THE CRISIS REACHED

Berlin, July 30—The foreign office, late this afternoon, authorized the following statement: Germany has taken decisive steps at St. Petersburg, Paris and other capitals, within the last hour, the results of which will determine the issue of war or peace.

OUTBREAK BY TOMORROW IS POSSIBLE

Berlin, July 30—Germany is today prepared to declare war upon Russia unless the czar furnishes a satisfactory explanation of the mobilization of his troops along the frontier. With the situation now in the hands of the general staff there was an ominous silence about the foreign office today. It was evident that Germany was preparing for action rather than further diplomatic negotiations.

RUSSIA MOBILIZES 1,200,000 MEN IN ANSWER TO ULTIMATUM FROM GERMANY

St. Petersburg, July 30—Russia today officially notified Germany and Austria of the mobilization of fourteen army corps, numbering 1,200,000 men. The czar is said to have expressed the intention of taking the field as commander in chief in event of hostilities.

This is Russia's answer to the virtual ultimatum which came from the German foreign office in an unofficial statement that the Kaiser would order the mobilization of his forces unless Russia ceased her military activities within twenty-four hours. With the 1,200,000 men mobilized, Russia will have more than 2,000,000 in the field. The number of officers necessary for the reserves have been notified to report to their stations immediately. The medical service of the entire army has been placed on a war footing. Surgeons and nurses have been gathered and the necessary horses and vehicles have been requisitioned.

FIRST BATTLE FOUGHT; AUSTRIA CLAIMS THE VICTORY; THOUSAND MEN ARE KILLED

Vienna, July 30—Reports here declare that the first battle of the Austro-Serbian war has been fought at Foca, and resulted in a complete victory for the Austrians. One thousand men are reported killed.

Two Serbian divisions were routed by the Austrians. One entire division was captured and the other retreated in disorder. The reports here declare 800 Serbians were killed. The Austrian loss was placed at 200. Berlin, July 30—A special says the Austrians took four thousand Serbian prisoners at Foca. The battle began when the Austro-Hungarian troops began to cross the Drina River. Serbian cavalry opposed their advance, but were driven back upon the position occupied by the infantry.

This point was shelled by Austrian Artillery, on the Bosnian side of the river, and when the Serbians were compelled to retreat, they were attacked by the Austrians in force. Foca, the scene of battle, is in Bosnia, located on the Drina River, thirty miles southeast of Sarajevo. Serbians have been concentrating along the Drina since war with Austria was first threatened. Austrian forces in this district also mobilized along the Drina.

NEXT 24 HOURS LIKELY TO DECIDE FOR PEACE OR WAR

Major-General Erich Von Falkenhayn, German minister of war, and Lieut. General Count Helmuth Von Moltke, chief of the German general staff, had a long conference today with Dr. Von Bethmann Hollweg, the imperial chancellor. It is known that no steps have been taken toward the mobilization of the German navy. As to the German army, in addition to precautionary movements of smaller units towards the Russian and French frontiers, the men composing the supplementary reserve are reported to have received instructions to come up for drill three days after the mobilization in case it should be ordered.

Some officers in close touch with the situation guardedly expressed the opinion today that the next twenty-four hours would see a decision of the question of peace or war. They said indications of the imminence of a crisis were seen in the orders sent to the reserve officers to hold themselves in readiness for service, and in other preliminary precautionary measures.

Paris, July 30—President Poincaré presided over a meeting of the French cabinet this morning. The area of high pressure has spread from the Great Lakes region eastward to the maritime provinces and the barometer is now high in all the provinces with no indication of much change. The weather is fine throughout the dominion with a tendency towards somewhat lower temperature in the west and higher temperature in Ontario and Quebec.

Martime—Fresh northeast and east winds, fair and cool today and on Friday. Fine Tomorrow. New England forecasts—Cloudy tonight; Friday, fair, fresh to strong easterly winds.

ANOTHER ARREST IN RIOT CASE

Another arrest in connection with the riot was made this morning when William Day, twenty-two years of age, was taken in charge by Policeman Dykeman. He was brought before the court, and after the charge was read over to him, was remanded and asked to be allowed to send for a lawyer. Percy Wain, an Australian, was also before the court, having been arrested last evening by Detective Lucas and Policeman James Ross. He was charged with taking part in the riot by throwing stones at the car sheds in Westworth street. "I plead not guilty, Your Honor," said the prisoner. The magistrate told him he was not asked to plead, and said it was not a matter he could deal with and told the prisoner he would have to stand a preliminary examination, and would probably be sent before the grand jury.

MRS. F. J. MAHER, BRIDE OF TWO MONTHS, DEAD IN EDMONTON A telegram from Edmonton, Alta., to the home of Martin McGuire, Esq., on Main street, brought news which caused many heartfelt expressions of sorrow amongst the people and esteemed by many. Little Mrs. Frederick J. Maher, a bride of only about two months, she was formerly Miss Katie McGuire, daughter of the late Cornelius McGuire, of Black River, popular and esteemed by many. She died in Edmonton, where Mr. Maher is in the real estate business. A few days ago the bride became ill, and she was deemed advisable that an operation be performed, although it was not thought that her condition was at all serious. Yesterday, however, she became weaker and died. Besides her husband, she was survived by two brothers, Robert McGuire, of Boston, and Frank McGuire, of Vancouver. Mr. McGuire, to whom word of the death was sent, is an uncle. All in St. John who knew her are saddened by the news and sincere sympathy is felt for her bereaved husband and brothers.

