strides that have been made recently in the improvement of live stock. This was due, he said, to the fact that better stock was being imported and the breeders were paying stricter attention to the breeding. The experimental farm at Fredericton, he asserted, was working wonders in this connection and contributed in no small measure to the results which were being attained. He spoke highly of the work of the manager, C. F. Bailey, who was taking a keen interest in live stock development.

Referring to the recent cut in the freight rates on potatoes for export from the province, Mr. Messereau said that this would help the shippers a little, but until conditions were adjusted so that the farmers could receive a fair price for their product, he thought that the export of potatoes from New Brunswick would not prove a paying proposition. He said that seventy-five cents a barrel did not give a sufficient return to pay the costs of production; \$1.50 a barrel he thought would be nearer the mark.

Fashion Officially O. K.'s These Fall and Winter Coat Cloths

After that no woman will be able to resist them. A coat made of any of these cloths will stand more wear and tear, more wind, rain, and snow, more careless treatment than a coat made of any other kind of cloth. They are ideal for walking, for traveling, for business or school.

A Brief Outline of the Price Situation

Clothing prices started soaring in 1918, kept up in 1919, took a tumble in 1920, receded still further in 1921, and this season are still lower—down as far, we believe, as they will be for a number of years.

We are greatly pleased with our clothing for the Fall season—the woollens are fine, the models graceful and attractive, and our various manufacturers have excelled themselves in the workmanship of the garments.

And so with lower prices as an additional inducement, we are anticipating a banner business. Our appeal is made on

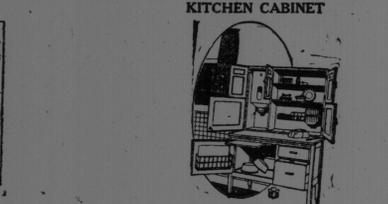

\$25, \$35, \$45.

grades and if you don't know the values we give at these prices you are missing something. Our entire price range is from \$20 to \$55.