Difference of Opinion About The \$2,000,000 Extra Aid Subject Of Argument at Railway Inquiry This Morning

"Company Would Have Got it All if it Had Not Been For Inquiry" Says Mr. Carvell—Ross Thompson on Stand All Morning—A. R. Gould Not Available; Detained in Fredericton—A Correction in Justice to Mr. McLeod

"If it had not been for the \$2,000,000 additional assistance there would have been no investigation into the railway and if there had been no investigation the company would have got every cent of the \$2,000,000." This was F. B. Carvell's summary of the situation this morning in reply to an objection raised by Mr. Teed during the course of the inquiry into the Dugal charges regarding the Valley Railway. Mr. Teed contended that various amounts which had been transferred from the accounts showing the cost of the railway, in the construction company's books and charged against the railway company were beyond the scope of the commission. Mr. Carvell said that they would be taken into consideration when the \$2,000,000 was to be split up, but Mr. Teed asserted that the additional aid would be used only as the cost of the road showed the need.

Ross Thompson, managing director of the construction company, was on the stand all morning and his evidence was largely supplementary to testimony already given. The \$1,000 payment for stock of the Fredericton Gleaser cropped up again, but the witness said that although he authorized the payment, on Mr. Gould's instructions, he did not know why it was paid. An hour was spent tracing the stock issue of the railway company. Considerable stock was issued but not paid for, and this was afterwards cancelled by act of legislature. The witness said that he paid \$5,000 for his stock, but afterwards handed it over to Mr. Gould and received 2,000 shares of stock in the construction company. When the court adjourned Mr. Thompson had given evidence of the payment of about \$25,000. That was all so far shown as the cash capital of the two companies.

A. R. Gould was not on hand this morning, as had been promised, and word was received this afternoon that he had been detained in Fredericton by the government. In fairness to Hon. H. F. McLeod, Mr. F. B. Carvell said last evening that the headlines and introduction in last evening's Times conveyed a wrong impression as to the substance of his, Mr. Carvell's, statements, as he had no knowledge of Mr. McLeod having approached Judge Carleton for the purpose of influencing him in the appointment of third arbitrator. As a matter of fact it was another member of the government who did so.

When the court resumed Mr. Carvell asked if Mr. Gould was in the city. Mr. Guthrie said that he had been in Fredericton and would have been here yesterday but for the request of Acting Premier Clarke, who had asked him to stay over. He expected him at noon. Mr. Carvell asked if the books of the New York office had arrived. Mr. Guthrie said that Mr. Gould had wired Mr. Goodman to send the books and he had wired again this morning. Mr. Carvell—Do you wish the commission to believe that the president and the majority of the directors cannot get the books here? It is an insult to their intelligence. Not Mr. McLeod. At Mr. Guthrie's request Mr. Carvell mentioned Mr. McLeod's name. Mr. Carvell—Do you wish the commission to believe that the president and the majority of the directors cannot get the books here? It is an insult to their intelligence. Not Mr. McLeod.

At Mr. Guthrie's request Mr. Carvell mentioned Mr. McLeod's name. Mr. Carvell—Do you wish the commission to believe that the president and the majority of the directors cannot get the books here? It is an insult to their intelligence. Not Mr. McLeod. The witness suggested that if the amount of government aid received should also be reduced proportionately. Q—Do you know anything of \$800 New York? A—Yes, I believe that it has been paid in New York but I have not yet received a voucher for it or charged it up. Q—Do you expect that it will be charged up to construction? A—Yes, on account of legal advice he gave early in the promotion of the railway. Q—Is it not a fact that he was a stockholder, that his stock was cancelled by act of legislature and this \$800 was paid in recompense? A—I do not know. Q—But his stock was returned with the \$800 draft attached. A—Yes, I believe the payment of his bill for legal services was a condition of the return of the stock. In reply to Mr. Carvell the witness said that the construction company paid that it was done by the witness after conversation with Mr. Gould; that there were no instructions to that effect from the directors although it was understood by them that the construction company paid it as they paid all the bills of the railway company.

The witness did not know when the government was first approached with regard to the issue of the second series of bonds. Mr. Gould conducted the negotiations. He did not know that Mr. Lisman informed them that he could not handle the second mortgage bonds. He thought it was some time in the summer of 1913. Q—Do you know what Mr. Lisman had done up to December, 1911, toward placing these bonds? A—I do not know. Q—Do you know if he did anything? A—I cannot say. Q—Who is Mr. Lisman? A—Of Lisman & Co. bond brokers, New York. Q—He is a director of your company. A—Of the construction company only. (Continued on page 7, sixth column)

Will Grant The Application Of Hydro-Electric Co. His Worship Mayor Frink returned this morning from Fredericton where he attended a meeting of the provincial government last night. An application for a license to operate the New Brunswick Hydro-Electric Co. for permission to issue bonds to the extent of \$10,000,000, request, the government decided to give the license. The proper authority provided satisfactory assets were presented. It was explained that the company's objection was that the bonds which it proposed to issue would be on an equal basis and that issue would be made only if the company's assets were presented. Besides Mayor Frink there were present from the city, Hon. John E. Wilson, Philip Grassman, M. P. P. and L. P. D. Tilley, M. P. P. and they supported the application which was made in behalf of the company by P. W. Thomson.

POLICE COURT George Mealey was fined \$20 for assaulting William Wallace in West St. John this morning while on his way to work. Mealey said Wallace had been watching him and that he struck him in self defence. The complainant said Mealey said something this morning and immediately struck him in the jaw, knocking four teeth out of place. Sent to the police station for a preliminary examination. The \$2,000,000 Bonds Mr. Carvell—If it had not been for that issue there would have been no investigation and if it had not been for this investigation they would have got every cent of the \$2,000,000 bonds. Mr. Teed—Do you mean there would have been no diversion if it had not been for that issue? Mr. Carvell—Perhaps not; they might have had to put up some of their own money. Mr. Carvell then asked for the stock book but it was not to be found although Mr. Guthrie said it had been brought into court. Mr. Carvell—Who were the members of the legislature's investigating committee? A—Messrs Carter, Tilley, Black and I think Mr. Jones. Q—Was it Mr. Jones? A—I don't remember. Q—How many times did they visit your office? A—I don't remember; different members came at various times. I know they took a good deal of my time. Q—What are the payments to the

Preserving Time "Preserving time" is still hot tireless work, but not nearly so hard as it used to be. Many utensils have been invented to make it easier—many things to lessen the heat and lighten the labor. Many of these are standard trade-marked articles. Most of them are to be found in the better stores of the town. From day to day women will find welcome hints in the advertising of The Star and Times as to how to make "preserving time" easier. LA MARQUISE DE FONTENAY The Recent Great London Land Speculation - Some Royal Marriages

known as the Counts and Countesses von Ruppini. The Kaiser has selected this title for the maid of honor who is about to become his daughter-in-law. It is because it is a dignity which for the last 400 years has belonged to the Hohenzollern family, and was included among the titles of the head of the house for more than two centuries before its members assumed it into the Kings of Prussia.

At length the veil has been lifted from the mystery which has prevailed concerning the conditions of the astonishing sale, by the Duke of Bedford, of his wonderfully large Covent Garden property in London, six months ago.

The purchaser was Harry Mallaby-Deeley, Unionist member of parliament for Harrow, a relatively unknown man, and who certainly had never been looked upon before as the financier of such wealth as to be in a position to deal in millions of pounds sterling. For a time his name was everybody's lips, and surprise was generally expressed that one in a position to undertake transactions of such magnitude should have been able to live until that time in London without attracting any observation.

It now turns out that he did not pay a single cent for the property, but that he had no means of turning over to the Duke of Bedford even a substantial initial instalment of the purchase price. A daring speculator, he had taken advantage of the scare which had overtaken the Duke for the sale of his landed possessions, in view of Lloyd George's spoliation legislation, to make him an offer, which the Duke, apprehensive of the eventual confiscation of his estates, hastily accepted.

King Alfonso has just bestowed the title of Duchess de Talavera de la Reyna, upon Louise de Silva, one of the Infantas of Spain, in attendance on his mother, Queen Maria Christina. She is a daughter of the Count de Concha, master of ceremonies in charge of the foreign diplomatic corps at Madrid. The ducal coronet has been conferred upon the maid of honor, in connection with her impending morganatic marriage to the infant Prince of Asturias, who is to take place in the royal palace in Madrid, in the presence of the two queens and of the monarch, at the return of the court to the capital in the early fall.

Prince Ferdinand is a son of the Infanta Paz, elder sister of the Infanta Eulalie and of the late Alfonso XII, and aunt of the present king. She was born in the vicinity of Munich, where she is most happily married to Prince Louis Ferdinand of Bavaria. Their son, Prince Ferdinand, on his union to the present king's youngest sister, Marie Theresa, eight years ago, abandoned his Bavarian nationality, as well as his status as a Bavarian prince, in the line of succession to the throne of Bavaria, and, after being naturalized as a Spaniard, was created an Infant or prince of the reigning dynasty of Spain. His wife died in the fall of 1912, following child birth, leaving him with four little ones, two boys and two girls, all of them Infants and Infantas of Spain, and in the line of succession to the throne.

Since the death of their mother, his children have been almost wholly in the care of their grandmother, Queen Marie Christina, and in this way they were brought into contact with her maid of honor, Louise de Silva. It is the affection which the small people developed for the latter, and the devotion which she displayed to them, which has caused both Queen Marie Christina and Alfonso XIII to give not only their sanction, but also their warm approval, to the desire of Prince Ferdinand to make the maid of honor his wife, realizing that her children will be the children of the future Emperor of Spain. The children born of this union will be known as the Counts and Countesses von Ruppini.

Another title which has been bestowed under somewhat analogous circumstances, is that of Countess of Ruppini, which has just been conferred by the Kaiser upon Countess Marie von Basewitz, maid of honor of the Empress daughter of the prime minister of Mecklenburg-Schwerin. The honor is in connection with her morganatic marriage in the near future to Prince Oscar of Prussia, the fifth son of Emperor William. The children born of this union will be known as the Counts and Countesses von Ruppini.

Royal Spanish Wedding King Alfonso has just bestowed the title of Duchess de Talavera de la Reyna, upon Louise de Silva, one of the Infantas of Spain, in attendance on his mother, Queen Maria Christina. She is a daughter of the Count de Concha, master of ceremonies in charge of the foreign diplomatic corps at Madrid. The ducal coronet has been conferred upon the maid of honor, in connection with her impending morganatic marriage to the infant Prince of Asturias, who is to take place in the royal palace in Madrid, in the presence of the two queens and of the monarch, at the return of the court to the capital in the early fall.

**Health and Beauty Answers**  
(By Mrs. Mae Martyn.)  
Mattie: I cannot praise any one kind of soap; there are many good ones.  
Adela: You are quite right in being "finicky" about your hair; it is for just such particular people as you that I always recommend canthrox. Its use will cure dandruff and make your "straight" locks full of vitality and fullness--much more attractive than artificial curling. Make this shampoo at home by dissolving a teaspoonful of canthrox in a cup of hot water. It is the most pleasing and effective shampoo I have ever tried.  
Cinderella: This is the best neck bleach I know of. Dissolve 4 ounces of sprunax in half a pint of hot water, add two teaspoonfuls of glycerine, let stand until cold, then cork tightly. Then apply to the neck, face, hands and arms, rubbing lightly until dry. You will find a great change in the length of time this preparation stays on and it seems a part of the skin. It is a splendid liquid powder, easily prepared at home. This will not only give you a firm, healthy skin, but it is extremely beautifying, and entirely harmless.  
Anne M.: Your rebellion against the "fat-and-forty" idea meets with my hearty approval. I have often advised against the carelessness which allows so many women to lose the figure while yet young and it is so unnecessary. Just get 4 ounces of paraffin, dissolve it in 1 1/2 pints of hot water, strain it, and take a tablespoonful three times daily. It reduces weight slowly enough to permit a gradual tightening of the skin so there is no danger of sagging muscles and loose tissues. Exercise mildly and bathe often, but the treatment requires no vigorous diet.  
Alice M.: The eye-trouble you describe, like most eye troubles, is caused by neglect. Get an ounce of erysot at any drug store and dissolve it in a pint of water. Put two or three drops daily in each eye. You will be amazed to note how the tonic will brighten and beautify your eyes and add youthful cleanness. It will not smart, or burn, and will doubtless keep you all further weakness.  
Hattie L.: You are rather young to worry about losing your good looks, but you are wise, however, in taking every precaution against the loss of your complexion and the coming of premature wrinkles. Keep the skin firm and the complexion clear with nightly application, using this simple, inexpensive preparation. Mix together an ounce of alomozin, two teaspoonfuls glycerine and 1/2 pint of cold water. Stir and let stand for a few hours. This will give a healthy resistance to oily conditions of skin. Try this faithfully for awhile, and note how it encourages the natural contour with out undue flesh. Many have found in it a return to skin-health.  
T. Y. L.: Indeed, dandruff is an unsightly thing, besides preventing the growth and beauty of the hair. Most of the "dope" on the market is, as you say, helpless to cure the trouble. I am certain you can do wonders to beautify your hair and get relief from that itching scalp by the use of this tonic which you, yourself, can prepare. In 1/2 pint alcohol dissolve one ounce quinaoin. Add 1/2 pint water and rub well into the scalp. While at the drug store for quinaoin also get some canthrox for shampooing.  
Mrs. McD.: Your "dragged out" feeling is probably only due to lack of strength and all you need is a good tonic to brace you up. Here is an old-fashioned remedy which will not only make you feel better but make you look better. Dissolve half a cup of sugar and one full quart of the mixture. Take a spoon before each meal. This will ensure proper digestion, an active liver, free elimination and by cleaning out the blood will keep your skin and brighten your eyes.

Where Shall I Invest My Money?

This is a question that often bothers us when we have any surplus money. Some people are born rich and do not have to provide for independence, others are looking for investments that will bring them in good dividends.

SIR WILFRID'S VISIT

It is now announced that Sir Wilfrid Laurier will begin his tour of Canada in August by going direct to Charlottetown, and that he will come from the Island to New Brunswick, speaking in Moncton on August 28, and at Grand Falls on August 29.

Sir Wilfrid has not yet had an opportunity to see the National Transcontinental railway in New Brunswick, and he will go over that new railway from Moncton to Grand Falls in accordance with a promise to Mr. Carvell.

Already there is great interest throughout New Brunswick in the coming tour of the great Liberal leader, and it is realized that Sir Wilfrid's visit comes at a critical time in the history of the whole dominion, but particu-

larly of New Brunswick. It is anticipated that large parties of Liberals will come to Moncton or Grand Falls from every constituency in the province, and that those two great meetings will rank with the meetings held in this province before the great Liberal victory of 1896.

There is a feeling among New Brunswick Liberals that now is the time to prepare for another such sweep as that made in 1896, and it is felt that Sir Wilfrid's coming will properly pitch the vote for the great campaign that will go forward from that time.

HOW MR. WINSLOW OWES HER LIFE TO "FRUIT-A-TIVES"

EARNED \$3,000 Cured Both Stomach Trouble and Headaches

Witness Says He Charged At \$1,000 a Year DENIES PAYMENT TO PREMIER

Ross Thompson Tells of Legal Services For Which Large Bills Were Rendered—Railway Will Not Reach Grand Falls—May Connect With N. T. R. at Salmon River

J. N. W. Winslow and Ross Thompson were the witnesses at the afternoon session of the Dupuy inquiry yesterday. Mr. Winslow said he was retained as solicitor by A. R. Gould in 1911. He had all the right of way titles from Woodstock to Meductic and had received \$10 for each title and also \$1 each which he paid for the registry, \$800 in all.

Vouchers were produced showing payment to him of \$1,000, for services in connection with purchasing right of way and \$2,000 on a check and voucher made out in Mr. Gould's name, for special services. These payments, Mr. Winslow said, were for general services as solicitor, aiding in closing right of way negotiations, accompanying Mr. Gould on trips and advising him in other matters. His recital of services was not long but he said that he had charged Mr. Gould at the rate of \$1,000 a year.

The witness denied that any part of this money had reached the hands of Premier Fleming. He produced his bank book to show the withdrawals against these deposits, all of which were in comparatively small amounts except for one item of \$500; what he did with the \$500 he professed to be unable to remember.

Ross Thompson, examined by Mr. Carvell, said that the location surveys from Rothesay to Gagetown were completed with the exception of the location of bridges for crossing the rivers. He gave the distance between Centreville and Andover as about 100 miles. The route and 24 1/2 miles by the Antworth route. From Andover to Grand Falls no surveys have been made and no subsidies provided. The company has discussed a route from about four miles below Grand Falls to connect with the Transcontinental at Salmon River.

Witness said that the Glenora stock for which \$1,000 had been paid had been purchased by Mr. Gould and paid for by the coal company. He did not know in whose name the certificate was made, did not know where it is now or what it is worth.

Regarding the payments to Mr. Winslow, witness knew of no authority for paying him the \$2,000 except the Gould's instructions and that he knew of no record of service performed by Mr. Winslow except in connection with right of way titles.

Witness told of retaining various counsel some of whom retained others except Mr. Hartley of Woodstock and Mr. Baxter of St. John. Mr. Hartley was paid \$100 before he undertook a large number of cases. Mr. Baxter was paid \$500 after he had rendered his bill for the only cases performed by him. The payments Lewis and Smiley of Ottawa were for services in connection with the subsidy contracts, witness said, and the subsidy of Health & Andrews of Augustus, Me., in connection with the charter of the Eastern Canada Traction Company.

Mr. Carvell took up the payment of \$1,100 to Pasco, Cohen and Gordon, New York. Witness said that this was for services in connection with the preparation of the first and second mortgage bonds but revised his statement by saying that the account with the Goulds expenses. Mr. Carvell drew attention to the fact that large payments were made to St. John lawyers in connection with these matters and also that \$800 of the bill was incurred between the execution of the first mortgage bonds and the legislation authorizing the second. Witness said that this firm was doing some work in connection with legislation at Fredericton, but Mr. Carvell replied that the legislature was not in session then.

The commission adjourned to resume at ten o'clock this morning.

SOCIETY NOW TAKES TO EARLY MORNING OUTING PARTIES

(Times Special Correspondence) London, July 12.—"Call me early, mother dear," is to day the English society girl's bedtime request. It is not that May Queening has become popular again, but is a result of society's recent discovery that early morning in the country is "too thrillingly romantic." To possess the whole land is splendid. To be in the midst of silence and make one's own noise is delightful. So society has begun to take out its motor-cars and its launches, its electric canoes and motor-boats and go for early morning jaunts by land and water.

Night motoring is vastly popular, too. Likewise moonlight picnics on the classic Thames, though the number of the latter is likely to be considerably lessened by the tragic death of young Sir Denis Anson, who, while a member of one of these moonlight parties which also included Mr. and Mrs. Raymond Asquith Lady Diana Manners, the son of Count Benckendorff, the Russian ambassador, and other society celebrities, was drowned near Battersea Bridge in a hot-headed attempt to dive from the deck of the steamer.

There has, however, been no accident, at least thus far, to mar the gaiety of night motoring and, after a supper at a restaurant, nothing is easier than to make up a carload or two and go for a spin. Many parties load in a picnic basket and then, in the coolest hour of the morning just before dawn they stop by the roadside or on a bridge over the Thames and breakfast. Any morning between four and seven o'clock, the early worker trudging over Putney Bridge, may see a large car flying past laden with three people, swathed up to their necks in rugs and probably asleep.

A favorite river trip by night is that down to Greenwich where they make the world's time, such a trip, in fact, as is described in Compton Mackenzie's much-read novel "Carnival." Here supper can be taken conveniently on board.

with every additional luxury and comfort, and there is more sociability, for bigger parties can be gathered. For upriver midnight trips the height of the tide is the electric canoes which go silently that they do not even break the stillness, of the night by a throb or a splash.

DIFFERENCE OF OPINION ABOUT THE \$2,000,000 EXTRA AID

Continued from page 1. Q.—But the railway books are kept in his office in New York? A.—Yes.

Q.—Do you know a Mr. Melman? A.—Yes. He is a broker in Montreal whom we hoped to use in connection with the second mortgage bonds.

Q.—You paid something to him for expenses? A.—Not that I know of.

Q.—Evidence was given by John S. Scott of Scott & Kelly that one of his progress estimates was reduced about \$1,000 by you, do you know anything about it? A.—It was on a cutting which contained both rock cutting and other material. There was an increase in the rock classification which I did not understand. I called up the engineer in charge of that work and he could not explain it to me.

Q.—Regarding the purchase of Common farm, the witness said that it was cheaper to buy the whole farm than to settle for a part of it. They paid \$8800 for it and sold it to Mr. Peabody for \$22,000.

Q.—From the standpoint of an outsider the right of way account is the most unsatisfactory of all. I have not been able to follow it.

Q.—The witness said that he had seen that there were vouchers for every payment. He saw vouchers for every payment and no payment was made without his knowledge. He said that he did not know why the \$1,000 was paid for Gleason stock but knew that it was because Mr. Gould authorized him to do so.

Q.—The witness said that he had seen that the whole first cost of the Common farm would not be shown in the cost of the right-of-way. The witness said that the full amount was charged up.

Q.—Should not the total cost of right of way be credited with the amount received when you sold the farm again? A.—Com. Fisher—Here is the credit entry (showing the books).

Q.—Com. Fisher—But was it deducted from the statement of cost for the government? Witness—It is included with other work that has not been audited, but it is to be taken off.

Q.—The witness said that \$7,000 credited to the St. John and Quebec Bridge Company would be chargeable to District A. He explained that this company was organized by Mr. Gould, the minister of railways, who said that if the government was to aid in the construction of a new Metropole he wanted the work kept separate.

Q.—The amount charged to the bridge company was included, the witness said, in the statement of the cost of the road, amounting \$2,000,000 on March 31, subcommittee report.

Q.—You are a stock holder of the railway company? A.—No. I formerly was, but not since the spring of 1913.

Q.—Are you a stock holder in the construction company? A.—Yes.

Q.—Mr. Carvell—From its inception? A.—Yes.

Q.—When did you first get your stock? A.—September 26, 1910.

Q.—You were one of the original subscribers? A.—Yes.

Q.—What stock was issued on that date? A.—This certificate shows; fifty-one shares, Mr. Gould, James McNaught, A. McEwen and E. E. Ling; fifty-one shares each and A. H. Hanington, H. E. Powers, N. M. Jones, J. U. Thomas, J. W. Gould, H. T. Turley, one share each; J. D. Sealey, fifty-one shares.

Q.—All on the one day? A.—All except Mr. Sealey. Q.—That would be 261 shares?

Q.—Who was Mr. McEwen? A.—He lives in Sydney, N. S.; he is a stockholder.

Q.—Who is Mr. McNaught? A.—He belongs to Tarrytown, N. Y. Q.—He is not interested at one time in the second mortgage lands proposition?

Q.—Yes. Q.—J. W. Gould? A.—A brother of A. R. Gould. Q.—Did you pay any money for this stock? A.—No Money Paid.

Q.—No money was paid for any of the stock? A.—We were not paid for by the arrangement of a contract with the M. & N. S. Railway, made by Mr. Thomas? A.—That agreement never went through. At that time the railway was to be electric, but that plan was abandoned.

Q.—But was not that agreement the contraction? A.—Yes, 250 shares of it. Q.—Then, as a fact, no consideration passed for the transfer of that stock? A.—That is correct.

Q.—What happened to that stock? A.—It seems to be all here in the stock book again, except Mr. Hanington's.

Q.—How did they get there? A.—Mr. Gould's was returned in October. Q.—Was a new certificate issued to Mr. Gould on April 10, 1912 for fifty shares as No. 1 in the new book to replace the old certificate? A.—Yes.

Q.—How about your stock? A.—Mine was issued for fifty shares, on April 10, 1912.

DIED OF STARVATION? C. O. Lundgen, a Swede, 35 years old, died near Burton, Sunbury county this morning. He was found near the barn of R. D. Wilmont and died before assistance could be secured. It is thought he died of starvation.

THE NEW METROPOLIS To the Editor of the Times: Sir—May I through the medium of your valuable paper voice my surprise at the fact that the Salvation Army are not building a new Metropole to replace the old.

As most people were under the impression when they contributed to the fund that twenty thousand dollars were required for a new building, and twenty thousand dollars were actually raised, may I ask what is to become of the surplus after the Evangeline home has been adapted?

The public gave the money and they have a right to know if the facts were misrepresented. Yours truly, PRO BONO PUBLICO.

Major Taylor of the Salvation Army said the present plans for the new Metropole and Evangeline Home would result in a much better building than could be secured by the erection of a new one. "The new Metropole will be more valuable and larger than any new one we could erect," he said, "and in addition we will be able to continue the rescue work of the Evangeline Home on as large a scale as ever. The money raised in the recent campaign is in the hands of a local treasurer and citizens' committee, and not a cent of it can be spent without their sanction. I can definitely assure the public that their money will be expended entirely in the new Metropole. The present plan calls for a greater outlay on the part of the Army than that previously contemplated, and will, I think, prove more generally satisfactory."

GONE UP RIVER. Lieut. General Sir George Bullock, governor of Bermuda, was taken up river this morning for a pleasure cruise as the guest of Commodore Robert Thomson aboard his steam yacht.

stock certificate? A.—No; it is here. Q.—Was a new certificate issued to Mr. Gould? A.—It was issued to A. N. McLennan, on July 5, 1913.

Q.—The witness said Mr. Gould put up \$5,000. Mr. McLennan got certificate Number 3 and this was assigned to H. E. McDonnell who received a new certificate, Number 14, and later one of the new issue. It was transferred to C. Fred Chestnut.

Q.—McNaught's stock was transferred to F. J. Lisman & Co., returned by Lisman, and returned to H. M. Crandall the witness did not know of Mr. Crandall paying anything for it; Mr. Crandall paid \$5,000.

Q.—Of Mr. Ling's stock, 500 shares were transferred to J. J. Howard and four shares to A. H. F. Howard. One other share was transferred to W. Gould. None anything.

Q.—Apart from the stock in the new Metropole, did you not carry that stock anything to the others? A.—The company.

NEW MATTER COMES OUT IN POLICE INQUIRY

Some new evidence in connection with the police was brought out yesterday at the enquiry into the charges against the chief of police, being conducted by W. B. Chandler, K. C. Part of the evidence dealing with last week's riot was admitted under protest from D. Mullin, K. C., counsel for Chief Clerk. John Jackson told of breaks into his store in South Market Wharf and of receiving some goods back from the chief of police. Sgt. G. R. Baxter told of the Jackson matter. The witness said he had occasion to report Sergeant Campbell twice—once before he was elevated in the ranks and later when he became sergeant. On the first occasion he had left his beat and was found shovelling snow from the sidewalk in Horsfield street. The second time was in connection with the use of the telephone at central station. No Statute Orders. When asked by Recorder Baxter, the witness said he had received no special orders or instructions on last Thursday—the day of the riot. He did not hear of any orders being given in connection with the matter, while he was at the station on the morning or in the evening when the day men were dismissed. The witness was asked regarding the system employed in the evening department for calling out the men off duty on a case of emergency. He replied that there was no system and that he himself was often called out during the night but the message was left with a family across the street. He stated there was no chart marking out the beats, the fire alarm boxes or the telephones at which the "off duty" men could be secured. The new men, he said, just learned the beats from the man they happened to be with. Policeman Ward. Policeman Ward testified and admitted that he took something from the Jackson store and said that Sgt. Baxter helped him and Police Constables to eat it in the Water street lock-up. When Mr. Baxter asked the witness if any specific instructions had been given him last Thursday previous to the riot, Mr. Mullin again voiced his objection, stating the evidence as before. The commissioner said it was a rather big question but said he would allow the evidence subject to objection. Ward said that before the night men went out on Thursday the chief told them about the strike and instructed them to be cautious and wary. The witness was on duty in Market square. He said that the disturbance seemed to burst out suddenly and no arrangements or instructions had been given for calling assistance. He said that he caught hold of some in the mob, but they were wrecked from him and he was badly jostled in the crowd. He was not injured, however. He would not say what or if any assistance he had given from the central part of the city, but he saw some officers from the North End. The witness said he did not arrest any rioters that night because he could not, but that he did get one the next night. When asked by Mr. Mullin if the witness estimated the crowd at 10,000 or 12,000. During the time he was cross-examining the witness, Recorder Baxter took occasion to criticize him for referring to the chief as "he," "Remonster," said Mr. Baxter, "he is still your superior officer and should be referred to as 'chief.'" William Fyne told of the story of the Cronin matter. Policeman Sullivan again denied that he had committed an offence in the Cronin affair. Asked if he knew about the Hart case, he replied, "I have been ridiculed through the press for the last ten years and it crops up every year, and I want it settled here and now." This witness was also cross-examined on the riot matter. He said that before leaving the station on Thursday night, the chief instructed the men to be cautious on account of the strike and said that from what he heard it would be settled next day. Sullivan told of his part in the affair, related about rescuing the motorman and conductor from the wrecked cars and taking them to the lock-up for protection. There he said a brick was hurled through the window and the men had to be put in cells for safe keeping. Later he accompanied the strike-breakers part of the way to the car barns. He said that both he and Sergeant Scott were struck with rocks and sustained slight injuries at the hands of the mob. Sullivan could not say that any police assistance had been sent to Market square to quell the disturbance. George Martin, tailor, Dock street, and William Gaskin, of Vassie & Co., gave evidence. The latter told of selling a Perry that sported a threat, saying it was for Martin. He said he knew why Perry wanted it as he had heard about the Martin matter. In the hope of minimizing the number of deaths of cattle in farm fires William Bisset, of Aulmore, Netbybridge, Inverness-shire has patented a "binder" for cattle. A small steel rod attached to the "binder" is carried to the outside through the wall of the hay. Joined to it is a handle which can lie in a small recess. When the handle is pulled both binders in the stall to which two cattle are tied immediately unfasten and the stock are instantly set at liberty. Mr. Bisset contends that 100 head of cattle could be released in six minutes.

ENFORCE LAW AGAINST TRESPASSERS ON RAILWAY

At the coroner's inquest into the death of Michael Barry, who was killed by the I. C. R. suburban train Monday, which held its session for the taking of evidence in the court house last evening the jury brought in a verdict completely exonerating the I. C. R. authorities, and recommending the driver of the train and recommending that a more rigid enforcement of the law against trespassers walking on the tracks be enforced. The jury consisted of James Sprout (foreman), John Wade, Ernest Jack, M. E. Grass, George D. Martin, Charles M. Lingley and Richard H. Irvin. The jury viewed the body of the deceased yesterday afternoon and last evening after listening to the evidence of a number of witnesses brought in the following verdict: Your jury empaneled to inquire into the death of Michael Barry find that the deceased Michael Barry was killed by his death while walking on the Intercolonial railway near the McIntosh crossing so-called on Monday evening, the 27th, by being struck by the buffer beam of locomotive hauling suburban train which left city of St. John, Union depot, at 6.18 o'clock in the afternoon. We find that the engineer of the train exercised due caution in stopping his train in the least possible time. We recommend that the railroad authorities enforce the law in the future against trespassers on railway property more vigorously than heretofore. Evidence was given by L. R. Ross, who testified to the authorities being troubled with trespassers on the tracks; F. X. Mellday, who was driving near the spot when Barry was killed; Dr. Edward J. Ryan, of New York, who examined the man after the accident; Win. G. Roberts, I. C. R. constable; R. McCrossin, Win. H. Love, W. J. Pocklington, and Bernard Barry, a brother of the deceased; Murray A. Hoyt, locomotive engineer, who was driving the suburban train, gave evidence of warning the man off the tracks with the whistle of the engine on seeing him ahead after rounding a curve. When the man did not get off the rails, he then applied the emergency brakes. It was impossible to bring the train to a stop in such short space, but he brought it to a halt just as soon as possible. Other witnesses testified as to the excellent control Hoyt had over his engine and the promptness with which he stopped the train.

She can end that Corn

End it in two days. Blue-jay would stop the pain the moment she applied it. Then it would gently loosen the corn. In 48 hours, the whole corn would lift out, without any pain or soreness.

Blue-jay, each month, ends a million corns in that way. No had corn can resist it. Since this invention it is utterly needless to suffer from a corn.

Yet thousands of people still pare corns, or use some old-time treatment. They simply coddle corns, and every little while they become unendurable.

Try this scientific way. See how Blue-jay stops the pain. See how it undermines the corn. And see, in two days, how that corn forever disappears.

After that, so long as you live, you will never see corns bother you.

ENGLAND'S UNSUCCESSFUL SEARCH FOR ATHLETIC TALENT FOR OLYMPICS

(Times' Special Correspondence.)

London, July 15.—One is to judge by the performances put up by British athletes at the Amateur Athletic Championships held at Stamford Bridge, England, has been singularly unfortunate in his search for Olympic material and the efforts of Knox, a Canadian trainer, and his score of assistants have largely been in vain. It was not so much that the times and distances were inferior to times and distances in the American A. A. meet of last year, but rather that with two exceptions, no English athlete gave any evidence that he would be able to show to advantage at Berlin in the fast company that is sure to be gathered there.

The two exceptions are W. R. Applegarth, who won the 100 and 200, and G. W. Hutson, who also scored a double win in the one and the four mile. Applegarth is undoubtedly one of the greatest sprinters, if not the greatest, of the day. He is better at 200 than at the shorter distance. In the former event, as you have probably heard, he equalled the world's record of 15.1 seconds held jointly by Vetter, Craig and Lippincott, but as the American accomplished their time on a straight course and Applegarth did his around two bends of a curved track, his is undoubtedly the best performance. The only thing that marred it is that time-keepers were not quite sure of the time. In fact, it was first announced as 15.2, equaling the British record, but after a further conference they changed their minds and decided that the world's record had been equalled. Of course this is not a very satisfactory way of keeping time, but it will probably be passed and the record will stand. It is impossible to doubt that Applegarth is capable of it and no one on this side would be surprised to see him beat it in the near future.

Hutson, although he did not equal any records in the two events he won, is without doubt a splendid and dangerous runner. He is still a mere boy, and as English athletes develop late he is almost certain to improve for the next three or four years at least. He should, as a matter of fact, be just about at his prime at Berlin, with the careful handling he is now receiving.

Among the other English performers, the jumping of H. H. Baker stands out. He clears six feet two inches, which is good enough to give even an Olympic gathering a struggle, and might, in an off year, even win the event. However, it was not quite good enough to win against Oler, of the New York Athletic Club, who got over a half inch more after five unsuccessful tries.

TWO CHANCES FOR HYDRO-ELECTRIC PLANT FOR EDMONTON

Edmonton, Alta., July 29.—Six million dollars is the estimated cost of a hydro-electric plant to be installed in the Saskatchewan river, 30 miles west of Edmonton, by Jackson & Company, headed by Sir John Jackson of Glasgow, if the city of Edmonton will enter into a contract with a syndicate of Montreal and London capitalists to purchase power at a lower rate than it is now manufactured by the city. The present cost is 1.8 cents per k. w. h. The plan contemplates the development of 40,000 horse power.

Representatives of Sanderson and Porter of New York, submitted an offer to the municipality two weeks ago to install a plant, costing \$8,000,000, to supply electrical power to the city on a sliding scale, ranging from one cent to half cent per k. w. h., according to the quantity used. Under this plan the minimum guarantee is \$5,000,000 k. w. h. a year. The council will deal with these propositions within the next two or three weeks.

THE ALBERTA GRAIN CROP. Edmonton, Alta., July 29.—Reports from 189 districts, compiled by the statistical department of the Edmonton Industrial Association, show that the grain crop throughout Alberta will be fully 10 per cent larger than in 1913, while in central and northern Alberta there will be increases of from 18 to 25 per cent over last year. One and a half millions of acres of land is under actual crop this year, as compared with 1,127,000 acres in 1913.

The largest increases in acreage are in the northern half of the province, which together with advanced condition of the grain, is the best indication under prevailing weather conditions, farmers say, that this season's crop will set a new mark. Ranchers in the northern districts report large increases in live stock, saying that many cattle are being brought into the country by homesteaders from the south.

It is well to remember that a fresh look in the head may sometimes be broken up immediately if treated early by stuffing warm salt water up the nose from the palm of the hand. A teaspoonful of salt to the pint is about the right proportion.

World's Title Race Aug. 4. It has been definitely decided that the race for the world's championship between Barry of England and Paddon of Australia for stakes of \$5,000 will be rowed over the Thames course from Putney to Mortlake on Monday, August 24, at 8 o'clock in the afternoon.

Paddon is rowing from the West End Amateur Rowing Association boathouse and is reported to be coming along well in his training, while Barry was engaged in coaching Dibble, the Canadian, for the Henley regatta, and is already very speedy and strong. Both Barry and Paddon have posted their second deposit for the race, which leaves little remaining to make the coming contest a certainty.

POLITICIANS IN SHORT SKIRTS

Young Daughters of Premier Asquith and Bonar Law

(Times Special Correspondence.) London, July 29.—It is a curious fact that the rivalry of Bonar Law and Mr. Asquith, the leaders of England's two great political parties, should be repeated in a small way in society circles by the young daughters of the politicians. Both Miss Isabel Bonar Law, the only daughter of the Unionist leader, and Miss Elizabeth Asquith, the younger daughter of the premier, are among this season's debutants and have been presented at court.

The rivalry of two young girls in similar positions in other countries would be a small matter, but both Miss Law and Miss Asquith take their missions in life seriously. In this country it is no uncommon thing to find even girls as young as these taking a keen interest in politics. Miss Asquith has already made her appearance on the public platform, delivering a scathing attack upon the Ulster policy of the Unionist party, but Miss Law has yet to obtain her father's consent. Indeed, up to the present time, honors seem to be with the premier's daughter all along the line, for her husband, absorbed in his experiments, becomes negligent, finally sullen and abusive. Nina returns to the stage and
